EXPORTING COUNTRY: UNITED KINGDOM

CERTIFYING VETERINARIAN: OFFICIAL VETERINARIAN

I. Number and identification of the dog/cat*

Microchip number	Breed	Age/date of Birth	Sex	Colour and any distinguishing features

Import permit number/re-entry card:

Microchip:

Date of microchip:

Type of scanner:

Microchip implantation site:

II. Origin of the dog/cat*

a) Name and address of exporter:

b) Address of premises of origin:

c) Name of owner/responsible person:

III. Destination of the dog/cat*:

a) Name and address of importer:

b) Premises of destination:

IV. Health Information:

I, the undersigned, certify that:

a) on (date), being within 24 hours of export, the dog/cat* was examined and found to be free from clinical signs of infectious or contagious disease, including **rabies**, and in my opinion fit to travel;

b) after due enquiry having examined the animal and following receipt of a written declaration from the owner/agent of the owner*, I am satisfied that:

(i) ONLY IN THE CASE OF A DOG*

the dog is not one of the following breeds (including crosses of these breeds):

- Pit Bull Terrier and American Pit Bull Terrier
- Staffordshire Bull Terrier, American Staffordshire Terrier and American Bully.
- Japanese Tosa (Tosa Inu, and Tosa Fighting Dog)
- Argentinean Fighting Dog (Dogo Argentino, and Argentinean Mastiff)
- Brazilian Fighting Dog (Fila Brasileiro and Brazilian Mastiff)
- Tibetan Mastiff
- Neapolitan Mastiff
- French Mastiff (Dogue de Bordeaux)
- Boerboel
- Bullmastiff
- Cane Corso (Italian Mastiff)
- Presa Canario (Presso De Presa Canario, Canary Mastiff)
- Bully Kutta (Alangu Mastiff, Indian Mastiff)

(ii) IN THE CASE OF DOGS/CATS*

the dog/cat* is not less than 15 weeks of age at the time of export;

c) the United Kingdom is free of **rabies** according to the rules of the World Organisation of Animal Health (OIE) Terrestrial Animal Health Code;

d) the dog/cat* has received the following vaccinations. (NOTE: **initial vaccination against rabies** must be carried out more than 21 days prior to export, and the animal must be at least 12 weeks of age at the time of rabies vaccination):

	Disease	Date of last vaccination	Type of Vaccine and batch number	Expiry date	Manufacturer
DOGS*	Canine distemper virus				
	Canine parvovirus				
	Infectious canine hepatitis				
	Leptospirosis				
	Rabies				
CATS*	Feline pan leukopenia				
	Feline rhinotrachitis				
	Feline calicivirus				
	Rabies				

e) the dog/cat* has been treated for external parasites (using Fipronil or Permethrin) less than 14 days prior to shipping.

f) the dog/cat* has been treated for internal parasites using an Anthelmintic containing Praziquantel less than 14 days prior to shipping.

* Delete as applicable

V. This certificate is valid for 10 days.
