

Mozambique

This factsheet provides the latest statistics on trade and investment between the UK and Mozambique.

Date of release: 19 June 2025; Date of next planned release: 1 August 2025

Total trade in goods and services (exports plus imports) between the UK and Mozambique¹ was **£334 million** in the four quarters to the end of Q4 2024, an increase of 16.4% or £47 million in current prices from the four quarters to the end of Q4 2023. Of this £334 million:

- Total UK **exports** to Mozambique amounted to £260 million in the four quarters to the end of Q4 2024 (an increase of 23.8% or £50 million in current prices, compared to the four quarters to the end of Q4 2023);
- Total UK **imports** from Mozambique amounted to £74 million in the four quarters to the end of Q4 2024 (a decrease of 3.9% or £3 million in current prices, compared to the four quarters to the end of Q4 2023).

Mozambique was the UK's 122nd largest trading partner in the four quarters to the end of Q4 2024 accounting for less than 0.1% of total UK trade.²

At the end of 2023, the **outward stock of foreign direct investment (FDI)** from the UK in Mozambique was £57 million, 40.9% or £39 million lower than the end of 2022. At the end of 2023, Mozambique accounted for less than 0.1% of the total UK outward FDI stock.

At the end of 2023, the **inward stock of foreign direct investment (FDI)** in the UK from Mozambique was £-500 thousand.³

¹the four quarters to the end of Q4 2024' refers to the 12 months to the end of December 2024

²Trade data sourced from the latest ONS publication of [UK total trade: all countries seasonally adjusted](#) data.

³Investment data sourced from the ONS [ad-hoc data release](#) if not provided in the latest ONS [main FDI release](#).

About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and Mozambique. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for Business and Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade in goods between the UK and each trading partner, broken down by UK country and English region.](#)
- [Trade in services between the UK and each trading partner, broken down by mode of supply.](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for Business and Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used. Please do not use previous factsheets to analyse earlier time periods than those shown in the most recent factsheets, as the data will have been revised and previous factsheets will no longer be correct. For analysis of earlier time periods, please use the published source data.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for Business and Trade can be found online.

Summary trade and investment statistics for Mozambique

UK trade with Mozambique, in current prices (based on the latest four quarters)⁴

Trade	Value in the four quarters to the end of Q4 2024	Change from the four quarters to the end of Q4 2023
Total trade	£334 million	an increase of 16.4% or £47 million
Ranking out of all the UK's trading partners	122nd	
Total UK exports	£260 million	an increase of 23.8% or £50 million
Ranking out of all the UK's export partners	104th	
UK exports of goods (percentage of total UK goods exports)	£30 million (11.5%)	an increase of 7.1% or £2 million
UK exports of services (percentage of total UK services exports)	£230 million (88.5%)	an increase of 26.4% or £48 million
Total UK imports	£74 million	a decrease of 3.9% or £3 million
Ranking out of all the UK's import partners	135th	
UK imports of goods (percentage of total UK goods imports)	£15 million (20.3%)	an increase of 7.1% or £1 million
UK imports of services (percentage of total UK services imports)	£59 million (79.7%)	a decrease of 6.3% or £4 million

'the four quarters to the end of Q4 2024' refers to the 12 months to the end of December 2024

⁴Trade data sourced from Office for National Statistics data on [UK total trade \(seasonally adjusted data\)](#).

UK market share in Mozambique⁵

UK market share for total trade	Value in 2023	Change from 2022
Total UK market share	2.3%	an increase of 1.0 percentage points
UK market share for goods only	0.4%	an increase of 0.1 percentage points
UK market share for services only	11.3%	an increase of 4.7 percentage points

UK Foreign Direct Investment (FDI) with Mozambique⁶

UK FDI stock	Value at the end of 2023	Change from the end of 2022
Total UK outward FDI stock	£57 million	a decrease of 40.9% or £39 million
Total UK inward FDI stock	£-500 thousand	Not available due to low investment

Economic statistics and projections using gross domestic product (GDP) for Mozambique⁷

Economic statistics	2023	2024	2025	2026
Economic growth, using GDP in real terms, compared to the previous year	5.4%	1.9%	2.5%	3.5%
GDP per capita in \$USD (in thousands)	0.6	0.6	0.7	0.7
GDP in current prices (billion \$USD)	21.0	21.9	23.8	25.4
Global GDP Ranking	122	125	121	121

Figures for 2025 and 2026 are forecast projections.

