

Contents of this spreadsheet: tables and accompanying notes for charity tax statistics

Tab name Description

Table1 Summary of tax reliefs for charities and their donors

Table2a Value of Gift Aid paid to organisations

Table2b Number of organisations receiving Gift Aid

Table3 Donations declared by individuals completing UK Self Assessments, by tax year

Table4a Donations declared by individuals completing UK Self Assessments, by donation amount

Table4b Donations declared by individuals completing UK Self Assessments, by income of donor

Table4c Donations declared by individuals completing UK Self Assessments, by age of donor

Table4d Donations declared by individuals completing UK Self Assessments, by gender of donor

Table5a Donations declared by individuals completing UK Self Assessments, by UK nation / region of donor

Table5b Donations declared by individuals completing UK Self Assessments, by parliamentary constituency

Table6 UK Payroll Giving scheme

End of worksheet

Table 1: Summary of UK tax reliefs for charities and donors

Where an annual estimate is available
By the tax year the relief was claimed, with some exceptions for consistency with data published elsewhere (see notes for more details)
Columns from Gift Aid Small Donations to Stamp Duty Land Tax are for charities (and community amateur sports clubs). The rest are for donors.
Amounts are in £ millions; notes on a separate tab. Components may not sum to totals due to rounding.

Table 6: UK Payroll Giving scheme

The cost of Income Tax relief is estimated from the amount donated.

Notes are in a separate tab.

Tax Year ending April	Gross amount donated (£ millions)	Cost of Income Tax relief (£ millions)	Millions of employees participating, previous basis	Thousands of employees participating, current basis
2015	126	40	1.09	not available
2016	131	40	1.11	not available
2017	131	40	1.07	not available
2018	137	40	1.03	not available
2019	133	40	1.09	not available
2020	132	40	not available	591
2021	137	40	not available	545
2022	128	40	not available	516
2023	127	40	not available	483
2024	125	40	not available	504

