3434	Although this is improtant the damage from a project this size to a already extremely busy, populated and congested area would be hell for the load residents	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
668	We already have in small villages which will be rui ed beyond comprehension.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3276	It would benefit the area, as long as it was done in a meaningful and fitting way - if it becomes too big then all the footfall will simply flood our area and create stress and chaos if you try and travel around that area.	Would you support a potential park and resort coming to this site? Please explain why.	
529	I think the park would be amazing for the UK, but it also needs to be done in a way that will not destroy the local culture and towns in the area with a flood of tourists. I've personally experienced my own home town's gentrification from big corporations drawing in too many tourists which eventually destroyed all local businesses and forced all of us to move out of the town, and I never want that to happen to anyone else. The best way to make this resort beneficial for both Universal and for the local towns is to isolate the Universal property. Seclude tourists in the resort area and make it too much of an effort for them to travel to the surrounding towns and businesses. That way local businesses won't be flooded with unreasonable traffic and tourists, and Universal will also make more of a profit by having visitors only rely on their resort for everything. That is the *only* way this resort will be a positive thing for both Universal and the local area.	Would you support a potential park and resort coming to this site? Please explain why.	
3164	It would be a benefit to the local economy, although that must be offset against disruption, but local road, rail and air connections all mean these disruptions should be minimised and mean less upheaval for the local environment than a park in some other areas, although a brief look at the plans seem leisure park area might be restricted and other facilities provided to attract other industry (to provide an income to landowners) too large, where are the electricity generating facilities and with the UK weather being unpredictable covered areas would be essential.	Would you support a potential park and resort coming to this site? Please explain why.	
2737	It would cause far too much upheave, noise and public nuisance to the area.	Would you support a potential park and resort coming to this site? Please explain why.	

	I used to live in Kings Langley. Harry Potter world was built there promises were made by Warner Brothers that it would improve the local environment and improve for residence. Litter, parking, traffic out of rush hour, noise, minimum input to the community and all around nightmare to live. How long before litter gets blown into the surrounding lakes and wild areas. Traffic will be gridlocked because of the village used a cut though and any road changes you do will be to your benefit. One entry has a reclaimed energy centre with over 200 Arctic trucks daily. A planned Hop TV studio to be built at another entry point which has parking for 1100, 7 days a week manufacturing and a campus. Yourselves with a 7 day a week theme park with all associated problems in the middle of 2 entries into the village. With all that going on we have a village in the middle, queuing to get home and/or poor roads that don't release cars because of the increased flow in traffic. The A421 was built because of the old road was not fit for volume of traffic, but now with the theme park you're going to put an increased amount of traffic on the old Woburn Road. Once you have opened, all road responsibility will be pushed onto highways and you have washed your hands of the whole matter. There is benefits to the local and national economy, but at what cost. You guys are more than aware of the long-term and ongoing problems you have with your theme parks, I'm sure this will be something which will not be highlighting or pointing out in any planning phases. This is something the locals will find out after you get planning permission and go ahead. Which then makes it harder for us to do anything about it or for you to take responsibility.		
346		Would you support a potential park and resort coming to this site? Please explain why.	
522	Being over 1hr away whats most important for me is entertainment but theres also benefits for locals.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5936	I guess the challenge is for those who will be living in eye/ear shot which in Bedford centre I won't be.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5585	Concerns about destroying the village of Stewartby with all the heavy construction. Noise and light pollution a major issue from the potential construction of the theme park then all the pyrotechnics and light displays once opened. They quality of life for the local villagers would be greatly affected if this goes ahead.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
109	Look in bigger town in Bedfordshire that could accommodate this. I do not want this big of a theme park right on my door step. I chose Stewartby for a reason and you would be ruining that for a lot people.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1840	I think the train routes, roads and infrastructure need to be fully resolved. Please also think about the residents who's homes are on the site location and offer them a fair amount to buy their homes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
148	I understand the benefits, but Bedford already has inadequate infrastructure, such as hospital facilities, and I don't see how that will be able to expand enough to support the number of visitors to the park. Furthermore, the site is too close to a residential area, Wixams, which is already undergoing expansion, and will adversely impact the quality of life and house prices.	Would you support a potential park and resort coming to this site? Please explain why.	
529	Not gentrifying the area and forcing locals out	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4789	How this will affect our homes	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

4634	It needs to support the cultural and heritage sites in the area and build on them with local history accessible without entering the theme park. It is not clear whether the benefits are only accessed once in the site either as a visitor or employee. If the Bedford museums and gallery loose footfall then that is not good. Partner with them to ensure the local benefits are accessible without visiting the park. Make the site run off renewables, wind and solar then this will be a yes	Would you support a potential park and resort coming to this site? Please explain why.	
2395	Minimising disruption for local residents	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
787	Please reduce the impact on the natural surroundings as much as possible to maintain the rural feel of the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4930	Please look after the locals and their villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2382	Location to residential areas	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2782	My family home	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2541	Least impact to locals as possible ;	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2331	I am concerned about the residents living on Manor Road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2811	It would spoil the peace and environment locally. Particularly impacting on the smaller villages and making an area with transport issues worse	Would you support a potential park and resort coming to this site? Please explain why.	
2477	Local people in quiet villages	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3251	The impact on the residents of manor road	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
109	It is way to close to so many residential areas, I doesn'tbelieve the road infrastructure would work along side getting into these residential areas plus a huge popular theme attraction right on top of housing sites. There are plenty of areas around Bedford and in Bedfordshire that you could use that would not be impeding on people who live right near the sight. It's going to be loud , busy , fireworks every night or even every other night. People have moved to these areas specifically for quiet and rural life and you would be taking away from that by adding such a huge park right near them. You would also be taking away from the wildlife that currently resides there. This area is heavily involved in the wildlife that is here and you would be removing that from the area. Bedford is such a small town and struggles very much so already with traffic and you would be intensifying that dramatically.	Would you support a potential park and resort coming to this site? Please explain why.	
3778	Protect villages and upgrade current roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5416	Not disrupting local residents	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5305	The affect it will have on the village I live in	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

3132	Make allowances for people who live in the area. Wild life looked after.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5134	Because I have reservations with regards to the volume of extra foot fall and how the roads and traffic will be managed. Plus living next to the site Im concerned of how this will impact living in Wootton and how this will effect our daily lives and journey times.	Would you support a potential park and resort coming to this site? Please explain why.	
5429	Bedford is already a busy location with a lot of traffic which makes it difficult already, im concerned bringing a major attraction will cause major traffic issues throughout bedford and prevent locals working in the area from getting to work etc	Would you support a potential park and resort coming to this site? Please explain why.	
5023	Concerned that there is not the infrastructure to support this. Bedford roads are already very busy. Also not sure how you would find the people to fill the jobs and we're they would live.	Would you support a potential park and resort coming to this site? Please explain why.	
5046	I am extremely concerned about the environmental damage.	Would you support a potential park and resort coming to this site? Please explain why.	
5310	The theme park will back onto the back of my home which currently backs on to farm land. If the theme park goes ahead im Concerned about noise and light pollution that something like a theme park will bring. Iv heard there maybe pyrotechnics during opening times which will quickly become more of a nuisance. The mass influx of traffic affecting daily life in the local area which isnt great currently.	Would you support a potential park and resort coming to this site? Please explain why.	
429	In an ideal world, the local communities do benefit from improved infrastructure and Bedford in general from additional tax income for local projects, however, it must be taken into consideration that additional visitors in Bedford also create an additional burden, so, a realistic visitor capacity needs to be calculated and infrastructure and support needs to be provided to safeguard local communities from potential consequences by many more people visiting Bedford.	Please share any other feedback you have at this stage.	
4862	I'm concerned about the negative impact the nearby traveller estate will have on this project. As someone who lives very close by we have struggled with some of their behaviours.	Please share any other feedback you have at this stage.	
398	Concern on increase of cost of living for locals.	Please share any other feedback you have at this stage.	
462	I do have concerns that a number of properties in the local villages will be used as AIRBNB . I doesn'twant to see local villages turned predominantly into holiday homes.	Please share any other feedback you have at this stage.	
775	I can foresee a lot of air BnB type properties popping up in Wixams as a result. One of the concerns I have is that an increase in tourists could prompt a lot of big chains to try and dominate wixams. It would be really good for universal to establish some safe zones that are high traffic but reserved for local businesses - they did this really well at the o2 in Greenwich There needs to also be a bit of thought about wixams train station as the current two platform proposal will be quite limited (based on the slow thameslink train) with faster trains unable to stop. I imagine an upgrade to a 4 platform station would make big improvements allowing a faster train to stop Happy to answer any questions and provide feedback :-)	Please share any other feedback you have at this stage.	
917	There have been projects in the past to develop this site that have come to nothing - some taking a lot of money from the local council. People in the town are going to be cynical about other development plans. The difference here is that Universal looks like it is really taking this seriously and if it decides to go ahead I believe it will happen.	Please share any other feedback you have at this stage.	
4152	It is a concern that there will be a lot of people brought to the area. We have a young family and did not buy our house in Wootton for it to be disrupted by heavy traffic and tourism,	Please share any other feedback you have at this stage.	

2456	1.Traffic congestion to the surrounding villages needs to have a careful consideration as families work and live here; 2. Work with the Council on a plan to help the surrounding villages to be able to have their visitor parkings available. If that requires a pass to be shown in the car be it, or signals or anything just to allow us communities to live here comfortably. 3. Routes to historical towns promoting history and heritage as well as food stops along the way. 4. Noise reduction from the park. 5. Restaurants, pubs, hotels and entertainment areas around the park would be amazing! Why not also a cinema? I am so excited for this project! Thanks Universal for considering Bedford as a candidate to your project. We all warmly welcome here. Many thanks Regards XXX	Please share any other feedback you have at this stage.	
2514	It is very important that local people are able to use the facilities, walk in the area, without needing a day ticket etc.. else what do the local people gain from the theme park, except those who are in need of a job? The Center Parks facility has not brought local social benefits to local people, please do not repeat their model.	Please share any other feedback you have at this stage.	
4671	If your going to build this theme park you need to make sure your looking after and protecting the people that will be living next door to it. To try and affect their current living conditions as little as possible and make sure traffic doesn't get any worse then it already is. Also making sure that this theme park that will make universal many hundreds of millions of pounds profit over the decades doesn't devalue the properties of the normal people living near by.	Please share any other feedback you have at this stage.	
5221	Free tickets for residents in the local area would be a nice touch!	Please share any other feedback you have at this stage.	
5385	I think this plan would benefit the community if followed out to the best standards.	Please share any other feedback you have at this stage.	
6043	Not welcome. Go elsewhere. All will do is ruin our communities.	Please share any other feedback you have at this stage.	
5927	Please doesn't build so close to villages there are so many areas in this country where you can build this theme park where there are no houses nearby, Buckinghamshire/milton Keynes for example. The traffic would be horrendous Stewartby is a nice quiet village and that's why we moved here. This theme park would destroy this peace , just build somewhere else please.	Please share any other feedback you have at this stage.	
5511	concerns regarding road structures, traffic caused by visitors, parking by park visitors in the surrounding areas causing issues for residents and noise pollution such as fireworks	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5535	The level of disruption to the local community	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5703	The walkways should address wheeling ie be wheelchair user compliant	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5623	Keep local people who have lived in the immediate vicinity happy with the impact that it will inevitably cause	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5628	Ensuring people doesn't park in nearby villages to walk over to the park leaving nowhere for residents and their normal visitors to park.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5883	Mitigating disruption for locals	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
6043	Local residents not profit for Universal	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5535	I think infrastructure improvements won't sufficiently reduce local disruption	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5908	Too close to residential housing	Please explain why	
5916	Too big a development / attraction - Too close to existing housing communities - Negative impact upon existing road network	Please explain why	

4874	Great social and economic stimulation for the area, assuming it is built intelligently. Key focus must be given to transport infrastructure as this could be an international destination developing incredibly high footfall. Big fan of bringing strong competition to the UK theme park/entertainment sector also, gives international appeal.	Would you support a potential park and resort coming to this site? Please explain why	
2633	I think this has the potential to be a great thing for the local and wider community providing universal are considerate to those that already live here and make the effort to maintain the standard of peaceful living we already have. It would be great for a developer to finally give real consideration to the villages residents and not treat us as the armpit of Bedfordshire.	Would you support a potential park and resort coming to this site? Please explain why.	
1917	I would like to see improved local infrastructure and see benefits go to existing local communities	Would you support a potential park and resort coming to this site? Please explain why.	
4090	The theme park would be in-between houses. No one would want to leave right next door to a theme park. Why not chose an area that is less built up.	Would you support a potential park and resort coming to this site? Please explain why.	
2364	The park would be too close to my house. We bought this house because we like the fact that It's fairly quiet. Your park would bring too many people and cars etc to the area	Would you support a potential park and resort coming to this site? Please explain why.	
E6285	Invest in infrastructure by filling in the Bedford/MK waterway. This will provide water access to the resort from MK Grand Union Canal to Cambridge so visitors can arrive by boat. It will also open up new cycle routes and environment habitats.	Comment via email	
F6155	Impact on residents	What is the most important consideration for you when considering a potential theme park and resort in Bedford?	
F6197	Effect on local community	What is the most important consideration for you when considering a potential theme park and resort in Bedford?	
F6156	Concerns about house prices going down. And of course noise and traffic as a local resident.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6160	People parking in the residential streets, would it become permit only? To avoid this. We think local resident should be given free tickets not just dicounted, even if are one or two visits a year. Esp those like us who will have it in our back garden.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
2469	There are benefits to this park, however there are real lives that will be impacted, people who live on the doorstep will be fraught with disruption during and after construction, nature and peaceful quite countryside living will be replaced with the constant drone of rollercoasters, traffic, and general noise. The brief mentions that there will be over 4000 parking spaces that is an enormous uplift in traffic (excluding the buses etc) There must be real consideration around the local community that live within vlsual distance of this park, changing the views and countryside to that of a theme park is detrimental to them, they must be shielded when this happens with landscaping and nature and benefit from the new rail links with access paths as minimum	Would you support a potential park and resort coming to this site? Please explain why.	
2509	There is already so much development locally- what impact will this have on the environment, water courses and air quality in the local area	Would you support a potential park and resort coming to this site? Please explain why.	
4018	Traffic, pollution, noise pollution, light pollution. Disruption to locals lives.	Would you support a potential park and resort coming to this site? Please explain why.	
961	We wouldn't want theme park visitors parking their car in Wixams. We doesn'twant it to increase the cost of living in the area..	Please share any other feedback you have at this stage.	
2811	It would spoil the peace and environment locally. Particularly impacting on the smaller villages and making an area with transport issues worse	Would you support a potential park and resort coming to this site? Please explain why.	
412	A theme park will bring more cars to the area and damage the environment near a country park. Plus uk needs housing not a theme park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

3791	Please aim to minimise impact on local residents	Please share any other feedback you have at this stage.	
F6181	Just consider the people who live and work in the local area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
VISUAL (51)			
ID	Comment	Survey question	Response
306	It's important to see very little of the park if you're in the area but not in the park. Needs to be well hidden with trees etc so it's not an eyesore on the landscape	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	<p>As set out in ES Chapter 7 Landscape and Visual Impact Assessment and the Indicative Habitat Creation and Enhancement Plan (Figure 1 of Appendix 6.4, ES Volume 3 Appendices), planting is proposed around the perimeter of the Core Zone and Lake Zone, with a focus on visual screening along Manor Road and along the southern boundary of the Core Zone. In so far as is practicable, existing vegetation will be retained, particularly along the southern boundary of the Core Zone where well-established vegetation already provides natural screening.</p> <p>Typical perimeter planting will include a mix of canopy and understory trees and shrubs. In some places, in so far as is practicable, bunds or berms will be introduced, with planting atop, increasing the overall height of perimeter vegetation.</p>
F6154	Make it invisible, surrounded by trees.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6160	We live at XX, out back garden overlooks the proposed site, we would like big trees/screen put up and guessing the construction would be loud. This would need to be during certain times only.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5594	It should not be an eye-saw from Amptill Park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1856	Making a natural barrier first thing could minimise the visual and acoustic impact, and updating roads before starting constructions can make the construction traffic less disruptive	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5994	Natural screening for me is more for the fact of the experience, holiday vibes. If any wildlife is to be effected then you need to ensure they are safe, whatever that entails.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
155	It would be an eyesore in the area and create so much traffic. The train network is not good enough to support it. It would also be awful for those who have houses in the surrounding areas	Would you support a potential park and resort coming to this site? Please explain why.	
3090	I'm partly excited by the thought of having something like this so close, but I am more concerned about the impact it will have on local traffic. I am also concerned about how bad it may look from my back garden!	Would you support a potential park and resort coming to this site? Please explain why.	
831	Natural screening to not only screen the park, but also to keep the immersion inside the park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
886	Any method that can stop the park being visible or audible from neighbouring villages to the best extent possible.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1226	Would be nice if it's not overly obvious from our current local beauty spots	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5705	Impact on the sights, so keep the buildings to a max height. Offer alternative routes that are equivalent instead of long detours IF/WHEN road works are needed. Do road works at nights where possible. Give neighbours notice of any changes that might impact their routines. Liaise with Anglian Water, BT (OpenReach) and councils to avoid doing construction work that disrupts routines simultaneously and synchronise work if at all possible when in the same locale.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5680	I think as long as there are trees covering attractions and maybe having the more thrill attractions thurther down the park it wont cause any issues and i think it should be something that local communities should be looking forward to and be a part of.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5574	Noise reducing barriers and also improve the sight of the park for locals that have to look at it all day every day	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5623	As much as possible to keep the visual and aural impact to, essentially nothing.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4045	The view from Ampthill Park - it's a treasured spot for many and concerned about its impact	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1741	Screen roads with Trees	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
697	Possibly build perimeter sound barriers first such as mounds of earth/ trees etc to reduce the noise levels and visual impact before you begin the main construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3869	To not block the roads during peak times. Make any 'boarding' to hide the park either discreet or attractive.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2128	Screening of the park should be started as early as possibly so that it has time to grow and mature before the park opens	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3426	Proactive/transparent communcations in advance and during construction to manage expectations. Construction traffic to only use designated routes on main roads (ie a421/Woburn Road and to keep off unsuitable local roads). Set up rail head for deliveries etc by rail. Build/plant the screening as early as possible so more established for the construction period	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2469	You must out guardrails in to protect the neighbourhood residents from the sounds and visual impact of a theme park - currently views of fields and naturally quite countryside is enjoyed by the locals, this will be destroyed if no guardrails are in place	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4516	The use of a berm around the park would help keep it immersive and also prevent being able to see outside area from within side the resort. The use of forced perspective and compression could also be used to allow for the environment to not be impacted by the park, such as with facades of buildings or show buildings. Also using colours that blend into the environment for back of house areas (such as the brown and green used at Universal Orlando Resort) would help keep the area around the park masked and unaffected. Solar energy would also be a good idea, perhaps the lake area could be used to house a floating solar array to allow for the resort to be powered off grid?	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4649	The view from my house which looks directly at the land proposed site	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

4492	How will you ensure access for residents to Stewartby? How will you reduce noise etc. how will you screen the park from local housing? How is traffic going to affect me getting my children to Wootton for school both during construction and once the park is open. It's only a 10 min drive at the moment, it will be a total pain if this is massively increased.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2442	Planting new trees, Creating new habitats for wildlife, Adding natural screening of the park, Anything else that would be appropriate as time goes on, thanks..	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3317	Avoid closing roads instead use 1 way systems to enable development on one side at a time. Build down into ground to reduce overall height of structures appearance from afar, include noise reduction features such as high banking, trees and fences. Review measures adopted by local centre parks resort by speaking to them and see what could be learnt	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1408	Clear routes for materials and where possibly the minimising of visual impacts of construction (dirt and traffic) and sounds from the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5020	Not seeing or hearing it from my house on Manor Road	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2395	Natural barriers such as large trees between the building site and Wootton. Ideally a separate road into the building site for construction traffic from the M1.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5037	Not having it, increase in traffic, noise, pollution	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4151	Always bare in mind the local residents although we don't think any height restrictions should come into play like in Alton Towers..	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4649	Tree line the boundary with mature trees. Please use local services during build and do offer the opportunity for local residents to offer accommodation: spare rooms or even an opportunity to rent their houses. We have a 4 Bed/Double Garage and in 2 years time we want to do extensive travel, so we would like the opportunity to offer our property to the contractors or staff to rent, I think this would be quite a draw for many.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1271	Considerate construction in terms of noise, minimal disruption to roadways by putting in designated temporary construction routes onto the site, some natural screening.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4697	Ensure the A421 flows throughout, ideally bring as much construction material as possible by rail to reduce impact on local roads with lorries. Put screens/planting around the site first to reduce noise from the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4520	This park is literally next to my estate. I don't want it and will have to look at moving. This has caused me so much stress and anxiety since it was announced. I understand people want the money for Bedford etc but they don't have to live next door to it!!	Please share any other feedback you have at this stage.	
2430	If there is anything you can do to disguise the construction work so it is not too much of an eye sore for local people, I'm sure that would be appreciated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4108	I live on XXX in Stewartby. At the top of my road you can see across the field to the south of the potential site where the main theme park/support/parking would be. How would the landscaping mitigate the impact of the theme park eg trees, hills, screening etc?	Please share any other feedback you have at this stage.	

4088	You have an idea of boundary maybe plant those trees for natural screening before building works take place	Please share any other feedback you have at this stage.	
2469	Put local families at the front of your mind when design this, use nature and landscaping to guard them and shield from the sights of twisted steel rollercoasters and rows of cars in parking lots. Please link the new rail stations to both local villages that are within walking and cycling distance so that they can at least benefit from the rail links Please remember that you are about to change the landscape of a small community in a way that can not truly be defined, there are many economic benefits to this, but remember, real people, raising real families will be impacted for the rest of time. Locals will face into this project in a way that no external executive board, PR company, government body can imagine, so please, put local people first and keep them in the forefront of your minds	Please share any other feedback you have at this stage.	
2519	If this does happen please please please preserve as much green space as you can, please naturally barrier and shield the site, plant as many trees as you can	Please share any other feedback you have at this stage.	
2668	Very supportive of the project, but would like to see it drive improvements in Bedford town centre and other local amenities and infrastructure. Needs to be sensitively incorporated into local landscapes (not an eyesore) and not cause more traffic on local roads (eg Bedford western bypass which is already very busy).	Please share any other feedback you have at this stage.	
2693	I think the design and landscaping is important, to prevent it looking like an eyesore.	Please share any other feedback you have at this stage.	
807	From ampthill park you would be able to see the park, disrupting the view which has already been ruined by the new incinerator. Also the noise pollution would be disastrous as i would infer that there would be considerable amount of noise from the roller costars, people, vehicles, music and fireworks. another thing would be the increased traffic and the increased people that would be in our small local towns. My only concern with this would be that it would be overcrowded. However if the plan is to use Bedford as the main place for and direct traffic through there those problems wouldn't apply people/tourists.so please doesn'tgo ahead with it.	Would you support a potential park and resort coming to this site? Please explain why	
F6169	The landfill site on A421 - imprpove its appearance	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
F6219	Taking care of tourist rubbish/littering in the area	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
F6158	I applaud any project that would improve the local economy, so you are most welcome. BUT I am old enough to be highly sceptical about promises to minimise disruption, support commnity etc. I am also concerned at the idea that one instillation will be 115m high. My god that is higher than many of the hills in Bedfordshire! (I also deplore feeding our young people American culture - but that is the business you're in + a lost battle).	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
268	I'd be concerned on the Infrastructure improvements being sufficient, that the view from Ampthill Park would be compromised and that unwanted tourists would visit Ampthill at a cost to locals with tacky touristy shops being a blight on the high street. However, I am also positive about the provision of jobs and impact on opportunities for local people.	Would you support a potential park and resort coming to this site? Please explain why.	

4346	How visitors per day by car, bus, or train? How long will development take? How tall will the development be? We don't want to see any trace of it from our homes.	Please share any other feedback you have at this stage.	
4457	OVERALL EFFECT ON THOSE WHO LIVE WITHIN WALKING DISTANCE TO SITE. NOISE, VISUAL IMPACT, TRAFFIC CONSIDERATIONS ETC.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4150	Major distruptions to the area regarding traffic, noise and areas landscape	Would you support a potential park and resort coming to this site? Please explain why.	
HOUSING (48)			
ID	Comment	Survey question	Response
1078	Add employees housing or reserved space for additional housing for them. There is a high risk of the villages being transformed into tourist rented accommodations but there is need for housing also for employees	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	The Temporary Workforce Accommodation Strategy, provides an assessment of the housing and accommodation stock in Bedford and Central Bedfordshire. This finds that there is a sufficient stock of available and affordable private rented sector accommodation to accommodate construction workers. However, the hotel room stock is more constrained and demand for this type of accommodation could exceed the likely available stock in Bedford and Central Bedfordshire. UDX has proposed that this is controlled through a condition requiring the promoter to monitor the accommodation patterns for workers involved in the construction of the authorised development and will produce a quarterly report to be submitted to Bedford and Central Bedfordshire. If more than 350 serviced accommodation rooms are being used by such workers, mitigation measures will be implemented, which includes the provision of a temporary accommodation campus, if the threshold is exceeded in 3 consecutive quarterly monitoring reports.
216	Consideration should be given to the delivery of housing on site alongside the theme park development in line with local plan policies.	Please share any further feedback you have at this stage.	
1497	Knock on infrastructure such as housing, schools etc as there would need to be more built to employ that many people in the area	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2423	Holiday accommodation choices to suit a range of budgets.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2781	Hotels needed	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3939	I think you should create a new access direct from the A421 and possible the M1 rather than use existing roads.Also you should assist in the creation of the homes for the workers. Wixams is close but there are few affordable homes for people on the salaries you are likely to pay your staff. Hence you should either build or subsidise the building of such homes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	There is expected to be an increase in the demand for housing in Bedford and Central Bedfordshire as a result of the Proposed Development, as detailed in Chapter 13 of the Environmental Statement, the Socio-Economic Chapter. This is outside of the control of UDX to mitigate but given the supportive and proactive approach of the host authorities, it is judged likely that this can and would be appropriately mitigated by the local authorities planning for increased housing need in the future which would in turn induce residential development thus reducing any adverse impacts over time.
1398	Schools and housing	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4916	Worried about noise in Wootton Impact on house prices in Wootton	Please share any further feedback you have at this stage.	
2569	Job opportunities Money to the area. However, I'm concerned on how it will change house prices and that the area (Wixams) will turn into a town of Air B&B's	Would you support a potential park and resort coming to this site? Please explain why.	
4165	Jobs growth, positive impact on housing prices	Would you support a potential park and resort coming to this site? Please explain why.	
984	Job Local economy Brilliant asset to our town Increase in house values	Would you support a potential park and resort coming to this site? Please explain why.	
2284	I have great hope on this project going ahead. I believe it will be a great benefit to the UK economy, attractions industry and local community, and I have every intention on moving if the project gets the green light. I am somewhat concerned over the requirement for extra housing and the ripple effect this would make. The land already being purposes for new housing means one could make the assumption more housing is already needed for the local area, and the need for more people to operate the attraction will only exacerbate this. Whilst not a concern for Universal, I don't know what this would look like for developing more fields into urban area. Furthermore, have studies been put in place for the extra demand on water and electricity needed for the site, and will this affect the local area? I'm sure these are easily addressed, but worth mentioning. I have belief this project would be a success and look forwards to what is to come in the following years.	Please share any further feedback you have at this stage.	
5347	Build in proximity to housing	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

5773	Possibly buy the houses out	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3655	Not in particular as I am not close to the area bought however I am intrigued about what may happen with the properties already on manor road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5380	Improving affordable housing for your cast members, ensuring there is a school and doctors for the housing	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2117	Continue to engage with the local communities, involve them in as many decisions by use of public meetings, surveys and a dedicated online hub. It might be an idea to look at how your employees might live ie do you invest in housing for your employees? Look at how the most successful industry in the U.K. developed Cadburys, Lever all built community living.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3309	Constructing new housing would ensure that local residents will be more supportive of the project and its potential disruptions.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2906	Contractor and Universal employee accommodation needs	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1617	Hire local workers where possible to reduce the impact on housing that would occur with an influx of people moving to the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6137	I think you should consider building homes for employees who don't live in this area as finding places to rent is already impossible and will drive prices (for the people who would need to relocate e.g. managers / performers)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5213	Keeping construction noise and light pollution to a minimum as well as strict "out of hours" restrictions in place would massively benefit locals and keep them on side. Also construction tours for local residents would keep them interested and well updated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1029	Please can you build some houses/ flats in the local area so the workers have somewhere to live?	Please share any further feedback you have at this stage.	
1622	I completed a once-in-a-lifetime trip to Flordia and Universal Resort in September 2023. The fact a similar experience could arrive in the UK seems unreal. Yet the proposal seems to be very practical and considerate. I would however like to see more information on how this may impact local housing for residents, or even see plans to introduce more housing options specifically with prospective employees in mind.	Please share any further feedback you have at this stage.	
2245	Recruit from all over uk providing some sort of accommodation for staff who travel for a role	Please share any other feedback you have at this stage.	

4769	Local housing needs. I am fearful that local young people.I will be priced out of the housing market BOTH owning AND renting.There is areal danger Airbnb will act as a resource for people to male easy money, and most low cost housing/flats will be priced out of local peoples' abilities to pay, and will become holiday lets rather than local peoples' homes.The local Authority should ensure that holiday lets are taxed at a high rate. I do appreciate holiday makers may wish to stay local and , explore local resources such as the lovely river, priory park, the three central museums. But , fantastic opportunity for Bedford(and Woburn Safari Park to be involved ?)	Please share any other feedback you have at this stage.	
3939	I fully support the creation of this park in Bedfordshire so long as you assist in the building of affordable homes for the 8000 or so workers.	Please share any other feedback you have at this stage.	
2804	I appreciate its in early stages, but if it proceeds I would like to know what it means to me as looking at plans my property is in park area... Personally I feel it would be a superb project and if possible I'd even consider looking into job opportunities as I like way Universal operate	Please share any further feedback you have at this stage.	
1827	Yes I would support the park but local residents should be offered jobs first. If you are employing this many people where would they live. The existing town and villages would not be able to house this many people flocking to the area. The demand for houses in the area would drive up house costs, (which is good) but in turn would price local first time buyers out of the housing market, they would have to then move away. Bedford and the surrounding villages are a tight nit community with many people staying for generations in the area.	Please share any further feedback you have at this stage.	
2955	No new houses please. We don't have the infrastructure for the previous building projects.	Please share any further feedback you have at this stage.	
2443	Exciting opportunity, boosts tourism and supports local economy. Would be positive to see potential employee housing due to the current crisis.	Would you support a potential park and resort coming to this site? Please explain why.	
5917	Concerns that properties will be bought in Bedford to become air bnbs when we already have a housing crisis.	Please share any other feedback you have at this stage.	
1044	Bedford and central Bedfordshire has abundance of warehousing and housing many comments out of these areas with skilled jobs to MK Cambridge London and Stevenage . These skills need to be kept in the area and reduce travel. The area needs a new focus and a focus for young people to be proud of, Bedford town is lacking oor and women feel unsafe at night. Universal would give a place to feel safe meet friends have fun without travelling miles away. Universal will put Bedford and Bedfordshire on the map a county many only know as they travel through or connection to the sadness of Luton. This is an opportunity to bring greatness and opportunity to an area that heeded it. International visitors can also visit some of the other great things the rea has to offer environmental Beauty, history's and heritage. Those that stay at universal have London on the doorstep for days when they want something else. Housing and communities will improve. One worry I have is the affect on the utilities and how will we cope with the increased waste of foul and materials will this be used to create energy on the site Also electricity the area capacity is at stretch and already planning application for large development struggle to explain how the energy capacity will be support more housing with such a large development as universal how will this be achieved, will you generate own power I'm curious this is the only problem that concerns me	Would you support a potential park and resort coming to this site? Please explain why.	
2443	Exciting opportunity, boosts tourism and supports local economy. Would be positive to see potential employee housing due to the current crisis.	Would you support a potential park and resort coming to this site? Please explain why.	

5736	Maybe house many of the employees local to site so the traffic can be less disruptive	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6024	Demand for houses	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4185	Having experienced Universal's parks in the US and their economic impact on the local economy I believe Bedford and the county more widely would experience a much-needed rejuvenation. The site itself would otherwise likely be turned over to yet more warehouses and commuter belt housing that would bring little direct benefit to the residents and businesses of the town and county.	Would you support a potential park and resort coming to this site? Please explain why.	
3977	I feel it would bring a well needed leisure activity to the area. Currently an undeveloped area it would be good to see something other than new housing.	Would you support a potential park and resort coming to this site? Please explain why.	
3868	I live in Ampthill which cannot handle the traffic as it is, it would need to have a by pass as the village is small. I also doesn't want more housing estates to be created on our precious green spaces as a result	Would you support a potential park and resort coming to this site? Please explain why.	
2713	How will it impact on the value of our home?	Would you support a potential park and resort coming to this site? Please explain why.	
2779	I appreciate the importance of new building and development opportunities in my local area. I am also intrigued to see how this improves my house price!	Would you support a potential park and resort coming to this site? Please explain why.	
3251	I have an interest in a property on XXX i am concerned that my investment may not come to fruition	Would you support a potential park and resort coming to this site? Please explain why.	
685	Lots of new houses have eaten into the countryside quite recently, squashed together with small gardens. Presumably you will need to build more which concerns me	Would you support a potential park and resort coming to this site? Please explain why.	
E6330	Hello and thank you for taking the time to read this. I am a resident of number XX. I am obviously very concerned about what will happen to us residents of this road as the houses fall directly in the plans for the proposed park. I am a long term renter of the property (with health problems) and am greatly concerned about what options I will have if I have to relocate. The rent here is very reasonable and I cant see what my options will be to be able to afford to move to another country side location within my budget? I was hoping you would be able to give me some feedback and reassurance? Kind regards, XX	Comment via email	
5004	Overall I think it will provide good job opportunities and benefits to the local community. Nevertheless I have some concerns about the impact on nearby villages if there is a shift towards holiday rental letting of houses near the park rather than home ownership as it may result in a different atmosphere in the village.	Would you support a potential park and resort coming to this site? Please explain why.	
1259	Are you planning any additional housing for all the potential new job creations? How many hotels will be within the park? There is insufficient hotel space locally. Main concern will be the additional traffic on the A421. And will the East - West Rail link really happen?	Please share any other feedback you have at this stage.	
4865	I have land for sale in Lidlington. Would be great for housing contractors	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

801	A little concerned about traffic as there is a lot of people who drive at peak times to get to their jobs (particularly in and out of Kempston + hospital is on that road). Where will all the construction workers live? House prices and rental prices for locals. Will it become too expensive?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
HOUSE PRICES AND RENT (45)			
ID	Comment	Survey question	Response
4386	Will increase property prices- good for us homeowners	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	The Temporary Workforce Accommodation Strategy provides an assessment of the housing and accommodation stock in Bedford and Central Bedfordshire. This finds that there is a sufficient stock of available and affordable private rented sector accommodation to accommodate construction workers. However, the hotel room stock is more constrained and demand for this type of accommodation could exceed the likely available stock in Bedford and Central Bedfordshire. UDX has proposed that this is controlled through a condition requiring the promoter to monitor the accommodation patterns for workers involved in the construction of the authorised development and will produce a quarterly report to be submitted to Bedford and Central Bedfordshire. If more than 350 serviced accommodation rooms are being used by such workers, mitigation measures will be implemented, which includes the provision of a temporary accommodation campus, if the threshold is exceeded in 3 consecutive quarterly monitoring reports.
660	Boasting the values of properties	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4312	Impact on our house price and disruption to the local area	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5066	Is there any information out there on what building something to this scale can do to property prices within a 1 miles radius of it?	Please share any other feedback you have at this stage.	
2969	Local house prices for young people	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
148	I understand the benefits, but Bedford already has inadequate infrastructure, such as hospital facilities, and I don't see how that will be able to expand enough to support the number of visitors to the park. Furthermore, the site is too close to a residential area, Wixams, which is already undergoing expansion, and will adversely impact the quality of life and house prices.	Would you support a potential park and resort coming to this site? Please explain why.	There is expected to be an increase in the demand for housing in Bedford and Central Bedfordshire as a result of the Proposed Development, as detailed in Chapter 13 of the Environmental Statement, the Socio-Economic Chapter. This is outside of the control of UDX to mitigate, but given the supportive and proactive approach of the host authorities, it is judged likely that this can and would be appropriately mitigated by the local authorities planning for increased housing need in the future which would in turn induce residential development thus reducing any adverse impacts over time.
3266	house prices	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3317	Impact on house prices	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4492	Not adversely effecting my current quiet village environment, reducing house prices and making travel around the area more difficult and longer.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1506	house value increase	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3283	Impact on the value of my home	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
801	A little concerned about traffic as there is a lot of people who drive at peak times to get to their jobs (particularly in and out of Kempston + hospital is on that road). Where will all the construction workers live? House prices and rental prices for locals. Will it become too expensive?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1322	My landlords, appear, to think this is all on going n have increased my rent from 650 to £850 p.m. to enable them to offer that kind of rent to your future employees/contractors etc. and by me having to pay this amount they will be able to say it's normal / usual. I have no choice (thought I'm seriously looking for something) but they (flats) 1 bed, all seem to be getting in on the act Sorry	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4519	I live in Wootton near the A421 flyover. I have a particular concern about traffic from the North from the A6 taking a shortcut through the village and past two schools. We had trouble with lorries clogging up the village when Goodmans built the warehouses adjacent to the A421. I also have concerns about 5000 construction workers pushing up property prices to the detriment of local people looking to buy their first house or rent a property. Possibly make Wootton residents only with rfid barrier control. I have a concern about noise from piling, we can hear traffic on the A421. Piling needs to be 900am to 500pm only. Please build a construction workers village like Hinkley Point. Please use low emissions plant and equipment eg hydrogen generators, low emission engines, no diesel generators etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4492	Do you have any information on how such parks affect house prices in the local area? Especially those right next to such a park?	Please share any further feedback you have at this stage.	

1322	Please see my earlier statement about the huge rental increases that your - I'm really not sure but I do feel that your involvement is increasing - causing greed. Never mind - it really doesn't take much to create greed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1331	They should be grateful will increase their house prices	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4383	Will we in Stewartby be able to hear the rides, people screaming, loud music etc. What will happen to our house prices?	Please share any other feedback you have at this stage.	
3840	This site could have a significant impact on the local housing areas especially Wootton developments, including traffic congestion around the area, influx of people trying to park around the estates, noise pollution from increased traffic and also noise pollution from the park itself. Would be good to know more about how this will be avoided. This could also lower the prices of our homes, would people who have purchased houses in this area be fairly compensated for the disruption and loss of monies from their properties?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1349	Concerns over house prices rising for locals as I suspect a lot of housing stock will be bought to rent out to tourists.	Please share any other feedback you have at this stage.	
3522	My main concern is how close I am and what impacts that is personally going to have on me please, with house prices / trying to sell my house with it being so close to the park and would we get any offers etc for living so close that we could then benefit from please?	Please share any other feedback you have at this stage.	
2510	I have concerns about the impact this would have on local property prices.	Please share any other feedback you have at this stage.	
2520	I guess my major worry would be how it will affect my children's chances of being able to afford their own properties in the local area once the project is complete. Will they be out priced by buy-to-let purchasers wanting air bnb's? Not sure how you address that - but as a parent I see the benefits also being a change to the local environment that won't always be a positive to our children financially	Please share any other feedback you have at this stage.	
3283	I would welcome information about the impact of house values on local properties should the project go ahead	Please share any further feedback you have at this stage.	
1827	Yes I would support the park but local residents should be offered jobs first. If you are employing this many people where would they live. The existing town and villages would not be able to house this many people flocking to the area. The demand for houses in the area would drive up house costs, (which is good) but in turn would price local first time buyers out of the housing market, they would have to then move away. Bedford and the surrounding villages are a tight nit community with many people staying for generations in the area.	Would you support a potential park and resort coming to this site? Please explain why.	
4312	The organisation would do a professional park and would enhance the surrounding area and if it area is designated to a theme park, then there could be no one better than Universal to have as neighbours. I am concerned about the impact on house prices and the traffic impact to our immediate area, we live in Meadow Road, Wixams, just a few minutes walk from the proposed Wixams railway station	Would you support a potential park and resort coming to this site? Please explain why.	
2801	The road infrastructure from central beds into kempston and bedford is already very poor, your proposal will cause more problems than it solves for the local area. Bedford is a ridiculous place to put the park. There is already a shortage of affordable housing and this will make things worse.	Would you support a potential park and resort coming to this site? Please explain why.	

2586	The small villages will bear the brunt of adverse affects of this proposal, noise, pollution and disruption of a quiet area. Bedford is several miles away, our villages are one or two miles away. Our property prices will fall as we will no longer attract retirement people seeking a quiet village environment. We will have no benefits from this. Bedford is a dull town, not even good enough to have city status, a dead town centre, a pretty river that often floods badly. Our climate is not ideal for such a theme park with about 50 days a year where the sun is shining, without 50mph gusts of wind or rain or both resulting with even the A421 flooding. You talk about employing people, do you not realise that 90% of the British workers want to work from home. Once they realise they are expected to actually turn up for work, the novelty of the theme park will wear off, especially on cold, wet, windy months between October and April. So workers will need to be sourced from Europe or the Commonwealth countries not from our local area, especially with our very poorly rated local schools, except from the few private schools whose pupils will aim higher than working at a theme park.	Would you support a potential park and resort coming to this site? Please explain why.	
4307	The economic benefits to the area would transform the futures and prospects of Bedford and it's people. With thousands more people visiting the area to socialise and enjoy themselves the ripple affect into the economy of the town would be so valuable. Also, my house price would go up (I hope).	Would you support a potential park and resort coming to this site? Please explain why	
2371	It would be amazing for the local community ,bringing money and investment to the area , hopefully increasing house prices , road and travel will hopefully improve	Would you support a potential park and resort coming to this site? Please explain why.	
2713	How will it impact on the value of our home?	Would you support a potential park and resort coming to this site? Please explain why.	
2779	I appreciate the importance of new building and development opportunities in my local area. I am also intrigued to see how this improves my house price!	Would you support a potential park and resort coming to this site? Please explain why.	
3286	The close proximity to small semi rural villages is a concern as they're currently desirable places to live, the park could have a negative impact. Whilst I feel It's potentially a good thing for Bedford over all, for investment and also a much needed destination, which Bedford really doesn't have, I do worry what it will do to house prices.	Would you support a potential park and resort coming to this site? Please explain why.	
F6219	Improving property value/price	What is the most important consideration for you when considering a potential theme park and resort in Bedford?	
F6219	Please keep us updated and also provide some insights on pollution levels during constrction and also after development. I want to also understand how it will impact my house value/price.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6156	Concerns about house prices going down. And of course noise and traffic as a local resident.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
466	I think the park would transform Bedfordshire, improving job opportunities, tourism and house prices. I think it would be brilliant!	Would you support a potential park and resort coming to this site? Please explain why.	
746	Job Local economy Brilliant asset to our town Increase in house values	Would you support a potential park and resort coming to this site? Please explain why.	
4671	Although it's great for the local Economy, living less then a mile from the site does make me worry about traffic for me to get around and to work (the M1 and A421 are busy enough as it is) also the noise from the park and the potential to devalue my property because of the area possibly becoming just a house that's built next to the car line to a theme park.	Would you support a potential park and resort coming to this site? Please explain why.	

4404	Not sure. I live just over the A421 from the proposed site and worried about the impact on my quality of life (roads, noise pollution and local infrastructure being over challenged). And the value of my house. I can see it being a great opportunity and transformative for the wider community too. Especially in the current climate. More people need to work post COVID. I need more information.	Would you support a potential park and resort coming to this site? Please explain why.	
4457	NEED MORE INFORMATION HOW IT WOULD AFFECT THE LOCALS WHO LIVE IN THE SHADOW OF THE POTENTIAL PARK. I CAN SEE MANY ADVANTAGES BUT APPREHENSIVE ON NOISE, LIGHT AND TRAFFIC POLLUTION, PLUS WHAT EFFECT WOULD IT HAVE ON HOUSE PRICES AND CRIME.	Would you support a potential park and resort coming to this site? Please explain why.	
F6156	Concerns about house prices going down. And of course noise and traffic as a local resident.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
5268	As well as the sound volume issue; screening the park with trees and other natural barriers will be essential.	Please share any other feedback you have at this stage.	
5066	As long as it doesn't have a detrimental impact on the house prices neighbouring the site I am all for it. And as long as the roads and traffic is well thought out. I doesn't want to be sitting in traffic during my weekly commutes.	Would you support a potential park and resort coming to this site? Please explain why.	
801	A little concerned about traffic as there is a lot of people who drive at peak times to get to their jobs (particularly in and out of Kempston + hospital is on that road). Where will all the construction workers live? House prices and rental prices for locals. Will it become too expensive?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
LIGHT (45)			
ID	Comment	Survey question	Response
925	Minimising nighttime light spill	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	UDX is proposing Design Standards (document reference 6.3.0) to limit lighting levels outside of the ERC to ensure that the impact of lighting on sensitive receptors is appropriately considered and controlled.
1044	Ensure light pollution is limited where possible and night habitat is protected	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2636	Noise and light issues	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2733	Noise & light pollution control	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5837	Noise and Light pollution from the resort does not disturb wildlife, especially directly opposite the park. Areas of woodland between A6 (The Branstons Way) and A421	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3687	Respect dark skies and have low-level lighting, turning off out of hours	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4820	Reducing noise and light pollution as much as possible	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2541	Sound and light buffering / considerations /	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

960	Noise and light pollution	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5241	Noise and light pollution for neighbouring residents	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5032	Public transport improvements, minimisation of light and of noise pollution.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5032	Minimisation of light and noise pollution.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5722	Noise and light pollution is a concern, we live 2/3 miles away as the crow flies so bit of worry there but benefits in the long term will be positive	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3546	Reduce noise past specific times, and avoid light pollution from construction lighting. Courtesy to local residents	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5241	Noise and light screening is critical for local residents	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5043	Considerations for light and noise pollution	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4001	Low noise construction Minimise light pollution Dispose of waste quickly AND at the proper places	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
925	Keep the night time light spill to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3956	Hours of operation, light pollution during winter months, impact of heavy vehicles on existing infrastructure. Would be great to see rail being utilised for delivery of raw materials to minimise road usage during construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2779	My biggest concern is congestion on the roads, as the M1 is already becoming impossibly busy. Additionally light and noise pollution at night is a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3452	Impact on the traffic that is already chaotic at this location, noise and light impact for the residential area around it. The park can impact in these areas becoming sleeping areas for the users that come for the park and losing its community feel.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5585	Concerns about destroying the village of Stewartby with all the heavy construction. Noise and light pollution a major issue from the potential construction of the theme park then all the pyrotechnics and light displays once opened. They quality of life for the local villagers would be greatly affected if this goes ahead.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5134	Ensure the noise cancelling fencing for local villages are improved	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

5448	Eliminate upward light-spill from the park to avoid confusing local wildlife.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4809	Recognise that wildlife has to be supported if you go ahead, minimise nighttime lighting during the build and when you go live.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5511	Setting rules not to pollute surrounding environment with chemical pollution, light pollution, sound pollution and rubbish	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5984	Concerned about noise and light pollution and heavy traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1827	Yes, however I have concerns. I live in Wootton towards the A421 and on a personal level I am concerned about the affect that noise and light will have on the local community and (selfishly) my residence. Im also concerned that I will be able to see the top of rollercoasts and attractions from my home. I would add that Wootton, Stewartby and Wixams are in desperate need of investment. Wixams much promised train station continues to slip down the picking order of local projects and the Thameslink route is desperatly underfunded given the amount of people who travel into London. Bar Luton Airport, Bedfordshire lacks a large employer and the creation of 8,000 jobs would see a much bostered increase in employment opportunities. I can see the obvious positives to the Theme park, but this needs to be tempered with protecting Wixams, Wootton and Stewartby rural environment.	Would you support a potential park and resort coming to this site? Please explain why.	
5574	Noise and light pollution	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5585	Noise pollution	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2586	The small villages will bear the brunt of adverse affects of this proposal, noise, pollution and disruption of a quiet area. Bedford is several miles away, our villages are one or two miles away. Our property prices will fall as we will no longer attract retirement people seeking a quiet village environment. We will have no benefits from this. Bedford is a dull town, not even good enough to have city status, a dead town centre, a pretty river that often floods badly. Our climate is not ideal for such a theme park with about 50 days a year where the sun is shining, without 50mph gusts of wind or rain or both resulting with even the A421 flooding. You talk about employing people, do you not realise that 90% of the British workers want to work from home. Once they realise they are expected to actually turn up for work, the novelty of the theme park will wear off, especially on cold, wet, windy months between October and April. So workers will need to be sourced from Europe or the Commonwealth countries not from our local area, especially with our very poorly rated local schools, except from the few private schools whose pupils will aim higher than working at a theme park.	Would you support a potential park and resort coming to this site? Please explain why.	

935	I am moving into my new new-build house in May this year and the map showing how close this resort is going to be to the house is not great. We're moving to a village location in Wixams and we both use the a421 and a6 to get to work in the mornings and evenings. These roads and junctions are going to be so badly blocked up on the weekends on which we sometimes work. We're almost second thinking moving there now because of sound pollution, light pollution and excessive car numbers.	Would you support a potential park and resort coming to this site? Please explain why.	
2733	I need to know more about the impact this site would have on the local wildlife, bird life, flora, noise and light pollution. The area boasts DarkSky and we would like to keep this.	Would you support a potential park and resort coming to this site? Please explain why.	
2658	I need to understand opening times, noise, light and sound pollution and impact on wootton in terms of traffic, infrastructure and property value	Would you support a potential park and resort coming to this site? Please explain why.	
4809	Recognise that wildlife has to be supported if you go ahead, minimise nighttime lighting during the build and when you go live.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
205	I'm concerned about the environment and wildlife impacts. In particular on the birds and wading birds in the area. The site is on the migratory path of overwintering birds . I'm also concerned about the noise and light pollution.	Please share any other feedback you have at this stage.	
4558	The negative environmental impact, including light pollution, noise, increase in traffic and removal of wildlife habitats in this area would be horrendous and is not valid. The infrastructure in this area is not capable of supporting such a large project and would also destroy the village communities, especially for the residents of Stewartby and Wotton. Build it in a non-residential area surrounded by open land if needs must, but not where you are proposing.	Would you support a potential park and resort coming to this site? Please explain why	
5043	i am extremely worried about traffic, and noise and light pollution from such a huge development. We will have hundreds of extra vehicles in the area 365 days of the year. In Wootton we truly will have no peace in the future	Would you support a potential park and resort coming to this site? Please explain why.	
5861	Too much noise and light pollution. Rail route currently being forced through by E/W rail doesn't help any footfall for this area. A rethink to use a rail route south of the river would allow a station accessible via st johns/wixams change.	Would you support a potential park and resort coming to this site? Please explain why.	
4671	Although it's great for the local Economy, living less than a mile from the site does make me worry about traffic for me to get around and to work (the M1 and A421 are busy enough as it is) also the noise from the park and the potential to devalue my property because of the area possibly becoming just a house that's built next to the car line to a theme park.	Would you support a potential park and resort coming to this site? Please explain why.	

356	It was mentioned in a presentation on 16th that universal sees traffic flow opposite to people working etc so they don't see an impact. The reality is, the park would be in a major commuter belt as well as there being many logistics centres near by. The A421 and all major roads into and out of Bedford are already congested both ways (to and from Bedford) in mornings and evenings as there a many people communicating into and out of Bedford for work and schooling. I think you need to survey these routes to see the actual impact of traffic and adjust plans accordingly. Another concern is noise and light pollution. I have no doubt you will do the right thing but having experienced Orlando, I know the park will probably be open late and there is usually a closing light show. I'd assume you would like all resorts to give the same experience so please consider this impact on local residents especially given one of the selling points to you is that the land is flat so noise and light will travel further. Finally given the land is flat, please consider materials and colours used in taller buildings. Covanta ruined the landscape by building a recycling plant not far away and choosing a red chimney that stands out for miles. Other than jobs and charity work (as this won't be for everyone impacted), have you considered other incentives for local residents to use the facilities in quieter times (e.g. discounted entry, or F&B etc)?	Please share any other feedback you have at this stage.	
5651	Destruction of local habitats for wildlife and would increase traffic volumes across Bedford and A421 which is already horrendous for traffic. Also the constant noise and light pollution would affect local wildlife regardless of creating wildlife habits which probably would not be used anyway due to noise and people traffic.	Please explain why	
5837	I have concerns about the transport infrastructure being proposed (in particular road infrastructure) and whether this would be able to cope with projected visitor numbers. My concern is that the numbers presented do not include potential numbers of staff who will commute from Bedford and surrounding areas including St Neots, Milton Keynes, and surrounding towns and villages. I also have concerns about noise and light pollution in the evenings especially as our property lies in the Bedford Meadows estate directly opposite the site.	Please explain why	
3426	Linking new and existing habitats, minimise light and noise pollution (coordinated with the screening), protect the cultural heritage of the area, green energy supply say solar and/or wind	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5566	ATC- How will you minimise impact on local towns and villages during constitution and guarantee they will not use local roads with restricted weight limits and appropriateness. Also, once the park is open, how will you minimise light and noise? Will this be visible to Ampthill park? Concerns were raised regarding light and noise pollution for residents using the park. You are required to comply with Ampthill's weight restrictions in the construction and ongoing phases of the project and inform contractors not to use weight restricted roads. The police have been enforcing this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
HEALTH (27)			
ID	Comment	Survey question	Response
137	Feasibility study to see in the Hospital will be able to cope, should visitors become ill.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	The impact generated by the Proposed Development is not deemed to have a significant impact on health services across Bedford and Central Bedfordshire in either the construction or

157	Work will need to be done with the over subscribed local hospital/ considerations to medical centres within the resort for people in the area. I live between Luton airport and the site and considerations will need to be made to the level of traffic around Silsoe/ clophill on the A6 as this can be quite busy. Local discount for the resort would be amazing. Milton Keynes is already quite a thriving town with lots going on therefore links to Milton Keynes for tourists would be good	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	operational phase. Sufficient health facilities will be provided on-Site to mitigate for accidents to staff or workers. There is not expected to be a significant amount of workers and their families moving to the Core Study Area (CSA) and requiring GP services.
800	Medical facilities	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
902	Health Provision in Wixams and local villages	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
398	Impact on healthcare	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1342	Support the funding of a permanent doctors surgery in wootton village. The village is growing the surgery is in a caravan.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1429	Help is desperately needed to provide a GP surgery in Wixams. Would you consider help in this area?	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3658	While i understand the vast majority of the jobs will be from the local communities, there will still be additional numbers of people in the area and the medical infrastructure will need to be carefully considered, especially as it's an area that is already overworked and underfunded.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
800	Medical care need expansion as the local hospital may not cope with the increased demand	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1789	Increased healthcare facilities for those moving into the area for work.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4505	As a Volunteer First Responder for the Ambulance Service I'm concerned to what medical provision would be provided	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2810	Bedford Hospital A&E and Intensive Care will need to support the extra visitors	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3200	Upgrading capacity at the local hospital	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3228	Improving the number of health and social care facilities, for both your employees and the residents.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4952	Local hospital	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5115	Ensuring the gps, hospitals, nursery, housing, schools, police etc can cope with both the expected visitors and staff. Currently these are all not up to standard for existing communities.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5380	Improving affordable housing for your cast members, ensuring there is a school and doctors for the housing	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

4004	You must consider the impact of construction work on the local infrastructure our hospitals and primary care services are fully stretched and should resourced appropriately to support the increase in demand. I think you should advise on the maximum capacity at the park daily how many number of visitors has not been detailed which would support in understanding the volume of traffic.. I think you underestimate car use and parking and should plan to shuttle bus people into the park. I also think that local families should be able to access at reduced cost.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
157	Work will need to be done with the over subscribed local hospital/ considerations to medical centres within the resort for people in the area. I live between Luton airport and the site and considerations will need to be made to the level of traffic around Silsoe/ clophill on the A6 as this can be quite busy. Local discount for the resort would be amazing. Milton Keynes is already quite a thriving town with lots going on therefore links to Milton Keynes for tourists would be good	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
398	Minimise impact on traffic and commuting for locals, concern about impact on access to health are and price of restaurants and activities for locals (may increase cost of living).	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5251	Hospital access	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1469	I think it would bring tourists and visitors especially during school holidays and Would benefit families and would be good for mental health.	Would you support a potential park and resort coming to this site? Please explain why	
3403	I am concerned about hearing the screaming from the top of roller coasters and the pollution from extra traffic. Peace is very important for my mental health and asthma aggravated by traffic fumes.	Would you support a potential park and resort coming to this site? Please explain why	
1001	I believe it may bring the needed infrastructure and health services to the local community	Would you support a potential park and resort coming to this site? Please explain why	
5684	You need to work with the council to ensure the sustainability of the plans, making sure that all potential problems have been thought about to mitigate issues; such as much much heavier traffic, congestion at rush hour (the A421 is a main link between M1 and A1), local services need to potentially be overhauled, such as A&E and the ambulance service due to the increased footfall, more RTCs and people becoming ill at the park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2853	Would there be first aid facilities at the park as local GPs are overwhelmed and hospital A&E is very busy. Would there be any concessions for local residents, students, elderly etc Access for disabled? Parking?	Please share any other feedback you have at this stage.	
3210	Ensure investment in hospitals and other emergency services are completed before the site is started on	Please share any other feedback that you have at this stage.	
NOISE - FIREWORKS (26)			
ID	Comment	Survey question	Response
868	No fireworks or loud pyrotechnics, do something to prevent light pollution	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	During the operational phase of the Proposed Development, UDX will comply with all relevant regulations with regard to the use of fireworks in the UK, which include restrictions on the use of fireworks during nighttime hours (between 11pm and 7am the following day).
374	Noise pollution (including any potential firework displays)	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1741	Concerns regarding potential firework use around areas with livestock.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX has also committed to having no more than 10 fireworks shows each year at least five of which would take place on or around the events of Chinese New Year, 5th November, Diwali or New Year's Eve, with no regular firework displays anticipated as
374	Massive concern is any noise pollution - fireworks/shows/closing time. I do not want disrupted sleep every night and no animal deserves it either.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

1805	Concerns about regular noise from fire works. Noise from the park generally. Traffic congestion. Are there going to be discounted tickets for local residents? Could we access the park to use restaurants in the evening?	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	New Year's Eve, with no regular firework displays anticipated as part of the day-to-day operation of the Proposed Development.
370	People moan about fireworks all the time. If you're going to be setting them off every night. There will be an influx of complaints from residents near by. You absolutely should have done a survey for the residents that will actually be living by the park. It's going to affect them a lot more than it'll affect people from MK or Luton or London	Please share any other feedback you have at this stage.	
5664	It is not such the construction that we feel will be the most unsettling - it's more once the park is open, noise levels. We think lights/drone shows will be more suitable than fireworks in an area which has a lot of residents and therefore dogs/horse/animals etc. Soundless fireworks could be looked into if necessary?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4248	My major concern would be regarding any firework displays and the impact on local environment, animals and specifically the pets of people who live nearby	Please share any other feedback you have at this stage.	
3963	I don't expect you to listen to the residents here. It's not exactly nimby behaviour given what your building offers the bare minimum value to locals (see gullivers world mk). If you're going to push ahead there should be consideration of the residents. For example. No fireworks. Ever. There are so many families with pets around here and if you're going to take away their countryside and replace it with a concrete enclosed hellscape the least you could do is not antagonise their pets multiple times a year. Right now, that whole area is underwater so I really hope that some consideration will be made about where exactly that water is going to go when you pave over the entire place.	Please share any other feedback you have at this stage.	
2718	Possible noise at night from fireworks displays	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2539	I forgot to ask about firework displays which I personally feel could be noisy and affect wildlife.	Please share any other feedback you have at this stage.	
5783	I like the idea of the park, but as I live in Stewartby, I am concerned about noise pollution, particularly related to noisy rides and fireworks (I have dogs, so Fireworks and explosive sounds are of concern!). The roads definitely need consideration and how to limit people shortcutting in via the villages and local roads. Other than that I am very supportive of the idea and believe it could rescue Bedford which is currently in decline. Discounted tickets for locals would also be great :-)	Please share any other feedback you have at this stage.	
5735	If it goes ahead please can you ban fireworks in consideration of pets	Please share any other feedback you have at this stage.	
5628	Reducing noise pollution including the use of fireworks, which negatively impacts wildlife and residential animals.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5511	concerns regarding road structures, traffic caused by visitors, parking by park visitors in the surrounding areas causing issues for residents and noise pollution such as fireworks	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
249	I have mixed feelings because I appreciate it will be great for employment and the local economy but I am concerned about noise pollution and the effect on traffic in the area. I would be concerned about nightly fireworks affecting air quality as well as disturbing wildlife and pets	Would you support a potential park and resort coming to this site? Please explain why.	

4197	I am keen from the job aspect and the idea of potentially working for universal if paramedics were employed. I am apprehensive though as a local resident to how my life has its noise, traffic etc will be affected. We currently hear traffic noise from the A421 and I'd expect this to greatly increase. Fireworks as well-with pets this would be a worry.	Would you support a potential park and resort coming to this site? Please explain why.	
4437	I live in the nearby wixams village and the road infrastructure is already poor and very busy. My concern is that added traffic will cause further issues and visitors who do not wish to pay to park might park in or streets on the housing estate. The noise is also a potential issue, especially if fireworks are permitted. A lot of residents have pets which are scared of fireworks.	Would you support a potential park and resort coming to this site? Please explain why.	
2794	I live with my family in Stewartby and believe that having a global organisation provide a world leading theme park would be hugely beneficial to our local economy. I would suggest that if fireworks are used, these be done prior to 8pm in the summer and 6pm in the winter, as these can be very damaging to local wildlife. It would also be great to offer local residents a free annual family pass to the park (Chessington World of Adventures offer this to residents) and this would boost local support.	Would you support a potential park and resort coming to this site? Please explain why.	
4492	I need more information on plans for roads, the effects of noise, lighting, what the land will be used for specifically. Where will rides be? Where is the car park, hotel etc? Will there be evening shows? with fireworks? Fireworks are a massive no,no!! I live 100m from edge of the proposed park. I don't want a massive loud ride outside my front door!!	Would you support a potential park and resort coming to this site? Please explain why.	
495	The general idea seems great, and the ideas to upgrade existing infrastructure seem wonderful. However, I live very close to the site and wonder how it will impact upon my commute to work. What effect will it have on the locals - will there be constant noise from the park? There are an awful lot of families with dogs in the close area, are there plans for fireworks displays? How far will this sound travel if so?	Would you support a potential park and resort coming to this site? Please explain why.	
4437	I live in the nearby wixams village 4 and the road infrastructure is already poor and very busy. My concern is that added traffic will cause further issues and visitors who do not wish to pay to park might park in or streets on the housing estate. The noise is also a potential issue, especially if fireworks are permitted. A lot of residents have pets which are scared of fireworks.	Would you support a potential park and resort coming to this site? Please explain why.	
2208	I'm concerned about the traffic impact, I live in Stewartby and its bad enough exiting the village safely at present without extra traffic this would bring. The roads at present could not cope with the increased amount of traffic in terms of wear and tear and numbers of vehicles on the roads locally the A421 isn't that big and the old A421 I'd a small road I'm not sure the route can handle the traffic load. I raised these concerns and didn't really get satisfactory answers. What about the use of fireworks or pyrotechnics and impact on local wildlife and the pet owners locally, out Facebook pages are full of complaints at certain times of the year, I personally do not own a pet but it's a question for consideration. I do feel positive about employment opportunities especially for the local families.	Please share any other feedback you have at this stage.	

4500	The A421 / M1 junction is a nightmare already at times and I use it everyday for work. You say around 30-40% of visitors expected via train, train travel is extortionate in the UK. Are you looking at subsidised or free travel included in park tickets to achieve this? Mostly, the main park should 100% be on the northern part of the site you own. That side has warehousing and not homes right next to it. Surely, that would make more sense. I do not want fireworks and laser shows outside my window 7 (or even 2) nights a week. Citywalk areas are also loud and currently very close to current residential areas. I paid a lot of money for my house and chose to live in a rural area. This wasn't on the cards when I bought my house 5 years ago. I doesn't want to live somewhere noisy.	Would you support a potential park and resort coming to this site? Please explain why.	
1978	Possibly too noisy, traffic will be a nightmare and people will ignore any 'official' routes and go where their satnav sends them (just like the nearby Center Parcs	Would you support a potential park and resort coming to this site? Please explain why.	
797	Noise is a concern. Not so much general ride noise but things like fireworks etc	Please share any other feedback you have at this stage.	
AIR QUALITY (19)			
ID	Comment	Survey question	Response
3870	Noise and traffic pollution	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	An Outline Construction Environmental Management Plan and Construction Traffic Management Plan (ES Vol 3 Appendices, Appendix 2.3) have been prepared and set out measures for managing effects associated with construction.
5037	Not having it, increase in traffic, noise, pollution	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1106	Reduce pollution	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2809	Pollution and disturbing wildlife are a major concern	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	To manage potential noise and traffic impacts, core construction working hours will be 7am – 7pm Monday to Friday, and 7am – 1pm Saturday, with exceptions for activities that must take place outside of those hours such as nighttime works on road and rail infrastructure, delivery of abnormal loads, or testing associated with theme park attractions.
945	Ensuring where possible pollution is minimalists	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5410	Protecting the existing rural environment from additional traffic and pollution. If you invest heavily, make sure you invest equally in the impact on existing green areas. Additive alone is not good enough.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	Fencing and strategic use of site hoardings will be used to reduce visual and noise effects associated with construction.
4776	In addition to construction, what about the noise from the park and pollution from additional traffic once the park is up and running?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1443	I would suggest getting UK universities involved with help removing or reducing CO2 from the increase in car traffic. showing you are helping remove CO2 would be beneficial for you and us	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	Measures such as wheel washing, to reduce vehicle track-out and dust from construction traffic, will also be used to minimise the risk of dust emissions.
3999	It borders several villages. Not towns, villages. The traffic noise, pollution, damage to the wildlife, day to day impact of construction would destroy these villages and cause misery to residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2698	Pollution	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	In addition, UDX will be taking a number of measures to minimise the effect on the local road network, including: •Vehicle routing by phase of works •Management and coordinator transport roles during construction •Construction management systems to monitor vehicle movements •Monitoring and review processes to ensure compliance with the Construction Traffic Management Plan. In relation to construction workers, a Construction Worker Travel Plan (CWTP) has been proposed and is included as an annex within the Outline Construction Environmental Management Plan at ES Volume 3 Appendices, Appendix 2.3. It is designed to reduce and manage the travel behaviour of the

529	Set construction hours that will not affect locals (ie. high traffic times, sleeping times, hours when herds of animals might be nearby and stressed by noises, etc). Please no night construction though. Don't block roads with construction equipment or workers vehicles. Or if roads are blocked, provided alternative, well-labelled detours. Please ask workers to keep areas clean. Avoid pollution of the local area and litter. Provide meals, restrooms, and adequate facilities for workers to take breaks in so that local businesses aren't flooded by the workers.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	is assigned to reduce and manage the travel behaviour of the workforce during the construction period, including promoting the use of sustainable modes of travel such as active travel and car sharing.
2564	This would significantly impact my quality of life due to noise disruption and pollution	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3062	That air quality be monitored in light of vehicles etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5763	A6 Road noise, fumes, queues. Air pollution is increasing in the nearby villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2564	It is too close to local/existing villages that cannot house more people moving to the area for work. The traffic in the local area is already an issue, and the number of people driving to the park would great gridlock on the surrounding roads. For those that live nearby, trying to work from home as so many people do, would be impossible due to the expected noise levels from morning until evening everyday. It would bring far too many people to a very small area that wouldn't be able to cope with it. Why does all land have to be built on - around the area of Bedfordshire more and more housing, warehouses etc. are being built and soon there will be no green spaces or places for wildlife to thrive. It also is at risk of creating more and more pollution	Would you support a potential park and resort coming to this site? Please explain why.	
3687	It will be good for Bedford if you came BUT it has to be sensitively thought out with regards to the negative impact on the town such as traffic congestion and pollution. The whole transport issue needs to be joined up holistically with BBC and local groups especially with the proposed new EWR link that MUST be developed with the right route for everyone. At present the proposed route is ill-thought out and will very negatively impact the town and not properly serve Universal.	Would you support a potential park and resort coming to this site? Please explain why.	
F6205	Monitor pollution to ensure it stays below threshold	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5022	A method to reduce pollution	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
249	I have mixed feelings because I appreciate it will be great for employment and the local economy but I am concerned about noise pollution and the effect on traffic in the area. I would be concerned about nightly fireworks affecting air quality as well as disturbing wildlife and pets	Would you support a potential park and resort coming to this site? Please explain why.	
COMMUNITY RESOURCES/FACILITIES (17)			
ID	Comment	Survey question	Response
1224	Funding of community resources for children	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	At this stage it is too early to say exactly what facilities will be present in the Proposed Development. However, UDX is considering mixed-use development within the Proposed

723	Providing leisure activities	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	<p>Development that would be complementary to the ERC. This may include components that could be used by other parties, such as conference facilities, exhibition spaces, sport experiences, and associated uses.</p> <p>The Proposed Development also includes transport related public facilities, such as road and rail improvements, as well as new active travel components for use by residents of the local community.</p>
4379	Out door pickleball courts	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4203	Local amenities as a priority	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3128	Shops	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3269	We are going to need a bigger graveyard	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3398	Local amenities	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3664	Free play areas	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
877	Restaurants and Shops	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4379	Have pickleball courts. Access for the visitors and community to come together	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3307	Driving cultural opportunities for local Bedford residents	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4930	Improving and helping emergency services	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1458	It will be difficult for local people to access services eg plumbers, electricians if they are all working on your project. How will you manage that?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
203	Just mindful of traffic and pressured on emergency services	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2604	Making it inclusive and providing facilities that are accessible to the whole community	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
967	Improving footfall in the town centre through provision of transport to the site & thus developing interest in the town. Maybe having a related information centre with relevant retail	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
569	I am not from Bedford, but this kind of project would be welcome in almost any city in the UK. My concerns would be around increased congestion and saturation of existing services. It would be my priority to ensure these are considered and communicated carefully	Would you support a potential park and resort coming to this site? Please explain why.	
COMPENSATION (12)			
ID	Comment	Survey question	Response
3437	Would local residents be compensated for the park being on their door step?	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	<p>UDX understands that nearby residents may be concerned about the scale of the project and the potential disruption it may bring. Its approach is to seek to design and construct the Proposed Development in a way that minimises and mitigates impacts as far as practicable, whilst delivering enhancements to the local</p>
3432	That the residents of nearby villages are respected in their views, that disruption is kept to a minimum and that they are compensated for the upheaval to their lives during the construction process	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

1044	Just that materials and the transportation of these materials and how communities will be compensated for the disruption and distress	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	community. For instance, the transport improvements within the Proposed Development will benefit the local area in terms of connectivity. UDX will also seek to deliver habitat enhancements and will implement a Construction and Environmental Management Plan that includes measures to reduce disruption during construction. It is not therefore considering a compensation package for local residents.
1732	Yes, whilst building this resort reimbursed the local residents with fair compensation.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2343	Compensation for people like me who want to live away from the noise, traffic and proximity to a project they have no wish to live near if it negatively affects house prices.	Across our parks we look to support local initiatives and charities. Are there any particular organisations you would like to see us support in the area should we go ahead with this project?	
2990	One possible way to get the local community on board if you meet objections is to offer anyone living within a certain distance of the park a discount on tickets. Other big organisation - such as the Imperial War Museum at Duxford offer their nearby by residents free entry as their flying days cause a lot of noise and disruption on the local roads. If you do fireworks this is disturbing so anyone who can hear them each night should receive some sort of compensation and a reduced or free ticket would be an easy solution.	Across our parks we look to support local initiatives and charities. Are there any particular organisations you would like to see us support in the area should we go ahead with this project?	
4273	I think you should contribute significantly to business rate tax to offset council tax for locals for 5 years. You would then get the buy in of the locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4500	Locals are SO LOCAL they absolutely should at the very least be offered some kind of compensation. I love the idea of Universal Studios in the UK, just not in my back garden. If you are looking to purchase more land - Stewartby brickworks (for example) in the future we would like to be told now. Homes were to be developed on this. This scheme has since fallen through, if you were to purchase this massive bit of land you would end up swallowing up the village of Stewartby.	Please share any other feedback you have at this stage.	
5893	People affected should get a reduction in their council tax	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3432	Be fair to locals. Listen to their concerns and act upon them. Compensate as necessary	Please share any other feedback you have at this stage.	
5121	I would like to know how people who live local to the site will be compensated for the reduction in the quality of life this will bring.	Please share any other feedback you have at this stage.	
3936	Temporary noise screening installed, communicate with the community. Try and deliver road and rail upgrades with the government as soon as possible so it can take construction traffic and then visitor traffic. Offer alternative accommodation for anyone severely impacted.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
SCHOOLS & EDUCATION (6)			
ID	Comment	Survey question	Response
902	Funding for extra curricular provison in local schools (Stewartby/Wootton/Wixams primary and secondary) by working with their PTAs	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	The average travel distance to primary school is approximately 1.6 miles. Given the size of the Site and the nature of the data source which provides data from a specific postcode, a further buffer of 1.6 miles has been added to this radius, creating a 3.2 mile buffer. This additional 1.6 miles represents the furthest distance within the Site from the specific postcode that the data regarding schools is collected from. This approach ensures all schools that fall within appropriate average travel distances to any point within the Site are captured.
1497	Knock on infrastructure such as housing, schools etc as there would need to be more built to employ that many people in the area	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1398	Schools and housing	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5380	Improving affordable housing for your cast members, ensuring there is a school and doctors for the housing	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1443	please reach out to more schools rather than colleges	Please share any further feedback you have at this stage.	The primary schools collectively have a total capacity of 8,440

5404	As an mother, I am especially open to further conversation about the effect this may have on schools in the next decade (the influx of employees who may locate themselves here will likely have an affect on school intake numbers when the time comes). I would also be interested in hearing further ideas into how the project can be presented in an educational way to the children who will grow up watching the changes to their environment and local town. It is a fantastic opportunity to teach them about the importance of developing infrastructure while maintaining the environment and local wildlife, as well as getting them excited. While adults are being provided with updates, should things become more set in stone it would be a great opportunity to communicate with the schools in Bedford that will be currently raising the children that will grow up with this universal park as their future.	Please share any further feedback you have at this stage.	<p>pupils and a current roll of 7,500 pupils. This equates to these primary schools operating at 95% capacity.</p> <p>The average travel distance to secondary school is approximately 3.4 miles. Again, a buffer of 1.6 miles (furthest distance from Site centre point) has been added to this radius.</p> <p>The secondary schools collectively have a total capacity of 9,230 pupils and a current roll of 8,875 pupils. This equates to these secondary schools operating at 96% capacity.</p>

INTERNET (3)

ID	Comment	Survey question	Response
2664	Broadband	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	UDX will make sure that all appropriate utilities are brought forward as part of the Proposed Development. At all of its parks UDX provides Wi-Fi access for its guests.
1502	Also if you go ahead a good internet infrastructure for live streaming during the visit after all the amount of vloggers would be free advertising gold dust.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
F6218	FTTP Fibre	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

LOCATION - STEWARTBY (2)

ID	Comment	Survey question	Response
2456	Thinking about the villages around to not block their accesses to their homes and think about the possible congestion issues. Plus being Stewartby famous for its history of brickworks it would be nice if it had its own Stewartby station with connections to the UK to London, to the north, east and west.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	<p>There has been some confusion about whether or not the former brickworks in Stewartby is included as part of the Site; UDX would like to reiterate that this is not the case.</p> <p>An aerial image with the site clearly marked has been included on the project website since it launched in December 2023, and the location of the potential theme park and entertainment resort complex has also been set out clearly using a red line boundary within the engagement pack from April 2024.</p>
1630	I am not local, but would hate to think that the village of Stewartby would lose its identity or be put under undue strain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

3701	Providing higher level entertainment	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3885	I have a few unique Ride Ideas, if anyone is willing to listen to me.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4061	Innovative rides	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
683	Incorporating the environment into some attractions	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2125	Potentially a new zoo	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4379	On the resort have pickleball courts	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2369	Build a beautiful masjid	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2879	Something like a nature walk around the area of the park so the people can see how wildlife and the ecosystem is being protected	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3718	Play areas for children	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

580	Innovative new experiences at the park	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
442	Entertainment for kids	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3581	If possible, just as a marketing idea. Since this would be located in the UK, the home of harry potter. It would be a very successful marketing idea to offer a hogwarts express themed transport experience.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
154	Please make this a theme park with a lot of roller coasters. We really do not enjoy screen based rides at all. And we have a serious lack of coasters in this country. That's why we traveled all the way to the US, simply because the coaster were faster, taller and scarier than the ones here. Also I understand that the uk has quite a long winter and it's quite cold but our summers have become increasingly unbearably hot to the point that 40Â°C is normal in summer now. We would appreciate some good water rides especially a log flume or water coaster.	Please share any other feedback you have at this stage.	
157	American theme parks have a good mix of rides for all the family and European/ UK theme parks do not do this well. Monthly pay options for season tickets is also worth considering/ short term memberships for summer months. UK lacks indoor water parks- this would be great!	Please share any other feedback you have at this stage	
207	Invest in drone and light shows instead of fireworks.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
175	It is immensely exciting to see Universal are planning to operate in the UK. Their unique offering of excellent design, presentation, theming and advances in the F&B sector will be a huge boon to the UK. It'll be exciting for UK creative designers to be able to help with the product and for the park to present unique UK IPs in an incredibly detailed way. I hope this project can be completed as it'll make the UK be a worldwide destination for so many people!	Please share any other feedback you have at this stage.	
2934	entertainment	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2976	Cultural	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2868	What entertainment will be there	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2823	Creating entertainment opportunities	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1034	Making the park unique to the other universal propoties.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2183	Creating something Unique	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2838	I just want it to be on the same scale as your existing orlando parks - Just been to them in Feb this year and will be back in Dec...it would be mega exciting to have a new (and different) Universal theme park in the UK. I must insist it happens!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2761	Adding a hybrid coaster built by RMC	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
207	Please re-build Harry Potter stuff in Bedford. Nothing else needs to be done. You will make a lot of money.	Please share any other feedback you have at this stage.	
220	The story of Harry Potter is set in the UK, I think this should become the major focus of the theme park	Please share any other feedback you have at this stage.	
293	Please build this park and please have a wizarding world!!!!	Please share any other feedback you have at this stage.	
197	On-site transportation that allows easy movement across the resort entrance, carpark and between transport hubs on site (i.e a monorail or cables car like in Alton Towers)	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
613	Please have Harry Potter areas :D Can locals have a discount :D If you need any IT employees, I'd be interested to see what's available if it comes around.	Please share any other feedback you have at this stage.	

2545	Bringing Jurassic Park River Adventure to the UK!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
538	I am incredibly excited that Universal is investigating the possibility of a new resort in the UK. The Universal Orlando resort is one of my favourite places in the world and I honestly thought we'd never see a park of this scale and quality being potentially considered here. I hope that if the park does go ahead, it carries the same vibe as the Orlando resort with an American-ised feel, palm trees and lots of water features. I'm a huge fan of immersive dark rides and I think the UK would of course benefit from having more indoor attractions because of the weather, but I'd hope to see a good selection of large outdoor attractions too (especially roller coasters!). I would love to see the big IPs like Jurassic Park/World and Harry Potter have a decent presence here as they have work exceptionally well in other Universal Resorts. Finally, if an Annual Pass was offered for the UK resort, I would be more inclined to buy it if included entry or even just discounts for the Orlando resort (and potentially other resorts) as well. As Orlando is a very popular destination for UK tourists, it would be great if there were benefits for that one in particular.	Please share any other feedback you have at this stage.	
4908	Put Super Nintendo World in the park.	Please share any other feedback you have at this stage.	
4888	Please bring a full blown American experience especially halloween horror nights we don't want boring UK ips we want jurassic Park/World	Please share any other feedback you have at this stage.	
4876	Super Nintendo World pls :)	Please share any other feedback you have at this stage.	
4845	Give us Jurassic World Adventure and Secret Life of Pets Off The Leash.	Please share any other feedback you have at this stage.	
4831	If you wanted to build a Hulk clone, I wouldn't complain :P	Please share any other feedback you have at this stage.	
4783	Gringotts, revenge of the mummy, very American	Please share any other feedback you have at this stage.	
4680	Don't use too many british ip's and create a world class rollercoaster like velocicoaster	Please share any other feedback you have at this stage.	
4651	A park would be incredible but a hub/ resort would be incredible to the local area. It needs to be more than just a cinema and bowling which is what is generally the case in the UK with real themed restaurants and entertainment venues open to all that aren't going to the park itself. I'm thinking similar to the chocolate emporium, themed crazy golf, blue man group level stuff	Please share any other feedback you have at this stage.	
4578	Would hope the park would feature British themes and the design blend into to the area, otherwise good luck	Please share any other feedback you have at this stage.	
4546	The history of the site (brickworks) should be included in the project - there should be some sort of museum on the site accessible to all without having to enter the main park and free of charge to everyone. Engagement with local agencies is paramount. Use local contractors as much as possible. The increased in people visiting the site and staying locally will have an impact on the local hospitals - Universal must seek ways of supporting the hospitals either financially or practically. Giving discounted passes to all local emergency service employees e.g. NHS, Ambulance, Fire etc. Give discounted passes to local charity volunteers.	Please share any other feedback you have at this stage.	
4549	Please include Harry Potter as a key part of any park- Harry Potter is British and should be celebrated here	Please share any other feedback you have at this stage.	
4496	Run legit Night Buses from the park to the Harry Potter Studio Tour.....take all my money.	Please share any other feedback you have at this stage.	
4061	Ride ideas -Harry Potter forbidden forest area/ride could have walkthrough trails for younger visitors during the day and then night time frights. Night bus ride A multi film ride experience taking parts of classic rides to combine to one ride! ET/JAWS/KING KONG/back to the future	Please share any other feedback you have at this stage.	
3784	If the project goes ahead, I would be very excited at the prospect of having Halloween Horror Nights in the UK and believe it would easily become the best Halloween event in Europe.	Please share any other feedback you have at this stage.	
F6143	I think as a big theme park fan, Universal UK will be huge hit across the world. Bedford is a great location, Home of Harry Potter so please bring a Hogwarts Castle you can explore, I will be applying for job!	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
5058	Delivering their well known world class experience and coasters	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

5120	Quality of Park	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3756	I would love to see some British IPs within the park	Please share any other feedback you have at this stage.	
3720	I hope the concepts, theming and creativity are not diluted for a UK audience, I really feel people would embrace the full Universal Resort experience	Please share any other feedback you have at this stage.	
3635	Include British universal franchises	Please share any other feedback you have at this stage.	
3637	Make sure it has a Jurassic Park section please!	Please share any other feedback you have at this stage.	
3672	make sure theres single rider queues on ride queues	Please share any other feedback you have at this stage.	
	I would love to know if the future plans for this park are just seasonal like the rest of the UK parks or will this be 365? It would be amazing to have the resort acessable through out all seasons as this is something the UK is majorly lacking in due to weather permitting reasons. I think this will really stand out and set the bar if this will be open all year round. I know this is only a proposed project thus far but the prospect of this coming to the UK really is so exciting. As a UK resident I wish Universal all the best with this project and hope to see these plans turn into reality.	Please share any other feedback you have at this stage.	
225			
415	Lord of the rings land please	Please share any other feedback you have at this stage.	
	I hope the project goes ahead.I would love to see a Harry Potter Zone/Lord Of The Rings Zone/Jurassic Park Zone.	Please share any other feedback you have at this stage.	
444			
531	More Velocicoaster and less F and F Supercharged please!	Please share any other feedback you have at this stage.	
	I really hope you build Velocicoaster here, or a similar coaster type. Atrocicoaster themed to camp creatacious chaos theory! Also, the jurassic world flying coaster from asia which looks like the best flying coaster in the world and 99% of uk will never get to ride it. I know thats two, but seriously, they'd be the best in the UK.	Please share any other feedback you have at this stage.	
550			
	My main point would be maybe consider building universals largest Harry potter land, hogsmead and hogwarts, diagon alley all around one area with a hogwarts express that goes around the exterior maybe with a similar show to the Orlando train. England is the home of Harry potter and the film studios at Leavesden are just down the road and are incredibly popular If you build a huge wizarding world in the uk, with similar rides to the orlando resorts,everyone will want to come. I'm sure you know how to tailor to the core audience you have and I strongly believe Harry potter would be the diamond draw for your park here in the uk, and as such if you go all out on size, scale, eat sleep and breath Harry potter then you will have one hell of a busy park in this country. Secondary the uk is absolutely crying out for an up to date, halloween event. We have halloween event but most are a bit lack lustre and cheaply done, , in my opinion, HHN is the most immersive halloween experience I have yet to take part in, and the uk as a whole would come to the park in droves for it. The latest any park in the uk stays open is 9 pm, and night rides are a huge staple of the uk theme park industry. If you brought HHN to the uk and opened until 12am 1 am 2 am, i am possitive universal would monopolise this part of the market. Thank you for your time and please make yourselves at home.	Please share any other feedback you have at this stage.	
559			
	I'd like to suggest again the permanent survival horror" experience. If I am willing to travel to Japan's park just to do the brief installation there during an event	Please share any other feedback you have at this stage.	
580			
615	shanghai jurassic world adventure	Please share any other feedback you have at this stage.	
	The UK market is lacking in good dark rides and water rides, Please consider bringing the wizarding world to life and (wishful thinking) a horror section with a IT the movie log flume or dark ride! Id be there daily! Hear me out.... a log flume that takes us through the sewers, with pennywise in his lair at the end! AHHH! my idea of heaven! Also should you go ahead please ensure that your merch includes pin badges and maybe the ability to start pin trading :)	Please share any other feedback you have at this stage.	
605			
	Please doesn'tjust do British themed attractions. Universal is about the movies. From new to OLD. The people are just begging for some all time classics to make a return in some way. Do this, and I promise you, Disney's days are over.	Please share any other feedback you have at this stage.	
652			
	I think the plan to have a universal park in the U.K. is brilliant. Going to be honest I'm happy to sign up for an annual pass now! I would like to see classic IPs within the park, would love to see back to the future revisited! But anything you decide to do will be EPIC!	Please share any other feedback you have at this stage.	
656			

683	I would like to see big rides, as people from this country travel all over the world to go to different rides across the world. I feel like these rides also need to be heavily themed, which is something Universal does well anyway. My final piece of advice would be that, if you want this to appeal to the masses, heavily advertise that CityWalk is a free attraction.	Please share any other feedback you have at this stage.
753	I think the park should consist of: * Main hub with San Francisco, New York, Hollywood, and London * The Wizarding World of Harry Potter: Diagon Alley in London, with Hogwarts Express to separate Hogsmeade area * The Lord of the Rings land * Kids area (Illumination or Dreamworks) * Jurassic World * Citywalk outside the park	Please share any other feedback you have at this stage.
897	Please make this happen, and of course Harry Potter themed area is an absolute must have :)	Please share any other feedback you have at this stage.
986	Harry Potter would be great if you went ahead	Please share any other feedback you have at this stage.
1203	Please consider starting construction on a Harry Potter themed Intamin blitz	Please share any other feedback you have at this stage.
1255	So excited for this project, really hope it goes ahead & please have Harry Potter World as that's my favourite part of Universal!	Please share any other feedback you have at this stage.
1304	this doesnt really relate to the early stages of the project but if you do go ahead with iy, PLEEEEEEEEEEEEEEEASE give us some very fast, tall and intense rollercoasters PLEASE, and also nice food, and also please put some harry potter here, its his country, and also please give us some yummy food and lots of vegan/ vegetarian options, lots of love mwah	Please share any other feedback you have at this stage.
1317	If this project would be build, please bring Forbidden Journey, Jurassic Word (Beijing), Velocicoaster and Transformers to this park!!!	Please share any other feedback you have at this stage.
1388	Anything you do, I would suggest considering the UK heritage in it. I know probably you want to emulate Orlando and Japan, maybe Singapore, but here consider for example what Alton Towers does by keeping the castle inside the park and making the park live within the environment.	Please share any other feedback you have at this stage.
1390	Looks great, I feel there should be plans of what the rides and areas will be/more details. Definitely have Harry Potter, Jurassic Park/World and King Kong :) Some British themes. We like Harry Potter and Lord of the Rings for similar mythology/folklore of our culture.	Please share any other feedback you have at this stage.
778	Build an enormous crowd pleasing signature coaster like a b&m giga, it would stimulate fresh coaster wars capturing imaginations and drive up all park attendance and park investments. The uk has nothing like it. Couple it with a multilaunch themed crowd pleaser like a velocicoaster, and then you'd have an immdiate gauntlet thrown down to all parks if you imagine there's 2-3 incredible universal style dark rides involving Harry Potter and other franchises, Minecraft is huge here, Zelda massive, Nintendo, PokÃ©mon, you could retro with thunderbirds, and Tolkien well that would draw people globally You need a couple Of massive thrill rides, and then also the dark rides. That will draw whole families, and all aspects of uk, but going bigger more ambitious more thrilling on just a couple will stimulate the market further.	Please share any other feedback you have at this stage.
1027	cannot wait for Halloween Horror Nights UK	Please share any other feedback you have at this stage.
1048	PS - Halloween Horror Nights on my doorstep makes it a win in my book!!	Please share any other feedback you have at this stage.
1392	Please bring the park to the U.K.!! We are in need of something different and universal parks have so much excitement to them, and they would be a refreshing change and a popular holiday spot, especially in combining visits to harry potter world (which is hope would be part of the park!) and the studios in Leavesden. We are long overdue something as incredible as this!	Please share any other feedback you have at this stage.
1410	Pleeeaaassssseeeeee consider a Middle Earth themed area - Tolkien has to be one of the UK's greatest story tellers and it would be wonderful if he could be celebrated as such :-)	Please share any other feedback you have at this stage.
1459	THANK YOU SO MUCH for considering the UK - if it goes ahead I will definitely be making it a second home!	Please share any other feedback you have at this stage.
	Doctor who ride using rise of the resistance ride system	Please share any other feedback you have at this stage.

1486	If you do go ahead I feel you should think about bringing some of the much loved areas of the parks you already have such as Harry Potter. I know we have the studio tour in Watford but just to have the universal Harry Potter in its home of the UK would be amazing. It would also be good to have attractions that aren't already in your parks to offer something new and unique to the UK	Please share any other feedback you have at this stage.
1629	Harry Potter & Jurassic World areas are a must have. If you doesn't bring these you will decrease the appeal massively,	Please share any other feedback you have at this stage.
1655	Please do this I have experienced universal in Orlando and you cannot compare it with the existing uk parks, bring Harry Potter world to the Country where it was created	Please share any other feedback you have at this stage.
F6169	A ride for Bedford brick + italian history	Please share any other feedback you have at this stage.
1656	Can i just say what what i would love too see on that land . Harrypotter i think ppl who go to the studio's in watford and iam one and my whole family have always said were is how Harrypotter rides . I love orlando but Harrypotter is British. I would also like to see jurassic world scooby doo and the old monsters like epic and transformers there is so many .	Please share any other feedback you have at this stage.
F6170	Is it going to be for all age groups?	Please share any other feedback you have at this stage.
1678	If you do build this add a Harry Potter world and partner with Warner brothers tour london	Please share any other feedback you have at this stage.
1683	An exciting opportunity that would be highly welcomed. I would try to lean in to the things that make the UK unique; think British culture. James Bond, Paddington Bear, Lord of the Rings etc. Make it unique.	Please share any other feedback you have at this stage.
1712	Would love many different types of rides. Including Nintendo world	Please share any other feedback you have at this stage.
1713	Would love good ticket prices and annual pass available. Would love Nintendo world to be there	Please share any other feedback you have at this stage.
1746	As I said earlier this is very exciting and we are 100 percent wanting this park to go ahead also with a nice new hotel or hotels and lots off shopping areas too would be great too but also I think the uk would love to see rides like Harry Potter and lord off the rings and Jurassic World for sure and any other themed areas that will involve British film industry movies this is a great step forward and love the fact you guys care so much for the local communities and infrastructure too thank you so much and cannot wait for this amazing park to happen. Steve finch	Please share any other feedback you have at this stage.
1750	I would love to see more thrill coasters than floridas parks	Please share any other feedback you have at this stage.
1756	Please Please Please make this happen! Whilst I love all your experiences and themed lands, I would love to see Jurassic Park in the UK. :-)	Please share any other feedback you have at this stage.
1796	I'd love to see a large Hybrid coaster such as Iron Gwazi	Please share any other feedback you have at this stage.
1798	You should build a gigantic dive coaster if the local community says yes	Please share any other feedback you have at this stage.
1774	It sounds incredible and hopefully it goes ahead a indoor water park would also be amazing	Please share any other feedback you have at this stage.
1820	I hope you do a Harry Potter, James Bond theme, Jurassic park and my all time favourite films back to the future 8Y%Ž8Y%½ for a 80s themed area. I really hope you do come, it would be amazing for the uk. Good luck 8Y%‰	Please share any other feedback you have at this stage.
1822	Since the park would be in the UK, and even not far from Warner Brother's Harry Potter Studios, it would be so cool if Harry Potter was included in the park, since it is such an iconic British film series. I remember walking into Diagon Alley into the wizarding world of Harry Potter for the first time when I was 12 years old and being absolutely blown away to the point of tearing up in awe at the first look of the theming and facades. I genuinely felt like I had stepped inside a TV screen into the movie. it would be so extraordinary if this feeling could be created for other people in the home country of Harry Potter.	Please share any other feedback you have at this stage.
1827	I would love the see Harry Potter, Jurassic Park and Lord of the Rings represented in the new park.	Please share any other feedback you have at this stage.

1841	Expanding the resort soon after opening to have more than just a first gate and Citywalk would be appreciated. As a theme park fan, I think a large indoor water park operated by a major themed entrainment provider would be a new and interesting gimmick, and having more than just the 1 planned park would really help to make the resort into a real resort (the water park could be a lower cost and build-time investment than the second gate I'm sure is eventually planned for the expansion land you currently own, and would be theoretically priority number two after a water park or other expansion (maybe something like Orlando's Great Movie Escape escape rooms but bigger / the permanent Halloween Horror Nights location you're building (I think a full-time UK HHN destination would be popular as the UK lacks but likes year-round haunts)).	Please share any other feedback you have at this stage.	
1844	Very exciting news. I've been to many theme parks all over the world and universal parks are in my top three for theming, rides and staff engagement. Please if this goes ahead bring us hogwarts and a velocicoaster like ride.	Please share any other feedback you have at this stage.	
1848	make it British and don't make it a carbon copy as the states try to make it as british as possible	Please share any other feedback you have at this stage.	
1853	I have suggested a number of things as I keep coming up with ideas for another theme for the park Please read all my other suggestions This is just another one Life size space station on the moon Doing the moon walk customer complete with outfits getting off the rocket I mentioned in my last suggestion, you can have the minions on the moon too??	Please share any other feedback you have at this stage.	
1859	A few things I wanted to mention is. A. Universal Resort has been an big bucket list of mine for a few years as one day I would love to check out Universal Orlando Resort in Florida and see there resorts and explore there rides like Velocicoaster, Hagrids Magical Creatures Motorbike Adventure and Hulk Coaster. But to have a taste of Universal Resort in the UK would be a dream come true and mean alot to me as being an enthusiast. B. I live over an hour away from Bedford as I'm from Surrey but despite the long distance I would totally spend every penny to check out this interesting Resort when it opens but if it goes to plan? C. I love Halloween Season and checking out some Scare Attractions closer to home and to see Halloween horror nights in the UK would be an insane opportunity to go to during Spooky Season?	Please share any other feedback you have at this stage.	
4110	design a theme park for all ages to appeal to a larger audience	Please share any other feedback you have at this stage.	
3969	I'm excited for this to become a potential for what will be the most visited park of the UK hoping you provide similar or same rides we see in other countries. Especially Jurassic Park, Harry Potter Transformers etc	Please share any other feedback you have at this stage.	
3888	If this project goes ahead (which I'm praying it will), I feel that there needs to be a focus on British movie franchises and characters. Yet also classic Universal movies - such as E.T. / Back To The Future / Jaws etc. A replica / new version of the E.T. Adventure attraction in Orlando would be the icing on the cake for me! The movie holds so many fond memories and the ride is so nostalgic from when I was a young child going to florida for the first time. Please bare this in mind!	Please share any other feedback you have at this stage.	
3662	Please do not let us down. Please allow this park to be built and invest in the uk. P.s you better build hogwarts for the uk!	Please share any other feedback you have at this stage.	
3633	Please build the parkmas it would be amazing to also have a UK HHN	Please share any other feedback you have at this stage.	
3502	Many, many public engagement events. Reach out in Newspapers and in person as is required. Social media input constantly without spoiling development plans right up till the NDA as people will want to know exactly what is going into their back garden" as they put it. Constantly engage with local nature reserves/ landscapers & environmentalists that understand how to make this sensitive to the site and its natural environment. Historically find as much as possible to do with the old brick yard/ the jobs it provided the service it gave to the local area and use that/ respect it where possible in designs and subtle Easter eggs for the local community to find and engage with.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3618	I think the plans are great and looks like there are plans for something people would really like in the UK. I would say it is important to have a Wizarding World attraction and would be great to encompass all the attractions that universal offer over the world. Being British it is a perfect tie in to the UK.	Please share any other feedback you have at this stage.
3512	Although early days , I would really love to see a Jurassic park, Kong, Lord of the rings and another British IP!	Please share any other feedback you have at this stage.
3993	I really hope you go ahead with it and pay homage to some British culture via the park.	Please share any other feedback you have at this stage.
3797	This needs to be sold to the full country and make it something for all the nations of the UK and draw upon our heritage of myths legends and stories. Make it uniquely British. Have indoor areas for when it rains. Jurassic world Beijing looks great and flying dinosaur and the parades in Osaka are great too . Great to see DreamWorks included like she-ra and maybe a British version of monsters land	Please share any other feedback you have at this stage.
3561	I have visited Universal Studios & its amazing & would do well in the UK. Although I think Nintendo Land would be better due to its popularity in the UK.	Please share any other feedback you have at this stage.
3467	Please doesn'tmake the resort too British that would be such a let down but if you are going to build a lord of the rings land that would be perfect. I would love a back to the future land, Jurassic park, Nintendo and how to train your dragon. A minions beach themed water park would be cool! Make the hotels better than Disneyland Paris as they are awful and feel cheap and dark. Merlin style hotels with the kids sleeping area are better. Please build this resort I'd gladly move to Bedford to work for you. Yours sincerely a theme park addict	Please share any other feedback you have at this stage.
3446	I feel a indoor water park like volcano bay would be a real hit in the UK x	Please share any other feedback you have at this stage.
1082	Heres to you universal, best of luck, p.s Halloween horror nights please	Please share any other feedback you have at this stage.
1115	This would be amazing for the UK if it goes ahead!! A Harry Potter, Mario and DreamWorks area	Please share any other feedback you have at this stage.
1912	Please do come to the UK. Even though I'm on Anglesey I would be really happy to see the new resort once open. Please do include Harry Potter etc and possibly Hammer House of Horror / Universal's Horror Nights type attractions etc?!! That would be great! Good luck with your other resorts and the Universal UK project etc. Thanks. Best Wishes. :)	Please share any other feedback you have at this stage.
1917	Include a Nintendo World and a Zelda or Pikmin ride!	Please share any other feedback you have at this stage.
1929	Your CityWalk concept for the UK intrigues me, but I'm concerned that you may try to make it more British than we the locals would actually probably like. The reason we are so excited is that little drop of the american experience we feel may potentially be coming to our shores. Therefore any influence you can have in bringing some of the more american specific brands to the area would be great for both yourself and us. In that light, the most exciting brands we believe you may be able to potentially attract would be Panda Express, Chilli's and Voodoo Donuts. However, even if you wished to rely upon some of the "US" companies that are now fairly well established in the UK, we have Taco Bell, Dunkin' and Sbarro which I think would also help add to the appeal. Bringing a selection of these (or similar) brands to CityWalk is more likely to make me attend more frequently with my family as they would help to give us that little "america fix" that we often seek. In short though, we'd all love you to open and I doesn'tknow of a single person in my circle of friends / work contacts / family that are not excited by this prospect.	Please share any other feedback you have at this stage.
1954	Would love to see a Harry Potter area.	Please share any other feedback you have at this stage.
1963	I think there's potential to honour the British/UK identity in this park, along with IP's and attractions that are not so local and offer something new, unique and different. I personally would love to see Universal Monsters have a presence! Gothic has a history in the UK and it would be great to see this represented!	Please share any other feedback you have at this stage.
1965	Cannot wait - I really hope your go ahead. I also hope that is it if the same standard of the USA - Harry Potter experience is a must.	Please share any other feedback you have at this stage.

1970	If the project was to go ahead I would love it for there to be an inclusion of some of the UK brands alongside the Hollywood brands. The Universal parks in the US are great showcasing emersive experiences and I would love to see that adapted to include some iconic and truly British TV shows or Movies.	Please share any other feedback you have at this stage.	
2000	A lot of the UK really want to see some bigger experiences than what is already available. The scale of the rides put into this park need to be taken into consideration. I plead anyone from Universal (you'll probably already do this anyway) to visit some of the parks in the UK to understand what some of them offer, or don't and adjust your lineup accordingly to ensure you're not adding similar types of ride, making them unique to your park in terms of ride hardware. For example a lot of people are begging for something from RMC in the UK so that could be a big draw to your park if you add something like that. Listen to the whole UK theme park community not just Bedford.	Please share any other feedback you have at this stage.	
2038	Not that I'm an expert or anything but here's a couple spitball ideas that me and my girlfriend are coming up with for themed areas and rides Dark wizarding world for Harry Potter / Azkaban / anything Harry Potter! Steampunk area using the bricks from the brickworks the site was previously creating as part of the construction for the area Not that you need me to tell you but GREAT roller coasters! The bigger, faster and scarier the better! Robin Hood / medieval / castles with moats style area think dragons, quests, knights of the round table, Monty python and all things British! For food you could have a extremely British style tearoom, scones, afternoon tea, light bites to eat Being from the north east it would be rude of me not to suggest having somewhere that you could sell our northern delicacy of the 'œTeeside parmo'*a chicken, Bechemal sauce and cheese dish that is famous in the north. Jurassic world / park as that is always popular with everyone especially the kids (my niece particularly) Dracula! Being only a short drive from Whitby, the town that inspired Bram Stoker to write his famous novel it would be amazing to see something Dracula related in the park And my girlfriend says Addams family area for kids I'm sure you already have your own ideas for these sorts of things and the go button has not been pressed yet but I really am so excited to see what the plans are for this park! Thanks for reading this long and very extensive feedback form we just really are that excited! Sincerely XXX	Please share any other feedback you have at this stage.	
2078	It would be great for this park to be open all year round which is not the case for other parks in the UK. As such, the park would need many more indoor attractions such as dark rides or indoor rollercoasters due to colder winters. Our favourite dark ride is Pirates of the Caribbean: Battle for the Sunken Treasure in Shanghai Disneyland. It uses state of the art technology and would be great to see a similar Universal branded property in this park.	Please share any other feedback you have at this stage.	
1086	Please build it. I would love to see Nintendo World in Europe. Even better in Bedford	Please share any other feedback you have at this stage.	
1280	Please bring over Halloween Horror Nights as well as permanent features of Universal monsters, Jaws and Chucky all year round. Including all the related cool merch. There is a solid classic monsters / horror fan base here in the UK. Not to mention those who love spooky season and made it a lifestyle all year round. Thank you :)	Please share any other feedback you have at this stage.	
1524	As a fan and as a member of the general public, this is an incredibly exciting project and something that would bring a lot of tourism into this countries economy and I believe that this park will bring something unique and different to the UK! I also think that bringing the seasonal events over would be amazing and something that will make a Universal UK park stand out such as the Halloween Horror Nights events. There are very few halloween inspired events in the UK and they don't have the same level of immersion or quality that Halloween Horror Nights brings and yet there is certainly demand in the UK for such events.	Please share any other feedback you have at this stage.	
2117	Please ensure you invest heavily in Harry Potter! This is the home of the boy wizard ðŸ™,™	Please share any other feedback you have at this stage.	

