**Subject:** The Bull Inn

The area of Crews Hole is beautiful and attracts visitors in the summer months but for residents year round it lacks any amenities. I am concerned at the loss of a long established community space like The Bull Inn in favour of additional housing. Of course housing is important for the city but this space would better serve residents and visitors by offering a pub / cafe that could serve food and provide a much needed community gathering space for the local community.

Very best,  
Ellie Eversett
