Subject: Planning ref S62A/2025/0077

Dear Sirs,

Land West of High Street, Stebbing

We strongly object to this planning application.

This application is not aligned with the Stebbing Neighbourhood Plan. The location of the proposed development indicates the access points onto the High St are on a blind bend which is already exceptionally busy particularly during school opening and closing times. The project will make this section of the High St even more unsafe and dangerous for motorists and pedestrians alike. There are already sufficient new build developments occurring in the village and this application which involves building on green common land is unnecessary and should be rejected.

Mr & Mrs M Porter
