1791	Having visited Universal Orlando Resort, I understand the impact of such a project, not just on a short term basis, but as a long term investment. I believe it will have such a positive impact for the whole of the UK buy having a new "must visit" destination for foreign visitors that could extend their visit to other locations around the uk.	Would you support a potential park and resort coming to this site? Please explain why.
2301	Having visited universal resorts in Orlando and Hollywood they are destination places. Universal is one of the best lived studios with a wealth of history in movies and this can only benefit the local area and U.K. as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
3111	Having visited Universal Studios in Florida, I am very excited to hopefully see this brilliant attraction so close to home. I may even consider working there	Would you support a potential park and resort coming to this site? Please explain why.

3513	Having worked in entertainment for 18 years, the potential for a resort of this scale would allow for incredible new opportunities for those in the entertainment industry and beyond. The quality of Universal's resort building as it stands would demand a higher quality of entertainment and experience from existing theme parks in order to compete, which can only benefit the culture and entertainment industry as a whole.	Would you support a potential park and resort coming to this site? Please explain why.	
1449	Having worked in the entertainment industry for a number of years, and having worked for one of your major competitors in the US, I do believe having this type of site in the area would benefit production & events companies nearby & help build on those experiences of guests coming to enjoy the park.	Would you support a potential park and resort coming to this site? Please explain why.	
2322	Here in the UK we need to travel abroad for a world class theme park, which is tragic, we used to have some great parks, but ever since Merlin were given a monopoly by being allowed to purchase Thorpe Park, all their parks have really gone downhill, so our family no longer visit any local parks and instead just visit Disneyland Paris or Florida, both of which are only really affordable once per year for most families. So it would be amazing to have a universal resort here in the UK. We would likely visit multiple times per year instead of Paris just once a year.	Would you support a potential park and resort coming to this site? Please explain why.	
3532	Huge amount of benefits to surrounding area and to UK	Would you support a potential park and resort coming to this site? Please explain why.	
1792	It will boost the economy and put England on the map, as this new project will be a hotspot for europeans.	Would you support a potential park and resort coming to this site? Please explain why.	
2931	Huge local and national benefit, great local amenities and opportunities It's needed	Would you support a potential park and resort coming to this site? Please explain why.	
472	Huge local benefits in a run down location	Would you support a potential park and resort coming to this site? Please explain why.	
2684	Huge opportunity and ability to transform the region	Would you support a potential park and resort coming to this site? Please explain why.	
4502	Huge opportunity to put Bedford on the map. It is an overlooked town where many cultures live happily side by side. Bedfordshire is a small country but its proximity to London and with the M1 and A1 running through it mean it has been woefully underfunded for decades.	Would you support a potential park and resort coming to this site? Please explain why.	
459	Huge potential economic development opportunity and also a great new uk holiday attraction	Would you support a potential park and resort coming to this site? Please explain why.	
3120	I agree with the analysis you have stated, that this could be transformative for Bedford.	Would you support a potential park and resort coming to this site? Please explain why.	
2466	I am a big fan of theme parks. Having visited Universal Orlando in 2022 having one down the road from me would be amazing	Would you support a potential park and resort coming to this site? Please explain why.	
564	I am a big fan of Universal and access to a local park would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.	
2741	I am a big fan of your parks in Florida. Coasters in the UK are old and very rough to ride. English people would benefit from riding new, smoother coasters. They'd enjoy it more than Thorpe park and Alton towers.	Would you support a potential park and resort coming to this site? Please explain why.	
1288	I am a Disney parks fan, but have had happy memories in Universal Studios Hollywood. Disneyland Paris is still a bit of an effort to travel to, and of late I have observed how Universal are building their parks to what used to be the Disney standard, and depending on the I.P. and atmosphere I could see myself visiting frequently.	Would you support a potential park and resort coming to this site? Please explain why.	
1389	I think it would be very exciting to have this in the area, but it'd be a very big project and it's just weighing up the pros and cons. Also a possible discount for people living close to sweeten the deal!	Would you support a potential park and resort coming to this site? Please explain why.	
3073	I think it would be wonderful for the area and I doesn'tthink many people would be against it	Would you support a potential park and resort coming to this site? Please explain why.	
1254	I think it would be wonderful to have this on our doorstep.	Would you support a potential park and resort coming to this site? Please explain why.	
212	I think it would benefit Bedford and the surrounding area in all the ways you have said and more.	Would you support a potential park and resort coming to this site? Please explain why.	
3827	I think it would benefit the next generation of our community	Would you support a potential park and resort coming to this site? Please explain why.	
353	I think it would breathe new life into our region and attract people and money into the area, which wouldn't happen any other way.	Would you support a potential park and resort coming to this site? Please explain why.	
3745	I think it would bring something special to the area and I can see the benefits it would have like job creation and new business opportunities such as air bnbs	Would you support a potential park and resort coming to this site? Please explain why.	

2850	I think it is a fantastic opportunity from a local and national perspective!	Would you support a potential park and resort coming to this site? Please explain why.	
3773	I think it is a great idea! I live in Stewartby and think it would bring so much to the area and a great use for the site.	Would you support a potential park and resort coming to this site? Please explain why.	
852	I think it is a wonderful opportunity for the area	Would you support a potential park and resort coming to this site? Please explain why.	
3060	I think it is an amazing opportunity for the town and the UK. It could revitalise the area and create a world class resort. It make me proud to be a Bedfordian!	Would you support a potential park and resort coming to this site? Please explain why.	
2123	I think it is plain to see that millions of British people travel worldwide to use Universal Parks. As you showed in your first public meeting, there is a clear space for a large Universal Park in Europe, and Britain is the BEST option for you to invest.	Would you support a potential park and resort coming to this site? Please explain why.	
2484	I think it is what the UK is lacking. This will not only be inviting for UK guests but European guests too. Everyone should be able to experience a Universal Resort and will ensure this is possible for many families in the UK who are unable to afford to travel.	Would you support a potential park and resort coming to this site? Please explain why.	
2805	I think it is wonderful you are considering England and especially Bedfordshire . So many children doesn'tget opportunities to visit other countries to enjoy these amazing imaginative playgrounds of pure fun.	Would you support a potential park and resort coming to this site? Please explain why.	
4901	I think it will be great for the local area, which has been suffering of late	Would you support a potential park and resort coming to this site? Please explain why.	
3803	I think it will be great to bring Bedford into this century! As it's looking tired and old!!!	Would you support a potential park and resort coming to this site? Please explain why.	
425	I think it will be really good for the local community, businesses and people	Would you support a potential park and resort coming to this site? Please explain why.	
4636	I think it will be transformative for Bedford and the surrounding area and will make full of the amazing communication routes that Bedford has.	Would you support a potential park and resort coming to this site? Please explain why.	
4448	I think it will benefit Bedfordshire residents	Would you support a potential park and resort coming to this site? Please explain why.	
4631	I think it will benefit the area in so many ways.	Would you support a potential park and resort coming to this site? Please explain why.	
1349	I think it will bring huge economic benefits to the area and improve the town centre in Bedford .	Would you support a potential park and resort coming to this site? Please explain why.	
4600	I think it will increase the entertainment value of the UK, I think it will provide more performance opportunities within the UK. As long as you're aware that Luton isn't the most glamorous place and that you're prepared for internet jokes, this could be great.	Would you support a potential park and resort coming to this site? Please explain why.	
1646	I think it would be a fantastic asset for the UK and would reinvigorate a run down area	Would you support a potential park and resort coming to this site? Please explain why.	
3929	I think it would be a fantastic opportunity for the area and I would hope that the Borough Council would invest into improving Bedford in light of this	Would you support a potential park and resort coming to this site? Please explain why.	
2483	I think it would be a good way to re introduce life in to Bedford. To build something for people to do other than chain coffee shops etc. something new and exciting creating job opportunities and something that would still be there in years to come.	Would you support a potential park and resort coming to this site? Please explain why.	
4945	I think it would be a great addition and a much needed attraction for the county	Would you support a potential park and resort coming to this site? Please explain why.	
2011	I think it would be a great economic boost	Would you support a potential park and resort coming to this site? Please explain why.	
2455	I think that this would be a hugely beneficial addition to the local area and would provide something that is severely lacking in the local area.	Would you support a potential park and resort coming to this site? Please explain why.	
1972	I think that the benefits not only just for the surrounding area of Bedford, but for the UK as a whole are demonstrably huge. Currently there are no entertainment resorts on the scale of a Universal resort that are easy to access outside of Disneyland Paris, I think competition on that front would be excellent.	Would you support a potential park and resort coming to this site? Please explain why.	
959	I think that the benefits to the UK as a whole will be far reaching, I hope that this may drive improvements. Universal has always been for me a gold standard on which people should aspire. The attention to detail, cleanliness and overall quality is outstanding. I hope that this may drive the UK to improve the way we do things. Roads are a major issue in the UK, not just congestion but road quality. Something America does so much better. I hope we can learn from yourselves.	Would you support a potential park and resort coming to this site? Please explain why.	

2480	Have been Visiting Universal Hollywood and Orlando for years and even have an Annual Pass for Orlando. The parks mean so much to so many people. But not everyone can access the locations you have on Offer at the present time. a 'Local' Park to the UK would benefit millions of families around the UK and Europe !!	Would you support a potential park and resort coming to this site? Please explain why.
4804	Have visited Universal Parks before. They are amazing and they bring great opportunities for us who live near by.	Would you support a potential park and resort coming to this site? Please explain why.
422	Having been born and grown up here, I have seen Bedford turn into a commuter town, with people moving here from London but still partaking in all the entertainment and hospitality there. As a result, entertainment and hospitality has dwindled to near non-existent in Bedford. By building the resort so close to Bedford, it will enrich the offering that the town has, not just residential but with a world-class entertainment offering as well. All big theme parks are 1+ hours away at the moment, so to have one on the doorstep with provide opportunities for families to have something to do without worrying on how they will get there.	Would you support a potential park and resort coming to this site? Please explain why.
2413	Help improve the area	Would you support a potential park and resort coming to this site? Please explain why.
2883	Help put Bedford back on the map, Already having great links with the M1 and A1 Via the a421 corridor, provides easy road access. With the pre existing rail link running from Bedford station through or past the park, ease of access for large groups or disabled visitors. There are no centrally located theme parks in the area that cater for adults with disposable incomes. Thorpe park includes the m25, so not always viable, Drayton manor includes the m6 or m6 toll, extra distance and extra cost and Alton towers has a huge travel time factor. Most other semi local facilities such as Gulliver's in MK are heavily geared towards younger children as apposed to a full family entertainment day out or stay.	Would you support a potential park and resort coming to this site? Please explain why.
3173	Helps locals	Would you support a potential park and resort coming to this site? Please explain why.
4423	Huge fan of theme parks and I feel we live close in St Neots, enough to benefit but not so close as to deal with the construction or traffic issues that will arise.	Would you support a potential park and resort coming to this site? Please explain why.
3609	Huge fan of Universal, theme parks, experiences and making memories. The UK has long been stuck with smaller experiences and feel this is something truly needed. It will only benefit. Just look after the locals.	Would you support a potential park and resort coming to this site? Please explain why.
4378	Huge universal fan. Have seen what you have done in Florida and across the world, would be an amazing addition to the UK bringing us into the forefront of the entertainment industry this side of the pond	Would you support a potential park and resort coming to this site? Please explain why.
2868	I adore universal Orlando it is such a fun and well made park that just seems to get better with time. The thought of this being in the U.K. is so exciting it will put us on the map dlp has many faults but has helped the area	Would you support a potential park and resort coming to this site? Please explain why.
3940	I adore Universal Studios. I have visited the Florida theme parks numerous times and will be visiting again later this year. To have a park located only an hour and a half from my home would be incredible. I can absolutely see me being a regular visitor. I would even consider moving closer to the site to enjoy it as often as possible. I would apply to work there. It would change my life for the better in so many ways. I am a park enthusiast and Universal is world class. To have one so close to home would be the best thing ever.	Would you support a potential park and resort coming to this site? Please explain why.
958	I am a huge fan of Universal Studios Orlando, and nothing to Universal's quality and creativity exists in the UK. We have rollercoasters in the UK, but something as themed as the Velocicoaster or Hagrid's Magical Creatures Motorbike Adventure in the UK? Nothing comes close, to having themed attractions like these in the UK would be a massive improvement in the UK theme park industry. I wouldn't say in the UK we have a 100% dedicated theme park, like Universal, we don't have in-park parades like the Universal Orlando's Macy's Parade or Universal's Superstar Parade, we don't even have regular meet and greet characters like Universal. So having a Universal in the UK, with all these amazing bonuses? It would be a dream come true.	Would you support a potential park and resort coming to this site? Please explain why.
1397	I am a huge theme park fan and travel to Orlando at least every 2 years. A park in the UK I could visit once or twice a month is exciting.	Would you support a potential park and resort coming to this site? Please explain why.
3093	I am a massive fan of theme parks and would like to see a universal park in the uk	Would you support a potential park and resort coming to this site? Please explain why.
2185	I am a theme park Enthusiast and I would visit here very often. If things like Disability Access often known as Ride access pass. For people who are unable to queue.	Would you support a potential park and resort coming to this site? Please explain why.
4320	I am a theme park enthusiast and it would be a dream to have a world class park 30-40min from where i live.	Would you support a potential park and resort coming to this site? Please explain why.

1870	I am a theme park enthusiast and to see a park on the scale and quality of Universal within the UK is very exciting. I think it would be great to have our own park and I think it would be positive for the UK theme park industry as a whole	Would you support a potential park and resort coming to this site? Please explain why.
4202	I am a theme park enthusiast, universal coming the the UK would be good competition for the current parks	Would you support a potential park and resort coming to this site? Please explain why.
2762	I am a theme park goer and would definitely travel the 140 miles to this park several times a year.	Would you support a potential park and resort coming to this site? Please explain why.
4458	I am a themepark enthusiast/youtuber. I have always wanted to visit a universal park but havnt been able to travel outside the UK yet. This park would be a one of a kind for the UK due to the scale of rides, themeing and details put in.	Would you support a potential park and resort coming to this site? Please explain why.
1941	I am enthusiastic about the UK theme park industry. To have a universal resort in my own country would be incredible. I have visited the parks in Orlando and Hollywood.	Would you support a potential park and resort coming to this site? Please explain why.
271	I am excited at the opportunity to visit a Universal theme park. I am also excited at the impact the project has the potential to have on local railway developments, namely East West Rail.	Would you support a potential park and resort coming to this site? Please explain why.
297	I am in favour for most major investments into the area such as this. The site is currently an unused brownfield area, perfect for a major development such as this.	Would you support a potential park and resort coming to this site? Please explain why.
2194	I am so, so excited to see something on my doorstep that will provide myself and my family with enjoyment and bring revival to this area of the country. At the moment it's just known as London overspill. Thank goodness there are plans for something more imaginative and infinitely more enjoyable than a warehouse! I hold a merlin pass so time for the UK industry to up it's game.	Would you support a potential park and resort coming to this site? Please explain why.
661	I am unable to travel around the world to universal theme parks. I visit ALL other them parks across the UK regularly and we are desperate to have something like universal in the UK. We are in the perfect location for Europe!!!! Please please please go ahead and bring universal to us all here in the UK	Would you support a potential park and resort coming to this site? Please explain why.
3756	I am very excited about this proposal, I have visited your parks in Orlando and will be heading back soon to visit Epic Universe. This will be a Game changer for the UK and would really benefit all involved.	Would you support a potential park and resort coming to this site? Please explain why.
3374	I am very passionate for the theme park industry and having visited Universal Studios Orlando in the past, this would be incredible for the UK and Europe.	Would you support a potential park and resort coming to this site? Please explain why.
4737	I believe a park of this scale and prestige would bring both economic and cultural benefits not only to the local area but the entire UK.	Would you support a potential park and resort coming to this site? Please explain why.
3342	I believe as an county we need a project like this to promote what a brilliant area we are,to drive us into the future and help provide so many opportunities for our young people	Would you support a potential park and resort coming to this site? Please explain why.
4795	I believe it would be good for the community and would allow growth in the local areasN	Would you support a potential park and resort coming to this site? Please explain why.
127	I believe it would bring many social, economic and environmental benefits to Bedford and hopefully facilitate the desired waterway park and links between the Ouse and Grand Union Canal. The close proximity to the rail lines could be valuable to the project and the railway.	Would you support a potential park and resort coming to this site? Please explain why.
2520	I believe it's a fabulous opportunity and could shape a bright future for generations to come locally. Whilst it may bring some pitfalls I would say the positives outweigh the negatives - if done correctly, which I'd hope the likes of Comcast and Universal know what they're doing!	Would you support a potential park and resort coming to this site? Please explain why.
4563	I believe overall the investment and improvements Universal will bring long term will far out way the pain of constriction. The area needs something to put it on the map.	Would you support a potential park and resort coming to this site? Please explain why.
2680	I believe that a nice break for the hardworking Bedford community will help lift morale and give people extra options for their holidays and that the entire UK will benefit from this project for we have not had a major theme park/resort for around thirty years.	Would you support a potential park and resort coming to this site? Please explain why.
4561	I think it's a great idea and will encourage people to come to the Area	Would you support a potential park and resort coming to this site? Please explain why.
4507	I think it's exactly what England needs! But it needs to be done properly - like Orlando! High security, clean areas etc.	Would you support a potential park and resort coming to this site? Please explain why.
901	I think it's needed in uk. It would be much more accessible to residence here in the UK as I feel rising costs going abroad are stopping people from getting to experience these great parks.	Would you support a potential park and resort coming to this site? Please explain why.
577	I think it's amazing for Bedford to be given this opportunity. As a family we would definitely visit the new park. It would save us hours of travel.	Would you support a potential park and resort coming to this site? Please explain why.
4254	I think it's an amazing idea to do this as it will bring people in	Would you support a potential park and resort coming to this site? Please explain why.
3510	I think it would be great opportunity for central bedfordshire.	Would you support a potential park and resort coming to this site? Please explain why.

3113	I think it would be great for the UK and a great use of the land	Would you support a potential park and resort coming to this site? Please explain why.
1960	I think it would be great for Bedford and the UK	Would you support a potential park and resort coming to this site? Please explain why.
3907	I think it would be great for Bedford if traffic and roads were sorted. It would be good to have trees planted around the area that will be visible to Stewartby so it won't ruin the view.	Would you support a potential park and resort coming to this site? Please explain why.
829	I think it would be fantastic not only for Bedford & the local area , but also for the UK as a whole . I have visited the Orlando Universal parks many times & I would be incredibly excited to have one here in the UK . They are phenomenal entertainment centres and the positives are endless	Would you support a potential park and resort coming to this site? Please explain why.
776	I think it would be fantastic for Bedfordshire, often overlooked but so much to offer and with Center Parks, Woburn Abbey and Safari Park, Whipsnade Zoo and the river in Bedford there's lots of other stuff to do as well	Would you support a potential park and resort coming to this site? Please explain why.
3346	I think it would be fantastic for the area.	Would you support a potential park and resort coming to this site? Please explain why.
3382	I think it would be an incredible thing for this often overlooked area. I live in Elstow which is a stones throw from the planned park and I couldn't think of anything more exciting. The opportunities people would have to work there and also for leisure would be unmatched. As an example I can see myself just visiting the Citywalk area very often and using that as a means of spending leisure time.	Would you support a potential park and resort coming to this site? Please explain why.
2786	I think it would be beneficial for the town in the ways you have suggested.	Would you support a potential park and resort coming to this site? Please explain why.
1850	I think it would be beneficial. Again I think if it is to be developed it needs to be balanced and holistic which many developments are not. In a country which is in the bottom 10% of biodiversity in the world, whatever could be done to aid an improvement in this area is needed.	Would you support a potential park and resort coming to this site? Please explain why.
912	I think it would be excellent for the local area, Bedford town is tired and is need of the investment the project will bring. I also think it will bring a lot of fun and enjoyment the area and I think we could always do with more of that!	Would you support a potential park and resort coming to this site? Please explain why.
201	I think it would be amazing for the local area & lead to other opportunities around the area	Would you support a potential park and resort coming to this site? Please explain why.
4720	I think it would be a positive experience for those looking for work or looking experience within that field of work	Would you support a potential park and resort coming to this site? Please explain why.
4094	I think it would be a real positive for many of the surrounding areas, bringing investment to local areas. Also provides an opportunity to live nearby to such a major theme park.	Would you support a potential park and resort coming to this site? Please explain why.
2496	I live only 10-15 mins from the possible site in the village of Marston Moretaine. I would explore job opportunities within the new park as I currently commute to London so would like a more local job. I also visit the Orlando parks every 2-3 yrs so would look to purchase an annual pass.	Would you support a potential park and resort coming to this site? Please explain why.
2094	I live over 3 hours away in Wales and having a Universal park here in UK would be amazing. The country already has a huge following for the UK's current theme parks but we have nothing that would compare with a Universal park. I actually got quite emotional seeing some of plans that one day my own daughter may get to visit or work in a universal park here in the UK. Our country needs this project to go ahead	Would you support a potential park and resort coming to this site? Please explain why.
3936	I live locally, I visit several theme parks a year already, to have one so close would be brilliant. It would make other UK theme parks 'up their game'. It would unlock economic benefits, I would myself be interested in working at Universal GB. It would also unlock road and rail upgrades in the area.	Would you support a potential park and resort coming to this site? Please explain why.
4001	I live near	Would you support a potential park and resort coming to this site? Please explain why.
2965	I live in the new village where the new train station will be. I have a 2 year old son and by the time the park is open I'm sure we will have another child. I think this is a great opportunity for the area and as a family we would definitely be using the park! We were recently planning on a trip to Disneyland Paris, having one walking distance from home would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.
3399	I live in Ampthill with three teenage children. The park can offer opportunities to my family and potentially help grow my coffee business.	Would you support a potential park and resort coming to this site? Please explain why.
4853	I live around 2 hours from the site and as an avid fan of Universal Florida, the chance of this happening is incredible to me and my family. We would undoubtedly be annual pass holders and be proud of the UK for attracting such a massive project!	Would you support a potential park and resort coming to this site? Please explain why.

278	I live about 10 minutes walk away so it would be amazing to have such a massive theme park on my doorstep and it'll improve the local area which is always positive! My and my husband doesn't have children yet but we act like big children anyway and we've always wanted to visit Universal so instead Universal will be coming to us!	Would you support a potential park and resort coming to this site? Please explain why.
2152	I live about an hour away from the planned site and the thought of having a Universal Resort so close to us is majorly exciting.	Would you support a potential park and resort coming to this site? Please explain why.
4908	I like theme parks and it would make the area get more money, and make the other theme parks in the UK up their game to be on the level of Universal, to try to compete with the new Universal Park.	Would you support a potential park and resort coming to this site? Please explain why.
1700	I am a local business in property and feel this would help grow mine and other business	Would you support a potential park and resort coming to this site? Please explain why.
F6108	To enhance our own business	What is the most important consideration for you when considering a potential theme park and resort in Bedford?
4752	The United Kingdom requires a big theme park/entertainment project, with a big name. Currently we have no real theme parks to be excited about. This would also massively improve infrastructure in Roads, etc, and benefit the communities surrounding Universal Studios Great Britain.	Would you support a potential park and resort coming to this site? Please explain why.
4504	This is a tremendous project and will bring significant improvements and economic benefits. Just build it quickly enough that I am young enough to enjoy it.	Would you support a potential park and resort coming to this site? Please explain why.
721	This is exactly what the UK needs and Bedford makes perfect sense. The site you have picked seems very ideal with rail location and road access. Millions of people travel to the US parks each year, and unlike other companies that opened parks in France, Universal knows the UK market much better.	Would you support a potential park and resort coming to this site? Please explain why.
340	This is much needed for the UK. We have a young daughter and we would definitely visit this as it is close by to us. It will create so many job opportunities and being tourists and visitors from all over the UK and the world to the area.	Would you support a potential park and resort coming to this site? Please explain why.
2209	This park needs to happen. The UK desperately needs something like this. It also gives many more people the opportunity to experience Universal that could not afford to travel to the US parks.	Would you support a potential park and resort coming to this site? Please explain why.
2476	This will be an incredible boost to the Theme Park and resorts sector in the UK, creating an incredible amount of job opportunities and a huge economic boost. Our UK theme parks are very lacking in theming, new rides/areas and upkeep is poor. Having visited your parks around the world we personally know the standard is incredibly high and having a Universal park in Bedford would breathe life into the UK.	Would you support a potential park and resort coming to this site? Please explain why.
4097	This will be great for the UK economy and provide a draw for tourists	Would you support a potential park and resort coming to this site? Please explain why.
1510	Think it be a huge opportunity for the UK economy and local community.	Would you support a potential park and resort coming to this site? Please explain why.
4048	UK has a huge untapped fan base for theme parks. On top of this, it would massively benefit the local community and the broader economy	Would you support a potential park and resort coming to this site? Please explain why.
3802	We need something better than what the UK has to offer currently but please build decent and worthy rides otherwise it will not be worth bothering with. Seriously. We need something like VelociCoaster. If you do a scaled down pale version of your other parks it will fail. Trust me, I know these things.	Would you support a potential park and resort coming to this site? Please explain why.
1853	We need to continue building our economy for the next generation	Would you support a potential park and resort coming to this site? Please explain why.
679	Theme parks are not what this country requires to support an export based economy and become less dependent on foreign imports. We need companies that will add value then export out of the UK, not simply feed a demand for a fantasy land where the profits go abroad while seasonal workers are paid low wages with no prospect of upskilling to more important roles in society.	Would you support a potential park and resort coming to this site? Please explain why.
3735	UK residents currently have to travel thousands of miles to visit the closest Universal theme park.	Would you support a potential park and resort coming to this site? Please explain why.
1143	UK and Europe in desperate need of new attractions. Create healthy competition for Merlin.	Would you support a potential park and resort coming to this site? Please explain why.
3322	UK deserves a good theme park created by an well-known organization with successful cases around the world.	Would you support a potential park and resort coming to this site? Please explain why.
1522	UK needs a high quality theme park, which Universal could deliver, based on their other sites around the world.	Would you support a potential park and resort coming to this site? Please explain why.
556	UK needs investment UK need Universal UK is a sad place to live Universal will change this some what.	Would you support a potential park and resort coming to this site? Please explain why.

2064	Would be amazing for the UK and Europe as a whole to have such a world class attraction so close to Millions of people that may never get the chance to travel to America or many of the other parks.	Would you support a potential park and resort coming to this site? Please explain why.
3358	This is massively needed in not only the uk but Europe as we only have Disneyland Paris to compare. All other parks are in America or Asia. This is such exciting news for a theme park enthusiasts	Would you support a potential park and resort coming to this site? Please explain why.
1317	There is no Universal park or resort in Europe, there's a huge opportunity there! We need a serious rival to Disneyland Paris	Would you support a potential park and resort coming to this site? Please explain why.
3440	Think it will be great for job and opportunities and great for the uk economy	Would you support a potential park and resort coming to this site? Please explain why.
1999	This is a great thing to bring to the UK. The bizz even 2 hours from the site is amazing! Everybody is so excited.	Would you support a potential park and resort coming to this site? Please explain why.
573	This is going to be great for the United Kingdom I welcome this with full backing. Please build this great project!!!!!!	Would you support a potential park and resort coming to this site? Please explain why.
3555	Think it would not only be great for the UK but great for Europe. I have been to your Orlando park and miss the amazing time due to the expense of travel to the us. I love what you do and think it will be amazing if you go ahead. I will be signing up to a season pass.	Would you support a potential park and resort coming to this site? Please explain why.
3580	Would help with UK/European economy immensely.	Would you support a potential park and resort coming to this site? Please explain why.
1603	Would be the best theme park in the uk BY FAR. Definitely should go ahead, would be good for the uk	Would you support a potential park and resort coming to this site? Please explain why.
1413	Would be the best thing to happen in the uk for a long time and would be the best theme park in the uk. Universal are known for the care of guests and there parks and entertainment around them	Would you support a potential park and resort coming to this site? Please explain why.
869	Would be very good for the UK economy and local area as well as giving our town for of a name on a global scale.	Would you support a potential park and resort coming to this site? Please explain why.
533	would be amazing to finally have a universal park in the UK	Would you support a potential park and resort coming to this site? Please explain why.
3601	Would be amazing to have a park of this quality in the UK. The area is near my family's house and it has been unused for years and would be lovely next to the lake. Can't wait	Would you support a potential park and resort coming to this site? Please explain why.
956	Would be change for the better without getting rid of anything. This country needs something like this	Would you support a potential park and resort coming to this site? Please explain why.
1212	Will be great for the country	Would you support a potential park and resort coming to this site? Please explain why.
655	Will cause good competition within the theme park industry within the UK which is currently very 'stale'	Would you support a potential park and resort coming to this site? Please explain why.
3235	Why not ? I feel there would be considerable economics benefits , and brownfield sites would be returned to economic use.	Would you support a potential park and resort coming to this site? Please explain why.
1645	This would be the best thing to happen to the United Kingdom, it would bring so much money into the country and give people an opportunity to visit a universal park and generate visitors from all over in particular Europe. This is the most exciting thing to even think a universal park would come to the UK and i just hope our government push this through as it will be the making of our country and definitely something we need as it's in a bit of a mess at the moment.	Would you support a potential park and resort coming to this site? Please explain why.
1400	This would be transformative for the UK.	Would you support a potential park and resort coming to this site? Please explain why.
1159	This would be so great for the local economy and for the U.K. as a whole. In comparison to Europe the U.K. is way behind with regards to theme parks and a universal park would be so very welcome	Would you support a potential park and resort coming to this site? Please explain why.
2891	This would be fantastic for the UK economy and drive further innovation and competition in an otherwise monopolised UK theme park sector. A Universal resort in the UK would offer a themed experience unlike anything else in the country, giving the resort unique appeal.	Would you support a potential park and resort coming to this site? Please explain why.
1454	This would be fantastic for the UK. I live in Newcastle and travelling to theme parks means a long trek to either the continent or the US. This would be great as it would be a 4 hour trip for us. I really like the idea of it being north of London so its accessible from more of the country (the UK isnt just London). I'd love to be able to visit bigger better theme parks more easily and more often. Please please do it.	Would you support a potential park and resort coming to this site? Please explain why.
2830	This would be massive for the UK	Would you support a potential park and resort coming to this site? Please explain why.

1905	This would be a fantastic opportunity for the UK. As I've working in the theme park industry for 13 years, something like this would give the industry a boost and put us on the map as a place to visit. Plus it would give families who cannot afford to travel to florida or beyond a chance to experience a world class resort.	Would you support a potential park and resort coming to this site? Please explain why.
745	This would be a great investment for the UK. I live in Scotland and this would open travel routes to allow us scots to visit the park. I have spent many hours in your parks in the USA and have always had a wonderful experience. To have one of your parks in the UK would be fantastic	Would you support a potential park and resort coming to this site? Please explain why.
558	This would be amazing for the UK in every way	Would you support a potential park and resort coming to this site? Please explain why.
1144	This would be an excellent opportunity for the UK. It has the potential to bring tourists from Europe as well as providing opportunities for those living in the UK. There's also a wellbeing aspect. With high streets closing up and down the country, this would provide a large attraction that people can go and enjoy (and perhaps stay overnight). The UK needs this.	Would you support a potential park and resort coming to this site? Please explain why.
3369	This will improve the UK economy at large with benefits vastly outside just the local area. The UK theme park scene is also very stationary due to lack of competition for thrill rides and this will benefit everyone by encouraging existing competitors	Would you support a potential park and resort coming to this site? Please explain why.
1606	Uk needs this	Would you support a potential park and resort coming to this site? Please explain why.
2228	Uk needs this!	Would you support a potential park and resort coming to this site? Please explain why.
3433	This is an exciting opportunity for the UK, we definitely need something new in theme park section here, and this seems the best fit. I have read over the information provided and potential ideas and think it would be a mistake to not go ahead with this.	Would you support a potential park and resort coming to this site? Please explain why.
225	This will be an amazing opportunity for the UK. Unviarsal resorts offer an amazing experience, myself and my family are very much major fans so to have one so close to us will be phenomonal. The current theme parks that reside in the UK are fun to visit but are no way near the level of what Universal has to offer. If this project goes ahead we will definatley be Annual pass holders, although this will not deter us from still visitng the Orlando resort it will just mean we are able to get the exeperience of Universal in between trips to Florida. I myself would be extremley interested in a career working for Universal so am very much in support of the proposed project.	Would you support a potential park and resort coming to this site? Please explain why.
2795	This is exactly what the uk needs!!!	Would you support a potential park and resort coming to this site? Please explain why.
3389	This would be a massive win for the UK. Not only would it attract people from wider Europe but the amount of people living in the UK that would visit would probably be greater as the proposed location is central for the majority of people.	Would you support a potential park and resort coming to this site? Please explain why.
2776	We need investment in the country and having Universal arrive in the UK is a big plus for the economy.	Would you support a potential park and resort coming to this site? Please explain why.
3932	Would be a fantastic addition to the UK, bring lots of great investment.	Would you support a potential park and resort coming to this site? Please explain why.
1989	We need this in our country nothing like this ever before and can't wait	Would you support a potential park and resort coming to this site? Please explain why.
2196	We need a world class park in the UK it will boost the economy across the country. I live over 3 hours drive away and would visit several times a year, this would help the local economy thrive.	Would you support a potential park and resort coming to this site? Please explain why.
2019	we need another theme park so there is more competition to build bigger and better rides, also will be good for the UK economy	Would you support a potential park and resort coming to this site? Please explain why.
1369	We need a major theme park in the uk we don't have anything as big as universal. I also think this would be a great opportunity for the local area and the uk!	Would you support a potential park and resort coming to this site? Please explain why.
2305	There are a huge amount of benefits to having a resort of this scale in the UK. Especially with a company with a huge track record of success. The economic benefits speak for themselves. Not just for Bedford but the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2968	There has been a lot of new house building around the town of Ampthill where we live. During that time there has been an increase in the traffic in Ampthill causing frequent traffic jams. I would need more information to be sure that the new park would not increase this problem.	Would you support a potential park and resort coming to this site? Please explain why.
1220	There is a massive gap in the market in the uk of world class theme parks and attractions I would love to go to a universal park it would bring massive economic and tourist benefits	Would you support a potential park and resort coming to this site? Please explain why.

1493	There is very little for teenagers and young people to do in Bedford. They have to travel to nearby towns for entertainment which is not always convenient or affordable. To have a large theme park on our doorstep would be fantastic. It would provide a boost to the economy that Bedford desperately needs. There is very little industry here. This would attract tourists from all over the world and give business to local hotels, restaurants and might encourage more shops to open (the town centre is full of empty buildings where shops have closed due to low footfall with people buying online or going to other towns). Please go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
2409	This could be a huge positive impact on not just the local area's economy but the whole of the UK's. My family are fans of Universal having visited Orlando last year and are massively excited about a potential park on our doorstep and the opportunities it would bring.	Would you support a potential park and resort coming to this site? Please explain why.
1628	This country needs this. We love visiting Orlando so we would definitely be visiting regularly. I personally find UK theme parks not interesting so this may push them to upgrade too....Good competition	Would you support a potential park and resort coming to this site? Please explain why.
1119	This has the opportunity to be massive for the whole of the UK, it would benefit the whole country. Universal is a massive player in the entertainment industry, one which I personally love and visit in Orlando. This I feel would only make people want to visit Orlando even more.	Would you support a potential park and resort coming to this site? Please explain why.
4361	This is something the area and the UK badly needs. Gone are the days when other parks such as Merlin would bring exciting and new products. I have been to universal parks many many times and I know too well how great these parks and resorts are. I would also buy a season pass so I could use here and Florida.	Would you support a potential park and resort coming to this site? Please explain why.
1666	This is something the UK needs. The theme park industry has expanded massively over the last few years and has created a lot of competition. Its about time the UK is put on the map. Despite the fact we have companies like Merlin based in the UK, they are not in any way, in the same league. I also feel its about time those who can't visit Universal parks in other parts of the World were given the opportunity to experience your product. On another note our infrastructure is currently appalling and with your help we could turn this around.	Would you support a potential park and resort coming to this site? Please explain why.
3660	This is unique to the UK. Universal offers a product thats unbeatable and offers endless opportunities for its existing customer base in the UK and introducing new customers to the universal products and experiences.	Would you support a potential park and resort coming to this site? Please explain why.
3795	This part of the country would really benefit from Universal theme park and would bring much needed economic benefits.	Would you support a potential park and resort coming to this site? Please explain why.
3897	This part of the UK is lacking in a world class leisure facility, A park like this would also encourage additional investment by other firms to support leisure and entertainment in the area, overall a benefit to everyone.	Would you support a potential park and resort coming to this site? Please explain why.
1385	This project would be completely transformative for the UK theme park industry and would give theme park enthusiasts, such as myself, something to really celebrate in this country. It would also encourage other parks around the country to step up their game and invest more in their attractions to compete with a great project on this scale.	Would you support a potential park and resort coming to this site? Please explain why.
1529	To welcome a World renowned brand such as Universal Destinations & Experiences is a fantastic opportunity for the UK both for the economical benefits and for the excitement! The parcel of land near Bedford is a fantastic & accessible location that isn't too far from many major cities, international travel links & other established attractions (Woburn, Centre Parks, Bletchley Park etc) - perhaps the history & significance of the nearby areas could be incorporated into the design or storylines of the potential park. I would spend more time in Bedford if this project came to fruition!	Would you support a potential park and resort coming to this site? Please explain why.
1671	Universal are a World Class organisation. We love to visit the Orlando Resort and to have something similar in our country would be fantastic.	Would you support a potential park and resort coming to this site? Please explain why.
1854	Universal GB will help the British economy by enable more global tourists to explore our Universal like us brits do with the Orlando resort	Would you support a potential park and resort coming to this site? Please explain why.
819	universal is much loved by many uk residents. we have travelled to orlando over 10 times to visit the park there. and we have also been to california. there is nothing like this here, our theme parks don't compare	Would you support a potential park and resort coming to this site? Please explain why.
4025	Universal is such an amazing company with incredible attractions, and having a theme park in the UK will be transformative for the economy.	Would you support a potential park and resort coming to this site? Please explain why.
872	Universal is the best theme park developer in the world - to have them in the UK will be incredible	Would you support a potential park and resort coming to this site? Please explain why.
1114	Universal means a lot to me. It is my happy place. I am a passholder at the Orlando parks and visit multiple times a year. We need Universal in the UK	Would you support a potential park and resort coming to this site? Please explain why.

3227	Universal parks are exceptional, I want one in the UK to visit and also because of the the economic/social benefits this would bring to the local area	Would you support a potential park and resort coming to this site? Please explain why.
4957	Universal is a fantastic brand one which would benefit the full uk	Would you support a potential park and resort coming to this site? Please explain why.
3375	Universal resorts is a world class entertainment destination and introducing a park in the UK would provide excellent social and economic growth	Would you support a potential park and resort coming to this site? Please explain why.
1857	We've needed something like this in the UK for decades. You can see in Orlando just how many businesses in the local area have benefited. When I go I don't stay at Universal, I stay at a hotel off-site, and eat off-site at local, sometimes family run places. The people of Bedford are incredibly lucky and I'm very jealous but will certainly be getting a UAP!	Would you support a potential park and resort coming to this site? Please explain why.
1250	Universal Theme parks would be fantastic for the UK	Would you support a potential park and resort coming to this site? Please explain why.
1116	Would be good for local economy as well as the UK economy and visitors	Would you support a potential park and resort coming to this site? Please explain why.
4694	Would be fantastic for the UK and Bedford especially. Great location I can see why it's been picked. As a company you have been very transformative in other locations where you have built and this has been of a great benefit to everybody locally as you trait do know what you are doing with these projects.	Would you support a potential park and resort coming to this site? Please explain why.
4530	this is a big boost to the local area as well as to the UK economy	Would you support a potential park and resort coming to this site? Please explain why.
1763	This is a great opportunity for not only the local area, but also the country as a whole. We all love them parks here. As they are fun and support the economy. But my biggest reason for supporting your project is the wildlife impact. As we've seen from your global parks, your use of water, trees, plants and wildlife initiatives will create a perfect environment for nature. If you weren't able build here, it would become another site made up of distribution warehouses, which is terrible for the environment, as it makes the local area sterile. This isn't something we wish to see. But building a theme park has great potential for supporting the wildlife and allowing it to flourish, then in turn becoming more diverse.	Would you support a potential park and resort coming to this site? Please explain why.
3627	This will not only benefit Bedford but the UK and its theme park industry, bringing much needed investment and competition to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4749	This would be fantastic for Bedford and the country as a whole. As a theme park fan who loves Universal parks, this would be a dream come true	Would you support a potential park and resort coming to this site? Please explain why.
656	This would be fantastic for not only Bedford but the U.K.	Would you support a potential park and resort coming to this site? Please explain why.
3839	This supports not only Bedford but also the UK. The other theme park resorts in the UK are varied, but certainly not world leading	Would you support a potential park and resort coming to this site? Please explain why.
2054	The Universal brand is well loved in the US and across the world it would be a fantastic opportunity for the Bedford area and the UK as a whole to have a brilliant theme park for us to enjoy and also be a major employer .	Would you support a potential park and resort coming to this site? Please explain why.
3789	This project would have significant benefits to both the local community and economy.	Would you support a potential park and resort coming to this site? Please explain why.
3478	This could, without about, be the best thing for Bedford, Bedfordshire and the whole of the UK. It must go ahead	Would you support a potential park and resort coming to this site? Please explain why.
2102	This country deserves to have a development that can be embraced by all. Fully support the people of Bedford being supported through infrastructure so the park will become the heartbeat of entertainment	Would you support a potential park and resort coming to this site? Please explain why.
3637	This country is so miserable, we never get anything exciting. I have been to universal Orlando and if they could create a fraction of it over here then it would be a jewel in the crown. It would completely transform the area, Bedford is turning into a ghost town, this would do wonders for the local economy	Would you support a potential park and resort coming to this site? Please explain why.
154	This country lacks many things, one of them being a great resort destination. As you're very well aware us brits travel to Orlando a lot to visit your parks. I've spent my whole life growing up at your parks. They hold a special place in my heart with pure nostalgia. Disney never did it for me. You're a large corporation like Disney but you have a lot more soul. Love. And care. And it shows. I also believe that the introduction of more simple safe fun will make people genuinely happier.	Would you support a potential park and resort coming to this site? Please explain why.
2009	This is absolutely needed in the UK. The benefits or issues for the locals would be well outweighed by the fun, holidays, memories that the rest of the UK will be able to enjoy with this worldwide brand coming to the UK. The site is perfect and it needs to happen!!	Would you support a potential park and resort coming to this site? Please explain why.

674	We need more investment in this area due to so many traditional companies and business no longer existing. Covid and the Pandemic has done so much financial and emotional damage to so many - we need some positivity and something to look forward to	Would you support a potential park and resort coming to this site? Please explain why.
1604	This is such an exciting and huge project for the UK. The amount of people it would attract from across the UK and the huge draw of population from Europe's largest City (London) would be phenomenal. It would engage and excite the local community and bring much needed money to Bedford, an example of a town which often gets left behind compared to the big cities like London. The draw of visitors from Continental Europe as well as UK and Ireland would be significant and would also create an economic boost for the major cities as visitors travel to the UK and combine their trip with a visit to Universal. It could also utilise the amazing creative talent that exists in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
602	This park would be a fantastic attraction like nothing the UK has seen before, and creating a net positive effect on the financial and social environment in Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
2176	This project has the potential to positively transform the local area and transform the UK theme park industry	Would you support a potential park and resort coming to this site? Please explain why.
2819	This Project is nothing but POSITIVE for Bedford and the entire UK and Europe. We are all very excited for this and are just Praying that this goes through. Many people still are saying they won't believe it till they see it actually being built but I have lived in Bedford 35 years plus and NEVER seen a Buzz and Excitement for anything like this until now. You Build it and we will come in our thousands !!!! Let's get this party started !!!!	Would you support a potential park and resort coming to this site? Please explain why.
1566	This project isn't just going to benefit Bedford. It's going to benefit the United Kingdom and Europe greatly. It will put the UK on the map for having a theme park that does everything so right.	Would you support a potential park and resort coming to this site? Please explain why.
1207	This project would be amazing for the UK and also hugely positive for the area of Bedford. I would visit and re-visit this park many times	Would you support a potential park and resort coming to this site? Please explain why.
3841	Universal are a worldwide brand that will bring amazing opportunities for Bedfordshire, the local area and nationally. The benefits are countless.	Would you support a potential park and resort coming to this site? Please explain why.
554	Universal parks are the best I have been to and to have one in the UK would be a huge boost to the county and local area. To get to any really good, themed park people on the UK have to travel to Paris, which in itself is expensive. Alternatively we can spend thousands to travel over vast distances to the USA, China, Japan and on top of that we need hotels, food etc which for many can add up to £5,000 or more for a week away which is too much for millions of people to consider. Having a world class park like the one suggested for Bedford, would be huge for the people here. Also Europeans, who would need to spend similarly large amounts of money to simply get to the USA or Japan or wherever, would benefit from having easy access to what will be an amazing theme park here in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
1308	Yeah I'd fully support this resort coming to Bedford. It's a really good location. I think it would be great for local and national economical benefit. I can imagine, although probably a small number, but it would even appeal to international visitors who want to enjoy a universal park without having to travel across the Atlantic or to Asia.	Would you support a potential park and resort coming to this site? Please explain why.
1840	Universal Bedford would be great for England, UK and Europe. It would put Bedford on the map and offer a great experience for those to visit.	Would you support a potential park and resort coming to this site? Please explain why.
229	Universal parks provide an amazing experience but many people in the UK are either unable to experience them, or can only go once in their lifetime due to distance and cost. To have a Universal theme park within realistic reach would be amazing for so many people. It would also bring so much money into the UK economy via visitors from other countries and create so many jobs. The positive gains from this project are endless.	Would you support a potential park and resort coming to this site? Please explain why.
4725	Universal build world class resorts. if one is built in this area, it would boost the economy and offer not just locals, but people in the UK with job opportunities. It would also encourage more businesses to come here.	Would you support a potential park and resort coming to this site? Please explain why.
1821	I think this is a very unique opportunity for the the UK and the people of Bedford to bring a more premium theme park experience to the table. Nothing like this exists in the UK, and with a growing population who are already engaged with universal products its feels like a great fit. The majority of the land as it stands is previous farm land devoid of wildlife. I'd like to see Universal partner with local rewilding organisations, to really focus on rewilding the local area. Creating habitats, such as wetlands, using as many native trees as possible, and pollinating plants for pollinators across the resort. This resort would bring a lot of wildlife back from the brink, combined with a really exciting product.	Would you support a potential park and resort coming to this site? Please explain why.
1146	I am unsure about the project, weighing up the energy brought by employment opportunities against the loss of green spaces, wildlife disruption, inevitable litter and pollution created by the centre	Please share any other feedback you have at this stage

3597	Love everything about it including all the ways your going to help the environment and the local jobs it will bring 10/10	Please share any further feedback you have at this stage.
5485	To have Universal Studios create a park on our door step would be incredible. No theme parks currently in the UK live up to the theming standards that Universal Studios (and Disney dare I say it) provide. This theme park has the potential to bring tourists in from other countries specifically to visit this park (if done right) which could only mean good things for our economy.	Please explain why
5505	I love the idea and would be extremely happy if this project goes forward. I have been a lifelong fan of Universal theme parks and having one in the UK would be fantastic!	Please explain why
5508	We really need a Universal Resort in the UK, something outstanding and different from the other themeparks. It would be world class and you would get a lot of business.	Please explain why
5519	I love themeparks and it be amazing to have a universal park in the UK and so accessible	Please explain why
5525	I think that the UK needs a world class theme park and resort. It would be a huge boost to both the local and national economy, draw tourism, give British people an top tier entertainment option which is currently lacking. Me and my family have visited the parks in Orlando, Florida for the entirety of my life and I see having a Universal park and resort in the UK as a huge attraction. Me and my family would definitely visit this park on a regular basis. It also provides an opportunity for many families in the UK who can only access lower-quality leisure facilities and theme parks due to the steep cost of travelling either to the USA or France to experience a world class theme park resort, with the opportunity to visit such quality in their own backyard.	Please explain why
5533	The UK has been one-tracked with Merlin holding hostage to the biggest theme parks in the UK. While these do have decent funding, they lack creativity and theming. I have visited Orlando to go to Universal on 5 separate occasions and there's just nothing like it outside of Disney parks. Universal parks are not only a great place to go for all ages, they also look amazing. You very rarely see a person looking sad inside a Universal theme park and I think the UK could do with a lot more places to be happy.	Please explain why
5542	This is something sorely missing in the UK, and the centre of the UK is missing anything like this at all. The fan base is also huge.	Please explain why
5547	Theme Parks and Resorts are great catalysts to regeneration. The importance of leisure and entertainment to the economy of a country is often overlooked and misunderstood; it has become a much more significant element in recent decades. Having a name like Universal in the UK will boost the whole sector, raising the profile and the economy.	Please explain why
5550	I believe it will bring a new life to the UK tourism industry and allow for development across the UK theme park industry as a whole which will improve the experiences that all end users have.	Please explain why
5557	It would be great for the uk	Please explain why
5573	The growth for the local economy will be a great factor for the area, which is already well situated for a project of this scale. In addition, based on the current Universal portfolio, it will bring world-class entertainment and attractions to the UK, and make it much more accessible for families who cannot afford to travel abroad.	Please explain why
5580	Would be great for the local and nation economy, and as I live so close it would be amazing to visit often! I love the Universal theme parks I've been to and to have a resort of that calibre on UK soil would be fantastic!	Please explain why
5582	This could be a major boost to the UK's economy and also morale. We are also a major contributor to Theme Park tourism across the USA and Europe (I have visited Orlando on nearly 30 occasions), yet our domestic entertainment leisure facilities leave much to be desired. I firmly believe that building a park in the UK would be incredibly successful in all aspects, even more so as I think you have picked a great site, that whilst being close to London focusses on the UK as a whole.	Please explain why
5592	The UK needs a new and up-to-date theam park and needs something on the scale of universal. This will bring foreign tourist and money into the area growing the economy and be much needed competition to Disney land Paris.	Please explain why
5597	It will be great to see such a large project come to the UK. Boosting travel & tourism and helping to grow the economy.	Please explain why
5599	Because Its A Very Great Site And I Wanted An Universal Park In The UK For A Really Long Time	Please explain why
5600	The UK is crying out for a great theme park. Paulton's is too far for those of us up North. Alton Towers is hard to get to via public transport. I cannot afford to take a trip to Orlando in school holidays, but could afford to take the family to visit Bedford. It will also be a great pull for overseas visitors to visit the UK, more tourism.	Please explain why

