**PREAMBLE**

NOTING the experience under the *Interim Agreement with a view to an Economic Partnership Agreement between the European Union and its Member States, of the one part, and the Central Africa Party of the other part* ('EU-Central Africa iEPA');

RECOGNISING THAT this Agreement builds on the experience of the Partnership Agreement between the Members of the African, Caribbean and Pacific ('ACP') Group of States, of the one part, and the European Community ('EC') and its Member States, of the other part, signed on 23 June 2000, revised on 25 June 2005, and further revised on 22 June 2010 ('the Cotonou Agreement');

HAVING REGARD to the Joint Statement of the Parties relating to the Objectives and Essential and Fundamental Elements of this Agreement;

CONVINCED that this Economic Partnership Agreement will create a new and more favourable climate for their relations in the areas of economic governance, trade and investments and create new opportunities for growth and development;

WHEREAS the liberalisation of trade, of establishment and of trade in services between the Parties must be based on the regional integration of the Central African States, have the objective of fostering their smooth and gradual integration into the global economy, with due regard for their political choices and their development priorities, and fulfil the conditions laid down in the World Trade Organization ('WTO') agreements;

WHEREAS the Parties shall not encourage foreign direct investment by making their domestic environmental, labour or occupational health and safety legislation and regulations less stringent or by relaxing their domestic labour legislation and regulations or regulations designed to protect and promote cultural diversity. The Parties therefore reaffirm their commitment to comply with these domestic laws or regulations or to propose to do so in order to encourage the establishment, acquisition, expansion or retention in their territory of an investment or of an investor,

HAVE DECIDED AS FOLLOWS:

## TITLE I OBJECTIVES

### ARTICLE 1

#### **Interim Economic Partnership Agreement**

This Agreement establishes an interim Economic Partnership Agreement ('EPA').

This Agreement comprises actual and enforceable commitments according to the provisions of this Agreement and also sets out further areas for negotiations with a view to incorporating additional elements.

### ARTICLE 2

#### **General objectives and scope**

The general objectives of this Agreement are to:

- (a) contribute to the reduction and eventual eradication of poverty by establishing a trade partnership consistent with the objectives of sustainable development, the Sustainable Development Goals ('SDGs') and the Objectives and Essential and Fundamental Elements of this Agreement, set out in Annex IV;
- (b) promote an economy in Cameroon that is more competitive and diversified, and enjoys stronger growth as the basis for such a regional economy in Central Africa;
- (c) foster economic cooperation and good governance in Cameroon, supporting these objectives and regional integration in the Central African region;
- (d) promote the gradual integration of Cameroon into the global economy, in accordance with its political choices and its development priorities, contributing to such integration in the Central African region;

- (e) improve the capacities of Cameroon in terms of trade policy and trade-related issues, as the basis for such improvement in the Central African region;
- (f) establish and implement an effective, predictable and transparent regulatory framework for trade and investment in Cameroon, thus supporting the conditions for increasing investment and private-sector initiatives, and enhance capacity for the supply of products and services, competitiveness and economic growth in the Central African region;

To this end, in line with the WTO obligations, the Agreement will enhance commercial and economic relations, support a trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between them and reinforce, broaden and deepen cooperation in all areas relevant to trade;
- (h) promote private-sector development and employment growth.

### ARTICLE 3

#### **Specific objectives**

The specific objectives of this Agreement are to:

- (b) foster the smooth and gradual integration of Cameroon into the global economy, in accordance with its political choices and its development priorities, supporting such integration for the Central African region;
- (c) strengthen existing relations between the Parties on the basis of solidarity and mutual interest;

- (e) establish a basis for negotiating and implementing an effective, predictable and transparent regulatory framework for trade, investment, competition, intellectual property, public procurement and sustainable development in the Central African region, thus supporting the conditions for increasing investment and private-sector initiatives, and enhance capacity for the supply of goods and services, competitiveness and economic growth in the region;

## ARTICLE 6

### **Business environment**

The Parties consider that the business environment is an essential vehicle for economic development, and that the provisions of this Agreement are therefore geared towards achieving this common objective. Cameroon, which is also a signatory of the OHADA Treaty (Organisation for the Harmonisation of Business Law in Africa)<sup>1</sup>, undertakes to apply and implement the provisions of this Treaty effectively and without discrimination.

---

<sup>1</sup> In the event of accession, this Article will need to be amended to reflect whether an acceding state or regional organisation is party to the OHADA treaty.

## ARTICLE 7

### **Development finance cooperation**

1. UK financing pertaining to development cooperation between Cameroon and the UK supporting the implementation of this Agreement shall be within the framework for development cooperation as set out in Annex IV. In this context, supporting the implementation of this Agreement shall be one of the priorities.
2. The UK undertakes to support, by means of its development policies and instruments — including aid for trade — development activities for economic cooperation and for the implementation of this Agreement, in accordance with the principles of effectiveness and complementarity of aid. The UK may provide this support to the key areas listed in Article 5 and Annex I, or to other areas of assistance.
3. The Parties shall cooperate in order to facilitate the participation of other donors willing to support the efforts of Cameroon to achieve the objectives of this Agreement.
4. The Parties recognise the usefulness of specific financing mechanisms which support the implementation of this Agreement, and will support the efforts in this direction.

## ARTICLE 8

### **Supporting the implementation of trade-related rules**

The Parties agree that the implementation of trade-related rules, for which the areas of cooperation are detailed in the individual Chapters of this Agreement, shall help to achieve the objectives of this Agreement. Cooperation in this area shall be in accordance with the arrangements set out in Article 7.

3. The UK will provide funding through mechanisms such as the UK Prosperity Fund to support implementation of this Agreement.

## ARTICLE 10

### **Cooperation on fiscal adjustment**

1. The Parties recognise the challenges which the elimination or substantial reduction of the customs duties provided for in this Agreement may pose for Cameroon, and they agree to establish a dialogue and cooperation in this area.

2. In the light of the dismantling schedule set out in Article 21 and approved by the Parties to this Agreement, the Parties agree to establish an in-depth dialogue on the fiscal adjustment measures to be taken which could restore budget balance in the long term.

3. Further to paragraphs 1 and 2 of this Article, the Parties agree to cooperate, within the framework of Article 7, and undertake to implement technical and financial assistance measures which may be provided through multilateral organisations and international financial institutions in the following areas:

- (a) contribution to absorbing the net fiscal impact in full complementarity with the fiscal reforms;
- (b) support for fiscal reform together with dialogue in this area.

4. The Parties undertake to agree, within the EPA Committee as defined in Article 92, and as soon as possible, on the methodology for estimating net fiscal impact. In this same context the Parties shall subsequently agree on the complementary measures and studies to be undertaken.

TITLE III  
TRADE REGIME FOR GOODS

CHAPTER 1  
Customs duties and non-tariff measures

ARTICLE 13

**Rules of origin**

1. For the purposes of this Chapter, ‘originating’ shall apply to goods that conform with the rules of origin set out in Interim Protocol 2A and Interim Protocol 2B to this Agreement.
2. The EPA Committee, in view of the interim nature of Interim Protocol 2A and Interim Protocol 2B, shall establish a common reciprocal regime governing the rules of origin in due course, which shall be annexed to this Agreement by the EPA Committee. That new ‘Protocol 2’ shall replace the two Interim Protocols and shall enter into force on a date to be agreed by the EPA Committee and to be published in the official journal or website of both Parties.
3. The Parties shall review the provisions in force governing the rules of origin, with a view to simplifying the concepts and methods used for the purpose of determining origin in the light of Central Africa’s development goals. As part of this review, the Parties shall take into account technological development, production processes and all other factors including reforms under way in relation to rules of origin which could require amendments to the negotiated reciprocal regime. Any amendment or replacement shall be effected by decision of the EPA Committee.

