

United States

This factsheet provides the latest statistics on trade and investment between the UK and United States.

Date of release: 2 May 2025; Date of next planned release: 19 June 2025

Total trade in goods and services (exports plus imports) between the UK and United States was **£314.6 billion** in the four quarters to the end of Q4 2024, an increase of 3.9% or £11.9 billion in current prices from the four quarters to the end of Q4 2023. Of this £314.6 billion:

- Total UK **exports** to United States amounted to £196.3 billion in the four quarters to the end of Q4 2024 (an increase of 4.3% or £8.2 billion in current prices, compared to the four quarters to the end of Q4 2023);
- Total UK **imports** from United States amounted to £118.3 billion in the four quarters to the end of Q4 2024 (an increase of 3.2% or £3.7 billion in current prices, compared to the four quarters to the end of Q4 2023).

United States was the UK's largest trading partner in the four quarters to the end of Q4 2024 accounting for 17.7% of total UK trade.¹

In 2023, the **outward stock of foreign direct investment (FDI)** from the UK in United States was £494.1 billion accounting for 26.7% of the total UK outward FDI stock.

In 2023, the **inward stock of foreign direct investment (FDI)** in the UK from United States was £708.1 billion accounting for 34.1% of the total UK inward FDI stock.²

¹Trade data sourced from the latest ONS publication of [UK total trade: all countries seasonally adjusted](#) data.

²Investment data sourced from ONS publication on [Foreign Direct Investment Involving UK Companies](#).

About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and United States. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for Business and Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade between the UK and each trading partner, broken down by UK country and English region.](#)
- [Trade in services between the UK and each trading partner, broken down by mode of supply.](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for Business and Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used. Please do not use previous factsheets to analyse earlier time periods than those shown in the most recent factsheets, as the data will have been revised and previous factsheets will no longer be correct. For analysis of earlier time periods, please use the published source data.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for Business and Trade can be found online.

Trade with United States, in current prices (ONS)^{7 8 9}

Trade definitions

- **UK exports** - Goods and services that were produced or sourced in the UK, which were sold to United States.
- **UK imports** - Goods and services that were sold to the UK, which were produced or sourced by United States.
- **Total or 'bilateral' trade** - The value of total trade between the UK and United States (exports plus imports).
- **Trade balance** - The difference between exports and imports, calculated by UK exports minus UK imports.
- **Trade surplus** - This occurs when the value of UK exports to United States is greater than the value of UK imports from United States.
- **Trade deficit** - This occurs when the value of UK exports to United States is less than the value of UK imports from United States.

Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information. These statistics are given on a balance of payments (change of ownership) basis.

***Note:** UK trade statistics experienced higher levels of volatility between 2019 and 2022, due to the pandemic, global recession, supply chain disruption, EU Exit, Russia's invasion of Ukraine, price inflation, conflict in the Middle East, and data collection changes. All figures are reported in current prices (not adjusted for inflation), unless otherwise stated. We recognise that some of the recent changes in UK trade values will be partly due to price changes.*

Total trade in goods and services (exports plus imports) between the UK and United States was £314.6 billion in the four quarters to the end of Q4 2024, an increase of 3.9% or £11.9 billion in current prices from the four quarters to the end of Q4 2023.

In the four quarters to the end of Q4 2024, **total UK exports** to United States amounted to £196.3 billion (an increase of 4.3% or £8.2 billion in current prices, compared to the four quarters to the end of Q4 2023).

Of all UK exports to United States in the four quarters to the end of Q4 2024, £59.3 billion (30.2%) were **goods** and £137.0 billion (69.8%) were **services**. In the four quarters to the end of Q4 2024, UK **exports of goods** to United States decreased by 3.7% or £2.3 billion in current prices, compared to the four quarters to the end of Q4 2023 while UK **exports of services** to United States increased by 8.3% or £10.5 billion in current prices, compared to the four quarters to the end of Q4 2023.

In the four quarters to the end of Q4 2024, **total UK imports** from United States were £118.3 billion (an increase of 3.2% or £3.7 billion in current prices, compared to the four quarters to the end of Q4 2023).

