ARTICLE 11.1

General exceptions

Article XX of the GATT 1994 and its interpretive notes are incorporated into and made part of this Agreement, *mutatis mutandis.*

ARTICLE 11.2

Security exceptions

Nothing in this Agreement shall be construed as:

(a) requiring a Party to provide any information the disclosure of which it considers contrary to its essential security interests;

(b) preventing a Party from taking any action, which it considers necessary for the protection of its essential security interests, including action:

  (i) relating to fissionable and fusionable materials or the materials from which they are derived;

ARTICLE 11.3

Restrictions in case of balance of payments and external financing difficulties

1. Where a Party experiences serious balance-of-payments, capital movements, or external financing difficulties that cause or threaten to cause serious

macroeconomic difficulties related to monetary and exchange rate policies, it may adopt or maintain restrictive measures with regard to capital movements, payments or transfers.

2. The measures referred to in paragraph 1 shall:

   (a) be consistent with the Articles of the Agreement of the International Monetary Fund (IMF), as applicable;

4. A Party maintaining or having adopted measures referred to in paragraphs 1 and 2 shall notify the other Party in writing, along with the rationale for their imposition, within 45 days of their adoption or maintenance.

5. If restrictions are adopted or maintained under this Article, the Parties shall promptly hold consultations at the Joint Committee, unless consultations are held in other fora. The consultations shall assess the balance-of payments or external financial difficulty that led to the measures, taking into account, *inter alia*, factors such as:

   (a) the nature and extent of the difficulties;

   (b) the external economic and trading environment; and

   (c) alternative corrective measures which may be available.

6. The consultations pursuant to paragraph 5 shall address the compliance of any restrictive measures with paragraphs 1 and 2. The Parties shall accept all findings of statistical nature and other facts presented by the IMF relating to foreign exchange, monetary reserves, balance-of-payments. The Parties' conclusions on compliance shall be based on the assessment by the IMF of the

balance-of-payments and the external financial situation of the Party concerned.

ARTICLE 11.4

Taxation measures

1. For the purposes of this Article:

   (a) "tax convention" means a convention for the avoidance of double taxation, or any other international taxation agreement or arrangement;

4. In the case of a tax convention between the Parties, if an issue arises as to whether any inconsistency exists between this Agreement and the tax convention, the issue shall be referred by the Parties to the competent authorities under, or in respect of, that tax convention.

5. Notwithstanding paragraph 3:

   (a) Article 2.3, and such other measures as are necessary to give effect to that Article, apply to taxation measures to the same extent as does Article III of the GATT 1994 including its interpretative notes; and

   (b) Article 2.8 applies to taxation measures.

CHAPTER 12

DISPUTE SETTLEMENT

ARTICLE 12.1

Scope

This Chapter applies to any dispute concerning the application and interpretation of the provisions of this Agreement, unless otherwise provided for in this Agreement.

ARTICLE 12.2

Definition

For the purposes of this Chapter:

"Rules of Procedure" mean the rules of procedure adopted by the Joint Committee under paragraph 3 of Article 12.6.

ARTICLE 12.3

Referral to the Joint Committee

1. A Party may submit to the Joint Committee any dispute relating to the application or interpretation of the provisions referred to in Article 12.1 by delivering written notification to the other Party.

2. The Joint Committee may settle the dispute by decision.

3. Each Party shall take the measures necessary to comply with such decision.

ARTICLE 12.4

Request for the establishment of an arbitration panel

1. Where the dispute cannot be settled within 60 days of the date of the submission of the dispute to the Joint Committee, the complaining Party may refer the matter to arbitration by requesting the establishment of an arbitration panel in accordance with paragraph 2.

2. The request for the establishment of an arbitration panel shall be made in writing to the Party complained against and the Joint Committee. The complaining Party shall identify in its request the specific measure at issue, and it shall explain how such measure constitutes a breach of the provisions referred to in Article 12.1.

ARTICLE 12.5

Composition of the arbitration panel

1. The arbitration panel shall be composed of three arbitrators.

2. Each Party shall appoint one arbitrator within 30 days of the date of receipt of the request for the establishment of the arbitration panel. If a Party fails to appoint an arbitrator within that period, the other Party may request the Chair of the Joint Committee, or the Chair's delegate, to draw by lot the second arbitrator from a sub-list established under Article 12.6, which shall be the sub-list of the Party whose arbitrator has not yet been appointed.

3. The two arbitrators so designated shall appoint by agreement a chairperson who shall not be a national of either Party. If they cannot agree within two months after the date on which the second arbitrator has been appointed, either Party may request the Chair of the Joint Committee, or the Chair's delegate, to draw by lot the chairperson from the sub-list of chairpersons established under Article 12.6.

ARTICLE 12.6

List of arbitrators

The Joint Committee shall, at its first meeting after the entry into force of this Agreement, establish a list of at least 15 individuals, chosen on the basis of knowledge of international trade law, objectivity, reliability and sound judgment, who are willing and able to serve as arbitrators. The list shall be composed of three sub-lists: one sub-list for each Party and one sub-list of individuals who are not nationals of either Party to act as chairpersons. Each sub-list shall include at least five individuals. The Joint Committee may review the list at any time and shall ensure that the list conforms with this Article.

ARTICLE 12.7

Arbitration award

1. The arbitration panel shall issue an award to the Parties within 120 days of the date of establishment of the arbitration panel. The arbitration award shall contain:

   (a) findings of fact;

   (b) the determination of the panel as to whether:

      (i) the measure at issue is inconsistent with obligations under this Agreement; or

      (ii) a Party has otherwise failed to carry out its obligations under this Agreement;

   (c) any other determination requested in the terms of reference; and

   (d) the reasons for the finding and determinations.

2. The arbitration award shall be binding on the Parties.

3. The Joint Committee shall adopt the Rules of Procedure at its first meeting. Arbitration panels shall apply these Rules of Procedure, including any subsequent amendments to them made by the Joint Committee, in disputes under this Chapter. The Parties may agree, for the purposes of a dispute under this Chapter, that different rules of procedure shall apply, and the arbitration panel for that dispute shall apply such rules if they are so agreed.

ARTICLE 12.8

Compliance with arbitration award

1. If the arbitration panel finds that the measure of the Party complained against is inconsistent with its obligations under this Agreement, or that it has failed to carry out its obligations under this Agreement, the Party complained against shall take any measure necessary to promptly comply in good faith with the arbitration award. If immediate compliance is not possible, the Parties shall endeavour to agree on a reasonable period of time for compliance. If the Parties are unable to agree on a reasonable period of time within 45 days of the date of the issuance of the arbitration award, the complaining Party may request the original arbitration panel to determine the length of the reasonable period of time for compliance. The arbitration panel shall notify its determination to the Parties no later than 30 days after the date of the request.

2. The reasonable period of time determined by the arbitration panel shall not exceed 12 months from the date of issuance of the arbitration award to the Parties. The length of the reasonable period of time may be extended by mutual agreement of the Parties.

3. The Party complained against shall inform the complaining Party in writing on its progress to comply with the arbitration award at least one month before the expiry of the reasonable period of time.

ARTICLE 12.9

Compliance review

1. The Party complained against shall, no later than the date of expiry of the reasonable period of time, notify the complaining Party of any measures taken to comply with the arbitration award.

2. Where there is disagreement between the Parties on the existence of measures taken to comply with the arbitration award, or their consistency with the provisions of this Agreement, the complaining Party may request in writing, no later than 20 days after the notification made in accordance with paragraph 1, the original arbitration panel to examine the matter. The arbitration panel shall notify its decision to the Parties no later than 60 days after the date of referral of the matter.