ARTICLE 14

**Customs duties**

‘Customs duties’ shall mean duties or charges of any kind, including any form of surcharge or supplement, imposed on or in connection with the import or export of goods. These do not include:

- (a) charges equivalent to taxes or other internal charges imposed in accordance with Article 23, below, on national treatment;
- (b) anti-dumping, countervailing or safeguard measures applied in accordance with the provisions of Chapter 2 on trade defence instruments;
- (c) fees or other charges imposed in accordance with Article 18.

## ARTICLE 15

### **Elimination of customs duties on exports**

1. No new customs duties on exports shall be introduced in trade between the Parties, nor shall such duties be increased beyond those that applied on entry into force of this Agreement, provided those duties were permitted under the EU-Central Africa iEPA.
2. However, in the event of a serious public finance problem or the need for greater environmental protection, Cameroon may, after consultation with the UK, introduce customs duties on exports for a limited number of additional goods.
3. The EPA Committee shall undertake a regular evaluation in order to examine the impact and relevance of customs duties on exports applied under this Article.

## ARTICLE 16

### **Movement of products**

1. This Article applies only in the event of an accession.
2. Products originating in the UK or in the Central African Party shall be assessed duties only once in the territory of the other Party.
3. For products originating in the UK, the customs duty to be paid in accordance with this Agreement shall be levied on behalf of the Central African Contracting State, as defined in Article 95, whose territory constitutes the place of consumption.
4. The Central Africa Party shall take all necessary measures to ensure the effective implementation of the provisions of this Article and to promote the free movement of goods in the territories of the Central African Contracting States as defined in Article 95. The two Parties agree to cooperate in relation to this matter as per Articles 7 and 8. This cooperation shall be adapted according to the type of mechanism ultimately chosen by the Central African Party.
5. The Parties agree to cooperate with a view to facilitating the movement of goods and simplifying customs procedures as provided for under Chapter 3 of Title III.

## ARTICLE 17

### **Classification of products**

The classification of products covered by this Agreement shall be that set out in each Party's respective tariff nomenclature in conformity with the Harmonised Commodity Description and Coding System ('HS').

## ARTICLE 18

### **Fees and other charges**

1. Fees and other charges referred to in Article 14(c) shall be limited in amount to the approximate cost of services rendered and shall not constitute indirect protection for domestic products or taxation of imports or exports for fiscal purposes. They shall be subject to specific tariffs corresponding to the approximate cost of services rendered and shall not be calculated on an *ad valorem* basis. The fees and other charges shall not be imposed for consular formalities, such as consular certificates and invoices (an exhaustive list to be drawn up by the EPA Committee).
2. In the event of an accession, the Central Africa Party shall, in order to promote regional integration and ensure clarity for economic operators, maintain standardised provisions relating to the area covered by this Article.

## ARTICLE 19

### **More favourable treatment on the basis of economic integration agreements**

1. With regard to the areas covered by this Chapter, the UK shall grant Cameroon any more favourable treatment which could result from the UK becoming party to an economic integration agreement with third parties after this Agreement has been signed.
2. With regard to the areas covered by this Chapter, Cameroon shall grant the UK any more favourable treatment which could result from Cameroon becoming party to an economic integration agreement with a major trading partner after this Agreement has been signed.
3. If Cameroon has received substantially more favourable treatment from a major trading partner than that provided by the UK in an economic integration agreement concluded by Cameroon with that same partner, the Parties shall enter into consultations and decide together on the implementation of paragraph 2.
4. For the purposes of this Article, 'economic integration agreement' shall mean an agreement which substantially liberalises trade and abolishes or eliminates discrimination between the parties by eliminating existing discriminatory measures and/or prohibiting new or more discriminatory measures, either upon entry into force of the agreement or on the basis of a reasonable time-frame.

5. For the purposes of this Article, ‘major trading partner’ shall signify any developed country or any country accounting for more than 1 % of world trade in the year before the entry into force of the economic integration agreement referred to in paragraph 2, or any group of countries acting individually, collectively or through an economic integration agreement accounting collectively for more than 1.5 % of world trade in the year before the entry into force of the economic integration agreement referred to in paragraph 2<sup>2</sup>.

6. The provisions of this Chapter shall not be so construed as to oblige the Parties to extend reciprocally any preferential treatment applicable as a result of one of the Parties being party to a regional economic integration agreement with a third party on the date of signature of this Agreement.

## ARTICLE 20

### **Customs duties on products originating in Cameroon**

1. Products originating from Cameroon shall be imported into the UK free of customs duties, with the exception of the products indicated, and under the conditions set out in Annex II.

2. No new customs duties shall be introduced in trade between the Parties, nor shall those already applied be increased.

## ARTICLE 21

### **Customs duties on products originating in the UK**

1. For each product, the basic customs duty shall be that specified in Annex III.

2. No new customs duties shall be introduced in trade between the Parties, nor shall those specified in Annex III be increased.

3. Customs duties on imports of products considered as originating in the UK and listed in Annex III under categories ‘1’, ‘2’ and ‘3’ shall be definitively eliminated as per the table in paragraph 5 below, subject to paragraph 4.

4. If, before the EU-Central Africa iEPA ceases to apply to the UK, the parties to that Agreement agree (formally, informally or by conduct) or apply more favourable tariff treatment to imports of EU goods, that more favourable treatment shall apply to imports of UK goods and the EPA Committee shall amend paragraph 5 to reflect this.

---

<sup>2</sup> For this calculation, official WTO data on the world's leading exporters of products (excluding intra-EU trade) shall be used.

5. The tariff reduction percentages set out in the table below shall be applied to the tariffs laid down in paragraph 1.

Years	Product Groups			
	1	2	3	5
01/01/2021	100%	60%	10%	0%
04/08/2021	100%	75%	20%	0%
04/08/2022	100%	90%	30%	0%
04/08/2023	100%	100%	40%	0%
04/08/2024	100%	100%	50%	0%
04/08/2025	100%	100%	60%	0%
04/08/2026	100%	100%	70%	0%
04/08/2027	100%	100%	80%	0%
04/08/2028	100%	100%	90%	0%
04/08/2029	100%	100%	100%	0%

6. Imports of products originating in the UK and listed in Annex III under category '5' shall comprise products for which customs duties are determined in accordance with the provisions of paragraph 1 above; customs duties in this category shall be neither reduced nor eliminated.

7. In the event of serious difficulties in respect of imports of a given product, the schedule for tariff reduction and dismantling may be reviewed by the EPA Committee by common accord with a view to possibly extending the period of reduction or elimination. During a review of this kind, the calendar period for which the review has been requested may not be extended, for the product concerned, beyond the maximum transitional period for the reduction or elimination of tariffs provided for this same product. If the EPA Committee has not made a decision within 30 days of an application to review the timetable, Cameroon may suspend the timetable provisionally for a period which may not exceed one year.

## ARTICLE 22

### **Prohibition of quantitative restrictions**

Upon entry into force of this Agreement, all prohibitions or restrictions on imports or exports affecting trade between the two Parties shall be eliminated, apart from the customs duties, taxes, fees and other charges referred to under Article 18 of this Chapter, whether made effective through quotas, import or export licenses or other measures. No new measures may be introduced. The provisions of this Article shall apply without prejudice to the provisions of Chapter 2 of this Agreement on trade defence instruments.

## ARTICLE 23

### **National treatment on internal regulations and taxation**

1. Imported products originating in the territory of the other Party shall not be subject, either directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like national products. Moreover, the Parties shall not otherwise apply internal taxes or other internal charges so as to afford protection to national production.

2. Imported products originating in the territory of the other Party shall be accorded treatment no less favourable than that accorded to like national products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the origin of the product.

3. Neither Party shall establish or maintain any internal regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from national sources. Moreover, neither Party shall otherwise apply internal quantitative regulations so as to afford protection to national production.

4. No internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions shall be applied in such a manner as to allocate any such amount or proportion among external sources of supply.