Of all UK imports from United States in the four quarters to the end of Q4 2024, £57.1 billion (48.3%) were **goods** and £61.2 billion (51.7%) were **services**. In the same period, UK **imports of goods** from United States decreased by 2.0% or £1.2 billion in current prices, compared to the four quarters to the end of Q4 2023 while UK **imports of services** from United States increased by 8.7% or £4.9 billion in current prices, compared to the four quarters to the end of Q4 2023.

This means the UK reported a **total trade surplus** of £77.9 billion with United States, compared to a trade surplus of £73.5 billion in the four quarters to the end of Q4 2023. In the four quarters to the end of Q4 2024, the UK had a **trade in goods surplus** of £2.2 billion with United States, compared to a trade in goods surplus of £3.3 billion in the four quarters to the end of Q4 2023. Meanwhile, in the four quarters to the end of Q4 2024 the UK reported a **trade in services surplus** of £75.8 billion with United States, compared to a trade in services surplus of £70.2 billion in the four quarters to the end of Q4 2023.

⁷Office of National Statistics (ONS) data source for total trade: [UK total trade data \(seasonally adjusted\)](#). ONS data for United States includes Puerto Rico.

⁸This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to United States (reported by the UK) may not match the value of United States imports from the UK (reported by United States).

⁹Data are in current prices, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.'

The charts below present a time series for trade between the UK and United States for each year between 2015 and 2024:

Source: ONS, UK trade in goods and services, Q4 2024

The data that are presented in the charts above are given in the table below in £ billion:

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
Value of total trade	163.1	178.9	193.3	210.8	231.7	205.1	222.5	290.0	302.7	314.6
Value of exports	102.2	110.1	119.5	131.0	142.6	128.7	142.3	176.5	188.1	196.3
Value of imports	60.8	68.8	73.8	79.8	89.0	76.4	80.2	113.5	114.6	118.3
Trade balance	+41.4	+41.4	+45.7	+51.2	+53.6	+52.3	+62.1	+62.9	+73.5	+77.9

In the four quarters to the end of Q4 2024, United States was the UK's:¹⁰

- **Largest trading partner** (accounting for 17.7% of total UK trade).
 - Largest **goods** trading partner (12.2% of UK goods trade).
 - Largest **services** trading partner (24.1% of UK services trade).
- **Largest export market** (accounting for 22.5% of total UK exports).
 - Largest **goods** export market (16.2% of UK goods exports).
 - Largest **services** export market (27.0% of UK services exports).
- **Largest import market** (accounting for 13.1% of total UK imports).
 - 3rd largest **goods** import market (9.7% of UK goods imports).
 - Largest **services** import market (19.5% of UK services imports).

More timely data, for trade in goods only¹¹, show that UK exports of goods to United States decreased by 0.8% the 12 months to February 2025 in current prices, compared to the same period the previous year. UK imports of goods from United States increased by 3.9%, in current prices, over the same period.

¹⁰ Rankings are based on the ONS dataset which contains data for all individual partners: [UK total trade data \(seasonally adjusted\)](#).

¹¹ ONS data source for trade in the latest 12 months up to February 2025: [UK Trade data \(seasonally adjusted\)](#). ONS data for United States also includes data for Puerto Rico.

Trade in goods by commodity, in current prices (ONS)^{12 13}

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 goods exported from the UK to United States** in the four quarters to the end of Q4 2024 were as follows:

Commodity	Exports in the four quarters to the end of Q4 2024	Percentage of total goods exports	Change from the four quarters to the end of Q4 2023
78M - Cars	£9.0 billion	15.1%	an increase of 39.4%
54 - Medicinal & pharmaceutical products	£6.6 billion	11.1%	a decrease of 25.1%
71MI - Mechanical power generators (intermediate)	£4.6 billion	7.8%	a decrease of 11.3%
87K - Scientific instruments (capital)	£2.4 billion	4.1%	a decrease of 11.6%
792 - Aircraft	£2.2 billion	3.7%	an increase of 5.3%

