4 – PLATING CERTIFICATE DETAILS

Attach a separate photocopy of your current plating certificate (VTG7) – **we may not be able to deal with your application without it.** Do not send originals, failure to provide this information may delay your application.

5 - NATURE OF ALTERATION, ERROR CORRECTION OR CHANGE TO PLATED DETAILS

NOTE : You do not need to notify us of normal replacement of worn, defective or damaged parts or components on a “like for like” basis.

Do not use the VTG10 for alterations on un-registered vehicles. If the alteration is to up-rate or down-rate the plated weight of the vehicle, **please confirm the new weight requirements in the box on page 3.** For changes made to the vehicle please provide full details of the alterations made. In particular :

- **For tyre changes**, tell us the sizes of the tyres on each axle, the load indices, and whether they are fitted in single or dual formation.
- **For error correction**, please supply manufacturer's supporting evidence. For example Certificate of conformity (Coc).
- **Give full details of any change to the braking system** - Please include a schematic diagram *(attach separately from application form – see page 3)* with a key to the components and confirm on which axles park brakes are fitted below :

Axle 1 ☐ Axle 2 ☐ Axle 3 ☐ Axle 4 ☐

- **For all applications for a design weight certificate (see Section 5(2))** please include evidence of the new design weight i.e. documentation from the manufacturer or converter or a copy of a revised manufacturer's plate.
- Where available, please supply us with the manufacturer's or converter's name and reference or technical contact details below ▼