ARTICLE 12.10

Compensation and suspension of concessions or other obligations

1. If the Party complained against fails to notify the complaining Party of any measure taken to comply with the arbitration award, or notifies the complaining Party that it is impracticable to comply with the arbitration award within the reasonable period of time, or the original panel finds, in accordance with paragraph 2 of Article 12.9, that the measures taken to comply with the arbitration award as notified by the Party complained against are inconsistent with the provisions of this Agreement, that Party shall, if so requested by the complaining Party, enter into consultations with a view to agreeing on mutually satisfactory compensation or any alternative arrangement.

2. If no mutually satisfactory compensation or alternative arrangement has been agreed within 20 days from the receipt of the request for consultation, the complaining Party may notify the other Party of the level of intended suspension of concessions or other obligations, which shall be equivalent to the level of nullification or impairment that is caused by the failure of the Party complained against to comply with the arbitration award.

3. In considering what concessions or other obligations to suspend, the complaining Party shall apply the following principles and procedures:

   (a) the general principle is that the complaining Party should first seek to suspend concessions or other obligations in the same sector(s) as that in which the arbitration panel has found an inconsistency with this Agreement;

   (b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations in the same sector(s), it may seek to suspend concessions or other obligations in other sectors that are subject to dispute settlement under this Chapter. The complaining Party shall indicate the reasons for its decision to suspend concessions or other obligations in a different sector.

4. The complaining Party shall have the right to implement the suspension of concessions or other obligations 10 days after the date on which it provides notification in accordance with paragraph 2, unless the Party complained against has requested the original arbitration panel to examine the matter pursuant to paragraph 5.

5. If the Party complained against considers that the intended level of suspension of concessions or other obligations is not equivalent to the nullification or impairment or that the complaining Party has failed to follow the principles and procedures set out in paragraph 3, it may request, no later than 10 days after the date of receipt of the notification referred to in paragraph 2 for the original arbitration panel to examine the matter. The arbitration panel shall notify its decision to the Parties no later than 60 days after the date of the request. Concessions or other obligations shall not be suspended until the panel has notified its decision.

6. Any compensation or suspension of concessions or other obligations shall be temporary and shall only apply until the arbitration award has been complied with, or until the Parties have agreed on a mutually acceptable solution.

ARTICLE 12.11

Compliance review after the adoption of temporary remedies

1. Upon notification by the Party complained against to the complaining Party of the measures taken to comply with the arbitration award and if the complaining Party confirms that the measures taken achieve compliance, the complaining Party shall terminate the suspension of concessions or other obligations or the application of compensation or any alternative arrangement, no later than 10 days after the complaining Party confirms that it agrees that the arbitration award has been complied with.

2. If the Parties do not reach an agreement on whether the measures are consistent with the provisions of this Agreement within 30 days of the date of notification in accordance with paragraph 1, the responding Party shall request in writing the original arbitration panel to examine the matter.

3. The arbitration panel shall notify its decision to the Parties no later than 60 days after the date of the request.

4. If the arbitration panel decides that the measures notified in accordance with paragraph 1 are consistent with the provisions of this Agreement, the suspension of concessions or other obligations or the application of compensation or any alternative arrangement, shall be terminated no later than 10 days after the date of the decision. If the arbitration panel decides that the measures notified in accordance with paragraph 1 are inconsistent with the provisions of this Agreement, the suspension of concessions or other obligations, or the application of the compensation or any alternative arrangement, may continue. Where relevant, the level of suspension of concessions or other obligations or of the compensation or any alternative arrangement shall be adapted in light of the decision of the arbitration panel.

(*) Turkey shall accord tariff preferences to agricultural goods originating in the United Kingdom which are at least as favourable in every respect as the tariff preferences accorded to goods originating in the United Kingdom on the 31 October 2020. For the avoidance of doubt, “agricultural goods” has the meaning given in Article 2.7. Without prejudice to Turkey’s other obligations under this Agreement, and in particular without derogating from the tariff commitments provided for in Article 2.7 and in this schedule (other than this footnote), in the event that Turkey applies a higher rate of duty to agricultural goods of the EU of any particular tariff classification, this note shall not prevent Turkey from applying that higher rate to the agricultural goods originating in the United Kingdom within the same particular tariff classification.

Abbreviations: NP: no preference, AC: agricultural component

Note to the Arrangements Applicable to Importation into Turkey of Agricultural Goods Originating in the United Kingdom

The Appendix below contains provisions with respect to Turkey's agricultural components (referred to as AC in this schedule).

APPENDIX

AGRICULTURAL COMPONENTS OF TURKEY

1. Subject as follows, the Parties incorporate into this Agreement, so as to apply to their bilateral relations under this Agreement, Section V of and Annexes 1 through 5 to Decision No 1/95 of the EC-Turkey Association Council of 22 December 1995 on implementing the final phase of the Customs Union (the "CU Decision"), as those provisions of the CU Decision stood and with the same meaning as those provisions of the CU Decision had when the CU Decision ceased to apply in relation to the United Kingdom, *mutatis mutandis*. For the purposes of this Appendix, "Section V" of the CU Decision means Articles 17, 19, 20.1, 20.2 and 20.4 of the CU Decision, with the exception of the words ", reduced in accordance with Article 22 where applicable," in Article 20.2 of the CU Decision.

2. This Appendix shall not modify or institute any rules as to the customs duties or other sums of any description that either Party may charge in relation to any goods, or prescribe the manner of their calculation, except in relation to imports into Turkey of originating goods of the United Kingdom marked "0%+AC" in Annex 2-B-1.

3. For the purposes of this Appendix, the modifications by way of *mutatis mutandis* application between the Parties of the incorporated provisions of the CU Decision shall include the following:

   (a) in Article 20.1 of the CU Decision, the reference to "Article 4" shall be understood as a reference to Article 2.7 of this Agreement;

   (b) the references to the "Community" in Section V of the CU Decision shall be understood as references to the United Kingdom;

   (c) Annexes 1 through 5 to the CU Decision are incorporated only to the extent that they may be given effect by Section V of the CU Decision as incorporated into this Agreement, and as modified, pursuant to this Appendix;

   (d) the reference in Annex 3 to the CU Decision to Article 4 of Regulation (EC) No 1294/94 shall be understood as having no operative effect.

4. The practice of the EU and of Turkey in applying the CU Decision before the CU Decision ceased to apply in relation to the United Kingdom shall have the same relevance (if any) to the interpretation of the incorporated provisions of the CU Decision for the purposes of this Appendix as it may have had to the interpretation of those provisions as provisions of the CU Decision when the CU Decision ceased to apply in relation to the United Kingdom, subject to the other provisions of this Appendix set out above.

Notes to Arrangements Applicable to the Importation into the United Kingdom of Agricultural Goods Originating in Turkey

Note 1: The scope of products in this list being determined by CN codes as they are implemented in UK legislation.
Note 2: The in-quota tariff rate, TRQ volumes and other relevant information for each TRQ are set out in Annex 2-B-2a.
Note 3: The *ad-valorem* component of the customs duty on originating goods in relation to which the preferential tariff treatment is labelled “Entry Price” shall be eliminated on the entry into force of this Agreement; the specific duty resulting from the entry price system applicable to these goods shall be maintained. The specific duty shall only be applied to originating goods if the entry price system is also applied to the United Kingdom's applied MFN tariff.
Note 4: This rate may be reduced by an amount equal to that of the special tax on exports to the United Kingdom imposed by Turkey (not exceeding 9.7 GBP per tonne) if the product is wholly obtained in Turkey and is transported directly from that country to the United Kingdom.
Note 5: Goods with the preferential tariff treatment “X” shall be excluded from tariff liberalisation; these goods may however be covered by a TRQ.
Note 6: The United Kingdom retains the right to apply the agriculture component (referred to as AC in this schedule) on originating goods. The agriculture component shall only be applied to originating goods if it is also applied as part of the United Kingdom's applied MFN tariff.

