Dear Planners

I live [REDACTED] and wanted you to know that parking is a massive problem. Even now without extending this nursing home.

It is really difficult for us to park, this results in cars being parked dangerously which makes it dangerous to cross the road. There are lots of children who walk from or through this area to Westbury Park School and it is very dangerous for them. Adding more staff and visitors who will park on these roads will make the problem worse.

Please don't allow this application. This application is virtually the same as those that have previously been rejected. The reasons for rejection have not changed.

Thank you.

Seb Eastwood