2110	If you bring a Halloween horror experience to the park please research the offerings we have in the UK currently in the major Merlin park and the bigger scream parks such as Tulley's Shocktoberfest. I feel that we punch above our weight in terms of creativity and experience but sometimes the budget lets these experiences down and the corner cutting can show. With the Universal budget and UK style of running scare mazes in terms of actor interaction and creativity I feel this would be the not only world class but the worlds best horror experience! Train fares can be very expensive in the UK because of how the railways have been run since being privatised. As someone who would be considering travelling from Manchester on the train down to the resort, please do everything you can to negotiate more reasonable fares to get to the resort from further afield in the UK, if this is possible. For instance, this part of the country it can often be cheaper to fly to Europe than get a train to London. Luckily I have the option to drive but I know many cannot and you have a lot of ambition to bring in a lot of people by train.	Please share any other feedback you have at this stage.
2136	Would be amazing to see: - a 365 day late night offering - a similar experience like City Walk Orlando - Halloween Horror Nights - a Hybrid RMC (would be the first for a universal park and a first for the UK) - a water park as a potential second park - an incredible family thrill rollercoaster on a similar scale to Hagrids	Please share any other feedback you have at this stage.
2142	I'm excited to see a major theme park coming to the UK and for myself and my family it cannot be soon enough and we be relatively local especially compared to traveling to the US to visit a Universal park (which we have done to Orlando a few times and plan on visiting again once Epic Universe is open) and will be closer than Disneyland Paris. Universal seems to be a whole family experience as opposed to DIsney which to me seems aimed purely young children or nostalgia for the old rides / theming where Universal have a good history with some classic IP's but also great theming with licensed worlds (ie Harry Potter).	Please share any other feedback you have at this stage.
2157	I would love this theme park to open. In particular, I would like to see the harry Potter forbidden journey ride. I have visited Orlando. I loved the harry Potter world - which would fit in with the Warner Brothers studio tour which is relatively close to Bedford. I also really liked the Dr Seuss area. My nephew really wants to see the supermario area.	Please share any other feedback you have at this stage.
2167	I would love to incorparte universal films and tv shows based in the uk within the park that maybe not at other parks acrss the globe but would also love Hogwarts built here in the UK for the UK fans.	Please share any other feedback you have at this stage.
2178	I think a Harry Potter themed area would be amazing in this resort as it is set in the UK I think it would really suit the park.	Please share any other feedback you have at this stage.
2179	It would be wonderful to have a water slide park / swimming pool set up as well as an aquarium.	Please share any other feedback you have at this stage.
2239	Please build Velocicoaster 2.0 here	Please share any other feedback you have at this stage.
2246	Just a thought but if you are going to build a train station why not the it to hogsmead. And you could run a steam train from London, can you imagine the popularity arriving at hogsmead on a real train.	Please share any other feedback you have at this stage.
2252	I would not bother with pools as its the uk.harry potter would be great a hagrids ride,nintendo land a large roller coaster,not too many motion sickness enducing rides,why have a negative impact from rides.themed restaraunts with interactive elements too them.make it a unmissable park I am sure you will.think hard on the wait times element it can make or ruin a visit	Please share any other feedback you have at this stage.
2472	Please add a Harry Potter area!	Please share any other feedback you have at this stage.
2565	Please build your park, we need something like this in the UK. Obviously have to have Harry Potter rides and the Monster section you are currently building would be epic here!!!	Please share any other feedback you have at this stage.
2562	Would love this universal to have different rides to the American parks (have just come back and would still love to visit the Orlando parks). I'd be less likely to if the rides were just carbon copies.	Please share any other feedback you have at this stage.
2754	bring a nintendo world to this park	Please share any other feedback you have at this stage.

2761	I am sure you lot at universal will do a harry potter area, but please make an RMC coaster as the UK theme park community has been begging for them and at Thorpe Park you can find the word RMC Ingraved into the fences, we want an RMC.	Please share any other feedback you have at this stage.
2843	Please consider a Lord of the Rings themed park...!!!!	Please share any other feedback you have at this stage.
2893	please do jurassic park/world	Please share any other feedback you have at this stage.
2917	I would like to see an indoor water park provision, with immersive theming and innovations.	Please share any other feedback you have at this stage.
4920	I would hope that Universal Creative can, not only bring some of the best attractions from their international parks (like Beijing and Japan), but create entirely new experiences that no other current Universal park has currently. Very excited to hear more if the project goes ahead. Thank you for allowing me to provide feedback.	Please share any other feedback you have at this stage.
3499	Very positive Would broadwalk be available to everyone not just park visitors	Please share any other feedback you have at this stage.
796	I have my own channel on Youtube called davidcrazyrides I have ideas for this park and it should stand out more then the other universal theme parks, I like to see many areas of this park, for example Sonic Land would be interesting, Camelot area, The Chronicles of Narnia land wonderland James bond land Doctor who land based on the classic show as that is always more popular with fans, DC Comics land this park would be cool if you when down this road of areas	Please share any other feedback you have at this stage.
1102	I would love to hear more about this whole development and Universal in general. If it will be almost like Orlando, then I would also love Mardigrass, Halloween Horror Nights and Christmas events returning every year.	Please share any other feedback you have at this stage.
1262	An indoor waterpark would be brilliant! Connecting the resort with the North of the UK is as important as connecting with London!	Please share any other feedback you have at this stage.
1334	The Universal Studios in Singapore has all the queuing areas carefully shaded - we would definitely need shaded/covered queues (due to the rain not the heat!)	Please share any other feedback you have at this stage.
1849	Serve the Bedford Clanger at the restaurants in the theme park!	Please share any other feedback you have at this stage.
2233	I think this is a positive mood and to give the UK a properly themed experience. I am glad to hear you look after your employees as well as the local environment. If this goes ahead i am really looking forward to see what attractions you bring (maybe a Velocicoaster here in the UK)	Please share any other feedback you have at this stage.
2331	Hoping you are thinking about the Dubai model of all year round undercover attractions. PLUS - Please please use the gravelpits slope for a huge Intamin roller coaster dropping down into and over the lake :)	Please share any other feedback you have at this stage.
2359	Build a launch pad with a model size rockets for people to experience the astronauts journey ! We used to have the chimney of the brickworks and miss them as our original landscap it would suited to have the pillars of strength back. Universal can adopt us history and create the future to the "we have clear skies and see a lot of shooting stars out here. Please reply back Thank you XXX	Please share any other feedback you have at this stage.
2377	Doctor Who themed attraction(s) please! Perhaps based on The Dalek Invasion of Earth? During the 22nd century Dalek invasion, the Daleks established a huge mining facility in Bedfordshire as part of their plan to remove the Earth's core and replace it with a power system that would allow the Daleks to pilot the planet anywhere in the universe.	Please share any other feedback you have at this stage.
4229	It would be really good if the brickworks kiln chimneys could be reinstated as part of this potential development	Please share any other feedback you have at this stage.
3701	The park should contain attractions relevant to the uk, and unique attractions such as jaws and lord of the ring wild be popular as the two franchises are still relevant in the uk.	Please share any other feedback you have at this stage.
3468	A year round theme park would be a positive with permanent, full time staff, with development opportunities. Theme parks in the UK have a bad reputation due to seasonal and inexperienced staff.	Please share any other feedback you have at this stage.
2422	In my opinion, I think you should make it as close as you can to the one in Orlando aswell as city walk kind of entrance as I feel this is a outstanding example of world class attraction, dining and entertainment. Hopefully incorporate USA dining options also such as, Cinnabon, dunkin donuts, Wendy's , panda express etc with also other unique dining experiences.	Please share any other feedback you have at this stage.

2451	Free training programmes for locals to apply for work there. If you where to build a green space include Princess Diana she is still our favourite royal. A hangers restaurant I would like to be part of it. And Taj Mahal restaurant with a center stage for all to sing and dance the evening away. I would like to be part of it my dream!! Also a massive Chocolate toothpaste theme coffee stop A Children's soft play indoor A zip wire I want to be part of this project Tourist shops in our town centre or an indoor shopping mall giving smaller businesses to grow I want to make my dad Proud He worked his whole life at the Brickwork I came to your first open meeting with the public 13/04/24 11am Excatly 9 years today he died I was proud to be there the ground the walked on and made bricks for a country he never new. He was alway proud so I want to know his sacrifice was worth it, I would love to continue to build Bedford. Sorry the grammar cannot find my glasses I'm blind typing! I'm bedford born and bread and just want to say Welcome to you all.	Please share any other feedback you have at this stage.	
2482	We are fully supportive of the site and appreciate your commitment to improving the local environment. We hope it will be built with the whole UK heritage in mind, not just Bedford's. In particular, we would love to see an extensive Harry Potter themed area bigger than any seen abroad, as this is his homeland. I am personally hoping for a version of Hagrid's motorbike adventure as in Orlando (sadly the forbidden journey castle ride makes me too motion sick so I'm not a fan of this!). Would much rather a big hogwarts castle that we could explore inside, with a great hall restaurant to eat in!) A forbidden forest area & ride would be amazing and would tie in nicely with the planting of native trees & screening for locals etc. Importantly for us, along with the train stations on site we would want to see the train times matching up with the opening and closing times of the park correctly so we didn't have to miss park opening. Otherwise we would have to come by car. Fingers crossed the project goes ahead!!!!!! Thanks for coming to the UK!	Please share any other feedback you have at this stage.	
989	It would be great for Bedford to have this opportunity, would be great to have a specific Harry Potter area as it is famously British	Would you support a potential park and resort coming to this site? Please explain why.	
2511	Please make sure old people's requirements are met (for example, nice peaceful open green area to walk around with comfortable sitting areas everywhere), so that they can comfortably walking inside the park in their own space. Please also make sure they are very welcomed and looked after by all the staff inside the park.	Please share any other feedback you have at this stage.	
2512	It will be important to have both a multi-faith chaplaincy and a medical centre for the employees. This should provide both GP and Dentist services. It may be a temporary structure during the construction phase. It should be expected to grow with your employees.	Please share any other feedback you have at this stage.	
2632	Please include Harry Potter attractions!	Please share any other feedback you have at this stage.	

E6289	<p>So fantastic news about the uk universal project us brits are so excited at the possibility!</p> <p>I think with the ever increasing growth of international students with money and the massive growth in population here it wouls be a fantastic idea plus we are the centre of the globe for majority of the population!</p> <p>Hs2 (high speed railway passing near by being built)</p> <p>So some proposal ideas team with WB studios in London with a split ticket to both attractions.</p> <p>The hotel rooms being harry potter house themes and a main ceremonial dinning experience for guests to eat!</p> <p>Harry potter flying lesson ride (similar to the velocity ride in flamingo land uk) https://youtu.be/Q7wKSH8ELnQ?feature=shared</p> <p>A uk midlands beach and designer outlet! Flat rides what the uk is lacking and theming to!</p> <p>Indoor rides for the winter could be the works biggest indoor theme park space</p> <p>Jurassic Park indoor tropical temperatures resort area with palm trees and hot springs</p> <p>Biggest imax 4D cinema in Europe</p> <p>A massive water park (also lacking in the uk)could be park of the jurassic world section</p> <p>The response to the whole project has been amazing check out theme park worldwide on YouTube the comments section is insane</p>	Comment via email	
-------	--	-------------------	--

E6285	<p>The inclusion of a major partner like Universal may also help with securing other sources of funding such as National Lottery or local or regional development government subsidies (exempt on local public interest grounds).</p> <p>- Bedford has a strong tradition of music and performing arts (Philharmonia/ Glenn Miller jazz band/ Bedford Sessions). Many West End and TV stars live in Bedfordshire because of its close proximity to London so there is a wealth of local talent with synergies from all the filming studios and drama/music schools nearby (Emil Dale, Purcell school, Bedford school). If you created a world class concert/sporting venue that could be dual use, this would protect income in off peak periods but also put Bedford on the map for music, opera, jazz, stage and comedy events. Many touring artists and shows travel from London to the North via M1 and Bedford would be an ideal mid point. If you create a world class venue, you would also get evening events and hotel revenues from other thrill seeking audiences of the non-rollercoaster variety and some cross selling between different generations/ ethnic cultures.</p> <p>Apologies for the direct approach but I would like my views to count and cannot attend the sessions. I stress I have no affiliation with any of the groups mentioned. I am just a local resident who is intensely proud of their town and would love others to appreciate it for all it has to offer. There are great opportunities here and a lot of goodwill for Universal's initiative. As a school governor and charity trustee for children literacy, I am deeply supportive of any opportunities you can create for school leavers and students here in Bedfordshire and hardworking parents.</p> <p>Many thanks XXX</p>	Comment via email	
3348	The theme park itself I hope will fit in with the other iconic Universal Studios Resorts, though also I would love to see embracing a more unique feel that help it stand out as the first European Resort. This would include having the massive movie brands Universal Studios is known for though expanding on those brands/themes rather than simply recreating what has previously been established. Additional I feel a great touch in particular would be to include the British spy, James Bond/007 as a themed area and character which could replace the Jason Borne stunt experience as well as possibly some other rides/experiences. An old Victorian London section would also work well for horror characters such as Jack the Ripper, Jekyll and Hyde. I'd also recommend building covered areas around the resort to encourage visitors all seasons of the year. I'm incredibly excited that you've chosen to explore this option seriously, I look forward to seeing more of your plans.	Please share any other feedback you have at this stage.	
3276	Please consider building a concert venue for bands to perform in	Please share any other feedback you have at this stage.	
3289	I have just one request I would like anyone in universal to build a pitch perfect land or ride thankyou	Please share any other feedback you have at this stage.	
3220	It would be great if you could consider building a world-class concert venue/ sports stadium as part of the project	Please share any other feedback you have at this stage.	
3203	Would love to see UK themed in here eg Harry Potter, James Bond, kingsmen etc	Please share any other feedback you have at this stage.	
5278	I personally wouldn't use rollercoasters etc but Bedford is seriously lacking a fun swimming pool. It would be great if you could incorporate a subtropical swimming paradise/water park with wave pool, slides and rides, wild water rapids etc into your plans - with the cost we pay being just for access to the pool and not the whole park. There could be restaurants in there so people could stay all day if they wanted to - it would be a great asset to Bedford. Thanks	Please share any other feedback you have at this stage.	
3197	I want a Nintendo themed area in the park	Please share any other feedback you have at this stage.	

3196	I think the project would be excellent for the development of Bedford and surrounding area, so much so that you should consider finding a way to encourage Sea World or similar to come and join the fun. I see that as a complementary attraction that would benefit both. The Oceanografic in Valencia is a good example of a compact Sea World style attraction as an alternative. With Woburn nearby and also Whipsnade Zoo, the area could justify visitors staying several days to everyone's benefit.	Please share any other feedback you have at this stage.	
3184	I think exploring different types of coasters and themed lands can be a good idea because theme parks around the world usually include similar themed areas, so making something unique like a themed RMC raptor to the UK would be phenomenal. In the UK, we doesn't have roller coasters like the ones in the USA, so bringing roller coasters like a single rail coaster and an RMC would be a massive hit to the theme parks industry. Making rides family friendly is all what roller coasters are about, but in the land you could have a few smaller coasters to make it more suitable to younger children. Theme parks like Universal have more action packed rides that children can find scary, so making a land dedicated to children would be a good hit into Universal Bedford. Roller coasters that are more thrilling are good for older people and young teenagers, so making an extreme ride like an RMC which is thrilling and action packed is good for thrills and excitement.	Please share any other feedback you have at this stage.	
3077	I'm very excited for this project and my whole family (and extended family around the country!) fully supports it. I'm certain you already have in mind ideas for what themes you'd want in the park, but here are some ideas that I think would be cool: 1. The Lord of the Rings - complete with an actual Eye of Sauron tower! It's very British and a popular brand. 2. Willy Wonka - and an actual chocolate factory! Again, very British and popular. 3. Shakespeare - imagine the enchanted forest from A Midsummer Night's Dream, complete with fairies and magical creatures! 4. Dune - ok, not a British author this time, but I just saw Dune Part 2 and I'm in love with it now. Imagine a sandworm ride! Anyway, thank you for your time and I wish you all the best in bringing to life this exciting and transformative project!	Please share any other feedback you have at this stage.	
2848	I think the outline height parameters are very high for the local area, even the train stations (at up to 30m high) is equivalent to a 10 storey building. I am interested to see a further developed massing assessment or LVIA/TVIA	Please share any other feedback you have at this stage.	
4802	- Drone taking pictures of the park being built for historical purposes - shopping area outside of the park front entrance is free to access. Have bars, shows, and shop brands from America (Joffrey, Chicken Guy) or other countries, cinema, bowling, bakery, and nightclubs decorate for the seasons and make special events (similar to Disney Springs, Milton Keynes) or transform the town centre into this. Gives a special day out for people not able to afford tickets to the park and brings interest in spending a day out in the shopping area. - Survey given to the locals of what lands make up the theme park (p.s you have to do Harry Potter land make a package deal with Warner bros studio tour as Harry Potter is British give us an exclusive land) - Our household has been to Universal Florida and understands the unique scale of this and I think many British people have not experienced Universal and do not fully understand what you can bring they think it might be like another Alton Towers when getting your message across explain that you have Harry Potter, Simpsons, fast and furious and other brands in your other parks so they understand the true scale of what you can bring we have had to explain to people what Universal is when talking about our holiday in Florida	Please share any other feedback you have at this stage.	
4704	You might consider looking at the actual LBC brickworks site next door - this was going to be developed by Cloud Wing developments for housing but this seems to have failed from what we hear...	Please share any other feedback you have at this stage.	
4551	It would be nice to see the Universal keep space for a second gate in the future	Please share any other feedback you have at this stage.	

3845	<p>I have few suggestions: 1. incorporate a plan to develop within the site/project a First aid Unit, headed by a qualified nurse/junior doctor for the health welfare of a global traveller 2. while, I understand that it is going to be a very expensive project involving billions.....still, I insist to keep the theme park tickets within the reach of a common family man. Many companies give preference to their short term profits rather than long term consistent profits. 3. restaurants/mini food outlets--should have a ceiling on their price limits without exploiting the pockets of the global traveller. 4. come up with pricing strategies which will encourage the visitor to come again and again....and not to have it like a once in a life time entertainment opportunity. 5. Come up with free shuttle busses from train station/bus station to the site to encourage the ease of reaching the site. 6. My biggest mourn in my own great Britain is the parking space. Please ensure that there is immense parking space. Also, keep the parking prices within the reach of the common family man. 7. Finally, I request the board to have strict rules in place...to encourage greenery in and around the entire project and make it THE MOST ORGANISED AND ECO FRIENDLY ENTERTAINMENT SITE WHICH REMAINS WITHIN THE FINANCIAL REACH OF A COMMON WORKING CLASS FAMILY.</p>	Please share any other feedback you have at this stage.
3721	<p>Hotels, looking at your current schematic with land allocation, how many hotels are you planning initially? I love Universal Orlando and how it has lakes and waterways that allow water taxis in and out of the resort from the hotels, would this be a possible plan for Universal UK? there is a large lake area that you don't have as part of your plan, would this be something you would consider buying in the future and possibly using it to house hotels with waterway links, thus even further reducing congestion from road vehicles into the resort parking area.</p>	Please share any other feedback you have at this stage.
3598	<p>My only concern with universal UK is the fact that it's been mentioned that universal are not looking to build any rides that exist at other universal parks. This means that the wizarding world of Harry Potter would not be built in the UK. I feel this could be insulting due to the fact That Harry Potter is a UK franchise and loved by the majority of the British public. I feel universal should consider installing a version of the wizarding world at this new park so Harry Potter is in the Home of the place in which it was created.</p>	Please share any other feedback you have at this stage.
3564	<p>Look to buy more land by the southern plot of land and extend the proposed size of the core zone of the proposed theme park.</p>	Please share any other feedback you have at this stage.
3539	<p>My only ask us that should this proceed you keep it as U.S 'bedford' and not try to rename or move it to sound like it's part of milton keynes or anywhere else. Keep it as Bedford - give us locals respect and acknowledgment that this is part of our community and we'll support it as our own.</p>	Please share any other feedback you have at this stage.
2784	<p>The park has been provisionally named as Universal Great Britain. The web address is Universal UK project. The term United Kingdom includes Northern Ireland whilst the term Great Britain does not. I would strongly suggest that the name of the park includes Northern Ireland, eg Universal United Kingdom. It would appear wrong to not include this part of the United Kingdom in any future name of the park. (Note that Northern Ireland is part of the United Kingdom whilst Ireland is a totally separate country).</p>	Please share any other feedback you have at this stage.
696	<p>It would be HUGELY disrespectful to name the site London Universal or similar. Bedford's name MUST be in the title so you are not to further ostracise the community.</p>	Please share any other feedback you have at this stage.
410	<p>The website address is Universal UK project. In social media, etc, the proposed park has been called 'Universal Great Britain'. I would strongly object to this term as Great Britain excludes Northern Ireland. The term 'United Kingdom' does include Northern Ireland. Please exercise discretion when choosing any final name and include Northern Ireland as it is part of the United Kingdom.</p>	Please share any other feedback you have at this stage.
5135	<p>Whilst Islands of Adventure is my all time favourite themepark, I appreciate that the British weather would cause some limitations, so lots of indoor attractions would be welcomed</p>	Please share any other feedback you have at this stage.

2259	Personally I think u should use the other side of the sight more or maybe even add a second gate	Please share any other feedback you have at this stage.
2781	Universal will need hotels also as local hotels would not cope with the volume , we have stayed in a few recently and very tired and not on par with even the more basic Universal hotels , people need more than 1 day to visit .	Please share any other feedback you have at this stage.
2871	Having read through the plans, I'm a little worried about the planned heights of equipment and buildings in the park. This region has embraced the visual impact of the Cardington hangars - their history is part of the fabric of the community. Part of this is their sheer scale. I have a small amount of concern over the possibility of displacing that for park skyline. Stewartby also was very famous for its chimneys (part of the brickworks) so perhaps that can be incorporated? I also have some concerns more broadly about the long-term impact on housing and services in the region. Obviously the economic benefit should go some way towards improving local services, but there is also an increasing demand for short-term accommodation like Airbnbs. Housing is already at a premium and buy-to-BnB is a key concern. Property in this area is also within commutable distance to London and will also be to Oxford and Cambridge following completion of the Arc. Adequate consideration needs to be given to pricing out locals from the housing market as a result of the opening of a park. The local hospital (Bedford Hospital) is in desperate need of improved infrastructure and there are deep challenges facing the local ambulance trust and police force. These services are critical to support the added burden of guests. I would like to see plans for how these services in particular will be bolstered through the development of the park to ensure that the local community truly benefits from Universal coming to our community.	Please share any other feedback you have at this stage.
3484	I'd love to see a network with other tourist attractions like Warner Bros studios in Watford. Enabling local hotels to benefit from tourists who come for a number of nights to visit multiple areas. Rather than a 1 stop visit - encouraging others to spend longer and therefore more money in the local areas	Please share any other feedback you have at this stage.
3308	Provide a project that will have longevity.	Please share any other feedback you have at this stage.
2457	It would place Bedford on the map even more so than it is now. Bedford has a lot of unique history about it, and Universal can tie the history with modernity. The amount of benefits of having a park this size would far outweigh the cons! It would be wonderful if Universal could add lots of nods and honours to Bedford in the process of their project if it goes ahead.	Would you support a potential park and resort coming to this site? Please explain why.
3257	The more facilities that could be created the better in my opinion. First class stadium would be good!	Please share any other feedback you have at this stage.
3146	I think that embedding British culture into the park would be very beneficial.	Please share any other feedback you have at this stage.
3142	I look forward to following this journey and sincerely hope you can in some way merge its rich past with an exciting future.	Please share any other feedback you have at this stage.
3128	Would love a world class stadium! - for concerts / sport. .	Please share any other feedback you have at this stage.
3011	I hope this project goes ahead and I cannot wait to come to visit you, hopefully you will put a Harry Potter world within the theme park especially with Harry Potter been English. It would be the biggest mistake if not.	Please share any other feedback you have at this stage.
2971	A ride suggestion: I was deeply upset that when I went to Universal Florida that I found T2-3D had been discontinued. Please for the love of god bring back this classic ride!	Please share any other feedback you have at this stage.
5637	A Doctor Who attraction in the park would be brilliant!	Please share any other feedback you have at this stage.
5669	A new theme park would be great. It's too costly to go overseas and it would be nice to have this kind of investment in the UK. The only concern I have is the current toxicity of the Harry Potter brand. While I suspect having a UK based Harry Potter theme park in addition to the studio tour would be strong. I would also be worried that people may use this as an excuse for anti LGBTQ+ activity (it's not a brand I engage with currently due to this). I would suggest you think about how the park design could integrate individual cubicles, or gender neutral spaces as well as making sure if you really must include Harry Potter you keep people safe and don't back bigotry.	Please share any other feedback you have at this stage.

6072	Another city walk would be a great concept as you could bring American and continental cuisine to one place. People won't have to go anywhere else. So just have activities and everything you would normally have to do with night life.	Please share any other feedback you have at this stage.	
6042	British culture should be celebrated which will alone help with attracting people to the park. Safety for all employees and guests should be paramount as we do have issues with younger demographics causing issues in theme parks.	Please share any other feedback you have at this stage.	
6013	Great project and please build a natural play area for local children and a wildlife area with a wizard twist.	Please share any other feedback you have at this stage.	
6092	Harry Potter, Lord of the rings, Nintendo what a park	Please share any other feedback you have at this stage.	
5562	I hope you go ahead with your plans, a UK themed universal would be amazing, we love theme parks here in the UK. There is a reason so many of us got to Florida.	Please share any other feedback you have at this stage.	
6078	I think in terms of enviromental/societal impacts I've pretty much covered needs in this article, however, in terms of park offering you could maybe include some rides themed to Back to the Future and other classics. I think this would make the park stand out whilst not being too dissimilar to the others.	Please share any other feedback you have at this stage.	
5216	make it all year round like florida and have some unique english theme rides	Please share any other feedback you have at this stage.	
5436	make sure the colours used in the park blend in with the natural surroundings. At the moment we have many large warehouses in the vicinity that are coloured white and stand out rather than blend in.	Please share any other feedback you have at this stage.	
5649	I would like to see Universal have a British spin on some of the IP like Paddington/ James Bond/ Dr Who/ Roald Dahl/ Tolkien. I think this would offer a great alternative to what you have in Florida and work well with exsisting IP you might want to use.	Please share any other feedback you have at this stage.	
4966	Please do a dvc or time share at your hotels so we could go to other universal hotels around the world	Please share any other feedback you have at this stage.	
5058	Please give us coasters and not just motion rides I think I speak for us all when I say universal isn't complete without its Jurassic park area, and of course we would all love a Harry Potter area like your US parks, just doesn'tpaw us off with fantastic beasts	Please share any other feedback you have at this stage.	
6053	Lots of Harry Potter content please!	Please share any other feedback you have at this stage.	
5749	More indoor attractions	Please share any other feedback you have at this stage.	
5643	Nintendo World is a MUST	Please share any other feedback you have at this stage.	
2761	The UK theme park community and economy is slipping not only would this boost the economy it would push other parks to up their game creating more tourism and overall better for everyone. BTW please please please make a hybrid coaster by RMC. C:	Would you support a potential park and resort coming to this site? Please explain why.	
6013	Create a Harry Potter themed natural play area for local children	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4422	If it means the chance of a super Nintendo world in Europe I'm all for it	Would you support a potential park and resort coming to this site? Please explain why.	
6060	Please build Super Nintendo World as well	Please share any other feedback you have at this stage.	
5521	I think this project is very exciting for the UK theme park industry, with the potential of new rollercoaster and themed experience that would be world class. I would like to see world class coasters like the Velocicoaster and Hagrid's Motorbike Ride. I would love to see some musicles themed areas or attraction based on the Les Miserables and Wicked movies.	Please share any other feedback you have at this stage.	
5582	I used to live in Bedford, and I know how much this project would completely revitalise the area. There is also a rich film history that is native to the UK (i.e. James Bond, Lord of the Rings, Doctor Who amongst others - even Chris Nolan's Batman films were partly shot in Cardington nearby) so it would be great for some of that to be included in the plans for the new park. I've heard a rumour that attractions from Orlando would not be cloned for the UK park, which I think is a great idea as it creates more reasons for UK tourists to visit this new park as it will be more unique (and also they will still visit Orlando, which is an awesome resort!).	Please share any other feedback you have at this stage.	
5918	Please do it!!! You get extra bonus points if we get a Wizarding World :D	Please share any other feedback you have at this stage.	

5508	Please do consider opening a resort in the UK. If you do proceed please include attractions such as Jurassic Park	Please share any other feedback you have at this stage.	
5503	Please include a Harry Potter attraction :)	Please share any other feedback you have at this stage.	
5991	Please tell us what lands and attractions would we expect in Universal GB. And please please include the Wizarding World of Harry Potter!	Please share any other feedback you have at this stage.	
5832	Short term accommodation	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1912	The UK needs a Universal UK Studios I think. Harry Potter / other films / TV history etc. Paris has Disney. London / Bedford needs Universal as a counter-balance maybe. I respect and admire the Universal Studios brand name and really hope that a theme park can be built in the UK. Good Luck! Thanks. :)	Please share any other feedback you have at this stage.	
1596	As a theme park enthusiast I would welcome any new theme park, especially a Universal Theme park in the UK. It would be a dream. We need a Harry Potter world like the Florida parks. It would attract massive amounts of fans I am sure. If and when this gets approved from all parties, where do I sign up for an annual pass?	Would you support a potential park and resort coming to this site? Please explain why.	
909	Additional attractions for visitors	Would you support a potential park and resort coming to this site? Please explain why.	
580	A Universal Studios park would be a globally significant attraction for the United Kingdom. Being somewhat familiar with the other resorts, I'm also excited to see the possibilities unfurl. Especially having seen the Resident Evil/BIOHAZARD attraction for Halloween in Universal Studios Japan, I'd love to see a full-time installation along such lines. Combining escape rooms, haunted house and laser tag.	Would you support a potential park and resort coming to this site? Please explain why.	
911	I would love to see this plan come to fruition, I've never been able to afford to travel to a universal destination before. As a child I was taken to Disneyland Paris but that is the closest I've come to a major theme park as beyond Europe was out of reach! Now I have two young children of my own it would be incredible to surprise them with visits to Universal UK! I know that mainland Europe would visit too just as they have done for Disneyland. We have so many great inspirational IPs like Lord of the Rings, James Bond and Paddington which you could use to inspire incredible lands! Also so much history to inform design, prehistoric fossils from when we used to be attached to America, Celtic traditions and stone henge with druids, Roman roads and Roman baths, Viking raids, medieval kings, castles and Arthur, Merlin and witches, pirate raids and smugglers caves as were an island, industrial age milling factories and canal systems!	Would you support a potential park and resort coming to this site? Please explain why.	
3625	It's a local theme park that I would get an annual pass for. Looking forward to what rides and areas are included.	Would you support a potential park and resort coming to this site? Please explain why.	
1051	My concern is the visual and auditory impact on the immediate residents of the surrounding communities, in particular the visual presence of the rides but also the inevitable sounds by the guests enjoying their stay.	Would you support a potential park and resort coming to this site? Please explain why.	
620	rollercoaster :)	Would you support a potential park and resort coming to this site? Please explain why.	
1695	Rides	Please share any other feedback you have at this stage.	

E6258	<p>Dear Universal Studios,</p> <p>I am a local resident of Bedford (Kempston, specifically – not to be confused with Kempston Hardwick), and was very excited when I heard the news that Universal Studios might build a park here. Having very young children, such an exciting place so near by would bring a lot of fun! Less than 15 minutes cycle ride.</p> <p>But I'll get to my point.</p> <p>If you were to go ahead with the park, I think it would be great if there was some sort of Shakespeare land or area. Shakespeare is, of course, a world-renowned British figure and has had a massive impact on entertainment globally, from the plays themselves, to children's book adaptations, to adaptations into film in various languages. There's a richness in his storytelling and a great diversity of settings and characters that could be used to make an area in the park. For example, what about the magical forest from A Midsummer Night's Dream, full of fairies and magical creatures? Or perhaps Macbeth's castle? Or Juliet's balcony from Romeo and Juliet?</p> <p>I also think a Lord of the Rings area would be cool (again, very British and globally renowned). Imagine an actual Eye of Sauron tower! It would be like building Hogwarts Castle!</p> <p>Wonka (and indeed Roald Dahl in general) is a big British brand too, so I think a Willy Wonka's Chocolate Factory would be neat too.</p> <p>Anyway, thank you for your time. I wish you well in your planning and negotiations.</p> <p>Yours sincerely,</p> <p>XX Bedford resident</p>	Comment via email	
2460	<p>We regularly travel to Florida so we would love to have a park closer to home. Especially if a lot of similar attractions are included - clearly Harry Potter would do very well here. Halloween horror nights too! The site is in a great central location.</p>	Would you support a potential park and resort coming to this site? Please explain why.	
427	<p>Love Universal in Florida and Singapore with the way it supports the environment and local jobs/economy and think it would be great for the area. Can we have a Harry Potter themed area please and a HP hotel? Especially in the UK that would be amazing</p>	Would you support a potential park and resort coming to this site? Please explain why.	
E6339	<p>Hey Universal, I am really interested in this GB project and thought I would suggest maybe some ideas for attractions for resort for future? But am emailing mainly to ask if you at all have an email where I can send ideas to or can I just suggest via this email? Have ride, attractions and coaster ideas for Gate 1, Citywalk and possible Gate2.</p> <p>Look forward to your reply,</p> <p>Kind Regards,</p> <p>From XX</p>	Comment via email	

E6342	<p>World area for Gate 1, Transport and more. I am a 100% supporter of this resort hopefully becoming a reality & happening as would be good & epic for the UK including Bedfordshire. Especially for local businesses, city of London and the rest of the country's attractions & airports. Look forward to hearing more news & updates in future to come, below are ideas & suggestions for attractions, look forward to hearing your feedback? Or reply?</p> <p>Ideas & Suggestions below here :</p> <p>1. There have been suggestions about Harry Potter World potentially being a land inside this resort involving gate 1? Had an idea which could incase you cannot get IP could create a perfect opportunity for both Universal GB & Leavesden Watford's Harry Potter Studios? Via a one fast & speeding transport experience which could via high speed bullet train transfer guests from Watford London Harry Potter Studio Tour via a separate London themed area a.k.a Kingscross Station exterior near studio entrance or inside? Create opportunity for Leavesden Studios to have Diagon Alley created area like Orlando, but using the real props maybe from the movies presented inside a London Harry Potter World? With unique & original attractions to Orlando & parks & resorts around the world? Massive capacity with family thrill Flying theatre around break out of Gringotts Bank? As if you are with Harry, Ron and Hermione breaking out of bank on back of the dragon? or Flying car ride like you have missed the Hogwarts Express & are taken on an adventure with Harry & Ron to chase Hogwarts Express to the Hogsmeade? With inside area Olivanders wand shop? Aswell other restaurant & attractions original from the movies? Maybe even Fantastic Beasts themed rides aswell featured? Leaving Kingscross Station featured somewhere either on front of land as an entrance linked to your park or Warner Brothers IP area? Like Orlando's Diagon Alley's facade or like London St Pancras is facade? With a flying car floating around at top? Featuring inside a different & unique type of Hogwarts Express which quickly via a new highspeed track transfers guests between both Kingscross & Hogsmeade for Hogwarts Castle? With highspeed bullet train at both ends being completely hidden from view in both stations by a shell facade? Like Ghost Train at Thorpe Park Resort? With its coaches themed inside around the historic, British classic steam coaches giving guests travelling between both the impression as if they are</p>	Comment via email	
-------	--	-------------------	--

E6343	<p>attractions and coasters at UK Univesal Resort. From British & American IP's to original idea attractions, coasters and more. Below are my ideas & suggestions, enjoy reading and look forward to hearing again from you about ideas feedback?</p> <p>My ideas & suggestions :</p> <p>Gate 1 / Studio Main Park?</p> <p>1. Could create a new version of a shark attack boat ride like Jaws Ride at Japan and Orlando? But a unique version with maybe it built partly indoors and outdoors? With unique story, unique layout compared to current existing version in Japan & Orlando classic one? or could recreate the original improved version which was removed from Orlando?</p> <p>2. Could have an original creation Rock N Rollercoaster Corkscrew Launch coaster like Rock N Rollercoaster at Disney Parks, but unique layout, unique looking trains maybe British themed car themed with British flag looking number plate & British Rock, Pop & Classical music? With a merch shop at exit of ride & before exit of shop, collaborating shop aswell with a very immersive themed Dark Ride themed around Space Girls aswell other UK music bands? With train cars themed around London Buses, Cabs and more?</p> <p>3. Could have a Flying Theatre or a Vekoma Flying Coaster themed around the RAF Red Arrows which could take families & all on a experience via either flying theatre screen or VR as an extra optional experience with a slight upcharge what its like to fly with the RAF Red Arrow themselves? With a preshow showing guests and all brief history & videos from Displays before boarding & riding coaster or attraction? At the end? Have a charity shop which with all profits made parts go directly to Universal, but mostly towards Red Arrows & RAF themselves? Could even like dark ride with music idea have again two rides sharing one RAF shop? Could have RAF Red Arrows as a flying coaster & Flying Theatre attraction as Spitfire & Hurricane attraction? Almost like you are flying through time from modern day into WW2 to face an adventure through the past, under falling buildings, inbetween planes in the Battle of Britain battle flight? With ending all guests making it back</p>	Comment via email	
2482	<p>We are fully supportive of the site and appreciate your commitment to improving the local environment. We hope it will be built with the whole UK heritage in mind, not just Bedford's. In particular, we would love to see an extensive Harry Potter themed area bigger than any seen abroad, as this is his homeland. I am personally hoping for a version of Hagrid's motorbike adventure as in Orlando (sadly the forbidden journey castle ride makes me too motion sick so I'm not a fan of this. Would much rather a big hogwarts castle that we could explore inside, with a great hall restaurant to eat in)! A forbidden forest area & ride would be amazing and would tie in nicely with the planting of native trees & screening for locals etc. Importantly for us, along with the train stations on site we would want to see the train times matching up with the opening and closing times of the park correctly so we didn't have to miss park opening. Otherwise we would have to come by car. Fingers crossed the project goes ahead!!!!!! Thanks for coming to the UK!</p>	Please share any other feedback you have at this stage.	

280	<p>As an engineer I'd love to see all aspects considered but with a focus on how to power the site i.e. please maximise the renewable potential. Examples could be using smaller wind turbines which are simpler to hide (for planning permission), solar towers, floating solar along with the more common roof-top, car port and canopy solar where possible, thermal energy technologies, battery storage and how all of these work in unison. Using smarter roads for those whom travel by car could be a real asset i.e. the cars generate electricity whilst driving on your roads which the site stores for later use and the car park utilises car-port solar panels for additional generation. Ideally there would be a commitment to plant various trees or other forms of climate benefits across the site as we all know this is a must going forwards. If these initiatives all reduce the running costs of the park then these could be passed on to the visitors in some way. One thing we have all noticed recently is the sharp increase in entry fees for Disney parks in Orlando which is unnecessary, it would be a real shame if visiting this park meant braking the bank for all for those less fortunate. I've always preferred Universal's parks in Orlando to their neighbours however, on a trip to Japan last year we (my wife and I) visited Universal in Osaka and it was amazing, one of our best days in Japan! The Mario section (although slightly cramped due to the lack of space) was great with loads of nostalgia mixed with modern technologies, the use of VR and AR across the park were awesome and the same goes for the Jurassic park section. The variety of snacks were superb, we love bao buns so these were a winner but I imagine a UK focus will take place here. All in all I really hope this project gets the green light :)</p>	Please share any other feedback you have at this stage.	
3382	<p>As someone who lives down the road from the development in Elstow it would be great to have convenient walking and public transport routes direct to the site. I would love if the plans could also incorporate an entertainment venue to put on shows such as music, boxing, wrestling etc (similar to the O2 Arena) as another part of the development. This would help generate interest in the site throughout the year. As a member of Bedford's Italian community I would be more than happy to discuss the unique history of Italians in the town and how that can be possibly incorporated into the experience.</p>	Please share any other feedback you have at this stage.	
683	Incorporating the environment into some attractions	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2953	Potentially look into adding British elements/theming into the proposed park.	Please share any other feedback you have at this stage.	
1749	<p>I feel it may benefit the project if there was a understanding of what exactly universal plan or would like to put into the park . Over 450 acres is bigger than US in orland and IOA also . Rain in uk is an issue also so inside rides would be benifical when it comes to all year access . It can be done with the likes of harry potter forgotton journey , or the mummy or minions . But i feel rides could be based on a more european design</p>	Please share any other feedback you have at this stage	
1749	<p>I feel it may benefit the project if there was a understanding of what exactly universal plan or would like to put into the park . Over 450 acres is bigger than US in orland and IOA also . But i feel rides could be based on a more european design</p>	Please share any other feedback you have at this stage	
2876	A man made 2 km sporting lake has been planned for a long time in this area, would this be able to be facilitated?	Please share any other feedback you have at this stage	
5991	Please tell us what lands and attractions would we expect in Universal GB. And please please include the Wizarding World of Harry Potter!	Please share any other feedback you have at this stage.	
307	What happens to the site at Watford as. universal studios and Harry Potter, will it close?	Please share any other feedback you have at this stage	
2866	Would there be any connection with The Cardington Studio facilities?	Please share any other feedback you have at this stage	

796	I love share ideas of my own for this park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2772	More information on park opening/closing hours would be useful. Are you partnering with any nearby hotels and/or building on-site hotels?	Please share any other feedback you have at this stage	
E6234	Hi, Just wondered if your resort has plans for a golf course or any tie-ins with existing golf clubs? Regards, XXX	Comment via email	
E6253	We are unable to attend dates at such short notice, can we please receive minutes to the meetings and a link to the survey. Also can we request the following question:- What visitor capacity model will universal project be envisage? With 8000 to 10000 is the expected visitor capacity 1 to 100 ie 800000 to 1000000 pa? What infrastructure and security will universal invest in to ensure residents disruption is minimised? Regards XXX	Comment via email	
E6350	entering I was quickly told about the children's table. When my children heard they wanted to go straight away. Whilst I appreciated the children's table and the refreshments I didn't get the opportunity to talk to anyone who is working on the Universal projects about my concerns, I have quite a few. I really wanted to talk face to face with someone instead of sending an email but unfortunately this is my only option now. I live in Wootton so I will be living in close proximity to proposed plans. Here are some of my questions and concerns - Doing some research online I've discovered that crime rates around theme parks usually go up between 20-30%. How can you ensure this won't happen here? - I moved from Luton to Wootton for a quieter place for my children to be brought up in. Now I feel it's going to be expanding considerably even after universal is built. My fear is that there will be lots of new hotels, air bnbs and fast food restaurants being built near and around which will have another impact on the surrounding areas. Also the cost of living will go up from local shops and restaurants as they want the custom off your costumers. This in turn will impact my family and home. - While living in Luton we got a council tax reduction for living nearby to Luton airport. Could this be done with us living so near to Universal? What will be the benefits of living in close proximity? I keep hearing the positives are jobs, jobs jobs. This is not a benefit that will directly benefit us. People that live near to Alton Towers get 20 tickets each season and people that live near Chessington World receive 4 tickets each for free. - A big concern is that our house value will decrease. - Will the local schools benefit at all? We live in Wootton but my children attend a school in Renhold which is a village in Bedford around 15mins away. I really hope that all schools in Bedford will be able to benefit from learning opportunities if you provide them?	Comment via email

3842	Close theme park	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4140	having such a brand have a theme park so close to us!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4161	The project has the potential to 'universal' to the communities across the region. a focus for common identity and to give the Oxford Cambridge Arc a unique point of focus	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4167	Opportunity to visit!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4755	Having something fun and exciting in the area	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2858	having an awesome theme park on my door step!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2775	Something exciting to look forward to for everyone in the UK, there's currently nothing like what Universal could offer.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3431	Easier to get to Than Disneyland	Would you support a potential park and resort coming to this site? Please explain why.	
3529	Employment and only live just over an hour away	Would you support a potential park and resort coming to this site? Please explain why.	
4942	Employment opportunities for the area, world class theme park on my doorstep	Would you support a potential park and resort coming to this site? Please explain why.	
2058	100% support. The UK is the perfect choice. Easily accessible from Europe. We already have fantastic infrastructure/road networks/airports. Being annual pass holders at Merlin we see a huge following of theme park lovers and meet staff who are passionate about visitors experiences. People will be moving to Bedford to work at Universal (considering it ourselves). The local and further afield economy would explode and I think for Universal, it would be one of your top grossing parks when you consider that most of Europe will be visiting.	Would you support a potential park and resort coming to this site? Please explain why.	
5151	Bringing the magic of universal parks to UK & Europe	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5446	Being able to go to the actual park.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

5263	Somewhere exciting to visit locally with family	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5228	Opportunity for families to spend time together and get kids out of their bedrooms.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4340	What safeguarding policies and structures will you have in place? How will this potential project work with the existing Marston Forest Centre and the Marston Vale area which is currently very accessible to local people and people from out of the area, without it being overrun.	Please share any other feedback you have at this stage	
3313	Bedford and the UK need something new and exciting. Bringing more is a great thing. Brings tourists too! love universal. Be nice not to have to fly to orlando every year	Would you support a potential park and resort coming to this site? Please explain why.	
541	A big fan of the Orlando resort we visit yearly and it would be amazing to visit a universal park that is more local, in the same country and no need to pay out for expensive long haul flights so we will be able to visit more than once a year! It will also create 1000's of jobs which is desperately needed and more tourism to the area. I am 10000% in support of this new project and I really hope you give the green light and proceed with it!	Would you support a potential park and resort coming to this site? Please explain why.	
2750	A large scale multinational theme park a short distance away from multiple international travel sites (rail and air) will be a big boost for international tourism, and hopefully will do the same as euro Disney, as well as give people an opportunity to visit universal parks without having to fly long distances	Would you support a potential park and resort coming to this site? Please explain why.	
1866	A park like this would not only be great for the local area, but the country as a whole. Not only is it great for people in the UK who do not get the opportunity to travel to other countries to get to go to a Universal park, but it will also provide a much needed tourism boost for the UK outside of London.	Would you support a potential park and resort coming to this site? Please explain why.	
540	Amazing opportunity for the UK. Incredible for people in the UK to have such a major theme park on their doorstep - particularly good for those that can't afford to travel to the US/Asia. UK would see a boost to tourism as seen in other areas with Universal parks. It would contribute significantly to both the local and the wider UK economy.	Would you support a potential park and resort coming to this site? Please explain why.	
4741	Anything that brings work and (via tourism) income into the area is a good move. This development could radically change the local employment prospects for many people who otherwise have to travel some distance.	Would you support a potential park and resort coming to this site? Please explain why.	
2328	As a big fan of universal it would be amazing to have a park nearer to home. As well the additional benefits of creating more jobs and opportunity's for people in the area.	Would you support a potential park and resort coming to this site? Please explain why.	
1746	As you explained earlier it's the support and jobs this will bring but the most exciting part is your park we will have a great theme park experience on our doorstep that is world class and not everyone can travel so far to your great parks this is very exciting and we are 100 percent onboard with this project and cannot wait for this project to go ahead as fast as possible thank you	Would you support a potential park and resort coming to this site? Please explain why.	
1869	Be a fantastic opportunity to bring new jobs, more day out experience for people. More realistic for people to go to local theme park then spending more money to travel to the U.S	Would you support a potential park and resort coming to this site? Please explain why.	
2000	Bringing more jobs to the country and area is always a good thing. Having new competition with other parks will only make them better when it comes to their investment decisions. A lot of people in Europe may not have the ability to travel to many of the other Universal Parks so having one smack bang in the middle of them only makes it easier for everyone. The economy, the UK economy is struggling so this can potentially boost it.	Would you support a potential park and resort coming to this site? Please explain why.	
3925	having a universal park in the UK would benefit us greatly it will open up new jobs and work opportunities as well as have a well known park in the UK thats easy to get too	Would you support a potential park and resort coming to this site? Please explain why.	

4239	Having a universal resort a stones throw away is a dream come true, especially for those families who probably can't afford to travel to America for the experience. The project is only full of positives and benefits, not only for those who want to enjoy having such a theme park in the UK, but from those seeking new opportunities for work, creating more jobs from having more transfer links direct to the park. Financial growth for the local towns and even the country. I don't think one person of many has any negatives to say about the project and are keeping their fingers crossed for the project to be given the green light.	Would you support a potential park and resort coming to this site? Please explain why.	
2380	Having been to the other Universal parks, I believe that you will create a park that no only respects the area and will create jobs, but the land will not go to waste. Universal have created some of the best loved rides, most exciting coasters, and impressive theming I have ever seen. The quality of the parks are important and the UK has often fallen behind with most theme parks. This has the potential to bring more people into the area, but also offer the people who live in the UK a chance to experience an incredible theme park without the need to fly abroad.	Would you support a potential park and resort coming to this site? Please explain why.	
3372	I am a fan of Universal Theme Park in Florida and I am excited about having a Universal Theme Park on my door step as I live in Wixams. I appreciate the opportunity afforded to my children for jobs in the future.	Would you support a potential park and resort coming to this site? Please explain why.	
2365	I fully support welcoming Universal to Kempston Hardwick area. Since I was 3 years old every few years I have travelled to Florida to go to universal. Universal is a place for everyone and lots of fun and you make magical memories that last a lifetime, every time you go more memories get made and every time is different, you never get bored! To have universal on our doorstep would be a wonderful opportunity. The location is a sensible place, with good transport links and waste facilities nearby. Bedford is my hometown (I still live local) but I'm sad to return to its centre as once a vibrant town centre now hardly anyone goes there to shop, lots of shops lay closed and empty. Having universal on its doorstep would be a game changer economically for the local area. I know when I go to universal in Florida most of my time is also spent exploring Orlando and shopping, eating so having universal in Bedford would massively help our local areas economically. The jobs it would bring to the local area would help every generation. It's such an exciting opportunity for our local people. If you are worried about traffic doesn'tbe, I've always driven in a car to Florida universal and have never sat in a queue or been affected be one, the universal staff are fully experienced at getting everyone where they need to be without affecting roads! I'm sure universal will have their own trains so no one is affected train route wise. Reading about how Universal will help our local area too is really refreshing that a big company has chosen our area to invest. Working with local ecology and wildlife is great although I doesn'tthink much exists there at the moment as it's a bit scrub land and probably has some contamination issues, so improving around the site making the area nicer with landscaping would benefit wildlife and ecology and you would probably find more wildlife than is there now! If maybe you could find another area of land in the UK to buy the same size as the site at Kempston to 100% dedicate to tree planting and wildlife and ecology and training people in this would be a nice idea so you are effectively replacing what you plan to taken away, would be a nice idea. I feel welcoming Universal here with open arms for our future could really transform our area for the better. Good luck in your application.	Would you support a potential park and resort coming to this site? Please explain why.	

4511	<p>I live just under 1 hour away and I would really love to have this type of park which is going to be accessible without flying to USA. I am 56 and visiting USA for 46 years to visit parks in Orlando, but now i am getting older and have health issues which mean I cannot fly at present. I would love to be able to experience these leisure time activities as I miss them so much and they bring me such joy. I visit making of Making of Harry Potter Watford on a regular basis as it is about 35 mins drive for me and is accessible. Universal do such a great job of making a very immersive park and brings great joy to my family. I am planning another trip in 2026 when epic will be open if my health improves and i am able to fly but at moment no flying until health problem is received. Think Bedford and that general area would really benefit from the investment especially jobs as the area needs a big employer who could sustain long term viability . The market is there in this country for parks but it needs to be done to a high standard, hotel, clean/tidy, and all year open, i believe universal could deliver this for us. it would be very much appreciated but parks fans.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3721	<p>I think it would be extraordinarily beneficial to the local and wider area. bringing in many more jobs and entertainment offerings. There are many millions of people who only live a 2 hour drive or rail journey from Bedford, many of which, like myself are huge theme park fans. To have a Universal theme park on our doorstep in the UK would be fantastic. I really hope you include some unique 'lands' to the UK park, such as Lord of the Rings, James Bond, Dr Who... some truly british iconic IP, along with Happy Potter of course. I visit Florida frequently and would like to see something unique in the UK park.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
2259	<p>I think it would be great for the area and brilliant for the less fortunate in the country as they can visit a universal park. I also think it's great for jobs as university students can make some money</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
2590	<p>I think it's such an exciting opportunity firstly on a selfish level. Having grown up in the area, some small improvements have been made but the only significant changes to the area have been increases in housing without any real investment into improving transport facilities & roads. The area was not particularly to grow up in and would often require us to travel away from the area for leisure however this would instead reverse this so that not only do we stay in the area with lots to do but would also draw others to here as a desirable and interesting location. I feel that economically, it will be tremendous for the area. Creating thousands of jobs, directly but also boosting house prices due to the proximity and the additional infrastructure, allow people to pursue their own business ideas in the area due to a guarantee of consistently high potential customer numbers. It will also be a boost for existing local and larger businesses such as the Centre Parcs Woburn Forest as a prime example. From having attended the consultation today, I can also see that extensive research has been done on the impact it would have on local traffic which does not appear to be an extreme amount but even if so, would be flowing in the opposite direction of my workplace so would not significantly impact the occasions where I do go on site to work. I think finally, another benefit it will bring is that I genuinely believe it will allow people in Bedford and the surrounding areas to be proud of where they live with such a monumental landmark. Bedford is not thought of as a particularly nice place to live and is a stones throw away, with the same small county as Luton which is constantly voted one of the worst places to live in the country however I really feel that long term it will have a significant positive and lasting impact on the surrounding areas changing it from a place people want to get away from to a place that people actively want to come to.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
1953	<p>I think it's brilliant idea, I think the area needs this. A lot of people here can't afford to go to Florida so having our own new park here in the UK would be fantastic. Bringing in new jobs is fantastic too.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3013	<p>It is a great opportunity for the area and makes something fun like a theme park more accessible to people of Bedfordshire and the East of England as most things are in London or further north. It also has potential for new jobs, better road/public transport infrastructure and putting Bedford on the map.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	

2250	It is important for a theme park on the scale of universal to have a destination in the UK for tourism, jobs, not having to travel hours on a plane. Tourists from Europe will use this as there local resort.	Would you support a potential park and resort coming to this site? Please explain why.	
4294	It would be amazing to create jobs and bring more tourism during this cost of living crisis, and also the location is perfect with it being so close to London people will be able to get there easily, the UK hasn't had something like this for a very long time so it would create an insane buzz, I don't know a single person who wouldn't go absolutely crazy for something like this to happen.	Would you support a potential park and resort coming to this site? Please explain why.	
4156	it would bring much-needed jobs to the area and would also be great for the local economy and the UK economy. Also would allow families who can afford to go abroad to have a full-themed theme park to visit.	Would you support a potential park and resort coming to this site? Please explain why.	
3487	It would provide families an opportunity to visit a world class resort without having to travel to the USA or Asia. It will also provide thousands of jobs to young people who are in need of employment and training.	Would you support a potential park and resort coming to this site? Please explain why.	
2248	It would provide thousands of jobs both directly and indirectly, improve infrastructure for locals, and provide an immersive experience that many people in the UK desire to visit in the country. It would open Universal experiences to thousands of people who can't afford to fly to the USA or Asia.	Would you support a potential park and resort coming to this site? Please explain why.	
4608	Local jobs, it's close to home and it's exciting to be able to visit somewhere like this easily, my children would love it.	Would you support a potential park and resort coming to this site? Please explain why.	
2177	Lots of UK residents could never afford to go abroad to have this experience Jobs and training for UK children Building something better than more warehouses that sit unused Harry Potters home is in the UK and we should have our own unique version of it here A celebration of British film	Would you support a potential park and resort coming to this site? Please explain why.	
3273	The creation of jobs in the area and improved infrastructure is much needed. To have this site outside London but still close enough to the capital for overseas visitors would be amazing. I love theme parks and to have this on my doorstep would be fantastic, putting Bedfordshire on the global map. Proximity to Luton airport and Trainline is ideal.	Would you support a potential park and resort coming to this site? Please explain why.	
2229	The jobs and opportunities it would bring are amazing. The site location makes sense and the people of GB need more leisure activities and immersive experiences. It would likely improve mood and offer escapism. Environmentally, people may be mote likely to stay in the uk and not travel as far to get the experiences they want and need. Currently we have to travel to Florida or Asia.	Would you support a potential park and resort coming to this site? Please explain why.	
3386	The UK falls behind locations like the USA, Paris and the far east for these kinds of attractions. Something like this would benefit the local and national economy, create thousands of jobs and is somewhere my young children could work at in the future. I am really excited by the prospect of a Universal Park being so close to where I live and fully support the idea.	Would you support a potential park and resort coming to this site? Please explain why.	
3874	This project would massively benefit the UK as a whole, Creating thousands of jobs in the construction of the park and also in the operations after. it will support the local area and also further afield. it will change the face of the UK entertainment. the park is situated perfectly to serve the UK and even links to Europe. this project would bring so many benefits and also memories to Families attending the park who can not get to your other destinations world wide.	Would you support a potential park and resort coming to this site? Please explain why.	
4951	This would change Bedford for the good bringing great potential to the area and new jobs , having a local park would be great	Would you support a potential park and resort coming to this site? Please explain why.	
3189	This would create a huge vocal point with large amount of jobs and bring lots of visitors in the area. No theme parks are close to this area and involve travelling	Would you support a potential park and resort coming to this site? Please explain why.	
4934	Universal Studios (Florida) is the most awesome place I've ever been to! The potential of having Universal Studios so close is literally beyond my wildest dreams! If it's happens I will without doubt be a regular visitor. It would also be great for the local economy and create so many jobs.	Would you support a potential park and resort coming to this site? Please explain why.	
2341	We need something of this sort in the area, presently have to travel too far to such places causing cost and time. Also creates jobs.	Would you support a potential park and resort coming to this site? Please explain why.	

1827	Yes, yes, yes!!!! Form visiting a few of the Universal sites in the US since I was young to now having my own family and visiting with my now 18 year old What an amazing opportunity within my own country for not only the younger generation for jobs and general infrastructure but also for us to continue to visit as an older thrill seeker!! Amazing so excited if this project goes ahead	Would you support a potential park and resort coming to this site? Please explain why.	
3313	Bedford and the UK need something new and exciting. Bringing more is a great thing. Brings tourists too! love universal. Be nice not to have to fly to orlando every year	Would you support a potential park and resort coming to this site? Please explain why.	
541	A big fan of the Orlando resort we visit yearly and it would be amazing to visit a universal park that is more local, in the same country and no need to pay out for expensive long haul flights so we will be able to visit more than once a year! It will also create 1000's of jobs wich is desperately needed and more tourism to the area. I am 10000% in support of this new project and I really hope you give the green light and proceed with it!	Would you support a potential park and resort coming to this site? Please explain why.	
2750	A large scale multinational theme park a short distance away from multiple international travel sites (rail and air) will be a big boost for international tourism, and hopefully will do the same as euro Disney, as well as give people an opportunity to visit universal parks without having to fly long distances	Would you support a potential park and resort coming to this site? Please explain why.	
1866	A park like this would not only be great for the local area, but the country as a whole. Not only is it great for people in the UK who do not get the opportunity to travel to other countries to get to go to a Universal park, but it will also provide a much needed tourism boost for the UK outside of London.	Would you support a potential park and resort coming to this site? Please explain why.	
540	Amazing opportunity for the UK. Incredible for people in the UK to have such a major theme park on their doorstep - particularly good for those that can't afford to travel to the US/Asia. UK would see a boost to tourism as seen in other areas with Universal parks. It would contribute significantly to both the local and the wider UK economy.	Would you support a potential park and resort coming to this site? Please explain why.	
4741	Anything that brings work and (via tourism) income into the area is a good move. This development could radically change the local employment prospects for many people who otherwise have to travel some distance.	Would you support a potential park and resort coming to this site? Please explain why.	
1625	Because it brings in jobs not just for the locals, but also for the rest of the UK even beyond? It will bring in tourism which would in my opinion have a positive impact on the UK's economy 100%, its what we need in the UK, as we haven't got nothing like it, also it can be sometimes expensive to travel to other resorts & parks throughout the world for us Brits via flying, trains a.k.a Eurostar currently to Europe aswell Disneyland Paris. Also we have no parks & resorts like this scale in the UK, could do with parks and resort more on an International & World class level. Offering more immersive themed & fun, thrilling experiences that current theme parks, amusement parks in the UK can't offer currently at the moment. Think with this park & resort, that will make this resort top. 100%.	Would you support a potential park and resort coming to this site? Please explain why.	
562	For the boost this will bring to the local area through tourism will also benefit the whole country, tourists are likely to come for the park, but then due to the close proximity to other tourist destinations like London will stay longer to further boost the country tourism income. This will also bring people from across the whole U.K. to the area to see what it has to offer locally so local businesses will benefit, especially hotels, B&B's, etc.	Would you support a potential park and resort coming to this site? Please explain why.	
1702	Having visited universal Orlando hundreds of times over the last 20 years having one so close would be amazing. The immersive experiences create so many memories that last a lifetime. It's always a highlight of our trip, when there's new rides/experiences. We travel from Edinburgh to Orlando yearly and still would but having a park here would open up that world for so many more people who maybe cannot travel as far for whatever reason. It would be great for tourism in general to have visitors from all over Europe and beyond. For us in Scotland, being able to fly, drive or travel by train would make experiencing a universal park so much more accessible and for some affordable.	Would you support a potential park and resort coming to this site? Please explain why.	

2222	I absolutely love Universal Orlando, so having one on my doorstep would be amazing, especially for those who can't travel to other countries. Will also be great for tourism in the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
2366	I think bringing a Universal Studios Park to the U.K. would be absolutely fantastic for the economy, for tourism and also for people who live in the U.K. There is a large theme park community here and Merlin Entertainment has the monopoly on U.K. guests. However Universal parks are a different league to anything we have now in terms of theming, investment and general overall quality. They also don't invest in the local areas or infrastructure around their parks and in my personal opinion just use the fact they have no real competition as an excuse not to invest. I genuinely believe Merlin would be scared of the competition. Having visited your parks on both coasts of the USA I know just how good the quality of your parks are and level of detail your company goes to to deliver excellent attractions, hotels, dining and facilities for your guests. I think the location is a fantastic choice, it's only a couple of hours journey for the majority of people in England and near already established transport links.	Would you support a potential park and resort coming to this site? Please explain why.	
3490	I think the opportunity to have such a world class resort within the UK would be a fantastic economic boost and bring a lot of tourism to the UK but also for me i have always wanted to go to your Orlando resort but the cost for me is unattainable, mainly due to the cost of flights but with the opportunity of this coming to the UK would make it feasible for me and family to enjoy your resorts also with a city walk area being considered i would happily make a 4 hour drive for a day trip to just experience it and visit often	Would you support a potential park and resort coming to this site? Please explain why.	
4842	I used to be an annual passholder at Disneyland Paris, and regularly visit both Walt Disney World and Universal Resort in Florida. Having something of that quality (in terms of rides, IP, theming and overall experience) in the UK would be amazing. I would visit often. It would also be a boost to the local economy and increase tourism, particularly as the site is less than 90 minutes from London by train, and a little over 2 hours by car.	Would you support a potential park and resort coming to this site? Please explain why.	
5521	Anything to make the park accessible from as many places as possible via public transport	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1488	I've never been financially able to visit a Universal park before, so to have one in the UK would mean I can finally visit! It would also encourage other theme parks in the country to step up their game, so would help the industry as a whole.	Would you support a potential park and resort coming to this site? Please explain why.	
390	Lack of current local leisure facilities, this project would massively enhance the area. Allow UK residents to attend universal studios that cannot afford to visit Florida. Provide funds for the development of the long promised Wixams train station.	Would you support a potential park and resort coming to this site? Please explain why.	
1831	Many people including myself have been eagerly awaiting a major theme park to come to the UK for a long time. I really hope this comes to fruition. Unfortunately I can't afford to visit any of your other parks around the world, so having one so easily accessible would be incredible.	Would you support a potential park and resort coming to this site? Please explain why.	
1303	My family loves going to theme parks, we have been to Alton Towers more times than I can count and Disneyland Paris 13 times. We have been to a range either side across the UK. We have always dreamed of going to America to visit universal and Disney but unfortunately the costs are out of our price range.	Would you support a potential park and resort coming to this site? Please explain why.	
563	My partner and I are huge fans of Universal Orlando, having been several times. A similar quality of site in the UK, just 90 minutes drive from our front door would result in us visiting every few months - probably purchasing annual passes, regularly also bringing other members of our family across generations. And we know with certainty that they will all love the parks.	Would you support a potential park and resort coming to this site? Please explain why.	
2373	So we doesn't have to travel outside of the UK to get a thrilling universal experience	Would you support a potential park and resort coming to this site? Please explain why.	

741	The economic and social benefits notwithstanding, I believe correct integration into Bedford borough and significant investment and connection to the town of Bedford would transform the entire area, pulling talent from London and lifting up Bedford as an integral part of the OxCam arc; the arc could become a desirable tech-heavy and skills-oriented location for R&D in the UK. Additionally, my support for this project also has a personal slant: my grandparents lived in Miami and we had a timeshare in Orlando. I visited Universal Studios (and Disney World, I'm sorry!) almost every year of my life and it fills my heart with joy at the thought of that gift being made available to my children right on our doorstep.	Would you support a potential park and resort coming to this site? Please explain why.
2482	The site is approximately 2 hours drive from where we live, we love universal parks and think it is fantastic that you are potentially coming to the UK. We are therefore fully supportive of all plans.	Would you support a potential park and resort coming to this site? Please explain why.
715	The theme parks and resorts in the UK are good and there are many, but none are anywhere close to as good as the Universal park I visited in Orlando. I've visited many resorts including Busch Gardens, Sea World and Disney to name a few but Universal is the best. The idea that there could be a Universal park so close to me and built in time to take my kids to before they leave us to live their own lives is nothing short of thrilling.	Would you support a potential park and resort coming to this site? Please explain why.
1987	The UK doesn't yet have a world-class theme park, and there are so many fans of Universal Parks here. Bedford is a brilliant location because it's accessible to so many in the UK, and it's so close to London.	Would you support a potential park and resort coming to this site? Please explain why.
2016	The UK has fallen behind with tourist attractions and especially theme parks. It would be very exciting for most people in the UK to receive a world class park and many more would love the opportunity to access a City Walk style area.	Would you support a potential park and resort coming to this site? Please explain why.
1570	Not only would this benefit the UK but as a citizen of Northern Ireland it would be a massive positive to provide a world class theme park close to the island of Ireland for residents north and south. We would have a Universal park only an hour or so away by plane which would be an amazing holiday experience that would not cost a fortune.	Would you support a potential park and resort coming to this site? Please explain why.
1129	The UK is lacking in theme parks and there is nothing like universal. Alton Towers is great but its way too far for most of the population. Thorpe Park is also great but not on the same scale as Universal. Bedford is the midpoint of the country making it accessible for everyone- making it easy to attend with family and friends across the country.	Would you support a potential park and resort coming to this site? Please explain why.
1617	The benefits to the local economy will encourage visitors and will hopefully reduce people feeling they have to travel overseas to get a full entertainment experience	Would you support a potential park and resort coming to this site? Please explain why
2863	As I live in one of the local villages I worry how this development would affect the local roads and villages that have already been severely disrupted due to HS2	Would you support a potential park and resort coming to this site? Please explain why
4175	As I live so close I'm unsure of the impact.	Would you support a potential park and resort coming to this site? Please explain why
1860	As someone who lives about a 15min walk from the site, the impact this would have on the local community would be incredible	Would you support a potential park and resort coming to this site? Please explain why
3916	Close and ideal for my kid	Would you support a potential park and resort coming to this site? Please explain why
834	Due to living close to the new site my biggest concerns are around the noise from the park spoiling the local area and the pollution and volume of vehicles visiting the park.	Would you support a potential park and resort coming to this site? Please explain why
2961	So much better than flying to Florida. I think it would be really popular. Also if it can be well connected to rail network, then it could be an easy day visit	Would you support a potential park and resort coming to this site? Please explain why.
2896	It's easily accessible by all of England. Please build it!	Would you support a potential park and resort coming to this site? Please explain why.
748	Not much to do round this area unless you travel miles away be good to have something to do close by	Would you support a potential park and resort coming to this site? Please explain why.
4702	Nothing else like it nearby. Will be very popular	Would you support a potential park and resort coming to this site? Please explain why.

1273	There isn't a Universal park in Europe, and it would be great to have Universal in the UK. The Bedford site is very well located.	Would you support a potential park and resort coming to this site? Please explain why.	
3397	This is a one in a lifetime opportunity for the local community, this site is centrally located in the country. M1 is down the road, Luton airport is also close. This site will be in the middle of Oxford and Cambridge corridor. This will benefit local economy and the local community will love to get involved.	Would you support a potential park and resort coming to this site? Please explain why.	
721	This is exactly what the UK needs and Bedford makes perfect sense. The site you have picked seems very ideal with rail location and road access. Millions of people travel to the US parks each year, and unlike other companies that opened parks in France, Universal knows the UK market much better.	Would you support a potential park and resort coming to this site? Please explain why.	
2316	This would be a great place for people to visit and stay instead of having to travel overseas to enjoy universal experiences	Would you support a potential park and resort coming to this site? Please explain why.	
1793	Travelling to America is a long way and difficult considering my disabilities so something in the uk to the calibre of your parks would be great. We just don't have parks with the level of quality and excitement here in the uk that you do in America. We need a taste please.	Would you support a potential park and resort coming to this site? Please explain why.	
4413	UK theme parks are not theme parks, they're amusement parks at best and this will be a welcome addition to those families who cannot get to Orlando or elsewhere.	Would you support a potential park and resort coming to this site? Please explain why.	
550	Universal Parks are god-level tier parks, and we dont have any in the UK. The closest god-level tier park to us is Port Aventura or possibly Warner in Spain although that is based purely on big coasters alone, with Disney and Parc Asterix potentially AAA like, Alton Towers and Thorpe Park. I really hope you build Velocicoaster here, or a similar coaster type. Atrocicoaster themed to camp creatacious chaos theory!	Would you support a potential park and resort coming to this site? Please explain why.	
1622	The project proposal recognises the importance of the local wildlife, lakes and the local area. This is a big site, but following the construction of EPIC Universe Flordia, I have no concerns about Universal and its partners not being organised and practical in their planning. Sound barriers and the planting of trees seem appropriate, as well as the management of the local waterways. I am so pleased to hear proposals for the investment in the rail infrastructure and two local stations. As I am not local I have no hands-on experience with the site. I am a wheelchair user and unable to drive so this alone is hugely positive for accessing the resort. The reduced emphasis on car/vehicle access feels like a positive!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
652	Ive been visiting your parks for over 20 years. There's a reason my family and I keep coming back. Having one 10 minutes away from where i live would be a dream come true. But be assured this will not stop me from going back to Orlando.	Would you support a potential park and resort coming to this site? Please explain why	
3620	Our family enjoys Theme Parks and Universal Parks offer a wonderful experience. It would be nice to have something like that much closer than Florida.	Would you support a potential park and resort coming to this site? Please explain why	
4730	The potential of having such an amazing attraction so close to where I live is unbelievably exciting, as someone who has visited both the universal Orlando parks on multiple occasions where me and my family had amazing time and memories the prospect of making more a little closer to home would be a fantastic. I really hope this gets approved and cannot wait to visit.	Would you support a potential park and resort coming to this site? Please explain why	
1965	So exciting to have such an amazing theme park less than 20 minutes from our door step. Not everyone can afford holidays to USA so will everyone to experience the magic of Universal	Would you support a potential park and resort coming to this site? Please explain why	
MANAGING WEATHER (46)			
ID	Comment	Survey question	Response
225	I would love to know if the future plans for this park are just seasonal like the rest of the UK parks or will this be 365? It would be amazing to have the resort acessable through out all seasons as this is something the UK is majorly lacking in due to weather permitting reasons. I think this will really stand out and set the bar if this will be open all year round. I know this is only a proposed project thus far but the prospect of this coming to the UK really is so exciting. As a UK resident I wish Universal all the best with this project and hope to see these plans turn into reality.	Please share any other feedback you have at this stage	UDX's parks and resorts are all designed to accommodate a variety of weather conditions, including a mix of indoor and outdoor attractions, and operate year-round.

338	Some say we have poor weather here (well actually we kinda do) and bad food but we do love our theme parks. Universal Studios would definitely be welcome here	Please share any other feedback you have at this stage
384	doesn't let the weather put you off. Free passes for residents in Wootton, Stewartby and Wixams, would be nice. Rail link is crucial. Make sure sufficient accommodation is built on site.	Please share any other feedback you have at this stage
422	Pay extra care to the unpredictable weather we have here. This area can flood pretty intensively if the right drainage hasn't been implemented. Also, considering that our winters usually surpass the lower threshold of typical amusement rides, ensure there is enough of an offering that won't be plagued by this. Current UK theme parks have to close between November and March because they cannot operate the rides consistently.	Please share any other feedback you have at this stage
424	Please do this! This is such an exciting time not just for park fans, but for the UK. Also, with cost of living currently, for many families it is simply not realistic to travel abroad to the states (for example) to get a proper theme park experience, this would be a great replacement (despite the weather being a bit, well, wet!).	Please share any other feedback you have at this stage
427	Nothing to add. I think that Universal have proven in other locations how the transport links matter. I love the monorail in Singapore and the Boat between the hotels and parks in Florida. Would love if we could get a local discount on park tickets or season passes and perhaps reduced or free parking in the evenings. Opening at 10am or later (like most of your parks do) would be good to avoid rush hour traffic increases. We would definitely visit City Walk and support restaurants. Would love City Walk to have a bowling alley, cinema, arcade, perhaps a skate park, outdoor play area or similar areas that young people in Bedford could visit for free too as not all local families could afford tickets. We would absolutely love a water park. The lazy river in Florida was my absolute favourite and whilst I appreciate we don't have the weather in the UK there are lots of places with indoor attractions (eg centre parcs) that show it can be done indoors too. Would love if a certain percentage of jobs could be ringfenced for local people or young people especially in the more unusual areas like tide maintenance/engineering/landscaping/HR/finance/and other behind the scenes work. Perhaps work with other local attractions to offer a multi pass/multi park ticket and perhaps opening day is for locals only? But yes very happy to support this and my kids will definitely want to work here. Their experience of Florida and Singapore was amazing and when I told my teenager about a site in Bedford he straight away said he wanted to dress up as a giant Minion and run around having photos with everyone! There is real excitement in the area about it and I cannot really see any negatives.	Please share any other feedback you have at this stage
527	I'm sure you've already covered this and know British weather can be temperamental so if construction can accommodate this all year round it would be appreciated.	Please share any other feedback you have at this stage
535	Please ensure that any construction is weather-proof. This park would benefit the local economy by remaining open throughout winter without reduced operations. As such, please ensure that neither rain nor snow impedes the enjoyment of the park.	Please share any other feedback you have at this stage
538	I am incredibly excited that Universal is investigating the possibility of a new resort in the UK. The Universal Orlando resort is one of my favourite places in the world and I honestly thought we'd never see a park of this scale and quality being potentially considered here. I hope that if the park does go ahead, it carries the same vibe as the Orlando resort with an Americanised feel, palm trees and lots of water features. I'm a huge fan of immersive dark rides and I think the UK would of course benefit from having more indoor attractions because of the weather, but I'd hope to see a good selection of large outdoor attractions too (especially roller coasters!). I would love to see the big IPs like Jurassic Park/World and Harry Potter have a decent presence here as they have worked exceptionally well in other Universal Resorts. Finally, if an Annual Pass was offered for the UK resort, I would be more inclined to buy it if included entry or even just discounts for the Orlando resort (and potentially other resorts) as well. As Orlando is a very popular destination for UK tourists, it would be great if there were benefits for that one in particular.	Please share any other feedback you have at this stage

677	if the park would be kept open year round there should be large indoors areas as the weather can get very bad, this could be in the form of flat rides inside a large building. The UK is also very cold so adequate heating may be needed for the park.	Please share any other feedback you have at this stage	
819	as the uk weather can be awful please consider covered walkways to make it more appealing in winter months! also doesn't forget about halloween horror nights! we must have that here too!	Please share any other feedback you have at this stage	
861	Please please include waterways in your designs. We love leaving the hotel and having a choice of transport and walking options. The boats a UOR are wonderful and those river environments are great for the environment, great for wildlife and those that want to relax from the parks. You'll need to have a lot of indoor attractions as the weather can be poor any time of year. We live about 75 minutes away but would still stay & play".	Please share any other feedback you have at this stage	
939	Please bring something Jurassic Park/World related to the theme park! Harry Potter - A great hall dining experience with lighting effects, where the weather changes (like in the films), floating candles etc. it's a family style buffet at the long tables. When you enter the experience you get sorted into your house via the sorting hat. You can see dragons and students flying on broomsticks 'out the windows' (via screens). Also, a quidditch themed rollercoaster, where you 'fly on broomsticks' inspired by the Hagrid ride system in Orlando would be incredible. Weaving in and out of the stands on the quidditch pitch, trying to out-fly dementors. I have lots of ideas and would be happy to discuss further!	Please share any other feedback you have at this stage	
1230	I understand this is in the early phase but I am supportive of this project with all the necessary infrastructure upgrades. It would be nice to see some of your well know IP's such as the Wizarding World and Jurassic Park/World, as I'm sure they would be popular. It would be nice to see the resort reflect the others around the world with some of it's own unique qualities. Some covered walkways in areas would be beneficial (I believe the climate here is similar to the Beijing park?) I know many Universal attractions are indoors. But I don't think all attractions need to be based indoors, as I'm sure they can operate based on any inclement weather. As they do in Orlando based on stormy weather etc.	Please share any other feedback you have at this stage	
1402	Really exciting project - hope it goes ahead. Only concerns would be whether it matches up to the levels of size and quality of the US parks. Particularly in terms of rubbish weather in the UK and making a park feel like a holiday destination with escapism in a climate that is often cold, grey and damp. Overall, much needed, really hope it happens!	Please share any other feedback you have at this stage	
1441	Will local village residents be given discounted season tickets as a sweetener. Will there be volunteering opportunities for adults as well as young people's work experience? As someone nearly retired having something to do that helps others once a week is great for mental health and isolation issues. Structurally the UK is not known for its great weather having spent years taking youth groups on trips you will need a large part of the theme park to be under cover. The few sunny days we have are usually too hot the rest cold and damp wet kids is worse than wet dogs ! And rides don't always run in the rain. Another thought is to use local artist to decorate areas or display their work. I can see so much potential with this project my brain is going overdrive !	Please share any other feedback you have at this stage	

1473	I think this is an awesome idea and much needed, the distances required for our family to get to a universal are huge, i checked and for a family of 6 your looking over 20k to fly stay and got to the parks, this makes it so much more affordable. I have thought about this and there are so many positives that i cannot really think of even a negative, it is all on how you delivery this and as long as the environment does not suffer and local people benefit then this is just a win win. One big thing to consider is the good old british weather, so things like free return passes on rain days and lots of covering for queues etc are probably a good idea. also getting ques correct, us brits hate people that push infront of people and some policing on this stuff is a must Also something to consider is harry potter, there is already a harry potter world in the uk is this something you will do or would this not be in good faith of HP, it is a difficult one as HP is the home of the uk so if you did it you would have to go big!	Please share any other feedback you have at this stage
1550	Very excited about the project and potentially having a Universal Theme Park here in the UK. As referenced above, part of the excitement of visiting Universal is travelling to another country and experiencing hot weather. That is a huge part of the excitement for us as a family. With regards to customer service, i would just say that the UK as a whole are not as good in this area as the USA so that would definitely be a challenge. UK is generally work shy with a huge benefits culture so finding local workforce would definitely be a challenge. People would generally prefer to stay at home and receive state benefits than say, work at a theme park. Also, the trains rarely run on time, if at all some days. So good luck with that! Other than that though, very excited!!!	Please share any other feedback you have at this stage
1644	UK is attractive and super accessible but I feel like the Bedford weather isn't the best. I hope the project isn't a lighter experience due to temperatures.	Please share any other feedback you have at this stage
1907	You'd better hope there is a change in government if you want to proceed!! Our current government of the last 13 years has destroyed the economy meaning people have little money left to spare on days out at places like this! They also stopped fast trains from stopping at Bedford from the north. Fast trains from the north don't stop at Luton or Luton Airport Parkway either. So you would need to persuade the government to change this to make it easier and faster for people to visit from the north of England. One of the guys at the presentation incorrectly stated that trains from London in the daytime are empty. What planet does he live on?! Has he ever used a train on a regular basis in this country?! Because of the present government's failed desire for the railways to continue being in private hands, a lack of investments means there are too few trains and carriages. This means they're always packed at all times of days and night!! Also, we have regular rail strikes in this country so you will be up against this too. I would strongly advise you concentrate on building an attraction that is most inside. The weather in this country isn't great most of the time. The mistake theme parks make in this country is not having enough for people to do inside when it rains and is cold. Good luck, you're going to need it!	Please share any other feedback you have at this stage
2030	Make sure to include lots of natural cover and indoor attractions - current UK theme parks struggle to perform well in bad weather	Please share any other feedback you have at this stage
2057	I am very curious as to how you will handle the weather. One approach would be the all indoors that you have at the Harry Potter experience in Watford but another would be, well look at CenterParcs Woburn Forest. I never feel like a rainy day is a bad day there as it is a forest, its has a magical quality to it and I think you are going to have to lean into the rain and the cold and build that into the theming. Some types of theming could work better in a rainy climate than a sunny one. Just get used to selling refillable cocoa mugs rather than coca cola. Also, I am so excited. Please build this park.	Please share any other feedback you have at this stage
2126	Content of park needs to take into account that the weather is not likely to equal that of your other parks, probably a higher than usual proportion of indoor / under cover attractions will be needed.	Please share any other feedback you have at this stage
2163	A lot of our outdoor attractions in this country succumb to the often miserable weather conditions, it would be great to see emphasis on indoor based attractions and ways to keep the public dry on days out. Thank you for reading.	Please share any other feedback you have at this stage

2198	I trust Universal to create the park with respect to the area, people and wildlife. I really hope this project gets the green light. Will be great to have a home park that we can help supplement our Florida trips, we still need good weather. The main issue British parks have is a real lack of indoor dark rides. I hope universal will bring their amazing experience in this field over here, especially with our inclement weather. Also we need our own Hagrids and Velocicoaster! Good luck!	Please share any other feedback you have at this stage
2204	This is a massive opportunity for the UK especially for jobs both on resort and surrounding areas and the UK . A new park like this has to be environmentally friendly. The English weather needs to taken into consideration so perhaps a large amount of indoor attractions.	Please share any other feedback you have at this stage
2409	My main concern is keeping visiting the park attractive even on those colder, windy and rainy days. I think it would be vital to have sheltered queues and lots of places to escape the weather so that it is still a possibility to visit on the bad weather days.	Please share any other feedback you have at this stage
3061	We need indoor rides and facilities in addition to the typical universal studios outdoor style for when the weather becomes bad so we can still enjoy the resort.	Please share any other feedback you have at this stage
3538	It would help to make it easy to get to the park by train which would help reduce congestion and traffic by road. The weather in the UK is very different to America, so I anticipate mostly indoors attractions among a few outdoor ones. Universal Studios had signature attractions in the Spider-Man indoor ride, Revenge of the Mummy, the Hulk rollercoaster and Duelling Dragons. It would be cool to build a sequel to IOA's Duelling Dragons" and maybe have it themed to the dragons battle from Season 8 of Game of Thrones since . Whilst it would make the park attractive to to use popular IPs like Harry Potter and Jurassic World	Please share any other feedback you have at this stage
3733	I would just reiterate that the weather can be unpredictable in the uk so having some attractions indoors would better serve all interests involved to ensure a year round operation.	Please share any other feedback you have at this stage
4384	I am looking forward to the potential a park will bring especially with its optimal location for travel for locals and visitors. I would like to see the park feature more indoor spaces and attractions and covered walkways to maximise the parks appeal throughout all weathers as the UK is subject to very varied weather and frequent rain which causes major outdoor rides and attractions to struggle.	Please share any other feedback you have at this stage
4533	With projects like these you are likely to encounter a tiny but loud objectors. Please listen to the majority. With regards to the resort. Please design it allowing for UK weather. Though it rains in Orlando, you dry off in 5 minutes. Here rain comes with cold and you don't. Please have the potential for cover. Retractable roofs etc would be a great idea. It would be nice to have some British themed attractions. doesn'tgo down the route of the parks in Orlando where wealth gets a better experience. Eg paid for fast passes / queue jumping. Brits WONT like that, that a very American thing. We want to visit a fantastic Universal park where every quest is equal. Citywalk - you'll have to be careful as Brits can consume vast amount of alcohol and that can cause real issues. PLEASE BUILD THE RESORT - THE UK WELCOMES UNIVERSAL.	Please share any other feedback you have at this stage
4928	Love this project and I really hope it happens. More indoor rides to keep it running year round and so the weather won't close it. Local discount opportunities.	Please share any other feedback you have at this stage
747	Remember it rains a lot in the UK and is cold a lot of the tims. Make the park covered / indoor attractions so it can be open year round.	Please share any other feedback you have at this stage
650	Other than a real excitement of this project moving forward. Our hope is that the attraction is suitable for our climate and will be accessible throughout the entire year. With more attractions that are covered or inside building.	Please share any other feedback you have at this stage
3797	This needs to be sold to the full country and make it something for all the nations of the UK and draw upon our heritage of myths legends and stories. Make it uniquely British. Have indoor areas for when it rains. Jurassic world Beijing looks great and flying dinosaur and the parades in Osaka are great too . Great to see DreamWorks included like she-ra and maybe a British version of monsters land	Please share any other feedback you have at this stage.
2044	The climate here is much colder than Florida/California so, while I would like this to be an 'outdoor' Park, there would need to be consideration for the winter months.	Please share any other feedback you have at this stage.

2012	UK theme parks are seasonal, this means those employed have to find other work (so you don't get committed and dedicated people) for upto 5 months a year. Having a year round park is so important particularly for all those kids who have birthdays in the normal closed months (can only do so many bowling parties). I travel to Orlando most years to visit universal and now to do HHN. This on our doorstep would be great (but I would also still visit the other parks, around the world).	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6049	Please bear in mind the UK weather. Indoor attractions is a must	Please share any other feedback you have at this stage	
2025	It live well over the mentioned 2 hours from this park but I would still be a regular visitor, if this can be designed with the weather in mind, having undercover areas or inside attractions this will be a huge hit. No other theme park in the UK has that and there are plenty of families who would love something to do in sun and rain that has the standards of a Unniversal park. That's without even considering the employment opportunities which would be a huge boost locally.	Would you support a potential park and resort coming to this site? Please explain why.	
3164	It would be a benefit to the local economy, although that must be offset against disruption, but local road, rail and air connections all mean these disruptions should be minimised and mean less upheaval for the local environment than a park in some other areas, although a brief look at the plans seem leisure park area might be restricted and other facilities provided to attract other industry (to provide an income to landowners) too large, where are the electricity generating facilities and with the UK weather being unpredictable covered areas would be essential.	Would you support a potential park and resort coming to this site? Please explain why.	
1846	Take the UK weather into consideration and provide indoor activities to compensate for this weather.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
F6112	It is about the Bedford had something good. We have nothing here except the biennial river. The train centre is dying off with shops closing, and I'm all for the Universal park being built to create employment here like the farmer brickworks, once did back in the day. Rides must be tailor made for the British weather though.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
497	Gives the UK a year round entertainment opportunity, hopefully the site may feature a lot of internal areas so it is less affected by the local weather. It would help create jobs for the area and beyond.	Would you support a potential park and resort coming to this site? Please explain why.	
1898	From an environmental perspective, it would be great to encourage a large proportion of people to use public transport to reach the park. All other parks in the UK are really only accessible by car. Could a subsidised/free bus or train ticket be used? We get a lot of rain here and it does get very cold and miserable for a significant part of the year, indoor areas might worth considering to make the park a year round thing. A lot of other parks (Alton towers, Thorpe park ect.) close for 3 months of the year. Opening hours at the parks here are also quite short, even in the summer. Having long opening hours really would be a treat for us here. Looking forward to hearing more on the project, great job so far!	Please share any other feedback you have at this stage.	
1749	I feel it may benefit the project if there was a understanding of what exactly universal plan or would like to put into the park . Over 450 acres is bigger than US in orland and IOA also . Rain in uk is an issue also so inside rides would be benifical when it comes to all year access . It can be done with the likes of harry potter forgotton journey , or the mummy or minions . But i feel rides could be based on a more european design	Please share any other feedback you have at this stage	
ACCESSIBILITY - DISABILITIES (40)			
ID	Comment	Survey question	Response
1175	It would be nice if one or two rides could be made available for those with a physical disability not just a few places on rides it would be a first for any ride operator to design and run	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX works hard to prioritise accessibility and inclusion and make these values an integral part of everything it does across its resorts, theme parks and attractions around the world.
4394	Assistance Dog accessibility!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
634	Wheelchair accessible	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	UDX is committed to creating a theme park experience that is inclusive and accessible to everyone, ensuring that all guests can embark on unforgettable journeys regardless of their abilities
394	Accessibly for disabled people.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

811	True Accessibility - I am an occupational therapist working with children and young people and I'd love to engage about disability access	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	<p>From the moment guests enter UDX parks, accessibility is built into many aspects of design. Pathways are wide and smooth, making it easy for guests using wheelchairs or mobility aids to navigate with ease, and ramps and elevators are strategically placed, to ensure that each corner of the park is accessible to all. All toilet blocks have accessible facilities and are placed in easy to navigate locations, and UDX offers a variety of accommodations at hotels and restaurants to ensure that every guest feels comfortable and supported during their visit.</p>
605	disability access and cost of tickets	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1523	Ensuring appropriate accessible access to disabled guests in the immediate local area + growth for other small business such as small markets.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4829	Accessibility not just disabled itself but for those with Special needs (my son has them and I work in local authority with regards to Special needs)	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2219	accessibility for the disabled	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1418	Disability access	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2105	Disability Access	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2219	accessibility for the disabled	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4667	Ensuring it catering for people with special educational needs and disabilities. (SEND)	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1183	A audio version of the map of the site	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2006	Disability access	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2565	Disability accessibility	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3995	There should be accessibility things such as sunflower lanyard, access card and if possible access schemes.	Please share any other feedback you have at this stage	
391	You should make this park a shining example of universal studios disability support services by making everything accessible to all. As there was a massive missed opportunity at volcano bay. We were very disappointed when we visited with the lack of accessibility to a lot of the park. As this is a new park the accessibility for disabled individuals can be designed from the start and not as an after thought later on, making it one of the first parks purposefully designed with accessibility in mind from the beginning.	Please share any other feedback you have at this stage	
394	Please make the theme park, railways and public areas accessible for people with disabilities.	Please share any other feedback you have at this stage	
4488	Please doesn't forget to consider the kids and adults with additional needs. Cross fingers this goes through.	Please share any other feedback you have at this stage	
4094	Step free access at Flitwick station would improve access. A town close by to the site.	Please share any other feedback you have at this stage.	
2119	I am so excited and am praying this project goes ahead and is fully accessible. This park will be miles ahead of anything in the UK currently!! Please please please bring universal to Bedford!!!	Please share any other feedback you have at this stage	
2219	accessibility for the disabled needs to be thought out the park from the start	Please share any other feedback you have at this stage	
2604	I have given some verbal feedback to Doug Akers about facilities for people with disabilities and will email him with details of organisations that can help	Please share any other feedback you have at this stage	
1120	As someone with a family who struggles with mobility issues a theme park (as against a roller coaster park) would be invaluable as a place that's easy to get around and a world class theme park in the centre of England would be amazing	Please share any other feedback you have at this stage	

1993	I am not sure if you are aware of the changing places campaign in this country. I vlog about getting everyone out of their houses and showing what's available to them to help them do so and changing places is a big one, as a father of x2 autistic boys I did get fed up of changing them on disabled toilets' floors and as my wife has a spinal condition having a hoist to help lift her onto the toilet is a get help (I'm not the only one out there for this). one of the things that whitbread do is help disabled people work in the community, great for nesting your inclusion numbers.	Please share any other feedback you have at this stage	
2391	As a person with mobility issues I am interested in facilities and accessibility	Please share any other feedback you have at this stage	
4829	I think it would be great for the area but to me a big part of my life is around SEN (special educational needs) so something with a sensory room or quiet area for those who need it can go. (When we went to Disneyland Paris recently we had a pass for our son to skip queues as he cannot do waiting and he also has a feeding tube so we went to baby centre to be able to sort this out for his feed)	Please share any other feedback you have at this stage	
5211	As mentioned previously, I identify as a disabled wheelchair user so having a Universal Theme Park that is potentially only a few hours away from me will be extremely exciting! I will be keeping up with all the updates and progression of this park. If you need further engagement with disabled people, please reach out.	Please share any other feedback you have at this stage	
3015	Facilities for disabled people to enjoy what everyone else takes for granted. Especially people with sensory disabilities e.g Autism.	Please share any other feedback you have at this stage	
6031	We would love to see a sensory room or a sensory area for children/adults with autism can regulate	Please share any other feedback you have at this stage	
5703	The walkways should address wheeling ie be wheelchair user compliant	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5703	Again the walking and cycling should include wheeling	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2105	I am a full time wheelchair user and regularly visit the park in Orlando. However in the UK there is very little disability access within theme parks so I hope this park continues to show why inclusivity is so important.	Would you support a potential park and resort coming to this site? Please explain why	
2185	I am a theme park Enthusiast and I would visit here very often. If things like Disability Access often known as Ride access pass. For people who are unable to queue.	Would you support a potential park and resort coming to this site? Please explain why	
E6321	<p>Good afternoon,</p> <p>I hope you are well.</p> <p>I unfortunately could not attend the recent event for the Universal GB project so could not ask my question to those present.</p> <p>I wanted to ask if there would be SEND provision planned. Such as a sensory room or quiet room planned for those with special educational needs and disabilities. (Which I know Legoland has). By their nature theme parks are hard to do due to the noise/sensory overload. So I can appreciate the difficulties with this.</p> <p>I ask because I live a stone throw away from the suggested site and have a toddler with SEND. (A feeding tube and Autism) so I know he would likely love the rides for the proprioceptive/vestibular feedback but would need somewhere to go to recover/reset such as a sensory room etc. I also work within the field for a local Authority so it is of interest to me.</p> <p>Hopefully you will understand/be able to provide some information</p> <p>Thanks XXX</p>	Comment via email	

F6215	Having spoken to Doug Akers and I think communications you missed a presentation about inclusivity for vulnrable and people with disabilities. Having spoken to you, I understand that you will publicise how you are adaptive so everyone can enjoy the experience	Feedback form: Please share any other feedback you have at this stage.	
F6215	Improving access for people with disabilities	What is the most important consideration for you when considering a potential theme park and resort in Bedford?	
E6292	<p>asked me to forward information to him about disability issues , with reference to Changing Place Facilities. Thank you XX</p> <p>For the attention of Doug Akers Re Disability ,Accessibility, Inclusivity</p> <p>Than you for chatting with me at your presentation on Saturday. I was impressed by your personal interest in disability needs for the project. I did agree to send you some useful information and contacts about Changing Places facilities in the UK. These are so important to people with disabilities as it gives them independence and dignity.</p> <ul style="list-style-type: none">I have been campaigning for these to be installed for the last 14 years, since my grandson was found to have rare genetic disorder. This is a link to the NO Go Britain Campaign ,although it is old is still relevant today. https://www.channel4.com/news/no-go-britain-disabled-toilet-facilities My grandson is one of the children featured in the video. It will give you an insight of the issues that people with disabilities have in the UK.Changing Place Toilets This is the link to the organisation that has all the information that you would require for your project. https://www.changing-places.org/ The team , from Central Bedfordshire Council,led by XXX, have funded the provision of the Changing Place Facility at Marton Vale Forest Centre . I have contacted him and he has agreed I could give you his contact details. I have copied part of his email 'If Universal are serious about inclusive design, a theme park accessible to everyone, they should convene a group of people with lived experience of disability, to inform their thinking and plans.'<p>He is quite right, these are the people who really understand the little things that planners miss.I would be happy to help , if you do go ahead with the project. 'A theme park of the scale envisaged in Bedfordshire would, I think, require a number of</p>	Comment via email

ACCESSIBILITY - AFFORDABILITY (30)			
ID	Comment	Survey question	Response
4902	A fun and affordable place to take my children on a regular basis	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX offers a range of ticket prices and packages tailored to meet a variety of individual needs and budgets. Additionally, UDX typically offers a variety of ticket packages and options that benefit the local community, such as annual passes, resident discounts, promotional offers and youth group tickets.
4451	Being able to visit a universal park without the cost of travelling abroad	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
605	disability access and cost of tickets	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1243	Prices	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3387	Pricing structure, including mums and toddler	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

157	American theme parks have a good mix of rides for all the family and European/ UK theme parks do not do this well. Monthly pay options for season tickets is also worth considering/ short term memberships for summer months. UK lacks indoor water parks- this would be great!	Please share any other feedback you have at this stage	
2048	Britons are very picky about prices. If we feel things are priced too highly compared to supermarkets, we simply won't buy them. Experiences for catering and food in particular should be competitive to the average UK price range. Staycations in the UK are also notoriously expensive and so Universal should consider accommodation prices and/or ticket prices for UK residents to be as competitive as possible	Please share any other feedback you have at this stage	
2114	As a regular to Orlando I wonder have Universal ever thought about letting those of us with annual passes use them elsewhere in the world? For those of us living outside of the Bedford area (137 miles north) this would make it a more cost effective option and mean we could visit more often. We would still be spending on food, drink and merchandise.	Please share any other feedback you have at this stage	
2150	While I know that Universal Resorts are not all about luxury it does cost a decent amount to stay at a resort. Facilities are always great but I would like to suggest to consider the spending availability of the residents of the UK and Europe alike. What I'm trying to say with this is try to keep budget travel in mind. I'd also like to suggest to try and work with the airlines that fly into Luton. Both Ryanair and Easyjet have a decent spread of flights from Europe so you could possibly consider travel packages with them. Above all, I hope this plan comes to fruition. It would be a great boost to local economy and for us enthusiasts to have a Universal destination within Europe.	Please share any other feedback you have at this stage	
522	If the project was given the green light having a annual pass that would cover people in other country's would be great. I would love a annual pass I could use in the uk and also when I goto orlando.	Please share any other feedback you have at this stage	
1163	Please let us know where we get our annual passes from!	Please share any other feedback you have at this stage	
3684	Please consider annual passes for this site, I am looking forward to bringing my family multiple times to this park!	Please share any other feedback you have at this stage	
3158	I have visited Disneyland Paris and Universal Studios in California. I have grand children and think that it would be much more affordable if tere was a UK K theme park	Please share any other feedback you have at this stage	
3016	I think this would be expensive day out for family's (based on other universal Prices). I think people that will be affected by the disruption and work (3 mile radius) should be given a local resident discount as a majority of people that live in the area currently wouldn't be able to afford to visit.	Please share any other feedback you have at this stage	
5780	Having been to the Orlando Florida resort with my children and grandchildren I am sure the project will provide a more affordable opportunity for a lot of people from Bedford and beyond to experience the same. My grandchildren are already getting excited about the project.	Would you support a potential park and resort coming to this site? Please explain why.	
5594	Trains tickets need an affordable options (bundle it with the pass)	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2536	The UK, and particularly the Bedfordshire areas needs help with regeneration. With travel becoming so expensive, more and more people are finding trips to the USA prohibitive and the cost of travelling to Europe is also becoming unaffordable. A universal theme park in the UK would be an unbelievable addition to the countries theme parks. Equally, it would mean that other theme parks in the UK would finally have some competition and would stop being so lazy in their development.	Would you support a potential park and resort coming to this site? Please explain why.	
1475	Some people cannot afford to go travel abroad with the cost of living crisis and having a universal here would open the opportunities up! Also gives merlin a run for their money as there only so many times you can ride nemis	Would you support a potential park and resort coming to this site? Please explain why.	