(a) "'chapters"', "'headings"' and "'subheadings"' mean the chapters, the headings and the subheadings (four- or six-digit codes) used in the nomenclature which makes up the Harmonized Commodity Description and Coding System ("Harmonized System") with the changes pursuant to the Recommendation of 26 June 2004 of the Customs Cooperation Council;

(b) "classified" means the classification of a good under a particular heading or subheading of the Harmonized System;

(d) "ex-works price" means the price paid for the product ex works to the manufacturer in the Party in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs related to its production, minus any internal taxes which are, or may be, repaid when the product obtained is exported. Where the last working or processing has been subcontracted to a manufacturer, the term "manufacturer" refers to the enterprise that has employed the subcontractor. Where the actual price paid does not reflect all costs related to the manufacturing of the product which are actually incurred in the United Kingdom or Turkey, the ex-works price means the sum of all those costs, minus any internal taxes which are, or may be, repaid when the product obtained is exported;

(e) “fungible material” or “fungible product” means material or product that is of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another;

(f) “good” means both material and product;

(g) “manufacture” means any kind of working or processing, including assembly;

(h) “material” means any ingredient, raw material, component or part, etc., used in the manufacture of the product;

(i) “maximum content of non-originating materials” means the maximum content of non-originating materials which is permitted in order to consider a manufacture to be working or processing sufficient to confer originating status on the product. It may be expressed as a percentage of the ex-works price of the product or as a percentage of the net weight of these materials used falling under a specified group of chapters, chapter, heading or subheading;

(j) “product” means the product being manufactured, even if it is intended for later use in another manufacturing operation;

(k) “value added” shall be taken to be the ex-works price of the product minus the customs value of each of the materials incorporated which originate in the other countries referred to in Articles 3 and 4 with which cumulation is applicable or, where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the exporting Party;

(l) “value of materials” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the exporting Party. Without prejudice to Article 2(1), products shall be considered as originating in the United Kingdom, if they are obtained there, incorporating materials originating in Switzerland (including Liechtenstein)[1], Iceland, Norway, Turkey or the European Union (the "EU"), or in any country listed in Annex 4, provided that the working or processing carried out in the United Kingdom goes beyond the operations referred to in Article 8. It shall not be necessary for such materials to have undergone sufficient working or processing.

2. Without prejudice to Article 2(1), and with the exclusion of products falling within Chapters 50 to 63, working or processing carried out in Iceland, Norway or the EU, shall be considered as having been carried out in the UK when the products obtained undergo subsequent working or processing in the UK that goes beyond the operations referred to in Article 8.

3. For cumulation provided for in paragraph 1, where the working or processing carried out in the United Kingdom does not go beyond the operations referred to in Article 8, the product obtained shall be considered as originating in the United Kingdom only where the value added there is greater than the value of the materials used that are originating in any of the other countries referred to in paragraph 1. If this is not so, the product obtained shall be considered as

[1] Due to the customs union between Liechtenstein and Switzerland, products originating in Liechtenstein are considered as originating in Switzerland.

originating in the country which accounts for the highest value of originating materials used in the manufacture in the United Kingdom.

4. Products originating in the countries referred to in paragraph 1, which do not undergo any working or processing in the United Kingdom retain their origin if exported into one of these countries.

   (c) notices indicating the fulfilment of the necessary requirements to apply cumulation have been published by the Parties.

7. The United Kingdom shall provide Turkey with details of the agreements or arrangements including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries referred to in paragraph 1.

8. Turkey may opt to extend the application of paragraph 2 on importation of products falling within Chapters 50 to 63 unilaterally. If so, Turkey shall notify the Joint Committee of that decision, as well as any modifications thereof

ARTICLE 4

1. Without prejudice to Article 2(2), products shall be considered as originating in Turkey, if they are obtained there, incorporating materials originating in the United Kingdom, Switzerland (including Liechtenstein), Iceland, Norway or the EU, or in any country listed in Annex 4, provided that the working or processing carried out in Turkey goes beyond the operations referred to in Article 8. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in Turkey.

4. Products originating in the countries referred to in paragraph 1, which do not undergo any working or processing in Turkey, retain their origin if exported into one of these countries.

5. The cumulation provided for in this Article in respect of the EU may be applied provided that:

7. Turkey shall provide the United Kingdom with details of the agreements or arrangements including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries referred to in paragraph 1.

8. The United Kingdom may opt to extend the application of paragraph 2 on importation of products falling within Chapters 50 to 63 unilaterally. If so, the United Kingdom shall notify the Joint Committee of that decision, as well as any modifications thereof.

ARTICLE 5

Wholly obtained products

1. The following shall be considered as wholly obtained in a Party:

(a) mineral products and natural water extracted from its soil or from its seabed;

(b) plants, including aquatic plants, and vegetable products grown or harvested there;

(c) live animals born and raised there;

(d) products from live animals raised there;

(e) products from slaughtered animals born and raised there;

(f) products obtained by hunting or fishing conducted there;

(j) used articles collected there fit only for the recovery of raw materials;

(k) waste and scrap resulting from manufacturing operations conducted there;

(l) products extracted from the seabed or below the seabed situated outside its territorial sea but where it has exclusive exploitation rights;

(m) goods produced there exclusively from the products specified in subparagraphs (a) to (l).

2. The terms 'its vessels' and 'its factory ships' in subparagraphs (h) and (i) of paragraph 1 respectively shall apply only to vessels and factory ships which meet each of the following requirements:

(a) they are registered in the United Kingdom or Turkey;

(b) they sail under the flag of the United Kingdom or Turkey;

(c) they meet one of the following conditions:

(i) they are at least 50 per cent owned by nationals of the United Kingdom or Turkey; or

(ii) (aa) they are owned by companies which have their head office and their main place of business in the United Kingdom or Turkey; and

(bb) are at least 50 per cent owned by the United Kingdom or Turkey or public entities or nationals of these Parties.

ARTICLE 6

Sufficient working or processing

1. Without prejudice to paragraph 3 and to Article 8, products which are not wholly obtained in a Party shall be considered to be sufficiently worked or processed when the conditions laid down in the list in Annex 2 for the goods concerned are fulfilled.

2. If a product which has obtained originating status in a Party in accordance with paragraph 1 is used as a material in the manufacture of another product, no account shall be taken of the non-originating materials which may have been used in its manufacture.

3. The determination of whether the requirements of paragraph 1 are met shall be carried out for each product. However, where the relevant rule is based on compliance with a maximum content of non-originating materials, the customs authorities of the Parties may authorise exporters to calculate the ex-works price of the products and the value of the non-originating materials on an average basis as set out in paragraph 4, in order to take into account the fluctuations in costs and currency rates.

4. Where the second sentence of paragraph 3 applies, an average ex-works price of the product and average value of non-originating materials used shall be calculated respectively on the basis of the sum of the ex-works prices charged for all sales of the products carried out during the preceding fiscal year and the sum of the value of all the non-originating materials used in the manufacture of the products over the preceding fiscal year as defined by the exporting Party, or, where figures for a complete fiscal year are not available, a shorter period which should not be less than three months.

