Object to Proposal

Dear Sir/Madam,

I object to this application and urge the Planning Committee to reject the application.

This parcel of land is stopping encroachment into the countryside from Chiswell Green.

Permitting development of this part of the Green Belt encourages developers to be “lazy” and not to look more seriously at developing brownfield sites or previously developed land.

The Green Belt is of massive environmental importance to the local community and to wildlife and its protection should be the number one priority of the Council.

Regards
