

Buying an I-VMS device

Step-by-step guide

More information

[gov.uk/mmo/i-vms-england](https://www.gov.uk/mmo/i-vms-england)

Step 1

Choose your preferred device

Look online or contact the suppliers to decide which device and purchase option is most suitable for your needs.

- Fulcrum (NEMO): 01708 788 400
- Succorfish (SC2): 01914 476 883

Step 2

Purchase device from supplier

Order and pay for your preferred option directly with the supplier, who will then send your device to you.

Step 3

Install device

Suppliers will provide details of approved engineers to arrange installation of your device.

Step 4

Understand the operational requirements

This includes checking your device, its power supply and data transmissions before taking a trip to sea.

Do not attempt to install, fix or remove the device yourself.