5. Exporters having opted for calculation on an average basis shall consistently apply such a method during the year following the fiscal year of reference, or, where appropriate, during the year following the shorter period used as a reference. They may cease to apply such a method where during a given fiscal year, or a shorter representative period of no less than three months, they record that the fluctuations in costs or currency rates which justified the use of such a method have ceased.

6. The averages referred to in paragraph 4 shall be used as the ex-works price and the value of non-originating materials, respectively, for the purpose of establishing compliance with the maximum content of non-originating materials.

ARTICLE 7

Tolerance rule

1. By way of derogation from Article 6 and subject to paragraphs 2 and 3, non-originating materials which, according to the conditions set out in the list in Annex 2, are not to be used in the manufacture of a given product may nevertheless be used, provided that their total net weight or value assessed for the product does not exceed:

(a) 15 % of the net weight of the product falling within Chapters 2 and 4 to 24, other than processed fishery products of Chapter 16;

(b) 15 % of the ex-works price of the product for products other than those covered by subparagraph (a).

2. Paragraph 1 shall not apply to products falling within Chapters 50 to 63, for which the tolerances mentioned in Notes 6 and 7 of Annex 1 shall apply.

3. Paragraph 1 of this Article shall not allow any of the percentages for the maximum content of non-originating materials as specified in the rules laid down in the list in Annex 2 to be exceeded.

4. Paragraphs 1 and 3 of this Article shall not apply to products wholly obtained in a Party within the meaning of Article 5. However, without prejudice to Articles 8 and 9(1), the tolerance provided for in those provisions shall nevertheless apply to any product for which the rule laid down in the list in Annex 2 requires that the materials which are used in the manufacture of that product are wholly obtained.

ARTICLE 8

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered to be insufficient working or processing to confer the status of an originating product, whether or not the requirements in Article 6 are satisfied:

(a) preserving operations to ensure that the products remain in good condition during transport and storage;

(b) breaking-up and assembly of packages;

(c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

(d) ironing or pressing of textiles;

(e) simple painting and polishing operations;

(f) husking and partial or total milling of rice; polishing, and glazing of cereals and rice;

(g) operations to colour or flavour sugar or form sugar lumps; partial or total milling of crystal sugar;

(h) peeling, stoning and shelling, of fruits, nuts and vegetables;

(i) sharpening, simple grinding or simple cutting;

(j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);

(l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

(m) simple mixing of products, whether or not of different kinds;

(n) mixing of sugar with any material;

(o) simple addition of water or dilution or dehydration or denaturation of products;

(p) simple assembly[2] of parts of articles to constitute a complete article or disassembly of products into parts;

(q) slaughter of animals;

(r) a combination of two or more operations specified in subparagraphs (a) to (q).

2. All the operations carried out in the exporting Party on a given product shall be taken into account when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

ARTICLE 9

Unit of qualification

1. The unit of qualification for the application of this Protocol shall be the particular product which is considered to be the basic unit when determining classification using the nomenclature of the Harmonized System. It follows that:

[2] Explanatory notes including a definition of "simple assembly" will be established by the Parties.

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading, each individual item shall be taken into account when applying this Protocol.

2. Where under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

3. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the ex-works price thereof shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

ARTICLE 10

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all the component products are originating. When a set is composed of originating and non-originating products, the set as a whole shall also be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

ARTICLE 11

Neutral elements

In order to determine whether a product is an originating product, no account shall be taken of the origin of the following which might be used in its manufacture:

(a) energy and fuel;

(b) plant and equipment;

(c) machines and tools; or

(d) any other goods which do not enter, and which are not intended to enter, into the final composition of the product.

ARTICLE 12

Accounting segregation

1. If originating and non-originating fungible materials are used in the working or processing of a product, economic operators may ensure the management of materials using the accounting segregation method, without keeping the materials on separate stocks.

2. Economic operators may ensure the management of originating and non-originating fungible products of heading 1701 using the accounting segregation method, without keeping the products on separate stocks.

3. Parties may require that the application of accounting segregation be subject to prior authorisation by the customs authorities. The customs authorities may grant the authorisation subject to any conditions they deem appropriate and shall monitor the use made of the authorisation. The customs authorities may withdraw the authorisation whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol. Through the use of accounting segregation, it must be ensured that, at any time, no more products can be considered as "originating in the exporting Party" than would have been the case if a method of physical segregation of the stocks had been used. The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the exporting Party.

4. The beneficiary of the method referred to in paragraphs 1 and 2 shall make out or apply for proofs of origin for the quantity of products which may be considered as originating in the exporting Party. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

TITLE III

TERRITORIAL REQUIREMENTS

ARTICLE 13

Principle of territoriality

1. The conditions set out in Title II shall be fulfilled without any interruption in the Party concerned.

2. If originating products exported from the United Kingdom or Turkey to another country are returned, they shall be considered to be non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

   (a) the products returned are the same as those which were exported; and

   (b) they have not undergone any operations beyond those necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the exporting Party on materials exported from that Party and subsequently re-imported there, provided:

   (a) those materials are wholly obtained in the exporting Party or have undergone working or processing beyond the operations referred to in Article 8 prior to being exported; and

   (b) it can be demonstrated to the satisfaction of the customs authorities that:

      (i) the re-imported products have been obtained by working or processing the exported materials; and

      (ii) the total added value acquired outside the exporting Party by applying this Article does not exceed 10 % of the ex-works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3, the conditions for obtaining originating status set out in Title II shall not apply to working or processing done outside the exporting Party. However, where, in the list in Annex 2, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the exporting Party, taken together with the total added value acquired outside that Party by applying the provisions of this Article, shall not exceed the stated percentage.

5. For the purposes of applying paragraphs 3 and 4, “total added value” shall be taken to mean all costs arising outside the exporting Party, including the value of the materials incorporated there.

6. Paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex 2 or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 7 is applied.

7. Any working or processing of the kind covered by this Article and done outside the exporting Party shall be done under the outward processing arrangements, or similar arrangements.

ARTICLE 14

Non-alteration

1. The preferential treatment provided for under this Agreement shall apply only to products satisfying the requirements of this Protocol and declared for importation in the United Kingdom or Turkey, provided that those products are the same as those exported from the exporting Party. They shall not have been altered, transformed in any way or subjected to operations other than to preserve them in good condition or to add or affix marks, labels, seals or any documentation to ensure compliance with specific domestic requirements of the importing Party carried out under customs supervision in the country or countries of transit or splitting prior to being declared for home use.

2. Storage of products or consignments may take place provided they remain under customs supervision in the third country or countries of transit.

3. Without prejudice to Title V of this Protocol, the splitting of consignments may take place, provided they remain under customs supervision in the third country or countries of splitting.

4. In the case of doubt, the importing Party may request the importer or its representative to submit at any time all appropriate documents to provide evidence of compliance with this Article, which may be given by any documentary evidence, and notably by:

   (a) contractual transport documents such as bills of lading;

   (b) factual or concrete evidence based on marking or numbering of packages;

   (c) a certificate of non-manipulation provided by the customs authorities of the country or countries of transit or splitting or any other documents demonstrating that the goods remained under customs supervision in the country or countries of transit or splitting; or

   (d) any evidence related to the goods themselves.