5621	Great for the local economy and the UK in general. On a personal note I loved Universal when visited both parks in Florida and was lucky enough to be old enough to experience/remember Kongfrontation and Jaws the ride :-) ... please build a Jaws ride in the lake haha	Please explain why
5625	We visit universal in Florida every year, we think it would Be a great opportunity for the area to have this park. It is well run and hopefully would be run the same here, the current uk parks are not run nearly as well.	Please explain why
5609	We love going to Orlando and visiting the parks there, so it would be great to have one locally, particularly if the residential passes were in line with Orlando's and the road infrastructure is suitable and doesn't impact on local residents.	Please explain why
5640	Great for local economy and the UK as a whole	Please explain why
5643	We need something new in the uk	Please explain why
5647	The UK needs and deserves a world class theme park resort. Building in this location would be perfect as it is easily accessible and it will provide a much needed boost for the area.	Please explain why
5649	A resort like this is decades overdue in the UK in what is a theme park loving nation. I'm sure if Universal push ahead with this it will be the most popular park in Europe within a decade of opening.	Please explain why
5652	I am a member of the RollerCoasterClub of great britain and i have visited several parks around the UK and the world and been to both your resorts at Hollywood and Orlando and I have watched the building of Epic Universe and i only hoe the wonder of Universal will be coming to Bedford as this is 20 minutes from where i live - I would be there nearly every weekend I would think !	Please explain why
5657	We absolutely loved the Universal Parks in Florida and would love to have one here in the UK. We would be regular visitors. The UK really needs a resort like this, it's something we're missing. It will be a huge attraction for people from the UK and for tourists and I know it would be a flying success!	Please explain why
5660	Universal is a world leader in creating theme parks/resorts and would be a major catch for the UK to get.	Please explain why
5664	The U.K has been waiting for this for a long time! Waiting for a significant, world class resort that can be enjoyed by residents and international visitors alike. One that inspires, ignites imagination, provides a safe, exciting experience for all and celebrates the rich artistry and story telling of the world-class studios that is Universal and the U.K. There is such a deep culture for enjoying theme parks and resorts here, evident from the amount of us that visit the Florida parks and Disneyland Paris even multiple times a year! Sure we have Alton Towers and Thorpe Park which mostly satisfy theme park enthusiast and provide a fun day out but just don't compare to the experience in the Florida Parks. I truly believe this park will be deeply embraced and become a jewel in the UK entertainment/resort/theme park/creative offerings. We could really use some Universal Studios super powers over here and we'll rise to meet you.	Please explain why
5667	I've been to all your other sites and am excited about one coming to the UK	Please explain why
5672	This is not just brilliant for Kempston this is brilliant for the whole of the UK and Europe there is nothing but positives just built the park already please	Please explain why
5680	Its something the UK haven't done before and its a way of experiencing a new and different theme park to the ones we already have, a lot of people will go to and i would personally go to it a lot as its close and i love the universal studios in the US so it would great to see it come to here.	Please explain why
5694	As said previously not all families are able to travel abroad for many reasons like disabilities, finances, being a larger family, so something like this in the UK would be so wonderful for everybody to experience	Please explain why
5736	I feel it's something the UK really needs, and would be transformative to our area. So many possibilities that can be achieved with this potential park. I would much rather see something entertainment based be built than the huge amount of housing and industrial sites that appear all the time in our country. Since this has been announced the excitement from everyone I speak to is real and if this doesn't go ahead would be a huge opportunity wasted in my opinion	Please explain why
5747	The UK needs something new and exciting for families the closest thing to rival such a project is disney Paris which is out of reach for some in the UK.	Please explain why
5754	Amazing opportunity for the uk	Please explain why
5759	I've seen the attractions in California and Osaka and feel like they would be fun. I've seen how much Alton Towers does for the local economy in Staffordshire and think it would be great for Bedfordshire. Also the chance for there to be perhaps a Harry Potter theme park in the UK would be amazing.	Please explain why
5772	Fantastic opportunity for the UK that is too good to pass	Please explain why
5818	UK need investments and in order to increase our GDP. We need to create wealth and this is an opportunity to be considered.	Please explain why
5862	Love universal and think it is great for Bedford and the uk	Please explain why
5871	Everything mentioned above. A project like this has been long overdue for the UK	Please explain why

5918	Bedford is quickly becoming dead-ford. We need a new lease of life! Plus it would be amazing to have a park in the UK and even more exciting to have it so close to our doorstep. It would be extra beneficial to have it so close to the Woburn Centre Parcs!	Please explain why
5939	I feel it would be a fantastic thing for Bedford and the UK as a whole to have a Universal on our doorstep, within easy reach of a significant road and rail network.	Please explain why
5971	Love Universal. Have visited both Orlando and LA Universal Studios and having one here in the UK would be incredibly exciting. We would definitely be visiting regularly. There only seems to be positives to the local area and the UK as a whole.	Please explain why
5972	The UK tourism needs something new, and something different. I'm a regular visitor of UK and US theme parks, and one thing I've always wanted is the level of detail you get with the parks across the pond. It's a great central location, and even for someone like myself who lives roughly 2 hours drive from the site, I would happily travel on a weekend to visit. I also live in hope the park will bring along with it special seasonal events which we lack in this country. Halloween Horror Nights, Mardi Gras etc.	Please explain why
5977	Would be a massive boost for not only Bedford but the UK as a whole. Something new and exciting for the UK on this scale would make it a focal point on the world stage for visitors far and wide.	Please explain why
5985	I travel to universal Orlando. It would be a game changer for me to have a universal park in the UK. I would definitely visit the park more frequently.	Please explain why
5986	The uk needs this, there is nothing that comes close to universal studios and it can branch out to other countries why not the UK? It's a brilliant idea for the economy and for universal	Please explain why
6000	The theme park industry is a great place for tourism and is something enjoyed by 1000s here in the UK many other theme parks already being here. It's also a great opportunity for others who work in the industry look to apply for a new role in a fantastic and well known company!	Please explain why
6004	There is nothing of this kind in the UK and to have it on my doorstep would be amazing. It will enable young families who are unable to afford Orlando to have that one in a lifetime experience.	Please explain why
6007	The UK needs a world class theme park and Universal is the best of the best	Please explain why
6013	Great news for the local area and economy plus a Harry Potter theme park in the UK where the books are based.	Please explain why
6014	Having been to the universal park in Orlando I already am a big fan of your theme parks. Having one in the uk is a very exciting prospect ! Sustainability and cost of living are real struggles at the moment and am glad to see this is focused in your proposal and hope to see it continue during the planning and construction phase. Having been to most of the theme parks in the UK, whilst I enjoy them all, there are not many that can be easily accessed by train and walking so having two stations close to the park entrances would be amazing to allow for myself and the rest of the public to not have the stress of driving there.	Please explain why
6015	this park is some thing the uk desperately needs, we have an amazing creative culture and a very big tourist market this will add and grow it for the whole uk.	Please explain why
6022	Massive fan of Universal Studios. I visited your Park in Hollywood. Absolutely thoroughly enjoyed it and to hear that one could potentially be coming to the UK has me extremely excited. I really hope this happens.	Please explain why
6039	The UK has been waiting for something significant like this, we also look to USA to provide this type of experience and themeing and would be incredible to have something here. I live about 2.5 hours away and would be prepared to travel alot to visit.	Please explain why
6044	The UK is somewhat popular however with the presence of a globally successful theme park brand having a site in the UK and away from the usual locations such as London, will encourage people to visit more of the UK	Please explain why
6050	Would be amazing for the UK Tourism and be amazing for Families that can not afford to fly over seas	Please explain why
6055	The uk theme park sense is getting stale as we only really have one major player who owns most of the parks it be really nice to see a huge name enter our country and finally make us a park we all want and also create some competition finally in the uk.	Please explain why
6056	I this could be one of the biggest and best things to happen to the UK in a long time. After brexit, we need help to build up the UK economy again and this would be a huge help.	Please explain why
6069	Very excited about the prospect of having this resort in the uk	Please explain why
6072	As there is nothing like it currently in the UK and it will be a monumental addition to the UK and another reason to visit.	Please explain why

6073	I think this would be very beneficial to the area and help with the levelling up across the UK. It's in a great location for most people in the UK to travel to. This would also be a boost for tourism to the UK helping the economy. I strongly support the plans for this project. I live 2 hours away from the proposed restore but would definitely plan to visit 2 or 3 times a year.	Please explain why	
6078	As a UK resident, the idea of going all the way to Orlando is an exciting but rather expensive one. As a fan of theme parks I love the idea of going to Orlando, however, its not easy given how expensive it is. The idea of having A Universal park in the UK would provide such an excellent alternative to Orlando and not to mention it would really give the existing theme park industry in the UK a more worldwide appeal.	Please explain why	
6080	I love universal Florida and want it to be in the UK	Please explain why	
6081	This project has the potential to transform not only this region, but much of the UK. For too long, we have felt we often get 'second best' when it comes to attractions outside of London, so to have a 'world class' level theme park in the country feels long overdue, but ironically also feels too good to be true. There are thousands of skilled and very willing potential employees in the area that would jump at the opportunity to work on this project (myself included), and it is perfectly located to draw in local talent as well as easily commutable for those further afield. This project will bring so many new eyes to Bedford and it's surrounding towns and cities.	Please explain why	
6086	Great to have another park in the UK, bringing the attractions that have been in other countries closer so we can access them with far more sustainable transport	Please explain why	
6091	It is very important to bedford and it's residents. Also Bedford is in central geographical location which can be accedes by any part of the UK or world where Luton is clos airport	Please explain why	
6092	A new universal park, a particularly with the IPs available could be transformative to the entire UK theme park business. It would increase competition and expectations. It will bring more theme park lovers to the country and on top of this ' we want Harry Potter world!	Please explain why	
6097	It would be amazing for the local and national economy of the UK and Bedford.	Please explain why	
6098	The UK desperately needs a decent theme park. All the merlin ones are poorly themed and closed at 4pm.	Please explain why	
1568	Britain needs a theme park of universals size and scale similar to the United states	Would you support a potential park and resort coming to this site? Please explain why.	
963	An immersive resort would be a game changer to have in the U.K. and it would be amazing to have universal's offerings here. There are so many universal worlds/licenses set in the U.K. and would be incredible to experience an immersive resort here and show the U.K. how to do a theme park properly!	Would you support a potential park and resort coming to this site? Please explain why.	
1630	As a theme park enthusiast, I feel that the UK is crying out for a world class theme park and it would provide a massive economic and emotional boost, post-pandemic.	Would you support a potential park and resort coming to this site? Please explain why	
1926	As a theme park enthusiast it be a fantastic addition to the theme parks we have in the uk. There nothing in the uk which is comparrisable to universal or disney park. It would increase tourists to the area and uk as a whole.	Would you support a potential park and resort coming to this site? Please explain why	
2362	As a uk coaster enthusiast, it's always been a dream of mine to visit a universal park. But it is so tricky and expensive to get to visit one of the existing parks. The UK is a huge hub for coaster enthusiasts, and always has been. It would be nice to put us on the map as a place to visit.	Would you support a potential park and resort coming to this site? Please explain why	
1575	As someone who has always wanted to visit a Universal resort but not been able to afford to travel to one, having one in the UK would be fantastic. I believe many people in the UK and Europe would feel the same. This would transform the theme park and resort scene for the UK.	Would you support a potential park and resort coming to this site? Please explain why	
1222	As the UK needs a well themed attraction which will create a buzz around the theme park community	Would you support a potential park and resort coming to this site? Please explain why	
977	As we have been to Universal in Orlando many times and have been annual pass holders in the past, us as a family love the concept of the Universal parks and we would definitely use this park/s if I did come to the UK as it will be less than an hour away, we would also look at becoming annual pass holders too	Would you support a potential park and resort coming to this site? Please explain why	
635	As well as creating significant economic benefit to Bedford it will also boost the entire UK. As a Universal fan and annual passholder to your Orlando resort I would visit this resort regularly despite living a significant distance from Bedford as this would give me my "Universal fix" when I am not able to get over to Florida.	Would you support a potential park and resort coming to this site? Please explain why	
2161	As you have mentioned before, you do not have a resort in Europe, and the UK is a perfect place for it and especially Bedford, with its connections to the rest of the country. It would bring more tourists to the UK and would also help local businesses. The UK does not have a theme park or resort on this type of scale, and us Brits do love a theme park, as many of us (including myself) have travelled to Orlando.	Would you support a potential park and resort coming to this site? Please explain why	

2337	Because I believe a large theme park like Universal would be very beneficial for UK	Would you support a potential park and resort coming to this site? Please explain why
3581	Because I know it will help make the UK more of a destination. It would benefit so many businesses, help provide more incentive for other UK theme parks to invest more in their own parks which is necessary. This park would help push the limits of theming, ride engineering and ride design. And it would truly be amazing to see a brand new world class theme park.	Would you support a potential park and resort coming to this site? Please explain why
1102	Because I love Universal studios and already went to Orlando since 2010. Unfortunately I live in the Netherlands, so it takes some travelling. Once every few years I either go to the USA or the UK on vacation and always bring my camera with me to take my audience on my adventures (my vlog called the XXX on Youtube). To show what's fun and new.	Would you support a potential park and resort coming to this site? Please explain why
2442	Because I'm a huge fan of Universal Orlando and theme parks as a whole. Having a world class theme park here in the UK that would potentially draw in tourists from all around the world, would be a dream come true.	Would you support a potential park and resort coming to this site? Please explain why
1257	Because it would be fantastic for not just the local area but for all surrounding areas. I feel that the UK would hugely benefit from a well established and brilliant theme park such as this. Please go ahead!	Would you support a potential park and resort coming to this site? Please explain why
1721	Because it would be transformational to the local area, but also to the UK as a whole. However, it would need to be created with the local wildlife in mind. I would not support the park/resort if it was to Subject wildlife to poor welfare or persecution.	Would you support a potential park and resort coming to this site? Please explain why
625	Because it would make me go to the UK and visit the theme park from Germany	Would you support a potential park and resort coming to this site? Please explain why
3450	Because it would refresh the UK offering of theme parks	Would you support a potential park and resort coming to this site? Please explain why
1527	Because it's new and refreshing compared to the current parks in the UK and would give people another option who cannot travel to a Universal park elsewhere.	Would you support a potential park and resort coming to this site? Please explain why
1951	Because we love Orlando Universal and we go every year so would be nice to have a local one. It would also be beneficial to have a lot of indoor rides/rollercoasters especially in the UK due to weather, then it could operate 365 days of the year like the Orlando one.	Would you support a potential park and resort coming to this site? Please explain why
1708	Because we need a theme park of Universal quality in the UK with more indoor based rides that could operate all year	Would you support a potential park and resort coming to this site? Please explain why
1573	Been to many a Universal park and it would be a perfect location for a. Theme park in the UK	Would you support a potential park and resort coming to this site? Please explain why
2188	being a big Universal park fan of the Orlando parks and make regular visits to the parks to have something of this scale in the UK would just be amazing as all covered in the presentation. The way Universal is engaging with the local community and the bigger picture other than just a theme park is so positive and I fully support the project.	Would you support a potential park and resort coming to this site? Please explain why
1123	Brilliant to see an international company as big as Universal potentially investing in the UK. Also exciting as someone who enjoys visiting Universal theme parks and would love to not have to travel to another country to do so.	Would you support a potential park and resort coming to this site? Please explain why
1050	Bring money to the area. Put UK back on the map	Would you support a potential park and resort coming to this site? Please explain why
2005	Bringing world class experiences to the UK and improving the areas infrastructure	Would you support a potential park and resort coming to this site? Please explain why
3733	Britain has needed a world class theme park for a long time and I'm sure that there is a lot of enthusiasm for such a project to be green lit. As a UK resident and someone who has visited Universal Studios in Orlando it is clear that current UK theme park offerings are not in the same league with a lack of indoor/large scale leisure destinations in operation for the type of climate we have in this country. I think having a Universal Studios theme park would naturally create healthy competition for other theme park operators which would only benefit the citizens of the UK. I truly hope this project materialises as I would love to have the convenience of staying at a Universal Studios resort in the UK with my family.	Would you support a potential park and resort coming to this site? Please explain why
1848	But only if Universal but with unique British attractions and making the park fit with our culture and are heritage like for example using things the UK knows and focusing on how things are different than the states and that you have to make appeal to all the British public like with flowers and gardens as you need to appeal to everyone in a family otherwise you would lose potential customers think ages 0-99	Would you support a potential park and resort coming to this site? Please explain why
4783	Current UK theme parks are bad. Better competition, better theme parks.	Would you support a potential park and resort coming to this site? Please explain why

3258	Currently, as a parent, my children cannot visit Universal Studios outside of the UK. It would be advantageous for my children to experience the excitement of the park, which is renowned in the US, here in the UK. One particular attraction we are eager to explore is the Wizarding World and Super Mario Land.	Would you support a potential park and resort coming to this site? Please explain why
3540	England needs something like this. I live in the North West of England and Alton Towers is the nearest theme park to me but as I don't drive I can't there as there aren't any direct transport links. It would be much easier, and quicker, for me to travel to Bedford. I feel that personally I miss out on so much by not being able to go to theme parks and associated venues so we need more in the UK	Would you support a potential park and resort coming to this site? Please explain why
4754	Europe is missing a Universal resort on a grand scale. The proximity to London airports and popular theme-park scene in the UK would make this park a huge success.	Would you support a potential park and resort coming to this site? Please explain why
1622	Excitement aside, everything so far seems to be logical and thought-out. Universal feels so passionate about the project and the UK as a whole. The local and wider population heavily support the proposals with a project to reinvigorate the UK as a worldwide destination. The UK is a unique destination, with a diverse culture and history many would be thrilled to share with guests who visit worldwide. Having visited the Universal Resort in Florida the quality of the resort is a product absent in the UK.	Would you support a potential park and resort coming to this site? Please explain why
4189	Exciting to have a large park in the uk	Would you support a potential park and resort coming to this site? Please explain why
3547	Fan of universal studios Florida. cannot afford to visit often enough but having a resort in the uk would allow for frequent visits	Would you support a potential park and resort coming to this site? Please explain why
816	Fantastic for the UK and local communities	Would you support a potential park and resort coming to this site? Please explain why
3981	Fantastic project and much needed in the UK to change the theme park and resort game (given the current stale, non themed parks)	Would you support a potential park and resort coming to this site? Please explain why
4516	First of all, i would like to thank you for even considering a UK Theme Park Resort - we have been let down by many other theme park operators over the years who have looked at UK sites and then gone to other countries. As a big Universal Theme Park fan, i would be very excited to become an annual pass holder and attend the resort regularly. As you mentioned in your information pack, no other UK theme parks come close to what Universal Theme Parks achieve. It would be a dream come true for Universal to come to Bedford. I hope you will work your hardest to hopefully see the project become a reality. It would be truly EPIC (Epic Universe reference! - also looking forward to visiting Orlando for that too!) If you would like to discuss any of my recommendations please get in touch.	Would you support a potential park and resort coming to this site? Please explain why
4217	From a theme park industry point of view, any Universal proposal will be levelling up the UK offer for theme parks and attractions at a national level, bringing not only a new entertainment offer for tourists but also improving the industry within the island as a whole.	Would you support a potential park and resort coming to this site? Please explain why
3707	From the UK it is costly to travel to universal resorts around the world and takes a long time. I would love to be close to a universal park! Particularly as a content creator.	Would you support a potential park and resort coming to this site? Please explain why
4818	I have been visiting universal studios in Orlando since 1999, bringing it to this area would be such a huge boost to the area and much needed injection of entertainment.	Would you support a potential park and resort coming to this site? Please explain why.
2145	I live 5 hours away from this site and you have my backing 100% as I would plan to stay onsite in the hotels to immerse myself in the universal experience. Just to have a Universal anywhere in the UK would be fantastic.	Would you support a potential park and resort coming to this site? Please explain why.
1667	I doesn't live in the area but I have visited Universal Orlando and currently have an annual pass. Universal Orlando resort is fantastic and for a similar project to come to the UK would be amazing for our country	Would you support a potential park and resort coming to this site? Please explain why.
3727	I doesn't want to go all the way to The USA and it's much closer to home in the uk!!! It would be a dream come true. Please make it happen	Would you support a potential park and resort coming to this site? Please explain why.
2381	I just feel it's a great opportunity for the local area and also for the U.K. as it will bring in so many visitors from U.K. & Europe	Would you support a potential park and resort coming to this site? Please explain why.
1922	I just think it would be a really exciting opportunity. Firstly having experienced Orlando 3 times I recognise the quality in the rides, attractions and experiences that come. But as well the development of this. And as mentioned in the briefing it is based on immersing people into the stories. It isn't just doing a generic coaster and then slapping on a name saying Harry Potter and the Quidditch Match". I also just think its going to be a good opportunity for this country and I think it would make me want to come to the resort."	Would you support a potential park and resort coming to this site? Please explain why.
1753	I believe the project would provide substantial social and economic benefits and provide opportunities for people to attend a universal park if they doesn't have the ability to travel abroad.	Would you support a potential park and resort coming to this site? Please explain why

743	I feel Bedford is ideally placed to host this park, and the town would really benefit from the economic uplift this would bring.	Would you support a potential park and resort coming to this site? Please explain why
3920	I feel Bedfordshire could benefit from and transform the area economically.	Would you support a potential park and resort coming to this site? Please explain why
1594	I feel like Europe and the uk can benefit from a universal park that is local. Bedford it a good location as it is not too far from london	Would you support a potential park and resort coming to this site? Please explain why
1023	I feel like the UK is missing a major park and would definitely be a repeat returner to a Universal Park in the UK	Would you support a potential park and resort coming to this site? Please explain why
1466	I feel that Bedford has lots of potential for a theme park due to its location in the uk.	Would you support a potential park and resort coming to this site? Please explain why
1396	I feel that it would bring a lot of opportunity to the area and to England. England doesn't have anything of this scale or reputation currently. It would be great to have something of this scale in England.	Would you support a potential park and resort coming to this site? Please explain why
4225	I feel the job opportunities will provide lots of benefits to young people locally. It will also have a huge economic impact that the town is in desperate need of. With lots of fairly recent developments in Milton Keynes and Rushden Lakes many businesses in the area have suffered with huge loses and closures. The project will provide stability for many of our local businesses struggling to compete with surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why
3817	I feel the land should be put to good use and this will create more job opportunities for locals and something fun and exciting to have on our doorstep would be amazing. So very excited.	Would you support a potential park and resort coming to this site? Please explain why
3680	I feel the market for a new theme park in the UK is so open especially when Merlin Entertainments have such a firm grip on the industry - I feel universal can bring out not only the best in having a park in the UK but bring out the best of other parks in the UK as well	Would you support a potential park and resort coming to this site? Please explain why
2340	I so hope this project goes ahead, we have theme Parks in the UK but nothing on the level of universal, I have only had the opportunity to go to America once as I have always wanted to visit and will hopefully visit again. To have this on our doorstep will be amazing for us as universal fans as well as theme park enthusiasts. This will also be great for our economy as will bring people worldwide to the uk. It will be truly unimaginable to be able to go to universal on a regular basis instead of having to plan or save for long time to go to America. Please make this happen ðŸ™•.	Would you support a potential park and resort coming to this site? Please explain why.
3176	I spent much of my career working to help grow Bedford's tourist economy, discovering what made the area special and developing themes and initiatives to bring tourists to the area. I now work in infrastructure delivery but I'm still passionate about the county's visitor economy.	Would you support a potential park and resort coming to this site? Please explain why.
2879	I think a Universal Park is something that would bring thousands of people to Bedford, contributing to the economy, not just local people but across the whole country and even abroad. The main attractions we have are the current Merlin Attractions and other theme parks. Universal would bring something different and refreshing that not only would aid Bedford but would be an anchor of excitement and amazing experiences that people would want to have over and over again. Not to mention being close to the Warner Bros Studios and London alone would drive many people to the theme park	Would you support a potential park and resort coming to this site? Please explain why.
3843	I think it would be a great opportunity for the economy	Would you support a potential park and resort coming to this site? Please explain why.
4282	I think it would be an exciting addition to our local area and would be great for our local economy. I also would consider buying annual passes for me and my family if they are reasonably priced.	Would you support a potential park and resort coming to this site? Please explain why.
407	I think it would be excellent for the local economy, and also for nearby towns such as Northampton and Milton Keynes.	Would you support a potential park and resort coming to this site? Please explain why.
3695	I think it would be fantastic for the local economy - putting us on the European map - and I'd also love a Universal on the doorstep. This is a diverse and multi cultural town that has always welcomed immigrants and it would be equally welcoming to tourists.	Would you support a potential park and resort coming to this site? Please explain why.
4773	I think it would be good for the local economy and good for young people to have somewhere to go and work opportunities	Would you support a potential park and resort coming to this site? Please explain why.
3862	I think it would be great for the local economy (as long as there is an improved infrastructure to support it).	Would you support a potential park and resort coming to this site? Please explain why.
4557	I think it would be great for the UK economy as a whole, not just for Bedford.	Would you support a potential park and resort coming to this site? Please explain why.

306	I think it would be great for what locals need - somewhere fun to go. It would massively improve wellbeing and social life. Not even just the local area but the UK. I think you should offer UK resident rates for annual passes and ensure you follow equality and disability legislation for carers passes. I think this will massively improve the economy both local and national and I feel that it has very few negatives. I really support this project and hope it gets approval. The park would be well used year round by UK residents alone, never mind tourists!	Would you support a potential park and resort coming to this site? Please explain why.	
3079	I think it would be really great for the economy of the local area ... as long as local infrastructure is updated to cope with the increase of traffic/people	Would you support a potential park and resort coming to this site? Please explain why.	
3392	i think it's a really cool thing and could really help bedfords economy although you will need to put a lot of money into the environment at the same time	Would you support a potential park and resort coming to this site? Please explain why.	
793	I think that this will be amazing for the local economy. I love the location. It's not local to us, but it's great that it's in such a central location. I also think it is great that the Merlin parks will finally have some competition as they are not as good as they once were.	Would you support a potential park and resort coming to this site? Please explain why.	
2886	I think that this would be exceptional for the UK economy, let alone bedfordshire. The UK has never seen any entertainment facility to this level, so building the resort would be incredible for locals, as well as fans that come from far and wide. The links to Europe would be great, which would ultimately do amazing things for the country, the local area and job seekers.	Would you support a potential park and resort coming to this site? Please explain why.	
3123	I think the area needs a refresh, the local economy needs a push, local services need investment - it would make the town busier and hopefully a more exciting and prosperous place to live. If you doesn't build on it, it'll just become another housing development.	Would you support a potential park and resort coming to this site? Please explain why.	
COMMENTS ON THE INCREASED TOURISM THE PARK COULD BRING (529)			
ID	Comment	Survey question	Response
285	More visitors in the UK from around the world universe is big around the world	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX is pleased to see all the support for the additional tourism the Proposed Development could bring to the UK. UDX's theme parks and resorts draw tourists from all over the world. UDX would expect to attract a mix of local people and domestic and international tourists. Many of its visitors stay in the local area around its theme parks, providing a boost to the local economy.
540	Opportunity for UK - economic and tourism benefits.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
594	Raising the profile of tourism outside of london	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
778	Driving transformative local tourism and business locally	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
948	Creating tourism benefits	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1138	We need a high-quality theme park and tourism destination in the UK desperately.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1437	Good for the tourism	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1472	Creating a unique experience locally that can drive tourism and dreams for years too come!	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1666	Increasing worldwide tourism too and improving the train infrastructure.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2113	General UK Tourism boost	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2271	Increase GB tourism	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

2385	Attracting tourism to Bedford	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2889	There is nothing on the scale of what Universal can provide elsewhere in Europe. Creating tourism benefits to the UK.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3191	Creating a park which can show Bedford + UK on the map as a theme park zone (Linked to tourism)	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3331	Improving the appeal of the UK for tourism (which this will!)	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3598	Bringing a world class theme park to the uk will challenge the competition to up their game leading to the UKs tourism to increase across the whole country	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4255	UK tourism destination	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4413	Creating more tourism in the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3528	Drawing more tourists and visitors to the area. Also excellent local fun.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3487	Creating a unique tourist destination	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
106	The UK is far behind others when it comes to a theme park that exceeds the expectations of it's guests for example your Orlando resort. This will provide many families the opportunity to experience the Universal parks without the majority price tags of flights and hotels by flying abroad to experience this.	Would you support a potential park and resort coming to this site? Please explain why.	
110	We live nearby in Milton Keynes, which has great attractions but Universal would take this to the next level, and bring more visitors to Milton Keynes and other nearby towns.	Would you support a potential park and resort coming to this site? Please explain why.	
139	I have visited universal studios in Florida when I was a kid, unfortunately I am unable to take my child to experience it so to have something like this within travelling distance would be amazing	Would you support a potential park and resort coming to this site? Please explain why.	
625	Creating a touristic destination with a reason to travel to the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4423	, That the park be a credit to the local area and would bring tourists to St Neots as well as Bedford.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2312	Providing UK and wider afield with an attraction for visitors	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2249	Entertainment for people and hopefully bringing businesses back to Bedford	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4939	How lovely it will be to have people from all over the world visit Bedford.	Please share any other feedback you have at this stage.	
1206	I believe this would not only have huge local benefits but national ones too. With tourism to from abroad and also job opportunities for people all over the country to be able to work in a Universal resort, which is something even myself am excited over the prospect of	Would you support a potential park and resort coming to this site? Please explain why.	
796	Great for tourism	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

4531	This sounds like it would be a great boost for UK tourism and the economy	Please share any other feedback you have at this stage.	
2312	Employment ,prosperity and attraction for UK residents	Would you support a potential park and resort coming to this site? Please explain why.	
2875	Employment opportunities, improve transport links, increase leasure opportunities within the area	Would you support a potential park and resort coming to this site? Please explain why.	
2746	Employment opportunities, improving the local economy, bringing tourism to the area	Would you support a potential park and resort coming to this site? Please explain why.	
946	100 percent yes, for many reasons , like It is an excellent opportunity for bedford to grow as a town and bring more tourists in.	Would you support a potential park and resort coming to this site? Please explain why.	
5413	Raising the profile of Bedford globally as a town of innovation	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5153	Creating more leisure and tourism opportunities	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
157	Work will need to be done with the over subscribed local hospital/ considerations to medical centres within the resort for people in the area. I live between Luton airport and the site and considerations will need to be made to the level of traffic around Silsoe/ clophill on the A6 as this can be quite busy. Local discount for the resort would be amazing. Milton Keynes is already quite a thriving town with lots going on therefore links to Milton Keynes for tourists would be good	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4875	This is an exciting development for Bedford and the UK. It would be great to include local schools in some way as those children are the future of Bedford and they will be the ones who will benefit most from it.	Please share any other feedback you have at this stage.	
4729	I hope this does go ahead. It will a huge positive impact on Bedford. Bringing so many opportunities Bedford really needs for so many people and younger generations.	Please share any other feedback you have at this stage.	
1044	Bedford and central Bedfordshire has abundance of warehousing and housing many comments out of these areas with skilled jobs to MK Cambridge London and Stevenage . These skills need to be kept in the area and reduce travel. The area needs a new focus and a focus for young people to be proud of, Bedford town is lacking ooor and women feel unsafe at night. Universal would give a place to feel safe meet friends have fun without travelling miles away. Universal will put Bedford and Bedfordshire on the map a county many only know as they travel through or connection to the sadness of Luton. This is an opportunity to bring greatness and opportunity to an area that heeded it. International visitors can also visit some of the other great things the rea has to offer environmental Beauty, history's and heritage. Those that stay at universal have London on the doorstep for days when they want something else. Housing and communities will improve. One worry I have is the affect on the utilities and how will we cope with the increased waste of foul and materials will this be used to create energy on the site Also electricity the area capacity is at stretch and already planning application for large development struggle to explain how the energy capacity will be support more housing with such a large development as universal how will this be achieved, will you generate own power I'm curious this is the only problem that concerns me	Would you support a potential park and resort coming to this site? Please explain why.	
4141	Bedford and the local area lacks a location to go for entertainment, food and drink. You have to go to Milton Keynes if you want to go for decent food. Then it would be great to have somewhere on my doorstep for fun and somewhere to take family.	Would you support a potential park and resort coming to this site? Please explain why.	
3313	Bedford and the UK need something new and exciting. Bringing more is a great thing. Brings tourists too! love universal. Be nice not to have to fly to orlando every year	Would you support a potential park and resort coming to this site? Please explain why.	
4449	Bedford and the uk would stand with universal and I think create an experience for tourist.travellers and locals the likes that would have never been seen globally.the draw and feel given to people visiting this resort would rival and even exceed most theme park experiences that the world can offer.and I believe the excellent relationship between the uk and our US friends could secure a world class resort that could expand and grow over the next 30 years to unimaginable proportions.	Would you support a potential park and resort coming to this site? Please explain why.	
3265	bedford council is a property company with a charity attached to it. the bulk of its funds come from property tax where as 50% should come from corporation tax thereby promoting more business, starts ups, local high level education, high value jobs and promoting growth of gdp per capita business andnet wages. In the meantime Universal will do.	Would you support a potential park and resort coming to this site? Please explain why.	

492	Bedford is an area that would really benefit from investment	Would you support a potential park and resort coming to this site? Please explain why.
4064	It is exactly what the area needs, and the population of the UK will visit in their masses, as well as other countries in Europe. It is a no-brainer!	Would you support a potential park and resort coming to this site? Please explain why.
3196	Bedford is close to Milton Keynes and Cambridge, both important, dynamic UK cities. As a result, Bedford currently is a bit of a poor relation. This development would inject considerable energy into the Bedford and local economies lifting the whole area. It would also make the area more important in terms of infrastructure priorities, eg road capacity, train schedules, airport transport links.	Would you support a potential park and resort coming to this site? Please explain why.
3804	It would be an amazing opportunity for employment, tourists to visit, and fun for all!	Would you support a potential park and resort coming to this site? Please explain why.
4879	Bedfordshire lacks a pull, its main benefits are that it is commutable from multiple cities and has great transport links. But this isn't enough to bring investment, visitors etc to the area. Something as exciting and lucrative as a park and resort not only promotes a direct economic boost to the local community, it also has multiple indirect benefits to surround towns, villages, cities, global visitors etc. The proposal will really put Bedford on the map in such a strong way.	Would you support a potential park and resort coming to this site? Please explain why.
5316	1000% percent. Universal parks are just amazing and would bring in a lot of tourism from the uk and surrounding EU countries and more.	Would you support a potential park and resort coming to this site? Please explain why.
5267	Amazing opportunity for the UK to have a world class theme park. Bring money into the country and local economy. Create jobs and opportunities. And boost tourism outside of London.	Would you support a potential park and resort coming to this site? Please explain why.
5089	As an avid theme park goer, I believe the UK is an untapped market for a world class theme park (s), as already mentioned in your document we have a large population, we have great transports links, we have large international tourism numbers on a yearly basis: so the park will be a success in my view based on both national and international visitors. I would be someone who'd also visit numerous times a year and would look to purchase an annual pass if available; so I would imagine a significant number of people would be in the same position. We already have a theme park industry (albeit it's not as extensive and currently dominated by one player, which is Merlin), which I believe is not at the same level as any of the parks in Universals portfolio (having visited all Universal Parks across the world myself).	Would you support a potential park and resort coming to this site? Please explain why.
630	It's great to see Bedford being a destination for such a prestigious project. Not only will it benefit local communities but it will also benefit the country as whole with more tourism for the whole of UK. Really hope it goes ahead and the government supports this amazing and fantastic initiative.	Please share any other feedback you have at this stage.
2182	This project sounds really exciting, the UK has many great places like Alton towers for example. But something on the scale of universal is a huge benefit bringing in international tourism!	Please share any other feedback you have at this stage.
2888	As i said above, i think this would be a fantastic opportunity not only for employment and tourism for this country, but personally i would just love to have a theme park on a scale as large as Universal in the UK. it would genuinely be a dream come true, and i know that is true of countless other people in the UK and around Europe as well who cannot afford to travel to America or Hong Kong.	Please share any other feedback you have at this stage.
1602	Not only will it create more job opportunities for Universal but also other tourist destinations who will certainly see attendance rise and possibly creating more tourist destinations for everyone to enjoy. As a theme park enthusiast who has visited Universal Orlando and Hollywood on holiday many times, we tend to visit for 2 weeks so we would always make time to see the other parks in the area too. I'm pretty certain this would also be the case here in GBR if this were to move forwards.	Please share any other feedback you have at this stage
2232	This could be really good for the UK, it will bring so much tourism not just from the UK but from other European countries. There's a train called the Euro star which goes under the English Channel and connects France to England so it'll be easily accessible for other parts of Europe. Its only a 2hr flight from Spain, Portugal and the Canary Islands. This will bring so much tourism and business for the UK and that's why its so exciting. Also, creating new jobs for British Citizens. I really hope this happens.	Please share any other feedback you have at this stage
1745	210 per cent behind this project!!!! There is a huge market in the UK (and beyond in Europe) and appetite for the Universal brand, we are familiar with the parks in the US and beyond and know what amazing experiences and themed attractions Universal brings. As a massive theme park enthusiast it would be an absolute dream to have a Universal park in the UK, plus like Disneyland Paris did in the 90s for Paris and France this would have a hugely positive tourism/economic/employment and infrastructure benefits. I am living in Scotland and it would be a privilege to take a flight down to see!	Would you support a potential park and resort coming to this site? Please explain why.
2172	8000 jobs is significant in a population the size of the uk. It would bring tourism into the country and allow people who could not afford overseas travel to experience a universal park. It is also a completely different level to any park we already have in the uk and wouldn't face much competition from the existing parks.	Would you support a potential park and resort coming to this site? Please explain why.

541	A big fan of the Orlando resort we visit yearly and it would be amazing to visit a universal park that is more local, in the same country and no need to pay out for expensive long haul flights so we will be able to visit more than once a year! It will also create 1000's of jobs which is desperately needed and more tourism to the area. I am 10000% in support of this new project and I really hope you give the green light and proceed with it!	Would you support a potential park and resort coming to this site? Please explain why.
1994	A great experience having been to America. A well sought after experience in the UK much needed. Local to the capital but in a more scenic region and with these experience local to its sure to be a fantastic experience for tourism too. The career opportunity would be preposterous and finally family's will have an experience to treasure.	Would you support a potential park and resort coming to this site? Please explain why.
2007	A great tourism boost for the local area and the whole of the UK. Convenient location for most people to access. Will be a fantastic social and economic opportunity for the local area.	Would you support a potential park and resort coming to this site? Please explain why.
2516	A huge fan of theme parks and universal studios so to have the potential park within walking distance is very exciting. I also recognise the value that this would bring not only to Bedford but to the UK in jobs, revenue and tourism	Would you support a potential park and resort coming to this site? Please explain why.
512	A large boost for tourism in the uk	Would you support a potential park and resort coming to this site? Please explain why.
2750	A large scale multinational theme park a short distance away from multiple international travel sites (rail and air) will be a big boost for international tourism, and hopefully will do the same as euro Disney, as well as give people an opportunity to visit universal parks without having to fly long distances	Would you support a potential park and resort coming to this site? Please explain why.
194	A major theme park in the UK and the tourism and money it brings into the UK	Would you support a potential park and resort coming to this site? Please explain why.
1169	A major theme park investment in the UK in general with boost tourism, provide jobs for creatives looking to enter another line or new line of work and really put the UK on the map as a serious global player in industry, tourism and the creative arts.	Would you support a potential park and resort coming to this site? Please explain why.
3070	A modern and internationally recognised theme park will boost local economy and the subsequent businesses and jobs formed around the theme park. The secondary and tertiary effects of tourism must be considered, Universal Studio Osaka is a good example and the Bedford site has the opportunity to be the same.	Would you support a potential park and resort coming to this site? Please explain why.
1800	A new theme park, especially of the scale of Universal would be incredibly positive for both the local area and country in general. It would create jobs, improve infrastructure etc. It would also provide some good competition to the other big parks in the country such as Alton Towers, most of which are owned by the same company. A new park would push them to invest in their parks which they have loved to hold back on It would help with tourism massively. Both from people in the country and people coming in from abroad. Lots of people fly in and just go to London, but a Universal Theme Park would give a big incentive to go elsewhere and provide a boost to other areas. And in general it would just provide a great new place to go with friends and family. Especially for us that cant really afford to buy both a plane ticket abroad and admission to a park as much as I'd love too.	Would you support a potential park and resort coming to this site? Please explain why.
967	A once in a lifetime opportunity to bring land, which would otherwise be just another housing development, into use as a source of significant employment, training and skills and bring the economic benefits of tourism to the county.	Would you support a potential park and resort coming to this site? Please explain why.
1866	A park like this would not only be great for the local area, but the country as a whole. Not only is it great for people in the UK who do not get the opportunity to travel to other countries to get to go to a Universal park, but it will also provide a much needed tourism boost for the UK outside of London.	Would you support a potential park and resort coming to this site? Please explain why.
1172	A project of national and even global significance coming to Bedford would be transformative for the area's stature, attracting tourism and further commercial investment. The infrastructure improvements, if implemented well, would provide a significant transportation and environmental benefit to residents, particularly if additional bus services could reduce the vehicular traffic in the area. And new full time jobs will provide opportunities for local residents.	Would you support a potential park and resort coming to this site? Please explain why.
2187	A project on this scale has the opportunity to create countless jobs and training opportunities, for local residents, in the same way other large scale ventures such as HS2 have done, in addition with the increase in tourism more money will go into the local area, that will in turn improve local services.	Would you support a potential park and resort coming to this site? Please explain why.
1611	A theme park like Universal is exactly what the UK needs! I'm a huge theme park fan and I've been to Universal Orlando so I know we are so lucky to be hopefully getting one here! It will create more jobs, will be great for tourism and if it goes ahead it will be a very exciting time for us in the UK! Thank you for even considering it!	Would you support a potential park and resort coming to this site? Please explain why.

3512	A theme park such as universal studios would be transformative to the area and is highly needed. Although I doesn't live in Bedford per se, I know many people in the area would love to see some of their universal based theme park attractions in the UK. As this is the only universal in Europe, it will bring tremendous tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
1685	A universal studios park in the United Kingdom would put the country at the forefront of tourism around Europe. The job creation and environmental benefits make this a fantastic opportunity.	Would you support a potential park and resort coming to this site? Please explain why.
F6128	Much needed input into the local areas. Fully support the project.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
2857	A Universal Studios park would bring in tourism from across the UK and Europe, massively boosting the opportunities for people in the area and the local economy.	Would you support a potential park and resort coming to this site? Please explain why.
F6132	I think if this project goes ahead it will put Bedford on the map by bringing visitors, employment and development of the area in improving travel etc. Excellent for Bedford.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
561	A well planned, realistic and considerate project from an established and experienced brand such as yourself can only be a good thing. From the initial job creation, to the wider impact the added tourism will bring to the area (and country for that matter), adding in the environmental awareness you are showing really should be welcomed and commended. As a theme park fan, an additional park in the UK market is always a nice addition, but one on the scale and quality of your other resorts would be an amazing addition.	Would you support a potential park and resort coming to this site? Please explain why.
4146	Absolutely I would support the proposal. Not only to have a major entertainment complex but the opportunity to employ thousands of people, supporting local businesses, investing heavily into the UK economy and tourism.	Would you support a potential park and resort coming to this site? Please explain why.
280	Absolutely! I have been lucky enough to visit many theme parks on many occasions including Universal's parks in both Orlando and Osaka and the benefits are clear to see. Local jobs, increased tourism and improvements to the local area are but a few; I can see this being a fantastic asset both to the initial area and to the rest of the UK.	Would you support a potential park and resort coming to this site? Please explain why.
380	Adding this to the UK and letting the local area will no doubt help our tourism and create jobs for many people	Would you support a potential park and resort coming to this site? Please explain why.
3590	Additional jobs, excitement and financial gain from tourism.	Would you support a potential park and resort coming to this site? Please explain why.
2140	All of what has been explained plus tourism is very important to the UK. To many sites are being turned into trading parks and huge warehouses, it would be good to have this area turned in a theme park, and bringing nature back to the area.	Would you support a potential park and resort coming to this site? Please explain why.
3132	All the jobs it would bring. The local economy would improve. Be a great place to visit often. Tourism would increase.	Would you support a potential park and resort coming to this site? Please explain why.
2894	Although we have a fair share of theme parks in the UK. We definitely don't have something as grand as Universal. The closest park like that would be Disneyland Paris. To have something like Universal as a park would be huge for tourism jobs and put a place in the UK to say we want more like this. I hope this gets the go ahead	Would you support a potential park and resort coming to this site? Please explain why.
1440	Amazing opportunity for local area and also for tourism.	Would you support a potential park and resort coming to this site? Please explain why.
2543	Amazing opportunity for the area, jobs for young people, tourism, community spirit and put Bedford on the map!	Would you support a potential park and resort coming to this site? Please explain why.
540	Amazing opportunity for the UK. Incredible for people in the UK to have such a major theme park on their doorstep - particularly good for those that can't afford to travel to the US/Asia. UK would see a boost to tourism as seen in other areas with Universal parks. It would contribute significantly to both the local and the wider UK economy.	Would you support a potential park and resort coming to this site? Please explain why.
4529	An opportunity like this would be great not only for the local economy but for the UK economy. I've often travelled to Disneyland in Paris and think an opportunity like this, with such a reputable brand, would be great for UK tourism.	Would you support a potential park and resort coming to this site? Please explain why.
1766	An universal park is a unique opportunity to bring something new to the UK. I hope it would bring an indoor waterpark & a theme park to the UK & its in a good location in which transport can access it in the future which is vital for visitors & tourism.	Would you support a potential park and resort coming to this site? Please explain why.

4741	Anything that brings work and (via tourism) income into the area is a good move. This development could radically change the local employment prospects for many people who otherwise have to travel some distance.	Would you support a potential park and resort coming to this site? Please explain why.
2639	As a family we are huge Universal theme park fans, have visited Orlando many times. The UK needs a park like this with immersive theming and all-age, family attractions. It would also bring in a lot of tourism and boost the local economy.	Would you support a potential park and resort coming to this site? Please explain why.
810	As a themed attraction and immersive experience enthusiast I would welcome this development wholeheartedly, but the employment benefits, economy boost from local, national and international tourism and infrastructure improvements to the area would make the project an absolute all-round success for the UK	Would you support a potential park and resort coming to this site? Please explain why.
582	As an enthusiast I would love for a new park to come to the uk it would bring tourism to the town and jobs to many people	Would you support a potential park and resort coming to this site? Please explain why.
740	As long as the infrastructure is right, then I cannot see the negatives in this. It can only be a positive thing for Bedford and the surrounding areas, which often get overlooked in favour of bigger cities eg Milton Meynes, London, Cambridge. It would 'put us on the map' and bring much needed tourism and footfall to our town centre which is desperately needed. The majority of people in Bedford I think feel the same. I am also conscious of jobs for my children (currently 7 and 10) and having such a big potential employer nearby can only be a good thing for their job prospects in the future.	Would you support a potential park and resort coming to this site? Please explain why.
2958	As retired Police Managers with 30 years service, we see the many economic and social benefits to the County and surrounding areas as you have detailed especially linked to transport improvements (all types, as detailed), employment, support for local Organisations and youth diversion, crime & ASB prevention & reduction and tourism.	Would you support a potential park and resort coming to this site? Please explain why.
165	As someone who has enjoyed visiting Universal Studios in Orlando many times, and witnessed how well it is integrated into its surroundings, I cannot emphasise enough how much I support the idea of a UK theme park in this area. I firmly believe it is the best thing that could possibly happen for Bedford and its surrounding area, and that the benefits it offers for the locality in terms of employment, tourism, infrastructure and - perhaps most important of all - sheer enjoyment mean that everybody should do everything possible to make it happen. It is, in short, a game changer for the area that is sorely needed. If opened, I will visit Universal Studios as often as possible - and may even be interested in employment opportunities there in due course.	Would you support a potential park and resort coming to this site? Please explain why.
3549	As stated above the Resort would drive a Huge tourist boost for the UK economy, finally having something in the UK that brings people here again. Bringing in tourism to Bedford and the surrounding area would bring huge opportunities for local businesses etc. If this project gets built it will be the best thing that has happened to this country in several generations, and many more generations to come. PLEASE build!!!!	Would you support a potential park and resort coming to this site? Please explain why.
260	As you say, great for the economy, regeneration of Bedford and providing jobs and opportunities for locals. Also will have a positive knock-on effect to surrounding towns and villages. Increased tourism to the UK as a whole. Will bring other businesses along with it. Will stop warehouses and more blocks of flats being developed on the land.	Would you support a potential park and resort coming to this site? Please explain why.
1468	Because for me I've never had the opportunity to travel abroad to visit a Universal attraction and I think it would greatly benefit the UK economy and attract a lot of tourism	Would you support a potential park and resort coming to this site? Please explain why.
1625	Because it brings in jobs not just for the locals, but also for the rest of the UK even beyond? It will bring in tourism which would in my opinion have a positive impact on the UK's economy 100%, its what we need in the UK, as we haven't got nothing like it, also it can be sometimes expensive to travel to other resorts & parks throughout the world for us Brits via flying, trains a.k.a Eurostar currently to Europe aswell Disneyland Paris. Also we have no parks & resorts like this scale in the UK, could do with parks and resort more on an International & World class level. Offering more immersive themed & fun, thrilling experiences that current theme parks, amusement parks in the UK can't offer currently at the moment. Think with this park & resort, that will make this resort top. 100%.	Would you support a potential park and resort coming to this site? Please explain why.
1660	Because it will help the local area and boost tourism for Bedford. It also means that British people without passports will be able to experience Universal.	Would you support a potential park and resort coming to this site? Please explain why.
2162	Because it would be create many job opportunities along with bringing more tourism and investment to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2295	Because it would bring huge tourism to the uk and change the whole uk theme park industry that's had no competition	Would you support a potential park and resort coming to this site? Please explain why.

