

Christopher Darch

Object to Proposal

Anyone that knows that area knows that the current road network cannot sustain further housing on that stretch of land.

It's green belt land

It's not social housing that the area desperately needs

This is purely to make an individual more money and that shamefully isn't a reason to build further housing on that road.

Before any housing is built in this area, that road needs to be looked at and invested in.

I'm not going to discuss the wildlife impact it would have, noise pollution in constructing the houses.

Do we actually need more £1m+ homes?

I suggest not