5. In accordance with Article III.8(b) of the General Agreement on Tariffs and Trade of 1994 ('GATT 1994'), the provisions of this Article shall not prevent the payment of subsidies exclusively to national producers, including payments derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of national products.

6. The provisions of this Article shall not apply to laws, regulations, procedures or practices governing public procurement.

7. The provisions of this Article shall apply without prejudice to the provisions of Chapter 2 of this Agreement on trade defence instruments.

## ARTICLE 24

### **Agricultural export subsidies**

1. No Party may introduce new export subsidies or increase any existing subsidy

of this nature on agricultural products destined for the territory of the other Party. With regard to existing subsidies, this paragraph shall not prohibit increases due to variations in the world prices of the products in question.

2. For any group of products, as defined in paragraph 3, which receive an export refund under UK legislation for the same basic product for which Cameroon has undertaken to eliminate its tariffs, the UK undertakes to dismantle all existing subsidies (if any) for exports of this group of products — corresponding to the same basic product — to the territory of Cameroon.

3. This Article shall apply to products covered by Annex I of the WTO Agreement on Agriculture.

4. This Article shall be without prejudice to the application by Cameroon of Article 9.4 of the WTO Agreement on Agriculture and Article 27 of WTO Agreement on Subsidies and Countervailing Measures.

## ARTICLE 25

### **Food security**

Should the implementation of this Agreement lead to problems with the availability of, or access to, the foodstuffs necessary to ensure food security, and where this situation gives rise or is likely to give rise to major difficulties for Cameroon (or, following an accession, another Central African Contracting State), Cameroon or such State may take appropriate measures in accordance with the procedures laid down in Article 31.

## ARTICLE 26

### **Special provisions on administrative cooperation**

1. The Parties agree that administrative cooperation is essential for the implementation and control of the preferential treatment granted under this Title and underline their commitment to tackle irregularities and fraud in customs and related matters.

2. Where one Party obtains proof, based on objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party concerned may temporarily suspend the preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purposes of this Article, a failure to provide administrative cooperation shall be defined, *inter alia*, as:

- (a) a recurrent failure to respect the obligation to verify the originating status of the product(s) concerned;
- (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin; or
- (c) a repeated refusal or undue delay in granting authorisation to conduct a cooperation mission to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

4. The application of a temporary suspension shall be subject to the following conditions:

- (a) The Party which obtains proof, based on objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the EPA Committee of this proof together with the objective information and enter into consultations within the EPA Committee with a view to reaching a solution acceptable to both Parties, on the basis of all relevant information and objective findings;
- (b) Where the Parties have entered into consultations in the EPA Committee as provided for above and have not been able to agree on an acceptable solution within three months of notification, the Party concerned may temporarily suspend the preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the EPA Committee without undue delay; and
- (c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed. The EPA Committee shall be notified of temporary suspensions immediately after their adoption. Such suspensions shall be the subject of periodic consultations within the EPA Committee, particularly with a view to their termination as soon as the conditions for their application no longer exist.

5. At the same time as the notification of the EPA Committee provided for in paragraph 4(a) of this Article, the Party concerned shall publish a notice to importers in its official journal or website. This notice to importers shall indicate that, for the product concerned, proof has been obtained, based on objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

## ARTICLE 27

### **Management of administrative errors**

In case of error by the competent authorities in the management of preferential systems for exports, and in particular in the application of rules defining the concept of ‘originating’ products and methods of administrative cooperation, where this error leads to consequences in terms of imports and exports the Party facing such consequences may request the EPA Committee to examine the possibility of adopting all appropriate measures with a view to resolving the situation.

## ARTICLE 28

### **Cooperation**

In accordance with the provisions of Article 7, the Parties agree to cooperate in the following areas *inter alia*:

- supporting the implementation of trade policy commitments arising from this Agreement;
- training/support in the interpretation and application of these rules.

## CHAPTER 2

### Trade defence instruments<sup>3</sup>

## ARTICLE 29

### **Anti-dumping and countervailing measures**

1. Subject to the provisions of this Article, nothing in this Agreement shall be construed to prevent the UK, or Cameroon, from adopting anti-dumping or countervailing measures in accordance with the relevant WTO Agreements. For the purposes of this Article, origin shall be determined in accordance with the Parties’ non-preferential rules of origin.
2. Before imposing definitive anti-dumping or countervailing duties in respect of products from Cameroon, the UK shall consider the possibility of constructive remedies as provided for in the relevant WTO Agreements.
3. The UK shall notify Cameroon of the receipt of a properly documented complaint before initiating any investigation.

---

<sup>3</sup> In the event of an accession, references in this Chapter to ‘Cameroon’, ‘Party’ and ‘importing Party’ shall be replaced with references to ‘Central African Contracting State’ or ‘Central African Contracting States’ as the context requires.

4. The provisions of this Article shall be applicable in all investigations initiated after this Agreement enters into force.

5. The provisions of this Article shall not be subject to the dispute settlement provisions of this Agreement.

6. In the event of an accession, the Parties agree that paragraphs 7 and 8 shall apply.

7. Where an anti-dumping or countervailing measure has been imposed on behalf of two or more Central African Contracting States at least by a regional or sub-regional authority there shall be one single instance of judicial review, including the stage of appeals.

8. Where anti-dumping or countervailing measures may be imposed on a regional or sub-regional basis and on a national basis, these measures shall not be applied simultaneously to the same product by the regional or sub-regional authorities and the national authorities.

#### ARTICLE 30

##### **Multilateral safeguard measures**

1. Subject to the provisions of this Article, nothing in this Agreement shall be construed to prevent Cameroon or the UK from adopting measures in accordance with Article XIX of the GATT 1994, the WTO Agreement on Safeguards and Article 5 of the WTO Agreement on Agriculture. For the purposes of this Article, origin shall be determined in accordance with the Parties' non-preferential rules of origin.

2. Not later than 180 days after the entry into force of this Agreement, the EPA Committee shall review, in the light of the development needs of Cameroon and without prejudice to paragraph 1, whether to provide for a period during which the UK shall exclude imports from Cameroon from any measures taken pursuant to Article XIX of GATT 1994, the WTO Agreement on Safeguards and Article 5 of the WTO Agreement on Agriculture.

3. The provisions of paragraph 1 shall not be subject to the dispute settlement provisions of this Agreement.

#### ARTICLE 31

##### **Bilateral safeguard measures**

1. Without prejudice to the provisions of Article 30, after having examined alternative solutions, a Party may apply safeguard measures of limited duration which derogate from the provisions of Articles 20 and 21, under the conditions and

in accordance with the procedures laid down in this Article.

2. Safeguard measures as referred to in paragraph 1 may be taken where a product originating in the territory of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

- (a) serious damage to the domestic industry producing like or directly competitive products in the territory of the importing Party;
- (b) disruption in a sector of the economy, particularly where this disruption gives rise to major social problems or difficulties which could seriously jeopardise the economic situation of the importing Party; or
- (c) disruption in the markets of like or directly competitive agricultural products<sup>4</sup> or in the mechanisms regulating those markets.

3. The safeguard measures referred to in this Article shall not exceed what is necessary to remedy or prevent the serious damage or disruption, as defined in paragraphs 2 and 4(b). Those safeguard measures of the importing Party may only consist of one or more of the following:

- (a) the suspension of any further reduction of the applicable import duty provided for under this Agreement for the product concerned;
- (b) an increase in the customs duty on the product concerned to a level which does not exceed the customs duty applied to other WTO Members; and
- (c) the introduction of tariff quotas on the product concerned.

