| RA 1005 has been amended to ensure it remains up-to-date with current MoD aviation terminology and policy. The amendments incorporate RFCs and accepted comments from the Regulated Community during 2 cycles of NPA. The main amendments bring the Maintenance practices for Aircrew Equipment Assemblies, Survival Equipment, On Aircraft Maintenance, Aircraft Engine Maintenance (B1, B2, and B3), Helicopter Transmission Maintenance, Aircraft Component Maintenance on UK Government Property, and Airborne Equipment within the scope of DAOS and / or MAOS and into line with Air Systems components. The changes aim to align the governance and maintenance practices with other aircraft specialisations and ultimately bring into scope a number of Organizations conducting work on components critical to Continuing Airworthiness. |
