Meta: Nick Clegg, Rebecca Stimson

- **SoS** made note of the meeting he had with Clegg back in February, and would like to continue strong engagement with DSIT going forward. Made mention of the move to make DSIT the digital centre, supporting modernising the public sector and diffusing digital technology throughout the economy. As Meta expands its work in GenAI, he hope this would be of value to them.
- **Nick Clegg (NC)** expressed his enthusiasm hearing this [redacted] **NC** underlined his view that open-source models should be the default, given the ability to run them on your own systems. [redacted]

- [redacted]
- **SoS** asked about Meta's investment in the UK, and was pleased to visit the King's Cross facility, he asked about plans for future and any barriers to future investment [redacted]
- **SoS** replied, noting AV is something this government is interested in. On child safety, we're waiting for further guidance and codes from Ofcom. [redacted]
- **NC** accepted was a responsibility for tech firms to do more to reassure parents of children's safety. Noted the introduction on Instagram of 50 tools/controls for parents, but accepts more needs to be done on take-up [redacted]
