You don't often get email from [REDACTED] [Learn why this is important](#)

Further to our previous objection to the building of houses in the proposed location, my family and I would like to stress how sad the loss of this wonderful piece of countryside would be and the whole nature of our lovely village would be destroyed.

To put our tiny village under further stress from traffic would be outrageous and the position of any adjoining junction would be waiting for disaster, especially with the school so close. At the present time there are often hold ups, with parked cars leading to bottlenecks and making crossing the High St a dangerous manoeuvre, especially with young children. Adding to the mayhem would make living on the main street intolerable.

I regularly walk with my [REDACTED] grandson around this area we call 'Our Adventure Walk' as we never know what wonderful wildlife or plants we will come across. We often meet with neighbours walking their dogs or taking a healthy wellness stroll. The whole area should be left for the joy of the village. Covering it with concrete will destroy vital habitats and push nature into even smaller corridors of greenery.

We are strongly against this appeal and proposal.

The Cox Family