2783	Because of the employment opportunities it will bring for the young people of the surrounding area and the financial gains from developing tourism	Would you support a potential park and resort coming to this site? Please explain why.
3545	Because The UK and this region area in particular needs a far superior quality of theme park resort to what is currently available with the likes of the major parks such as Thorpe park or Alton towers both owned by Merlin. It would raise the profile of both Bedfordshire and beyond as well as major towns nearby such as Stevenage. Also It would potentially bring more visitors to other nearby towns and create more tourism in those areas.	Would you support a potential park and resort coming to this site? Please explain why.
3982	Because the UK is crying out for an attraction and experience like those that Universal delivers in other countries. The UK fans spend millions a year abroad, and by having a home resort of the same quality, we should see a notable uplift in UK tourism and economy growth. It's really a no brainer for us - Universal PLEASE push on with this.	Would you support a potential park and resort coming to this site? Please explain why.
1225	Because the UK needs a major investment and new tourism destination - Universal is the company to bring that here.	Would you support a potential park and resort coming to this site? Please explain why.
1852	Because theres many benefits both in terms of competition in the UK/European theme park industry and also in regards of employment opportunity in the area. It will also bring in huge amounts of economic benefits within the tourism sector due to its close proximity to London akin to what Disney have achieved over in Paris	Would you support a potential park and resort coming to this site? Please explain why.
630	Bedford needs something like the theme park to attract other inward investment and regenerate the town. The town is currently dead and there's little in the social scene. The park will improve the reputation of the town and will also benefit other local areas such as MK, Luton and Northampton in terms of local tourism. I'm 110% support rod this project.	Would you support a potential park and resort coming to this site? Please explain why.
4781	Benefit for the local and wider areas, with bigger footfall creating more jobs and tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4453	Benefits to the area, local business and the wider economy is clear. The UK needs an international theme park to drive tourism.	Would you support a potential park and resort coming to this site? Please explain why.
2245	Boost tourism in the area and a much needed major attraction in the uk	Would you support a potential park and resort coming to this site? Please explain why.
1732	Boosting the U.K. economy up, encouraging more jobs, more business opportunities for the railways, boosting not only the U.K. tourism industry but European tourism industry.	Would you support a potential park and resort coming to this site? Please explain why.
2545	Boosting tourism and the UK economy. Providing jobs. Competition for existing theme parks, particularly those run by Merlin. Also, Jurassic Park River Adventure!	Would you support a potential park and resort coming to this site? Please explain why.
2242	Boosting uk economy and bringing international tourism to uk	Would you support a potential park and resort coming to this site? Please explain why.
3243	Bring investment and tourism to the area, which will have a spin-off for other activities in the area such as Woburn Abbey and Centreparks	Would you support a potential park and resort coming to this site? Please explain why.
796	bring more jobs helping tourism is a plus	Would you support a potential park and resort coming to this site? Please explain why.
585	Bring so much to the uk economy such as jobs and tourism	Would you support a potential park and resort coming to this site? Please explain why.
727	Brings great tourism and also an internationally recognised brand - great for jobs for now and the future	Would you support a potential park and resort coming to this site? Please explain why.
1981	Competition for other parks in the country which should help keep high standards for the uk theme park industry which in turn will bring more people in the country to elevate the tourism industry and become a main player across the globe for theme parks. This will also give people living in the uk who are unable attend universal parks around the globe a chance to experience the quality of a universal park. This will also create more jobs and fantastic opportunities not just for Bedford but the whole country.	Would you support a potential park and resort coming to this site? Please explain why.
1059	Creating Universal Park in UK would grow its economy, develop tourism even more, create so many jobs and make many families happy	Would you support a potential park and resort coming to this site? Please explain why.
1320	Creation of jobs Increased tourism	Would you support a potential park and resort coming to this site? Please explain why.
341	d be good to add to the tourism viability of this country. We love Universal Resort Orlando and seeing something like that in our own country would be brilliant. Combining tickets to the Warner Bros Studio Tour would be incredible. We have a huge film industry so linking that would be incredible too.	Would you support a potential park and resort coming to this site? Please explain why.
3467	doesn'tlisten to the people who might be moaning about this they're the types who moan about everything! I would love a universal theme park I can afford to go to regularly. It will create jobs and boost tourism not sure what people have got to object to. Please build this resort.	Would you support a potential park and resort coming to this site? Please explain why.

2668	Driving infrastructure improvements (eg East West Rail from Oxford to Cambridge) and road improvements. Driving tourism , footfall and town centre improvements in Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
4950	Everyone needs a bit of fun in hard times Benefit to UK tourism	Would you support a potential park and resort coming to this site? Please explain why.
4878	Excited for the potential improvements to Bedford in the form of infrastructure and increased tourism, and, as a resident, increased leisure opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
2443	Exciting opportunity, boosts tourism and supports local economy. Would be positive to see potential employee housing due to the current crisis.	Would you support a potential park and resort coming to this site? Please explain why.
1238	Fantastic for Uk tourism industry and an exiting prospect as a visitor and for future employment	Would you support a potential park and resort coming to this site? Please explain why.
2291	Fantastic opportunity to redevelop the area, invest in the creative/tourism industry and provide local people with a fun leisure experience.	Would you support a potential park and resort coming to this site? Please explain why.
3471	Firstly I love coasters and immersing rides so to have a world class theme park on our doorstep is a dream come true! But more to your point, I believe that a Universal park in the UK will greatly change the local and national economy for the better, breathing life into the stagnant uk theme park industry and opening up a large amount of tourism revenue.	Would you support a potential park and resort coming to this site? Please explain why.
1701	Firstly, I am a Universal customer and have been for over 15 years, and the thought of a potential Universal resort opening in the UK is beyond exciting, and one which I know would give this country a huge boost! For too long the UK has felt like the underdog in the theme park world and by having this new resort, it would restore our reputation and make people feel better about living here. It would also boost UK tourism and bring much needed funds to the UK economy. Please please please, make this happen for us! ðŸ™•	Would you support a potential park and resort coming to this site? Please explain why.
4627	For all the reasons mentioned - would be wonderful to see vibrancy restored in the area (back to it former glory) Bedford has so much potential and a theme park would bring many benefits, including improved infrastructure, tourism, economic growth, business and of course give the whole of the uk our very own universal studios (what's not to love about that!) the prospect is very exciting indeed	Would you support a potential park and resort coming to this site? Please explain why.
562	For the boost this will bring to the local area through tourism will also benefit the whole country, tourists are likely to come for the park, but then due to the close proximity to other tourist destinations like London will stay longer to further boost the country tourism income. This will also bring people from across the whole U.K. to the area to see what it has to offer locally so local businesses will benefit, especially hotels, B&B's, etc.	Would you support a potential park and resort coming to this site? Please explain why.
2784	From a tourism perspective it will be good for Bedford and the UK. The park would give welcome employment both during construction and during operation. The UK needs a world class theme park. There would be extra income for nearby airports, hotels and retail outlets. Such a park would increase the touristic appeal of the UK both in Europe and further afield.	Would you support a potential park and resort coming to this site? Please explain why.
2149	From previous experiences of visiting Universal Parks, the UK is crying out for a park like those found all over the world. I believe this park would bring a massive boost to UK tourism and to the UK Theme Park Industry.	Would you support a potential park and resort coming to this site? Please explain why.
663	Game changer for UK tourism industry	Would you support a potential park and resort coming to this site? Please explain why.
1262	Good for the economy. Other UK theme parks need some healthy competition. This would be something new and exciting for the country. I'm a big fan of Universal Orlando and would love to see a similar resort closer to home. Encourage international tourism outside of London.	Would you support a potential park and resort coming to this site? Please explain why.
2383	Good for the local economy and boost tourism to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2041	Good infsturcture and tourism opportunities	Would you support a potential park and resort coming to this site? Please explain why.
3578	Great attraction to increase tourism, good boost for the local economy, help improve infrastructure and is a positive and large project which the UK should be pursuing and completing well.	Would you support a potential park and resort coming to this site? Please explain why.
3492	Great for economy and tourism	Would you support a potential park and resort coming to this site? Please explain why.
2475	Great for the uk economy and tourism to the uk	Would you support a potential park and resort coming to this site? Please explain why.
239	Great for the UK economy, leisure and tourism industry.	Would you support a potential park and resort coming to this site? Please explain why.

2846	great for the uk, new themepark will attract tourism and economic benefit	Would you support a potential park and resort coming to this site? Please explain why.
2665	Great for tourism and the economy	Would you support a potential park and resort coming to this site? Please explain why.
1867	Great for tourism and the economy, and environment due to less travel to France or USA for major theme parks	Would you support a potential park and resort coming to this site? Please explain why.
823	Great for tourism, local and national investment and recognition	Would you support a potential park and resort coming to this site? Please explain why.
568	Great opportunity for the UK economy, providing a new lease of life for the British tourism sector. Promoting international tourists to venture outside of the capital to seek out more of the UK's great tourist offerings and making use of the improved public transit infrastructure supported by the Universal GB project.	Would you support a potential park and resort coming to this site? Please explain why.
4703	Great to boost tourism in the area so local spending but also great to have increase in job opportunities	Would you support a potential park and resort coming to this site? Please explain why.
3604	Having a Universal Park in the UK would significantly change the UK for ever for tourism and economy , that the UK hasn't seen for nearly a century . It would rival any other theme park in the UK and make the UK a superpower in the world for tourism.	Would you support a potential park and resort coming to this site? Please explain why.
1735	Having a Universal Resort in Great Britain would be incredible for UK's tourism as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
1702	Having visited universal Orlando hundreds of times over the last 20 years having one so close would be amazing. The immersive experiences create so many memories that last a lifetime. It's always a highlight of our trip, when there's new rides/experiences. We travel from Edinburgh to Orlando yearly and still would but having a park here would open up that world for so many more people who maybe cannot travel as far for whatever reason. It would be great for tourism in general to have visitors from all over Europe and beyond. For us in Scotland, being able to fly, drive or travel by train would make experiencing a universal park so much more accessible and for some affordable.	Would you support a potential park and resort coming to this site? Please explain why.
835	Huge benefits to the local and wider areas as well as overall benefits to UK tourism are vast and the care Universal have shown so far shows they care about the impact they have	Would you support a potential park and resort coming to this site? Please explain why.
1560	Huge boost for uk in local and international tourism	Would you support a potential park and resort coming to this site? Please explain why.
213	It would provide a range of job opportunities for those local and it would create a new huge attraction for the country which would see people travelling country and world wide to visit.	Would you support a potential park and resort coming to this site? Please explain why.
2222	I absolutely love Universal Orlando, so having one on my doorstep would be amazing, especially for those who can't travel to other countries. Will also be great for tourism in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2940	I am enthusiastic about the new employment opportunities both within your park and from developing tourism locally.	Would you support a potential park and resort coming to this site? Please explain why.
2851	I am excited for the tourism revenue and opportunities, employment opportunities and ultimately raising the profile of Bedford, the surrounding area and the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
2917	I am passionate about Travel & Tourism, as well as the leisure industry. The UK is behind other continents / countries, including Europe and the US, in offering large scale attractions and projects of this nature.	Would you support a potential park and resort coming to this site? Please explain why.
2904	I believe a theme park would bring tourism to Bedfordshire and improve an area that is easily accessible by road and would benefit not only the immediate area, but the country	Would you support a potential park and resort coming to this site? Please explain why.
2264	I believe it will be a great addition to the UK tourism industry especially if they celebrate and embrace the wider UK cultures from the different countries such as Wales, Scotland and Ireland too	Would you support a potential park and resort coming to this site? Please explain why.
1006	I believe it would be a great investment in the UK and its people. It would help build our economy and tourism. It would be a direct investment to Bedford and its businesses and people. It would be a direct investment in other parts of the UK as it would likely lead to further tourism across the UK.	Would you support a potential park and resort coming to this site? Please explain why.
2491	I believe it would bring a lot of tourism to the Bedford area, and it would bring a new lease of life to the derelict brickworks site.	Would you support a potential park and resort coming to this site? Please explain why.
2286	I believe it'd be positive for the local area as well as the nation improving tourism and the economy - I also believe this to be a huge positive for Universal fans here who may not be able to travel to other parks as well as providing a European park.	Would you support a potential park and resort coming to this site? Please explain why.

293	I believe that if this park were to be opened it would be nothing but a rave success. We do have theme parks in the UK, and they are ok, but nothing on the scale of what universal could offer and I think it would be a game changer for the leisure and tourism industry in this part of the UK. People would come from all over Europe as it is so much closer than the US parks, further ensuring that this park would be a good business decision! I think your theme park, with the type of IP and the restaurants, would have a much larger positive impact on the local area and receive much more positive support from locals than other theme parks because the quality of the park is so much higher than what we currently have that it is practically in the stratosphere. I would also like to note that I think essential to the success of this park would be the inclusion of Harry Potter IP. I have come to understand that Warner bros own the rights to HP attractions in the UK but if there is any way around this I implore you to do so. This country is the home of HO and it feels almost slanderous to have a universal park without it. Please.	Would you support a potential park and resort coming to this site? Please explain why.
1939	I believe that opening the first Universal location in Europe in Bedford would be an incredible boost to the local economy. It would bring job opportunities and increased tourism, as well as encourage improved transport links between Bedford and other nearby locations. As a resident of Bedford, seeing the decline of the town centre has been disheartening and I believe that a Universal location opening in Bedford could also bring increased footfall to the high street. This project has my full support.	Would you support a potential park and resort coming to this site? Please explain why.
4525	I believe that such a park with backing from Universal and Comcast would be a real game changer for the UK tourism industry. Supporting other businesses by encouraging people to visit. It would also be great for Universal to license and showcase British creative content in the resort from the likes of the BBC and Aardman, in addition to the iconic American franchises.	Would you support a potential park and resort coming to this site? Please explain why.
2191	I believe the benefits economically, socially and environmentally would be world-class and be incredible for the United Kingdom. The creation of careers and advantage to the tourism economy would be outstanding and something that particularly interests myself. The consideration of the landscape and heritage is fascinating and the site itself is perfectly connected to transport infrastructure so is undoubtedly a fantastic choice.	Would you support a potential park and resort coming to this site? Please explain why.
1223	I believe the UK desperately needs more competition in theme parks, we're currently competing with mainland Europe (and have 2 of the most visited theme parks on the continent), but there has been little in the way of new parks for decades, especially heavily themed parks with shops and restaurants (Legoland Windsor is the only one that comes to mind, and that's not exactly fun for the 'whole family' (anyone over the age of 12)) The employment opportunities and the tourism this could bring to areas outside central London is also extremely welcome. If this park existed today, I can easily see myself visiting 3 or more times a year with family and friends.	Would you support a potential park and resort coming to this site? Please explain why.
3364	I believe the UK infrastructure has needed a Reputable Company such as Universal Studios Theme parks for a very long time. This would be fantastic for the UK tourism industry and a perfect location in the centre of the UK that is very easy of Access for UK citizens as well as rest of Europe. This project is fantastic for Job opportunities and could be ground breaking for the UK. I completely support the project.	Would you support a potential park and resort coming to this site? Please explain why.
3598	I believe the UK theme park industry is the one that's monopolised by the Merlin Company. I feel the Merlin company doesn't invest in their park due to this fact meaning that UK theme parks can be outdated and stagnant. If Universal builds a theme park in the UK I believe this will challenge Merlin to invest more heavily in their own parks, driving up tourism as a whole for the UK and leading the UK to have world-class attractions.	Would you support a potential park and resort coming to this site? Please explain why.
4672	I feel it would bring economic growth to the area, not only by providing employment opportunities, but also by promoting tourism in the area, which would be of benefit to many other local businesses, from restaurants through to other attractions, such as Woburn Abbey Safari Park.	Would you support a potential park and resort coming to this site? Please explain why.
4711	I feel that this development would provide long term employment in the area and as a spin off encourage tourism throughout the area	Would you support a potential park and resort coming to this site? Please explain why.
2936	I have previously worked in the leisure industry, working as a rides manager for Merlin Entertainments as well as for the Looping Group. I would be very interested in working within such an environment again and the opportunity to work for a company like Universal is very exciting. I also believe that the effect of a resort of this size would have a positive influence on the tourism industry as a whole in the UK and would create more opportunities for many people looking to pursue such a career.	Would you support a potential park and resort coming to this site? Please explain why.
2077	I have visited Universal Orlando so I know what a world class theme park looks like. This will bring massive employment opportunities to the UK along with a growth in tourism to the UK and surrounding area you have to build this!	Would you support a potential park and resort coming to this site? Please explain why.

2028	I love the universal parks in Florida and I think it's really exciting to bring something different to our theme park market. The job opportunities and income from tourism would be incredible for Bedford and the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.	
4382	I love theme parks, a world class park like universal coming to the UK would increase tourism to the UK on its own, but would also increase footfall at other UK parks and this would allow for further investment at smaller family parks that benefit from more visitors.	Would you support a potential park and resort coming to this site? Please explain why.	
1155	I love universal. The parks are beautiful and the tourism would be good for the local economy and we would also have new train stations and better roads and I'm all for that	Would you support a potential park and resort coming to this site? Please explain why.	
4718	I love visiting Universal Orlando and anything like this in the UK would be fantastic, hopefully this one would have its own unique areas and rides so people will still have to visit the other Universal parks round the globe. It something we need in the UK, we currently don't personally have any theme parks that are close to having the same draw as universal and more tourism is always great. Hope to see you here in the future :)	Would you support a potential park and resort coming to this site? Please explain why.	
1462	I personally think this project is a fantastic exciting opportunity not only for the UK, but for the local area too. To have a theme park of this magnitude that supports local employment, training facilities, Trainline and road infrastructure improvements is incredibly positive. The UK holds so much history and it will be important to reflect that within this new theme park and to enhance UK tourism and attractions. There is genuinely nothing of a negative critique I could provide when all I can see is nothing but improvements and exciting opportunities ahead.	Would you support a potential park and resort coming to this site? Please explain why.	
767	I support a theme park in bedford because it will bring improvements and a huge boost to the local economy and more tourism. I have visited other local attractions and a better theme park here would improve the environment so much.	Would you support a potential park and resort coming to this site? Please explain why.	
2113	I think a project like this in the UK will bring huge economic benefits across multiple industries. We have some great theme parks in this country but nothing that matches the scale and quality of the US resorts. Having the first Universal Resort in Europe will put the UK will boost tourism for the whole country.	Would you support a potential park and resort coming to this site? Please explain why.	
2366	I think bringing a Universal Studios Park to the U.K. would be absolutely fantastic for the economy, for tourism and also for people who live in the U.K. There is a large theme park community here and Merlin Entertainment has the monopoly on U.K. guests. However Universal parks are a different league to anything we have now in terms of theming, investment and general overall quality. They also don't invest in the local areas or infrastructure around their parks and in my personal opinion just use the fact they have no real competition as an excuse not to invest. I genuinely believe Merlin would be scared of the competition. Having visited your parks on both coasts of the USA I know just how good the quality of your parks are and level of detail your company goes to to deliver excellent attractions, hotels, dining and facilities for your guests. I think the location is a fantastic choice, it's only a couple of hours journey for the majority of people in England and near already established transport links.	Would you support a potential park and resort coming to this site? Please explain why.	
1237	I think it is great to improve tourism in this country and also enhance other theme parks around	Would you support a potential park and resort coming to this site? Please explain why.	
1414	I think it is just what the uk needs. We need some new tourism and investment in the area and it can benefit our people as well. I'm all for this project plus I love universal and have been to Orlando three times.	Would you support a potential park and resort coming to this site? Please explain why.	
4136	I think it is positive for the community from a tourism and an employment point of view	Would you support a potential park and resort coming to this site? Please explain why.	
1015	I think it will be amazing for our little town to get us on the map. Help with employment, help with tourism n footfall for town centre.	Would you support a potential park and resort coming to this site? Please explain why.	
2953	I think it will be massive for tourism in the UK, it will definitely help the economy and it's great that the site isn't in the M25 zone (bringing investment outside of London). The UK needs a well known and respected theme park operator like Universal.	Would you support a potential park and resort coming to this site? Please explain why.	
3194	I think it would be a great asset to the UK and would be fantastic for the tourism industry, though I'm little disappointed that it is in the South of the country but that does make sense for transport and tourism potential.	Would you support a potential park and resort coming to this site? Please explain why.	
588	I think it would be a great economic multiplier locally, regionally and nationally. I also think it would be a disruptor to the UK leisure industry and would cause other operators to significantly invest i.e Merlin. It would strengthen UK tourism	Would you support a potential park and resort coming to this site? Please explain why.	

2919	I think it would be amazing for the community I absolutely love the idea. The job opportunities it would create, the tourism and financial benefits to the county. What a fantastic way to spend a day and all on our doorstep!	Would you support a potential park and resort coming to this site? Please explain why.
2920	I think it would be good for the area, bringing tourism and additional money in to the town. Sustaining local businesses, hotels and b&bs	Would you support a potential park and resort coming to this site? Please explain why.
3446	I think it would be great for the Bedford area and for tourism. Also the fact that it would be incredible for a new addition to the UKs tired theme park world	Would you support a potential park and resort coming to this site? Please explain why.
645	I think it would be really good for UK tourism.	Would you support a potential park and resort coming to this site? Please explain why.
3754	I think the economic and incoming tourism could only help to improve the area and transform the struggling town centre of what had the potential to be a beautiful market town with a river. This is based on the fact that the protection of the existing environment and wildlife would be part of this development	Would you support a potential park and resort coming to this site? Please explain why.
3490	I think the opportunity to have such a world class resort within the UK would be a fantastic economic boost and bring a lot of tourism to the UK but also for me i have always wanted to go to your Orlando resort but the cost for me is unattainable, mainly due to the cost of flights but with the opportunity of this coming to the UK would make it feasible for me and family to enjoy your resorts also with a city walk area being considered i would happily make a 4 hour drive for a day trip to just experience it and visit often	Would you support a potential park and resort coming to this site? Please explain why.
4137	I think the site is an asset, that the area should grasp, providing improvements to infrastructure, offering employment/training opportunities, lifting tourism in the area, many park visitors will travel a long way to visit site, they will need accommodation, feeding, fuel etc	Would you support a potential park and resort coming to this site? Please explain why.
2109	I think this is an amazing opportunity for the uk in terms of tourism, job opportunities and economic growth.	Would you support a potential park and resort coming to this site? Please explain why.
3614	I think this would be a great opportunity to put Bedford on the map and would increase public interest and tourism.	Would you support a potential park and resort coming to this site? Please explain why.
3665	I think this would be a massive benefit to the whole of the U.K. not just the local area. The tourism and money it could bring into the U.K. would be amazing	Would you support a potential park and resort coming to this site? Please explain why.
4842	I used to be an annual passholder at Disneyland Paris, and regularly visit both Walt Disney World and Universal Resort in Florida. Having something of that quality (in terms of rides, IP, theming and overall experience) in the UK would be amazing. I would visit often. It would also be a boost to the local economy and increase tourism, particularly as the site is less than 90 minutes from London by train, and a little over 2 hours by car.	Would you support a potential park and resort coming to this site? Please explain why.
3584	I used to live in the east of England (XX to be exact) and I would love to see this underrated part of the UK to be remembered and appreciated again. The east is not as well connected as the north of England, despite being closer to London and so, often gets overlooked by tourists who mainly only stay in London and the North. This project would be a chance for local businesses and local industries to truly bloom and would entice tourists to stay in this part of the UK, thus creating a tourism boom for the east of England which I think is needed in this day and age.	Would you support a potential park and resort coming to this site? Please explain why.
4380	I would absolutely support this - The proposal is comprehensive and is exactly the boost both Bedford and our overall Country needs right now. Universal Resorts all over the world are highly successful and what an opportunity to be the beacon in Europe that should not be missed. This will also be an excellent opportunity for other UK theme parks that have stayed stagnant for decades to improve further increasing tourism across the country.	Would you support a potential park and resort coming to this site? Please explain why.
1029	I would like to visit it and it will attract tourism.	Would you support a potential park and resort coming to this site? Please explain why.
1242	I would love to see this in the UK as it will bring tourism, put us back on the map and create somewhere that people of all ages will dream of visiting	Would you support a potential park and resort coming to this site? Please explain why.
2309	I would support the park as it would bring tourism to the uk, and there's nothing else around	Would you support a potential park and resort coming to this site? Please explain why.
2237	Increases net tourism into the UK, adds economic benefits directly to the local area, increased infrastructure, adds competition to the UK theme park industry and an exciting day out.	Would you support a potential park and resort coming to this site? Please explain why.
2271	Increasing tourism, providing excellent opportunities for staycations for British public.	Would you support a potential park and resort coming to this site? Please explain why.
4890	It could enhance the UK s other othering and History for tourism in UK	Would you support a potential park and resort coming to this site? Please explain why.

240	It is a perfect use for this space, which currently offers little to nothing to the area and country as a whole. This resort and park would bring a huge boost to the local and national economy by brining in more tourism, would build and enhance the pride and identity of the Bedord area, and would be carried out by an environmentally sensitive company.	Would you support a potential park and resort coming to this site? Please explain why.
1875	It is not only good for Bedford but good for England as a whole and the uk's tourism.	Would you support a potential park and resort coming to this site? Please explain why.
3612	It was be a huge increase for tourism in the UK and a universal park in the UK is absolutely mind blowing	Would you support a potential park and resort coming to this site? Please explain why.
1884	It will be great for the UK theme park industry creating healthy competition and great tourism. This will then feed into local improvements, employment and education.	Would you support a potential park and resort coming to this site? Please explain why.
1804	It will be so great for the area and also amazing for the UK. We need a world renowned park as it will bring it so much tourism and positivity that we all need!	Would you support a potential park and resort coming to this site? Please explain why.
3052	It will benefit the local and national economy with increased tourism from home and abroad. The UK needs a mega resort theme park to rival Disneyland.	Would you support a potential park and resort coming to this site? Please explain why.
2887	It will boost tourism in the uk and at the moment the uk doesn't have anything like this	Would you support a potential park and resort coming to this site? Please explain why.
2934	It will bring more tourism to the area and to the whole uk and it will be the most extrining theme park in the uk as we lack them.	Would you support a potential park and resort coming to this site? Please explain why.
4416	It will heavily increase tourism to the area and the country as a whole. It will ensure a bright future for Bedford with further developments almost certain to take place. It will allow for lessened environmental impacts via travel by European tourists, allowing for a closer and more cost effective visit overall which should further drive tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
957	It will help uk tourism a lot especially for the theme park industry	Would you support a potential park and resort coming to this site? Please explain why.
1058	It will increase employment, training opportunities and tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4247	It would be a great addition to the UK tourism economy	Would you support a potential park and resort coming to this site? Please explain why.
1891	It would be a huge boost to the UK's tourism in general but will also give UK residents an elite level theme park to visit without the need to travel thousands of miles via plane.	Would you support a potential park and resort coming to this site? Please explain why.
2796	It would be absolutely fantastic. Not only economically but also a place for families and everyone else to have a wonderful time. It's so long overdue but still very much needed for a world's major economy. The UK should have been competing against France on this ages ago but I am glad this potentially can mow happen. The overseas tourism should fill the coffers of everyone local and national as well as enrich all of our lives manyfold.	Would you support a potential park and resort coming to this site? Please explain why.
1584	It would be an amazing boon to the economy and provide a high quality tourism destination accessible by rail	Would you support a potential park and resort coming to this site? Please explain why.
4555	It would be awesome Tourism Economic growth Competition to other UK theme parks	Would you support a potential park and resort coming to this site? Please explain why.
2032	It would be excellent for UK industry and tourism. Universal Resorts are a premium theme park brand and this is a once in a lifetime economic opportunity for the UK.	Would you support a potential park and resort coming to this site? Please explain why.
1928	It would be great for local employment, tourism for the UK, an exciting high quality new theme park and it will bring a flavour of American culture.	Would you support a potential park and resort coming to this site? Please explain why.
3632	It would be great for the UK economy and would boost tourism. I would also benefit by being able to visit a world class theme park and not having to travel thousands of miles to do so.	Would you support a potential park and resort coming to this site? Please explain why.
2096	It would be great to have a Universal site in the UK. Me and my family have been to Orlando 7 times and love the place. The impact that the park would have on international tourism would most likely give a significant boost to the economy.	Would you support a potential park and resort coming to this site? Please explain why.
2036	It would be ground-breaking for UK tourism and provide a truly world-class experience - and attract great numbers of international tourists also.	Would you support a potential park and resort coming to this site? Please explain why.
174	It would benefit not just Bedford, but the wider East Anglian/East Midlands area, through employment opportunities & tourism.	Would you support a potential park and resort coming to this site? Please explain why.
4326	It would bring a ridiculous amount of traffic and tourism to a place where people move and live to be away from that. We doesn'twant to live in London or have tourists and the public flock every day to see the area it's such a ridiculous idea that I do not support at all.	Would you support a potential park and resort coming to this site? Please explain why.

4158	It would bring job opportunities for locals and be a good investment for tourism, putting Bedford on the map.	Would you support a potential park and resort coming to this site? Please explain why.
2059	It would bring major economical benefits and improve tourism. It would provide lots of new job opportunities. It would seriously improve the theme park industry within the UK as currently merlin is unchallenged which means the drive to innovate and advance is not there. I love universal parks and would be really excited to see one come to the UK :)	Would you support a potential park and resort coming to this site? Please explain why.
1326	It would create so many employment opportunities for the local area in addition to being a brand new sector of tourism for people to explore as future careers	Would you support a potential park and resort coming to this site? Please explain why.
4656	It would enrich the local area and be a huge draw for tourism not just in the UK but across Europe.	Would you support a potential park and resort coming to this site? Please explain why.
1547	It would help improve tourism across the uk and will bring people together from all over the world also will put bedford on the map as a popular tourist destination and will bring a lot of customers visiting local restaurants , hotels more business	Would you support a potential park and resort coming to this site? Please explain why.
1444	It would make a massive contribution to UK employment and tourism, and most importantly would be great fun.	Would you support a potential park and resort coming to this site? Please explain why.
871	It's a great location, due to it being on a Brownfield site, it would've been built on anyway so it would be great for tourism and for the people of Bedford. There isn't a great deal to do in Bedford so it would boost their economy as well as surrounding towns.	Would you support a potential park and resort coming to this site? Please explain why.
2424	It'll boost the economy, provide healthy competition for the UK tourism industry, create value for the UK's creative industries, and provide a much needed local escape from the mundane day to day.	Would you support a potential park and resort coming to this site? Please explain why.
2400	It's a very exciting opportunity for the UK. The benefits for tourism and local employment are huge and would be a unique attraction in the country.	Would you support a potential park and resort coming to this site? Please explain why.
1927	I've visited the US park and it was high quality. This project would provide opportunities - not just for interesting employment - but also collaborations with local organisations and community. It would also bring tourism to the area, and that opens up benefits to other organisations too.	Would you support a potential park and resort coming to this site? Please explain why.
1892	Merlin has been king in the theme park industry in the UK for a long time and having a competition is great from the UK theme park industry, as well as for tourism with such a world leader.	Would you support a potential park and resort coming to this site? Please explain why.
1219	My parents used to live in Bedford so I have visited many times. It currently lacks a major tourist draw despite being extremely well connected. I loved my parents being here as I used to fly in from Bermuda (where I worked) to Gatwick Airport and then only needed one train to get home (Thameslink). Whenever I visited we rarely spent much time in Bedford, but rather headed out to other places nearby. A theme park by Universal would completely reverse this and make Bedford one of the must visit places in the UK. I have just visited 4/5 of the Universal resorts this year and so can personally attest to how much your brand can draw tourism from around the world.	Would you support a potential park and resort coming to this site? Please explain why.
2015	Not only would this benefit the local area socially, economically and environmentally, but it would also bring a large boost to the tourism industry. Merlin could do with a kick up the backside and in an incredibly Merlin-saturated market, this investment would encourage healthy competition for the UK as a whole to really upgrade tourism.	Would you support a potential park and resort coming to this site? Please explain why.
1285	Our government preach our country promises to be great and have the world look to us. Adding massive strength to our tourism through the incredible Universal Parks and Resorts, would also enhance our relationships with other countries too in the long term.	Would you support a potential park and resort coming to this site? Please explain why.
3334	Positive addition to the uk economy and tourism industries. Will generate secondary investment in the immediate area and possibly the uk as a whole. And of course everyone loves a Universal theme park.	Would you support a potential park and resort coming to this site? Please explain why.
2399	Potential economic benefit to the community through job creation and increased tourism would have a significantly positive impact - assuming infrastructure was improved to manage increased demand.	Would you support a potential park and resort coming to this site? Please explain why.
1024	Purely selfish, I love theme parks and only last year travelled to Orlando specifically for the parks (Velocicoaster is the best ride I've ever been one), and designing parks has also been my biggest dream, I only really work in film because we doesn't have a big park industry in this country and a Universal park opening here might give me the opportunity to fulfil my life's dream! Bonus would be the huge tourism boost for the country generally, I'm sure it would pull massive numbers from surrounding European countries and even further afield! There isn't anything like a Universal park on this continent; the immersive design, recognisable properties, major thrills, aimed at all ages.	Would you support a potential park and resort coming to this site? Please explain why.
3204	Really positive development for the Eastern region and encourage more tourism to central England. A big fan of Universal, have visited the LA park and it is sympathetic and blends in to the vicinity while being a very fun day out. Would be excited to visit and enjoy the park.	Would you support a potential park and resort coming to this site? Please explain why.

4660	Reduce joblessness, bring more tourism to Bedford	Would you support a potential park and resort coming to this site? Please explain why.
1616	Support economically and be part of a worldwide franchise that would encourage tourism outside of London.	Would you support a potential park and resort coming to this site? Please explain why.
2284	The ability to visit a world class attraction in the UK would be a game changer for both the theme park and tourism industry for the UK. The area is in need of investment and this would be a fantastic fit for this. There would be so many opportunities for local companies to partner with the project after completion as well. It also gives the local community something to be proud of having.	Would you support a potential park and resort coming to this site? Please explain why.
4190	The area doesn't have high tourism yet, and this can be a big benefit to the local economy.	Would you support a potential park and resort coming to this site? Please explain why.
3303	The benefits of improved infrastructure, employment and tourism for the county as a whole will outweigh any concerns like environment etc.	Would you support a potential park and resort coming to this site? Please explain why.
3373	The benefits of the proposal are seen as significant - both to employment, the economy and the leisure & tourism industry. It further strengthens the UK as an attractive and unique destination internationally.	Would you support a potential park and resort coming to this site? Please explain why.
2238	The benefits this would bring to the UK and namely Bedford would be unmatched. Not only would this benefit the local residents the tourism in the UK would be forever changed my this resort coming to Bedford. In an area of the UK I only live 1.5 hours from but rarely visit, this would put Bedford on the map. The positives of this project seem to outweigh any potential negatives. I am passionate about employment and namely solving unemployment in the UK, especially outside of London. This project will offer a vast variety of people opportunities to develop from people beginning their careers to experienced staff members in the industry. I know from people in the UK regularly travelling to Universal properties around the world, namely Orlando, it would open this company to people who may not be able to afford to visit Orlando. As well as this, road and train developments as well as positive environmental impacts this project will have is amazing. I cannot say enough good things. I would love to see this project completed.	Would you support a potential park and resort coming to this site? Please explain why.
1832	The benefits to the local area and tourism in the UK in general	Would you support a potential park and resort coming to this site? Please explain why.
1947	The economic benefit to the area and the rest of the uk would be huge and tourism would be big, less money on me spending to get to Orlando parks as well	Would you support a potential park and resort coming to this site? Please explain why.
3404	The importance of theme parks for the UK tourism and leisure sectors is large and it would be amazing to have more options in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
1689	The increase in tourism worker bee great, as well as the additional employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
3658	The infrastructure improvements and added tourism would be highly beneficial to not only bedford but the UK as a whole. It would mean people from the UK could experience the excitement of a resort like universal without having to travel half way round the world.	Would you support a potential park and resort coming to this site? Please explain why.
1049	The injection of revenue to the Bedford are, tourism and positive perceptions should have a great impact on local infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
2220	The job opportunities alone would be enough but the benefits to the country as a whole far outweigh the bad points. Having more draw for tourism and the knock on effect for the local communities from that tourism cannot be a bad thing.	Would you support a potential park and resort coming to this site? Please explain why.
4044	The midlands is lacking theme parks or big entertainment areas. This is an exciting opportunity and the area perfect for this. It would be more centralised rather than the majority of theme parks currently being in the south of the UK. The current road infrastructure of the M1 and A1 between Bedford seems a great area to invest in. It enables employment opportunities and encourages tourism to this area generating more investment and income for the local community as well as the wider surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why.
4859	The new employment opportunities are much needed in the area. Tourism would provide additional income to the local hospitality sector. Bedford would become a more attractive place to live, with more social cohesion and more income for local families.	Would you support a potential park and resort coming to this site? Please explain why.
1136	The park would be fantastic for the UK as a whole boosting tourism and the economy. The site is well located with good train links and seems ideal for such a venture	Would you support a potential park and resort coming to this site? Please explain why.
4080	The scheme has the potential to put Bedford on the map, as Universal is such an iconic global brand, it would create a natural draw for other businesses, further increasing employment opportunities. A proportion of those visiting would likely spend elsewhere within the local community; local tourism should see an uplift. Bedford is centrally located, with the inclusion of the EWR station and Wixams station it would be easily accessible.	Would you support a potential park and resort coming to this site? Please explain why.

2117	The U.K. has so much scope to introduce a new Theme Park, tourism is a huge draw and to have an Internationally renowned business invest would be another stepping stone to really show what the U.K. has to offer.	Would you support a potential park and resort coming to this site? Please explain why.	
1597	The UK desperately needs a decent theme park, especially in the central location. We certainly could do with an economic boost from tourism and greater employment opportunities. Years ago we were promised 'Wonder World' in Northamptonshire. I remember as a small child seeing signs on the land which had been purchased. The theme park never materialised. Please doesn't put me through disappointment again 45 years or so on! I would love to be enjoying all that your resort would have to offer.	Would you support a potential park and resort coming to this site? Please explain why.	
2142	The UK does not have a heavily themed major park and would see it as a good investment for the UK tourism industry. Not just with international visitors ie Europe but within the UK as I would see a Universal park being the main park / crown jewel of the UK theme park industry opening up opportunities for the local community not just in employment in the park itself but outside of the park. Local hotels/guest houses would see an increase and local shops as people stop for snacks, souvenirs etc on their way through to or away from the park. I could see this as being a push for other UK parks to increase the theming and interactivity of their parks giving more choice to UK park goers moving forward in the long term as they push to compete with Universal.	Would you support a potential park and resort coming to this site? Please explain why.	
2908	The UK does not have a strong offer in this industry, so I believe there is a great opportunity for Universal to exploit this opportunity. Europe does not have a Universal resort currently, a new one in Bedford would be ideal to capture a substantial slice of the market. Bedford is close to London, so it could benefit from international tourism going to the capital. The local community would be very supportive of such a park It's exciting!	Would you support a potential park and resort coming to this site? Please explain why.	
200	The UK doesn't have a substantial tourist attraction like it. The midlands is particularly barren in this regard. Universal have an established reputation for creating high quality theme parks which would likely attract international as well as local tourism.	Would you support a potential park and resort coming to this site? Please explain why.	
2490	The UK economy would massively benefit also new attraction and tourism for the local area, but also to expand on the competitive nature with already existing parks	Would you support a potential park and resort coming to this site? Please explain why.	
1390	The UK has a big Theme Park fan base i.e roller coasters etc. I have been to the one in Florida with my wife, we found it out of this world for themes and rides. The UK not just Bedford would benefit regarding economy and tourism. I know family/friends who are fans of Universal films, but can't afford to go to the US, but 100% would go and have said this already when I told them about a possible Universal Studios Great Britain.	Would you support a potential park and resort coming to this site? Please explain why.	
1715	The UK is a honeypot for tourism as it is already. However, with this new resort it would make the country even stronger. The resort could benefit from the tourist already coming, whilst the UK would benefit from tourism created directly by the Resort. I would also be supportive of this as it would open up Universal resorts up to the people of Europe and the UK who cannot afford to travel to USA or Asia. Also it would make the current resorts in the UK improve their own parks and offerings. Finally creating much needed competition. Something that can be seen in Florida	Would you support a potential park and resort coming to this site? Please explain why.	
1841	The UK is far behind on world-class theme parks, and an operator like Universal will help to bring legitimacy to our tourism offerings and encourage more effort and investment from our main UK park's operator Merlin Entertainment. Plus, the UK economy will do very well to have a draw like Universal Studios Great Britain in it, and we need that economic push badly right now	Would you support a potential park and resort coming to this site? Please explain why.	
2448	The UK is in desperate need of a theme park on this scale. Not only would this be beneficial to Bedford but to the wider population of the UK. Not everyone is fortunate enough to be able to afford holidays to Florida, so this would be a fantastic addition to UK tourism. I'm following this news with great excitement and anticipation. I really hope we get a positive outcome. Things like this doesn't happen in the UK. We never get this lucky so it would be amazing.	Would you support a potential park and resort coming to this site? Please explain why.	
4187	The UK is in need of a major tourist entertainment attraction. Although in general we already have multiple tourist attractions across the country, we are lacking anything on the scale of a universal theme park. This could work as at centrepiece, and also force other attractions to compete rather than be complacent as they currently are. With this, UK tourism could see a renewal with sectors across the UK benefiting from fresh competition as well as a wave of tourists coming to experience it.	Would you support a potential park and resort coming to this site? Please explain why.	
3486	The UK is lacking behind the rest of the world for a world class all year round Theme park and the benefits it will bring to the UK economy and other tourism sites is massive	Would you support a potential park and resort coming to this site? Please explain why.	

4475	The UK is yet to have a park on the scale of the Universal brand. I believe the area of land acquired is substantial and will bring more tourism into this sector of the UK. Furthermore, creating ample work opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
382	The UK lacks a large-scale immersively themed attraction. This potential resort would deliver an experience not found anywhere else in the country, and bring tourism to an area of the country that otherwise is looked over. I am 100% in support of the potential project and hope it becomes a success story if it proceeds.	Would you support a potential park and resort coming to this site? Please explain why.	
1199	The UK needs a major theme park resort experience to drive tourism and boost the economy. A resort of this scale would be good for the local area and the country as a whole and would also have beneficial knock on impacts, such as increased competition within the theme park sector driving improvements across the board.	Would you support a potential park and resort coming to this site? Please explain why.	
3797	The UK needs a world class theme park and it can help the economy, tourism, enhance transport and can be done in a top class sustainable and environmentally aware fashion.	Would you support a potential park and resort coming to this site? Please explain why.	
1558	The UK needs additional tourism away from London, and if it's something we doesn't already have then all the better. Theme parks are an amazing day out for families of all ages - this could be something that people continue to visit to many, many years.	Would you support a potential park and resort coming to this site? Please explain why.	
2165	The uk needs investment, excitement and tourism this ticks all the boxes	Would you support a potential park and resort coming to this site? Please explain why.	
1709	The uk needs this investment. Many of us cannot afford to visit theme parks abroad. It would greatly improve tourism. I personally would love visit multiple times with my family	Would you support a potential park and resort coming to this site? Please explain why.	
1699	The UK needs this investment. The amount of tourism this would bring to the area and UK in general is a huge potential. People travel outside of the UK year on year, this project will promote people to stay in the UK and spend money on the site and in local hotels/shops, keeping money within the UK. The conservative government use the phrase "build back better" this project supports the statement. The job opportunities for people here are phenomenal, this could drive unemployment rates down. Universal should engage with job centres to promote people into work.	Would you support a potential park and resort coming to this site? Please explain why.	
1703	The UK needs this park for local and international tourism. There are so many people that say they would love to go to a Universal Park but can't afford to travel to one. The UK is desperate for a top tier theme park and resort.	Would you support a potential park and resort coming to this site? Please explain why.	
2761	The UK theme park community and economy is slipping not only would this boost the economy it would push other parks to up their game creating more tourism and overall better for everyone. BTW please please please make a hybrid coaster by RMC. C:	Would you support a potential park and resort coming to this site? Please explain why.	
878	The UK tourism industry has long been in need of something large-scale, forward thinking, and cutting edge. I feel like a project such as this could benefit UK residents in so many different ways.	Would you support a potential park and resort coming to this site? Please explain why.	
882	The UK would benefit massively from a project such as this. We do have a number of theme parks around the country, but nothing on the scale of what is being proposed. The location is excellent for the majority of the UK itself and Europe, and I can see such a park bringing in more tourism to the whole UK from other countries.	Would you support a potential park and resort coming to this site? Please explain why.	
2944	There are so many great things universal deserves and I think coming to the uk would be the best thing as universal gets more money but also the tourism in the uk would help the uk economy	Would you support a potential park and resort coming to this site? Please explain why.	
2889	There is nothing of Universal's parks and resorts stature in Europe, The company as a whole is worldwide known as are they're parks and other projects. I believe this would bring in major tourism to the area, not only for the area its self, but for Universal as a company too	Would you support a potential park and resort coming to this site? Please explain why.	
599	There would finally be a universal park in Europe! Plus it would be a great improvement to the economy and tourism of the UK. We also love theme parks!	Would you support a potential park and resort coming to this site? Please explain why.	
4710	There's no competition between theme parks in the UK because it's a Merlin monopoly. Having a park of this calibre would help Merlin strive to be better and in turn make the UK a more desirable country to visit which would bring in tourism and more visitors to your park/s	Would you support a potential park and resort coming to this site? Please explain why.	
1769	Think it would be a great investment for the uk and theme park industry in in UK. Will boost tourism more	Would you support a potential park and resort coming to this site? Please explain why.	
3244	This could be the making of Bedford and the local communities - recruitment, investment, infrastructure, tourism.	Would you support a potential park and resort coming to this site? Please explain why.	
1456	This facility is missing from the UK and would undoubtedly bring a lot more tourism and financial benefits to the local areas. It will also help transform and speed up transport improvement plans. Positioned along the Oxford to Cambridge arc, Bedford is ideally positioned to benefit from large volumes of traffic utilising existing and future public transport networks such as East West Rail.	Would you support a potential park and resort coming to this site? Please explain why.	

1756	This is a fantastic addition not only to Bedford but for the United Kingdom. Furthermore, the site will allow many people from UK/Europe who are unable to reach some of your overseas resorts and experience Universal, right here in the UK. The one hour train ride from UK would boost tourism and allow those visiting the capital an easy commute to experience Universal as part of thier trip. I am based in the North East of England, and and would travel to experience Universal.	Would you support a potential park and resort coming to this site? Please explain why.
1705	This is a fantastic opportunity for the UK to have a major theme park on the map and to bring in alot of tourism into the country. Also the amount of people who do not have the funding to get to America or the far east will have an amazing opportunity to visit one of your parka.	Would you support a potential park and resort coming to this site? Please explain why.
2571	This is a great opportunity to have a world leading brand in the UK which will not only benefit Bedford but bring significant benefits to the whole of the UK. Driving tourism, investment and improvements to infrastructure as well as bring employment opportunities. It's a brownfield site and I cannot think of a more desirable or exciting future for it than the one proposed by Universsl Studio Resorts.	Would you support a potential park and resort coming to this site? Please explain why.
908	This is an incredibly exciting opportunity for the UK industry. While we have our own theme parks, a Universal park is of a much bigger scale and variety of excellent entertainment. Personally, it would take me a few years to save up to go to other universal parks around the globe so I've never been able to visit one, however having a resort in the UK is much more affordable and provides more opportunities for other UK guests to visit for the first time too. Not to mention the new wave of tourism and boost in economy this resort can bring.	Would you support a potential park and resort coming to this site? Please explain why.
2010	This is such a great opportunity not only for Bedford but for the country from international tourism as well	Would you support a potential park and resort coming to this site? Please explain why.
410	This park if it is built will be good for UK tourism. It would have a large financial benefit for suppliers, logistics operators and staff employment opportunities. The local area would benefit with regard to shops, hotels , retail and hospitality spend. Inbound tourism may also benefit other UK theme parks.	Would you support a potential park and resort coming to this site? Please explain why.
3045	This project offers MARVELLOUS scope for our small county (I am French born and past CEO of the Tourism Partnership in Bedfordshire,) to be recognised as a serious visitor destination. it would bring hope and job opportunity to the young, stimulate business opportunities, improve our already excellent connectivity. Bring much needed wealth to deprived areas in Luton.	Would you support a potential park and resort coming to this site? Please explain why.
3078	This project would bring great benefits to both the local Bedford area with employment opportunities, infrastructure enhancements and boosting local businesses, in addition to the tourism benefit for the wider UK. It would be fantastic to see Universal enter the UK theme park market, currently largely dominated by Merlin Entertainments. A new major player in this market would drive new healthy competition which I strongly believe would boost the sector as a whole across the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3952	this region needs more incoming tourism and job opportunities; ideally including for the creative industries	Would you support a potential park and resort coming to this site? Please explain why.
2888	this seems to be a fantastic opportunity for employment and tourism for the area (and country) that could actively benefit not only local area but the nation as a whole, as Universal parks are recognised worldwide and would give opportunities for many locals in various different ways.	Would you support a potential park and resort coming to this site? Please explain why.
1283	This will be the best thing that has literally ever happened to the UK. It will bring tourism, benefit the economy, Bedford will thrive. It will improve quality of life for theme park lovers for myself. It will encourage healthy competition between theme parks and make the UK an appealing place for many nee overseas businesses and organisations. The UK made Harry Potter, this is a perfect place for a park. There could be Harry Potter tours that include the Warner Brothers Studios and Hogwarts and Universal which will benefit Warner Bros company aswell.	Would you support a potential park and resort coming to this site? Please explain why.
2349	This will help UK economy and tourism. Universal will make UK more attractive and will help our economy. People will have another reason to visit our beautiful London. Also will help so much the local area. Try to think what disneyland Paris does for France and Paris.	Would you support a potential park and resort coming to this site? Please explain why.
1507	This would be a great addition to the UK, we hold a strong position in the world when it comes to economy and tourism and this would strengthen on this considerably.	Would you support a potential park and resort coming to this site? Please explain why.
951	This would be an amazing opportunity for not just the local area but UK as a whole. Tourism and bringing more locals access to a great resort. I also believe that it will revitalize the local area and attract more business that the area needs. Having well landscaped areas and more walkable is a big plus.	Would you support a potential park and resort coming to this site? Please explain why.
2205	This would be an opportunity to invest in the UK leisure and tourism industry. The UK is highly populated for a relatively short travel distance and the UK would provide a gateway to European visitors.	Would you support a potential park and resort coming to this site? Please explain why.
1500	This would bring massive employment and tourism benefits to the local area and the UK. It would also give the opportunity for UK residents to discover the pure joy and excitement of a universal theme park.	Would you support a potential park and resort coming to this site? Please explain why.

2648	This would heavily benefit the community and would improve links to the community and boost tourism. Universal are a fantastic park and I'm excited for this to be built in Bedford	Would you support a potential park and resort coming to this site? Please explain why.
4799	This would help improve local infrastructure as well as bring tourism to the area and help other local businesses like pubs and restaurants.	Would you support a potential park and resort coming to this site? Please explain why.
3338	To create a huge boost to UK tourism, create opportunities for career progress for UK residents to match opportunities for US residents with career progression within the company.	Would you support a potential park and resort coming to this site? Please explain why.
923	To increase tourism to the local area.	Would you support a potential park and resort coming to this site? Please explain why.
3376	Tourism boost and construction economic boost. Personally i'd love to work on this myself	Would you support a potential park and resort coming to this site? Please explain why.
3327	Tourism in the north of England would be vital to increasing funding and social and economic improvement's in this area	Would you support a potential park and resort coming to this site? Please explain why.
3542	Tourism will be at its peak	Would you support a potential park and resort coming to this site? Please explain why.
4169	UK has a number of tourism attractions, the location combined with other nearby attractions such as Harry Potter Studio etc. will create a hub albeit smaller scale similar to Florida thus drawing more footfall from within the UK and Europe especially.	Would you support a potential park and resort coming to this site? Please explain why.
415	Uk needs a great theme park for the economy and tourism. (please make a Lord of the rings land)	Would you support a potential park and resort coming to this site? Please explain why.
1182	UK theme parks are generally not very good and the closest we have to anything like Orlando is Disneyland Paris and Efteling Park - both of which would be considered major vacations for UK goers and often can be MORE expensive than travelling to the US. Therefore, most Brits who like theme parks head to Orlando. As these are vacations, Brits DO NOT day trip to Disneyland Paris etc, BUT this means there is scope for day tripping within the UK to a new Universal Park. The daily tourism market in the UK is growing all the time and if you can combine a park that has lots of nursery/kindergarten type attractions then you'll attract the pre-school kids and mums during the weekdays, if you add the thrilling rides you'll attract families and adults on the evening and weekends, and if you can make this a resort and advertise the benefits of coming to the UK you can easily attract foreign tourists to make a week or more out of this new park. Pepper in culture, heritage and a variety of activities, even Halloween Horror Nights, and you will have a receipt for success.	Would you support a potential park and resort coming to this site? Please explain why.
2423	Universal is a global brand and there are no Universal parks in Europe. By bringing a park over to the UK will attract visitors all over Europe and beyond, which will be great for the UK theme park industry and UK tourism in general.	Would you support a potential park and resort coming to this site? Please explain why.
2001	Universal parks are the leaders in the world in my eyes. I used to live in Orlando and having the resort on your door step was amazing. It is the only park I have ever owned an annual pass for and would go regularly to enjoy the amazing immersive experience they create. I had friends who worked there and they always spoke so highly of the company. It would be so great for Bedford but also for the UK bringing in more tourism from Europe and the rest of the world. So so excited for this project and pray it goes ahead.	Would you support a potential park and resort coming to this site? Please explain why.
751	Universal Studios is very popular with British people. I have travelled the world to visit your parks and would love one in Britain. It would be great for tourism too.	Would you support a potential park and resort coming to this site? Please explain why.
700	Universal would bring very good opportunities and tourism to the uk also for people who are unable to afford trips to Florida etc a uk theme park would Make this possible as well as a competitor theme park uk as nothing compares to Disney or universal in the uk	Would you support a potential park and resort coming to this site? Please explain why.
3429	Vastly improve tourism, the economy, the local area, the theme park industry in the uk	Would you support a potential park and resort coming to this site? Please explain why.
3997	We are a huge fan of theme parks in our family. To have a Universal park that would compete with those in America, along with Disneyland Paris and the Uk parks would be amazing. It would create huge job opportunities for local people in Bedford and would definitely increase tourism. We really hope this project goes ahead!	Would you support a potential park and resort coming to this site? Please explain why.
1138	We are in desperate need of a destination to visit within the UK that means a break from the norms of life. We also have a massive market for theme parks within the UK as many UK based residents are keen to visit and enjoy some of the best themed experiences. Sadly in the UK we do not yet have a full package that is of high-quality and this also means tourism rates to such current parks and experiences is lacking. There is a definite market for something like your project.	Would you support a potential park and resort coming to this site? Please explain why.