- 4. (a) Without prejudice to the provisions of paragraphs 1, 2 and 3, where a product originating in the UK is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under paragraph 2(a), (b) and (c) above to Cameroon, Cameroon may take surveillance or safeguard measures limited to its territory in accordance with the procedures laid down in paragraphs 5 to 8;
- (b) Cameroon may take safeguard measures where a product originating in the UK, following the reduction of customs duties, is being imported into its territory in such increased quantities and under such conditions as to cause or threaten to cause disruption to an infant industry producing like or directly competitive products. This clause shall be applicable until 3 August 2029. Measures must be taken in accordance with the provisions of paragraphs 5 to 8.

---

<sup>4</sup> For the purposes of this Article, agricultural products shall be those covered by Annex I of the WTO Agreement on Agriculture.

5. (a) The safeguard measures referred to in this Article shall be maintained only for such time as is necessary to prevent or remedy the serious damage or disruption as defined in paragraphs 2 and 4, above;
- (b) The safeguard measures referred to in this Article shall be applied for a period not exceeding two years. Where the circumstances warranting the imposition of safeguard measures continue to exist, such measures may be extended for a further period of no more than two years. Where Cameroon applies a safeguard measure, such measures may nevertheless be applied for a period not exceeding four years and, where the circumstances warranting the imposition of safeguard measures continue to exist, be extended for a further maximum period of four years;
- (c) The safeguard measures referred to in this Article which exceed one year shall have a clear timetable for being phased out by the end of the set period, at the latest;
- (d) No safeguard measure referred to in this Article shall be applied to a product that has previously been subject to such a measure for a period of at least one year since the expiry of the measure.

6. For the implementation of paragraphs 1 to 5, the following provisions shall apply:

- (a) Where a Party is of the opinion that one of the circumstances referred to in paragraphs 2 and/or 4 exists, it shall immediately refer the matter to the EPA Committee;
- (b) The EPA Committee may make recommendations to remedy the circumstances which have arisen. If the EPA Committee has not made recommendations to remedy the circumstances, or if a satisfactory solution has not been reached within 30 days of the matter being referred, the importing Party may adopt the appropriate measures to remedy the situation in accordance with this Article;
- (c) Before taking any measure provided for in this Article or, in the cases to which paragraph 7 applies, the Party concerned shall, as soon as possible, supply the EPA Committee with all information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the Parties concerned;
- (d) In selecting safeguard measures, priority must be given to those which solve the problem rapidly and effectively and disturb the functioning of this Agreement as little as possible;

- (e) All safeguard measures taken in accordance with this Article shall be notified immediately to the EPA Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their termination as soon as circumstances permit.

7. Where exceptional circumstances require immediate measures, the importing Party concerned may take the measures provided for in paragraphs 3 and/or 4 on a provisional basis without complying with the requirements of paragraph 6. Such action may be taken for a maximum period of 180 days where measures are taken by the UK and 200 days where measures are taken by Cameroon. The duration of any such provisional measure shall be counted as part of the period of duration of the measures and of any extension as referred to in paragraph 5. When taking such provisional measures, the interests of all stakeholders shall be taken into account. The importing Party concerned shall inform the other Party and shall refer the matter to the EPA Committee for examination.

8. If an importing Party subjects imports of a product to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows liable to give rise to the problems referred to in this Article, it shall inform the EPA Committee without delay.

9. The relevant WTO Agreements shall not be invoked to prevent a Party from adopting safeguard measures in accordance with the provisions of this Article.

## CHAPTER 4

### **Technical barriers to trade, and sanitary and phytosanitary measures**

## ARTICLE 40

### **Objectives**

The objectives of this Chapter are to facilitate trade in products between the Parties while increasing the capacity of the Parties to identify, prevent and eliminate obstacles to trade as a result of technical regulations, standards and conformity assessment

procedures applied by either Party, and increasing the capacity of the Parties to protect plants, animals and public health.

#### ARTICLE 41

##### **Multilateral obligations and general background**

1. The Parties reaffirm their rights and obligations under the WTO Agreement, and in particular the WTO Agreements on the Application of Sanitary and Phytosanitary Measures ('SPS Agreement') and on Technical Barriers to Trade ('TBT Agreement'). In the event of an accession of a Central African Contracting State that is not a WTO member, the Parties agree that this paragraph should be amended to add:

"Central African Contracting States which are not members of the WTO also confirm their commitment to comply with the obligations set out in the SPS and TBT Agreements with regard to all matters concerning relations between the Parties."

2. The Parties reaffirm their commitment to improve public health in the territory of Cameroon, in particular by strengthening its capacity to identify unsafe products, pursuant to Article 47.

#### ARTICLE 42

##### **Scope and definitions**

1. This Chapter shall apply to those measures within the scope of the WTO SPS and TBT Agreements.

- (ii) the Parties shall inform each other in a timely manner of any significant changes to the competent authorities.

#### ARTICLE 44

#### ARTICLE 46

##### **Regional integration**

1. (a) Cameroon undertakes to encourage regional level initiatives to harmonise the standards and other measures within the scope of this Chapter at the regional level;

- (b) In the event of an accession, the EPA Committee shall review and amend this paragraph. The amendments will set out steps to be taken in order to progress such harmonisation and a timetable for the steps to be completed.
- 2.
  - (a) Paragraph (b) applies only in the event of an accession;
  - (b) With a view to facilitating trade in conformity with Article 40, the Central Africa Party agrees on the need to harmonise import conditions applicable to products originating in the territory of the UK when these products enter a Central African Contracting State. Where national import conditions already exist at the time of this Agreement's entry into force, and pending the introduction of harmonised import conditions in the Central African region, the existing import conditions shall be implemented by the Central Africa Party on the basis that a product from the UK legally placed on the market of a Central African Contracting State may also be legally placed on the market of all other Central African Contracting States without any further restriction or administrative requirement.

#### ARTICLE 47

##### **Capacity-building and technical assistance**

In accordance with the provisions of Article 7, the Parties agree to cooperate in the following areas *inter alia*:

ARTICLE 50

**Trade in timber, non-timber forest products and derivatives**

1. The Parties shall work together to facilitate trade between the UK and Cameroon in timber and forest products which come from objectively verifiable legal sources and help to achieve sustainable development. The Parties agree to:
  - (a) implement measures to increase market confidence regarding the origin of forest products, particularly their legal and/or sustainable origin. These measures may include systems to improve the traceability of timber and forest products sold both within the Central African region and between the Cameroon and the UK;
  - (b) put in place an audit and surveillance system that is independent of the control chain.
2. The Parties shall explore possible ways of improving commercial opportunities for timber and forest products with a legal or sustainable origin in the Central African region on the market of the UK. 3. The Parties undertake to develop non-discriminatory policies and/or legislation within the scope of this Chapter; they also undertake to ensure the effective and non-

discriminatory implementation of these policies and/or legislation, in accordance with WTO provisions.

## ARTICLE 51

1. Cameroon undertakes to encourage work towards building and implementing a regional framework to govern trade in timber and forest products originating in Central Africa, including the appropriate cooperation mechanisms and legislation to ensure that it is applied and implemented effectively.
2. Cameroon shall work towards developing protocols and/or guidelines for cooperation between the competent authorities in Central Africa which are responsible for implementation, to ensure that intra-regional trade in timber and forest products from Central Africa come from objectively verifiable legal sources.
3. In the event of an accession, the EPA Committee shall review and amend this Article. The amendments will set out steps to be taken in order to achieve the regional framework, the protocols and/or guidelines referred to in paragraphs 1 and 2; and a timetable for the steps to be completed.

## ARTICLE 53

### **Other agreements**

## TITLE IV

### ESTABLISHMENT, TRADE IN SERVICES AND E-COMMERCE

## ARTICLE 54

### **Framework**

1. The Parties reaffirm their respective commitments under the General Agreement on Trade in Services.
2. The Parties undertake to extend the scope of this Agreement, by negotiating the necessary provisions for the gradual, asymmetrical and reciprocal liberalisation of establishment and trade in services.

