Object to Proposal

I strongly object to this proposal as this is greenbelt land that should not be built on. The area is being ruined by cramming in houses!

The site and road are not suitable for any type of development.

We cannot allow the constant destruction of our environment and natural habitats. This goes against net zero and has an all round negative impact on the community and peoples well being.

Chiswell Green is under attack when all of this could have been built on the old Handley Page site.