2131	We are theme park enthusiasts and we believe that Universal is a world leading brand that would put Bedford and the UK on the world map for theme park resorts. It will transform the local area and provide many employment and training opportunities. Who knows, one day my 13 year old son could work at the resort as this is his dream to work in the industry. Overall it would be a massive boost to the area and UK tourism as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
1924	We have been to other Universal parks but to have one in the uk would be amazing. We would be able to visit more often. It would increase tourism and improve the uk.	Would you support a potential park and resort coming to this site? Please explain why.
1794	We love universal in Florida and visit yearly. We would love to have a park here in the UK to also visit. The parks would bring a new wave of tourism from transatlantic to the UK and bring visitors to other areas including our local area of the Lake District. There are some other amazing parks in the UK and it would bring visitors to them as well as universal.	Would you support a potential park and resort coming to this site? Please explain why.
2243	We would love a park like universal in the UK, the fact that this would be our closest theme park aswell would be fantastic, it's such an amazing opportunity for tourism and has created such an excitement that is definitely needed in this country	Would you support a potential park and resort coming to this site? Please explain why.
3974	Whilst the UK does have theme parks they do not compare to what Universal has to offer. It would majorly increase footfall for all surrounding businesses in the local area but also has the potential for the rest of the uk for people travelling through to visit the park whilst making stops/having rest breaks and not to mention the boost it would have on the travel and tourism in general for the country. I personally would travel regularly to the park if it does continue to go ahead	Would you support a potential park and resort coming to this site? Please explain why.
4614	Will be great for the local economy. The high streets in bedford are already starting to attract independent businesses and this park will attract tourism and fill out any remaining empty lots. Selfishly I will benefit from the infrastructure improvements and the extra commercial opportunities in the surrounding villages that dont have so much at present.	Would you support a potential park and resort coming to this site? Please explain why.
4919	Will provide a huge boost to the local economy and uk tourism	Would you support a potential park and resort coming to this site? Please explain why.
3678	Will provide lots of job opportunities and can really help with the economy and tourism. Lots of people doesn't have the means to travel to your other parks so having the opportunity to visit a universal park in a country that we live in is so so amazing!	Would you support a potential park and resort coming to this site? Please explain why.
2435	With the cost of living and many struggling to find employment that not only supports their families but is also in a vocation they enjoy, I think a Universal park in the UK will do wonders to improve this issue. I understand how it is likely to greatly increase tourism and boost the economy (which is another huge positive), along with the excitement and joy it will bring the many who will travel to experience it. I cannot think of any seriously negative consequences of this project continuing, and it fills me with great excitement that it is even being considered.	Would you support a potential park and resort coming to this site? Please explain why.
3653	Would be great for the local economy and UK as a whole due to tourism. As a theme park fan, and have visited other universal parks, this excited me very much	Would you support a potential park and resort coming to this site? Please explain why.
4610	Would be great for tourism and employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
1658	Would create benefit to the local community and will provide an increase to tourism in the local area. It will also provide millions of people with fun and enjoyment.	Would you support a potential park and resort coming to this site? Please explain why.
4503	Your proposal is groundbreaking for the UK. The near possibility of stepping foot into Universal, the best amusement park chain in the world in the UK, is incredibly exciting. The chance to share the magic of Universal, with friends and family who have never been fortunate to visit Orlando, is a moment I will treasure forever. The UK theme park scene has been in need of competition for decades, and Universal can provide this. From an economical impact, the people of Bedford need something to celebrate. For as long as I can remember, the town has received a bad reputation from the media and public. This is an unfair representation of the town. Universal could help present Bedford in a new light, whilst providing much needed travel and tourism links to the rest of Europe. Your proposal is nothing but astonishing in the best ways possible. Thank you for even considering the UK for your next resort. You are the perfect company to revitalise Britain's amusement park and tourism industry.	Would you support a potential park and resort coming to this site? Please explain why.
5681	You will be a valuable tourist destination, encouraging people not just to visit for the day but potentially to stay in the area	Please explain why
3048	The uk needs a new main attraction for tourists and the benefits to the local economy and town of Bedford make this a very exiting project.	Please share any other feedback you have at this stage.

1557	The UK needs change and adding an big competitor keeps other theme parks and resorts on their top game to give customers an amazing experience and overall improve the experience for tourists as allot of the UK theme parks do not have the same amount of passion for the 'theme' part of theme park then universal and other big competitors	Would you support a potential park and resort coming to this site? Please explain why.
1313	The UK needs growth, ambition and hope. Universal Studios would deliver on all three and given the local filmmaking facilities it would be authentic and add to the local and national economy.	Would you support a potential park and resort coming to this site? Please explain why.
3341	The uk needs investing in. External investment is currently the only way to get anything done in this country. It would greatly benefit this country because the governments hands are tied, trying to just stay afloat. This country needs investment like this, not just for measurable benefits, but to also give people an emotional boost.	Would you support a potential park and resort coming to this site? Please explain why.
2439	The UK needs investment and is crying out for entertainment. We aa theme park goers have money and no where to spend it (in Britain).	Would you support a potential park and resort coming to this site? Please explain why.
1674	The UK needs it - I'd love to be able to visit an overseas mega theme park - but this would make visiting a Universal park SO much easier	Would you support a potential park and resort coming to this site? Please explain why.
821	The UK needs its own Gold standard recognised park for one. It would hugely help the local community with great opportunities of employment it will also help other businesses in the uk utilising our outshining engineering and structural bsuneesss.. Beford is an ideal Location given it centrality to the major majority of the UK population and the current road networks are already being developed to better standards even before this potential project.	Would you support a potential park and resort coming to this site? Please explain why.
1813	It would be an incredible opportunity for the area and the UK in general. This would be the best tourist attraction in the UK by a mile and adds to the competitiveness of the UK in attracting tourists. I would be incredibly excited to visit Universal in the UK. It is an iconic brand and has a proven track record of delivering incredible experiences.	Would you support a potential park and resort coming to this site? Please explain why.
4920	It would be transformative to not only Bedford, but to the theme park landscape of this country. Merlin has had a stranglehold in the British tourist attraction industry and a challenger to their monopoly is long overdue. As somebody who's already visited Universal Orlando Resort many times over the years, I would definitely go out of my way to visit the potential Bedford Park yearly.	Would you support a potential park and resort coming to this site? Please explain why.
3146	It would bring a massive tourist boost to the area, therefore helping out local businesses.	Would you support a potential park and resort coming to this site? Please explain why.
4868	It would bring improvements to the area and tourists	Would you support a potential park and resort coming to this site? Please explain why.
3879	It would bring in a lot of potential and tourists to the new park, which will make the UK a top tourist destination	Would you support a potential park and resort coming to this site? Please explain why.
2183	It would bring something new and unique to the UK; a exciting tourist attraction which would be a boon to the local and further ranging economy; as well as access to a job market within a industry otherwise difficult to enter into. If we want a large 'epic-scale'/themed themepark, we have to go across to Disneyland Paris (which can be expensive considering the travel fee's and hotel) or to Efteling, which is even further afield. Certain IP's (namely Harry Potter) would also be valuable within the UK; the home and basis of the IP.	Would you support a potential park and resort coming to this site? Please explain why.
4353	It would bring tourists to the area which would increase spend in the local economy. This increase would hopefully in turn attract more businesses. The town centre in failing, hopefully this would be initiative to businesses to come to Bedford. It would increase job and training opportunities. Great transport links already here for rail and air. Increase choice of places to stay when people visit Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
3291	It would create job opportunities for local people. The resort would put Bedford on the map as a tourist destination. This would help encourage the local council to regenerate and improve the town to make it a more attractive place to visit. The potential revenue from tourists would help drive businesses and other investment back to the town to establish more restaurants and entertainment venues. All this would ultimately benefit local residents.	Would you support a potential park and resort coming to this site? Please explain why.
312	It's a brilliant tourist attraction and I've visited the US, it'll be great to have this on our doorsteps and with cost of living crisis in the uk great for people who can't afford trip overseas	Would you support a potential park and resort coming to this site? Please explain why.

529	I think the park would be amazing for the UK, but it also needs to be done in a way that will not destroy the local culture and towns in the area with a flood of tourists. I've personally experienced my own home town's gentrification from big corporations drawing in too many tourists which eventually destroyed all local businesses and forced all of us to move out of the town, and I never want that to happen to anyone else. The best way to make this resort beneficial for both Universal and for the local towns is to isolate the Universal property. Seclude tourists in the resort area and make it too much of an effort for them to travel to the surrounding towns and businesses. That way local businesses won't be flooded with unreasonable traffic and tourists, and Universal will also make more of a profit by having visitors only rely on their resort for everything. That is the *only* way this resort will be a positive thing for both Universal and the local area.	Would you support a potential park and resort coming to this site? Please explain why.
4928	I think there are so many opportunities the site will provide and compliment other tourist attractions such as Leaveston studios and Centre Parcs. Apprenticeships would work really well and give teenagers opportunities for getting work. I am also a fan of theme parks.	Would you support a potential park and resort coming to this site? Please explain why.
3746	I think where the area you have earmarked is such a great location. Great rail connections the M1 to the west and A1 to the east all great central locations for tourists to access the parks. We have a lot of nature and historical significance areas in Bedfordshire this can only enhance this even greater not just for Bedford but for a much wider area will benefit massively	Would you support a potential park and resort coming to this site? Please explain why.
4800	if this project is given the go ahead this will be fantastic for not only local residents and great for Tourists too, really boosts Bedford for recruitment opportunities	Would you support a potential park and resort coming to this site? Please explain why.
485	It is once in a lifetime opportunity and does need to happen. Bedford is a town in decline and has been for many years. A project of this scale will provide may benefits to the town and tourist industry in the area.	Would you support a potential park and resort coming to this site? Please explain why.
1318	It is vital that the UK economy benefits from this: small-minded, selfish local opinions should only carry a small amount of weight. We can not afford to miss out on another globally recognised tourist beacon (other short term small minded thinking stopped the MSG sphere in London, which is a disaster). I believe the British government should be actively persuading companies like Universal to invest in the UK, not allowing a vocal minority of local voices to harm the greater impact such building proposals would bring to the wider UK economy. I sincerely thank Universal for their proposals and hope that this amazing opportunity is embraced wholeheartedly by the UK.	Would you support a potential park and resort coming to this site? Please explain why.
4932	It will be a good tourist attraction	Would you support a potential park and resort coming to this site? Please explain why.
933	it will be a great boost for not just the local area but the uk as a whole, bringing tourists etc to the uk.	Would you support a potential park and resort coming to this site? Please explain why.
3015	It will bring many tourists to the area and can improve our local businesses. Also in creating job opportunities for the upcoming generation.	Would you support a potential park and resort coming to this site? Please explain why.
4935	It will bring more tourists to bedford and make it a better place because at the moment its a bit dull	Would you support a potential park and resort coming to this site? Please explain why.
4616	The boom to the local economy and the attraction of tourists to a beautiful area of Hertfordshire would be great for our area! This attraction also boosts the area around it not just in Bedford as the train line has beautiful stops which allow for exploration around the area and making it a holiday destination for a longer period of time with the area filled with history. Universal has done a fantastic job with its previous parks and I trust it's operational and construction prowess to develop an attraction that would enhance and protect the environment they are building and boost Bedford and the local area in economic and job security for thousands of people.	Would you support a potential park and resort coming to this site? Please explain why.
4459	I would support this project since it will create many more job opportunities in a lot of roles, it will also put the United Kingdom on the map in terms of theme parks as universal is renowned for its creativity, immersive attractions and highly themed areas. Many visitors from outside of the UK would undoubtedly want to experience the park and significantly boost the local economy and surrounding area.	Would you support a potential park and resort coming to this site? Please explain why.
4210	It will open up job opportunities, invest into land/local businesses and provide a cheaper alternative for families who can't afford an expensive trip to other universal parks	Would you support a potential park and resort coming to this site? Please explain why.
4802	It will support the UK and give people a reason to visit our country and support the local area by providing interesting and new job options by being the first UK park in Eupore this would be great for business and help low-income families within the UK enjoy the magic of the parks because they do not have to go aboard to visit universal.	Would you support a potential park and resort coming to this site? Please explain why.

2450	It would be amazing to have such a popular theme park in our area, creating so many job opportunities. We are surrounded by many large towns and only an hour away from London by road, which means the theme park will be extremely popular at all times. Not forgetting, we have a large University and college in the town, which has students from all over the world attending the courses, who would frequent the theme park often!	Would you support a potential park and resort coming to this site? Please explain why.	
1971	The socio economic benefits for the local area and the UK as a whole. This could attract a lot of visitors to the UK and could increase visitors to the many existing attractions already in the UK, which could tie in to the attractions at the park. This would boost the tourist industry and the UK GDP	Would you support a potential park and resort coming to this site? Please explain why.	
2446	The opportunity to showcase England on a global stage is fantastic. This could really boost the tourist industry for the UK and bring a quality of theme park the uk has not seen	Would you support a potential park and resort coming to this site? Please explain why.	
2091	The incredible opportunity for the local and national economy from employing locals to bringing more tourists to the uk, it all looks good to me.	Would you support a potential park and resort coming to this site? Please explain why.	
3371	Incredible opportunity for the UK economy with a long lasting increase in domestic and foreign visitors. Also a chance to disrupt the current theme park market.	Would you support a potential park and resort coming to this site? Please explain why.	
3134	Something like this could only be good for the area and make Bedford a leader in the UK tourist industry	Would you support a potential park and resort coming to this site? Please explain why.	
362	Growth and development is a powerful and to invite others to share in our town, will allow us to grow in so many ways. Hopefully this will encourage further growth in other areas of the town. To have tourists and to encourage positive free time is so much better than factories.	Would you support a potential park and resort coming to this site? Please explain why.	
1277	Having been to Universal Orlando resort many times, Universal do things right. Their parks are amazing, unrivalled and extremely efficient and well thought out. The UK has nothing similar remotely similar to be proud of. This would keep us and many others tourists coming back and back for more to Bedford if it's even half as good as the Orlando resort. I would implore the local authorities and UK government to approve this.	Would you support a potential park and resort coming to this site? Please explain why.	
4389	I am of the opinion that a world class theme park and resort as proposed by Universal for this site would be economically transformative for Bedford (my home town), provide a major economic boost to the region with net positive benefits to the UK as a whole. In addition, I think it will truly make Bedford an international tourist destination, specially for Europeans due to the excellent direct rail links to London (St Pancras International) , and the nearby London Luton International Airport, all of which will be significantly enhanced by the two new proposed train stations at Wixams and Kempston Hardwick.	Would you support a potential park and resort coming to this site? Please explain why.	
3355	I believe it would be fantastic for not just Bedford but the whole UK. It would attract tourists from all over the world and would really bring the UK Theme Park bar up.	Would you support a potential park and resort coming to this site? Please explain why.	
4244	I believe the way the park could enhance Bedford overall would be fantastic for the area, helping to put our wonderful town 'on the map' and provide something truly special for not only tourists who would visit but for the locals too. The increase in job opportunities would be amazing and potentially benefit future generations in my family who will eventually be entering the work force too. I think the park will show people how special Bedford is where tourists may visit not just the park but more of the town and learn our fantastic history too. Overall I just truly believe it would be such an exciting and beneficial addition.	Would you support a potential park and resort coming to this site? Please explain why.	
2288	I have visited many theme parks across Europe and America, the Universal parks stand out to be one of the best when delivering immersive experiences and incorporating top of the line ride hardware. A park of this status coming to the UK would undoubtedly attract tourists from across Europe. In addition, the UK theme park industry will face increased competition, hopefully leading to further improvements across these other parks.	Would you support a potential park and resort coming to this site? Please explain why.	
1230	I have visited other Universal parks around the world and they are always thriving and exciting places. The local area would benefit due to the economic boost and also the wider UK as I'm sure it would bring international tourists. I think the UK has been lacking a major international theme park destination for quite a long time. And this would fill that gap with a quality resort/experience. I personally think the UK is the correct destination for the reasons you have stated.	Would you support a potential park and resort coming to this site? Please explain why.	

3307	I moved out of London to Bedford 15 years ago and had to look it up on a map! I have never looked back! Bedford is a wonderful place full of genuine hardworking and talented people. A lot of us work in London but Bedford is our sanctuary to get away from the city hustle. I imagine most tourists would feel the same for a few days to take a breather between London Oxford, Cambridge and Bath. I am very proud of Bedford but get annoyed when the public and press mock it. This would be a wonderful opportunity to invest in Bedford and put it on the map for visitors all over the world. There is wonderful wildlife, close connection with nature, and the river in Bedford. I think you need to create a holistic offering that offers more than just a theme park but allows visitors to indulge and expand their senses and cultural horizons through music, art, live performance, comedy. A chance to reconnect with family and friends, share new experiences and learn about our history and culture. Almost like a mini personal pilgrimage to develop and explore aspects of life they have been overlooking in our too busy worlds.	Would you support a potential park and resort coming to this site? Please explain why.
3848	I think it is a fantastic opportunity for the UK to drive local business and attract tourists from across Europe that will likely travel to other businesses and areas of the UK.	Would you support a potential park and resort coming to this site? Please explain why.
4271	I think it would be fabulous for Bedford and surrounding communities. Not just in respect of job opportunities but we are lacking a major tourist attraction/theme park in this area and have to drive up to 2 hours currently. This new park/resort would be a major boost in so many ways the positives outweigh any negatives.	Would you support a potential park and resort coming to this site? Please explain why.
3565	I think it would be fantastic for the local area to have a world class tourist attraction of this type.	Would you support a potential park and resort coming to this site? Please explain why.
2791	I think it would be very beneficial to the local area bringing thousands of new people to Bedford weekly. Great Britain and this local area needs a new tourist attraction and seeing a leader in entertainment and leisure come to this area would be a dream come true.	Would you support a potential park and resort coming to this site? Please explain why.
3621	I think that it would attract so many people not from the UK but from around the world, the UK needs a new and exciting tourist attraction. That will bring people from the UK in and around the world	Would you support a potential park and resort coming to this site? Please explain why.
1265	I think that the UK is often overlooked when it comes to big companies creating resorts. I don't know whether it is the weather in this country that has deterred companies such as Universal from developing a resort as of yet; but I believe it would be one of the best places to have a park. The UK in general has so much culture and is such a tourist destination already that it would make sense for Universal to expand in the UK. Growing up, I always wanted to go to a Universal Park to ride the original Jurassic Park ride but coming from a lower class family, we never had the opportunity to travel abroad. I think that this resort could only improve the future of Bedford and the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
4896	I would absolutely love this to happen. This would revitalise Bedford, creating lots of jobs and opportunities for the local community and tourism, providing economic benefits to the area. We also have great transport links so it's a great place for it to be. It would also provide local residents something to do on a regular basis which is currently lacking in Bedford. I also love theme parks so really want this to go forward!	Would you support a potential park and resort coming to this site? Please explain why.
1901	It will create many jobs, good for economy, will bring a lot of tourism, will upgrade an often forgotten town, improve the rail network (hopefully).	Would you support a potential park and resort coming to this site? Please explain why.
1966	It would be a major tourist attraction, and would get people moving away from London which will hopefully allow for currently underused transport routes to be used. Besides this, it will create so many jobs for the local area and give young people especially a sense that they could have a career in a globally recognised company	Would you support a potential park and resort coming to this site? Please explain why.
3205	The area already has good connectivity infrastructure (roads, rail and airports) with rail and road improvements well underway. This project would be magnificent for the area economy, with increase in jobs, hotels, restaurants and bringing tourism to the area. I absolutely support the development.	Would you support a potential park and resort coming to this site? Please explain why.
2470	The economic benefits to the town, new jobs, tourism and also the improvement of transport links in the town and also improved roads.	Would you support a potential park and resort coming to this site? Please explain why.
3155	The UK needs a big international attraction resort like Universal Park & resorts. It would be ideal to build near Bedford, only 1 hour from London. Bedford is a great location, the town, county, and surrounding areas is good all rounder place to live & develop. Excellent transport links & the weather is really good compared to other areas of the UK. I live in Bedford & can say there is a lot of hype & excitement for this project to go ahead & become a reality! With the extra jobs, tourism, economic benefits it will be bring, a resort here will be awesome. It would also be so great to finally bring a Harry Potter themed land & HP rides home to the UK.	Would you support a potential park and resort coming to this site? Please explain why.
3900	This park would significantly benefit the local and wider economy and bring much needed jobs and tourism to the area. It is located near to major road networks and potentially the Wixams train station.	Would you support a potential park and resort coming to this site? Please explain why.

2350	This will bring a major tourist attraction to the uk. I like the location, it's away from London so as not to affect traffic around the capital. When east west rail is completed it will have good transport links. Jobs for local people.	Would you support a potential park and resort coming to this site? Please explain why.
3157	Social and economic benefits, plus links up nicely with the existing infrastruture and tourist attractions such as centre parcs and Woburn zoo.	Would you support a potential park and resort coming to this site? Please explain why
4042	Local economic benefits, potential for other tourist attractions to consider the area, good transport links to much of the country	Would you support a potential park and resort coming to this site? Please explain why
4097	This will be great for the UK economy and provide a draw for tourists	Would you support a potential park and resort coming to this site? Please explain why.
824	Great for employment and economy. Would be a great tourist attraction for the UK	Would you support a potential park and resort coming to this site? Please explain why.
1740	Job opportunities and tourism to the UK,	Would you support a potential park and resort coming to this site? Please explain why.
4640	Jobs Tourism Improvements to local infrastructure	Would you support a potential park and resort coming to this site? Please explain why.
2073	Job creation, world class leisure facilities, increased tourism, improving the local landscape.	Would you support a potential park and resort coming to this site? Please explain why.
3880	Job Creation: The project promises to generate around 8,000 new full-time jobs once operational. This significant employment opportunity could greatly benefit the local community by reducing unemployment rates and providing stable income for residents. Economic Growth: The development of the park and resort would likely boost the local economy by attracting tourists, increasing footfall to existing businesses, and stimulating spending in the area. This influx of economic activity could lead to further investment opportunities and business growth. Infrastructure Improvement: The project aims to unlock major investment into local infrastructure. This could result in improvements to transportation networks, public facilities, and utilities, enhancing the overall quality of life for residents and visitors alike. Tourism Boost: A park and resort in Bedford could become a significant tourist destination, drawing visitors from across the UK and even internationally. This influx of tourists not only supports local businesses but also showcases the unique attractions and offerings of the region. Diversification of Offerings: Introducing a park and resort adds diversity to Bedford's tourism offerings. This could attract a different demographic of visitors who may not have previously considered the area, thereby expanding the market and increasing overall tourism revenue. Overall, supporting the potential park and resort project aligns with goals of job creation, economic growth, infrastructure development, and tourism promotion, making it a promising endeavor for the prosperity of Bedford and the UK economy as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
5107	All of the above reasons. Generate jobs and tourism to Bedfordshire.	Would you support a potential park and resort coming to this site? Please explain why.
5183	I think as long as the infrastructure is build alongside the park it will be a brilliant opportunity locally in terms of jobs and a tourist destination being created.	Would you support a potential park and resort coming to this site? Please explain why.
5175	More work and will help generate tourism in the area	Would you support a potential park and resort coming to this site? Please explain why.
4386	1) will attract tourists 2) will make our house prices increase which is beneficial for homeowners right now 3) locals should get a discount 4) hire locals to do the jobs	Would you support a potential park and resort coming to this site? Please explain why.
3923	A great opportunity for Bedfordshire to create many jobs and it would be an incredible tourist attraction for the UK. Also, Bedfordshire is a great location with close transport links to London and airports making it very accessible.	Would you support a potential park and resort coming to this site? Please explain why.
2434	A Major New Theme park creating thousands of jobs would be fantastic and another impressive tourist attraction in the U.K.	Would you support a potential park and resort coming to this site? Please explain why.
2872	Apart from being a family who loves theme parks this will help to bring in tourists, jobs etc.	Would you support a potential park and resort coming to this site? Please explain why.

3779	As a FDI (Foreign Direct Investment) Professional with approx 30 years experience of attracting international companies into UK, I am totally aware of the positive impact this will have on the town of Bedford and the surrounding region, aswell as the wider UK. Whilst there will be dozens of benefits, I'll highlight three: (1) Job creation/Jobs for all: FDI from the Leisure/Entertainment sector is often over-shadowed by FDI from sectors such as Manufacturing, Tech and Life Sciences where the jobs created in those sectors are generally viewed as being higher in quality...and salary. However, FDI from the Leisure/Entertainment sector creates jobs for everyone at every stage of their life and all levels of academic achievement. And those jobs being created (by projects such as these) that do not require Tertiary and Post-Graduate Education, and/or might be at the lower end of the socio-economic scale, should be viewed as just as valuable by other measures -and not just measured by the actual salary earned. (2) Local Supply Chain: Bedfordshire and the surrounding region has high quality local suppliers across all sectors to help make this project a reality. Engaging with this local supply chain before, during and after construction (and demonstrating an appetite to work with local partners during the consultation) will boost local support for the project and convert some of those in the NIMBY camp. As an example, committing to work with local food and drink producers (as much as is practical) will have huge knock-on benefits to the local agriculture, food and drink manufacturing landscape. (3) Tourism/Tourism Partnerships: This project has the potential to be mutually beneficial with all surrounding tourism destination partners where multi-lateral flows of tourists can be generated. London is an obvious example but approx 8million people visit Cambridge each year who will also be drawn to Universal's new Bedford venture. Similarly, Universal will be attracting families in their own right to Bedford who will be also be tempted to visit Cambridge. There are other examples (eg. Centre Parcs Woburn Forest) and when this flow of visitors is shared around the local region, then the benefits are multiplied significantly.	Would you support a potential park and resort coming to this site? Please explain why.
2076	As a lover of the Universal Orlando Resort, I am ecstatic about the prospect of a Universal resort in the UK. Being able to access this resort regularly would be incredible and so special to take my family to in the future. It also offer amazing opportunities for local people with regards to jobs and increased tourism.	Would you support a potential park and resort coming to this site? Please explain why.
2184	As a roller coaster enthusiast this would be a great investment into the UK bringing in new tourism, creating new jobs and careers new investment into local businesses it can only be good for the Bedford community also with keeping local areas of natural beauty and preservation this is a positive outlook for Bedford and the UK as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
4753	Because i think this would be good for the local area and the UK as a whole to attract more tourists to the area and it will be making new jobs which is such a good thing!	Would you support a potential park and resort coming to this site? Please explain why.
3032	Because it would make the UK a theme park destination both within the country and for visitors. It would increase jobs and general tourist trade. It's a shame big projects like this often seem to get cancelled because of the complaints of people that don't see the benefits. Also we really should have a World of Harry Potter in the UK! I sincerely hope this project comes to fruition.	Would you support a potential park and resort coming to this site? Please explain why.
3528	Even beyond direct jobs created, it would also significantly boost for tourism in the entire Midlands and Anglia. It would especially benefit all of the counties surrounding Bedford. Businesses (tourism and leisure) would be boosted and wonderful fun for residents too. For example, I have first hand experience of this from Silverstone in Northampton. Please do contact me for further information.	Would you support a potential park and resort coming to this site? Please explain why.
4714	Excellent opportunity to boost national tourism, create new jobs and redevelop the local area.	Would you support a potential park and resort coming to this site? Please explain why.
2226	Firstly a theme park would just be so fun. Secondly all the jobs it would create would be fantastic for not only Bedford but also the wider area. It would also drive further tourism to the country as was seen in France when Disneyland Paris opened.	Would you support a potential park and resort coming to this site? Please explain why.
3866	For all reasons already stated, more full time better paying jobs for potential to progress. Bring tourism to the area, this would in turn help develop other areas.	Would you support a potential park and resort coming to this site? Please explain why.
4051	Good for the local and wider UK economy Create inbound tourism Create jobs	Would you support a potential park and resort coming to this site? Please explain why.
3256	Great for bedfords economy. Jobs, good to have nice tourist area, something exciting to take the kids to	Would you support a potential park and resort coming to this site? Please explain why.
3225	Great for jobs and tourism in the area	Would you support a potential park and resort coming to this site? Please explain why.
2462	Great opportunity for Bedford for new jobs and tourism opportunities. Universal can bring real change and benefit us positively so I would 100% support this project	Would you support a potential park and resort coming to this site? Please explain why.
4314	Great opportunity for jobs for local people. Amazing to have some so special local. Bringing tourism to a small town can surely only bring be a good thing for development and our economy	Would you support a potential park and resort coming to this site? Please explain why.

3610	Having this new park would be fantastic for the UK and the local area of Bedford. It would create many jobs and many happy memories for years to come for all who visit. This can only be a good thing for the UK as a tourist destination, to enhance our Theme park scene and something to be really proud of. I only see positives.	Would you support a potential park and resort coming to this site? Please explain why.
4263	Having Universal in Bedford would be incredible. Not only would it help with local and small businesses with the extra tourism, but it would create thousands of jobs. And with Universal being big on the environment it would improve habitat locally	Would you support a potential park and resort coming to this site? Please explain why.
4194	I am very excited at the idea of a new park/resort coming to the area, it'll be great for tourism, jobs and something for people to do, will be nice to have bars and restaurants and some life injected into the area	Would you support a potential park and resort coming to this site? Please explain why.
4191	I believe this will not only be great economically for the area and country but also create many new jobs and properly put the country on the map as a proper tourist destination for theme parks/attractions	Would you support a potential park and resort coming to this site? Please explain why.
3551	I believe this would be a massive game changer in the UK theme park industry and as stated this will definitely help people that are trying to find jobs. Also this new project would boost UK tourism to a whole new level.	Would you support a potential park and resort coming to this site? Please explain why.
3154	I believe this would improve the local economy, bringing jobs and tourism to the area. As well as improving the local infrastructure. It would also be good from an entertainment perspective bringing an exciting activity to the area.	Would you support a potential park and resort coming to this site? Please explain why.
3603	I feel we would benefit locally from the jobs and the tourism massively. Also it would instantly become the theme park hot-spot of the UK and would be the first of its kind. Super exciting for the UK. Couldn't agree with you building the park and city walk more	Would you support a potential park and resort coming to this site? Please explain why.
2385	I have a personal interest due to having grandchildren living in Bedford. Additionally, I believe a project of this nature, would provide great opportunities for tourism to the area and improved links to the rest of the UK. Employment to the area would thrive and the town itself, which at present sees shops closing and the town residents therefore losing jobs improve.	Would you support a potential park and resort coming to this site? Please explain why.
4954	I have spend my entire life travelling the world visiting theme parks. To have a world class park seconds from my front door is a dream come true. I believe it will turn Bedford into a hub for tourism in the UK, creating jobs and endless opportunities. It gives locals a leisure option not available currently without hours of flying. It would be the greatest thing to ever happen to the area!	Would you support a potential park and resort coming to this site? Please explain why.
3927	I love theme parks and universal in Orlando is amazing. If its also going to bring more tourism to the UK and bring jobs to Bedford it seems a win win	Would you support a potential park and resort coming to this site? Please explain why.
1693	I think it's a great idea to see this potential Universal Theme Park being built here in the UK. As it will create Jobs, bring Tourist far and wide to the local area, also I'd like why you have choose Bedford as it's easy to get to from London and Across most parts of the UK. Also it being Universal one of the biggest Theme Park Attractions in the whole world, It be good for the UK Economy also and good support for local Businesses as well.	Would you support a potential park and resort coming to this site? Please explain why.
2034	I think not only would it positively influence the local and wider communities for jobs and entertainment. But a great draw for tourism being the closest Universal for Europeans to come here and visit.	Would you support a potential park and resort coming to this site? Please explain why.
1829	I think that a large theme park would not only create many new jobs for the surrounding area, but also bring massive amounts of tourist to this area, and the UK in general.	Would you support a potential park and resort coming to this site? Please explain why.
2560	I think that a park like this would bring many benefits to the local area and the rest of the UK with the creation of jobs and increased tourism	Would you support a potential park and resort coming to this site? Please explain why.
3670	I think the positives it would bring to the local area including international tourism and national tourism , jobs and supply chain opportunities, they are no negatives I can think of.	Would you support a potential park and resort coming to this site? Please explain why.
4083	I think this is a once in a generation opportunity for this area. I support this project as a local resident and hope it goes ahead. I think jobs in tourism and hospitality are rewarding and provide great careers.	Would you support a potential park and resort coming to this site? Please explain why.
1963	I think this is an exciting project that will benefit the UK economy, tourism, jobs and be something UK residents can be proud of. I think it benefit UK residents and tourists equally, and I really look forward to visiting!	Would you support a potential park and resort coming to this site? Please explain why.
3147	I think this is such an exciting prospect for the UK, it has brought hope and a huge buzz to so many people already as the UK theme Park industry is not brilliant in the UK and a lot are quite difficult to access to many. The prospect of an international company wanting to expand to the UK will do amazing things for tourism, jobs and income for the UK! It's so exciting and I have everything crossed!	Would you support a potential park and resort coming to this site? Please explain why.
3029	I think universal parks are extremely positive for the area. It brings lots of tourism to the county and could create not just jobs within the parks but could create small businesses around the park offering different services and products for tourists. I wholeheartedly support this project	Would you support a potential park and resort coming to this site? Please explain why.

2270	I think with the economical benefits that the park will provide long and short term is something the UK has been missing. Though we have local parks that are really good, having a big name like universal will draw a lot of tourists into the UK which in turn will help create jobs outside of Universal as well as support local and small businesses. I personally would make sure I visit the park several times a year and I think the very idea of the parks existence (weather or not it come to be) is something that is exciting.	Would you support a potential park and resort coming to this site? Please explain why.
2164	If it matches the quality that Universal are achieving with Epic Universe, it will be the best resort in the UK. It's going to drive tourism, improve the area, create jobs. What's not to like? If you build it, we will come!	Would you support a potential park and resort coming to this site? Please explain why.
4265	If this park is built it would have a square footage larger than the resort in Los Angeles and possibly larger than in Orlando. This would have significant effects on tourism in Bedfordshire and throughout the wider East Anglia region. The creation of jobs, improvement of rail links as well as a high quality built environment within previous parks makes me feel that this park would improve the local area. There wouldd also be many jobs and opportunities created for people which with employment in the area.	Would you support a potential park and resort coming to this site? Please explain why.
3038	Increase of jobs, footfall, attention to area, tourism	Would you support a potential park and resort coming to this site? Please explain why.
4531	Increased jobs and tourism for the UK	Would you support a potential park and resort coming to this site? Please explain why.
2250	It is important for a theme park on the scale of universal to have a destination in the UK for tourism, jobs, not having to travel hours on a plane. Tourists from Europe will use this as there local resort.	Would you support a potential park and resort coming to this site? Please explain why.
1940	It is such a huge boost for Bedford and surrounding areas and the UK as a whole, that a company as large and amazing as Universal believes in the UK and investing. It will create so many opportunities for many people, especially young people wanting work experience and who better than universal. It is so exciting for us brits to think we can. Is it a universal park here in our own country. It will bring tourists , jobs and so much happiness. This is what the UK needs.	Would you support a potential park and resort coming to this site? Please explain why.
4943	It will be of enormous benefit to Bedford, bringing jobs to the town and tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.
4697	It will bring large jobs and infrastructure improvements to the area, develop a derelict site, put Bedford on the map and bring hugh economic growth to the area and lots of tourists hopefully also staying around in Bedford and MK. Also inward investment to the UK. Also not a greenbelt and relatively away from houses yet near to get to. It also provides proper competition to UK/European theme parks and reduces Merlins monopoly.	Would you support a potential park and resort coming to this site? Please explain why.
1818	It will bring life and energy to the area particularly for younger people. It will increase cultural diversity through tourism which our population definitely needs. It will create jobs and benefit local businesses. It is lovely to have a significant development plan that is not based in London.	Would you support a potential park and resort coming to this site? Please explain why.
4388	It will create jobs and investment in the local area, and increase tourism.	Would you support a potential park and resort coming to this site? Please explain why.
4861	It will create jobs, develop new skills and attract visitors to the area which will benefit residents and local businesses. It will also be a major attraction to foreign tourists visiting the UK. The siting is perfect being so close to London and within a two hour drive of most the population in England. Go for it.	Would you support a potential park and resort coming to this site? Please explain why.
3056	It will create more jobs for the local people including myself and bring in more tourists and help the town to be on the map Aswel as give something for the children to be able to do in the town as there is nothing here for them.	Would you support a potential park and resort coming to this site? Please explain why.
2673	It will create so many jobs and opportunities for many people, it will increase money and tourism to the surrounding areas, we need something like this in the Uk	Would you support a potential park and resort coming to this site? Please explain why.
3869	It will help with the infrastructure of the local area and provide much needed jobs. The opportunity to host such a renowned brand name is a privilege and the increase to tourism will be greatly beneficial to the local and surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why.
3546	It would act as a huge shakeup for the UK theme park industry, bolster competition and reduce stagnation. Creates jobs and opportunities for people in the UK and a massive boost to infrastructure and tourism. Will encourage Alton Towers to try harder with their theming.	Would you support a potential park and resort coming to this site? Please explain why.
2247	It would be a dream come true to have such a legendary park such as Universal here, in the UK! First of all, thank you so much for considering the UK out of (I imagine) multiple potential sites across Europe. This would be a considerable boost to Tourism and create many much needed jobs in the area. I can't wait to hear more!	Would you support a potential park and resort coming to this site? Please explain why.

4047	It would be amazing for the economy of the uk, create jobs and our tourism would boom even more. We own a local pub restaurant and I think it would be amazing for us.	Would you support a potential park and resort coming to this site? Please explain why.
4294	It would be amazing to create jobs and bring more tourism during this cost of living crisis, and also the location is perfect with it being so close to London people will be able to get there easily, the UK hasn't had something like this for a very long time so it would create an insane buzz, I don't know a single person who wouldn't go absolutely crazy for something like this to happen.	Would you support a potential park and resort coming to this site? Please explain why.
3393	It would be amazing to have something like this in Bedford as there is nothing else like it around. Universal in Florida is my favourite place on Earth and I know I would feel the same about one more locally. The amount of jobs and tourism it would bring to the area would be amazing aswell	Would you support a potential park and resort coming to this site? Please explain why.
4923	It would be brilliant for local residents for jobs and training and brilliant for the UK as a whole providing a world class resort that the country does not have. This would help tourism everywhere with a big economic benefit. And I would love to visit the resort with all my friends and family!	Would you support a potential park and resort coming to this site? Please explain why.
1985	It would contribute significantly towards the economy, create thousands of jobs and increase tourism. As a theme park enthusiast the choice we have in the uk are great but nothing comes close to the immersion, detail and thrill that are delivered by our American cousin's across the pond. In the UK we are very passionate about our rides and it would give us a great amount of pride to welcome visitors from overseas and represent the Universal brand. I really hope this gets approved and signed off.	Would you support a potential park and resort coming to this site? Please explain why.
3493	It would help the economy Create thousands of potential jobs It will help tourism in place which wouldn't see much tourism (like Bedford)	Would you support a potential park and resort coming to this site? Please explain why.
3706	It would help to greatly boost tourism in the UK, bring lots of jobs, improve infrastructure, increase footfall in and around the area and drive more money into the country's economy.	Would you support a potential park and resort coming to this site? Please explain why.
3485	It would not be a bad thing to create so many jobs in the UK and bring more tourists, so long as the local infrastructure is greatly improved to cope with the increase in footfall in the area, and there are efforts made to ensure the local wildlife can still thrive.	Would you support a potential park and resort coming to this site? Please explain why.
3135	It would provide thousands of jobs and would increase tourism for local businesses.	Would you support a potential park and resort coming to this site? Please explain why.
2100	It's a great place to put one we need more tourist attractions in the uk and it's good for jobs for the area	Would you support a potential park and resort coming to this site? Please explain why.
1844	I've been to two universal parks in the US and they are incredible. They would not only bring in guests but jobs and tourists from overseas. These tourists from overseas would then likely visit other UK theme parks and towns helping the economy.	Would you support a potential park and resort coming to this site? Please explain why.
4198	Love visiting universal in Florida and having this on the doorstep would be amazing, never mind all the jobs and tourism it would bring to the area.	Would you support a potential park and resort coming to this site? Please explain why.
3716	Merlin Entertainments currently have a monopoly on UK tourist attractions, so strong competition would be very beneficial for UK tourism as a whole. The jobs created by the resort would also greatly help the local economy.	Would you support a potential park and resort coming to this site? Please explain why.
2026	More jobs and it will bring more tourists to the uk .	Would you support a potential park and resort coming to this site? Please explain why.
1822	Since all Universal parks are either in Asia or America (and all are very popular), it would be super beneficial for both Universal and tourists to bring a Universal park to Europe as it would allow easier access to a considerable number of people all across Europe who do not have the means to visit a park in another continent. The rise in tourists would also be beneficial for England and the UK and a new Universal theme park would achieve this. The UK also has some extremely popular theme parks already, proving that a new one would be quite popular and bring a considerable amount of income to Universal studios and the UK in general. it would offer such an amazing array of opportunities for young people looking for jobs. Personally, as a costume design student, the park would bring me a job opportunity to work on costumes for the park which I am super excited about.	Would you support a potential park and resort coming to this site? Please explain why.
2056	Such an amazing opportunity for the UK to have a world class resort which as you've mentioned will create so many jobs and provide revenue stream for other businesses which supply products to Universal. An increase in tourism to the UK and as someone who has been to your resorts in Los Angeles and Orlando I would be super excited to visit many multiple times.	Would you support a potential park and resort coming to this site? Please explain why.
3484	The area and the wider UK need is clear, more jobs, more tourists and more opportunity is key. A successful park means a boost in local hotels/b&bs and restaurants etc.	Would you support a potential park and resort coming to this site? Please explain why.

1669	The benefits not just to the local community but the whole UK economy are vast. The tourism from other European countries would be fantastic for the area and local economy. Using all local produce for the parks would be amazing, the whole project is just terrific on every level, for the UK, the amount of jobs being created would be tremendous. Universal would have the environment at heart and would make it a beautiful place for local wildlife	Would you support a potential park and resort coming to this site? Please explain why.
2899	The Opening of this park will increase jobs and local economy and increase tourism and give local businesses more costumers	Would you support a potential park and resort coming to this site? Please explain why.
4734	The U.K. is in dire need of a new proper theme park resort. And finally a decent company to rival merlin, this will improve the products on offer from both as competition is always a good thing. As stated it will create jobs, and boost tourism to the area. I'm my opinion and negatives are far out weighed the by the positives this resort will bring for the area and the U.K. I'm general.	Would you support a potential park and resort coming to this site? Please explain why.
2209	This project will greatly improve job opportunity's and tourism for the UK which will be great for the economy. It's also very exciting to have a major theme park destination in the uk.	Please share any other feedback you have at this stage.
2827	The UK has some great parks. But is lacking a premium theme park experience seen elsewhere in the world. From creating fully immersive experiences, to the boost to our economy, jobs, tourism etc, this is an essential project for this country. I for one welcome it with wide open arms.	Would you support a potential park and resort coming to this site? Please explain why.
2103	The UK needs a better and well thought out theme park! The theme parks in the UK and run down and tired and have no appeal! Universal would also bring tourism the UK and bring more jobs!	Would you support a potential park and resort coming to this site? Please explain why.
4544	The uk needs a major theme park like universal studios for the tourists side to creating jobs locally within Bedford. This is a great opportunity for the uk and shouldn't be missed.	Would you support a potential park and resort coming to this site? Please explain why.
2061	The UK needs something like this desperately and this is the perfect area to choose. It would drive tourism and increase jobs and footfall to the area where there isn't much happening currently. Universal has a special place in my heart and I'd love somewhere to go with my family in the years ahead.	Would you support a potential park and resort coming to this site? Please explain why.
2101	The UK needs something like this. The amount of jobs created and the income from tourism will be high. Save many family money on holidays abroad when we have something like this within reach	Would you support a potential park and resort coming to this site? Please explain why.
2275	The UK would massively value such a park - it is an untapped market for a theme park such as this. The value to the local area from tourism and associated spend would be enormous, and the local area would benefit from the jobs created and the improved infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
3169	There is no theme park of this scale in the UK currently, and with a very young daughter this would be perfect for our family and others who want to experience the thrills but without the expense of travelling to the US or elsewhere. Jobs and tourism are also good points.	Would you support a potential park and resort coming to this site? Please explain why.
3722	There isn't many popular tourist attractions, and having one come to a less-busy place would help bring more jobs, and make the prices lower due to tourism. This could also bring better airports, and a bigger, diverse population to england.	Would you support a potential park and resort coming to this site? Please explain why.
3906	Think it would be beneficial.to the area and create jobs and encourage tourism so am really supportive	Would you support a potential park and resort coming to this site? Please explain why.
4541	This is an amazing opportunity for the area and would only benefit locals from the tourism and jobs it would create	Would you support a potential park and resort coming to this site? Please explain why.
2836	This is fantastic and a superb initiative to bring jobs and tourists to the area which helps the local businesss and makes the location a desirable place to visit	Would you support a potential park and resort coming to this site? Please explain why.
4831	This project would create a huge number of jobs in the local area along with the economic benefits of the increased tourism to the area. It would also be an incredible amenity for the entire country to enjoy and revitalise our attractions industry.	Would you support a potential park and resort coming to this site? Please explain why.
1886	this will bring incredible jobs and tourism to the wide area and the whole UK. lots of hype and excitement is just what we need in the uk	Would you support a potential park and resort coming to this site? Please explain why.
4131	This would be an amazing opportunity for the UK, for Tourism, jobs and to put us on the map globally! Really really hope this goes ahead!!!	Would you support a potential park and resort coming to this site? Please explain why.
3575	This would be an incredible investment in the UK. Bringing the quality and next level theming of a Universal attraction to the UK would be a huge benefit to our economy, creating a massive number of jobs that are so desperately needed, as well as boosting the economy in the surrounding area with additional tourism opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
2111	This would be incredible for the UK! For many reasons! The tourism aspect! Bringing more fun and excitement in the country! Bringing more jobs which is very much needed in this country too! This will be world class and it's very much needed	Would you support a potential park and resort coming to this site? Please explain why.
1801	to have a universal park in the uk would be amazing for tourists , more jobs money coming into the uk.	Would you support a potential park and resort coming to this site? Please explain why.

2160	Tourism, jobs, investment in the area and the idea to have the industry leader's theme park in our country	Would you support a potential park and resort coming to this site? Please explain why.	
3989	UK needs this. It would bring so many extra jobs in the area as well as tourism supporting the local area.	Would you support a potential park and resort coming to this site? Please explain why.	
2977	We have the land, the trains from into Bedford and Milton Keynes (MK being a new city which is close by) creating tourism which equals to jobs also Luton airport is not far.	Would you support a potential park and resort coming to this site? Please explain why.	
1863	Well established trusted brand. Would create mass jobs and career opportunity. Provide economic boost plus bring foreign tourists in. Provide greater competition to current theme park operators. High quality immersive experience plus vast dining and hospitality additions!	Would you support a potential park and resort coming to this site? Please explain why.	
4872	Will be a regular visitor myself, provides a lot of jobs, invites tourists to our country and boosts the economy	Would you support a potential park and resort coming to this site? Please explain why.	
2095	Will bring jobs, training and tourism to a bit of a dead area that is accessible to so many people in the uk	Would you support a potential park and resort coming to this site? Please explain why.	
2930	Will create any jobs will improve the look of the area bring in tourism and give the UK a world class destination	Would you support a potential park and resort coming to this site? Please explain why.	
4446	Would provide increased tourism to an area of the UK that is currently underrepresented. Universal will bring improvements to the town centre and attract new businesses that can accommodate the increase in footfall. The improvements will increase house prices and provide job opportunities. Our children will be able to get summer jobs / part time jobs at an international company. It will provide a world class tourist destination on our doorstep at a time when rising inflation limits the opportunities to visit Universal Studios overseas.	Would you support a potential park and resort coming to this site? Please explain why.	
1877	Would provide more jobs for the local area than other uses for the site and would also boost tourism for the UK as a whole	Would you support a potential park and resort coming to this site? Please explain why.	
3129	I look forward to have a good proceedable theme park and investment plan that can deliver both jobs/career opportunities and new theme park that can attract tourists in UK and abroad.	Please share any other feedback you have at this stage.	

