Object to Proposal

To be turned down twice by SADC and on appeal, there must have been good reasons. Our small village cannot cope with these developments and 7 houses will not make much difference to the government's housing targets, especially when local need is predominantly for affordable and social-rented properties. Please stop all this development on green belt, we need the countryside for our sanity.

We don't need any more building work with heavy lorries up and down our roads causing even more congestion. Ragged Hall Lane is a narrow road, badly maintained and breaking up in places, which means the lorries are coming down Stanley Avenue, causing a rat-run.

Also the one GP surgery in our village is over subscribed already.

Please see your way to refusing this application once and for all.

Thank you.
