

Kay Carnell

Object to Proposal

Dear Sir/Madam

As I have written each time planning has been sought for this parcel of land, I yet again urge you to please reject this application.

This is green belt land, it is not grey. The flora and fauna are there to be seen, despite the owner regularly trying to destroy everything on this site.

The land is where the road narrows, which is not suitable for additional vehicles joining at this point. In addition the traffic in Ragged Hall Lane is increasing each year, particularly during rush hour, and this will only add to the many number of cars queuing to get onto Watford Road.

Please consider these comments, and those made previously.

Thank you.