1135	<p>in Florida, and have visited 7 times since first going in 2016. After the Pandemic, we missed it so much we even got an annual pass for the year of 2022 and flew out 3 times (using up all of our work holidays) to spend as much time as we could at your wonderful immersive parks/resort. I have to admit, i am a bit of a theme park enthusiast, and i know there is a huge amount of us living here in the UK. Theme park attendances and interest has boomed post pandemic, and show know signs of slowing down. Bedford certainly seems like the perfect place to build this new park, as you've already highlighted, it's within 2 hours from half of the population. Universal is also a global brand that has gone strength to strength in the last 10 years, literally catching up with the Disney Parks franchise with constant additions, up keep and plans to refresh areas in your Florida resort specifically. Something that didn't look possible. With the new addition of Epic Universe next year & Hopefully a Universal UK resort addition in the near future, my belief is you will overtake Disney. Not only will you have a huge following of people here in the UK visiting this new resort, the tourists you will bring in from Europe will be huge as well. There are many world class theme parks across Europe, but other than the Disneyland Paris resort, nothing compares to Universal. This moves me onto my next point. The UK is severely missing a world class resort like Universal, and i think this is criminal when you consider the fascination and enthusiasm we have for theme parks and rides over here. There are quite a lot of great theme parks in Europe, but the UK lacks one, and Universal will blow the rest out of the water, putting Bedford truly on the map in Europe as the place to go to visit a world class theme Park. I am basing this on my own first hand experience and proof of visiting Universal Florida over and over again. This can only be good for the economy. Merlin pretty much has the monopoly here in the UK owning Alton Towers, Thorpe Park & Chessington World of Adventures. They have done well, and with not much competition they really don't have to try all that much to be top of the food chain, often doing the minimal they need to, in order to stay at the top. Which is a big shame. Don't get me wrong, i enjoy the Merlin Parks, and visit them most years, but they really do need a competitor, especially Universal to ensure they up their game. I will reiterate a point as well. If you go ahead with this project, and i really think you should! I will certainly get an annual pass for this place, and this isn't even my closest park, in fact it would be my 3rd closest park behind Alton Towers & Drayton Manor. But because i know the sheer effort and work you put into your parks and attractions, it will be the place i want to visit the most. There is definitely room for another theme park here in the UK, and with it attracting more enthusiasts from mainland Europe, the country and theme park scene as a whole will benefit even more. I believe Universal has the pull to attract much more visitors from Europe that may not have come before hand, or who were very much on the fence with coming. This will likely see a lot of Europeans travel over, and do longer stays in the UK visiting the Universal UK resort, and then potentially onto other Merlin parks whilst they're over here. I will also still visit your Florida resort, as this holds a very special place in my heart, and no matter how good the UK resort is, it will never beat</p>	Would you support a potential park and resort coming to this site? Please explain why.	
209	I frequent Universal in Florida and find the parks to be very entertaining. For the UK, it would attract more tourists, local and international, helping the economy for the area and further afield.	Would you support a potential park and resort coming to this site? Please explain why.	
3176	I spent much of my career working to help grow Bedford's tourist economy, discovering what made the area special and developing themes and initiatives to bring tourists to the area. I now work in infrastructure delivery but I'm still passionate about the county's visitor economy.	Would you support a potential park and resort coming to this site? Please explain why.	
3695	I think it would be fantastic for the local economy - putting us on the European map - and I'd also love a Universal on the doorstep. This is a diverse and multi cultural town that has always welcomed immigrants and it would be equally welcoming to tourists.	Would you support a potential park and resort coming to this site? Please explain why.	
306	I think it would be great for what locals need - somewhere fun to go. It would massively improve wellbeing and social life. Not even just the local area but the UK. I think you should offer UK resident rates for annual passes and ensure you follow equality and disability legislation for carers passes. I think this will massively improve the economy both local and national and I feel that it has very few negatives. I really support this project and hope it gets approval. The park would be well used year round by UK residents alone, never mind tourists!	Would you support a potential park and resort coming to this site? Please explain why.	
340	This is much needed for the UK. We have a young daughter and we would definitely visit this as it is close by to us. It will create so many job opportunities and being tourists and visitors from all over the UK and the world to the area.	Would you support a potential park and resort coming to this site? Please explain why.	
606	Marketing/selling Bedfordshire and surrounding	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
SUGGESTIONS FOR APPRENTICESHIPS AND TRAINING OPPORTUNITIES (214)			
ID	Comment	Survey question	Response

326	Opportunities for the young	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX has a track record of delivering initiatives targeted at alleviating local issues in areas near its theme parks. UDX invests significantly in its people with training and development programmes and would do the same here.
399	Collaborative work to support the future generation	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
545	Apprenticeships for young people across the UK in all aspects of the design and construction, as well as ongoing apprenticeships	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4475	Developing people who work in the same industry.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4601	Educational opportunities for local young people	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3311	creating a learning environment	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	For example, UDX's ride technicians typically join partway through the construction period, and then remain as permanent members of staff once operational. As a point of reference, nearly 50% of its management team at our theme park in Hollywood started as hourly employees. A range of jobs at different experience levels would be created, each with genuine growth opportunities.
800	Liaising with local Higher education institutions to develop training + apprentice programmes	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4172	As someone in Year 13 and leaving sixth form, I would suggest the potential for opening opportunities for post-GCSE apprentices to help with construction work, as well as providing full-time apprenticeships within the park once open.	Please share any other feedback you have at this stage.	
3595	Training opportunities would need to be high quality to encourage the customer service you usually find in other sites run by Universal e.g. Orlando base	Please share any other feedback you have at this stage.	
3596	Be good to train local people for the jobs. Even provide affordable housing for some of these employees to encourage home growth and incentive.	Please share any other feedback you have at this stage.	
387	I am not familiar enough with the area to name specific colleges or businesses but it would be an amazing opportunity for many if you were to offer engineering apprenticeships for working on your park. As far as I am aware, this is currently only offered by Merlin Entertainments parks in the UK so more opportunities for training in the theme park industry would be amazing.	Please share any other feedback you have at this stage.	Central Bedfordshire has a large number of residents who are economically inactive and seeking employment. UDX would provide large volumes of alternate routes into employment, such as internships, which would help to alleviate this problem.
2187	As someone who works on infrastructure projects, local communities are at the heart of any project, and getting them involved in every stage from construction to operation is crucial to a projects success, bringing on apprentices, graduates working with local unemployed people go a long way to not only delivering a skills legacy, but also keeping to community onside.	Please share any other feedback you have at this stage.	
4692	I'm so excited, as a resident and as a local teacher. I really hope that the park can offer young people of all ages opportunities to support their learning and social development, as well as providing training and job opportunities. The children I teach do not always have aspirational role models, this project could provide an alternative way to help develop their aspirations.	Please share any other feedback you have at this stage.	
3494	By incorporating the local community in not just the end stage when the park is complete, but during the building process too can help to make it feel more worthwhile. If there is local colleges or schools providing courses on construction for example, inviting a group of those students for a site visit during the construction can help show your commitment to the local community during the process too, whilst also benefitting you in building the excitement before it opens.	Please share any other feedback you have at this stage.	

An Employment and Skills Plan has been produced for the ERC. This plan has been designed with the intention of increasing the level of local employment and the skill level of local residents. This includes commitments from UDX to provide apprenticeship and internship opportunities. Details on the number of opportunities that would be provided on an annual basis, as well as other

	Free training programmes for locals to apply for work there. If you where to build a green space include Princess Diana she is still our favourite royal. A hangers restaurant I would like to be part of it. And Taj Mahal restaurant with a center stage for all to sing and dance the evening away. I would like to be part of it my dream!! Also a massive Chocolate toothpaste theme coffee stop A Children's soft play indoor A zip wire I want to be part of this project Tourist shops in our town centre or an indoor shopping mall giving smaller businesses to grow I want to make my dad Proud He worked his whole life at the Brickwork I came to your first open meeting with the public 13/04/24 11am Excatly 9 years today he died I was proud to be there the ground the walked on and made bricks for a country he never new. He was alway proud so I want to know his sacrifice was worth it, I would love to continue to build Bedford. Sorry the grammar cannot find my glasses I'm blind typing! I'm bedford born and bread and just want to say Welcome to you all.		programmes UDX would seek to provide, can be found in the Employment and Skills Plan.
2451		Please share any other feedback you have at this stage.	
2739	Consider training and career opportunities for young people and young adults with Special Educational Needs and Disability, and health needs.	Please share any other feedback you have at this stage.	
2832	Your parks are a tremendous experience, driven by the people that man them. I hope that your training team are ready for the challenge of instilling enthusiasm into employees.	Please share any other feedback you have at this stage.	
3387	Try take advantage of MK computing and technology hub status, and especially support establishing new MK University with maybe relevant degree topics. Why? Young people will attend, hopefully stay and work in the area, have families etc. all within Theme Park catchment. Existing IT businesses can grow alongside the Build if cooperation exists.	Please share any other feedback you have at this stage.	
5124	Decent apprenticeships and opportunities for young people (including seasonal and part time work) would be welcome, also discounts for locals!	Please share any other feedback you have at this stage.	
3009	I really hope the project will materialise! We at WAT are very excited for the training and apprenticeship opportunities this can create!	Please share any other feedback you have at this stage.	
5498	Corporation with MK, Luton and Northampton. The university's and the community groups can bring great benefits to this project. Project must ensure the upskilling of the local young people.	Please share any further feedback you have at this stage.	
5820	I am a secondary teacher in Bedfordshire, and think anything which increases employment and training opportunities for young people is a good idea. Bedford town centre is in decline, again, anything which helps this is a good idea.	Please explain why	
5600	Paying all staff a living wage. No good if those in lowest jobs cannot afford to live in area.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4928	I think there are so many opportunities the site will provide and compliment other tourist attractions such as Leaveston studios and Centre Parcs. Apprenticeships would work really well and give teenagers opportunities for getting work. I am also a fan of theme parks.	Would you support a potential park and resort coming to this site? Please explain why.	
4180	It will bring a huge number of job opportunities and potential apprenticeship opportunities. Along with infrastructure improvements.	Would you support a potential park and resort coming to this site? Please explain why.	
4330	The job opportunities it would bring would be immense. But also, I love Universal Studios parks - I won't have to fly so far!	Would you support a potential park and resort coming to this site? Please explain why.	
3385	Local work for young people providing opportunities to gain a career locally	Would you support a potential park and resort coming to this site? Please explain why.	
3914	So more people are employed and it is funn	Would you support a potential park and resort coming to this site? Please explain why.	
3845	Myself and my entire family are very excited to see such a BEAST sized Project coming up in our town(Wootton/Stewartby). It is going to revamp the pride of the town. Opens up unlimited and perennial opportunities for the locals and also the entire country directly or indirectly. Creates new livelihood opportunities for many talented individuals. Just the feel of it being a GLOBAL DESTINATION is thrilling and we are proud to be living very nearby to the project. We also feel that it is going to do lot of good to the upcoming generations. However, like I mentioned in the very initial questions of this survey.....please do not spare any corner to enhance safety and security of every local resident and international traveller. With the latest technology it is very much possible to come up with state of the art safety and security measures.	Would you support a potential park and resort coming to this site? Please explain why.	
2679	The area needs investment in real work oppoutunities and careers. Having worked for a competitor organisation I know that the business drivers would be compatible with the local area and most of the local inhabitants as well.	Would you support a potential park and resort coming to this site? Please explain why.	
4031	The best news ever for Bedford.will be going uphill and will be amazing to do business in local area and work locally too. Would invest in our local town.	Would you support a potential park and resort coming to this site? Please explain why.	

4863	The increase in high quality tourist attractions, increased job opportunities and business opportunities for the local and wider communities	Would you support a potential park and resort coming to this site? Please explain why.	
2820	More job opportunity	Would you support a potential park and resort coming to this site? Please explain why.	
4793	New job opportunities Good for the development of Bedford town	Would you support a potential park and resort coming to this site? Please explain why.	
3790	New job opportunities, enhanced infrastructure, enhanced investment for the area and the benefit to mental health by having a new 'escape' from reality on our doorstep.	Would you support a potential park and resort coming to this site? Please explain why.	
609	Opportunities for the workforce should reflect a variety of skills and vocations to best support the community	Would you support a potential park and resort coming to this site? Please explain why.	
2620	Opportunity of work for young people	Would you support a potential park and resort coming to this site? Please explain why.	
2406	Regeneration of an abandoned site and employee t opportunities especially for the young	Would you support a potential park and resort coming to this site? Please explain why.	
699	Somewhere to make memories with my grandchild and good career opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
3144	Support the Deaf & Hard of Hearing to access job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
4722	The Bedford area badly needs more job opportunities+more chances for youngsters to buy homes.	Would you support a potential park and resort coming to this site? Please explain why.	
4130	The opportunities available to the community, particularly work and training opportunities for youth and working age. Also increasing the reputation of Bedford.	Would you support a potential park and resort coming to this site? Please explain why.	
321	The park will create more job opportunities, improve the local area and bring a well known brand to the ku that is sorely needed.	Would you support a potential park and resort coming to this site? Please explain why.	
4406	My daughter is in her final year of an acting degree so this could lead potentially to a career with Universal for her	Would you support a potential park and resort coming to this site? Please explain why.	
1830	Possible new job potential and avid theme park explorer	Would you support a potential park and resort coming to this site? Please explain why.	
1812	Retention of our young people in the area rather than them having to move away from families and villages to find work	Would you support a potential park and resort coming to this site? Please explain why.	
F6115	I am so excited about this amazing opportunity. It will be amazing to have said an amenity here in Bedford. I am excited about the job opportunities for ourselves + our childrens. Please come to Bedford.	Feedback form: Please share any othere feedback you have at this stage. Please share any othere feedback you have at this stage.	
F6202	Looks good, great opportunities for youngers. I'll probably be dead in 20 years - but think this could be a good regenerations project for Bedford + local villages. Might inc our house price lol.	Feedback form: Please share any othere feedback you have at this stage. Please share any othere feedback you have at this stage.	
4810	Training and job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
453	Improvements to infrastructure Jobs Fun place to visit Apprenticeship and work experience opportunities for our young people	Would you support a potential park and resort coming to this site? Please explain why.	
122	Purely because it would give employment to many and also give training.	Would you support a potential park and resort coming to this site? Please explain why.	
344	High quality parks bring jobs and training and pride to the local area and help non-London towns feel connected to the wider world.	Would you support a potential park and resort coming to this site? Please explain why.	
487	I think it will benefit the local youths through training and job opportunities. It will also ve fun	Would you support a potential park and resort coming to this site? Please explain why.	
605	We love theme parks so to have a company come in and create a more inclusive and up to date park would be incredibly refreshing! we feel that the UK theme park industry is incredibly stale! we need someone to come in and inject a bit of life! plus all the added bonuses of jobs and training opportunities are just a well needed added bonus!	Would you support a potential park and resort coming to this site? Please explain why.	
617	Bedford is desperately needing a regeneration project especially for our young people. We have a high level of young people not in education or training and through this project there is a real opportunity to engage young people, offer them not only job but training opportunities and bring the town back to life. Would love to see investment in youth projects to get those not in work up skilled and into the world of work. More intervention work	Would you support a potential park and resort coming to this site? Please explain why.	

591	New life in a dull area, jobs for the young with great training opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
818	Economic, social and environmental benefits, in particular job and training opportunities for local people	Would you support a potential park and resort coming to this site? Please explain why.
946	Creates jobs, training and qualifications for people, can reduce flying to other country's to visit resorts, improve uk economy	Would you support a potential park and resort coming to this site? Please explain why.
1014	I think the UK is a great country and I think universal would help us grow not only just in theme parks, but in the whole industry as a European leader, be great for tourism great for jobs. Great for training courses colleges great for the environment. Great for the road net work just amazing. We love universal studios I've been to Orlando many times I love it	Would you support a potential park and resort coming to this site? Please explain why.
1055	The job and training opportunities and community benefits for local people are exceptional. Though Bedford is close to London, there have historically been a lack of local opportunities for school leavers, this is a superb opportunity. It would also be very cool to have a Harry Potter â€œlandâ€ down the road from my house!	Would you support a potential park and resort coming to this site? Please explain why.
1188	Key economic benefits to the local community, will open up more investment opportunities to other organisations, thousands of local jobs & training opportunities for local people, help increase footfall to businesses in the local area, significant infrastructure and environmental improvements in the area.	Would you support a potential park and resort coming to this site? Please explain why.
1210	Universal is an amazing, globally recognised theme park and resort. Universal has an incredible reputation and their theme parks are in another league in comparison to what the UK currently has to offer. I like that this would create training and job opportunities for people within the UK; if someone had an interest in theme parks it's amazing that they could work at a Universal one as opposed to other local theme parks. Overall, Universals reputation is why I am excited and hopeful this comes to fruition. I've been to Universal Hollywood and Orlando and both are amazing!	Would you support a potential park and resort coming to this site? Please explain why.
1245	It would be great for developing and helping the local areas, new jobs, better transport links, help with local buisness, training, tourism increase and would love to see a Universal Theme park in the UK dream come true for the UK if you decide to do this amazing project!	Would you support a potential park and resort coming to this site? Please explain why.
910	Employment and training opportunities ,customer service is exceptional at Universal parks. Also to have a wonderful theme park worth buying a ticket too would be fantastic in this country. No one does theme parks and experiences better !	Would you support a potential park and resort coming to this site? Please explain why.
2711	Bedford and Bedfordshire has so much potential. Geographically, it is situated in a fantastic place - London is only 40 mins away by train for example. A project like this could really fulfil the potential of this area. Also your outlook is very refreshing, when emphasising the importance and value of the environment and nature, alongside supporting the local communities in terms of training, jobs and social benefits.	Would you support a potential park and resort coming to this site? Please explain why.
5185	For the very reasons you give - creating jobs, training opportunities, support for local businesses, improvements in infrastructure.	Would you support a potential park and resort coming to this site? Please explain why.
5024	I am so excited at the prospect of this park being so close to where we live! I'm so glad it will provide our are with further jobs and training opportunities! I hope you will work with local schools and offer benefits for locals	Would you support a potential park and resort coming to this site? Please explain why.
4977	It would bring huge benefits in terms of new jobs, training opportunities for younger people, and much-needed improvements in transport infrastructure. Our executive committee (of BAALHS) discussed your proposal at length and decided to give it our strongest support. I also highlighted the potential benefits during a recent local radio interview.	Would you support a potential park and resort coming to this site? Please explain why.
5230	To create training and opportunities for school leavers in the area. Also for the numerous unemployed in the area which can only be a good thing.	Would you support a potential park and resort coming to this site? Please explain why.
2187	A project on this scale has the opportunity to create countless jobs and training opportunities, for local residents, in the same way other large scale ventures such as HS2 have done, in addition with the increase in tourism more money will go into the local area, that will in term improve local services.	Would you support a potential park and resort coming to this site? Please explain why.
4732	Being jobs, training and infrastructure to the area which is desperately needed	Would you support a potential park and resort coming to this site? Please explain why.
2963	Exciting opportunities for the whole area, increase in jobs, growth for the economy, improvements to local infrastructure, training and employment , not to mention how amazing it would be to have such an exciting resource in the county. Myself , my grown up children and grandchildren are very excited at the thought, having been to Universal resort in Florida and seeing first hand how well run and maintained the sites are and the pride employees took in their jobs.	Would you support a potential park and resort coming to this site? Please explain why.

2583	Exciting prospect for jobs and and training opportunities. Raising profile of the town and area and bringing it up market	Would you support a potential park and resort coming to this site? Please explain why.
3983	Great opportunities to boost the local economy and provide new jobs and training. It would be great to see Bedford put on the map.	Would you support a potential park and resort coming to this site? Please explain why.
3183	I 100% endorse this project. Bedford has long enjoyed an exceptional logistic location for the sheer amount of people that could potentially visit it. Although because of that it's falling into only really providing logistical jobs within warehouses, the modern work house outside of a call centre, which in turn don't provide many routes for advancement. Your proposal of jobs and training and if used to catalyse further and existing developments of creative industries in the area will be incredibly impactful for the immediate areas served by those excellent transport links.	Would you support a potential park and resort coming to this site? Please explain why.
2365	I fully support welcoming Universal to Kempston Hardwick area. Since I was 3 years old every few years I have travelled to Florida to go to universal. Universal is a place for everyone and lots of fun and you make magical memories that last a lifetime, every time you go more memories get made and every time is different, you never get bored! To have universal on our doorstep would be a wonderful opportunity. The location is a sensible place, with good transport links and waste facilities nearby. Bedford is my hometown (I still live local) but I'm sad to return to its centre as once a vibrant town centre now hardly anyone goes there to shop, lots of shops lay closed and empty. Having universal on its doorstep would be a game changer economically for the local area. I know when I go to universal in Florida most of my time is also spent exploring Orlando and shopping, eating so having universal in Bedford would massively help our local areas economically. The jobs it would bring to the local area would help every generation. It's such an exciting opportunity for our local people. If you are worried about traffic doesn'tbe, I've always driven in a car to Florida universal and have never sat in a queue or been affected be one, the universal staff are fully experienced at getting everyone where they need to be without affecting roads! I'm sure universal will have their own trains so no one is affected train route wise. Reading about how Universal will help our local area too is really refreshing that a big company has chosen our area to invest. Working with local ecology and wildlife is great although I doesn'tthink much exists there at the moment as it's a bit scrub land and probably has some contamination issues, so improving around the site making the area nicer with landscaping would benefit wildlife and ecology and you would probably find more wildlife than is there now! If maybe you could find another area of land in the UK to buy the same size as the site at Kempston to 100% dedicate to tree planting and wildlife and ecology and training people in this would be a nice idea so you are effectively replacing what you plan to taken away, would be a nice idea. I feel welcoming Universal here with open arms for our future could really transform our area for the better. Good luck in your application.	Would you support a potential park and resort coming to this site? Please explain why.
4329	I'm sure that such a large, statement investment by Universal would be extremely well received by the local - & wider - UK economy, and pay dividends for years into the future. The creation of jobs for the local economy would be tremendous, there's a pool of local talent to develop in to future careers. The increase in visitors to the town, driving additional spending, would be a brilliant boost. The opportunity for Hospitality training schemes for local youths, with a view to employment potentially, would be so beneficial (writing as a father of a young child at the moment). The wider area is full of friendly, welcoming individuals - it would be brilliant to open Bedfordshire's arms to the world.	Would you support a potential park and resort coming to this site? Please explain why.
4424	Investment into the area, jobs, training for varied skill sets, boost in footfall for Bedford Town, increase in house prices, I love Universal Parks	Would you support a potential park and resort coming to this site? Please explain why.
4923	It would be brilliant for local residents for jobs and training and brilliant for the UK as a whole providing a world class resort that the country does not have. This would help tourism everywhere with a big economic benefit. And I would love to visit the resort with all my friends and family!	Would you support a potential park and resort coming to this site? Please explain why.
3487	It would provide families an opportunity to visit a world class resort without having to travel to the USA or Asia. It will also provide thousands of jobs to young people who are in need of employment and training.	Would you support a potential park and resort coming to this site? Please explain why.
1797	It'd be great for the economy and creating jobs as well as training opportunities	Would you support a potential park and resort coming to this site? Please explain why.
2177	Lots of UK residents could never afford to go abroad to have this experience Jobs and training for UK children Building something better than more warehouses that sit unused Harry Potters home is in the UK and we should have our own unique version of it here A celebration of British film	Would you support a potential park and resort coming to this site? Please explain why.
2974	The local opportunities that this project both in terms of jobs and training and also increasing income into the area	Would you support a potential park and resort coming to this site? Please explain why.

1755	It is obviously very early but I would be hoping that some of the wider support functionality for the parks would also be available as employment within the UK. Things such as IT support (such as development of the park mobile apps) & Universal Creative roles. Those hopes are selfish on my part, as I am a Software Engineer, but it would also give a much wider range of training/employment opportunities for those currently in education and would also give wider experience/expertise to other themed entertainment & museum establishments within the UK	Please share any other feedback you have at this stage	
4285	There is a real need to give Bedford a clear sense of purpose and the universal project would enable this. The training and development opportunities for local people, creation of new jobs and skills are significant opportunities. Culturally Bedford will benefit from a high quality and globally recognised attraction. I believe that the plans will boost pride, giving Bedford something to celebrate and then the inward investment locally will have a multiplying effect, delivering regeneration of the town.	Would you support a potential park and resort coming to this site? Please explain why.	
4377	This is a win-win scenario where Universal would build a world class resort in the fantastic British surroundings of Bedford and a new theme park resort would help provide a much needed stimulus to the local economy in Bedford, Luton and surrounding areas. In strongly support this project also as a growth engine for the people of the region where it will help provide jobs and training opportunities for many professions.	Would you support a potential park and resort coming to this site? Please explain why.	
3402	It's a massive project and I assume will take years to complete. As long as properly managed I think it will be a massive benefit to the area bringing well needed jobs and training to many people.	Please share any further feedback you have at this stage.	
2095	Will bring jobs, training and tourism to a bit of a dead area that is accessible to so many people in the uk	Would you support a potential park and resort coming to this site? Please explain why.	
5693	As a local resident. I would want to see infrastructure proposals and the plan for skills and employment. If it is truly 8000 FT jobs for Bedford then surely recruitment / training should start asap to ensure these roles are secured rather than having to recruit from outside the area.	Please explain why	
5873	Opportunity for jobs/training and our local economy is a wonderful reason to support this project.	Please explain why	
1462	I personally think this project is a fantastic exciting opportunity not only for the UK, but for the local area too. To have a theme park of this magnitude that supports local employment, training facilities, Trainline and road infrastructure improvements is incredibly positive. The UK holds so much history and it will be important to reflect that within this new theme park and to enhance UK tourism and attractions. There is genuinely nothing of a negative critique I could provide when all I can see is nothing but improvements and exciting opportunities ahead.	Would you support a potential park and resort coming to this site? Please explain why.	
967	A once in a lifetime opportunity to bring land, which would otherwise be just another housing development, into use as a source of significant employment, training and skills and bring the economic benefits of tourism to the county.	Would you support a potential park and resort coming to this site? Please explain why.	
4122	Bringing training and employment opportunities to the area Better transport networks Improving economy of local area Also I love theme parks!	Would you support a potential park and resort coming to this site? Please explain why.	
2090	Creating employment and training is important	Would you support a potential park and resort coming to this site? Please explain why.	
4159	Experiences & entertainment is solid business sector, with potential for growth in every aera. As long as infrastructure and employment opportunities/training keep up with the resorts success then it's a win-win for everyone.	Would you support a potential park and resort coming to this site? Please explain why.	
3221	Hopefully will provide employment and training opportunities for young people from Bedford. This would be help to encourage them to stay locally and help maintain Bedford as a vibrant, multicultural town	Would you support a potential park and resort coming to this site? Please explain why.	
4301	I am a proud Bedfordian and a Bedford Tour Guide. I have seen the impact on the lack of investment in our Town and its decline over a number of years. This venture has the potential to re-invigorate our Town and provide benefits to the local economy as well as training and employment opportunities, which are key to stoking optimism.	Would you support a potential park and resort coming to this site? Please explain why.	
1161	I feel that Bedford needs more investment in order to increase employment and training prospects. Additionally, this will allow for educational opportunities for students for both practical and theoretical purposes. The opportunities that such a development could bring are vast and as an FE teacher they would be welcomed.	Would you support a potential park and resort coming to this site? Please explain why.	
1171	I feel that something of this magnitude will bring employment, opportunities for training and financially benefit Bedford and the surrounding areas.	Would you support a potential park and resort coming to this site? Please explain why.	

900	I think it would be great to attract people from around the UK, Europe and the world to Bedford. It would reenergise the town and surrounding areas and make us all strive for a better and more exciting place to live. It will give local people employment and training opportunities and really put Bedford on the map as a destination that has great links to the whole of the UK and Europe. It would mean local schools and colleges could work with you to offer new training/courses that could refresh the education offering in the area.	Would you support a potential park and resort coming to this site? Please explain why.	
4137	I think the site is an asset, that the area should grasp, providing improvements to infrastructure, offering employment/training opportunities, lifting tourism in the area, many park visitors will travel a long way to visit site, they will need accommodation, feeding, fuel etc	Would you support a potential park and resort coming to this site? Please explain why.	
4014	I think this exactly what Bedford needs. Creating more employment, training and visitors in the area can only be a positive thing. The proposals to the improved local infrastructure would be positive to visitors and local residents	Would you support a potential park and resort coming to this site? Please explain why.	
1410	I'm 200% behind this project! This is a fantastic opportunity for the UK and Bedfordshire and its neighbouring counties in particular in terms of employment and opportunities for local young people. Also, there is a thriving theme park enthusiast community in the UK which would also be behind this project I'm sure. Although we have good theme parks in the UK such as Alton Towers and Thorpe Park, in my mind they do not match the attention to theming and the guest immersion experience that other European theme parks, such as Phantasialand and Efteling, offer. A Universal Park would fill this gap. There is such an amazing heritage of storytelling in the UK, it would be wonderful to have a theme park where this is celebrated fully. J K Rowling, J R R Tolkien, C S Lewis, George MacDonald, Enid Blyton, Roald Dahl... the list goes on. I am a youth worker by trade - there is such a crisis of poor mental health among young people at the moment in the UK this project could really help both by providing young people with training and employment opportunities but also by offering young people some joy and escapism. This project is well needed in the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
1319	It creates employment which lead to new investment not just Universal. Training departments, hotels potentially and shops.	Would you support a potential park and resort coming to this site? Please explain why.	
1058	It will increase employment, training opportunities and tourism to the area.	Would you support a potential park and resort coming to this site? Please explain why.	
3651	It would be an incredible boost to the local economy and provide excellent training and employment opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
3918	It would increase footfall for local businesses, create employment opportunities and training opportunities.	Would you support a potential park and resort coming to this site? Please explain why.	
4581	Knowing the area well, the opportunities for employment, training and improvement in local business economy is greatly needed. The innovation that Universal will bring, will be truly welcomed from all areas across the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
3832	The many advantages including employment, training and financial	Would you support a potential park and resort coming to this site? Please explain why.	
3092	The park would have the potential to bring huge benefits to the area, particularly in employment and training but also in bringing people to the area who would visit the local towns and villages, helping local businesses.	Would you support a potential park and resort coming to this site? Please explain why.	
1755	This is a huge opportunity for the Bedford & the wider UK. Being a massive theme park fan (especially Universal Orlando & IOA) the idea that a Universal theme park could open in the UK a few hours from where I currently live and near where I used to live is very exciting. Beyond being able to visit as a guest and bring my family much more regularly than would be possible with just the US parks, I'm hoping for the opportunity for potential employment with Universal in the future. I have applied for positions with Universal before but am not a US citizen/resident so have had little luck. The possibility that I could hopefully still secure a position with Universal but within the UK would be a dream come true and could also allow for the opportunity to move back closer to family near Bedford. It also creates the opportunities for positions within the park for younger members of family & friends families which is lacking in the local area. Collaboration with the local colleges & sixth-forms for training on ride/park maintenance also gives valuable skills & employment; again currently lacking.	Would you support a potential park and resort coming to this site? Please explain why.	
2131	We are theme park enthusiasts and we believe that Universal is a world leading brand that would put Bedford and the UK on the world map for theme park resorts. It will transform the local area and provide many employment and training opportunities. Who knows, one day my 13 year old son could work at the resort as this is his dream to work in the industry. Overall it would be a massive boost to the area and UK tourism as a whole.	Would you support a potential park and resort coming to this site? Please explain why.	

4167	We feel this would have huge benefits locally and would support future generations with opportunities in training, employment and family time in visiting the park together. As a family of 5, working in the travel, heritage and airline industry the chance to offer our children a place to visit and also potentially work, is very desirable. The improvements to local infrastructure (mainly travel connections) would be a big asset and it would bring great excitement to have a UK destination added to the mix of attractions. Environmentally, this feels like a good use of the old brick works, rather than all housing, and we feel the county of Bedfordshire would welcome the park as proposed, with thanks for seeking our input. In addition, on a professional level I would be interested in work opportunities at a senior leadership level, and will keep an eye out as the months/years progress! Good luck.	Would you support a potential park and resort coming to this site? Please explain why.
4353	It would bring tourists to the area which would increase spend in the local economy. This increase would hopefully in turn attract more businesses. The town centre in failing, hopefully this would be initiative to businesses to come to Bedford. It would increase job and training opportunities. Great transport links already here for rail and air. Increase choice of places to stay when people visit Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
2003	I feel this is a great addition to the area and the UK as a whole. It will create opportunities for the community and young people in the area to enhance their chances of a career in the industry and training opportunities. I also believe that it will help the local economy and local businesses to thrive through tourist footfall and universals collaboration.	Would you support a potential park and resort coming to this site? Please explain why.
4813	I live and work locally and have young kids and can see the amount of potential this could have on the local economy and the career, training and entertainment opportunities it could offer my kids as they grow up.	Would you support a potential park and resort coming to this site? Please explain why.
2329	This is an amazing opportunity for the local area for business partnerships, job opportunities, skill training etc. As well as putting the rich heritage of the area in the lime light	Would you support a potential park and resort coming to this site? Please explain why.
4810	Training and job opportunities.	Would you support a potential park and resort coming to this site? Please explain why.
118	It would create a lot of opportunities for the locals(employment, development in infrastructure, livelihood, facilities etc.) it would also serve as a hub for universal studio fans for everyone across Europe.	Would you support a potential park and resort coming to this site? Please explain why.
5524	I believe that this would be a fantastic boost for the UK both economically and socially, it will provide a wealth of jobs and business opportunities from both UK guests and tourists.	Please explain why
5568	Great addition to the local economy and provides a tourism draw, as well as new jobs	Please explain why
5674	The Park and Resort would be of huge benefit to the UK economy by boosting tourism and bringing new jobs to the area. It would also be of great benefit to the local infrastructure	Please explain why
5705	Regional development, de-centralizing tourism away from London. Supporting local infrastructure investment. Jobs and economic improvement to the Bedford area.	Please explain why
5734	The potential to improve Bedford with jobs ie: tourism is immense	Please explain why
5768	Economic benefits to Bedford as a whole would be huge, creating hundreds of jobs as well as bringing tourists to an area of England that would rarely be considered by travellers without the park.	Please explain why
5805	I've been visiting your USA theme parks since 1992 when I was 18 starting with Orlando Universal studios. I was amazed with how far ahead the USA was with theme parks, the rides, shows, organisation compared to anything we had in the UK at that time. I still maintain that universal studios in Florida in 1992 is still way ahead of any theme parks in the UK in 2024! Since then I have visited Florida and California Universal studios parks on many occasions over the years, last time was 2020. It's quite expensive for people from the UK to have holidays in California and Florida and it would be great for residents of the UK to be able to experience exactly what I have but on their doorstep! Not only that but Comcast is a huge organisation who will no doubt make money no object in achieving their goals, just like they have in their amazing parks across the world. When Universal make a decision to go ahead with a new park they waste no time in the planning and realisation of the park. New roads, local infrastructure, blending in with the local environment is second to none. Also the huge benefit not only to the local economy in terms of jobs and new businesses opening up but to the UK as a whole with the amount of tourists visiting the UK. This really is what the UK has been missing for many many years.	Please explain why
5838	Anything that creates jobs etc and tourism would be good for Bedford	Please explain why
5978	This would create more jobs for Bedford locals, increase the number of people visiting the town, increasing property value in local area, give a chance for local businesses to flourish. Good place for locals to come and enjoy the park. Bring foreign tourists to Bedford, increasing the popularity of Bedford.	Please explain why
6012	It is a big win for the UK and a big draw and will bring a lot of money tourism work jobs and would not just uplift Bedford but the whole UK	Please explain why

6020	The site in Orlando has transformed the are into a thriving hub with so much to do for families. Its a no brainer to have such an awesome park in the uk, jobs, tourism, things for uk families to do.	Please explain why
5650	Job creation, Local and national investment. Tourism boost.	Please explain why
5653	Increase in tourism and job opportunities	Please explain why
6016	Great for the region and job opportunities as well as tourism.	Please explain why
5562	Employment opportunities, increase in tourism, regeneration of a brown site, competition for existing theme parks.	Please explain why
5957	It's potential is huge! For developing culture as well as heritage, tourism, economy, employment. Much depends on choice of theme. Would love to see towns heritage celebrated through the theme, not just indirectly- it's entirely possible with the nature of our local heritage (see notes left with you on the day of the presentation at Bedford College)	Please explain why
1625	Because it brings in jobs not just for the locals, but also for the rest of the UK even beyond? It will bring in tourism which would in my opinion have a positive impact on the UK's economy 100%, its what we need in the UK, as we haven't got nothing like it, also it can be sometimes expensive to travel to other resorts & parks throughout the world for us Brits via flying, trains a.k.a Eurostar currently to Europe aswell Disneyland Paris. Also we have no parks & resorts like this scale in the UK, could do with parks and resort more on an International & World class level. Offering more immersive themed & fun, thrilling experiences that current theme parks, amusement parks in the UK can't offer currently at the moment. Think with this park & resort, that will make this resort top. 100%.	Would you support a potential park and resort coming to this site? Please explain why.
681	A Universal park in Bedford would have numerous benefits to the local area in terms of employment and improvement to infrastructure, and assist the UK's tourist sector as a whole.	Would you support a potential park and resort coming to this site? Please explain why.
4685	Economic and employment opportunities as well as a new UK tourism destination	Would you support a potential park and resort coming to this site? Please explain why.
4485	For the reasons you have already said, employment opportunities, we are a central location in England with easy access from a lot of major roads, Centre Parks is only up the road at Woburn too, it would bring a lot of tourists to the area and as such more money to the local shops which is always a good thing!	Would you support a potential park and resort coming to this site? Please explain why.
626	I think any major investment in an area such as Bedford should be welcomed. The opportunity to create so many jobs for local people and further a field is such a great opportunity for both people looking to start a career ie school leavers, and skilled people looking for new roles. It would help local employment greatly. The opportunity to have a world class entertainment venue such as universal studios is something the uk has been missing for decades. Having it in the uk will mean so much more to the local area and further area in terms of tourism and footfall.	Would you support a potential park and resort coming to this site? Please explain why.
402	So much opportunity for development of infrastructure, including highways and rail links, employment opportunities, opportunities for local companies and tradesmen for supplying products and services,boosting the local economy through tourists, helping conservation in certain parts, recognising the local history, improving footpaths and cycle tracks.	Would you support a potential park and resort coming to this site? Please explain why.
948	The opportunity to have a park of this nature is transformative for both the local area and the U.K. as a whole. It will offer excellent employment opportunities and be a first class tourist destination bringing money into the locality and from abroad. It will provide the opportunity for those who visit foreign parks to have that experience in the U.K. and allow those unable to travel to the US or other countries the ability to experience Universal	Would you support a potential park and resort coming to this site? Please explain why.
4466	This project will bring real economic benefit to the area, bringing in tourists to not only visit the park but to stay nearby and a good amount of local employment.	Would you support a potential park and resort coming to this site? Please explain why.
229	Universal parks provide an amazing experience but many people in the UK are either unable to experience them, or can only go once in their lifetime due to distance and cost. To have a Universal theme park within realistic reach would be amazing for so many people. It would also bring so much money into the UK economy via visitors from other countries and create so many jobs. The positive gains from this project are endless.	Would you support a potential park and resort coming to this site? Please explain why.
357	I think the benefits to neighbouring communities would be huge ,in the form of jobs and visitors spending money in our towns.	Would you support a potential park and resort coming to this site? Please explain why.
443	I think a Universal Theme Park resort coming to the UK would be fantastic for many reasons. It would provide many jobs & opportunities for many people, to have a Universsl Park in the UK would be a massive tourist magnet and bring positive investment in to the UK. I have been to.Universal many times in Orlando and just love the theme Parks, the thought of having a Park and resort in the UK is so exciting and I so.hope the project gets the green.light .	Would you support a potential park and resort coming to this site? Please explain why.

466	I think the park would transform Bedfordshire, improving job opportunities, tourism and house prices. I think it would be brilliant!	Would you support a potential park and resort coming to this site? Please explain why.
153	I have been to Universal Florida and it's amazing and it would be a place where people can come to Bedfordshire and have a wonderful holiday. This would be a great development on a brownfield site which we know would be great for the economy. The site is a perfect given the excellent transport links, major airport a short distance away in Luton. It is very close to London and the international attractions and is perfectly located to be an attraction to tourists staying in the area. We have the midlands and the north in easy access to the resort. Quality jobs will be provided for a local workforce for the villages, Bedford, Luton and Milton Keynes.	Would you support a potential park and resort coming to this site? Please explain why.
268	I'd be concerned on the Infrastructure improvements being sufficient, that the view from Ampthill Park would be compromised and that unwanted tourists would visit Ampthill at a cost to locals with tacky touristy shops being a blight on the high street. However, I am also positive about the provision of jobs and impact on opportunities for local people.	Would you support a potential park and resort coming to this site? Please explain why.
273	New jobs, increases tourism, increases spending, boosts the economy. I would love to go to Universal in Florida, but the cost of getting there is too high, bring the park here would give the opportunity for people from all over the UK to experience Universal studios without having to spend thousands just to get to the US. The British public love a good theme park, that's why theme parks like Alton Towers, Legoland, are always improving and building new rides.	Would you support a potential park and resort coming to this site? Please explain why.
280	Absolutely! I have been lucky enough to visit many theme parks on many occasions including Universal's parks in both Orlando and Osaka and the benefits are clear to see. Local jobs, increased tourism and improvements to the local area are but a few; I can see this being a fantastic asset both to the initial area and to the rest of the UK.	Would you support a potential park and resort coming to this site? Please explain why.
316	This would be brilliant for UK tourism as well as providing many jobs for local people.	Would you support a potential park and resort coming to this site? Please explain why.
329	This would be amazing for the local area. increased jobs, improved facilities, tourism, restaurants etc great potential for working with local organisations- giving YP a voice and learning opportunities	Would you support a potential park and resort coming to this site? Please explain why.
339	It will add a great value to the surrounding towns. More jobs and businesses will be attracted to the wider area. The area will also be a hot spot for tourism which will bring great benefits	Would you support a potential park and resort coming to this site? Please explain why.
391	This park would be a great opportunity for the UK as it would create jobs and fetch in more tourist.	Would you support a potential park and resort coming to this site? Please explain why.
520	Would benefit the UK financially, increase tourism, create jobs, would be amazing for the UK	Would you support a potential park and resort coming to this site? Please explain why.
524	It would be great for the area, jobs, entertainment, tourists...	Would you support a potential park and resort coming to this site? Please explain why.
528	I am a regular visitor to Universal Studios and Islands of Adventure in Orlando, Florida and have been for 20 years. I know what Universal has to offer and would think it would be an amazing opportunity to have a resort in the UK (even better as it will be within walking distance from me). It will be in a central location with accessible transport links, it will bring traction to local businesses, increase tourism not just for Bedford but for surrounding areas of the UK and it will also provide many exciting job opportunities. I hope you will think about the locals not being the face of the park but also for the planning and development.	Would you support a potential park and resort coming to this site? Please explain why.
561	A well planned, realistic and considerate project from an established and experienced brand such as yourself can only be a good thing. From the initial job creation, to the wider impact the added tourism will bring to the area (and country for that matter), adding in the environmental awareness you are showing really should be welcomed and commended. As a theme park fan, an additional park in the UK market is always a nice addition, but one on the scale and quality of your other resorts would be an amazing addition.	Would you support a potential park and resort coming to this site? Please explain why.
582	As an enthusiast I would love for a new park to come to the UK it would bring tourism to the town and jobs to many people	Would you support a potential park and resort coming to this site? Please explain why.
585	Bring so much to the UK economy such as jobs and tourism	Would you support a potential park and resort coming to this site? Please explain why.

586	It would be a HUGE boost to the UK economy bringing in tourists from all over the world and also by providing lots of jobs to UK citizens. It would cause a huge boost to local towns and villages with lots of tourists flocking to the area there would be increased demand for hotels, restaurants, taxis, ubers, Airbnb's. The large amount of jobs the park would create would bring in new people to area so there would be more interest in building housing and infrastructure. It would also cause other companies that operate in the UK entertainment industry to invest more to keep up with this new demand for high quality parks and entertainment. There is no downside I can think of for this project. It does nothing but good for the economy. Massively boosts tourism to the country. Brings competition back to a stagnant industry in the UK. Its a win for everyone.	Would you support a potential park and resort coming to this site? Please explain why.
604	Great opportunity to create jobs, drive tourism and develop the area	Would you support a potential park and resort coming to this site? Please explain why.
624	This would be fantastic for the tourism industry and providing job opportunities for thousands of people	Would you support a potential park and resort coming to this site? Please explain why.
626	I think any major investment in an area such as Bedford should be welcomed. The opportunity to create so many jobs for local people and further a field is such a great opportunity for both people looking to start a career ie school leavers, and skilled people looking for new roles. It would help local employment greatly. The opportunity to have a world class entertainment venue such as universal studios is something the uk has been missing for decades. Having it in the uk will mean so much more to the local area and further area in terms of tourism and footfall.	Would you support a potential park and resort coming to this site? Please explain why.
540	As long as the infrastructure is right, then I can't see the negatives in this. It can only be a positive thing for Bedford and the surrounding areas, which often get overlooked in favour of bigger cities eg Milton Meynes, London, Cambridge. It would put us on the map and bring much needed tourism and footfall to our town centre which is desperately needed. The majority of people in Bedford I think feel the same. I am also conscious of jobs for my children (currently 7 and 10) and having such a big potential employer nearby can only be a good thing for their job prospects in the future.	Would you support a potential park and resort coming to this site? Please explain why.
542	Lots more needed jobs in the area, more tourism and more places for families to visit in the borough and put Bedford on the Map!	Would you support a potential park and resort coming to this site? Please explain why.
567	There would be high demand given the central location and lack of other theme parks nearby. It would bring life, money and jobs to a relatively deprived area of the country with quite high unemployment. There's nothing like this in the UK and it would be really cool to have a universal park and bring tourists to area both from elsewhere in the UK and abroad.	Would you support a potential park and resort coming to this site? Please explain why.
573	The UK needs something large in this area which would bring tourism, create jobs and be a great resort for locals and overseas visitors to attend	Would you support a potential park and resort coming to this site? Please explain why.
586	bring more jobs helping tourism is a plus	Would you support a potential park and resort coming to this site? Please explain why.
609	Great for employment and economy. Would be a great tourist attraction for the UK	Would you support a potential park and resort coming to this site? Please explain why.
656	I would be in full support of universal creating a new park at this site because from visiting the parks in Orlando what would be completed i know would be of a high standard and quality. The current U.K theme park industry is dominated by Merlin entertainment so this would create healthy competition from another worldwide theme park heavyweight as currently without such competition there is never any visible improvements to their parks in the UK as there are not many other options. Also themed events such as the world famous Halloween Horror Nights at Universal would do tremendously well as in recent years the horror night offerings have been lacklustre. The Local area would benefit from the tourism that would also be bought in, allowing more investment. Job opportunities would also be greatly appreciated in the UK as the types of jobs that would be offered aren't always ones that you can come by in the UK, when looking at job opportunities such as in Orlando as an international you don't always meet the experience requirement. Bedford and the local area has something missing and has for a while, In terms of entertainment there isn't really much offered.	Would you support a potential park and resort coming to this site? Please explain why.
658	The sheer amount of jobs, tourists, income and more that would benefit from this is incredible. In the uk we have a proud heritage and this should be celebrated. Many tourists come to the UK to visit major cities, the Universal project will help expand the areas tourists (overseas and British alike) visit. This project would put the UK on the map, not just for this project but for its already thriving theme park industry.	Would you support a potential park and resort coming to this site? Please explain why.
696	It will help boost the community of Bedford and make more job opportunities for the community and the country as a whole. It will also boost tourism to the UK.	Would you support a potential park and resort coming to this site? Please explain why.

732	Greater tourism, more money to the area. More jobs and a great location. I believe the theme park will bring in more surrounding business to the area that will help the town thrive.	Would you support a potential park and resort coming to this site? Please explain why.
764	The park would create a large number of jobs and also increase tourism within the UK	Would you support a potential park and resort coming to this site? Please explain why.
809	I think it will be fantastic for the local economy with the jobs created as well as domestic and potentially foreign tourism, the infrastructure improvements will be great and bolster the case for the east-west rail project and it will put Bedford on the map, potentially bringing other investment into the town.	Would you support a potential park and resort coming to this site? Please explain why.
839	It would be so beneficial for the people and town of Bedford as it will create so many jobs for people who are struggling to find work, will create better environments better trains and better walkways. It will also bring investment and tourism which will make Bedford well known to people. I cannot stress how much I think this will be beneficial for Bedford and Bedfordshire itself.	Would you support a potential park and resort coming to this site? Please explain why.
860	The park would be a hub for tourism and provide countless job opportunities, as well as social and economic benefits for the UK. From Universal's side it allows them to enter into the European market, providing an attainable location for all of Europe to travel to and experience the Universal parks. This benefits the UK as all of the visitors from Europe and the wider globe will be flying into England and spending their money in our economy. As long as the park considers the local people and does not bulldoze through communities and wildlife then there are no losers for a universal park in the UK.	Would you support a potential park and resort coming to this site? Please explain why.
891	To bring much needed jobs and economy boost to the UK, encouraging tourism. Universal is a fantastic company and perfectly suited to developing this project within the UK	Would you support a potential park and resort coming to this site? Please explain why.
913	I think the area could do with the boost to jobs and tourism as well as benefitting from better public transport links generally	Would you support a potential park and resort coming to this site? Please explain why.
979	You summarised it perfectly during initial consultation. When I take the train into London during my daily commute, there isn't much by way of people travelling back the other way from London to Bedford. Having a Universal Park & Resort will change that completely. It will create jobs, infrastructure, even more tourism, new road, rail and cycle infrastructure to the local area. It will be a win / win for both Universal, the local community and wider geographical areas throughout the U.K. and mainland Europe. I cannot think of a negative personally and I'd love for Universal to proceed with proposed plans.	Would you support a potential park and resort coming to this site? Please explain why.
995	The thought of a major resort/theme park like Universal would put the UK on the map as a huge tourist attraction. The boost in jobs and opportunities it would create is like nothing we have. With a young children that are interested in engineering and entertainments, this would present major potential for them at a time when they are looking at career paths. If this opportunity was there for me I would have jumped at the chance.	Would you support a potential park and resort coming to this site? Please explain why.
1010	Amazing job opportunities! Amazing company to work for and gives the UK an exciting tourist attraction.	Would you support a potential park and resort coming to this site? Please explain why.
1013	I love theme parks, but the major ones in the UK such as Alton Towers and Thorpe Park often lack the quality, scale and effort put in by groups such as Universal and Disney, so to have a Universal park here in the UK that would be accessible for most British residents would be amazing. Not only for the thrill and excitement but as well as looking to improve the UK economy and tourism sector, increase job opportunities and as well since this project already seems to really have the environment and local community in mind, there would be absolutely no reason to object.	Would you support a potential park and resort coming to this site? Please explain why.
1014	I think the UK is a great country and I think Universal would help us grow not only just in theme parks, but in the whole industry as a European leader, be great for tourism great for jobs. Great for training courses colleges great for the environment. Great for the road network just amazing. We love Universal Studios I've been to Orlando many times I love it	Would you support a potential park and resort coming to this site? Please explain why.
1026	Creation of jobs Increased tourism	Would you support a potential park and resort coming to this site? Please explain why.
1030	Jobs and tourism, plus having a universal park so close to home'	Would you support a potential park and resort coming to this site? Please explain why.
1037	Tourism, financial support for local area, small business', many jobs will be created !	Would you support a potential park and resort coming to this site? Please explain why.
1041	I would love to visit and I think that this park could create many benefits to not only the local community in Bedford but the UK on a whole new jobs are created millions of tourists will visit and other opportunities could be made that will benefit the UK on a whole	Would you support a potential park and resort coming to this site? Please explain why.
1065	Improve tourism and job opportunities for the UK	Would you support a potential park and resort coming to this site? Please explain why.