⁵UK market share data calculated using the methodology outlined in the [market share section](#) in the factsheet, based on data from the Office for National Statistics and United Nations Conference on Trade and Development.

⁶FDI data sourced from the Office for National Statistics [ad-hoc data release for FDI with all partners](#).

⁷Economic data sourced from the International Monetary Fund [World Economic Outlook](#) databases; Estimates and projections are given in italics; GDP rankings where provided are based on values in current prices (nominal terms) in \$USD, where some partner values are based on estimates which may influence the rankings when revised.

Trade with Mozambique, in current prices (ONS)^{8 9 10}

Trade definitions

- **UK exports** - Goods and services that were produced or sourced in the UK, which were sold to Mozambique.
- **UK imports** - Goods and services that were sold to the UK, which were produced or sourced by Mozambique.
- **Total or 'bilateral' trade** - The value of total trade between the UK and Mozambique (exports plus imports).
- **Trade balance** - The difference between exports and imports, calculated by UK exports minus UK imports.
- **Trade surplus** - This occurs when the value of UK exports to Mozambique is greater than the value of UK imports from Mozambique.
- **Trade deficit** - This occurs when the value of UK exports to Mozambique is less than the value of UK imports from Mozambique.

Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information.

These statistics are given on a balance of payments (change of ownership) basis.

Note: UK trade statistics experienced higher levels of volatility between 2019 and 2022, due to the pandemic, global recession, supply chain disruption, EU Exit, Russia's invasion of Ukraine, price inflation, conflict in the Middle East, and data collection changes. All figures are reported in current prices (not adjusted for inflation), unless otherwise stated. We recognise that some of the recent changes in UK trade values will be partly due to price changes.

Total trade in goods and services (exports plus imports) between the UK and Mozambique was £334 million in the four quarters to the end of Q4 2024, an increase of 16.4% or £47 million in current prices from the four quarters to the end of Q4 2023.

In the four quarters to the end of Q4 2024, **total UK exports** to Mozambique amounted to £260 million (an increase of 23.8% or £50 million in current prices, compared to the four quarters to the end of Q4 2023).

Of all UK exports to Mozambique in the four quarters to the end of Q4 2024, £30 million (11.5%) were **goods** and £230 million (88.5%) were **services**. In the four quarters to the end of Q4 2024, UK **exports of goods** to Mozambique increased by 7.1% or £2 million in current prices, compared to the four quarters to the end of Q4 2023 while UK **exports of services** to Mozambique increased by 26.4% or £48 million in current prices, compared to the four quarters to the end of Q4 2023.

In the four quarters to the end of Q4 2024, **total UK imports** from Mozambique were £74 million (a decrease of 3.9% or £3 million in current prices, compared to the four quarters to the end of Q4 2023).

Of all UK imports from Mozambique in the four quarters to the end of Q4 2024, £15 million (20.3%) were **goods** and £59 million (79.7%) were **services**. In the same period, UK **imports of goods** from Mozambique increased by 7.1% or £1 million in current prices, compared to the four quarters to the end of Q4 2023 while UK **imports of services** from Mozambique decreased by 6.3% or £4 million in current prices, compared to the four quarters to the end of Q4 2023.

This means the UK reported a **total trade surplus** of £186 million with Mozambique, compared to a trade surplus of £133 million in the four quarters to the end of Q4 2023. In the four quarters to the end of Q4 2024, the UK had a **trade in goods surplus** of £15 million with Mozambique, compared to a trade in goods surplus of £14 million in the four quarters to the end of Q4 2023. Meanwhile, in the four quarters to the end of Q4 2024 the UK reported a **trade in services surplus** of £171 million with Mozambique, compared to a trade in services surplus of £119 million in the four quarters to the end of Q4 2023.