## ARTICLE 55

### **Cooperation**

The Parties, recognising that strengthening trade capacity can support the development of economic activities, particularly in the services sectors, and strengthen their regulatory framework, reaffirm their respective obligations as set out in Annex V.

TITLE V  
TRADE-RELATED RULES

CHAPTER 1  
Current payments and capital movements

ARTICLE 56

**Continuation of negotiations on current payments and movement of capital**

1. The Parties recognise the need to guarantee that cross-border flows of the funds necessary for the liberalisation of trade in products and services, and for investments by one of the Parties in the region of the other Party, cannot be restricted or prevented by one of the Parties. Any obstacle to these flows would be contrary to the objectives of liberalisation, given that trade or investment, although itself permissible, could not give rise to payment or financing from abroad.
2. To achieve this objective, the Parties undertake to conclude negotiations on a series of issues related to the following:
  - (a) liberalisation of flows of funds relating to trade in products and services, known as ‘current payments’;
  - (b) liberalisation of flows of funds relating to ‘investments’, known as ‘movements of capital relating to investments’, including repatriation of investments and profits;
  - (c) a safeguard clause, granting a short-term derogation from freedom of capital movement, on grounds of serious difficulties as regards monetary situation or balance of payments;
  - (d) a development clause, providing for the liberalisation of other types of capital movements not related to investment.

CHAPTER 2  
Competition

ARTICLE 57

**Continuation of negotiations on competition**

1. The Parties recognise the importance of free and undistorted competition in their trade relations and the fact that certain anti-competitive practices may restrict

trade between the Parties and thus hinder the achievement of the objectives of this Agreement.

2. The Parties therefore agree to take part in negotiations to include a chapter on competition in this Agreement, which will include the following in particular:

- (a) anti-competitive practices which are considered incompatible with the proper functioning of this Agreement, insofar as they can affect trade between the Parties;
- (b) provisions on the effective implementation of competition rules and policies and of regional policies in Central Africa which govern the anti-competitive practices identified in accordance with paragraph 2(a); and
- (c) provisions on technical assistance by independent experts to ensure that the Chapter's objectives are achieved and that Central Africa's competition policies are properly implemented at regional level.

3. The negotiations shall be based on a two-step approach, first applying the rules in the context of regional integration in Central Africa and, after a transition period to be determined jointly, applying the rules bilaterally.

### CHAPTER 3 Intellectual property

#### ARTICLE 58

#### **Continuation of negotiations on intellectual property**

1. The Parties reaffirm their rights and obligations arising from the Agreement on Trade-Related Aspects of Intellectual Property Rights ('TRIPS'), and recognise the need to ensure an adequate and effective level of protection of intellectual, industrial and commercial property rights, and other rights covered by the TRIPS Agreement, in line with international standards and with a view to reducing distortions and impediments to bilateral trade.

2. With due regard for the powers transferred to the African Intellectual Property Organisation ('OAPI'), the Parties undertake to conclude negotiations on a series of commitments regarding intellectual property rights.

3. The Parties also agree to strengthen their cooperation in the area of intellectual property rights. Such cooperation shall be directed at supporting the implementation of each Party's commitments and shall extend to the following areas *inter alia*:

- (a) reinforcement of regional integration initiatives in Central Africa with a

view to improving regional regulatory capacity, regional laws and regulations;

- (b) prevention of the abuse of such rights by right-holders and the infringement of such rights by competitors;
  - (c) support in the preparation of national laws and regulations in Central Africa for the protection and enforcement of intellectual property rights.
4. The negotiations shall be based on a two-step approach, first applying the rules in the context of regional integration in Central Africa and, after a transition period to be determined jointly, applying the rules bilaterally.
  5. In conducting the negotiations, the different levels of development in Cameroon and any other Central African Contracting States should be taken into account.

## CHAPTER 4

### Public procurement

#### ARTICLE 59

#### **Continuation of negotiations on public procurement**

1. The Parties recognise the contribution of transparent and competitive tendering to economic development. They therefore agree to negotiate the gradual and mutual opening of their public procurement markets, while recognising their different levels of development, under the conditions set out in paragraph 3.
2. To achieve this objective, the Parties shall conclude negotiations on a set of potential commitments on procurement, which shall include in particular the following:
  - (a) transparent and non-discriminatory rules, procedures and principles to be applied;
  - (b) lists of the products covered and the thresholds applied;
  - (c) effective challenge procedures;
  - (d) measures to support capacities to implement these commitments, including making use of opportunities created by information technologies.
3. The negotiations shall be based on a two-step approach, first applying the rules in the context of regional integration in Central Africa and, after a transition period to be determined jointly, applying the rules bilaterally.

4. In conducting the negotiations, the UK shall take into account the development, financial and trade needs of Cameroon and any other Central African Contracting States, which may take the form of the following measures in the interest of special and differential treatment:

- (a) appropriate implementation periods, where required, to bring government procurement measures into line with any specific procedural requirements;
- (b) adoption or retention of transitional measures such as a price preference programme or offset, in accordance with a phasing-out schedule.

## CHAPTER 5 Sustainable development

### ARTICLE 60

#### **Continuation of negotiations on sustainable development**

1. The Parties recognise that sustainable development is an overall objective of the EPA. They therefore agree to ensure that sustainability considerations are reflected in all titles of the EPA and to draft specific chapters covering environmental and social issues.

2. To achieve this objective, the Parties shall conclude negotiations on a set of potential commitments on sustainable development, which shall include in particular the following:

- (a) level of protection and right to regulate;
- (b) regional integration in Central Africa, use of international environmental standards and of the International Labour Organization and promotion of decent work;
- (c) upholding levels of protection;
- (d) consultation and monitoring procedures.

3. In conducting the negotiations, the UK shall take into account the development needs of Cameroon and any other Central African Contracting States, which may take the form of provisions on cooperation in this field.

## CHAPTER 6

### Protection of personal data

#### ARTICLE 61

##### **Overall objective**

The Parties, recognising:

- (a) their common interest in protecting the fundamental rights and freedoms of natural persons, and in particular their right to privacy, with respect to the processing of personal data;
- (b) the importance of maintaining effective data protection regimes as a means of protecting the interests of consumers, stimulating investor confidence and facilitating cross-border flows of personal data;
- (c) the need to collect and process personal data in a transparent and fair manner, with due respect accorded to the data subject,

agree to establish appropriate legal and regulatory regimes, and the appropriate administrative capacity to implement them, including independent supervisory authorities, in order to ensure an adequate level of protection of individuals with regard to the processing of personal data, in line with the highest international standards<sup>5</sup>.

#### ARTICLE 62

##### **Definitions**

For the purposes of this Chapter:

- (a) ‘personal data’ shall mean any information relating to an identified or identifiable natural person (data subject);
- (b) ‘processing of personal data’ shall mean any operation or set of operations which is performed upon personal data, such as collection, recording, organisation, storage, alteration, retrieval, consultation, use, disclosure, combination, blocking, erasure or destruction, as well as transfers of personal data across national borders;

---

<sup>5</sup> Standards to be taken into account include the following international instruments:

- (i) Guidelines on computerised personal data files, as amended by the United Nations General Assembly on 20 November 1990.
- (ii) Recommendation of the OECD Council of 11 July 2013 adopting a revised Recommendation Concerning Guidelines Governing the Protection of Privacy and Transborder Flows of Personal Data

- (c) ‘data controller’ shall mean the natural or legal person, authority or any other body which determines the purposes and means of the processing of personal data.