The **top 5 goods imported to the UK from United States** in the four quarters to the end of Q4 2024 were as follows:

Commodity	Imports in the four quarters to the end of Q4 2024	Percentage of total goods imports	Change from the four quarters to the end of Q4 2023
33O - Crude oil	£8.7 billion	15.2%	an increase of 2.5%
71MI - Mechanical power generators (intermediate)	£5.8 billion	10.1%	an increase of 5.1%
33R - Refined oil	£4.0 billion	7.0%	an increase of 17.5%
54 - Medicinal & pharmaceutical products	£4.0 billion	7.0%	an increase of 5.0%
792 - Aircraft	£3.1 billion	5.5%	a decrease of 1.5%

The chart below shows the top 5 products exported from the UK to United States and the top 5 products imported to the UK from United States, by value, in the four quarters to the end of Q4 2024. All data shown in the chart are provided in the text above.

The top 5 UK goods exports, in the four quarters to the end of Q4 2024, to USA

Source: ONS, February 2025

The top 5 UK goods imports, in the four quarters to the end of Q4 2024, from USA

Source: ONS, February 2025

¹²Data on trade in goods by commodity are sourced from data by the ONS: [UK trade release \(non-seasonally adjusted\)](#). These statistics for **exports** and **imports** present the latest data from the February 2025 ONS publication which are given on a monthly basis. ONS data for United States also includes data for Puerto Rico.

¹³The commodities are categorised based on [SITC](#) codes using a mixture of level 2 and level 3 codes.

Trade in services by service type, in current prices (ONS)^{14 15 16 17}

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 service types exported from the UK to United States** in the four quarters to the end of Q4 2024 were as follows:

Service type	Exports in the four quarters to the end of Q4 2024	Percentage of total services exports	Change from the four quarters to the end of Q4 2023
Other Business Services	£61.2 billion	44.7%	an increase of 5.9%
Financial	£28.4 billion	20.7%	an increase of 10.5%
Insurance and Pension	£11.9 billion	8.7%	Unavailable due to suppressed data
Telecommunications, computer and information services	£11.5 billion	8.4%	an increase of 13.5%
Travel	£8.5 billion	6.2%	an increase of 16.8%

The **top 5 service types imported to the UK from United States** in the four quarters to the end of Q4 2024 were as follows:

Service type	Imports in the four quarters to the end of Q4 2024	Percentage of total services imports	Change from the four quarters to the end of Q4 2023
Other Business Services	£30.5 billion	49.9%	an increase of 14.2%
Travel	£7.8 billion	12.8%	an increase of 14.6%
Financial	£6.8 billion	11.1%	a decrease of 2.3%
Intellectual property	£6.0 billion	9.8%	an increase of 5.4%
Telecommunications, computer and information services	£3.9 billion	6.3%	an increase of 3.6%

The chart below shows the top 5 service types exported from the UK to United States and the top 5 service types imported to the UK from United States, by value, in the four quarters to the end of Q4 2024. All data shown in the chart are provided in the text above.

The top 5 UK services exports, in the four quarters to the end of Q4 2024, to USA

Source: ONS, Q4 2024

The top 5 UK services imports, in the four quarters to the end of Q4 2024, from USA

Source: ONS, Q4 2024

¹⁴Trade in services by service type is sourced from data by the ONS: [UK trade in services by partner country \(non-seasonally adjusted\)](#). ONS data for United States also includes data for Puerto Rico.

¹⁵Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

¹⁶Service type data may be unavailable for some quarters, due to the suppression of figures for the confidentiality of individual traders.

¹⁷Where data suppressions prevent a comparison between the current and previous four quarters, the above tables will state "Unavailable due to suppressed data" in the comparison column.