⁸Office for National Statistics (ONS) data source for total trade: [UK total trade data \(seasonally adjusted\)](#).

⁹This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to Mozambique (reported by the UK) may not match the value of Mozambique imports from the UK (reported by Mozambique).

¹⁰Data are in current prices, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.

The charts below present a time series for trade between the UK and Mozambique for each year between 2015 and 2024:

Source: ONS, UK trade in goods and services, Q4 2024

The data that are presented in the charts above are given in the table below in £ million:

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
Value of total trade	632	345	469	467	537	656	255	248	287	334
Value of exports	329	118	125	164	302	554	195	168	210	260
Value of imports	303	227	344	303	235	102	60	80	77	74
Trade balance	+26	-109	-219	-139	+67	+452	+135	+88	+133	+186

In the four quarters to the end of Q4 2024, Mozambique was the UK's:¹¹

- **122nd largest trading partner** (accounting for less than 0.1% of total UK trade).
 - 138th largest **goods** trading partner (less than 0.1% of UK goods trade).
 - 108th largest **services** trading partner (less than 0.1% of UK services trade).
- **104th largest export market** (accounting for less than 0.1% of total UK exports).
 - Joint 136th largest **goods** export market (less than 0.1% of UK goods exports).
 - 90th largest **services** export market (less than 0.1% of UK services exports).
- **135th largest import market** (accounting for less than 0.1% of total UK imports).
 - 129th largest **goods** import market (less than 0.1% of UK goods imports).
 - Joint 122nd largest **services** import market (less than 0.1% of UK services imports).

More timely data, for trade in goods only¹² is published by the [ONS](#).

¹¹Rankings are based on the ONS dataset which contains data for all individual partners: [UK total trade data \(seasonally adjusted\)](#).

¹²ONS data source for trade in the latest 12 months up to April 2025: [UK Trade data \(seasonally adjusted\)](#).

Trade in goods by commodity, in current prices (ONS)^{13 14}

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 goods exported from the UK to Mozambique** in the four quarters to the end of Q4 2024 were as follows:

Commodity	Exports in the four quarters to the end of Q4 2024	Percentage of total goods exports	Change from the four quarters to the end of Q4 2023
78K - Road vehicles other than cars (capital)	£3.5 million	-	a decrease of 56.4%
76K - Telecoms & sound equipment (capital)	£2.9 million	-	-
74K - General industrial machinery (capital)	£1.7 million	-	-
74I - General industrial machinery (intermediate)	£1.7 million	-	an increase of 81.9%
77I - Miscellaneous electrical goods (intermediate)	£1.7 million	-	-

'the four quarters to the end of Q4 2024' refers to the 12 months to the end of December 2024

The **top 5 goods imported to the UK from Mozambique** in the four quarters to the end of Q4 2024 were as follows:

Commodity	Imports in the four quarters to the end of Q4 2024	Percentage of total goods imports	Change from the four quarters to the end of Q4 2023
06 - Sugar	£9.0 million	-	-
07 - Coffee, tea, cocoa etc	£3.7 million	-	-
05 - Vegetables & fruit	£540 thousand	-	a decrease of 55.0%
27 - Crude minerals & fertilisers	£450 thousand	-	an increase of 2.3%
55 - Toilet & cleansing preparations	£360 thousand	-	Nil trade in previous period

'the four quarters to the end of Q4 2024' refers to the 12 months to the end of December 2024

Note: The percentage of the total UK imports and exports from Mozambique accounted for by the above commodities are not provided here. This is due to the value of total UK imports and exports of goods being rounded to the nearest £million, with commodity trade values being given to a greater level of accuracy. In some cases, this means the percentages above might sum to more than 100%.

Note: Percentage changes between the current and previous period that exceed 100% have been omitted. This is to avoid presenting small value changes from a low base as fast growing.

¹³ Data on trade in goods by commodity are sourced from data by the ONS: [UK trade release \(non-seasonally adjusted\)](#). These statistics for [exports](#) and [imports](#) present the latest data from the ONS publication which are given on a monthly basis.