End of table

Table	Note	Description
1	1	This table is for reliefs given to charities and community amateur sports clubs, and reliefs for donors, where data is of sufficient quality for annual costs to be estimated with reasonable certainty.
1	2	Before 2023, this table was called 'Tables 1 and 2: Summary of UK tax reliefs for donations to charities'.
1	3	Charities and community amateur sports clubs claim these reliefs directly from HMRC: Gift Aid at the basic rate, Gift Aid Small Donations Scheme, Interest income, royalties and trust settlements. For these reliefs, the amounts are shown by the date the claim was paid. It's possible for organisations to claim for donations up to four years after the date of donation.
1	4	Gift Aid Small Donations Scheme is excluded from the grand total since 2019, because technically it's government spending and not a relief.
1	5	Non-domestic rate relief, also known as 'business rates relief' covers mandatory and discretionary relief for charities and sports clubs. The data here is based on returns from local authorities. It is shown for England, Scotland and Wales only. The most recent year is forecast.
1	6	Stamp Duty Land Tax (SDLT) is for relief from SDLT for purchases of land and property by charities. The most recent year is preliminary. SDLT data is shown by the date HMRC certified the transaction, usually the same tax year the transaction took place.
1	7	SDLT excludes Scotland from April 2015, when it was replaced by the Scottish Land and Buildings Transaction Tax (LBTT). It also excludes Wales April 2018, when it was replaced by the Wales Land Transaction Tax (LTT).
1	8	SDLT figures match those published in Non-Structural Tax Reliefs - GOV.UK (www.gov.uk).
1	9	Annual estimates for Corporation Tax, Income Tax, Stamp Duty Reserve Tax and VAT reliefs for charities are not available. Charities are in most cases not required to inform HMRC when they use these reliefs and the cost of collection for statistical purposes is disproportionate.
1	10	Inheritance Tax reliefs and exemptions are particularly variable from year to year and newer data is particularly subject to change. The most recent three years' numbers are forecasts; before that, all data is outturns. The method for estimating the tax cost of these reliefs was different for tax years before April 2017, when it was brought into line with most other reliefs.
1	11	Relief on higher rates of tax for Gift Aided donations is paid directly to the donor, usually via Self Assessment. Unlike most other reliefs, this is based on the year of donation. It is mostly claimed by and paid to the taxpayer in the tax year after they donated. This number excludes a small amount claimed via Pay As You Earn but not subsequently declared in a Self Assessment return.
1	12	The numbers for the most recent tax year for higher rate relief, Payroll Giving and Gifts of Shares and Property are forecasts; before that, all data is outturns.
1	13	Annual estimates for Corporation Tax, Income Tax, Stamp Duty Reserve Tax and VAT reliefs for charities and for the relief of donors' corporation tax are not available. Charities are in most cases not required to inform HMRC when they use these reliefs and the cost of collection for statistical purposes is disproportionate.
2	1	This data is based on claims to HMRC by charities and community amateur sports clubs, collectively called 'organisations'.
2	2	Payments are shown in the tax year HMRC paid the relief to the organisation.
2	3	Before 2023, these tables were called 'Table 4a: Gift Aid paid to organisations' and 'Table 4b: Number of organisations receiving Gift Aid'.
2	4	A data review has revealed some additional organisations receiving up to £1,000 in Gift Aid, resulting in updated figures for years 2020 to 2023.
3 to 5	1	Before 2023, Tables 3 to 5 were called 'Tables 5 to 7'.
3 to 5	2	Does not include corrections to tax returns after publication or tax returns submitted after that date (the deadline is 31 January after the end of the tax year).
3 to 5	3	Components may not sum to totals due to rounding.
3 to 5	4	'All Self Assessment individuals' means those who sent a Self Assessment tax return to HMRC for that tax year, including those with no tax liability or no income. Direct comparison with other Personal Tax statistics published by HMRC may not be straightforward due to different treatment of corrections and late returns. This means that it will include some individuals who did not benefit from the tax reliefs available under these provisions e.g. due to nil or insufficient taxable income or capital gains, or due to other reliefs reducing their liability.
3 to 5	5	as a proportion of all taxpayers' means, for each row, the number of Self Assessment individuals in that category who declared a donation (whether Gift Aid, shares, securities, land, buildings or any combination), divided by 'All Self Assessment individuals' in that category.
3 to 5	6	Direct comparison with other Personal Tax statistics published by HMRC may not be straightforward due to different treatment of corrections and late returns.

3 to 5	7	The values declared may not always constitute a donor's total donations for the appropriate tax year as individuals might only enter donations on which they claim a tax relief, for example Gift Aid.
3 to 5	8	It is not possible to use the value of Gift Aid donations to work out the value of higher rate relief as reported in Table 1. This is because this table includes donations that did not benefit from the Gift Aid higher rate relief (i.e. non-taxpayers or basic rate taxpayers). This table reports only donations declared via Self Assessment and excludes Gift Aid higher rate relief claimed by individuals who ask HMRC to adjust their Pay As You Earn tax code to claim the relief.
3 to 5	9	Calculations of donations as a proportion of income exclude individuals with nil income or where the ratio of donation to income was over 100%.
3 to 5	10	In some cases, we withhold data to protect donors from reasonable risk of having their identity disclosed (indicated by the word 'disclosive' in the table).
3 to 5	11	The amount of gift Aided donations declared by Self Assessment taxpayers in Table 3 looks identical between 2022 and 2023, but this is a coincidence, and we expect the 2023 value might increase slightly in the next publication
6	1	Before 2023, this table was called 'Table 8'.
6	2	The gross amount donated and number of employees participating are based on information provided by Payroll Giving agencies. Agencies have some scope to define 'number of employees participating' in a way that works for them.
6	3	In April 2019, agency changes removed a group of employees who donated in a previous tax year, but not in the tax year being reported on. This resulted in a large apparent drop in the number of participants, as we cannot back date previous years with the change in definition, but does not reflect a real change in the number of employees participating. We therefore show that column from that date in a new data series.
