Subject: Re: S62A/2025/0092 Objection to Planning Application 25/11086/PINS – 10 Melvin Square & 1 Ilminster Avenue, Bristol BS4 1LZ

Dear Leanne,

Thank you for your response.

The submitted videos and photos illustrate the hazardous situation caused by HGVs parking and delivering goods to the Best One store at 10 Melvin Square. This presents a particular risk to preschool children, their parents, and other pedestrians using the nearby school located by the roundabout.

The footage also shows the difficulties faced by other road users, including buses, which are often delayed due to obstructed access when an HGV is parked at 1 Ilminster Avenue, right at the exit of the roundabout.

Furthermore, by granting permission for the construction of a large HMO with 16 single bedrooms, the Council risks making the area even more overcrowded. This would significantly increase existing safety hazards for pedestrians and road users alike.

Kind regards,
Grzegorz Krol

Good afternoon

Thank you for your message.

Your comments on the application will be added to the case file and will be published but there are practical difficulties in making your video clips available.

At this stage it would be helpful for the appointed person if you could provide the contents of the video in a few photos with short annotations (which we can incorporate into your representation).

Kind regards

Leanne