¹⁴ The commodities are categorised by the ONS based on [SITC](#) codes using a mixture of level 2 and level 3 codes.

The chart below shows the top 5 goods exported from the UK to Mozambique and the top 5 goods imported to the UK from Mozambique, by value, in the four quarters to the end of Q4 2024. All data shown in the chart are provided in the text above.

The top 5 UK goods exports, in the four quarters to the end of Q4 2024, to Mozambique

Source: ONS, April 2025

The top 5 UK goods imports, in the four quarters to the end of Q4 2024, from Mozambique

Source: ONS, April 2025

Trade in services by service type, in current prices (ONS)¹⁵

Note: Service type data for the trade in services between the UK and Mozambique in the four quarters to the end of Q4 2024 are not available from UK sources.

¹⁵Trade in services by service type is sourced from data by the ONS: [UK trade in services by partner country \(non-seasonally adjusted\)](#).

Trade in goods by UK countries and English regions, in current prices (HMRC)¹⁶

Regional trade definitions

- **UK regions** - The UK is categorised into 12 regions based on the International Territorial level 1 (ITL1). This level includes 9 regions in England, as well as Wales, Scotland and Northern Ireland.
- **Regional trade data** - The data are compiled by merging HM Revenues & Customs (HMRC) trade data with employment data from the Interdepartmental Business Register (IDBR) so a business' trade can be allocated to a UK region based on the proportion of its employees employed in that region. Where a trader is not matched with the IDBR, its trade is matched with ONS postcode data to obtain the UK region in which the Head Office of the VAT-registered business is based.

Note: Data for UK regions are not available from this source for Mozambique in 2024.

¹⁶HMRC data source for regional UK trade data: [HMRC Regional Trade Statistics](#) (data extracted from the spreadsheet download using the HMRC [interactive tables](#)).

Trade in services by mode of supply, in current prices (ONS)¹⁷

Trade in Services by Mode of Supply definitions

- **Modes of Supply** define the way services trade is conducted. The World Trade Organisation's [General Agreement on Services](#) categorises methods for trade in services into four different modes of supply, which depend upon on the territorial presence of the supplier and the consumer at the time of transaction.
- **Mode 1** - Remote trade (a supplier in one country sells a service to a customer in another, without the movement of people).
- **Mode 2** - Consumption abroad (the person receiving the service travels to the supplier's country).
- **Mode 3** - Commercial presence (e.g. a company subsidiary) - this mode is not counted as part of UK services trade on a balance of payments basis and is not reported in this release. This means that total figures are only the total of Modes 1, 2 and 4.
- **Mode 4** - Presence of natural persons (a supplier sends its personnel to the customer's country to provide service).

UK services exports to Mozambique by mode of supply in 2022:

- Data on services exports to Mozambique by mode of supply are not available from this source.

UK services imports from Mozambique by mode of supply in 2022:

- Data on services imports from Mozambique by mode of supply are not available from this source.

¹⁷ONS data source for UK Trade in Services by Mode of Supply: [ONS Imports and exports of services by country, by modes of supply, UK](#)

UK Market Share (ONS and UNCTAD)^{18 19}

Market Share definitions

- **UK market share** – Imports from the UK as a percentage of all the goods and services imported by Mozambique. Market share is provided for total imports from the UK, as well as for goods and services separately.
- **Market share methodology** – These UK market share statistics are derived by the Department for Business and Trade, using publicly available data from the Office for National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate ²⁰.

The UK's market share for Mozambique in 2023 was as follows:

- **The total UK market share in Mozambique was 2.3% in 2023 for goods and services.** This is an increase of 1.0 percentage points from 2022.
- The UK market share in Mozambique was 0.4% in 2023 for **goods only**. This is an increase of 0.1 percentage points from 2022.
- The UK market share in Mozambique was 11.3% in 2023 for **services only**. This is an increase of 4.7 percentage points from 2022.

The table below presents the UK's market share for Mozambique between 2014 and 2023. Values presented in italics are based on UNCTAD estimates of imports.