## ARTICLE 63

### **Principles and general rules**

The Parties agree that the legal and regulatory regimes and administrative capacity to be established shall, at a minimum, include the following content principles and enforcement mechanisms:

- (a) Content principles

- (i) The purpose limitation principle — data should be processed for a specific purpose and subsequently used or further communicated only insofar as this is not incompatible with the purpose of the transfer. The only exemptions to these rights should be those provided for in legislation and necessary in a democratic society for the protection of important public interests;
- (ii) The data quality and proportionality principle — data should be accurate and, where necessary, kept up to date. The data should be adequate, relevant and not excessive in relation to the purposes for which they are transferred or further processed;
- (iii) The transparency principle — individuals should be provided with information as to the purpose of the processing and the identity of the data controller in the third country, and other information insofar as this is necessary to ensure fairness. The only exemptions to these rights should be those provided for in legislation and necessary in a democratic society for the protection of important public interests;
- (iv) The security principle — the data controller should take technical and organisational security measures that are appropriate to the risks presented by the processing. Any person acting under the authority of the data controller, including a processor, must not process data except on instructions from the controller;
- (v) The rights of access, rectification and opposition — the data subject should have the right to obtain a copy of all data relating to him/her that are processed, and the right to rectify those data where they are shown to be inaccurate. In certain situations, he/she should also be able to object to the processing of the data relating to him/her. The only exemptions to these rights should be those provided for in legislation and necessary in a democratic society

for the protection of important public interests;

- (vi) Restrictions on onward transfers — as a matter of principle, further transfers of the personal data by the recipient of the original data transfer should be permitted only where the second recipient (i.e. the recipient of the onward transfer) is also subject to rules affording an adequate level of protection;
- (vii) Sensitive data — where special categories of data are involved, revealing racial or ethnic origin, political opinions, religious or philosophical beliefs or trade-union membership, data concerning health and sex, and data relating to offences, criminal convictions or security measures, additional safeguards should be in place.

(b) Enforcement mechanisms

Appropriate mechanisms should be in place to ensure that the following objectives are achieved:

- (i) to ensure a good level of compliance with the rules, including a high degree of awareness among data controllers of their obligations and among data subjects of their rights and the means of exercising them; the existence of effective and dissuasive sanctions; and systems of verification by authorities, auditors or independent data protection officials;
- (ii) to provide support and help to individual data subjects in the exercise of their rights, which they must be able to enforce rapidly and effectively, and without prohibitive cost, including through an appropriate institutional mechanism allowing independent investigation of complaints;
- (iii) to provide appropriate redress to the injured party where rules are not complied with, allowing compensation to be paid and sanctions imposed where appropriate.

## ARTICLE 64

### **Consistency with international commitments**

1. The Parties shall keep each other informed, via the EPA Committee, of the multilateral commitments and agreements with third countries in which they may participate, or of any obligation by which they may be bound and which could be relevant to the application of this Chapter, and in particular of any agreement providing for the processing of personal data, such as personal data being collected, stored or accessed by third parties or transferred to third parties.

2. The Parties may request consultations to discuss any matter which may arise.

## ARTICLE 65

### **Cooperation**

The Parties acknowledge the importance of cooperation in order to facilitate the development of appropriate legislative, judicial and institutional frameworks and to ensure an adequate level of protection of personal data that is consistent with the objectives and principles contained in this Chapter.

## TITLE VI

### DISPUTE AVOIDANCE AND SETTLEMENT

##### **Objective**

The objective of this Title is to avoid and settle any dispute between the Parties with a view to arriving, where possible, at a mutually agreed solution.

#### ARTICLE 67

##### **Scope**

This Title shall apply to any dispute relating to the interpretation or application of this Agreement, except where specifically provided otherwise.

#### CHAPTER 2

3. The consultations shall be held within 40 days of the date on which the request is submitted. The consultations shall be deemed concluded within 60 days of the date of submission of the request unless both Parties agree to continue. All information disclosed during the consultations shall remain confidential.

#### Section I

#### Arbitration procedure

#### ARTICLE 70

##### **Initiation of the arbitration procedure**

1. Where the Parties have failed to resolve the dispute by recourse to consultations as provided for in Article 68, or by recourse to mediation as provided for in Article 69, the complaining Party may request that an arbitration panel be established.
2. A request for the establishment of an arbitration panel shall be addressed in writing to the Party which is the subject of the complaint and to the EPA Committee. The complaining Party shall identify in its request the specific measures at issue, and it shall explain how such measures constitute a breach of the provisions referred to in Article 67.

#### ARTICLE 71

##### **Establishment of an arbitration panel**

1. An arbitration panel shall be composed of three arbitrators.
2. Within 10 days of the date on which the request for the establishment of an arbitration panel is submitted, the Parties shall consult each other in order to reach an agreement on the composition of the arbitration panel.
3. In the event that the Parties are unable to agree on the panel's composition within the time limit laid down in paragraph 2, either Party may request that the chairperson of the EPA Committee, or his or her delegate, select all three members by lot from the list drawn up under Article 85: one from among the individuals proposed by the complaining Party, one from among the individuals proposed by the

Party complained against and one from among the individuals selected by both Parties to act as chairperson. Where the Parties agree on one or more of the members of the arbitration panel, any remaining members shall be selected by the same procedure.

4. The chairperson of the EPA Committee, or his or her delegate, shall select the arbitrators within five days of the request referred to in paragraph 3 being submitted by either Party and in the presence of a representative of each Party.

5. The date of establishment of the arbitration panel shall be the date on which the three arbitrators are selected.

## ARTICLE 72

### **Interim report by the panel**

The arbitration panel shall submit to the Parties an interim report containing both the descriptive sections and the panel's findings and conclusions, as a general rule not later than 120 days from the date of establishment of the arbitration panel. Any Party may submit written comments to the arbitration panel on specific aspects of its interim report within 15 days of submission of the report.

## ARTICLE 73

### **Arbitration panel ruling**

1. The arbitration panel shall notify the Parties and the EPA Committee of its ruling within 150 days from the date on which the arbitration panel is established. Where it considers that this deadline cannot be met, the chairperson of the arbitration panel shall notify the Parties and the EPA Committee in writing, stating the reasons for the delay and the date on which the panel plans to conclude its work. Under no circumstances should the ruling be notified later than 180 days from the date of establishment of the arbitration panel.

2. In urgent cases, including those involving perishable or seasonal goods, the arbitration panel shall make every effort to issue its ruling within 75 days of the date of its establishment. Under no circumstance should it take longer than 90 days from the date of its establishment to issue the ruling. The arbitration panel may give a preliminary ruling within ten days of its establishment on whether it deems the case to be urgent.

3. Either disputing Party may ask an arbitration panel to make recommendations on how the Party complained against could comply.

## Section II Compliance

### ARTICLE 74

#### **Compliance with the arbitration panel ruling**

Each Party or, as appropriate, Central African Contracting States, shall take any measure necessary to implement the arbitration panel ruling, and the Parties shall endeavour to agree on a deadline for compliance with the ruling.

### ARTICLE 75

#### **Reasonable period of time for compliance**

1. No later than 30 days after the Parties have been notified of the arbitration panel ruling, the Party complained against shall notify the complaining Party and the EPA Committee of the time it will require for compliance ('reasonable period of time').
2. In the event of disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party shall, within 20 days of the notification made under paragraph 1 by the Party complained against, request in writing that the arbitration panel determine the length of the reasonable period of time. This request shall be communicated simultaneously to the other Party and to the EPA Committee. The arbitration panel shall notify the Parties and the EPA Committee of its ruling within 30 days of the date of submission of the request.
3. In determining the length of the reasonable period of time, the arbitration panel shall take into consideration the length of time that it should take the Party complained against or, as appropriate, the Central African Contracting State, to adopt comparable legislative or administrative measures to those identified by the Party complained against or, as appropriate, the Central African Contracting States, as being necessary to ensure compliance. The arbitration panel may also take into consideration demonstrable capacity constraints which may affect the adoption of the necessary measures by the Party complained against.
4. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 71 shall apply. The deadline for issuing a ruling shall be 45 days from the date of submission of the request referred to in paragraph 2 of this Article.
5. The reasonable period may be extended by mutual agreement of the Parties.