3684	The current UK theme parks are stepping into the world of immersive areas based on well known characters and stories, however these are heavily directed towards younger children (peppa pig and Thomas the tank engine for example). Universal has the IP and skills/experience to create a park that would be enjoyed by families of all ages and bring some magic to people that is currently only accessible to those who can afford to travel abroad to experience it. It will make lasting memories for UK residents and allow them to enjoy seeing new worlds.	Would you support a potential park and resort coming to this site? Please explain why.	
2907	It's in the perfect location and very easy to travel to for people all over the UK and those that travel from the airport. So many dream to go to Universal theme parks but will never be able to afford to get there, this will make so many people's dreams come true! So many people would dream to work in a universal theme park!	Would you support a potential park and resort coming to this site? Please explain why.	
1513	The UK is in desperate need for something like this. As a family we love family days out visiting attractions, having a universal studios in the UK would be absolutely magical for our and many other family's who can not afford to travel to Florida. To have that to look forward to and visit with our children is beyond our wildest dreams and and I hope and pray this goes ahead so we can make many happy memories here.	Would you support a potential park and resort coming to this site? Please explain why.	
1950	As a low income household who love theme parks, but could never afford to travel abroad, it is realistic exciting to think a universal theme park could open in the UK!	Would you support a potential park and resort coming to this site? Please explain why.	
945	I live a distance from Bedfordshire and I'm earning not too much at the minute, so distance and finance are an issue	Would you support a potential park and resort coming to this site? Please explain why.	
1929	The cost of travel to USA has become very close to prohibitive and we can now only travel there approximately every 3-4 years. Whilst it would still be our intention to do this as often as we can, having a local resort would give us options for annual membership to help "scratch the itch" during the gap between the more expansive trips.	Would you support a potential park and resort coming to this site? Please explain why.	
2814	The cost to visit other countries to use the resort is so high that it isn't possible for a lot of families	Would you support a potential park and resort coming to this site? Please explain why.	
4657	Other than being an annual universal visitor in Florida, so it would save me some money! What it can bring to the local area is huge from improvements to job which are so needed.	Would you support a potential park and resort coming to this site? Please explain why.	
2209	This park needs to happen. The uk desperately needs something like this. It also give many more people the opportunity to experience universal that could not afford to travel to the US parks.	Would you support a potential park and resort coming to this site? Please explain why.	
5040	Give students nation wide heavyyyyyyyyy discounts. Pay everyone more and make the travel to and from more affordable.	Please share any other feedback you have at this stage.	
5048	I would hope that hotels, food, and other aspects are affordable	Please share any other feedback you have at this stage.	
338	Two reasons: 1) I've been to Universal Studios in both Hollywood and Orlando (many times) and love your parks. It would be great for those who can't afford flights and hotels to America to be able experience how great you do parks. UK parks are ok but they lack investment, some looking really old, and the theming is generally something that's not really done. 2) I've already told my boss of the company I've worked at for 15 years that I will definitely be looking to see if you have back office IT work and would happily leave in a heartbeat if you do!	Would you support a potential park and resort coming to this site? Please explain why.	
LANDSCAPING (23)			
ID	Comment	Survey question	Response
660	Make the new themepark green with a lot of vegetation including tropical plants	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	UDX would like to thank everyone who took the time to provide feedback on the plans.
2075	Water features	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	As was stated within the engagement materials and survey, UDX was not and is not soliciting or accepting ideas or proposals for designs, concepts, or creative materials for attractions, products or services to be offered by it or its

2177	Lakes	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	affiliates.
2999	Adding much more polish to the development area in line with other universal resorts such as Universal Studios Japan	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3348	Scenic areas to relax in	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3502	Any additional SUDS or green spaces surrounding the development to be accessible for natural walks/available to pedestrians.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3657	Make it as beautiful as your other locations	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3701	Nature based areas at the park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3797	Bring nature and the sense of a park into the park like the central area of epic universe.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4203	More large open green spaces	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4710	Build a second gate, there's enough greenery in the UK already, a few acres isn't going to make a difference	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
195	Incorporate nature into the park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
386	Maintaining natural sympathetic landscapes	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5014	Include nature as part of themed areas.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
675	There are some beautiful scenic views in the area, that it may be good to use as inspiration for certain parts in between different areas of the park. This will give older members of the community some space to take things at a more comfortable pace than what younger attendees may want to go at.	Please share any other feedback you have at this stage.	
5985	I would like the exiting ponds/lakes on site to be incorporated into the parks so that we're not losing them.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5919	Positive landscaping which would encompass all of the items and contribute to future climate change challenges.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5496	Creation of a country park to offset the negative impact of the development on Stewartby residents.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5533	Just making the whole area look nice	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5842	Public Art maintainable by the developer.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5883	Areas locals can enjoy too	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3196	Landscaping area will automatically bring broad benefits to wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5406	The project must include parkland for locals to visit without making daily payment.	Please share any further feedback you have at this stage.	
EQUALITY AND INCLUSIVITY (17)			
ID	Comment	Survey question	Response
2369	Be inclusive, have halal food and proper prayer facilities	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX offers a range of ticket prices and packages tailored to meet a variety of individual needs and budgets. Additionally, UDX typically offers a variety of ticket packages and options that benefit the local community, such as annual passes, resident discounts, promotional offers and youth group tickets.
2006	Quiet space / Prayers facility / space	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3008	Equality opportunities	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3010	Equality opportunities	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1229	Have mosque prayer facilities in the theme park	Please share any other feedback you have at this stage	
2369	Please don't ignore that a significant proportion here is muslim and if you include a masjid people will love you. The Merlin group had ignored has for long time.	Please share any other feedback you have at this stage	
2394	Considering the number of Muslim families coming to the theme park, please consider prayer/mosque facilities in the theme park and in the tourist hotels, these areas can also be considered as part of the multi-faith prayer facilities.	Please share any other feedback you have at this stage	
2916	I would assume you may have potential family groups working for you. Would you be looking at supporting them by having childcare facilities or dog boarding during the day.	Please share any other feedback you have at this stage	
3221	Bedford is a multicultural town and this should be celebrated and reflected in/by the project.	Please share any other feedback you have at this stage	
2670	I'm not sure who would want to work in such a place. You're going to have to rely heavily on young people and those on low wages to staff the resort.	Would you support a potential park and resort coming to this site? Please explain why.	
5349	Must fit in with the wildlife environment , gardens , lakes, beautiful surroundings and nothing like thorpe park !!!! and be for everyone young and old and not just focused on the young	Please share any other feedback you have at this stage.	
1776	If this goes ahead please consider USA size seating for rides as UK ride seating does not accommodate people built like Hagrid's (as is my adult child's case) meaning those people miss out or risk the embarrassment of queuing only to be told they cannot use the restraints.	Please share any other feedback you have at this stage	

2103	If / When you go ahead the UK theme parks to do not accommodate bigger sized people. Universal Orlando does enable plus size people to ride there rides! As a plus sized person I would hate for Universal while building new coasters to make then small seated like Thorpe Park for instance! I'm a size 20 and I cannot ride anything there! Thank you	Please share any other feedback you have at this stage	
811	Please consider the seating on attractions . Whether we like it or not waist lines are guests are expanding .	Please share any other feedback you have at this stage	
197	I think it would be cool if the park implemented the Personal Rapid Transit pods like those used in Heathrow T5 to transport guests between the site entrance, carpark and transport hubs etc, as this would help guests with mobility issues as well as investing in an underutilised british technology, and would act as an attraction in and of itself for transport enthusiasts like myself.	Please share any other feedback you have at this stage.	
1591	Will there be a high limit and a sound limit for the rides	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
937	As an employee of a national organisation, keen to understand more around what CSR and social mobility initiatives Universal will consider should the site go ahead.	Please share any other feedback you have at this stage	
ALTERNATIVE LOCATION (17)			
ID	Comment	Survey question	Response
2582	Please reconsider an different area, perhaps in Milten Keynes	Please share any other feedback you have at this stage.	UDX respects these comments and recognises that any large-scale development will not be unanimously supported, however, it really welcomes the scale of positive support that it has seen of 92%, many of whom are from the local area. This has further underlined its view that this is an excellent Site to locate a theme park and resort. Further information on the reasons for choosing this Site and why it is a good location for a theme park is provided in Chapter 4: Consideration of Reasonable Alternatives of the Environmental Statement, the Transport Assessment, the Design and Access Statement and the Planning Statement.
2744	Ludicrous idea. Move it to Milton Keynes and the site of the caravan park	Please share any other feedback you have at this stage.	
3063	Take your project up north and regenerate poor areas for better publicity	Please share any other feedback you have at this stage.	
5570	Not because I don't think that the rainy and cold weather is not ideal for a theme park. This makes the visit uncomfortable. I recommend doing it in Spain as it has a more temperate and sunny climate like Orlando	Please share any other feedback you have at this stage.	
2382	Simply the LOCATION is ridiculous, it's in the middle of 4 villages and FAR too close to people's homes in 5 villages, no one bought a house here to then wake up to a bloody Theme Park next door, it's going to destroy the villages for thousands of people who live here but that's ok because Bedford Council will get a pay off & you will pay for works that they have failed on in the past The damage to wildlife at Marston forest centre, noise and traffic to residents is unacceptable to think you can destroy the area for profit. Yes to Bedford but No this location. There are far far more suitable locations for the project & you clearly have NOT done the research you claim to have done. I do not believe that you will fill all 8000 jobs from from the local area, possibly the entry level unqualified quick turnover position's but I'm certain that you will employ more senior positions based on experience, knowledge & fit and not post code area & to make that a selling point is insulting.	Please share any other feedback you have at this stage.	
4591	No not a good idea for this area. Donot want largwr roafs more housi g etc. Etc.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
327	Wish it was Peterborough!	Please share any other feedback you have at this stage.	
6016	Bedford is fine, but somewhere like Peterborough would be better location for transport for the whole country.	Please share any other feedback you have at this stage.	
5927	Please doesn't build so close to villages there are so many areas in this country where you can build this theme park where there are no houses nearby, Buckinghamshire/milton Keynes for example. The traffic would be horrendous stewardby is a nice quiet village and that's why we moved here. This theme park would destroy this peace , just build somewhere else please.	Please share any other feedback you have at this stage.	
2434	When I saw this in the News I was very surprised with the location choice. I understand the need to be close to London however I did wonder if you had considered the South Coast of England due to its fantastic links to Europe? From Southampton and Portsmouth there are daily Ferry Links to and from France as well as the EuroTunnel in Dover. It wouldnt just be British Citizens who would visit the resort but thousands of tourists from the European Continent. If the Theme Park and resort was closer to the South it would make transport much more convenient for everybody.	Please share any other feedback you have at this stage.	

426	Bedford is not the right place for this to be situated. The disruption to the infrastructure, wildlife habitats, & communities will be massive, given Bedford Borough Council's awful reputation it could be catastrophic.	Would you support a potential park and resort coming to this site? Please explain why.	
3536	Great to have a renowned park with touching distance	Would you support a potential park and resort coming to this site? Please explain why	
702	The red outline is too close to the village of Wootton the yellow outline more acceptable the red outline unless wrong goes right thru the train line? How does that work? You should consider noise pollution and keep furthest distance possible which is the yellow outline of the two drawings. Wootton is terrible to drive to as it is. I am stunned at location choice. It is poor for buses (1 an hour) the rail service is also poor. The roads are rubbish, but A421 the amount of extra traffic will swamp a tiny area. Can't you look elsewhere? This doesn't seem right to me - Wootton is a tiny village and the red looks too close, too noisy etc and I have questions on how building thru the rail line that's existing within the red outline but obviously if building on yellow outline it's a bit different as further away. The roads aren't built for this sort of thing. As good as idea sounds to visitors it will be a nightmare for area, the area itself is deprived and has had various businesses close down and say as much - nurseries for example as the people in this area just don't work at the end of the day. Bedford has rubbish employment rate. Wootton is rubbish to get to because of public transport being naff. You won't get the staff	Would you support a potential park and resort coming to this site? Please explain why.	
5546	Please site your project in another part of the country where the employment opportunities are really needed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5579	Please come to Spain	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
204	Please come to Spain	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4915	Make sure you pick an area in Bedford that is very rural with very few houses/farms or none if possible!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
SAFETY AND SECURITY (14)			
ID	Comment	Survey question	Response
3845	Organise additional policing, safety measures for the wellbeing of locals and also international visitors	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX is experienced in minimising crime at its theme parks across the globe. It is in its interests to minimise crime so as to maximise guest experience. High levels of security will be on Site at the ERC to minimise any crime and this is therefore not anticipated to lead to a significant effect. More detail can be found in the Security and Emergency Planning Report.
2849	A feature that explains to visitors why the park is screening staff for child trafficking	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2849	Screening all staff and anyone involved for history of child trafficking and child abuse.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2849	Theme parks are utilised for child trafficking https://www.cbsnews.com/news/florida-human-trafficking-sting-disney-employees-former-judge/ _ what is to say this is not the purpose of this theme park?	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2806	Consideration for police funding	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5133	Street lighting, Extra Speed Restrictions and speed cameras	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

981	Pls consider the local security defense and crime control because of population floating .	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2849	Having the risk of child traffickers being local would be unsettling.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3156	Prioritise Safety of people travelling	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1715	There would be a lot of attention from enthusiasts and local people wanting to view the updates as the building goes on. I would because of this ensure that safe viewing areas are as good as possible to minimise people getting into dangerous areas just to get a video.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4340	What safeguarding policies and structures will you have in place? How will this potential project work with the existing Marston Forest Centre and the Marston Vale area which is currently very accessible to local people and people from out of the area, without it being overrun.	Please share any other feedback you have at this stage	
764	I think if a project of this scale was to go ahead, the organisers would have to take precautions to deal with the students from the local sixth form. While I was attending I remember other students would go and explore the brick factory and I could imagine something similar occurring while construction would be taking place.	Please share any other feedback you have at this stage	
6042	British culture should be celebrated which will alone help with attracting people to the park. Safety for all employees and guests should be paramount as we do have issues with younger demographics causing issues in theme parks.	Please share any other feedback you have at this stage.	
921	I believe it important to provide work in the area and a safe environment	Would you support a potential park and resort coming to this site? Please explain why	
WASTE MANAGEMENT (13)			
ID	Comment	Survey question	Response
1206	In our local area we are also expected to build 1 million new houses along the EWR line, we barely have enough clean water to support those that'll be living in those houses, let alone a theme park. this is the main area that worries me. and sustainable waste disposal is very important	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	UDX's theme parks are carefully curated so that any waste from construction or operations can be carefully and responsibly disposed of. The theme park and resort would have a robust and sustainable strategy for waste management, which focuses on minimising the amount of waste produced and handling the waste in a way which is environmentally friendly.
4346	Cleaning litter left on the road from incinerator lorries	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3885	Having a robust recycling system throughout the park.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
399	Recycling and waste disposal	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	This includes endeavouring to use recycled or biodegradable materials for packaging, promoting reusable products as well as ensuring that appropriate strategies are in place to handle all types of waste, such as recycling, organic and compost. The collection and disposal would then be coordinated through the local waste authority.
1425	Using the Covanta Incinerator for your waste via a rail link	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	<input type="checkbox"/> The Sustainability Statement outlines UDX's approach to sustainable waste management systems.
4001	Low noise construction Minimise light pollution Dispose of waste quickly AND at the proper places	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5521	Use of green energy where possible and policy's to prevent park rubbish getting into the surrounding environment	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3296	Clean green energy. Recycling opportunities	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3307	Please make the site as environmentally friendly as possible and lead the way with solar panels, air source heat pumps and wind/ water energy. Archimedean Screw in Bedford can provide all street lighting.. Please use rainwater recycling and ensure adequate wastewater and litter disposal/ recycling. Please create green spaces and green roofs and living walls to encourage bees and other insects.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2380	I'd be open and honest about the environmental factors such as waste, recycling materials etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5744	Avoid materials sources creating and becoming an environmental problem. Adequate investment in water supply and of waste disposal of all types.	Please share any further feedback you have at this stage.	
5833	Ensure minimum waste is created and recycling of materials is optimised.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5439	Concern about the waste created	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
STAFF AND TRAINING (5)			
ID	Comment	Survey question	Response
258	Please please please have job positions in park/ride design available to people without experience. Teach and support the younger demographic	Please share any other feedback you have at this stage	UDX wants to offer local people opportunities that would benefit them. Initial estimates suggest that over 80% of the workforce would come from Bedford, Central Bedfordshire, Luton and Milton Keynes. UDX would be committed to making job opportunities accessible to all. The Employment and Skills Plan outlines specific measures designed to maximise the employment and skills opportunities for local residents.
1285	Training staff needs to be structured and consistent. Many UK companies put a front on claiming to give excellent training and do not commit. I have worked in many industries, including tourism and hospitality, and these especially lack in training so fulfil the training promises and ensure they are adhered too by those employees.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3386	The only thing I would say comes to any future training of staff members if the development were to go ahead. We have been fortunate enough to have been to Disney World and Universal in Florida and the American way" is fantastic when it comes to customer service and interaction	Please share any other feedback you have at this stage	
5612	Training for others on how to do this	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to	UDX invests significantly in its people with

3087	<p>High level staff training in customer service would be very beneficial for young people. Standards of customer service at other Universal Studios parks I have visited is below the standard of Disney parks so would be interested to see how this transfers to UK temperaments.</p>	Please share any other feedback you have at this stage	<p>training and development programmes and would do the same here. For example, ride technicians typically join UDX partway through the construction period, and then remain as permanent members of staff once operational.</p> <p>A range of jobs at different experience levels would be created, each with genuine growth opportunities. As a point of reference, nearly 50% of UDX's management team at its theme park in Hollywood started as hourly employees.</p>

SUSTAINABILITY			
OTHER COMMENTS THAT RAISED SUSTAINABILITY AS A PRIORITY (55)			
ID	Comment	Survey question	Response
216	Sustainability and environmental v important	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	Building on a review of national and local policy requirements as well as engagement feedback regarding sustainable development, UDX plans to pursue Leadership in Energy and Environmental Design (LEED) Gold Certification to embed sustainability in the design and operation of the proposed ERC. LEED provides a comprehensive green building certification programme (similar to the UK equivalent BREEAM), requiring developments to meet specific criteria and targets to improve sustainability and reduce environmental impacts.
871	I would like to see environmental considerations when building infrastructure such as roads and the proposed railway line changes.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
1204	Making the park environmentally friendly using reusable cups, no plastics bags, food serviced in recyclable containers etc	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
3961	Making the resort as environmentally friendly would be great	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
718	Keeping the site as eco friendly as possible for long term use. Wind turbines, water collectors, etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
3203	How can the construction be friendly to the neighborhood eg reduce emission, sustainable system in place, improve local hygiene and enough education to ensure the park is of a high standard of hygiene , the USJ would be a good benchmark of great planning and sufficient	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	A Sustainability Statement has been prepared in support of the planning proposal outlining the LEED sustainability principles that will be applied to the Proposed Development. These include facilitating sustainable travel modes including rail, cycling, walking and charging infrastructure to encourage the use of electric vehicles.
1285	Recycle, reuse, repurpose, repair and reduce. Help lead the way for a better future with less pollution.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
3417	where needed road closers should be minimised as the 421 has had a number of big projects over the last few years and when the road is closed the disruption is severe, the flow of traffic should be directed via the A421 which is a main road for easy access and to minimise congestion. Construction should be as sustainable as possible to minimise the environmental impacts the design should be considered such as the use of green technologies such as ev charging but also ensure that evs and conventional vehicles can use the same infrastructure. Connectivity of all transport modes should be considered such as how someone would get from a train directly to the park by the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2329	As a HS&E specialist in the construction / supply industry I'd really hope to see the contractor selections will support circular economy and low carbon building materials. Sustainability stats throughout the infrastructure being shared would be really interesting	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3278	Education around the importance of our environment and its protection	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
3417	As much green and diverse space as possible. Improvements to the local water soil and air quality as well as wildlife. I would also like to see the construction and operation be as sustainable as possible with strong	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
3426	Linking new and existing habitats, minimise light and noise pollution (coordinated with the screening), protect the cultural heritage of the area, green energy supply say solar and/or wind	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
3673	Using sustainable materials and processes through build and operation	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
529	Providing education for visitors about these environmental improvements so that they can respect them and help protect the area too	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	

2630	Remove our own garden waste during construction to use as compost	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
616	Being net zero in construction and operations	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
2195	Employment and sustainability	Would you support a potential park and resort coming to this site? Please explain why.	
621	Communicate regularly and use sustainable products. Engage with local communities, provide a way for people to have a voice	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
4519	traffic from the North from the A6 taking a shortcut through the village and past two schools. We had trouble with lorries clogging up the village when Goodmans built the warehouses adjacent to the A421. I also have concerns about 5000 construction workers pushing up property prices to the detriment of local people looking to buy their first house or rent a property. Possibly make Wootton residents only with rfid barrier control. I have a concern about noise from piling, we can hear traffic on the A421. Piling needs to be 900am to 500pm only. Please build a construction workers village like Hinkley Point. Please use low emissions plant and equipment eg hydrogen generators, low emission engines, no diesel	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1486	Being mindful of your environmental footprint and be sustainable wherever possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
280	No - there are construction projects on-going across the UK at any moment so this is not unusual. I think there should be a real focus on greener developments which I am sure you have considered.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
2380	I'd be open and honest about the environmental factors such as waste, recycling materials etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
2468	perspective. And I believe that creation of jobs and careers is an essential thing for big businesses to do. However, as someone who is also concerned about the environment my immediate concern is the impact another large resort has on our world. The energy needed to power such a site should be sustainable. The materials used should be eco friendly. And potentially use footfall to generate power such as something like Pavegen. The site should absolutely strive to not allow single use plastic and has the opportunity to be world class in the	Would you support a potential park and resort coming to this site? Please explain why.	
2193	Would like to see your considerations for the environment and sustainability in the park.	Please share any further feedback you have at this stage.	
4634	This needs to be a green development which is carbon negative and outputs green electricity into the local area	Please share any further feedback you have at this stage.	
4317	I would like to understand your sustainability goals for this site. I should imagine that this site would require large amounts of energy I would be interested in how you plan to ensure this is a carbon neutral site. Also during construction how would you minimise emissions.	Please share any further feedback you have at this stage.	
5336	Sustainable transport access should be an overarching objective.	Please share any further feedback you have at this stage.	
4095	Sustainable construction methods & sustainable energy will be key	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	

3365	The most environmentally friendly method should be taken when constructing and running the finished site	Please share any further feedback you have at this stage.
5849	Considering sustainability while creating the park and after it's opened	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.
3006	Potential to create local social and economic benefits as long as the project is completed in an environmentally sensitive manner	Would you support a potential park and resort coming to this site? Please explain why.
2813	can only provide a good impact on the local community. The extra footfall driven into the community could help the local economy no end. I have a view that Universal will be conscious of their footprint on the area and the environmental impact this project may have, more so than leaving the site as is, or if another brand took the site for another purpose. See Corby Steel Works which is now warehousing and car storage and has little positive impact on the local area.	Would you support a potential park and resort coming to this site? Please explain why.
F6209	Net Zero Engineering	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.
3245	Please include EV charging stations at the resorts carpark, they dont have to be rapid chargers, level 2 chargers would be fine. People would be able to drive to the park attracted from all over the UK and Europe and then if they could return to a fully chared EV it would be great and	Please share any other feedback you have at this stage.
1701	The only thing I would add would be to ensure you include a lot of EV charging facilities or a park and ride function. We are an all electric family and consider the environment in all we do, however, the UK theme park world is very slow to accept customers with EV's, so it would be fantastic if you paved the way in this area. It would certainly encourage us to visit more often. Thank you for considering the UK for your project.	Please share any other feedback you have at this stage.
3660	who choose to drive to the resort. Its historically been poor infrastructure across the UK, but this would be a significant benefit for customers (like me) who would travel from around the country, but need charging facilities to be able to get home again without needing to stop on the way, and reduce time in the parks. While the specifics of rides and experiences isn't being defined yet - there is a big appetite for a Halloween Horror Nights equivalent to be in the UK - something that many UK guests travel to Orlando for!	Please share any further feedback you have at this stage.
3417	where needed road closers should be minimised as the 421 has had a number of big projects over the last few years and when the road is closed the disruption is severe, the flow of traffic should be directed via the A421 which is a main road for easy access and to minimise congestion. Construction should be as sustainable as possible to minimise the environmental impacts the design should be considered such as the use of green technologies such as ev charging but also ensure that evs and conventional vehicles can use the same infrastructure. Connectivity of all transport modes should be considered such as how someone would get from a train directly to the park by the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3183	feedback, and my suggestions are only around making your development even more of a success. One environmental consideration I'd put forward, would be covering the car park with a solar canopy. Not only helping power the park, but also providing cover for those travelling there by car and in turn having sufficient ev charging points. All for much later in the plans mind. I just want to get such thinking in and you clearly share that anyway with the initiatives at other resorts. My only criticism is that why wasn't this done 20/30 years ago when a younger me would have literally exploded with excitement at this news :)	Please share any other feedback you have at this stage.

3383	beneficial to get ahead of the curve on green energy on the site. If a surface level car park is being built, can you install solar panels above the bays? This will not only provide electricity, but it does so in a way that is highlighted to the visitors of the park. EV charging is also going to be critical for those travelling from outside the area, so installing ducts to each bay in the car park would be sensible at this point, even if chargers aren't available at opening.	Please share any other feedback you have at this stage.
1044	Sustainable use of materials and ensuring site comply with net zero goals. Along with ensuring materials import are from sustainable	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
1766	if like crossrail & other uk projects soil & other elements can be used else where or recycled in the local area then it should be done so	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to
391	Minimise soil movement and recycle as much as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to
3307	the way with solar panels, air source heat pumps and wind/ water energy. Archimedean Screw in Bedford can provide all street lighting.. Please use rainwater recycling and ensure adequate wastewater and litter disposal/ recycling. Please create green spaces and green roofs and living walls to encourage bees and other insects.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5744	Avoid materials sources creating and becoming an environmental problem. Adequate investment in water supply and of waste disposal of	Please share any further feedback you have at this stage.
2468	perspective. And I believe that creation of jobs and careers is an essential thing for big businesses to do. However, as someone who is also concerned about the environment my immediate concern is the impact another large resort has on our world. The energy needed to power such a site should be sustainable. The materials used should be eco friendly. And potentially use footfall to generate power such as something like Pavegen. 3158	Sustainable sources of energy to support energy use and promote sustainability	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
3453	Using renewable energy sources to power the park.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.
3582	Use of sustainable energy	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.
3637	Sustainable power	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.
3686	Carbon capture	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.
178	Please ensure as much power as possible is from renewables. Generate on site using covered carparks, roofs of buildings, onsite wind turbines, battery storage. Ensure lots of destination charging for visitors to charge their cars from any excess you generate.	Please share any other feedback you have at this stage.
4344	Whilst construction heavy the development should strive to be as sustainable as possible in construction and operation. Onsite renewable	Please share any other feedback you have at this stage.
3692	Renewable energy should be used in all areas and district heating from the covanta EFW plant.	Please share any other feedback you have at this stage.
4634	Use green or bio fuels for construction vehicles. Invest in wind and solar for all site offices and in construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to

4095	Sustainable construction methods & sustainable energy will be key	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
5851	Installing and using renewable energy to power the park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
5709	renewable energy solutions	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
5482	Reusable energy	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
5521	Use of green energy where possible and policy's to prevent park rubbish getting into the surrounding environment	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
4634	them with local history accessible without entering the theme park. It is not clear whether the benefits are only accessed once in the site either as a visitor or employee. If the Bedford museums and gallery loose footfall then that is not good. Partner with them to ensure the local benefits are accessible without visiting the park. Make the site run off renewables, wind and solar then this will be a yes	Would you support a potential park and resort coming to this site? Please explain why.	
3383	beneficial to get ahead of the curve on green energy on the site. If a surface level car park is being built, can you install solar panels above the bays? This will not only provide electricity, but it does so in a way that is highlighted to the visitors of the park. EV charging is also going to be critical for those travelling from outside the area, so installing ducts to each bay in the car park would be sensible at this point, even if chargers aren't available at opening.	Please share any other feedback you have at this stage.	
160	Provided that it is genuinely environmetally friendly in design and operation, yes, however it is vital that it boost the provision and use of public transport and does not add unduly to the traffic levels in the area.	Would you support a potential park and resort coming to this site? Please explain why.	
5625	Use of the next to site, energy from waste plant for power and heating	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5349	Good road structure around the park Half price admittance to the park for local residents Green ecological building procedures protecting the countryside	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
3307	the way with solar panels, air source heat pumps and wind/ water energy. Archimedean Screw in Bedford can provide all street lighting.. Please use rainwater recycling and ensure adequate wastewater and litter disposal/ recycling. Please create green spaces and green roofs and living walls to encourage bees and other insects.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
983	Creating wildlife corridors and connected access to other facilities in the area, e.g Forest of Marston Vale, Stewartby Lakes etc Also self generation of power from solar and wind, as much as possible, reuse of	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
1473	I think this site will use an incredible amount of energy so the use of all renewable energy sources would be amazing, maybe be involved in offshore wind farms (universal windfarms)	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
3296	Clean green energy. Recycling opportunities	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	

3307	Please invest in solar and wind and create green living walls	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
4681	Renewable energy generation - solar and wind	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
280	how to power the site i.e. please maximise the renewable potential. Examples could be using smaller wind turbines which are simpler to hide (for planning permission), solar towers, floating solar along with the more common roof-top, car port and canopy solar where possible, thermal energy technologies, battery storage and how all of these work in unison. Using smarter roads for those whom travel by car could be a real asset i.e. the cars generate electricity whilst driving on your roads which the site stores for later use and the car park utilises car-port solar panels for additional generation. Ideally there would be a commitment to plant various trees or other forms of climate benefits across the site as we all know this is a must going forwards. If these initiatives all reduce the running costs of the park then these could be passed on to the visitors in some way. One thing we have all noticed recently is the sharp increase in entry fees for Disney parks in Orlando which is unnecessary, it would be a real shame if visiting this park meant braking the bank for all for those less fortunate. I've always preferred Universal's parks in Orlando to their neighbours however, on a trip to Japan last year we (my wife and I) visited Universal in Osaka and it was amazing, one of our best days in Japan! The Mario section (although slightly cramped due to the lack of space) was great with loads of nostalgia mixed with modern technologies, the use of VR and AR across the park were awesome and the same goes for the Jurassic park section. The variety of snacks were	Please share any other feedback you have at this stage.	
4634	Use green or bio fuels for construction vehicles. Invest in wind and solar for all site offices and in construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
3307	the way with solar panels, air source heat pumps and wind/ water energy. Archimedean Screw in Bedford can provide all street lighting.. Please use rainwater recycling and ensure adequate wastewater and litter disposal/ recycling. Please create green spaces and green roofs and living walls to encourage bees and other insects.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
718	Keeping the site as eco friendly as possible for long term use. Wind turbines, water collectors, etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
3426	Linking new and existing habitats, minimise light and noise pollution (coordinated with the screening), protect the cultural heritage of the area, green energy supply say solar and/or wind	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	

608	<p>build. There is already a wind turbine in Marathon Moretaine, it would be great if more could be added although I recognise the sight of it may not fit with the parks plan. I would also like to see the inclusion of as much solar power as possible. I believe solar canopies in the car park offer shade for cars/people that would be appreciated. Solar canopies would also work well for bus shelters and smoking shelters. I'd also appreciate on roof solar for your buildings that could be hidden from ground level. Finally as someone who used to live in Staffordshire near to Alton towers I understand the impact that can be made positively and negatively. The additional a421 slip roads are a must to reduce impacts on the local infrastructure. I also love the use of existing rail complimenting the commuters into London. The initial plans look very sensible. I would hate to see them watered down. As a local resident I'm hoping to use the entertainment/restaurants frequently. I'd also like to see a water park</p>	Please share any other feedback you have at this stage.	
197	<p>Utilising renewable energy where possible and installing solar panels on rooftops where appropriate, and using collected rainwater for things such as fountains and water features to reduce the strain the park would have</p>	<p>What is the most important consideration for you when considering a potential theme park and resort project in Bedford?</p> <p>It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.</p>	
588	<p>Solar & renewable energy generation</p>	<p>It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.</p>	
983	<p>Creating wildlife corridors and connected access to other facilities in the area, e.g Forest of Marston Vale, Stewartby Lakes etc Also self generation of power from solar and wind, as much as possible, reuse of</p>	<p>It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.</p>	
3307	<p>Please invest in solar and wind and create green living wallls</p>	<p>It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.</p>	
4681	<p>Renewable energy generation - solar and wind</p>	<p>It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.</p>	
4728	<p>Be CO2 neutral, use solar panels and no fossil fuels.</p>	<p>It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.</p>	
280	<p>how to power the site i.e. please maximise the renewable potential. 3307	the way with solar panels, air source heat pumps and wind/ water energy. Archimedean Screw in Bedford can provide all street lighting.. Please use rainwater recycling and ensure adequate wastewater and litter disposal/ recycling. Please create green spaces and green roofs and living walls to encourage bees and other insects.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1896	sustainability aspect is something Disneyland Paris did a few years ago, covering parts of the surface car park and putting solar panels in place. This energy could either go in to supplying some of the park's energy needs or charging visitor cars. If potential guests know they can charge their car while enjoying the park, it could encourage more people to visit as they wouldn't need to factor in an hour to charge near by. Similarly, placing solar arrays on the top of show buildings would help power the park. Adding battery storage as well could help with unforeseen power interruptions.	Please share any other feedback you have at this stage.	
4337	Please maximise the positive environmental impacts. Build as carbon neutral as possible. Eg buildings south facing to maximise solar panel output etc, etc. Thankyou.	Please share any other feedback you have at this stage.	
4634	Use green or bio fuels for construction vehicles. Invest in wind and solar for all site offices and in construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to	
3183	feedback, and my suggestions are only around making your development even more of a success. One environmental consideration I'd put forward, would be covering the car park with a solar canopy. Not only helping power the park, but also providing cover for those travelling there by car and in turn having sufficient ev charging points. All for much later in the plans mind. I just want to get such thinking in and you clearly share that anyway with the initiatives at other resorts. My only criticism is that why wasn't this done 20/30 years ago when a younger me would have literally exploded with excitement at this news :)	Please share any other feedback you have at this stage.	
608	build. There is already a wind turbine in Marathon Moretaine, it would be great if more could be added although I recognise the sight of it may not fit with the parks plan. 3426	Linking new and existing habitats, minimise light and noise pollution (coordinated with the screening), protect the cultural heritage of the area, green energy supply say solar and/or wind	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife.	
F6200	I like the idea of Universal local to us. I have reservations on disruption of the area, during and after the build. I may be too cost prohibitive for local people to access. How will you support the utilities i.e. electirc, gas,	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	

WILDLIFE AND ECOLOGY			
PROTECTION OF WILDLIFE (126)			
ID	Comment	Question	Response
396	We have baby deer in the fields near us so would what them protected	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	<p>Environmental Statement (ES) Chapter 6 Ecology and Nature Conservation considers the potential impacts of the Proposed Development on the existing habitats and species in the local area. Appropriate mitigation measures are proposed to retain important habitats where reasonable as well as cultivating new areas of replacement habitat.</p> <p>An area of focus will be the current brownfield area within the Site, north of Manor Road. The proposals include the creation of a large Ecological Enhancement Area, linking the water bodies and improving the water quality, and cultivating wetland habitat along the boundaries of the new water body, as well as scrub and tree planting. Work to establish the Ecological Enhancement Area will be a priority, beginning in the early stage of construction.</p> <p>Elstow Brook, which is also located within the Site, has the potential to support a number of important species. This will be protected, with a 9m buffer of habitat retained and enhanced along its banks. The habitat buffer will be maintained as an area of limited light levels, providing a foraging and commuting corridor for not only the species directly supported by the brook, but also bats.</p> <p>Further opportunities to enhance habitats will be explored as detailed designs emerge.</p>
4316	Minimising environmental impact and taking the opportunity to create new and improved habitats for wildlife.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2224	I think you have plans already to be as least disruptive to local wildlife as possible and I trust Universal to uphold this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5046	Maintaining existing wildlife, especially trees, animal habitats, wetlands	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2980	Save as many animals and wildlife as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
432	Considering you're building next to a nature reserve I'm really keen to hear how you plan on handling the disruption to the local wildlife.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
346	Don't build next to a village. Increase in traffic will destroy the local wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
6065	I would hope that local wildlife would be as unaffected as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5940	Protecting vulnerable enlisted species	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1146	I am unsure about the project, weighing up the energy brought by employment opportunities against the loss of green spaces, wildlife disruption, inevitable litter and pollution created by the centre	Please share any other feedback you have at this stage	
605	Look after the bees! :)	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

301	Only that we are very protective over our countryside and wildlife, so you need to be mindful of this. Also not to cause anymore traffic disruption than necessary	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1622	The project proposal recognises the importance of the local wildlife, lakes and the local area. This is a big site, but following the construction of EPIC Universe Flordia, I have no concerns about Universal and its partners not being organised and practical in their planning. Sound barriers and the planting of trees seem appropriate, as well as the management of the local waterways. I am so pleased to hear proposals for the investment in the rail infrastructure and two local stations. As I am not local I have no hands-on experience with the site. I am a wheelchair user and unable to drive so this alone is hugely positive for accessing the resort. The reduced emphasis on car/vehicle access feels like a positive!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
983	Creating wildlife corridors and connected access to other facilities in the area, e.g Forest of Marston Vale, Stewartby Lakes etc Also self generation of power from solar and wind, as much as possible, reuse of brown water	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4339	Protect wildlife habitat	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5513	Just to be mindful of noise pollution and careful of local wildlife.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5913	Keep noise down, ensure nature is protected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
762	The possibility of disrupting wildlife	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4809	Recognise that wildlife has to be supported if you go ahead, minimise nighttime lighting during the build and when you go live.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5999	As a member of wixams we have so much wildlife around us that could suffer as a result	Would you support a potential park and resort coming to this site? Please explain why.	
1741	Concerns regarding impacts to existing wildlife and also potential of further housing developments which would continue to spoil the beauty of this rural area.	Would you support a potential park and resort coming to this site? Please explain why.	

4726	Just to respect a wildlife around.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1636	Wild life	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2809	Pollution and disturbing wildlife are a major concern	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3953	Please minimise disruptive impact to wildlife and develop parts of your site to the benefit of wildlife.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3201	Creating pools from which birds can drink and make their nests. Also creation of space for hedgehogs, badgers and foxes (where they cannot be disturbed by people with dogs.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2441	Please be considerate to what was already there. Not just images but true representation Please consider the wildlife you're about to destroy	Please share any further feedback you have at this stage.	
4811	Please do as much as you can to minimise disruption to local wildlife.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4607	Please be mindful of the wildlife you will be harming, it's my only qualm, other than that it's an amazing idea but PLEASE be very open about how you'll help to alleviate the suffering of any wildlife AND to help the local area do better by our beautiful animals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3962	Taking care to provide habitats for local wildlife	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2724	Making sure wildlife are safe in the area	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

1174	If it is built then the existing wildlife habitat should be protected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3584	I would say that a natural sound barrier would work best where possible. I would also say using less used roads instead of occupying major roads and additionally keeping noise and construction limited to daytime not only to minimise disruption for the locals but also for the local wildlife as well. In order to carry this out most effectively I do think it would be useful to consult with the local wildlife charities such as the national trust and the woodland trust to help with feedback and advice especially on the local area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1183	Bird boxes	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1334	Hedgehog highways and gaps in barriers/fences so that hedgehogs can move around freely at night	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4519	Protect the village of Wootton and local deer , badgers, foxes and rabbits all of whom i see regularly	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
514	I would like the Bedfordshire community to be involved in the development, and there to be thorough support for the local wildlife and environment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4600	Humane relocation or accommodation for animals that reside on the site land	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1019	Relocation of any existing wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4423	Relocation or consideration of displaced wildlife.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1331	Ensuring wildlife has been safely moved on before construction begins. Not during any key breeding seasons	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2823	Repeat what you do in your US parks, which seems to encourage wildlife which is always great to see	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3196	Landscaping area will automatically bring broad benefits to wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

4206	It is full of wildlife many rare species	Would you support a potential park and resort coming to this site? Please explain why	
2705	Issues involving the potential disruption to local wildlife.	Would you support a potential park and resort coming to this site? Please explain why	
5852	No felling of trees, no disruption to the local wildlife, no	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2198	My main concern would be over local wildlife rather than local populations, I hope there is the least amount of disruption to their habitats as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5484	Any disruption to wildlife. Would the park look out of place as bedford has some very nice rural areas wouldnt want that disrupted	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4956	The wildlife is my main concern. Ensuring they have a home and are not frightened	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3561	The wildlife is the most important. People can cope with short term disruption as long as its done as quickly as possible & not left standing like roadworks always are!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
404	Just be thoughtful and respectful to local community wildlife etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
695	Look after the local wildlife	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2342	Wildlife highways	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1223	Introduction of species endangered and declining in the UK (otters, beavers, red squirrels)	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

205	I'm concerned about the environment and wildlife impacts. In particular on the birds and wading birds in the area. The site is on the migratory path of overwintering birds . I'm also concerned about the noise and light pollution.	Please share any other feedback you have at this stage.	
5028	environmental projects, public greenspace, homes for wildlife	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5020	Not disturbing the local wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2561	Just be considerate to the locals and wildlife	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5104	Protect established nature	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5449	Protecting existing wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5277	Environment and wildlife	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5233	Protecting existing wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1098	As mentioned already regarding consideration of local wildlife.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4012	Wixams has a great deal of wildlife that must be protected. Many from wixams also drive into milton keynes for work this park could have many knock on effect in both work and home life during development	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4524	None I just say help wilflife and air quality and plant more trees and push the council to plant hedgerows again.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4223	Not necessarily people based, but be mindful of existing wildlife in the area and look for ways to minimise disruption to their existence.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3993	Not night working as that impacts the wildlife and nearby residential areas.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5380	Wildflowers and bee havens. Providing safe crossing areas for wildlife.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5911	Only that there is established wildlife on site, and these species will need to be relocated due to the many roads that surround the site. Organisations such as the Wildlife Trust can of course assist, but the habitat should ultimately be improved upon to support our nature's recovery (as one of the most nature-depleted countries in the world!)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3132	Make allowances for people who live in the area. Wild life looked after.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
734	As long as local wildlife and environment is taken with care.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2441	Do not use the a roads unless it's the only access - keep to the motorways and A6 Active effort to rehome wildlife and any unique species of plants	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4388	Engage with the local community, keep them informed of construction plans and progress. Consider the effect of construction on local wildlife, and develop mitigation strategies. Manage traffic around the site effectively to minimise disruption (schedule heavy goods deliveries outside of peak hours). Control noise using barriers. Use dust suppression systems. Limit work hours. Employ as much of the workforce from the local area which will offset the inconvenience with economical benefits.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3999	It borders several villages. Not towns, villages. The traffic noise, pollution, damage to the wildlife, day to day impact of construction would destroy these villages and cause misery to residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1997	Don't disrupt the wildlife too much	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1388	Be careful with wildlife mainly and try to regenerate anything that you might be replacing. It is relevant to understand how that environment generates benefits to the environment and produces at least double that benefit from the park. As probably the park will probably use a lot of Water, and electricity and the footprint would be higher than what it is now.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5290	Our rural areas are already in decline and this will add to the destruction of natural habitats	Would you support a potential park and resort coming to this site? Please explain why.	
5251	Allow for wild life to be protected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5156	Just protect the trees, wildlife.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4205	Please look after the wildlife, and reflect bedfords countryside within it	Please share any other feedback you have at this stage.	
3360	It would bring so many amazing opportunities to the area! Nice to have the extra funding for local highways and wildlife conservation	Would you support a potential park and resort coming to this site? Please explain why.	
4683	It would help build up the area, provide new work opportunities for those in and out of the area. Keeping the site green will help with wildlife	Would you support a potential park and resort coming to this site? Please explain why.	
4206	If any thing this site should be encouraged to be a natural wildlife habitat, with nature walks.	Please share any other feedback you have at this stage.	
1530	Please protect any wildlife in the area , be mindful of the older community, employ locally and employ more parents on suitable hrs , subsidised memberships for people living within 10 miles when you open . Just be respectful in discussions that are made. Definitely would be a good move for the area.	Please share any other feedback you have at this stage	
1636	Do the project. Don't harm wild life.	Please share any other feedback you have at this stage	
2467	To take consideration of any environmental impact this may have. Disruption to the wildlife needs to be included in any decisions	Please share any other feedback you have at this stage.	
2810	There are rare and protected species living on the site. It is their home. Why do you wish to kill and un-home them?	Please share any other feedback you have at this stage.	
1067	Lots of positives, such as employment. Concerns about traffic, wildlife and closing of local businesses, due to competition	Please share any other feedback you have at this stage.	
3006	The site is adjacent to several county wildlife sites, please think carefully about how to protect and enhance these areas - including minimising recreational impacts.	Please share any other feedback you have at this stage.	
5512	I am looking forward to this and fully support the project. I hope you take into consideration the local wildlife. Also encourage as much green travel as possible.	Please share any other feedback you have at this stage.	
5628	Reducing noise pollution including the use of fireworks, which negatively impacts wildlife and residential animals.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5837	Noise and Light pollution from the resort does not disturb wildlife, especially directly opposite the park. Areas of woodland between A6 (The Branstons Way) and A421	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

5889	Protecting existing wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5914	Protecting existing wildlife habitat and not creating more traffic!	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5932	Wildlife corridors	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5994	Natural screening for me is more for the fact of the experience, holiday vibes. If any wildlife is to be effected then you need to ensure they are safe, whatever that entails.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5501	The amount of wildlife I see as I drive around. All the deer and birds of prey will all be affected. Noise levels and air quality. Building work that will go on for so long.	Please explain why	
2442	Planting new trees. Creating new habitats for wildlife, Adding natural screening of the park, Anything else that would be appropriate as time goes on, thanks..	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
6013	Create a natural play area with a lake for water birds	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4012	Am concerned about the impact on the wildlife and quality of life living close to a theme park	Would you support a potential park and resort coming to this site? Please explain why	
2218	New job opportunities, benefits local area + wildlife	Would you support a potential park and resort coming to this site? Please explain why	
2345	The site is an unused ex mining site that is only used by wildlife- which would continue to thrive with all the other benefits you list. The site would become accessible for walkers and cyclists all to the benefit of general health of users.	Would you support a potential park and resort coming to this site? Please explain why	
265	The theme park has the potential to destroy what remains of local village communities and the rural beauty of Bedfordshire. Despite the investment, wildlife habitats being displaced by short term thrill seekers is something I cannot come to terms with.	Would you support a potential park and resort coming to this site? Please explain why	
2880	The theme parks going to damage the lift style of Bedford. This is not the right location in such a small town. You will damage the wildlife here and cause pollution. The will be the noise and the excessive waste! Please not here.	Would you support a potential park and resort coming to this site? Please explain why	
2382	Simply the LOCATION is ridiculous, It's in the middle of 4 villages and FAR too close to people's homes in 5 villages The damage to wildlife at Marston forest centre, noise and traffic to residents is unacceptable to think you can destroy the area for profit. Yes to Bedford but No this location. There are far far more suitable locations for the project & you clearly have NOT done the research you claim to have done	Would you support a potential park and resort coming to this site? Please explain why	
3799	The impact on wildlife and the environment also the amount of traffic it would bring to the local roads spoil the quiet peaceful villages in the local area	Would you support a potential park and resort coming to this site? Please explain why	
4558	The negative environmental impact, including light pollution, noise, increase in traffic and removal of wildlife habitats in this area would be horrendous and is not valid. The infrastructure in this area is not capable of supporting such a large project and would also destroy the village communities, especially for the residents of Stewartby and Wotton. Build it in a non-residential area surrounded by open land if needs must, but not where you are proposing.	Would you support a potential park and resort coming to this site? Please explain why	
2691	The area is prime for investment. If delivered correctly it will provide better habitat for wildlife, better infrastructure, better employment opportunities and bring secondary investment to the area. As a local resident, I wish you the best of luck!	Would you support a potential park and resort coming to this site? Please explain why	

3396	The site has already been earmarked for development and we have had an enormous amount of house building in the area so to have this complemented by diverse employment opportunities and engagement of young people will be a good thing. Helping to improve the local railway links is very important for the people of this area and long overdue. We have no large theme parks in this area despite the vast population within an hour of the site and the current and potential transport links available. The plan suggests Universal Studios will be sensitive to the environment and the wildlife of the area which other future developments may not be especially if the area was to be divided between several different developers/developments.	Would you support a potential park and resort coming to this site? Please explain why
4663	The local area has already been overdeveloped, from the large warehouses the other side of the A421 to the expansion of Stewartby and the new estates being built in the area, the roads are already at breaking point, especially during peak times and weekends, many of the local roads are not feasible for improvement, as there is no way to widen/bypass these bottlenecks. The building of this theme park, would cause the local residents years of hell with construction traffic and then visitors when the park is finally complete. Furthermore the local wildlife has already been threatened by the previously mentioned developments in the area, this doesn't need to be compacted even more by the building of the park. There are many more suitable areas for this to be built, in areas where the infrastructure is already in place to accommodate the necessary roads/parking/buildings. This site is not the correct place for the park, and will be a nightmare for the people who are unlucky enough to live close by.	Would you support a potential park and resort coming to this site? Please explain why
3798	The roads are inadequate. To provide access routes would be disastrous for the local wildlife, roads	Would you support a potential park and resort coming to this site? Please explain why
F6112	I think handle with care with regards to people living nearby and resident wildlife should all be taken into consideration if this theme park is to be built.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2879	Something like a nature walk around the area of the park so the people can see how wildlife and the ecosystem is being protected	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
2208	I'm concerned about the traffic impact, I live in Stewartby and it's bad enough exiting the village safely at present without extra traffic this would bring. The roads at present could not cope with the increased amount of traffic in terms of wear and tear and numbers of vehicles on the roads locally the A421 isn't that big and the old A421 I'd a small road I'm not sure the route can handle the traffic load. I raised these concerns and didn't really get satisfactory answers. What about the use of fireworks or pyrotechnics and impact on local wildlife and the pet owners locally, our Facebook pages are full of complaints at certain times of the year, I personally do not own a pet but it's a question for consideration. I do feel positive about employment opportunities especially for the local families.	Please share any other feedback you have at this stage.
234	Protecting existing eco system and wildlife. Enhance waterways by linking Bedford to Milton Keynes canal which would also be used to reduce pollution and provide funding for program which supports local communities and sustainable travel as well as environmental benefits	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
426	Bedford is not the right place for this to be situated. The disruption to the infrastructure, wildlife habitats, & communities will be massive, given Bedford Borough Council's awful reputation it could be catastrophic.	Would you support a potential park and resort coming to this site? Please explain why.
249	I have mixed feelings because I appreciate it will be great for employment and the local economy but I am concerned about noise pollution and the effect on traffic in the area. I would be concerned about nightly fireworks affecting air quality as well as disturbing wildlife and pets	Would you support a potential park and resort coming to this site? Please explain why.

3417	As much green and diverse space as possible. Improvements to the local water soil and air quality as well as wildlife. I would also like to see the construction and operation be as sustainable as possible with strong use of green techongies.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
4012	All things to persevere wildlife and create beautiful walkway/ lakes	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
4089	Barriers to stop road kill which is pretty bad around here	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1537	Wild life	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
1364	Anything to preserve our animals /wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
2441	Donating regularly to wildlife, buying land that is only there to be rewilded. No fireworks as this disturbs all local nesting birds and decimate diverse populations	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
734	As long as local wildlife and environment is taken with care.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1636	Wild life	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
F6102	We feel the benefit from the park will far outway any negatives from what we have seen and head, not only for Kempston, but mostly local wildlife.	Feedback form: Please share any othere feedback you have at this stage.
OTHER COMMENTS THAT RAISED THE ENVIRONMENT AS A PRIORITY (63)		
ID	Comment	Survey question
3205	Safeguarding the environment but I suspect from the vast experience US has in its existing parks you will have learned some valuable lessons and implement the appropriate strategies to ensure it's a success.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
551	Only the fairly standard things really. Try to generate as much Community involvement as possible, and try and accommodate these views where possible, although I appreciate that this is difficult. I think that people are generally reluctant to change, and this increases as people get older. I would try and emphasise any 'green' elements of the scheme. Climate change appears to be well on it's way, and the people of Kempston have experienced the sharp end of this, with the area being vulnerable to flooding	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

264	Consider environmental impact of all local areas on route to the attraction	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2854	If appropriate effort is giving to protecting and restoring the natural environment and if integrated with public transport then this is a great opportunity for Bedford and the wider area. It will be potentially transformative for the town.	Would you support a potential park and resort coming to this site? Please explain why.	
116	I think it's a good thing to see positive change as along as biodiversity and the surrounding environment is included	Please share any other feedback you have at this stage.	
4161	The Marston Vale is a mosaic of green and blue spaces, the Theme Park and Resort can provide a focus for a rich network of Green and Blue Infrastructure	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2482	We are fully supportive of the site and appreciate your commitment to improving the local environment. We hope it will be built with the whole UK heritage in mind, not just Bedford's. In particular, we would love to see an extensive Harry Potter themed area bigger than any seen abroad, as this is his homeland. I am personally hoping for a version of Hagrid's motorbike adventure as in Orlando (sadly the forbidden journey castle ride makes me too motion sick so I'm not a fan of this. Would much rather a big hogwarts castle that we could explore inside, with a great hall restaurant to eat in)! A forbidden forest area & ride would be amazing and would tie in nicely with the planting of native trees & screening for locals etc. Importantly for us, along with the train stations on site we would want to see the train times matching up with the opening and closing times of the park correctly so we didn't have to miss park opening. Otherwise we would have to come by car. Fingers crossed the project goes ahead!!!!!! Thanks for coming to the UK!	Please share any other feedback you have at this stage.	
399	Impact on the environment to be carefully considered and managed; improved infrastructure to alleviate the already congested town centre and bypasses.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1818	I love the idea of Universal Studios coming to Bedfordshire. I hope minor concerns by myself and the local population can be easily resolved. I feel the information presented in the consultation evidences Universal Studios as committed to preserving and protecting the environment and nurturing young local people.	Please share any other feedback you have at this stage	
3637	People whinge about progress, as long as the project delivers better rail links, better bus ways (maybe lots of park and ride shuttles) and is as environmentally friendly as possible then that's all that matters	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3124	Jobs Bedford needs development Help the local community Improves the environment	Would you support a potential park and resort coming to this site? Please explain why.	
5947	Staggered roadworks, which I can see from your plans is already being considered. Also minimising the environmental impact	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5975	To keep in mind the environmental impact at all times please	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5914	Yes, minimise construction and disruption for all life locally as this can cause increased stress for all concerned! Put manpower/ labour into fixing the roads and working with the natural environment instead of plowing through ancient land that is doing a major purpose in the already overloaded ecosystem!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5713	The environmental impact of the construction should be net zero	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4589	It is too close to local towns and villages. The increase in traffic in the area will impact negatively on the environment	Would you support a potential park and resort coming to this site? Please explain why.	
2964	Integrating nature into these infrastructure changes.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2112	Thinking and incorporating about local environment and natural wildlife	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3164	It would be a benefit to the local economy, although that must be offset against disruption, but local road, rail and air connections all mean these disruptions should be minimised and mean less upheaval for the local environment than a park in some other areas, although a brief look at the plans seem leisure park area might be restricted and other facilities provided to attract other industry (to provide an income to landowners) too large, where are the electricity generating facilities and with the UK weather being unpredictable covered areas would be essential.	Would you support a potential park and resort coming to this site? Please explain why.	
4427	Better ecology	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2519	Retaining or preserving the green space and environment	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2519	I think the influx of infrastructure would be massively beneficial, but the only thing that draws me from saying yes is that so much green space and natural areas are already being turned into housing developments south of Bedford - ie New Cardington. There will be no local green space left	Would you support a potential park and resort coming to this site? Please explain why.	
1974	I am impressed by the level of detail that has been raised regarding environmental conservation, considerations about possible job opportunities and support to local businesses that would come with the construction of this theme park. As a lover of thrill rides, I would love to see the addition of coasters to the caliber of The Incredible Hulk, VelociCoaster and many more coming to the UK. I am looking forward to seeing how this project progresses should it go ahead!	Please share any other feedback you have at this stage	
5612	Open communication, respectful hours, meeting deadlines and environmental considerations	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5819	Ensuring that through the planning and construction that environmental impacts including biodiversity loss, noise, water, dust and air pollution are minimised, and in the longer term the carbon footprint is minimised so far as possible and offset with local tree planting etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2566	Create nature corridors	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2567	Be as sensitive as possible to those that live and work nearby and maintain environmental standards. Existing local businesses should not suffer the impact of building work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4518	Protect the environment	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3740	Minimise impact on nature	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1502	The environment	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3655	Protecting the wilderness and existing environment on site	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
764	The local area is already pretty friendly to wildlife with the lake close by and the forests.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1315	All, the conservation, protection and development of the natural environment must be a primary concern, protecting existing wildlife, developing safe habitats and promoting the natural environment with additional trees etc and waterways.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1374	The environment, whatever is built needs to have this in mind, renewable energy, minimal impact to ecology and improvements to stop flooding or displacement of flooding	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1464	It would improve the employment opportunities and enhance the environment	Would you support a potential park and resort coming to this site? Please explain why.	
4750	Employment, enjoyment and environment	Would you support a potential park and resort coming to this site? Please explain why.	
5342	Environmental projects	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

4349	None ... just most important to enhance the environment as part of the project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
784	Transportation, Environment to me looks primary areas of concerns for the local communities so if they are addressed with minimal impact it should be okay.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2909	Any damage to local roads and the environment should be repaired.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
734	As long as local wildlife and environment is taken with care.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3203	How can the contruction be friendly to the neighborhood eg reduce emission, sustainable system in place, improve local hygiene and enough education to ensure the park is of a high standard of hygiene , the USJ would be a good benchmark of great planning and sufficient staff to keep the park clean.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4486	Helping to upgrade infrastructure and protect the environment. Maintain the beautiful landscape and peace of the local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3250	As mentioned before, increasing bio diversity round the area, having a nature reserve and increased the size of the woodlands and improving the public transport network so the park becomes more accessible without adding more congestion, a raised footpath which can also be a garden and open space with various entry and exit points throughout.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2567	Be as sensitive as possible to those that live and work nearby and maintain environmental standards. Existing local businesses should not suffer the impact of building work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
550	Be careful with the protestors, they can be really stubborn in the uk. they usually only care about the environment so make sure you a clear about environment help	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
362	As long as environmental issues are a keen factor and infrastructure to support this can be backed by our local council, this is something so positive for the future.	Please share any other feedback you have at this stage.	

5742	I believe that this scheme will be of benefit to the local area, if all infrastructure and noise impact have been considered. I am concerned that extra traffic will cause complications and also create an additional environmental impact.	Please share any other feedback you have at this stage.
5556	i been to universal orlando and you do a very good job and help the enviroment	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
5936	And enhancing/protecting what is there including securing reduced polluting runoffs	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1340	Firstly, It is a brown-fill site and not greenbelt. The environment will be enhanced in many ways by the building of the park.	Would you support a potential park and resort coming to this site? Please explain why
E6285	Please set an example for building environmental standards with air source heat pumps or ground source and living roofs/ solar/ Archimedes screw if possible. Take the Victorian brick chimneys of Stewartby and recast that industrial history as state of the art for the 21st century..	Comment via email
F6150	Biodiversity net gain. Avoiding use of agricultural land.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1156	It will create a lot of jobs, 20k construction jobs plus 8k operational jobs, it will support transport companies and created a lot of tourism to the country, As long as the environment is not made worse than it currently is this is a major win!	Would you support a potential park and resort coming to this site? Please explain why.
3824	The potential benefits. BUT I am concerned about environmental impact	Would you support a potential park and resort coming to this site? Please explain why.
4081	The park has the potential to bring substantial economic, social and environmental impacts, if done right.	Would you support a potential park and resort coming to this site? Please explain why.
3290	The impact on local residents of increased traffic is always underestimated. The B530 is already massively over-used and suffers from anti-social noise and excessive speed. This project would need to reduce those impacts and have a positive impact environmentally and ecologically	Would you support a potential park and resort coming to this site? Please explain why.
1282	The area is in desperate need to economic and environmental development with a long term plan.	Would you support a potential park and resort coming to this site? Please explain why.
4616	The boom to the local economy and the attraction of tourists to a beautiful area of Hertfordshire would be great for our area! This attraction also boosts the area around it not just in Bedford as the train line has beautiful stops which allow for exploration around the area and making it a holiday destination for a longer period of time with the area filled with history. Universal has done a fantastic job with its previous parks and I trust it's operational and construction prowess to develop an attraction that would enhance and protect the environment they are building and boost Bedford and the local area in economic and job security for thousands of people.	Would you support a potential park and resort coming to this site? Please explain why.
3597	Love everything about it including all the ways your going to help the environment and the local jobs it will bring 10/10	Please share any further feedback you have at this stage.
2233	I think this is a positive mood and to give the UK a properly themed experience. I am glad to hear you look after your employees as well as the local environment. If this goes ahead i am really looking forward to see what attractions you bring (maybe a Velocicoaster here in the UK)	Please share any other feedback you have at this stage.
2389	Thanks so much for considering Bedford for this development and the commitment to the environment and the community	Please share any other feedback you have at this stage.
F6198	Environment awareness in terms of protection and reduce pollution	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
PROTECTION OF LOCAL HABITATS (61)		
ID	Comment	Question

1190	Enhancing current wildlife habitats	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
282	Keeping existing habitats on undeveloped areas	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1726	Protect existing habitats	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1971	Habitat re creation	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
3963	Replacement of destroyed habitats will alternatives.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
4596	Protecting existing habitat	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
3667	Nature reserve with walkways and habitats for wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
3049	Wildflowers to encourage bees and butterflies	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
3068	Providing environmental rangers to maintain and manage any newly created habitats.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
2564	Not destroying existing wildlife habitat	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
2183	Protecting surrounding habits where possible	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
4915	As long as it doesn't harm the environment and the people and animals living nearby,	Would you support a potential park and resort coming to this site? Please explain why.
3962	Taking care to provide habitats for local wildlife	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2265	Consider a home for lynx	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?

3332	Plant life that creates habitats for the natural wildlife whilst also helping create a theme park feel.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1848	Planting plants and creating habitats for animals that are native to the country	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1850	It must be holistic. Whatever is taken out must be replaced or improved on. If habitat could be integrated into the resort all the better.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4607	Encouraging and implementing homes for wildlife, inevitable you are going to be taking a huge part of their land, so please do push for and help to create more rich lands for the animals in the surrounding areas	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1636	Making sure wild life has a good environment, and road network not congested due to the theme park and its golden	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1666	Just make sure you don't destroy any of the habitats. If trees need to be cut down for example, then more can be planted nearby to create a new home for any of the wildlife which may be disrupted. Make sure no animals are accidentally killed in the construction process.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
201	Protection of existing habitats	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4609	Employment, infrastructure improvements & protection of natural habitats. Would boost local business	Would you support a potential park and resort coming to this site? Please explain why.	
488	Significant Biodiversity Net Gain	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3147	I hope that environmental disruption is looked at, by creating new habitats for any species which may be found on site at the moment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
948	Other biodiversity enhancement appropriate to the area	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3600	Rewilding a large site.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
200	Restoration/rewilding projects	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

4011	Rewilding where sheep or cattle could graze	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1821	I think this is a very unique opportunity for the the UK and the people of Bedford to bring a more premium theme park experience to the table. Nothing like this exists in the UK, and with a growing population who are already engaged with universal products its feels like a great fit. The majority of the land as it stands is previous farm land devoid of wildlife. I'd like to see Universal partner with local rewilding organisations, to really focus on rewilding the local area. Creating habitats, such as wetlands, using as many native trees as possible, and pollinating plants for pollinators across the resort. This resort would bring a lot of wildlife back from the brink, combined with a really exciting product.	Would you support a potential park and resort coming to this site? Please explain why.	
4857	Increasing the wildlife spaces provided by the nearby 'Forest Centre'	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1347	Don't do it. Turn the land into a nature reserve instead.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
535	Commit to a wildlife sanctuary	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4492	On going management of wildlife areas.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
491	Communicating regularly with local residents and businesses to keep them informed of the construction schedule, address any concerns or issues that arise, and provide updates on progress. Conducting environmental impact assessments and implementing strategies to minimize harm to local ecosystems and habitats.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4690	Build a wildlife sanctuary instead	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5290	Saving the environment and habitats	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3001	Work with local businesses and groups to achieve the BNG required (life Life At Hill Farm)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
426	Bedford is not the right place for this to be situated. The disruption to the infrastructure, wildlife habitats, & communities will be massive,given Bedford Borough Councils awful reputation it could be catastrophic.	Would you support a potential park and resort coming to this site? Please explain why.	
5103	The area is basically a nature reserve and the valley is a lovely natural area.	Would you support a potential park and resort coming to this site? Please explain why.	
5152	If done well it will support natural wildlife, business and give locals job opportunities. It mustn't be used as an excuse to build housing on every green space in the area.	Would you support a potential park and resort coming to this site? Please explain why.	

1726	Please don't destroy wildlife habitats	Please share any other feedback you have at this stage.	
3709	You are likely to destroy a lot of wildlife habitat what are you going to do regarding this?	Please share any other feedback you have at this stage.	
3531	My concern is the impact on wildlife and the destruction of natural habitat	Please share any other feedback you have at this stage.	
5349	Must fit in with the wildlife environment , gardens , lakes, beautiful surroundings and nothing like thorpe park !!!! and be for everyone young and old and not just focused on the young	Please share any other feedback you have at this stage.	
5345	My only feedback comes in the hopes that the environment of the surrounding areas plays a factor in the decision making surrounding the projects construction, but that those factors do not prevent the projects finalization as I would love to see this go through and open.	Please share any other feedback you have at this stage.	
5035	High on list should be screening park and environmental benefits including maybe increasing the local Marston Vale to connect to and increase Marston Vale park to connect upto Theme park with paths, cycle paths and woodland.	Please share any other feedback you have at this stage.	
5903	I'm in support especially if the northern end of the site is to create a lake and wildlife areas thus a fitting use and negates impact on Kempston Hardwick lake and CWS.	Would you support a potential park and resort coming to this site? Please explain why.	
5911	While I am very happy with Universal's approach to proactive messaging around local biodiversity, and what they plan to do to mitigate their own impacts, I have yet to see anything from our local MP's or in our newspapers. I have concerns around the infrastructure improvements and how they will have a direct impact on our local wildlife, with no plans to mitigate this.	Would you support a potential park and resort coming to this site? Please explain why.	
3698	The proposals are worth supporting if the resort can deliver on its promises. This includes: creating an exciting resort worth visiting (such as with unique experiences/rides, water parks, restaurants, shows, etc), respect for local/national culture across the resort, investing in the surrounding areas (through involvement with local organisations for construction/charities/schools and facilitation of transport options to the resort), and minimising impact on the surrounding areas through natural barriers and habitat restoration.	Would you support a potential park and resort coming to this site? Please explain why.	
F6133	Minimise hardbinding and massively increase ecology + biodiversity, create beautiful places the local people can alk around without having to pay to go in. Shopping + eating in the area is extreamly limited so improvements to Kempston Retail Park is very important as already full too many people want to use it	Feedback form: Please share any other feedback you have at this stage. Please share any othere feedback you have at this stage.	

E6352	<p>Dear Universal UK Project,</p> <p>Thank you for the opportunity to comment on the proposal for a potential theme park and resort project south of Bedford. A representative from the Wildlife Trust for Bedfordshire, Cambridgeshire and Northamptonshire attended a one-hour meeting on Monday 8th April to discuss this proposal. The representative was told that ecological surveys had recently been carried out on the land in relation to a separate planning application that was later withdrawn. Subsequently, we have enquired as to which application this was and it relates to 18/02940/EIA. We are concerned that the surveys were carried out in 2017 and 2018. In line with guidance from the Chartered Institute of Ecology and Environmental Management (CIEEM) on the Lifespan of Ecological Reports and Surveys (April 2019), they state that if the survey data is more than three years old 'the report is unlikely to still be valid and most, if not all, of the surveys are likely to need to be updated.' The information pack pertaining to the Universal UK project details that some ecological assessments are currently underway, however, we are currently unaware of how extensive they are and what habitats and species they cover. We understand that the timescales for the Special Development Order (SDO) submission would mean that the assessments are unlikely to have been completed in time to help inform this but as we understand it, the SDO will require an Environmental Impact Assessment. We strongly recommend, if this has not been done yet, that the Bedfordshire and Luton Biodiversity Recording and Monitoring Centre (BRMC) are contacted for a data search to get historical habitat and species data for the project area and the surrounding land, which will help inform future plans.</p> <p>There are two County Wildlife Sites (CWS) located immediately adjacent to the proposed red line boundary, these are Kempston Hardwick Pits CWS and Coronation Pit CWS. CWS are identified as important areas for wildlife when assessed against a set of criteria by a panel of local experts. The selection guidelines are available at https://www.bedscape.org.uk/BRMC/newsite/index.php?c=sites_cws. Kempston Hardwick Pits is recognised for their habitat mosaic of woodland, scrub, semi-improved neutral grassland, and open water and Coronation Pit is recognised for their water body and neutral and calcareous grassland. These disused brickpits, including the wider complex of disused pits in the Marston Vale, are particularly important for invertebrate assemblages and breeding birds and overwintering and migrant wildfowl. We submitted comments with regard to planning application 18/02940/EIA and the comments relating to protected and</p>	Comment via email	
5290	Not building one at all. You'll be destroying habitats	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5028	Not destroying the habitats already in place	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5138	Not building on areas where natural habitats occur, native species live, especially protected native species	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3426	Linking new and existing habitats, minimise light and noise pollution (coordinated with the screening), protect the cultural heritage of the area, green energy supply say solar and/or wind	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
F6207	The care and consideration of the local nature and wildlife habitats should be paramount, which I am sure it is, when constructing this exciting development.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
2717	Infrastructure not supportive in this location. A lot of natural habitat will be destroyed.	Would you support a potential park and resort coming to this site? Please explain why.	
1451	The local natural environment must be protected during the construction phase, not just restored after it, and any biodiversity net gain" needs to be real not just an accounting exercise."	Please share any other feedback you have at this stage.	

5917	Maintaining habitats for existing wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5651	Destruction of local habitats for wildlife and would increase traffic volumes across Bedford and A421 which is already horrendous for traffic. Also the constant noise and light pollution would affect local wildlife regardless of creating wildlife habits which probably would not be used anyway due to noise and people traffic.	Please explain why	
2854	Habitat creation is seperate from, and more important than conventional landscaping. Wildlife habitats need to be separate and protected from human disturbance and managed appropriately. Improving water quality in rivers, lakes and streams through appropriate pollution control and management of wastewater and run off from car parks etc is vitally importnat in this area.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
PLANTING (42)			
ID	Comment	Survey question	
260	Protecting existing mature trees	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1848	Planting plants and creating habitats for animals that are native to the country	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1997	Green corridors	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4524	None I just say help wilflife and air quality and plant more trees and push the council to plant hedgerows again.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
421	Palm trees	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1304	As well as flowers and plants native to the area and country to not add to the aesthetic but as well as the cultural and environmental value!	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1737	Reuse and replant existing trees	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2283	Biodiversity in planting	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2482	Would love to see lots of native hedgerows around the site along with trees and bee friendly areas	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

3208	Using indiginous plants where possible	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5852	No felling of trees, no disruption to the local wildlife, no	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2442	Planting new trees, Creating new habitats for wildlife, Adding natural screening of the park, Anything else that would be appropriate as time goes on, thanks..	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4095	Protecting ancient woodland, protecting existing biodiversity	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4346	Planting established trees. We shouldn't have to wait years for screening to be effective	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4750	Connecting to the community forest already here	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3049	Wildflowers to encourage bees and butterflies	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4948	Hedge and shrub plants are more efficient than trees at slowing global warming. Lots of these, please!	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3049	Adding to planting of trees and flowers	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
122	I am concerned about the effect upon local flora and fauna. Every effort should be made to preserve old oak trees.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
260	Just keep people informed. People are more concerned in the short term at the loss of trees and wildlife. Showing early on that you are conserving, transplanting them, protecting them etc would go along way to supporting you.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2943	Any trees or plants need to be replanted to conserve the natural habitat.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1497	Ensuring that as many current trees and nature reserves are retained and wildlife not disturbed	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1666	Just make sure you don't destroy any of the habitats. If trees need to be cut down for example, then more can be planted nearby to create a new home for any of the wildlife which may be disrupted. Make sure no animals are accidentally killed in the construction process.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2029	I am not living there but to keep locals happy (and willing to come by and spend money there) - keep the roads as clean as possible (a hard task I am sure), plant a good amount trees (so many advantages with them anyways), free/discount for one day (like the Glastonbury festival)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5115	Bedford clay soils are sucked dry in dry periods and trees are not always the answer. Consideration needs to be given to planting that suits the changing weather patterns.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
368	Nope, apart from mainly replanting trees, bushes that sort of thing to really keep activists happy if they do appear, that's really been the big problem with major construction projects in this country.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1619	Keeping noisy building work to working hours and limit noise on weekends. Keep roads clean of dirt (tyre punctures and stones hitting windscreens) Planting around the site to hide theme park from close residents and will help with noise when open. Clear signage if road works happen. Informing local residents when road works are happening.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2964	Nature screening! Sound barriers via natural mounds and tree-lines. Preserve as many pre-existing trees as possible as new plants do not have the same impact on the ecosystem - an eco system that we rely on as much as it relies on us. Also traffic & access could be a concern I am sure you are already aware of.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3250	As mentioned before, increasing bio diversity round the area, having a nature reserve and increased the size of the woodlands and improving the public transport network so the park becomes more accessible without adding more congestion, a raised footpath which can also be a garden and open space with various entry and exit points throughout.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2910	A soundproof fence for protecting the people who live in the area, more trees, adjacent roads for the construction site before the site will be open, using the railway for the materials will be much cheaper and will be less traffic on the roads. A local bridge over the railway in Stewartby is a must, otherwise the local people will be stuck to the railway barrier.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2926	Deforestation is bad	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5122	My family and I have lived in Bedford's villages our whole life and i currently work within the Comcast group. Bedford has undergone and continues to under go large scale redevelopment of the Town centre and its surrounding villages. Main push back you may face with your scheme is not to recognise the local heritage and protect wildlife.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1737	If efforts can be made to keep or replant existing, fully grown trees from the sites for use in the park or around the park, that would feel like a bonus on a site that was already slated for development.	Please share any other feedback you have at this stage.
4596	Promises of your commitment to local residents regarding greening of the area and commitment to local causes are fine words. Do they actually mean anything in reality. ?? We doubt it very much and are against this project	Please share any other feedback you have at this stage.
2519	If this does happen please please please preserve as much green space as you can, please naturally barrier and shield the site, plant as many trees as you can	Please share any other feedback you have at this stage.
3596	Planting grown trees, bushes around the park to enable an absorption of noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
280	As an engineer I'd love to see all aspects considered but with a focus on how to power the site i.e. please maximise the renewable potential. Examples could be using smaller wind turbines which are simpler to hide (for planning permission), solar towers, floating solar along with the more common roof-top, car port and canopy solar where possible, thermal energy technologies, battery storage and how all of these work in unison. Using smarter roads for those whom travel by car could be a real asset i.e. the cars generate electricity whilst driving on your roads which the site stores for later use and the car park utilises car-port solar panels for additional generation. Ideally there would be a commitment to plant various trees or other forms of climate benefits across the site as we all know this is a must going forwards. If these initiatives all reduce the running costs of the park then these could be passed on to the visitors in some way. One thing we have all noticed recently is the sharp increase in entry fees for Disney parks in Orlando which is unnecessary, it would be a real shame if visiting this park meant braking the bank for all for those less fortunate. I've always preferred Universal's parks in Orlando to their neighbours however, on a trip to Japan last year we (my wife and I) visited Universal in Osaka and it was amazing, one of our best days in Japan! The Mario section (although slightly cramped due to the lack of space) was great with loads of nostalgia mixed with modern technologies, the use of VR and AR across the park were awesome and the same goes for the Jurassic park section. The variety of snacks were superb, we love bao buns so these were a winner but I imagine a UK focus will take place here. All in all I really hope this project gets the green light :)	Please share any other feedback you have at this stage.
3307	Please make the site as environmentally friendly as possible and lead the way with solar panels, air source heat pumps and wind/ water energy. Archimedean Screw in Bedford can provide all street lighting.. Please use rainwater recycling and ensure adequate wastewater and litter disposal/ recycling. Please create green spaces and green roofs and living walls to encourage bees and other insects.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3417	As much green and diverse space as possible. Improvements to the local water soil and air quality as well as wildlife. I would also like to see the construction and operation be as sustainable as possible with strong use of green techongies.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
658	I do not understand how you can create natural" barriers??"	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?

1821	I think this is a very unique opportunity for the the UK and the people of Bedford to bring a more premium theme park experience to the table. Nothing like this exists in the UK, and with a growing population who are already engaged with universal products its feels like a great fit. The majority of the land as it stands is previous farm land devoid of wildlife. I'd like to see Universal partner with local rewilding organisations, to really focus on rewilding the local area. Creating habitats, such as wetlands, using as many native trees as possible, and pollinating plants for pollinators across the resort. This resort would bring a lot of wildlife back from the brink, combined with a really exciting product.	Would you support a potential park and resort coming to this site? Please explain why.
1622	The project proposal recognises the importance of the local wildlife, lakes and the local area. This is a big site, but following the construction of EPIC Universe Flordia, I have no concerns about Universal and its partners not being organised and practical in their planning. Sound barriers and the planting of trees seem appropriate, as well as the management of the local waterways. I am so pleased to hear proposals for the investment in the rail infrastructure and two local stations. As I am not local I have no hands-on experience with the site. I am a wheelchair user and unable to drive so this alone is hugely positive for accessing the resort. The reduced emphasis on car/vehicle access feels like a positive!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
IMPACT OF DEVELOPMENT ON THE EXISTING ENVIRONMENT (34)		
ID	Comment	Question
412	A theme park will bring more cars to the area and damage the environment near a country park. Plus uk needs housing not a theme park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
4727	I believe that we should be preserving green spaces, and not building on them.	Would you support a potential park and resort coming to this site? Please explain why
3808	I consider the UK to have some of the most amazing green spaces and I would like to see Universal build and immersive theme park without impacting this. Ie from outside the park you can't tell its a theme park, but on the inside we forget about normal life.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
960	Left as natural land	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
376	Just leave nature alone	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
3868	Not taking away wildlife land	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
4537	The maintenance of the natural areas surrounding the proposed site.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
F6173	Investing in existing local parks	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
F6147	Keep existing trees	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
4899	I am concerned on the impact of the roads and nature	Would you support a potential park and resort coming to this site? Please explain why

5410	Protecting the existing rural environment from additional traffic and pollution. If you invest heavily, make sure you invest equally in the impact on existing green areas. Additive alone is not good enough.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1889	The natural features of the park are utmost on my list of concerns.	Please share any other feedback you have at this stage.
4584	Feedback is fairly obvious. doesn't build it here. Go somewhere else away from our peaceful quiet villages. Pick a site where it's not going to impact so badly on the people, roads and environment.	Please share any other feedback you have at this stage.
1146	I am unsure about the project, weighing up the energy brought by employment opportunities against the loss of green spaces, wildlife disruption, inevitable litter and pollution created by the centre	Please share any other feedback you have at this stage
3785	Please take care of our green spaces along the way.	Please share any other feedback you have at this stage
5536	I would need to know that environmental impacts would be adequately mitigated	Please explain why
5914	It will have a devastating effect on pot holed ridden roads and the natural environment, create more stress for wildlife locally. The local council needs to put funding into important issues like their hospital, fixing pot holes ridden roads and supporting the vulnerable in society. It's pathetic to ignore these points and instead waste tons of money on a financial gaining enterprise which will bring more negative outcomes than positive! The mayor of Bedford needs to grow up and face the real issues in the communities of Bedford instead of being a toddler and letting his greed take over..Wake up Tom!	Please explain why
4003	Environment. Local heritage sites and surrounded protected areas (green belts in Millbrook, Ampthill etc) and further nature all around Stewartby, Marston Moretaine and Kempston.	Please explain why
4624	Environmental concerns, change in area which is semi rural, noise pollution.	Please explain why
3815	Such an impact on an area that is supposed to be green land	Would you support a potential park and resort coming to this site? Please explain why.
F6152	Noise & environment pollution	What is the most important consideration for you when considering a potential theme park and resort in Bedford?
F6224	Promising proposal - I recognise the potential for benefit to my area. Concerns - how will this project enhance local environmental spaces/habitats? Will the environmental statement be made public? Enabling works (planned much sooner) may also have unintended consequences on local transportation in + around B530 (Ampthill Road) - Please address this.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
F6207	The care and consideration of the local nature and wildlife habitats should be paramount, which I am sure it is, when constructing this exciting development.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
3290	The impact on local residents of increased traffic is always underestimated. The B530 is already massively over-used and suffers from anti-social noise and excessive speed. This project would need to reduce those impacts and have a positive impact environmentally and ecologically	Would you support a potential park and resort coming to this site? Please explain why.
5152	Please try to keep as much of the local countryside intact and if possible enhanced.	Please share any further feedback you have at this stage.
3094	The impact on the environment outweighs the benefits of the project.	Would you support a potential park and resort coming to this site? Please explain why.
4558	The negative environmental impact, including light pollution, noise, increase in traffic and removal of wildlife habitats in this area would be horrendous and is not valid. The infrastructure in this area is not capable of supporting such a large project and would also destroy the village communities, especially for the residents of Stewartby and Wotton. Build it in a non-residential area surrounded by open land if needs must, but not where you are proposing.	Would you support a potential park and resort coming to this site? Please explain why.
1391	The environmental aspects: significant noise pollution, additional traffic & the spoiling of the natural landscape.	Would you support a potential park and resort coming to this site? Please explain why.
1152	Still not sure what the environmental implications will be for this park and the additional traffic and noise as I live relatively close to the proposed location.	Would you support a potential park and resort coming to this site? Please explain why.

2880	Bedford is a beautiful and natural landscape. The theme park goes against what this community is. You will drive away people that have lived here for generations. You will cause so much pollution and disruption to the society and the environment here. The road are just not built for your plan. Please do not build here.	Please share any other feedback you have at this stage.
865	We're constantly being asked to make sacrifices to protect the environment. At present, a large portion of the site - in particular, that closest to Wootton - is open fields and hedgerows. These will all be destroyed and the level of traffic pollution coming to the area will be hugely increased. The use of electricity, gas, water - including sewage and drainage requirements - will be immense. Additionally, the noise coming from the site 7 days a week will be annoying and disruptive for local people who want to enjoy peace and quiet around the areas in which they live.	Please share any other feedback you have at this stage.
1146	I worry about the environmental issues created by the project - increased littering, pollution, disruption of habitats for wildlife and flora and fauna.	Would you support a potential park and resort coming to this site? Please explain why.
1146	I worry about the environmental issues created by the project - increased littering, pollution, disruption of habitats for wildlife and flora and fauna.	Would you support a potential park and resort coming to this site? Please explain why.
4596	There is overdevelopment of this area and transport links are hugely busy and gridlocked . important environmental habitat supporting wildlife has already been destroyed and more is being lost to housing and future planned developments. new environmental improvements locally are poorly delivered, badly maintained and fail.	Would you support a potential park and resort coming to this site? Please explain why.
WATERWAYS (25)		
ID	Comment	Survey question
3567	Facilitating Great Ouse to Grand union canal and parkland	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
122	For several years many people have been working to develop a canal/waterway system between Milton Keynes and Bedford. This would also open the waterway system Out of Bedford and into the Fens. So opening more access to the Universal Project by more people.	Please share any other feedback you have at this stage.
121	Waterway corridor for local wildlife ,and local people to be able to escape the rat race find some peace	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
160	Support for the waterway park creating great habitats	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
171	Looking after the river system	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
197	Ensuring the water quality of the neighboring Great Ouse isn't compromised	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
814	Protecting local water	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
861	Creating waterways as you have in Orlando	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1763	Looking after the bodies of water	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?

1446	You need to at least buy the lake near the B5353 and turn it into a nature reserve	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1950	Waterways and lakes	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2676	Enhance the water features in the area	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3330	New water wildlife areas (eg lakes, rivers), planting of diverse fauna across the park's scale	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3622	Good water management with suitable suds etc	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2964	Protecting local waters from pollution of all kinds, noise, litter, run-off, ect.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1622	The project proposal recognises the importance of the local wildlife, lakes and the local area. This is a big site, but following the construction of EPIC Universe Flordia, I have no concerns about Universal and its partners not being organised and practical in their planning. Sound barriers and the planting of trees seem appropriate, as well as the management of the local waterways. I am so pleased to hear proposals for the investment in the rail infrastructure and two local stations. As I am not local I have no hands-on experience with the site. I am a wheelchair user and unable to drive so this alone is hugely positive for accessing the resort. The reduced emphasis on car/vehicle access feels like a positive!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3092	Improving local waterways	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
928	Ideally, minimal disruption to the number of bodies of water on site would be desirable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1262	Protecting/enhancing nearby waterways/bodies of water.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5682	Taking water and drainage requirements into careful consideration	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5958	Preserving water	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

1315	All, the conservation, protection and development of the natural environment must be a primary concern, protecting existing wildlife, developing safe habitats and promoting the natural environment with additional trees etc and waterways.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5975	Special attention should be paid to how waste water is processed.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
234	Protecting existing eco system and wildlife. Enhance waterways by linking Bedford to Milton Keynes canal which would also be used to reduce pollution and provide funding for program which supports local communities and sustainable travel as well as environmental benefits	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5413	Investment in the River Great Ouse with poor water quality by improving water habitats and cleaning water, improving resident water access	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

SOCIO-ECONOMIC COLLABORATION SUGGESTIONS (2,288)			
ID	Comment	Survey question	Response
2672	Partnering with local community to engage and create new jobs in the wider local economy	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	<p>Throughout the engagement period it was fantastic to hear from a range of local people and organisations who would be interested in partnering with UDX.</p> <p>UDX is committed to local partnerships, including higher education partnerships that enable support for students interested in the themed entertainment industry and careers in Science, Technology, Engineering, Arts and Mathematics (STEAM). These partnerships include under sourced areas where sponsorship, mentorship and professional development are key components.</p> <p>UDX will consider all of the suggestions it received and work with Bedford BC and other local groups to develop partnerships with local organisations. Some examples of how it has done this elsewhere include:</p> <p>The University of Central Florida – Creative Lab Programme</p> <p>Offered during the Spring and Summer terms, this partnership provides students with specially designed coursework and hands-on learning – alternating sessions at UDX Orlando Resort and classes at UCF with industry experts from UDX. Students interact with show producers, engineers, creative directors, executives and other industry professionals to provide an in-depth look at the design and development process. The course offers both an educational benefit and provides valuable real-world training for future careers in the sector. Since the programme's inception, UDX has hired 38% of the UCF Creative Lab graduate students as either full-time Team Members or skilled interns. Approximately 100 students participated</p>
3953	'Bedford is an Inclusive Town' group of council representatives and reps from local community organisations and charities including Sight Concern Bedfordshire, focusing on accessibility and inclusivity. 2689	Advertise locally, local job fares, apprenticeships for local college leavers	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1135	After seeing your presentation, i think you have already thought about a few great ways in which working with local educational facilities such as colleges, universities, schools etc to offer training, educational and work programmes for the long term for people in the UK. This was impressive, and i can only imagine people in the local area would be happy with this.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2233	Again I am not sure about this as not local to the area, but even I would consider working in your resort!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1024	Again I'm not familiar with Bedford specifically, but I'd love to see a lot of the design work go to the film and tv industry within the UK. You know we have incredible people here as we have worked on your Harry Potter areas at your existing parks, but I'd love to see other themed areas designed in the UK too. We have world class art departments that can do so much outside of the Wizarding World! I know it's not your park and not your property, but UK film art department also designed Galaxys Edge, we really can design anything!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5173	Again no knowledge of the local area, however focusing on education and training focused on travel and tourism, promoting how that can open doors to a career in that field, both locally and internationally. Possibly providing students on relevant courses the opportunity to travel to other Universal Studios destinations to gain experience in the service side of the industry in other countries.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

1625	Again, not local, but from a UK other point of view, for both local and rest of UK, Europe and World, for schools, colleges and universities. Inside park or around resort could offer experiences from real British historic events? For example exhibitions outside park, inside Citywalk maybe themed exhibitions around WW2 featuring maybe Spitfire, Hurricane and Lancaster - Battle of Britain museum? Which could feature WW2 items, plane parts, planes, clothing and more history from Battle of Britain war, with maybe a flight ride on a Spitfire flight which could take guests through Battle of Britain Showing via a flying theatre what it was like to fly during WW2 in a Spitfire & Hurricane? Or a dark ride around WW2 London with music, sounds and more from bombings happening around them, with shelters, air raid alarms and more? Giving exact experience of what things were like in the moments of the Battle of Britain via dark ride around London? Inside a Citywalk area could also feature other immersive themed historic British experiences like a full replica Titanic which could hold tours around the whole sized, length of the famous ship? Both showing people inside areas and experiences inside ship aswell on decks? Aswell after experience have a 2nd replica which could maybe show Titanic as it is now under the Atlantic? Through windows? Showing two parts, broken and destroyed? Could in other words in Citywalk create immersive museum experiences for schools, all people & guests who visit the resort, locals, college & universities students especially to learn more about the history of the UK?	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. 548	Any local education faciities	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3698	Any local organisations.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
714	Any local school or college	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
993	Any local schools	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1062	Any local schools	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1744	Any local schools	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1224	Any local schools and colleges	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1607	Any nearby colleges	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3374	Any nearby communities that are passionate for the park and want to see it succeed.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
737	Any nearby schools or colleges and small businesses	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2430	Any of the local homeless charities who may be looking for job opportunities for clients.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2034	Any of the local schools and universities that have engineering or creative courses.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3891	Any of the local upper / secondary schools, to offer work experience would be a great opportunity for lots of local young people. Local scout and brownie packs. Any of the local primary schools to educate children in sustainability and environmental considerations for a project of this size. As the parent of a 7 year old who goes to school just a few miles from the site, I find this opportunity incredibly exciting for my daughter and her peers. I really hope we can tap into the immense possibilities this development will inevitably bring to the local community!! Also Bedford town centre has been destroyed over the last few years with many shops now empty. This would bring a much needed lease of life to a pretty market town that has a lot of untapped potential.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2121	Any of thr local schools or sixth form colleges	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4333	Any schools	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
438	Any secondary school or even perhaps a new technical college related to the tourism and engineering sectors (to tie in with the Universal Park itself). Maybe in the same vein as the University Technical College at Silverstone motor racing circuit	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2048	Any state or public sector school - especially in areas that are underfunded	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2989	Any suitability relevant for the project parties	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3233	Any support to improve education and employment skills would be welcome	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
718	Any trade colleges for alternative further education to university	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
553	Anyone	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3313	Anyone local..	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

2787	Anyone locally	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
729	Anyone who can support your goals and those that would bring life back to Bedford areas supporting the people of the area. Bedford used to be a beautiful well visited place but has suffered in recent years with surrounding areas taking jobs and business away from the area. Bedford is now seen as a cheaper place to live if you work in London, and private schools & education.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1786	Anyone who's interested in the sought of work you do along with collaborating if that's something you want to do you could invite people into the resort for talks and sort of employment fairs to show what you have to offer (I know people who would love to work for you) so engaging with anyone wants it and offering courses to gain essential skills in the jobs you offer.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4449	Anything local.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
372	Anything to bring life back into the town centre which is pretty but has lots of empty retail units - you really could be a godsend for the town	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1641	Apprenticeship and college programs	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4530	apprenticeship scheme	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2751	Apprenticeship Training	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
809	Apprenticeships	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2229	Apprenticeships	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2983	Apprenticeships for young people who may be interested in a career in hospitality	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

289	Apprenticeships with colleges, schools, job centres, SEND individuals	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
545	Apprenticeships, but not just local area, wider.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2490	Armed forces	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1705	Armed forces covenant to give options to the military and local universities/colleges. Also looking into an apprenticeship scheme	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
741	Arts groups (BCA, Pride of Place Bedford, Bedford Creative Network, Place Theatre); local schools (Hazeldene, Hills, Castle Newnham, King's Oak, Marston Moreteyne, schools in Wootton, Wixams, Stewartby, etc.); business groups or tech-savvy businesses (BID, Fujifilm) and the children & family services, adult social care and health & wellbeing services teams at Bedford Borough Council (and local parishes where applicable).	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2578	As a local parish councillor we would welcome the chance to work with you to focus on community groups such as Scouting groups, football team and church groups who offer opportunities for local children and adults. Within Wootton Lower School we have a large number of SEND children (we have a large SEND unit) who would benefit from opportunities outside of the classroom.. There remains a lack of opportunities for teenagers post GCSE for part time work (or even full time) and it would be a fantastic opportunity for Universal to play a leading role in creating job roles for young adults.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1252	As a mechanical engineer, I would be extremely interested in making any contribution possible to this project. Aside of this, it's a very positive move to tap into local schools and colleges as these students could become future employees.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4930	As a member of Bedfordshire Fire service and an Official in Beds Fire Brigades Union. Would welcome any involvement as the fire service is never thought about in the planning process on the impact to the area.	Please share any further feedback you have at this stage.	
5200	As a recent uni graduate with a real love for themed entertainment and concept art, some graduate schemes within Universal Creative would be absolutely brilliant!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1458	As above	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5183	As above	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

5256	As above	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1984	As above - Bedford Inclusive Learning and training trust (BILTT)	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4535	As above! Bedford College could do with a boost for its media and film courses!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1014	As above, Chicken George. I'm not affiliated with them by the way, I just tried them recently and it blee me away	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1315	As above, local residents will know best.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3515	As above, Redbourne Upper School	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1349	As above.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2521	As above.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3609	As above. Investing in those learning	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1881	As above. Peter Pan Nursery School and Cherry Trees Nursery School	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3324	As above. Trading opportunities for adults with learning disabilities.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

1630	As an educational professional, I feel it could be beneficial to work with SEN young people, as they could advise on the sensory issues that many face. This could enhance their experience of the project.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2677	As an vice principal of a local school I think asking the teenagers is important. Parish councils think they know what the area needs cut often they are out of touch with what the youth of today need. Talk to leader in local schools.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5086	As long as it someone local, it will be great!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1930	As many as possible	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3363	As many as possible.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5047	As many local businesses as possible	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3285	As many local businesses as possible, including smaller businesses	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5049	As many local organisation that will derive mutual benefit.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4358	As many local schools as possible.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4151	As many schools and universities as possible to encourage our youth to work in the industry	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4915	As many schools as possible to create a community based social environment.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3758	As previous answer	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
764	As someone who went to kimberley college, I could see the worth in possibly offering students the chance to work part time and maybe even offering apprenticeships for their further education. Also, hiring local workers for building, plumbing and so forth would great.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4172	As someone who went to school primarily in a village until Year 7, I would suggest the idea of prioritising the working with smaller village schools and businesses as they frequently get under-represented and don't receive the same opportunities as the schools in Bedford Town Centre. Despite this definitely working with the sixth form and community colleges in Bedford would be beneficial for providing support with taking the next step into the working world.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4215	As we live 2 hours away I really couldn't answer this question.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2602	As you have written above perfect	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3311	As you will be neighbours with Kimberly 6th Form college I feel that is a good place to start as they are into design, I as a winner of the 2018 entrepreneur of Bedfordshire award have been impressed with their design on my visits there.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4005	At The Place theatre we already work and provide performance space for a number of local schools and would wish to see this collaboration increased.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3119	Autism Bedfordshire	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3156	Autism Bedfordshire	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3121	Autism Bedfordshire Richmond fellowship	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4317	Autism Bedfordshire to offer training and job opportunities to individuals whom traditionally find it difficult to access the world of work.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

1807	Autism Bedfordshire, Living It Up	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4576	Autoglass, head office nearby in Bedford.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?

4551	Bedford College would be a natural collaboration	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
672	Bedford college would make a lot of sense. There are quite a few creative industries in and around the local area, and its close enough to a bunch of movie studios. With the addition of a big theme park, I think it starts to make sense to support education in these areas to grow and support the wider industry.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
F6132	Bedford College, all under schools in + around Bedford	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3200	Bedford College, also the 4 private schools in Bedford (Bedford Modern) offer specialist subjects, such as design engineering at a-level. Maybe you could partner with these schools to take part in ongoing projects to design eg a ride, advertising, etc or design an area of the proposed park, (or other innovations) which could be ongoing, with a possible job offer available at the end via apprenticeships. Maybe team up with universities that offer the design courses to help children in local schools to go to university with prospects to work at the park after. Or the park could sponsor the children to go to university and with the skills they achieve, then work for universal. Best university for industrial design in the UK is Loughborough university only 1 hour 20 mins from Bedford.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?

930	DEAF AWARENESS	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
E6242	<p>Dear Sir or Madam, As a local resident in Bedfordshire I am aware of your potential project outside the town of Bedford.</p> <p>I have browsed the publicly available information on the proposed project and I believe that the balance of profiling tends towards this being a significant economic boom to the UK economy in general and to the regional economy in particular.</p> <p>I appreciate that at present, you need to convince a plethora of local and national authorities about the potential benefits of the project, and tangible factual arguments are in short supply given that this is a project still on the drawing board and due to take place in future years.</p> <p>I may be able to offer assistance in this regard. I am XXX. Our economic analysis is independent and authoritative. I have led similar analysis for similar projects and with comparable blue chip clients.</p> <p>Should this be of potential interest to you, I would be delighted to have a discussion with you about how our economic analysis and economic impact modelling could be of relevance to your current situation. Should you wish to follow this up, kindly feel free to reach out to me via this email address.</p> <p>Kind regards</p> <p>XXX</p>	Comment via email	
E6310	<p>Dear Universal Team, I wanted to reach out as this project sounds AMAZING! A resort like this, will be absolutely FANTASTIC for the UK!!</p> <p>While I appreciate this is in very early stages, I would like to enquire as to when the talent & culture personnel will be looking at filling positions for Senior-level roles pre-opening.</p> <p>My line of work as you can see from my signature is Hospitality & Administrative-based at Operations/Director/SVP level.</p> <p>If there is any scope to apply in advance, I would appreciate the opportunity to do so, or if I can kindly be re-directed to the correct personnel, that would be appreciated.</p> <p>Kind regards, XX</p>	Comment via email	
E6257	<p>Dear Universal, I am a ceramic artist working with history, archives and bricks. I live and work locally to Bedford.</p> <p>I produce and make comissions for tiles and sculptures and would be interested in proposing work to deliver for your park.</p> <p>Please do keep me in mind if this would be considered, and I look forwards to hearing from you.</p> <p>Please do pass this letter on to the relevant department if suitable.</p> <p>Many thanks,</p> <p>XX</p>	Comment via email	

4540	Decline to answer.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5178	Definitely all schools and colleges within the local area, as a parent of two secondary age children, I feel this is especially important. Bedford College and Kimberley College are already supportive of this project which I find very encouraging. Local secondary schools and even primary schools would also benefit.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2023	Definitely local jobcentre	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1316	Definitely local schools	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2317	Definitely local schools	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3535	Definitely local schools and local businesses as well as partnering with other theme park businesses in the UK so you can work together instead of competing against each other, The UK hasn't got many mainstream theme parks, so I think working together to benefit everybody would be the ideal option.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1528	Definitely local schools in Wixams	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2977	Definitely schools both primary and secondary. The current secondary students about opportunities.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4146	Definitely schools businesses small and large. Local colleges with any opportunity's of training for the parks	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5434	Definitely schools, particularly GCSE/A Level students and establishments Universities and college - but not just within Bedfordshire, outside within neighbouring authority areas too, such as Northamptonshire (North & West).	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
617	Definitely The Bedford College Group who work across Bedfordshire and Northants through Work Experience and Apprenticeship opportunities to local young people. Also the local SEN schools to encourage accessibility and acceptance.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

2958	Definitely the local communities surrounding the immediate area in partnership with Local Community Policing Teams, schools and sports organisations as all support positive initiatives linked to young people who will most certainly seek to visit, work and benefit from your Project. Local Teachers eg in Music, Drama etc who may also welcome a new career opportunity and may have those skills your desire.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3907	Definitely the schools within Stewartby and other local villages.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2199	Definitely the surrounding Colleges/Universities. Even if they are not in Bedford themselves.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4197	Definitely with local emergency services	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3584	Definitely working with local schools and colleges to give feedback and to help you see what the target demographic would want to see in a theme park, especially locals.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2176	Denbigh school Milton Keynes Hazeley school Milton Keynes Whitehouse primary school Milton Keynes Network Rail	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. E6311	<p>Good afternoon sir/madam, I am writing with interest on the Universal UK project in Bedford. We are a Civil and Structural engineering consultancy based in the UK delivering projects across the UK and Ireland.</p> <p>We would be interested in supporting Universal UK with the emerging design and planning support by offering civil and structural consultancy services on this project if you were interested. We are unique in that whilst UK based we have worked with numerous international clients including US-based Topgolf who recently built their first venue in the UK and are looking to continue their development further.</p> <p>Thanks for your time,</p>	Comment via email	
E6269	<p>Good afternoon, I hope this email finds you well.</p> <p>As the director of Bedford's largest and longest serving independent provider of same day dedicated transport services, I thought I would reach out and offer assistance for any future work that may come up as a result of this project proceeding as planned.</p> <p>I would like to say we are strong supporters here of the project, not least the economic boon this could provide for the area which has been seriously lacking a large-scale investment on par with what Universal are currently considering.</p> <p>I would also like to make myself available personally for any focus groups, advancement meetings or market research as far as local business is concerned.</p> <p>If I can assist in any way, I can always be reached by the telephone number in my signature.</p> <p>Kind Regards XX</p>	Comment via email	

E6314	<p>Good afternoon, It is fantastic news to hear you are considering opening another venue , this time in the UK and in Bedford.</p> <p>We are a large provider of Physical Therapy and have been established in the area for over 20 years. We would like to engage with you to offer support for your contractors through the build phase as well as ongoing support for employees once the venue is open to the public. Our track record of providing outstanding care through occupational health schemes is unrivalled in the area.</p> <p>If this early opportunity would be of interest, please do come back to me.</p> <p>Best wishes XX</p>	Comment via email	
E6279	<p>Good afternoon. Firstly, can I just say how excited I am that you may be moving in just down the road from me. I hope it happens.</p> <p>However, today I write as a totally shameless beg for help in raising some much needed funds for our great cause.</p> <p>Rugby is a big part of our community and recently, it has been shocked, as 2 of our rugby family have been diagnosed with Brain Tumours.</p> <p>XX is a youth coach who has received treatment and helping others and XX is just 17 trying to raise money for treatment in America.</p> <p>XX are holding a charity fundraiser on May 24th to help, but need businesses to help aswell. We're approaching local companies who understand the importance of this to donate raffle prizes and I'd like to extend that to you as a potential future local.</p> <p>Please let me know if this is something you could help out with, and I'll get details sorted.</p> <p>Kind regards XX</p>	Comment via email	

E6295	<p>Good Afternoon. I would like to introduce myself and my company, XX, based in East Anglia. a multi-disciplinary firm, that undertakes work across the Construction & Development sector.</p> <p>My personal background is a Quantity Surveyor with 29 years of experience in Construction and Development. During this time, I have worked as a Private Consultant, Developers Quantity Surveyor and a Contractors Quantity Surveyor/Commercial Director. My work has included projects both within the UK and Europe across the Pharmaceutical, Commercial (Offices & Industrial), Private & Affordable Housing and Historic Buildings, and Leisure and Theme Parks.</p> <p>The core services that Baytree Surveying offer are: -</p> <ul style="list-style-type: none"> o Cost Planning & Estimating o Development Appraisals o Negotiation and Agreement of Heads of Terms o Contract Negotiation & Preparation o Collateral Warranties o Post Contract Cost Control, Changes (Variations) & Payments o Final Account Negotiations o Advising on Procurement Routes o Managing the Planning & Design Process <p>We have a sound knowledge of most regularly used forms of contract including the JCT and ICE suites of contract. We can both administer and write these.</p> <p>I worked in Germany, as part of the Legoland Construction Team as a Quantity Surveyor. My role was to cost manage the ride manufacturing process/installation with companies such as Intermin, Mack and Zierer. very much enjoyed working in the theme park industry and would be pleased to assist yourselves with your incredibly exciting project, local to myself.</p> <p>I look forward to hearing from you.</p> <p>Yours Sincerely XX</p>	Comment via email	
E6265	<p>Good Evening universal UK, I appreciate the potential of a UK park is still far from a done deal but as they say the early bird catches the worm.</p> <p>I am wondering if there is anywhere I can register my interest as a potential business partner.</p> <p>I work for a company that offers solutions around furniture and Fitout.</p> <p>We offer free design services and are based locally in Northamptonshire.</p> <p>Thank you for your time and I look forward to hearing back from you.</p> <p>XX</p>	Comment via email	

E6254	<p>Good Morning Many thanks for taking time to read my email, I work for an Architectural and Powertool merchant based in Edinburgh, and I have made contact with your company to see if there is any potential of the supply of material to your upcoming project for Universal UK (I'm a massive fan of Universal and been to Orlando a number of times and planning trips to other sites.). As per my attached sheet this give a small snippet of what XX can offer as a supplier from Full domestic and commercial ironmongery, full site set up (including health and safety equipment), fixings, silicones, etc where we can supply to the owning company of the project or the sub-contractors from our base here in Edinburgh.</p> <p>As a company we have other aspects that we can offer including the following</p> <ol style="list-style-type: none"> 1. On site locksmith and lockshop located in our main Branch in Gorgie 2. We have an Ironmongery Specification manager based in the branch at Gorgie also who can use architectural drawings to arrange specification call off for sites. 3. We have the facility to purchase a wide range of products to help with supply covering all trades inc Joiners, Builders, Plumbers, Electricians etc. <p>If you wish to discuss this in person, and in more detail please do not hesitate to contact myself on the means below.</p> <p>With Thanks</p> <p>XX Business Development Manager</p> <p>XX</p>	Comment via email
E6307	<p>Good morning team, I hope you're well and having a good week so far.</p> <p>I notice with interest the very exciting news that Comcast have recently acquired 476 acres of land in Bedfordshire with a view to building their next Universal Studios theme park.</p> <p>Whilst the project is still understandably in the very early stages, I thought I would reach out early to put our name in the hat for any accommodation requirements that you might have in the area, whether that be for contractors or corporate travellers.</p> <p>I work for XX, a UK based serviced accommodation agency with over 250,000 properties across 140+ countries with excellent levels of supply in the Bedfordshire area. We specialise in providing safe and secure accommodation, giving our guests that 'home away from home' feeling whilst they are away on business or relocating.</p> <p>If you would like more information on our service and how we could be of assistance, it would be great to have a chat, however I appreciate I am getting in early here so please feel free to keep my details on file and catch up with me later down the line.</p> <p>Kind regards</p>	Comment via email
E6280	<p>Good morning, As part of the opening, I was wondering if there are any opportunities for local businesses to open restaurants / food stands within the park?</p> <p>If so, what would the process be please.</p> <p>Thanks, XX</p>	Comment via email

	<p>Good Morning, I hope this email finds you well.</p> <p>My name is XX and I am the Internal Account Manager at XX.</p> <p>I am emailing you today as we are a very local company to this site and if it goes ahead, we would love the opportunity to provide the below.</p> <p>XX are part of the XX of suppliers of high-quality cleaning chemicals, catering equipment, workwear and PPE.</p> <ul style="list-style-type: none"> <input type="checkbox"/> Free next day delivery service Monday – Friday with no minimum order. <input type="checkbox"/> Free online accredited training courses for COSHH, Infection Control, Health & Safety + Many more. <input type="checkbox"/> Dedicated account manager. <input type="checkbox"/> Automated COSHH Safety Data Sheets by email. <input type="checkbox"/> Full range of cleaning & hygiene, workwear, Catering and PPE products <input type="checkbox"/> A full range of Sustainable products 		
E6293	Please do email or call me on the number below to discuss further.	Comment via email	
E6278	<p>Good morning, My name is XX - I work for a transport planning consultancy called XX that helps developers gain planning permission for sites across the UK.</p> <p>As a theme park lover, I'm particularly interested in your proposals. If you don't have a transport planner already on board to help develop your plans and eventually take it through UK planning, I'd be delighted to have a chat. We're currently working on a confidential project to bring a new film studios to a major UK city.</p> <p>Please let me know your thoughts.</p> <p>Kind regards, XX</p>	Comment via email	
E6252	<p>Good morning, my name is XX. I'm from a company called XX. We're interested in the site's redevelopment. Would like to know how we go about registering our interest or if there are any consultancies we need to make ourselves know to or even if it just logging our interest with yourselves. I have been on your website to do that in January but I'm not too sure where the information has ended up. I'd be most grateful if someone could give me a call on XX</p>	Comment via email	
E6274	<p>Good morning, to whom it may concern,</p> <p>Whilst extremely excited and filled with anticipation for your potential upcoming project, I was curious as to how far ahead had been planned. Mostly in reference to a construction partner. Have any decisions been made as to which companies will be involved in any future construction on the Universal project?</p> <p>I work for a company which is involved in digital reality capture and construction project progress monitoring, both terrestrial and aerial. If there are such needs on this project I would love to communicate our business deliverables with somebody from your team and explain how we could potentially help with aspects of this project.</p> <p>If you would like to read further, I will include the business website below in the email signature and I look forward to hearing from you regarding any collaborations.</p> <p>Kind regards, XX</p>	Comment via email

E6315	<p>Hello Universal Studios, I'm so thrilled to hear the great news you are looking into building Universal Studios in Bedford.</p> <p>I have a few domains which may be of interest. Who would be the best contact to speak to about this?</p> <p>Thank you</p>	Comment via email	
E6277	<p>Hello, I have just attended the public consultation over Universal Destinations and Experiences potential new theme park and resort experience near Bedford.</p> <p>I am writing to you as I have seen that you are keen on forging links with local bodies.</p> <p>I am a member of XX that organises free-to-enter events in the Wixams area.</p> <p>For more information see https://wixamsevents.uk/about/</p> <p>If you do decide to go ahead with the resort in Bedford we would love partnering with you.</p> <p>Thank you for your attention.</p> <p>Kind Regards,</p> <p>XX</p>	Comment via email	
E6297	<p>Hello, I would like to introduce my company – XX. We are a specialist construction procurement consultancy who have extensive experience in procurement of theme park and major infrastructure design and construction contracts. We would be delighted to be given the opportunity to speak to someone about how we could help you with this fantastic project. One of our key areas of expertise is in strategic procurement advice – procurement route to market, contract strategy, scope and works information drafting and management of the end to end procurement process, including initial market engagement to align with client and major stakeholder key objectives and requirements.</p> <p>Please do not hesitate to contact me and in the meantime you can view our website for more information.</p> <p>Many thanks,</p> <p>XX</p>	Comment via email	
E6283	<p>Hello, Just a follow up Email to see if you are interested in hearing from us with our food offerings for your exciting new Venture in the UK</p> <p>> XX</p> <p>></p> <p>> Hello</p> <p>> Could you send me the contact information for your Food and Beverage manager please</p> <p>></p> <p>> We specialise in Theme Park Catering, already supplying several outlets in one of North Yorkshire's biggest theme parks and would like to offer a food option to your new Universal Studios Uk theme park</p> <p>></p> <p>> I look forward to hearing from you soon Thanks</p> <p>></p> <p>> XX</p> <p>> XX</p>	Comment via email	

E6275	Hello, my name's XX. If someone could give me a call back, my number's XX. Just to get the email address, basically I run a photocopier company supplier and maintenance. I know with Universal hopefully coming to Bedfordshire will bring in a lot of jobs. So I was wondering whether I could get me foot in the door and if it all goes ahead we can get a quote over to you guys to maintain and supply some photocopiers.	Comment via email	
1968	Help local businesses.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?

