Once again my husband and I, are voicing our objections to the planning application for the land west of Stebbing High street.

We have lived here for over 45 years and brought our sons up here. The village is unrecognizable now compared to what it was then. So many of the green spaces have gone,.to be replaced by houses or housing developments.

I would like to know why anyone thinks we need another housing development?. There isn't the infrastructure for it here.. Stebbing is a small village, not a town!

Trying to drive through the high street now at school drop off or pick up time is quite hazardous, It's an accident waiting to happen. Goodness knows what it would be like with a housing estate opposite the school!

Please listen to the residents, and don't do this to our lovely village.

With regards from Bob and Eileen Bambridge