## ARTICLE 76

### **Review of measures taken to comply with the arbitration panel ruling**

1. The Party complained against shall notify the other Party and the EPA Committee, before the end of the reasonable period of time, of any measure that it has taken to comply with the arbitration panel ruling.
2. In the event of disagreement between the Parties concerning the compatibility of any measure notified under paragraph 1 with the provisions of this Agreement, the complaining Party may request in writing that the arbitration panel rule on the matter. Such request shall identify the specific measure at issue and explain how such measure is incompatible with the provisions of this Agreement. The arbitration panel shall issue its ruling within 90 days of the date of submission of the request. In urgent cases, including those involving perishable or seasonal goods, the arbitration panel shall issue its ruling within 45 days of the date of submission of the request.
3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 71 shall apply. The period for issuing the ruling shall be 105 days from the date of submission of the request referred to in paragraph 2 of this Article.

## ARTICLE 77

### **Temporary provisions in case of non-compliance**

1. If the Party complained against fails to give notification of any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measures notified under Article 76(1) are not compatible with that Party's obligations under the provisions of this Agreement, the Party complained against or, as appropriate, the Central African Contracting State concerned shall, if so requested by the complaining Party, present an offer for temporary compensation. This compensation may include or consist of financial compensation. However, nothing in this Agreement shall oblige the Party complained against or, as appropriate, the Central African Contracting State concerned, to offer such financial compensation.
2. If no agreement on compensation is reached within 30 days of the end of the reasonable period of time or of the arbitration panel's ruling under Article 76 that a measure taken to comply is not compatible with the provisions of this Agreement, the complaining Party shall be entitled, after notifying the other Party, to adopt appropriate measures. These measures may be adopted by the complaining Party or, as appropriate, the Central African Contracting State concerned.
3. In adopting these measures, the complaining Party or, as appropriate, the Central African Contracting State concerned, shall aim to select measures proportionate to the infringement which least affect the achievement of this Agreement's objectives

and take into consideration their impact on the economy of the Party complained against and on the various Central African Contracting States.

4. The UK shall show restraint when asking for compensation or adopting appropriate measures in accordance with paragraph 1 or 2 of this Article.

5. The compensation or appropriate measures shall be temporary and shall be applied only until any measure found to violate the provisions of this Agreement has been withdrawn or amended so as to bring it into conformity with those provisions or until the Parties have agreed to settle the dispute.

## ARTICLE 78

### **Review of measures taken to comply following the adoption of appropriate measures**

1. The Party complained against shall notify the other Party and the EPA Committee of any measure it has taken to comply with the arbitration panel ruling and, in that notification, request an end to the application of appropriate measures by the complaining Party or, as appropriate, the Central African Contracting State concerned.

2. If the Parties do not reach an agreement, within 30 days of the date of submission of the notification, on the compatibility of the notified measures with the provisions of this Agreement, the complaining Party shall request in writing that the arbitration panel rule on the matter. The other Party and the EPA Committee shall be notified of the request. The Parties and the EPA Committee shall be notified of the arbitration panel ruling within 45 days of submission of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with the relevant provisions of this Agreement, the arbitration panel shall determine whether the complaining Party or, as appropriate, the Central African Contracting State concerned may continue to apply appropriate measures. If the arbitration panel rules that any measure taken to comply is in conformity with the provisions of this Agreement, the appropriate measures shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 71 shall apply. The period for issuing the ruling shall be 60 days from the date of submission of the request referred to in paragraph 2 of this Article.

The arbitration panel also has the right to seek the opinion of experts as it deems appropriate. Any information obtained in this manner must be disclosed to each of the Parties and submitted for their comments. Interested parties are authorised to submit *amicus curiae* briefs to the arbitration panel in accordance with the rules of procedure.

### Capacity building and modernisation under the EPA

#### A. General framework

As one of the fundamental principles of the EPA is to promote regional integration and to facilitate the economic and social development of the ACP States, both Parties expect this Agreement to make a useful contribution to meeting the objectives of sustainable development, eradication of poverty and the gradual integration of Cameroon into the global economy.

The aim is to build synergies between the mutual commitments set out in the EPA and development cooperation in order to support a quantitative and qualitative increase in the goods and services produced and exported by Cameroon. In partnership with the UK, operators in Cameroon will promote this objective in the following areas:

1. Development of basic infrastructure
  - Transport
  - Energy
  - Telecommunications
2. Agriculture and food safety at regional level
  - Agricultural production
  - Agro-industry
  - Fisheries
  - Stock farming
  - Aquaculture and fish stocks
3. Competitiveness and diversification of economies
  - Modernisation of businesses
  - Industry
  - Standards and certification (SPS, quality, zootechnical standards, etc.)
4. Strengthening of regional trade
  - Development of the regional common market
  - Taxation and customs
5. Improvement of the business environment
  - Harmonisation of trade policies

6. Setting up EPA institutions
7. Financing of the partnership

Needs identified will be passed on to the EPA Committee or other relevant bodies in order to identify support programmes, possible sources of funding and arrangements for implementing the EPA accompanying measures. For this purpose, experts may be used, where appropriate, in order to identify support programmes, assess their feasibility and propose appropriate arrangements for implementation. These analyses will take the form of development programmes, together with a financial evaluation.

### JOINT STATEMENT OF THE PARTIES ON THE OBJECTIVES AND ESSENTIAL AND FUNDAMENTAL ELEMENTS OF THIS AGREEMENT

1. Advancing economic development is an essential part of how the UK is helping make the global economy work for all. As set out in the UK's Economic Development Strategy 2017, the UK is focused on trade as an engine for poverty reduction; the UK is committed to building the potential for developing countries to trade more with the UK and the rest of the world.
2. As the UK leaves the EU, it is seeking to maintain the effects of all existing EU trade agreements and preferential arrangements, including the EU's Economic Partnership Agreements ('EPAs') with African, Caribbean and Pacific countries. This will ensure that the UK maintains the greatest amount of certainty, continuity and stability in its trade and investment relationships for its businesses, citizens and trading partners.
3. In light of this, the Parties agree that the following principles and procedures shall apply to this Agreement.

#### Objectives and Essential and Fundamental Elements of this Agreement

4. The UK will continue to promote the economic and social development of its EPA partners. This Agreement shall be centred on the objective of reducing and eventually eradicating poverty in a way that is consistent with the objectives of sustainable development.
5. Respect for human rights, democratic principles and the rule of law, and full compliance with and national implementation of existing obligations under international disarmament and non-proliferation treaties, shall underpin the domestic and international policies of the UK and of Cameroon, and constitute the essential elements of this Agreement. Good governance shall also underpin the domestic and international policies of the UK and Cameroon and constitutes a fundamental element of this Agreement.

#### Dialogue relating to Essential and Fundamental Elements of this Agreement

6. The UK and Cameroon shall support regular engagement through comprehensive and balanced dialogue to facilitate their shared agendas.
7. If the UK or Cameroon considers the other to be failing to fulfil an obligation stemming from respect for the essential and fundamental elements of this Agreement, they shall attempt to address this as part of their regular dialogue. If issues persist, they shall share information required for examining the situation, and if necessary hold consultations focused on measures to remedy the situation.
8. Those consultations, which shall begin within 30 days of any invitation to hold them, shall continue for a period established by mutual agreement, though lasting no longer than 120 days.
9. If this process does not lead to an acceptable solution for both the UK and Cameroon, if consultations are refused, or in exceptional cases of particularly serious and flagrant violation of the essential or fundamental elements of this Agreement, requiring an immediate reaction, appropriate measures may be taken.
10. Such measures would be taken in accordance with international law, and proportional to the violation, with priority given to those measures which least disrupt the application of this Agreement. Suspension of this Agreement would be a measure of last resort.