1085	I have visited the universal parks in Hollywood and Florida and have always believed that they would be a brilliant addition to the U.K. as the rides are very different from those already in England (something I missed greatly after visiting Florida and Hollywood Universal parks), the theming across the parks is above and beyond anything we have here, plus there is a much better family feel and more family attractions available for a variety of ages unlike other theme parks. It would be fantastic to have something so immersive to create incredible memories with our children, without having to save thousands of pounds for the holiday (and we'd definitely be seasonal pass holders for the U.K. site!). Aside from personal use, this park would bring about many jobs that are needed in the U.K., and would help to develop interest and education for children on what an imagination can achieve while driving up tourism and interest in our local areas.	Would you support a potential park and resort coming to this site? Please explain why.
1102	I think this would be great for the UK, it would create many job opportunities and bring a lot more money into this country through tourism. As a family of 5 we would financially struggle to visit one of the other universal parks anywhere else in the world so this would give people from the UK and Europe the chance to experience a theme park and resort to the scale of universal. I am very excited about this potential project.	Would you support a potential park and resort coming to this site? Please explain why.
1106	The new job opportunities will be amazing but also the UK is long overdue a park from bigger companies like yourselves, it will also bring in tourists which will boost the local and national economy and put Bedford on the map more.	Would you support a potential park and resort coming to this site? Please explain why.
1115	This would be a great opportunity for Bedford and the United Kingdom, with a commitment to Jobs and tourism to the UK for years to come, both areas the UK would need.	Would you support a potential park and resort coming to this site? Please explain why.
1131	It would benefit the uk with all the new jobs and for people in uk that cant afford to visit another universal site. Also would fetch more tourists to the uk with strong links like the euro star.	Would you support a potential park and resort coming to this site? Please explain why.
1147	The UK has been begging for a world-class leisure facility for decades, and I can think of no one better than Universal to make this dream come true for so many. Universal has more than proven itself as a considerate developer and employer. It has long been talked about that jobs need to be pulled away from London and more evenly distributed across the UK, and although this site is not considerably far from the capital, it would still go a long way in drawing communities further north where they are needed. The UK relies heavily on tourism and this would be such a draw, not only for UK residents but for all of Europe. I can find no downside to a project such as this!	Would you support a potential park and resort coming to this site? Please explain why.
1154	Will be amazing for universal fans in the uk and bring new jobs and tourist to the uk	Would you support a potential park and resort coming to this site? Please explain why.
1156	It will create a lot of jobs, 20k construction jobs plus 8k operational jobs, it will support transport companies and created a lot of tourism to the country, As long as the environment is not made worse than it currently is this is a major win!	Would you support a potential park and resort coming to this site? Please explain why.
1160	It would deliver much needed jobs to the local area & also bring in tourism.	Would you support a potential park and resort coming to this site? Please explain why.
1168	I think it would be great for the economy and creating permanent jobs. I also think the UK would benefit extra tourism this site would bring and also for people who cannot travel abroad or who are local they would really enjoy this park	Would you support a potential park and resort coming to this site? Please explain why.
1201	I think it would be amazing for Bedford. The creation of new jobs would be a massive bonus and the increased tourism and activity in the surrounding area would really rejuvenate the area.	Would you support a potential park and resort coming to this site? Please explain why.
1207	I think it's a fantastic opportunity for Universal, Bedford and the UK as a whole. Creating vast jobs, new attractions to draw in tourists. I also feel the UK doesn't have anything on par with the likes of universal and I believe you'd then help push the theme park market in the UK	Would you support a potential park and resort coming to this site? Please explain why.
1244	This proposal will create loads of tourism and job opportunities that will benefit the local area and UK economy.	Would you support a potential park and resort coming to this site? Please explain why.
1245	It would be great for developing and helping the local areas, new jobs, better transport links, help with local buisness, training, tourism increase and would love to see a Universal Theme park in the UK dream come true for the UK if you decide to do this amazing project!	Would you support a potential park and resort coming to this site? Please explain why.
1253	I think it would be fantastic for the local area with job opportunities. It would also be fantastic for the country. Economically with tourism and also for the British reputation worldwide.	Would you support a potential park and resort coming to this site? Please explain why.
1256	I think it is a great way to boost the economic growth of the UK and invite many new tourist to the UK and many Jobs will be created.	Would you support a potential park and resort coming to this site? Please explain why.
1257	I love that Universal have chosen the uk for their potential new park and resort. The amount of jobs alone this would create would be amazing and also bringing such a largely known company to the uk will also bring much needed tourism to the uk. The positive potentials this project would bring the uk are vast.	Would you support a potential park and resort coming to this site? Please explain why.

1267	One of our most known and popular tourist resort destinations in this country is Alton Towers. To have a Universal Resort theme park in Great Britain, its a no brainer that it would go down well. It would take theme parks in this country to a world class level. Other parks including the nearby Alton Towers, Thorpe Park and Chessington World of Adventures will thrive in attendance and potentially the outcome of this could include expansion, investment thus creating more jobs for these merlin parks and more people travelling from across the world to visit the UK. We only have to look at the Orlando and Los Angeles areas at how popular the competing parks are.	Would you support a potential park and resort coming to this site? Please explain why.	
1277	It would be great for the area encouraging tourism and creating jobs and other opportunities. Also put the uk on the world map as far as theme parks are concerned	Would you support a potential park and resort coming to this site? Please explain why.	
1284	I have worked in the tourism and film industry and welcome the potential to look for job opportunities after having a baby	Would you support a potential park and resort coming to this site? Please explain why.	
1288	Because it brings in jobs not just for the locals, but also for the rest of the UK even beyond? It will bring in tourism which would in my opinion have a positive impact on the UK's economy 100%, its what we need in the UK, as we haven't got nothing like it, also it can be sometimes expensive to travel to other resorts & parks throughout the world for us Brits via flying, trains a.k.a Eurostar currently to Europe aswell Disneyland Paris. Also we have no parks & resorts like this scale in the UK, could do with parks and resort more on an International & World class level. Offering more immersive themed & fun, thrilling experiences that current theme parks, amusement parks in the UK can't offer currently at the moment. Think with this park & resort, that will make this resort top. 100%.	Would you support a potential park and resort coming to this site? Please explain why.	
3964	Bedford needs jobs and an identity for the future.	Would you support a potential park and resort coming to this site? Please explain why.	
3158	Bedford area has huge potential and a dearth of training and employment opportunities for local young people. It is a hospitable place with a long history of embracing and welcoming visitors : a peaceful but vibrant location with many additional local outstanding attractions. It deserves it's own	Would you support a potential park and resort coming to this site? Please explain why.

5897	for me it is very close to my house so i worry about all of the above points raised, having said that i may be interested in working there!	Please share any other feedback you have at this stage.	UDX is appreciative of the interest in job opportunities and will engage with the local community at the appropriate time as the Proposed Development moves forward.
4863	Very much looking forward to seeing this project develop not only as a fan and visitor, but someone that would be keenly looking at career opportunities within Universal Creative. I wish you all the best with this project	Please share any other feedback you have at this stage.	
385	I can support if they offer me a job	Would you support a potential park and resort coming to this site? Please explain why.	
395	I'm a big fan of theme parks and have visited universal Hollywood a couple of times. I am also in the Creative sector and would be very interested in a job at the park.	Would you support a potential park and resort coming to this site? Please explain why.	
5443	As well as a Universal park being 40 mins away from our house I'm really interested in the job opportunity it would present for me.	Would you support a potential park and resort coming to this site? Please explain why.	
2499	I live in Bedford and actually am hoping for a job to come up at the park in a central, operational sector. Something I am currently working in @ a major European airline.	Would you support a potential park and resort coming to this site? Please explain why.	
4809	I have been working in IT for 25 years since leaving the Royal Navy as an engineer. I am looking to move away from startups and settle into a management role. I can think of nowhere better I could work at.	Would you support a potential park and resort coming to this site? Please explain why.	
4464	Sir Robert McAlpine Ltd is one of the largest main contractors in the UK with highly qualified specialist and can assist with successful completion of this project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4863	Very much looking forward to seeing this project develop not only as a fan and visitor, but someone that would be keenly looking at career opportunities within Universal Creative. I wish you all the best with this project	Please share any other feedback you have at this stage.	
4577	I'd consider working at the park, with an eye towards a career change from digital/I.T., else would certainly visit, probably regularly I, especially if a local day visitor discount was available. Please let me know how else I can support the project as I'm very enthused at the prospect, as are family and friends.	Please share any other feedback you have at this stage.	
4567	Be interested to know when jobs for construction phases and planning may be going out to the market and any possibility on locals / enthusiasts being consulted on plans for the park itself	Please share any other feedback you have at this stage.	

4519	Looking forward to working for you during the construction phase and then have part time retirement roles the long term. Thanks XX	Please share any other feedback you have at this stage.
4475	When the time comes, it would be amazing to know what employment oppertunities will be available.	Please share any other feedback you have at this stage.
4423	Very excited. Would be great to have more local job opportunities for teens in the area too.	Please share any other feedback you have at this stage.
4374	I'm interested in potential career opportunities you may have	Please share any other feedback you have at this stage.
4349	I am interested to be involved in future discussions (retiring XX at XX).	Please share any other feedback you have at this stage.
4288	I'm a mother if 3 teens. A wonderful opportunity for them for employment opportunities. I'll be retiring from the city by the time it's built and could see myself working there too! We have family all around the world who would want to coir this - helps put us on the map !	Please share any other feedback you have at this stage.
3941	I think it sounds exciting for Bedford, and I would look at employment here in the future	Please share any other feedback you have at this stage.
3473	I am a graphics designer and would be very interested in getting involved, even in a small way. Universal Studios have a huge history in all our lives from their great films and characters I am excited to have you come to Bedford!	Please share any other feedback you have at this stage.
407	I really hope that the project goes well, and the decision is made to move forward with the ideas. I would be very interested to know more about career prospects should this be the case!	Please share any other feedback you have at this stage.
480	Look forward to the park opening and would be very interested in opportunities to work with/for Universal on educational or promotional projects.	Please share any other feedback you have at this stage.
586	As someone who works in the entertainment industry I would be very interested to hear what jobs would be available and how early on you would start hiring certain roles. I understand a lot of the entertainment focused roles will start hiring much later but there are also some more creative jobs that might hire sooner and I would be very interested in knowing about those.	Please share any other feedback you have at this stage.
719	I design & project manage major construction and would be happy to be apart of the project if it goes ahead.	Please share any other feedback you have at this stage.
1479	Let me be a Quantity Surveyor on site for yourselves.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
734	I cant wait to visit when the project is finished. I'd be very interested in job opportunity's with UDX if any should arise in the UK	Please share any other feedback you have at this stage.
1056	I'd love to speak to whoever I can about how I can get involved in the creative development of the resort. Here is my LinkedIn: XX and here you can see my portfolio website / CV: XX. I apologise for using this forum to promote myself, but I hope you understand that it would have been a missed opportunity for me if I hadn't. I am also a local resident and have a deep emotional and social attachment to the success of this project, so I am rooting for this scheme all the way.	Please share any other feedback you have at this stage.
1543	I work in construction and hope this opens up employment opportunities for me. It would be be really exciting to see something like this come to fruition	Please share any other feedback you have at this stage.
1601	There is a YouTuber called XX. XX used to work at XX and has vast experience in themeparks as XX and XX travel all around the world, visting, using, vlogging at theme parks. Not just the rides but also the themeing and environment. Would be great if they could be used to give updates officially on the park if this goes ahead.	Please share any other feedback you have at this stage.
1757	I would love for you to build Universal Uk. I would come and work for you.	Please share any other feedback you have at this stage.
1885	I am very positive with this project even if i am not from the local area. However if this goes through i will be heavily interested in a job opportunity therefore i am very pleased with its proposement. I do believe that serious road changes for the area would need to be made similar to how other universal sites are treated. As even The universal parks in Orlando can have some big traffic issues still to date and as someone who would be driving a lot to the site traffic in the UK is bad enough.	Please share any other feedback you have at this stage.
1894	I have worked in attractions for many years. To be a part of Universal would simply be a dream come true. I would be happy to support with any form of growth from start to finish.	Please share any other feedback you have at this stage.

2015	Any further updates on careers I would love to be informed.	Please share any other feedback you have at this stage.
2032	In support of claims regarding employment opportunities, I would be very interested in working for Universal as a legal professional. I expect that many others in well established careers would also be eager for an opportunity to work with Universal Resorts. Also, the planning permission should permit Universal to develop world class, "giant sized" attractions - such as those found at resorts such as Cedar Point. People travel from all over the world to experience record breaking, giant roller coaster attractions" I do!!!	Please share any other feedback you have at this stage.
2096	I cannot express how much I would like this project to happen. I would be very interested in becoming a part of the team that delivers this project as I am in the early days of my career within civil engineering. I have 3 years experience designing cycle facilities to UK standards and would love to get involved whether that's in the infrastructure development or the creative side of implementing the theme park elements.	Please share any other feedback you have at this stage.
2175	I'm from Milton Keynes which is very close, I can't see it being anything other than a benefit to all the area I would 100% try to get a job there aswell Please make this happen!!	Please share any other feedback you have at this stage.
4433	How to be involved in the design stages?	Please share any other feedback you have at this stage.
3734	If this project goes ahead, UK parks flat out refuse to work with 99% of enthusiasts who make content for them weekly (sometimes daily) it's free advertising for the parks and is a constant stream of updates / news / marketing content. If this was to go ahead I'd allow enthusiasts on board with you every step of the way and you absolutely won't regret the dedication, loyalty and constant promotion that this will bring you. Merlin have fallen out of favour with enthusiasts, this is the time to swoop in and completely dominate the market in more ways than one. Best of luck! XX	Please share any other feedback you have at this stage.
3421	I would be more than happy to be able to collaborate on this project	Please share any other feedback you have at this stage.
2499	I'd love to be one of the first to know about employment opportunities or see how I can play my part in the building of the park.	Please share any other feedback you have at this stage.
2503	I would really like to work for you. I currently work at XX for their training and assessment centre. In addition I have previous experience running induction training and coaching for XX in customer service. I also have a BA Hons in Business Studies. I was very impressed with your commitment to career progression that was emphasised today. Thank you for a great presentation and event today.	Please share any other feedback you have at this stage.
2556	Please employ me when this goes ahead!	Please share any other feedback you have at this stage.
2660	I will be starting updates on my YouTube channel soon XX To follow updates on your project and build hype in the future please consider me for site visits news updates etc Kind regards XX	Please share any other feedback you have at this stage.
3661	Shift work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2819	Absolutely you have my Full Support and once open I will be looking at Career Opportunities with Universal and Enjoying the Park with Friends and Family	Please share any other feedback you have at this stage.
3376	I would love to have more information on how I could get involved with this	Please share any other feedback you have at this stage.
5007	I am a customer experience/voice of the customer leader for my day job. I'd love to. Be involved in this in some capacity to say I made some impact in changing Bedford for the better.	Please share any other feedback you have at this stage.
3068	It would be good to know what job opportunities would be available with a development like this. :)	Please share any other feedback you have at this stage.
2918	Yes, can I have a job?	Please share any other feedback you have at this stage.
2962	Very excited and hope that there will be part time roles available for us over 50s	Please share any other feedback you have at this stage.
5965	and just want to know - how do I get involved! I would love to hear more about opportunities and involvement as this plan hopefully progresses	Please share any other feedback you have at this stage.

5897	for me it is very close to my house so i worry about all of the above points raised, having said that i may be interested in working there!	Please share any other feedback you have at this stage.	
5802	Great project and the local people should be please such a big project has chosen Bedford. I am very supportive of this and if it goes ahead I will be applying for a job. I hope it goes ahead and wish you all the success with this project.	Please share any other feedback you have at this stage.	
5666	No other feedback right now but if this goes ahead, please let me know if there will be any creative/ R&D jobs going :D	Please share any other feedback you have at this stage.	
5737	I work in finance and would be interested in a job a bit closer to home.	Please explain why	
5813	Please build this park! And also make sure any job opportunities are published nationally as well as locally.	Please share any other feedback you have at this stage.	
6068	Please could you create a jobs update page or mail list to find out when jobs could be available.	Please share any other feedback you have at this stage.	
2503	After hearing your presentation today I would also be interested in working with you. I also run the Facebook group things to do in and around Bedford. With 11,000 followers currently	Would you support a potential park and resort coming to this site? Please explain why.	
F6143	I think as a big theme park fan, Universal UK will be huge hit across the world. Bedford is a great location, Home of Harry Potter so please bring a Hogwarts Castle you can explore, I will be applying for job!	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
856	I am looking for work as an experienced PA/Executive Assistant	Would you support a potential park and resort coming to this site? Please explain why.	
E6239	<p>Dear Universal,</p> <p>My name is XXX and I came across your consultation for a possible Universal Theme Park in the UK. As a lifetime theme park expert, travelling and visiting many parks around the world and my professional background in Industrial and Transportation Design for London's transport network</p> <p>My specific request is to know if you will be recruiting creatives/designers here in the UK and which channel, company or procedure will be appropriate to present my CV and portfolio in order to be considered for any related creative role within the UK project.</p> <p>Any related information, timescales or details, if available, will be much appreciated.</p> <p>Regards, XXX</p>	Comment via email	

	<p>Firstly, I wanted to say how exciting the prospect of a Universal Theme Park in the UK is.</p> <p>I have travelled twice to Orlando in the last 10 years to enjoy the parks there, spending a week in Aventura in 2022. Safe to say I've become a little obsessed. Me and my fiancé are planning our honeymoon to take in LA and Universal Studios Hollywood, as well as thinking further into the future about when we can visit Epic Universe.</p> <p>Universal parks are the most fantastic getaways, with incredible rides and superb themeing. They are really out of this world places to visit and escape the mundane.</p> <p>Places like the wizarding world lands allowing you to step into a fully fleshed out real world version of what you've only seen before on screen creates emotions of excitement and joy that I truly find hard to describe, it's like nothing else I've experienced - and will keep me coming back for more.</p> <p>The commitment to expansion and renewing keeps everything fresh and interesting and I wholeheartedly support the ethos and imagination of the Universal Theme Parks and Destinations team.</p> <p>Which brings me to my next point. I imagine that should the project in the UK progress, there will be career opportunities that arise. A job working for Universal Parks would be a dream come true, speaking honestly. I wanted to ask what the best way of checking for career opportunities would be? Do you know where and when they might be posted?</p> <p>I currently work as a national sales manager in XX. It's quite a different industry but I imagine that there would be lots of transferable skills around people and project management.</p> <p>Apologies if this is not the place to reach out and ask these questions, but any advice you have would be appreciated.</p> <p>Best,</p>		
E6240	XXX	Comment via email	
	<p>Hello,</p> <p>Just wondering when you will be hiring builders to help construct the theme park.</p>		
E6241	Thank you	Comment via email	
	<p>Good day to you,</p> <p>How exciting to see such a wonderful project taking place! I would love the opportunity to apply for a position within universal and I am wondering where I might be able to do so, in regards to the new project?</p> <p>Any guidance would be appreciated.</p> <p>Kind regards XXX</p>

3460	Lifelong dream to work in a universal theme park.	Would you support a potential park and resort coming to this site? Please explain why.	
4816	The area needs regeneration and a Universal resort would be perfect in providing a long-lasting legacy of investment in the area. I would also be interested at working for the resort in some capacity.	Would you support a potential park and resort coming to this site? Please explain why.	

E6260	<p>Good morning!</p> <p>I'm XXX, I have a huge passion for rollercoasters and theme parks, It's been an obsession of mine since I first visited the parks in Florida at the age of 6. Every day I catch up on the latest theme park and rollercoaster news and whenever asked of my dream job, it is to be involved in a theme park, working on the rollercoasters. (Hence why I went into the rail industry, kind of a less exciting rollercoaster!)</p> <p>I'm just writing this email to express that if any career opportunities are to come up in this space, I would love to be considered for this. I have attached my CV to this email.</p> <p>Best Wishes,</p> <p>XXX</p>	Comment via email	
E6268	<p>To whom it may concern,</p> <p>I am writing to enquire as to whether you have any local roles available, or planning over the coming weeks/months, in relation to the potential new park and resort experience in Bedfordshire? I am currently employed in the role of Project Manager working on strategic projects locally, and this opportunity is exciting and something I'd very much be keen to be involved in.</p> <p>I appreciate there may be an existing team, and that there may not be defined future roles, but you don't know if you don't ask.</p> <p>Kind regards XXX</p>	Comment via email	
E6271	<p>Good Afternoon,</p> <p>Is there anywhere I can sign up for interest in jobs at the Universal UK Project?</p> <p>Kind Regards XXX</p>	Comment via email	

E6272	<p>To whom it may concern,</p> <p>My name is XXX, I am writing this letter to pre-emptively offer my skills as a software developer for your upcoming potential UK park. Whilst I recognise that the project is still in the early stages of development, I wanted to be proactive in expressing my desire to work for your company. I believe that my skillset and experience would be invaluable to any technical team or development requirement that may be needed during the inception and on-going running of the new UK project.</p> <p>I would be very enthusiastic about joining Universal Studios, as this email demonstrates. I am an avid film and cinema fan, and the Universal horror movies are among some of my favourite movies of all time. I also personally have a deep knowledge of theme parks as a visitor and have been tracking the new development of Epic Universe in Florida closely. My partner and I are planning a trip for 2025! Seeing the development of Epic Universe over the past few years has been inspiring, and contributing to such a team in the UK and being at the forefront of groundbreaking theme park design would be an incredible opportunity.</p> <p>Currently, I have some 10 years of software engineer experience, the last 3 years of which have been alongside a Product Owner role. I am proficient in full-stack web development, utilising HTML, CSS, JavaScript, C#, T-SQL and more. I am self-taught and driven to learn any new technologies that may be needed in this role. I pride myself on being flexible, and my ability to thrive in scenarios of problem solving. I am driven to always discover ways to complete a task to the highest standard possible.</p> <p>My Product Owner experience has led to expertise in dealing with stakeholders and complex product requests, and moreover, the translation of these complex requests into valuable end products. I can seamlessly balance my responsibilities as a software engineer and a point of contact for product discussions. My time as Product Owner has also only furthered my excellent communication and interpersonal skills.</p> <p>I have attached my CV which will attest to my range of expertise within software development. If there are any opportunities which could utilise my skillset, I would be very excited to put them into practice to benefit Universal Studios and the UK Project. If you have any questions regarding myself or my experience, please do not hesitate to contact me. I look forward to hearing from you.</p> <p>Yours sincerely,</p>	Comment via email	
-------	---	-------------------	--

E6273	<p>Dear Universal Project Team,</p> <p>I hope this email finds you well. My name is XX, and I am a seasoned themed live entertainment producer with a passion for creating unforgettable experiences. Currently, I have the privilege of being part of the XX, where I've been involved in producing entertainment products for XX worldwide.</p> <p>With nearly a decade of experience at XX, I have gained valuable insights into crafting immersive and engaging live entertainment products for theme parks, as well as leading operational teams through entertainment offerings. It's with great enthusiasm that I reach out to express my keen interest in collaborating with Universal on your exciting new theme park project in the UK.</p> <p>I have always been impressed by Universal's commitment to delivering exceptional guest experiences, and I believe that my expertise in entertainment production could be a valuable addition to your team. I am particularly excited about the opportunity to contribute to the development of live entertainment concepts that resonate with Universal's brand and captivate audiences of all ages.</p> <p>I would be grateful for the opportunity to discuss how my skills and experiences align with Universal's vision for their UK theme park project. Please let me know if there is a convenient time for you to connect and explore potential collaboration opportunities further.</p> <p>I appreciate it may be too early in the process to formally discuss such roles within the project, but I'd love for my name to be held onto as a potential entertainment leader.</p> <p>Thank you for considering my inquiry. I look forward to the possibility of working together and contributing to the success of Universal's exciting venture.</p> <p>Warm regards,</p> <p>XXX</p>	Comment via email	
E6281	<p>Hi,</p> <p>I am very interested in your project. Such exciting news for this area in Bedfordshire.</p> <p>Do you have a careers website for this area?</p> <p>Or potentially put me in contact with someone?</p> <p>Kind regards</p> <p>XXX</p>	Comment via email	

E6282	<p>Dear Sir/Madam,</p> <p>I am writing to you today to enquire about any upcoming Universal Creative roles coming to the UK regarding this exciting and impressive project.</p> <p>As a growing professional employed within the architectural industry and soon to be Architect, I have found myself with a sizable aspiration to join the themed entertainment industry which has developed over the last decade. The UK at current unfortunately offers very little opportunity for the likes of themed design, meaning the announcement of this project has generated significant interest from myself.</p> <p>My query is in regard to if there is any known intent to bring Universal Creative to the UK regarding architectural design and construction, or if architectural work is intended to be outsourced (the same as the current UK largest theme park operator, Merlin Entertainments). If the latter, I would be incredibly grateful to receive any relevant contact or further information regarding this.</p> <p>My contact details are as follows; XXX If a CV is required I am more than happy to forward this through to the relevant body.</p> <p>I look forward to your response and hope this project progresses past its consultation period.</p> <p>Yours faithfully, XXX</p>	Comment via email	
E6294	<p>Hi</p> <p>I am trying to find out who is the right person to contact about possible future roles at universal Bedford.</p> <p>I am an experienced Executive Assistant /PA with over 20 years experience with Investor Relations experience also.</p> <p>I would be very grateful if I could have a first point of contact to discuss any possibilities to work for Universal Studios.</p> <p>I look forward to hearing from you soon.</p> <p>Best regards</p> <p>XXX</p>	Comment via email	
E6300	<p>Hello I would like to be updated regarding employment opportunities. I currently work for XX and would like a role in recruitment, HR or finance with yourselves. I live 15 minutes away from the proposed site. Attached is my CV.</p> <p>Thank you. XXX</p>	Comment via email	

E6305	<p>Hi,</p> <p>I hope this message finds you well.</p> <p>I'm reaching out to enquire about the upcoming job vacancies at the Universal Studios theme park in Bedford.</p> <p>I reside in XX and I'm very interested in applying for a position. I would appreciate any information regarding the application process and available opportunities.</p> <p>Thank you for your time and assistance.</p> <p>Warm regards, XXX</p>	Comment via email	
E6306	<p>To Whom it May Concern,</p> <p>I hope this email finds you well. I am writing in regards to the newly announced project that I am interested in, both as a fan of Universal and as someone who would want to be a part of the project. I understand you probably receive many inquiries for employment; however, my skills, experience and expertise may be beneficial to the project.</p> <p>I am a US Citizen with two graduate degrees, including one from XX. My work experience is in compliance, spending time in the brokerage sector, mortgage industry, natural gas compliance world and the gun industry. Through my work experience, I have conducted company-wide trainings, completed in-depth analysis, solved countless problems, compiled research, worked with vendors, and a lot more.</p> <p>I am extremely hard working, quick learning and dedicated to ensure quality.</p> <p>I know this is a stretch but I would love the opportunity to work on this project from the conception of ideas to the establishment of a new awesome theme park.</p> <p>My resume is attached. Thank you for the opportunity and I look forward to seeing how the project goes in the future (and hopefully visiting one day!).</p> <p>Have a wonderful day,</p> <p>XXX</p>	Comment via email	

E6308	<p>Good Morning</p> <p>I am emailing in regard to the event hosted by Universal Studios at Bedford College, re: new theme park and resort project.</p> <p>It was lovely to see all the different elements of the project and speak to some of your colleagues. In particular, I spoke to XX, who works in Universal operations development and XX around accessibility and Inclusion.</p> <p>My role within the community is a specialist teacher of vision impairment. I work specifically for XX within an outreach service/sensory team made up of Qualified Teachers of vision impairment, Qualified Teachers of the deaf, multi-sensory impairment teacher, ICT specialist, habilitation specialist and curriculum access specialists.</p> <p>My role is peripatetic, which means that I work with children from birth to post 16 in various settings. The role is extremely varied and also requires that I work closely with pre-schools/nurseries, primary, secondary schools, colleges/universities, other professionals such as the local authority, speech and language specialists, the eye clinic at Milton Keynes Hospital, occupational therapy and many more.</p> <p>I am very interested in supporting the project in a consultancy role; using my knowledge and skills to support Universal Studios in making reasonable adaptations that will support the accessibility and enjoyment for children with vision impairments. I have a particular strength in training and am able to include VI awareness training into any work, to support staff working at Universal Studios to understand this area of need.</p> <p>I really look forward to discussing this with you further. Should you wish to contact me my telephone number is: XXX</p> <p>I have also CC'd my personal email address above, alongside my XX email address- as I work across the borough. The email address I am contacting you on today is a XX address, in which our team is based.</p> <p>Thank you once again for taking the time to read my email.</p> <p>I look forward to hearing from you.</p> <p>XXX</p>	Comment via email	
E6312	<p>Hello.</p> <p>My name is XXX and I am a 2nd year mechanical engineering student at Loughborough University. I am a big fan of theme parks and hope to go into the industry when I graduate in a few year's time.</p> <p>I am reaching out to enquirer about as to when job opportunities for the UK park might be available. As I am guessing they will be no opportunities for my placement year this summer as the park seems to be still early on in development, although if there is a opportunity for my placement for the uk park or at any of the other parks I will happily send in an application to wherever is needed. I am mainly wondering as to whether they will be jobs on offer for when I graduate (summer 2026 if I find a placement, 2025 if I don't.)</p> <p>Thank you for taking time to read and I hope to hear back from you soon, and fully understand if they is no information on this subject you can give me.</p> <p>Regards XXX</p>	Comment via email	

E6318	<p>To who it may concern,</p> <p>I am writing to you in regards of the potential/possibility of a new theme park and resort in Bedford.</p> <p>I am a big fan in both theme parks and Universal films and also enjoy bringing/adding ideas to certain various projects especially starting from scratch. Now, I'll admit never been at a Universal theme park before due to personal reasons, but, watching ample footage of your parks around the globe it's given me such a buzz and fizz to get involved.</p> <p>The point I'm trying to make here is that, I would like to get involved with this project, and if this goes ahead, I would like to be considered.</p> <p>Looking forward to hearing from you,</p> <p>Yours Faithfully XXX</p> <p>Sent from Outlook for iOS</p>	Comment via email	
E6319	<p>Hello,</p> <p>Incredibly exciting times for Universal ... I want to play a significant role in this journey.</p> <p>I'm a chartered accountant and strategic business advisor with a lifelong love for theme parks. I have 16 years of professional services experience, with four of those at XX. I left XX seven years ago, joining XX to broaden my skillsets in consulting, business services transformation and sustainability. During my time at XX, I have also directly supported our Global Leadership team to drive trust and growth (working directly for the Global Chief Operating Officer).</p> <p>It is my dream to work for a world-leading theme park operator (only Universal Studios or Disney). Whilst I understand formal recruitment at scale won't open for many years, I have relevant experience in finance, strategy and transformation, supporting C-Suite leaders to build new sustainable businesses and teams that would be valuable to Universal from day one as you embark on this potential project in the UK. It would be an unbelievable opportunity to discuss any potential strategic roles supporting leadership at Universal Studios - a company with so much potential in the industry that I love.</p> <p>Would somebody from Universal be interested in an exploratory conversation?</p> <p>Please find my CV attached and recent feedback from leaders and my team at XX.</p> <p>Thank you,</p> <p>XXX</p>	Comment via email	

E6320	<p>Dear Hiring Manager,</p> <p>With great enthusiasm, I am sending an unsolicited application for a position as a student job at Universal uk .</p> <p>As a creative professional with a deep passion for the film industry and a proven track record in graphic design, I am convinced that I would be a valuable addition to your team.</p> <p>With my background and skills, I can contribute to the visual storytelling that makes Universal, with its film-inspired themed areas and attractions, a unique experience for visitors worldwide.</p> <p>In my current role as a graphic designer at XX, I have gained extensive experience in designing visual content that is both attractive and functional, ranging from digital advertisements and social media content to print materials and branding. My proficiency in software such as Adobe (Illustrator, InDesign) enhances my capability to contribute effectively to your team.</p> <p>What attracts me most to this position is the opportunity to be part of a team that is dedicated to creating magnificent experiences based on some of the world's most beloved films. I would love to apply my experience in designing thematic campaigns and promotional materials to contribute to the success and growth of our universal .</p> <p>I am highly motivated to continue I look forward to the opportunity to combine my passion for design and my love for films in this unique role. I am available for a conversation at your earliest convenience and can be reached at XXX</p> <p>Warmest regards, XXX</p>	Comment via email	
E6331	<p>It's XXX. My telephone number is XXX. My enquiry is for any roles and jobs that may exist at this point in the project gong forward potnetially for construction or what have you. I'm head of sales for a construction company at the moment, a construction-based company and I'm looking to change roles. I look forward to hearing from you, thanks very much bye.</p>	Comment via email (phone voicemail)	
E6335	<p>So with there being new possibilities of new jobs being available. For people who have less access who would like a job role, is there potential housing opportunities that could be potentially available nearby the park or will there be a train for example from where I live in Bristol going to Temple Meads to the theme park?</p>	Comment via email	
E6337	<p>Hi</p> <p>Are there job opportunities during and after construction?</p> <p>I've attached by CV just in case.</p> <p>Regards</p> <p>XXX</p>	Comment via email	
E6338	<p>Hi, my name's XXX. Just calling regarding the Universal Studios that is going ot be hopefully built. I used to be a project manager for the likes of XX. I've also got my own construction company which does decorating, tiling, drylining, all the fixings as well. If someone could give me a call back XXX, just to see if there is any opportunity to be part of a build management team or construction management team or either give my services and try and get some work with you guys while the park's being built. XXX, thank you</p>	Comment via email (phone voicemail)	

E6344	<p>Hi,</p> <p>I am a commercial property Asset Manager with ten years of experience. I am passionate about working for Universal on the Universal UK Project and have the skills to assist the project from planning to delivery.</p> <p>Project Relevant Skills:</p> <ul style="list-style-type: none"> • Extensive experience obtaining project planning consent working with the Council, heritage consultants, architects, and planners. • Coordinated multiple development projects from feasibility to completion. This entailed managing numerous project managers, contractors, architects, structural engineers, and mechanical engineers simultaneously whilst conducting these works around tenants in an operating asset. • Worked with contractors through the tender, contract, value engineering / reviewing cost plans and variations, and maintaining budgets until completion. • Working with local communities, Councils, and BIDs on politically and culturally sensitive assets. • Coordinated the insurance, valuation, and auditing of assets. <p>Please see my full CV attached. I would appreciate a chance to discuss a role in more detail if any relevant jobs are available.</p> <p>Let me know if you have any questions.</p> <p>Kind Regards, XXX</p>	Comment via email	
F6129	I would love to work on the project as an electrician	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
288	There isn't a lot to do in Bedford that is fun or entertaining enough for us as a family our 4 year old would be around 9 when this opens so he would love your site you would be an asset to Bedford and for me as a maintenance engineer could find a new and exciting role within the site too	Would you support a potential park and resort coming to this site? Please explain why.	
4750	Employment, enjoyment and environment	Would you support a potential park and resort coming to this site? Please explain why.

3001	Collaborating with local businesses	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2833	supporting local businesses	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5133	Possibilities of contracts for local suppliers	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5061	Take everything into consideration, hire local businesses that provide relevant services for the project	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
435	Advancing People based in Bedford are Well placed for any recruitment support needed - with a specialist Multilingual Division!	Please share any further feedback you have at this stage.	
491	Providing opportunities for local businesses and suppliers to be involved in the project, such as through procurement contracts or supply chain partnerships.	Please share any further feedback you have at this stage.	
702	None but to suggest you look at businesses within area who cant employ people, how naff wotton is to get to, how deprived bedford is how nurseries such as ymca in wootton said as much and closed because people just dont work in the area https://www.bedfordtoday.co.uk/education/charity-closes-three-day-care-nurseries-in-bedford-after-suffering-six-figure-losses-4046000 It mentions how area is a deprived one because the people in Bedford are not good at work, youll see comments on facebook how its laughable as bedford cant hire 10 people let alone 10,000 etc i suggest you do serious research and realise people dont work there, that for people travelling to work or to visit even is nothing short of naff as wel with rubbish buses and trains	Please share any further feedback you have at this stage.	

729	Our business is XXX, we manufacture grilles and diffusers for heating and cooling. The business is 76 years old and was saved from the receiver by us to save the jobs of the employees and us. We've invested in the area, we look forward to you now doing the same.	Please share any further feedback you have at this stage.
855	I'd be interested to know how local businesses can engage with the development of the park. I deliver specialist child safeguarding services with a focus on ensuring adults who work with/ come in to contact with children have the skills and knowledge to protect children at the park. How would I register an interest in providing services of this nature?	Please share any further feedback you have at this stage.
915	I have a friend that owns land very close to site about 5 acre if you interested you can call me and I can arrange a meeting	Please share any further feedback you have at this stage.
1071	XXX is a beautiful team who take pride in their work and would be a huge asset to the project.	Please share any further feedback you have at this stage.
1253	I have two companies I run from this town as well as a number of voluntary positions I hold - I would very much like to see this investment coming to my home town and would also like to be a key player in the development where possible.	Please share any other feedback you have at this stage.
1367	Using local farming supplies for meat, vegetables for the resorts would be a great opportunity for the UK and it really sits well with British people that you would use suppliers in the UK and the resort should celebrate this.	Please share any other feedback you have at this stage.
1449	Please use local companies to help fit-out and build your site & entertainment spaces. We need less money being spent with global infrastructure companies, and more being spent with local ones to support them and their customers.	Please share any further feedback you have at this stage.
1541	Use local people & local suppliers as much as you can from the very beginning so the local community feels the benefits from day 1.	Please share any other feedback you have at this stage
1751	It would be great if when this project gets the green light you work with coach tour operators. Like in most countries we have had a rough ride with COVID and although this may be 6-8 years away it's some light at the end of the tunnel to look forward to.	Please share any other feedback you have at this stage
1974	I am impressed by the level of detail that has been raised regarding environmental conservation, considerations about possible job opportunities and support to local businesses that would come with the construction of this theme park. As a lover of thrill rides, I would love to see the addition of coasters to the caliber of The Incredible Hulk, VelociCoaster and many more coming to the UK. I am looking forward to seeing how this project progresses should it go ahead!	Please share any other feedback you have at this stage
2058	Having seen the tremendous support that the film industry receives in the UK I hope you receive the same and consider also approaching well known British companies and brands for partnership/sponsorship. I cannot see anything negative about Universal coming to the UK. Please, please make this happen!	Please share any other feedback you have at this stage
2367	Use local suppliers and British manufacturers where possible, support local schools and residents possibly discounts on entrance fees and restaurants.	Please share any other feedback you have at this stage
4941	Would be great to use some brilliant local businesses to help build this project, would the work be put out to tender so they could price? Also plant as many trees and landscaping is key to make this park blend in	Please share any further feedback you have at this stage.
4323	Try to incorporate small local businesses for products and services first before going to large businesses. Otherwise large national businesses will be the beneficiaries.	Please share any further feedback you have at this stage.
4031	Please support local business. Would love if you could give some ideas on how to start a business and what could work going by previous sites	Please share any further feedback you have at this stage.
2537	I would like to see UK companies prioritised where possible in the design and build stage, the uk has an incredible events sector who I think could be invaluable in providing a skilled workforce and a unique design perspective for the creation of the park	Please share any further feedback you have at this stage.
3173	Use local building contractors	Please share any further feedback you have at this stage.
4561	I think it's brilliant but investment into the town needs to be done to fill the shops as embarrassing right now. Lower rents which councils control and allow businesses to come in. Make sure you use local companies and not foreign companies etc. Local companies will be more engaged and bring money to the Area	Please share any further feedback you have at this stage.

		We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2213	The impact on local business is an essential consideration		
3244	I would like to see the focus on development in the area being on independent businesses, rather than big scale corporations moving into Bedford and taking over the high street and local villages.	Please share any further feedback you have at this stage.	
3100	It is important that we know the timeframe for the project and that local organisations rather than large companies benefit from this project. The public need to know about the congestion and traffic impact of a project this large. Can we have access to the transport assessment.	Please share any further feedback you have at this stage.	
6059	As a local business how can we become involved if the aim is to support existing companies in surrounding areas.	Please share any further feedback you have at this stage.	
5705	Offer plenty opportunity to local entrepreneurs and small businesses to share the benefits of the project, unlocking their own investment, creating a positive cloud of successful satellite businesses that do not alienate locals creating quality job opportunities.	Please share any further feedback you have at this stage.	
5711	XXX is a UK company based just over 1.5 hours away from Bedford and we are aquatic play specialists. We have been partnered with XX for 21 years and we are also partnered with Wiegand Waterrides. We design, build and maintain and would like to work with you on this very exciting project. Our projects have won Water Leisure Venue of the Year for the last four consecutive years at the UK Pool and Spa Awards and The Wave, Coventry also won a World Waterpark Association Leading Edge Award	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5812	We win your business for flooring, repair and maintenance	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
F6216	Would be great to see collaborations with school to support career paths into theme park and creative industries	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6220	I would like the Kimberley College site and work at and fully support this project hopefully progressing and would be happy to support with any links you may want to have with the college, as I know the college itself would.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6222	Working with universities beyond training opportunities & important i.e. research. Local residents receive discounts and incentives	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6205	I would be interested in potential leisure and recreation job opportunities and being able to utilise my leisure and sports degree the local running group XXX would like to hear how we could connect with you, 'in improving peoples' health.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6163	I am a construction project manager and live in Wootton would be very interested in being involved in the construction of the park.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
E6323	<p>Hi,</p> <p>I'm a Bedford resident and am keen to see the Universal Studios theme park built in Bedford. I don't know if anyone from XXX based in Bedford has already contacted you about this but I reached out to them yesterday to ask if it would be feasible to have UK visitors to your theme park or very close to it arrive by one of their Airlanders.</p> <p>XXX, their Business Development Operations Manager confirmed that this would be possible and they could also do local sight seeing tours.</p> <p>Just wanted to make you aware of this unique travel option for the proposed theme park.</p> <p>Regards</p> <p>XXX</p>	Comment via email	

E6324	<p>Good morning,</p> <p>I hope this is the correct email, if it isn't would it be possible to be forwarded to the person who is responsible for the hygiene services at your new Universal UK project please?</p> <p>We are a local company, based around 13 miles from the site proposed. We specialise in all aspects of washroom and hygiene services including feminine and nappy waste bins, air freshener systems and dual and multi vending machines. We pride ourselves on our outstanding customer service, competitive prices and are proud to have included the OCADO and CEF online distribution centres, the Cambridge Building Society, the Royal Society of Chemistry and M&M world among our clients.</p> <p>I would love to see if we can be of any service to you and if now is not the right time, I please ask that you keep our details for when is.</p> <p>Thank you for your time and have a lovely day,</p>	Comment via email	
E6325	<p>Good Afternoon,</p> <p>Following on from the email below,</p> <p>Please attached some of our sustainable products. I would be keen to speak with you about these and the opportunities</p> <p>Kind Regards</p> <p>XXX</p>	Comment via email	
E6326	<p>Good afternoon,</p> <p>The Bedfordshire Police Designing Out Crime Team have made me aware of your proposed Universal development in Bedford.</p> <p>We have previously worked with the Bedfordshire Police on similar projects such as the Stewarby (Home of Production) Film studios.</p> <p>As a business we provide all aspects of security master planning for the built environment, including BRE SABRE. I attach our company profile for your information and consideration.</p> <p>This may be of interest to your design team, and I would be happy to provide a quote for our services on this exciting project.</p> <p>Perhaps you could connect me with the relevant person.</p> <p>Regards, XXX</p>	Comment via email	

E6327	<p>Good morning,</p> <p>We are a Bedford, UK-based media studio. In February 2024, our two shows began weekly distribution with e360TV, a US network with over 1 million viewers.</p> <p>We are offering headline sponsorship for one year at an annual cost of £2000 per show.</p> <p>Please see attached letter from the owner of the XXX and presenter XXX, and pitch deck with more information about the opportunity and about our shows and studio. I would be grateful if you could pass the letter to XXX, Marketing Director, or to the appropriate person if not XXX.</p> <p>Thank you and kind regards,</p> <p>XXX</p>	Comment via email	
E6328	<p>Good afternoon,</p> <p>I hope this email finds you well!</p> <p>I would like to introduce you to XXX, and to see if we could possibly help out and offer our expertise on this exciting development.</p> <p>I have attached XXX for you to view, it shows a selection of luxury bespoke furniture & upholstery pieces that we have produced for some of the world's most Prestigious Projects & Interior Designers.</p> <p>Our energy efficient workshop is based in Herefordshire England, with state of the art machinery and a skilled Artisan workforce creating Luxury Bespoke Furniture shipped Internationally for Private Residential, Yachts, Restaurants & Hotels.</p> <p>We work with a mix of materials from Metal & Brass, Gilding, Leather, Inlays, Marble to Tabu Veneers and locally sourced Timbers. Whether your development is Contemporary or Traditional, our team of Artisans can produce the products to your designs.</p> <p>From concept to reality, from drawings and prototyping to putting the last product into the room, XXX are here to make everything work on time and budget.</p> <p>We also have Strategic partnerships in Portugal and Vietnam, manufacturing for larger hotel projects. Past developments include Gleneagles Hotel, Gleneagles Town House, The Savoy Hotel, Fairmont Hotels, Kohler company USA & Four Seasons Group. We also white label if you have your own collection.</p> <p>Our Sister company XXX have been supplying luxury bespoke fitted Furniture & Specialist Joinery around the world for over 20 years, working closely with Architects & Interior Designers on all aspects. Our team are here to help from concept all the way through to installation. Producing dressing rooms, vanities, doors, kitchens, fitted units and the like in an array of finishes from hand painted to high gloss burnished Tabu.</p> <p>The choice is yours!</p> <p>Please do let me know if you require any additional information, or if it would be possible to arrange a meeting with yourselves.</p>	Comment via email	

E6329	<p>Hi there</p> <p>XXX here, from the events team at XXX</p> <p>XXX is a leading provider of immersive decor, transforming events, spaces and brand activations into unforgettable experiences.</p> <p>Throughout our journey, our mission has been simple: to transform ordinary events into extraordinary experiences that leave a lasting impression on your guests.</p> <p>Click for Full Event Production</p> <p>Are you ready to wow your event guests in 2024? In a rapidly changing industry, creativity is key to success...</p> <p>Can we discuss how we can provide photo opportunities, insane room transformations or take away the stress of the event theming with our creative direction to create an unforgettable experience for your clients?</p> <p>Click here to see some of our current projects.</p> <p>Please let me know if you would like a brief consultation call to discuss your ideas?</p> <p>Kind regards</p> <p>XXX</p>	Comment via email	
E6330	<p>Hi there, my name's XXX. I work for a company called XX. We are the UK's largest supplier for workplace hydration and I wanted to make an enquiry on the operations and potential set-up for Universal Studios and see if there was anything in place for that operation. Please get back to me on this number, I'd love to get some insight into what you have planned. I'd be really grateful thank you.</p>	Comment via email (phone voicemail)	
E6332	<p>Good evening,</p> <p>I just wanted to get in touch to see if you were considering looking at other UK sites. I am working on a site with 1.8m sq ft of leisure / attraction / hotel planning permission with full council support. If this sounds interesting, please get in touch.</p> <p>Kind regards,</p> <p>XXX</p>	Comment via email	
E6334	<p>Good morning</p> <p>We write in respect of the Universal UK Project on behalf of our client, XXX</p> <p>We would like to enquire whether there is a direct business contact which XXX can reach out to at Universal in respect of the UK Project in Bedford? Further to Universal's Public Consultation FAQs, our client as a local landowner is particularly interested in engaging with Universal in respect of Universal's potential partnerships with local businesses.</p> <p>We look forward to hearing from you further.</p> <p>Kind regards</p> <p>XXX</p>	Comment via email	

E6336	<p>Hello again</p> <p>I was wondering if you have any thoughts on my previous email?</p> <p>When people remember event experiences, they may think about iconic events and festivals with big productions, theme park-like areas, fun fair rides and daring performances. However, events of all sizes, including private parties and start up events have been creating their own experiences, which become parts of their guest's lives. A combination of your expert insight, and our innovative set design, can leave your guests mesmerised.</p> <p>Would you like to chat more about how we can work together to create the magic?</p> <p>Please let me know your availability for a call?</p> <p>Kind regards</p> <p>XXX</p>	Comment via email	
E6340	<p>Dear Sir, Ma'am</p> <p>Personally, I am delighted that Universal Parks & Resorts are considering a site in the United Kingdom.</p> <p>I like many welcome the opportunities this project will bring both locally within the UK but also wider to Europe.</p> <p>With this in mind, please may I enquire what opportunities may be available for UK people and small companies.</p> <p>I am XXX. I specialise in very large-scale projects in Europe mostly in the renewable energy market. Currently I am part of the InchCape Offshore Windfarm Project, however have a portfolio of large projects in both the UK and Europe.</p> <p>I believe that my skills may be of use to Universal Parks & Resorts in the coming years.</p> <p>I have proven experience in Project Management, Consents, HSEQ, Construction as well as a vast experience in Engineering Design and Management.</p> <p>Please can you forward me the details of the best department or person to enquire what your requirements may be moving forward.</p> <p>Kind Regards</p> <p>XXX</p>	Comment via email	
E6345	Good morning, it's XXX from XXX, could you please call me back on XXX	Comment via email (phone voicemail)	

E6347	<p>Hi there</p> <p>I wanted to check if you received my last couple of emails?</p> <p>There has been a great rise in events being put on in new and creative ways meaning it's increasingly hard to stand out.</p> <p>It really is fantastic to see so many creative ideas developed to bring people together, so please share with us your exciting plans for 2024 and we can make them happen. Click HERE to view our newest themes for some inspiration.</p> <p>Did you know we have sites in the UK and Barcelona? Our production team are ready to go. Would you be interested in scheduling a call to see how creating immersive events could work with your clients events needs?</p> <p>Kind regards</p> <p>XXX</p>	Comment via email	
E6348	<p>Good Morning</p> <p>I was wondering if you are available for a chat over the phone to see if my company XXX would be able to be in a position to supplier either your main contractor, or if you have a list of sub-contractors available for me to contact for your upcoming project.</p> <p>As per my email below we are in a position to supplier most building trades on projects and also site safety to keep up to date with HSE regulations,</p> <p>All my details are below and if you have any questions please do not hesitate to contact me.</p> <p>With Thanks</p> <p>XXX</p>	Comment via email	
E6349	<p>Hi, my name's XXX, I run my own land consultancy company, XXX. I was just enquiring as I heard on the grapevine that you might be lookig to contiue buying hotels around the bedfordshire area, heartfordshire area. I know that you're currently in the throws of potentially purchasing one. Just wanted to know if you were looking to purchase anymore because I might have a couple of options. My number is XXX. my name's XXX</p>	Comment via email (phone voicemail)	
E6353	<p>Good afternoon to you,</p> <p>Hope this email finds you well.</p> <p>I am very excited to hear the news of the possible theme park coming to Bedfordshire, and would like the opportunity for our business to put in a proposal for staffing recruitment if this is possible?</p> <p>I look forward to hearing from you understanding the next steps.</p> <p>Take care</p> <p>Many thanks 😊</p> <p>XXX</p>	Comment via email	

E6354	<p>Good morning,</p> <p>I am XXX</p> <p>Having looked at the plans for the Universal UK project, the site is perfectly located for rail freight to play a huge part in the build (post-planning!) As you may be aware, one freight train can take up to 76 HGVs off the road, seeing a 76% carbon reduction in movements, and is capable of moving concrete, steel, and all sorts of construction materials to site. While Network Rail / GBRTT don't sell services, we're supporting a Government-set rail freight growth target and would love the opportunity to talk to your team at an appropriate point about what could be possible using rail freight.</p> <p>It would be great to have a chat at a suitable time, particularly as we could support with the planning process.</p> <p>Best wishes,</p> <p>XXX</p>	Comment via email

TRANSPORT			
ROADS - IMPACT & IMPROVEMENTS (359)			
ID	Comment	Survey question	Response
800	Reduce traffic congestion	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	UDX has worked closely with National Highways (NH) and Bedford BC to understand the potential impact on the strategic and local highway networks. Universal has built an area-wide microsimulation model to test overall network performance, and individual junction models to test key nodes on the network. It has assessed a range of scenarios within the Transport Assessment. To accommodate the forecast demand, new direct slip roads will be provided on the A421, serving south-facing arrivals and departures, and north-facing arrivals, with north-facing departures routing via Marsh Leys Interchange. Manor Road will also be upgraded, and a new signal-controlled junction will be provided at Manor Road / Ampthill Road, which will also facilitate access to Wixams station. UDX is proposing other improvements to the local highway network to mitigate impacts during both construction and operation. These include adding new signals to the Broadmead Road junction on Woburn Road, and improvements to the pedestrian environment around the Site.
521	It is too close to residential areas and would cause chaos on roads in the local area	Would you support a potential park and resort coming to this site? Please explain why.	
4899	I am concerned on the impact of the roads and nature	Would you support a potential park and resort coming to this site? Please explain why.	
155	It would be an eyesore in the area and create so much traffic. The train network is not good enough to support it. It would also be awful for those who have houses in the surrounding areas	Would you support a potential park and resort coming to this site? Please explain why.	
3901	I'm particularly wary of overuse of the rail network, insufficient capacity on the roads, and the extensive impact of construction vehicles.	Would you support a potential park and resort coming to this site? Please explain why.	
1425	I would need to see significant investment in the local rail network and in the local road network. Each end of Manor Road would need to have a roundabout for the masses of extra traffic and you would need to have significant parking facilities off the present road	Would you support a potential park and resort coming to this site? Please explain why.	
1694	I live in Stewartby. Most of the village are concerned about the traffic and getting in and out of the village. You need to hold a meeting with just locals.	Would you support a potential park and resort coming to this site? Please explain why.	
4713	This will cause havoc to local village life. The influx of traffic and inevitable off site parking along with the increase in noise and litter. There are no good sides to this, it will simply turn the tranquil	Would you support a potential park and resort coming to this site? Please explain why.	
3522	huge concerns over noise and traffic, you seem to have that all in hand. Selfishly, I want to know the impact on the park of me personally living so close, so additional paths and greenery to walk my dog and run each day would be good, I also imagine this could affect my house price or trying to sell my house in the future. I would like to know the situation of what is going to be impacted from	Would you support a potential park and resort coming to this site? Please explain why.	
3973	cope with the Increase in traffic and people.... our roads are ALREADY extremely busy around the proposed areas especially at rush hour times... not only this but our emergency services are struggling too. Which would mean the local people would have longer waiting times etc... this would NOT be acceptable	Would you support a potential park and resort coming to this site? Please explain why.	