Trade in services by mode of supply, in current prices (ONS)^{20 21}

Trade in Services by Mode of Supply definitions

- **Modes of Supply** define the way services trade is conducted. The World Trade Organisation's [General Agreement on Services](#) categorises methods for trade in services into four different modes of supply, which depend upon on the territorial presence of the supplier and the consumer at the time of transaction.
- **Mode 1** - Remote trade (a supplier in one country sells a service to a customer in another, without the movement of people).
- **Mode 2** - Consumption abroad (the person receiving the service travels to the supplier's country).
- **Mode 3** - Commercial presence (e.g. a company subsidiary) - this mode is not counted as part of UK services trade on a balance of payments basis and is not reported in this release. This means that total figures are only the total of Modes 1, 2 and 4.
- **Mode 4** - Presence of natural persons (a supplier sends its personnel to the customer's country to provide service).

UK services exports to United States by mode of supply in 2022:

- £92.2 billion of services exports to United States were delivered by Mode 1 (79.1%).
- £11.7 billion of services exports were delivered by Mode 2 (10%).
- £12.7 billion of services exports were delivered by Mode 4 (10.9%).

UK services imports from United States by mode of supply in 2022:

- £36.2 billion of services imports from United States were delivered by Mode 1 (70.2%).
- £8.5 billion of services imports were delivered by Mode 2 (16.5%).
- £6.9 billion of services imports were delivered by Mode 4 (13.3%).

Proportion of total trade flows of services with United States by Modes 1, 2, & 4 in 2022 (%)

Source: ONS, 2022

²⁰ONS data source for UK Trade in Services by Mode of Supply: [ONS Imports and exports of services by country, by modes of supply, UK](#)

²¹Data included in this ONS release are experimental estimates.

UK Market Share (ONS and UNCTAD)^{22 23}

Market Share definitions

- **UK market share** – Imports from the UK as a percentage of all the goods and services imported by United States. Market share is provided for total imports from the UK, as well as for goods and services separately.
- **Market share methodology** – These UK market share statistics are derived by the Department for Business and Trade, using publicly available data from the Office of National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate ²⁴.

The UK's market share for United States in 2023 was as follows:

- **The total UK market share in United States was 5.8% in 2023 for goods and services.** This is an increase of 0.3 percentage points from 2022.
- The UK market share in United States was 2.4% in 2023 for **goods only**. This is an increase of 0.2 percentage points from 2022.
- The UK market share in United States was 19.8% in 2023 for **services only**. This is a decrease of 0.4 percentage points from 2022.

The table below presents the UK's market share for United States between 2014 and 2023. Values presented in italics are based on UNCTAD estimates of imports.

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Total goods and services	5.3%	5.6%	5.5%	5.3%	5.6%	5.9%	5.9%	5.7%	5.5%	5.8%
Goods only	2.6%	3.1%	2.9%	2.7%	2.8%	3.0%	2.6%	2.4%	2.3%	2.4%
Services only	18.4%	17.4%	16.6%	16.5%	18.5%	18.0%	22.3%	22.4%	20.2%	19.8%

²²ONS data source for market share: [UK total trade data \(seasonally adjusted\)](#). ONS data for United States also includes data for Puerto Rico.

²³UNCTAD data source for market share: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#). Some UNCTAD data may be based on estimates.

²⁴Annual average spot exchange rates for \$USD to £GBP are sourced from the [Bank of England](#)

Number of VAT-registered businesses trading goods (HMRC)^{25 26 27}

Business counts definition (Regional Trade in Goods Statistics)

- Business counts report UK VAT-registered business exporting and importing goods. Data is collected primarily from customs declarations (using the Intrastat survey and VAT returns for Northern Ireland businesses trading with the EU).
- Counts exclude businesses trading below the statistical value thresholds for customs declarations and exclude trade in non-monetary gold.

Businesses trading with United States in 2024:

- In 2024, around 39,500 UK VAT-registered businesses exported goods to United States.
- In 2024, around 44,800 UK VAT-registered businesses imported goods from United States.

Businesses trading with the world in 2024:

- In 2024, around 122,000 UK VAT-registered businesses exported goods to the world.
- In 2024, around 256,400 UK VAT-registered businesses imported goods from the world.

²⁵HMRC data source for Regional Trade Statistics business counts data: [UK trade in goods statistics](#).

²⁶Data for UK businesses engaged in trade of services with United States are not available. A single business may trade with multiple trading partners abroad, so care should be taken when adding figures for multiple trading partners.