3885	I am a 3d artist by trade, for a uk studio called XX Our studio could help in all kinds of aspects with concept artwork, drone capture with integrated 3D. 360 tours etc, we do all sorts of stuff. I also create 4d projects to help explain large infrastructure projects and logistics in a clear and concise way. I'm sure we could help in one way or another.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5332	I am a XX and work for XX who have local offices nearby. I also live very close by to the proposed site. I and my employer would love the opportunity to collaborate in this park should it progress. Our services include Property Management, Building Consultancy, ESG Services, Building Technology and Occupier Services.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

F6208	I am a XX and would like to work with you.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4318	I am XX so would love to be contacted about opportunities for learning experiences for our students	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4377	I am a local radio presenter and would love to help promote this project. I think it is a fantastic opportunity for the residents of Bedfordshire. Please do not hesitate to reach out if I can support you.	Please share any further feedback you have at this stage.	
4298	I am a XX. I would love to see how Universal could work with local schools and what opportunities and support you could give there. My two children also go to school in the area. My youngest is at XX and my eldest is currently at XX. I am very interested in the opportunities Universal could provide them in the future.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3266	I am XX. I am also a resident of Bedford. I would be happy to provide possible linkages to KCL. Happy to meet for a coffee etc.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
688	I am a sign language interpreter and would be happy to work to provide access to Deaf visitors.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4692	I am a teacher at a local primary school. Collaborating with local schools will be extremely important for many different reasons. Maybe schools close by could have some input into designs around the park, even if it is a mural, garden or something similar.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1182	I am happy to collaborate with you on the museum concept	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2850	I am not a Bedford local so I cannot comment.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4217	I am not a Bedford local.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4445	I am not completely local to the area, but if you can involve as many local groups as feasibility possible that would be a big plus.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

382	I am not local to Bedford, however as a Higher Education student interested in the FE and HE sectors, seeing partnerships with local college's to provide students with great understanding of hospitality could bode very well to finding the ideal candidates for employment opportunities at the resort.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2191	I am not local to the area but really interested in the training, job and career opportunities associated with the project. Creating training programs and apprenticeships/degree apprenticeships would be something I'd be inclined to be involved in.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
919	I am XX. I attended the school engagement session on Monday 15th April and was really pleased to hear your representatives talking about the desire to work with schools on their curriculum to best prepare our children for potential employment at the park. I'd be thrilled to work Universal on this and other educational opportunities - particularly with respect to science, technology, engineering, arts and maths.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3009	I am XX operating XX where the first public consultation is taking place. We would welcome a conversation exploring opportunities for us to work together.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4160	I believe the job agencies could help	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
154	I believe this would be a great opportunity for apprenticeships in all sectors. You could work with local/semi-local schools, colleges and universities to offer apprenticeships. Such as Capital City College Group.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2801	I can not envisage that your organisation requires anyone with a good education or high IQ to work at a theme park	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4497	I can't think of any because I'm not quite local enough.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1524	I can't think of any specific organisations however, I do think that, given Universal's expertise in Special FX and FX makeup, supporting current training programmes in the UK in TV, Film and Makeup would be a fantastic opportunity for students who want to pursue this career path.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5078	I couldn't comment as I don't live in the local area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3655	I do not live in the local area so am unsure about local businesses and educational programs	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

635	I do not live locally so I am not able to answer this question	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1942	I doesn't have any suggestions in particular though I have listened to your proposals and it sounds very promising, I noticed in particular an interest in creating jobs. Even though I'm not local, it's sparked my curiosity and I wanted to know if you'd have any considerations for people applying from further away, would you have opportunity for housing to any successful candidates who wished to ensure they could be part of your company?	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1697	I doesn't know	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1962	I doesn't know	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
380	I doesn't know of any in the area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1816	I doesn't know.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1431	I doesn't live in the area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3471	I don't have specifics in mind but opening up your training facilities and staff to pass on knowledge to pupils in the local area, especially underfunded council run schools, would be hugely beneficial to the children and give them a future that previously they would never have had access too.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3836	I don't have the names, but any who support creating genuine opportunities for the disadvantaged and underrepresented, and those that support apprenticeships and career building opportunities in local communities.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1108	I don't know	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1198	I don't know	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

4962	I don't know	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1986	I don't know any of the local businesses but I would say certainly the college. Maybe an engineering course	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5365	I don't know anybody locally to Bedford, so I would have to say no.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1763	I don't know of any. But to support jobs try to use local organisations. Bedford College.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1415	I don't know the area well enough but I'm sure collaborating with local schools & colleges will be well received!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1912	I don't live in that area I'm afraid. I'm from Anglesey, but wish you well with this project from a jobs, skills and training / educational perspective etc. :)	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2894	I don't live in the local area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1365	I don't really have any personal recommendation for this but there are certainly many schools in bedfordshire that could accommodate this kind of thing.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4559	I don't want it at all	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3044	I guess with all communities mentioned above.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

E6299	<p>I hope this message finds you well. I'm XX, Head of Customer Success at XX, a leading background screening provider based in Bedford. Your recent announcement about the Universal Studios project in Bedfordshire is thrilling, and we are eager to contribute to its success.</p> <p>At XX, we specialise in comprehensive background checks, ensuring the safety and integrity of workplaces. Given our local roots and global reach, we believe we can offer unique value to Universal Studios, particularly in vetting the workforce for this monumental project.</p> <p>I'm keen to discuss how our tailored screening solutions could align with Universal Studios' needs, enhancing the safety and efficiency of your operations. Could we schedule a brief call or meeting to explore this possibility?</p> <p>Thank you for considering this outreach. I look forward to the opportunity of discussing our services with you and the potential impact we can make together on the Bedfordshire project.</p> <p>Best regards, XX</p>	Comment via email	
280	I live circa 25 miles away so not particularly but the idea is great.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3205	I live in St Neots and I would expect our local town council, schools and colleges would have a significant interest in promoting opportunities that stem from such a major area investment	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1465	I live outside of the area, not too sure of local suggestions	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4629	I own and run a local family Pest Control company and would love to be the service provider for the park with all pest control requirements.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
826	I own Apex Flooring in Bedford so any flooring needs I would be very happy on assisting with.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4365	I personally think you should collaborate with the local upper schools for employment	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1666	I personally think you should concentrate on working with universities. Its difficult in the UK for graduates to find decent jobs relating to their subjects, post graduation. A post graduate course or training program would be an excellent way to recruit future employees.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3181	I personally work for the MK Job Show with showcases local job opportunities. www.mkjobshow.co.uk Local Colleges/Universities for apprenticeship opportunities?	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1078	I spoke with XXX at the Tuesday session I represent a local VoIP, Broadband, Mobile and Energy provider based in Luton. We're called Talk UK Telecom and we are eager to support and help as many local businesses and enterprises as possible #supportlocal #buylocal	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4715	I suggest also involving local residents	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2098	I think a selective contest should be held for high schools and junior schools from all throughout the UK with a winning high school and primary school from each region (east anglia etc). This could be debating on a topic the park aims to help or anything prevalent to the park. This engages people and allows more people the opportunity so you have a wider sample size of collaboration.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1925	I think a universal park would help all levels within the area.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2495	I think all local schools and businesses would be willing to cooperate with you	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
310	I think all local schools would love to be involved!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2556	I think Center Parcs are (rightfully) panicking that they will lose all their employees, they dont have great practice currently of knowing how to retain staff. I work at CP, and am hoping I can work for Universal in the near future. I think they'd benefit from your knowledge of staff retention and improvement, and to be told how to better deal with universal potentially happening. Portu Gallos in wixams do amazing freshly cooked Portuguese inspired food, theyre my favourite restaurant. Working with people like these is sure to be beneficial, theyre amazing people.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1766	i think colleges universities * schools are create for jobs & people that would attend the park in the future	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2015	I think for those with desire to develop a career in the industry maybe a graduate scheme for those leaving university as well.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2386	I think if you're looking to help the community then places like Bedford College and Kimberly College would be fantastic, you could run apprenticeship programmes or graduate programme for people just coming out of university for the chance to get their foot in the door and experience what the working world is like.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3667	I think it would be really beneficial for you to partner with higher education centres such as sixth form colleges and universities to expose them to the different types of jobs available in the themed entertainments industry - such as delivering talks and education about theme park design to architecture, art and design students - or giving talks about the business side of theme parks and universal to business and economics students just to name a few. In addition I think it would be good to offer these students internships, work experience and apprenticeships; I know for a fact this is an opportunity I and many others would jump at!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4924	I think that giving job opportunities to locals and educational talks to all school children and offering apprenticeships to school leavers.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5284	I think that's a great idea.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2243	I think the colleges would be a good idea, maybe create a training programme aswell so they can get some experience	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2565	I think the older generation (50+) is an underused resource.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5420	I think the small village schools would benefit e.g. Thurleigh primary, kymbrook primary, Milton Ernest etc. as they are smaller they doesn'tnecessarily receive as much funding from the borough as larger town schools but still need the opportunities.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1281	I think whom ever is involved at whatever level or age is an opportunity not to be missed with such a renowned organisation	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1746	I think you guys are already in a good space in that working with the local schools colleges and even social clubs will be great	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3427	I think you have named the relevant organisations. Maybe also the town / parish councils as well as county council.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
822	I think you should collaborate with anyone really even people with disabilities	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

950	I think you should offer these opportunities all across England, not just the local area.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1586	I used to live local, but now live in Scotland. I wouldn't know the exact names of schools/colleges, but I suggest you speak with them	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2651	I was particularly impressed with your school project	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
801	I work at Castle Newnham School, we are having to close our Nursery because we cannot fund it. But working with the local schools in general to get the children's ideas for the theme park. Especially STEM activities. Will there be an educational centre for school visits looking at the science and design behind the rides? Ways to help Bedford be greener. Are you having renewable energy to power the theme parks? Wildlife- allowing schools to visit green spaces and having wildlife cameras up so schools can log in. Maybe offering forestry school opportunities	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
F6106	I work for a local civil & structural engineering consultancy (Scott White & Hookins). This also has a sustainability department. We have an events department and worked on the last common wealth games	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5166	I work for Bedfordshire Police so there are multiple agencies that would benefit from this park.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1473	I would approach UCAS as they are an education authority, also investigate getting disadvantaged people into work, loads of local authorities have smaller projects that are involved. Local councils will be able to point in the right direction and support	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
841	I would like to see the regeneration of Bedford Town Centre	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3473	I would like to target young people, especially school leavers e.g. 15-21 years, as they do not have many opportunities in Bedford.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3619	I would like to think it would be the local state schools, rather than the public schools, which Bedford has quite a few of	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2039	I would love to be involved in sign making for the park, I run my own business for design and merch print work aswel as working with local sign makers, Vector-designs.com is my company, and Galloway signs is a local company I help,	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3774	I would love to dicuss more with you, I am the head of training for online travel training and I feel there is a join collboration we could explore.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3794	I would love you to give SEND students the opportunity of work placements Bedford college	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
571	I would most like to see investment in Bedford town - the development of a cultural centre with purpose built theatre.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3935	I would not like to see your corporate lobbyists getting anywhere near the young minds of Bedfordshire students	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5195	I would say start local and then include the whole of Bedfordshire	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
366	I would suggest keeping the schools and colleges well informed as well as local council.I also think nationally you will find many people interested in working for Universal if the skills locally cannot be found.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2473	I would warn to stay clear of really bad management. There are some I know who would jump at the opportunity to work for this company, namely XXX who are notoriously bad managers for Merlin Entertainments	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5383	Icknield High School, Luton Hat Factory and Wardown House, Stockwood Park Luton Local food and drink artisans/creators to create unique/original/authentic eateries. Also to create a sustainability hub of repair as well as reuse. And to use local schools and artists to create workshops and park out of waste items.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5413	I'd be interested in the link to the Cardington Sheds (one independently run as Cardington Studios and one on a long-lease to Warner Brothers) and Home of Production to make a connection between the TV/Film industries growing in the area alongside the heritage of the airship and aviation technology that Bedford is famous for.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4503	I'd love to see you collaborate with local colleges and universities to offer students a chance to break in to the theme park industry and creative industries as a whole.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

2199	If construction does go ahead, which I strongly hope it does, then I believe a big social media presence would be needed. Including elements of construction updates on both a professional level and on a more relaxed, social level that would allow people to report on to their followers on platforms such as YouTube etc. Giving updates as different parts of the construction progress are completed. This seems to generate a very big interest with not only fans of theme parks, but even the casual viewer who might not necessarily have existing knowledge of the project. It would also build a good rapport from the get go amongst Universal and their potential customers.	Please share any other feedback you have at this stage.
587	If there are going to be good train links from Cambridge and or Peterborough i would say Anglia Ruskin college/ university would be good.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
1810	If u can I think it will be nice if u have a word with merlin to see if there have eney ideas.and all so to see what the local teens like to see what will come out of this and evren the disabled people. What would they like and how the park can help them coz I belive being disabled myself and have a lot of problems.i would like to see a park cater to us who can not read or write and also talk to the older generation coz I know the old people over in the uk will have a lot to say about this.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
2849	If you collaborate with schools it should be to raise aware ness of child trafficking in schools.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
3265	if you find them let me know	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
446	I'm guessing the job centre!, local unemployment offices	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
731	I'm happy for those who know more about local organisations to make recommendations to you. I trust the Universal Studios Brand.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
424	I'm not a local of the area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
810	I'm not a local so wouldn't know	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?
5111	I'm not a local to this area (I live in the West Midlands), so have no suggestions	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?

3194	I'm not from the local area.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
386	I'm not local, but think getting younger school children involved in helping to design some landscapes or elements around the park would grow connection and engagement.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2522	I'm not local, so no suggestions sorry. I'll bet there will be plenty of local partners who would love to collaborate with Universal. I think the growth opportunities to the area are awesome.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1601	I'm not local.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2348	I'm not local. But definitely the local schools and colleges for education and job prospects. I would have done anything to become a 'team member' or 'cast member' as a child or learn a path in engineering for themeparks.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5210	I'm XXX for Wootton Community Centre in the village XXX. We are a registered charity. Our facility, is an important part of the community, we have a modern purpose built building, with larger than usual main hall, onsite parking and wifi. We run many different clubs and classes and private events. If you require a venue for future PR campaigns or recruitment days etc, please consider our venue to accommodate your needs. We run a summer Food and Music Festival Saturday 17th August 2024 which is a free event for the village and the wider community, on our football pitch. If you would like to be involved in this event and hold a pitch for a PR campaign for your UK project please get in touch. If you would like to make a donation to our event, we currently have a sponsorship campaign to raise money for the festival and keep it a free event for the local people, we are trying to raise Â£5k. Any help you can offer would very much appreciated.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4379	I'm the XX for Pickleball England I'd love to be involved in creating out door courts with yourselves	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3509	I'm unsure on this matter	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
E6302	I'm XXX of XXX after meeting with XX and the team at Bedford College yesterday, we have our summer event on June 29th where we close the road for the funfair entertainment stalls etc, would you like to come along and maybe have a stall yourselves exhibiting Universal, I have contacted the Red Arrows who are doing a display locally to see if they could do a flypast on the day, you would be very welcome. Regards XXX, phone: XXX	Comment via email	
226	Impakt Castle Newnham - have a focus on the arts/media The Place	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. 402	In Ampthill, Russell Lower School, The Firs Lower School, Alameda Middle School, Redborne School, Ampthill Business Connect. Other schools in the wider area and Cranfield University, Uni of Bedfordshire, Bedford College.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5404	In Disneyland years back, there was opportunity to put your name 'œon the map' via floor tiles. Offering schools within the Bedford borough the opportunity to add to the history by designing small aspects of collaborative art similar to this concept would be an exceptionally positive opportunity for local children to contribute to something that is going to shape the future of where they live drastically.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4897	In Queen's Park in Bedford we have a very multi cultural community. We have a mosque, a church & Gudwara within 2 streets. I remember when I was young there used to be events where the whole road was shut down and all communities came together with stalls, activities etc. Another way is we have the Bedford river festival which has 100s of thousands of people in attendance if not into millions, which is a huge history for Bedford, by doing something there would make a massive impact	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1056	In the design and creative development of the resort, I can speak for myself by saying that here in the UK we have some great talent for whom it has historically been frustrating to find opportunity domestically to spread our wings. Universal Creative is difficult to penetrate for UK citizens working in the industry, so it would be great to see a UK studio being set up to offer chances to UK based creative talent. It would be great if you will embrace UK experiential design agencies rather than delivering the whole scheme from Universal Creative in Florida. When I attended the public event I enquired about this, and I got mixed responses. I was told by different representatives that it was being all done from Florida, but then Page told me that once the decision had been made to proceed they will be reaching out and open to partnering with UK talent. I do hope this will be the case. Secondly, there is a lot of movie-making heritage in the area (Cardington Hangars, Leavesden/Warner Bros Studio Tour just up the road, Pinewood also not far away) and I think it would be extremely appropriate to spotlight this and support the local industry, with a focus on education, training, and entry-routes for aspiring industry juniors etc. Potentially also a collaboration between Universal Creative and Bedford College (or perhaps larger UK institutions if more fitting) for a Themed Entertainment Design degree? I know myself that the UK Theme Park industry is terribly difficult to get into, there are many less entry routes and it is not generally recognised as a viable career route in the UK as it is in the US.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3505	In the UK we have job centres where people are looking for employment, this would be a great opportunity for universal to work with the job centres to offer people a chance to work.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5381	In the UK we have something called work experience in the upper schools(high schools) to prepare them for working life. It would be beneficial for students to have opportunities in the UK universal theme park as a work experience opportunity.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
387	in which the court cases' aim is to get the UK Supreme Court to change the legal definition of sex to exclude anyone not assigned female at birth. This would strip transgender women in the UK of vital legal protections that are currently outlined in the Gender Recognition Act 2004 and the Equality Act 2010. The issue of some cis women such as Rowling campaigning to take away rights from trans women to fit their narrow definition of a women is an extremely tumultuous issue in the UK	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. 2451	NASA we doesn't have enough science funded projects in the area Our youth are not inspired with what is currently in the areas, projects that will appeal to young people. I live in Wixams and the amount of shooting stars that are above the sight inspires me to think beyond A GREAT EXPERIENCE at a theme park, it would be a life changing experience for the Next generation they Would come to see the park but also study in an amazing atmosphere. We have a rocket park in Wixams with an actual rocket! We have lots of families that want there children's to succeed there has never been a big community project for the us, my father can here in the 50s start work at the brickworks and died here, he was a hard working man I'm his daughter born and bread in Bedford. I'm 54 now I've seen a lot of changes this would be the most magnificent of all, but I doesn't want my people left behind so I would love a NASA type education village for people, and the world! Electrical wholesaler to supply the electrics for the build Powerworks Wholesale Ltd In Woburn Road Industrial Est Only Asian independent electrical supplier in the area the family came from nothing and has managed to keep business going since 2005 They are committed to Bedford and would very proud to be your project They need a break as they have been up against much bigger wholesale companies but have worked so hard to make a living. They work alone no support from anyone. Humble beyond words. 762	No sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5212	No, just the above.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
557	No, sorry	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3157	No. But homeless charities would benefit from training and development	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3637	Noah in Luton Home start central beds	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
207	Nobody woke or too left-wing because they ruin everything. I will not visit if it's overly socialist. Just focus on entertainment. Maybe John Bunyan museum at a stretch?	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1372	Nohow international	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

1432	None at this time.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1049	None come to mind	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2397	None for now	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4268	None in particular	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4488	None in particular	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3162	None that I can think of particularly	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4849	None to mind	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4504	None, but if you need aquatic supplies you have the largest importer and supplier of fish keeping materials at ALFltd.co.uk in Bedford.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1902	Nope your doing great	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3137	North Bedfordshire schools The Harpor Trust.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4256	North Herts College - Supported Studies (Stevenage) and Springboard (Letchworth) is a SEND provision. We have a course called Supported Internships where students access a working environment (unpaid) to gain important experience for their futures. Students have a variety of diagnoses, autism/ADHD/Downs Syndrome, as well as learning difficulties.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

333	Northampton college, MK college, Cranfield University. Leonardo Hotels, Fattal Hotels, Destination Milton Keynes	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4274	Not a local person	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3300	Not at moment	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4290	Not at the top of my mind	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2118	Not at this time	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2058	Not being local, I don't know anyway	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1652	Not just local but also colleges further a field for other communities to also get excited about the opportunities to work there.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
861	Not just local colleges as hinted in your video but those further away too. Local business/small business who could help with your theming. Presumably the attractions are all designed and engineered in the USA but local suppliers can build play areas etc.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5142	not just local colleges, but also ones from around the UK	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2366	Not local but I think this is a great idea	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
778	Not local enough but suggest you contact local rotary and lions clubs as they're full of well intentioned and motivated locals	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

2332	Not local to area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1745	Not local to Bedford sadly	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2357	Not local to the area so unfamiliar with it.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1317	Not local, but the Breda University of Applied Sciences (BUAS) in the Netherlands has a wonderful Attractions and Theme Park Management track which teaches the students to be a manager in the attractions industry.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
368	Not particularly doesn't live in the area just would like to see this project go ahead to improve the theme park industry in the uk.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2038	Not particularly no	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3852	Not really	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4375	Not specifically, but helping younger adults and children an understanding around business operations and engineering would stimulate great new skills.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2531	Not sufficient local knowledge to make suggestions in this respect	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
699	Not sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1257	Not sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

1485	Not sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?

3696	Not sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3822	Not sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4419	Not sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4932	Not sure	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4825	Not sure ?	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3887	Not sure as not from the area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3888	Not sure as not from the area.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3506	Not sure currently	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2450	Not sure on this one.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1604	not sure yet	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3733	Not sure.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4768	Not sure.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1789	Not sure. However it'd be great to see Milton Keynes being involved given its proximity	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1811	Not that I can think of	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4876	Not that I know of	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2324	Not the local councils for definite.they are backstabbing money thieves who cannot be trusted	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1064	Not the private schools. Any of the state schools.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2999	Not too sure as I don't live in the area.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

1805	Nothing different from the obvious	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2178	nothing specific	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3988	Nothing specific, but hopefully some town centre shops to make the town centre thrive!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2676	Nothing to add	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5236	Nu Start Community Enterprise	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4094	Nuyard Garden Centre	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4294	Oaklands college, West Herts College	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
734	obviously travel agencies, local schools (engineering, project planning and environmental lessons) and independent stores and traders	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
811	Occupational therapists - really are secret weapons with problems solving and truly exploring useful and futureproofed accessibility that is functional (traditional guidances are not always helpful)	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4342	Of the local educational facilities that I am involved with, I would say Bedford College in particular. I'd also say that some of the more independent and local businesses would value engagement, Portu Gallo's is a local restaurant who are excellent and would hope that they are engaged with.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3041	Offer placements and graduate roles specifically for UK universities	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

696	Offering a new angle of jobs for the community will be great for the young generation. You must NOT disrespect the community and the town by naming the site London Universal or similar. PLEASE.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
711	Offering opportunities for students from other universities as well	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3081	Offering work experience to the local school and colleges	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
285	Ok	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2577	Older people	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4086	Olicatschools.org	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1447	Open University	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3859	Open University (my employer)	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4965	Open University Redborne Upper Bedford college	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4858	Open University, Cranfield University, Milton Keynes area schools	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5345	Open University. Any and all secondary schools around Bedford and Milton Keynes.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3735	Opportunities for people from all over the UK, not just Bedford. People would be willing to relocate.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3845	organise school/college students trips to the project. Educate and excite the young talent from day one. Organise Universal's own in-house training school where they can groom the local talent/newly passed out students and offer them free training and later on absorb them into Universal theme park by offering jobs. This way, the standards will remain consistent of the reputed company.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3668	Parish Councils	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?

2742	See above. Any noticeable investment that revives Bedford would help your cause. Bedford has a very rich history and whilst the town centre has been affected in the same way that most town centres have been, there is still enormous wealth in the surrounding areas. Anything to encourage those wealthy individuals to shop in Bedford would be welcome. Knocking down some of the hideous 1950's buildings would be a start.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. 551	Some what predictably my first response to this question is for you to work with the Council, but I don't suppose that really counts, because I understand you will have to have some level of consultation with them. Most of my working life has been spent on the Railways in the Construction sector. From my understanding the Rail links from Bedford - Bletchley have been fairly poor for a considerable period. I also understand that this may be due to a lack of demand - I don't really know, but I would see this possibly as an opportunity / need to improve the quality of this service, and give it something of a spark back to life - perhaps!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3159	Somehow target the work shy youngsters by creating exciting, modern job opportunities. Make it a fashionable "cool" place to work. E6251	<p>To whom it may concern, I hope you dont mind me contact you. I have been training my assistance dog with a lady called XX for the past 2 years.</p> <p>Ronnie, is a 2 and a half year old labrador and we have been working with XX to hopefully allow ronnie to work with my son who has a very rare neuromuscular disease and requires the use of a wheelchair. I have also recently been diagnosed with young onset parkinsons so ronnie role within the family is going to be essential.</p> <p>XX is constantly exploring new training opportunities for the dogs she works with. This then enables people with a range of disabilities who have assitance dogs as medical aids to live a more indendent life.</p> <p>XX is an amazing and inspirational individual who truly wants the best for the dogs and families she is working with.</p> <p>I live within Bedfordshire and have heard of your recent project and wondered if you would be interested in XXX utilising training opportunities within the universal studio park.</p> <p>Her contact details are:</p> <p>XX</p> <p>Kind regards</p> <p>XX</p>	Comment via email	

	<p>To whom it may concern, We, at XX, are specialist consultants for utilities and infrastructure projects, with a difference. We leverage decades of industry experience to analyse, challenge and advise on projects when it comes to the underestimated topic of utilities through the lense Project Management, Design Management and Commercial Management. We are currently working on many significant infrastructure projects throughout the U.K. directly for clients; as support to prime contractors and also to the larger consultancies. We are the SME of choice for Utilities Infrastructure Projects.</p> <p>I have attached our brochure in the hope that you may pass this email and its contents on to your relevant department, and that ultimately it may be of interest to you or your supply chain partners.</p> <p>I am a Bedford resident myself and this project, like many in the area, has peaked my interest. I am confident XX can support Universal Destinations & Experiences with many of the challenges it may face when assessing the feasibility of this project. Often, we are engaged to help solve the challenges projects face when decisions related to utility infrastructure have not been properly assessed. Whilst often not the glamorous part of any project, they have the potential to be significant disruptors to progress; detrimental to cost and overall, the success of any project.</p> <p>I'd love to be able to discuss more with you and, I'm sure to be soon, your appointed supply partners.</p>		
E6247	I look forward to hearing from you!	Comment via email	
E6270	<p>To whom it may concern. My name is XX. I am service manager for a photocopier company called XX</p> <p>We supply and maintain photocopiers on a managed print service and with universal studios HOPEFULLY coming to Bedfordshire and providing lots of jobs locally I was hoping to get our foot in the door early and see if it was possible to supply you and maintain photocopiers for universal studios new site. We are based in Stevenage but I personally live in Marston mortaine so it's a stones throw away.</p> <p>Please feel free to give me a call and I hope to hear back.</p> <p>Many thanks</p>	Comment via email

4563	Would be good to help those resettled in the UK through asylum	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3110	Would be lovely to take the the lower & middle schools in the surrounding areas to Universal as an incentive to keep their attendance levels up and the school leavers and below to do work experience.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4453	www.daracore.co.uk Based in Luton, general construction services, fire protection, BWIC	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5214	Wwww.wixamsservices.co.uk	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2240	Yes	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3023	Yes! I work at Yusen Logistics in Milton Keynes (our office is a 20 min drive from Stewartby) I am the Ocean Customs Manager there and handle all customs clearances for our customers bringing in goods, equipment etc. Via sea. We also have a dedicated team for European shipments and air shipments too, as well haulage, origin shipping etc. This may be a good opportunity for moving equipment, building supplies, and eventually merchandise, uniforms etc.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1191	Yes, Bedford college, MK college, surround schools. Worktree charity. Working with local suppliers in regards to food and drink. Working with local contractors, employment agencies and creatives on things that can be done with the Universal team. It would be good to even have forums to gain insight from the local people and businesses to help shape and develop the local things you're thinking about but also best ways to work together.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2641	Yes, Chums Charity have a Young Carers service who support children and young people who have a carers role at home and allows them to be a child with no responsibilities for a few hours. A trip to universal would be amazing for them	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

3950	Yes, collaboration with TUI while a German company is based in nearby Luton and would enable you to tap into the European market for connections. Luton Rising - the group support Luton airport expansion, of course your goals align, perhaps even your timelines. Local Hospitality businesses - my husband works heavily with local restaurants and to really boost those that are interested in growing it would be great to see local brands over international ones prevail here. Myself - I'm a PR professional working in the travel and tourism space. I've managed the PR for some of the UK's biggest attractions and have excellent knowledge in the space. And of course I'm a local so this would align to your recruiting local people strategy. In addition, I can bring on a broadcaster to capture your journey from the start, so that when the park launches you have an instant mass reach PR opportunity ready to land.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3873	Yes, Cranfield Airport and Cranfield university, which is close by and may be a useful network.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3498	Yes, educational opportunities especially in the film and media for GCSE and A level students. Look at the pneumatic systems and workings of the rides in information spots around the park so science is embedded in the everyday opportunities and the children can see how important STEM is in life. Also, have community charity support like the tesco token system, and change them quarterly to show support to the surrounding area, much needed!	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
595	You can have deaf awareness training.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2491	You could collaborate with the University of Bedfordshire.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4089	You could contact putnoe primary school they would love to be involved	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2261	you could offer opportunity to newly graduated students who aim to go into the theme park industry. you could also reach out to different company's within the uk for the different aspects of the park.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4665	You could start by actually speaking with the central beds residents who will be mostly affected by this rather than Bedford who are miles away.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3191	You could work with local restaurants and sweet shops to provide food inside the park	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4138	You have already listened above	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

767	You should collaborate with North Hertfordshire College	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2174	You should collaborate with Peter McCormack - What Bitcoin Did podcast and Real Bedford FC. There is a huge opportunity to put Bedford on the map and also embrace future facing technology and payments with acceptance in parallel with a Bitcoin standard. I would pay around the park with Sats/BTC. Help drive future transition and a sustainable monetary framework	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3282	You should contact the Harpur Trust who have extensive educational links in the area	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
2167	You should defientley help local business maybe even using their products inside the parks and sell their products too	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
1423	you should look at currently unemployed and people later in life.. Our retirement age is going up and there are lack of jobs available in today's world. (People who are later in life have the most life skills and experience to draw from)	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5448	You'll need a steady supply of performers, so supporting Bedford Academy of Dance (https://www.bedfordacademyofdance.org/) and the Place Theatre (https://www.theplacebedford.org.uk/news/2024/raise-the-roof-campaign-now-live/) would be mutually beneficial. You'll need local resource with skills in automation and technical theatre. Grants for AV facilities in local schools and places of worship would support this at grassroots level; where these are made to increase inclusivity and sustainability, they will ensure that you can draw on these years in future years. Found and endow a makerspace in Bedford (there isn't one currently) to help people learn about automation. You'll need supplies of local produce to feed your guests and staff in a sustainable and appealing manner - start with The Store" (https://shop.thestoreuk.co.uk/) who are the local leaders on zero waste supplies."	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4444	Young adults/youth.	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5438	Young carers charities (Northamptonshire young carers cover a very large area including Bedford university)	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
4797	Young people	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
3354	Young People's Counselling Service (YPCS)	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	

2156	Youth eg. Teenagers to inspire them to work with you when park is built as they will then be old enough	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?	
5385	Youth groups for disadvantaged kids who may struggle to find work elsewhere as well as local rural communities who often feel isolated from the larger towns	We embed ourselves in the communities where we operate by working with local schools employees and business groups to create jobs skills training and educational opportunities. Do you have any suggestions for who we should collaborate with?

JOB CREATION (1,609)			
ID	Comment	Survey question	Response
3155	I live in the centre of Bedford, as a town, there is a good population and strong workforce, if it's creating jobs this will help out way disruption. Improving rails links will be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	It is estimated that the Proposed Development would directly employ approximately 8,065 people (equivalent to 5,950 FTEs) in the year of opening (2031) and approximately 12,475 (9,185 FTEs) by the year of maturity (2051). UDX wants to make sure it offers local people opportunities that would benefit them. UDX would commit to advertising jobs to local residents first, where feasible. Initial estimates suggest that approximately 80% of the workforce would come from Bedford, Central Bedfordshire, Luton and Milton Keynes. UDX would be committed to making job opportunities accessible to all.
4720	I think it would be a positive experience for those looking for work or looking experience within that field of work	Would you support a potential park and resort coming to this site? Please explain why	
1135	I guess this will be one of the biggest concerns, especially for the local communities. But with smart planning i'm sure you can complete this project minimising the affect it has. Potential large holding areas for vehicles to park up at the site to get them off of public highways. I'm sure you will find away to minimise this. Look at the pros to this though, the amount of permanent jobs this will create forever, it's only going to be a good thing. You can't make an omelette without breaking a few eggs!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2538	Creating high skilled jobs and huge investment in our community	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2672	Partnering with local community to engage and create new jobs in the wider local economy	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4123	Will be beneficial to the present and future of Bedford and Bedfordshire as a whole and will help it grow and prosper for many generations to come. Will attract big international businesses that can supply the public with what they need (services, retail, food, jobs etc.). Will hopefully encourage Bedford to grow as a town in size as it is in an excellent location.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
112	increase local job prospects for our young people	Would you support a potential park and resort coming to this site? Please explain why.	
3859	If it's done right it could be a really good new employer in the area	Would you support a potential park and resort coming to this site? Please explain why.	
113	Jobs	Would you support a potential park and resort coming to this site? Please explain why.	
4729	If or when the park is built it will create so many opportunities for my children who are now 16 and 13 so would be at the age to be employed by an established company which they could potentially work their way up in. Giving them a secure future close to home.	Would you support a potential park and resort coming to this site? Please explain why.	

5649	Not really. This land is likely to get built on for housing if not a park and I'm sure the locals would rather something that creates jobs.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
116	To bring economy, jobs and larger footfall into the area & hopefully reserect the town centre.	Would you support a potential park and resort coming to this site? Please explain why.	
122	Purely because it would give employment to many and also give training.	Would you support a potential park and resort coming to this site? Please explain why.	
134	This amazing project is going to create a lot of jobs and is going to make Bedford one of the most important places in Europe.	Would you support a potential park and resort coming to this site? Please explain why.	
135	I would be interested to see if a resort were to be opened how or what effect it would have on the local community and economy and how many of the potential number of jobs would be available in the immediate Bedford area.	Would you support a potential park and resort coming to this site? Please explain why.	
4185	Employing local people	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
792	Making lots of jobs	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2672	Employing skilled horticultural and environmental employers to create high skilled jobs in the Bedford area	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
142	It would be a great thing for the area bringing money in and creating a lot of job opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
1064	Jobs	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3618	I think it would add value to the area. If universal are looking not only build a park, but create local jobs, support the local community, and build and develop local infrastructure that will also benefit the local area this will be beneficial to the local people. Ensure work is not closing too many roads or train networks.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
143	The creation of 8000 jobs is incredible. Also I have visited universal in Orlando and California and the magic and excitement I get when I go is like nothing else. So to be able to feel that without it costing a small fortune would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.	
153	I have been to Universal Florida and it's amazing and it would be a place where people can come to Bedfordshire and have a wonderful holiday. This would be a great development on a brownfield site which we know would be great for the economy . The site is a perfect given the excellent transport links, major airport a short distance away in Luton. It is very close to London and the international attractions and is perfectly located to be an attraction to tourists staying in the area. We have the midlands and the north in easy access to the resort. Quality jobs will provided for a local workforce for the villages, Bedford , Luton and Milton Keynes.	Would you support a potential park and resort coming to this site? Please explain why.	
176	Having been to Florida, I know how well done your parks are and I think the plans demonstrate how well thought out this is and would work in addition to jobs.	Would you support a potential park and resort coming to this site? Please explain why.	
181	There is nothing on this scale currently in the UK and I think it would be exciting for people who live here, as well as bringing in new visitors to the country. It would create many new jobs and be something for us all to feel proud of.	Would you support a potential park and resort coming to this site? Please explain why.	
190	I worked as Euro-Disney Opening Crew in April 1992. It is amazing how much it has transformed the local area in a fantastic way. New roads, shopping centres, rail networks, interesting jobs. It will do so much for this area in a really positive way.	Would you support a potential park and resort coming to this site? Please explain why.	

203	This amazing project has the scope to completely transform a town I have lived all of my life. From the jobs it will create to the economic growth for Bedford. The UK and Bedford are fortunate to have this opportunity and I really hope it comes to fruition	Would you support a potential park and resort coming to this site? Please explain why.
211	Brilliant opportunity to bring more jobs and money to the local economy, which has fallen in recent years due to the closing of many high street shops.	Would you support a potential park and resort coming to this site? Please explain why.
215	I think it would be good for everybody lots of jobs and somewhere fun for people and their families	Would you support a potential park and resort coming to this site? Please explain why.
228	I believe the jobs and other opportunities is needed for the town and villages around	Would you support a potential park and resort coming to this site? Please explain why.
229	Universal parks provide an amazing experience but many people in the UK are either unable to experience them, or can only go once in their lifetime due to distance and cost. To have a Universal theme park within realistic reach would be amazing for so many people. It would also bring so much money into the UK economy via visitors from other countries and create so many jobs. The positive gains from this project are endless.	Would you support a potential park and resort coming to this site? Please explain why.
230	For the reasons you have given, bringing jobs and educational opportunities to Bedford, improving walking and cycling routes and the road infrastructure. Most of all, putting life back into Bedford. I grew up in Bedford and it really is a wonderful town that has suffered a downturn since the age of online shopping. We have a beautiful Embankment and a great community spirit. The area you have chosen will be greatly enhanced by the creation of a park and resort, whilst caring for the wildlife that shares it.	Would you support a potential park and resort coming to this site? Please explain why.
238	The creation of new jobs is important to me as I have children coming up to working age.	Would you support a potential park and resort coming to this site? Please explain why.
242	A good use of a redundant site and with provide local jobs.	Would you support a potential park and resort coming to this site? Please explain why.
247	It would be great for local community, provide jobs, new businesses and opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
260	As you say, great for the economy, regeneration of Bedford and providing jobs and opportunities for locals. Also will have a positive knock-on effect to surrounding towns and villages. Increased tourism to the UK as a whole. Will bring other businesses along with it. Will stop warehouses and more blocks of flats being developed on the land.	Would you support a potential park and resort coming to this site? Please explain why.
262	Will create fantastic opportunities for local people, businesses, schools, hospitals etc through jobs, local initiatives and incentives, working groups, traffic improvements, wildlife and green space improvements- all will benefit everyone.	Would you support a potential park and resort coming to this site? Please explain why.
263	I worked at XX and witnessed the benefits that it gave to the local community in terms of infrastructure, employment, regeneration and the economy. It put Watford on the map and the area has seen continual significant improvements due to it. I moved from Watford to Bedford in 2022 and can see that the employment prospects are nowhere near as high and the area is in desperate need of regeneration. I would love for this project to impact the community in the same way that Warner Bros did in Watford.	Would you support a potential park and resort coming to this site? Please explain why.
264	Central Bedford has become very run down. Hopefully an attraction nearby would encourage spending in historic Bedford and improve its facilities and infrastructure. Bedford desperately needs regeneration and jobs.	Would you support a potential park and resort coming to this site? Please explain why.
268	I'd be concerned on the infrastructure improvements being sufficient, that the view from Ampthill Park would be compromised and that unwanted tourists would visit Ampthill at a cost to locals with tacky touristy shops being a blight on the high street. However, I am also positive about the provision of jobs and impact on opportunities for local people.	Would you support a potential park and resort coming to this site? Please explain why.
270	Create new jobs, economy improves and businesses improve maybe the town centre can build back up	Would you support a potential park and resort coming to this site? Please explain why.
273	New jobs, increases tourism, increases spending, boosts the economy. I would love to go to Universal in Florida, but the cost of getting there is too high, bring the park here would give the opportunity for people from all over the UK to experience Universal studios without having to spend thousands just to get to the US. The British public love a good theme park, that's why theme parks like Alton Towers, Legoland, are always improving and building new rides.	Would you support a potential park and resort coming to this site? Please explain why.
275	Although the UK has a few smaller theme parks, these are few and far between and nothing on the scale of what a universal resort could offer, currently if we want to do something of this kind we have to travel to the USA for universal or Disney. This would essentially eliminate that need and would boost the local and national economy providing thousands of jobs, just the opportunities it could offer the coming generations of children are immense.	Would you support a potential park and resort coming to this site? Please explain why.

280	Absolutely! I have been lucky enough to visit many theme parks on many occasions including Universal's parks in both Orlando and Osaka and the benefits are clear to see. Local jobs, increased tourism and improvements to the local area are but a few; I can see this being a fantastic asset both to the initial area and to the rest of the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
283	Always good for economy and local infrastructure. We visit Orlando often and the parks and resorts create so much local jobs and bring people to the area. Investment improves areas and gives opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
291	It brings loads of jobs to the local area and it would be great to have a theme park on this scale within reach of where I live.	Would you support a potential park and resort coming to this site? Please explain why.	
292	It would preserve the local parkland, improve surrounding infrastructure and create jobs, and avoid turning it into yet another building development	Would you support a potential park and resort coming to this site? Please explain why.	
310	I think it would be amazing for the people of Bedford as a whole and help to lift the town as recently the town centre has declined somewhat . It will bring lots of people from all over the country, world even, to our town, this will boast the economy here and help to rebuild Bedford following the recent economic crisis. It will generate many jobs and offer exciting new career paths for young and old people alike. It's a great opportunity to put Bedford on the map!	Would you support a potential park and resort coming to this site? Please explain why.	
311	A major source of entertainment that would create a large resource of job opportunities within that field. Long lasting jobs in the entertainment industry currently does not meet the demand of people that train in this field. Something like a Universal park will help tap into that ever-expanding market.	Would you support a potential park and resort coming to this site? Please explain why.	
314	Land is unused and a theme park would bring a lot of investment and jobs to the area and help rejuvenate the town centre.	Would you support a potential park and resort coming to this site? Please explain why.	
316	This would be brilliant for UK tourism as well as providing many jobs for local people.	Would you support a potential park and resort coming to this site? Please explain why.	
319	It creates jobs, more competitive salaries in the area	Would you support a potential park and resort coming to this site? Please explain why.	
329	This would be amazing for the local area. increased jobs, improved facilities, tourism, restaurants etc great potential for working with local organisations- giving YP a voice and learning opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
339	It will add a great value to the surrounding towns. More jobs and businesses will be attracted to the wider area. The area will also be a hot spot for tourism which will bring great benefits	Would you support a potential park and resort coming to this site? Please explain why.	
344	High quality parks bring jobs and training and pride to the local area and help non-London towns feel connected to the wider world.	Would you support a potential park and resort coming to this site? Please explain why.	
347	It will be amazing having a universal park in the UK! Great for jobs and things to do for families and friends	Would you support a potential park and resort coming to this site? Please explain why.	
357	I think the benefits to neighbouring communities would be huge ,in the form of jobs and visitors spending money in our towns.	Would you support a potential park and resort coming to this site? Please explain why.	
365	Industry in the area has collapsed significantly in my lifetime from Vauxhalls and Bedford Trucks in Luton to the Brickworks at Stewartby. None of these have been replaced as large employers and therefore alternative employment opportunities have to be found. Whilst the leisure sector is not my preferred option to replace those jobs it seems to be the only viable alternative.	Would you support a potential park and resort coming to this site? Please explain why.	
374	I like the idea of it due to the creation of jobs and boost to the economy. However 99% of the jobs MUST be offered to local people (ie those who currently live under an hour away without relocating). You cannot say it will boost jobs in the area unless they are offered to locals. This includes senior management roles too.	Would you support a potential park and resort coming to this site? Please explain why.	
378	I think it would be great for the local economy and jobs. And we have great access/road infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.	
380	Adding this to the uk and letting cal area will no doubt help our tourism and create jobs for many people	Would you support a potential park and resort coming to this site? Please explain why.	
383	Massive opportunity for jobs/growth to the area. People who live in the UK and love Universal parks wouldn't need to leave the country Having a Universal park nearby would increase the value of the area. Major improvements to the local infrastructure would also be done at the same time	Would you support a potential park and resort coming to this site? Please explain why.	
391	This park would be a great opportunity for the UK as it would create jobs and fetch in more tourist.	Would you support a potential park and resort coming to this site? Please explain why.	
411	I think it will be a brilliant opportunity to not only enhance the area but to also provide many jobs for people. I myself am a huge fan of universal parks and would love to pursue a career with universal at this park!	Would you support a potential park and resort coming to this site? Please explain why.	

417	Bring prosperity to Bedford. Create jobs. Improve road and rail networks. Revitalise the county	Would you support a potential park and resort coming to this site? Please explain why.
424	Although the UK has many theme parks, they do not have the same feeling as a big park such as universal studios. This would be the biggest and best park in the country and would not only generate jobs in the local area but in the UK as a whole with the amount of people that would visit as a result. Also, the location is great as most people in the UK could get there within 2 hours.	Would you support a potential park and resort coming to this site? Please explain why.
427	Love Universal in Florida and Singapore with the way it supports the environment and local jobs/economy and think it would be great for the area. Can we have a Harry Potter themed area please and a HP hotel? Especially in the UK that would be amazing	Would you support a potential park and resort coming to this site? Please explain why.
428	It would put Bedford on the map and provide jobs for local people	Would you support a potential park and resort coming to this site? Please explain why.
438	New jobs on a brown field site can only be a good thing. A high quality, world class attraction is a positive and and could be the start of a resurgence in Bedford	Would you support a potential park and resort coming to this site? Please explain why.
443	I think a Universal Theme Park resort coming to the UK would be fantastic for many reasons. It would provide many jobs & opportunities for many people, to have a Universal Park in the UK would be a massive tourist magnet and bring positive investment in to the UK. I have been to Universal many times in Orlando and just love the theme Parks, the thought of having a Park and resort in the UK is so exciting and I so hope the project gets the green light.	Would you support a potential park and resort coming to this site? Please explain why.
444	Because we need a world class theme park to bring jobs and great entertainment to the UK public.	Would you support a potential park and resort coming to this site? Please explain why.
452	Bedford used to be a hub of local businesses unfortunately lots of these have moved out of the town or closed down, people have to travel to jobs it would be great to have new job opportunities especially to the next generation	Would you support a potential park and resort coming to this site? Please explain why.
453	Improvements to infrastructure Jobs Fun place to visit Apprenticeship and work experience opportunities for our young people	Would you support a potential park and resort coming to this site? Please explain why.
152	Job opportunities are always welcome, and many people dream of working in a theme park, myself included. It is a bonus to know that i wouldn't have to get on an 8 hour flight just to visit one of your excellent resorts.	Would you support a potential park and resort coming to this site? Please explain why.
172	Job opportunities which can only be good for the local economy	Would you support a potential park and resort coming to this site? Please explain why.
185	We have grandchildren growing up in the area who would benefit from the educational initiatives and job opportunities the development will introduce.	Would you support a potential park and resort coming to this site? Please explain why.
202	It would be wonderful for the Thame Park to go ahead. It will improve the area and create job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
206	it would be great for the area, and the uk in general, plus it will create a lot of job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
213	It would provide a range of job opportunities for those local and it would create a new huge attraction for the country which would see people travelling country and world wide to visit.	Would you support a potential park and resort coming to this site? Please explain why.
257	Mainly job creation and putting Bedford on the map as a destination. Plus I would love to go to Universal in the states but like so many could never afford it. Overall it can only boost local economy I don't see a downside.	Would you support a potential park and resort coming to this site? Please explain why.
267	Amazing opportunity for job creation and investment in the area. Local council has failed to encourage investment and improvement so hopefully projects such as this can instead!	Would you support a potential park and resort coming to this site? Please explain why.
269	The U.K. entertainment resorts space is really lacking in quality and overall experience/standards. The job opportunities will be a great boost to the U.K. and its economy.	Would you support a potential park and resort coming to this site? Please explain why.
279	Concerns over noise are my main worry therefore I'm currently reluctant to give this project my support irrespective of the potential job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
368	It would create so many job opportunities and boost the theme park industry in this country to do such amazing things and give other companies the reason to get into such an amazing industry.	Would you support a potential park and resort coming to this site? Please explain why.
388	It will be the best thing to of happened in the UK for a very long time. It's going to be great for the economy and for local residents with job opportunities and a world renowned theme park offering family holidays and activities for the people of Great Britain and further afield.	Would you support a potential park and resort coming to this site? Please explain why.
442	Jon's, economic benefits, good for the local area generally	Would you support a potential park and resort coming to this site? Please explain why.

448	Yes, with the size of the theme park it would offer thousands of job opportunities in all departments from, admissions, to retail, to ride teams, to maintenance, to cleaning and gardening... there are so many to name and it'll be great and beneficial for the UK to offer this and it'll bring more residents to Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
452	Bedford used to be a hub of local businesses unfortunately lots of these have moved out of the town or closed down, people have to travel to jobs it would be great to have new job opportunities especially to the the next generation	Would you support a potential park and resort coming to this site? Please explain why.
456	The benefit to the economy and the creation of jobs as well as creating a new experience for people in the UK and Europe.	Would you support a potential park and resort coming to this site? Please explain why.
463	Local job opportunities, improvements in the surrounding infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
466	I think the park would transform Bedfordshire, improving job opportunities, tourism and house prices. I think it would be brilliant!	Would you support a potential park and resort coming to this site? Please explain why.
470	It will be a big asset to the area, providing job opportunities, economical benefits and infrastructure development.	Would you support a potential park and resort coming to this site? Please explain why.
473	Will bring a lot of long term jobs to the area. Also jobs at all levels from hotel work to high tech design and support	Would you support a potential park and resort coming to this site? Please explain why.
484	It will be an amazing asset to Bedford, creating new jobs for people and bringing life to Bedford	Would you support a potential park and resort coming to this site? Please explain why.
487	I think it will benefit the local youths through training and job opportunities. It will also be fun	Would you support a potential park and resort coming to this site? Please explain why.
490	Creation of new jobs, investment into local area, knock on effect for local businesses as suppliers, local hotels and guest houses.	Would you support a potential park and resort coming to this site? Please explain why.
497	Gives the UK a year round entertainment opportunity, hopefully the site may feature a lot of internal areas so it is less affected by the local weather. It would help create jobs for the area and beyond.	Would you support a potential park and resort coming to this site? Please explain why.
498	Would definitely benefit the area, create more jobs and would be lovely to be able to visit a theme park locally	Would you support a potential park and resort coming to this site? Please explain why.
503	Apart from wanting to visit the park, the short and long term term jobs and chances for local schools to visit would be great	Would you support a potential park and resort coming to this site? Please explain why.
514	I believe that it would greatly benefit those in the surrounding area with new job opportunities, would greatly improve the infrastructure of public transport, roads and paths, would be financially beneficial to businesses in the area, and would bring a lot more reasons for those to visit the area due to adding a new place to enjoy entertainment.	Would you support a potential park and resort coming to this site? Please explain why.
520	Would benefit the UK financially, increase tourism, create jobs, would be amazing for the UK	Would you support a potential park and resort coming to this site? Please explain why.
524	It would be great for the area, jobs, entertainment, tourists...	Would you support a potential park and resort coming to this site? Please explain why.
4453	On site concrete batching. Youth apprenticeships. Strict delivery access routes. On site parking for contractors. Smaller deliveries combined in an off site facility, transported to site together to reduce impact on local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
528	I am a regular visitor to Universal Studios and Islands of Adventure in Orlando, Florida and have been for 20 years. I know what Universal has to offer and would think it would be an amazing opportunity to have a resort in the UK (even better as it will be within walking distance from me). It will be in a central location with accessible transport links, it will bring traction to local businesses, increase tourism not just for Bedford but for surrounding areas of the UK and it will also provide many exciting job opportunities. I hope you will think about the locals not being the face of the park but also for the planning and development.	Would you support a potential park and resort coming to this site? Please explain why.
530	I think a park in this location would be extremely exciting for the local residents and provide lots of jobs in a challenging economic time as well as boosting business for many as well. As long as everything is well considered and the park doesn't negatively pollute the lives of us in the surrounding areas, there is no reason this would not be a positive thing for everyone in Bedfordshire.	Would you support a potential park and resort coming to this site? Please explain why.

534	I was a home owner previously of both Kempston and Stewartby in he days when Marston Vale was making bricks. If I was still living in Stewartby in one of the old ex brickworks properties, you would still have my blessing. Why, because I have the luxury of being an Engineer and still have an association with the area of the planned development through my work as a manager for Anglian Water...who's job is to train and maintain a highly efficient field team finding hidden leaks on our water supplies. From the very start, the location and its current and proposed transport connectivity made it a very ideal site. The ground/soil type, the generally flat terrain, the myriad of other locations nearby able to support further development that would associate with the parks development...the list goes on, but it all adds to why I think that Comcast has made a good choice to conduct this review. And, in my role with Anglian Water, I am in no doubt that myself and the fantastic team I support, will be involved in assisting those developing the park and beyond with keeping what will be their private water network from leaking :)	Would you support a potential park and resort coming to this site? Please explain why.
541	A big fan of the Orlando resort we visit yearly and it would be amazing to visit a universal park that is more local, in the same country and no need to pay out for expensive long haul flights so we will be able to visit more than once a year! It will also create 1000's of jobs wich is desperately needed and more tourism to the area. I am 10000% in support of this new project and I really hope you give the green light and proceed with it!	Would you support a potential park and resort coming to this site? Please explain why.
545	The UK needs something like this to attract visitors, also job opportunities as you've mentioned is very important. The current theme parks in the UK are not of a great standard, so it's a great opportunity for you and great for families who are not able to travel to your other parks	Would you support a potential park and resort coming to this site? Please explain why.
549	There are no downsides to this development. Rather than another huge area taken up by factories this will open up so many new and exciting job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
560	Once in a lifetime opportunity to create jobs for local people and enhance the attraction of the whole of the UK to international visitors	Would you support a potential park and resort coming to this site? Please explain why.
561	A well planned, realistic and considerate project from an established and experienced brand such as yourself can only be a good thing. From the initial job creation, to the wider impact the added tourism will bring to the area (and country for that matter), adding in the environmental awareness you are showing really should be welcomed and commended. As a theme park fan, an additional park in the UK market is always a nice addition, but one on the scale and quality of your other resorts would be an amazing addition.	Would you support a potential park and resort coming to this site? Please explain why.
576	Bringing jobs, improved infrastructure to the area and putting the the area on the map as one of the top UK destinations	Would you support a potential park and resort coming to this site? Please explain why.
581	The UK needs sometime on this scale and will be a major step in the UK industry and jobs and the economy it's sometime we have been waiting for. For years	Would you support a potential park and resort coming to this site? Please explain why.
582	As an enthusiast I would love for a new park to come to the uk it would bring tourism to the town and jobs to many people	Would you support a potential park and resort coming to this site? Please explain why.
585	Bring so much to the uk economy such as jobs and tourism	Would you support a potential park and resort coming to this site? Please explain why.
586	It would be a HUGE boost to the UK economy bringing in tourists from all over the world and also by providing lots of jobs to UK citizens. It would cause a huge boost to local towns and villages with lots of tourists flocking to the area there would be increased demand for hotels, restaurants, taxis, ubers, Airbnb's. The large amount of jobs the park would create would bring in new people to area so there would be more interest in building housing and infrastructure. It would also cause other companies that operate in the UK entertainment industry to invest more to keep up with this new demand for high quality parks and entertainment. There is no downside I can think of for this project. It does nothing but good for the economy. Massively boosts tourism to the country. Brings competition back to a stagnant industry in the UK. Its a win for everyone.	Would you support a potential park and resort coming to this site? Please explain why.
587	It would create thousands of potential jobs both during its construction phase and once open that would help heavily support the job shortage in the surrounding area of not just Bedfordshire but also Oxfordshire and Cambridgeshire. Along side that it would also be a great entertainment/ day out are for the family that the surrounding areas are currently missing.	Would you support a potential park and resort coming to this site? Please explain why.
593	As long as the inferstructure was in place it would open job opportunities and be a huge potential for entertainment within the community	Would you support a potential park and resort coming to this site? Please explain why.
598	We absolutely love Universal Florida and would love to have one in the UK. It would be a great benefit to the local economy and would create thousands of jobs	Would you support a potential park and resort coming to this site? Please explain why.
604	Great opportunity to create jobs, drive tourism and develop the area	Would you support a potential park and resort coming to this site? Please explain why.

605	We love theme parks so to have a company come in and create a more inclusive and up to date park would be incredibly refreshing! we feel that the UK theme park industry is incredibly stale! we need someone to come in and inject a bit of life! plus all the added bonuses of jobs and training opportunities are just a well needed added bonus!	Would you support a potential park and resort coming to this site? Please explain why.
607	To have a Florida quality theme park in the uk would be outstanding. It would benefit the Bedford area not just in jobs but also hospitality, travel etc. it would also turn an unloved piece of land into a world class park with quality entertainment	Would you support a potential park and resort coming to this site? Please explain why.
608	I'm strongly for having the park for the job opportunities it will bring. I also believe it will elevate Bedford with knock on impacts of more money being spent in the town.	Would you support a potential park and resort coming to this site? Please explain why.
2887	Help small businesses	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
114	8000 jobs created, how will the housing be taken into consideration and working with sme developers	Please share any other feedback you have at this stage.
610	It can only be positive for the local area, creating new jobs and opportunities for our children.	Would you support a potential park and resort coming to this site? Please explain why.
613	I think it's something the UK is missing, it would benefit the local community massively for jobs, and economy growth, it will open better routes around the UK and will be a great place to go.	Would you support a potential park and resort coming to this site? Please explain why.
614	I love universal and the experience you create. I have been travelling to universal Orlando since I was a little girl and I'm now 26 and the excitement and feeling of universal never goes away! Please bring it to the UK it would be best thing to happen here I really believe it would bring in people worldwide and create such an amazing environment and jobs for many people	Would you support a potential park and resort coming to this site? Please explain why.
617	Bedford is desperately needing a regeneration project especially for our young people. We have a high level of young people not in education or training and through this project there is a real opportunity to engage young people, offer them not only job but training opportunities and bring the town back to life. Would love to see investment in youth projects to get those not in work up skilled and into the world of work. More intervention work	Would you support a potential park and resort coming to this site? Please explain why.
621	Great for UK economy, long term job prospects	Would you support a potential park and resort coming to this site? Please explain why.
624	This would be fantastic for the tourism industry and providing job opportunities for thousands of people	Would you support a potential park and resort coming to this site? Please explain why.
626	I think any major investment in an area such as Bedford should be welcomed. The opportunity to create so many jobs for local people and further a field is such a great opportunity for both people looking to start a career ie school leavers, and skilled people looking for new roles. It would help local employment greatly. The opportunity to have a world class entertainment venue such as universal studios is something the uk has been missing for decades. Having it in the uk will mean so much more to the local area and further area in terms of tourism and footfall.	Would you support a potential park and resort coming to this site? Please explain why.
627	Good job opportunities and could bring money to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
634	It will improve local businesses, the transport infrastructure, job prospects, environmental benefits. It will bring a huge well overdue economical boost to Bedford & to UK	Would you support a potential park and resort coming to this site? Please explain why.
639	I 100% support this theme park coming to Bedford. I live 10 minutes drive away from the site and this project would bring so much joy to our area. We need this for our area. Not only creating jobs but to also put Bedford on the map worldwide. I have been to Universal Florida so many times and each time I am blown away by the atmosphere, vibe, enthusiasm and magic it brings and I really hope some of that is brought to Bedford in the near future!	Would you support a potential park and resort coming to this site? Please explain why.
660	Definitely! This would put Milton Keynes on the map on global scale, it would drive values of properties up and create new jobs.	Would you support a potential park and resort coming to this site? Please explain why.
664	Because More economic growth in the area would be great- and more potential jobs in the theme park industry. Please perhaps think about Graphic Design jobs within the UK!	Would you support a potential park and resort coming to this site? Please explain why.
666	Significant opportunity for development, land improvement, job creation and positive environmental impact for land already earmarked for development. Bringing something special to the local area that will be a global destination.	Would you support a potential park and resort coming to this site? Please explain why.
671	All the benefits to the local area and uk vary to new jobs for the local and wider area. Improvements to the road and rail network! The added benefits of a world class theme park being in the uk!	Would you support a potential park and resort coming to this site? Please explain why.

4140	Will also bring other trade brands to the local towns and revitalise them	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4433	Bedford is terrible for traffic at peak times so this will need improving dramatically however it's bringing new foot flow to the area which is great	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4677	Assisting with the regeneration of Bedford town centre	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
147	Hope you will use local people to build the park	Please share any other feedback you have at this stage.	
251	I'm 64 so maybe able to get a job there as live very near	Please share any other feedback you have at this stage.	
288	I am a highly skilled maintenance engineer and would love to be kept updated on when I can be a part of such an Amazon company as yourselves	Please share any other feedback you have at this stage.	
291	Will there be any apprenticeships During and post construction	Please share any other feedback you have at this stage.	
480	All the benefits to the local area and uk vary to new jobs for the local and wider area. Improvements to the road and rail network! The added benefits of a world class theme park being in the uk!	Would you support a potential park and resort coming to this site? Please explain why.	
494	Would regenerate Bedford town centre, good for jobs, students at college could do work experience	Would you support a potential park and resort coming to this site? Please explain why.	
4609	Employment, infrastructure improvements & protection of natural habitats. Would boost local business	Would you support a potential park and resort coming to this site? Please explain why.	
499	The potential for new jobs in the area is fantastic. It's lacked investment and something like this would very welcomed.	Would you support a potential park and resort coming to this site? Please explain why.	
502	Due to the extensive benefits the park can bring to the local area of Bedford, theme park, jobs, increased transport links, more extensively the park would be the biggest in the UK and would provide high quality entertainment for people who are holidaying in the UK due to the cost of travel abroad - making dreams come true	Would you support a potential park and resort coming to this site? Please explain why.	
506	It will be a fantastic opportunity to develop Bedford and Bedfordshire on all the fields and trades. We would only benefit from having such a place at our doorstep. New jobs, entertainment, local infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.	
509	Having visited Universal parks in the US, this has the potential to be transformative for the area, in terms of jobs and the economy and to be a true asset for the UK and for Universal. Please go ahead!!	Would you support a potential park and resort coming to this site? Please explain why.	
510	World class uk universal project would set a higher standard for UK themed entertainment and encourage completion in a current stagnant uk park industry dominated by 1 player with little incentive to innovate or offer quality service. Jobs and economic support for the area are also much needed.	Would you support a potential park and resort coming to this site? Please explain why.	
514	I would support so we can improve the quality of life around this area in Buckinghamshire, Bedfordshire as well having more jobs opportunities, etc	Would you support a potential park and resort coming to this site? Please explain why.	
518	It would be amazing for the locally economy and really help young people with finding jobs. Not to mention the heritage we have in making films etc in the area this theme park will be the best thing to happen to the UK, not just Bedford and and the surrounding areas. You need to 100% build this. Also, many people can't afford to travel to the US so having the theme park here will give all the chance to experience Universal Studios.	Would you support a potential park and resort coming to this site? Please explain why.	
526	I think it would be a great addition the the local area and a great opportunity for boosting job opportunities too.	Would you support a potential park and resort coming to this site? Please explain why.	
527	I love Universal and have visited sites in Florida and Singapore. I commend the way you do business and your core values. Building a park in Bedford would do so much, in so many ways for local people. Jobs of course and improved infrastructure and also the knock on effect to local businesses and suppliers etc. Bedford needs some love.	Would you support a potential park and resort coming to this site? Please explain why.	
529	Brings great tourism and also an internationally recognised brand - great for jobs for now and the future	Would you support a potential park and resort coming to this site? Please explain why.	

530	Good for the local economy with regards to jobs and work and good for the UK providing another reason to travel here	Would you support a potential park and resort coming to this site? Please explain why.
535	infrastructure improvements will only bring more business and opportunity's to the area and surrounding on top of the 8000 new jobs this project will bring. I support this in any new opportunity	Would you support a potential park and resort coming to this site? Please explain why.
537	I have always been a HUGE fan of Universal Parks and it would be an amazing addition to the UK, especially for those who don't have the money to visit the other locations.. It will also bring in a lot of interest and excitement within the UK and countries nearby. I also believe this would help with a massive amount of job availability and benefits.	Would you support a potential park and resort coming to this site? Please explain why.
538	A general uplift to the area would be great, the creation of new jobs and opportunities would be more than welcome.	Would you support a potential park and resort coming to this site? Please explain why.
540	As long as the infrastructure is right, then I can't see the negatives in this. It can only be a positive thing for Bedford and the surrounding areas, which often get overlooked in favour of bigger cities eg Milton Meynes, London, Cambridge. It would put us on the map and bring much needed tourism and footfall to our town centre which is desperately needed. The majority of people in Bedford I think feel the same. I am also conscious of jobs for my children (currently 7 and 10) and having such a big potential employer nearby can only be a good thing for their job prospects in the future.	Would you support a potential park and resort coming to this site? Please explain why.
542	Lots more needed jobs in the area, more tourism and more places for families to visit in the borough and put Bedford on the Map!	Would you support a potential park and resort coming to this site? Please explain why.
549	It would be very beneficial to the economy to create so many jobs with a major company. There would be so many opportunities for work in many areas such as performers, administration, construction, management, food service, cleaners, maintenance, public relationsâ€”basically all sectors of work! I would assume that working for a huge company like Universal would have excellent benefits and be a very good job.	Would you support a potential park and resort coming to this site? Please explain why.
555	This is a great opportunity for the community with job opportunities in the area. It would also be amazing to have this attraction so close, Florida is so far away. It would bring more people to visit the area and hopefully support local businesses	Would you support a potential park and resort coming to this site? Please explain why.
560	Would bring some more fun to the uk and help with job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
561	I feel currently Bedford is in a state of stagnation due to a lack of scope for jobs and further education. When I ask my friends if they plan on staying in Bedford they all unanimously say no and I understand why. I feel a project like this could breathe new life into Bedford as a whole, reinvigorating the newer generation while also supporting local businesses.	Would you support a potential park and resort coming to this site? Please explain why.
567	There would be high demand given the central location and lack of other theme parks nearby. It would bring life, money and jobs to a relatively deprived area of the country with quite high unemployment. There's nothing like this in the UK and it would be really cool to have a universal park and bring tourists to area both from elsewhere in the UK and abroad.	Would you support a potential park and resort coming to this site? Please explain why.
573	The UK needs something large in this area which would bring tourism, create jobs and be a great resort for locals and overseas visitors to attend	Would you support a potential park and resort coming to this site? Please explain why.
577	I think it's amazing for Bedford to be given this opportunity. As a family we would definitely visit the new park. It would save us hours of travel.	Would you support a potential park and resort coming to this site? Please explain why.
582	We need more well paid jobs in this area and not just london	Would you support a potential park and resort coming to this site? Please explain why.
586	bring more jobs helping tourism is a plus	Would you support a potential park and resort coming to this site? Please explain why.
589	Jobs in Bedford, revitalising the town as most shops have moved to the outlet parks and if you doesn'tdrive it is difficult to get to. Will lift the towns spirits as will be a positive boost to our town. Helping people to find out more about the history of our town.	Would you support a potential park and resort coming to this site? Please explain why.
591	New life in a dull area, jobs for the young with great training opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
599	I think it would be massively beneficial to the area, not just instead of the alternatives but for the additional jobs, opportunities, infrastructure, activities and places to go for families, driving local economy and providing restaurants and other shops outside of the ticketed areas. I also think that if done correctly could positively effect the wildlife and aesthetics of the area.	Would you support a potential park and resort coming to this site? Please explain why.
610	My grandad come to Bedford from Bangladesh in there 70s and his first job was at London Brick which on this same site. To see this demolished was upsetting but for unversial studios as a replacement couldn't be much happier. I'd say 50% of Bedfordians had something to do with London Brick.	Would you support a potential park and resort coming to this site? Please explain why.

609	Great for employment and economy. Would be a great tourist attraction for the UK	Would you support a potential park and resort coming to this site? Please explain why.
615	Job creation, benefits to the local economy, an interesting and attractive activity project in this area outside London, but within easy reach from Europe (Luton airport) and well connected by train and motorway.	Would you support a potential park and resort coming to this site? Please explain why.
620	it would be amazing for the local area and the UK as a whole. We have nothing like this and I think the support would be exceptional. It would be great for us in terms of jobs but also a safe place to bring our children. I can see it becoming a real community hub and transforming bedford/giving the teens and children something to do.	Would you support a potential park and resort coming to this site? Please explain why.
621	Great place to spend free time on weekends with friends and families. Creating a thousands of jobs will be a fantastic opportunity for a lot of people!	Would you support a potential park and resort coming to this site? Please explain why.
622	As you have rightly said it increases job opportunities and allows local people as well as the wider field to gain employment with a major company and also have the opportunity to only work for you in the UK but the possibility of transferring to other sites around the world	Would you support a potential park and resort coming to this site? Please explain why.
632	As you have said above more jobs. Good for the UK and local economy	Would you support a potential park and resort coming to this site? Please explain why.
635	I think this is an amazing opportunity for the local area in terms of job and infrastructure and wonderful to have the opportunity to be able to access a park like this on our doorstep	Would you support a potential park and resort coming to this site? Please explain why.
637	It would bring much needed entertainment to the area along with jobs and opportunities, including visitors who may stay locally and spend in the area.	Would you support a potential park and resort coming to this site? Please explain why.
638	I love Universal Parks, I visit Orlando as much as I can. I would love to have an option to visit even more often. I'd be sure to go to Orlando for the sunshine though! The creation of jobs and investment in the local area are an amazing opportunity for the local area.	Would you support a potential park and resort coming to this site? Please explain why.
639	The UK as a whole deserves a theme park destination of the high quality only Universal provides. Having visited both parks in Florida and the park in California, they all outshine every park in England. I believe it will create countless jobs and encourage other UK theme parks to raise their standards if they wish to compete.	Would you support a potential park and resort coming to this site? Please explain why.
644	The majority of jobs being created will be low-skilled, part-time or seasonal work. This isn't sustainable for the future growth of the area. What we really need is highly-skilled technical and professional jobs - precision engineering, IT, fintech, financial services, electronics, legal services. Kids should have more to aspire to than service burgers and fries 7 days a week.	Would you support a potential park and resort coming to this site? Please explain why.
652	It great for young generate for job	Would you support a potential park and resort coming to this site? Please explain why.
656	I would be in full support of universal creating a new park at this site because from visiting the parks in Orlando what would be completed i know would be of a high standard and quality. The current U.K theme park industry is dominated by Merlin entertainment so this would create healthy competition from another worldwide theme park heavyweight as currently without such competition there is never any visible improvements to their parks in the UK as there are not many other options. Also themed events such as the world famous Halloween Horror Nights at Universal would do tremendously well as in recent years the horror night offerings have been lacklustre. The Local area would benefit from the tourism that would also be bought in, allowing more investment. Job opportunities would also be greatly appreciated in the UK as the types of jobs that would be offered aren't always ones that you can come by in the UK, when looking at job opportunities such as in Orlando as an international you don't always meet the experience requirement. Bedford and the local area has something missing and has for a while, In terms of entertainment there isn't really much offered.	Would you support a potential park and resort coming to this site? Please explain why.
658	The sheer amount of jobs, tourists, income and more that would benefit from this is incredible. In the uk we have a proud heritage and this should be celebrated. Many tourists come to the UK to visit major cities, the Universal project will help expand the areas tourists (overseas and British alike) visit. This project would put the UK on the map, not just for this project but for its already thriving theme park industry.	Would you support a potential park and resort coming to this site? Please explain why.
667	First and foremost I love theme parks and it would be amazing to have a Universal park in the UK. Secondly it would be of great benefit to the local economy supporting lots of businesses and creating thousands of jobs.	Would you support a potential park and resort coming to this site? Please explain why.

670	The site is ideally placed for connection across the UK, and wider. And the alternative is a continued open, yet unused space that turns (at best) into an industrial park of some sort as someone else makes use of the connectivity the site can bring. It's a long term improvement for the area with jobs in both creation and running of the site.	Would you support a potential park and resort coming to this site? Please explain why.
672	I love Universal and all it has to offer after visiting Orlando in 2022. The chance to have a themepark of that calibre in the UK appeals massively and i will be visiting multiple times a year, i live about 2 and a half hours away and so a good distance. Bedford will really appreciate the economic boost and also jobs created. Also, overall visiting numbers for the area and country from people all across Europe would boost the UK economy too.	Would you support a potential park and resort coming to this site? Please explain why.
679	As well as improving the entertainment offering in an underserved part of the country, it would bring an under used site back into use, create jobs and if done correctly improve the look of the area.	Would you support a potential park and resort coming to this site? Please explain why.
681	It has the potential to be the best theme park in Europe, creates a lot of jobs and make a lot of people happy with visits to escape the day to day grind of life.	Would you support a potential park and resort coming to this site? Please explain why.
688	I think it will breath new life into the town bringing in investment and creating new jobs that the local area desperately needs. I think it will help keep talent within Bedford as they will want to work with or for the park. Also I hope the park will make good links with local school and universities. By being one of the main employers in the town creating thousands of jobs for the future generation and also older workers, looking for a fresh start.	Would you support a potential park and resort coming to this site? Please explain why.
690	I will support many reasons There's many new developments coming up in the area, it would help the population with jobs, kids will have fun ,public transport and the rest	Would you support a potential park and resort coming to this site? Please explain why.
692	8000 new jobs in the town is going to improve the town enormously. Also, politicians are dragging their feet over east west rail and the company delivering it are not doing it well. Have universal here will pushing for it will see it delivered properly.	Would you support a potential park and resort coming to this site? Please explain why.
696	It will help boost the community of Bedford and make more job opportunities for the community and the country as a whole. It will also boost tourism to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
697	I accept this would create jobs which would be positive but it would also dramatically change the area & the environment t around it. Bedford is a traditional English market town & I feel that the proximity of this development & its associated infrastructure would destroy it forever. I have lived in Bedford for 50 years and in Bedfordshire for the whole of my life & do not want to see such a development in tthe area I love & which is visited many people from across the world for its charm & history.	Would you support a potential park and resort coming to this site? Please explain why.
698	It seems like a great opportunity for those who live in Bedford. It would enhance job availability and it would increase footfall to the area, helping local businesses	Would you support a potential park and resort coming to this site? Please explain why.
702	Create jobs, improve local economy, improve local infrastructure, support local businesses and charities. Whilst maintaining the natural countryside.	Would you support a potential park and resort coming to this site? Please explain why.
720	Jobs are difficult to get around the area so this would play a massive role in improving employment rates and the economy	Would you support a potential park and resort coming to this site? Please explain why.
732	Greater tourism, more money to the area. More jobs and a great location. I believe the theme park will being in more surrounding business to the area that will help the town thrive.	Would you support a potential park and resort coming to this site? Please explain why.
735	Redeveloping a brownfield site and creating new jobs and infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
736	Absolutely! Massive fan of Universal Parks. I would also absolutely be looking to apply for a job aswell as visiting the park! It would be amazing to have a Universal Park in the UK!	Would you support a potential park and resort coming to this site? Please explain why.
738	This is a great project to be in a Bedford generating a lot of business opportunities and jobs in UK.	Would you support a potential park and resort coming to this site? Please explain why.
741	Visited other universal parks and would love for one to come to the UK. Opportunity for thousands of new jobs	Would you support a potential park and resort coming to this site? Please explain why.
743	It is a good project which can improve local businesses and creat jobs , also it can be a chance to let global ppl come and know more about English culture.	Would you support a potential park and resort coming to this site? Please explain why.
746	Job Local economy Brilliant asset to our town Increase in house values	Would you support a potential park and resort coming to this site? Please explain why.
752	It would help to regenerate Bedford by creating jobs & benefiting the local economy	Would you support a potential park and resort coming to this site? Please explain why.
756	The creation of jobs and improving the community as long as you pay UK taxes unlike Amazon	Would you support a potential park and resort coming to this site? Please explain why.
758	Potential thousands of new jobs, making use of an area the would otherwise lie in waste.	Would you support a potential park and resort coming to this site? Please explain why.

764	The park would create a large number of jobs and also increase tourism within the uk	Would you support a potential park and resort coming to this site? Please explain why.
765	I'd love to be a visitor. I like Bedford but would be great to have more reason to visit. I'm also interested in a job in content design or experience design with Universal.	Would you support a potential park and resort coming to this site? Please explain why.
770	You are excited to work with the local community without forgetting it's heritage. You will support our UK economy while upgrading the local infrastructure. Working with local schools and colleges your are supporting students with graduate opportunities. Not only creating jobs, but careers. You are also concerned about local wildlife, which is important to the sustainability of our country.	Would you support a potential park and resort coming to this site? Please explain why.
784	It makes sense on every level. Bedford has been overlooked and the butt of jokes. It is a beautiful town and Universal has already helped change perceptions. The jobs creation and knock on impact for retail and hospitality will be a game changer for the town.	Would you support a potential park and resort coming to this site? Please explain why.
789	Increased job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
791	Bedford and central Bedfordshire has abundance of warehousing and housing many comments out of these areas with skilled jobs to MK Cambridge London and Stevenage . These skills need to be kept in the area and reduce travel. The area needs a new focus and a focus for young people to be proud of, Bedford town is lacking ooor and women feel unsafe at night. Universal would give a place to feel safe meet friends have fun without travelling miles away. Universal will put Bedford and Bedfordshire on the map a county many only know as they travel through or connection to the sadness of Luton. This is an opportunity to bring greatness and opportunity to an area that heeded it. International visitors can also visit some of the other great things the rea has to offer environmental Beauty, history's and heritage. Those that stay at universal have London on the doorstep for days when they want something else. Housing and communities will improve. One worry I have is the affect on the utilities and how will we cope with the increased waste of foul and materials will this be used to create energy on the site Also electricity the area capacity is at stretch and already planning application for large development struggle to explain how the energy capacity will be support more housing with such a large development as universal how will this be achieved, will you generate own power I'm curious this is the only problem that concerns me	Would you support a potential park and resort coming to this site? Please explain why.
792	Interest in potential jobs	Would you support a potential park and resort coming to this site? Please explain why.
794	Jobs, resort to visit and take friends and family too. Making Bedford a better place to live, work and visit.	Would you support a potential park and resort coming to this site? Please explain why.
804	Creating Universal Park in UK would grow its economy, develop tourism even more, create so many jobs and make many families happy	Would you support a potential park and resort coming to this site? Please explain why.
809	I think it will be fantastic for the local economy with the jobs created as well as domestic and potentially foreign tourism, the infrastructure improvements will be great and bolster the case for the east-west rail project and it will put Bedford on the map, potentially bringing other investment into the town.	Would you support a potential park and resort coming to this site? Please explain why.
818	Economic, social and environmental benefits, in particular job and training opportunities for local people	Would you support a potential park and resort coming to this site? Please explain why.
823	As a theme park and movie fan I would be very excited to follow the construction and visit. I would also look into a job as a young person looking for experience	Would you support a potential park and resort coming to this site? Please explain why.
825	We are big fans of universal and feel that this is a big opportunity for the area, creating jobs also	Would you support a potential park and resort coming to this site? Please explain why.
829	Good for the area, job opportunities & hopefully improved infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
839	It would be so beneficial for the people and town of Bedford as it will create so many jobs for people who are struggling to find work, will create better environments better trains and better walkways. It will also bring investment and tourism which will make Bedford well known to people.i cannot stress how much I think this will be beneficial for Bedford and Bedfordshire itself.	Would you support a potential park and resort coming to this site? Please explain why.
843	Universal has amazing destinations around the world with outstanding infrastructure around their parks and well looking nature, it would be a big plus for this area, and even creating more and new jobs for our locals	Would you support a potential park and resort coming to this site? Please explain why.
844	It will be fantastic for the local economy and travel infrastructure with plenty of job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
846	I think we need a big them park like universal It would be good so more job opportunities	Would you support a potential park and resort coming to this site? Please explain why.

849	I think this can bring an incredible amount of opportunity to Bedford with regards to jobs, apprenticeships and investment in the local town. The main issue is whether that investment actually takes place and the infrastructure to support such a large park is addressed. The traffic around this area is already extremely busy to the point where it can take 20 minutes for me to get out of my estate and now I will potentially be 5 minutes away from a Universal Studios. Year on Year Bedford Council has shown a disregard for infrastructure, we consistently see in local plans, the designs for housing development but no appropriate infrastructure plan to support this development. There is also very little information by way of noise pollution. The surrounding areas for this park is residential with schools and young families. These houses will then need to endure a sudden circa 8,000 people commute for employment and (on the lower end) circa 23k visitors per day. This will bring a lot of people to Bedford however, where are the employees going to live, the housing, the schools etc and moreover how will all the visitors get there? There seems to be an assumption and reports from Universal Studios that 35% to 40% of the attendees will travel by train, but I do not think this is realistic. The cost of train travel in the UK is extremely expensive and in more recent times, unreliable with train strikes happening more frequently and with less and less notice. I think more people will opt to drive than initially thought and this needs to be considered with regards to traffic and parking.	Would you support a potential park and resort coming to this site? Please explain why.
856	Quality Jobs for young people and others in service sector - the park will be a major employer for miles around	Would you support a potential park and resort coming to this site? Please explain why.
860	The park would be a hub for tourism and provide countless job opportunities, as well as social and economic benefits for the UK. From Universal's side it allows them to enter into the European market, providing an attainable location for all of Europe to travel to and experience the Universal parks. This benefits the UK as all of the visitors from Europe and the wider globe will be flying into England and spending their money in our economy. As long as the park considers the local people and does not bulldoze through communities and wildlife then there are no losers for a universal park in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
863	Infrastructure, jobs, halo effect for local business. Bedford's reputation.	Would you support a potential park and resort coming to this site? Please explain why.
866	It would be amazing to have this nearby - it would create jobs, raise house prices and assist the local infrastructure. I do not see any negatives.	Would you support a potential park and resort coming to this site? Please explain why.
871	Supporting the local areas with their small business with the footfall given from your park and creating 8000 new jobs is greatly needed. Also I personally loved the Florida Universal Studios and would like to have a park closer to home, without travelling by airplane.	Would you support a potential park and resort coming to this site? Please explain why.
891	To bring much needed jobs and economy boost to the UK, encouraging tourism. Universal is a fantastic company and perfectly suited to developing this project within the UK	Would you support a potential park and resort coming to this site? Please explain why.
893	It would be great to see this project come to life. Giving UK residents a chance to experience a high end theme park would be a major boost to the UK and also allow for a boost to the economy with foreign travel as well. Bedford is an area that needs major investment and it would help the local job situation. I fully welcome this project.	Would you support a potential park and resort coming to this site? Please explain why.
893	A major theme park investment in the UK in general with boost tourism, provide jobs for creatives looking to enter another line or new line of work and really put the UK on the map as a serious global player in industry, tourism and the creative arts.	Would you support a potential park and resort coming to this site? Please explain why.
900	A project of national and even global significance coming to Bedford would be transformative for the area's stature, attracting tourism and further commercial investment. The infrastructure improvements, if implemented well, would provide a significant transportation and environmental benefit to residents, particularly if additional bus services could reduce the vehicular traffic in the area. And new full time jobs will provide opportunities for local residents.	Would you support a potential park and resort coming to this site? Please explain why.
901	My kids are the perfect age, whilst they are both still at school the job opportunities that you could offer could determine their future learning / subject options.	Would you support a potential park and resort coming to this site? Please explain why.
907	I think the old brickworks site risks becoming another warehouse distribution site. It is a barren and uninteresting piece of landscape. I would welcome something exciting like a theme park - it would inject some life into the community, provide much-needed jobs - especially for young people - but most of all I am impressed by the way you landscape your theme parks. I think it could actually be quite beautiful! With plans for better walkways and public transport links - I think it would be extremely positive for the area.	Would you support a potential park and resort coming to this site? Please explain why.
913	I think the area could do with the boost to jobs and tourism as well as benefitting from better public transport links generally	Would you support a potential park and resort coming to this site? Please explain why.

915	It would be great for Bedfordshire, local job opportunities and something exciting on our doorstep, love it!!!	Would you support a potential park and resort coming to this site? Please explain why.
917	I'm really invested in this project. I first heard about you via Theme Park Wideworld. I've lived in Milton Keynes all my life and saw this and was like wow. I feel that you have been really considerate in regards to your approach to the project and the impact it will have. There hasn't been anything rushed, but really well thought out. This could really support Bedford and the surrounding areas in the best way with so many opportunities that could come with it. It is a great location (I do know it well) and I generally believe would be a welcome addition. The fact that you have taken so much time to speak to people face to face and allow people to interact directly is amazing and I think will go well. The fact that this could not only provide jobs and opportunities short term, but the long term gain could be even more greater. I'm here for it and would love to get involved and show support anyway I can.	Would you support a potential park and resort coming to this site? Please explain why.
921	It's brownfield land that needs developing, will receive upgraded transportation, will provide massive job boost.	Would you support a potential park and resort coming to this site? Please explain why.
927	if you're investing in supporting local business and improving local infrastructure, as well as having major consideration for the local wildlife, i'm all for it. bedfordshire really needs these jobs (myself included)	Would you support a potential park and resort coming to this site? Please explain why.
934	This would not only benefit us as a town with entertainment, it would also bring a lot of employment to an area that used to bring a lot of employment. It would be great for college/uni students for a summer job, apprenticeships and full time jobs. It would give a positive name to a town people don't know about. Oh wheres Bedford?" "Erm	Would you support a potential park and resort coming to this site? Please explain why.
937	The UK is degenerating. Transport links are getting worse, exciting new projects are always canned due to the concern of some random local residents who are in the minority. It would be huge for the whole country, not just the theme park industry, if an exciting new job-creating infrastructure-improving project actually went forward, and would hopefully set a precedent for the future.	Would you support a potential park and resort coming to this site? Please explain why.
940	It will be fantastic not only to the local community, but the whole UK and Europe! I believe anything that has a positive impact on local/country economy and the addition of thousands of jobs is a positive step. Not only that, Universal is a huge, successful company and provides job security in the thousands and will thrive local businesses within the area or near by. It's a huge positive impact!	Would you support a potential park and resort coming to this site? Please explain why.
943	Anything that is good for jobs in the UK is a big plus point. On top of that you look really committed to supporting the community and providing a world class experience that the UK is missing.	Would you support a potential park and resort coming to this site? Please explain why.
946	Creates jobs, training and qualifications for people, can reduce flying to other country's to visit resorts, improve uk economy	Would you support a potential park and resort coming to this site? Please explain why.
955	Fantastic investment into the country which will help the economy, provide jobs and a lot of fun entertainment	Would you support a potential park and resort coming to this site? Please explain why.
960	Having grown up visiting many theme parks in the uk and elsewhere it would be amazing to have this so close to us. We have 3 children and having this so close would be great for them growing up. It would also be great for the volume of jobs it would bring to the area.	Would you support a potential park and resort coming to this site? Please explain why.
966	As someone who has done numerous trips over to Orlando, I know just how good the Universal brand is at first hand. Having a theme park of the highest quality in the UK is something many thousands of us Brits have dreamed of. Not only that, but the chance to create new jobs, in both a construction phase, and after the park potentially opens. I'm also glad to hear that this wasteland is not going to get more housing developments. We need more theme parks, not expensive houses that nobody can afford!	Would you support a potential park and resort coming to this site? Please explain why.
969	I'm a big theme park enthusiast & love Universal parks so having our own Universal park in the UK would be amazing! It'll be great for the UK economy, so many job opportunities & will allow so many more people, who perhaps cannot travel to the other Universal parks, to be able to experience all it has to offer closer to home.	Would you support a potential park and resort coming to this site? Please explain why.
979	You summarised it perfectly during initial consultation. When I take the train into London during my daily commute, there isn't much by way people travelling back the other way from London to Bedford. Having a Universal Park & Resort will change that completely. It will create jobs, infrastructure, even more tourism, new road, rail and cycle infrastructure to the local area. It will be a win / win for both Universal, the local community and wider geographical areas throughout the U.K. and mainland Europe. I cannot think of a negative personally and I'd love for Universal to proceed with proposed plans.	Would you support a potential park and resort coming to this site? Please explain why.
982	This is something the UK desperately needs. The universal studios resort in Orlando is fantastic, as is the other sites, however not everyone can get over to florida so having our own US UK park would be amazing, bringing so many new opportunities for people across the country to visit, stay and enjoy. not to mention the thousands of jobs created	Would you support a potential park and resort coming to this site? Please explain why.

984	Would absolutely support the site coming to bedford it would bring so much opportunity and life to the area, be great for businesses, jobs, entertainment. Please go ahead everyone in the area is very excited for this project to go ahead!	Would you support a potential park and resort coming to this site? Please explain why.
987	It would be an amazing addition to the UK theme park industry, create competition for our other theme parks , create jobs and be a great use for the site rather than warehousing e.t.c.	Would you support a potential park and resort coming to this site? Please explain why.
995	The thought of a major resort/theme park like universal would put the uk on the map as a huge tourist attraction. The boost in jobs and opportunities it would create is like nothing we have. With a young children that are interested in engineering and emtertainments, this would present major potential for them at a time when they are looking at career paths. If this opportunity was there for me I would have jumped at the chance.	Would you support a potential park and resort coming to this site? Please explain why.
1001	A Universal Park would not only be a fantastic experience but would create jobs, upgrade infrastructure, provide huge optimism to the region, and the country as a whole. The benefits to the local community would be huge.	Would you support a potential park and resort coming to this site? Please explain why.
1009	I believe a major brand in the theme park and entertainment industry would have a great positive impact on the economy and create thousands of jobs in the local area. The uk has a great history and economy and it's about time a major player in the theme park industry enters the uk/european market	Would you support a potential park and resort coming to this site? Please explain why.
1010	Amazing job opportunities! Amazing company to work for and gives the Uk an exciting tourist attraction.	Would you support a potential park and resort coming to this site? Please explain why.
1013	I love themeparks, but the major ones in the UK such as alton towers and thorpe park often lack the quality, scale and effort put in by groups such as universal and disney, so to have a universal park here in the UK that would be accessible for most british residents would be amazing. Not only for the thrill and excitement but as well as looking to improve the UK economy and tourism sector, increase job opportunities and as well since this project already seems to really have the environment and local community in mind, there would be absolutely no reason to object.	Would you support a potential park and resort coming to this site? Please explain why.
1014	I think the UK is a great country and I think universal would help us grow not only just in theme parks, but in the whole industry as a European leader, be great for tourism great for jobs. Great for training courses colleges great for the environment. Great for the road net work just amazing. We love universal studios I've been to Orlando many times I love it	Would you support a potential park and resort coming to this site? Please explain why.
1018	Great for the UK economy and theme park industry. The UK needs a world class theme park and experiences. The creation of jobs and infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
1026	Creation of jobs Increased tourism	Would you support a potential park and resort coming to this site? Please explain why.
1027	I'm not from Bedford, but I feel like this is such a huge project that could have a huge effect on the whole UK economy. I would potentially move to find a job in this sector as it's always going to show growth year or year and the security that would bring to me and my family would be something different in this day and age. The UK needs to invest in this as it provides growth for the UK, flights in and out of local airports as far as Birmingham being just 1 hour and 30mins away. You will come up against locals complaining about noise and traffic but the site used to bricks which brought even more issues with it that damaged the environment and filled up the roads.	Would you support a potential park and resort coming to this site? Please explain why.
1030	Jobs and tourism, plus having a universal park so close to home'	Would you support a potential park and resort coming to this site? Please explain why.
1034	It would help rejuvenation the area and create much needed jobs not only within the local area but all over the UK. It would improve the infrastructure around the area.	Would you support a potential park and resort coming to this site? Please explain why.
1035	It would create jobs and raise the profile of the area. I'm glad you are taking environmental concerns seriously too. I would visit on a regular basis and would be an exciting addition to the area.	Would you support a potential park and resort coming to this site? Please explain why.
1037	Tourism, financial support for local area, small business', many jobs will be created !	Would you support a potential park and resort coming to this site? Please explain why.
1038	A Universal resort could offer both the economic benefits through jobs, but as a person who is interested in theme parks, it would be a very positive construction for me and other people with similar interests, as well as people who enjoy these experiences on top of that.	Would you support a potential park and resort coming to this site? Please explain why.
1040	opportunities for local businesses to take part in building the park and great job opportunities for the future. exciting for the local area and will bring in money to local businesses/restaurants/shops/hotels.	Would you support a potential park and resort coming to this site? Please explain why.
1041	I would love to visit and I think that this park could create many benefits to not only the local community in Bedford but the uk on a whole new jobs are created millions of tourists will visit and other opportunities could be made that will benefit the uk on a whole	Would you support a potential park and resort coming to this site? Please explain why.

1052	It will bring jobs to the area, it will be an economic benefit and finally somewhere i can take my children to that doesn't involve going to london!	Would you support a potential park and resort coming to this site? Please explain why.
1053	This would create so many jobs for people and offer the UK with a great attraction	Would you support a potential park and resort coming to this site? Please explain why.
1055	The job and training opportunities and community benefits for local people are exceptional. Though Bedford is close to London, there have historically been a lack of local opportunities for school leavers, this is a superb opportunity. It would also be very cool to have a Harry Potter "land" down the road from my house!	Would you support a potential park and resort coming to this site? Please explain why.
1057	Creation of jobs and opportunities for the area, improvements to local infrastructure, benefits to local businesses	Would you support a potential park and resort coming to this site? Please explain why.
1060	I live and work in Scotland, therefore Bedford is quite a distance for me, however as a regular universal visitor, I think it would be amazing to have a universal park in the UK which me and my family and friends could visit when we aren't able to visit one of your other parks around the world, not to mention the benefits for the local area, businesses and jobs. It would be within easy reach of some large surrounding cities and would make it easy to visit and plan a trip if in the area.	Would you support a potential park and resort coming to this site? Please explain why.
1065	Improve tourism and job opportunities for the UK	Would you support a potential park and resort coming to this site? Please explain why.
1070	I live 40 mins away. Lived in before till I was 19... as I said before Stewartby was a big part of keeping towns folk employed. So having a place providing so many jobs is needed and you will get the staff.	Would you support a potential park and resort coming to this site? Please explain why.
1074	The job opportunities for my children in an industry that they love. Also, having a Universal park on our doorstep would be fantastic. We've visited both Orlando and Hollywood several times and absolutely love them. To be able to pop in for a few hours on a weekend would be a huge bonus!	Would you support a potential park and resort coming to this site? Please explain why.
1085	I have visited the universal parks in Hollywood and Florida and have always believed that they would be a brilliant addition to the U.K. as the rides are very different from those already in England (something I missed greatly after visiting Florida and Hollywood Universal parks), the theming across the parks is above and beyond anything we have here, plus there is a much better family feel and more family attractions available for a variety of ages unlike other theme parks. It would be fantastic to have something so immersive to create incredible memories with our children, without having to save thousands of pounds for the holiday (and we'd definitely be seasonal pass holders for the U.K. site!). Aside from personal use, this park would bring about many jobs that are needed in the U.K., and would help to develop interest and education for children on what an imagination can achieve while driving up tourism and interest in our local areas.	Would you support a potential park and resort coming to this site? Please explain why.
1087	Great opportunity to create jobs in the UK. Having been to Universal in Florida and California the UK also needs a resort of this caliber.	Would you support a potential park and resort coming to this site? Please explain why.
1096	New job opportunities, improving the local area, people who can't go abroad will be able to experience universal	Would you support a potential park and resort coming to this site? Please explain why.
1097	This project would be a huge boost to both Bedford and the UK as a whole. The jobs created would be fantastic, and I was really pleased to hear in the presentation about how passionate Universal are regarding creating careers for staff, not just jobs. Having a huge theme park in the UK would be amazing, it's something we're severely lacking in at the moment, and I think it would serve as a booster to our current set of theme parks, so everyone would win.	Would you support a potential park and resort coming to this site? Please explain why.
1102	I think this would be great for the UK, it would create many job opportunities and bring a lot more money into this country through tourism. As a family of 5 we would financially struggle to visit one of the other universal parks anywhere else in the world so this would give people from the UK and Europe the chance to experience a theme park and resort to the scale of universal. I am very excited about this potential project.	Would you support a potential park and resort coming to this site? Please explain why.
1106	The new job opportunities will be amazing but also the UK is long overdue a park from bigger companies like yourselves, it will also bring in tourists which will boost the local and national economy and put Bedford on the map more.	Would you support a potential park and resort coming to this site? Please explain why.
1107	The job opportunities and the excitement of universal park in the uk	Would you support a potential park and resort coming to this site? Please explain why.
1110	I think it's the perfect location with improvements to the local transport network. Along with creating many new jobs and having a positive impact on the local area, this positive impact will extend much further around the country prompting existing theme parks and attractions to invest further creating a friendly competition and in turn more jobs and benefits the local economy around them.	Would you support a potential park and resort coming to this site? Please explain why.