ARTICLE 15

Exhibitions

1. Originating products, sent for exhibition in a country other than with which cumulation is applicable in accordance with Articles 3 and 4, and sold after the exhibition for importation in a Party, shall benefit on importation from this Agreement, provided it is shown to the satisfaction of the customs authorities that:

   (a) an exporter has consigned these products from the United Kingdom or Turkey to the country in which the exhibition is held and has exhibited them there;

   (b) the products have been sold or otherwise disposed of by that exporter to a person in the United Kingdom or Turkey;

   (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and

   (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin shall be issued or made out in accordance with Title V of this Protocol and submitted to the customs authorities of the importing Party in the normal manner. The name and address of the exhibition shall be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

DRAWBACK OR EXEMPTION

ARTICLE 16

Drawback of or exemption from customs duties

1. Non-originating materials used in the manufacture of products falling within Chapters 50 to 63 originating in a Party for which a proof of origin is issued or made out in accordance with Title V of this Protocol shall not be subject in the exporting Party to drawback of or exemption from customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in the exporting Party to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

4. The prohibition in paragraph 1 shall not apply to trade between the Parties for products that obtained originating status by application of cumulation of origin covered by Article 3(1), 3(2) or 4(1).

TITLE V

ORIGIN PROCEDURES

ARTICLE 17

Definitions

1. For the purposes of this Title:

   (a) "exporter" means a person, located in a Party, who, in accordance with the requirements laid down in the laws and regulations of that Party, exports or produces an originating good and makes out an origin declaration;

   (b) "identical goods" mean goods that are the same in all respects, including physical characteristics, quality and reputation, irrespective of minor differences in appearance that are not relevant to a determination of origin of those goods under this Protocol;

   (c) "importer" means a person who imports an originating good and claims preferential tariff treatment for it; and

   (d) "origin declaration" means a declaration made by an exporter in accordance with Article 19 for the purpose of enabling the identification of an originating good.

2. Unless otherwise provided for in this Title, words and phrases defined in this Protocol shall have the same meaning when used in this Title.

ARTICLE 18

Claims for preferential treatment

1. Each Party shall provide that originating goods that meet the requirements of this Protocol shall benefit from preferential treatment under this Agreement on the basis of a claim for preferential treatment made by the importer based on an origin declaration which meets the requirements of Article 19.

2. The importing Party may deny that claim for preferential treatment if any importer, exporter or party fails to comply with any requirement of this Protocol.

ARTICLE 19

Origin declaration

1. An origin declaration shall:

   (a) take the form of a written self-declaration of origin which may be in the form set out in Annex 3 made by the exporter which clearly states that the goods imported meet the conditions required for preferential treatment under the terms of this Agreement; and

   (b) be provided on, or attached to, an invoice or any other commercial document that describes the goods concerned in sufficient detail to enable them to be identified.

2. Each Party shall permit an origin declaration to be sent electronically and directly from the exporter in one Party to an importer in the other Party. Such an approach will allow the use of electronic signatures or identification codes.

ARTICLE 20

Validity of the origin declaration

1. Each Party shall provide that an origin declaration shall be valid for 12 months from the date it was completed, or for such longer period of time as provided by the importing Party. The preferential treatment may be claimed, within this validity period, from the customs authority of the importing Party.

2. Each Party shall provide that an origin declaration may apply to:

   (a) a single shipment of originating goods into the territory of a Party; or

   (b) multiple shipments of identical originating goods within any period specified in the origin declaration not exceeding 12 months.

3. The importing Party may accept an origin declaration submitted to its customs authority after the validity period for the purpose of preferential treatment in accordance with that Party's laws and regulations.

4. If unassembled or disassembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XV to XXI of the Harmonized System are imported by instalments, a single origin declaration for such products may be used on request of the importer and in accordance with the requirements laid down by the customs authority of the importing Party.

ARTICLE 21

Exemptions from origin declaration requirements

1. Each Party may, in conformity with its laws and regulations, waive the requirement to present an origin declaration for low value importations of originating goods from the other Party.

2. Each Party may exclude any importation from the provisions of paragraph 1 when the importation is part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the requirements of this Protocol related to origin declarations.

3. Each Party may set value limits for products referred to in paragraph 1, and shall exchange information with the other Party regarding those limits.

ARTICLE 22

Delayed claims for preferential treatment

Each Party shall, in conformity with its laws and regulations, provide that, if a good would have qualified as originating when it was imported into the territory of that Party but the importer did not have an origin declaration at the time of importation, the importer of the good may, within a period of time of no less than two years after the date of importation, apply for a refund of duties paid as a result of the good not having been accorded preferential tariff treatment.

ARTICLE 23

Incorrect claims for preferential treatment

1. Each Party shall provide that:

   (a) an exporter that has completed an origin declaration and becomes aware or has reason to believe that it contains incorrect information shall be obliged to immediately notify the importer in writing of any change affecting the originating status of each good to which the origin declaration applies; and

   (b) an importer that becomes aware or has reason to believe that an origin declaration for a good which it has imported and to which preferential treatment has been granted contains incorrect information shall immediately notify the customs authority of the importing Party in

writing of any change affecting the originating status of that good and pay any duties owing.

2. Each Party shall encourage its customs authority, when considering imposing a penalty in relation to an origin declaration, to consider as a significant mitigating factor a voluntary notification given in accordance with paragraph 1, provided in the case of a notification given by an importer, the importer corrects the error and repays any duties owing.

ARTICLE 24

Discrepancies

1. Each Party shall provide that the discovery of slight discrepancies between the statements made in an origin declaration and those made in the documents submitted to its customs authority for the purpose of carrying out the formalities for importing the goods shall not of themselves render the origin declaration null and void if it is established that those documents corresponds to the goods submitted.

2. Each Party shall provide that obvious formal errors such as typing errors on an origin declaration shall not cause the origin declaration to be rejected if these errors do not create doubts concerning the correctness of the statements made in the origin declaration.

3. Each Party shall provide that if its customs authority determines that an origin declaration in respect of a good imported into its territory is illegible or defective on its face, the importer shall be granted a period of not less than 30 days to provide the customs authority of the importing Party with a copy of the corrected origin declaration.

4. The customs authority of the importing Party shall not reject a claim for preferential tariff treatment for the sole reason that the invoice or other commercial document was issued in a third country.

ARTICLE 25

Penalties

Each Party shall adopt or maintain measures imposing criminal, civil, or administrative penalties for violations of its laws and regulations relating to the provisions of this Protocol.

ARTICLE 26

Record keeping requirements

1. The exporting Party shall require an exporter that has completed an origin declaration to keep for three years after the completion of the origin declaration, or for such longer period of time as the exporting Party may specify, and to provide to that Party upon request:

   (a) a copy of the origin declaration; and

   (b) all supporting documents and written statements from producers or suppliers which evidence the claim in the origin declaration that the good is originating.

2. Each Party shall provide that, if an exporter has based an origin declaration on a written statement from a producer or supplier, that producer or supplier shall be required to maintain records in accordance with paragraph 1.

3. The importing Party may require that an importer that has been granted preferential treatment shall keep documentation relating to the importation of the good, including a copy of the origin declaration, for three years after the date of import, or for a longer period of time as that Party may specify.

4. Each Party shall permit, in accordance with that Party's laws and regulations, importers, exporters, producers and suppliers in its territory to maintain documentation or records in any medium, provided that the documentation or records can be retrieved and printed.

5. A Party may deny preferential treatment to a good that is the subject of a verification of origin when the importer, exporter, producer or supplier of the good that is required to maintain records or documentation under this Article:

   (a) fails to maintain records or documentation in accordance with this Protocol; or

   (b) denies access to those records or that documentation.

ARTICLE 27

Verification of origin

Administering a verification of origin regime

1. For the purpose of ensuring the proper application of this Protocol, the Parties shall assist each other, through their customs authorities, in verifying whether goods are originating for the purposes of this Protocol, and ensuring the accuracy of claims for preferential treatment for the purposes of this Protocol.

