

Application No. 562A/2025/0077

Dear Sir,

14th March 2025

Yet again I am writing to oppose the planning application to the West of the High Street. It is ridiculous to say that the residents of Stebbin are in favour of the plan when over a hundred contacted the planning office to oppose it. Also a large number (who were not away at work) gathered near the school to emphasise how dangerous it would be for Montare's entrance to the site to be right opposite the Primary School.

The Mound and the 17001 are Stebbing's
Special Place and can be viewed as we
walk along the Downs, In March covered
in Daffodils and in May - bluebells. That
View would be lost to us all forever and
to all of our families and guests, No. No.

There are also [REDACTED] in the fields
and they regularly ~~visit~~ visit my garden.
There have been large estates built in
Stebbing over the years and a large one is
being built at the other end now.
Lyn Mooman