346	promises were made by Warner Brothers that it would improve the local environment and improve for residence. Litter, parking, traffic out of rush hour, noise, minimum input to the community and all around nightmare to live. How long before litter gets blown into the surrounding lakes and wild areas. Traffic will be gridlocked because of the village used a cut though and any road changes you do will be to your benefit. One entry has a reclaimed energy centre with over 200 Arctic trucks daily. A planned Hop TV studio to be built at another entry point which has parking for 1100, 7 days a week manufacturing and a campus. Yourselves with a 7 day a week theme park with all associated problems in the middle of 2 entries into the village. With all that going on we have a village in the middle, queuing to get home and/or poor roads that don't release cars because of the increased flow in traffic. The A421 was built because of the old road was not fit for volume of traffic, but now with the theme park you're going to put an increased amount of traffic on the old Woburn Road. Once you have opened, all road responsibility will be pushed onto highways and you have washed your hands of the whole matter. There is benefits to the local and national	Would you support a potential park and resort coming to this site? Please explain why.
5063	Main issue is the road and traffic caused by the development	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?
205	I'm concerned about the massive increase in traffic on the roads and do not think, other than the rail network, that there will be massive local economic benefits. In particular I do not think Bedford will see benefits as people will go to and from the park and not visit the local	Would you support a potential park and resort coming to this site? Please explain why.
3687	thought out with regards to the negative impact on the town such as traffic congestion and pollution. The whole transport issue needs to be joined up holistically with BBC and local groups especially with the proposed new EWR link that MUST be developed with the right route for everyone. At present the proposed route is ill-thought out and will very negatively impact the town and not properly serve	Would you support a potential park and resort coming to this site? Please explain why.
866	I'm not confident sufficient new roads and infrastructure would be support extra traffic say in summer holidays and bank holidays when the theme park is busy	Would you support a potential park and resort coming to this site? Please explain why.
4383	I drive to work 9 miles from my house everyday. In the rush hour traffic is gridlocked. A park will only make this problem worse	Would you support a potential park and resort coming to this site? Please explain why.
4005	I feel the site selected is ideal as substantial road and rail access already exists together with the proposed East-West rail line passing through Bedford. I see this project being excellent for the	Would you support a potential park and resort coming to this site? Please explain why.
4548	It would create good job opportunities for local people and would hope that locals get a significant discount for being built in the area after we've purchased property. Worried about traffic increase causing delays and making our journeys to and from home longer	Would you support a potential park and resort coming to this site? Please explain why.
605	M1 would need some work to be able to be free-flowing	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
4589	It is too close to local towns and villages. The increase in traffic in the area will impact negatively on the environment	Would you support a potential park and resort coming to this site? Please explain why.

2564	people moving to the area for work. The traffic in the local area is already an issue, and the number of people driving to the park would great gridlock on the surrounding roads. For those that live nearby, trying to work from home as so many people do, would be impossible due to the expected noise levels from morning until evening everyday. It would bring far too many people to a very small area that wouldn't be able to cope with it. Why does all land have to be built on - around the area of Bedfordshire more and more	Would you support a potential park and resort coming to this site? Please explain why.
765	Make sure not creating traffic jam	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
2588	I'm concerned that the road infrastructure will not be sufficient to handle the additional volume of traffic. I don't want to be stuck in park traffic whilst trying to do the school run, the A421 already	Would you support a potential park and resort coming to this site? Please explain why.
1234	from the proposed site and although I think it will create a lot of opportunities, for me personally I believe it will have a negative affect on my work commute and leisure travel. The village I live in (Houghton Conquest) is the perfect cut through from the A6. Although there are proposals for adjusting to the M1/A421 traffic, how would this be done for the A6 traffic? Houghton is a small	Would you support a potential park and resort coming to this site? Please explain why.
4360	It will be a nightmare for all local residents to go about their normal daily life's for years with divisions and road closures and noise.	Would you support a potential park and resort coming to this site? Please explain why.
3090	I'm partly excited by the thought of having something like this so close, but I am more concerned about the impact it will have on local traffic. I am also concerned about how bad it may look from my	Would you support a potential park and resort coming to this site? Please explain why.
4719	I'd need to be assured the incoming traffic wouldn't impact my life as it is. The noise from the park would not impact the peace we experience now	Would you support a potential park and resort coming to this site? Please explain why.
4633	It is out of the way and not easily accesible. The local peole will be impacted by noise and traffic. Nearby residential areas will be noisier and busier and it is not a good use of land. Areas such as old	Would you support a potential park and resort coming to this site? Please explain why.
5556	I dont think it would be safe, w, let alone with additional traffic to cycle down the A421.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?
886	resident you can understand my concern about congestion. It's all very well that the train network will have spare capacity in the reverse of commuters into London. However, park visitors will still be on the same roads local residents want to use or commute on during this time. There is very little capacity on the existing road infrastructure as it is and adding in thousands of cars at peak times will backlog the system. Considerations for local only routes, or	Would you support a potential park and resort coming to this site? Please explain why.
1116	Ensuring Local traffic isn't affected by development	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
1127	I worry what will happen when the M1 gets chocked up which it often does and if traffic will then start blocking everywhere else up trying to avoid queuing on A421	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?

1160	The A421 dual carriage way is already an accident blackspot around Bedford, the additional traffic will make it worse.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
495	Impact on local roads and infrastructure	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3100	Road safety and congestion	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
F6174	The proposal is strongly welcomed with clauses on some local infrastructure issues. B530 problem could be erased by lane from A6 to B530 not through Wixamsn. Inline with florist residential discount	Feedback form: Please share any other feedback you have at this stage.	
3249	Reducing car usage, avoiding new roads etc	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
865	environment. At present, a large portion of the site - in particular, that closest to Wootton - is open fields and hedgerows. These will all be destroyed and the level of traffic pollution coming to the area will be hugely increased. The use of electricity, gas, water - including sewage and drainage requirements - will be immense. Additionally, the noise coming from the site 7 days a week will be annoying and	Please share any other feedback you have at this stage.	
3426	Accessibility by road, rail and air and proximity to international gateways	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4436	I would support the investment and development, however this needs to be done considering the villages around the development and the road network. This development, if it routes traffic via the A421 - from the A1 and M1 would essentially mean travelling to	Would you support a potential park and resort coming to this site? Please explain why.	
3943	Better road ways rather than tree	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1697	To be fair I feel most people would travel by car or train. If the general road network is improved then that will also improve the local bus network too.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4340	Minimising additional traffic to the area by making public transport affordable	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4589	Protecting the environment around local villages and towns by ensuring traffic is directed away from them.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4492	Not adversely affecting my current quiet village environment, reducing house prices and making travel around the area more difficult and longer.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

4615	Traffic management	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
4560	It would be good for the area, as long as proper road infrastructure is put in place. Living within 0.5 mile of the proposed area, it is a big worry about parking as well, which I note there is no mention of this	Would you support a potential park and resort coming to this site? Please explain why.	
2029	Improve Junction 13 of the M1	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2051	I would suggest putting the primary focus on the local road network followed by making it accesible via public transport. The latter should be an matter of improvement plan. But provided that there is at least a solid access for cars and busses that would be great. Everything else is a matter of improvement.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2294	Keeping traffic from using Ampthill as a route	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2249	With the increase in traffic, barriers to stop wildlife being killed on the roads	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2823	Working with rail and road operators to introduce longer-distance travel options. Bedford only has services along north-east, east and south east England, yet tracks exist to Bristol, Birmingham, Manchester, Scotland and Wales.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3290	Limiting traffic impact and diverting existing traffic from surrounding villages including Ampthill, Flitwick and Westoning	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
127	I hope it goes ahead and can use one of the lakes in the area. A great asset for Bedford and its road and rail links make it a very	Please share any other feedback you have at this stage.	
253	Cycle paths along the larger roads would be of some use to the area but may add to traffic issues	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3100	Congestion	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3417	Ensuring the flow of traffic dose not negatively impact the local community and business	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

F6201	I think it will be a good thing but roads may struggle whilst development is taking place.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
3427	Address the Ampthill bottleneck. That will be absolutely critical.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3657	Adequate road bypass links	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3755	The traffic at the intersection of Elstow Road going towards the interchange park is very bad already. Improvement there would be very helpful.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3836	forecast footfall and doesn't negatively impact on local residents travelling past the site - e.g. integrating East-West Rail with the Midlands Mainline to prevent Bedford station and nearby roads being overwhelmed; ensuring suitable interchanges and upgrades are made to major arterial roads and junctions to support increased	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3845	Take every measure to organise the influx of traffic without disrupting the daily work life of localites	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3936	M1 J13 upgrade, A421 to become 3 lanes each direction, new universal rail station, mitigation for local villages to prevent traffic	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3913	I unequivocally support this project, for the social and economic reasons already highlighted. My only concern is whether current roads and public transport infrastructure can adequately deliver guests and staff to and from the park each day, although the current	Would you support a potential park and resort coming to this site? Please explain why.	
4433	Bedford is terrible for traffic at peak times so this will need improving dramatically however it's bringing new foot flow to the area which is great	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4436	The A421 is link road between the A1 and M1. It is currently a dual carriage way which faces considerable traffic. additional traffic, at peak times would create considerable issues for local residents	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4516	The roads would need to be designed to allow easy access into the resort, like what has been done already for Universal Orlando Resort with Universal Blvd heading into the resort road area from the International Drive area.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

F6167	Work' traffic leaving London its particularly heavy between 5-8pm when traffic leaving site would be busy going North too.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
3278	Concerns about balancing the positive points above with the increased traffic through flow and potential traffic jams	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
129	Any development/construction should aim to avoid increasing traffic through Ampthill as its already overused	Please share any other feedback you have at this stage.	
2968	Impact on traffic through Ampthill	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
127	Minimising any road closures. Prioritise improving roads first.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
151	Any road access must be soundproof!	Please share any other feedback you have at this stage.	
2456	Thinking about the villages around to not block their accesses to their homes and think about the possible congestion issues. Plus being Stewartby famous for its history of brickworks it would be nice if it had its own Stewartby station with connections to the UK to	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1188	To ensure that it does not ruin the rural feel to the local area and to not leave the surrounding villages or bring constant congestion and traffic for the surrounding villages.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4742	I am concerned as I live XXX from the proposed site, how the traffic will be managed and not prevent local residents from getting into Bedford/ Retail park. With the proposed roundabout off Broadmead road, it will cause mayhem on busy park days trying to get into or out	Would you support a potential park and resort coming to this site? Please explain why	
3776	I appreciate the opportunities for economic growth but it will take years of development causing local traffic and disruption through site development for local residents. The roads are already	Would you support a potential park and resort coming to this site? Please explain why	
303	I cannot express with enough enthusiasm that the road network at peak times is already a joke, a few thousand visitors to the area a day has the potential to make Bedford somewhere you absolutely	Please share any other feedback you have at this stage.	
4690	There is no improving the network. If you build it traffic will just get worse, more shortcuts through villages that already are too busy	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
346	Human nature being what it is, the village will be used as a cut through to the theme park'people will park everywhere in the village to avoid parking changes or/and to miss traffic on leaving.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4570	A local transportation hub (park and ride into London), much like Disneyland Paris has a rail station to park and ride into Paris.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

2020	to be given what they're asking for so that the current disruption will end. Rail infrastructure needs investment as do the local roads which are in a dire state. It would be good if the procurement strategy could be to contract with local companies wherever possible for both construction and ongoing specialist works. Visits	Please share any other feedback you have at this stage.
166	You could support movement of transport by supplying additional park and ride busses.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2457	We would need more detail on how the roads and transport infrastructure will be bettered as part of the plans. I have reservations as to how much traffic will affect Bedford, considering it is generally quite busy already. What are Universal doing to improve	Please share any other feedback you have at this stage.
2842	As someone who runs a large successful transport business, the A421 and J13 of the M1 are already pinch points. Access to the site should be considered to be away from the main arterial roads to minimise disruptions for locals with cars less likely to use a main	Please share any other feedback you have at this stage.
4619	Job opportunities and better roads	Please share any other feedback you have at this stage.
3830	Hope you are going to sort the roads before you start	Please share any other feedback you have at this stage.
4539	Very concerned about this project impacting the roads and noise in the local area.	Please share any other feedback you have at this stage.
2396	95% all good reasons. It should be a great thing. Slight worries about roads etc.	Would you support a potential park and resort coming to this site? Please explain why.
2701	it would be really cool having a universal on our doorstep. We have already been to Orlando's. 2) I feel it would support the town and bring major business to Bedford whilst improving the local road	Would you support a potential park and resort coming to this site? Please explain why.
5017	Avoidance or excess traffic within surrounding small towns and villages. Benefits for local people	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5134	Noise and travel/road concerns	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5022	Traffic. No matter what improvements are made to the roads and infrastructure there will be a huge volume of traffic which will cause misery in a number of ways for residents of Wootton/Stewartby. It is not only the volume of traffic which will impact our ability to commute	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
5037	Not having it, increase in traffic, noise, pollution	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
1443	I would suggest getting UK universities involved with help removing or reducing CO2 from the increase in car traffic. Showing you are helping remove CO2 would be beneficial for you and us	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
5282	not making the existing roads more congested	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?

5133	Street lighting, Extra Speed Restrictions and speed cameras	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5410	Ensuring that the infratructure is designed in such a way that the additional traffic is routed away from the rural surroundings	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5200	I think the road and rail networks just because these would likely see the biggest increase in use from people like me travelling from a bit further away.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5329	There should be at least a two lane (dual carriageway) slip road to/ from the A421, to/ from the resort. There should be shuttle buses to/from the resort serving all areas of Bedford, as well as from Bedford Bus Station.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5051	Improve routes and services at Luton Airport. Open up Cranfield airfield too. Less speed cameras! Better marketing for the town. Parking.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5410	Protecting the existing rural environment from additional traffic and pollution. If you invest heavily, make sure you invest equally in the impact on existing green areas. Additive alone is not good enough.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
330	I hope that during project, road will improve around area as I leave locally and the only worry I have is a traffic.	Please share any other feedback you have at this stage.	
371	Local infrastructure needs massively improving otherwise the are will just be a car park. It doesn't have that great a road network to it currently and I live in Bedford, so I would be affected by it!	Please share any other feedback you have at this stage.	
F6183	Major roads junctions like J13 or M1and round abouts art either end.	Feedback form: Please share any other feedback you have at this stage. Please share any othere feedback you have at this stage.	
5133	Child and pensioner friendly roads.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

356	<p>flow opposite to people working etc so they don't see an impact. The reality is, the park would be in a major commuter belt as well as there being many logistics centres near by. The A421 and all major roads into and out of Bedford are already congested both ways (to and from Bedford) in mornings and evenings as there a many people communicating into and out of Bedford for work and schooling. I think you need to survey these routes to see the actual impact of traffic and adjust plans accordingly. Another concern is noise and light pollution. I have no doubt you will do the right thing but having experienced Orlando, I know the park will probably be open late and there is usually a closing light show. I'd assume you would like all resorts to give the same experience so please consider this impact on local residents especially given one of the selling points to you is that the land is flat so noise and light will travel further. Finally given the land is flat, please consider materials and colours used in taller buildings. Covanta ruined the landscape</p>	Please share any other feedback you have at this stage.	
1226	<p>quite easily blocked up, quite quickly on the A421 and M1, pushing traffic all around the local routes. Our train lines also leave a lot to be desired and just feels like this part of the UK in and around London is already chocker block with people without the adequate infrastructure or services to match. Many thanks Paul</p>	Please share any other feedback you have at this stage.	
1787	<p>if travelling as a group. I believe the transport models significantly underestimate the volume of visitors who will come by road. This is particularly worrying as the local M1 junctions (12,13 & 14) are already at capacity. Extensive traffic modelling would be required to consider the increased traffic caused by the park and the cumulative effect created by planned developments, not only in Marston Vale but along the entire length of the Oxford to Cambridge Arc. The A421 is only a 2-lane dual carriageway with frequent accidents resulting in road closure and/or congestion. The alternative route to the proposed park would involve local B-roads that would be wholly unsuitable. Significant consideration would need to be given to alternative route access to the park to ensure that local settlements e.g. Cranfield, Stewartby, Lidlington, Marston Moretaine, Salford etc, do not experience increased traffic. The proposed new A421 junction does not provide well enough for traffic accessing the site from the East(i.e A1). Consideration also needs to be given</p>	Please share any other feedback you have at this stage.	
2208	<p>enought exiting the village safely at present without extra traffic this would bring. The roads at present could not cope with the increased amount of traffic in terms of wear and tear and numbers of vehicles on the roads locally the A421 isn't that big and the old A421 I'd a small road I'm not sure the route can handle the traffic load. I raised these concerns and didn't really get satisfactory answers. What about the use of fireworks or pyrotechnics and impact on local wildlife and the pet owners locally, out Facebook pages are full of complaints at certain times of the year, I personally do not own a pet</p>	Please share any other feedback you have at this stage.	
2858	<p>I frequent other theme parks in the UK such as Alton towers, Chessington etc and I am well aware of the congestion at opening an closing times which is very disruptive to local residents there needs to be significant effort to manage this traffic to filter out to the</p>	Please share any other feedback you have at this stage.	

3065	is slow or blocked. That and the interchange/Amphill Road are concerns for me during construction and once park built if it goes ahead. There's a lot of congestion also off Amphill road towards Kempston on Elstow Road (near Fire Station). Tight roadway under bridge there if roads become regularly congested could cause problems for emergency vehicles (both fire trucks and ambulances from Bedford Hospital further down Amphill Road). Not sure how you avoid traffic spilling into these local roads impacting residents	Please share any other feedback you have at this stage.
3768	Marston Vale line feels like it deserves some consideration. The journey times for the section of railway between Bletchley and Bedford are terribly slow. I understand that some improvements (and stations) have previously been proposed as part of the East to West Rail Project, but I expect these proposals previously assumed a lower volume of traffic/frequency of service into the stations along this line. I can't see from the current plans how pedestrian & cycle pathways will connect Wootton to the sites and railways stations. Currently there is no safe and ideally located pedestrian passage	Please share any other feedback you have at this stage.
4436	I would support this development but believe the estimation 35% of visitors would come via Car is underestimated. A link road around the back of the development from the A1 and M1 would allow traffic to easier. Diverting traffic south of the development would require	Please share any other feedback you have at this stage.
4742	village. How can you manage this? I understand the extra junction off the A421 will be your main route, however will there be access off Woburn Road? Will visitors catch on they can beat the traffic by using local roads and cause mayhem for us? Will you also open the Car Park early enough to prevent congestion on these local roads	Please share any other feedback you have at this stage.
1147	the impact it will have on our home Life with the increase of traffic and also causing disruption to our self employed business' as we both work across the surrounding villages. We strongly believe the rail line should be a priority and universal should provide reduced travel rates on the rail line to reduce traffic and pollution coming into	Please share any other feedback you have at this stage.
1164	the UK and would love for it to go ahead. Infrastructure - This country sadly has a long history of being bad on infrastructure projects - running over budget and time. I do feel this can be rectified with the right development management team structure in place and Network Rail & Highway England being held to account along with central government. Projects should not be over ambitious and to utilise and upgrade as much of the existing network as possible. Disputes with train unions over pay and conditions have allowed for strikes to be a regular occurrence. Getting unions and TFL on board with the project would be a consideration. Customer Service - There is a marked difference in customer service in the UK compared to your other worldwide resorts. Much of this is down to low pay and poor work conditions which results in a high turnover of staff levels. Lots of people in the country aren't inspired to deliver a great customer experience. Again, this can be rectified if your levels of pay are good and have an inspired workforce. I would consider bringing over some team members from the US to train up the workforce here so ultimately you can retain staff and continue to provide jobs for the local and wider community. Opening times - much of the problems with UK theme parks at the moment is their operating hours which is usually 10am - 5pm / 6pm. Longer opening hours usually only happen on special events. This leads to a frustrations that you might not get all the rides or experiences you wanted to achieve and are usually	Please share any other feedback you have at this stage.

5035	Depends on road, rail and environmental benefits are high on the agenda and no green washing.	Would you support a potential park and resort coming to this site? Please explain why.	
5104	I'm not opposed to the park just the roads and chaos it could cause	Would you support a potential park and resort coming to this site? Please explain why.	
5037	More traffic, more noise and air pollution, more building and distorting of green areas, and destroying natural habitats of wildlife! No consideration to locals who live in the direct area and how it will	Would you support a potential park and resort coming to this site? Please explain why.	
5426	Amphill as the town is an Air Quality Management Area because of the current high volume of traffic and narrow roads which currently makes the town centre polluted and unpleasant to be in. Access to the site for both visitors and staff should ONLY be via the A421 to prevent people coming through Amphill to get to it. If this cannot be	Would you support a potential park and resort coming to this site? Please explain why.	
5296	The impact on surrounding villages and people's lives will be seriously damaging especially from the increase in traffic through our village at Stewartby.	Would you support a potential park and resort coming to this site? Please explain why.	
5411	The local infrastructure needs incredibly huge improvement before any huge development takes place. Roads in the surrounding area are atrocious and are hardly managed at the moment and the fear for the locals is that the heavy rate of traffic for the construction and	Would you support a potential park and resort coming to this site? Please explain why.	
4965	Those not travelling to the site on the M1 /A421 or public transport will make local routes and villages busy and congested. There are already issues with traffic and speeding which this would make much worse. You need to consider how traffic from the east will get	Would you support a potential park and resort coming to this site? Please explain why.	
846	I'm very concerned about the impact on traffic travelling east and west through Milton Keynes given there is no bypass as this would	Please share any other feedback you have at this stage.	
866	I would be very worried about additional traffic attracted to the area	Please share any other feedback you have at this stage.	
877	With development of roads and other infrastructure around your park personally i would recommend Universal to try to keep ownership of maintenance in these areas. UK councils are not very good at keeping up with maintenance and spending money in	Please share any other feedback you have at this stage.	
1621	The location needs to have a much better road network and maybe you could use the Marston vale railroad to get the visitors in.	Please share any other feedback you have at this stage.	
1701	EV charging facilities or a park and ride function. We are an all electric family and consider the environment in all we do, however, the UK theme park world is very slow to accept customers with EV's, so it would be fantastic if you paved the way in this area. It would certainly encourage us to visit more often. Thank you for	Please share any other feedback you have at this stage.	
4743	On your plan Broadmead road will remain as a junction onto Woburn road, I would suggest that Broadmead road be diverted to	Please share any other feedback you have at this stage.	
4584	Feedback is fairly obvious. doesn't build it here. Go somewhere else away from our peaceful quiet villages. Pick a site where it's not going to impact so badly on the people, roads and environment.	Please share any other feedback you have at this stage.	
3907	Would be great for local residents within a mile of the site to have more input into the site as we will be the ones most affected. Stewartby will definitely need roads looking at people it would be	Please share any other feedback you have at this stage.	
3889	Just think it would be an amazing facility to have in Bedfordshire. It would be amazingly popular easy for folk throughout the country to	Please share any other feedback you have at this stage.	
4446	This is such an exciting opportunity for not only Bedfordshire but the UK and also Europe. There would be nothing like it and it would attract families from far and wide. Feel really positive about the	Please share any other feedback you have at this stage.	

4390	coming off the M1 as this is an incredibly busy junction already so this would really need to be looked at for guests visiting. Would you look at a hogwarts express coming from london kings cross to Wootton or a carriage on the train themed to this as this is of course the train station where the students leave from to go to hogwarts.	Please share any other feedback you have at this stage.
1604	I think it's looking very promising so far and would love to see this happen. Improvements to road and rail infrastructure would be	Please share any other feedback you have at this stage.
346	developments. One thing that hasn't been taken into consideration is the traffic and the roads and how it is all strained at this time. Add in a theme park with a major increase in population population visiting outside of working hours, as a strain system pushed to the breaking point. Like wildlife and infrastructure has been thriving until a housing development or commercial build has taken place destroying parts of the countryside which are here. These green	Please share any other feedback you have at this stage.
1002	Repair any roads that get damaged by construction traffic	Please share any other feedback you have at this stage.
2426	new plan to support, road , cycling path and walkway as mentioned at above is a must, but the railway is a must to rely too, since Oxford/Cambridge are both hot spot for travellers , the rail project EASTWESTRAILWAY which connect Oxford -Bedford-Cambridge seems being held after the first stage was done due to Covid , though seems funding arrive again for stage 2 to arrive Bedford which saying begin by 2030, kicked-start again, it still too slow in	Please share any other feedback you have at this stage.
2663	Would want there to be as minimal disruption to traffic as the roads are already busy	Please share any other feedback you have at this stage.
2668	Very supportive of the project, but would like to see it drive improvements in Bedford town centre and other local amenities and infrastructure. Needs to be sensitively incorporated into local landscapes (not an eyesore) and not cause more traffic on local	Please share any other feedback you have at this stage.
3388	Main concern is that road and rail networks will not be able to manage the possible increase in volume of journeys made to the area. Even Luton Airport, which is 30 minutes away and will probably serve as a hub to the development is unfit for purpose.	Please share any other feedback you have at this stage.
5054	Our small roads would be unable to support this kind of project. The small road down to Kempston Interchange shops is already a	Please share any other feedback you have at this stage.
3209	if there is then the traffic will likely increase dramatically."	Please share any other feedback you have at this stage.
3172	If carefully managed this will be a great addition to the local area. Road upgrades are extremely important and ensuring that Stewartby	Please share any other feedback you have at this stage.
3026	My only concern is the management of the increased traffic should the park open, and how this is managed during peak times	Please share any other feedback you have at this stage.
2166	Also a bit concerned with the volume of traffic with both household pets and the animals that live around here, deer etc	Please share any other feedback you have at this stage.
2863	Traffic through Bedford and surrounding villages can be awful at peak times this development would only make road travel more difficult. This is obviously a major concern for me and many others	Please share any other feedback you have at this stage.
707	As above its not a good area employability is poor, its a really badly served and deprived area. Nurseries have gone out of business in wootton as people do not work - look at YMCA nursery for	Please share any other feedback you have at this stage.
1067	Lots of positives, such as employment. Concerns about traffic, wildlife and closing of local businesses, due to competition	Please share any other feedback you have at this stage.
263	I'm thrilled that Universal are considering a park so local to Bedford however I am unsettled with knowing that this will potentially impact me getting to Milton Keynes for work or Harpenden to see family. As long as this aspect is managed efficiently however I believe it will be	Please share any other feedback you have at this stage.

2880	Bedford is a beautiful and natural landscape. The theme park goes against what this community is. You will drive away people that have lived here for generations. You will cause so much pollution and disruption to the society and the environment here. The road are just	Please share any other feedback you have at this stage.
5411	Road infrastructure. Traffic congestion. Noise pollution. Disruption to day to day life	Please share any other feedback you have at this stage.
3159	Hoping project goes ahead, but with road improvements completed in advance.	Please share any other feedback you have at this stage.
3013	as these will get busier, nearby towns and service areas need to be upgraded and made nicer because visitors to the park will most likely stop off in Bedford town or nearby service areas and its not currently at a nice standard to provide a good impression for visitors e.g. closed shops, litter, anti-social behaviour, roads into town,	Please share any other feedback you have at this stage.
5693	A dedicated cycle path from Amptill to site along Amptill Road would be beneficial. Additional roundabouts at junctions along	Please share any other feedback you have at this stage.
5948	Concerned about more traffic on local roads and though villages such as Cranfield.	Please share any other feedback you have at this stage.
5938	Fully supporting this development. Concerned about: - Additional pressure on local services, including healthcare - Increased traffic on smaller local roads - Safety of pedestrians and cyclists trying to	Please share any other feedback you have at this stage.
5606	I am also concerned over the amount of traffic that will come through the village, we are very small. Children at the moment can safely play out and not have many cars on the road. Also, the traffic coming from Bedford onto the B530 at the Retail Park roundabout is	Please share any other feedback you have at this stage.
5742	I believe that this scheme will be of benefit to the local area, if all infrastructure and noise impact have been considered. I am concerned that extra traffic will cause complications and also create	Please share any other feedback you have at this stage.
5783	about noise pollution, particularly related to noisy rides and fireworks (I have dogs, so Fireworks and explosive sounds are of concern!). The roads definitely need consideration and how to limit people shortcutting in via the villages and local roads. Other than that I am very supportive of the idea and believe it could rescue Bedford which is currently in decline. Discounted tickets for locals would also	Please share any other feedback you have at this stage.
3783	Economical impact on the area, will attract investment and force local council to act on bad road network, will add entertainment, raise house price	Would you support a potential park and resort coming to this site? Please explain why.
5651	I think the roads all around the area are fit for purpose for a theme park like this and tourists.. To be honest Bedford town centre is a dump and not an exciting shopping destination anyway. The area	Please share any other feedback you have at this stage.
5628	I think this project could be great for Bedford but the residents of the surrounding areas have large concerns around the major roadworks, traffic from visitors, parking in nearby villages for free parking and noise pollution late into the night. If you can resolve	Please share any other feedback you have at this stage.
5494	If I had of known this would potentially have been on my doorstep when I purchased my house I would never have gone ahead. The area struggles as it is with the traffic from the new development in Stewartby (where I live). I purchased my house because I wanted to	Please explain why
5511	Because this area will face never ending traffic in and out of surrounding areas, traffic, the noise, pollution and disruption will	Please explain why
5534	I live nearby and wouldn't like the noise and the traffic congestion.	Please explain why
5535	I think that your proposal will bring unacceptable levels of traffic, noise and disruption to the area, and will be hugely disruptive for the	Please explain why
5559	This area is already condensed with little villages. The roads are not fit for purpose with heavy traffic in surrounding villages i.e amptill. There are larger areas with bigger space that would make more	Please explain why

5585	Major concerns about the traffic and noise it will bring to the area including light and noise pollution	Please explain why
5591	town life. For a theme park now to be pretty much backed on to our house this has now taken that away. It's just going to increase traffic and it's already a nightmare when the bypass shuts and everyone's diverted to the old bypass. The noise that comes from a theme park is not something I want to hear every day either. Building this I believe you are forcing many people to think about selling their	Please explain why
5601	house price to drop and I doesn't want to sit in my garden on a summers day and just hear screaming from the rollercoasters every 20 seconds. People with children and young babies will also need to make sure they can get them to sleep with no noise. The traffic in and around Stewartby is already busy, you'll make it 10 times worse. Where this would be a desirable place to live, will turn into a nightmare. We're also a close knit community. With so many	Please explain why
5604	It would be terrible for traffic and local wildlife will struggle as there is alot of wildlife in the area that's proposed	Please explain why
2946	I moved to a village location for peace and quiet, not to be next to a theme park. With a the environmental issues we are facing as a nation, this seems to be at complete odds with what we should be doing. The most sustainable solution is not to build something that is	Would you support a potential park and resort coming to this site? Please explain why
5614	We purchased our house in Stewartby, to live in a quiet, peaceful village location. Our back garden, backs onto the farm. And the potential theme park is in the next field! For us personally, this will	Please explain why
5623	the day. I am seriously concerned over the re-alignment of Woburn Road to join in to the proposed new roundabout. Knowing that the extended flyover from the A421 eastbound is deliberately long to take the queuing traffic capacity (As stated by the Universal rep during the open day) means that there will be considerable traffic on the new roundabout. For local residents using the Woburn Road for daily errands, this will cause significant disruption compared to todays situation. I strongly object to this configuration of roads being	Please explain why
5628	use public transport to get to the site. The trains and buses are too unreliable which will lead to a higher number of vehicles such as taxis and cars than your planned 40% capacity, this will lead to huge amounts of traffic causing issues for local residents during morning and evening commuting times making their daily lives a living hell.	Please explain why
5630	It is exciting to have a park Like this on our doorstep. The road and train infrastructure will be improved for the build up of more traffic	Please explain why
5656	scale is a blight on the environment, character and peacefulness of the area. 2. the presence of such a development would be a burden to the local residents with consequent deterioration of the immediate area and outlying districts, eg increased pollution, refuse. The responsibility for and the costs of such problems are always passed on by the owners to the local authorities and the wider community. 3. the vast and permanent increase in traffic and all the problems which arise as a consequence. 4. a permanent resort such as this	Please explain why
5704	Traffic congestion is already a major problem in this area Noise pollution is another Wildlife would suffer	Please explain why
5835	The increase in traffic in our local area of Kempston would not be able to cope for employees to get to the resort it's bad enough now at rush hour times and bank holidays. But good for the retail Park	Please explain why

5841	has lain unused for years and is ripe for redevelopment. Key to this will be the EWR route from Cambridge to Oxford and that is the infrastructure most needed to keep traffic off the roads and open up the Universal attraction to non-car drivers from East Anglia who otherwise would have to travel via London. This offers a huge opportunity to bring quality employment and training to people in this area, boost other local businesses by increasing visitors to the wider	Please explain why	
5886	Unsure of noise pollution impact from mechanical machinery/screaming/nightly fireworks displays/ and traffic	Please explain why	
5902	Traffic. Noise. Taking away our open space. Too big for this area	Please explain why	
5927	Too much traffic into our area Too much pollution Inconsiderate parking of customers using our estate as a car park House prices	Please explain why	
5984	The extra traffic worries me, also pressures on local services such as the NHS Bedford hospital and GPs. Locally we can't get appts and the hospital is vastly over subscribed. How will it cope with large numbers of construction workers, employees and visitors to the	Please explain why	
6054	I think it would be very beneficial to the county and I would be excited to visit. I do however have sepsis concerns on traffic, road infrastructure and they impact to my village which is a city through to	Please explain why	
6087	The project would bring so many advantages locally including employment, helping local businesses, sustaining the environment	Please explain why	
6089	Traffic, too busy, noisy, busy	Please explain why	
6095	forever home. Majority of people I speak to in Wootton don't want this theme park to be built as it will ruin our local small village. If this is built we will need to move away as my quiet oasis will no longer exist and speaking to people who live on the same street, they are planning on selling up and moving too, therefore house prices will drop as we will all be trying to leave the area together. The local road structure and increased traffic levels of up to 14,000 vehicles a	Please explain why	
5913	sound proofing local villages and stopping rat runs through villages	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5560	construction and operation of the park. I understand the A421 will provide the major access but fear much additional local traffic or visitors seeking to avoid other congestion will use the B530 which as per my comments above is already regularly jammed by retail park users frustrating access to Bedford, and b) at J13 of the M1 which is already frequently heavy with traffic. Access to and from the A507 will made much more difficult by larger flows to/from the A421	Please share any other feedback you have at this stage.	
5927	Please doesn't build so close to villages there are so many areas in this country where you can build this theme park where there are no houses nearby, Buckinghamshire/milton Keynes for example. The traffic would be horrendous Stewartby is a nice quiet village and	Please share any other feedback you have at this stage.	
5748	Whilst I appreciate the boost to the local economy and in investing in infrastructure, I am worried that the theme park would create major congestion issues, particularly around the A421 and the M1	Please explain why	
5623	Provided the traffic issues raised in Q.8 are dealt with, I support the plan and would welcome the project.	Please share any other feedback you have at this stage.	
5554	Too much extra traffic	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	

5594	Connected to the train line, to reduce road traffic	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5596	3 route to come in and out of Stewartby village. If you change Green Lane and the B350 the connections into Bedford would be made more difficult.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5704	Traffic congestion	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5860	Providing sufficient parking facilities.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5628	Ensuring people doesn't park in nearby villages to walk over to the park leaving nowhere for residents and their normal visitors to park.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
6023	I doesn't believe there is sufficient infrastructure to support. The m1 junction 13 and surrounding roads are already very busy.	Please explain why	
6059	Need more information on how transport roads etc would be affected.	Please explain why	
5554	Roads not able to cope with extra traffic	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5623	The local road networks are already suitable for the existing capacity. There are not suitable for the increased capacity that this project WILL bring. I cannot believe only 10% will travel by road and that load will only come from the M1. There will be traffic approaching from the east and this has not been catered for.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5628	Have you considered utilising the park and ride site and running shuttles?	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5689	There will need to be direct buses from the train station to the park, ideally included in ticket prices or discounted.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5837	Improvements would be needed to A421. With current levels of traffic, an accident on the A421 at rush hour periods can cause gridlock through the area. My concern is the increase in car use not only from visitors but also those working at the resort, the majority whom, no doubt travel by car.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5884	If this impacts traffic heavily to delay people being able to get to the town centre or work in a timely fashion that will be annoying	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

868	consideration has been given to impact on local lives. I was in support of this project and previously filled this form positively. Then, following the consultation events I have realised how little you actually care for the local area and how the changes you plan to make are not realistic. The impact you are going to have on our day to day existence is massive, the inconvenience of the location / plans is obvious. We don't want the light pollution or noise pollution, people live here with pets that can't cope with noise from fireworks a few nights a year and you propose using fireworks and pyrotechnics daily, it is unnecessary to build a park like this that will block up roads and prevent our elderly and disabled from reaching medical services in kempston and bedford - currently these journeys are 20mins, during your construction and when your park is complete these journeys could take an hour. The responses provided so far have been lacklustre, you should be consulting with the local community, you are building on our doorstep, not theme park enthusiasts. Your plans depend on too many 'ifs' the changes to the rail lines are not yet confirmed, that stations can not cope with the influx of proposed visitors, our roads can't cope with it either, with or without improvement! J13 of M1 continues to be a mess at peak times and the A421 can not cope with the added traffic, especially	Would you support a potential park and resort coming to this site? Please explain why.
2845	Any projects providing opportunities whilst maintaining the heritage of the county is always great. Also this improvements to the economy, roads, public transport services only benefits the people	Would you support a potential park and resort coming to this site? Please explain why.
2518	down the M1 and A421 to the Luton and Dunstable Hospital my main concern would be traffic and the increased use of these roads. The commute is already difficult during rush hour and the project will make this worse. Please consider a new junction off the M1 and avoiding the use of the A421. I have so much support for the project, my Husband and I had our honeymoon at your park in Florida and it was one of the happiest moments of our lives. Please consider people who's daily commute to work could be significantly effected	Would you support a potential park and resort coming to this site? Please explain why.
3234	It's a good location, and would boost the economy and improve roads and trains connection to the Bedfordshire area	Would you support a potential park and resort coming to this site? Please explain why.
4171	its currently wasteland, the site is almost perfect for public transport and roads, both would need improvements but this should be pretty easy. the area has lacked investment for decades other than Center	Would you support a potential park and resort coming to this site? Please explain why.
370	Like stated above, prices for houses are already ridiculous, traffic is a nightmare and now you're going to add a massive resort near a residential area that will have fireworks going off every night and screaming all day every day. I'd love a theme park close to me but in	Would you support a potential park and resort coming to this site? Please explain why.
4632	More traffic to the area to what are already busy roads. More strain on trains which are already an issue and ruin the environment and peacefulness that goes with it in that area	Would you support a potential park and resort coming to this site? Please explain why.
2948	My initial concern would be regarding the building construction stages and the disruption to roads access etc. I am though excited for the long term possibilities this could bring to our area.	Would you support a potential park and resort coming to this site? Please explain why.
4404	worried about the impact on my quality of life (roads, noise pollution and local infrastructure being over challenged). And the value of my house. I can see it being a great opportunity and transformative for the wider community too. Especially in the current climate. More people need to work post COVID. I need more information.	Would you support a potential park and resort coming to this site? Please explain why.
2690	Roads are already busy Unsure of the noise when/if the park comes to the nearby villages	Would you support a potential park and resort coming to this site? Please explain why.

3018	The area is not fit for such a site . Roads already packed to capacity with new builds	Would you support a potential park and resort coming to this site? Please explain why.
186	The idea of a theme park less than 3 miles from where I live is appalling. It will bring yet more traffic onto already congested roads.	Would you support a potential park and resort coming to this site? Please explain why.
3799	The impact on wildlife and the environment also the amount of traffic it would bring to the local roads spoil the quiet peaceful villages in the local area	Would you support a potential park and resort coming to this site? Please explain why.
4663	warehouses the other side of the A421 to the expansion of Stewartby and the new estates being built in the area, the roads are already at breaking point, especially during peak times and weekends, many of the local roads are not feasible for improvement, as there is no way to widen/bypass these bottlenecks. The building of this theme park, would cause the local residents years of hell with construction traffic and then visitors when the park is finally complete. Furthermore the local wildlife has already been threatened by the previously mentioned developments in the area, this doesn't need to be compounded even more by the building of the park. There are many more suitable areas for this to be built, in	Would you support a potential park and resort coming to this site? Please explain why.
4053	greenery. I love stepping outside of my house in the middle of a village knowing I am surrounded by fields and open land. This would ruin this and ruin this town, especially my village which is where you want to build. The roads are not good enough and being able to cope with the amount of traffic will be a pain. I'll be getting up extra early just to go to work. The value of my house which I worked so hard for will be devalued and the main reason why I feel in love with	Would you support a potential park and resort coming to this site? Please explain why.
4328	The noise pollution is concerning. Also, the roads are also very busy and cannot handle more.	Would you support a potential park and resort coming to this site? Please explain why.
3020	The ongoing relationship of the site with infrastructure of roads and rail and bus is key to developing and maintaining this area. Career opportunities will exist for local people and school leavers or part time student work opportunities. It will improve links with London as	Would you support a potential park and resort coming to this site? Please explain why.
4013	roads but will have no effect on the amount of traffic which will enter the A421 and M1. This stretch of road is already busy and with an extra 3000 cars or more using it every day, this will massively impact travel to and from Milton Keynes. Additionally, there has not been a cost-benefit analysis performed for this project. Or if there has, then you have only shown us the benefits. A detailed plan to actually give local residents a proper assessment of the impact of the project should include the whole picture, not just what you think could improve the local area. Provide us with actual numbers on the	Would you support a potential park and resort coming to this site? Please explain why.
702	more acceptable the red outline unless wrong goes right thru the train line? How does that work? You should consider noise pollution and keep furthest distance possible which is the yellow outline of the two drawings. Wootton is terrible to drive to as it is. I am stunned at location choice. It is poor for buses (1 an hour) the rail service is also poor. The roads are rubbish, but A421 the amount of extra traffic will swamp a tiny area. Can't you look elsewhere? This doesn't seem right to me- Wootton is a tiny village and the red looks too close, too noisy etc and I have questions on how building thru the rail line that's existing within the red outline but obviously if building on yellow outline it's a bit different as further away! The roads aren't built for this sort of thing. As good as idea sounds to visitors it will be a nightmare for area, the area itself is deprived and has had various	Would you support a potential park and resort coming to this site? Please explain why.

4776	The roads are busy enough in this area without introducing thousands of additional vehicles. Concerns about the noise levels from the park for local people. Concerns that the whole local area	Would you support a potential park and resort coming to this site? Please explain why.
3798	The roads are inadequate. To provide access routes would be disastrous for the local wildlife	Would you support a potential park and resort coming to this site? Please explain why.
4615	The roads in this area are already significantly congested. How will the large amount of staff and visitors be effectively transported given what appears to be a major deficit in infrastructure? I cannot see this will do anything other than make life more difficult for existing	Would you support a potential park and resort coming to this site? Please explain why.
1147	crisis. Since the building of covanta hundreds of lorry's travel down the single a421 carriageway (C94) causing multiple disruptions to residents living along this road. Having 8,000 employees PLUS visitors daily and the covanta traffic, along with local residents travelling too and from work will be chaos for locals. Unless some serious money is spent adjusting and shielding all residents who live along the a421 carriageway. Which is evident this will be the main route used for people using the M1 to travel to universal. Residents already suffer excessive noise pollution due to the lack of funding and appropriate noise barriers the council and local highway	Would you support a potential park and resort coming to this site? Please explain why.
3004	The site has (with a few enhancements) the potential for excellent public transport links (East West Rail, Bedford to London rail line, good access to strategic roads M1, A1, and A421 and good rail access to both Luton and Gatwick Airports). It would be a great	Would you support a potential park and resort coming to this site? Please explain why.
3833	and young families. The addition of a resort of this nature will increase traffic through these areas exponentially where infrastructure is already very limited and access already difficult with severe traffic build up regularly without increasing footfall and cars on the already damaged roads. The beauty of this area is how small it is and there is already limited capacity at the local shopping areas	Would you support a potential park and resort coming to this site? Please explain why.
2847	links that I feel will allow the park to operate without blocking up local roads. It's a good use of a mainly brownfield site and will provide many good job opportunities to the local area. Living only 20mins away I feel we as a family would really enjoy the park and everyone I have spoken to is very excited for this to go ahead.	Would you support a potential park and resort coming to this site? Please explain why.
2408	infrastructure would need a radical overhaul as we already see that 1 small incident on a local road causes hours of tailbacks and clogged smaller roads. So many houses have already been built in the area with little thought about this before. It needs to be sited where there is more space and potential to extend/grow.	Would you support a potential park and resort coming to this site? Please explain why.
3922	Need to see plans and impact on local area. Road and rail improved infrastructure is important. Live in Marston Moretaine would be concerned about traffic levels pre and post build. Also concerned	Would you support a potential park and resort coming to this site? Please explain why.
4417	Need to see what road structures will be put in place.	Would you support a potential park and resort coming to this site? Please explain why.
4762	New themed entertainment destinations in the UK are very exciting and it is an industry that is currently underdeveloped in the UK. The location is perfect in terms of impact on neighbours, access to the rest of the country through road and rail, both in terms of distance	Would you support a potential park and resort coming to this site? Please explain why.
3945	Not sure of the impact on the local environment- road structure- local pre existing housing	Would you support a potential park and resort coming to this site? Please explain why.
2707	So we can visit and hopefully see improvements in rail and road networks.	Would you support a potential park and resort coming to this site? Please explain why.

3426	The comments above summarise why. This site near Bedford is ideally located due to the topography and the excellent accessibility by road, rail and air and its proximity to international gateways.	Would you support a potential park and resort coming to this site? Please explain why.	
3858	The economic benefit to the area would be immense, plus it would be good to have some road/train infrastructure improvements. I'd agree that a major brand like universal could do wonders for the UK	Would you support a potential park and resort coming to this site? Please explain why.	
3835	The economic benefits and improvement of local road and rail connections.	Would you support a potential park and resort coming to this site? Please explain why.	
2801	The road infrastructure from central beds into kempston and bedford is already very poor, your proposal will cause more problems than it solves for the local area. Bedford is a ridiculous place to put the	Would you support a potential park and resort coming to this site? Please explain why.	
3063	The road infrastructure is already at its limit, the A421 regularly closes or backs up and the M1 has accident and lane closures on a daily basis.	Would you support a potential park and resort coming to this site? Please explain why.	
4321	The road networks in this area are often busy/queued and therefore a development such as this will only worsen the situation. Bedford railway station will be the nearest but this is a relatively small station.	Would you support a potential park and resort coming to this site? Please explain why.	
3095	The site is ideal for such a park. There is excellent Motorway and A road connectivity as well as fast railway options north to south. The new Oxford and Cambridge arc will provide east west connectivity	Would you support a potential park and resort coming to this site? Please explain why.	
4500	everyday for work. You say around 30-40% of visitors expected via train, train travel is extortionate in the UK. Are you looking at subsidised or free travel included in park tickets to achieve this? Mostly, the main park should 100% be on the northern part of the site you own. That side has warehousing and not homes right next to it. Surely, that would make more sense. I do not want fireworks and laser shows outside my window 7 (or even 2) nights a week. Citywalk areas are also loud and currently very close to current residential areas. I paid a lot of money for my house and chose to	Would you support a potential park and resort coming to this site? Please explain why.	
1364	Additional traffic is a major concern for us locals. The traffic at rush hour in this area and at Marsh Leys roundabout is already gridlocked on a daily basis. We would need to see major infrastructure improvements to accommodate the visitors, we simply	Would you support a potential park and resort coming to this site? Please explain why.	
149	Appreciate the advantages it could bring, but some concerns - does the area have the number of workers needed; pressure on housing if need workers to move in, plus increased traffic etc associated with	Would you support a potential park and resort coming to this site? Please explain why.	
827	As local resident I would have to deal with traffic congestion on a daily basis, if the roads in and out of the park are done right I may reconsider .	Would you support a potential park and resort coming to this site? Please explain why.	
2085	As long as the local people are helped with better roads to stop traffic jams. I would like to hope that having the park will improve public transport for residents as well as the park.	Would you support a potential park and resort coming to this site? Please explain why.	
4690	traffic, footfall, potentially gridlocks through villages. M1 cannot take that let alone the small villages, public transport too expensive to use. Only way I think this can work is another plot of land near M1, used for employee and customer parking and they are bussed in, as Disney do in Florida from their car parks.	Would you support a potential park and resort coming to this site? Please explain why.	
3419	Because apart from the environmental impact it will have, what about the impact it will have on those living locally? I live within 1 mile of this proposed development, what about the noise, increased	Would you support a potential park and resort coming to this site? Please explain why.	