2. A Party's request for a verification of origin concerning whether a good is originating or whether all other requirements of this Protocol are fulfilled shall be:

   (a) based on risk assessment methods applied by the customs authority of the importing Party, which may include random selection; or

   (b) made when the importing Party has reasonable doubts about whether the good is originating or whether all other requirements of this Protocol have been fulfilled.

Requesting a verification of origin

3. The customs authority of the importing Party may verify whether a good is originating by requesting, in writing, that the customs authority of the exporting Party conduct a verification concerning whether a good is originating.

4. When requesting a verification of origin, the customs authority of the importing Party shall provide the customs authority of the exporting Party with:

   (a) the identity of the customs authority issuing the request;

   (b) the name of the exporter, producer or supplier to be verified;

   (c) the subject and scope of the verification; and

   (d) a copy of the origin declaration and, where applicable, any supporting documentation.

5. When appropriate, the customs authority of the importing Party may request specific documentation and information from the customs authority of the exporting Party as part of a verification of origin.

6. A request to conduct a verification of origin made by the customs authority of the importing Party shall be provided to the customs authority of the exporting Party by certified or registered mail or any other method that produces a confirmation of receipt by that customs authority.

7. The customs authority of the exporting Party shall provide the customs authority of the importing Party with a written acknowledgement of receipt (which for the avoidance of doubt may be sent by email) of this request within a period of 45 days from the date of receipt of the written request, or any other time period agreed upon by the Parties.

Conducting a verification of origin

8. Following a request outlined in paragraph 6, the customs authority of the exporting Party shall proceed to the origin verification. For this purpose, the customs authority may, in accordance with its laws and regulations:

   (a) request documentation;

   (b) call for any evidence; and

   (c) visit the premises of an exporter, a producer or supplier to review the records referred to in Article 26(1) and (2) and observe the facilities used in the production of the good.

9. Each Party shall provide that, if an exporter has based an origin declaration on a written statement from a producer or supplier, the exporter may arrange for that producer or supplier to provide documentation or information directly to the customs authority of the exporting Party upon request.

Release of goods subject to a verification of origin

10. Pending the results of a verification of origin conducted pursuant to paragraph 11, the importing Party shall allow the release of the good, subject to payment of duties or provision of a guarantee in the form of a surety, a deposit or some other appropriate instrument as provided for in its laws and regulations. If, as a result of the verification, the importing Party determines that the good is an originating good, it shall grant preferential treatment to the good and refund any excess duties paid or release any guarantee provided, unless the guarantee also covers other obligations which have not been discharged.

Completing a verification of origin

11. As soon as possible and in any event within 10 months after receiving the written request for a verification of origin, the customs authority of the exporting Party shall complete a verification, and shall:

(a) provide to the customs authority of the importing Party, by certified or registered mail or any other method that produces a confirmation of receipt by that customs authority, a written report in order for it to determine whether the good is originating or not, which contains:

(i) the results of the verification;

(ii) the description of the good subject to verification and the tariff classification relevant to the application of the rules of origin;

(iii) a description and explanation of the good sufficient to support the rationale concerning the originating status of the good;

(iv) information on the manner in which the verification was conducted; and

(v) where appropriate, supporting documentation, and

(b) subject to its laws and regulations, notify the exporter of the outcome of the verification of origin.

12. The period of time within which a verification of origin shall be completed may be extended by mutual consent of the customs authorities concerned.

Result of a verification of origin

13. If a verification of origin finds that the importer, exporter, producer or supplier has failed to comply with any requirement of this Protocol , the importing Party may deny preferential treatment to the good.

14. If the result of a verification of origin has not been provided in accordance with this Protocol, the customs authority of the importing Party may deny preferential treatment to a good if it has reasonable doubt that, or when it is unable to determine whether, the good is originating.

Review and appeal

15. Each Party shall grant substantially the same rights of review and appeal of determinations of origin issued by its customs authority as it provides to importers in its territory, to any person who has received a determination on origin in the application of this Article.

Disputing the result of a verification of origin

16. Each Party shall provide that, if there are differences between the Parties in relation to the verification procedures set out in this Article or in the interpretation of the rules of origin in determining whether a good qualifies as

originating, and these differences cannot be resolved through consultations between the customs authority requesting the verification and the customs authority responsible for performing the verification, and if the customs authority of the importing Party intends to make a determination of origin that is inconsistent with the written report provided by the customs authority of the exporting Party, the customs authority of the importing Party shall notify the customs authority of the exporting Party within 60 days of receiving the written report.

17. At the request of either Party, the Parties shall hold and conclude consultations within 90 days from the date of the notification referred to in paragraph 16 to resolve those differences. The period for concluding consultations may be extended on a case by case basis by mutual written consent between the Parties. The customs authority of the importing Party may make its determination of origin after the conclusion of these consultations.

18. In all cases, the settlement of differences between the importer and the customs authority of the importing Party shall be under the law of the importing Party.

ARTICLE 28

Notifications and cooperation

1. The Parties shall cooperate in the uniform administration and interpretation of this Protocol and, through their customs authorities, assist each other in verifying the originating status of the products on which an origin declaration is based.

2. For the purpose of facilitating the verifications or assistance referred to in paragraph 1, the customs authorities of the Parties shall provide each other with addresses of the responsible customs authorities.

3. The Parties agree that the customs authority of the exporting Party assumes all expenses in carrying out verifications of origin.

4. The Parties agree that their customs authorities will discuss the overall operation and administration of the verification process, including forecasting of workload and discussing priorities. If there is an unusual increase in the number of requests, the customs authorities of the Parties will consult to establish priorities and consider steps to manage the workload, taking into consideration operational requirements.

ARTICLE 29

Confidentiality

1. This Protocol does not require a Party to furnish or allow access to information, the disclosure of which would impede law enforcement or would be contrary to that Party's law protecting business information.

2. Each Party shall maintain, in conformity with its law, the confidentiality of the information collected pursuant to this Protocol and shall protect that information from disclosure that could prejudice the competitive position of the person providing the information. If the Party receiving or obtaining the information is required by its law to disclose the information, that Party shall notify the person or Party who provided that information.

3. Each Party shall ensure that the confidential information collected pursuant to this Protocol shall not be used for purposes other than the administration and enforcement of determination of origin and of customs matters, except with the permission of the person or Party who provided the confidential information.

4. Notwithstanding paragraph 3, a Party may allow information collected pursuant to this Protocol to be used in any administrative, judicial, or quasi-judicial proceedings instituted in its territory for failure to comply with customs related laws and regulations implementing this Protocol. A Party shall notify the person or Party who provided the information in advance of such use.

5. The Parties shall exchange information on their respective law for the purpose of facilitating the operation and application of paragraph 2.

ARTICLE 34

Amendment to this Protocol and its Annexes

The Joint Committee may amend this Protocol and its Annexes.

ANNEX 1

Introductory Notes to the List in Annex 2

Note 1 - General introduction

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of this Protocol. There are four different types of rule, which vary according to the product:

(a) through working or processing a maximum content of non-originating materials is not exceeded;

(b) through working or processing the 4-digit Harmonized System heading or 6-digit Harmonized System sub-heading of the manufactured products becomes different from the 4-digit Harmonized System heading or 6-digit sub-heading respectively of the materials used;

(c) a specific working and processing operation is carried out;

(d) working or processing is carried out on certain wholly obtained materials.

