Subject: S62A/2025/0077 Land West of High Street, Stebbing

To the planning officer

How sad that having recently been turned down they have tried again through a different means.

It's like children going from one parent to the other to get what they want.

However, here we are again.

- This is an Elizabethan village with historic properties and history slowly being eroded away by greedy developers.

- we already have several new builds which remain unsold.

- We spent hours developing a village plan which appears to be completely ignored.

- my main concern is the increasing traffic through Stebbing. These houses will only increase this on what is a very dangerous bend.

- I ask that the integrity, history and village be respected.

Please respect the views of our planning committee and uphold their decision - **TURN IT DOWN**

Thank you Mrs A Turner