1113	As someone who has never been to a universal resort before, this would open up opportunities for people to go. Also creating jobs and would benefit the economy	Would you support a potential park and resort coming to this site? Please explain why.
1115	This would be a great opportunity for Bedford and the United Kingdom, with a commitment to Jobs and tourism to the UK for years to come, both areas the UK would need.	Would you support a potential park and resort coming to this site? Please explain why.
1121	This would be incredible for the UK. Leisure is key in the UK and many people visit Orlando just for the theme parks. To have something like this in the UK would be uplifting for the people (like the Olympics in 2012 was) and also create many jobs. Overall this would be incredible and I really hope it goes ahead.	Would you support a potential park and resort coming to this site? Please explain why.
1125	We love theme parks and have been to the Universal parks in Los Angeles, Orlando and Singapore. Universal is a great experience and a huge boost of local jobs and provision of amenities.	Would you support a potential park and resort coming to this site? Please explain why.
1129	The young people of Bedford need inspiration and something to look forward to, the potential jobs it could create would help spur them on to do better and have something to look forward to.	Would you support a potential park and resort coming to this site? Please explain why.
1131	It would benefit the uk with all the new jobs and for people in uk that cant afford to visit another universal site. Also would fetch more tourists to the uk with strong links like the euro star.	Would you support a potential park and resort coming to this site? Please explain why.
1133	New jobs, new opportunities, more experiences, good for travel and economy.	Would you support a potential park and resort coming to this site? Please explain why.
1136	Would provide a great new & high quality entertainment venue - something the UK is currently lacking. The jobs creation and new infrastructure would also provide a significant boost for the local economy.	Would you support a potential park and resort coming to this site? Please explain why.
1143	Sounds great in theory, but the jobs need to be 'proper' jobs - not minimum wage or zero hours contracts. The jobs need to allow people to be able to have a decent standard of living. You may also need to put pressure on Govt to reduce the new visa minimum salary level so spouses and dependents can come into the country.	Would you support a potential park and resort coming to this site? Please explain why.
1147	The UK has been begging for a world-class leisure facility for decades, and I can think of no one better than Universal to make this dream come true for so many. Universal has more than proven itself as a considerate developer and employer. It has long been talked about that jobs need to be pulled away from London and more evenly distributed across the UK, and although this site is not considerably far from the capital, it would still go a long way in drawing communities further north where they are needed. The UK relies heavily on tourism and this would be such a draw, not only for UK residents but for all of Europe. I can find no downside to a project such as this!	Would you support a potential park and resort coming to this site? Please explain why.
1151	the creation of new jobs would bring growth to the area and growth to new potential types of jobs that come to the UK	Would you support a potential park and resort coming to this site? Please explain why.
1154	Will be amazing for universal fans in the uk and bring new jobs and tourist to the uk	Would you support a potential park and resort coming to this site? Please explain why.
1156	It will create a lot of jobs, 20k construction jobs plus 8k operational jobs, it will support transport companies and created a lot of tourism to the country, As long as the environment is not made worse than it currently is this is a major win!	Would you support a potential park and resort coming to this site? Please explain why.
1159	Its something that will be bring a lot of joy to people of the UK (and abroad) it will help to secure the future for the Bedford and surrounding areas and with help both economically and create much needed jobs and career prospects for the local community. It will also help in improving what is an outdated transports system in the area.	Would you support a potential park and resort coming to this site? Please explain why.
1160	It would deliver much needed jobs to the local area & also bring in tourism.	Would you support a potential park and resort coming to this site? Please explain why.
1165	This is a great idea for both local residence, young people growing up, jobs for people and local business will thrive!	Would you support a potential park and resort coming to this site? Please explain why.
1167	Potential for jobs & having a world class theme park resort in the UK would be fantastic	Would you support a potential park and resort coming to this site? Please explain why.
1168	I think it would be great for the economy and creating permanent jobs. I also think the UK would benefit extra tourism this site would bring and also for people who cannot travel abroad or who are local they would really enjoy this park	Would you support a potential park and resort coming to this site? Please explain why.
1172	I have been to Universal sites around the world and have seen how much it brings to an area in terms of infrastructure, Jobs, and overall excitement in the area. I believe the chosen area is perfect with links to London and the North. I believe you would see people come from all over the UK, Europe and beyond to visit the park and surrounding area. Not everyone in the UK is fortunate enough to be able to afford to go other Universal parks abroad, so having this on their doorstep would bring soo much happiness and change soo many peoples lives.	Would you support a potential park and resort coming to this site? Please explain why.

1174	I think this is an exciting opportunity if Universal were to go ahead and build the theme park in Bedford. I live in Kempston which is only a few miles from the site so could be job opportunities and an improvement to the area.	Would you support a potential park and resort coming to this site? Please explain why.
1176	I love the idea of new jobs being created, but there aren't enough people locally looking for work to fill those roles, so you would need to recruit people from across the UK to work with you and they would need to move locally so my concern would be the lack of suitable/affordable housing or housing in general, and if new houses were built what would be built by way of schools/doctors etc	Would you support a potential park and resort coming to this site? Please explain why.
1181	I believe it would be good for the local economy with jobs and security for many, the improved transport links can only be a good thing	Would you support a potential park and resort coming to this site? Please explain why.
1188	Key economic benefits to the local community, will open up more investment opportunities to other organisations, thousands of local jobs & training opportunities for local people, help increase footfall to businesses in the local area, significant infrastructure and environmental improvements in the area.	Would you support a potential park and resort coming to this site? Please explain why.
1190	A new and exciting place for me and my family to visit. Jobs. Investment in the area	Would you support a potential park and resort coming to this site? Please explain why.
1191	Brings job opportunities, my family have loved the universal theme parks so it's a special place for us so having one in the uk makes it easier to visit our favourite park more often	Would you support a potential park and resort coming to this site? Please explain why.
1199	I think there are many positives that this a Universal Studios would bring to the UK. Firstly, as a huge fan of the Universal parks and having been to the Orlando resort, I know first hand that the product you deliver is of the highest standard, with attention to detail and immersion that is unrivalled. There is nothing in the UK that comes close to what Universal can offer. Secondly, as stated above, the park (as an entity) has the opportunity to create thousands of jobs for the local community. As well as supporting the local colleges and Universities.	Would you support a potential park and resort coming to this site? Please explain why.
1201	I think it would be amazing for Bedford. The creation of new jobs would be a massive bonus and the increased tourism and activity in the surrounding area would really rejuvenate the area.	Would you support a potential park and resort coming to this site? Please explain why.
1203	Jobs, and fun!	Would you support a potential park and resort coming to this site? Please explain why.
1205	I believe this could reduce poverty with job opportunities, as long as locals are employed and enhance the area , bedford has some beautiful landmarks and anything can help and support the area has my support.	Would you support a potential park and resort coming to this site? Please explain why.
1206	This would be massive for the UK to have this type of development and the local area would benefit some much from the investment and job creation, not to mention on a personal level I love Universal theme parks and cannot wait to visit should it go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
1207	I think it's a fantastic opportunity for Universal, Bedford and the UK as a whole. Creating vast jobs, new attractions to draw in tourists. I also feel the UK doesn't have anything on par with the likes of universal and I believe you'd then help push the theme park market in the UK	Would you support a potential park and resort coming to this site? Please explain why.
1208	I think this is a great idea to bring such an amazing name to Great Britain as well as creating all these jobs which will help the economy and give fantastic opportunity's to the people of Great Britain.	Would you support a potential park and resort coming to this site? Please explain why.
1210	Universal is an amazing, globally recognised theme park and resort. Universal has an incredible reputation and their theme parks are in another league in comparison to what the UK currently has to offer. I like that this would create training and job opportunities for people within the UK; if someone had an interest in theme parks it's amazing that they could work at a Universal one as opposed to other local theme parks. Overall, Universals reputation is why I am excited and hopeful this comes to fruition. I've been to Universal Hollywood and Orlando and both are amazing!	Would you support a potential park and resort coming to this site? Please explain why.
1212	Universal studios is a must creating new job opportunities and give the uk and Europe the chance to experience universal without having to travel half the globe to experience it	Would you support a potential park and resort coming to this site? Please explain why.
1214	Jobs , and will be cheaper than going USA	Would you support a potential park and resort coming to this site? Please explain why.
4881	With the creation of jobs, I would love to see Universal commit to the national living wage for it's employees.	Please share any other feedback you have at this stage.
1218	Creation of jobs. It would be lovely to see Bedford as a holiday destination because of centre parks and universal studios. Bedford has already got the central location and road links as an advantage so hopefully universal studios will build on this instead of having to create everything from scratch	Would you support a potential park and resort coming to this site? Please explain why.
1221	Job creation, improved footfall to the area meaning local businesses will benefit.	Would you support a potential park and resort coming to this site? Please explain why.

1224	Bedford, the UK and Europe in general need a new theme park in the scale of the Universal parks with new job opportunities, the ability to honor the rich history of the region and to provide entertainment for children and adults alike.	Would you support a potential park and resort coming to this site? Please explain why.
1225	I love in a nearby village (Marston Moretaine) and believe it would be good for the village if local infrastructure is improved and provide jobs for local villagers and potentially my children in years to come.	Would you support a potential park and resort coming to this site? Please explain why.
1238	Yes 100%! We have been to both the Florida & California parks many times and would love to have a Universal park on our doorstep. It is so expensive to travel 1000's of miles away everytime we want to experience the fun and excitement of Universal. To have it so close would be amazing and the fact we are hearing the company is considering every aspect of its impact to the environment and to the local community and the wider area is encouraging and wonderful to hear too. I support the proposal moving forward due to potential job opportunities and the environmental considerations they have proposed. My only concern is will the UK park have the same feel as the Orlando/Hollywood parks. Can the UK replicate the feelings we have when we walk through the very same gates in America. Will i get the same excitement from a UK park? I do hope so. Our track record with theme parks cannot compete with America including customer service. I hope they can bring that feeling here and i look forward to future updates!	Would you support a potential park and resort coming to this site? Please explain why.
1240	It would bring lots of jobs for the locals and it would make the uk a more greater and brighter place	Would you support a potential park and resort coming to this site? Please explain why.
1242	Would be a great destination for family holidays and day trips, great way to create more diverse job opportunities for the local community	Would you support a potential park and resort coming to this site? Please explain why.
1244	This proposal will create loads of tourism and job opportunities that will benefit the local area and UK economy.	Would you support a potential park and resort coming to this site? Please explain why.
1245	It would be great for developing and helping the local areas, new jobs, better transport links, help with local buisness, training, tourism increase and would love to see a Universal Theme park in the UK dream come true for the UK if you decide to do this amazing project!	Would you support a potential park and resort coming to this site? Please explain why.
1249	The resort will create thousands of jobs for the area and bring new industries to the uk. It will also bring much needed competition to the monopoly of theme parks owned by the Merlin group.	Would you support a potential park and resort coming to this site? Please explain why.
1253	I think it would be fantastic for the local area with job opportunities. It would also be fantastic for the country. Economically with tourism and also for the British reputation worldwide.	Would you support a potential park and resort coming to this site? Please explain why.
1254	The UK would greatly benefit from a Universal presence. This project would bring more visitors to the UK and more jobs to the local area.	Would you support a potential park and resort coming to this site? Please explain why.
1256	I think it is a great way to boost the economic growth of the UK and invite many new tourist to the UK and many Jobs will be created.	Would you support a potential park and resort coming to this site? Please explain why.
1257	I love that Universal have chosen the uk for their potential new park and resort. The amount of jobs alone this would create would be amazing and also bringing such a largely known company to the uk will also bring much needed tourism to the uk. The positive potentials this project would bring the uk are vast.	Would you support a potential park and resort coming to this site? Please explain why.
1260	I visit Orlando yearly and being able to access a park like that in the uk would be amazing. I would become an annual pass holder despite living 3 hours away in wales. Also it will create jobs and opportunities for everyone all over the uk not just in Bedfordshire.	Would you support a potential park and resort coming to this site? Please explain why.
1264	Will benefit the U.K. financially and create jobs for local people and support local businesses	Would you support a potential park and resort coming to this site? Please explain why.
1267	One of our most known and popular tourist resort destinations in this country is Alton Towers. To have a Universal Resort theme park in Great Britain, its a no brainer that it would go down well. It would take theme parks in this country to a world class level. Other parks including the nearby Alton Towers, Thorpe Park and Chessington World of Adventures will thrive in attendance and potentially the outcome of this could include expansion, investment thus creating more jobs for these merlin parks and more people travelling from across the world to visit the UK. We only have to look at the Orlando and Los Angeles areas at how popular the competing parks are.	Would you support a potential park and resort coming to this site? Please explain why.
1270	I've visited your parks in the U.S and cant really explain the sheer energy they bring to the surrounding areas. It is exciting to think that could be here. To nearby areas, Bedford hasn't that much to offer, a universal park would change that. More people means more jobs, local areas would thrive.	Would you support a potential park and resort coming to this site? Please explain why.
1274	To bring more jobs and the social aspect	Would you support a potential park and resort coming to this site? Please explain why.

1276	A theme park like Universal is exactly what the UK needs! I'm a huge theme park fan and I've been to Universal Orlando so I know the we are so lucky to be hopefully getting one here! It will create more jobs, will be great for tourism and if it goes ahead it will be a very exciting time for us in the UK! Thank you for even considering it!	Would you support a potential park and resort coming to this site? Please explain why.
1277	It would be great for the area encouraging tourism and creating jobs and other opportunities. Also put the uk on the world map as far as theme parks are concerned	Would you support a potential park and resort coming to this site? Please explain why.
1284	I have worked in the tourism and film industry and welcome the potential to look for job opportunities after having a baby	Would you support a potential park and resort coming to this site? Please explain why.
1285	I think it would create a lot of Jobs for younger people.	Would you support a potential park and resort coming to this site? Please explain why.
1288	Because it brings in jobs not just for the locals, but also for the rest of the UK even beyond? It will bring in tourism which would in my opinion have a positive impact on the UK's economy 100%, its what we need in the UK, as we haven't got nothing like it, also it can be sometimes expensive to travel to other resorts & parks throughout the world for us Brits via flying, trains a.k.a Eurostar currently to Europe aswell Disneyland Paris. Also we have no parks & resorts like this scale in the UK, could do with parks and resort more on an International & World class level. Offering more immersive themed & fun, thrilling experiences that current theme parks, amusement parks in the UK can't offer currently at the moment. Think with this park & resort, that will make this resort top. 100%.	Would you support a potential park and resort coming to this site? Please explain why.
1295	creating jobs, great for the economy, more entertainment for people that visit.	Would you support a potential park and resort coming to this site? Please explain why.
1304	The UK needs a massive boost to its economy, and people are often having to fly to destinations in other countries to get an immersive Universal theme park experience. Building a Universal Studios theme park would mean that people are spending more money on local businesses in the area & supporting British jobs. By building your next theme park here in the UK, you are possibly giving lots of people their first immersive & thrilling theme park experience.	Would you support a potential park and resort coming to this site? Please explain why.
1206	I believe this would not only have huge local benefits but national ones too. With tourism to from abroad and also job opportunities for people all over the country to be able to work in a Universal resort, which is something even myself am excited over the prospect of	Would you support a potential park and resort coming to this site? Please explain why.
3040	Job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4257	Job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4313	Job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4619	Job opportunities and better roads	Would you support a potential park and resort coming to this site? Please explain why.
4666	Job opportunities and growth in the local area	Would you support a potential park and resort coming to this site? Please explain why.
3479	Job opportunities and local benefit to the economy	Would you support a potential park and resort coming to this site? Please explain why.
1740	Job opportunities and tourism to the UK,	Would you support a potential park and resort coming to this site? Please explain why.
3730	Job opportunities are promising.	Would you support a potential park and resort coming to this site? Please explain why.
4267	Job opportunities for locals are infrastructure improves are amazing for the area. This is much better than more housing and no improvements and jobs.	Would you support a potential park and resort coming to this site? Please explain why.
2569	Job opportunities Money to the area. However, I'm concerned on how it will change house prices and that the area (Wixams) will turn into a town of Air B&B's	Would you support a potential park and resort coming to this site? Please explain why.
4941	Job opportunities, I have young children so could be a good place for them to work as well as go to	Would you support a potential park and resort coming to this site? Please explain why.
4114	Job opportunities, I would travel for the chance to work at universal. Love the parks and would visit regularly, hope there's annual passes to buy.	Would you support a potential park and resort coming to this site? Please explain why.
1683	Job opportunities, regeneration of the area, bring investment into the UK	Would you support a potential park and resort coming to this site? Please explain why.
4509	Job opportunities. Great to have a high quality theme park in the UK (we don't currently). Boost to local economy and businesses.	Would you support a potential park and resort coming to this site? Please explain why.

4655	Job opportunities. Investment into local economy. Opportunity to visit universal without travelling to US	Would you support a potential park and resort coming to this site? Please explain why.	
4362	Jobs and opportunities for Bedfordshire and Hertfordshire residents	Would you support a potential park and resort coming to this site? Please explain why.	
4603	Jobs and opportunities it will provide good for local business	Would you support a potential park and resort coming to this site? Please explain why.	
2866	Jobs are needed, But the main point would be to raise the profile of Bedfordshire and west Cambridgeshire. As well as the existing good transport connections, the new Caxton Gibbet to Black Cat roundabout would open up easier transport from East Anglia, Cambridge etc	Would you support a potential park and resort coming to this site? Please explain why.	
3124	Jobs Bedford needs development Help the local community Improves the environment	Would you support a potential park and resort coming to this site? Please explain why.	
4305	Jobs for the area in lots of different sectors	Would you support a potential park and resort coming to this site? Please explain why.	
4165	Jobs growth, positive impact on housing prices	Would you support a potential park and resort coming to this site? Please explain why.	
4782	Jobs needed in region and this can be expanded to further create jobs as the park develops over time. Job security.	Would you support a potential park and resort coming to this site? Please explain why.	
4640	Jobs Tourism Improvements to local infrastructure	Would you support a potential park and resort coming to this site? Please explain why.	
4366	Jobs Uplift of area in social, economic and infra terms	Would you support a potential park and resort coming to this site? Please explain why.	
2611	Jobs, business opportunities, income, air b&b, rail link improvement	Would you support a potential park and resort coming to this site? Please explain why.	
2414	Jobs, improved infrastructure, love theme parks.	Would you support a potential park and resort coming to this site? Please explain why.	
2006	Jobs, improved local activities, infrastructures, people engagement, local economy	Would you support a potential park and resort coming to this site? Please explain why.	
4281	Jobs, infrastructure improvements	Would you support a potential park and resort coming to this site? Please explain why.	
3455	Jobs, more visitors spending money in Bedfordshire what not to love	Would you support a potential park and resort coming to this site? Please explain why.	
3064	Job creation and increasing the variety of employment opportunities crucial to the area.	Would you support a potential park and resort coming to this site? Please explain why.	
2505	Job creation needs to be focused on quality and sustainability. Creating 8,000 minimum wage positions on zero hours contracts does very little, if anything, for local people. The UK hospitality industry is already in crisis, with less people now entering the sector, and a huge shortfall in the required workforce following Brexit, the Covid pandemic and this government's approach to immigration. Ultimately, the resort will have to rely on staff commuting in from outside of Bedfordshire and will not directly have a big, positive impact on local employment. An increase of commuting into the area and extra traffic on the surrounding rounds with visitors is going to be disruptive for those living close to the park. This will impact our ability to go about our daily lives and our commuting â€" a lot of the residents of Stewartby have to drive out to their place of work and this has, since the Hansons Reach development was built, only increased. The increased noise and light pollution will blight the village of Stewartby. Regardless of the proposed technological solutions, it is unavoidable and the peace and quiet that attracted us to the location will be lost. If we were looking to buy in this area now, we would not consider Stewartby as an option.	Would you support a potential park and resort coming to this site? Please explain why.	
2073	Job creation, world class leisure facilities, increased tourism, improving the local landscape.	Would you support a potential park and resort coming to this site? Please explain why.	
3160	Job creation. Economic positive impact. Infrastructure focus.	Would you support a potential park and resort coming to this site? Please explain why.	
2911	Job creation. Support to the local community & businesses. Educational opportunities for schools.	Would you support a potential park and resort coming to this site? Please explain why.	

3880	<p>Job Creation: The project promises to generate around 8,000 new full-time jobs once operational. This significant employment opportunity could greatly benefit the local community by reducing unemployment rates and providing stable income for residents. Economic Growth: The development of the park and resort would likely boost the local economy by attracting tourists, increasing footfall to existing businesses, and stimulating spending in the area. This influx of economic activity could lead to further investment opportunities and business growth. Infrastructure Improvement: The project aims to unlock major investment into local infrastructure. This could result in improvements to transportation networks, public facilities, and utilities, enhancing the overall quality of life for residents and visitors alike. Tourism Boost: A park and resort in Bedford could become a significant tourist destination, drawing visitors from across the UK and even internationally. This influx of tourists not only supports local businesses but also showcases the unique attractions and offerings of the region. Diversification of Offerings: Introducing a park and resort adds diversity to Bedford's tourism offerings. This could attract a different demographic of visitors who may not have previously considered the area, thereby expanding the market and increasing overall tourism revenue. Overall, supporting the potential park and resort project aligns with goals of job creation, economic growth, infrastructure development, and tourism promotion, making it a promising endeavor for the prosperity of Bedford and the UK economy as a whole.</p>	Would you support a potential park and resort coming to this site? Please explain why.	
3714	Economy, employment & fun	Would you support a potential park and resort coming to this site? Please explain why.	
2312	Employment ,prosperity and attraction for UK residents	Would you support a potential park and resort coming to this site? Please explain why.	
3529	Employment and only live just over an hour away	Would you support a potential park and resort coming to this site? Please explain why.	
2195	Employment and sustainability	Would you support a potential park and resort coming to this site? Please explain why.	
910	Employment and training opportunities ,customer service is exceptional at Universal parks. Also to have a wonderful theme park worth buying a ticket too would be fantastic in this country. No one does theme parks and experiences better !	Would you support a potential park and resort coming to this site? Please explain why.	
3896	Employment for locals , a brilliant theme park for the country	Would you support a potential park and resort coming to this site? Please explain why.	
2071	employment for many people.	Would you support a potential park and resort coming to this site? Please explain why.	
2562	Employment for people and universal theme parks are fantastic	Would you support a potential park and resort coming to this site? Please explain why.	
1565	Employment opportunities and an enhanced entertainment offering. It will give local people something to do and will encourage investment into the area. We would visit many times a year.	Would you support a potential park and resort coming to this site? Please explain why.	
2780	Employment opportunities and development to the local area. There is also potential for educational output in terms of careers services for young people.	Would you support a potential park and resort coming to this site? Please explain why.	
3785	Employment opportunities and to support local independent business with sign posting and use of their existing skills and resources etc	Would you support a potential park and resort coming to this site? Please explain why.	
4241	Employment opportunities for local people in the local area have been in the decline for years. To have an additional 8000 job opportunities available in the area can only be good.	Would you support a potential park and resort coming to this site? Please explain why.	
359	Employment opportunities for locals	Would you support a potential park and resort coming to this site? Please explain why.	
4483	Employment opportunities for people of all ages would be fantastic	Would you support a potential park and resort coming to this site? Please explain why.	
4942	Employment opportunities for the area, world class theme park on my doorstep	Would you support a potential park and resort coming to this site? Please explain why.	
2716	Employment opportunities for the local communities	Would you support a potential park and resort coming to this site? Please explain why.	
1027	Employment opportunities for young people in the area	Would you support a potential park and resort coming to this site? Please explain why.	
1403	Employment opportunities Social and economic improvements for Bedford and surrounding area.	Would you support a potential park and resort coming to this site? Please explain why.	
3125	Employment opportunities, and improved travel infrastructure will benefit most people especially small businesses	Would you support a potential park and resort coming to this site? Please explain why.	

2875	Employment opportunities, improve transport links, increase leisure opportunities within the area	Would you support a potential park and resort coming to this site? Please explain why.
2746	Employment opportunities, improving the local economy, bringing tourism to the area	Would you support a potential park and resort coming to this site? Please explain why.
942	Employment opportunity for UK residents. Boost the U.K. economy, which benefits the whole country. Gives U.K. residents an opportunity to visit one of these fantastic parks without an expensive overseas vacation which not an option for lots of U.K. residents.. Competition for other U.K. theme parks and will inspire them to also invest in better technology and experiences for visitors. Inspire generations to be more creative, I remember when I first visited Orlando and that joy has stayed with me, other should get the opportunity to make to same memories with their families and friends.	Would you support a potential park and resort coming to this site? Please explain why.
305	Employment Social Creativity Exploration	Would you support a potential park and resort coming to this site? Please explain why.
4303	Employment, development of the area and exciting new changes it will bring would be very welcome	Would you support a potential park and resort coming to this site? Please explain why.
4750	Employment, enjoyment and environment	Would you support a potential park and resort coming to this site? Please explain why.
4731	Employment.	Would you support a potential park and resort coming to this site? Please explain why.
883	Employment. Economy	Would you support a potential park and resort coming to this site? Please explain why.
4356	I am very excited about this possible opportunity I can see the benefits a park would bring creating jobs for the area and with our good transport links eg bus, safe cycle links and rail it would give those who do not drive and younger people more opportunity for employment.	Please share any other feedback you have at this stage.
4146	The UK would do much benefit from this amazing project. There is little entertainment of this magnitude in the UK It will bring employment economy many opportunities for the local area and throughout the UK.	Please share any other feedback you have at this stage.
1865	Additional jobs, economic prosperity and leisure opportunities on the doorstep.	Would you support a potential park and resort coming to this site? Please explain why.
3590	Additional jobs, excitement and financial gain from tourism.	Would you support a potential park and resort coming to this site? Please explain why.
2287	8 to 10 thousand jobs. Great location. Financial benefits for the local and national economy. Universal is a brand name people trust.	Would you support a potential park and resort coming to this site? Please explain why.
2172	8000 jobs is significant in a population the size of the UK. It would bring tourism into the country and allow people who could not afford overseas travel to experience a universal park. It is also a completely different level to any park we already have in the UK and wouldn't face much competition from the existing parks.	Would you support a potential park and resort coming to this site? Please explain why.
2810	8000 jobs will mean extra housing and pressure on schools, hospital, shops, roads, etc. Life for existing residents will therefore become worse and greenspaces will be lost. We are already overcrowded. Creating the park and running it will also have a huge carbon footprint that the planet can do without. The park is completely unnecessary. Let the wildlife continue to use the site.	Would you support a potential park and resort coming to this site? Please explain why.
1745	210 per cent behind this project!!!! There is a huge market in the UK (and beyond in Europe) and appetite for the Universal brand, we are familiar with the parks in the US and beyond and know what amazing experiences and themed attractions Universal brings. As a massive theme park enthusiast it would be an absolute dream to have a Universal park in the UK, plus like Disneyland Paris did in the 90s for Paris and France this would have a hugely positive tourism/economic/employment and infrastructure benefits. I am living in Scotland and it would be a privilege to take a flight down to see!	Would you support a potential park and resort coming to this site? Please explain why.
5257	Creating local employment opportunities is vital but all of the above are important	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5040	Increase worker pay	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5212	Ideally the site would be fully sustainable and utilise local materials and tradespeople.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?

5434	There will be numerous long-term employment opportunities that cater for a whole variety of people - skilled and unskilled, including within the entertainment sectors	Would you support a potential park and resort coming to this site? Please explain why.
5236	Help build local skills workforce. Support local business and partnership working. Significant job creation	Would you support a potential park and resort coming to this site? Please explain why.
5072	Additional jobs should be welcomed. However jobs needs to be aspirational. Good wages and benefits we don't need minimum wage jobs.	Would you support a potential park and resort coming to this site? Please explain why.
5107	All of the above reasons. Generate jobs and tourism to Bedfordshire.	Would you support a potential park and resort coming to this site? Please explain why.
3641	Bedford lost alot jobs in engineer	Would you support a potential park and resort coming to this site? Please explain why.
3909	Bedford needs jobs for young generation. Would be great to see Bedford town centre flourish	Would you support a potential park and resort coming to this site? Please explain why.
2995	Bedford needs more employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
3964	Bedford needs jobs and an identity for the future.	Would you support a potential park and resort coming to this site? Please explain why.
3110	Bedford & the surrounding areas need jobs, the economy is dire. This would, like you said, be helping local businesses, infrastructure improvements it's a win win.	Would you support a potential park and resort coming to this site? Please explain why.
2711	Bedford and Bedfordshire has so much potential. Geographically, it is situated in a fantastic place - London is only 40 mins away by train for example. A project like this could really fulfil the potential of this area. Also your outlook is very refreshing, when emphasising the importance and value of the environment and nature, alongside supporting the local communities in terms of training, jobs and social benefits.	Would you support a potential park and resort coming to this site? Please explain why.
3293	Bedford and surrounding area are a great place to live but, like many other market towns, have lost their traditional industries. Increasing numbers of people commute, further impacting on local businesses. The Oxford-Cambridge Arc has stimulated house building but not local employment. An opportunity for local employment would bring huge benefit to the whole area.	Would you support a potential park and resort coming to this site? Please explain why.
4983	Job opportunity	Would you support a potential park and resort coming to this site? Please explain why.
5040	Pay them. Local discount to shops and anything regarding the park like admissions. Anything you have to pay for in the park. Prioritise jobs. Work with local businesses. Keep in contact. Have a meeting every month or two.	Would you support a potential park and resort coming to this site? Please explain why.
5095	Employment opportunities and better road infrastructure	Would you support a potential park and resort coming to this site? Please explain why.
5158	Employment opportunities and infrastructure improvement	Would you support a potential park and resort coming to this site? Please explain why.
5323	Employment opportunities improves quality of life	Would you support a potential park and resort coming to this site? Please explain why.
5185	For the very reasons you give - creating jobs, training opportunities, support for local businesses, improvements in infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
5320	great potential for sustainable jobs with benefits for the local environment as well as local communities	Would you support a potential park and resort coming to this site? Please explain why.
5024	I am so excited at the prospect of this park being so close to where we live! I'm so glad it will provide our are with further jobs and training opportunities! I hope you will work with local schools and offer benefits for locals	Would you support a potential park and resort coming to this site? Please explain why.
5371	I love theme parks, always have, so I would never persoanally be against one being built, if the circumstances are right. But also anything that bring sa large number of jobs to my area must be beneficial in the long run.	Would you support a potential park and resort coming to this site? Please explain why.
5183	I think as long as the infrastructure is build alongside the park it will be a brilliant opportunity locally in terms of jobs and a tourist destination being created.	Would you support a potential park and resort coming to this site? Please explain why.
5154	I think the jobs that could be created for local residents and the footfall for existing businesses will be very much needed	Would you support a potential park and resort coming to this site? Please explain why.
5432	I think you have answered this yourselves - creating jobs, improving the infrastructure, driving footfall hopefully into the town itself - I so hope that you proceed - I think it would be brilliant :)	Would you support a potential park and resort coming to this site? Please explain why.
5286	It could be an exciting new venue bringing jobs and opportunities to our region.	Would you support a potential park and resort coming to this site? Please explain why.

5220	It is so exciting to improve our local area and create jobs	Would you support a potential park and resort coming to this site? Please explain why.	
5414	It will be great for the area creating new jobs etc for the area.	Would you support a potential park and resort coming to this site? Please explain why.	
4977	It would bring huge benefits in terms of new jobs, training opportunities for younger people, and much-needed improvements in transport infrastructure. Our executive committee (of BAALHS) discussed your proposal at length and decided to give it our strongest support. I also highlighted the potential benefits during a recent local radio interview.	Would you support a potential park and resort coming to this site? Please explain why.	
5130	Jobs	Would you support a potential park and resort coming to this site? Please explain why.	
5417	Jobs for the area	Would you support a potential park and resort coming to this site? Please explain why.	
5307	Jobs opportunities, local road improvements.	Would you support a potential park and resort coming to this site? Please explain why.	
4963	Jobs, economic improvements, road network improvements.	Would you support a potential park and resort coming to this site? Please explain why.	
5144	Jobs, infrastructure and benefits to local businesses	Would you support a potential park and resort coming to this site? Please explain why.	
5447	Jobs, infrastructure, family time together	Would you support a potential park and resort coming to this site? Please explain why.	
5000	Lots of really interesting jobs for local people, a boost to local businesses and a reason for more people to move to the area. I think it would be fantastic!	Would you support a potential park and resort coming to this site? Please explain why.	
5079	More jobs	Would you support a potential park and resort coming to this site? Please explain why.	
5282	need more detail on the type of jobs that would be created and assurance that the existing roads will cope with added construction traffic	Would you support a potential park and resort coming to this site? Please explain why.	
5001	Opportunity of fun and jobs for many	Would you support a potential park and resort coming to this site? Please explain why.	
5126	Our family love theme parks and visit them all over the U.K. as well as in Florida as much as we can. I believe this is a great opportunity for jobs and for friends and families to create many memories together.	Would you support a potential park and resort coming to this site? Please explain why.	
5247	The area is the perfect location for a theme park and will create a lot of potential jobs in a variety of fields for local residents.	Would you support a potential park and resort coming to this site? Please explain why.	
5156	The country needs new jobs and new opportunities. It's a great initiative. As long as the wildlife is protected.	Would you support a potential park and resort coming to this site? Please explain why.	
4985	This Universal theme park would be absolutely fantastic opportunity for the area and the country. The jobs and opportunities the site would bring to the country are exceptional and very exciting. Having visited the Universal theme parks in Florida several times I'm personally very excited as the experience in Florida is amazing, I would be looking to get an annual pass! I believe that Universal are a considerate and inclusive company that will carefully integrate and manage the site, and bring infrastructure improvements to a site already earmarked for development. This development is a fabulous opportunity for the country and I cannot see any negative implications.	Would you support a potential park and resort coming to this site? Please explain why.	
5132	Good for local employment and good for me to visit	Would you support a potential park and resort coming to this site? Please explain why.	
5377	Good economic opportunity, good location and well linked into the railway infrastructure	Would you support a potential park and resort coming to this site? Please explain why.	
5358	My family loves a good theme park say out. Being on our doorstep we'd be there all the time. And who knows some of us may apply to work there to be part of it.	Would you support a potential park and resort coming to this site? Please explain why.	
5004	Overall I think it will provide good job opportunities and benefits to the local community. Nevertheless I have some concerns about the impact on nearby villages if there is a shift towards holiday rental letting of houses near the park rather than home ownership as it may result in a different atmosphere in the village.	Would you support a potential park and resort coming to this site? Please explain why.	
5073	The park would be good for economic development and local employment	Would you support a potential park and resort coming to this site? Please explain why.	
5230	To create training and opportunities for school leavers in the area. Also for the numerous unemployed in the area which can only be a good thing.	Would you support a potential park and resort coming to this site? Please explain why.	

4992	I love Universal Studios parks, it would be a great asset to have locally, help improve transport infrastructure and bring lots of employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4989	Increased job opportunities, increase in revenue to the area & country	Would you support a potential park and resort coming to this site? Please explain why.
5304	Job prospects for younger generation	Would you support a potential park and resort coming to this site? Please explain why.
5175	More work and will help generate tourism in the area	Would you support a potential park and resort coming to this site? Please explain why.
2150	As I do not live nearby, I could not possibly answer this for the local community. However, job opportunity starts with the building of the park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4386	1) will attract tourists 2) will make our house prices increase which is beneficial for homeowners right now 3) locals should get a discount 4) hire locals to do the jobs	Would you support a potential park and resort coming to this site? Please explain why.
2989	A bigger infrastructure would be beneficial for the visitors and the jobs created would be supported significantly	Would you support a potential park and resort coming to this site? Please explain why.
3942	A fantastic opportunity to bring jobs and job security to the area, as well as an opportunity for businesses in and around Bedford. It's also a wonderful opportunity for a world class theme park to finally come to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3923	A great opportunity for Bedfordshire to create many jobs and it would be an incredible tourist attraction for the UK. Also, Bedfordshire is a great location with close transport links to London and airports making it very accessible.	Would you support a potential park and resort coming to this site? Please explain why.
1712	A great way to create jobs and would love to see the land being used for a great investment	Would you support a potential park and resort coming to this site? Please explain why.
2516	A huge fan of theme parks and universal studios so to have the potential park within walking distance is very exciting. I also recognise the value that this would bring not only to Bedford but to the UK in jobs, revenue and tourism	Would you support a potential park and resort coming to this site? Please explain why.
2434	A Major New Theme park creating thousands of jobs would be fantastic and another impressive tourist attraction in the U.K.	Would you support a potential park and resort coming to this site? Please explain why.
3070	A modern and internationally recognised theme park will boost local economy and the subsequent businesses and jobs formed around the theme park. The secondary and tertiary effects of tourism must be considered, Universal Studio Osaka is a good example and the Bedford site has the opportunity to be the same.	Would you support a potential park and resort coming to this site? Please explain why.
2206	A much needed addition to the UK, providing an additional method of entertainment for all residents across the country, as well as providing jobs for the community within the theme park industry.	Would you support a potential park and resort coming to this site? Please explain why.
1800	A new theme park, especially of the scale of Universal would be incredibly positive for both the local area and country in general. It would create jobs, improve infrastructure etc. It would also provide some good competition to the other big parks in the country such as Alton Towers, most of which are owned by the same company. A new park would push them to invest in their parks which they have loved to hold back on It would help with tourism massively. Both from people in the country and people coming in from abroad. Lots of people fly in and just go to London, but a Universal Theme Park would give a big incentive to go elsewhere and provide a boost to other areas. And in general it would just provide a great new place to go with friends and family. Especially for us that cant really afford to buy both a plane ticket abroad and admission to a park as much as I'd love too.	Would you support a potential park and resort coming to this site? Please explain why.
3248	A once in a lifetime opportunity to invest in a disused site and create pleasure and jobs.	Would you support a potential park and resort coming to this site? Please explain why.
2187	A project on this scale has the opportunity to create countless jobs and training opportunities, for local residents, in the same way other large scale ventures such as HS2 have done, in addition with the increase in tourism more money will go into the local area, that will in term improve local services.	Would you support a potential park and resort coming to this site? Please explain why.
3132	All the jobs it would bring . The local economy would improve. Be a great place to visit often. Tourism would increase.	Would you support a potential park and resort coming to this site? Please explain why.

2894	Although we have a fair share of theme parks into the UK. We definitely don't have something as grand as universal. The closest park like that would be Disneyland Paris. To have something like Universal as a park would be huge for tourism jobs and put a place in the UK to say we want more like this. I hope this gets the go ahead	Would you support a potential park and resort coming to this site? Please explain why.	
3153	Amazing boost to the local area! Money and jobs. And super good fun right near by!	Would you support a potential park and resort coming to this site? Please explain why.	
4170	Amazing for the area to create jobs and to give Bedford lease of life.	Would you support a potential park and resort coming to this site? Please explain why.	
2543	Amazing opportunity for the area, jobs for young people, tourism, community spirit and put Bedford on the map!	Would you support a potential park and resort coming to this site? Please explain why.	
2348	Anything that brings a healthy boost to the economy is worth while. It creates jobs and a source of happiness especially for those like me who are Universal Studios enthusiasts and cannot travel to Orlando/ LA frequently	Would you support a potential park and resort coming to this site? Please explain why.	
2872	Apart from being a family who loves theme parks this will help to bring in tourists, jobs etc.	Would you support a potential park and resort coming to this site? Please explain why.	
2563	Area would hugely benefit from the improved infrastructure, and investment it would bring. Providing jobs to young people and students from the local university will help spend in local villages. Knock on would be huge to this area.	Would you support a potential park and resort coming to this site? Please explain why.	
2328	As a big fan of Universal it would be amazing to have a park nearer to home. As well the additional benefits of creating more jobs and opportunity's for people in the area.	Would you support a potential park and resort coming to this site? Please explain why.	
3779	As a FDI (Foreign Direct Investment) Professional with approx 30 years experience of attracting international companies into UK, I am totally aware of the positive impact this will have on the town of Bedford and the surrounding region, as well as the wider UK. Whilst there will be dozens of benefits, I'll highlight three: (1) Job creation/Jobs for all: FDI from the Leisure/Entertainment sector is often over-shadowed by FDI from sectors such as Manufacturing, Tech and Life Sciences where the jobs created in those sectors are generally viewed as being higher in quality...and salary. However, FDI from the Leisure/Entertainment sector creates jobs for everyone at every stage of their life and all levels of academic achievement. And those jobs being created (by projects such as these) that do not require Tertiary and Post-Graduate Education, and/or might be at the lower end of the socio-economic scale, should be viewed as just as valuable by other measures -and not just measured by the actual salary earned. (2) Local Supply Chain: Bedfordshire and the surrounding region has high quality local suppliers across all sectors to help make this project a reality. Engaging with this local supply chain before, during and after construction (and demonstrating an appetite to work with local partners during the consultation) will boost local support for the project and convert some of those in the NIMBY camp. As an example, committing to work with local food and drink producers (as much as is practical) will have huge knock-on benefits to the local agriculture, food and drink manufacturing landscape. (3) Tourism/Tourism Partnerships: This project has the potential to be mutually beneficial with all surrounding tourism destination partners where multi-lateral flows of tourists can be generated. London is an obvious example but approx 8million people visit Cambridge each year who will also be drawn to Universal's new Bedford venture. Similarly, Universal will be attracting families in their own right to Bedford who will also be tempted to visit Cambridge. There are other examples (eg. Centre Parcs Woburn Forest) and when this flow of visitors is shared around the local region, then the benefits are multiplied significantly.	Would you support a potential park and resort coming to this site? Please explain why.	
2629	As a frequent visitor to the US Universal Parks, I know how high quality and well done these parks are. I already know I would become an annual passholder if this park goes ahead. It would bring many jobs to the area as well as heavily contributing to the economy. The UK theme park industry also misses the Universal touch. This makes me very excited!	Would you support a potential park and resort coming to this site? Please explain why.	
2076	As a lover of the Universal Orlando Resort, I am ecstatic about the prospect of a Universal resort in the UK. Being able to access this resort regularly would be incredible and so special to take my family to in the future. It also offers amazing opportunities for local people with regards to jobs and increased tourism.	Would you support a potential park and resort coming to this site? Please explain why.	
2184	As a roller coaster enthusiast this would be a great investment into the UK bringing in new tourism, creating new jobs and careers new investment into local businesses it can only be good for the Bedford community also with keeping local areas of natural beauty and preservation this is a positive outlook for Bedford and the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.	

3368	As outlined in the provided information, this project has the potential to be absolutely transformative for Bedford and deliver significant benefits for the UK economy! The creation of thousands of jobs, the drive of football to support local businesses, and the unlocking of investment into local infrastructure are all incredibly compelling reasons to support. Personally, as a parent of two children, I completely understand the importance of additional work opportunities and the need for economic growth in our community! The creation of 8,000 new full-time jobs is fantastic news for the overall prosperity of our area! As a creative individual, I am thrilled to see this project as an exciting opportunity to contribute to the development of a vibrant destination and fulfill someone's dreams. It's great to see such positive changes happening in our area! The significant infrastructure improvements have the potential to enhance the appeal of our community and attract visitors from far and wide. I am thrilled to fully support the Potential Park and Resort Project coming to Bedford! It perfectly aligns with the economic and social needs of our community, and I cannot wait to see the overwhelmingly positive impact it will have on our area. This project is an excellent idea!	Would you support a potential park and resort coming to this site? Please explain why.
3448	As regular visitors to Universal Orlando, it is a brand people recognise, trust and will travel to visit. The potential this can have on existing businesses as well as the jobs it can create would be fantastic for an area that normally gets missed as it is not one of the major cities.	Would you support a potential park and resort coming to this site? Please explain why.
2540	As stated above, it will bring jobs to the local community and beyond. I would also give a boom to the UK travel economy	Would you support a potential park and resort coming to this site? Please explain why.
3931	As stated the amount of jobs created will be great, plus the footfall to other surrounding businesses especially small local ones would be vital and help them survive and thrive	Would you support a potential park and resort coming to this site? Please explain why.
3548	As the statement above says, this venture will create jobs in area and provide opportunities for local businesses.	Would you support a potential park and resort coming to this site? Please explain why.
1746	As you explained earlier it's the support and jobs this will bring but the most exciting part is your park we will have a great theme park experience on our doorstep that is world class and not everyone can travel so far to your great parks this is very exciting and we are 100 percent onboard with this project and cannot wait for this project to go ahead as fast as possible thank you	Would you support a potential park and resort coming to this site? Please explain why.
1869	Be a fantastic opportunity to bring new jobs, more day out experience for people. More realistic for people to go to local theme park then spending more money to travel to the U.S	Would you support a potential park and resort coming to this site? Please explain why.
2458	Be good for the area and for the UK Bringing jobs to the area	Would you support a potential park and resort coming to this site? Please explain why.
4753	Because I think this would be good for the local area and the UK as a whole to attract more tourists to the area and it will be making new jobs which is such a good thing!	Would you support a potential park and resort coming to this site? Please explain why.
2454	Because it would bring more visitors to the UK and help build the economy in the local area and across the UK also will bring more jobs to the area	Would you support a potential park and resort coming to this site? Please explain why.
2046	Because it would create thousands of jobs, help to drive footfall to existing local businesses, and unlock major investment into local infrastructure	Would you support a potential park and resort coming to this site? Please explain why.
2585	Because it would do well for the area where jobs are really hard to get at the moment. My daughter went to uni throughout Covid and didn't get the help in the last couple of years to help her with jobs, she has applied for many openings but had no luck which is sad for her age group ðŸ˜Ÿ	Would you support a potential park and resort coming to this site? Please explain why.
3032	Because it would make the UK a theme park destination both within the country and for visitors. It would increase jobs and general tourist trade. It's a shame big projects like this often seem to get cancelled because of the complaints of people that don't see the benefits. Also we really should have a World of Harry Potter in the UK! I sincerely hope this project comes to fruition.	Would you support a potential park and resort coming to this site? Please explain why.
4125	Because new jobs are so important. Also would bring more people into Bedford town which is lovely. Help the town economy. There are more positives to me but I don't live close by. I think it is very exciting.	Would you support a potential park and resort coming to this site? Please explain why.
2910	Because of jobs, Bedford will be a name in the world, especially in Europe. A better economy means a better life for everyone.	Would you support a potential park and resort coming to this site? Please explain why.
3939	Because of the creation of jobs.	Would you support a potential park and resort coming to this site? Please explain why.
4054	Because we have lost everything around us that made so many jobs over the years the brick works most of Vauxhall and many more	Would you support a potential park and resort coming to this site? Please explain why.
3209	Because, as you say it should, if done well, provide jobs and infrastructure for local people and give the local young people infrastructure to enjoy.	Would you support a potential park and resort coming to this site? Please explain why.
4732	Being jobs, training and infrastructure to the area which is desperately needed	Would you support a potential park and resort coming to this site? Please explain why.

4781	Benefit for the local and wider areas, with bigger footfall creating more jobs and tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
1732	Boosting the U.K. economy up, encouraging more jobs, more business opportunities for the railways, boosting not only the U.K. tourism industry but European tourism industry.	Would you support a potential park and resort coming to this site? Please explain why.
2545	Boosting tourism and the UK economy. Providing jobs. Competition for existing theme parks, particularly those run by Merlin. Also, Jurassic Park River Adventure!	Would you support a potential park and resort coming to this site? Please explain why.
2693	Bring jobs to the local area. Would be great to see a such a substantial theme park brand on our doorstep.	Would you support a potential park and resort coming to this site? Please explain why.
4149	Bring more jobs in the area is a massive win. Also with youngster a place to actual go were they enjoy themselves which hopefully keep them out of trouble	Would you support a potential park and resort coming to this site? Please explain why.
2000	Bringing more jobs to the country and area is always a good thing. Having new competition with other parks will only make them better when it comes to their investment decisions. A lot of people in Europe may not have the ability to travel to many of the other Universal Parks so having one smack bang in the middle of them only makes it easier for everyone. The economy, the UK economy is struggling so this can potentially boost it.	Would you support a potential park and resort coming to this site? Please explain why.
3893	Bringing new wealth to the area and opportunities for jobs	Would you support a potential park and resort coming to this site? Please explain why.
4929	Brings jobs and opportunity	Would you support a potential park and resort coming to this site? Please explain why.
3950	Central Bedfordshire would benefit significantly from having such a venue on the doorstep. The long term investment in not just jobs but the impact on local services sounds positive and I fully support that. Your proposal talks heavily about invest into transport and local roads this is key to making sure you have local support.	Would you support a potential park and resort coming to this site? Please explain why.
1981	Competition for other parks in the country which should help keep high standards for the uk theme park industry which in turn will bring more people in the country to elevate the tourism industry and become a main player across the globe for theme parks. This will also give people living in the uk who are unable attend universal parks around the globe a chance to experience the quality of a universal park. This will also create more jobs and fantastic opportunities not just for Bedford but the whole country.	Would you support a potential park and resort coming to this site? Please explain why.
3058	Create much needed jobs for the community	Would you support a potential park and resort coming to this site? Please explain why.
4084	Creates jobs and builds the economy	Would you support a potential park and resort coming to this site? Please explain why.
2823	Creating 8,000 jobs at your site would only be the tip of the iceberg. You're building two stations, how many new railway staff will that entail. People will be flying in, how many new airport and flight staff will that entail. People will be eating and drinking, that food and drink has to be made somewhere. How many logistics staff will get work delivering stuff to the park. How will other attractions benefit, someone flying in for Universal will also take in other theme parks (Think Orlando, people fly in for Disney, visit Universal), they may end up needing more jobs. It's also has that feel-good feeling, and a lot of people strongly support the park. And it can also service as an advertising billboard for your US operations, like the Come to USA advert said a few years ago You've seen the set	Would you support a potential park and resort coming to this site? Please explain why.
2966	Creation of jobs and putting Bedford on the map	Would you support a potential park and resort coming to this site? Please explain why.
4587	Creation of new jobs, boost to the local economy	Would you support a potential park and resort coming to this site? Please explain why.
4882	Creation of new jobs, improving the local infrastructure, putting Bedford on the map and giving the local residents a new attraction to visit.	Would you support a potential park and resort coming to this site? Please explain why.
3467	doesn't listen to the people who might be moaning about this they're the types who moan about everything! I would love a universal theme park I can afford to go to regularly. It will create jobs and boost tourism not sure what people have got to object to. Please build this resort.	Would you support a potential park and resort coming to this site? Please explain why.
2513	Europe is in desperate need of some competition to Disney in Paris. The U.K. is overdue a truly world class theme park especially after the delay of the London theme park that was cancelled. I'm also all here for jobs, supporting local economy and a boost for the U.K.	Would you support a potential park and resort coming to this site? Please explain why.
3528	Even beyond direct jobs created, it would also significantly boost for tourism in the entire Midlands and Anglia. It would especially benefit all of the counties surrounding Bedford. Businesses (tourism and leisure) would be boosted and wonderful fun for residents too. For example, I have first hand experience of this from Silverstone in Northampton. Please do contact me for further information.	Would you support a potential park and resort coming to this site? Please explain why.

4236	Excellent opportunity for new jobs and collaboration with schools colleges universities. To enhance and improve the infrastructure and environment for the benefit of all. Putting Bedford on the map!	Would you support a potential park and resort coming to this site? Please explain why.
4714	Excellent opportunity to boost national tourism, create new jobs and redevelop the local area.	Would you support a potential park and resort coming to this site? Please explain why.
4148	Excellent opportunity to improve the area for jobs	Would you support a potential park and resort coming to this site? Please explain why.
1945	Exciting new theme Park in the new UK, it's what the UK needs this would be amazing and a great potential for all and would create so many jobs.	Would you support a potential park and resort coming to this site? Please explain why.
2963	Exciting opportunities for the whole area, increase in jobs, growth for the economy, improvements to local infrastructure, training and employment , not to mention how amazing it would be to have such an exciting resource in the county. Myself , my grown up children and grandchildren are very excited at the thought, having been to Universal resort in Florida and seeing first hand how well run and maintained the sites are and the pride employees took in their jobs.	Would you support a potential park and resort coming to this site? Please explain why.
4092	Exciting opportunity for local jobs. I would be happy to supply veterinary services to the park	Would you support a potential park and resort coming to this site? Please explain why.
2583	Exciting prospect for jobs and and training opportunities. Raising profile of the town and area and bringing it up market	Would you support a potential park and resort coming to this site? Please explain why.
4658	Fantastic opportunity for a world class entertainment bringing jobs and prosperity to the area. Great prospects for my kids future employment.	Would you support a potential park and resort coming to this site? Please explain why.
2803	Fantastic opportunity for the area. To bring new jobs and skulls.	Would you support a potential park and resort coming to this site? Please explain why.
2084	Fantastic opportunity for the UK, providing thousands of jobs and improving local infrastructure. Will also have an effect on other major theme parks in the UK, likely encouraging them to respond and thus providing work in those areas too. The impact of a park and resort will be felt much wider than just the Bedford area, and would be felt across the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2226	Firstly a theme park would just be so fun. Secondly all the jobs it would create would be fantastic for not only Bedford but also the wider area. It would also drive further tourism to the country as was seen in France when Disneyland Paris opened.	Would you support a potential park and resort coming to this site? Please explain why.
3246	Firstly, the benefits of generating local jobs with a high-quality employer who understands the benefits of investing in its people. Secondly, once established, this may attract other high class companies to take a look at locating operations in this area, especially given its excellent schools, transport links, etc. Finally, and less obviously, Bedford lacks a bit of self-belief in itself. I spent 30 years living in Edinburgh and 25 years working in London, both world-class locations. My 20 years living in Bedford have shown me that it too has great attributes including a lovely river-front, nice countryside, a long history and good people. If you are seen to incorporate ways to make it easy for your visitors to also come into Bedford itself (it is flat - ideal or bikes for instance), I believe Bedford will believe in what it can achieve, transform the town centre and make you proud to be located here.	Would you support a potential park and resort coming to this site? Please explain why.
2267	Firstly, to travel to an existing Universal park from Europe is of considerable cost, and time. Secondly, it will be a huge benefit to both the local, and further afield, communities, creating many jobs and bringing a lot of footfall to the area, boosting existing businesses.	Would you support a potential park and resort coming to this site? Please explain why.
3866	For all reasons already stated, more full time better paying jobs for potential to progress. Bring tourism to the area, this would in turn help develop other areas.	Would you support a potential park and resort coming to this site? Please explain why.
4026	For all the reasons already stated - great for creating jobs and good to have a new attraction of this scale in the UK generally	Would you support a potential park and resort coming to this site? Please explain why.
2412	For economic and social boost to area. Local jobs.	Would you support a potential park and resort coming to this site? Please explain why.
2916	For the job market as maintaining the park would create a lot of jobs after construction. Bringing in people to the local area and creating some competition for Merlin.	Would you support a potential park and resort coming to this site? Please explain why.
2289	For the reasons you list - it will put Bedfordshire on the map and create many hundreds of new jobs both during the construction period and once opened - I know Universal are also excellent at employing all age groups and not discriminating on grounds of age. This must happen!	Would you support a potential park and resort coming to this site? Please explain why.
1992	For the UK this would be an extremely positive move for the new jobs, careers, and economy.	Would you support a potential park and resort coming to this site? Please explain why.
2602	For untold benefits it would bring jobs new career opportunities Improved infrastructure for roads and railways Benefits to local businesses And indeed for the whole country I want this to go ahead	Would you support a potential park and resort coming to this site? Please explain why.

3436	fun and jobs	Would you support a potential park and resort coming to this site? Please explain why.
4652	Good for environment and good for new jobs.	Would you support a potential park and resort coming to this site? Please explain why.
3141	Good for jobs, good for community, will boost local economy, will bring people to Bedford, will help investment into the area - I generally think it is one of the best things that could happen for Bedford	Would you support a potential park and resort coming to this site? Please explain why.
3232	good for lots of jobs and makes kempston more bearable	Would you support a potential park and resort coming to this site? Please explain why.
4051	Good for the local and wider UK economy Create inbound tourism Create jobs	Would you support a potential park and resort coming to this site? Please explain why.
3978	Great facility to have for the whole of the UK, great to create new jobs and boost many existing local businesses	Would you support a potential park and resort coming to this site? Please explain why.
3247	Great facility to have locally and great for the town bringing footfall, investment and jobs for the next generations	Would you support a potential park and resort coming to this site? Please explain why.
3256	Great for bedfords economy. Jobs, good to have nice tourist area, something exciting to take the kids to	Would you support a potential park and resort coming to this site? Please explain why.
3225	Great for jobs and tourism in the area	Would you support a potential park and resort coming to this site? Please explain why.
3947	Great for the community/ area. New jobs, investment in infrastructure	Would you support a potential park and resort coming to this site? Please explain why.
2580	Great for the economy of the local area as well as the UK. Infrastructure developments will be a great asset to everyone, including us nearby residents. It will allow for Universal to tap into the large European market which currently doesn't benefit from a Universal Park. The high quality development will force competitors in the UK to push investment within their own parks, leading to other improved parks in the UK, creating new jobs across the UK. This proposed area is incredibly easy to get access too. From roads, London, Airports and by sea. Local students will benefit by having such a successful business nearby which can help them with developmental opportunities. Universal will want to work with local business and charities, benefiting everyone.	Would you support a potential park and resort coming to this site? Please explain why.
3983	Great opportunities to boost the local economy and provide new jobs and training. It would be great to see Bedford put on the map.	Would you support a potential park and resort coming to this site? Please explain why.
2462	Great opportunity for Bedford for new jobs and tourism opportunities. Universal can bring real change and benefit us positively so I would 100% support this project	Would you support a potential park and resort coming to this site? Please explain why.
4314	Great opportunity for jobs for local people. Amazing to have some so special local. Bringing tourism to a small town can surely only bring be a good thing for development and our economy	Would you support a potential park and resort coming to this site? Please explain why.
4306	Great opportunity for local employment opportunities, particularly for younger residents who find it difficult to find jobs to support them while they're studying.	Would you support a potential park and resort coming to this site? Please explain why.
4337	Great opportunity for local jobs and young people.	Would you support a potential park and resort coming to this site? Please explain why.
2092	Great opportunity for the economy and more jobs	Would you support a potential park and resort coming to this site? Please explain why.
3041	Great opportunity for the UK, many jobs created, visitors from overseas, excellent quality	Would you support a potential park and resort coming to this site? Please explain why.
4706	Great thing to experience, great jobs for people too	Would you support a potential park and resort coming to this site? Please explain why.
1673	Great to have a theme park in the area to create new jobs in the local area	Would you support a potential park and resort coming to this site? Please explain why.
2714	Just stay within any limits placed on the work, but this will also help local economy.	Would you support a potential park and resort coming to this site? Please explain why.
2437	Great to see more jobs being created and put the UK on the map as a must visit destination which will help the economy and the country as a whole. The UK public loves theme parks and are willing to send more at your park.	Would you support a potential park and resort coming to this site? Please explain why.
3771	Having a big attraction like Universal in Bedfordshire will support our economy and provide many jobs to the wider community. We would all really benefit in the long term from this change and I hope the community see the benefits this could bring.	Would you support a potential park and resort coming to this site? Please explain why.
3925	having a universal park in the UK would benefit us greatly it will open up new jobs and work opportunities as well as have a well known park in the UK thats easy to get too	Would you support a potential park and resort coming to this site? Please explain why.

4239	Having a universal resort a stones throw away is a dream come true, especially for those families who probably can't afford to travel to America for the experience. The project is only full of positives and benefits, not only for those who want to enjoy having such a theme park in the UK, but from those seeking new opportunities for work, creating more jobs from having more transfer links direct to the park. Financial growth for the local towns and even the country. I don't think one person of many has any negatives to say about the project and are keeping their fingers crossed for the project to be given the green light.	Would you support a potential park and resort coming to this site? Please explain why.
1925	Having been to orlando I understand the levels universal go to. It would add a massive boost to the UKs travel industry, create thousands of jobs. I can see universal coming to the UK as nothing other than a great opportunity for both universal and the uk.	Would you support a potential park and resort coming to this site? Please explain why.
2380	Having been to the other Universal parks, I believe that you will create a park that no only respects the area and will create jobs, but the land will not go to waste. Universal have created some of the best loved rides, most exciting coasters, and impressive theming I have ever seen. The quality of the parks are important and the UK has often fallen behind with most theme parks. This has the potential to bring more people into the area, but also offer the people who live in the UK a chance to experience an incredible theme park without the need to fly abroad.	Would you support a potential park and resort coming to this site? Please explain why.
3610	Having this new park would be fantastic for the UK and the local area of Bedford. It would create many jobs and many happy memories for years to come for all who visit. This can only be a good thing for the UK as a tourist destination, to enhance our Theme park scene and something to be really proud of. I only see positives.	Would you support a potential park and resort coming to this site? Please explain why.
4263	Having Universal in Bedford would be incredible. Not only would it help with local and small buisnesses with the extra tourism, but it would create thousands of jobs. And with Universal being big on the environment it would improve habitat locally	Would you support a potential park and resort coming to this site? Please explain why.
2121	Having visited multiple Universal Parks and Resorts I am a huge fan as theming always stands out at a Universal Resort. Also the jobs and the potential to boost the local and UK economy that a Universal Resort would bring is something the UK is in need of.	Would you support a potential park and resort coming to this site? Please explain why.
3852	Having visited Universal Orlando many times I beleive the UK is ripe for a similar park and will be very successful. In addition to creating lots of direct jobs the knock on impact will be significant.	Would you support a potential park and resort coming to this site? Please explain why.
4045	Highlighting that it would create 8000 jobs makes me concerned regarding the size and traffic impact. But would be great to be in a nearby location	Would you support a potential park and resort coming to this site? Please explain why.
4827	Honestly I think Universal coming to the UK would introduce not only more Jobs but better comperition in the Theme Park and Resort industry. Merlin Entertainment has a strong grip on the UK and we need more choices in our country rather than needing the travel abroad. Allowing the UK to have more enjoyable themed experiences!	Would you support a potential park and resort coming to this site? Please explain why.
3183	I 100% endorse this project. Bedford has long enjoyed an exceptional logistic location for the sheer amount of people that could potentially visit it. Although because of that it's falling into only really providing logistical jobs within warehouses, the modern work house outside of a call centre, which in turn don't provide many routes for advancement. Your proposal of jobs and training and if used to catalyse further and existing developments of creative industries in the area will be incredibly impactful for the immediate areas served by those excellent transport links.	Would you support a potential park and resort coming to this site? Please explain why.
3505	I am 32 years old and have visited the Orlando Universal site over 45 times. I know Universal will better the area by creating new infrastructure that supports the area, create thousands of jobs and bring enjoyment to people from around the globe. Watching Universal build Epic Universe in Orlando just shows how it will be done here in Bedford and it's extremely exciting to see.	Would you support a potential park and resort coming to this site? Please explain why.
3372	I am a fan of Universal Theme Park in Florida and I am excited about having a Universal Theme Park on my door step as I live in Wixams. I appreciate the opportunity afforded to my children for jobs in the future.	Would you support a potential park and resort coming to this site? Please explain why.
4194	I am very excited at the idea of a new park/resort coming to the area, it'll be great for tourism, jobs and something for people to do, will be nice to have bars and restaurants and some life injected into the area	Would you support a potential park and resort coming to this site? Please explain why.
3806	I believe it will bring a lot of people to the Bedfordshire and slightly wider area, increasing footfall and visitor attraction. It will also bring in more jobs for people who can commute to this area.	Would you support a potential park and resort coming to this site? Please explain why.
4910	I believe it will improve visitors to the area, which in turn will help the local economy. It will create new jobs and also improve the local transport systems	Would you support a potential park and resort coming to this site? Please explain why.
3074	I believe it would be great for the local area creating new jobs and social experiences	Would you support a potential park and resort coming to this site? Please explain why.

4157	I believe that the creation of jobs and general traffic in the Bedfordshire area will be beneficial to the economy of the area, and the UK as a whole. A globally-known attraction such as Universal already entices people to travel to visit the resorts, so having one so close to home will allow people to experience world-class experiences without much travel. As well as this, it will introduce a new world-class resort to Europe, giving more opportunity to surrounding countries which are too far from resorts such as in Asia and North America. As well as this, the development will introduce new competition into the UK theme park industry. At this moment, the industry is pretty much controlled by Merlin Entertainments. This impacts the parks that they own, as they understand that they are the biggest in the UK and that people will keep attending even without improvements, as there is a lack of choice. The introduction of a world-class resort such as Universal will disrupt the industry, promoting other parks to step up their game.	Would you support a potential park and resort coming to this site? Please explain why.
2521	I believe that this is an exciting opportunity to enhance Bedford and the surrounding villages. Not only will it provide growth through jobs and improvement to infrastructure, but it will give Bedford a sense of being, something to be proud of and talk to our friends and families about. The park could be an important part of the area and the lives of those who live around it for decades as well as those who visit for the park, who would go on to visit other local businesses bringing prosperity.	Would you support a potential park and resort coming to this site? Please explain why.
3617	I believe the economic development it will bring to Bedford will be massive, the amount of people it will draw in, the amount of new jobs, it will transform and change Bedford (for the better) - I believe it will also help with the development of the town centre which is in need of being brought up to date.	Would you support a potential park and resort coming to this site? Please explain why.
3996	I believe the footfall with impact Bedfordshire massively. It will allow jobs for local residents, and a fun safe place for our youth. Providing all that is detailed, this project may also improve cycle paths, roads and wildlife.	Would you support a potential park and resort coming to this site? Please explain why.
4638	I believe this is a fantastic opportunity for the area in terms of creating jobs & making improvements to the area, which will ensure businesses wish to invest in the surrounding areas. The creation of jobs too would be amazing. And it would be fabulous to have a brilliant, top of the range theme park on our doorstep	Would you support a potential park and resort coming to this site? Please explain why.
3140	I believe this park could bring both significant economic and social benefits to the Bedfordshire community. The opportunity to provide a range of jobs both full and part time to the people of Bedford would be fantastic. However, it's crucial that this project does make improvements to the local infrastructure whilst being mindful of local habits and environmental issues.	Would you support a potential park and resort coming to this site? Please explain why.
3318	I believe this project will help lift up the local economy and provide jobs and infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
4191	I believe this will not only be great economically for the area and country but also create many new jobs and properly put the country on the map as a proper tourist destination for theme parks/attractions	Would you support a potential park and resort coming to this site? Please explain why.
3551	I believe this would be a massive game changer in the UK theme park industry and as stated this will definitely help people that are trying to find jobs. Also this new project would boost UK tourism to a whole new level.	Would you support a potential park and resort coming to this site? Please explain why.
3154	I believe this would improve the local economy, bringing jobs and tourism to the area. As well as improving the local infrastructure. It would also be good from an entertainment perspective bringing an exciting activity to the area.	Would you support a potential park and resort coming to this site? Please explain why.
3820	I believe this would significantly rejuvenate the local economy and provide much needed jobs for young people entering the workforce. Especially in the performing arts.	Would you support a potential park and resort coming to this site? Please explain why.
4351	I can see the huge impact this would have on Bedford's economy. Unfortunately Bedford currently has little USP to support inward investment to the economy. Benefits to jobs both locally and regionally would be significant.	Would you support a potential park and resort coming to this site? Please explain why.
4819	I can see the site from my bedroom window. I am very positive for this and the jobs and improvements it will bring.	Would you support a potential park and resort coming to this site? Please explain why.
2555	I can't see many negatives to this proposal. It will create thousands of jobs, improve local transport and as a theme park enthusiast gives people in the UK the chance to experience a universal park. It is very exciting.	Would you support a potential park and resort coming to this site? Please explain why.
4682	I doesn't think I have the words to describe how wonderful I think this would be for Bedford and the surrounding areas. Outside of the creation of jobs and development the area, as someone who has visited several other Universal Studios across the world, and enjoyed themselves immensely, the prospect of having a park on my doorstep is incredibly tantalising. I have all my fingers and toes crossed that this will happen!	Would you support a potential park and resort coming to this site? Please explain why.

4447	I feel like it is a good thing for the local area! Upgrading infrastructure, creating jobs, helping the local economy- it's a win, win situation!	Would you support a potential park and resort coming to this site? Please explain why.
4345	I feel the opportunity of. Jobs and future economic benefits are great by bringing universal to bedford	Would you support a potential park and resort coming to this site? Please explain why.
3603	I feel we would benefit locally from the jobs and the tourism massively. Also it would instantly become the theme park hot-spot of the UK and would be the first of its kind. Super exciting for the UK. Couldn't agree with you building the park and city walk more	Would you support a potential park and resort coming to this site? Please explain why.
2755	I fully support this project as it is needed in the area. Not only for the jobs & economy boost, but to revitalise Bedford again and put Great Britain back on the World map for something positive, transformational and exciting. Personally, I love films and theme parks and only doesn't go to the existing UK ones as much because of distance. I would definitely visit this park on a regular basis, even if just to eat out or go to the cinema if that aspect goes ahead. I also believe that the revitalisation of the area would help more people get out and about if the cycle paths and walkways are improved as the existing ones doesn't all inspire exploration.	Would you support a potential park and resort coming to this site? Please explain why.
2365	I fully support welcoming Universal to Kempston Hardwick area. Since I was 3 years old every few years I have travelled to Florida to go to universal. Universal is a place for everyone and lots of fun and you make magical memories that last a lifetime, every time you go more memories get made and every time is different, you never get bored! To have universal on our doorstep would be a wonderful opportunity. The location is a sensible place, with good transport links and waste facilities nearby. Bedford is my hometown (I still live local) but I'm sad to return to its centre as once a vibrant town centre now hardly anyone goes there to shop, lots of shops lay closed and empty. Having universal on its doorstep would be a game changer economically for the local area. I know when I go to universal in Florida most of my time is also spent exploring Orlando and shopping, eating so having universal in Bedford would massively help our local areas economically. The jobs it would bring to the local area would help every generation. It's such an exciting opportunity for our local people. If you are worried about traffic doesn't be, I've always driven in a car to Florida universal and have never sat in a queue or been affected by one, the universal staff are fully experienced at getting everyone where they need to be without affecting roads! I'm sure universal will have their own trains so no one is affected train route wise. Reading about how Universal will help our local area too is really refreshing that a big company has chosen our area to invest. Working with local ecology and wildlife is great although I doesn't think much exists there at the moment as it's a bit scrub land and probably has some contamination issues, so improving around the site making the area nicer with landscaping would benefit wildlife and ecology and you would probably find more wildlife than is there now! If maybe you could find another area of land in the UK to buy the same size as the site at Kempston to 100% dedicate to tree planting and wildlife and ecology and training people in this would be a nice idea so you are effectively replacing what you plan to taken away, would be a nice idea. I feel welcoming Universal here with open arms for our future could really transform our area for the better. Good luck in your application.	Would you support a potential park and resort coming to this site? Please explain why.
2385	I have a personal interest due to having grandchildren living in Bedford. Additionally, I believe a project of this nature, would provide great opportunities for tourism to the area and improved links to the rest of the UK. Employment to the area would thrive and the town itself, which at present sees shops closing and the town residents therefore losing jobs improve.	Would you support a potential park and resort coming to this site? Please explain why.
4390	I have been to Universal Parks in Orlando since I was young and truly love the immersive environment and atmosphere that Universal is able to create. There is no other park like it here in the UK and to be able to visit somewhere as an adult that let's you let go and live your inner child is truly magical. We also don't have a lot going on around this area for local couples, families and kids so offering a new theme park and entertainment complex would in some respects be life changing for our communities. All of the advancements to the transportation networks would vastly improve the local area, the increase in jobs for the community going forward etc honestly this whole project would be a real boost to Bedfordshire as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
2517	I have been to your Florida park and seen the amount of employees and foot traffic and I believe that Bedford would strive on the possibility of more jobs and having a universal studios skyline would be amazing	Would you support a potential park and resort coming to this site? Please explain why.
4954	I have spend my entire life travelling the world visiting theme parks. To have a world class park seconds from my front door is a dream come true. I believe it will turn Bedford into a hub for tourism in the UK, creating jobs and endless opportunities. It gives locals a leisure option not available currently without hours of flying. It would be the greatest thing to ever happen to the area!	Would you support a potential park and resort coming to this site? Please explain why.

2125	I know this would help the local area with jobs and future opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4511	I live just under 1 hour away and I would really love to have this type of park which is going to be accessible without flying to USA. I am 56 and visiting USA for 46 years to visit parks in Orlando, but now i am getting older and have health issues which mean I cannot fly at present. I would love to be able to experience these leisure time activities as I miss them so much and they bring me such joy. I visit making of Making of Harry Potter Watford on a regular basis as it is about 35 mins drive for me and is accessible. Universal do such a great job of making a very immersive park and brings great joy to my family. I am planning another trip in 2026 when epic will be open if my health improves and i am able to fly but at moment no flying until health problem is received. Think Bedford and that general area would really benefit from the investment especially jobs as the area needs a big employer who could sustain long term viability . The market is there in this country for parks but it needs to be done to a high standard, hotel, clean/tidy, and all year open, i believe universal could deliver this for us. it would be very much appreciated but parks fans.	Would you support a potential park and resort coming to this site? Please explain why.
4877	I love theme parks and creating more j jobs is good	Would you support a potential park and resort coming to this site? Please explain why.
3927	I love theme parks and universal in Orlando is amazing. If its also going to bring more tourism to the UK and bring jobs to Bedford it seems a win win	Would you support a potential park and resort coming to this site? Please explain why.
3271	I love themeparks, and having this park would increase jobs which would be great for the economy and bring something fresh to the UK	Would you support a potential park and resort coming to this site? Please explain why.
4060	I may live approx 2 hours away however I believe this would be a massive step in the right direction for uk entertainment and theme parks. It is important local peoples views are taken into consideration as this has potential to effect their lives massively however thousands of jobs will be created for the local area however do worry if you could fill them. Uk job market nothing like US	Would you support a potential park and resort coming to this site? Please explain why.
3648	I strongly agree with the proposal of this theme park/resort. It will create new jobs and opportunities. It's something that is needed for generations to come.	Would you support a potential park and resort coming to this site? Please explain why.
4439	I think after center parks came to the area something like this on a very big empty space would be amazing opportunity to local people and so may various jobs and opportunities I think it would be such a boost to Bedford and the UK	Would you support a potential park and resort coming to this site? Please explain why.
2748	I think it is a amazing opportunity for growth and development of jobs and prosperity of the people. I cant wait for it to be built	Would you support a potential park and resort coming to this site? Please explain why.
3898	I think it is a really good opportunity for the local are to receive some much needed attention to local infrastructure and will be great for creating jobs in the area. It is an excellent location with good transport links so improving these for the local community will be a benefit, as will having a world class attraction on our doorsteps!	Would you support a potential park and resort coming to this site? Please explain why.
3222	I think it is great opportunity to create jobs and put Bedford on the map.	Would you support a potential park and resort coming to this site? Please explain why.
4276	I think it will be amazing for our community and create lots of opportunities and jobs, boosting the economy. I also think it would be lovely for locals to have something like this to visit.	Would you support a potential park and resort coming to this site? Please explain why.
3886	I think it will be brilliant to bring more people to the area. Local businesses will succeed and more jobs being available will be brilliant.	Would you support a potential park and resort coming to this site? Please explain why.
2472	I think it will be great for the local area. It will create so many different levels of jobs. It will hopefully help improve the infrastructure. It will also be something exciting on the doorstep! I love universal in Orlando so this is very exciting!	Would you support a potential park and resort coming to this site? Please explain why.
3541	I think it would be a fantastic boost for the area, not just in terms of having something 'fun' on our doorstep but also for the social and economic aspects too. It would great jobs for now and the future, give young people a focus, support business growth in Bedford and also support local infrastructure too.	Would you support a potential park and resort coming to this site? Please explain why.
3588	I think it would be a fantastic economic boost for Bedford. Clearly creating many jobs also!	Would you support a potential park and resort coming to this site? Please explain why.
4517	I think it would be a great boost to the local economy, providing jobs and opportunities and giving people a reason to be proud of where they live.	Would you support a potential park and resort coming to this site? Please explain why.
4151	I think it would be amazing for the local area and the country, providing thousands of jobs for the people of Britain, couldn't think of a better thing to come to the UK!	Would you support a potential park and resort coming to this site? Please explain why.
4494	I think it would be an amazing thing to have here and the upgrades we would get to local infrastructure and the jobs for our young people would be amazing	Would you support a potential park and resort coming to this site? Please explain why.

2922	I think it would be beneficial for many local people to get jobs, it would be great for local children to have this resort on their doorstep and a great boost for the local economy. I would hope that it would also help with environmental initiatives, planting trees etc.	Would you support a potential park and resort coming to this site? Please explain why.
2644	I think it would be excellent for both the UK and Bedford delivering new jobs and increasing the economic return of the area.	Would you support a potential park and resort coming to this site? Please explain why.
3721	I think it would be extraordinarily beneficial to the local and wider area. bringing in many more jobs and entertainment offerings. There are many millions of people who only live a 2 hour drive or rail journey from Bedford, many of which, like myself are huge theme park fans. To have a Universal theme park on our doorstep in the UK would be fantastic. I really hope you include some unique 'lands' to the UK park, such as Lord of the Rings, James Bond, Dr Who... some truly British iconic IP, along with Happy Potter of course. I visit Florida frequently and would like to see something unique in the UK park.	Would you support a potential park and resort coming to this site? Please explain why.
4820	I think it would be fantastic for Bedfordshire and the South East with good transport links to both M1 and A1. A really good project to create jobs and add value to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4484	I think it would be great at delivering jobs, visitors and regeneration for the area	Would you support a potential park and resort coming to this site? Please explain why.
2259	I think it would be great for the area and brilliant for the less fortunate in the country as they can visit a universal park. I also think it's great for jobs as university students can make some money	Would you support a potential park and resort coming to this site? Please explain why.
2083	I think it would be great for the area and the UK as a whole. I'm tired of all the investment that goes to London and not to the rest of the UK. It would be easy to access from all over. Well done on positioning and creating jobs, if goes ahead of course.	Would you support a potential park and resort coming to this site? Please explain why.
3618	I think it would be great for the UK economy, bringing great jobs and increased tax revenue. It would bring great social benefits, being something that would be enjoyable to local and wider communities. I would certainly visit the park often with my love for visiting the other Universal parks and something closer to home would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.
4414	I think it would bring great improvements to the area as well as creating a large number of jobs.	Would you support a potential park and resort coming to this site? Please explain why.
1814	I think it would create lots of jobs for young and old and would be fantastic for the area.	Would you support a potential park and resort coming to this site? Please explain why.
4931	I think it would create some great opportunities for local jobs and economy	Would you support a potential park and resort coming to this site? Please explain why.
1693	I think it's a great idea to see this potential Universal Theme Park being built here in the UK. As it will create Jobs, bring Tourist far and wide to the local area, also I'd like why you have choose Bedford as it's easy to get to from London and Across most parts of the UK. Also it being Universal one of the biggest Theme Park Attractions in the whole world, It be good for the UK Economy also and good support for local Businesses as well.	Would you support a potential park and resort coming to this site? Please explain why.
3139	I think it's a great opportunity for Bedford and local areas. Jobs are needed and Bedford has become like a lot of towns after Covid, not very nice places. This would give so many new and exciting things to do in the area and really put Bedford on the map again.	Would you support a potential park and resort coming to this site? Please explain why.

2590	I think it's such an exciting opportunity firstly on a selfish level. Having grown up in the area, some small improvements have been made but the only significant changes to the area have been increases in housing without any real investment into improving transport facilities & roads. The area was not particularly to grow up in and would often require us to travel away from the area for leisure however this would instead reverse this so that not only do we stay in the area with lots to do but would also draw others to here as a desirable and interesting location. I feel that economically, it will be tremendous for the area. Creating thousands of jobs, directly but also boosting house prices due to the proximity and the additional infrastructure, allow people to pursue their own business ideas in the area due to a guarantee of consistently high potential customer numbers. It will also be a boost for existing local and larger businesses such as the Centre Parcs Woburn Forest as a prime example. From having attended the consultation today, I can also see that extensive research has been done on the impact it would have on local traffic which does not appear to be an extreme amount but even if so, would be flowing in the opposite direction of my workplace so would not significantly impact the occasions where I do go on site to work. I think finally, another benefit it will bring is that I genuinely believe it will allow people in Bedford and the surrounding areas to be proud of where they live with such a monumental landmark. Bedford is not thought of as a particularly nice place to live and is a stones throw away, with the same small county as Luton which is constantly voted one of the worst places to live in the country however I really feel that long term it will have a significant positive and lasting impact on the surrounding areas changing it from a place people want to get away from to a place that people actively want to come to.	Would you support a potential park and resort coming to this site? Please explain why.
1953	I think it's brilliant idea, I think the area needs this. A lot of people here can't afford to go to Florida so having our own new park here in the UK would be fantastic. Bringing in new jobs is fantastic too.	Would you support a potential park and resort coming to this site? Please explain why.
2034	I think not only would it positively influence the local and wider communities for jobs and entertainment. But a great draw for tourism being the closest Universal for Europeans to come here and visit.	Would you support a potential park and resort coming to this site? Please explain why.
1829	I think that a large theme park would not only create many new jobs for the surrounding area, but also bring massive amounts of tourist to this area, and the UK in general.	Would you support a potential park and resort coming to this site? Please explain why.
2560	I think that a park like this would bring many benefits to the local area and the rest of the UK with the creation of jobs and increased tourism	Would you support a potential park and resort coming to this site? Please explain why.
3670	I think the positives it would bring to the local area including international tourism and national tourism , jobs and supply chain opportunities, they are no negatives I can think of.	Would you support a potential park and resort coming to this site? Please explain why.
4083	I think this is a once in a generation opportunity for this area. I support this project as a local resident and hope it goes ahead. I think jobs in tourism and hospitality are rewarding and provide great careers.	Would you support a potential park and resort coming to this site? Please explain why.
4052	I think this is an amazing opportunity to have a world class theme park in the UK, something which has never been available here before nor will it be ever or for a very long time. This will create thousands of jobs improving the economy and helping local people, it will also improve infrastructure and entice millions of visitors to travel to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2217	I think this is an excellent idea, the UK miss out on many opportunities within entertainment that countries like America have. It also created many jobs for people with us extremely beneficial as that is a struggle that is being faced now that when in years time and the site is complete will give many people jobs with created stability and comfort within people's everyday lives	Would you support a potential park and resort coming to this site? Please explain why.
1963	I think this is an exciting project that will benefit the UK economy, tourism, jobs and be something UK residents can be proud of. I think it benefit UK residents and tourists equally, and I really look forward to visiting!	Would you support a potential park and resort coming to this site? Please explain why.
3147	I think this is such an exciting prospect for the UK, it has brought hope and a huge buzz to so many people already as the UK theme Park industry is not brilliant in the UK and a lot are quite difficult to access to many. The prospect of an international company wanting to expand to the UK will do amazing things for tourism, jobs and income for the UK! It's so exciting and I have everything crossed!	Would you support a potential park and resort coming to this site? Please explain why.
2203	I think this is what the uk and Europe needs. The amount of jobs and opportunities this will bring to the uk will be amazing. I personally have looked into working for similar companies in the past but always needed to relocate to another country, this will change this and give so many opportunities to all the local communities. The universal experience is one that people from the uk often call the "once in a lifetime holiday", which is lovely but having a resort in the uk will make this so much more accessible for the masses. I am fully behind this project.	Would you support a potential park and resort coming to this site? Please explain why.
4249	I think this will be transformative for the area, the opportunities it will create for jobs and local development are huge. This can only have a positive effect on the surrounding area and will be an amazing opportunity for jobs for locals either directly or indirectly.	Would you support a potential park and resort coming to this site? Please explain why.

3814	I think this would be a fantastic addition to the Bedford community and surrounding areas. It would support local businesses and create many jobs as well as being an exciting and inspirational local attraction to visit.	Would you support a potential park and resort coming to this site? Please explain why.
3108	I think this would be a great opportunity for the whole of Bedford and the surrounding areas. Will give the young people something fun to visit and provide many jobs while bringing in more trade for other businesses near by	Would you support a potential park and resort coming to this site? Please explain why.
4273	I think this would be an excellent opportunity to improve Bedfords local economy, improve the road and transport network. The park would attract jobs which would boost local house prices. So long as the developers truly invest in local infrastructure, mainly roads and rail, I support this. It would also be good if investment funds went to the local town centre to develop restaurants, bars, shops etc.	Would you support a potential park and resort coming to this site? Please explain why.
3029	I think universal parks are extremely positive for the area. It brings lots of tourism to the county and could create not just jobs within the parks but could create small businesses around the park offering different services and products for tourists. I wholeheartedly support this project	Would you support a potential park and resort coming to this site? Please explain why.
2270	I think with the economical benefits that the park will provide long and short term is something the UK has been missing. Though we have local parks that are really good, having a big name like universal will draw a lot of tourists into the UK which in turn will help create jobs outside of Universal as well as support local and small businesses. I personally would make sure I visit the park several times a year and I think the very idea of the parks existence (weather or not it come to be) is something that is exciting.	Would you support a potential park and resort coming to this site? Please explain why.
2333	I visit universal Orlando almost every year and the prospect of a theme park of that quality coming to the uk and the excitement I have for epic universe being built, a theme park on that level in the uk would be amazing. I'm also excited what this would do for our other theme parks we have. I have already noticed a step up in there reverb jobs and ride additions with universal just being mentioned. So cannot wait to see what they do if this project goes ahead.	Would you support a potential park and resort coming to this site? Please explain why.
2971	I welcome a project that brings jobs and a reputable entertainment opportunity within easy reach of London. Having had a positive experience of Universal Florida, I would welcome the chance to benefit from this for my family here in the UK	Would you support a potential park and resort coming to this site? Please explain why.
4891	I will support this development on the proviso that it give meaningful employment with higher than average pay scales and full time employment (40 ours a week) and not claim to create 200 jobs then in the small print fins its 200 jobs at 16 hours !!!	Would you support a potential park and resort coming to this site? Please explain why.
2192	I would 100% support this project for the reasons stated above. This project would be a huge boost for the UK economy and create thousands of ongoing jobs.	Would you support a potential park and resort coming to this site? Please explain why.
2386	I would absolutely back this project all day long. First and foremost I am a theme park enthusiast and travel the world to ride different rollercoasters and attractions and have already been to multiple universal parks and the amount of effort and attention to detail that goes into your parks is next level and they really are the best of the best attractions in the entire world. I think the benefits it could bring to the local area and UK as a whole are endless, not only will you be creating thousands of jobs but many businesses will look to come to the Bedfordshire area such as hotel chains, business HQs, shopping centres and more because the footfall within the area would be a huge opportunity for them. So not only would that massively help the economy but that would further increase job opportunities which is really important. I am heavily invested in this project and personally would be looking to work for the resort if we got to the stage where this becomes a reality. Anything to make sure this goes ahead!	Would you support a potential park and resort coming to this site? Please explain why.
4896	I would absolutely love this to happen. This would revitalise Bedford, creating lots of jobs and opportunities for the local community and tourism, providing economic benefits to the area. We also have great transport links so it's a great place for it to be. It would also provide local residents something to do on a regular basis which is currently lacking in Bedford. I also love theme parks so really want this to go forward!	Would you support a potential park and resort coming to this site? Please explain why.
2735	I would be very interested in applying for future employment in Universal Great Britain. I have already considered moving to Florida and applying for jobs at Universal Orlando.	Would you support a potential park and resort coming to this site? Please explain why.
2951	I've been to many theme parks and absolutely love them. So much to do for all. The location is also perfect for where it is in comparison to London, Warner Brother Studios, Luton airport etc. Also, I think that many jobs being created for the area would be incredible	Would you support a potential park and resort coming to this site? Please explain why.
3104	I'd love to see the area improved, local jobs created and more people driven to the area to support the local economy. I'd also love to visit the park as a guest, hoping that local residents are given some form of discount, and may consider a job opportunity myself at the park.	Would you support a potential park and resort coming to this site? Please explain why.

2164	If it matches the quality that Universal are achieving with Epic Universe, it will be the best resort in the UK. It's going to drive tourism, improve the area, create jobs. What's not to like? If you build it, we will come!	Would you support a potential park and resort coming to this site? Please explain why.
4265	If this park is built it would have a square footage larger than the resort in Los Angeles and possibly larger than in Orlando. This would have significant effects on tourism in Bedfordshire and throughout the wider East Anglia region. The creation of jobs, improvement of rail links as well as a high quality built environment within previous parks makes me feel that this park would improve the local area. There would also be many jobs and opportunities created for people which with employment in the area.	Would you support a potential park and resort coming to this site? Please explain why.
2136	I'm a massive theme park enthusiast who has visited lots of parks over Europe, the UK and have visited your Orlando resort. I visit theme parks in the UK at least once every week so when I heard about this potential project I was so excited. This will hugely benefit the UK as we have nothing on this scale. I live around 1hr40mins away and would happily visit multiple times a year. The amount of jobs this project will bring is incredible and will be a positive development to Bedford. By the time this project is hopefully complete I will have a daughter who will also be old enough to experience this resort as well. I cannot contain my excitement and will be hugely disappointed if this does not proceed to go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
4329	I'm sure that such a large, statement investment by Universal would be extremely well received by the local - & wider - UK economy, and pay dividends for years into the future. The creation of jobs for the local economy would be tremendous, there's a pool of local talent to develop in to future careers. The increase in visitors to the town, driving additional spending, would be a brilliant boost. The opportunity for Hospitality training schemes for local youths, with a view to employment potentially, would be so beneficial (writing as a father of a young child at the moment). The wider area is full of friendly, welcoming individuals - it would be brilliant to open Bedfordshire's arms to the world.	Would you support a potential park and resort coming to this site? Please explain why.
2557	Improve prospects for local economy and provide jobs for local residents. Would put Bedford on the map.	Would you support a potential park and resort coming to this site? Please explain why.
4015	Improvements in infrastructure, local jobs, boost to the economy	Would you support a potential park and resort coming to this site? Please explain why.
3818	Increase in jobs. Improved local places to visit and eat at. Who doesn't love a theme park?	Would you support a potential park and resort coming to this site? Please explain why.
3038	Increase of jobs, footfall, attention to area, tourism	Would you support a potential park and resort coming to this site? Please explain why.
4531	Increased jobs and tourism for the UK	Would you support a potential park and resort coming to this site? Please explain why.
2807	Increasing business opportunities jobs infrastructure the economy	Would you support a potential park and resort coming to this site? Please explain why.
4311	Investment in a perhaps forgotten part of England. Use of a brownfield site. Creation of jobs. Infrastructure improvements.	Would you support a potential park and resort coming to this site? Please explain why.
4645	Investment in local infrastructure and jobs has the potential to revive Bedford for the next 100 years!	Would you support a potential park and resort coming to this site? Please explain why.
3275	Investment in the area would create jobs	Would you support a potential park and resort coming to this site? Please explain why.
3096	Investment in the local area would be very welcome for the reasons that have been suggested; infrastructure and jobs.	Would you support a potential park and resort coming to this site? Please explain why.
4424	Investment into the area, jobs, training for varied skill sets, boost in footfall for Bedford Town, increase in house prices, I love Universal Parks	Would you support a potential park and resort coming to this site? Please explain why.
2598	It can only create more jobs and make infrastructure better	Would you support a potential park and resort coming to this site? Please explain why.
3331	it is a fantastic opportunity for the UK, and will enhance the country and provide massive numbers of jobs	Would you support a potential park and resort coming to this site? Please explain why.
3013	It is a great opportunity for the area and makes something fun like a theme park more accessible to people of Bedfordshire and the East of England as most things are in London or further north. It also has potential for new jobs, better road/public transport infrastructure and putting Bedford on the map.	Would you support a potential park and resort coming to this site? Please explain why.
3521	it is an improvement to the local area bring jobs and opportunities not just your site but for local business	Would you support a potential park and resort coming to this site? Please explain why.
2250	It is important for a theme park on the scale of universal to have a destination in the UK for tourism, jobs, not having to travel hours on a plane. Tourists from Europe will use this as their local resort.	Would you support a potential park and resort coming to this site? Please explain why.

1940	It is such a huge boost for Bedford and surrounding areas and the UK as a whole, that a company as large and amazing as Universal believes in the UK and investing. It will create so many opportunities for many people, especially young people wanting work experience and who better than universal. It is so exciting for us brits to think we can. Is it a universal park here in our own country. It will bring tourists , jobs and so much happiness. This is what the UK needs.	Would you support a potential park and resort coming to this site? Please explain why.
3425	It offers new jobs and opportunities to people in the area.	Would you support a potential park and resort coming to this site? Please explain why.
4959	It seems like a great investment into the UK economy, creating thousands of jobs, redeveloping an empty area, caring for wildlife, creating new leasure facilities	Would you support a potential park and resort coming to this site? Please explain why.
4118	It was be a privilege to have this on our door step with close links to rail M1 and airport. With expected links between Oxford and Cambridge this can only be a benefit to much loved Bedford. I speak with younger generation who are finding it hard locally in respect to Jobs and employment, this project is very favourable. Years ago we lost out on the Nirex project on the same site, it would be disheartening if this project did not go ahead. Not forgetting it will so put Bedford on the map.	Would you support a potential park and resort coming to this site? Please explain why.
4395	It will an amazing investment for the area. Creating jobs and improving the economy.	Would you support a potential park and resort coming to this site? Please explain why.
3049	It will be a not only an interesting attraction for holiday makers but for locals too. It will create jobs, make use of the land and sounds like it will also improve the area environmentally with trees and wildlife.	Would you support a potential park and resort coming to this site? Please explain why.
3757	It will be amazing for the local and wider area to create jobs	Would you support a potential park and resort coming to this site? Please explain why.
3223	It will be excellent for the area and bring jobs for people who need them	Would you support a potential park and resort coming to this site? Please explain why.
4943	It will be of enormous benefit to Bedford, bringing jobs to the town and tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4226	It will be really good for Bedford creating jobs and also bringing others to the area so boosting local hotels. Also would love to be able to walk to the park and become annual members	Would you support a potential park and resort coming to this site? Please explain why.
1833	It will benefit the economy, creating more Jobs and the resort would be a great addition to the UK for everyone including theme park enthusiasts like myself.	Would you support a potential park and resort coming to this site? Please explain why.
2826	It will bring jobs and money for the local community.	Would you support a potential park and resort coming to this site? Please explain why.
4756	It will bring jobs and revenue to the area	Would you support a potential park and resort coming to this site? Please explain why.
1969	It will bring jobs, improve the area, my father worked on the site and it would be brilliant to see it being used	Would you support a potential park and resort coming to this site? Please explain why.
4697	It will bring large jobs and infrastructure improvements to the area, develop a derelict site, put Bedford on the map and bring hugh economic growth to the area and lots of tourists hopefully also staying around in Bedford and MK. Also inward investment to the UK. Also not a greenbelt and relatively away from houses yet near to get to. It also provides proper competition to UK/European theme parks and reduces Merlins monopoly.	Would you support a potential park and resort coming to this site? Please explain why.
1818	It will bring life and energy to the area particularly for younger people. It will increase cultural diversity through tourism which our population definitely needs. It will create jobs and benefit local businesses. It is lovely to have a significant development plan that is not based in London.	Would you support a potential park and resort coming to this site? Please explain why.
2730	It will create jobs	Would you support a potential park and resort coming to this site? Please explain why.
4388	It will create jobs and investment in the local area, and increase tourism.	Would you support a potential park and resort coming to this site? Please explain why.
3825	It will create jobs, and opportunities for younger people in the local area. I will fully support the development.	Would you support a potential park and resort coming to this site? Please explain why.
4861	It will create jobs, develop new skills and attract visitors to the area which will benefit residents and local businesses. It will also be a major attraction to foreign tourists visiting the UK. The siting is perfect being so close to London and within a two hour drive of most the population in England. Go for it.	Would you support a potential park and resort coming to this site? Please explain why.
4566	It will create lots of new jobs for the people that live in Bedfordshire and improve the Bedfordshire as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
1901	It will create many jobs, good for economy, will bring a lot of tourism, will upgrade an often forgotten town, improve the rail network (hopefully).	Would you support a potential park and resort coming to this site? Please explain why.

3056	It will create more jobs for the local people including myself and bring in more tourists and help the town to be on the map Aswel as give something for the children to be able to do in the town as there is nothing here for them.	Would you support a potential park and resort coming to this site? Please explain why.
2673	It will create so many jobs and opportunities for many people, it will increase money and tourism to the surrounding areas, we need something like this in the UK	Would you support a potential park and resort coming to this site? Please explain why.
2234	It will create thousands of skilled jobs during construction and further opportunities down the line upon completion. Will also provide high level entertainment which is missing from not only the local area but throughout the majority of the UK unless you live in the city of London	Would you support a potential park and resort coming to this site? Please explain why.
3681	It will develop Bedford. It's a great site near to the motor way. Jobs and opportunities for local people. Also the opportunity to experience your park. Hope your considering a discount day for local people	Would you support a potential park and resort coming to this site? Please explain why.
3869	It will help with the infrastructure of the local area and provide much needed jobs. The opportunity to host such a renowned brand name is a privilege and the increase to tourism will be greatly beneficial to the local and surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why.
3452	It will improve the local infraestructura while creating local jobs	Would you support a potential park and resort coming to this site? Please explain why.
2844	It will provide an exciting new place for people to work, especially for highly specialized jobs.	Would you support a potential park and resort coming to this site? Please explain why.
3335	It will provide jobs, entertainment and hope to the people of Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
4481	It will provide many jobs for the area and better entertainment for the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3546	It would act as a huge shakeup for the UK theme park industry, bolster competition and reduce stagnation. Creates jobs and opportunities for people in the UK and a massive boost to infrastructure and tourism. Will encourage Alton Towers to try harder with their theming.	Would you support a potential park and resort coming to this site? Please explain why.
2247	It would be a dream come true to have such a legendary park such as Universal here, in the UK! First of all, thank you so much for considering the UK out of (I imagine) multiple potential sites across Europe. This would be a considerable boost to Tourism and create many much needed jobs in the area. I can't wait to hear more!	Would you support a potential park and resort coming to this site? Please explain why.
1986	It would be a huge help to the UK for visitors and help with infrastructure. Also as mentioned help 1000s of people with jobs. Could also help children in college do degrees and then go onto a job with universal further down the line. Like an engineer or manager in you're company for the UK. It's a huge opportunity for the UK to have.	Would you support a potential park and resort coming to this site? Please explain why.
1966	It would be a major tourist attraction, and would get people moving away from London which will hopefully allow for currently underused transport routes to be used. Besides this, it will create so many jobs for the local area and give young people especially a sense that they could have a career in a globally recognised company	Would you support a potential park and resort coming to this site? Please explain why.
4651	It would be a massive positive to the entertainment and leisure industry which is significantly lacking in this part of the country. It would rejuvenate the area and bring in fantastic economical opportunities. Development to transport infrastructure is also a great bonus. As someone who enjoys theme parks and is local this is very exciting and would certainly visit as a guest and maybe as an employee one day if any finance jobs are going!	Would you support a potential park and resort coming to this site? Please explain why.
4047	It would be amazing for the economy of the uk, create jobs and our tourism would boom even more. We own a local pub restaurant and I think it would be amazing for us.	Would you support a potential park and resort coming to this site? Please explain why.
4294	It would be amazing to create jobs and bring more tourism during this cost of living crisis, and also the location is perfect with it being so close to London people will be able to get there easily, the UK hasn't had something like this for a very long time so it would create an insane buzz, I don't know a single person who wouldn't go absolutely crazy for something like this to happen.	Would you support a potential park and resort coming to this site? Please explain why.
3656	It would be amazing to have a Universal Park in the UK and we would be frequent visitors. It would also create lots of jobs and boost the economy. We really hope this project will go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
3393	It would be amazing to have something like this in Bedford as there is nothing else like it around. Universal in Florida is my favourite place on Earth and I know I would feel the same about one more locally. The amount of jobs and tourism it would bring to the area would be amazing aswell	Would you support a potential park and resort coming to this site? Please explain why.
4777	It would be amazing!!! New jobs, money coming into the area and fun fun fun!!	Would you support a potential park and resort coming to this site? Please explain why.
4462	It would be an exciting attraction for the local area, bringing jobs and investment.	Would you support a potential park and resort coming to this site? Please explain why.

2923	It would be an incredible opportunity for jobs, income generation and wider economic impact.	Would you support a potential park and resort coming to this site? Please explain why.
4923	It would be brilliant for local residents for jobs and training and brilliant for the UK as a whole providing a world class resort that the country does not have. This would help tourism everywhere with a big economic benefit. And I would love to visit the resort with all my friends and family!	Would you support a potential park and resort coming to this site? Please explain why.
4892	It would be fantastic for the local area, provide jobs for our young people, improve infrastructure and give the people of bedford something to be proud of.	Would you support a potential park and resort coming to this site? Please explain why.
4894	It would be great for Bedford in terms of creating jobs and rebuilding Bedford to the way it used to be.	Would you support a potential park and resort coming to this site? Please explain why.
3531	It would be great to have such a facility in the area together with the creation of so many jobs. London Luton Airport is close by and international travel would improve the economy significantly.	Would you support a potential park and resort coming to this site? Please explain why.
4434	It would be great to have such an investment into the area. Creation of jobs and support for the local community.	Would you support a potential park and resort coming to this site? Please explain why.
3767	It would be great to have this on my doorstep and I believe it would create many jobs for the local area as well	Would you support a potential park and resort coming to this site? Please explain why.
2040	It would boost jobs and the economy and as I live less than 10 minutes away it would be good to visit regularly and boost town moral	Would you support a potential park and resort coming to this site? Please explain why.
3398	It would bring a lot of new jobs and businesses nearby	Would you support a potential park and resort coming to this site? Please explain why.
2790	It would bring amazing regenerative benefits to the area not only bringing jobs but other companies and investment as well. I would also be so proud and excited to have a Universal park in the UK!	Would you support a potential park and resort coming to this site? Please explain why.
3664	It would bring jobs and interest to the area. It would make it an exciting place to live and work.	Would you support a potential park and resort coming to this site? Please explain why.
2500	It would bring jobs, investment & eminetiys to the area..especially the bars, restaurants and entertainment in the city walk that can be used by local residents to the park	Would you support a potential park and resort coming to this site? Please explain why.
2179	It would bring more jobs and better infrastructure to the area. We would hope Bedford itself would improve as a result with investment into the high street and interesting shops and restaurants.	Would you support a potential park and resort coming to this site? Please explain why.
4156	it would bring much-needed jobs to the area and would also be great for the local economy and the UK economy. Also would allow families who can afford to go abroad to have a full-themed theme park to visit.	Would you support a potential park and resort coming to this site? Please explain why.
2485	it would bring significant numbers of jobs to the area, significantly more money to the area, allow the growth of the area more and also provide a brilliant entertainment experience to the area, in a space where thrill rides are scarcely found, the closest is thorpe park, which is still 70 miles away from the proposed location	Would you support a potential park and resort coming to this site? Please explain why.
1985	It would contribute significantly towards the economy, create thousands of jobs and increase tourism. As a theme park enthusiast the choice we have in the uk are great but nothing comes close to the immersion, detail and thrill that are delivered by our American cousin's across the pond. In the UK we are very passionate about our rides and it would give us a great amount of pride to welcome visitors from overseas and represent the Universal brand. I really hope this gets approved and signed off.	Would you support a potential park and resort coming to this site? Please explain why.
2853	It would create jobs, improve the environment of the area, utilise brown field land for projects other than housing, and recreation facilities.	Would you support a potential park and resort coming to this site? Please explain why.
1946	It would create so many jobs, help the area transport wise and who wouldn't want a universal theme park in there back yard I've been to the one in Orlando it's magical it would do so much for our country	Would you support a potential park and resort coming to this site? Please explain why.
2167	It would drastically help the local community and the UK with jobs, a place to make memories for people who can not vist other Universal parks.	Would you support a potential park and resort coming to this site? Please explain why.
3116	It would great for the area, adding in much needed jobs	Would you support a potential park and resort coming to this site? Please explain why.
3493	It would help the economy Create thousands of potential jobs It will help tourism in place which wouldn't see much tourism (like Bedford)	Would you support a potential park and resort coming to this site? Please explain why.
3706	It would help to greatly boost tourism in the UK, bring lots of jobs, improve infrastructure, increase footfall in and around the area and drive more money into the country's economy.	Would you support a potential park and resort coming to this site? Please explain why.
4875	It would improve the area of Bedford drastically as there is not a lot on offer in Bedford. Not only jobs but something for families to do. Would there be a local discount given to those who lived in the area? Would be a nice incentive for those who live locally.	Would you support a potential park and resort coming to this site? Please explain why.