Note 2 - The structure of the list

2.1 The first two columns in the list describe the product obtained. Column (1) gives the heading number or chapter number used in the Harmonized System and column (2) gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column (3). Where, in some cases, the entry in column (1) is preceded by an "ex", this signifies that the rules in column (3) apply only to the part of that heading as described in column (2).

2.2 Where several heading numbers are grouped together in column (1) or a chapter number is given and the description of products in column (2) is therefore given in general terms, the adjacent rules in column (3) apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column (1).

2.3 Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column (3).

2.4 Where two alternative rules are set out in column (3), separated by *"or"*, it is at the choice of the exporter which one to use.

Note 3 - Examples of how to apply the rules

3.1 Article 6 of this Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a Party.

3.2 Pursuant to Article 8 of this Protocol, the working or processing carried out must go beyond the list of operations mentioned in that Article. If it does not, the goods shall not qualify for the granting of the benefit of preferential tariff treatment, even if the conditions set out in the list below are met.

Subject to Article 8 of this Protocol, the rules in the list represent the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not. If a rule provides that non-originating material, at a certain level of manufacture, may not be used, the use of materials at an earlier stage of manufacture is allowed, and the use of materials at a later stage is not.

Example: when the list-rule for Chapter 19 requires that “non-originating materials of headings 1101 to 1108 cannot exceed 20% weight”, the use (i.e. importation) of cereals of Chapter 10 (materials at an earlier stage of manufacture) is not limited.

3.3 Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression "Manufacture from materials of any heading, including other materials of heading ..." or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column (2) of the list.

3.4 When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

3.5 Where a rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials which, because of their inherent nature, cannot satisfy this.

3.6 Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4 - General provisions concerning certain agricultural goods

4.1 Agricultural goods falling within Chapters 6, 7, 8, 9, 10, 12 and heading 2401 which are grown or harvested in the territory of a Party shall be treated as originating in the territory of that Party, even if grown from imported seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants.

4.2 In cases where the content of non-originating sugar in a given product is subject to limitations, the weight of sugars of headings 1701 (sucrose) and 1702 (e.g., fructose, glucose, lactose, maltose, isoglucose or invert sugar) used in the manufacture of the final product and used in the manufacture of the non-originating products incorporated in the final product is taken into account for the calculation of such limitations.

Note 5 - Terminology used in respect of certain textile products

5.1 The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.

5.2 The term "natural fibres" includes horsehair of heading 0511, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.

5.3 The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

5.4 The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

5.5 Printing (when combined with Weaving, Knitting/ Crocheting, Tufting or Flocking) is defined as a technique by which an objectively assessed function, like colour, design, technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques.

5.6 Printing (as standalone operation) is defined as a technique by which an objectively assessed function, like colour, design, technical performance, is

given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques combined with at least two preparatory/finishing operations (such as scouring, bleaching, mercerizing, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatising, impregnating, mending and burling), provided that the value of all the materials used does not exceed 50% of the ex-works price of the product.

Note 6 - Tolerances applicable to products made of a mixture of textile materials

6.1 Where, for a given product in the list, reference is made to this Note, the conditions set out in column (3) shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 15% or less of the total weight of all the basic textile materials used. (See also Notes 6.3 and 6.4).

6.2 However, the tolerance mentioned in Note 6.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

(a) silk;

(b) wool;

(c) coarse animal hair;

(d) fine animal hair;

(e) horsehair;

(f) cotton;

(g) paper-making materials and paper;

(h) flax;

(i) true hemp;

(j) jute and other textile bast fibres;

(k) sisal and other textile fibres of the genus Agave;

(l) coconut, abaca, ramie and other vegetable textile fibres;

(m) synthetic man-made filament fibres of polypropylene;

(n) synthetic man-made filament fibres of polyester;

(o) synthetic man-made filament fibres of polyamide;

(p) synthetic man-made filament fibres of polyacrylonitrile;

(q) synthetic man-made filament fibres of polyimide;

(r) synthetic man-made filament fibres of polytetrafluoroethylene;

(s) synthetic man-made filament fibres of poly(phenylene sulphide);

(t) synthetic man-made filament fibres of poly(vinyl chloride);

(u) other synthetic man-made filament fibres;

(v) artificial man-made filament fibres of viscose;

(w) other artificial man-made filament fibres;

(x) current-conducting filaments;

(y) synthetic man-made staple fibres of polypropylene;

(z) synthetic man-made staple fibres of polyester;

(aa) synthetic man-made staple fibres of polyamide;

(bb) synthetic man-made staple fibres of polyacrylonitrile;

(cc) synthetic man-made staple fibres of polyimide;

(dd) synthetic man-made staple fibres of polytetrafluoroethylene;

(ee) synthetic man-made staple fibres of poly(phenylene sulphide);

(ff) synthetic man-made staple fibres of poly(vinyl chloride);

(gg) other synthetic man-made staple fibres;

(hh) artificial man-made staple fibres of viscose;

(ii) other artificial man-made staple fibres;

(jj) yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped;

(kk) products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film;

(ll) other products of heading 5605;

(mm) glass fibres ;

(nn) metal fibres;

(oo) mineral fibres.

6.3 In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20% in respect of this yarn.

6.4 In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30 % in respect of this strip.

Note 7 - Other tolerances applicable to certain textile products

7.1 Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 15% of the ex-works price of the product.

7.2 Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

7.3 Where a percentage rule applies, the value of non-originating materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 8 - Definition of specific processes and simple operations carried out in respect of certain products of Chapter 27

8.1 For the purposes of headings ex 2707 and 2713, the "specific processes" are the following:

8.2 For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

(a) vacuum-distillation;

(b) redistillation by a very thorough fractionation process;

(c) cracking;

chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(n) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;

Note 9 - Definition of specific processes and simple operations carried out in respect of certain products of chapters

9.1 Products falling within Chapter 30 obtained in a Party by using cell cultures, shall be considered as originating in that Party. "Cell culture" is defined as the cultivation of human, animal and plant cells under controlled conditions (such as defined temperatures, growth medium, gas mixture, pH) outside a living organism.

9.2 Products falling within Chapters 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for: 3302.10, 3301) 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26): obtained in a Party by fermentation shall be considered as originating in that Party. "Fermentation" is a biotechnological process in which human, animal, plant cells, bacteria, yeasts, fungi or enzymes are used to produce products falling within Chapters 29 to 39.

9.3 Following transformations are considered sufficient according to Article 4 for products falling within Chapters 28, 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for: 3302.10, 3301) 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26):

(a) **Chemical reaction**: A “chemical reaction” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. A chemical reaction may be expressed by a change of the "CAS number".

The following processes should not be considered for purposes of origin:

(i) dissolving in water or other solvents;

(ii) the elimination of solvents including solvent water; or

(iii) the addition or elimination of water of crystallization.

A chemical reaction as defined above is to be considered as origin conferring.

(b) **Mixtures and Blends**: The deliberate and proportionally controlled mixing or blending (including dispersing) of materials, other than the addition of diluents, to conform to predetermined specifications which results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials is to be considered to be as origin conferring.

(c) **Purification**: Purification is to be considered as origin conferring provided that purification occurs in the territory of one or both of the Parties results in one of the following criteria being satisfied:

(i) purification of a good resulting in the elimination of at least 80 per cent of the content of existing impurities; or

(ii) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:

(aa) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;

(bb) chemical products and reagents for analytical, diagnostic or laboratory uses;

(cc) elements and components for use in micro-electronics;

(dd) specialised optical uses;

(ee) biotechnical use (e.g., in cell culturing, in genetic technology, or as a catalyst);

(ff) carriers used in a separation process; or

(gg) nuclear grade uses.