²⁷HMRC does not receive partner country information for customs declarations with commodity line values that fall under the statistical value threshold of £873 (in value) and 1,000kg (in net mass). Therefore, these counts of exporting/importing businesses only capture those businesses with exports/imports (respectively) above the statistical value threshold. The number of businesses has been rounded to the nearest 100.

Trade in Value Added (OECD)^{28 29}

Trade in Value Added definitions

- **Trade in Value Added (TiVA)** - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.
- **Domestic and foreign value added** - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).
- **TiVA statistics** - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for Business and Trade and Cambridge Econometrics.
- **UK forward linkages for exports** - Measures the reliance of foreign exporters on UK value added (inputs).
- **UK backward linkages for exports** - Measures the reliance of UK exporters on foreign value added (inputs).
- **Employment supported by exports** - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

UK forward linkages for exports:

- **In 2020, 0.4% of the total value added in gross exports from United States originated in the UK.**
- In 2020, 7.5% of the value added content in gross exports from United States reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from United States were China (1.1%), Canada (1.1%), and Mexico (0.7%).

UK backward linkages for exports:

- **In 2020, 2.4% of the total value added in gross exports from the UK originated in United States.**
- In 2020, 14.3% of the value added content in gross exports from the UK reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from the UK were United States (2.4%), Germany (1.5%), and China (1.2%).

Employment supported by exports.³⁰

- Exporting activity in United States supported 12.2 million persons in 2020 (7.5% of total United States employment). Exports to the UK supported around 432,700 jobs in United States in 2020.
- Exporting activity in the UK supported 6.7 million persons in 2020 (20.6% of total UK employment). Exports to United States supported around 974,200 jobs in the UK in 2020.

²⁸The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\), June 2024](#); and b) [Trade in employment \(TIM\) database, February 2024](#), indicators EXGR_DEM.

²⁹The data shown in this factsheet is from 2020.

³⁰These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

Foreign Direct Investment with United States (ONS)^{31 32 33}

Foreign direct investment definitions

- **Foreign direct investment (FDI)** - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.
- **FDI stock** - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in United States), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a United States parent company in the UK).
- **Data disclosure** - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

Note: The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This means data from 2020 and onward are more representative of UK FDI with overseas partners and are comparable.

More information about the methodology changes can be found on the [ONS website](#).

UK outward FDI stock:

- In 2023, the **stock of FDI from the UK in United States** was £494.1 billion, 3.4% or £17.4 billion lower than in 2022. In 2023, United States accounted for 26.7% of the total UK outward FDI stock.
- In 2023, the total UK FDI abroad was £1.9 trillion. In 2023, the **top destination for UK FDI** was United States, accounting for 26.7% of the total UK outward FDI stock, followed by Netherlands (14.8%) and Luxembourg (7.6%).

UK inward FDI stock:

- In 2023, the **stock of FDI from United States in the UK** was £708.1 billion, 0.8% or £5.6 billion higher than in 2022. In 2023, United States accounted for 34.1% of the total UK inward FDI stock.
- In 2023, the total FDI in the UK in was £2.1 trillion. In 2023, the **top investor in the UK** was United States, accounting for 34.1% of the total UK inward FDI stock, followed by Luxembourg (9.1%) and Jersey (7.9%).

³¹ ONS data source for FDI statistics: [Foreign Direct Investment involving UK companies](#). ONS data for United States includes Puerto Rico.

³² Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

³³ This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to United States (reported by the UK) may not match United States inward FDI from the UK (reported by United States). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

The chart below shows FDI between the UK and United States between 2014 and 2023:

Source: ONS, 2023 FDI main release. Data are on a directional basis, data suppression can cause breaks in the trends.

The data that are presented in the charts above are given in the table below in £ billion:

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
UK outward FDI stock	254.2	237.3	237.8	278.3	336.9	427.2	434.9	451.0	511.5	494.1
UK inward FDI stock	242.1	309.6	293.7	352.5	434.9	460.1	585.3	654.0	702.5	708.1

Economic statistics (as reported by United States)

Trade and investment data for United States (UNCTAD)^{34 35 36}

The following data are reported by United States and are for reference only. Whenever possible use data from UK sources for trade and investment. All data below are presented in \$USD in billions.

