

EMPLOYMENT TRIBUNALS

Claimant: M C A Ambrosino

Respondent: HMG

JUDGMENT

1. The claimant's applications dated 9 April 2025 and 11 April 2025 for reconsideration of the judgment sent to the parties on 9 April 2025 are refused, for the reasons set out below.
2. If the claimant's correspondence dated 29 April 2025 is also intended to be an application for reconsideration, it is refused because it has been made out of time, and for the reasons set out below.

REASONS

There is no reasonable prospect of the original decision being varied or revoked, because the applications for reconsideration are largely incoherent and provide no clear indication which the parts of the judgment are said to be incorrect or why. Indeed the claimant notes he has not in fact read the full decision. In so far as the claimant appears to suggest that there had already been some finding in his favour made by Employment Judge Webster in relation to the respondent's strike out application, this is misconceived and is dealt with at paragraph 7 of the judgment.
