<b>Authorized Amendment</b>
Summary / Overview of the amendment to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.
<b>The Regulated Community is reminded to check this amendment against any applicable AAMC, Waivers or Exemptions to ensure their ongoing validity.</b>
The reference to 'TIES' has been changed to 'TIES activity' throughout the RA. Responsibility for production and maintenance of the DAP has been placed on the JAC ODH for delegation, and access to the document has been signposted. TIES activity should be conducted iaw the DAP, so the ability to deviate from it on JAC Trg SO1 authority has been removed. Any deviation should be addressed by amendment or an AWE. Clarity has been added that the DAP has primacy and ADH / AMMF orders should not be more permissive.