(a) **Change in particle size**: The deliberate and controlled modification in particle size of a good, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which is relevant to the purposes of the resulting good and having different physical or chemical characteristics from the input materials, is to be considered as origin conferring.

(b) **Standard materials**: Standard materials (including standard solutions) are preparations suitable for analytical, calibrating or referencing uses having precise degrees of purity or proportions which are certified by the manufacturer. The production of standard materials is to be considered as origin conferring.

(c) **Isomer separation**: The isolation or separation of isomers from a mixture of isomers is to be considered as origin conferring.

Exceptions to the obligation to provide assistance

1. Any form of assistance within the scope of this Protocol may be refused, or may be subject to certain conditions or requirements, if the requested Party considers that execution of the request would:

(a) be likely to prejudice the sovereignty, security, public order or other essential interests of the requested Party;

(b) violate a trade secret or prejudice legitimate commercial interests.

2. Where the requesting authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

3. The requested authority may postpone the assistance on the grounds that such assistance will interfere with ongoing investigations, prosecutions or proceedings. In such a case, the requested authority shall consult with the requesting authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

4. If the requested authority considers that the effort required to fulfil a request is clearly disproportionate to the expected benefit of the requesting authority, it may decline to provide the requested assistance.

5. Where assistance is declined or postponed, the reasons thereof shall be communicated in writing without delay.

ARTICLE 11

Use, confidentiality and protection of information

1. Any information communicated in whatsoever form pursuant to this Protocol shall be treated as of a confidential nature, depending on the laws and regulations of each Party and shall enjoy the protection extended to similar information under the relevant laws and regulations of the requesting Party that received it and the corresponding provisions that apply to the other customs administration, unless the requested Party which provided the information gives prior consent to the disclosure of such information.

2. Information obtained shall be used solely for the purposes of this Protocol. Where a Party wishes to use such information for other purposes, it shall obtain the prior written consent of the customs authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

3. Paragraph 2 shall not impede the use of information obtained in accordance with this Protocol as evidence in court or tribunal proceedings subsequently instituted in respect of customs law. Each Party may in their records of evidence, reports and testimonies in court or tribunal proceedings use as evidence information obtained in accordance with the provisions of this Protocol. The customs authority which supplied that information shall be notified of such use.

4. Notwithstanding paragraph 2, the requesting authority receiving the information may provide the information pursuant to this Protocol to the relevant law enforcement agencies of that Party, unless the requested authority has requested otherwise. These agencies may only use this information for the correct application of customs law and shall be subject to the conditions set out in this Article.

5. Exchange of personal data under this Protocol shall not begin until the customs authorities have, by mutual arrangement in accordance with Article 14, decided that such data shall be afforded, in the territory of the receiving Party, a level of protection that satisfies the requirements of the laws and regulations of the supplying customs authority.

6. The requesting Party shall, unless otherwise agreed with the requested Party which provided the information, wherever appropriate, use all available measures under the laws and regulations applicable to the former Party to maintain the confidentiality of information and to protect personal data as regards applications by a third party or other authorities for disclosure of the information concerned.

ARTICLE 12

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or a witness before an authority in the other Party regarding the matters covered by this Protocol, and produce such objects, documents, confidential or certified copies thereof as may be required for this purpose. The request for appearance shall indicate specifically before which authority the official is requested to appear, on what matters and by virtue of what title or qualification the official will be questioned.

ARTICLE 13

Assistance expenses

1. Subject to paragraphs 2 and 3, the costs incurred in the application of this Protocol shall be borne by the requested Party.

2. Expenses and allowances paid to experts and witnesses, as well as costs of translators and interpreters, other than the costs of public service employees of the requested Party, shall be borne by the requesting Party.

3. If the execution of a request requires expenses of a substantial or extraordinary nature, the Parties shall consult to determine the terms and conditions under which the request shall be executed as well as the manner in which the costs shall be borne.

ARTICLE 14

Implementation

1. This Protocol shall be implemented in accordance with each Party's laws and regulations, including in the field of data protection, and within the available resources of their respective customs authorities.

2. The Parties' customs authorities shall decide on all practical measures and arrangements necessary for the implementation of this Protocol.

ARTICLE 15

Controlled delivery

1. The customs authorities may, by mutual arrangement, permit under their control, the movement of unlawful or suspect goods out of, through, or into their respective territory, with a view to investigating and combating customs offences.

2. If granting such permission is not within the competence of the customs authority, that customs authority shall endeavour to initiate cooperation with its national authorities that have such competence, or it shall transfer the case to those authorities.

AGREEMENT IN THE FORM OF AN EXCHANGE OF LETTERS BETWEEN THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND AND THE REPUBLIC OF TURKEY CONCERNING THE AGREEMENT ON THE WITHDRAWAL OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND FROM THE EUROPEAN UNION AND THE EUROPEAN ATOMIC ENERGY COMMUNITY

No.1

His Excellency, Sir Dominick Chilcott KCMG, Her Majesty's Ambassador to Turkey, to Mrs Ruhsar Pekcan, Minister of Trade.

Ankara
29 December 2020

Dear Minister Pekcan,

I have the honour to refer to discussions between the Government of the United Kingdom of Great Britain and Northern Ireland (the "United Kingdom") and the Government of the Republic of Turkey (together, the "Parties") concerning the limited number of areas in which clarity is required as to the interaction between the Free Trade Agreement between the United Kingdom of Great Britain and Northern Ireland and the Republic of Turkey, signed in Ankara on 29 December 2020 (the "Agreement") and the Agreement on the Withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, signed in London and Brussels on 24 January 2020 (the "Withdrawal Agreement"), the latter of which includes the Protocol on Ireland/Northern Ireland (the "Protocol").

The Parties recognise the paramount importance of protecting the peace process in Northern Ireland and upholding the Belfast ("Good Friday") Agreement 1998, and understand that the United Kingdom will take certain measures further to the provisions of the Protocol.

As a result of the discussions between the Parties, it is the understanding of the United Kingdom that, necessary for the consistent and concurrent application of the Agreement and the Protocol, the following arrangements (together, "the Arrangements") shall apply:

The Parties understand that under the Protocol, goods brought into Northern Ireland from outside the European Union that are "at risk" of subsequently being moved into

the European Union[1] shall be subject to European Union import duties. For goods that are not "at risk", United Kingdom duties apply when they are imported from outside the European Union.

The Parties acknowledge that the circumstances in which goods brought into Northern Ireland from outside the European Union will be considered not to be at risk of subsequently entering the European Union have been established in a Decision of the Joint Committee established under the Withdrawal Agreement[2].

The United Kingdom proposes that this Letter, together with the Republic of Turkey's reply, be an integral part of the Agreement, but are not to be subject to dispute settlement under Chapter 12 of the Agreement. The United Kingdom further proposes that this exchange of letters applies or enters into force, as applicable, on the application or entry into force of the Agreement, and for so long as Articles 5 to 10 of the Protocol continue to apply to the United Kingdom in respect of Northern Ireland.

I avail myself of this opportunity to renew to Ministry of Trade of the Republic of Turkey the assurances of my highest consideration.

Sincerely,

Sir Dominick Chilcott KCMG
British Ambassador to the Republic of Turkey

[1] The provisions on "at risk" goods are set out at Articles 5.1 and 5.2 of the Protocol.

[2] The United Kingdom has published an explanation of the effects of the Decision online. See: https://www.gov.uk/government/publications/the-northern-ireland-protocol.