3485	It would not be a bad thing to create so many jobs in the UK and bring more tourists, so long as the local infrastructure is greatly improved to cope with the increase in footfall in the area, and there are efforts made to ensure the local wildlife can still thrive.	Would you support a potential park and resort coming to this site? Please explain why.
3487	It would provide families an opportunity to visit a world class resort without having to travel to the USA or Asia. It will also provide thousands of jobs to young people who are in need of employment and training.	Would you support a potential park and resort coming to this site? Please explain why.
2280	It would provide jobs, It would be great for a local theme park in the area, as there are not many, good for the environment	Would you support a potential park and resort coming to this site? Please explain why.
4780	It would provide many jobs and infrastructure improvements for local people	Would you support a potential park and resort coming to this site? Please explain why.
2568	It would provide significant employment opportunities to the local area. There would be the option of using apprenticeships with valuable jobs for young people entering the employment market.	Would you support a potential park and resort coming to this site? Please explain why.
3135	It would provide thousands of jobs and would increase tourism for local businesses.	Would you support a potential park and resort coming to this site? Please explain why.
2248	It would provide thousands of jobs both directly and indirectly, improve infrastructure for locals, and provide an immersive experience that many people in the UK desire to visit in the country. It would open Universal experiences to thousands of people who can't afford to fly to the USA or Asia.	Would you support a potential park and resort coming to this site? Please explain why.
3280	It would raise the profile of the area. It would also bring revenue for the local area and create numerous jobs. Just look at Orlando	Would you support a potential park and resort coming to this site? Please explain why.
2060	It would simply be great for the U.K. to have its first proper American theme park. I love Universal Studios Florida, so to have an equivalent park here would be incredible. As well as creating 8,000 new full time jobs it would be a much better use of the land than building more industrial warehouses.	Would you support a potential park and resort coming to this site? Please explain why.
3639	It'll bring enormous economic benefits to the area, create thousands of jobs and put Bedford on the map again following decline in popularity and business.	Would you support a potential park and resort coming to this site? Please explain why.
2100	It's a great place to put one we need more tourist attractions in the uk and it's good for jobs for the area	Would you support a potential park and resort coming to this site? Please explain why.
1918	It's an excellent opportunity for the area and will create jobs and give a huge boost to the local economy. It's just what the area needs.	Would you support a potential park and resort coming to this site? Please explain why.
4693	It's good for the prospects and future of the whole area. Creating jobs, sustaining nature.	Would you support a potential park and resort coming to this site? Please explain why.
1797	It'd be great for the economy and creating jobs as well as training opportunities	Would you support a potential park and resort coming to this site? Please explain why.
2722	It'll bring jobs to the local area, improve the rail links and its something for all the family	Would you support a potential park and resort coming to this site? Please explain why.
3481	It's a great company brand, with the potential for many thousands of jobs. Our children would have a huge benefit from such projects happening in our local area. Not only would it help the local community it would be great for the country.	Would you support a potential park and resort coming to this site? Please explain why.
4037	It's somewhere we would definitely visit, the investment into the area, new jobs, attracting people to the area. Would really like the project to go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
1844	I've been to two universal parks in the US and they are incredible. They would not only bring in guests but jobs and tourists from overseas. These tourists from overseas would then likely visit other UK theme parks and towns helping the economy.	Would you support a potential park and resort coming to this site? Please explain why.
2317	I and my family think this is wonderful having been to Florida theme parks for over 25 years and seen the employment opportunities and local economic growth. Cant wait.	Please share any other feedback you have at this stage.
2773	Lack of jobs in area	Would you support a potential park and resort coming to this site? Please explain why.
4556	Living locally in Wixams we would love a big theme park nearby for local families, more jobs in the area would be fantastic.	Would you support a potential park and resort coming to this site? Please explain why.
4924	Local communities will benefit, will raise potential for the young people and jobs this will help with esteem and give them pride. Bringing universal to here would benefit our small businesses and definitely help the local communities.	Would you support a potential park and resort coming to this site? Please explain why.
4856	Local jobs and improved access to the area	Would you support a potential park and resort coming to this site? Please explain why.
4608	Local jobs, it's close to home and it's exciting to be able to visit somewhere like this easily, my children would love it.	Would you support a potential park and resort coming to this site? Please explain why.
2235	Local word class theme park, jobs and infrastructure	Would you support a potential park and resort coming to this site? Please explain why.

3748	Lots of new jobs (direct and indirect)	Would you support a potential park and resort coming to this site? Please explain why.
4103	Lots of new jobs and money into the local economy. Should drive infrastructure improvements. Also generally really exciting - love the parks in the US so excited to see what could be done in the UK	Would you support a potential park and resort coming to this site? Please explain why.
2635	Lots of new jobs for the area plus lots of new customers for near by shops and hotels	Would you support a potential park and resort coming to this site? Please explain why.
2831	Lots of socio-economic benefits for the UK and would push development and improvement of the themed entertainment industry in the UK, also supporting jobs in this sector, which are currently limited in the UK but have a lot of interest about them.	Would you support a potential park and resort coming to this site? Please explain why.
2177	Lots of UK residents could never afford to go abroad to have this experience Jobs and training for UK children Building something better than more warehouses that sit unused Harry Potters home is in the UK and we should have our own unique version of it here A celebration of British film	Would you support a potential park and resort coming to this site? Please explain why.
2261	I am currently studying mechanical engineering with hopes to go into the theme park industry and a project like this will help get the opportunity's which are so rare to come by in England.	Would you support a potential park and resort coming to this site? Please explain why.
4237	Love the universal parks in Florida and see you do a lot with communities and it would be a great benefit to jobs etc	Would you support a potential park and resort coming to this site? Please explain why.
4198	Love visiting universal in Florida and having this on the doorstep would be amazing, never mind all the jobs and tourism it would bring to the area.	Would you support a potential park and resort coming to this site? Please explain why.
3262	Massively important not just for Bedford but for the UK, 8000 people wouldn't just come from the local area but from further afield across the UK, triggering secondary opportunities for further jobs and economic improvements such as house building.	Would you support a potential park and resort coming to this site? Please explain why.
3716	Merlin Entertainments currently have a monopoly on UK tourist attractions, so strong competition would be very beneficial for UK tourism as a whole. The jobs created by the resort would also greatly help the local economy.	Would you support a potential park and resort coming to this site? Please explain why.
1784	More jobs and better infrastructure is much needed in this area	Would you support a potential park and resort coming to this site? Please explain why.
2026	More jobs and it will bring more tourists to the uk .	Would you support a potential park and resort coming to this site? Please explain why.
2825	More jobs and leasure opportunities	Would you support a potential park and resort coming to this site? Please explain why.
2918	More jobs is better than dormant land	Would you support a potential park and resort coming to this site? Please explain why.
4129	More jobs to the local area. Creating opportunities for the kids going through secondary school at the moment. Be nice to have something other than housing being built in the local area	Would you support a potential park and resort coming to this site? Please explain why.
2747	More jobs!	Would you support a potential park and resort coming to this site? Please explain why.
2991	My reasons reflect the statement above, Our resorts create thousands of jobs	Would you support a potential park and resort coming to this site? Please explain why.
2495	New jobs and infrastructure would be very helpful and certainly make a tremendous difference to the area	Would you support a potential park and resort coming to this site? Please explain why.
3260	New jobs for local people and economic benefits for the local area. Just must consider the effect on the surrounding roads that are used daily by local people.	Would you support a potential park and resort coming to this site? Please explain why.
2204	New jobs not only for the park but surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why.
2148	new jobs, economic improvement and foot traffic to the area	Would you support a potential park and resort coming to this site? Please explain why.
2793	Not only is it an exciting prospect to go there as a visitor but the UK needs more decent jobs for people and this will createfantastic opportunities	Would you support a potential park and resort coming to this site? Please explain why.
2932	Not only jobs, but local businesses will benefit, hotels, restaurants, shops etc	Would you support a potential park and resort coming to this site? Please explain why.
4104	Oporutnies for local jobs. Potential to improve road and rail networks	Would you support a potential park and resort coming to this site? Please explain why.
4199	Opportunity for new careers and jobs for locals. More investments into the area.	Would you support a potential park and resort coming to this site? Please explain why.
3883	Our area of the uk has been lacking this kind of investment for many years. It's an ideal site for development with great road links. The jobs would be an enormous boost for the local communities.	Would you support a potential park and resort coming to this site? Please explain why.

2498	Popular attractions is always exciting to have locally. Also create jobs abd improve Bedford as a whole	Would you support a potential park and resort coming to this site? Please explain why.
3238	Primarily for attracting footfall to Bedford. Also to improve infrastructure, create jobs and make good use of a laregly brownfield area.	Would you support a potential park and resort coming to this site? Please explain why.
4844	Provides competition to theme parks around the country. Creates jobs and helps local economy. Provides investment to local infrastructure helping people local and regionally.	Would you support a potential park and resort coming to this site? Please explain why.
4902	Regenerate the whole area creating new jobs and improving transportation links. Putting the area on the map	Would you support a potential park and resort coming to this site? Please explain why.
3434	Relatively easy access to major towns and cities in England, plus Disneyland Paris customers can come and do both parks very easily. New jobs, new economic opportunities, new life breathed into the UK theme park industry. Well needed site development and exciting times for the UK! Can't wait to welcome you!	Would you support a potential park and resort coming to this site? Please explain why.
1822	Since all Universal parks are either in Asia or America (and all are very popular), it would be super beneficial for both Universal and tourists to bring a Universal park to Europe as it would allow easier access to a considerate number of people all across Europe who do not have the means to visit a park in another continent. The rise in tourists would also be beneficial for England and the UK and a new Universal theme park would achieve this. The UK also has some extremely popular theme parks already, proving that a new one would be quite popular and bring a considerate amount of income to Universal studios and the UK in general. it would offer such an amazing array of opportunities for young people looking for jobs. Personally, as a costume design student, the park would bring me a job opportunity to work on costumes for the park which I am super excited about.	Would you support a potential park and resort coming to this site? Please explain why.
2320	So many new jobs which is great for the area. It'll be the first Universal park in Europe and I'm really looking forward to it as I have experienced Universal Orlando a few times and absolutely loved it.	Would you support a potential park and resort coming to this site? Please explain why.
3965	Sounds fun and we'll create jobs in the area	Would you support a potential park and resort coming to this site? Please explain why.
2832	Stimulate local economy, provide jobs for local people, provide opportunity	Would you support a potential park and resort coming to this site? Please explain why.
2056	Such an amazing opportunity for the UK to have a world class resort which as you've mentioned will create so many jobs and provide revenue stream for other businesses which supply products to Universal. An increase in tourism to the UK and as someone who has been to your resorts in Los Angeles and Orlando I would be super excited to visit many multiple times.	Would you support a potential park and resort coming to this site? Please explain why.
4184	The amount of jobs the park would create for the area is a great benefit, as is the investment in the local area. Roads would need improving to handle the extra traffic once the park is open. The park would also attract people to Bedford and help boost the local economy, I can't see any reasons for not wanting the park here.	Would you support a potential park and resort coming to this site? Please explain why.
3205	The area already has good connectivity infrastructure (roads, rail and airports) with rail and road improvements well underway. This project would be magnificent for the area economy, with increase in jobs, hotels, restaurants and bringing tourism to the area. I absolutely support the development.	Would you support a potential park and resort coming to this site? Please explain why.
3484	The area and the wider UK need is clear, more jobs, more tourists and more opportunity is key. A successful park means a boost in local hotels/b&bs and restaurants etc.	Would you support a potential park and resort coming to this site? Please explain why.
2372	The area is dying. We have 3 young children who do well in school but there is not a lot of opportunity for work for young people. Our children will go to university and be able to access city jobs but other than poorly paid factory work there is little work for those who don't have that advantage in the area. Lots of young people now feel with crippling living expenses there is enormous pressure to do well or fail in life. We need to show them successful employers who welcome and look after hard working staff and we need more in our area.	Would you support a potential park and resort coming to this site? Please explain why.
3107	The area seems perfect. Luton also needs to be considered as a benefit to its people and the jobs/learning that this demographic will benefit from. I believe that a large and successful enterprise with the right leadership can make people happy and give them purpose.	Would you support a potential park and resort coming to this site? Please explain why.
1669	The benefits not just to the local community but the whole UK economy are vast. The tourism from other European countries would be fantastic for the area and local economy. Using all local produce for the parks would be amazing, the whole project is just terrific on every level, for the UK, the amount of jobs being created would be tremendous. Universal would have the environment at heart and would make it a beautiful place for local wildlife	Would you support a potential park and resort coming to this site? Please explain why.

3273	The creation of jobs in the area and improved infrastructure is much needed. To have this site outside London but still close enough to the capital for overseas visitors would be amazing. I love theme parks and to have this on my doorstep would be fantastic, putting Bedfordshire on the global map. Proximity to Luton airport and Trainline is ideal.	Would you support a potential park and resort coming to this site? Please explain why.
2470	The economic benefits to the town, new jobs, tourism and also the improvement of transport links in the town and also improved roads.	Would you support a potential park and resort coming to this site? Please explain why.
2378	The economic growth that would be brought to Bedford would have a massive impact helping to grow local businesses. It will create a huge number of jobs at all levels, particularly the younger generation and that is something Bedford struggles with due to the lack of shops etc in the centre. It will also help with the road infrastructure etc	Would you support a potential park and resort coming to this site? Please explain why.
4246	The future of the next generation deserve good jobs, housing and a fun future to look forward to. It also opens up doors to collaborate with business globally. I'd champion that	Would you support a potential park and resort coming to this site? Please explain why.
4178	The infrastructure enhancements to the local area will be very beneficial, and also help the local community with jobs	Would you support a potential park and resort coming to this site? Please explain why.
3971	The jobs and infrastructure expansion are badly needed.	Would you support a potential park and resort coming to this site? Please explain why.
2229	The jobs and opportunities it would bring are amazing. The site location makes sense and the people of GB need more leisure activities and immersive experiences. It would likely improve mood and offer escapism. Environmentally, people may be more likely to stay in the UK and not travel as far to get the experiences they want and need. Currently we have to travel to Florida or Asia.	Would you support a potential park and resort coming to this site? Please explain why.
4613	The jobs it will bring to the area, actually something to do during the times your open that does not mean going out of Bedford	Would you support a potential park and resort coming to this site? Please explain why.
1979	The jobs would be good, but the road structure will need to be improved so the cars do not cause congestion. To improve the facilities in the local areas which would serve the 8k people you could bring into the area. Ensure that the doctors, hospital, dentists, vets have the capacity to cover at least a portion of the predicted full time employees that you are predicting will be needed as they could move into the area & those facilities are already struggling.	Would you support a potential park and resort coming to this site? Please explain why.
2467	The jobs/ economic benefit to the area would be long reaching, and improvement of the rail and road network would help the local residents as well, particularly the rail network	Would you support a potential park and resort coming to this site? Please explain why.
2004	The local - and national - benefit of this park will extend to jobs, business opportunities and an improved travel infrastructure	Would you support a potential park and resort coming to this site? Please explain why.
4266	The local area needs economic boost and young people need jobs	Would you support a potential park and resort coming to this site? Please explain why.
2974	The local opportunities that this project both in terms of jobs and training and also increasing income into the area	Would you support a potential park and resort coming to this site? Please explain why.
2610	The number of local jobs will massively help in the local community	Would you support a potential park and resort coming to this site? Please explain why.
2899	The opening of this park will increase jobs and local economy and increase tourism and give local businesses more customers	Would you support a potential park and resort coming to this site? Please explain why.
4824	The opportunities for local investment and regeneration are a fantastic prospect. Also the amount of jobs and economic that could be created are not to be underestimated	Would you support a potential park and resort coming to this site? Please explain why.
3031	The opportunities for the people of Bedford and villages would be vital to the area, bring jobs to the area and boost the local economy.	Would you support a potential park and resort coming to this site? Please explain why.
4384	The park will generate jobs and interest in the area and inspire further improvements to infrastructure and small businesses in the area. The quality and wide appeal of a universal park will offer unique experiences in Europe but will also serve to generate healthy competition across all UK parks.	Would you support a potential park and resort coming to this site? Please explain why.
2069	The plans to not only create a theme park but to make significant improvements to the local area and community is absolutely what it is needed in the UK. I think it would enrich the lives of a lot of people bringing not only new jobs but the chance to have a career and know your hard work will actually achieve something rather than being another cog in a machine. To have a Universal attraction in the UK will be such a relief to escape the everyday grind that will be much more accessible and affordable as not everyone is able to visit another universal park around the globe. Our road and transportation network is in desperate need of improvement and the plans laid out give me confidence that it will be nothing but a massive positive to everyone in the UK not just the local area	Would you support a potential park and resort coming to this site? Please explain why.

3459	The positive effect a development will have on the surrounding areas not just whilst the development is underway but afterwards in the creation of jobs, the potential of future employment for younger generations, improved infrastructure and just the sheer joy and excitement of having the opportunity to go to the park itself. I see it as not just a socio economic positive but also for individuals themselves it is something that is a positive mentally, something to look forward to	Would you support a potential park and resort coming to this site? Please explain why.
4938	The potential for growth in the area, supporting younger people with jobs would bring real change to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4035	The potential of jobs and boost to the local area and businesses this could bring is huge.	Would you support a potential park and resort coming to this site? Please explain why.
2623	The transport upgrades the park would bring would benefit the area. So too would the jobs.	Would you support a potential park and resort coming to this site? Please explain why.
4734	The U.K. is in dire need of a new proper theme park resort. And finally a decent company to rival merlin, this will improve the products on offer from both as competition is always a good thing. As stated it will create jobs, and boost tourism to the area. I'm my opinion and negatives are far out weighed the by the positives this resort will bring for the area and the U.K. I'm general.	Would you support a potential park and resort coming to this site? Please explain why.
4641	Hopefully it goes ahead as it will boost employment in the themed attraction industry	Please share any other feedback you have at this stage
4586	This is a great opportunity for the area, a chance to put Bedfordshire back on the map and help bring the area back to life. All the Villages, Bedford & Milton Keynes will benefit in some way or other, whether that's employment, roads or more local business for shops & contractors. I would just like to say thank you for the consideration	Please share any other feedback you have at this stage
4089	Everyone I knows are excited if this happens but there must be jobs for bedford people first	Please share any other feedback you have at this stage
4273	Front line roles should be prioritised to the locals of Bedford. Naturally you need to bring skills in when the time is right, but Bedford residents should be given the opportunity to work on this project from the start.	Please share any other feedback you have at this stage
4054	I hope this happens so the people of Bedfordshire can have stability of jobs and new career opportunities that would never normally be able to happen	Please share any other feedback you have at this stage
3794	Local jobs for local people	Please share any other feedback you have at this stage
749	I am so excited about the possibility of Universal studios being built so close to where I live in Cambridge. I have been to Universal studios in Florida and California and enjoy the parks very much. I know of young adults who would be interested in working for Universal. Please make this happen!	Please share any other feedback you have at this stage
782	Jobs for the locals from Kemoston, Bedford South councils should be reserved say like 40% jobs reserved for local candidates.	Please share any other feedback you have at this stage
882	A lot of UK and European residents are huge Universal fans, but a lot don't get the opportunity to travel as far as the USA or Asia, so bringing it closer to home would offer the same world class experience at a lower cost, while at the same time creating much needed jobs.	Please share any other feedback you have at this stage
956	Make sure you employ British citizens for the design and development of the park	Please share any other feedback you have at this stage
1069	Using local tradesmen for construction	Please share any other feedback you have at this stage
1106	I am concerned about the job opportunities you mention. A lot of theme parks will offer low-skill, low-paid jobs with seasonal hours. It is essential that the developers think about who would consider working at the park. People might need to travel to work at your park and that travel will come at a cost. There are currently issues in the UK with filling these types of job vacancies.	Please share any other feedback you have at this stage
1146	I am unsure about the project, weighing up the energy brought by employment opportunities against the loss of green spaces, wildlife disruption, inevitable litter and pollution created by the centre	Please share any other feedback you have at this stage
1530	Please protect any wildlife in the area , be mindful of the older community, employ locally and employ more parents on suitable hrs , subsidised memberships for people living within 10 miles when you open . Just be respectful in discussions that are made. Definitely would be a good move for the area.	Please share any other feedback you have at this stage
1541	Use local people & local suppliers as much as you can from the very beginning so the local community feels the benefits from day 1.	Please share any other feedback you have at this stage

1602	Not only will it create more job opportunities for Universal but also other tourist destinations who will certainly see attendance rise and possibly creating more tourist destinations for everyone to enjoy. As a theme park enthusiast who has visited Universal Orlando and Hollywood on holiday many times, we tend to visit for 2 weeks so we would always make time to see the other parks in the area too. I'm pretty certain this would also be the case here in GBR if this were to move forwards.	Please share any other feedback you have at this stage
1755	It is obviously very early but I would be hoping that some of the wider support functionality for the parks would also be available as employment within the UK. Things such as IT support (such as development of the park mobile apps) & Universal Creative roles. Those hopes are selfish on my part, as I am a Software Engineer, but it would also give a much wider range of training/employment opportunities for those currently in education and would also give wider experience/expertise to other themed entertainment & museum establishments within the UK	Please share any other feedback you have at this stage
1792	Please ensure that employees are happy to work at this resort, with perks and great pay. This will mean that as employees are happy, this will create a great atmosphere around the park.	Please share any other feedback you have at this stage
1857	Please please PLEASE look at prioritising jobs for English people. We're often shoved to the back of the queue in order to tick a box. Please put the people of Bedford first, show them how much you value the opportunity to work WITH them. Many of their families will have lived there for hundreds of years. Keep them at the forefront on your mind and they'll back you 100%.	Please share any other feedback you have at this stage
1974	I am impressed by the level of detail that has been raised regarding environmental conservation, considerations about possible job opportunities and support to local businesses that would come with the construction of this theme park. As a lover of thrill rides, I would love to see the addition of coasters to the caliber of The Incredible Hulk, VelociCoaster and many more coming to the UK. I am looking forward to seeing how this project progresses should it go ahead!	Please share any other feedback you have at this stage
2151	There is a concern around the seasonality of jobs and whether those employed would actually live in Bedford, or simply live in Milton Keynes (so Bedford sees the problems but not the economic benefits). The rail connections to Bedford are difficult for commuters, there is a concern this would make them worse. Bedford station in particular cannot cope with the level of use today (due to poor design and limited space). Adding new stations at the Wixams or below Bedford would ease congestion in Bedford, but would make trains slower (and they're already very slow). There is a risk Bedford commuters into London suffer from being "at the end of the line". The average commute from Bedford to London is 1h30m - even a few minutes makes a huge difference. Finally if 8k jobs are created and housing is needed in Bedford, where will it be placed? Bedford Council doesn't have a great track record of planning decisions that keep locals happy, and often village are sacrificed like the Wixams development or Shortstown.	Please share any other feedback you have at this stage
2209	This project will greatly improve job opportunity's and tourism for the UK which will be great for the economy. It's also very exciting to have a major theme park destination in the uk.	Please share any other feedback you have at this stage.
2245	Recruit from all over uk providing some sort of accommodation for staff who travel for a role	Please share any other feedback you have at this stage.
2254	I live and work in the U.K and I think this project would be great for creating new jobs, give a boost to the local economy and deliver an amazing world class resort to the people of the U.K and wider Europe ðŸ™•. I have been to universal in Hollywood many times and would love to have a new universal resort in my home country I would consider myself a theme park enthusiast i have been to most theme parks in europe I would definitely be purchasing an annual pass should this project go ahead. Anyone I have spoken to about this potential project are super excited and positive at the prospect of having our very own universal theme park here in the U.K and we are hoping this project goes ahead ðŸ™•	Please share any other feedback you have at this stage.
3386	The UK falls behind locations like the USA, Paris and the far east for these kinds of attractions. Something like this would benefit the local and national economy, create thousands of jobs and is somewhere my young children could work at in the future. I am really excited by the prospect of a Universal Park being so close to where I live and fully support the idea.	Would you support a potential park and resort coming to this site? Please explain why.
2827	The UK has some great parks. But is lacking a premium theme park experience seen elsewhere in the world. From creating fully immersive experiences, to the boost to our economy, jobs, tourism etc, this is an essential project for this country. I for one welcome it with wide open arms.	Would you support a potential park and resort coming to this site? Please explain why.
2103	The UK needs a better and well thought out theme park! The theme parks in the UK and run down and tired and have no appeal! Universal would also bring tourism the UK and bring more jobs!	Would you support a potential park and resort coming to this site? Please explain why.
4871	The UK needs a big infrastructure project that will help with creating jobs and the other economic benefits such a big resort would provide.	Would you support a potential park and resort coming to this site? Please explain why.

3155	The UK needs a big international attraction resort like Universal Park & resorts. It would be ideal to build near Bedford, only 1 hour from London. Bedford is a great location, the town, county, and surrounding areas is good all rounder place to live & develop. Excellent transport links & the weather is really good compared to other areas of the UK. I live in Bedford & can say there is a lot of hype & excitement for this project to go ahead & become a reality! With the extra jobs, tourism, economic benefits it will bring, a resort here will be awesome. It would also be so great to finally bring a Harry Potter themed land & HP rides home to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3577	The UK needs a big theme park resort like this. Something that will inspire the next generation, create jobs and deliver world-class experiences, so often enjoyed thousands of miles away, closer to home. This seems to be the perfect site.	Would you support a potential park and resort coming to this site? Please explain why.
2777	The UK needs a large professionally led theme park experience. We have to travel to America or Europe for this at the moment. Thorpe Park and Alton Towers just do not cut the mustard. We need to think on a much grander scale. Universal would be able to deliver this and create jobs to bring prosperity to the local area and the UK	Would you support a potential park and resort coming to this site? Please explain why.
4544	The uk needs a major theme park like universal studios for the tourists side to creating jobs locally within Bedford. This is a great opportunity for the uk and shouldn't be missed.	Would you support a potential park and resort coming to this site? Please explain why.
4888	The UK needs a new theme park from a well known company like yourselves it will create jobs put Bedford on the map and ultimately give the UK theme parks a shake up and its not too far to travel just keep prices reasonable and it will easily attract a lot of visitors. I fully support the project as I love universal.	Would you support a potential park and resort coming to this site? Please explain why.
3857	The UK needs a park like this that will bring benefits such as jobs, growth and somewhere to enjoy for a day out.	Would you support a potential park and resort coming to this site? Please explain why.
2061	The UK needs something like this desperately and this is the perfect area to choose. It would drive tourism and increase jobs and footfall to the area where there isn't much happening currently. Universal has a special place in my heart and I'd love somewhere to go with my family in the years ahead.	Would you support a potential park and resort coming to this site? Please explain why.
2101	The UK needs something like this. The amount of jobs created and the income from tourism will be high. Save many family money on holidays abroad when we have something like this within reach	Would you support a potential park and resort coming to this site? Please explain why.
1948	The UK will massively appreciate the jobs and bringing people from around the globe to witness what could be a Universal flagship park, bringing joy to millions and putting the UK firmly on the map.	Would you support a potential park and resort coming to this site? Please explain why.
2436	The UK would greatly benefit from this park, not only would it attract coaster enthusiasts from all over the world but it would profit the local area and the UK as a whole. Fantastic opportunity for jobs and future careers ect. I'm confident Universal will deliver on this development. It's a win-win situation for Bedford and Universal to both prosper and benefit with this project!	Would you support a potential park and resort coming to this site? Please explain why.
1672	The uk would love a good theme park. It creates new jobs and homes for ojt of work people	Would you support a potential park and resort coming to this site? Please explain why.
2275	The UK would massively value such a park - it is an untapped market for a theme park such as this. The value to the local area from tourism and associated spend would be enormous, and the local area would benefit from the jobs created and the improved infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
2039	The whole country needs this. It will create tons of jobs local and within the country, it will also bring large entertainment to the country which it needs badly, I've been to universal Orlando multiple times and I know how beautiful you will create the area into. I've talked to locals in Bedford lately who are all very excited for this opportunity and the local towns need it badly.	Would you support a potential park and resort coming to this site? Please explain why.
3955	There are limited options such as this in the region, reducing the requirement to travel long distances. It will be good for the region and provide jobs.	Would you support a potential park and resort coming to this site? Please explain why.
3328	There are many new houses being built here with new families moving to the area. School leavers that do not drive cannot get decent jobs. Universal would be a good employer as there would be good local employment.	Would you support a potential park and resort coming to this site? Please explain why.
4285	There is a real need to give Bedford a clear sense of purpose and the universal project would enable this. The training and development opportunities for local people, creation of new jobs and skills are significant opportunities. Culturally Bedford will benefit from a high quality and globally recognised attraction. I believe that the plans will boost pride, giving Bedford something to celebrate and then the inward investment locally will have a multiplying effect, delivering regeneration of the town.	Would you support a potential park and resort coming to this site? Please explain why.
3169	There is no theme park of this scale in the UK currently, and with a very young daughter this would be perfect for our family and others who want to experience the thrills but without the expense of travelling to the US or elsewhere. Jobs and tourism are also good points.	Would you support a potential park and resort coming to this site? Please explain why.

4385	There is nothing of this kind in the UK currently. I think it would be great for the economy, would create thousands of new jobs, be great investment in the local area. Plus I am a huge universal fan and would be hugely excited for a UK park.	Would you support a potential park and resort coming to this site? Please explain why.
3722	There isn't many popular tourist attractions, and having one come to a less-busy place would help bring more jobs, and make the prices lower due to tourism. This could also bring better airports, and a bigger, diverse population to England.	Would you support a potential park and resort coming to this site? Please explain why.
4428	There's nothing else similar in the local area. The number of jobs the project could create would be really important and it would be fantastic to have a Universal presence in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3226	Think I would be good for the UK as a whole to have such an attraction here as many families can't afford to go to the ones overseas so they can still experience the magic of walking through the gates and seeing the amazing structures and attractions also it will increase the need for jobs in different areas.	Would you support a potential park and resort coming to this site? Please explain why.
3906	Think it would be beneficial to the area and create jobs and encourage tourism so am really supportive	Would you support a potential park and resort coming to this site? Please explain why.
3447	Think it would be great for the area. I think new housing and maybe hotels would need to be built near to the location such as between Marston and Cranfield to support jobs and commutes but once that is there, the location should have little negative impact on surrounding areas	Would you support a potential park and resort coming to this site? Please explain why.
3576	This has been a long time coming. The opportunity for jobs, infrastructure, and bringing money to the UK is the best news this year!!!	Would you support a potential park and resort coming to this site? Please explain why.
4794	This is a fantastic opportunity for our area bringing valuable investment and skilled jobs for our younger generation for many years. Bedfordshire is a perfect location as there isn't any other theme park within this area and has already good transport links. Having visited your current theme parks on many occasions in Orlando Florida I understand the Universal ethos and how you strive for excellence and would create a destination not a typical theme park. (VelociCoaster - awesome!) The heritage around Bedfordshire would be fitting for such a prestigious company as Universal to create its first theme park in the UK. Also, the fact you've chosen a site that has been left to waste away from its previous use rather than build on green belt demonstrates to me you have the thoughts and respect of the community at heart. Please seriously consider building this fantastic world of entertainment, wonder and pure out-thrill!!!!!!	Would you support a potential park and resort coming to this site? Please explain why.
3005	This is a good idea going to create a lot of jobs and bring visitors / money into the area the UK needs new and additional places to visit.	Would you support a potential park and resort coming to this site? Please explain why.
4027	This is a great prospect for the area, bringing new jobs and improvements to the area, complementing the town, and the surrounding area along side the continuing improvements.	Would you support a potential park and resort coming to this site? Please explain why.
4011	This is a once in a lifetime opportunity for Bedfordshire to bring lasting employment and good quality jobs to the area	Would you support a potential park and resort coming to this site? Please explain why.
4377	This is a win-win scenario where Universal would build a world class resort in the fantastic British surroundings of Bedford and a new theme park resort would help provide a much needed stimulus to the local economy in Bedford, Luton and surrounding areas. I strongly support this project also as a growth engine for the people of the region where it will help provide jobs and training opportunities for many professions.	Would you support a potential park and resort coming to this site? Please explain why.
4541	This is an amazing opportunity for the area and would only benefit locals from the tourism and jobs it would create	Would you support a potential park and resort coming to this site? Please explain why.
2836	This is fantastic and a superb initiative to bring jobs and tourists to the area which helps the local business and makes the location a desirable place to visit	Would you support a potential park and resort coming to this site? Please explain why.
3408	This is something that the UK has been lacking. Something like this would be incredible to have within our country, not only because of jobs & economy benefits. It would be great for locals to enjoy & would allow people to have fun & chase thrills.	Would you support a potential park and resort coming to this site? Please explain why.
2276	This is such a great idea, not only for wonderful Bedford but the whole of the UK. Theme park fans around the world would visit just like me and my family have done to Orlando recently. Jobs for the area, money coming into the country its just all positive	Would you support a potential park and resort coming to this site? Please explain why.
2584	This is the best opportunity we have ever had to ensure Bedford's growth and future, providing jobs and opportunities to our kids. It's the most exciting and important thing to happen to Bedford since the Romans!	Would you support a potential park and resort coming to this site? Please explain why.
1680	This is the future for the younger generations, jobs and opportunities to learn. And it would bring more community's together. I am on the East coast and the thought of better transport to the areas is good for us.	Would you support a potential park and resort coming to this site? Please explain why.

2882	This park would not only provide jobs but attract international visitors to revitalize and improve the Bedford area's economic future and improve the lives of all UK citizens.	Would you support a potential park and resort coming to this site? Please explain why.
3900	This park would significantly benefit the local and wider economy and bring much needed jobs and tourism to the area. It is located near to major road networks and potentially the Wixams train station.	Would you support a potential park and resort coming to this site? Please explain why.
4602	This project will benefit the people of Bedford greatly with the business and jobs this will bring. Being right in the heart of England, the location is ideal with transport links to very many major cities. Having visited the amazing Universal Orlando and California sites many times, I am confident the project team will deliver a high quality product and I will personally be looking out for local jobs to help facilitate this project.	Would you support a potential park and resort coming to this site? Please explain why.
2759	This project will create many jobs for those living in the Bedfordshire area	Would you support a potential park and resort coming to this site? Please explain why.
4831	This project would create a huge number of jobs in the local area along with the economic benefits of the increased tourism to the area. It would also be an incredible amenity for the entire country to enjoy and revitalise our attractions industry.	Would you support a potential park and resort coming to this site? Please explain why.
3874	This project would massively benefit the UK as a whole, Creating thousands of jobs in the construction of the park and also in the operations after. it will support the local area and also further afield. it will change the face of the UK entertainment. the park is situated perfectly to serve the UK and even links to Europe. this project would bring so many benefits and also memories to Families attending the park who can not get to your other destinations world wide.	Would you support a potential park and resort coming to this site? Please explain why.
2754	This project would not only bring in plenty of new jobs for the community, but it would also be a must visit theme park for enthusiasts and families worldwide thanks to the potential for the park.	Would you support a potential park and resort coming to this site? Please explain why.
3380	This project would provide a significant boost to the local economy and also for local jobs.	Would you support a potential park and resort coming to this site? Please explain why.
1920	This will be a great opportunity for local people to find and develop new and exciting careers, so I'm all for it. It's also an amazing opportunity for young people currently in college/looking for jobs to try something new. As well, we are in need of some exciting things to do here!	Would you support a potential park and resort coming to this site? Please explain why.
2350	This will bring a major tourist attraction to the uk. I like the location, it's away from London so as not to affect traffic around the capital. When east west rail is completed it will have good transport links. Jobs for local people.	Would you support a potential park and resort coming to this site? Please explain why.
1886	this will bring incredible jobs and tourism to the wide area and the whole UK. lots of hype and excitement is just what we need in the uk	Would you support a potential park and resort coming to this site? Please explain why.
3051	This would be a game changer for Bedfordshire. Fantastic opportunities for jobs, improvement of infrastructure and local businesses including other hospitality services. It would help regenerate the town. Florida has been a go to location for Universal, how amazing would it be to have one on our door step! Let's get this done, forget the nay sayers!	Would you support a potential park and resort coming to this site? Please explain why.
2022	This would be a great asset to Bedfordshire in respect of jobs and the nvironment.	Would you support a potential park and resort coming to this site? Please explain why.
2329	Keep the locals involved. Being a female in construction and previously engineering, I'm activate in inspiring females and the younger generation, and there is many opportunities for engaging / supporting activities in this space. When is comes to creating green spaces, there are many green fingers people in the local community. Invite us along as a community day to plant up some areas and give the opportunity to see / hear what's happening while being involved Speak with the people who used to work at the brickwork and what the place meant to them and try to capture the heart of the community of what it was. I hear many stories of the family swimming pool, and perhaps an opportunity to create a space in tribute. A bit of Stewartby past in the present and for the future	Please share any further feedback you have at this stage.
3755	It would be great to have a space where people local to Bedford could see job listings and what is needed before they're announced to the general public, that way it can help the employment rate of the area. Also, discounts on the park would be nice as well and potentially reduce the amount of pushback on the building of the park.	Please share any further feedback you have at this stage.
3683	The possibility to have more investment in theme park development jobs is life changing.	Please share any further feedback you have at this stage.
3597	Love everything about it including all the ways your going to help the environment and the local jobs it will bring 10/10	Please share any further feedback you have at this stage.
3402	It's a massive project and I assume will take years to complete. As long as properly managed I think it will be a massive benefit to the area bringing well needed jobs and training to many people.	Please share any further feedback you have at this stage.

2473	I really hope this project comes to fruition and my points are seriously taken into account regarding treating future staff equally. You need to set a much higher standard than that of the UK competitors	Please share any other feedback you have at this stage.	
2540	I really hope this park goes ahead even though I'm from Scotland. I will travel monthly or weekly to the park. I'm also happy that Universal Studios Great Britain great jobs for the local community of Bedford.	Please share any other feedback you have at this stage.	
2575	To offer the jobs first to locals then to others	Please share any further feedback you have at this stage.	
2689	Jobs for local people is important. Locals should have job opportunities before people from outside of the area. Some of these jobs need to be part time and for older people	Please share any further feedback you have at this stage.	
2725	Think it's a brilliant idea bringing a resort that is harder to get to as there is nothing else like it within Europe. Will entail great job opportunities for people and bring new life to our area	Please share any other feedback you have at this stage.	
2845	I am hopeful the project continues as this brings much needed excitement for the Bedford community combined with opportunities for careers, salary's and skills.	Please share any other feedback you have at this stage.	
5337	I am so excited for this theme park to open and think it is an amazing opportunity for the local community regards to the amount of jobs that will be created. I have 3 young children that will love this when it's all up and running. cannot wait!	Please share any other feedback you have at this stage.	
5147	I really hope Universal Studios moves forward with this theme park it will be a hugely positive experience for everyone and will create much needed jobs	Please share any other feedback you have at this stage.	
5206	Please let this initiative happen! It will be excellent for the local area, jobs, business, infrastructure, wildlife etc there are so many benefits to this project.	Please share any other feedback you have at this stage.	
1827	This would be a wonderful thing for the UK- bringing jobs and economic benefits - but also it would simply be fantastic to have a global prestigious brand like Universal make a major investment here. I believe the theme park would be incredibly popular with residents in the UK and with its high standards would be an inspiration for the creative and entertainment industries here.	Would you support a potential park and resort coming to this site? Please explain why.	
4131	This would be an amazing opportunity for the UK, for Tourism, jobs and to put us on the map globally! Really really hope this goes ahead!!!	Would you support a potential park and resort coming to this site? Please explain why.	
3575	This would be an incredible investment in the UK. Bringing the quality and next level theming of a Universal attraction to the UK would be a huge benefit to our economy, creating a massive number of jobs that are so desperately needed, as well as boosting the economy in the surrounding area with additional tourism opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
2111	This would be incredible for the UK! For many reasons! The tourism aspect! Bringing more fun and excitement in the country! Bringing more jobs which is very much needed in this country too! This will be world class and it's very much needed	Would you support a potential park and resort coming to this site? Please explain why.	
4951	This would change Bedford for the good bringing great potential to the area and new jobs , having a local park would be great	Would you support a potential park and resort coming to this site? Please explain why.	
3189	This would create a huge vocal point with large amount of jobs and bring lots of visitors in the area. No theme parks are close to this area and involve travelling	Would you support a potential park and resort coming to this site? Please explain why.	
4196	This would positively transform the area & create many jobs - the Universal brand will be a welcome boost to the economy.	Would you support a potential park and resort coming to this site? Please explain why.	
2926	This would put the uk as a go to place and can diverse the uk as the attention won't be just on London and can help many people to get jobs	Would you support a potential park and resort coming to this site? Please explain why.	
3105	Thousands of jobs - not just for highly skilled workers, but for ordinary people- would be a real benefit to the economy. I also think this would create the opportunity and impetus for Bedford to upgrade its town centre; and for the UK to finally commit to an East West rail link through Bedford which would be transformative not only for the town but the wider economy	Would you support a potential park and resort coming to this site? Please explain why.	
3889	Thousands of Jobs and putting Bedfordshire on the map, it would be amazing to have this epic facility on our doorstep. It's central, it's easy to get to and is well served by rail and road.	Would you support a potential park and resort coming to this site? Please explain why.	
4680	thousands of new jobs created, world class theme park that will provide entertainment for millions of people, provides competition for other uk theme parks which may cause them to up their game.	Would you support a potential park and resort coming to this site? Please explain why.	
4319	To bring jobs and opportunities to the local area.	Would you support a potential park and resort coming to this site? Please explain why.	
4179	To create jobs and boost Bedford businesses and hopefully rejuvenate the town	Would you support a potential park and resort coming to this site? Please explain why.	
3241	To develop the economy in the area and create numerous jobs for a future workforce in schools who at the moment have limited options. To develop Bedford into a positive place to visit as the local retail economy is disappearing.	Would you support a potential park and resort coming to this site? Please explain why.	

1801	to have a universal park in the uk would be amazing for tourists , more jobs money coming into the uk.	Would you support a potential park and resort coming to this site? Please explain why.
2950	To have something like this on our doorstep will be so exciting! Not only as a place to visit, but also for all the jobs it will create, and the money invested into the area. Also looking forward to improved transport links.	Would you support a potential park and resort coming to this site? Please explain why.
3968	To help with jobs and employment in Bedford, it is becoming quite deprived and this will help	Would you support a potential park and resort coming to this site? Please explain why.
3098	Totally transformative for Bedford and jobs	Would you support a potential park and resort coming to this site? Please explain why.
2160	Tourism, jobs, investment in the area and the idea to have the industry leader's theme park in our country	Would you support a potential park and resort coming to this site? Please explain why.
3989	UK needs this. It would bring so many extra jobs in the area as well as tourism supporting the local area.	Would you support a potential park and resort coming to this site? Please explain why.
2221	Universal is an amazing theme park, as a family we have visited many times and feel that the UK would benefit from such a large company building a park in the uk such as jobs and visitors to the area	Would you support a potential park and resort coming to this site? Please explain why.
4181	Universal parks are instantly recognisable on a large scale for providing experiences and entertainment at a high quality level. The amount of people who will benefit, both in terms of jobs and the actual experience itself is undeniably huge. I can only see this project being a big success based on my knowledge of British / European culture and interest. It seems like a perfect fit and a natural step for Universal / Comcast to make next. For someone who lives a 2 hour drive away, I can see myself traveling to a park like this at least annually, however if there are annual passes on offer, it would not be out of the question to visit more regularly.	Would you support a potential park and resort coming to this site? Please explain why.
4934	Universal Studios (Florida) is the most awesome place I've ever been to! The potential of having Universal Studios so close is literally beyond my wildest dreams! If it's happens I will without doubt be a regular visitor. It would also be great for the local economy and create so many jobs.	Would you support a potential park and resort coming to this site? Please explain why.
4224	Universal studios fan but it would improve the proposed area and supply jobs to the area.	Would you support a potential park and resort coming to this site? Please explain why.
1825	Universal will provide jobs, UK based theme park	Would you support a potential park and resort coming to this site? Please explain why.
2977	We have the land, the trains from into Bedford and Milton Keynes (MK being a new city which is close by) creating tourism which equals to jobs also Luton airport is not far.	Would you support a potential park and resort coming to this site? Please explain why.
4445	We have theme parks in the UK, but in my opinion nothing to the scale of what Universal can bring. This changes the theme park outlook in the UK, and would be a massive welcome to the country. Additionally, 8000 new full time jobs, would be so great for the country and area. Also, I assume there will also be many part time and seasonal jobs, with young people out of college, a university in Bedford, and a few others within an hour this will provide opportunities for students to also earn money and develop in the working world alongside their studies. I for one would also be looking at the opportunities available, that is the pull Universal will have in the UK, everyone will want to work for you.	Would you support a potential park and resort coming to this site? Please explain why.
3850	We need new attractions in UK and the number of jobs this will introduce locally will be beneficial.	Would you support a potential park and resort coming to this site? Please explain why.
2341	We need something of this sort in the area, presently have to travel too far to such places causing cost and time. Also creates jobs.	Would you support a potential park and resort coming to this site? Please explain why.
4601	We need the regeneration in the area in all sectors, and, like many areas, this would bring significant jobs and investment into the area.	Would you support a potential park and resort coming to this site? Please explain why.
2528	We need to revitalise and rejuvenate Kempston, Stewartby and Bedford to create new jobs for children and grand children	Would you support a potential park and resort coming to this site? Please explain why.
1863	Well established trusted brand. Would create mass jobs and career opportunity. Provide economic boost plus bring foreign tourists in. Provide greater competition to current theme park operators. High quality immersive experience plus vast dining and hospitality additions!	Would you support a potential park and resort coming to this site? Please explain why.
4570	While it is unlikely myself or my family will work in the resort, it gives better transport connectivity which improves our lives. It also improves the wealth in an area that feels like it's on a down. 8000 jobs would improve Bedford, but please use cycle paths from villages like shortstown so staff can cycle / run / walk to work, take pressure off the roads, make living and working locally possible and keep the cash locally so the area can move on up.	Would you support a potential park and resort coming to this site? Please explain why.
4872	Will be a regular visitor myself, provides a lot of jobs, invites tourists to our country and boosts the economy	Would you support a potential park and resort coming to this site? Please explain why.

3056	We as a family in this household are really excited about the potential opportunity to have such a renowned theme park coming to us down the road within a 10 min walk from our home and to see what you can turn the unused land into and how many jobs you will be creating if you get the go ahead, we are 1 million percent behind you every step of the way for this as would be great for this town.	Please share any other feedback you have at this stage.
3165	will bring jobs to the area, but please keep the MILTON KEYNES name out of the park we are BEDFORDSHIRE	Would you support a potential park and resort coming to this site? Please explain why.
2095	Will bring jobs, training and tourism to a bit of a dead area that is accessible to so many people in the uk	Would you support a potential park and resort coming to this site? Please explain why.
2930	Will create any jobs will improve the look of the area bring in tourism and give the UK a world class destination	Would you support a potential park and resort coming to this site? Please explain why.
2763	Will create huge opportunity in terms of jobs and economy besides this project will also help invest in / improve the public infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
4817	Will provide a lot of jobs and investment into Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
3133	Would bring jobs to the area	Would you support a potential park and resort coming to this site? Please explain why.
4283	Would create jobs for people surrounding Bedford, both for experienced and inexperienced members of the public.	Would you support a potential park and resort coming to this site? Please explain why.
4446	Would provide increased tourism to an area of the UK that is currently underrepresented. Universal will bring improvements to the town centre and attract new businesses that can accommodate the increase in footfall. The improvements will increase house prices and provide job opportunities. Our children will be able to get summer jobs / part time jobs at an international company. It will provide a world class tourist destination on our doorstep at a time when rising inflation limits the opportunities to visit Universal Studios overseas.	Would you support a potential park and resort coming to this site? Please explain why.
1877	Would provide more jobs for the local area than other uses for the site and would also boost tourism for the UK as a whole	Would you support a potential park and resort coming to this site? Please explain why.
3200	Yes I would support the park but local residents should be offered jobs first. If you are employing this many people where would they live. The existing town and villages would not be able to house this many people flocking to the area. The demand for houses in the area would drive up house costs, (which is good) but in turn would price local first time buyers out of the housing market, they would have to then move away. Bedford and the surrounding villages are a tight knit community with many people staying for generations in the area.	Would you support a potential park and resort coming to this site? Please explain why.
2578	Yes, however I have concerns. I live in Wootton towards the A421 and on a personal level I am concerned about the affect that noise and light will have on the local community and (selfishly) my residence. Im also concerned that I will be able to see the top of rollercoasts and attractions from my home. I would add that Wootton, Stewartby and Wixams are in desperate need of investment. Wixams much promised train station continues to slip down the picking order of local projects and the Thameslink route is desperately underfunded given the amount of people who travel into London. Bar Luton Airport, Bedfordshire lacks a large employer and the creation of 8,000 jobs would see a much boosted increase in employment opportunities. I can see the obvious positives to the Theme park, but this needs to be tempered with protecting Wixams, Wootton and Stewartby rural environment.	Would you support a potential park and resort coming to this site? Please explain why.
1827	Yes, yes, yes!!!! Form visiting a few of the Universal sites in the US since I was young to now having my own family and visiting with my now 18 year old What an amazing opportunity within my own country for not only the younger generation for jobs and general infrastructure but also for us to continue to visit as an older thrill seeker!! Amazing so excited if this project goes ahead	Would you support a potential park and resort coming to this site? Please explain why.
2852	I am a resident in Kempston and fully support this project. It would be fantastic. The job opportunities alone would be significant for the area.	Please share any other feedback you have at this stage.
2300	Really hope to see this project go ahead. People from around the UK and beyond would love to see a Universal theme park here and the location chosen and considerations already given to how people would travel to the site all sound fantastic. There are so many benefits to having a universal park here in the UK including the significant amount of new jobs it will create. It is desperately needed and I really hope it gets all the necessary support to proceed with.	Please share any other feedback you have at this stage.
3852	I think it is important that you pay a fair wage for employees and that workers are not reliant on UK benefits.	Please share any other feedback you have at this stage.
1067	Lots of positives, such as employment. Concerns about traffic, wildlife and closing of local businesses, due to competition	Please share any other feedback you have at this stage.

3129	I look forward to have a good proceedable theme park and investment plan that can deliver both jobs/career opportunities and new theme park that can attract tourists in UK and aboard.	Please share any other feedback you have at this stage.
3127	I have visited Universal Studios Florida many times! I love it and I'm excited at the thought of one being build on the doorstep and the job opportunitys it will bring	Please share any other feedback you have at this stage.
3018	Great for jobs for young people if sensitively done, without too much disruption for surrounding areas.	Please share any other feedback you have at this stage.
5561	I think its a great idea to have the park here with all the benefits it will bring in terms of employment and investment into Bedford.	Please explain why
5477	Great help for the community, supplying jobs and infrastructure	Please explain why
5478	Great employment opportunities and support for bedford area.	Please explain why
5479	Jobs and local economy benefits	Please explain why
5481	If done correctly, this could bring jobs and create many other opportunities in the local area	Please explain why
5488	This would help support a lot of employment for all the housing that is being built locally to us. Lots of young people leaving school, wanting summer jobs, apprenticeships. Skilled people looking for jobs. As long as a lot of it is offered to local people.	Please explain why
5499	I just think it would be absolutely amazing for a place like Bedford. It can REALLY put Bedford back on the map and hopefully help restore the rest of Bedford and it's town. I'm an adult and have an adult son and just the thought of having a theme park on our doorstep excits us very much. We work for Government so to know we can litrally go have fun and an amazing day out just the other side of town to us brings a massive smile to both our faces let alone friends and families faces. The amount of jobs this could provide from young all the way through to old is just amazing as well...not just for Bedford but surrounding area's and even some abit afar as a train or coach isn't too far from Bedford. How amazing is that!?!? Wow!! A MASSIVE YES from me!!!	Please explain why
5510	The greater Bedford area has seen a large number of new houses being built without the corresponding level of community facilities and job creation. I am hopeful that the project would work with the local community to empower the local labour force and residents to deliver better jobs and improved communal facilities and initiatives. The land is post industrial and would otherwise sit empty or be used for yet more warehouses or more housing. Bedford is extremly well connected by road and rail and a park, with the right infrastructure improvements, could support and attract visitors from a large chunk of the country. This presents opportunities for local business and government.	Please explain why
5524	I believe that this would be a fantastic boost for the uk both economically and socially, it will provide a wealth of jobs and business opportunities from both uk guests and tourists.	Please explain why
5528	I think its an amazing opportunity not only for creation of jobs and development but also recreationally	Please explain why
5537	It's what England needs economically It's brilliant for the country The economy The local people would have more jobs businesses are more likely to invest in the area also helping with a housing crisis that we have	Please explain why
5539	Although I am broadly in favour of the project, I think it would depend on whether the 8000 jobs were mostly filled by local people. Otherwise, where would people live, go to school, visit doctors and dentists. The area already has problems in these areas.	Please explain why
5540	TI employed many people (~3K).All governments recognise that they need to rebuild the economy and respond to technology-led change. In the entertainment of the future VR and AR and other technologies will be part of the Universal business. It would be a good idea to have opportunity for the children of those who lost their jobs.	Please explain why
5555	It would create many new jobs, improve infrastructure and attract new people to the area	Please explain why
5566	because it would improve the local economy, create jobs and should improve local roads and off road paths	Please explain why
5568	Great addition to the local economy and provides a tourism draw, as well as new jobs	Please explain why
5569	The UK is desperate for this amount of jobs in one location. I can see people relocating for the chance to work here.	Please explain why
5584	More jobs in the area and money creating better things for the area	Please explain why
5586	It would be a fantastic opportunity for the area, creating many jobs and opportunity's for local people. It will bring business to other local companies too, and highlight the areas surrounding which will be great for the local economy.	Please explain why
5598	We feel the investment in the local area would be of huge benefit as well as the creation of so many new jobs. It would be a massive improvement in the leisure facilities for many people locally and nationally.	Please explain why
5606	I agree with all the reasons stated above, it will be great to see more jobs created.	Please explain why

5607	This would Put Bedford on the map and provide great jobs and improved services and leisure in this area	Please explain why	
5618	For the exact same reasons you have already mentioned. It creates thousands of jobs and brings footfall into the area which in turn will benefit local businesses.	Please explain why	
5620	Think it would be great for the local area, would put it on the map too. Also creating lots of jobs	Please explain why	
5622	Potential job opportunities for my teenage children (and possibly myself as I get nearer to retirement age). Both my children and I are theme park mad and have been following the construction of Epic Universe closely with much excitement and anticipation so to see something potentially similar that your brand may bring to our doorstep is mind blowing and we will be regular visitors for sure! Hopefully it will lift Merlin to raise their game and so improve not just their theme parks but all UK theme parks which will be good for visitors to all the parks. It will also significantly improve the area and create many much needed jobs while attracting many visitors from both the UK and overseas that will help the economy both locally and nationally which can only be a good thing right?	Please explain why	
5626	It is an amazing opportunity for the people in surrounding areas to create jobs and the infrastructure of roads and transport	Please explain why	
5635	Lots of new jobs, and easily commutable to London.	Please explain why	
5639	The provision of high quality jobs in the Bedford area in such numbers would certainly reduce the distances that many people have to travel for their employment.	Please explain why	
5644	Over the last 50 years, Bedford has lost many high-paying jobs in manufacturing, semiconductors, telecommunications etc. with employment growth mainly in warehousing and distribution. It would be good to rebalance this with more service industry roles. Hopefully, many of these will be better paid and bring a considerable boost to prosperity in the area.	Please explain why	
5673	It will create much needed jobs and give the UK a fantastic leisure facility that only a company like Universal is able to build.	Please explain why	
5674	The Park and Resort would be of huge benefit to the UK economy by boosting tourism and bringing new jobs to the area. It would also be of great benefit to the local infrastructure	Please explain why	
5679	More much needed jobs	Please explain why	
5689	Any major proposal that would potentially be a driver for as many as 8,000 additional local jobs would be a really welcome initiative for the local area, as long as there were guarantees to upgrade the local transport infrastructure.	Please explain why	
5693	As a local resident. I would want to see infrastructure proposals and the plan for skills and employment. If it is truly 8000 FT jobs for Bedford then surely recruitment / training should start asap to ensure these roles are secured rather than having to recruit from outside the area.	Please explain why	
5701	It would bring jobs and enjoyment to the area. However, local infrastructure needs re-thinking as this is already a busy area prone to traffic.	Please explain why	
5705	Regional development, de-centralizing tourism away from London. Supporting local infrastructure investment. Jobs and economic improvement to the Bedford area.	Please explain why	
5709	It would breathe new life into the whole area as well as creating jobs within the park and during construction. It is a much more constructive and positive use of the land than what would otherwise be planned and it provides opportunities for creative growth. Bedfordshire has a number of companies who were involved in the construction of the 2012 Olympics and the spectacular opening and closing ceremonies - quality engineering. It has been lovely to see the positive response from young people in the town, such enthusiasm can really be harnessed. I grew up in Kent and witnessed an earlier proposal to build as part of the London Resort consortium. I was opposed to this and signed every petition to stop it. This was based on environmental issues (building on protected land reserved for wildlife) and inappropriate location that could not support the increased traffic, fumes and gridlock in the area. I am very pleased that you've stuck with the UK, Bedford is the perfect location and this time I would sign any petition in support of the development!	Please explain why	

5711	I was very lucky as a child because my grandfather XX took my brother and I to Universal Orlando Resort and it still remains one of the best experiences of our lives; it was a big influence in opening our minds wider and it delivered so much joy! Not everyone can afford to leave the UK to find the best of the best and what dreams are made of so I, personally would love Universal to come to the UK to offer all UK residents the opportunity of such precious experiences, as well as to attract people worldwide to visit the UK because that is exactly what Universal does - All those that can afford to - will come - and this will be a significant boost and benefit to Bedford and the UK economy. (Amazing predictions - It could create 8,000 new full time jobs once in operation and facilitate significant infrastructure improvements in Bedford). I, we, support Universal Resorts and the project because it would create thousands of jobs, help to drive footfall to existing local businesses, and unlock major investment into local infrastructure.	Please explain why
5734	The potential to improve Bedford with jobs ie: tourism is immense	Please explain why
5742	This would provide jobs and regenerate an area that has little use at present. Local infrastructure would need to be considerably improved.	Please explain why
5755	Bedford is a lovely town and close to major roads this would bring more money and investment into the area and hopefully the jobs would increase the number of people working and investment into the area	Please explain why
5758	More jobs in Bedford More homes too All good	Please explain why
5763	Bedford has new houses being constructed but the facilities need to be expanded. This will include new jobs and improved public transport. A theme park will bring fun to the area.	Please explain why
5766	Exciting opportunity for bringing jobs and money to the Bedford area	Please explain why
5768	Economic benefits to Bedford as a whole would be huge, creating hundreds of jobs as well as bringing tourists to an area of England that would rarely be considered by travellers without the park.	Please explain why
5777	Fantastic positive opportunity both for jobs, local communities and additional entertainment opportunities much needed.	Please explain why
5778	As stated within the question, to be able to create thousands of jobs, help to drive footfall to existing local businesses, and unlock major investment into local infrastructure would be a fantastic prospect for any area in terms of growth and I would have full backing to this.	Please explain why
5790	Exciting opportunity for the area. Will bring jobs to the area and build on existing transport links.	Please explain why
5805	I've been visiting your USA theme parks since 1992 when I was 18 starting with Orlando Universal studios. I was amazed with how far ahead the USA was with theme parks, the rides, shows, organisation compared to anything we had in the UK at that time. I still maintain that universal studios in Florida in 1992 is still way ahead of any theme parks in the UK in 2024! Since then I have visited Florida and California Universal studios parks on many occasions over the years, last time was 2020. It's quite expensive for people from the UK to have holidays in California and Florida and it would be great for residents of the UK to be able to experience exactly what I have but on their doorstep! Not only that but comcast is a huge organisation who will no doubt make money no object in achieving their goals, just like they have in their amazing parks across the world. When universal make a decision to go ahead with a new park they waste no time in the planning and realisation of the park. New roads, local infrastructure, blending in with the local environment is second to none. Also the huge benefit not only to the local economy in terms of jobs and new businesses opening up but to the UK as a whole with the amount of tourists visiting the UK. This really is what the UK has been missing for many many years.	Please explain why
5806	Because it will help the economy and give more jobs	Please explain why
5811	Jobs, and making people happy by providing entertainments at a range of admission prices. Yeas ago I visited Universal Studios with my husband and son. It was great, quality entertainment, never tacky but always had Universal appeal to different age groups.	Please explain why
5813	Potential for jobs not just for Bedford but for people all around the UK with specific skill sets.	Please explain why
5814	I believe it would be beneficial in creating jobs and supporting the community. It will make Bedford a place where people will come to visit.	Please explain why
5816	Very good for National & Local economy, create jobs and will be beneficial for many small local businesses!	Please explain why
5824	More jobs and a theme park on my doorstep	Please explain why
5827	drive footfall to existing local businesses, and unlock major investment into local infrastructure, jobs	Please explain why
5838	Anything that creates jobs etc and tourism would be good for Bedford	Please explain why

5854	The area needs regeneration and the site has been vacant for a long while. Bedford needs infrastructure other than housing and this project would draw people to the county which would enhance job prospects and encourage other businesses to consider the area for their projects. The people of Bedford need an area of entertainment that would be available to everybody. I think the positive impact that this Universal Studio would have would be immense and give Bedford the kick start it requires to move forward with jobs , entertainment and overall regeneration of the area. The knock on effect will be huge!!!	Please explain why
5863	Benefit to the area Jobs for the young people	Please explain why
5870	I think the jobs created and the benefits to the infrastructure and businesses would be massive.	Please explain why
5873	Opportunity for jobs/training and our local economy is a wonderful reason to support this project.	Please explain why
5878	Lots of housing is being built in the area but I havnt seen evidence of many new jobs. There should be a proportion of skilled well paid jobs in the mix - not mainly minimum wage zero hours .	Please explain why
5879	Aside from creating extra jobs in the area it will also put Bedford on the map for other potential interest and opportunities.	Please explain why
5880	It would be fantastic for Bedford and create lots of jobs.	Please explain why
5882	I think it would benefit the neighbouring Communities and create many jobs	Please explain why
5883	Positive for jobs and economy. Bedford town centre needs a boost	Please explain why
5901	Put Bedford on the world map and create local jobs	Please explain why
5920	Bedford is no longer a thriving community but a park would bring jobs and prosperity.	Please explain why
5944	The area needs more jobs for the additional people moving to the area.	Please explain why
5949	Jobs.	Please explain why
5958	All of the reasons you've mentioned but primarily the increased local economic activity and associated jobs.	Please explain why
5978	This would create more jobs for Bedford locals, increase the number of people visiting the town, increasing property value in local area, give a chance for local businesses to flourish. Good place for locals to come and enjoy the park. Bring foreign tourists to Bedford, increasing the popularity of Bedford.	Please explain why
5997	We need jobs and a growing economy. This would put Bedford on the map and make it an exciting place to live as well as helping communities flourish.	Please explain why
5998	It will help provide 1,000s of jobs and be a great addition to the UK	Please explain why
6001	The UK has long lacked a world class resort destination, and Universal is a great company to rectify this. Anything that creates 8000 jobs should be celebrated and the knock on effects across the UK for high quality suppliers of items such as food and beverages would be enormous.	Please explain why
6005	economical benefits and jobs	Please explain why
6011	would bring in a lot of jobs etc, but will also bring in one of the best theme park companies to the uk	Please explain why
6012	It is a big win for the UK and a big draw and will bring a lot of money tourism work jobs and would not just uplift Bedford but the whole UK	Please explain why
6020	The site in Orlando has transformed the area into a thriving hub with so much to do for families. Its a no brainer to have such an awesome park in the uk, jobs, tourism, things for uk families to do.	Please explain why
6030	Revamp the area.. Be one of only a handful of sited around the world. Jobs and profit to the area. Train links!	Please explain why
6046	It would be good for the uk as it would change the ride experiences I 100 percent support this project because there would be so many jobs that come from this potentially being built to having staff run the park and the rides/food outlets and restaurants and it would increase the job opportunities we have in the uk by creating so many interesting new jobs	Please explain why
6058	I think Bedford would greatly benefit from the park- it would improve the lives of many creating jobs and improving situations. It would also be inspiring for the next generation to have something like this on their doorstep, and would give opportunities to so many, similarly to how centre parcs has done.	Please explain why
6079	It would be great to see Bedford on the world map! Creation of new jobs in the area and investment to local infrastructure would be just a bonus!	Please explain why
6083	To bring more jobs into the county	Please explain why
6088	To bring more jobs to the area and improve rail infrastructure	Please explain why
6093	As mentioned by yourselves I think this will bring huge benefits to Bedford by creating 1000's of jobs and bringing footfall to the area this increasing the local economy.	Please explain why
6100	I live near the area and it would be nice to see a large attraction bring people to it and also create many jobs and exciting opportunities	Please explain why
5700	Bedford would benefit greatly with job opportunities	Please explain why
5904	The economic benefits would be substantial	Please explain why

5906	Employment opportunities and local economic benefits.	Please explain why
5512	Job opportunities and grow of the local economy.	Please explain why
5521	I live away from the site currently but want to move closer to the Bedford / London area for a job role I would enjoy. The Universal project has the potential to not just attract locals but to bring people such as myself to the area who are interested to work at the resort.	Please explain why
5650	Job creation. Local and national investment. Tourism boost.	Please explain why
5653	Increase in tourism and job opportunities	Please explain why
5685	The area desperately needs higher quality more aspirational job opportunities particularly for young people. The proposal would capitalise on a uniquely accessible location and help to rehabilitate a badly damaged landscape and environment.	Please explain why
5716	We live here, we have teenage sons. We would all visit the park regularly. There will be job opportunities for our children. Bedford needs other business as well as just distribution businesses which we have loads of.	Please explain why
5752	I think the job opportunities would provide a boost for the area.	Please explain why
5765	I believe the park and resort will drive growth in and around Bedford. It will create job opportunities as well as improve infrastructure such as roads and buildings	Please explain why
5767	It would improve joblessness and increase enjoyment for locals during their non working time	Please explain why
5803	Creating a better Bedford more job opportunities, boost local economy	Please explain why
5829	I have 3 children- they would love this now but also in the future it's a fabulous job opportunity. Exactly what the area needs!	Please explain why
5831	Great opportunity for local and national economy, job creation etc.	Please explain why
5952	The job opportunity is incredible. My children would be a good age when opening and many children I know could get weekend work there. It's. Place where you can grow and develop and progress. The work for all the local people in construction would be amazing, my husband being one of them. It would just bring so much work. There is no down side to this project, only good.	Please explain why
5966	Job creation is good, but unemployment is already low in this area.	Please explain why
5990	Job opportunities and as a frequent theme park visitor I feel it would be good for the UK economy.	Please explain why
6016	Great for the region and job opportunities as well as tourism.	Please explain why
6085	Job creation. Regeneration of the Bedford area, will put Bedford on the map. Excited to have a Universal Theme Park on my door step and will welcome you with open arms.	Please explain why
5482	Providing work and educational opportunities for my son.	Please explain why
5483	To grow the local economy and offer new opportunities to the next generation of Bedfordians.	Please explain why
5484	Create new opportunities	Please explain why
5561	I think the opportunities for employment are too good to ignore, also the development of the site and breathing new life into that space. I also think that bringing more people to our area with the potential to support the local economy and with that it will breathe new life and investment into Bedford.	Please explain why
5562	Employment opportunities, increase in tourism, regeneration of a brown site, competition for existing theme parks.	Please explain why
5565	I would support this as it would be beneficial to local economy, employment opportunities and raising the overall profile of Bedford. However it needs to be built with local residents like myself in mind. For example road structures, traffic caused by visitors, parking by park visitors in surrounding areas causing issues for local residents, noise considerations, potential increase in litter in the local area and covering the park with natural barriers such as tall trees.	Please explain why
5658	Educational and employment opportunities for young people in the area.	Please explain why
5889	Additional work opportunities vital for the area	Please explain why
6027	The area is in desperate need of employment opportunities	Please explain why
6042	It would add a huge number of employment opportunities, put Britain even greater onto the map in regards to world class theme parks and celebrate British culture. IE: Harry Potter etc... Its about time we had our own Harry Potter theme park when there are many internationally now.	Please explain why
6060	Employment opportunities, local entertainment	Please explain why
6067	Being an electrician myself this could open new career opportunities for me and others like me	Please explain why
5509	I believe the infrastructure and employment potential of this resort would really help Bedford & Milton Keynes.	Please explain why
5527	We have seen such a decline in our town centre, addition of football and money invested into the area can only help all our small businesses and greater employment for residents will also help reduce poverty and crime.	Please explain why

5571	There are many new builds developments in the area, but not enough amenities and other growth, in terms of employment, leisure and infrastructure, so this project would serve the local and wider communities very well.	Please explain why	
5603	A great opportunity for Bedford and nearby residents for employment and entertainment. Will put Bedford on the map	Please explain why	
5690	Greatly needed life time opportunity for all to share the amazing experience of visiting a park like this. Many families would not or may not be able to travel abroad to do so. Encourages employment of all ages especially school leavers and promotes the current family environment we currently have within Wixams. Will hopefully also encourage local councils to invest more in the local areas current appearance, with transport links and anti social issues also being high on the list.	Please explain why	
5695	Would bring investment and employment to the area	Please explain why	
5744	A good recreational and employment opportunity	Please explain why	
5761	I see the development as providing a focal point for visitors, increasing local employment oportunities, also hopefully visitors would take the oportunity to visit other local attractions/be encouraged to return for further visits to the area, which would encourage and support regeneration activities in for example, Bedford town centre.	Please explain why	
5786	Brings employment and infrastructure for the roads. Puts Bedford on the map and will help local businesses too.	Please explain why	
5847	I think it will be great for the local area and the community. It fills me witj joy that's I will have somewhere to visit with my children and that they will have the opportunity for possible employment in the future.	Please explain why	
5900	For leisure and employment	Please explain why	
5957	It's potential is huge! For developing culture as well as heritage, tourism, economy, employment. Much depends on choice of theme. Would love to see towns heritage celebrated through the theme, not just indirectly- it's entirely possible with the nature of our local heritage (see notes left with you on the day of the presentation at Bedford College)	Please explain why	
5963	It will make Bedford a destination especially with Centre Parcs in the area. If we have more employment then perhaps our town centre will see a revival.	Please explain why	
5993	Great employment opportunity which will help improve the local area and increase the economy	Please explain why	
6019	Great for employment, the economy and environment in and around Bedford.	Please explain why	
6094	It would be a fantastic opportunity for Bedford to improve local facilities and give much needed employment for local population.	Please explain why	
5830	Looking forward to the opportunities it will bring. Employment and leisure what is there not to like	Please share any other feedback you have at this stage.	
5859	Making good value season tickets for local residents. Trying to employ local people where possible.	Please share any other feedback you have at this stage.	
5689	I think to increase local support for the initiative, discounted or local rates for the park would help to minimise any concerns, coupled with guarantees for boosting local employment. If things such as food / services were sourced locally as well this would be a major plus point for the proposal.	Please share any other feedback you have at this stage.	
2232	This could be really good for the UK, it will bring so much tourism not just from the UK but from other European countries. There's a train called the Euro star which goes under the English Channel and connects France to England so it'll be easily accessible for other parts of Europe. Its only a 2hr flight from Spain, Portugal and the Canary Islands. This will bring so much tourism and business for the UK and that's why its so exciting. Also, creating new jobs for British Citizens. I really hope this happens.	Please share any other feedback you have at this stage	
280	Absolutely! I have been lucky enough to visit many theme parks on many occasions including Universal's parks in both Orlando and Osaka and the benefits are clear to see. Local jobs, increased tourism and improvements to the local area are but a few; I can see this being a fantastic asset both to the initial area and to the rest of the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
582	As an enthusiast I would love for a new park to come to the uk it would bring tourism to the town and jobs to many people	Would you support a potential park and resort coming to this site? Please explain why.	
740	As long as the infrastructure is right, then I cannot see the negatives in this. It can only be a positive thing for Bedford and the surrounding areas, which often get overlooked in favour of bigger cities eg Milton Meynes, London, Cambridge. It would 'put us on the map' and bring much needed tourism and footfall to our town centre which is desperately needed. The majority of people in Bedford I think feel the same. I am also conscious of jobs for my children (currently 7 and 10) and having such a big potential employer nearby can only be a good thing for their job prospects in the future.	Would you support a potential park and resort coming to this site? Please explain why.	

1625	Because it brings in jobs not just for the locals, but also for the rest of the UK even beyond? It will bring in tourism which would in my opinion have a positive impact on the UK's economy 100%, its what we need in the UK, as we haven't got nothing like it, also it can be sometimes expensive to travel to other resorts & parks throughout the world for us Brits via flying, trains a.k.a Eurostar currently to Europe aswell Disneyland Paris. Also we have no parks & resorts like this scale in the UK, could do with parks and resort more on an International & World class level. Offering more immersive themed & fun, thrilling experiences that current theme parks, amusement parks in the UK can't offer currently at the moment. Think with this park & resort, that will make this resort top. 100%.	Would you support a potential park and resort coming to this site? Please explain why.
585	Bring so much to the uk economy such as jobs and tourism	Would you support a potential park and resort coming to this site? Please explain why.
2784	From a tourism perspective it will be good for Bedford and the UK. The park would give welcome employment both during construction and during operation. The UK needs a world class theme park. There would be extra income for nearby airports, hotels and retail outlets. Such a park would increase the touristic appeal of the UK both in Europe and further afield.	Would you support a potential park and resort coming to this site? Please explain why.
4703	Great to boost tourism in the area so local spending but also great to have increase in job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
2940	I am enthusiastic about the new employment opportunities both within your park and from developing tourism locally.	Would you support a potential park and resort coming to this site? Please explain why.
1462	I personally think this project is a fantastic exciting opportunity not only for the UK, but for the local area too. To have a theme park of this magnitude that supports local employment, training facilities, Trainline and road infrastructure improvements is incredibly positive. The UK holds so much history and it will be important to reflect that within this new theme park and to enhance UK tourism and attractions. There is genuinely nothing of a negative critique I could provide when all I can see is nothing but improvements and exciting opportunities ahead.	Would you support a potential park and resort coming to this site? Please explain why.
174	It would benefit not just Bedford, but the wider East Anglian/East Midlands area, through employment opportunities & tourism.	Would you support a potential park and resort coming to this site? Please explain why.
2109	I think this is an amazing opportunity for the uk in terms of tourism, job opportunities and economic growth.	Would you support a potential park and resort coming to this site? Please explain why.
4373	A chance for positive change. More employment. Better opportunities for the locals. Supporting local businesses too. Overall a huge positive impact on the area.	Would you support a potential park and resort coming to this site? Please explain why.
256	A fantastic opportunity for the UK and surrounding European countries for employment and travel	Would you support a potential park and resort coming to this site? Please explain why.
928	A great opportunity for the community to help people of all ages with employment. Not only directly for Universal, but also for the Bedford area for transport, local hospitality and all businesses in general	Would you support a potential park and resort coming to this site? Please explain why.
4318	A major investment in the area will be beneficial for employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4268	A new theme park in Bedfordshire would bring new life to the area, significantly boost our local economy and future prosperity, support the development of much needed local infrastructure, it will provide a significant increase in employment opportunities and will also provide a platform for future generations to learn more about people and their cultures as we see more footfall from international visitors attending the park and staying locally.	Would you support a potential park and resort coming to this site? Please explain why.
967	A once in a lifetime opportunity to bring land, which would otherwise be just another housing development, into use as a source of significant employment, training and skills and bring the economic benefits of tourism to the county.	Would you support a potential park and resort coming to this site? Please explain why.
3330	A Universal experience anywhere within the UK would be of benefit to the country. The suggested location looks both sensible and apposite. It would, theoretically, improve local infrastructure, employment and economy, open up the European market to the brand itself (eg easy to access via Heathrow and Gatwick airports to most local major nations) and provide a hugely important new cultural focal point for families across the UK.	Would you support a potential park and resort coming to this site? Please explain why.
1005	A Universal Park and Resort is very very special and I have visited both California and Florida parks. This would bring immense benefits to Bedford and the surrounding area including employment, infrastructure and huge economic benefits. It would be wonderful for the environment too. A Universal park and resort would be something for us all to be hugely proud of and improve our status which in turn will encourage other investors. It would be the greatest thing to happen to Bedford since the railways!	Would you support a potential park and resort coming to this site? Please explain why.
681	A Universal park in Bedford would have numerous benefits to the local area in terms of employment and improvement to infrastructure, and assist the UK's tourist sector as a whole.	Would you support a potential park and resort coming to this site? Please explain why.

3750	A Universal resort would be a great addition to our area. I would fully support it and would be interested in the employment opportunities it may offer.	Would you support a potential park and resort coming to this site? Please explain why.
3506	Although not a theme park fan, as a local resident I would definitely support the other benefits this development would bring if done well, particularly the prospects of the improvements to surrounding area and potential employment opportunities and boom to the local economy	Would you support a potential park and resort coming to this site? Please explain why.
3758	Amazing economic and social benefits and employment opportunities for local people. Also I LOVE theme parks and would be there all the time!	Would you support a potential park and resort coming to this site? Please explain why.
3988	Amazing opportunities for locals both socially, for employment and to bring people to our community which will hopefully aid development and restoration of the area.	Would you support a potential park and resort coming to this site? Please explain why.
4489	An amazing opportunity for Bedford and the UK. Good for the economy and employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4741	Anything that brings work and (via tourism) income into the area is a good move. This development could radically change the local employment prospects for many people who otherwise have to travel some distance.	Would you support a potential park and resort coming to this site? Please explain why.
1776	Anything that creates employment must be good.	Would you support a potential park and resort coming to this site? Please explain why.
4463	As a family of 2 engineers and a young child, the employment opportunities for us and future employment for our family are great. We have recently been to Universal in Florida and previously been to Universal Hollywood and loved each visit. To have it on the door step would be brilliant and we would very likely look at purchasing an annual pass for this resort.	Would you support a potential park and resort coming to this site? Please explain why.
4784	As a father of two boys 13 & 6 I believe this will benefit them with employment opportunities, and also maintain a desire to stay in the town.	Would you support a potential park and resort coming to this site? Please explain why.
3059	As a mother with younger children this is great opportunity for such a varied type of employment opportunities. It will help grow the local economy. It's exciting this is being considered.	Would you support a potential park and resort coming to this site? Please explain why.
4147	As a past frequent visitor to Universal Orlando, and an independent travel agent, I would love to see this in the UK. All too often the UK gets overlooked for major attractions, case in point being the park in Paris, but relatively close proximity to Leavesden & Elstree studios and the hangars at Cardington make for an almost central location ideal for the project. Some improvements to the existing transport links would also assist in this. Much needed employment and revenue streams would put life back into an area once thriving with brickyards, which has seen that eroded in recent decades, with little or nothing to replace the lost industries.	Would you support a potential park and resort coming to this site? Please explain why.
3167	as a regular visitor to Universal resorts in the United States I have faith that NBC would be more than capable of making this opportunity this an excellent local economic and social stimulant and would help to provide employment opportunities for the local area.	Would you support a potential park and resort coming to this site? Please explain why.
810	As a themed attraction and immersive experience enthusiast I would welcome this development wholeheartedly, but the employment benefits, economy boost from local, national and international tourism and infrastructure improvements to the area would make the project an absolute all-round success for the UK	Would you support a potential park and resort coming to this site? Please explain why.
4168	As long as the infrastructure is put in place so the traffic does not effect the local areas then the employment and leisure opportunities given by the park will be phenomenal for the area.	Would you support a potential park and resort coming to this site? Please explain why.
2958	As retired Police Managers with 30 years service, we see the many economic and social benefits to the County and surrounding areas as you have detailed especially linked to transport improvements (all types, as detailed), employment, support for local Organisations and youth diversion, crime & ASB prevention & reduction and tourism.	Would you support a potential park and resort coming to this site? Please explain why.
165	As someone who has enjoyed visiting Universal Studios in Orlando many times, and witnessed how well it is integrated into its surroundings, I cannot emphasise enough how much I support the idea of a UK theme park in this area. I firmly believe it is the best thing that could possibly happen for Bedford and its surrounding area, and that the benefits it offers for the locality in terms of employment, tourism, infrastructure and - perhaps most important of all - sheer enjoyment mean that everybody should do everything possible to make it happen. It is, in short, a game changer for the area that is sorely needed. If opened, I will visit Universal Studios as often as possible - and may even be interested in employment opportunities there in due course.	Would you support a potential park and resort coming to this site? Please explain why.
3583	As well as the direct employment opps, it's exciting to think there will be many indirect economic benefits to local companies. Bedford is a great place and perfectly positioned geographically to welcome this development.	Would you support a potential park and resort coming to this site? Please explain why.

4676	Aside from the employment potential and additional money in the local economy There is a need for a quality theme park and resort in the area to give Merlin some competition. Build it and we will come!	Would you support a potential park and resort coming to this site? Please explain why.
4930	At present it's a disused piece of land, that over the years has seen massive loss of employment in the area. As long as the roads and infrastructure are correct, it's a massive win for the area	Would you support a potential park and resort coming to this site? Please explain why.
3317	Attract business Provide employment Boost house prices Improve roads Improve natural environment	Would you support a potential park and resort coming to this site? Please explain why.
4499	Be great for the local area and I retire from police in 7 years and will look for employment .	Would you support a potential park and resort coming to this site? Please explain why.
2549	Because I feel it would be a great boost to the local community that benefits the rest of the U.K. and helps solidify Bedfordshire as a place to hosts. It will also solidify itself as an employment hub for future generations that is so desperately needed	Would you support a potential park and resort coming to this site? Please explain why.
4739	Because it gives people hope for employment opportunities that doesn't always happen in your industry locally. It will be a great asset to the area and it's community.	Would you support a potential park and resort coming to this site? Please explain why.
2327	Because it will be good for uk economy and more employment opportunities for the local	Would you support a potential park and resort coming to this site? Please explain why.
494	Better infrared, employment opportunities and putting Bedford on the map	Would you support a potential park and resort coming to this site? Please explain why.
3395	Boost to local economy, employment and ongoing investment in local infrastructure to attract entire ecosystem of ancillary industries	Would you support a potential park and resort coming to this site? Please explain why.
373	Bring employment opportunities into the area.	Would you support a potential park and resort coming to this site? Please explain why.
2609	Bring life back to an empty site. Local employment opportunities and communication improvements	Would you support a potential park and resort coming to this site? Please explain why.
934	Bring new employment to the area, boost local and national economy. To have a creative and active fun business in the area.	Would you support a potential park and resort coming to this site? Please explain why.
1302	Bring value to the area, employment and development opportunities, entertainment that is needed in the UK	Would you support a potential park and resort coming to this site? Please explain why.
3526	Bringing an exciting park to the UK would generate employment and a much needed uplift to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3127	Bringing great employment opportunities to the area	Would you support a potential park and resort coming to this site? Please explain why.
4122	Bringing training and employment opportunities to the area Better transport networks Improving economy of local area Also I love theme parks!	Would you support a potential park and resort coming to this site? Please explain why.
3216	Brining employment and a much needed boost for the town	Would you support a potential park and resort coming to this site? Please explain why.
2090	Creating employment and training is important	Would you support a potential park and resort coming to this site? Please explain why.
758	Creating employment opportunities for people living in this area. We have never had a theme park like this before I really think it would be fantastic.	Would you support a potential park and resort coming to this site? Please explain why.

1747	<p>Dear Universal UK Team, I am writing to express my enthusiastic support for your proposal to establish a new park in Bedford. As a resident of the area, I believe that the creation of this park would bring immense benefits to the community and enhance the quality of life for all Bedford residents. Parks play a vital role in providing green spaces for relaxation, recreation, and community engagement. They contribute to the physical and mental well-being of individuals, promote social interaction, and create a sense of unity among residents. By developing a new park in Bedford, Universal UK has the opportunity to make a lasting and positive impact on the local community. Furthermore, the establishment of the new park has the potential to contribute significantly to the development of our transport infrastructure, job market, and education system. By creating a green space accessible by public transportation, Universal UK can help improve connectivity within the city and encourage sustainable modes of transportation. This initiative could lead to the development of new cycling paths, pedestrian walkways, and public transportation routes, enhancing mobility options for residents and reducing traffic congestion. In addition, the construction and maintenance of the new park will generate employment opportunities for local residents, providing a boost to the local economy and fostering community prosperity. Moreover, the park could serve as an outdoor classroom for schools and educational institutions, offering hands-on learning experiences in environmental conservation, biology, and ecology. I applaud Universal UK's commitment to investing in projects that not only beautify the area but also contribute to the overall development and well-being of the community. The establishment of a new park in Bedford has the potential to create a ripple effect of positive impacts on our city's infrastructure, economy, and educational opportunities. I wholeheartedly support Universal UK's proposal and urge you to move forward with the project with the full backing of the community. Thank you for your vision, dedication, and efforts to enhance our local area. I look forward to seeing the positive impact that the new park will have on Bedford and its residents.</p>	Would you support a potential park and resort coming to this site? Please explain why.
2869	<p>Despite the concerns of living nearby, traffic, infrastructure concerns etc I believe the project would be beneficial for the area. Bedford town centre for example is in dire need of investment and the employment opportunities for the local residents. In my opinion, the benefits outweigh the negatives!</p>	Would you support a potential park and resort coming to this site? Please explain why.
4229	<p>Direct employment and investment in the local area which will definitely come on the back of this potential development.</p>	Would you support a potential park and resort coming to this site? Please explain why.
4685	<p>Economic and employment opportunities as well as a new UK tourism destination</p>	Would you support a potential park and resort coming to this site? Please explain why.
3159	<p>Economic and employment opportunities BUT Bedford Borough MUST commit to road improvement, including dualling the Western Bypass. Roads cannot cope at present so need drastic improvement needed if park goes ahead. Public sector that currently doesn't plan long term must wake up to long term traffic needs. People want their cars, not local public transport.</p>	Would you support a potential park and resort coming to this site? Please explain why.
1307	<p>Excellent regeneration of the site. Employment opportunities and local businesses opportunities. Would like to visit with my family.</p>	Would you support a potential park and resort coming to this site? Please explain why.
302	<p>Experience is a must no UK theme parks are on level with U.S Employment</p>	Would you support a potential park and resort coming to this site? Please explain why.
4159	<p>Experiences & entertainment is solid business sector, with potential for growth in every aera. As long as infrastructure and employment opportunities/training keep up with the resorts success then it's a win-win for everyone.</p>	Would you support a potential park and resort coming to this site? Please explain why.
3557	<p>Fantastic employment opportunities for a range of people and skills. Brings new energy and excitement to the local area. Great to see investment in Bedford.</p>	Would you support a potential park and resort coming to this site? Please explain why.
1238	<p>Fantastic for Uk tourism industry and an exiting prospect as a visitor and for future employment</p>	Would you support a potential park and resort coming to this site? Please explain why.
4298	<p>Firstly, I am a huge fan of theme parks and Universal! Secondly, I feel that this project would bring such a boost to employment in the area. I am excited about it for the potential I can see for myself and family.</p>	Would you support a potential park and resort coming to this site? Please explain why.
4325	<p>For all the employment benefits as well as having a world class facility on our doorstep.</p>	Would you support a potential park and resort coming to this site? Please explain why.
3117	<p>For creating so many employment opportunities, and also something new not just for Bedford but for the UK, we need a new theme park and Universal is perfect</p>	Would you support a potential park and resort coming to this site? Please explain why.
4790	<p>For employment opportunities and to put Bedfordshire on the map</p>	Would you support a potential park and resort coming to this site? Please explain why.
3466	<p>For full time employment and fun</p>	Would you support a potential park and resort coming to this site? Please explain why.

1823	For the amount of employment it would bring locally as well as business. The only downside is that Bedford does not currently have enough school places, doctors or dentists to deal with the current population let alone new people moving to the area and in time the vast amount of visitors who some of which will need medical attention. This desperately needs addressing first.	Would you support a potential park and resort coming to this site? Please explain why.	
4195	For the reasons outlined above, it would create brilliant employment opportunities for the town and surrounding hotels and small businesses. It would also be an amazing place to visit for future generations.	Would you support a potential park and resort coming to this site? Please explain why.	
4485	For the reasons you have already said, employment opportunities, we are a central location in England with easy access from a lot of major roads, Centre Parks is only up the road at Woburn too, it would bring a lot of tourists to the area and as such more money to the local shops which is always a good thing!	Would you support a potential park and resort coming to this site? Please explain why.	
2603	Great employment and future for their careers	Would you support a potential park and resort coming to this site? Please explain why.	
3119	Great employment opportunities and economic growth for our area	Would you support a potential park and resort coming to this site? Please explain why.	
3778	Great employment opportunities and fabulous for local children and people to have this locally as well as for others throughout the UK. The UK should have something like this. Paris has Disneyland for example. It is very exciting!	Would you support a potential park and resort coming to this site? Please explain why.	
824	Great for employment and economy. Would be a great tourist attraction for the UK	Would you support a potential park and resort coming to this site? Please explain why.	
4637	Great for the area, great for local employment opportunities. Put Bedford on the map	Would you support a potential park and resort coming to this site? Please explain why.	
3905	Great for the development and employment in the area and for family entertainment	Would you support a potential park and resort coming to this site? Please explain why.	
2216	Great opportunity for employment for the young generation. Great improvement for infrastructure and the environment. Preferable than factory or housing	Would you support a potential park and resort coming to this site? Please explain why.	
4751	Great to improve infrastructure and employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
4514	Having a theme park close would be great for me and my family to visit and the employment opportunities to the local area is fantastic. I hope that it would also bring more businesses to invest in Bedford. The potential improvement to road networks would also be helpful to all	Would you support a potential park and resort coming to this site? Please explain why.	
3068	Having been fortunate enough to visiting Universal Studios Florida twice in the 1990s. The UK has been crying out for something like this for more than 40 years. Seeing the movies in a whole new way, the vibrancy of the cast members and the vast employment opportunities it can offer in the UK and around the surrounding counties is something I would love my children and children's children to experience and hopefully become part of.	Would you support a potential park and resort coming to this site? Please explain why.	
4770	Having visited the Universal area in Orlando on many occasions, ,I have been impressed by the way the parks have been assimilated into the area with the infrastructure/landscaping blending into the local environment. Your parks can not be compared to any parks we have here in the UK and as a local employer you would bring many, many employment opportunities to an area of historic importance. There would also be opportunities to invest in businesses that are already present. Having seen how quickly the actual build of the new Epic Universe park is progressing it gives me hope that once a decision is made, if you proceed, the park will progress at a faster pace than ventures usually take in the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
2306	Having visited Universal parks in the US, I think the project will be a great economic driver for the local area. It will also provide employment opportunities and improvements in infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.	
1490	Having visited Universal parks numerous times I can confidently say that each experience has been unique, positive and full of amazing memories for me and my family. The attention to detail in the parks is unparalleled and totally immersive providing a genuine break not just a vacation. The staff at the parks are so helpful and committed not just because they are good people but you can clearly see they want to belong to such a great company. The staff really do help make our trips memorable. Having a major theme park in the UK is something that this country has been desperate for, we have the population and the infrastructure to host such a park and the opportunities that Universal would bring to our economy and local employment would boost the country to new and invigorating levels. Please build your next park in the UK!	Would you support a potential park and resort coming to this site? Please explain why.	

2391	Heighten employment, lesuire opportunities and improved road strutures	Would you support a potential park and resort coming to this site? Please explain why.
2694	Help employment	Would you support a potential park and resort coming to this site? Please explain why.
3221	Hopefully will provide employment and training opportunities for young people from Bedford. This would be help to encourage them to stay locally and help maintain Bedford as a vibrant, multicultural town	Would you support a potential park and resort coming to this site? Please explain why.
2683	Huge employment opps	Would you support a potential park and resort coming to this site? Please explain why.
4698	Huge improvement to local employment	Would you support a potential park and resort coming to this site? Please explain why.
4597	Hugely exciting opportunity to put the region on the map. Would be proud to be nearby a world class theme park. Employment opportunities and transport infrastructure improvements would only be a good thing	Would you support a potential park and resort coming to this site? Please explain why.
4301	I am a proud Bedfordian and a Bedford Tour Guide. I have seen the impact on the lack of investment in our Town and its decline over a number of years. This venture has the potential to re-invigorate our Town and provide benefits to the local economy as well as training and employment opportunities, which are key to stoking optimism.	Would you support a potential park and resort coming to this site? Please explain why.
4193	I am a theme park enthusiast and in particular Disney and universal parks. I would be looking for employment if this were to happen and also using my YouTube channel to promote the parks most weekends. This would be a dream come true for me to have a universal theme park next to my home. Please let me know if there is anything I can do to support the project or help you get it over the line.	Would you support a potential park and resort coming to this site? Please explain why.
1460	I am I big theme park fan and love Universal Orlando. Unfortunately the cost for a family of 4 to visit Orlando is no longer attainable on a yearly basis and this is speaking from a middle class employment level. So having a resort within the UK will help families like mine to fill the gaps in between Orlando visits with a trip to Universal UK to get our fix!	Would you support a potential park and resort coming to this site? Please explain why.
3283	I am very worried about the smaller outlying villages being swallowed up by such a development. I choose to live in a village location and wouldn't want it to change. I worry about the infrastructure not coping - the roads/traffic are not great as it is. That said, I welcome employment opportunities and the investment in the wider area	Would you support a potential park and resort coming to this site? Please explain why.
2567	I believe Bedfordshire has huge potential and a smart workforce and students and such an investment could really improve quality of life for everyone in Bedford and the surrounding areas. More employment will help support our public services and schools. As a local business for 150 years we are very passionate about helping the community and environment.	Would you support a potential park and resort coming to this site? Please explain why.
366	I believe that this would be a fantastic project and benefit the UK and local area massively. Universal Studios in my opinion are at the forefront of entertainment in theme parks. I've spoken to many people about this and everyone was extremely excited and desperate for this to go ahead. I've been to your resorts in Florida many times and this potentially coming to the UK will be fantastic, my friends and I will visit many times. I think the employment opportunities will benefit the local area with employment and local businesses will thrive from supporting the resort. I think the current site needs development and the enhanced planting and creating wildlife areas will also benefit the wildlife on a site that currently is just a field and a derelict brick works. I doesn'tsee any negatives with the project going ahead, this is an opportunity the UK needs and has dreamed of for many years. Thank you Universal for considering this as your European base, i hope this will go ahead and be the huge success that you have achieved elsewhere.	Would you support a potential park and resort coming to this site? Please explain why.
2947	I believe the benefits in terms of employment (bot directluy and indirectly) and infrastructure will outweigh the likely problems such as with increased traffic.	Would you support a potential park and resort coming to this site? Please explain why.
3366	I believe the benefits this would bring to the area would support many improvements and offer employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
787	I believe the increase in footfall and employment will greatly benefit the local economy and I look forward to the positive impacts the park opening could have on many other businesses in the area.	Would you support a potential park and resort coming to this site? Please explain why.
1161	I feel that Bedford needs more investment in order to increase employment and training prospects. Additionally, this will allow for educational opportunities for students for both practical and theoretical purposes. The opportunities that such a development could bring are vast and as an FE teacher they would be welcomed.	Would you support a potential park and resort coming to this site? Please explain why.
1171	I feel that something of this magnitude will bring employment, opportunities for training and financially benefit Bedford and the surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why.

4443	I have a baby and the prospect of having this on our doorstep is brilliant. We will be able to always have something to do and somewhere she can visit with friends to keep busy. Also, the employment prospects for the local area and young people is great.	Would you support a potential park and resort coming to this site? Please explain why.
4691	I have children that are just about to finish school/ college- I am interested in the employment opportunities for them	Would you support a potential park and resort coming to this site? Please explain why.
3321	I have lived and farmed land over looking this site all my life. I remember the brickyards in their hay day and the many men from our village that worked there. The employment opportunities raised the standard of living enormously. We have diversified from livestock production to food production creating a brand name for Bedfordshire meat products. (XXX) we are proud to supply Centre Parcs and the Woburn Safari Parc. This proposal would have a massive beneficial impact on the local community.	Would you support a potential park and resort coming to this site? Please explain why.
249	I have mixed feelings because I appreciate it will be great for employment and the local economy but I am concerned about noise pollution and the effect on traffic in the area. I would be concerned about nightly fireworks affecting air quality as well as disturbing wildlife and pets	Would you support a potential park and resort coming to this site? Please explain why.
3024	I have visited both Universal Hollywood (once) and Orlando (four times) and thoroughly enjoyed the experience, so I know how good the current parks are. I think it is exciting that Bedford may be chosen for a new park as the employment and local economic uplift that the park would bring would be a great boost for the area.	Would you support a potential park and resort coming to this site? Please explain why.
2420	I have visited other universal properties and had a wonderful experience, and I would like to see that in my local area. I would also benefit from the employment opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
3152	I hope it will bring employment opportunities for all regardless of age, education, disability, etc.	Would you support a potential park and resort coming to this site? Please explain why.
3851	I live locally (literally on XX looking right at your potential site) and believe this sort of employment would be beneficial for the area. Projects of this kind can have a positive effect on the area (if done right!) and would be expected to bring improvements to public transport and the road network.	Would you support a potential park and resort coming to this site? Please explain why.
1581	I live very close to there and i know myself and my daughter would love it. Plus, i would like to seek employment there in the future!	Would you support a potential park and resort coming to this site? Please explain why.
1590	I love theme parks and universal parks particularly so would visit a lot. It would be great to finally have a world class theme park destination in the UK and would improve both the local theme park industry but also economy and employment	Would you support a potential park and resort coming to this site? Please explain why.
3563	I love theme parks so may be biased! But I think it's so important to create employment opportunities for younger people, i also love the idea of making it outside of London as it is easier to access from the north!! (If you're not approved on this site please check out the old Camelot site in Lancashire)	Would you support a potential park and resort coming to this site? Please explain why.
1423	I love universal parks and know that this will improve the entire area and surrounding villages. This will provide employment and ongoing opportunities. This will bring new investments, hotels, restaurants, social activities as people will make Bedford a holiday destination	Would you support a potential park and resort coming to this site? Please explain why.
4323	I think adding new employment opportunities is good for the local economy and if the supporting road and rail infrastructure is also improved then that can only be a good thing.	Would you support a potential park and resort coming to this site? Please explain why.
626	I think any major investment in an area such as Bedford should be welcomed. The opportunity to create so many jobs for local people and further a field is such a great opportunity for both people looking to start a career ie school leavers, and skilled people looking for new roles. It would help local employment greatly. The opportunity to have a world class entertainment venue such as universal studios is something the uk has been missing for decades. Having it in the uk will mean so much more to the local area and further area in terms of tourism and footfall.	Would you support a potential park and resort coming to this site? Please explain why.
4136	I think it is positive for the community from a tourism and an employment point of view	Would you support a potential park and resort coming to this site? Please explain why.
476	I think it will be a fantastic opportunity for our community and especially for the younger generations who will not only have an amazing place to go for fun but will have the opportunity to find employment. I am really excited about this coming to Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
4611	I think it will be a great employment opportunity for local people and will also support local infrastructure and house prices in the area	Would you support a potential park and resort coming to this site? Please explain why.
1015	I think it will be amazing for our little town to get us on the map. Help with employment, help with tourism n footfall for town centre.	Would you support a potential park and resort coming to this site? Please explain why.
2581	I think it will be fantastic for the local area and for me personally I can only see positives, potential employment and improvement to my house value in Stewartby	Would you support a potential park and resort coming to this site? Please explain why.
1089	I think it will be great for employment.	Would you support a potential park and resort coming to this site? Please explain why.

3941	I think it will bring employment and money to the area, which can only be a good thing	Would you support a potential park and resort coming to this site? Please explain why.	
3574	I think it would be an amazing opportunity for an often overlooked county. It would provide so many employment opportunities for people.	Would you support a potential park and resort coming to this site? Please explain why.	
3085	I think it would be good for the area, increase employment for public housing prices will go up and really help Bedfordshire	Would you support a potential park and resort coming to this site? Please explain why.	
1508	I think it would be great for employment and infrastructure and would look forward to visiting myself!	Would you support a potential park and resort coming to this site? Please explain why.	
900	I think it would be great to attract people from around the UK, Europe and the world to Bedford. It would reenergise the town and surrounding areas and make us all strive for a better and more exciting place to live. It will give local people employment and training opportunities and really put Bedford on the map as a destination that has great links to the whole of the UK and Europe. It would mean local schools and colleges could work with you to offer new training/courses that could refresh the education offering in the area.	Would you support a potential park and resort coming to this site? Please explain why.	
2941	I think it would be hugely beneficial for all the reasons you state. I would be keen to explore the opportunities for myself and my children hopefully. It would be good to see a historic site continue to create history rather than become a sea of houses or continue to look like the sad forgotten industry that once created these same opportunities in its day, which provided my previous generations of family with employment and the children a place to enjoy (brickworks had the Lido that my mother and father both went to as kids).	Would you support a potential park and resort coming to this site? Please explain why.	
2566	I think it's a fantastic opportunity for us. Living in Wootton it will be so close but I think it will be amazing. My daughter who is 14 would have potential to employment here. It's just great. 100% behind the project	Would you support a potential park and resort coming to this site? Please explain why.	
4764	I think that the project would be a brilliant addition to the area, bringing secure, long term employment and money to the area	Would you support a potential park and resort coming to this site? Please explain why.	
4137	I think the site is an asset, that the area should grasp, providing improvements to infrastructure, offering employment/training opportunities, lifting tourism in the area, many park visitors will travel a long way to visit site, they will need accommodation, feeding, fuel etc	Would you support a potential park and resort coming to this site? Please explain why.	
1112	I think this can bring an incredible amount of opportunity to Bedford with regards to jobs, apprenticeships and investment in the local town. The main issue is whether that investment actually takes place and the infrastructure to support such a large park is addressed. The traffic around this area is already extremely busy to the point where it can take 20 minutes for me to get out of my estate and now I will potentially be 5 minutes away from a Universal Studios. Year on Year Bedford Council has shown a disregard for infrastructure, we consistently see in local plans, the designs for housing development but no appropriate infrastructure plan to support this development. There is also very little information by way of noise pollution. The surrounding areas for this park is residential with schools and young families. These houses will then need to endure a sudden circa 8,000 people commute for employment and (on the lower end) circa 23k visitors per day. This will bring a lot of people to Bedford however, where are the employees going to live, the housing, the schools etc and moreover how will all the visitors get there? There seems to be an assumption and reports from Universal Studios that 35% to 40% of the attendees will travel by train, but I do not think this is realistic. The cost of train travel in the UK is extremely expensive and in more recent times, unreliable with train strikes happening more frequently and with less and less notice. I think more people will opt to drive than initially thought and this needs to be considered with regards to traffic and parking.	Would you support a potential park and resort coming to this site? Please explain why.	
4014	I think this exactly what Bedford needs. Creating more employment, training and visitors in the area can only be a positive thing. The proposals to the improved local infrastructure would be positive to visitors and local residents	Would you support a potential park and resort coming to this site? Please explain why.	
1482	I think this initiative would be extremely beneficial for the local area and the UK in general in the short and long term. To have a theme park of the standard provided by Universal would be significant for the UK, as from an employment and a customer point of view - as evidenced with the success of the Theme parks in Orlando and Paris, providing year-round/career opportunities and visitors (whereas the UK existing parks are very much seasonal).	Would you support a potential park and resort coming to this site? Please explain why.	
2201	I think this would be an amazing opportunity for the whole of UK, as well as the local area for employment opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	

161	I wholeheartedly support this project and would welcome you to our community. I would visit regularly and purchase an annual park pass. I live about 35 minutes away and would support your project as this offers development and revitalisation to the local area and economy. It offers opportunities for local employment and for positive engagement with local stakeholders.	Would you support a potential park and resort coming to this site? Please explain why.
517	I work locally as a police Constable, I also live locally - Bedford has for many years been disregarded and struggled to get its name on the map, we have many major transport links in Bedford, we are in a easily accessible location and have a fantastic, diverse community. The ability to bring something like Universal to Bedford would provide a real opportunity for local residents to gain employment, benefit from extra footfall and have a location to go and spend time with family. My only concern will be in relation to the current road network and the influx of a large number of people, as a police Constable I regularly attend road traffic collisions on the A421, should the park be built the current A421 is not fit for purpose in dealing with the extra traffic congestion, the Marsh Leys roundabout would become gridlocked and there would be a negative knock on effect to local communities and daily commuters. If the road network was improved and there was a significant, well trained security team in place at the park then this would be a fantastic opportunity which I would definitely be visiting. Good luck	Would you support a potential park and resort coming to this site? Please explain why.
3379	I would hope for the surrounding area to be improved / invested in. I would also hope for employment opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
4594	I would love to have a world-class theme park in the UK, particularly so close to my home. New employment opportunities could also be very interesting for me and my family.	Would you support a potential park and resort coming to this site? Please explain why.
2468	I'm sure there would be many benefits from an employment and social perspective. And I believe that creation of jobs and careers is an essential thing for big businesses to do. However, as someone who is also concerned about the environment my immediate concern is the impact another large resort has on our world. The energy needed to power such a site should be sustainable. The materials used should be eco friendly. And potentially use footfall to generate power such as something like Pavegen. The site should absolutely strive to not allow single use plastic and has the opportunity to be world class in the approach for reducing waste.	Would you support a potential park and resort coming to this site? Please explain why.
2471	If created carefully would benefit local area, provide entertainment and employment and utilise a derelict area for these benefits	Would you support a potential park and resort coming to this site? Please explain why.
1410	I'm 200% behind this project! This is a fantastic opportunity for the UK and Bedfordshire and its neighbouring counties in particular in terms of employment and opportunities for local young people. Also, there is a thriving theme park enthusiast community in the UK which would also be behind this project I'm sure. Although we have good theme parks in the UK such as Alton Towers and Thorpe Park, in my mind they do not match the attention to theming and the guest immersion experience that other European theme parks, such as Phantasialand and Efteling, offer. A Universal Park would fill this gap. There is such an amazing heritage of storytelling in the UK, it would be wonderful to have a theme park where this is celebrated fully. J K Rowling, J R R Tolkien, C S Lewis, George MacDonald, Enid Blyton, Roald Dahl... the list goes on. I am a youth worker by trade - there is such a crisis of poor mental health among young people at the moment in the UK this project could really help both by providing young people with training and employment opportunities but also by offering young people some joy and escapism. This project is well needed in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3457	Improved employment opportunities and also significant improvements to local economies.	Would you support a potential park and resort coming to this site? Please explain why.
4340	Improvements to the local area and opportunities for local employment.	Would you support a potential park and resort coming to this site? Please explain why.
3055	Increase employment It will improve local facilities & infrastructure. It will bring a lot of financial stability to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4145	It can only be a good thing when a huge employer comes to the area. It will provide opportunities for employment and put Bedford on the map!	Would you support a potential park and resort coming to this site? Please explain why.
1319	It creates employment which lead to new investment not just Universal. Training departments, hotels potentially and shops.	Would you support a potential park and resort coming to this site? Please explain why.
766	It is a much needed boost to the country in economic terms but also in building a better quality of life for families- also the employment potential is great	Would you support a potential park and resort coming to this site? Please explain why.
317	It is an exciting project that will bring focus to our town and county, bringing with it, scope for trade, employment and social opportunities.	Would you support a potential park and resort coming to this site? Please explain why.

4278	It is extremely exciting as a Bedfordshire resident that lives 20 minutes away, it will put our community on the map. As a father of three children, two of them love the performing arts, the resort may play a future role in any employment they may gain as well as the ease of access for us to enjoy all the facilities.	Would you support a potential park and resort coming to this site? Please explain why.
2025	It will live well over the mentioned 2 hours from this park but I would still be a regular visitor, if this can be designed with the weather in mind, having undercover areas or inside attractions this will be a huge hit. No other theme park in the UK has that and there are plenty of families who would love something to do in sun and rain that has the standards of a Universal park. That's without even considering the employment opportunities which would be a huge boost locally.	Would you support a potential park and resort coming to this site? Please explain why.
3000	It will be good for employment	Would you support a potential park and resort coming to this site? Please explain why.
1884	It will be great for the UK theme park industry creating healthy competition and great tourism. This will then feed into local improvements, employment and education.	Would you support a potential park and resort coming to this site? Please explain why.
3855	It will be transformative for Bedford, create huge employment and economic benefits including overspill to local businesses. It will also hopefully create economic stimulus to lead to direct investments in Bedford town centre regeneration.	Would you support a potential park and resort coming to this site? Please explain why.
3188	It will bring a range of employment opportunities and put our area on the map!	Would you support a potential park and resort coming to this site? Please explain why.
4365	It will bring Bedford back to life and will provide employment for a lot of people and will increase trade for businesses and hopefully make Bedford Town centre a place where people want to come	Would you support a potential park and resort coming to this site? Please explain why.
4851	It will bring major employment to the area and help improve the infrastructure. It would also help regenerate local towns due to the increased footfall attracting investment in other sectors	Would you support a potential park and resort coming to this site? Please explain why.
1058	It will increase employment, training opportunities and tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4415	It will positively benefit Bedford and the local economy. Providing diverse employment at a variety of levels.	Would you support a potential park and resort coming to this site? Please explain why.
3804	It would be an amazing opportunity for employment, tourists to visit, and fun for all!	Would you support a potential park and resort coming to this site? Please explain why.
4649	It would be an amazing opportunity for the local community for employment and regeneration. Although we overlook open fields at the moment, this will change as per the plans, but the investment in the local people/community is life changing gives us comfort.	Would you support a potential park and resort coming to this site? Please explain why.
3651	It would be an incredible boost to the local economy and provide excellent training and employment opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
1205	It would be good but - the consultation did not consider any other ethnicities. I had to read it to my dad who doesn't speak English. Bedford is made up of different ethnic cultures - it showed the universal team are not diverse which led to the issues above. How do we ensure employment considers all cultures - sad to see lack of diversity, especially in this day and age (not gender diversity but ethnic diversity) Please reassure me that universal will not impose a US culture but considers ALL local people and cultures.	Would you support a potential park and resort coming to this site? Please explain why.
1928	It would be great for local employment, tourism for the UK, an exciting high quality new theme park and it will bring a flavour of American culture.	Would you support a potential park and resort coming to this site? Please explain why.
2612	It would be great for the boost of employment in the area. It would be a great place for family's to have to spend time together.	Would you support a potential park and resort coming to this site? Please explain why.
2655	It would be the best thing for Bedford in regards to employment and general economic upturn.	Would you support a potential park and resort coming to this site? Please explain why.
3503	It would bring employment to the area.	Would you support a potential park and resort coming to this site? Please explain why.
3615	It would bring enjoyment to many families and bring job opportunities and massive employment to the area and put Bedford on the map	Would you support a potential park and resort coming to this site? Please explain why.
118	It would create a lot of opportunities for the locals (employment, development in infrastructure, livelihood, facilities etc.) it would also serve as a hub for universal studio fans for everyone across Europe.	Would you support a potential park and resort coming to this site? Please explain why.
4162	It would create many more employment opportunities for local people. Bedford lacks entertainment facilities, especially for young people. It would be fantastic to have a world class theme park in town.	Would you support a potential park and resort coming to this site? Please explain why.
1326	It would create so many employment opportunities for the local area in addition to being a brand new sector of tourism for people to explore as future careers	Would you support a potential park and resort coming to this site? Please explain why.

2573	It would give future employment opportunities for years to come	Would you support a potential park and resort coming to this site? Please explain why.
4234	It would give the local economy a much needed boost and provide secure employment, improved road/rail network and be a positive impact, putting Bedford back to the forefront where it has sat in the shadow of Luton for so long	Would you support a potential park and resort coming to this site? Please explain why.
3418	it would help rejuvenate the area and bring employment and infrastructure improvements.	Would you support a potential park and resort coming to this site? Please explain why.
1464	It would improve the employment opportunities and enhance the environment	Would you support a potential park and resort coming to this site? Please explain why.
3918	It would increase footfall for local businesses, create employment opportunities and training opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
1444	It would make a massive contribution to UK employment and tourism, and most importantly would be great fun.	Would you support a potential park and resort coming to this site? Please explain why.
3138	It would provide a major opportunity for the local area helping to enhance the region's employment and economy and put Bedford on the map! It would be a good use of the site which is crying out for development.	Would you support a potential park and resort coming to this site? Please explain why.
3787	It would provide employment to the community	Would you support a potential park and resort coming to this site? Please explain why.
1241	It would provide many employment opportunities. It would encourage investment from other businesses. It would bring more wealth to the area as large areas are not. It would raise property prices and attract investment to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
4477	It's an amazing opportunity and will bring a much needed source of employment to the area and the UK as a whole. As someone who visits Orlando annually, I am so excited to have a world class theme park on my doorstep. I live 9 miles away from the proposed site and would visit it pretty much weekly.	Would you support a potential park and resort coming to this site? Please explain why.
1078	It's an amazing opportunity that can generate many work opportunities at all stages of the project. It would mean less employment, better housing and more business generate throughout the local and surrounding communities	Would you support a potential park and resort coming to this site? Please explain why.
2298	It's an extremely exciting project that will bring greater competition to the industry in this country, deliver vast economic benefits such as employment and infrastructure investments, and truly provide a source of local and national pride.	Would you support a potential park and resort coming to this site? Please explain why.
2283	It's a fantastic opportunity for the area. An exciting time with the prospect of employment and local engagement. Hope it happens!	Would you support a potential park and resort coming to this site? Please explain why.
2400	It's a very exciting opportunity for the UK. The benefits for tourism and local employment are huge and would be a unique attraction in the country.	Would you support a potential park and resort coming to this site? Please explain why.
4553	It's much needed in our area, it will improve the local infrastructure too, as well as the employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
3608	It's very exciting. It presents much needed employment opportunities across all age groups in this area, plus things for people to do when they aren't working too.	Would you support a potential park and resort coming to this site? Please explain why.
1927	I've visited the US park and it was high quality. This project would provide opportunities - not just for interesting employment - but also collaborations with local organisations and community. It would also bring tourism to the area, and that opens up benefits to other organisations too.	Would you support a potential park and resort coming to this site? Please explain why.
4581	Knowing the area well, the opportunities for employment, training and improvement in local business economy is greatly needed. The innovation that Universal will bring, will be truly welcomed from all areas across the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3515	Living XX to the site, this project will ensure my children, currently 7 and 10 years old will have employment opportunities and have access to to an amazing theme park.	Would you support a potential park and resort coming to this site? Please explain why.
2510	Local employment and business opportunities. Also, improved road and rail infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
2729	Local employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4258	Local employment opportunities, improved local economy, use of park and rides!	Would you support a potential park and resort coming to this site? Please explain why.
4339	Local employment opportunities, upgrading infrastructure and bringing more people to the town	Would you support a potential park and resort coming to this site? Please explain why.
4163	Love theme parks so would visit often. Good for the area - employment and infrastructure	Would you support a potential park and resort coming to this site? Please explain why.

4873	Love visiting the parks in Orlando so having this locally would be amazing, as would the employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4738	New employment, better infrastructure and major boost to the local economy	Would you support a potential park and resort coming to this site? Please explain why.
4860	No brainer - wonderful brand, enjoyed Florida, perfect site, great communications, enormous catchment area, huge possibilities for employment and economy. Close to London, excellent rail and road links. This will light up thousands of lives across the uk. People will travel from all over uk and abroad. Hopefully it's a yes to Bedfordshire and prosperous business for universal	Would you support a potential park and resort coming to this site? Please explain why.
375	Not only would it bring much needed employment, it would also be a reason for people to visit Bedfordshire	Would you support a potential park and resort coming to this site? Please explain why.
4317	Not only would it put Bedford on the map it would improve employment opportunities whilst providing entertainment that is currently only available for those that wish to travel.	Would you support a potential park and resort coming to this site? Please explain why.
2661	Opportunities for employment and putting the area on the map	Would you support a potential park and resort coming to this site? Please explain why.
2622	Opportunities for everyone- employment to leisure.	Would you support a potential park and resort coming to this site? Please explain why.
2862	Our transport links (positioning between the A1 and M1) and railway (thameslink, East Midlands Railway and the potential East-West rail link) will make getting here easy. Also we are 15/20 minutes by train from London Luton Airport providing low cost airlines that can get visitors to visit at affordable prices. We also have a diverse population so would offer an employment pool that represents the UK population. The site is also near the existing Park and Ride facility (think it's called Elstow Park and Ride on the A6) so could provide a car park or green alternative to having to build car parks of your own?	Would you support a potential park and resort coming to this site? Please explain why.
2841	Over the years Bedford has lost many of it's large industries / business. And there are less opportunities for younger people. Universal having a site in Bedford would guarantee long term future employment. And would help towards individuals not needing to travel out of area.	Would you support a potential park and resort coming to this site? Please explain why.
3414	Partially already explained in my previous answer but to elaborate this project would bring a buzz and excitement to the Three Counties area. This area has a lot to offer as alongside Northamptonshire there are road and rail links from all parts of the UK. Many companies have head offices within the Three Counties. The employment opportunities would be greeted with delight! I know of people who would travel 2-3 hours to visit or make a weekend away of the occasion.	Would you support a potential park and resort coming to this site? Please explain why.
326	Prosperity for the area, employment for the people, opportunities for the young and fun for all	Would you support a potential park and resort coming to this site? Please explain why.
4498	Provide employment in the area and increase competition in theme parks in the country	Would you support a potential park and resort coming to this site? Please explain why.
3769	Putting Kempston site into a headline resort and transforming and remembering the brick works. Local community employment and structural development and modernisation and encourage visitors creating boost to local businesses	Would you support a potential park and resort coming to this site? Please explain why.
4895	Significant improvements to Bedford infrastructure and local employment	Would you support a potential park and resort coming to this site? Please explain why.
662	Significant investment into the area and local infrastructure would have a twofold benefit. Quality of life improvements from the improvement infrastructure and employment prospects which in turn would lead to a rise in land value	Would you support a potential park and resort coming to this site? Please explain why.
402	So much opportunity for development of infrastructure, including highways and rail links, employment opportunities, opportunities for local companies and tradesmen for supplying products and services, boosting the local economy through tourists, helping conservation in certain parts, recognising the local history, improving footpaths and cycle tracks.	Would you support a potential park and resort coming to this site? Please explain why.
4218	The alternative is to build yet more housing on the site. There is more than enough housing being built in the area already. A theme park will bring much needed employment opportunities for young people into the area which is what is needed.	Would you support a potential park and resort coming to this site? Please explain why.
4099	The area is ex-industrial in part and will only become generic housing otherwise. Giving it a new purpose actually mirror what the brickworks used to give us = hope & employment.	Would you support a potential park and resort coming to this site? Please explain why.
2691	The area is prime for investment. If delivered correctly it will provide better habitat for wildlife, better infrastructure, better employment opportunities and bring secondary investment to the area. As a local resident, I wish you the best of luck!	Would you support a potential park and resort coming to this site? Please explain why.

111	The area needs developing and I can see huge benefits. Employment especially for local people. The improvement in roads and footpaths. The project would surely bring a lot of money into the area. On a personal level, it would be great to be able to take children and grandchildren to somewhere locally.	Would you support a potential park and resort coming to this site? Please explain why.
2360	The area would benefit from employment and improvement. The UK needs a destination park to attract visitors. Also love Universal parks.	Would you support a potential park and resort coming to this site? Please explain why.
358	The benefits for employment, leisure and recreational purposes would be beneficial to all	Would you support a potential park and resort coming to this site? Please explain why.
3303	The benefits of improved infrastructure, employment and tourism for the county as a whole will outweigh any concerns like environment etc.	Would you support a potential park and resort coming to this site? Please explain why.
3373	The benefits of the proposal are seen as significant - both to employment, the economy and the leisure & tourism industry. It further strengthens the UK as an attractive and unique destination internationally.	Would you support a potential park and resort coming to this site? Please explain why.
2238	The benefits this would bring to the UK and namely Bedford would be unmatched. Not only would this benefit the local residents the tourism in the UK would be forever changed my this resort coming to Bedford. In an area of the UK I only live 1.5 hours from but rarely visit, this would put Bedford on the map. The positives of this project seem to outweigh any potential negatives. I am passionate about employment and namely solving unemployment in the UK, especially outside of London. This project will offer a vast variety of people opportunities to develop from people beginning their careers to experienced staff members in the industry. I know from people in the UK regularly travelling to Universal properties around the world, namely Orlando, it would open this company to people who may not be able to afford to visit Orlando. As well as this, road and train developments as well as positive environmental impacts this project will have is amazing. I cannot say enough good things. I would love to see this project completed.	Would you support a potential park and resort coming to this site? Please explain why.
3504	The economic and employment opportunities in the area would be fantastic	Would you support a potential park and resort coming to this site? Please explain why.
350	The employment benefits it will bring to the area	Would you support a potential park and resort coming to this site? Please explain why.
2375	The employment opportunities and the knock on effect of the local economy would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.
4906	The employment opportunities are huge and it will have a significantly positive impact on the local economy and Bedford as a destination. Living close by and having worked at the Stewartby brickworks for over 10 years from 1998 I cannot think of a more positive way for the land to be used	Would you support a potential park and resort coming to this site? Please explain why.
1689	The increase in tourism worker bee great, as well as the additional employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
3760	The investment in our borough would help with employment, businesses and infrastructure. Visitors to the theme park may also be interested in visiting other areas of interest in the County so would be beneficial all round.	Would you support a potential park and resort coming to this site? Please explain why.
2463	The investment would bring great economic benefits and the creation of new employment opportunities would be beneficial to the local community. As well as supporting local people, we would support local businesses	Would you support a potential park and resort coming to this site? Please explain why.
4907	The limitless benefits to surrounding communities with employment It would be wonderful to have the famed Universal them park on our doorstep I believe the benefits to the whole country will be quite welcome and substantial	Would you support a potential park and resort coming to this site? Please explain why.
3832	The many advantages including employment, training and financial	Would you support a potential park and resort coming to this site? Please explain why.
4044	The midlands is lacking theme parks or big entertainment areas. This is an exciting opportunity and the area perfect for this. It would be more centralised rather than the majority of theme parks currently being in the south of the UK. The current road infrastructure of the M1 and A1 between Bedford seems a great area to invest in. It enables employment opportunities and encourages tourism to this area generating more investment and income for the local community as well as the wider surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why.
4859	The new employment oportunities are much needed in the area. Tourism would provide additional income to the local hospitality sector. Bedford would become a more attractive place to live, with more social cohesion and more income for local families.	Would you support a potential park and resort coming to this site? Please explain why.
2227	The new employment opportunities and a chance to experience a Universal park from the UK without having to fly abroad. More entertainment for UK citizens, a place to go for a day out/days away.	Would you support a potential park and resort coming to this site? Please explain why.

3311	The old brickworks have for years provided employment for the area, warehousing that is taking over the area is mainly low staff, whereas a theme park is staff orientated. I can only see positives and new employment from the area	Would you support a potential park and resort coming to this site? Please explain why.
4088	The opportunity of full time employment, work experience and to boost the local economy	Would you support a potential park and resort coming to this site? Please explain why.
948	The opportunity to have a park of this nature is transformative for both the local area and the U.K. as a whole. It will offer excellent employment opportunities and be a first class tourist destination bringing money into the locality and from abroad. It will provide the opportunity for those who visit foreign parks to have that experience in the U.K. and allow those unable to travel to the US or other countries the ability to experience Universal	Would you support a potential park and resort coming to this site? Please explain why.
4571	The park would be great for Bedford bringing employment opportunities as well as bringing visitors into the area that would use local facilities.	Would you support a potential park and resort coming to this site? Please explain why.
3092	The park would have the potential to bring huge benefits to the area, particularly in employment and training but also in bringing people to the area who would visit the local towns and villages, helping local businesses.	Would you support a potential park and resort coming to this site? Please explain why.
253	The project would be excellent for employment Up skilling the local workforce Engagement and investment of Universal with the local natural environment	Would you support a potential park and resort coming to this site? Please explain why.
1393	The project would be a significant boost to local employment. The site is well served by transport links and additional investment in projects such as the East-West Rail Link would benefit other sites on the line and help ensure the project is completed.	Would you support a potential park and resort coming to this site? Please explain why.
702	The red outline is too close to the village of wotton the yellow outline more acceptable the red outline unless wrong goes right thru the train line? How does that work? You should consider noise pollution and keep furthest distance pos which is the yellow outline of the two drawings Wootton is terrible to drive to as it is. I am stunned at location choice. It is poor for buses (1 an hour) the railsevice is also poor. The roads are rubbish, bar a421 the amount of extra traffic will swamp a tiny area. Cant you look elsewhere? This dont seem right to me- woottons a tiny village and the red looks too close, too noisy etc and i have questions on how building thru the rail line thats exisiting within the red outline but obviously if building on yellow outline its a bit different as further awayâ€¦ The roads arent built for this sort of thing. As good as idea sounds to visitors it will be nightmare for area, the area itself is deprived and has had various businesses close down and say as much - nurseries for example as the people in this area just dont work at the end of the day. Bedford has rubbish employment rate. Wootton is rubbish to get to because of public transport being naff. You wont get the staff	Would you support a potential park and resort coming to this site? Please explain why.
4080	The scheme has the potential to put Bedford on the map, as Universal is such an iconic global brand, it would create a natural draw for other businesses, further increasing employment opportunities. A proportion of those visiting would likely spend elsewhere within the local community; local tourism should see an uplift. Bedford is centrally located, with the inclusion of the EWR station and Wixams station it would be easily accessible.	Would you support a potential park and resort coming to this site? Please explain why.
3396	The site has already been earmarked for development and we have had an enormous amount of house building in the area so to have this complemented by diverse employment opportunities and engagement of young people will be a good thing. Helping to improve the local railway links is very important for the people of this area and long overdue. We have no large theme parks in this area despite the vast population within an hour of the site and the current and potential transport links available. The plan suggests Universal Studios will be sensitive to the environment and the wildlife of the area which other future developments may not be especially if the area was to be divided between several different developers/developments.	Would you support a potential park and resort coming to this site? Please explain why.
4411	The site is a marvellous blank canvas for new projects but rather than fill it with the normal it would be marvellous to have something unique and your project certainly sounds as if it would fit the bill! Something for Bedford to show the rest of the country that we can bring something new and exciting to the area. Plus all the obvious local employment benefits that it will come from your project.	Would you support a potential park and resort coming to this site? Please explain why.
1441	The site is over the road from my village, Universal will take the time to make transport improvements and landscaping to ensure our neighbours don't disturb our rural village idle. A better option than the sprawling warehouses seen in Milton Keynes. The site has excellent transport corridors a good reason to live here , but now Milton Keynes is sucking the life out of our area , now is a good time to reinvent Bedford as a destination . It will create employment on site and encourage small businesses to return to the town centre as footfall increases. Bedfordshire has an interesting history that most people have forgotten the Universal site would be able to showcase it.	Would you support a potential park and resort coming to this site? Please explain why.

3305	The site is perfectly situated for a park, given travel infrastructure already in place (air, rail and road) with positive refinements to it possible that would be complementary. From an employment and local benefit perspective, it's a total no-brainer and 99% of locals I speak with agree with that.	Would you support a potential park and resort coming to this site? Please explain why.
3473	The supporting businesses needed, as well as the actual running of the park, would create great opportunities and employment for individuals and businesses. I cannot see any negatives about this project, it is extremely exciting and I can't wait to see it take shape. I will even be interested in getting involved in the project in any way also.	Would you support a potential park and resort coming to this site? Please explain why.
3324	The town of Bedford benefits from its strategic location between Milton Keynes to the west and Cambridge to the east, and London to the south, historically offering excellent transportation links. However, its identity primarily revolves around commuters and individuals seeking a residential haven with limited local employment prospects. Consequently, the town lacks significant job opportunities, compelling residents to seek employment elsewhere. The establishment of a major employer within Bedford would not only generate employment locally but also offer crucial opportunities for the town's young population	Would you support a potential park and resort coming to this site? Please explain why.
1181	The town of Bedford is my home town and is in need of re-generation. The theme park project will breath new life into the town and bring much needed employment into the area. It will boost the local and national economy and transform what is, at present, redundant land scarred by industrial use.	Would you support a potential park and resort coming to this site? Please explain why.
3595	The UK as a whole would benefit greatly from this project not only through the employment opportunities but also as a huge attraction that would make it worth visiting the area for many more people.	Would you support a potential park and resort coming to this site? Please explain why.
1597	The UK desperately needs a decent theme park, especially in the central location. We certainly could do with an economic boost from tourism and greater employment opportunities. Years ago we were promised 'Wonder World' in Northamptonshire. I remember as a small child seeing signs on the land which had been purchased. The theme park never materialised. Please doesn't put me through disappointment again 45 years or so on! I would love to be enjoying all that your resort would have to offer.	Would you support a potential park and resort coming to this site? Please explain why.
2142	The UK does not have a heavily themed major park and would see it as a good investment for the UK tourism industry. Not just with international visitors ie Europe but within the UK as I would see a Universal park being the main park / crown jewel of the UK theme park industry opening up opportunities for the local community not just in employment in the park itself but outside of the park. Local hotels/guest houses would see an increase and local shops as people stop for snacks, souvenirs etc on their way through to or away from the park. I could see this as being a push for other UK parks to increase the theming and interactivity of their parks giving more choice to UK park goers moving forward in the long term as they push to compete with Universal.	Would you support a potential park and resort coming to this site? Please explain why.
3514	The UK lacks a major theme park. A Universal theme park is would be a new level of experience. I have visited both Disneyworld and Disneyland Paris, along with Universal Studios in Orlando. The park would also bring major employment and economic opportunities to the region.	Would you support a potential park and resort coming to this site? Please explain why.
821	The UK needs its own Gold standard recognised park for one. It would hugely help the local community with great opportunities of employment it will also help other businesses in the uk utilising our outshining engineering and structural bsuneesss.. Beford is an ideal Location given it centrality to the major majority of the UK population and the current road networks are already being developed to better standards even before this potential project.	Would you support a potential park and resort coming to this site? Please explain why.
1699	The UK needs this investment. The amount of tourism this would bring to the area and UK in general is a huge potential. People travel outside of the Uk year on year, this project will promote people to stay in the UK and spend money on the site and in local hotels/shops, keeping money within the UK. The conservative government use the phrase "build back better" this project supports the statement. The job opportunities for people here are phenomenal, this could drive unemployment rates down. Universal should engage with job centres to promote people into work.	Would you support a potential park and resort coming to this site? Please explain why.
992	The Universal brand is known for being great for employment and providing exciting opportunities for the community.	Would you support a potential park and resort coming to this site? Please explain why.
4857	Theme Parks are a major source of employment, and my household regularly visits them. Bedford itself is in dire need of a major employment source since the brickworks closed in 2008, and this park would provide employment across the unskilled, skilled and professional sectors.	Would you support a potential park and resort coming to this site? Please explain why.
3961	There's so many new housing developments in the area, and those people will need not only employment, but somewhere to spend leisure time. Universal is a perfect match for Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
3325	Think it will bring a great fun experience to visitors whilst providing employment for local area	Would you support a potential park and resort coming to this site? Please explain why.

4342	Think it would be an excellent addition to the local community and provide employment and investment in the local area. I hope the Wixams train station will be delivered as a result, and imagine Stewartby would also be redeveloped and expanded. I would also think that our road infrastructure would be redeveloped too. It will be a challenge as a local resident during construction I'm sure, but would be worth it in the longer term.	Would you support a potential park and resort coming to this site? Please explain why.	
3846	Think it would be great for the local area. Creating employment and driving the local economy.	Would you support a potential park and resort coming to this site? Please explain why.	
2571	This is a great opportunity to have a world leading brand in the UK which will not only benefit Bedford but bring significant benefits to the whole of the UK. Driving tourism, investment and improvements to infrastructure as well as bring employment opportunities. It's a brownfield site and I cannot think of a more desirable or exciting future for it than the one proposed by Universsl Studio Resorts.	Would you support a potential park and resort coming to this site? Please explain why.	
1755	This is a huge opportunity for the Bedford & the wider UK. Being a massive theme park fan (especially Universal Orlando & IOA) the idea that a Universal theme park could open in the UK a few hours from where I currently live and near where I used to live is very exciting. Beyond being able to visit as a guest and bring my family much more regularly than would be possible with just the US parks, I'm hoping for the opportunity for potential employment with Universal in the future. I have applied for positions with Universal before but am not a US citizen/resident so have had little luck. The possibility that I could hopefully still secure a position with Universal but within the UK would be a dream come true and could also allow for the opportunity to move back closer to family near Bedford. It also creates the opportunities for positions within the park for younger members of family & friends families which is lacking in the local area. Collaboration with the local colleges & sixth-forms for training on ride/park maintenance also gives valuable skills & employment; again currently lacking.	Would you support a potential park and resort coming to this site? Please explain why.	
399	This is a significant opportunity for Bedford to regenerate the declining town centre, at the same time providing ambition, aspiration and exciting opportunities for our younger generations in terms of employment and learning experiences.	Would you support a potential park and resort coming to this site? Please explain why.	
4712	This is an exciting development with - if properly managed - considerable benefits for local employment, infrastructure and environment. I believe an organisation such as Universal will deliver and be genuinely transparent in the development of this project. However, close liaison with the local population and full transparency will be necessary.	Would you support a potential park and resort coming to this site? Please explain why.	
2860	This is such a good opportunity for Bedford! The town and surrounding areas are lacklustre at present, this will inject new life and excitement into the area. Investment in employment opportunities will help the locals exponentially, I would recommend also providing career growth opportunities within the parks with clear promotional levels, alongside educational programmes in management etc.	Would you support a potential park and resort coming to this site? Please explain why.	
410	This park if it is built will be good for UK tourism. It would have a large financial benefit for suppliers, logistics operators and staff employment opportunities. The local area would benefit with regard to shops, hotels, retail and hospitality spend. Inbound tourism may also benefit other UK theme parks.	Would you support a potential park and resort coming to this site? Please explain why.	
3299	This park would be incredibly beneficial to local businesses, employment and the general wellbeing of the town. This would be incredible for Bedford, every and any angle you look at it!	Would you support a potential park and resort coming to this site? Please explain why.	
3274	This project could reinvigorate the local area bringing exciting employment opportunities and will ensure the delivery of local infrastructure that will bring additional benefits.	Would you support a potential park and resort coming to this site? Please explain why.	
4466	This project will bring real economic benefit to the area, bringing in tourists to not only visit the park but to stay nearby and a good amount of local employment.	Would you support a potential park and resort coming to this site? Please explain why.	
3078	This project would bring great benefits to both the local Bedford area with employment opportunities, infrastructure enhancements and boosting local businesses, in addition to the tourism benefit for the wider UK. It would be fantastic to see Universal enter the UK theme park market, currently largely dominated by Merlin Entertainments. A new major player in this market would drive new healthy competition which I strongly believe would boost the sector as a whole across the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
2888	this seems to be a fantastic opportunity for employment and tourism for the area (and country) that could actively benefit not only local area but the nation as a whole, as Universal parks are recognised worldwide and would give opportunities for many locals in various different ways.	Would you support a potential park and resort coming to this site? Please explain why.	
3115	This will be a great opportunity for people in Bedford to become involved in a global brand. I strongly believe this will boost the local economy and reduce unemployment figures. I also believe the brand are an eco friendly company and will consider residents and surrounding natural areas to promote sustainability. I would be keen to explore job opportunities within the company on site, should this project commence.	Would you support a potential park and resort coming to this site? Please explain why.	

2367	This will create long and short term employment and generate revenue for the local economy potentially attracting new support businesses, food and beverage, landscaping, maintenance etc	Would you support a potential park and resort coming to this site? Please explain why.
4767	This would be a big opportunity for the UK to be home to the first Universal Studios Park in Europe, entertainment benefits aside, the financial and employment opportunities it would bring to the UK would be huge. The infrastructure to the local area and collaborations with local companies and charities would also benefit from this proposal.	Would you support a potential park and resort coming to this site? Please explain why.
3407	This would be a fantastic and much needed investment within the UK. It would bring numerous benefits such as employment and recreational opportunities in addition to repurposing a brown-field site into something which can be enjoyed by millions of people every year.	Would you support a potential park and resort coming to this site? Please explain why.
4040	This would be a wonderful opportunity to bring high quality employment opportunities to Bedford and Kempston - also improving local infrastructure	Would you support a potential park and resort coming to this site? Please explain why.
3640	This would benefit local businesses and bring economic growth and employment	Would you support a potential park and resort coming to this site? Please explain why.
1500	This would bring massive employment and tourism benefits to the local area and the UK. It would also give the opportunity for UK residents to discover the pure joy and excitement of a universal theme park.	Would you support a potential park and resort coming to this site? Please explain why.
4387	This would provide a first class leisure destination, with major economic benefits and employment opportunities. It is a no-brainer!	Would you support a potential park and resort coming to this site? Please explain why.
1118	Universal Orlando is immersive and makes me enjoy life a little more and help to relieve daily stresses. To have Universal UK an hours drive it work have massive health benefits, as well as boost UK economy and provide employment opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
2508	Universal resorts are really popular so it would generate revenue for the economy and provide more employment opportunities. It would also mean we doesn't have to travel abroad to get the universal experience.	Would you support a potential park and resort coming to this site? Please explain why.
2131	We are theme park enthusiasts and we believe that Universal is a world leading brand that would put Bedford and the UK on the world map for theme park resorts. It will transform the local area and provide many employment and training opportunities. Who knows, one day my 13 year old son could work at the resort as this is his dream to work in the industry. Overall it would be a massive boost to the area and UK tourism as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
1481	We currently only have 3 main theme parks which are owned by merlin entertainments and I don't feel enough investment is made into the theming and immersive elements which make the experience better. I feel by universal coming to the uk, not only will this create more employment opportunities and contributions to nature which can only be seen as positive, it will also create competition for merlin which can only benefit residents of the UK also	Would you support a potential park and resort coming to this site? Please explain why.
4167	We feel this would have huge benefits locally and would support future generations with opportunities in training, employment and family time in visiting the park together. As a family of 5, working in the travel, heritage and airline industry the chance to offer our children a place to visit and also potentially work, is very desirable. The improvements to local infrastructure (mainly travel connections) would be a big asset and it would bring great excitement to have a UK destination added to the mix of attractions. Environmentally, this feels like a good use of the old brick works, rather than all housing, and we feel the county of Bedfordshire would welcome the park as proposed, with thanks for seeking our input. In addition, on a professional level I would be interested in work opportunities at a senior leadership level, and will keep an eye out as the months/years progress! Good luck.	Would you support a potential park and resort coming to this site? Please explain why.
2667	We have 2 teenage daughters so employment opportunities and also the improvement to the local area	Would you support a potential park and resort coming to this site? Please explain why.
885	We have been to universal Florida and loved it and would enjoy having a park so close to home and would appreciate the employment opportunities it would bring.	Would you support a potential park and resort coming to this site? Please explain why.
1370	We have friends and family in the area, who are all excited about the plans. We have family with young/teenage children who would be the right age to employ when this resort comes online. This is an exciting employment opportunity and could stop the usual migration into London when there is a major employer on the doorstep.	Would you support a potential park and resort coming to this site? Please explain why.
4128	We have the space which includes significant environmental potential. The Universal Project offers an enormous variety of benefits to the Bedford area which otherwise might suffer from over development of distribution warehousing which contribute little to employment , the environment and the leisure time of the community.	Would you support a potential park and resort coming to this site? Please explain why.

234	We have visited Universal twice in Florida and had a fantastic experience and holidays of a lifetime. We loved hearing that Universal employees volunteered for 60,000 hours in local projects and strongly believe this proposal would be transformative for our local employment and opportunities bringing huge investment to our area and putting Bedford at the forefront of entertainment in the U.K.	Would you support a potential park and resort coming to this site? Please explain why.	
2290	We moved from Milton Keynes to Great Yarmouth two years ago. I have family in Bedford. If this park does open I personally would move back to Bedford for employment at the park. I could only dream of affording to go to the Florida parks so to have one here in my home country would be outstanding for the whole of the uk!	Would you support a potential park and resort coming to this site? Please explain why.	
1178	We need more employment in the UK, plus we need a universal theme park!	Would you support a potential park and resort coming to this site? Please explain why.	
3195	We've been going to Universal Studios in Florida for years, we love the brand and what it could bring to the area in terms of employment and infrastructure. It would be a huge boost to the UK economy especially at a time when entertainment/culture in the UK is at its strongest. The various theme parks in the country along with various other things like the new Shinfield Studios and all the other places in the UK used for filming surely means that the addition of a Universal park in the UK makes perfect sense. It would be great for Universal to have theme park representation in Europe and would also draw customers from there too.	Would you support a potential park and resort coming to this site? Please explain why.	
3002	Whilst the proposed Oxford - Cambridge link will bring an increase in the technical and scientific sector this will help balance the employment opportunities for the local community	Would you support a potential park and resort coming to this site? Please explain why.	
4471	Will increase employment opportunities & the improved infrastructure would benefit the whole community.	Would you support a potential park and resort coming to this site? Please explain why.	
2435	With the cost of living and many struggling to find employment that not only supports their families but is also in a vocation they enjoy, I think a Universal park in the UK will do wonders to improve this issue. I understand how it is likely to greatly increase tourism and boost the economy (which is another huge positive), along with the excitement and joy it will bring the many who will travel to experience it. I cannot think of any seriously negative consequences of this project continuing, and it fills me with great excitement that it is even being considered.	Would you support a potential park and resort coming to this site? Please explain why.	
3501	Wonderful employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
4610	Would be great for tourism and employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
2183	It would bring something new and unique to the UK; a exciting tourist attraction which would be a boon to the local and further ranging economy; as well as access to a job market within a industry otherwise difficult to enter into. If we want a large 'epic-scale'/themed themepark, we have to go across to Disneyland Paris (which can be expensive considering the travel fee's and hotel) or to Efteling, which is even further afield. Certain IP's (namely Harry Potter) would also be valuable within the UK; the home and basis of the IP.	Would you support a potential park and resort coming to this site? Please explain why.	
4353	It would bring tourists to the area which would increase spend in the local economy. This increase would hopefully in turn attract more businesses. The town centre in failing, hopefully this would be initiative to businesses to come to Bedford. It would increase job and training opportunities. Great transport links already here for rail and air. Increase choice of places to stay when people visit Bedford.	Would you support a potential park and resort coming to this site? Please explain why.	
3350	New job opportunities and having a whimsical and fun place to visit without having to travel abroad. It gives those who can't travel an opportunity to experience universal studios	Would you support a potential park and resort coming to this site? Please explain why.	
3017	Great location, job opportunity. Uk needs a universal theme park. Help economy	Would you support a potential park and resort coming to this site? Please explain why.	
4800	if this project is given the go ahead this will be fantastic for not only local residents and great for Tourists too, really boosts Bedford for recruitment opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
4616	The boom to the local economy and the attraction of tourists to a beautiful area of Hertfordshire would be great for our area! This attraction also boosts the area around it not just in Bedford as the train line has beautiful stops which allow for exploration around the area and making it a holiday destination for a longer period of time with the area filled with history. Universal has done a fantastic job with its previous parks and I trust it's operational and construction prowess to develop an attraction that would enhance and protect the environment they are building and boost Bedford and the local area in economic and job security for thousands of people.	Would you support a potential park and resort coming to this site? Please explain why.	
949	great potential for local empoymnt	Would you support a potential park and resort coming to this site? Please explain why.	

3015	It will bring many tourists to the area and can improve our local businesses. Also in creating job opportunities for the upcoming generation.	Would you support a potential park and resort coming to this site? Please explain why.
3500	It is a once in a lifetime opportunity and will benefit us for generations to come, we have visited Universal Orlando several times and I know it is not all about the park itself, there is an Amazon ripple effect to many other people and businesses that support the park, the other brands a park attract such as Hard Rock etc. The local workforce is skilled, willing to train and Centre Parcs came to the same conclusion when building their latest bilge just down the road	Would you support a potential park and resort coming to this site? Please explain why.
3417	I would fully support the plans. The local area needs something like this. there is very little to do in the surrounding area in terms of real entertainment and experiences. There is little for young people and those 25-35 to do that is not retail. It would benefit the local economy and quality of life for those around the park and across Bedfordshire, especially the creative sectors which we have some of the best in the world, this project would only add to and promote them. It will also be a much-needed fresh injection into the UK theme park which has lacked investment and healthy competition in recent years. This project will be a huge catalyst for this as well as the local area.	Would you support a potential park and resort coming to this site? Please explain why.
2361	The boost to the economy and potential opportunities for my children to work and learn the hospitality trade.	Would you support a potential park and resort coming to this site? Please explain why.
1894	I believe that the work opportunities that you would bring and the economical growth would be significant to the whole of the UK not just Bedfordshire	Would you support a potential park and resort coming to this site? Please explain why.
718	I believe the new park would have a good effect on the area, as long as the park invests back to the local area and environment.	Would you support a potential park and resort coming to this site? Please explain why.
2682	I believe the park would have a positive effect on the local area and workforce	Would you support a potential park and resort coming to this site? Please explain why.
3480	The work it will create	Would you support a potential park and resort coming to this site? Please explain why.
2171	I think this would be such a great opportunity for uk job market and also for people who might not be able to travel to other universal parks they can have one close to home. Having something of this scale very welcomed to the uk in my eyes	Would you support a potential park and resort coming to this site? Please explain why.
4921	I think this would create some amazing job opportunities, I would be very excited and keen to be a part of the universal team. It would also be amazing for Bedford itself and allow it grow into a much bigger town and improve both the railways and interest in big chains and businesses to open in Bedford	Would you support a potential park and resort coming to this site? Please explain why.
3187	I work in Business Affairs for a global company. There is nothing like this locally, for any sort of entertainment or media job local people have to travel into London. This new park will bring huge new opportunities to people in the local area working across many different industries.	Would you support a potential park and resort coming to this site? Please explain why.
3871	I would come to the park as for me it would be an easily accessible place to spend a day out with my friends. At the moment people from Bedfordshire have to travel hours to go to a theme park. In particular Ampthill has a number of small businesses that could benefit from investments. It would create job opportunities in particular younger adults coming back from uni for seasonal work.	Would you support a potential park and resort coming to this site? Please explain why.
4459	I would support this project since it will create many more job opportunities in a lot of roles, it will also put the United Kingdom on the map in terms of theme parks as Universal is renowned for its creativity, immersive attractions and highly themed areas. Many visitors from outside of the UK would undoubtedly want to experience the park and significantly boost the local economy and surrounding area.	Would you support a potential park and resort coming to this site? Please explain why.
3239	I would use it to visit with my family and I would also look into a long term secure job	Would you support a potential park and resort coming to this site? Please explain why.
4096	I'd love to see a universal park on the UK what an amazing thing that would be I'm a huge fan of Universal anyway so me and all my family are in favour and I like the idea of job opportunity's to be created	Would you support a potential park and resort coming to this site? Please explain why.
3463	I'm a 31 year old male with a wife and 2 year old child, who lives in Stewartby. This brings excitement for activities for me and my family and also brings a wealth of positives for the local area. The idea of an additional job opportunity for when my son grows up is amazing.	Would you support a potential park and resort coming to this site? Please explain why.
3456	Im a big universal fan not only will we finally get a world class brand of theme park it will provide job opportunities not available to many in this country and to my children in the future.	Would you support a potential park and resort coming to this site? Please explain why.
2858	I'm a theme park enthusiast I believe this project will bring excellent experiences along with job opportunities for all ages.	Would you support a potential park and resort coming to this site? Please explain why.
3816	Im looking for job opportunities and a local place to enjoy as an avid theme park enthusiast.	Would you support a potential park and resort coming to this site? Please explain why.

3220	I'm personally excited about the potential for investment in Bedford's city centre which would be a natural by-product of the project. It would be great to put Bedford on the global map and improve transport links to the area. I'm also excited for my young children and the many fun part-time job opportunities they may be able to access once the project is complete!	Would you support a potential park and resort coming to this site? Please explain why.	
1885	I'm really interested into getting a job and career within the theme park industry. If this was to go through I would be wanting to apply and progress with the park.	Would you support a potential park and resort coming to this site? Please explain why.	
3259	Improvements to the local economy, infrastructure and job opportunities for local residents	Would you support a potential park and resort coming to this site? Please explain why.	
1835	Increased job opportunities, filling seats on otherwise quiet rail journeys and maximising the benefits of travel by train, bringing an exciting and beneficial experience seen nowhere else in the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
4681	Investment in local infrastructure- encourage the east/west rail development, upgrades to roads, opportunity to revitalise an unused area, job creation, community cohesiveness.	Would you support a potential park and resort coming to this site? Please explain why.	
1807	It creates more staycation opportunities and experiences for families who find it difficult to take their special needs children out of the country. When Universal decides to go ahead, it also creates more job opportunites in future, helping to aspire younger children who would have grown up when the park opens its doors.	Would you support a potential park and resort coming to this site? Please explain why.	
3326	It encourages economic growth to the area, providing job opportunities and entertainment for local families.	Would you support a potential park and resort coming to this site? Please explain why.	
2937	It is an ideal location given existing local infrastructure and close vicinity to Luton, Heathrow and Stansted airports. These will be improved with East West Rail and changes to A421 and A1. The site is also mainly brown field and not used for agricultural production. Alternatives for the site would likely be housing developments which whilst needed do not provide long term economic benefit to the area and only put further pressure on the existing infrastructure, schooling, NHS etc. The proposed development will drive further housing developments but supported by tangible job opportunities and investment.	Would you support a potential park and resort coming to this site? Please explain why.	
3972	It is needed in the uk. We need new and exciting and job opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
2150	It is no secret that many smaller towns within the UK struggle with job opportunity. Something like a Universal resort does not only bring job opportunity but also a path of growth for people. Based on the questions you are asking with this questionnaire so far you are not only thinking of the regional impact it will, based around infrastructure, but also enviromental. The only challenge that I would see, as a European, is that it's not as easy to travel to the UK as it once used to be.	Would you support a potential park and resort coming to this site? Please explain why.	
2514	It is very important that local people are able to use the facilities, walk in the area, without needing a day ticket etc.. else what do the local people gain from the theme park, except those who are in need of a job?	Would you support a potential park and resort coming to this site? Please explain why.	
4432	It will be great economically for the area and nring job opportunities onto the area too	Would you support a potential park and resort coming to this site? Please explain why.	
4855	It will be great for the UK economy especially being not too far from London and will open up many new job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
4180	It will bring a huge number of job opportunities and potential apprenticeship opportunities. Along with infrastructure improvements.	Would you support a potential park and resort coming to this site? Please explain why.	
4233	It will bring in a lot of job opportunities and revenue for the local community, and from a selfish point of view I love Universal theme parks, so having one so close to where I live would be fantastic.	Would you support a potential park and resort coming to this site? Please explain why.	
4612	It will bring job opportunities, it will improve infrastructure (roads and train) and I love theme parks!!!!	Would you support a potential park and resort coming to this site? Please explain why.	
4019	Anything that brings work for many, prosperity to a great location and helps maintain the local area to a standard it should be, will be welcome.	Would you support a potential park and resort coming to this site? Please explain why.	
3600	Handled properly it could be great for the local economy, environment and society.	Would you support a potential park and resort coming to this site? Please explain why.	
2292	Having a Universal resort in the UK, the only one in Europe, would be a huge boost for both the national economy and the local economies around Bedford. Personally, I'd definitely make the trip, especially since it's just a 1 hour 30 minute drive away, much more convenient than traveling to parks in America or Asia. Moreover, I believe it would bring significant benefits to the northern region of the UK, often overshadowed by the south, yet perfectly situated to cater to both areas.	Would you support a potential park and resort coming to this site? Please explain why.	
1145	Having a World Class theme park like this in the UK, not only will be a massive boost the economy of the country but will also mean that other UK theme parks will have to up their game to compete, which means better theme parks all around the nation, and who wouldn't want that?	Would you support a potential park and resort coming to this site? Please explain why.	

1249	Having experienced Universal Orlando, and it's fantastic offerings, I believe that such an attraction would put Bedford on the map and support the UK economy.	Would you support a potential park and resort coming to this site? Please explain why.
4185	Having experienced Universal's parks in the US and their economic impact on the local economy I believe Bedford and the county more widely would experience a much-needed rejuvenation. The site itself would otherwise likely be turned over to yet more warehouses and commuter belt housing that would bring little direct benefit to the residents and businesses of the town and county.	Would you support a potential park and resort coming to this site? Please explain why.
4050	Having grown up in Bedfordshire in the 90s I have sadly witnessed the decline in businesses and services that have relocated steadily from our local area over the past 30 years. The ability to have an internationally recognised enterprise in our area would provide us with a unique opportunity to regenerate our local economy. Plus it would mean that non Bedfordians would actually know where Bedford is! It would literally put us on the map.	Would you support a potential park and resort coming to this site? Please explain why.
3082	Helps with economy. Brings in job opportunities. Improves local business and transportation.	Would you support a potential park and resort coming to this site? Please explain why.
1846	Historically, Universal Theme Parks are superior family and adult entertainment and would be a positive and welcomed addition to the English economy and entertainment.	Would you support a potential park and resort coming to this site? Please explain why.
2244	Huge boost to local economy, infrastructure and somewhere we wild regularly visit, only living 10 minutes away.	Would you support a potential park and resort coming to this site? Please explain why.
1135	in Florida, and have visited 7 times since first going in 2016. After the Pandemic, we missed it so much we even got an annual pass for the year of 2022 and flew out 3 times (using up all of our work holidays) to spend as much time as we could at your wonderful immersive parks/resort. I have to admit, i am a bit of a theme park enthusiast, and i know there is a huge amount of us living here in the UK. Theme park attendances and interest has boomed post pandemic, and show know signs of slowing down. Bedford certainly seems like the perfect place to build this new park, as you've already highlighted, it's within 2 hours from half of the population. Universal is also a global brand that has gone strength to strength in the last 10 years, literally catching up with the Disney Parks franchise with constant additions, up keep and plans to refresh areas in your Florida resort specifically. Something that didn't look possible. With the new addition of Epic Universe next year & Hopefully a Universal UK resort addition in the near future, my belief is you will overtake Disney. Not only will you have a huge following of people here in the UK visiting this new resort, the tourists you will bring in from Europe will be huge as well. There are many world class theme parks across Europe, but other than the Disneyland Paris resort, nothing compares to Universal. This moves me onto my next point. The UK is severely missing a world class resort like Universal, and i think this is criminal when you consider the fascination and enthusiasm we have for theme parks and rides over here. There are quite a lot of great theme parks in Europe, but the UK lacks one, and Universal will blow the rest out of the water, putting Bedford truly on the map in Europe as the place to go to visit a world class theme Park. I am basing this on my own first hand experience and proof of visiting Universal Florida over and over again. This can only be good for the economy. Merlin pretty much has the monopoly here in the UK owning Alton Towers, Thorpe Park & Chessington World of Adventures. They have done well, and with not much competition they really don't have to try all that much to be top of the food change, often doing the minimal they need to, in order to stay at the top. Which is a big shame. Don't get me wrong, i enjoy the Merlin Parks, and visit them most years, but they really do need a competitor, especially Universal to ensure they up their game. I will reiterate a point as well. If you go ahead with this project, and i really think you should! I will certainly get an annual pass for this place, and this isn't even my closest park, in fact it would be my 3rd closest park behind Alton Towers & Drayton Manor. But because i know the sheer effort and work you put into your parks and attractions, it will be the place i want to visit the most. There is definitely room for another theme park here in the UK, and with it attracting more enthusiasts from mainland Europe, the country and theme park scene as a whole will benefit even more. I believe Universal has the pull to attract much more visitors from Europe that may not have come before hand, or who were very much on the fence with coming. This will likely see a lot of Europeans travel over, and do longer stays in the UK visiting the Universal UK resort, and then potentially onto other Merlin parks whilst they're over hear. I will also still visit your Florida resort, as this holds a very special place in my heart, and no matter how good the UK resort is, it will never beat	Would you support a potential park and resort coming to this site? Please explain why.
4357	I agree that it would be very beneficial for the local economy, creating job opportunities, improving infrastructure and overall improving the lives of local people.	Would you support a potential park and resort coming to this site? Please explain why.
2464	I am a massive fan of universal and have visited LA, Florida and Singapore so I full appreciate what a massive boost to the town this would be for the economy and job prospects. There is no negative reason for the theme park not to happen	Would you support a potential park and resort coming to this site? Please explain why.

3655	I am an enthusiast of theme parks and am fully supportive of when new development is proposed especially in the uk. However I also acknowledge the importance of the many job opportunities that this would provide and the improvements this would create for the economy, as well as local transport infrastructure which is an ever growing demand in the uk	Would you support a potential park and resort coming to this site? Please explain why.
1347	I believe it will be a great opportunity for local people and for the local as well as national economy. Universal seems to be a popular worldwide destination, however, this would be particularly good for those unable to travel long distances/overseas due to personal reasons or affordability. On top of all this, having visited one Universal park, I had an absolutely fantastic time and so the thought of one coming to the U.K. is personally for me very exciting.	Would you support a potential park and resort coming to this site? Please explain why.
4075	I believe it would be invaluable to the local area and economy. It would be transformational for Bedford, and with the airport so close, would attract international visitors which again would boost a whole spectrum of local businesses	Would you support a potential park and resort coming to this site? Please explain why.
3821	I believe it would be of huge benefit to the local economy and further afield.	Would you support a potential park and resort coming to this site? Please explain why.
3784	I believe that it will directly impact and improve the local area. I believe that it will create growth in the UK economy and encourage additional visitors to the UK. It may also encourage visitors on short breaks to London to extend their visits to include the park. I personally would love to have a Universal park close to home as currently to visit one I travel to the US. It may also encourage UK theme parks to consider their offerings, as well as Disneyland Paris. Also, potentially having the Wizarding World of Harry Potter in the UK would draw large visitors.	Would you support a potential park and resort coming to this site? Please explain why.
1982	I believe that only positive things can come from this project and is especially good for the UK economy.	Would you support a potential park and resort coming to this site? Please explain why.
2376	I believe the benefits of this park far out weigh any negatives. The job opportunities for my very young family is one big benefit, and the increase in footfall for the local economy is another	Would you support a potential park and resort coming to this site? Please explain why.
1949	I believe the project would be hugely beneficial for the local area, boosting the local economy and helping to improve infrastructure (which around the site area has been often neglected recently)	Would you support a potential park and resort coming to this site? Please explain why.
208	I feel that a significant investment like this would greatly benefit the UK economy and most importantly we need a new theme park resort in the UK because I believe that we are significantly lacking in theme parks in the UK	Would you support a potential park and resort coming to this site? Please explain why.
1997	I feel that it will be a beneficial project to the UK economy, infrastructure and to the quality of life for those living within the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2003	I feel this is a great addition to the area and the UK as a whole. It will create opportunities for the community and young people in the area to enhance their chances of a career in the industry and training opportunities. I also believe that it will help the local economy and local businesses to thrive through tourist footfall and universals collaboration.	Would you support a potential park and resort coming to this site? Please explain why.
1359	I feel this project would be very popular in the UK. I have been to the Universal in Florida and had a great experience; having a local park would be great, and I would likely be a regular visitor. This would also be great for the UK's economy and the local area.	Would you support a potential park and resort coming to this site? Please explain why.
209	I frequent Universal in Florida and find the parks to be very entertaining. For the UK, it would attract more tourists, local and international, helping the economy for the area and further afield.	Would you support a potential park and resort coming to this site? Please explain why.
1717	I fully support the building of a uk universal. This will bring many benefits to the local area and the UK, the economy will benefit heavily, enhanced transport links to the area will also be a massive benefit. The way universal operate in the USA with local schools, universities and community will also be another massive benefit. So I fully support this project.	Would you support a potential park and resort coming to this site? Please explain why.
4839	I have always been willing to support our local economy, and believe this venture could truly change Bedford's fortunes. I do also enjoy a theme park!	Would you support a potential park and resort coming to this site? Please explain why.
2942	I have always loved Universal Theme Parks and love going to them with my family. Having one in my area will allow us to go a lot more often and have fun and bond. We could perhaps even purchase an annual pass with a Universal Theme Park so close to us! It would be amazing for both the people living in Bedford and for the economy.	Would you support a potential park and resort coming to this site? Please explain why.
3984	I have been to Orlando, I have seen what your parks can do for the economy also how great your rides and theming is, There's nothing else like that in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
4490	I have been to Universal Florida and enjoyed it very much. I think having the park nearby will be an exciting place to visit with my family and improve the local economy	Would you support a potential park and resort coming to this site? Please explain why.

939	I have been to Universal parks many times and the experience they create is world renowned. This would be a great addition to the UK from an experience perspective, economy perspective. It would also up the game of every entertainment establishment in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3856	I have been to Universal Studios Orlando and thought it was great. I think the benefits to the local Bedfordshire economy would be huge and I think that the new job opportunities are also really important.	Would you support a potential park and resort coming to this site? Please explain why.
2199	I have managed to visit the Florida Universal Park myself. I would love to go back, but the cost of travel, and the inconvenience of it can be quite off-putting. To have a Universal Park in the UK where I can simply get on a train and spend a large amount of time at the park without having to worry about traveling back home is something that greatly appeals to me. Also, as someone who heavily believes in supporting local communities and the UK economy as a whole, the idea of such a big name coming to the UK excites me. I can only see positive outcomes for something like this happening here.	Would you support a potential park and resort coming to this site? Please explain why.
3888	I have visited the Orlando Resort many, many times and it never fails to amaze me. I am in love with Universal Parks and have always dreamed that a resort would be built in my home country. I think it's about time that we had a world class theme park resort and this would do wonders for our economy. I really hope this goes ahead and I cannot wait to see concept images and hear of IPs / Rides that may be coming to the park.	Would you support a potential park and resort coming to this site? Please explain why.
842	I have visited your Orlando resort many times and it is excellent and unlike anything else available in the UK. I would love more people to be able to experience a Universal park without having to travel so far. The benefits to the UK economy are also attractive	Would you support a potential park and resort coming to this site? Please explain why.
4813	I live and work locally and have young kids and can see the amount of potential this could have on the local economy and the career, training and entertainment opportunities it could offer my kids as they grow up.	Would you support a potential park and resort coming to this site? Please explain why.
1160	I live in Bedfordshire and this would be a huge opportunity for the county and economy for the local areas. Transportation is highly accessible also for not only those who live nearby, but for the wider audience. The UK has some great theme parks, but this would help broaden the UK appeal for those outside.	Would you support a potential park and resort coming to this site? Please explain why.
3770	I live very close, walking distance and personally my family and I would love the park being so close. My children are young so this could provide future job opportunities. The area infrastructure and economy would benefit from this world class attraction.	Would you support a potential park and resort coming to this site? Please explain why.
2794	I live with my family in Stewartby and believe that having a global organisation provide a world leading theme park would be hugely beneficial to our local economy. I would suggest that if fireworks are used, these be done prior to 8pm in the summer and 6pm in the winter, as these can be very damaging to local wildlife. It would also be great to offer local residents a free annual family pass to the park (Chessington World of Adventures offer this to residents) and this would boost local support.	Would you support a potential park and resort coming to this site? Please explain why.
4745	I lived in Stevenage (about 1 hour away) previously, I have seen local business come and go. I now live in Stockport in greater Manchester (3 hours away). The airport group MAG (owners of Manchester, East Midlands and Stansted) do so much to support the local community. Comcast in Philadelphia (I used to work regularly there) have always been known to be a good neighbour and support locals which is also something Universal do. Although the immediate benefit will be local to Bedfordshire this has the potential for improving connectivity by rail, air to the likes of Luton, Stansted and slightly further afield at Birmingham and East Midlands airports. This also has an impact to people visiting not just from other countries but people coming to visit from the UK who will stay local and not just visit the Universal resort but opens opportunities to people visit places such as Woburn Safari Park and WarnerBros studio tour (Harry Potter which also has a connection for Universal). This project will have a big impact to not just the local economy but the wider UK economy and can also benefit through visitors coming for a trip to Universal but extending out stays to visit other parts of the UK	Would you support a potential park and resort coming to this site? Please explain why.
1502	I love Theme Parks and I think it will be great for the economy and improvement of infrastructure	Would you support a potential park and resort coming to this site? Please explain why.
3406	I love visiting theme parks with my children. Have v happy memories of visiting Universal in Orlando and LA, so would be amazing to have this nearer to home and easily accessible. I agree this would be transformative to the local and national economy; and offer lots of fun job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
3065	I've visited Universal in Florida so think it would be an amazing opportunity for this area. My adult son is autistic and I'd hope there might be opportunities for local people with disabilities to work within the parks	Would you support a potential park and resort coming to this site? Please explain why.
3704	It will open up job for many people	Would you support a potential park and resort coming to this site? Please explain why.

4210	It will open up job opportunities, invest into land/local businesses and provide a cheaper alternative for families who can't afford an expensive trip to other universal parks	Would you support a potential park and resort coming to this site? Please explain why.
4802	It will support the UK and give people a reason to visit our country and support the local area by providing interesting and new job options by being the first UK park in Eupore this would be great for business and help low-income families within the UK enjoy the magic of the parks because they do not have to go aboard to visit universal.	Would you support a potential park and resort coming to this site? Please explain why.
2450	It would be amazing to have such a popular theme park in our area, creating so many job opportunities. We are surrounded by many large towns and only an hour away from London by road, which means the theme park will be extremely popular at all times. Not forgetting, we have a large University and college in the town, which has students from all over the world attending the courses, who would frequent the theme park often!	Would you support a potential park and resort coming to this site? Please explain why.
2788	It would be amazing. Bedfordshire (especially luton) has had a POOR reputation for as long as I can remember. This park will support the councils and residents of the whole of bedfordshire. I would love coming here as who would say no to some fun? Also the amount of job opportunities that will be created will be so beneficial to everybody.	Would you support a potential park and resort coming to this site? Please explain why.
2524	It would be fantastic for Bedford to receive investment, improving the infrastructure and create job opportunities for local people particularly young people.	Would you support a potential park and resort coming to this site? Please explain why.
3069	It would be great for local businesses and create job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4635	It would be great to see so many job opportunities and I think it will be great for local businesses. I'd love to work at Universal!	Would you support a potential park and resort coming to this site? Please explain why.
2619	It would be great, I have 2 young children - first they would love to visit the park and also have job opportunities in the future	Would you support a potential park and resort coming to this site? Please explain why.
4807	It would be wonderful to have something so exciting so close however the job opportunities that would be created for the younger generation would be wonderful. With creative, environmental, entertainment, a whole host of increased job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
4115	It would create a lot of job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
1598	I work in the railways nearby and would love to see it expanded but would also be interested in using my skills within the park in a new potential career.	Would you support a potential park and resort coming to this site? Please explain why.
157	I travel to Florida to visit your theme parks and they are good for wellbeing. I would also be interested in a potential planning, commissioning or management role in the park. I think the local community needs some excitement and opportunities for the youth of the area.	Would you support a potential park and resort coming to this site? Please explain why.
4548	It would create good job opportunities for local people and would hope that locals get a significant discount for being built in the area after we've purchased property. Worried about traffic increase causing delays and making our journeys to and from home longer than it needs to be	Would you support a potential park and resort coming to this site? Please explain why.
1734	It would lead to improvements in the local infrastructure and a job boost to the area which would increase presence and have financial gain to local businesses as a result.	Would you support a potential park and resort coming to this site? Please explain why.
2839	Great chance for employers	Would you support a potential park and resort coming to this site? Please explain why.
4683	It would help build up the area, provide new work opportunities for those in and out of the area. Keeping the site green will help with wildlife	Would you support a potential park and resort coming to this site? Please explain why.
3499	Better than more jousting, great job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4830	Excellent potential work opportunities for my children (12 and 14). Great for our area.	Would you support a potential park and resort coming to this site? Please explain why.
1520	It would bring economic benefits to the local area and employ a large amount of local people.	Would you support a potential park and resort coming to this site? Please explain why.
457	It would bring great opportunities to local people.	Would you support a potential park and resort coming to this site? Please explain why.
2956	The location of the park is next to the major travel links into Bedford, the increase in traffic will not effect the main town of Bedford it self majorly but the town should benefit from the Job opportunities and new people visiting the area and venturing into the town centre.	Would you support a potential park and resort coming to this site? Please explain why.
2014	It would be the most incredible opportunity for Bedford to be the centre of such a fun and positive entertainment destination. I have children aged 14 and 11 who are already excited about work opportunities for them as they grow up. We love to have fun and this is the epitome of fun!	Would you support a potential park and resort coming to this site? Please explain why.

3428	It would be fantastic for amazing work opportunities to open up to people outside of London.	Would you support a potential park and resort coming to this site? Please explain why.
4900	For all the job opportunities	Would you support a potential park and resort coming to this site? Please explain why
1718	For all things mentioned above. Job opportunities and economic growth not just for Bedford but surrounding areas	Would you support a potential park and resort coming to this site? Please explain why
2421	A park like this would create more job opportunities, Bedford needs something exciting like this & the whole community is so excited already	Would you support a potential park and resort coming to this site? Please explain why
4407	A theme park with job opportunities and entertainment for younger people and family's would be far better than the site being used for housing development	Would you support a potential park and resort coming to this site? Please explain why
4915	yes I would support it as it will create lots of new job opportunities to those with a mixture of experience and younger people seeking full time job opportunities.	Would you support a potential park and resort coming to this site? Please explain why
458	Career opportunities and would be willing to relocate	Would you support a potential park and resort coming to this site? Please explain why
2410	Creating job opportunities. Improving local infrastructure. Boosting local businesses.	Would you support a potential park and resort coming to this site? Please explain why
4903	Creation of job opportunities, raise awareness of Bedford area	Would you support a potential park and resort coming to this site? Please explain why
1018	Excellent opportunities. Just make sure you listen to local people.	Would you support a potential park and resort coming to this site? Please explain why
4079	Excited opportunities and a reason to appreciate bedford as a home town	Would you support a potential park and resort coming to this site? Please explain why
3230	Fantastic for a big increase in job opportunities for local young people in particular	Would you support a potential park and resort coming to this site? Please explain why
2909	Fantastic job opportunities for the area and a much needed economical boost to Bedford.	Would you support a potential park and resort coming to this site? Please explain why
4675	Fantastic local improvements and opportunities	Would you support a potential park and resort coming to this site? Please explain why
3441	It will put the wonderful town of Bedford on the national and international map. Visitors to the park will also be able to explore the beautiful river, country parks and independent shops the town houses. It will provide thousands of opportunities for work for local people and generate a sense of pride for the whole county.	Would you support a potential park and resort coming to this site? Please explain why.
3696	It provides many opportunities for people in terms of work and also has many social benefits	Would you support a potential park and resort coming to this site? Please explain why.
3969	It makes it more of an opportunity for people in the UK to be able to work for such a great organisation and allows people who don't travel out of this country to show how amazing Univerdal is as a park to people for them to get a chance in there life to have fun and spend time together	Would you support a potential park and resort coming to this site? Please explain why.
2042	It may be a corny answer, but it'll make Britain happier! For myself, as someone with semi-relevant skills in operations management and continuous improvement, I am working to attain even more resort relevant qualifications and am excited at the opportunity to potentially forge a career at a Universal Resort!	Would you support a potential park and resort coming to this site? Please explain why.
1787	It has the potential to provide significant career opportunities to local residents as well as much needed infrastructure improvements	Would you support a potential park and resort coming to this site? Please explain why.
4599	It creates important competition within the uk theme park industry and provides a high quality employer for the region. And increase in investment into transportation and a use for EW rail	Would you support a potential park and resort coming to this site? Please explain why.
2146	I would be visiting very often, infact me and my husband have already talked about relocating from West Yorkshire to work at the resort. We are both bus drivers and my husband was a fabricator so there could be career opportunities for us both.	Would you support a potential park and resort coming to this site? Please explain why.
2218	New job opportunities, benefits local area + wildlife	Would you support a potential park and resort coming to this site? Please explain why.
330	I think this park can bring some live to the area of Bedford which will also bring more opportunities for work.	Would you support a potential park and resort coming to this site? Please explain why.
3527	I have a 9 month old son who when he turns working age, having this down the road would provide him a great opportunity for work. Also, there's not much currently in or around Bedford that would provide as much entertainment and family days out as this park would.	Would you support a potential park and resort coming to this site? Please explain why.

1066	I have a son who has visited various theme parks in Europe & to Cedar Point with a friendship group that 'come together' from different places via a University friend. He has enjoyed his trips immensely. I can also see how it can benefit the region in different ways.	Would you support a potential park and resort coming to this site? Please explain why.
2546	I have always wanted to visit a universal site, but unfortunately I am unable to afford travelling to one	Would you support a potential park and resort coming to this site? Please explain why.
3027	I have children so would go to the theme park with concession tickets as I live near the site	Would you support a potential park and resort coming to this site? Please explain why.
4554	I have been going to florida sence 1990 for theme parks. But as i get older the traveling is getting harder. I took my children for alot of years to orlando. We are getting alot of grandchildren different ages and we would like theme to have the experience as well	Would you support a potential park and resort coming to this site? Please explain why.
334	I have been to resort in Florida 4 times it is excellent, UK are crying out for a resort like this , it will be so popular.	Would you support a potential park and resort coming to this site? Please explain why.
1038	I have been to Singapore and Orlando resorts and I cannot afford to keep travelling across the pond! We need a universal studio theme park in Europe... please bring it to the uk.. soo excited!	Would you support a potential park and resort coming to this site? Please explain why.
546	I have been to Universal in Florida twice and it was one of the most fun experiences. We desperately need something like this in the UK and Europe for that matter. Also (and this is a personal preference) because Universal has a strong link to the Harry Potter franchise and have produced some of the most incredible attraction themed on this franchise, it would amazing to bring all of that magic to the Home of Harry Potter, The UK.	Would you support a potential park and resort coming to this site? Please explain why.
1959	I haven't had the opportunity to travel to a universal park and from what I have seen and heard the quality of your parks is great. It would allow those who can't travel far to experience your parks.	Would you support a potential park and resort coming to this site? Please explain why.
1878	I have been to universal parks in Orlando and have seen how positive they are, I believe a project such as this will bring positivity and progress to a region that would only benefit from thia	Would you support a potential park and resort coming to this site? Please explain why.
1955	I have been to your Florida parks many many times and the quality, theming, thought that has gone into them will be a massive positive to the UK. I certainly look forward to visiting Bedford as well as Florida.	Would you support a potential park and resort coming to this site? Please explain why.
F6149	The project would bring alotof footfall to Bedford, which is gear for the economy, but unfair for people like us who left busy Lndon for the greenery and calm of Bedford. It is unfair for local residents who invested in property in the quiet local area that may now be bombarded with toursits and noise pollution.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
713	I have been visiting Universal Orlando since I was 2 years old over 30 years ago. What Universal does in their theme parks and resorts is truly mind blowing, every time I visit I am struck with an overwhelming feeling of joy and happiness that is only achieved through the amount of detail and effort that goes into each of your parks. Here in the UK our theme" parks are not really theme parks but a mish mash of rides that don't really mesh together to create an overall experience that leaves you "wow'd" at the end of your stay. Being able to have that experience be just over 2 hours drive from my home would mean so much to myself and others in this country. I would still continue to travel to Orlando as much as I do now but sign me up for an annual pass from day 1 for Universal Great Britain!"	Would you support a potential park and resort coming to this site? Please explain why.
F6172	The UK really need this park;resort it will be the best thing to ever happen and I for one can't wait.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
F6173	We think this would be incredible for Bedford and the UK, we hope it goes ahead!	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
2329	This is an amazing opportunity for the local area for business partnerships, job opportunities, skill training etc. As well as putting the rich heritage of the area in the lime light	Would you support a potential park and resort coming to this site? Please explain why.
3310	This is an opportunity to put Bedford on the map. The theme park will be an even larger employer than the brickworks once were, and a lot nicer to boot.	Would you support a potential park and resort coming to this site? Please explain why.
340	This is much needed for the UK. We have a young daughter and we would definitely visit this as it is close by to us. It will create so many job opportunities and being tourists and visitors from all over the UK and the world to the area.	Would you support a potential park and resort coming to this site? Please explain why.
2476	This will be an incredible boost to the Theme Park and resorts sector in the UK, creating an incredible amount of job opportunities and a huge economic boost. Our UK theme parks are very lacking in theming, new rides/areas and upkeep is poor. Having visited your parks around the world we personally know the standard is incredibly high and having a Universal park in Bedford would breathe life into the UK.	Would you support a potential park and resort coming to this site? Please explain why.
241	This would be a very exciting opportunity for everyone in Bedfordshire, to have a new exciting career.	Would you support a potential park and resort coming to this site? Please explain why.

4810	Training and job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
3016	Work for our children in years to come	Would you support a potential park and resort coming to this site? Please explain why.	
4274	Work in attraction business	Would you support a potential park and resort coming to this site? Please explain why.	
5152	If done well it will support natural wildlife, business and give locals job opportunities. It mustn't be used as an excuse to build housing on every green space in the area.	Would you support a potential park and resort coming to this site? Please explain why.	
2195	Employment and sustainability	Would you support a potential park and resort coming to this site? Please explain why.	
2547	I have been to the information day today and feel very reassured by what I have seen. I was concerned about traffic but I have seen that you plan to create seperate exits off the M1 and then have any queueing traffic within your own boundaries rather than on local roads. You seem to have properly considered public transport as well. I was concerned about noise but I understand that you create your lands so that the noise and light stay inside each land. The lady I spoke to asked about my own experience at Universal in Orlando. Could I hear Harry Potter noise from Jurrasic World and my answer was no. I am also exited about the job and training opportunities for my children. I hope that there would be some financial incentives for local people to visit the park!	Would you support a potential park and resort coming to this site? Please explain why.	
517	I work locally as a police Constable, I also live locally - Bedford has for many years been disregarded and struggled to get its name on the map, we have many major transport links in Bedford, we are in a easily accessible location and have a fantastic, diverse community. The ability to bring something like Universal to Bedford would provide a real opportunity for local residents to gain employment, benefit from extra footfall and have a location to go and spend time with family. My only concern will be in relation to the current road network and the influx of a large number of people, as a police Constable I regularly attend road traffic collisions on the A421, should the park be built the current A421 is not fit for purpose in dealing with the extra traffic congestion, the Marsh Leys roundabout would become gridlocked and there would be a negative knock on effect to local communities and daily commuters. If the road network was improved and there was a significant, well trained security team in place at the park then this would be a fantastic opportunity which I would definitely be visiting. Good luck	Would you support a potential park and resort coming to this site? Please explain why.	
4267	Job opportunities for locals are infrastructure improves are amazing for the area. This is much better than more housing and no improvements and jobs.	Please share any other feedback you have at this stage.	
2006	Jobs, improved local activities, infrastructures, people engagement, local economy	Would you support a potential park and resort coming to this site? Please explain why.	
4810	Training and job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
RECOGNITION OF IMPACT ON THE UK (987)			
ID	Comment	Survey question	Response
1241	It would provide many employment opportunities. It would encourage investment from other businesses. It would bring more wealth to the area as large areas are not. It would raise property prices and attract investment to the UK.	Would you support a potential park and resort coming to this site? Please explain why.	UDX is thankful to all those who took the time to provide feedback throughout the engagement process and is delighted to see evidence of such strong enthusiasm and support for this project.
1687	Creating a world-class themed experience unlike anything the UK has seen before	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2171	I think this would be such a great opportunity for uk job market and also for people who might not be able to travel to other universal parks they can have one close to home. Having somthing of this scale very welcomed to the uk in my eyes	Would you support a potential park and resort coming to this site? Please explain why.	In just four weeks across April 2024, UDX met with almost 1,500 people during its in-person public exhibition events at Bedford College and Kimberley College and engaged with nearly 100 local organisations to also hear their ideas and feedback.
1813	It would be an incredible opportunity for the area and the UK in general. This would be the best tourist attraction in the UK by a mile and adds to the competitiveness of the UK in attracting tourists. I would be incredibly excited to visit Universal in the UK. It is an iconic brand and has a proven track record of delivering incredible experiences.	Would you support a potential park and resort coming to this site? Please explain why.	
4920	It would be transformative to not only Bedford, but to the theme park landscape of this country. Merlin has had a stranglehold in the British tourist attraction industry and a challenger to their monopoly is long overdue. As somebody who's already visited Universal Orlando Resort many times over the years, I would definitely go out of my way to visit the potential Bedford Park yearly.	Would you support a potential park and resort coming to this site? Please explain why.	This engagement generated over 6,000 responses, the overwhelming majority of

2183	It would bring something new and unique to the UK; a exciting tourist attraction which would be a boon to the local and further ranging economy; as well as access to a job market within a industry otherwise difficult to enter into. If we want a large 'epic-scale'/themed themepark, we have to go across to Disneyland Paris (which can be expensive considering the travel fee's and hotel) or to Efteling, which is even further afield. Certain IP's (namely Harry Potter) would also be valuable within the UK; the home and basis of the IP.	Would you support a potential park and resort coming to this site? Please explain why.	<p>them from people in the nearby communities, and what it heard was remarkable – just over 92% of people surveyed are supportive of the potential world-class theme park and resort, less than 4% are not supportive, and 4% don't know.</p> <p>As a sign of how importantly it takes this feedback, each and every one of the thousands of comments provided has been carefully analysed as UDX continues to develop its plans, and a response to each of the emerging themes has been provided here within this document.</p>
4855	It will be great for the UK economy especially being not too far from London and will open up many new job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
1644	Having a world class theme park closer than Orlando	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1627	Providing exhilarating fun for theme park enthusiasts and guests all over the UK.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3549	more things for the family to enjoy.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3581	Further diversity in the theme park and destination park industry in the country.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?

3470	Creating a Go To" destination in the UK"	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3483	Creating a unique experience. In the UK you have Parks like Alton Towers and Thorpe Park and you're going to want to be more diverse then those parks. than those part	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3689	Creating a fun place for people to enjoy themselves	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3733	Having a world class leisure destination in the Britain.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3884	Creating an epic Universal theme park in the UK!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
302	An experience for the UK much more like US theme parks	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
421	Bringing Universal to Britain!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
808	Bringing a world class Themepark to the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3566	Bringing a joyful experience/attraction to the town.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
821	Access to a fully recognised theme park in the UK rather than anyone in the UK having to drive over to Disney for a full immersive experience.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
831	The opportunity to experience something in the UK on a par with Universal resorts around the world	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

974	An amazing theme park for the UK!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
978	UK deserves a new world class theme park and it will be well received.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1532	Bringing a new attraction for the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
543	Having a Universal theme park in the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
125	The UK has been lacking in theme park development for decades and to have a Universal Studios resort potentially come to the UK is not only huge for theme park fans, but also the economy.	Would you support a potential park and resort coming to this site? Please explain why.	
133	Would bring tremendous benefits to both the UK economy and universal studios, seems like a win for both parties this.	Would you support a potential park and resort coming to this site? Please explain why.	
4581	Enhancing UK economy	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4251	Enhancing the theme park offer in the UK and europe	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1402	Creating something fun/uplifting. Is much needed in this country.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
141	The uk needs new job and career opportunities. It will be great for our economy and is definitely needed	Would you support a potential park and resort coming to this site? Please explain why.	
144	I think, the site sits in a perfect location with most major UK cities within and hours reach. In addition, it's perfect due to local airports too which will bring in European visitors. We are so well connected, that the location makes absolute sense. On top of that, the region and wider regions will benefit hugely.	Would you support a potential park and resort coming to this site? Please explain why.	
4445	We have theme parks in the UK, but in my opinion nothing to the scale of what Universal can bring. This changes the theme park outlook in the UK, and would be a massive welcome to the UK.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4752	Improvement on the UK entertainment industry, with a monopoly by Merlin	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4805	Europe does not have a park to the standard of what universal can offer us it will bring major benefits to the local area	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3927	As a theme park enthusiast it is good to see more competition coming to our theme park industry	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
133	Really think this would benefit the local area and the UK as a whole.	Please share any other feedback you have at this stage.	
973	national tax income	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2145	I think this project brings a unique opportunity to the UK as a fan of universal parks being on our doorstep within the UK would be amazing and would boost the UK economy a great deal which is always welcomed.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2917	effect to uk and european theme park market	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2843	Bringing a Universal theme park to the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

2834	finale a real universal park in europe	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2827	Delivering a premium theme park experience.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2796	Providing great entertainment and a much-needed theme park for Britain	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1999	Many other reasons uk needs universal	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1854	Universal uk I will be visiting if it go ahead we need something like this in the uk	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1859	Exploring an brand new theme park.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1768	Making the uk happier	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2545	Bringing Jurassic Park River Adventure to the UK!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2522	Bringing joy & uplifting spirits & fostering imagination and creativity. Which is very much needed.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2418	Setting high standards and creating aspiration	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1796	Most importantly providing a thrilling and exciting entertainment destination for people all over the UK. If that's not the most important,then why bother?	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1950	Having a universal theme park in the UK.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2246	All of the above but just to have a world class theme park.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1908	Would be incredible be the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1056	Providing a quality source of joy and entertainment not only to Bedfordshire but the UK market.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
181	This proposal has made me feel more optimistic about the future of the UK. I am keeping my fingers and toes crossed that you decide to go ahead!	Please share any other feedback you have at this stage.	
269	There's a real need for more family day out attractions in the U.K. that also meet a high level of standards.	Please share any other feedback you have at this stage.	
300	100 percent support behind this project and I think it would be good for the uk economy	Please share any other feedback you have at this stage.	
308	The UK should welcome Universal with open arms and I hope it does.	Please share any other feedback you have at this stage.	
366	I fully support this project and the opportunities for the UK from this going ahead will be hugely beneficial.	Please share any other feedback you have at this stage.	

536	Please proceed will be fantastic for the UK	Please share any other feedback you have at this stage.
4159	It sounds like an amazing opportunity for UK tourism in general, and Universal are world-class in their parks and experiences.	Please share any other feedback you have at this stage.
3984	I would love this park to come to the UK, I am strongly for it, I have seen what they have done for Orlando personally and also online for what you have done for California and Japan, We really need a park like this.	Please share any other feedback you have at this stage.
3987	It was a shock when you announced your intentions but a park here would be welcome! The UK is in desperate need of something like this, you only need to go down to the Excel this weekend to see the turnout at the Pokémon European Regionals, just the queue to get into the popup shop is baffling as to why a permanent store hasn't been built here? The theme park situation is very similar, there are no world class theme parks here, if we want those we have to go to Paris.	Please share any other feedback you have at this stage.
3996	I have visited Universal copious amounts of times, it is a fantastic project and I am looking forward to having something in the UK - well done!	Please share any other feedback you have at this stage.
3997	This is such an exciting opportunity. Having seen the development of EPIC Universe in Florida, if we could have even half this park in the UK it would be incredible exciting - we would definitely support this!	Please share any other feedback you have at this stage.
332	This resort coming the UK is a no brainer. Disney made a mistake putting theirs in Paris, as the average Paris tourist is on a culture vacation and not interested in theme parks. London is a global destination for people going on "entertainment" vacations	Please share any other feedback you have at this stage.
421	Please create a Universal theme park in the UK. There is nothing that even comes close to matching it over here and it would be so successful! We need some Universal magic over here!	Please share any other feedback you have at this stage.
424	Please do this! This is such an exciting time not just for park fans, but for the UK. Also, with cost of living currently, for many families it is simply not realistic to travel abroad to the states (for example) to get a proper theme park experience, this would be a great replacement (despite the weather being a bit, well, wet!).	Please share any other feedback you have at this stage.
520	I have visited Universal in Orlando many times, if this goes ahead in the UK it would be a dream come true for me and millions of others. PLEASE MAKE IT HAPPEN UNIVERSAL!	Please share any other feedback you have at this stage.
490	A hugely exciting opportunity for the UK as a whole to be part of the Universal destinations and resorts family	Please share any other feedback you have at this stage.
528	In my opinion theme parks in the UK are rubbish compared to what Universal, Orlando has to offer. I haven't been to a UK theme park in over 10 years. Instead, I save up get on a plane and enjoy what there is to offer in Orlando (next trip November 2026 honeymoon pending, can't wait to be tossed around in the TeAwa the Fearless River). I really hope you can bring some magic and imagination to the UK and selfishly Bedford as it will be a throw away from my home. This will be great for the local community and will provide many jobs and hopefully help grow local businesses. I can already picture how my future evenings and weekends will look. I hope you look at bringing HHN, I've never been so scared in my life. If it doesn't go ahead I've enjoyed the thought that somewhere I've grown up going to and have some of the best memories could be down the road to me.	Please share any other feedback you have at this stage.
529	I truly am very excited to hear about Universal building a resort in England. I think it will be wonderful, but only if it's done in a way that considers the local community as a valuable asset too. Please continue to listen and talk with the local communities as the project moves forward. Update them every step of the way and they will be your biggest supporters! Much love! ~<3	Please share any other feedback you have at this stage.
538	I am incredibly excited that Universal is investigating the possibility of a new resort in the UK. The Universal Orlando resort is one of my favourite places in the world and I honestly thought we'd never see a park of this scale and quality being potentially considered here. I hope that if the park does go ahead, it carries the same vibe as the Orlando resort with an Americanised feel, palm trees and lots of water features. I'm a huge fan of immersive dark rides and I think the UK would of course benefit from having more indoor attractions because of the weather, but I'd hope to see a good selection of large outdoor attractions too (especially roller coasters!). I would love to see the big IPs like Jurassic Park/World and Harry Potter have a decent presence here as they have worked exceptionally well in other Universal Resorts. Finally, if an Annual Pass was offered for the UK resort, I would be more inclined to buy it if included entry or even just discounts for the Orlando resort (and potentially other resorts) as well. As Orlando is a very popular destination for UK tourists, it would be great if there were benefits for that one in particular.	Please share any other feedback you have at this stage.

541	This is amazing and exciting for the UK. I fully support this project and hope it goes ahead. Also for Park tickets, hotels etc maybe you could give a special rate to local residents and those visiting from London/south of the UK similar to the Florida residents discount you have for Orlando.	Please share any other feedback you have at this stage.
549	Bringing the Universal brand and quality to the UK will not only open up new job and economy benefits but will also raise the bar for the attraction industry across the country. Competition is never a bad thing and the threat of the failed London resort already brought investment at other parks. This is such a huge and exciting prospect that millions are hoping for. One area that will be a sticking point for many will be train fare costs impacting the choice of trains over driving. With such good rail links I have no doubt a train & ticket bundle would be a huge driver of sales to limit car traffic.	Please share any other feedback you have at this stage.
555	I hope this goes ahead, let's utilise the UK 's brilliant creative talents to build and operate this resort.	Please share any other feedback you have at this stage.
4827	Overall I think Universal coming to the UK would be amazing as a huge fan of the work done in Orlando and Hollywood I think the UK could become another major competitor in Destination resorts! I would definatly consider being an AP holder if such a theme park was to arrive in the UK.	Please share any other feedback you have at this stage.
4824	The finished project has the potential to transform the locality and the country as whole, it would also force other attraction providers to up there game somewhat and invest in improvements elsewhere	Please share any other feedback you have at this stage.
4760	I see no issues only positives of Universal creating a new theme park resort in the UK. The jobs it will create and the benefit it will have on the whole of the UK's economy will be phenomenal.	Please share any other feedback you have at this stage.
4656	I fully support this. It will benefit not just the local area but UK tourism in general. It would be great to see some competition with Merlin who currently own the majority of UK theme parks.	Please share any other feedback you have at this stage.
1942	It will heavily increase tourism to the area and the country as a whole. It will ensure a bright future for Bedford with further developments almost certain to take place. It will allow for lessened environmental impacts via travel by European tourists, allowing for a closer and more cost effective visit overall which should further drive tourism to the area.	Please share any other feedback you have at this stage.
2284	I have great hope on this project going ahead. I believe it will be a great benefit to the UK economy, attractions industry and local community, and I have every intention on moving if the project gets the green light. I am somewhat concerned over the requirement for extra housing and the ripple effect this would make. The land already being purposes for new housing means one could make the assumption more housing is already needed for the local area, and the need for more people to operate the attraction will only exacerbate this. Whilst not a concern for Universal, I don't know what this would look like for developing more fields into urban area. Furthermore, have studies been put in place for the extra demand on water and electricity needed for the site, and will this affect the local area? I'm sure these are easily addressed, but worth mentioning. I have belief this project would be a success and look forwards to what is to come in the following years.	Please share any other feedback you have at this stage.
2285	Just please go ahead with it it will be really good for the UK.	Please share any other feedback you have at this stage.
1683	Job opportunities, regeneration of the area, bring investment into the UK	Would you support a potential park and resort coming to this site? Please explain why.
3491	I would love a universal park in the uk. We have great public transport and roads and think this is a great site for it.	Please share any other feedback you have at this stage.
4531	This sounds like it would be a great boost for UK tourism and the economy	Please share any other feedback you have at this stage.
1305	Pls go ahead to make this project happen. It would be a great opportunity for universal & the UK All the parks in the uk I think are ran by the same company so universal coming to the uk would help with some good competition and opportunities for everyone including yourselves	Please share any other feedback you have at this stage.
4011	National benefits to the UK economy	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
2681	Economic - a great opportunity for a town that needs the economic boost. Societal impact - Creating jobs and opportunities for people of all ages is important. Working with community (as proposed) is positive sign of long term investment in the area Transportation - needs to be thought through thoroughly as local transportation (roads & trains) are at capacity as they are now	Would you support a potential park and resort coming to this site? Please explain why.
4685	Economic and employment opportunities as well as a new UK tourism destination	Would you support a potential park and resort coming to this site? Please explain why.

3159	Economic and employment opportunities BUT Bedford Borough MUST commit to road improvement, including dualling the Western Bypass. Roads cannot cope at present so need drastic improvement needed if park goes ahead. Public sector that currently doesn't plan long term must wake up to long term traffic needs. People want their cars, not local public transport.	Would you support a potential park and resort coming to this site? Please explain why.	
182	Economic and environmental benefits	Would you support a potential park and resort coming to this site? Please explain why.	
3775	Economic and environmental benefits	Would you support a potential park and resort coming to this site? Please explain why.	
4292	Economic and leisure benefits	Would you support a potential park and resort coming to this site? Please explain why.	
3367	Economic and social benefits to the area and love universal in Florida.	Would you support a potential park and resort coming to this site? Please explain why.	
2487	Economic and social development	Would you support a potential park and resort coming to this site? Please explain why.	
511	Economic benefit and improvement to brown field land which has been dormant for years.	Would you support a potential park and resort coming to this site? Please explain why.	
3039	Economic benefit to Bedford and UK, travel to UNiversal theme parks outside of UK is not financially viable for many families. As a regular UK theme park user, would be very exciting to have Universal in the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
1084	Economic benefits	Would you support a potential park and resort coming to this site? Please explain why.	
3339	Economic benefits	Would you support a potential park and resort coming to this site? Please explain why.	
4592	Economic benefits	Would you support a potential park and resort coming to this site? Please explain why.	
3719	Economic benefits and a new entertainment park that we could spend multiple days at	Would you support a potential park and resort coming to this site? Please explain why.	
3703	Economic benefits and excitement of a theme park on our doorstep.	Would you support a potential park and resort coming to this site? Please explain why.	
4909	Economic benefits and potential environmental benefits	Would you support a potential park and resort coming to this site? Please explain why.	
4952	Economic benefits for the local area	Would you support a potential park and resort coming to this site? Please explain why.	
4057	Economic benefits in the mid and longer term for the area	Would you support a potential park and resort coming to this site? Please explain why.	
4108	Economic benefits to local community. Also would enjoy using the park.	Would you support a potential park and resort coming to this site? Please explain why.	
3861	Economic benefits to the area	Would you support a potential park and resort coming to this site? Please explain why.	
3287	Economic benefits; associated transport infrastructure improvements; potential to be transformational for UK theme park industry	Would you support a potential park and resort coming to this site? Please explain why.	
2669	Economic bens	Would you support a potential park and resort coming to this site? Please explain why.	
4222	Economic boost	Would you support a potential park and resort coming to this site? Please explain why.	
1085	Economic boost is required and would improve local area	Would you support a potential park and resort coming to this site? Please explain why.	
4534	Economic boost to our venue with increased visitor numbers	Would you support a potential park and resort coming to this site? Please explain why.	
272	economic development for the UK and Local area.	Would you support a potential park and resort coming to this site? Please explain why.	
4717	Economic diversity and growth in area	Would you support a potential park and resort coming to this site? Please explain why.	
4220	Economic growth	Would you support a potential park and resort coming to this site? Please explain why.	

1543	Economic growth and opens opportunities in many different areas. This puts the uk back on the map after many years of decline.	Would you support a potential park and resort coming to this site? Please explain why.
4664	Economic growth and potential change in career with job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
4644	Economic Growth for the Area and UK in general	Would you support a potential park and resort coming to this site? Please explain why.
3676	Economic growth in Bedfordshire	Would you support a potential park and resort coming to this site? Please explain why.
2108	Economic growth would be highly beneficial for the area, as would all the new jobs the project would create. Moreover, the UK currently has no theme park resorts anywhere near this calibre.	Would you support a potential park and resort coming to this site? Please explain why.
4309	Economic opportunities for the wider UK	Would you support a potential park and resort coming to this site? Please explain why.
4821	Economic reasons, improvement in infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
4010	Economic, social, and transport infrastructure benefits	Would you support a potential park and resort coming to this site? Please explain why.
3783	Economical impact on the area, will attract investment and force local council to act on bad road network, will add entertainment, raise house price	Would you support a potential park and resort coming to this site? Please explain why.
3543	Economy	Would you support a potential park and resort coming to this site? Please explain why.
2897	Due to the long term economical benefits to the local area and wider country. Puts the area as a must visit location	Would you support a potential park and resort coming to this site? Please explain why.
1722	Due to Universal's care for the environment as well as local communities. The park would bring in business and boost the economy whilst being environmentally / socioeconomically sustainable.	Would you support a potential park and resort coming to this site? Please explain why.
4055	100% support for local and national economy	Would you support a potential park and resort coming to this site? Please explain why.
1745	210 per cent behind this project!!!! There is a huge market in the UK (and beyond in Europe) and appetite for the Universal brand, we are familiar with the parks in the US and beyond and know what amazing experiences and themed attractions Universal brings. As a massive theme park enthusiast it would be an absolute dream to have a Universal park in the UK, plus like Disneyland Paris did in the 90s for Paris and France this would have a hugely positive tourism/economic/employment and infrastructure benefits. I am living in Scotland and it would be a privilege to take a flight down to see!	Would you support a potential park and resort coming to this site? Please explain why.
2672	100% support for your incredible project which would be transformational for Bedford and Kempston and our local community. We have visited Universal Orlando twice which were holidays of a lifetime and this project would bring enormous benefits both socially and economically to our town.	Would you support a potential park and resort coming to this site? Please explain why.
5051	Grow Bedford Internationally	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5209	Providing a top quality entertainment destination	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5262	Providing a leisure facility that re-energises the local economy and supports the proposed East-West-Rail	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5236	Improve the area economically	Would you support a potential park and resort coming to this site? Please explain why.
5018	A new type of opportunity for the local community and business.	Would you support a potential park and resort coming to this site? Please explain why.
5375	A project of such magnitude has the potential to boost the economy through job opportunities, and revenues to the local council which then can be used to further develop the region by investing in improved road connections, rail and public transport.	Would you support a potential park and resort coming to this site? Please explain why.
5292	As will boost the economy provide jobs and allow local families and the whole of UK to access fun and experience things which they could not otherwise unless they travel abroad at huge cost.	Would you support a potential park and resort coming to this site? Please explain why.

532	It's brilliant news that universal are looking at the uk. The rest of the world are miles ahead in theme park rides and attractions and it's about time we had a something to rival. Also it's great that a universal experience could become a possibility for those of who the U.S.A, china etc may not be possible. While the contrsuction would not impact me, I hope that this would be of least possible disturbance to those whom it could affect. The prospect of career opportunities, jobs created, local infrastructure improvements, trade for the local area and the wider uk with international visitors, what's not love. It's a big win for everyone.	Please share any other feedback you have at this stage.
563	Mainly that I am ridiculously excited about the possibility of a branch of the worlds greatest theme park being built in the UK, it will be a huge benefit to the economy and once opened, plan to be there at the park as often as possible.	Please share any other feedback you have at this stage.
568	The project looks like a fantastic opportunity for both Universal and the UK. Thank you for considering this side and I hope you are successful in delivering this well planned project!	Please share any other feedback you have at this stage.
619	I really hope you go ahead with this project. It would have so many benefits for this country, and is in a great location. We are so supportive of this and really do hope it proceeds	Please share any other feedback you have at this stage.
656	I think the plan to have a universal park in the U.K. is brilliant. Going to be honest I'm happy to sign up for an annual pass now! I would like to see classic IPs within the park, would love to see back to the future revisited! But anything you decide to do will be EPIC!	Please share any other feedback you have at this stage.
542	Please consider this project, it will be amazing for the UK to have something like this and only an hour away from where I live you'll make a lot of money!!	Please share any other feedback you have at this stage.
556	doesn'tlet a small amount of people stop something that is so needed. Universal will make money in UK You forecast 8million visitor a year I think you will have a lot more than that. UK love theme parks and we travel to Orlando and other place world wide to visit them because we doesn'thave any good ones here at home â€¦ help us please build	Please share any other feedback you have at this stage.
558	this would be amazing to have in the UK and would boost the UK growth and tourism fantastic new	Please share any other feedback you have at this stage.
626	A world class entertainment venue is desperately needed in this country. It will not only create many jobs but also increase tourism to the uk not only from people from the uk but people travelling to the uk to specifically go to the studios.	Please share any other feedback you have at this stage.
692	I'm really happy that Universal is considering a potential theme park in the UK and I truly hope this does go through. Many people in the UK do go to the US to go Universal already but many more from the UK still have not gone due to the financial commitments families must do to go to the US for holidays. So an opportunity for it to be local is a much better outcome for many residents in the UK.	Please share any other feedback you have at this stage.
703	I think this is a really exciting prospect for the UK where we are desperately in need of a proper â€˜themed' park that is enjoyable for all, not just those with small children or those who enjoy thrill rides.	Please share any other feedback you have at this stage.
720	I hope this project goes ahead, it is incredibly exciting for the UK.	Please share any other feedback you have at this stage.
731	I know this project will be good for our country and the vast majority of people so you have my full backing. I'm so excited.	Please share any other feedback you have at this stage.
744	Please, please, please go ahead with this project, it will be endlessly beneficial for the UK and Universal!	Please share any other feedback you have at this stage.
761	Really hope you push forward with this, it's so exciting and I feel like this will be massive for England. You're a massive brand who know what you're doing and the jobs you create and money it'll bring in will not just help the local area but the economy as a whole. It's getting so expensive to travel to Florida that this will be more than welcomeâ€¦ I really really hope this happens	Please share any other feedback you have at this stage.
771	Please open a park in the UK . We need a new theme park	Please share any other feedback you have at this stage.
777	I really hope it will happen , this is such an amazing opportunity for the city, the country and Europe continent as whole ! How exciting !!!!	Please share any other feedback you have at this stage.
780	We need universal in the uk instead of Merlin parks	Please share any other feedback you have at this stage.
836	I'm really hoping for this project to go ahead and for the UK to get a Universal Studios in the future. It would easily become one of my favourite places to go, after visiting Universal Japan I've been wanting to go back so much but America is so expensive to travel too it's pretty much impossible. This would open up so many more opportunities for people to visit without having to break the bank... Until they realise how awesome the park is and want to visit more of them anyway	Please share any other feedback you have at this stage.