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Total goods and services	4.6%	4.8%	2.0%	2.0%	1.9%	3.9%	8.2%	2.5%	1.3%	2.3%
Goods only	0.9%	0.6%	0.4%	0.6%	0.5%	2.1%	1.2%	0.8%	0.3%	0.4%
Services only	12.6%	15.1%	4.5%	4.6%	4.2%	8.5%	23.0%	8.0%	6.6%	11.3%

¹⁸ ONS data source for market share: [UK total trade data \(seasonally adjusted\)](#).

¹⁹ UNCTAD data source for market share: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#). Some UNCTAD data may be based on estimates.

²⁰ Annual average spot exchange rates for \$USD to £GBP are sourced from the [Bank of England](#)

Number of VAT-registered businesses trading goods (HMRC)^{21 22 23}

Business counts definition (Regional Trade in Goods Statistics)

- Business counts report UK VAT-registered business exporting and importing goods. Data is collected primarily from customs declarations (using the Intrastat survey and VAT returns for Northern Ireland businesses trading with the EU).
- Counts exclude businesses trading below the statistical value thresholds for customs declarations and exclude trade in non-monetary gold.

Businesses trading goods with Mozambique in 2024:

- Data on the number of VAT-registered businesses exporting to Mozambique are not available from this source.
- Data on the number of VAT-registered businesses importing from Mozambique are not available from this source.

²¹HMRC data source for Regional Trade Statistics business counts data: [UK trade in goods statistics](#).

²²Data for UK businesses engaged in trade of services with Mozambique are not available. A single business may trade with multiple trading partners abroad, so care should be taken when adding figures for multiple trading partners.

²³HMRC does not receive partner country information for customs declarations with commodity line values that fall under the statistical value threshold of £873 (in value) and 1,000kg (in net mass). Therefore, these counts of exporting/importing businesses only capture those businesses with exports/imports (respectively) above the statistical value threshold. The number of businesses has been rounded to the nearest 100.

Trade in Value Added (OECD)^{24 25}

Trade in Value Added definitions

- **Trade in Value Added (TiVA)** - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.
- **Domestic and foreign value added** - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).
- **TiVA statistics** - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for Business and Trade and Cambridge Econometrics.
- **UK forward linkages for exports** - Measures the reliance of foreign exporters on UK value added (inputs).
- **UK backward linkages for exports** - Measures the reliance of UK exporters on foreign value added (inputs).
- **Employment supported by exports** - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

Note: Data for Mozambique on forward and backward linkages for exports in 2020 are not available from this data source.

Employment supported by exports:²⁶

- Data for Mozambique on employment supported by exports of 2020 are not available.
- Exporting activity in the UK supported 6.7 million jobs in 2020 (20.6% of total UK employment). Data on the number of UK jobs supported by export activity to Mozambique in 2020 are not available.

²⁴ The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\)](#), June 2024; and b) [Trade in employment \(TIM\) database](#), February 2024, indicators EXGR_DEM.

²⁵ The data shown in this factsheet is from 2020.

²⁶ These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

Foreign Direct Investment with Mozambique (ONS)^{27 28 29}

Foreign direct investment definitions

- **Foreign direct investment (FDI)** - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.
- **FDI stock** - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in Mozambique), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a Mozambique parent company in the UK).
- **Data disclosure** - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

***Note:** The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This means data from 2020 and onward are more representative of UK FDI with overseas partners and are comparable.*

More information about the methodology changes can be found on the [ONS website](#).

UK outward FDI stock:

- At the end of 2023, the **stock of FDI from the UK in Mozambique** was £57 million, 40.9% or £39 million lower than the end of 2022. At the end of 2023, Mozambique accounted for less than 0.1% of the total UK outward FDI stock.

UK inward FDI stock:

- At the end of 2023, the **stock of FDI from Mozambique in the UK** was £-500 thousand. A comparison with the previous year is not available due to a low value of investment. At the end of 2023, Mozambique accounted for less than 0.1% of the total UK inward FDI stock.