#### Development cooperation

11. The UK and Cameroon place great importance on the successful implementation of this Agreement, and on the continuing trade and development relationship between them. The Parties wish to build on the productive trade relationship under the EU-Central Africa iEPA.
12. Any UK development cooperation in support of this Agreement shall continue to be primarily guided by the principles of the internationally agreed aid effectiveness agenda and the UK Partnership Principles and aims to reduce poverty and achieve the Sustainable Development Goals.

##### Objectives

1. Economic and trade cooperation shall aim at fostering the smooth and gradual integration of Cameroon into the world economy, with due regard for its political choices and development priorities, thereby promoting sustainable development and contributing to poverty eradication in the Central African region.
2. The ultimate objective of economic and trade cooperation is to enable Cameroon to play a full part in international trade. In this context, particular regard shall be had to the need for Cameroon to participate actively in multilateral trade negotiations. Given the current level of development of Cameroon, economic and trade cooperation shall be directed at enabling Cameroon to manage the challenges of globalisation and to adapt progressively to new conditions of international trade, thereby facilitating its transition to the liberalised global economy. In this context, close attention should be paid to Cameroon's vulnerability resulting from dependency on commodities or a few key products, including value-added agro-industry products, and the risk of preference erosion.
3. To this end, economic and trade cooperation shall aim, through national and regional development strategies, at enhancing the production, supply and trading capacity of Cameroon as well as its capacity to attract investment, as the basis for such enhancements in the Central African region. It shall further aim at creating a new trading dynamic between the Parties, at strengthening Cameroon's trade and investment policies, at reducing its dependency on commodities, at promoting a more diversified economy and at improving Cameroon's capacity to handle all issues related to trade, thereby supporting such an economy in the Central African region.
4. Economic and trade cooperation shall be implemented in full conformity with the provisions of the World Trade Organization ('WTO'), including special and differential treatment, taking account of the Parties' mutual interests and their respective levels of development. It shall also address the effects of preference erosion in full conformity with multilateral commitments.

##### *Article 2*

##### Principles

1. Economic and trade cooperation shall be based on a true, strengthened and strategic partnership. It shall further be based on a comprehensive approach which builds on the strengths and achievements of the previous ACP-EC Conventions.
2. Economic and trade cooperation shall build on Central Africa's regional integration initiatives. Cooperation in support of regional cooperation and integration and economic and trade cooperation shall be mutually reinforcing. Economic and trade cooperation shall address, in particular, supply and demand side constraints, notably interconnectivity of infrastructure, economic diversification and trade development measures as a means of enhancing Cameroon's competitiveness, thereby supporting the promotion of these objectives in the Central African region. Appropriate weight shall therefore be given to the corresponding measures in Cameroon's development strategies, which the UK shall support, in particular through the provision of aid for trade.
3. Economic and trade cooperation shall take account of the different needs and level of development in Cameroon.

#### COOPERATION IN THE INTERNATIONAL FORA

##### *Article 3*

##### General Provisions

1. The Parties underline the importance of their active participation in the WTO as well as in other relevant international organisations by being or becoming members of these organisations and closely following their agenda and activities.
2. They agree to cooperate closely in identifying and furthering their common interests in international economic and trade cooperation in particular in the WTO, including participation in setting and conducting the agenda in future multilateral trade negotiations. In this context, particular attention shall be paid to improve access to the UK and other markets for products and services originating in Cameroon.
3. They also agree on the importance of flexibility in WTO rules to take account of Cameroon's level of development as well as of the difficulties faced in meeting its obligations. They further agree on the need for technical assistance to enable Cameroon to implement its commitments.
4. The UK agrees to assist Cameroon in its efforts to become an active member of these organisations, by developing the necessary capacity to negotiate, participate effectively, monitor and implement these agreements.

## TRADE IN SERVICES

### *Article 4*

#### General Provisions

1. The Parties underline the growing importance of services in international trade and their major contribution to economic and social development.
2. They reaffirm their respective commitments under the General Agreement on Trade in Services ('GATS'), and underline the need for special and differential treatment to suppliers of services from Cameroon.
3. In the framework of the negotiations for progressive liberalisation in trade and services, as provided for in Article XIX of GATS, the UK undertakes to give sympathetic consideration to Cameroon's priorities for improvement in the UK's GATS schedule, with a view to meeting its specific interests.
4. The Parties further agree on the objective of extending under the economic partnership agreements, and after they have acquired some experience in applying the Most Favoured Nation ('MFN') treatment under GATS, their partnership to encompass the liberalisation of services in accordance with the provisions of GATS and particularly those relating to the participation of developing countries in liberalisation agreements.
5. The UK shall support, in conformity with Article 2 of this Annex, Cameroon's efforts to strengthen its capacity in the supply of services. Particular attention shall be paid to services related to labour, business, distribution, finance, tourism, culture and construction and related engineering services with a view to enhancing its competitiveness and thereby increasing the value and the volume of its trade in goods and services.

## MARITIME TRANSPORT

### *Article 5*

1. The Parties acknowledge the importance of cost-effective and efficient maritime transport services in a safe and clean marine environment as the main mode of transportation facilitating international trade and thereby constituting one of the forces behind economic development and the development of trade.
2. They undertake to promote the liberalisation of maritime transport and to this end apply effectively the principle of unrestricted access to the international maritime transport market on a non-discriminatory and commercial basis.
3. Each Party shall grant, *inter alia*, a treatment no less favourable than that accorded to its own ships, for ships operated by nationals or companies of the other Party, and for ships registered in the territory of either party, with respect to access to ports, the use of infrastructure and auxiliary maritime services of those ports, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.
4. The UK shall support, in conformity with Article 2 of this Annex, Cameroon's efforts to develop and promote cost-effective and efficient maritime transport services with a view to increasing the participation of its operators in international shipping services.

## INFORMATION AND COMMUNICATION TECHNOLOGIES, AND INFORMATION SOCIETY

### *Article 6*

1. The Parties recognise the important role of information and communication technologies, as well as the active participation in the Information Society, as a pre-requisite for the successful integration of Cameroon into the world economy.
2. They therefore reconfirm their respective commitments under existing multilateral agreements, and note in particular the value of the protocol on Basic Telecommunications attached to the GATS. Where Cameroon, or in the event of accession, another Central African Contracting State, is not yet a member of relevant agreements, it will consider acceding to them.
3. The Parties furthermore agree to participate fully and actively in any future international negotiation which might be conducted in this area.
4. The Parties will therefore take measures that will enable inhabitants of Cameroon easy access to information and communication technologies, through, amongst other things, the following measures:
  - the development and encouragement of the use of affordable renewable energy resources;
  - the development and deployment of more extensive low-cost wireless networks; and
  - the development and encouragement of the use of local content for information and communication technologies.

5. The Parties also agree to step up cooperation between them in the area of information and communication technologies, and the Information Society. This cooperation shall, in conformity with Article 2 of this Annex, in particular be directed towards greater complementarity and harmonisation of communication systems, at national, regional and international level and their adaptation to new technologies.

## COMPETITION POLICY

### *Article 7*

1. The Parties agree that the introduction and implementation of effective and sound competition policies and rules are of crucial importance in order to improve and secure an investment friendly climate, a sustainable industrialisation process and transparency in the access to markets.
2. To ensure the elimination of distortions to sound competition, they undertake to implement national or regional rules and policies including the control and under certain conditions the prohibition of agreements between undertakings, decisions by associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition. The Parties further agree to prohibit the abuse by one or more undertakings of a dominant position in the market of either Party, or, in the event of accession, in the territory of a Central African Contracting State.
3. The Parties also agree to reinforce cooperation in this area with a view to formulating and supporting effective competition policies with the appropriate national competition agencies that progressively ensure the efficient enforcement of the competition rules by both private and state enterprises. Cooperation in this area shall, in particular, in conformity with Article 2 of this Annex, include assistance in the drafting of an appropriate legal framework and its administrative enforcement.

The UK and Cameroon, recognising the importance of private investment in the promotion of their development cooperation and acknowledging the need to take steps to promote such investment, may:
