Subject: Application number: 25/10551/pins

Ref:262a/2025/0079

I wish to object to this application as a neighbor as I believe this will seriously affect [REDACTED] [REDACTED] to which this building will be attached.

There are serious safety issues regarding the cladding and fire safety of the present building at this address.

This new building would seriously compromise attendance of emergency services in the event of fire and the evacuation of residents in the current Orchard House building.

There is at this time limited parking on site and this will exasperate the problem and will likely result in residents parking causing further access problems.

The new building will also severely affect the views and light entering the current flats at Orchard House Please reject this application