²⁷Data for both inward and outward FDI between the UK and Mozambique are not available in the main ONS release ([Foreign Direct Investment involving UK companies](#)). Therefore, an [ONS FDI ad-hoc data release](#) is used to provide the latest FDI data for Mozambique where it is unavailable in the main ONS release.

²⁸Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

²⁹This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to Mozambique (reported by the UK) may not match Mozambique inward FDI from the UK (reported by Mozambique). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

Economic statistics (as reported by Mozambique)

Trade and investment data for Mozambique (UNCTAD)^{30 31 32}

The following data are reported by Mozambique and are for reference only. Whenever possible use data from UK sources for trade and investment. All data below are presented in \$USD in billions.

Year	2016	2017	2018	2019	2020	2021	2022	2023
Nominal exports	3.8	5.4	6.8	5.7	4.5	6.5	9.4	9.3
Nominal imports	7.8	8.1	11.4	9.8	8.7	10.5	15.9	11.2
Nominal trade balance	-4.1	-2.6	-4.6	-4.1	-4.2	-4.0	-6.5	-1.9
Inward FDI stock	35.7	38.0	40.7	42.9	46.3	50.1	54.6	57.3
Outward FDI stock	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0

³⁰United Nations Conference on Trade and Development (UNCTAD) data sources for trade: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#); and for investment: [Foreign direct investment: Inward and outward flows and stock, annual](#).

³¹Estimates are given in italics. Historic data pre-2016 can be found on the [UNCTAD website](#).

³²All trade data are on a Balance of Payments basis. The FDI data are on a directional and net (investment minus disinvestment) basis. These figures are given in current prices and are rounded to the nearest \$0.1 billion, with missing data represented by dashes.

Economic data and projections for Mozambique (IMF)^{33 34}

The following table presents economic statistics for Mozambique. Figures from 2025 onwards are forecast projections.

Year	2022	2023	2024	2025	2026	2027	2028	2029	2030
Change in exports (%)	30.1	0.4	1.5	-3.8	3.5	5.8	18.4	20.2	18.2
Change in imports (%)	33.1	-24.6	-5.3	71.9	2.8	-0.7	-0.2	-4.9	0.1
Current account balance (% of GDP)	-36.4	-10.9	-11.6	-41.3	-37.1	-34.4	-27.1	-14.6	-14.7
Global GDP ranking (current prices)	127	122	125	121	121	119	118	117	116
GDP in current prices (billion \$USD)	18.9	21.0	21.9	23.8	25.4	27.1	28.7	32.0	36.3
Change in real GDP (%)	4.4	5.4	1.9	2.5	3.5	4.3	4.0	9.3	11.4
GDP per capita (1,000 \$USD)	0.6	0.6	0.6	0.7	0.7	0.7	0.7	0.8	0.9
GDP PPP (Int'l \$billion)	51.7	56.4	58.9	62.0	65.5	69.6	73.9	82.2	93.3
Inflation, year average (CPI %)	10.4	7.0	3.2	4.9	5.4	5.5	5.5	5.5	5.5
Unemployment rate (% of total labour force)	-	-	-	-	-	-	-	-	-
Population (million)	33.0	33.9	34.9	35.8	36.8	37.8	38.9	39.9	40.9
Total investment (% of GDP)	43.2	19.9	16.6	50.6	47.7	42.6	34.1	23.9	19.9
Gross national savings (% of GDP)	6.8	9.0	5.0	9.3	10.6	8.3	7.0	9.3	5.1
General government net lending/borrowing (% of GDP)	-5.2	-4.2	-6.4	-5.6	-4.5	-4.4	-4.3	-2.7	-1.5
General government gross debt (% of GDP)	100.3	90.8	96.6	101.1	104.2	104.7	103.6	95.6	79.3

³³International Monetary Fund (IMF) provide economic commentary in their [World Economic Outlook reports](#). The latest data presented here can be found in the [World Economic Database, April 2025](#).

³⁴Projections and estimates are given in italics. More information for each metric and each partner, as well as historic data pre-2022, can be found on the [IMF website](#).