Year	2016	2017	2018	2019	2020	2021	2022	2023
Nominal exports	2,240.8	2,394.5	2,542.5	2,546.3	2,160.1	2,570.8	3,039.4	3,071.8
Nominal imports	2,720.3	2,911.4	3,121.1	3,105.7	2,813.8	3,418.9	3,984.2	3,856.7
Nominal trade balance	-479.5	-516.9	-578.6	-559.4	-653.7	-848.1	-944.8	-784.9
Inward FDI stock	6,502.8	7,806.3	7,346.9	8,951.1	10,141.2	12,891.7	10,383.9	12,817.1
Outward FDI stock	6,395.4	7,865.0	6,370.7	7,546.3	8,209.4	9,667.6	7,982.8	9,433.9

³⁴United Nations Conference on Trade and Development (UNCTAD) data sources for trade: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#); and for investment: [Foreign direct investment: Inward and outward flows and stock, annual](#).

³⁵Estimates are given in italics. Historic data pre-2016 can be found on the [UNCTAD website](#).

³⁶All trade data are on a Balance of Payments basis. The FDI data are on a directional and net (investment minus disinvestment) basis. These figures are given in current prices and are rounded to the nearest \$0.1 billion, with missing data represented by dashes.

Economic data and projections for United States (IMF)^{37 38}

The following table presents economic statistics for United States. Projections include assumptions of the effects of COVID-19 and may be subject to change in the future. Estimated data, as well as projections up to 2030, are presented in italics and are subject to revision.

Year	2022	2023	2024	2025	2026	2027	2028	2029	2030
Change in exports (%)	7.5	2.8	3.3	1.9	1.8	3.0	3.0	3.0	3.0
Change in imports (%)	8.6	-1.2	5.3	2.6	1.2	2.1	2.1	2.1	2.1
Current account balance (% of GDP)	-3.9	-3.3	-3.9	-3.7	-3.2	-3.0	-2.6	-2.6	-2.4
Change in real GDP (%)	2.5	2.9	2.8	1.8	1.7	2.0	2.1	2.1	2.1
GDP per capita (1,000 \$USD)	77.8	82.3	85.8	89.1	92.1	95.1	98.5	101.9	105.4
GDP PPP (Int'l \$billion)	26,006.9	27,720.7	29,184.9	30,507.2	31,717.6	32,941.7	34,342.1	35,712.8	37,153.1
Inflation, year average (CPI %)	8.0	4.1	3.0	3.0	2.5	2.1	2.2	2.2	2.2
Unemployment rate (% of total labour force)	3.6	3.6	4.0	4.2	4.2	4.1	3.9	3.8	3.8
Population (million)	334.3	337.0	340.1	342.4	344.4	346.4	348.5	350.5	352.6
Total investment (% of GDP)	22.0	21.5	21.7	21.5	21.6	21.7	21.8	21.9	21.9
Gross national savings (% of GDP)	18.3	17.4	17.3	17.8	18.4	18.7	19.1	19.3	19.5
General government net lending/borrowing (% of GDP)	-3.7	-7.2	-7.3	-6.5	-5.5	-5.4	-5.6	-5.5	-5.6
General government gross debt (% of GDP)	118.8	119.0	120.8	122.5	123.7	124.9	125.9	127.0	128.2

United States was the largest economy in 2024, in terms of gross domestic product (GDP). The UK was the 6th largest economy in 2024.³⁹

³⁷International Monetary Fund (IMF) provide economic commentary in their [World Economic Outlook reports](#). The latest data presented here can be found in the [World Economic Database, April 2025](#).

³⁸Projections and estimates are given in italics. More information for each metric and each partner, as well as historic data pre-2022, can be found on the [IMF website](#).

³⁹GDP ranking based on values in current prices (nominal terms) in \$USD. Some GDP values for partners are based on estimates which may influence the rankings when revised.