5086	As you stated, it will be very beneficial for the local economy, for the people in the area to get a job easily, for businesses to get a boost. The location is pretty good as it is close to Oxford, Cambridge and London without the high prices. There are lots of nearby villages that also need a boost and the theme park can actually help a lot. More tourists in the area can mean more opportunities for B&Bs, small businesses' owners, etc. It will be a boost for the property value for each homeowner in the area too.	Would you support a potential park and resort coming to this site? Please explain why.
5413	Bedford is a town that offers everything that Centre Parcs offers to its guests and yet it has a very low profile. It has amazing green space, blue space (river and watersports), cycleways, restaurants, theatres, gig venues, a resident national orchestra, and an incredible heritage especially with regard to engineering and technology innovation. Space technology is designed here (ARA), airships were home here (Cardington), the first pocket calculator was built here (Texas Instruments), FujiFilm have a HQ here... having a major entertainment establishment in Bedford that brings all this to the attention of potential visitors, investors and businesses would be the profile boost that the town needs to move its profile from an English market town to a town at the centre of future thought and creativity. Bedford Creative Arts is fuelling this new revolution of a creative economy & [Bedford] could well be the silicon-valley of art, technology, faith & community [â€] there is a sense we are in 2121 in this workâ€~ XX	Would you support a potential park and resort coming to this site? Please explain why.
5263	Been wanting something like this in the UK all my life. Not only will it benefit the local economy and towns it will also provide a wonderful place to make memories with my son.We dont have anything like this locally. Sign me up now for a season admission pass!!	Would you support a potential park and resort coming to this site? Please explain why.
5083	Bringing a park of Universal's status to the UK and to the Bedford area would be wonderful for the economy and jobs in the country as well as training opportunities for the the younger population. This would definitely be the biggest project we have seen in the UK and would not only help Bedford but the whole country.	Would you support a potential park and resort coming to this site? Please explain why.
5109	Economic impact: The construction and operation of a Universal Studios theme park would generate significant economic benefits for the local area and the wider UK economy. It would create job opportunities during the construction phase and provide long-term employment for local residents once the park is operational. The park would attract tourists from around the world, leading to increased spending on accommodations, dining, transportation, and other local businesses, thereby boosting the local economy. Tourism attraction: A Universal Studios theme park in Bedford would enhance the region's tourism appeal and attract visitors from across the UK and beyond. The park's proximity to London and its good transport links would make it easily accessible for domestic and international tourists. This increased tourism would benefit local hotels, restaurants, shops, and other attractions, creating a positive ripple effect throughout the tourism industry in the area. Cultural enrichment: Universal Studios is known for its immersive experiences and iconic movie franchises. A theme park in Bedford would provide a unique opportunity for visitors to engage with British culture, history, and creativity. The park could feature attractions and experiences that celebrate British films, literature, and landmarks, contributing to the preservation and promotion of British arts and heritage. Educational opportunities: Universal Studios has a strong commitment to education and skill development. The company could collaborate with local schools and educational institutions to provide unique educational programs and experiences for students. This collaboration could offer opportunities for learning about the entertainment industry, technology, and creative arts, fostering talent development and inspiring future generations. Community engagement: Universal Studios has a history of actively engaging with local communities in its projects. The company could work closely with the Bedford community to understand their needs and aspirations, ensuring that the park's development aligns with the town's values and celebrates its unique identity. This collaboration could involve public consultations, community events, and partnerships with local organizations, fostering a sense of pride and ownership among residents.	Would you support a potential park and resort coming to this site? Please explain why.
5178	Exactly for the reasons given above, the benefit that it will have on the local economy, infrastructure, environment, training and job opportunities that it will create. I support this project wholeheartedly, I feel it will transform Bedford and surrounding area in a positive way.	Would you support a potential park and resort coming to this site? Please explain why.
5341	Fantastic opportunity for Bedford and surrounding area in the county. Great job opportunities and amazing impact on local economy.	Would you support a potential park and resort coming to this site? Please explain why.
5365	From my own personal point of view, I love Movies, Television, Music & Entertainment and so I would always support something of this nature. I remember as a 14/15 year old back in 1992, feeling so let down when Disney went to Paris with their Theme Park, rather than coming here. Coming here would create a new world class attraction here in the UK and would also provide a positive impact on local business, much like how the USAF bases I have previously mentioned have created their own economy locally, with many local business very much oriented towards the needs of base personnel.	Would you support a potential park and resort coming to this site? Please explain why.

5097	Good for local transport infrastructure and local economy	Would you support a potential park and resort coming to this site? Please explain why.
5119	Good for the area, creates jobs and good for the UK economy	Would you support a potential park and resort coming to this site? Please explain why.
5160	Good injection of fun and economy to Bedford. Good opportunity for jobs both in and around the parks	Would you support a potential park and resort coming to this site? Please explain why.
5076	Great employment opportunities for local people. Long term economic benefits for the local economy. Requires significant improvement to local road and rail connections for this to be a success.	Would you support a potential park and resort coming to this site? Please explain why.
5277	Great for the local economy. Also, I know this area is perfect for a park of this kind- close to London and Birmingham	Would you support a potential park and resort coming to this site? Please explain why.
5335	Great for the UK economy, plus local people need some form of entertainment locally other than the cinema and bowling.	Would you support a potential park and resort coming to this site? Please explain why.
5234	Great idea, economy boost and Bedford is tired and needs modernising. It is a great place to live but the town centre let's it down significantly	Would you support a potential park and resort coming to this site? Please explain why.
5189	I believe that the project will help immensely improve the British economy and encourage tourism	Would you support a potential park and resort coming to this site? Please explain why.
5243	I believe this would offer a significant investment to the local area and UK economy as a whole. It would be really good to see sensitivity applied to the needs of the local community with advancement to local infrastructure to minimise impact to locals at all stages of the project and beyond into the future. Would also be good to link into further education establishments to help provide meaningful and rewarding employment opportunities specific to highly skilled roles required for the future.	Would you support a potential park and resort coming to this site? Please explain why.
5052	I have visited universal studios in Orlando and in California and they are absolutely exceptional places to visit. To have a universal studios in the UK and so local to where I live would absolutely be incredible. This opportunity would be crucial for the local economy to offer job opportunities to young people and to stimulate Luton airport indirectly. I am absolutely all for this project to go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
5379	I love Universal Parks, and have visited a few of the overseas locations. The UK currently has nothing similar, and I would love to see one built here. It will be great for the UK economy and an amazing attraction. I also appreciate how Universal feels about their environmental and sustainability impact.	Would you support a potential park and resort coming to this site? Please explain why.
5173	I see the modernisation of tourism in the UK as vitally important to the UK economy. Unfortunately, the existing players in the industry in this country show no interest in maintaining a world-class status. I believe it requires a company like Universal Studios to create such a high level of competition that the existing businesses will be forced into investing heavily in their existing portfolio to survive which would be good for the UK industry.	Would you support a potential park and resort coming to this site? Please explain why.
5088	I strongly believe that a park of this calibre would be very beneficial for the economy and for tourism. Places like Harry Potter studio tour, already prove their popularity with tourists all around the world. I also believe that Universal intellectual property will draw people in from mainland Europe. This site location makes a lot of sense for it's connectivity.	Would you support a potential park and resort coming to this site? Please explain why.
5195	I think that not only would it be great for local economy, but for Great Britain itself, we haven't had anything like this over here and I think it would be a great asset to add to the country	Would you support a potential park and resort coming to this site? Please explain why.
5297	I think the local and national economy and people will benefit from this project and as a Bedford resident local improvements and has lots of potential. Also a Harry Potter fan (nerd?) so hope that's included.	Would you support a potential park and resort coming to this site? Please explain why.
5300	I would love to see a universal park within the UK. I also think the benefits to the local area, and the economy would be hugely beneficial in the long run. I would also like to visit regular (probably look to be a season pass holder!) and potentially even look for work at the park once completed.	Would you support a potential park and resort coming to this site? Please explain why.
5326	It is a good location in terms of geography in the UK and has good established infrastructure links. Also a significant benefit to the local economy, community and the environment.	Would you support a potential park and resort coming to this site? Please explain why.
5191	It will be great for the UK economy and it will improve the UK theme park industry as a whole by driving other parks to try harder	Would you support a potential park and resort coming to this site? Please explain why.
5151	It would be a MASSIVE boost for the local economy and bring joy to many people who are unable to travel to other Universal Theme Parks around the world.	Would you support a potential park and resort coming to this site? Please explain why.
5084	It would be exciting for not just Bedford but the rest of the UK. Increasing tourism to the country and improving the economy. Also Having a park this close to home would be fantastic. I would be able to visit a lot more frequently than what I can currently as the travel costs to the other resorts is very expensive. The new park would raise the standards of what a theme park can be in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
5362	It would improve community, industry, economy and infrastructure	Would you support a potential park and resort coming to this site? Please explain why.

5393	It would improve the UK economy	Would you support a potential park and resort coming to this site? Please explain why.
5372	It's a great opportunity to boost the local economy for Bedford. As someone who has lived my whole 31 years in Bedford it would be great to see Bedford put back on the map. Creating new job opportunities in an economy that is struggling	Would you support a potential park and resort coming to this site? Please explain why.
5166	It's exciting and fun and the UK would love a park like this. For the local area it would be the talking point for years and have a positive impact to economy and employment.	Would you support a potential park and resort coming to this site? Please explain why.
5169	It's good for jobs and the local economy but care must be taken over the environment.	Would you support a potential park and resort coming to this site? Please explain why.
5438	It's a massive opportunity but only for the local economy but the UK in general. It's also a selfish support because I'm a huge theme park goer and love universal and would love one less than 40 minutes down the road to me with improved travel infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
5428	Love theme parks and to bring universal to the UK would produce employment tourism and be good for out economy	Would you support a potential park and resort coming to this site? Please explain why.
5384	Massive boost to the economy and local area	Would you support a potential park and resort coming to this site? Please explain why.
5096	Our family would visit regularly. It would boost the local economy of Bedfordshire. I live in Central Bedfordshire and I hope this would improve the economy here as much as Bedford Borough.	Would you support a potential park and resort coming to this site? Please explain why.
5147	The main reason is it will help the economy and create jobs and the second reason is I would love to see a Universal Studios theme park here in the UK as I have been to Universal Studios Hollywood and Orlando and Universal Studios really know how to do theme parks especially the Universal Studios Halloween Horror Nights.	Would you support a potential park and resort coming to this site? Please explain why.
5311	The park would contribute enormously to the economy of not just the local area, but the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
5003	The potential transformation to the local economy in terms of jobs, training local infrastructure and business growth will far out weigh the short term disruption and trade offs of building the resort.	Would you support a potential park and resort coming to this site? Please explain why.
5262	The Project is very positive contribution to the economy and character of the local communities around Bedford. It will provide opportunities for young people and encourage them to live and work in the area rather than migrate to London. The proposed development also supports the development and growth of the Oxford-Cambridge Arc which is planned at a technological and biotech center of world repute. The proposed Park will have universal support and is genuinely a once-in-a-generation opportunity. I am excited for my family, my friends and my community.	Would you support a potential park and resort coming to this site? Please explain why.
4986	The project offers so many opportunities for the local economy, infrastructure and environment. The location for the proposed development, geographically, is excellent, with transport links available from all compass points. The fact there is a locally controlled railway line through the area means that environmentally there is a benefit too. To say the development would replace the old scars of industry and rejuvenate the locale is an understatement. I believe that the key is the local railway and the safety of such having its own signal box and staff so close. I won't mention how proud the borough of Bedford would be to have this association and major economic boost... Because that is an absolute given.	Would you support a potential park and resort coming to this site? Please explain why.
5122	The site is perfect for redevelopment. Bedford is in a fantastic location to support the UK economy for major towns around.	Would you support a potential park and resort coming to this site? Please explain why.
5299	The UK needs a proper theme park experience for those families that cannot afford to fly abroad, as well as people from Europe as it is affordable to fly within Europe. Also the UK economy would benefit greatly.	Would you support a potential park and resort coming to this site? Please explain why.
5231	The UK would greatly benefit from a park/resort of this quality and scale as there is currently nothing like it. When it comes to large scale theme parks/resorts, there is little competition in the UK as most are owned/operated by one company. This lack of competition has resulted in few new attractions over the years, poor maintenance, and lacklustre theming. A Universal Park opening in the UK would bring something on an entirely new level to anything we have seen before. I have no doubt that it would be hugely popular, not only within the UK but it would likely become a destination park for people from all over Europe. This would be beneficial for both for the UK's attractions industry and the economy as a whole. I fully support a potential park on this site.	Would you support a potential park and resort coming to this site? Please explain why.
5278	The way the economy is at the moment it is difficult for young people to get jobs. This would provide a great opportunity for youngster to create a career with a well established company.	Would you support a potential park and resort coming to this site? Please explain why.
5036	This can only be a good thing for the UK economy, tourism and access for our children and adults in the UK	Would you support a potential park and resort coming to this site? Please explain why.

5157	Will be great for the local economy	Would you support a potential park and resort coming to this site? Please explain why.
5404	Without even going into how this project would help with regards to creating job opportunities, when you look at historical data of developments like the proposed, it is easy to see that the local development and economy are nothing but improved. While housing prices will increase this does provide a bonus for those who already have property invested in. There will be more footfall within our high streets bringing vital money back into the local economy and helping the small businesses which often end up failing due to low footfall and rent prices. The opportunity for young people to watch it grow and come of age when they are looking for work and career opportunities is huge, as previously any opportunity to work in such an environment would mean a large commute or a move out of country.	Would you support a potential park and resort coming to this site? Please explain why.
4996	Yes, so long as local infrastructure improvements support the additional visitors. No doubt more people to the area will stimulate the economy.	Would you support a potential park and resort coming to this site? Please explain why.
839	I would personally like to thank universal for indeed considering Bedford and the UK in the first place it's something this country is needed for a very very long time. Yes we have a good theme parks but something of this scale would draw attention back to the UK on a positive level, and hoping that the site would also be used for making films	Please share any other feedback you have at this stage.
881	I think this project would be a fantastic opportunity for Bedford and the wider UK. With a huge economic boost to jobs and training programs, this would be a huge milestone for the UK and its theme park industry.	Please share any other feedback you have at this stage.
942	This is a really exciting prospect for the U.K. and I do hope that the project is successful. Along with the benefits this will bring to the country, we, the people, need some joy in our life's as this Country isn't the greatest at the moment.	Please share any other feedback you have at this stage.
948	I welcome the development of this in the U.K. It is long overdue that such a high profile theme park locates in the UK	Please share any other feedback you have at this stage.
957	I think this project will help the uk economy a lot with potential jobs and other opportunities and will put the uk tourism industry on the map.	Please share any other feedback you have at this stage.
964	UK needs something like this. Has a huge theme park community which would support this project.	Please share any other feedback you have at this stage.
1160	The positives far outweigh the negatives. A project like this coming to the UK, and in a place like Bedfordshire that will help put it on the map, for the local economy and the country as a whole, the jobs this would create, its an amazing opportunity.	Please share any other feedback you have at this stage.
1193	Fingers toes and eyes are crossed in hoping this development gets the green light, thank you for investing in the UK.	Please share any other feedback you have at this stage.
1228	Really hope the plans go ahead, as said I believe this would be a great attraction for the UK.	Please share any other feedback you have at this stage.
1252	I cannot support this project enough! A world class theme park resort brand coming to the UK would be simply amazing. Following the presentation at the local college, I have no doubts that Universal will ensure an environmentally friendly approach, which becomes more important every day. The job and business opportunities for UK industries is also a huge benefit why this should go ahead. I eagerly await more positive news in the not too distant future. Leigh.	Please share any other feedback you have at this stage.
1275	I'm very excited for this project and I think the UK really needs and wants this to happen	Please share any other feedback you have at this stage.
1281	I think the uk needs this to put us back on the map	Please share any other feedback you have at this stage.
5315	I think it will bring great opportunities for local people	Would you support a potential park and resort coming to this site? Please explain why.
5159	I think it will only bring positives to our town. I haven't met anyone that is against the site	Would you support a potential park and resort coming to this site? Please explain why.
5436	I think it would be an exciting opportunity for the area and will bring prosperity to the area as long as it is properly managed in relation to transport and pollution.	Would you support a potential park and resort coming to this site? Please explain why.
5009	I think the job opportunity's would be great	Would you support a potential park and resort coming to this site? Please explain why.
5421	I think the site is ideal for such a great opportunity, and the benefits to the local community are immeasurable	Would you support a potential park and resort coming to this site? Please explain why.
5442	I think this is a fantastic opportunity for the area.	Would you support a potential park and resort coming to this site? Please explain why.

5257	I think your main reasons of the site being very accessible, not just for most people within the U.K but also mainland Europe via Luton Airport and potentially great railway links to and from London is huge. Also the fact that you support local communities and care about the infrastructure puts local minds at ease. Supporting local charities such as Keech Hospice, that are close to my heart, would be great. I know personally already that I would love to work at your new theme park. And lastly even if I didn't get a job I'm sure I would visit this theme park several times a year. It would be great to have a world class resort on my doorstep.	Would you support a potential park and resort coming to this site? Please explain why.	
5380	I would love to visit often as Florida is a long trip that is expensive and not great for the environment. I would also love a job at your park - I'm happy to relocate.	Would you support a potential park and resort coming to this site? Please explain why.	
5313	I would very much like to see more job opportunities and creating a reason for the local community to stay and not move to London.	Would you support a potential park and resort coming to this site? Please explain why.	
5359	I'm not local, but as a theme park fan it would be a big incentive to visit and explore the area when visiting the theme park.	Would you support a potential park and resort coming to this site? Please explain why.	
5221	Improved transport links and road infrastructure. The hope that facilities such as bars and restaurants are built that could be used by local residents such as myself. I also think the development may increase property prices.	Would you support a potential park and resort coming to this site? Please explain why.	
1365	I really do hope this development goes ahead. I understand alot of people may raise concerns about it. Although I remain hopeful for all concerns to be easily amended regarding the development. This could have huge potential for the country as well as the county and I believe that most people really are excited for this to happen.	Please share any other feedback you have at this stage.	
1435	This would be a positive and important project for the UK and everyone should support this.	Please share any other feedback you have at this stage.	
1438	I think its really exciting and something the uk theme park scene really needs to disrupt the monopoly of Merlin entertainment putting out the bare minimum. Universal is one of my favourite parks when I go to Florida and to have something close by I can visit more than once a year is incredibly enticing	Please share any other feedback you have at this stage.	
998	Am desperately hoping you decide to go ahead with this project as it would be the most exciting thing to happen to the leisure industry in this country ever. We lost out to Paris when Disney opened their Europe park and hoping it's our turn this time! Ps please include a Harry Potter area!	Please share any other feedback you have at this stage.	
1312	Bedford and England would benefit hugely from this project. Bedford needs more places for families to have fun and people to visit that does not only offer the typical drinking 'pub' culture of England. Universal studios could bring some of American's leisure culture with pinterest-esque seasonal decoration and events for Valentine's, St Patricks, Easter, summer, Halloween and Christmas, making it a highly-frequented destination for local residents and people from out of town.	Please share any other feedback you have at this stage.	
1330	Very excited and I think it is a positive for both the local area and UK	Please share any other feedback you have at this stage.	
1490	For so many reasons Universal UK is a major uplift to the country. Please build your next park here!	Please share any other feedback you have at this stage.	
1500	Bringing a universal theme park to the UK will bring massive employment and tourism benefits to the UK. The proposed site is perfect for sustainable travel links. I personally would get the train to the site. Having visited universal Orlando on many occasions, I know the people of Britain would be blown away with the detail, care, world class rides and hospitality universal provide which is nothing like we have in the UK so far. Personally I would actively look to be involved with the operations at universal, mainly in providing medical care. I really cannot see any negatives to this project and wish it the best of luck for its future.	Please share any other feedback you have at this stage.	
1523	What an exciting and unexpected proposal this is for the UK, and for Europe as a whole. Here's hoping this all goes ahead! All the best.	Please share any other feedback you have at this stage.	
1588	Really hoping that this goes ahead. It's just what the UK needs and as a frequent visitor to the Orlando resort, I have total confidence that the Universal team can deliver on this project and give the UK economy a much needed boost.	Please share any other feedback you have at this stage.	
1599	This needs to happen to help the U.K. in so many ways	Please share any other feedback you have at this stage.	

1631	The UK needs a world-class attraction that competes with the likes of the US and Europe. For too long, our main attractions have been predominantly owned by one company: leading to a monopoly that is bad for the market and the consumer. The UK has simply never had a theme park on the same quality or scale as those in Orlando, and the demand for such a project is definitely there. This can only be a good thing for turbo boosting not just the economy of the local area but also contribute to the UK overall as a holiday destination.	Please share any other feedback you have at this stage.	
1635	The uk has show much history, huge links to the film industry so it makes it ideal for your story telling and experiences to be built here in the UK.	Please share any other feedback you have at this stage.	
1686	Please please build this!!! It would boost the uk economy	Please share any other feedback you have at this stage.	
1696	Everyone I have talked to and have seen online everyone is really positive about this and the things it could do to the uk economy and just the fun factor so I really hope this goes ahead	Please share any other feedback you have at this stage.	
1708	This would be amazing for the uk please build it	Please share any other feedback you have at this stage.	
1709	I am really excited for this development, The UK has never had such investment. I cannot wait	Please share any other feedback you have at this stage.	
1715	Overall I think this only has positives for Bedford and the UK. The economy, environment, local and national communities, the tourism industry will all see monumental growth and improvements. The UK needs and deserves a major resort from a company like Universal. It would be extremely successful and would change European tourism forever. Please go ahead with this.	Please share any other feedback you have at this stage.	
1758	I hope this project can come to formation for Yaz in the UK. We have had a lack of theme parks and quality and entertainment products in this country. I wish you the very best of luck with your project and hope that we see something like this in the UK soon.	Please share any other feedback you have at this stage.	
1764	Just really hoping that the plan gets the go ahead and the UK gets it's own Universal resort - enabling many to make happy memories	Please share any other feedback you have at this stage.	
1768	I just think it's an amazing idea as some people in the uk are unable to enjoy the other resorts around the world so having one in the uk and Europe would 1) benefits you business 2) improve mental and physical health 3) make the uk abit more eco friendly 4) offer new opportunities for the younger generation when it comes to jobs and work experience	Please share any other feedback you have at this stage.	
1810	I hope you go ahead with this we need more jobs in the uk	Please share any other feedback you have at this stage.	
4661	Thank you for considering the uk as a location for another resort and growing our Uk theme park industry. Within the Uk theme park community the excitement for this project is very high and I believe all are happy if it would go ahead. Me personally I cannot wait to track its progress over the next decade or so.	Please share any other feedback you have at this stage.	
4463	I really hope this goes ahead, it'll be fantastic for the local communities as well as the UK economy.	Please share any other feedback you have at this stage.	
4459	Looking forward to hopefully having a major theme park in the UK such as yourselves. This has been a positive overall step which will help the UK and the local area immensely.	Please share any other feedback you have at this stage.	
4445	I just really hope this gets movement and proceeds. Having a Universal Theme Park and Resort in the UK will be the biggest thing to happen in our entertainment industry, arguably ever. Thank you for the consideration.	Please share any other feedback you have at this stage.	
4405	Please bring this investment and opportunity for Bedford and the UK forward. We need good news and foreign business investment, the direct and indirect jobs would be huge and enable Bedford to enter a select club of cities / towns with such a resort.	Please share any other feedback you have at this stage.	
4401	Feel this is an excellent idea and one I hope is actually delivered to benefit Bedford and the UK.	Please share any other feedback you have at this stage.	
4422	This park may help save the economy by increasing tourism Thank you corporate overlords	Please share any other feedback you have at this stage.	
4290	I would just say I really support the project. I think we really need it for the uk economy and I think it's going to benefit us a lot	Please share any other feedback you have at this stage.	
4239	Just that I pray to everything holy that you decide to go ahead with building the resort here, not only for me and for everyone in the U.K but personally, the possibility of having a future family we can bring to your resort that would be 20 minutes away is incredible. Many thanks.	Please share any other feedback you have at this stage.	

4215	WoW !! What an adventure for millions of uk park visitors and from around the world. We are now in the spotlight to create something so unique and awesome and amazing. Universal you deliver on park excellence and creating memories and we in the UK love the opportunity to really show the world that hey , cmon over come and see the world's greatest theme park and resort here in the United Kingdom.	Please share any other feedback you have at this stage.
4141	This is a fantastic opportunity for our local area and for the UK. I would be in favour of this development. My only 2 questions are, 1) Will there be multiple entrance points to access the park? I live in Stewartby and it would be nice to be able to access the new park on foot and not need to drive round to the main entrance. And 2) will local residents be given any compensations such as tickets or similar?	Please share any other feedback you have at this stage.
4062	We think this is a huge boost for the UK, to have a major Theme Park that we would normally have to travel abroad for. It will no doubt be a huge boost to the local and UK economy. My wife and I both really hope this becomes a reality.	Please share any other feedback you have at this stage.
4052	This is an amazing opportunity for not only the UK but also Universal. Please go ahead with this, it is backed by not only the UK but also Europe as it will be a park with such easy access across many countries.	Please share any other feedback you have at this stage.
3891	This is a most exciting opportunity for Bedfordshire and indeed for the whole of the UK. It has the potential to fundamentally change the local infrastructure - which I'm sure the majority of my local neighbours would agree is long overdue. This is a beautiful part of the country with plenty of pretty villages and towns. I don't believe a development such as this will compromise the local landscape at all - I have read your proposal in detail and in particular the landscaping / noise minimisation plans, which have the benefit of drawing on experience of your other parks around the world. I have utmost confidence in Universal being able to deliver everything being promised. The positive impact this will have on the local area for decades to come makes me very excited for my family and the local area.	Please share any other feedback you have at this stage.
3880	I am wholeheartedly in favor of this project and believe it holds immense potential to positively transform Bedford and contribute significantly to the UK economy. The prospect of creating thousands of new jobs, driving footfall to local businesses, and catalyzing infrastructure improvements is incredibly promising. I am eager to see how this endeavor unfolds and am committed to supporting its success every step of the way.	Please share any other feedback you have at this stage.
3839	This is a welcome opportunity for the UK	Please share any other feedback you have at this stage.
3667	My only feedback is that I am extremely excited about this project - ever since hearing about this I have not been able to contain my excitement if it goes ahead it will be the event of the century for the UK!	Please share any other feedback you have at this stage.
3663	I really think this would be a massive success for the area,the UK & Universal. Please please please make it happen.	Please share any other feedback you have at this stage.
3662	Please do not let us down. Please allow this park to be built and invest in the uk. P.s you better build hogwarts for the uk!	Please share any other feedback you have at this stage.
3624	This would be great for the UK, please build it!	Please share any other feedback you have at this stage.
3610	Please build this Park, this would be truly fantastic for the people of the UK and great for your portfolio of Theme Park assets.	Please share any other feedback you have at this stage.
3604	I really hope that you go ahead and build Universal Great Britain . It would bring so many amazing opportunities and possibilities for the UK and would give a lot of people who cannot afford to go to one of your other theme parks an opportunity to visit your exceptional theme parks and resorts .	Please share any other feedback you have at this stage.
3601	Love the idea to build a park, can't wait for this to happen. The UK is in dire need of a premier attraction like this	Please share any other feedback you have at this stage.
4455	Like I said I want it built and bring the UK back on the map in the industry and healthy competition to the other parks in the UK (I know Merlin will kick up a stink) but they also need to up their game in the industry so would benefit all around namely the guests who goes to park and the local community and the knock on affects for businesses all around Kempston Hardwick and Bedford.	Please share any other feedback you have at this stage.
4446	This is such an exciting opportunity for not only Bedfordshire but the UK and also Europe. There would be nothing like it and it would attract families from far and wide. Feel really positive about the infrastructure of the rail and road networks that support the project. The location is A+.	Please share any other feedback you have at this stage.
3552	I'm excited to see where this project goes, as it brings a Universal park to the doorstep of many who can't afford to travel to a Universal park abroad, but it would also bring in tourists to a new area of the UK too.	Please share any other feedback you have at this stage.

3551	I find it really exciting and amazed that Universal have chosen the UK as a European location. They have considered everything with this project from creating jobs, to supporting local communities, boosting the UK economy and protecting the surrounding environment. I would love to see Universal be given the green light to start on construction on what is set out to be a game changer in the UK theme park industry.	Please share any other feedback you have at this stage.
3550	Would really love to see this project go ahead. Universal theme parks and resorts is a global name in the theme park industry, so not only would the local and surrounding areas benefit from this project but travel and tourism as a whole in the UK would increase as a park of your scale would attract visitors from all over the world. Looking forward to see what the future holds for this project!	Please share any other feedback you have at this stage.
3440	This is a very exciting project for the UK and I would very much welcome this development to happen	Please share any other feedback you have at this stage.
3273	Fully support this application. It's great for Bedford and the UK. The fact it's not in London is also a positive but it's close enough to London St Pancras to attract Euro Tunnel visitors and those flying in from overseas.	Please share any other feedback you have at this stage.
1115	This would be amazing for the UK if it goes ahead!! A Harry Potter, Mario and DreamWorks area ðŸ™™ ÆðŸ™™ ÆðŸ™™	Please share any other feedback you have at this stage.
1219	Universal builds the best theme park resorts in the world so this is a fantastic opportunity for the UK and Bedford. I think it's also an amazing opportunity for Universal to continue to build its portfolio, especially helping to reinforce UK originating brands like Harry Potter. It would be truly amazing if you could get on a themed train from St Pancras (next to the real Kings Cross!) to Bedford and end up at Hogwarts. Like in Orlando but for real!	Please share any other feedback you have at this stage.
1223	Having visited your parks in Florida, California, and Australia, I can genuinely say that a resort near London of that quality and scale would be a game changer, and would seriously increase domestic tourism as well as, to a lesser extent, international tourism.	Please share any other feedback you have at this stage.
1178	A major theme park in the UK should be paramount for entertainment and enjoyment and bringing people into the local area	Please share any other feedback you have at this stage.
1491	I would heavily support this resort and believe it is a great location for it. The train station is only around 30 minutes from London and would be accessible to so many families across the UK and Europe. Creating loads of jobs for the local community would be fantastic for Bedford as well. My family and I are a big fan of the Universal parks around the world, and you can't describe the happiness visiting one of these parks feels like. Not everyone in the UK is fortunate enough to be able to afford to go abroad, so having this on their doorstep would change soo many peoples lives. Therefore, this would not only help the morale of the local community, but the overall morale of the country.	Please share any other feedback you have at this stage.
1533	I am looking forward to hearing about the next stages of the project. I think this is a fantastic opportunity for Great Britain and the people who live here. Very exciting times ahead.	Please share any other feedback you have at this stage.
1559	I really hope this does happen. It will be great for careers, tourism and the UK as a whole.	Please share any other feedback you have at this stage.
1669	The UK is crying out for a company like Universal to construct a project like this on our shores. The theme park industry is massively supported by UK residents, with Alton Towers, Thorpe Park etc. The figures show over 800,000 visitors from the UK go to Universal in Orlando, if there's one on our doorstep, then i would imagine that the majority of those numbers will visit the UK resort. Lets get this on, please please bring UniversalResort to the UK, you won't regret it!!	Please share any other feedback you have at this stage.
1718	I really hope this happens. It would be fantastic for England in general, would be great for the area and the UK in general has would encourage more tourism	Please share any other feedback you have at this stage.
1763	This project has the potential to help put Great Britain back on the tourist map. After people transit to work on the train to London, the trains heading back north in the morning are empty. Fill them with the tourists and send them to the park. I would look forward to seeing how the park would develop the local natural habit. As well the parks use of water and preserving the natural bodies of water. Can't wait to see what the future holds.	Please share any other feedback you have at this stage.
1842	I want this project to go ahead so much! I think it would be a real plus to living where we do, and also feel it will be something to put the UK on the map for (from a theme park enthusiast perspective at least!)	Please share any other feedback you have at this stage.
1861	Universal Great Britain would be highly beneficial not only to the uk but other places around as well.	Please share any other feedback you have at this stage.
1866	I am excited about this project and really hope that it goes ahead. I really see it as a huge boost for the UK and its future.	Please share any other feedback you have at this stage.

1903	Please please please go ahead. The UK needs this!	Please share any other feedback you have at this stage.
1930	I think this is without a doubt the best thing that could happen in the UK....a package of fabulous fun on our door step....thanks you	Please share any other feedback you have at this stage.
1940	Really hoping universal get the green light as this would be so fantastic for the UK.	Please share any other feedback you have at this stage.
1948	Extremely happy for this project to be brought to the UK and hoping that it will go forward bringing the UK to the world theme park stage.	Please share any other feedback you have at this stage.
1999	Very excited. This will be a great successful park and amazing for the UK. Need more tourism.	Please share any other feedback you have at this stage.
2003	I feel that this project would be extremely beneficial for the United Kingdom and the local economy. I completely back this project and I'm excited to see where it goes!	Please share any other feedback you have at this stage.
2004	I think this is a fantastic opportunity for the UK and more specifically, this area. Not only will it support the local economy and jobs, but be a fantastic place to visit. I am 100% behind this.	Please share any other feedback you have at this stage.
2029	Please make this happen. Make the UK great again.	Please share any other feedback you have at this stage.
2054	A Universal theme park in the UK would bring a lot of money to the economy and also make the other British theme parks up their game to the quality that universal are known for .	Please share any other feedback you have at this stage.
2079	Fingers crossed this gets the go ahead as this would be incredible for the environment and local people!! Providing a massive boost for the economy	Please share any other feedback you have at this stage.
1052	It'll be good for the economy.	Please share any other feedback you have at this stage.
1116	A fantastic idea which hope that it goes ahead as would be an asset to the company and country	Please share any other feedback you have at this stage.
1524	As a fan and as a member of the general public, this is an incredibly exciting project and something that would bring a lot of tourism into this countries economy and I believe that this park will bring something unique and different to the UK! I also think that bringing the seasonal events over would be amazing and something that will make a Universal UK park stand out such as the Halloween Horror Nights events. There are very few halloween inspired events in the UK and they don't have the same level of immersion or quality that Halloween Horror Nights brings and yet there is certainly demand in the UK for such events.	Please share any other feedback you have at this stage.
2088	Thank you for providing a truly exciting project for Great Britain and what a truly is am amazing & exciting time for the community.	Please share any other feedback you have at this stage.
2089	Just to reiterate, it will be fantastic for the UK to have Universal sited here. For people who have not visited a Universal park before, they will experience something like no other. Our theme parks here at the moment are poorly ran, expensive for what they are, in need of a refresh/general update, and having staff who are proud to work there. I do not visit theme parks here anymore since visiting the parks in the US as I have been disappointed with the experience here. But, bringing Universal here I would definitely go and keep going, and everyone I speak to who have visited the parks in the US feel the same.	Please share any other feedback you have at this stage.
2106	I would be thrilled to see a leading innovator in theme parks come to the UK and bring positive change to the way the UK theme parks work	Please share any other feedback you have at this stage.
2108	I live nearly 3 hours away and would likely travel by car. I expect to purchase a season pass and make many visits to the resort a year should it go ahead. It will be great for the economy.	Please share any other feedback you have at this stage.
2131	We hope that you have the support and help to go through with this project which would be amazing for the UK. We look forward to seeing the developments.	Please share any other feedback you have at this stage.
2156	Personally Developing a Theme Pake the size of the ones built elsewhere in the world it should be beneficial for UK citizens to have priority to this park before the rest of the world. As this will make the uk much more busier it should be fair that we enjoy this and it should not disturb our country	Please share any other feedback you have at this stage.
2165	Where can I buy my ticket! Universal resorts are fantastic and having major investment in the uk is so nice to see.	Please share any other feedback you have at this stage.
2172	The uk lacks theme parks of universal's standard. The level of theming and immersive entertainment is unmatched in this country. From a business point of view it has no competition from existing theme parks in the uk. It would also bring tourism from elsewhere in Europe.	Please share any other feedback you have at this stage.
2192	This is an exciting opportunity for the UK, not just for theme park enthusiasts but for the economy as a whole. I sincerely hope you green light this project.	Please share any other feedback you have at this stage.

2200	Please build it it is a fantastic opportunity for the present and future of the area and the UK.	Please share any other feedback you have at this stage.
2224	This will put the UK back on the map after a disastrous exit from the EU. This will be our Orlando, and the whole country is ready.	Please share any other feedback you have at this stage.
2229	This would be a great addition to the UK. I really hope it goes ahead.	Please share any other feedback you have at this stage.
2238	To echo my above statements, Universal coming to the UK has very minimal negative impacts in my personal opinion. For local residents as well as tourism, this project will benefit people and this country so much. Especially having Harry Potter as a very popular Universal IP, having Universal in England makes so much sense. I would love to see this project go ahead. This has sparked so much conversation and excitement for people not just in the UK but wider Europe also. This would be a wonderful project and I look forward to hearing future updates.	Please share any other feedback you have at this stage.
2261	as a big fan of theme parks I hope that this project gets approved as it will be great for not only the industry but the UK economy as well.	Please share any other feedback you have at this stage.
2263	I'm really excited about this project and cannot wait to see if it's goes ahead, if would also be great to have so many new job opportunities in the UK.	Please share any other feedback you have at this stage.
2276	Such an opportunity for Bedford and the UK. really hope this gets given the go, so many generations can experience the amazing world of Universal Destinations & Experiences	Please share any other feedback you have at this stage.
2290	Please make this happen for our country! Such an amazing opportunity for Bedford to be put on the map and bring an economic boost to our little island.	Please share any other feedback you have at this stage.
2299	I think this is an amazing opportunity and I truly hope this comes to fruition. This would have huge benefits to the economy, employment, Bedford, and if it goes ahead and once the resort is open, will bring joy to so many people when they get to visit. I fully support this proposal.	Please share any other feedback you have at this stage.
2301	This project is something that the U.K. has needed for years. A world class theme park and resort.	Please share any other feedback you have at this stage.
2475	I think it's great and would be the shining light of excitement that the UK needs	Please share any other feedback you have at this stage.
2476	We hope you proceed with this project it would be an incredible opportunity for people living in the UK to experience the magic of Universal!	Please share any other feedback you have at this stage.
2565	Please build your park, we need something like this in the UK. Obviously have to have Harry Potter rides and the Monster section you are currently building would be epic here!!	Please share any other feedback you have at this stage.
2735	I really hope this goes ahead. The UK is very uncompetitive within the theme park industry and we lack a great theme park, with amazing experiences and immersion. It would be greatly received, and personally, I feel this is something which the UK needs	Please share any other feedback you have at this stage.
2762	I think this park is a fantastic idea and would be a great benefit to the UK and local area. I wish you all the best.	Please share any other feedback you have at this stage.
2892	Very supportive of this project. Good for Universal, good for Britain, good for the British people, good for the local economy.	Please share any other feedback you have at this stage.
2885	I am from Milton Keynes, and only about a 20-minute drive from the potential theme park. I am overwhelmingly excited at the prospect of a Universal theme park being built near my home. This would be an absolute game changer for the UK entertainment landscape, as well as for Europe.	Please share any other feedback you have at this stage.
2870	The UK needs this project. As a theme park nut, I approve of every aspect of this project. Having filled in this form and read the things you would like to do to mitigate common issues with large infrastructure projects, I feel confident that this project will be awesome.	Please share any other feedback you have at this stage.
2879	I truly believe that the UK has been waiting for an amazing opportunity to bring some fun into the community. What with the previous whispers of a Disney Park, I feel it is something that not only would bring happiness but thousands of jobs, a drive for income within the local economy, and a reason for not only Bedford but the entire of the UK to visit an area that they previously may not have given a second thought to. I am excited to keep up to date with the following information on the park and can personally say I for one would be over the moon with confirmation of the park coming to fruition.	Please share any other feedback you have at this stage.
4380	As a local resident I have had a small light of hope in our country's future ignited by the initial announcement of this project and hope that this once in a lifetime opportunity will be the catalyst to create the future for our community and generations to come. I wish the team the best of luck with this project and hope to bring my family to the resort in the not too distant future.	Please share any other feedback you have at this stage.

4745	This is not just going to have a major investment for Bedford, but further afield as companies such as Merlin Group look to increase further investment in parks such as Alton Towers, Thorpe park etc which also ensure Universal continue to invest and grow so it is a win win situation because this investment also benefits the UK economy,	Please share any other feedback you have at this stage.
3492	It would be amazing if it does go ahead not just for the uk but for Europe as well	Please share any other feedback you have at this stage.
3493	If it goes ahead it will must likely be a huge success for the local area, the uk and universal studios as a whole	Please share any other feedback you have at this stage.
1261	I am submitting this feedback, not as someone living in the UK, but as a potential guest from another country. I live in Belgium, I am a big Disney fan and I run also a successful Disney fan account about Disneyland Paris. As a result, I have already been to Orlando several times and also discovered Universal Orlando, and in September 2023 I have also visited Universal in Hollywood. I have been waiting for Universal to come to Europe for years, I always thought that Universal would come to France to compete with Disneyland Paris and create a similar situation as in Orlando. But to my surprise, the UK seems to be the country of choice. And I wondered if the aspects below had been discussed in this choice. - The UK is no longer in Europe, which makes it a little more difficult for Europeans from the mainland to travel to the UK because you have to leave Europe. - In the UK they don't use the EURO to pay. Europeans are no longer used to changing money in the bank for a short trip. That is again a barrier to come to visit the Resort. - Since the UK is an island, the travel time is longer from the mainland. You always have to come by train, tunnel under the canal or plane. This makes it not so easy to come to Universal in the UK for a weekend, as many Europeans now do when they go to Disneyland Paris. - Coming by car via the tunnel is again a barrier for many Europeans, as in the UK you have to drive on the left. That is not that easy and can again be a barrier to attracting tourists from Europe. - Of course that is completely different for the people of the UK, but on the other hand they are already used to travel longer to get some where. Because everywhere they go, they have to go off the island by train, plane or dealing with the tunnel situation. These are many barriers, so many Europeans are more likely to choose Disneyland Paris (because it's easier to visit) than Universal UK. While if there had been a Universal close to Disneyland Paris, there would already be very large base of potential visitors on site and used to traveling to this area near Paris. And most of the visitors of Disneyland Paris are definitely potential visitors for a Universal Resort in Paris if it would be close to each other like in Orlando. I thought it was important that you also heard a voice from outside the UK. Kind regards,	Please share any other feedback you have at this stage.
1315	Universal UK would be a massive opportunity for the local area and the country. As a regular visitor to Orlando we appreciate the beauty and care taken with the parks, the potential benefits they bring with employment and local business opportunities. We have seen the joy the parks bring visitors of all ages. One request if granted please do a lot less 4D rides, they are awful especially for people with a wide range of health issues. I really hope the development goes ahead as its extremely exciting, i hope Universal will respect the local residents and wildlife/natural environment, not just in the development stages but in the long term.	Please share any other feedback you have at this stage.
2207	Please commence construction as soon as possible and ignore the eco freaks who pop out of the woodwork at every opportunity. I have seen your care for the environment in the USA. A Universal park would be a great asset for both the local area and Britain as a whole.	Please share any other feedback you have at this stage.
2209	This project will greatly improve job opportunity's and tourism for the UK which will be great for the economy. It's also very exciting to have a major theme park destination in the uk.	Please share any other feedback you have at this stage.
2234	I think this is one of the most exciting projects to happen in the UK for a long time and fully support the project as long as the people of Bedford are treated with respect and dignity	Please share any other feedback you have at this stage.
2340	Please make this happen, this will be incredible for everyone especially UK and Europe. Britain have been waiting for someone like Universal to bring something like this to the Uk. This will be amazing for families in the Uk and Europe. Unfortunately not everyone can afford to go America from the Uk. This will be epic.	Please share any other feedback you have at this stage.
2357	I think that this is a brilliant opportunity for the area and for the country as a whole. The disruption due to construction should be welcomed for the success and growth the area would experience upon the resort's completion.	Please share any other feedback you have at this stage.
2392	Please make this happen. There will be a few people that will be against this, doesn't listen to the hater's. This project will bring so many benefits to the UK and local area. Would be nice if local residents could get discounted tickets based on post code, similar to what Florida does. Please bring back the Back to the Future ride 8Y€	Please share any other feedback you have at this stage.

3426	Further to your comments in 8 above, this would be highly beneficial in so many ways, not only for Bedford and the surrounding area - but also the UK as a whole. The site is especially ideal to help realise this dream. Please consider using local partners to help deliver this exciting, game-changing project. Could consider extending Eurostar services to Bedford / renamed Wixams station.	Please share any other feedback you have at this stage.
3417	I fully support this project as I think it will be a real asset to the local economy and has the potential to put a UK park on a world stage.	Please share any other feedback you have at this stage.
2629	I think this has a potential to be an incredible development in the UK and also a landmark in the first full theme park and resort in the UK. I've been to the Orlando and Los Angeles locations and having something like this local would be incredible. I truly hope this does go ahead and would be a frequent visitor from day one.	Please share any other feedback you have at this stage.
3374	This project is very exciting for everyone here in the UK. It is looking bright, the area looks promising and we all hope it goes ahead!	Please share any other feedback you have at this stage.
3389	The UK has missed out on so much over the years, Disneyland Paris? Portaventura? The London Theme Park? Universal in the UK would be unbelievable, I have been to Universal in Florida and California and if something like those parks were built here, it would put the rest of the theme parks in the UK in the shade and maybe make them up their game! Here's hoping this is not another missed opportunity for the UK and this really happens, I only see this as a positive for the UK and it opening so many more doors for other projects in the future. GOOD LUCK 🍀🍀	Please share any other feedback you have at this stage.
3355	The UK has some good Theme Parks but they are nowhere near the standard, nor have the global attraction a Universal Park would offer. Having been to the Universal Parks in Orlando I know how great of an opportunity this is for the UK. I really hope the people of Bedford and surrounding area welcome this project which would really put them on the map.	Please share any other feedback you have at this stage.
3332	It would be great to see a new theme park site in the UK, especially as the theme park landscape in the UK is dominated by the Merlin Entertainment Group (Alton Towers, Thorpe Park etc). It would be nice to see more theming as, in my opinion, the parks I mentioned lack it.	Please share any other feedback you have at this stage.
3284	I am very excited about the prospect of a Universal Park within the UK. I was very disappointed that Disney chose Paris over the UK and have never felt as welcomed there as in Florida. I think the British people would make it spectacular!	Please share any other feedback you have at this stage.
3219	doesn't delay, will always be some valid local issues but Bedford needs the economic benefits and the whole of the UK need such a valued brand of Theme Park arriving, Alton Towers and Thorpe Park do not offer the attraction types you do and this will be the number 1 attraction without a doubt.	Please share any other feedback you have at this stage.
3032	Just to say that I feel this would be a very positive addition to the UK.	Please share any other feedback you have at this stage.
2380	I'm incredibly excited by this opportunity and feel it has the chance to become the best theme park attraction in the UK. My only worries will be more due to the potential bad customer experiences that can come with that such as overcrowding in the parks, long wait times and expensive tickets. The parks in the US don't feel like they experience this problem but theme parks in the UK often feel that they suffer from overcrowding and long wait times because of this.	Please share any other feedback you have at this stage.
1732	If, this project goes ahead; please doesn't capitalise the current theme park industry we already have in this country.	Please share any other feedback you have at this stage.
2999	Please bring a top class Universal Studios resort to the UK. I have visited your Florida and Japan park / parks and this investment would give the UK much needed improvements to its appearance and its infrastructure.	Please share any other feedback you have at this stage.
2990	Very excited about this prospect - best thing to happen to the UK for ages - I wish you every success with the park and I will certainly be visiting when it opens.	Please share any other feedback you have at this stage.
2989	That's a very ambitious with a potentially highly prospective project with a vast impact for the county's economy and fame, a vast amount of talents and resources are due to be engaged in it once it is to be started. GODSPEED	Please share any other feedback you have at this stage.
5669	A new theme park would be great. It's too costly to go overseas and it would be nice to have this kind of investment in the UK. The only concern I have is the current toxicity of the Harry Potter brand. While I suspect having a UK-based Harry Potter theme park in addition to the studio tour would be strong, I would also be worried that people may use this as an excuse for anti-LGBTQ+ activity (it's not a brand I engage with currently due to this). I would suggest you think about how the park design could integrate individual cubicles, or gender-neutral spaces as well as making sure if you really must include Harry Potter you keep people safe and don't back-bitch.	Please share any other feedback you have at this stage.

6022	All that I can say is that I really hope this Resort goes ahead As the UK really needs it.	Please share any other feedback you have at this stage.
5665	As a professional engineer in the utility sector, I am familiar with many aspects of the problems you are inevitably going to run into dealing with UK Law! Nonetheless, I strongly believe this proposal is one of the most exciting investments I have heard of coming to the UK for the best part of three decades. The opportunity and benefits are enormous, and I was absolutely thrilled to hear the proposals coming together. I am not a religious type; but on this particular subject, I might just say a little prayer or two that it might happen. Thank you for your time!	Please share any other feedback you have at this stage.
5990	As a theme park enthusiast I believe the UK has needed something like this for some time. And if the project is organised with care I believe it will be very successful.	Please share any other feedback you have at this stage.
5487	i feel like this project would be a massive success in the UK that only a company such as Universal could bring to the country. I have Visited the Orlando parks on a multitude of occasions and sen first hand the boost to an economy it can have. A resort like this is what the people of the UK have been calling for for years with other projects failing due to lack of research into area or other aspects. it is clear to the local residents and wider Uk population you are taking your time and doing your due diligence with this project which is why it has had such a Universal positive overview by the country. This project is just what the country needs. Thank you for even considering this project	Please share any other feedback you have at this stage.
5986	I hope this goes ahead, would make the UK a much more exciting place to live	Please share any other feedback you have at this stage.
5747	I hope universal go ahead I think it would not only be good for the whole of the UK in the short term but also in the long term I think most would welcome the project.	Please share any other feedback you have at this stage.
5805	No other feedback, just to say that if universal decide to go ahead with the park it will be a huge boost to the UK economy and I have no doubt that it will be a huge success.	Please share any other feedback you have at this stage.
5654	It will be a great asset for the area and the country	Please share any other feedback you have at this stage.
2117	The U.K. has so much scope to introduce a new Theme Park, tourism is a huge draw and to have an Internationally renowned business invest would be another stepping stone to really show what the U.K. has to offer.	Would you support a potential park and resort coming to this site? Please explain why.
1597	The UK desperately needs a decent theme park, especially in the central location. We certainly could do with an economic boost from tourism and greater employment opportunities. Years ago we were promised â€˜Wonder World' in Northamptonshire. I remember as a small child seeing signs on the land which had been purchased.The theme park never materialised. Please doesn'tput me through disappointment again 45 years or so on! I would love to be enjoying all that your resort would have to offer.	Would you support a potential park and resort coming to this site? Please explain why.
2142	The UK does not have a heavily themed major park and would see it as a good investment for the UK tourism industry. Not just with international visitors ie Europe but within the UK as I would see a Universal park being the main park / crown jewel of the UK theme park industry opening up opportunities for the local community not just in employment in the park itself but outside of the park. Local hotels/guest houses would see an increase and local shops as people stop for snacks, souvenirs etc on their way through to or away from the park. I could see this as being a push for other UK parks to increase the theming and interactivity of their parks giving more choice to UK park goers moving forward in the long term as they push to compete with Universal.	Would you support a potential park and resort coming to this site? Please explain why.
2908	The UK does not have a strong offer in this industry, so I believe there is a great opportunity for Universal to exploit this opportunity. Europe does not have a Universal resort currently, a new one in Bedford would be ideal to capture a substantial slice of the market. Bedford is close to London, so it could benefit from international tourism going to the capital. The local community would be very supportive of such a park It's exciting!	Would you support a potential park and resort coming to this site? Please explain why.
200	The UK doesn't have a substantial tourist attraction like it. The midlands is particularly barren in this regard. Universal have an established reputation for creating high quality theme parks which would likely attract international as well as local tourism.	Would you support a potential park and resort coming to this site? Please explain why.
2490	The uk economy would massively benefit also new attraction and tourism for the local area, but also to expand on the competitive nature with already existing parks	Would you support a potential park and resort coming to this site? Please explain why.

1390	The UK has a big Theme Park fan base i.e roller coasters etc. I have been to the one in Florida with my wife, we found it out of this world for themes and rides. The UK not just Bedford would benefit regarding economy and tourism. I know family/friends who are fans of Universal films, but can't afford to go to the US, but 100% would go and have said this already when I told them about a possible Universal Studios Great Britain.	Would you support a potential park and resort coming to this site? Please explain why.
1715	The UK is a honeypot for tourism as it is already. However, with this new resort it would make the country even stronger. The resort could benefit from the tourist already coming, whilst the UK would benefit from tourism created directly by the Resort. I would also be supportive of this as it would open up Universal resorts up to the people of Europe and the UK who cannot afford to travel to USA or Asia. Also it would make the current resorts in the UK improve their own parks and offerings. Finally creating much needed competition. Something that can be seen in Florida	Would you support a potential park and resort coming to this site? Please explain why.
1841	The UK is far behind on world-class theme parks, and an operator like Universal will help to bring legitimacy to our tourism offerings and encourage more effort and investment from our main UK park's operator Merlin Entertainment. Plus, the UK economy will do very well to have a draw like Universal Studios Great Britain in it, and we need that economic push badly right now	Would you support a potential park and resort coming to this site? Please explain why.
2448	The UK is in desperate need of a theme park on this scale. Not only would this be beneficial to Bedford but to the wider population of the UK. Not everyone is fortunate enough to be able to afford holidays to Florida, so this would be a fantastic addition to UK tourism. I'm following this news with great excitement and anticipation. I really hope we get a positive outcome. Things like this doesn't happen in the UK. We never get this lucky so it would be amazing. .	Would you support a potential park and resort coming to this site? Please explain why.
4187	The UK is in need of a major tourist entertainment attraction. Although in general we already have multiple tourist attractions across the country, we are lacking anything on the scale of a universal theme park. This could work as a centrepiece, and also force other attractions to compete rather than be complacent as they currently are. With this, UK tourism could see a renewal with sectors across the UK benefiting from fresh competition as well as a wave of tourists coming to experience it.	Would you support a potential park and resort coming to this site? Please explain why.
3486	The UK is lacking behind the rest of the world for a world class all year round Theme park and the benefits it will bring to the UK economy and other tourism sites is massive	Would you support a potential park and resort coming to this site? Please explain why.
4475	The UK is yet to have a park on the scale of the Universal brand. I believe the area of land acquired is substantial and will bring more tourism into this sector of the UK. Furthermore, creating ample work opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
382	The UK lacks a large-scale immersively themed attraction. This potential resort would deliver an experience not found anywhere else in the country, and bring tourism to an area of the country that otherwise is looked over. I am 100% in support of the potential project and hope it becomes a success story if it proceeds.	Would you support a potential park and resort coming to this site? Please explain why.
1199	The UK needs a major theme park resort experience to drive tourism and boost the economy. A resort of this scale would be good for the local area and the country as a whole and would also have beneficial knock on impacts, such as increased competition within the theme park sector driving improvements across the board.	Would you support a potential park and resort coming to this site? Please explain why.
3797	The UK needs a world class theme park and it can help the economy, tourism, enhance transport and can be done in a top class sustainable and environmentally aware fashion.	Would you support a potential park and resort coming to this site? Please explain why.
1558	The UK needs additional tourism away from London, and if it's something we doesn't already have then all the better. Theme parks are an amazing day out for families of all ages - this could be something that people continue to visit to many, many years.	Would you support a potential park and resort coming to this site? Please explain why.
2165	The UK needs investment, excitement and tourism this ticks all the boxes	Would you support a potential park and resort coming to this site? Please explain why.
1709	The UK needs this investment. Many of us cannot afford to visit theme parks abroad. It would greatly improve tourism. I personally would love visit multiple times with my family	Would you support a potential park and resort coming to this site? Please explain why.
1699	The UK needs this investment. The amount of tourism this would bring to the area and UK in general is a huge potential. People travel outside of the UK year on year, this project will promote people to stay in the UK and spend money on the site and in local hotels/shops, keeping money within the UK. The conservative government use the phrase "build back better" - this project supports the statement. The job opportunities for people here are phenomenal, this could drive unemployment rates down. Universal should engage with job centres to promote people into work.	Would you support a potential park and resort coming to this site? Please explain why.
1703	The UK needs this park for local and international tourism. There are so many people that say they would love to go to a Universal Park but can't afford to travel to one. The UK is desperate for a top tier theme park and resort.	Would you support a potential park and resort coming to this site? Please explain why.

2761	The UK theme park community and economy is slipping not only would this boost the economy it would push other parks to up their game creating more tourism and overall better for everyone. BTW please please please make a hybrid coaster by RMC. C:	Would you support a potential park and resort coming to this site? Please explain why.
878	The UK tourism industry has long been in need of something large-scale, forward thinking, and cutting edge. I feel like a project such as this could benefit UK residents in so many different ways.	Would you support a potential park and resort coming to this site? Please explain why.
882	The UK would benefit massively from a project such as this. We do have a number of theme parks around the country, but nothing on the scale of what is being proposed. The location is excellent for the majority of the UK itself and Europe, and I can see such a park bringing in more tourism to the whole UK from other countries.	Would you support a potential park and resort coming to this site? Please explain why.
1756	This is a fantastic addition not only to Bedford but for the United Kingdom. Furthermore, the site will allow many people from UK/Europe who are unable to reach some of your overseas resorts and experience Universal, right here in the UK. The one hour train ride from UK would boost tourism and allow those visiting the capital an easy commute to experience Universal as part of thier trip. I am based in the North East of England, and and would travel to experience Universal.	Would you support a potential park and resort coming to this site? Please explain why.
5521	I think this project is very exciting for the UK theme park industry, with the potential of new rollercoaster and themed experience that would be world class. I would like to see world class coasters like the Velocicoaster and Hagrid's Motorbike Ride. I would love to see some musicles themed areas or attraction based on the Les Miserables and Wicked movies.	Please share any other feedback you have at this stage.
5645	I think this will be brilliant for the country, I've visited Universal in Florida several times, it's truly amazing & this will give families (who perhaps cannot afford to go abroad) the chance to experience something magical	Please share any other feedback you have at this stage.
5658	Positive development for the local area & the UK.	Please share any other feedback you have at this stage.
5694	The UK needs this	Please share any other feedback you have at this stage.
6074	The UK would benefit from a significant brand of theme park and attraction that Universal could bring to the UK. Personally, our parks and attractions in this country significantly lack in class and wonder compared to Universal Parks we have visited a lot in Orlando, Florida. Maybe even an indoor water park might be something quite spectacular to include like Volcano Bay.	Please share any other feedback you have at this stage.
5556	the hole of UK would benefit of a new theme park	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5549	Global impact of the brand, and impact it may have on further travel to the region	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5657	We think it's a wonderful plan and are really excited that we may have a Universal Resort in this country. It will so good for the economy, as both UK citizens tourist will make the trip especially for the resort. Also, keep the American standards for the hotels and rooms.	Please share any other feedback you have at this stage.
6039	To get an immersive experience that is not here in the uk.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
6006	Haveing a unerveal in the uk will be exerlent some people out there dont want or cant go abroad to other countrys and i think this is a brilliant idea im a lover of these parks just as much as merlin but this is a big step to to make the uk a much more of a brilliant representation	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
914	The UK needs a new player in the theme park space to help shake things up,the usual names have had the monopoly for too long	Please share any other feedback you have at this stage.
4110	the uk needs a new theme park	Please share any other feedback you have at this stage.
771	The UK needs a new theme park and universal are the best	Please share any other feedback you have at this stage.
1448	The UK needs a resort of this scale. Currently Merlin pretty much have a monopoly and some healthy competition is definitely needed. Also the economic boost and opportunities Universal could bring are huge.	Please share any other feedback you have at this stage.
3597	The uk needs a top attraction and resort hotel complex, it would smash Merlin entertainment out of the water and would be loved by all no doubt	Please share any other feedback you have at this stage.

2277	The UK needs a Universal Park. People will happily travel.	Please share any other feedback you have at this stage.	
4805	The UK needs a world class attraction/resort	Please share any other feedback you have at this stage.	
3753	The UK needs a world class development like this	Please share any other feedback you have at this stage.	
434	The uk needs a world class theme park	Please share any other feedback you have at this stage.	
2308	The uk needs a world class theme park and the economic benefits	Please share any other feedback you have at this stage.	
3711	The UK needs an excellent theme park and resort - Universal are the ones that can do it!	Please share any other feedback you have at this stage.	
1140	The UK needs another theme park - it would be great to have some new competition in this area and not just Thorpe Park/Alton Towers. There is no Universal park in Europe, and not many Europeans can make the trip to the USA.	Please share any other feedback you have at this stage.	
469	The uk needs another theme park what does something different	Would you support a potential park and resort coming to this site? Please explain why.	
676	The UK needs better parks and entertainment given the state of a lot of the current ones and the seasonality of them etc.. Universal is an amazing company with so much to offer in terms of entertainment and excitement.	Would you support a potential park and resort coming to this site? Please explain why.	
1799	The UK needs it!	Would you support a potential park and resort coming to this site? Please explain why.	
1912	The UK needs a Universal UK Studios I think. Harry Potter / other films / TV history etc. Paris has Disney. London / Bedford needs Universal as a counter-balance maybe. I respect and admire the Universal Studios brand name and really hope that a theme park can be built in the UK. Good Luck! Thanks. :)	Would you support a potential park and resort coming to this site? Please explain why.	
3595	The UK as a whole would benefit greatly from this project not only through the employment opportunities but also as a huge attraction that would make it worth visiting the area for many more people.	Would you support a potential park and resort coming to this site? Please explain why.	
1786	The UK badly needs it a resort of this scale it would offer a proper world class theme park experience that UK theme park goers can't get without leaving the country. (Definitely a yes from us we would love to see it built.) Very exciting job opportunities as well.	Would you support a potential park and resort coming to this site? Please explain why.	
1861	The uk could greatly benefit from a full scale theme park. It is certainly in the attraction and movie making industries where our economy has the most growth at present.	Would you support a potential park and resort coming to this site? Please explain why.	
1430	The UK deserves a decent park, we need to travel to mainland Europe to get to a decent theme park. The UK is the perfect place for a Universal resort	Would you support a potential park and resort coming to this site? Please explain why.	
636	The UK deserves a great world class theme park resort and Bedford is a great central location for the whole country and beyond to enjoy. Also we have a sizeable film and TV industry that could be incorporated into the resort such as properties like Harry Potter	Would you support a potential park and resort coming to this site? Please explain why.	
4744	The UK desperately needs a purpose built theme park resort. One large company (Merlin) currently has a monopoly on UK attractions, so a UK Universal park would massively increase competition which would benefit everyone.	Would you support a potential park and resort coming to this site? Please explain why.	
777	The U.K. is a country that deserve a first class theme park . I have always wondered that it has not happened before . There is only Paris , Disney in France that hold the throne in Europe , it is time to end this !	Would you support a potential park and resort coming to this site? Please explain why.	
648	The UK needs more attractions and resorts.	Would you support a potential park and resort coming to this site? Please explain why.	
2870	The UK needs more destinations like this. Thorpe Park is world class, but small and limited. Alton Towers is remote. And both are operated by the same company. Some competition is needed! And a park accessible by train like this could blow the others' accessibility out of the water. The UK is a big train travelling nation. And being on the same line that connects to St. Pancras International is a master stroke.	Would you support a potential park and resort coming to this site? Please explain why.	
3163	The uk needs more investment from abroad	Would you support a potential park and resort coming to this site? Please explain why.	
3561	The UK needs more places to wind down & have fun. This helps massively with mental health as long as its not overpriced. Remember some people have to travel for hours to get there so cost can stop visits.	Would you support a potential park and resort coming to this site? Please explain why.	

1655	The uk needs something exciting like universal and Bedford is a great accessible location local businesses would benefit from the extra footfall and improved transport links	Would you support a potential park and resort coming to this site? Please explain why.
3245	The UK needs something like this, it will spur competition and growth across the sector.	Would you support a potential park and resort coming to this site? Please explain why.
1903	The UK needs something like this. All current parks are small and doesn't offer holidays or experiences the likes of Universal or Disney offer.	Would you support a potential park and resort coming to this site? Please explain why.
2127	The UK needs strong exciting investment projects, this is one of the most exciting to have ever been announced	Would you support a potential park and resort coming to this site? Please explain why.
2628	The uk needs this	Would you support a potential park and resort coming to this site? Please explain why.
3470	the UK NEEDS this, it needs an exciting destination to visit that is unlike anything else. As a parent of a young child, with rising cost of living, I will find it increasingly difficult to take my child to places like Orlando that I have such fond memories of visiting when I was young. I want to give him that feel of wonder and excitement.	Would you support a potential park and resort coming to this site? Please explain why.
1216	The UK needs this. We need big investment and a world class theme park.	Would you support a potential park and resort coming to this site? Please explain why.
4699	The UK only has Merlin parks, whilst these provide great rides they don't care much on resort theming and doesn't have high standards to protecting nature. Furthermore a universal site will boost the UK economy in further areas, in the long run this will help with better investments into our economy	Would you support a potential park and resort coming to this site? Please explain why.
1696	The uk really needs a big boost something like this could provide and there are so many theme park fans in the uk that would also love it and people that visit the uk a lot like myself that would love it as well	Would you support a potential park and resort coming to this site? Please explain why.
4642	The UK really needs this	Would you support a potential park and resort coming to this site? Please explain why.
175	The UK theme park industry has been stagnant for many years due to Merlin Entertainments owning the monopoly of it. Due to this they have grown lazy and they offer a poor product with bad food, poor opening hours, terrible operations, lazy theming, budget cuts and badly presented parks. I feel Universal offering a much better product would be healthy to the UK theme park scene.	Would you support a potential park and resort coming to this site? Please explain why.
1664	The UK theme park market is far behind the rest of the world. To have an industry leader construct in the UK would be incredible.	Would you support a potential park and resort coming to this site? Please explain why.
1629	The UK theme park market is way below par when compared to Asia, USA and even Paris & Germany. Universals quality and IPs would eat up so much of the UK theme park fans who find themselves travelling to other countries to experience world class attractions food and shows. It's impossible for you to not be profitable when it comes to UK theme parks. Below par resorts operated by Merlin rake millions every year despite a lack of investment, upkeep or variety. Also the opportunities it would bring to employ people in the area is 100% backed by everybody!	Would you support a potential park and resort coming to this site? Please explain why.
1291	The UK theme park needs shaking up and I think a universal park in the UK would make other parks look at their offerings differently too.	Would you support a potential park and resort coming to this site? Please explain why.
757	The UK theme park scene is quite stale, the best park (Alton towers) is over 3 hours from where I live. Having a closer theme park, that is investing in the local community as well will only benefit everyone.	Would you support a potential park and resort coming to this site? Please explain why.
861	The UK theme park slate is woefully lacking - and Universal's reputation here is 2nd to none. Outside of those reasons already mentioned the creation of long term partnerships with business, colleges and universities is very symbiotic and good for all concerned.	Would you support a potential park and resort coming to this site? Please explain why.
4410	The UK would benefit a lot from a big studios theme park and it would make it easier for people who can't afford to go abroad to experience the magic	Would you support a potential park and resort coming to this site? Please explain why.
236	The UK would benefit greatly from a theme park and resort created by a company such as Universal. It would boost the economy of the area. Generate healthy competition within the UK theme park industry and provide another high quality attraction for both UK residents and tourists, which the UK is in need of.	Would you support a potential park and resort coming to this site? Please explain why.
750	The UK would not have anything like it. Traveling across seas to experience the magic of what universal can do which can be an expensive trip. Multiple trips a year would take place.	Would you support a potential park and resort coming to this site? Please explain why.
744	The UK desperately needs investment, an economic and a positivity boost, the Theme-park sector/industry has the ability to captivate like no-other and a project of this size with an internationally recognizable name in 'Universal' will provide an inspirational impact not only to the immediate economic region but the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
615	The UK desperately needs more attraction based investment, not only for the economic benefits but also the fact of that there is not enough experiential innovation (something that Universal parks are very good at), and because of this many are getting bored of living in this country.	Would you support a potential park and resort coming to this site? Please explain why.

1719	The UK does not currently have a US styled theme park, the location is very well connected and is in a central part of the UK, and would offer a unique entertainment experience that we don't currently have. This part of the Thameslink network is also sparsely used outside of peak times, and this park could utilise this capacity really well as Bedford gets a really good rail service. With Eurostar connections to mainland Europe this could also be quite attractive to those living on the continent. The economic benefits are clear and this would be a much welcome addition to the region which is in need of a bit of an economic uplift.	Would you support a potential park and resort coming to this site? Please explain why.
3348	The UK doesn't have any major theme parks like America has, finally having something like this would become a massive attraction throughout the UK and Europe.	Would you support a potential park and resort coming to this site? Please explain why.
1987	The UK doesn't yet have a world-class theme park, and there are so many fans of Universal Parks here. Bedford is a brilliant location because it's accessible to so many in the UK, and it's so close to London.	Would you support a potential park and resort coming to this site? Please explain why.
4472	The UK has 70 million people so lots of people to visit, and a world class theme park is just what the country needs, it would be a fantastic opportunity and provide multiple benefits for everyone on what is just a ugly patch of farm land	Would you support a potential park and resort coming to this site? Please explain why.
4707	The UK has a hungry audience for a good quality theme parks as we don't have any that stand up to parks in Europe or the US. I am a Theme Park fan and work in the industry and believe a Universal Great Britain will incentivise other operators to 'up their game' which will help make the UK more of a destination for international visitors which is good for the wider UK economy.	Would you support a potential park and resort coming to this site? Please explain why.
2008	The UK has been in decline for years with everything getting worse - healthcare, job opportunities, infrastructure and living standards in general all getting worse and worse year on year. The Tory government have been a complete joke and have decimated the country while they've been in power for over a decade now, with cut back after cut back and terrible decisions such as Brexit. It would be amazing for Universal to invest in the UK. It would finally be a positive thing to happen to our country and provide a massive boost in opportunities and investment in our infrastructure. I live in the north of England so it would be over 3 hours travel for me to get to Bedford, but I am a huge theme park fan and would definitely travel down to visit. It is so surreal this is even being considered! I've been to Universal Orlando twice and absolutely adore it, but it is very expensive for us in the UK to travel over to Florida so having a taste of that Universal magic on our doorstep will be incredible. Please please please keep the locals happy so they don't object, and please build Universal Great Britain!!	Would you support a potential park and resort coming to this site? Please explain why.
4240	The UK has been missing this level of immersive entertainment for a long time	Would you support a potential park and resort coming to this site? Please explain why.
2016	The UK has fallen behind with tourist attractions and especially theme parks. It would be very exciting for most people in the UK to receive a world class park and many more would love the opportunity to access a City Walk style area.	Would you support a potential park and resort coming to this site? Please explain why.
538	The UK has long been deprived of a world-class theme park such as one from Universal. I am personally a huge fan of Universal Parks across the world and the thought of being able to visit one in my own country is incredibly exciting. I also think it would push the competing parks to up their game and transform the UK theme park scene as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
4786	The UK has needed a large scale investment project within the entertainment space for a long time and this will help massively towards future investments within other UK based parks as they will need to be able to compete	Would you support a potential park and resort coming to this site? Please explain why.
2072	The UK has needed something like this for a long time. Even more so as travel abroad has become even more out of reach and people cannot visit a universal park, which I am one of those people. Me and me family would love to see a universal park here in the uk.	Would you support a potential park and resort coming to this site? Please explain why.
2335	The UK has no world class resort like this. We love going to Florida, and still will, but only every 4 or 5 years because of the cost. This will fill that gap in between, and we'd certainly get an annual pass if they are available.	Would you support a potential park and resort coming to this site? Please explain why.
276	The UK has nothing like this so far, this opportunity would be a huge boost to UK economy, and personally as a family who love florida theme parks but struggle to get there this is an extremely exciting prospect	Would you support a potential park and resort coming to this site? Please explain why.
1809	The UK has rested on it's laurels for too long as far as theme parks go. There's no competition between them, being owned by the same company. Meaning there's no innovation or want to improve their parks to any significant measure. Alton Towers and Thorpe Park of course are the main parks im referring too. A little competition would really light the fire under their asses. Having visited Universal Orlando and Hollywood many times, I know what real theme parks can be capable of and to have those types of experiences on my doorstep would be a dream come true.	Would you support a potential park and resort coming to this site? Please explain why.

1236	The uk has some great theme parks but noting to the standard of universal. If you were to build this park my family would most definitely buy an annual pass. We live over 2hr away but would 1000% love this project to go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
1479	The UK has stagnated when it comes to leisure infrastructure. There hasn't been a new park within the UK for many years. Having experience the Universal Parks in Florida, something akin to these in the UK would only be a positive.	Would you support a potential park and resort coming to this site? Please explain why.
2873	The UK has suffered for years with sub-prime investment into Theme Parks and the commercial opportunities this brings to Bedford makes this project one that the community will fall behind. The town has large amounts of disused land and this helps to clean up some of the local area, provide strong economic benefits and brings Bedford into the role as the home of Family Days Out for the UK with a world class Theme Park and Resort.	Would you support a potential park and resort coming to this site? Please explain why.
2057	The UK has yet to really see anything like what Universal Studios has achieved elsewhere. It is an honour to have potentially a park like yourselves nearby and will be truly amazing for the whole UK economy. The UK has the money on its own to support this sort of park. I also thing that areas like CityWalk generally do very well and I have a feeling that a new park like this (done right) would be of massive mutual benefit.	Would you support a potential park and resort coming to this site? Please explain why.
1281	The uk have a reputation for such projects like this not to go ahead. I think this would be a massive boost to the uk in so many ways. I went to Florida back in 2000 ive not been since untill I go again this year 2024 as it so expensive to get there. Having a Universal park here in the uk I could go whenever I wanted too that's an exciting thought.	Would you support a potential park and resort coming to this site? Please explain why.
1465	The UK is a huge movie loving country. We should have had a Universal Park many years ago, it would be a great hit. Its something I've been calling for over many years. The UK has a lot of large movie premiers as it is an important market. This should all tie in.	Would you support a potential park and resort coming to this site? Please explain why.
1402	The UK is badly in need to fun/uplifting feel-good projects. The country has become stuck in a rut socially and economically. Something big like this would put us on the map again and give us something world class.	Would you support a potential park and resort coming to this site? Please explain why.
1887	The UK is crying out for a major theme park. As a huge fan of universal parks and resorts I think this would be an excellent project. I would regularly visit such a theme park in Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
332	The UK is crying out for an investment like this. The economic benefits are obvious, the British people love the Universal brand, and this will clearly become one the UKs premier family days out. What's not to like!	Would you support a potential park and resort coming to this site? Please explain why.
4876	The UK is far behind in terms of immersive theme park experiences. As someone who has visited many parks here and Universal Orlando, I would gladly welcome a park of that caliber here.	Would you support a potential park and resort coming to this site? Please explain why.
1635	The UK is ideal due to the tourists that visit and the uk population that love theme parks and travel to your parks.	Would you support a potential park and resort coming to this site? Please explain why.
1513	The UK is in desperate need for something like this. As a family we love family days out visiting attractions, having a universal studios in the UK would be absolutely magical for our and many other family's who can not afford to travel to Florida. To have that to look forward to and visit with our children is beyond our wildest dreams and and I hope and pray this goes ahead so we can make many happy memories here.	Would you support a potential park and resort coming to this site? Please explain why.
1613	The UK is in desperate need of a fully immersive, well themed park with a great variety of dark rides and rollercoasters.	Would you support a potential park and resort coming to this site? Please explain why.
2318	The UK is in desperate need of another quality theme park resort - Universal is such a high quality example of how to build theme parks and run a successful attraction. We would be moving and uprooting our life just to have the opportunity to work for Universal - this project is needed for the local area and would be an incredible improvement which many many people are incredibly excited for! Please built is as soon as possible , thank you Universal for considering the UK!!	Would you support a potential park and resort coming to this site? Please explain why.
3734	The UK is in desperate need of competition when it comes to the theme park industry. The Merlin parks have zero competition and have been complacent in knowing they won't have competition for many years. It needs a park like Universal to ramp up the theming and immersion levels and truly create a park that stands head and shoulders above the rest. Experiencing Universal ride offerings and even something like Halloween Horror Nights or a tram tour in the UK (something we don't even have at Pinewood Studios or any other attraction in the country) would be VERY special indeed.	Would you support a potential park and resort coming to this site? Please explain why.
2855	The UK is lacking a huge and immersive theme park like universal	Would you support a potential park and resort coming to this site? Please explain why.

3808	The UK is lacking a 'Theme Park'. We have amusement parks labelled as theme parks but they are no immersive enough. I have visited other Universal parks and they take you to a whole new world, leaving the troubles of normal life behind. This is what the UK needs, you have my full support.	Would you support a potential park and resort coming to this site? Please explain why.
1129	The UK is lacking in theme parks and there is nothing like universal. Alton Towers is great but its way too far for most of the population. Thorpe Park is also great but not on the same scale as Universal. Bedford is the midpoint of the country making it accessible for everyone- making it easy to attend with family and friends across the country.	Would you support a potential park and resort coming to this site? Please explain why.
965	The uk is one of the best places to build a theme park and it is definitely something we want and need.	Would you support a potential park and resort coming to this site? Please explain why.
719	The UK is seriously lacking in high quality theme parks. This would likely be the best one in the country and would provide enormous benefits to the local community. The location would also make it the best connected theme park in the UK and drive vast investment in infrastructure. As long as it is built in a sustainable manner I cannot think of anything negative to say about the prospect.	Would you support a potential park and resort coming to this site? Please explain why.
3514	The UK lacks a major theme park. A Universal theme park would be a new level of experience. I have visited both Disneyworld and Disneyland Paris, along with Universal Studios in Orlando. The park would also bring major employment and economic opportunities to the region.	Would you support a potential park and resort coming to this site? Please explain why.
1432	The UK lacks a premium resort such as this and would benefit the local area, both economically and socially.	Would you support a potential park and resort coming to this site? Please explain why.
4098	The UK lacks a real immersive theme park, most families travel to Disneyland Paris which is reasonably pricey. A world-class theme park in the UK would allow many families to experience true immersion for a fraction of the cost.	Would you support a potential park and resort coming to this site? Please explain why.
964	The UK lacks a world class family entertainment complex and this would certainly be one.	Would you support a potential park and resort coming to this site? Please explain why.
535	The UK lacks an internationally-attractive theme park, while it offers many benefits. The site in Bedford benefits from proximity to London with excellent transport links, ideal construction requirements, and English as a common language.	Would you support a potential park and resort coming to this site? Please explain why.
831	The UK leads the world in creative talent, but has been poorly served by Theme Parks for years. The only resort coming close to the experience that Universal can provide is Disneyland Paris, which is a significant distance away, and also a poor imitation of the Disney Parks around the world. Having visited Universal resorts in both Orlando and Hollywood on multiple occasions, there is nothing that matches the immersion, experience and fun of a Universal Park, and the UK is crying out for one - particularly when you consider the likes of Harry Potter actually originate from the country. I would definitely visit multiple times a year, but care needs to be taken around the weather in the UK as it would be a shame for it to spoil the experience.	Would you support a potential park and resort coming to this site? Please explain why.
4580	The UK needs a 365 operating resort and world class theme park.	Would you support a potential park and resort coming to this site? Please explain why.
1780	The UK needs a BIG name destination and this location is spot on!	Would you support a potential park and resort coming to this site? Please explain why.
708	The UK needs a decent theme park resort. Not everyone can travel far, but the inclusively and story telling of a universal resort would be phenomenal	Would you support a potential park and resort coming to this site? Please explain why.
4174	The UK needs a genuinely world-class theme park for regional, national and international visitors.	Would you support a potential park and resort coming to this site? Please explain why.
4455	The UK needs a major development and tourist hotspot and also gives a massive boost to the industry and healthy competition.	Would you support a potential park and resort coming to this site? Please explain why.
1864	The UK needs a major international company like yourselves to build something like this so we don't have to travel thousands of miles to experience these parks	Would you support a potential park and resort coming to this site? Please explain why.
2114	The UK needs a new experience and having been to both Orlando and Los Angeles parks I think this opportunity would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.
1417	The UK needs a new front runner in the entertainment industry, it'll benefit the economy and the area as a whole. It'll also benefit other theme parks in the UK by bringing in the extra visitors. It'll also create healthy competition as at the moment it's only Merlin that is large as a theme park operator.	Would you support a potential park and resort coming to this site? Please explain why.
4748	The UK's lack of theme park competition has made our current parks miles below the standards of a US or mainland European park. A Universal resort would massively help our economy and tourist industry as not many foreign visitors come here for our parks. It will also ignite some much needed healthy competition.	Would you support a potential park and resort coming to this site? Please explain why.

2143	The United Kingdom needs a Universal Resort, we all need a Great Britain resort, so does Europe. It would be the best thing to ever happen to the UK for a long time. The Universal UK Project definitely needs to go ahead, everyone wants it happen it would be amazing for me to live 45 mins to 1 hr away from a world class theme park! Please Universal, make it happen!	Would you support a potential park and resort coming to this site? Please explain why.
3353	The Universal Theme Parks are a global brand which draw in tourists from around the world. The quality of the theme parks is world class and to have a theme park of this quality in the UK would be a major benefit to the local and UK economy.	Would you support a potential park and resort coming to this site? Please explain why.
1607	Seeing such an amazing place like universal opening in the uk is amazing. I cannot afford to take my family to one abroad and there will be many similar. This gives that opportunity to so many people. It is also good for the economy of not just the area but the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
3017	Great location, job opportunity. Uk needs a universal theme park. Help economy	Would you support a potential park and resort coming to this site? Please explain why.
343	Great opportunity for locals	Would you support a potential park and resort coming to this site? Please explain why.
4286	Great opportunity for the Bedford wider economy for the benefit of all our children and future generations.	Would you support a potential park and resort coming to this site? Please explain why.
1539	Great opportunity for the UK and Bedford, exciting improvements to local area.	Would you support a potential park and resort coming to this site? Please explain why.
3237	Great opportunity for the UK and the UK construction industry	Would you support a potential park and resort coming to this site? Please explain why.
642	Great opportunity for the UK to have a world leading resort which will help develop the area massively	Would you support a potential park and resort coming to this site? Please explain why.
3724	Great opportunity for the uk. Love universal so one in Europe would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.
3700	Great overall opportunities for great Britain and local people, it will boost our overall economy.	Would you support a potential park and resort coming to this site? Please explain why.
949	great potential for local employment	Would you support a potential park and resort coming to this site? Please explain why.
4874	Great social and economic stimulation for the area, assuming it is built intelligently. Key focus must be given to transport infrastructure as this could be an international destination developing incredibly high footfall. Big fan of bringing strong competition to the UK theme park/entertainment sector also, gives international appeal.	Would you support a potential park and resort coming to this site? Please explain why.
4324	Great to have a big park like this, great for the economy and also local community	Would you support a potential park and resort coming to this site? Please explain why.
933	it will be a great boost for not just the local area but the uk as a whole, bringing tourists etc to the uk.	Would you support a potential park and resort coming to this site? Please explain why.
876	It's more affordable for uk residents, we doesn't have a theme park like it.	Would you support a potential park and resort coming to this site? Please explain why.
2426	It's not only for Bedford but also for the uk, there are pros and cons, but a big project like this would rock	Would you support a potential park and resort coming to this site? Please explain why.
4564	It's what the UK needs. Universal knows how to run theme parks and attractions compared to the UK market who are poor and opening hours and ride offerings and even entertainment are poor compared to Universal and what they can bring and offer us.	Would you support a potential park and resort coming to this site? Please explain why.
3586	It's a brilliant opportunity for the local area as well as the UK as a whole which will massively benefit the economy. I also feel this would provide a type of leisure destination for UK residents that we don't currently have access to within the UK.	Would you support a potential park and resort coming to this site? Please explain why.
404	It's all new exciting always wanted to go to a theme park out of UK however never been able to afford it	Would you support a potential park and resort coming to this site? Please explain why.
657	It's desperately needed in the UK! There is a monopoly on attractions in the UK, with a vast majority owned by a very small selection of companies. It would be beneficial to introduce competition to encourage new ideas.	Would you support a potential park and resort coming to this site? Please explain why.
1916	Its great for the community and UK in general as don't have anything that currently competes with Disney. I was very interested in a a paramount project several years ago but unfortunately did not materialise	Would you support a potential park and resort coming to this site? Please explain why.

3729	Its long overdue to have something of this scale brought to the UK. Existing parks dont have the knowledge in building something of this size. the job opportunities this can bring into an industry that is so small here will help many people who work in attractions from management to technical. It'll open the chance for competition and give the public a better and fair price	Would you support a potential park and resort coming to this site? Please explain why.	
3347	It's needed in the UK	Would you support a potential park and resort coming to this site? Please explain why.	
1167	Its something new the UK doesn't have, We have visited and loved Universal parks in the past and think it would be an incredible to have a park of that standard in the UK. It would be a fantastic use of the land and I couldn't be more excited.	Would you support a potential park and resort coming to this site? Please explain why.	
755	its the best thing thats ever happened to the UK	Would you support a potential park and resort coming to this site? Please explain why.	
1733	It's very close to where I live. You only have to look at the benefits to other major parks across the world. I think there might be some people that see the news and don't fully realise the boom this will have not just for the local economy but the UK as a whole. There is only one other brand on the same level as universal parks. People here are used to merlins... hence why they go on 2 week trips to Florida. Also I have a 2 year old daughter that will be taken by the time it's open and who knows she might get her first job working there. I see it as a great thing and really hope it happens. One final point. I'm in complete agreement about the location. I'm a software trainer so I go up and down the country on a regular basis. If you're going to pick a location to pop an international theme park in the UK you've chosen very well. A Trainline from London, And a second between 2 of the most well known university towns in the world, the M1 just round the corner.	Would you support a potential park and resort coming to this site? Please explain why.	
1760	It's what the uk and Bedford need.	Would you support a potential park and resort coming to this site? Please explain why.	
4797	Its what the UK needs. As a UK theme park enthusiast we need a large scale park like universal to set a standard and to raise competition with other parks.	Would you support a potential park and resort coming to this site? Please explain why.	
1579	I've always travelled over to America to the theme parks, it's about time we get an immersive theme park here in the UK, I know of many people that have wanted to work within the universal company including myself	Would you support a potential park and resort coming to this site? Please explain why.	
2608	I've been passionate about the design and technology of theme parks (Walt Disney World, Disneyland Paris, Universal Orlando Resort) all my life, and have always wished that a park of that quality and ambition would come here to the UK, so that I could visit more often and be a part of it.	Would you support a potential park and resort coming to this site? Please explain why.	
2473	I've been to all Universal Parks. The UK Infrastructure needs an industry to support its workers, envrionment and local communities instead inhibiting/hindering them.	Would you support a potential park and resort coming to this site? Please explain why.	
4474	I've visited Universal Studios in Orlando several times and I'm always blown away every visit with how Universal run their parks, and offer incredible experiences to families. To have one of the biggest theme-park companies enter the UK market would be absolutely incredible, and it would definitely benefit not only the UK economy, but the local Bedford area. It would definitely be a company I would love to work for in the near-future if the project goes ahead.	Would you support a potential park and resort coming to this site? Please explain why.	
336	Knowing the Universal Resort Florida well, I believe the organisation and experiences which the company would bring to the UK would elevate the area and competition in the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
3611	Like you said it would have great economic benefit to Bedford and the UK in general which would be great. To have a park this size in England would be great as we don't have anything of this size and quality yet.	Would you support a potential park and resort coming to this site? Please explain why.	
1640	Living in Scotland it great to see something new coming to the uk. I love universal and cannot think of anything better	Would you support a potential park and resort coming to this site? Please explain why.	
3453	Love Universal and it would be a great addition to the UK (Provided it keeps the American Flavor) Tired of Disney arrogance and would love some competition to them. Whatever you do though, do it properly and keep it like most of us are used to. Don't change a winning formula. The only issue is the weather, so a lot of indoor activities will be needed.	Would you support a potential park and resort coming to this site? Please explain why.	
1093	Love universal parks and resorts and uk I massively lacking any competition at the moment	Would you support a potential park and resort coming to this site? Please explain why.	
943	Many UK towns are failing. Shops are empty. Town centres are becoming run down. I love theme parks and would travel frequently from Nottingham to this resort.	Would you support a potential park and resort coming to this site? Please explain why.	
3726	Massive benefits to the local area and the UK as a whole	Would you support a potential park and resort coming to this site? Please explain why.	

207	Merlin Entertainments have a monopoly on UK theme parks right now. A new part would provide much-needed competition. Having a universal in the UK would provide competition to Disneyland Paris. I would never visit Paris again if this was built.	Would you support a potential park and resort coming to this site? Please explain why.
4488	Much needed for the community and for UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
2489	Much needed for the UK	Would you support a potential park and resort coming to this site? Please explain why.
2355	Much needed park in the UK and European markets. Would revolutionise the area and markers whilst creating somewhere fans can go on their doorstep!	Would you support a potential park and resort coming to this site? Please explain why.
563	My partner and I are huge fans of Universal Orlando, having been several times. A similar quality of site in the UK, just 90 minutes drive from our front door would result in us visiting every few months - probably purchasing annual passes, regularly also bringing other members of our family across generations. And we know with certainty that they will all love the parks.	Would you support a potential park and resort coming to this site? Please explain why.
1988	Need big theme park in uk	Would you support a potential park and resort coming to this site? Please explain why.
952	No Universal Park in Europe yet, long overdue. More International visitors who might not travel to the UK if park wasn't built.	Would you support a potential park and resort coming to this site? Please explain why.
790	Not only do we love universal. It's going to be a fantastic opportunity for the UK and a great economic boost.	Would you support a potential park and resort coming to this site? Please explain why.
555	Not only is this a much need investment in the UK, our country needs more entertainment catering for all ages and I really hope this could further boost our brilliant creative industries! I want it to be the start of something even bigger!!	Would you support a potential park and resort coming to this site? Please explain why.
1570	Not only would this benefit the UK but as a citizen of Northern Ireland it would be a massive positive to provide a world class theme park close to the island of Ireland for residents north and south. We would have a Universal park only an hour or so away by plane which would be an amazing holiday experience that would not cost a fortune.	Would you support a potential park and resort coming to this site? Please explain why.
2158	Not only would this support the local and wider economy, it would give the UK its first world class theme park destination. The existing UK parks are great, but just not at the same level as universal parks in terms of theming, and immersion. Though some like Alton Towers have been stepping up their game recently. I am beyond excited to see universal come to the UK so I can visit one of your parks way more frequently than I can right now. I love travelling to Orlando as much as I can afford, but it's really expensive to do so. Having a local (relatively) park would allow me to visit for more frequently (maybe even having a season ticket?) , while still planning for Florida trips.+ when money allows.	Would you support a potential park and resort coming to this site? Please explain why.
3948	Nothing like this in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2120	Often travel to theme parks in the uk	Would you support a potential park and resort coming to this site? Please explain why.
197	On top of the economical benefits mentioned above and in the leaflet, this project would grant the UK a theme park resort that can finally give us the one-up over the French with their Disneyland Paris. It might also force Merlin Parks to improve their own offering and cut their own prices by ending the monopoly they have on large scale theme parks in the UK	Would you support a potential park and resort coming to this site? Please explain why.
467	Once in a generational opportunity. You have selected a fantastic and well connected part of the UK. If you have the rights to the Lord of the Rings property... . This is the perfect location to build Middle Earth in Middle England!!	Would you support a potential park and resort coming to this site? Please explain why.
894	Opportunities like this don't come along very often if at all. This will be, without doubt the biggest single attraction in the UK and will be totally transformative for the local community. I would support this project 110%.	Would you support a potential park and resort coming to this site? Please explain why.
1687	Other than being passionate about the themed entertainment industry, I run a business supplying services to theme parks and entertainment venues. Merlin Entertainments currently has the monopoly on theme parks in the UK and the potential of Universal coming here could only help to increase the standards of all attractions - whether Merlin, Universal or independently owned (and the independents often provide the better customer experiences from a service point of view). I recently visited Disneyland and felt the magic was fading; Universal are leading the way in the balance of themed experiences vs customer service vs value for money.	Would you support a potential park and resort coming to this site? Please explain why.

3191	Personally I am a theme park enthusiast. When I see parks in America and other places I feel quite jealous because we doesn'treally have anything like this in UK. Along with the magic this park would bring to UK it seems it would also bring lots of economic benefits too! It seems like a dream that this could happen.	Would you support a potential park and resort coming to this site? Please explain why.	
3960	Positive economic impact for Bedford, surrounding area and UK in general.	Would you support a potential park and resort coming to this site? Please explain why.	
3340	Positive for UK and the South East Region. Great for leisure opportunities for families	Would you support a potential park and resort coming to this site? Please explain why.	
1961	Put UK on the map as a destination for thrill seekers. Give merlin compensation to up there game also.	Would you support a potential park and resort coming to this site? Please explain why.	
659	Selflessly, I believe the UK deserves a theme park from the greatest theme park company in the world!	Would you support a potential park and resort coming to this site? Please explain why.	
975	Since visiting the Universal Studios and Islands of Adventures Theme Parks in Orlando on holiday as a child created many memories for me that I still think back on and with the commitment you have on making each area of your parks have the emersion of been pulled into the theming would be new experience for many that have never been able to visit any of your other parks across the world as there isn't currently a theme park in the UK with the same amount of theming that goes into your parks.	Would you support a potential park and resort coming to this site? Please explain why.	
2373	So we doesn'thave to travel outside of the UK to get a thrilling universal experience	Would you support a potential park and resort coming to this site? Please explain why.	
3134	Something like this could only be good for the area and make Bedford a leader in the UK tourist industry	Would you support a potential park and resort coming to this site? Please explain why.	
3915	Something like this is missing from the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
4911	Something that the UK is needing and currently lacking. The uk theme parks are no where near the details or theming of a universal park. Other theme parks you can do in 1 day whereas universal parks can be shirt breaks and full holdays making people stay in the uk	Would you support a potential park and resort coming to this site? Please explain why.	
1556	Strengthening of UK economy as a whole - gives mainland-Europeans the motivation to visit us	Would you support a potential park and resort coming to this site? Please explain why.	
3777	The addition of the park will be a great addition to the UK, it will bring more money into the country but also be another attraction for us to enjoy	Would you support a potential park and resort coming to this site? Please explain why.	
3720	The area needs something like this and on this scale, as does the UK. I love the Universal Brand and support them in their American Parks, I would welcome the opportunity to be able to do the same in my home country.	Would you support a potential park and resort coming to this site? Please explain why.	
1501	The benefits to the local and wider community and further enhancing Milton Keynes City and UK as a destination	Would you support a potential park and resort coming to this site? Please explain why.	
1523	The Brexit era has been a dark time in our history as a nation, doors were closed and opportunities squashed. This is an incredible change for doors to be re-opened, and to show that the UK is an open and welcoming land of opportunity. Universal could really help the UK heal, and help the younger generations get to the light at the end of the tunnel.	Would you support a potential park and resort coming to this site? Please explain why.	
2621	The creation of a park in Bedford would not only help the local economy but it would support the wider economic development of the UK. Opportunities like this allowing every resident regardless of generation and should be taken at every opportunity. The project allows for in direct links to develop infrastructure that would bebenift all those within Bedford.	Would you support a potential park and resort coming to this site? Please explain why.	
4936	The creation of a Universal theme park in the UK would be an incredible investment and would mean that Universals fantastic attractions are available to a UK audience more easily.	Would you support a potential park and resort coming to this site? Please explain why.	
833	The current theme parks in the UK are not great, I've been to Universal Florida, loved every minute - Can't wait for one to be built in the UK	Would you support a potential park and resort coming to this site? Please explain why.	
741	The economic and social benefits notwithstanding, I believe correct integration into Bedford borough and significant investment and connection to the town of Bedford would transform the entire area, pulling talent from London and lifting up Bedford as an integral part of the OxCam arc; the arc could become a desirable tech-heavy and skills-oriented location for R&D in the UK. Additionally, my support for this project also has a personal slant: my grandparents lived in Miami and we had a timeshare in Orlando. I visited Universal Studios (and Disney World, I'm sorry!) almost every year of my life and it fills my heart with joy at the thought of that gift being made available to my children right on our doorstep.	Would you support a potential park and resort coming to this site? Please explain why.	
1408	The economic benefits for the whole country would surpass any negative impacts. It would solidify the UK's place in a the global theme park industry and highlight great British innovation.	Would you support a potential park and resort coming to this site? Please explain why.	

2892	The economic benefits to the area, and the UK in general are clear. Bringing such a park to the UK is ideal and addresses a key missing element. Disney made a huge mistake by putting the equivalent park in France; Universal is not repeating that error.	Would you support a potential park and resort coming to this site? Please explain why.
2488	The economic benefits to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2821	The economic benefits will massively help the UK driving in tourists from all over europe	Would you support a potential park and resort coming to this site? Please explain why.
1367	The economic boost for not only the local area but for the whole of the UK would be huge. I would like to see universal use British suppliers for food and beverage including the use of UK farming suppliers.	Would you support a potential park and resort coming to this site? Please explain why.
4405	The Economic Impact for Bedford, Bedfordshire, South East Midlands and the wider UK would be huge. Putting us with great global centres such as LA, Orlando, Beijing, Osaka, Singapore. New job types, sectors, supply chain opportunities, infrastructure which would unlock other land parcels for new housing and commercial development. It could be transformative for the town centre with millions of visitors with disposable income coming to the area.	Would you support a potential park and resort coming to this site? Please explain why.
2775	The entire UK benefits, not just beautiful Bedford!	Would you support a potential park and resort coming to this site? Please explain why.
2091	The incredible opportunity for the local and national economy from employing locals to bringing more tourists to the uk, it all looks good to me.	Would you support a potential park and resort coming to this site? Please explain why.
3801	The introduction of a new major themepark/resort operation will encourage other investment within the UK leisure/entertainment industry from current and new stakeholders, which will better both the local and national economy.	Would you support a potential park and resort coming to this site? Please explain why.
1768	The long term benefits with people's mental and physical health would improve due to the extra happiness coming to the uk Also it would benefit the local area and local businesses too	Would you support a potential park and resort coming to this site? Please explain why.
3685	The economic benefits are huge. Many people in the UK travel abroad for theme parks, having a major destination in the UK would be better for the environment (less travel). Very positive to see investment in the UK post brexit.	Would you support a potential park and resort coming to this site? Please explain why.
4369	The new park and resort should help the entire UK economy the way Disneyland Paris has become a European destination. The project should also provide a competitive incentive to Merlin Entertainment (the owners of Thorpe Park, Alton Towers, Legoland Windsor & Chessington World of Adventures) to improve their offerings. As I see it there is no downside to Universal opening a park & resort in this area.	Would you support a potential park and resort coming to this site? Please explain why.
2446	The opportunity to showcase England on a global stage is fantastic. This could really boost the tourist industry for the UK and bring a quality of theme park the uk has not seen	Would you support a potential park and resort coming to this site? Please explain why.
3911	The park and resort are a fantastic opportunity for the area and will definitely transform the local area in a positive way. The UK is lacking such a great pioneer project which would have significant internal and external demand once open. I agree it would kickstart a huge amount of secondary economy and bring both cultural and material wealth to the area.	Would you support a potential park and resort coming to this site? Please explain why.
1139	The potential social and economic opportunities for the local area would be transformative and the UK economy would benefit greatly. In addition, the child in me loves the idea of a new World class theme park on my doorstep ðŸ™€.	Would you support a potential park and resort coming to this site? Please explain why.
1971	The socio economic benefits for the local area and the UK as a whole. This could attract a lot of visitors to the UK and could increase visitors to the many existing attractions already in the UK, which could tie in to the attractions at the park. This would boost the tourist industry and the UK GDP	Would you support a potential park and resort coming to this site? Please explain why.
2427	There are no good quality theme parks in UK	Would you support a potential park and resort coming to this site? Please explain why.
1158	there are no good theme parks in UK. so if Universal comes to UK this will be very good for UK and Universal it self as they can make so much money from the Park.	Would you support a potential park and resort coming to this site? Please explain why.
2124	Would bring a world.class attraction to the UK	Would you support a potential park and resort coming to this site? Please explain why.
482	There is nothing like Universal in the UK. Having been multiple times to Universal in Orlando and California this would be a massive win for the UK and Bedford	Would you support a potential park and resort coming to this site? Please explain why.
1511	having a UK based park would allow more people to visit and experience the universal world who may not be able to afford to fly abroad. this would be very beneficial for children and families in this situation.	Would you support a potential park and resort coming to this site? Please explain why.

1935	Having a Universal Park in the UK would absolutely reinvigorate the themepark community in the UK. We don't yet have a park with such a incredible catalogue of IP which will be used within the park. Harry Potter is such a huge IP which has been used effectively over in the United States but its home is here in the UK and it would be such an opportunity to boast UK IPs whilst also bringing the impressive imagination of the united states to Englan.	Would you support a potential park and resort coming to this site? Please explain why.
1256	Having been to Universal Orlando resort, we would be extremely excited to see a park of this quality in the UK. We live around an hour away so would be easy for us to visit multiple times.	Would you support a potential park and resort coming to this site? Please explain why.
1386	Having been to your parks in USA and Singapore they are wonderful places I am 2 hours drive away but I would deffo travel to the park at least once a month and would be a boast not only for Bedford but the hope of the uk	Would you support a potential park and resort coming to this site? Please explain why.
4459	I would support this project since it will create many more job opportunities in a lot of roles, it will also put the United Kingdom on the map in terms of theme parks as universal is renowned for its creativity, immersive attractions and highly themed areas. Many visitors from outside of the UK would undoubtedly want to experience the park and significantly boost the local economy and surrounding area.	Would you support a potential park and resort coming to this site? Please explain why.
1557	The UK needs change and adding an big competitor keeps other theme parks and resorts on their top game to give customers an amazing experience and overall improve the experience for tourists as allot of the UK theme parks do not have the same amount of passion for the "theme" part of theme park then universal and other big competitors	Would you support a potential park and resort coming to this site? Please explain why.
2878	Having lived in America and visiting Universal Orlando many times the park is such an amazing experience. In a country with so much tradition I think the opportunities of creating a park would be great for the United Kingdom.	Would you support a potential park and resort coming to this site? Please explain why.
961	Having moved here 1.5 years ago, it would be amazing to have such a wonderful theme park in the area. I would hope it would encourage the council to improve Bedford City Centre too.	Would you support a potential park and resort coming to this site? Please explain why.
2241	Having something like this in the UK is a first and would be fantastic for the local an wider area	Would you support a potential park and resort coming to this site? Please explain why.
1489	Having travelled to Universal Orlando many times since childhood I fully appreciate the immersion, storytelling and thrill that comes from a Universal Park. We couldn't quite believe it when hearing of the potential of a Universal Park on our doorstep and are incredibly excited by the prospect. We really hope the plans go ahead and that Velocicoaster will come to the UK!	Would you support a potential park and resort coming to this site? Please explain why.
2097	Having universal in the UK would be incredible.	Would you support a potential park and resort coming to this site? Please explain why.
1098	Having Universal Studios come to the UK will be an exciting addition & something that is so needed which will benefit not only the local area but bring opportunities further afield. I hope that the environment & wildlife is respected and assured from the project proposals. I can't wait and just hope the project goes ahead.	Would you support a potential park and resort coming to this site? Please explain why.
1691	Having visited a number of other Universal parks around the world (Orlando, California, Osaka) there is nothing that compares in the UK when it comes to quality of immersion. This will be good for the UK and also encourage others in the UK to up their game.	Would you support a potential park and resort coming to this site? Please explain why.
2596	Having visited Universal in California and Florida, I know what a huge benefit it bring to the local area and visitors from all over the world. People need to escape reality once in a while and this is the perfect way to do it.	Would you support a potential park and resort coming to this site? Please explain why.
392	Having visited Universal in Florida I know how amazing your parks are. I live about a hundred or so miles north of Bedford in a city called Nottingham and to have a Universal park so close would be fantastic. I (we) would definety buy an annual pass!	Would you support a potential park and resort coming to this site? Please explain why.