Top goods traded with the world by Mozambique, in current prices (UN Comtrade)^{35 36}

Data presented here show the top commodities traded with the world, not solely the UK, by Mozambique. These data are based on a different commodity classification system to the ONS commodity data used earlier in this factsheet, and the two sections should therefore not be directly compared.

Top goods exported to the world by Mozambique in 2023:

Rank	HS Commodity	\$USD billion	% of total goods exported
1	27 - Mineral fuels or oils, products of their distillation	4.8	57.6%
2	76 - Aluminum and articles thereof	1.3	15.4%
3	26 - Ores, slag and ash	0.5	6.2%
4	12 - Oil seeds and oleaginous fruits	0.3	3.4%
5	71 - Precious stones and metals	0.3	3.1%
6	24 - Tobacco and manufactured substitutes	0.2	1.9%
7	07 - Edible vegetables	0.2	1.8%
8	08 - Edible fruit and nuts	0.1	1.5%
9	25 - Salt; sulfur; earths and stone	0.1	1.5%
10	31 - Fertilizers	0.1	1.2%
	All goods exported	8.3	100.0%

Top goods imported from the world by Mozambique in 2023:

Rank	HS Commodity	\$USD billion	% of total goods imported
1	27 - Mineral fuels or oils, products of their distillation	2.2	21.3%
2	84 - Machinery and mechanical appliances	1.1	11.3%
3	87 - Vehicles other than railway or tramway stock	0.7	7.3%
4	10 - Cereals	0.7	6.9%
5	85 - Electrical machinery and equipment	0.7	6.4%
6	28 - Inorganic chemicals	0.5	4.7%
7	15 - Animal or vegetable fats and oils	0.3	3.3%
8	30 - Pharmaceutical products	0.3	2.9%
9	73 - Articles of iron or steel	0.2	2.2%
10	39 - Plastics and articles thereof	0.2	2.2%
	All goods imported	10.1	100.0%

³⁵United Nations (UN) Comtrade data are sourced from the online [UN Comtrade Database](#). The data reported above are for 2023, but as the data upload to UN Comtrade is continuous, more timely data may be available from the source.

³⁶Data are classified using the [Harmonized System](#) and are given on a physical movement basis, with UK data comparable to HMRC data sources rather than the headline trade figures presented here from ONS.

Top services traded with the world by Mozambique, in current prices (ITC Trade Map)^{37 38 39}

Data presented here shows the top service types traded to the world, not solely the UK, by Mozambique.

Top services exported to the world by Mozambique in 2022:

Rank	EBOPS Service Type	\$USD million	% of total services exported
1	Transport	882	78.2%
2	Travel	200	17.8%
3	Insurance and pension services	24	2.1%
4	Telecommunications, computer, and information services	16	1.5%
5	Other business services	5	0.5%
	All services exported	1128	100.0%

Top services imported from the world by Mozambique in 2022:

Rank	EBOPS Service Type	\$USD million	% of total services imported
1	Transport	1217	47.3%
2	Other business services	731	28.4%
3	Insurance and pension services	212	8.2%
4	Telecommunications, computer, and information services	140	5.4%
5	Travel	138	5.3%
	All services imported	2575	100.0%

³⁷International Trade Centre (ITC) Trade Map data are sourced from the online [ITC Trade Map tool](#). The data above are for 2022, but as the data upload to ITC is continuous, more timely data may be available from the source.

³⁸Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

³⁹Estimates are shown in italics, where for some partners only estimates are available - These data have been included for information and should be treated with caution.

Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#).

Our statistical practice is regulated by the Office for Statistics Regulation (OSR). OSR sets the standards of trustworthiness, quality and value in the [Code of Practice for Statistics](#) that all producers of official statistics should adhere to. You are welcome to contact us directly with any comments about how we meet these standards. Alternatively, you can contact OSR by emailing regulation@statistics.gov.uk or via the OSR website.

The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for Business and Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office for Statistics Regulation](#) and are therefore not designated as [Accredited Official Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for Business and Trade welcome any feedback or comments on these factsheets, please send these to statistics@businessandtrade.gov.uk.