Top goods traded with the world by United States, in current prices (UN Comtrade)^{40 41}

Data presented here show the top commodities traded with the world, not solely the UK, by United States. These data are based on a different commodity classification system to the ONS commodity data used earlier in this factsheet, and the two sections should therefore not be directly compared.

Top goods exported to the world by United States in 2024:

Rank	HS Commodity	\$USD billion	% of total goods exported
1	27 - Mineral fuels or oils, products of their distillation	320.1	15.5%
2	84 - Machinery and mechanical appliances	252.4	12.2%
3	85 - Electrical machinery and equipment	213.9	10.4%
4	87 - Vehicles other than railway or tramway stock	143.8	7.0%
5	88 - Aircraft, spacecraft, and parts thereof	134.2	6.5%
6	90 - Optical, photographic, cinematographic and medical equipment	106.3	5.2%
7	30 - Pharmaceutical products	94.4	4.6%
8	39 - Plastics and articles thereof	80.1	3.9%
9	99 - Commodities not specified according to kind	79.2	3.8%
10	71 - Precious stones and metals	73.1	3.5%
	All goods exported	2063.8	100.0%

Top goods imported from the world by United States in 2024:

Rank	HS Commodity	\$USD billion	% of total goods imported
1	84 - Machinery and mechanical appliances	531.2	15.8%
2	85 - Electrical machinery and equipment	485.9	14.5%
3	87 - Vehicles other than railway or tramway stock	391.5	11.7%
4	27 - Mineral fuels or oils, products of their distillation	251.1	7.5%
5	30 - Pharmaceutical products	212.7	6.3%
6	99 - Commodities not specified according to kind	128.0	3.8%
7	90 - Optical, photographic, cinematographic and medical equipment	124.8	3.7%
8	71 - Precious stones and metals	87.2	2.6%
9	39 - Plastics and articles thereof	78.2	2.3%
10	94 - Furniture; bedding, mattresses, cushions	72.6	2.2%
	All goods imported	3356.8	100.0%

⁴⁰United Nations (UN) Comtrade data are sourced from the online [UN Comtrade Database](#). The data reported above are for 2024, but as the data upload to UN Comtrade is continuous, more timely data may be available from the source.

⁴¹Data are classified using the [Harmonized System](#) and are given on a physical movement basis, with UK data comparable to HMRC data sources rather than the headline trade figures presented here from ONS.

Top services traded with the world by United States, in current prices (ITC Trade Map)^{42 43 44}

Data presented here shows the top service types traded to the world, not solely the UK, by United States.

Top services exported to the world by United States in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services exported
1	Other business services	245.2	26.4%
2	Financial services	167.7	18.1%
3	Travel	136.9	14.7%
4	Charges for the use of intellectual property n.i.e.	127.4	13.7%
5	Transport	91.0	9.8%
	All services exported	928.5	100.0%

Top services imported from the world by United States in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services imported
1	Transport	157.6	22.6%
2	Other business services	138.1	19.8%
3	Travel	115.3	16.6%
4	Insurance and pension services	59.5	8.5%
5	Financial services	57.7	8.3%
	All services imported	696.7	100.0%

⁴²International Trade Centre (ITC) Trade Map data are sourced from the online [ITC Trade Map tool](#). The data above are for 2022, but as the data upload to ITC is continuous, more timely data may be available from the source.

⁴³Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

⁴⁴Estimates are shown in italics, where for some partners only estimates are available - These data have been included for information and should be treated with caution.

Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#).

Our statistical practice is regulated by the Office for Statistics Regulation (OSR). OSR sets the standards of trustworthiness, quality and value in the [Code of Practice for Statistics](#) that all producers of official statistics should adhere to. You are welcome to contact us directly with any comments about how we meet these standards. Alternatively, you can contact OSR by emailing regulation@statistics.gov.uk or via the OSR website.

The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for Business and Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office of Statistics Regulation](#) and are therefore not designated as [Accredited Official Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for Business and Trade welcome any feedback or comments on these factsheets, please send these to statistics@businessandtrade.gov.uk.