4584	here to live and bring their children up in a quiet peaceful village environment. As well as people who have lived in this village environment all their lives. The construction of a theme park so close to many villages will create increased traffic, as well as noise pollution. No one wants to sit in their garden in the summer and listen to people screaming on rides! We moved to a village for a quiet environment. It will also devalue homes and remove the appeal of living in a village when there's a huge theme park right	Would you support a potential park and resort coming to this site? Please explain why.	
4192	Because the traffic will be awful. It's already bad even with the bypass this will make it worse	Would you support a potential park and resort coming to this site? Please explain why.	
2541	industrial . The proposed site sits between many small villages , villages By definition quaint small clusters of homes in rural countryside settings '. By the time this thing is built and all the traffic , light, sound pollution , etc that comes with it comes with it there will not be the villages left . Noise pollution is a big factor fireworks going off - silent ones must be the only ones allowed for residents and wild life English weather is terrible , build it in a part of Europe	Would you support a potential park and resort coming to this site? Please explain why.	
519	and bring more traffic and people to our little town Ampthill that's nearby. It's too busy now and changed for the worst as everywhere has but I loved here 18yrs ago to get away from busy towns and I doesn'twish to see it when walking through our park and we would , ruined, I want to be able to drive to our friends in wootton and the retail park and local areas without an increase in traffic or noise definitely haven't asked the Ampthill residents or seen any	Would you support a potential park and resort coming to this site? Please explain why.	
3100	Concerned about the additional congestion. Need to look at the transport assessment for the site which will detail the traffic impacts. The existing road network will need significant upgrades including	Would you support a potential park and resort coming to this site? Please explain why.	
4684	Concerns about the road infrastructure and how this could impact our village with increased traffic, potentially devaluing our homes.	Would you support a potential park and resort coming to this site? Please explain why.	
1681	Concerns over how the park would effect traffic and how you accommodate so many people visiting the area on a daily basis. Noise coming from the park, this is a quiet area what would noise	Would you support a potential park and resort coming to this site? Please explain why.	
815	Don't believe it is the right area due to infrastructure. M1 J13 is already congested both ways causing traffic jams on the M1 causing condition on the surrounding roads and villages. Extra pollution from	Would you support a potential park and resort coming to this site? Please explain why.	
1260	Even with the planned changes the traffic for the park is going to be horrendous and dangerous. I love a theme park and but I doesn'twant to live near one especially on this scale on top of the	Would you support a potential park and resort coming to this site? Please explain why.	
834	Public transport in the area would not be sufficient to support the park which would mean most visitors would arrive by private vehicles which in turn brings congestion and pollution issues.	Would you support a potential park and resort coming to this site? Please explain why.	

	<p>Thank you for sharing the proposals for Universal UK based in before.</p> <p>I hope you can help me with regards the chart below featured in the information pack.</p> <p>Can you please chart the details behind this study? Additionally I would like to understand what the axis in the chart below mean?</p> <p>The A421 has seen an increase in traffic over 211% in 20 years, this is based on the developments on the villages in the area. Based on the latest traffic survey, the suggested peak times of visitor arrivals are also the busiest times on the A421. Without major upgrades to the road I have fears that the capacity of the A421 will not be enough, especially with the current needs of the villages and commuting. Furthermore, it appears that the current carpark has capacity of 4500 cars. Can you also advise what the staff car park capacity will be? Does the above chart of movement on the road network also account for workers in the region commuting to work? You state in the study that Around 10% of people would drive to the site, with a further 25% as passengers. Can you advise how this relates to other theme parks in the UK? Are the assumptions inline with actual data from other major UK attractions. Commuting by car is much more economical vs Train, can you advise what</p>		
E6236		Comment via email	
2314	The area is far to congested as it is, take a drive around Bedford at rush hour now and you'll see. Your proposed site is so close to a major town and I feel your taken advantage of the locality and not	Would you support a potential park and resort coming to this site? Please explain why.	
E6285	minimum wage hopefully without driving and clogging your train capacity and car parks. Most car journeys in Bedford are less than 5 miles which is terrible for emissions levels. You could easily convert the old A421 road (runs alongside the bypass) into a dedicated off road cycle route from Bedford to Marston Moretaine/ Stewartby.	Comment via email	
F6158	I fear traffic gridlock for miles around on summer bank holidays	Would you support a potential park and resort coming to this site? Please explain why.	
F6228	Depends on local traffic	Would you support a potential park and resort coming to this site? Please explain why.	
F6155	Concerns over impact to local residents in respect of traffic & noise	Would you support a potential park and resort coming to this site? Please explain why.	
F6228	J13 improvements	What is the most important consideration for you when considering a potential theme park and resort in Bedford?	
F6156	Concerns about house prices going down. And of course noise and traffic as a local resident.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6223	A421 and A428 always busy and you are adding to it. Will gas be added to Old Stewartby what do locals get for having this	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6224	Promising proposal - I recognise the potential for benefit to my area. Concerns - how will this project enhance local environmental spaces/habitats? Will the environmental statement be made public? Enabling works (planned much sooner) may also have unintended	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	

F6211	Visit Amphill Park on a weekend o see how busy it gets. There's a need for a playground plus coffee shop so parents and kids can enjoy. There are plenty of parks byt not many with café's + fields to play.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
F6210	The site is so close to various cantres of population where people could cycle to the site instead of driving for much of the year but off road cycle infrastructure is poor/non-existent. March Least roundabout is already very busy + adding traffic would cause issues	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
4596	there is overdevelopment of this area and transport links are hugely busy and gridlocked . important environmental habitat supporting wildlife has already been destroyed and more is being lost to housing and future planned developments. new environmental	Would you support a potential park and resort coming to this site? Please explain why.
3255	There would need to be huge improvements in road access etc for this to work.	Would you support a potential park and resort coming to this site? Please explain why.
4018	Traffic, pollution, noise pollution, light pollution. Disruption to locals lives.	Would you support a potential park and resort coming to this site? Please explain why.
346	Don't build next to a village. Increase in traffic will destroy the local wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
412	A theme park will bring more cars to the area and damage the environment near a country park. Plus uk needs housing not a theme park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
1146	I am unsure about the project, weighing up the energy brought by employment opportunities against the loss of green spaces, wildlife disruption, inevitable litter and pollution created by the centre	Please share any other feedback you have at this stage
5914	natural environment, create more stress for wildlife locally. The local council needs to put funding into important issues like their hospital, fixing pot holes ridden roads and supporting the vulnerable in society. It's pathetic to ignore these points and instead waste tons of money on a financial gaining enterprise which will bring more negative outcomes than positive! The mayor of Bedford needs to grow up and face the real issues in the communities of Bedford	Please explain why
F6224	Promising proposal - I recognise the potential for benefit to my area. Concerns - how will this project enhance local environmental spaces/habitats? Will the environmental statement be made public? Enabling works (planned much sooner) may also have unintended	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.
301	Only that we are very protective over our countryside and wildlife, so you need to be mindful of this. Also not to cause anymore traffic disruption than necessary	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5307	Jobs opportunities, local road improvements.	Would you support a potential park and resort coming to this site? Please explain why.

4963	Jobs, economic improvements, road network improvements.	Would you support a potential park and resort coming to this site? Please explain why.
5282	need more detail on the type of jobs that would be created and assurance that the existing roads will cope with added construction traffic	Would you support a potential park and resort coming to this site? Please explain why.
2441	Do not use the a roads unless it's the only access - keep to the motorways and A6 Active effort to rehome wildlife and any unique species of plants	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5914	Protecting existing wildlife habitat and not creating more traffic!	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
3798	The roads are inadequate. To provide access routes would be disastrous for the local wildlife, roads	Would you support a potential park and resort coming to this site? Please explain why
5104	Stop satnavs from making cut through villages	Please share any other feedback you have at this stage.
2004	I think the best way to mitigate local concerns (I live in Wixams) is to invest early in the A421 slip roads, Wixams station so people feel an early benefit and not be negatively impacted by construction traffic. It's probably also worth highlighting ealy any additional benefit to local people when the park is complete e.g. discounted entry/season tickets.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3390	Living close by and being a commuter I am worried about the cost of train tickets as our locals train station will now be an attraction. Will also have a huge detour to get to the station as won't be able to drive through the park. Worries about jnc 13 of the M1 being a	Would you support a potential park and resort coming to this site? Please explain why.
5103	work well - particularly the Branston way (Marsh Leys) and the entire new route of the A6. Also routes into Bedford get clogged and jammed without the significant footfall of a local theme park. Train routes are currently limited to Stewartby (small line) and walking links crossing the A421, particularly towards Kempston Hardwick	Would you support a potential park and resort coming to this site? Please explain why.
5028	Traffic into and out of Bedford is already horrendous. Unless you're going to build several new bridges in town (which would also be horrific in terms of disruption) then we can't absorb any more visitors.	Would you support a potential park and resort coming to this site? Please explain why.
3339	Amphthill is already very congested with minimal available parking. Signage should direct traffic away from that area.	Please share any other feedback you have at this stage.
3101	the volume of traffic and use of local restaurants, pubs, shops, it will make it unbearable to live near. The biggest issue will be the exceptionally unreliable rail way and how it will affect commuters who use this line daily, the costs will go up and we won't be able to get parking at the local stations (Bedford, wixams, Flitwick being the	Would you support a potential park and resort coming to this site? Please explain why

4442	absolutely ridiculous. The traffic would be awful and it would take me hours to get to and from my employer in Peterborough. Your proposed number of up to 30% of people travelling by car is completely unrealistic. You have 4 times as many parking spaces as Alton towers allocated this would be 4 times as bad as Alton towers. The majority of British people like to drive as it is more convenient if they do not live in London. Therefore, the traffic would be much worse than you are anticipating. I moved to a village location because it was peaceful and a nice place for my family to grow, not to live with terrible constant traffic jams on the A421. I would not be	Would you support a potential park and resort coming to this site? Please explain why.
5049	ensure that it is actively involved in persuading East West Rail Co, that a route through" Bedford is not necessary and that Route E will do nothing but create wanton devastation to Bedford Town and the landscape to the north of the area including the destruction of houses. A southern route will be far more beneficial to Universal and ease of transport for your customers. Please use your influence accordingly. The completion of the A421 dual carriageway to	Would you support a potential park and resort coming to this site? Please explain why.
3950	Central Bedfordshire would benefit significantly from having such a venue on the doorstep. The long term investment in not just jobs but the impact on local services sounds positive and I fully support that. Your proposal talks heavily about invest into transport and local	Would you support a potential park and resort coming to this site? Please explain why.
5966	I'm hesitant about the increased traffic and flow of people via rail	Please explain why
2954	Good for the town but bad for traffic.	Would you support a potential park and resort coming to this site? Please explain why
4671	Although it's great for the local Economy, living less than a mile from the site does make me worry about traffic for me to get around and to work (the M1 and A421 are busy enough as it is) also the noise from the park and the potential to devalue my property because of	Would you support a potential park and resort coming to this site? Please explain why.
847	and the effect the park might have on traffic in the area. The roads are in a poor state of repair and there always seem to be works causing headaches for local commuters. At the moment the traffic noise is acceptable, but your main entrance is planned parallel to the estate I live on with only the A421 separating us -that is a concern as I don't want to be able to see or hear additional traffic. I moved to the area because it was more rural and the plans are potentially conjoining three villages and creating more traffic noise potentially detracts from the setting - although I suppose if the effect is the houses prices go up I can always move. However, on the positive side if more money is invested in the local road infrastructure to minimize traffic congestion and pollution, improve public transport/cycle routes and ensure that the rural character and	Would you support a potential park and resort coming to this site? Please explain why.
2547	what I have seen. I was concerned about traffic but I have seen that you plan to create separate exits off the M1 and then have any queueing traffic within your own boundaries rather than on local roads. You seem to have properly considered public transport as well. I was concerned about noise but I understand that you create your lands so that the noise and light stay inside each land. The lady I spoke to asked about my own experience at Universal in Orlando. Could I hear Harry Potter noise from Jurassic World and my answer was no. I am also excited about the job and training opportunities for	Would you support a potential park and resort coming to this site? Please explain why.

4143	<p>However there are a few concerns I have. 1.Firstly the local transport infrastructure (particularly public transport like trains/ train stations) will need to be upgraded as mentioned in info leaflet. These projects like ewr will take many years to develop before benefits are seen. These projects (including upgrading kempston hardwick station) will need to be implemented quickly. The info pack states 10% of people not including passengers will be travelling in cars and 30-40% will take public transport. This figure seems optimistic regarding the high use of public transport. High train fares mean most people don't bother taking them and the UK population unfortunately still rely on cars are their main source of transport. Also if locals want to walk to the site for work or other purposes, footpaths/ bus routes eg from Wootton will need to be created as the current walking infrastructure is either non existent, not safe or not fit for purpose. How will you implement walkability to and from the site? 2. The new junction off the A421 is likely to create additional noise pollution from the traffic. This may impact the health of the locals so sound barriers would be a welcome addition (these have already shown effectiveness for wootton). 3. The existing A421 northbound slip road which feeds onto the Branston way (A6) nearby</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
F6224	<p>Promising proposal - I recognise the potential for benefit to my area. Concerns - how will this project enhance local environmental spaces/habitats? Will the environmental statement be made public? Enabling works (planned much sooner) may also have unintended</p>	<p>Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.</p>	
5651	<p>Destruction of local habitats for wildlife and would increase traffic volumes across Bedford and A421 which is already horrendous for traffic. Also the constant noise and light pollution would affect local wildlife regardless of creating wildlife habits which probably would</p>	<p>Please explain why</p>	
1170	Noise and traffic	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
2532	Noise and traffic	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
500	Noise and traffic would seriously affect the local area and the quieter village life we currently have	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4009	The traffic and noise pollution will be awful	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
F6149	Increased traffic / increased train fees!	<p>What is the most important consideration for you when considering a potential theme park and resort in Bedford?</p>	

427	<p>how the transport links matter. I love the monorail in Singapore and the Boat between the hotels and parks in Florida. Would love if we could get a local discount on park tickets or season passes and perhaps reduced or free parking in the evenings. Opening at 10am or later (like most of your parks do) would be good to avoid rush hour traffic increases. We would definitely visit City Walk and support restaurants. Would love City Walk to have a bowling alley, cinema, arcade, perhaps a skate park, outdoor play area or similar areas that young people in Bedford could visit for free too as not all local families could afford tickets. We would absolutely love a water park. The lazy river in Florida was my absolute favourite and whilst I appreciate we doesn't have the weather in the UK there are lots of places with indoor attractions (eg centre parcs) that show it can be done indoors too. Would love if a certain percentage of jobs could be ringfenced for local people or young people especially in the more unusual areas like tide maintenance/engineering/landscaping/HR/finance/and other behind the scenes work. Perhaps work with other local attractions to offer a multi pass/multi park ticket and perhaps opening day is for locals</p>	Please share any other feedback you have at this stage.	
3571	<p>The plan tries to consider effects of visitor numbers on traffic, but does not take into account the 10,000 daily workers from what I can tell. I think more investment is required on the road network</p>	Please share any other feedback you have at this stage.	
2505	<p>Creating 8,000 minimum wage positions on zero hours contracts does very little, if anything, for local people. The UK hospitality industry is already in crisis, with less people now entering the sector, and a huge shortfall in the required workforce following Brexit, the Covid pandemic and this government's approach to immigration. Ultimately, the resort will have to rely on staff commuting in from outside of Bedfordshire and will not directly have a big, positive impact on local employment. An increase of commuting into the area and extra traffic on the surrounding roads with visitors is going to be disruptive for those living close to the park. This will impact our ability to go about our daily lives and our commuting "" a lot of the residents of Stewartby have to drive out to their place of work and this has, since the Hansons Reach development was built, only increased. The increased noise and light pollution will blight the</p>	Would you support a potential park and resort coming to this site? Please explain why.	
140	<p>It's important that the footfall being drove into the area is encouraged through sustainable ways. A free shuttle bus from the near by stations, particularly Bedford would ensure air quality is not negatively impacted for locals and causing traffic jams. Building a</p>	Please share any other feedback you have at this stage.	
488	<p>Bedford is not the right location to deal with the increase in generated traffic, visitors and tourism and is not suitably connected by road and air. Bedford has not much to offer to attract tourism.</p>	Would you support a potential park and resort coming to this site? Please explain why.	
5419	<p>I believe if done correctly this would be a massive benefit to the local area. There is a significant lack of public transport and road network is not the best. These things will have to be MAJORLY improved before a park would be welcome by most people. Local</p>	Would you support a potential park and resort coming to this site? Please explain why.	
1180	<p>Many people seem to be over the moon and happy about this but I am really concerned. I understand why.. economy, jobs etc but Bedford is not a massive town and the infrastructure is terrible all over. The traffic is horrendous as it is. Peak times it takes anything</p>	Would you support a potential park and resort coming to this site? Please explain why.	
4326	<p>It would bring a ridiculous amount of traffic and tourism to a place where people move and live to be away from that. We doesn't want to live in London or have tourists and the public flock every day to</p>	Would you support a potential park and resort coming to this site? Please explain why.	

249	I have mixed feelings because I appreciate it will be great for employment and the local economy but I am concerned about noise pollution and the effect on traffic in the area. I would be concerned	Would you support a potential park and resort coming to this site? Please explain why.
3290	The impact on local residents of increased traffic is always underestimated. The B530 is already massively over-used and suffers from anti-social noise and excessive speed. This project	Would you support a potential park and resort coming to this site? Please explain why.
4150	Major disruptions to the area regarding traffic, noise and areas landscape	Would you support a potential park and resort coming to this site? Please explain why.
4457	NEED MORE INFORMATION HOW IT WOULD AFFECT THE LOCALS WHO LIVE IN THE SHADOW OF THE POTENTIAL PARK. I CAN SEE MANY ADVANTAGES BUT APPREHENSIVE ON NOISE, LIGHT AND TRAFFIC POLLUTION, PLUS WHAT	Would you support a potential park and resort coming to this site? Please explain why.
3709	Personally I would move away from the area as I love Marston Moretaine because it is peaceful and quiet. The park will bring a lot of people and traffic to the area. In saying that I support it as I know	Would you support a potential park and resort coming to this site? Please explain why.
1978	Possibly too noisy, traffic will be a nightmare and people will ignore any 'official' routes and go where their satnav sends them (just like the nearby Center Parcs	Would you support a potential park and resort coming to this site? Please explain why.
160	Provided that it is genuinely environmentally friendly in design and operation, yes, however it is vital that it boost the provision and use of public transport and does not add unduly to the traffic levels in the	Would you support a potential park and resort coming to this site? Please explain why.
3253	Saying yes to the above but as long as there is significant thought and change to the local infrastructure to ensure it can cope with the expected footfall. I have concerns over traffic, noise and pollution	Would you support a potential park and resort coming to this site? Please explain why.
2382	and FAR too close to people's homes in 5 villages The damage to wildlife at Marston forest centre, noise and traffic to residents is unacceptable to think you can destroy the area for profit. Yes to Bedford but No this location. There are far far more suitable locations for the project & you clearly have NOT done the research	Would you support a potential park and resort coming to this site? Please explain why.
2166	Supportive of the project but really concerned about the impact of traffic to the local villages and how this will impact on my ability to commute to my work and go shopping.	Would you support a potential park and resort coming to this site? Please explain why.
2582	will hugely enlarge the traffic. There are a lot of villages nearby that enjoy the idea of living peacefully and this whole project will disrupt a lot of people's lives. It's an area that would be better suited to a more natural approach instead of just filling it up with tourists and destroying the area so your company can make money. There are plenty of areas in Bedfordshire and surrounding areas that would	Would you support a potential park and resort coming to this site? Please explain why.
3870	The distribution, the noise, the increased traffic. I live in a quiet village, I still want to.	Would you support a potential park and resort coming to this site? Please explain why.
4536	The economical and infrastructure improvements are much needed which is advantageous however I feel the construction from this project will be very disruptive to the local community and projects like this always over run. I live in Hansons reach which will be right	Would you support a potential park and resort coming to this site? Please explain why.
3976	The infrastructure is a million miles away from what it needs to be. The infrastructure can barely deal with normal day to day traffic.	Would you support a potential park and resort coming to this site? Please explain why.
2393	The natural way for people from south to reach the park is getting off M1 and driving through Flitwick and Ampthill and the infrastructure cannot cope. The presentations all concentrate on benefits to Bedford but people in central beds have been forgotten The people	Would you support a potential park and resort coming to this site? Please explain why.
151	The park would cause too much impact on the local area with noise and traffic. Local villages would all be subject to excessive noise pollution.	Would you support a potential park and resort coming to this site? Please explain why.

1747	support for your proposal to establish a new park in Bedford. As a resident of the area, I believe that the creation of this park would bring immense benefits to the community and enhance the quality of life for all Bedford residents. Parks play a vital role in providing green spaces for relaxation, recreation, and community engagement. They contribute to the physical and mental well-being of individuals, promote social interaction, and create a sense of unity among residents. By developing a new park in Bedford, Universal UK has the opportunity to make a lasting and positive impact on the local community. Furthermore, the establishment of the new park has the potential to contribute significantly to the development of our transport infrastructure, job market, and education system. By creating a green space accessible by public transportation, Universal UK can help improve connectivity within the city and encourage sustainable modes of transportation. This initiative could lead to the development of new cycling paths, pedestrian walkways, and public transportation routes, enhancing mobility options for residents and reducing traffic congestion. In addition, the construction and maintenance of the new park will generate employment opportunities for local residents, providing a boost to the local economy and fostering community prosperity. Moreover, the park could serve as an outdoor classroom for schools and educational institutions, offering hands-on learning experiences in environmental conservation, biology, and ecology. I applaud Universal UK's commitment to investing in projects that not only	Would you support a potential park and resort coming to this site? Please explain why.
2869	Despite the concerns of living nearby, traffic, infrastructure concerns etc I believe the project would be beneficial for the area. Bedford town centre for example is in dire need of investment and the employment opportunities for the local residents. In my opinion, the	Would you support a potential park and resort coming to this site? Please explain why.
3159	Economic and employment opportunities BUT Bedford Borough MUST commit to road improvement, including dualling the Western Bypass. Roads cannot cope at present so need drastic improvement needed if park goes ahead. Public sector that currently doesn't plan	Would you support a potential park and resort coming to this site? Please explain why.
517	for many years been disregarded and struggled to get its name on the map, we have many major transport links in Bedford, we are in a easily accessible location and have a fantastic, diverse community. The ability to bring something like Universal to Bedford would provide a real opportunity for local residents to gain employment, benefit from extra footfall and have a location to go and spend time with family. My only concern will be in relation to the current road network and the influx of a large number of people, as a police Constable I regularly attend road traffic collisions on the A421, should the park be built the current A421 is not fit for purpose in dealing with the extra traffic congestion, the Marsh Leys roundabout would become gridlocked and there would be a negative knock on	Would you support a potential park and resort coming to this site? Please explain why.
2681	boost. Societal impact - Creating jobs and opportunities for people of all ages is important. Working with community (as proposed) is positive sign of long term investment in the area Transportation - needs to be thought through thoroughly as local transportation (roads & trains) are at capacity as they are now	Would you support a potential park and resort coming to this site? Please explain why.
4978	It would make the area, roads, transport links too busy and ruin the rural aspect of the area	Would you support a potential park and resort coming to this site? Please explain why.

5842	infrastructure problems in this area of Bedford and Marsh Leys area is a particular congestion hot-spot. The enhancement and increased capacity of the highway network in this area would need to come pre and not post development at the developers expense and not dumbbed down or undelivered on viability grounds. If you really are about making Bedford a better place as well as making yourselves	Please explain why	
2862	(thameslink, East Midlands Railway and the potential East-West rail link) will make getting here easy. Also we are 15/20 minutes by train from London Luton Airport providing low cost airlines that can get visitors to visit at affordable prices. We also have a diverse population so would offer an employment pool that represents the UK population. The site is also near the existing Park and Ride facility (think it's called Elstow Park and Ride on the A6) so could	Would you support a potential park and resort coming to this site? Please explain why.	
5375	A project of such magnitude has the potential to boost the economy through job opportunities, and revenues to the local council which then can be used to further develop the region by investing in	Would you support a potential park and resort coming to this site? Please explain why.	
5434	Road, Rail then Bus....	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2383	We would likely be getting the train or driving by car to the site, so this is most important to us.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3105	risks I foresee are transport related: if the park gets a reputation for being difficult to access, and causing local congestion, it will have been a failure. I hope local and central government will provide the necessary support for increased road, rail, and (particularly for workers accessing the park) cycle and bus access to make the park	Please share any other feedback you have at this stage.	
3243	We would be /delighted to have such a great activity on our doorstep. The transport links are great (which is why Milton Keynes is located near here) - ie, M1, Oxford-Cambridge rail line will go by here by the time the site is opened, Luton Airport easily accessible,	Please share any other feedback you have at this stage.	
597	instead of their own cars some sort of reduced ticket prices incentive may need to be made, as at present it is cheaper for a family to travel by car than by train or bus. Also some sort of shuttle bus from Bedford Bus station and or dedicated shuttle buses from areas of Bedford to and from the resort would encourage locals not to travel to the resort by their own car, and also encourage people from further afield like St Neots, and other local towns and villages to use buses to and from the park again with some sort of reduced ticket price incentive to encourage them to use the bus rather than their own cars. With these ideas any buses would need to run	Please share any other feedback you have at this stage.	
5837	(in particular road infrastructure) and whether this would be able to cope with projected visitor numbers. My concern is that the numbers presented do not include potential numbers of staff who will commute from Bedford and surrounding areas including St Neots, Milton Keynes, and surrounding towns and villages. I also have concerns about noise and light pollution in the evenings especially	Please explain why	
3851	I live locally (literally on Brick Crescent, Stewartby looking right at your potential site) and believe this sort of employment would be beneficial for the area. Projects of this kind can have a positive effect on the area (if done right!) and would be expected to bring	Would you support a potential park and resort coming to this site? Please explain why.	

1152	Still not sure what the environmental implications will be for this park and the additional traffic and noise as I live relatively close to the proposed location.	Would you support a potential park and resort coming to this site? Please explain why.	
5104	Stop satnavs from making cut through villages	Please share any other feedback you have at this stage.	
3859	choosing red and orange to make it look like there are many areas within an hour by public transport (actually a lot of the area is orange which is 2 hours), and also Cambridge is not a proper airport so putting that on the map is pretty funny. Some honest mapping and assessment of the fact that almost everyone will arrive by car would	Please share any other feedback you have at this stage.	
PUBLIC TRANSPORT - IMPACT & IMPROVEMENTS (162)			
ID	Comment	Survey question	Response
216	need for prioritisation of public transport target say 80% travel by public transport	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	The proposals for Wixams station include an interchange hub and the safeguarding for an EWR station, where there is a similar opportunity to provide an interchange hub. These hubs will include bus stop provision and associated facilities for local bus services. It will be for local bus operators to decide their routing and timetabling strategy, but the opportunity exists to provide a much more comprehensive local bus network to serve the Proposed Development and the surrounding communities.
3866	It would be nice to better public transport especially for those who decide to work there. Transport that supports all the working hours of the site. Bedfordshire would really benefit from better walk ways and cycle paths too	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
525	Public transport is more important than individual transport options, as that limits attendance	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
938	Local public transport does not currently allow people to travel easily to the proposed site	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2811	It would spoil the peace and environment locally. Particularly impacting on the smaller villages and making an area with transport issues worse	Would you support a potential park and resort coming to this site? Please explain why.	
1185	Public transport links	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2604	The local bus services from the villages of Wootton, Marston Moretayne and other villages to Bedford are appalling, therefore, please take into consideration to improve the employment prospects for those residents please consider	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2884	Bus from Milton Keynes to Universal.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2854	If appropriate effort is giving to protecting and restoring the natural environment and if integrated with public transport then this is a great opportunity for Bedford and the wider area. It will be potentially	Would you support a potential park and resort coming to this site? Please explain why.	
2885	Bus from Milton Keynes to the park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

2371	It would be amazing for the local community ,bringing money and investment to the area , hopefully increasing house prices , road and travel will hopefully improve	Would you support a potential park and resort coming to this site? Please explain why.	
191	Buses should be as much of a priority with this project as the trains, it's a crucial part about how people commute around the area and seeing buses for nearby towns and villages would be amazing	Please share any other feedback you have at this stage.	
2350	Think you should fund an improved train service from Bedford to Bletchley and make all construction teams come by public transport. There are currently poor links from the east to the area so maybe take over the A428 construction compound at st Neots when national highways finished with it as use it as a park and ride site to your site and also an advance check in, base.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
867	park will be funding buses to get staff to/from the site and funding buses to get visitors to the site. Firstly my ask is that staff buses are registered properly as local buses so that the local community can use them as well as staff. This would massively help to improve the local bus network and enable Universal to have a positive impact on the local transport rather than just focussing on rail transport. Secondly, with your transport hubs, I encourage you to have these on a 'pay per use' model rather than concessions or tenders. This would mean that access to the transport hubs is a lot more competitive and opens up many opportunities for national bus and	Please share any other feedback you have at this stage.	
1177	access. Transportation outside London in the UK is quite lacking, busses do not respect schedules and are operated poorly (something not shown on paper but you can experience it once here). The train network is very chaotic and because every line is operated by a different company the websites and the ticket purchasing experience is very stressful and confusing especially for people coming from abroad. There should be a way clearer way to buy return tickets for the parks, maybe a dedicated part of the website or something similar to really make the Universal experience go smooth. Especially during peak time. I think the RerA to go to Disneyland Paris has a way easier and good example of connection. Often happens in the UK that instead of a walk of 15 minutes you have to take a bus for 45 minutes becapsease add a walking accuse a big road you cannot cross is in the middle. Since there are multiple villages in walking distance from the site, ess.	Please share any other feedback you have at this stage.	
1617	The local public transport infrastructure is unreliable currently, I would like to see dedicated public transport to the site from rail links be part of the proposals, which has the ability to be greener than the	Please share any other feedback you have at this stage.	
3360	It would bring so many amazing opportunities to the area! Nice to have the extra funding for local highways and wildlife conservation	Would you support a potential park and resort coming to this site? Please explain why.	

1787	<p>if travelling as a group. I believe the transport models significantly underestimate the volume of visitors who will come by road. This is particularly worrying as the local M1 junctions (12,13 & 14) are already at capacity. Extensive traffic modelling would be required to consider the increased traffic caused by the park and the cumulative effect created by planned developments, not only in Marston Vale but along the entire length of the Oxford to Cambridge Arc. The A421 is only a 2-lane dual carriageway with frequent accidents resulting in road closure and/or congestion. The alternative route to the proposed park would involve local B-roads that would be wholly unsuitable. Significant consideration would need to be given to alternative route access to the park to ensure that local settlements e.g. Cranfield, Stewartby, Lidlington, Marston Moretaine, Salford etc, do not experience increased traffic. The proposed new A421 junction does not provide well enough for traffic accessing the site from the East(i.e A1). Consideration also needs to be given</p>	<p>Please share any other feedback you have at this stage.</p>	
3684	<p>The road network is likely to be the most used route for UK residents so minimising the impact of traffic on local people is key. Either by implementing a road network that can handle the traffic or by having a park and ride service that is easily accessible for when the park opens.</p>	<p>We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?</p>	
1888	<p>I hope the infrastructure for transport increases price services, such as increased bus access and train access preferentially with</p>	<p>Please share any other feedback you have at this stage.</p>	
1898	<p>a large proportion of people to use public transport to reach the park. All other parks in the UK are really only accessible by car. Could a subsidised/free bus or train ticket be used? We get a lot of rain here and it does get very cold and miserable for a significant part of the year, indoor areas might worth considering to make the park a year round thing. A lot of other parks (Alton towers, Thorpe park ect.) close for 3 months of the year. Opening hours at the parks here are also quite short, even in the summer. Having long opening</p>	<p>Please share any other feedback you have at this stage.</p>	
2350	<p>see you partner with train operators to fund 1/2 price train travel for your workers within 30miles to encourage them out of the car. With a train operator or an open access operator run 'universal express train service'*from London St Pancras international station and Luton airport parkway direct to your site. Some funding towards the next part of the east west rail project from Bedford to Cambridge. Have a off site park and ride / check in facility near the A1 / A428 junction where people from the east can check in with you and then</p>	<p>Please share any other feedback you have at this stage.</p>	
2607	<p>I feel this would be great for bedford with the right transport in place.local buses stopping near the park would be a bonus instead of local people having to pay carpark.Good look with this project</p>	<p>Please share any other feedback you have at this stage.</p>	
3382	<p>would be great to have convenient walking and public transport routes direct to the site. I would love if the plans could also incorporate an entertainment venue to put on shows such as music, boxing, wrestling etc (similar to the O2 Arena) as another part of the development. This would help generate interest in the site throughout the year. As a member of Bedford's Italian community I would be more than happy to discuss the unique history of Italians in</p>	<p>Please share any other feedback you have at this stage.</p>	
3491	<p>I would love a universal park in the uk. We have great public transport and roads and think this is a great site for it.</p>	<p>Please share any other feedback you have at this stage.</p>	

307	Safety, local transport links	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
867	try and get construction workers to site via public transport. Also, there are disused rail sidings just to the south of the site, where possible, Universal should look to bring these rail sidings into use and then use freight trains to get materials to site. While yes there will still be disruption and trucks getting stuff from the sidings to the Universal site, the more goods transported via the rail system, the less HGVs that will be flooding the local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2868	Work with the council and try to work outside of rush hour. Have dedicated busses and trains so it doesn't get in the way of commuters; it could be worth having a park and ride outside of the area to help with traffic flow	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4234	It would give the local economy a much needed boost and provide secure employment, improved road/rail network and be a positive impact, putting Bedford back to the forefront where it has sat in the	Would you support a potential park and resort coming to this site? Please explain why.	
3907	Running free buses from hotels may prevent major traffic building up on roads. It would be good to have a road within the site so traffic can queue there without too much building up on the roads around here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2389	Really consider the commuters - it's hard enough dealing with commutes to the station, maybe offer a commuter shuttle bus? £8/day parking, missing trains because of diversions and construction traffic, a free shuttle could go a long way to offer support and relieve stress but also bringing the community together with some great brand awareness	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3545	Please I ask you would work with local transportation companies within Hertfordshire to bring a frequent bus service to the site.	Please share any other feedback you have at this stage.	
F6191	While construction takes place, perhaps extra local buses would help residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3245	put on additional bus services to reduce vehical numbers on roads for the local community.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3125	Employment opportunities, and improved travel infrastructure will benefit most people especially small businesses	Would you support a potential park and resort coming to this site? Please explain why.	
5032	Public transport improvements, minimisation of light and of noise pollution.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5441	Sustainable Transport	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5329	There should be at least a two lane (dual carriageway) slip road to/ from the A421, to/ from the resort. There should be shuttle buses to/from the resort serving all areas of Bedford, as well as from Bedford Bus Station.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5233	Coaches for longer distance for example Scotland	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5137	Public transport in the UK is pretty terrible the further you get from London. Good, reliable transport options from further North would be brilliant!	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5049	ensure that it is actively involved in persuading East West Rail Co, that a route through" Bedford is not necessary and that Route E will do nothing but create wanton devastation to Bedford Town and the landscape to the north of the area including the destruction of houses. A southern route will be far more beneficial to Universal and ease of transport for your customers. Please use your influence accordingly. The completion of the A421 dual carriageway to	Would you support a potential park and resort coming to this site? Please explain why.	
5043	i am extremely worried about traffic, and noise and light pollution from such a huge development. We will have hundreds of extra vehicles in the area 365 days of the year. In Wootton we truly will	Would you support a potential park and resort coming to this site? Please explain why.	
234	Overnight construction where possible not done at the same time as other roadworks. Provide direct route from M1 and A421 into Universal to minimise impact on other traffic and utilise park and ride from Elstow and Wixhams to provide bus connections directly linked to existing infrastructures. This would help reduce congestion and be more environmentally friendly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1693	Park, also maybe have fast frequent electric trains to the resort from London and Most Cities within the UK, also maybe have a Bus station at the Park for local Bus, and Regional Coach services to the Resort as an Suggestion as well. As some people don't have cars, so you want to make it easier to get to and from the Resort for them.	Please share any other feedback you have at this stage.	
356	How you would manage traffic disruption, noise, manage damage to existing transport networks and how you'd keep sites clean (e.g. dust, mud on roads from lorries, fix inevitable damage to existing roads). The development will impact inevitably forever, so if this can be minimised from outset, it would be great.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1701	EV charging facilities or a park and ride function. We are an all electric family and consider the environment in all we do, however, the UK theme park world is very slow to accept customers with EV's, so it would be fantastic if you paved the way in this area. It would certainly encourage us to visit more often. Thank you for	Please share any other feedback you have at this stage.	
1043	You should consider using the existing park and ride (Progress Park) as an additional car park with either a shuttle bus or walking route to the park. This could provide revenue for Bedford Council plus ease congestion on the proposed infrastructure improvements	Please share any other feedback you have at this stage.	
2220	Maybe free park and ride busses around the area might help by stopping cars going into town centres	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1091	Improvement to the bus services would be needed to bring people from other stations like Bedford/ Flitwick station. Local bus routes would need to be introduced for employees and locals to and from	Please share any other feedback you have at this stage.	
838	Create new bus line to brings locals to the resort and also some additional one to bring people from the airports.	Please share any other feedback you have at this stage.	
4346	How visitors per day by car, bus, or train? How long will development take? How tall will the development be? We don't want	Please share any other feedback you have at this stage.	
153	place where people can come to Bedfordshire and have a wonderful holiday. This would be a great development on a brownfield site which we know would be great for the economy . The site is a perfect given the excellent transport links, major airport a short distance away in Luton. It is very close to London and the international attractions and is perfectly located to be an attraction to tourists staying in the area. We have the midlands and the north in	Would you support a potential park and resort coming to this site? Please explain why.	
690	I will support many reasons There's many new developments coming up in the area, it would help the population with jobs, kids will have fun ,public transport and the rest	Would you support a potential park and resort coming to this site? Please explain why.	
900	would be transformative for the area's stature, attracting tourism and further commercial investment. The infrastructure improvements, if implemented well, would provide a significant transportation and environmental benefit to residents, particularly if additional bus services could reduce the vehicular traffic in the area. And new full	Would you support a potential park and resort coming to this site? Please explain why.	
907	distribution site. It is a barren and uninteresting piece of landscape . I would welcome something exciting like a theme park - it would inject some life into the community, provide much-needed jobs - especially for young people - but most of all I am impressed by the way you landscape your theme parks. I think it could actually be quite beautiful ! With plans for better walkways and public transport	Would you support a potential park and resort coming to this site? Please explain why.	
913	I think the area could do with the boost to jobs and tourism as well as benefitting from better public transport links generally	Would you support a potential park and resort coming to this site? Please explain why.	
1033	It would create a long term benefit to the local economy, improve some transport links and make great use of the site.	Would you support a potential park and resort coming to this site? Please explain why.	
921	It's brownfield land that needs developing, will receive upgraded transportation, will provide massive job boost.	Would you support a potential park and resort coming to this site? Please explain why.	

937	new projects are always canned due to the concern of some random local residents who are in the minority. It would be huge for the whole country, not just the theme park industry, if an exciting new job-creating infrastructure-improving project actually went forward, and would hopefully set a precedent for the future.	Would you support a potential park and resort coming to this site? Please explain why.	
1110	transport network. Along with creating many new jobs and having a positive impact on the local area, this positive impact will extend much further around the country prompting existing theme parks and attractions to invest further creating a friendly competition and in turn more jobs and benefits the local economy around them.	Would you support a potential park and resort coming to this site? Please explain why.	
1156	It will create a lot of jobs, 20k construction jobs plus 8k operational jobs, it will support transport companies and created a lot of tourism to the country. As long as the environment is not made worse than it	Would you support a potential park and resort coming to this site? Please explain why.	
1159	Its something that will be bring a lot of joy to people of the UK (and abroad) it will help to secure the future for the Bedford and surrounding areas and with help both economically and create much needed jobs and career prospects for the local community. It will	Would you support a potential park and resort coming to this site? Please explain why.	
1181	I believe it would be good for the local economy with jobs and security for many, the improved transport links can only be a good thing	Would you support a potential park and resort coming to this site? Please explain why.	
1245	It would be great for developing and helping the local areas, new jobs, better transport links, help with local business, training, tourism increase and would love to see a Universal Theme park in the UK	Would you support a potential park and resort coming to this site? Please explain why.	
2866	Jobs are needed, But the main point would be to raise the profile of Bedfordshire and west Cambridgeshire. As well as the existing good transport connections, the new Caxton Gibbet to Black Cat	Would you support a potential park and resort coming to this site? Please explain why.	
3880	full-time jobs once operational. This significant employment opportunity could greatly benefit the local community by reducing unemployment rates and providing stable income for residents. Economic Growth: The development of the park and resort would likely boost the local economy by attracting tourists, increasing footfall to existing businesses, and stimulating spending in the area. This influx of economic activity could lead to further investment opportunities and business growth. Infrastructure Improvement: The project aims to unlock major investment into local infrastructure. This could result in improvements to transportation networks, public facilities, and utilities, enhancing the overall quality of life for residents and visitors alike. Tourism Boost: A park and resort in Bedford could become a significant tourist destination, drawing visitors from across the UK and even internationally. This influx of tourists not only supports local businesses but also showcases the unique attractions and offerings of the region. Diversification of Offerings: Introducing a park and resort adds diversity to Bedford's tourism offerings. This could attract a different demographic of	Would you support a potential park and resort coming to this site? Please explain why.	
2875	Employment opportunities, improve transport links, increase leisure opportunities within the area	Would you support a potential park and resort coming to this site? Please explain why.	
4356	I am very excited about this possible opportunity I can see the benefits a park would bring creating jobs for the area and with our good transport links eg bus, safe cycle links and rail it would give	Please share any other feedback you have at this stage.	
4977	It would bring huge benefits in terms of new jobs, training opportunities for younger people, and much-needed improvements in transport infrastructure. Our executive committee (of BAALHS) discussed your proposal at length and decided to give it our	Would you support a potential park and resort coming to this site? Please explain why.	

4992	I love Universal Studios parks, it would be a great asset to have locally, help improve transport infrastructure and bring lots of employment opportunities	Would you support a potential park and resort coming to this site? Please explain why.	
4986	recent years through investment. With that investment came huge growth in terms of business hubs, situating themselves on the outskirts of the town, taking advantage of the superb transport links, certainly the road network. Construction is a byproduct of progress the long term benefits always outweigh the short term discomfort, as had been proved with the current industrial expansion and employment opportunities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3923	A great opportunity for Bedfordshire to create many jobs and it would be an incredible tourist attraction for the UK. Also, Bedfordshire is a great location with close transport links to London	Would you support a potential park and resort coming to this site? Please explain why.	
3950	Central Bedfordshire would benefit significantly from having such a venue on the doorstep. The long term investment in not just jobs but the impact on local services sounds positive and I fully support that. Your proposal talks heavily about invest into transport and local	Would you support a potential park and resort coming to this site? Please explain why.	
3246	employer who understands the benefits of investing in its people. Secondly, once established, this may attract other high class companies to take a look at locating operations in this area, especially given its excellent schools, transport links, etc. Finally, and less obviously, Bedford lacks a bit of self-belief in itself. I spent 30 years living in Edinburgh and 25 years working in London, both world-class locations. My 20 years living in Bedford have shown me that it too has great attributes including a lovely river-front, nice countryside, a long history and good people. If you are seen to incorporate ways to make it easy for your visitors to also come into	Would you support a potential park and resort coming to this site? Please explain why.	
3183	exceptional logistic location for the sheer amount of people that could potentially visit it. Although because of that it's falling into only really providing logistical jobs within warehouses, the modern work house outside of a call centre, which in turn don't provide many routes for advancement. Your proposal of jobs and training and if used to catalyse further and existing developments of creative	Would you support a potential park and resort coming to this site? Please explain why.	
4910	I believe it will improve visitors to the area, which in turn will help the local economy. It will create new jobs and also improve the local transport systems	Would you support a potential park and resort coming to this site? Please explain why.	
2555	I can't see many negatives to this proposal. It will create thousands of jobs, improve local transport and as a theme park enthusiast gives people in the UK the chance to experience a universal park. It	Would you support a potential park and resort coming to this site? Please explain why.	

2365	<p>Since I was 3 years old every few years I have travelled to Florida to go to universal. Universal is a place for everyone and lots of fun and you make magical memories that last a lifetime, every time you go more memories get made and every time is different, you never get bored! To have universal on our doorstep would be a wonderful opportunity. The location is a sensible place, with good transport links and waste facilities nearby. Bedford is my hometown (I still live local) but I'm sad to return to its centre as once a vibrant town centre now hardly anyone goes there to shop, lots of shops lay closed and empty. Having universal on its doorstep would be a game changer economically for the local area. I know when I go to universal in Florida most of my time is also spent exploring Orlando and shopping, eating so having universal in Bedford would massively help our local areas economically. The jobs it would bring to the local area would help every generation. It's such an exciting opportunity for our local people. If you are worried about traffic doesn'tbe, I've always driven in a car to Florida universal and have never sat in a queue or been affected be one, the universal staff are fully experienced at getting everyone where they need to be without affecting roads! I'm sure universal will have their own trains so no one is affected train route wise. Reading about how Universal will help our local area too is really refreshing that a big company has chosen our area to invest. Working with local ecology and wildlife is great although I doesn'tthink much exists there at the moment as it's a bit scrub land and probably has some contamination issues, so</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4390	<p>truly love the immersive environment and atmosphere that Universal is able to create. There is no other park like it here in the UK and to be able to visit somewhere as an adult that let's you let go and live your inner child is truly magical. We also don't have a lot going on around this area for local couples, families and kids so offering a new theme park and entertainment complex would in some respects be life changing for our communities. All of the advancements to the transportation networks would vastly improve the local area, the</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3898	<p>I think it is a really good opportunity for the local are to receive some much needed attention to local infrastructure and will be great for creating jobs in the area. It is an excellent location with good transport links so improving these for the local community will be a</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	

2590	Having grown up in the area, some small improvements have been made but the only significant changes to the area have been increases in housing without any real investment into improving transport facilities & roads. The area was not particularly to grow up in and would often require us to travel away from the area for leisure however this would instead reverse this so that not only do we stay in the area with lots to do but would also draw others to here as a desirable and interesting location. I feel that economically, it will be tremendous for the area. Creating thousands of jobs, directly but also boosting house prices due to the proximity and the additional infrastructure, allow people to pursue their own business ideas in the area due to a guarantee of consistently high potential customer numbers. It will also be a boost for existing local and larger businesses such as the Centre Parcs Woburn Forest as a prime example. From having attended the consultation today, I can also see that extensive research has been done on the impact it would have on local traffic which does not appear to be an extreme amount but even if so, would be flowing in the opposite direction of my workplace so would not significantly impact the occasions where I do go on site to work. I think finally, another benefit it will bring is that I genuinely believe it will allow people in Bedford and the	Would you support a potential park and resort coming to this site? Please explain why.
4273	local economy, improve the road and transport network. The park would attract jobs which would boost local house prices. So long as the developers truly invest in local infrastructure, mainly roads and rail, I support this. It would also be good if investment funds went to the local town centre to develop restaurants, bars, shops etc.	Would you support a potential park and resort coming to this site? Please explain why.
4896	creating lots of jobs and opportunities for the local community and tourism, providing economic benefits to the area. We also have great transport links so it's a great place for it to be. It would also provide local residents something to do on a regular basis which is currently lacking in Bedford. I also love theme parks so really want	Would you support a potential park and resort coming to this site? Please explain why.
4118	rail M1 and airport. With expected links between Oxford and Cambridge this can only be a benefit to much loved Bedford. I speak with younger generation who are finding it hard locally in respect to Jobs and employment, this project is very favourable. Years ago we lost out on the Nirex project on the same site, it would be disheartening if this project did not go ahead. Not forgetting it will so	Would you support a potential park and resort coming to this site? Please explain why.
1901	It will create many jobs, good for economy, will bring a lot of tourism, will upgrade an often forgotten town, improve the rail network (hopefully).	Would you support a potential park and resort coming to this site? Please explain why.
1966	It would be a major tourist attraction, and would get people moving away from London which will hopefully allow for currently underused transport routes to be used. Besides this, it will create so many jobs for the local area and give young people especially a sense that they	Would you support a potential park and resort coming to this site? Please explain why.
4651	industry which is significantly lacking in this part of the country. It would rejuvenate the area and bring in fantastic economical opportunities. Development to transport infrastructure is also a great bonus. As someone who enjoys theme parks and is local this is very exciting and would certainly visit as a guest and maybe as an	Would you support a potential park and resort coming to this site? Please explain why.
1946	It would create so many jobs, help the area transport wise and who wouldn't want a universal theme park in there back yard I've been to the one in Orlando it's magical it would do so much for our country	Would you support a potential park and resort coming to this site? Please explain why.
2722	It'll bring jobs to the local area, improve the rail links and its something for all the family	Would you support a potential park and resort coming to this site? Please explain why.

4104	Oporutnies for local jobs. Potential to improve road and rail networks	Would you support a potential park and resort coming to this site? Please explain why.	
3883	Our area of the uk has been lacking this kind of investment for many years. It's an ideal site for development with great road links. The jobs would be an enormous boost for the local communities.	Would you support a potential park and resort coming to this site? Please explain why.	
4902	Regenerate the whole area creating new jobs and improving transportation links. Putting the area on the map	Would you support a potential park and resort coming to this site? Please explain why.	
3205	The area already has good connectivity infrastructure (roads, rail and airports) with rail and road improvements well underway. This project would be magnificent for the area economy, with increase in jobs, hotels, restaurants and bringing tourism to the area. I	Would you support a potential park and resort coming to this site? Please explain why.	
2470	The economic benefits to the town, new jobs, tourism and also the improvement of transport links In the town and also improved roads.	Would you support a potential park and resort coming to this site? Please explain why.	
2467	The jobs/ economic benefit to the area would be long reaching, and improvement the rail and road network would help the local residents as well, particularly the rail network	Would you support a potential park and resort coming to this site? Please explain why.	
2004	The local - and national - benefit of this park will extend to jobs, business opportunities and an improved travel infrastructure	Would you support a potential park and resort coming to this site? Please explain why.	
2069	improvements to the local area and community is absolutely what it is needed in the UK. I think it would enrich the lives of a lot of people bringing not only new jobs but the chance to have a career and know your hard work will actually achieve something rather than being another cog in a machine. To have a Universal attraction in the UK will be such a relief to escape the everyday grind that will be much more accessible and affordable as not everyone is able to visit another universal park around the globe. Our road and transportation network is in desperate need of improvement and the	Would you support a potential park and resort coming to this site? Please explain why.	
2623	The transport upgrades the park would bring would benefit the area. So too would the jobs.	Would you support a potential park and resort coming to this site? Please explain why.	
3155	Park & resorts. It would be ideal to build near Bedford, only 1 hour from London. Bedford is a great location, the town, county, and surrounding areas is good all rounder place to live & develop. Excellent transport links & the weather is really good compared to other areas of the UK. I live in Bedford & can say there is a lot of hype & excitement for this project to go ahead & become a reality! With the extra jobs, tourism, economic benefits it will be bring, a	Would you support a potential park and resort coming to this site? Please explain why.	
4794	investment and skilled jobs for our younger generation for many years. Bedfordshire is a perfect location as there isn't any other theme park within this area and has already good transport links. Having visited your current theme parks on many occasions in Orlando Florida I understand the Universal ethos and how you strive for excellence and would create a destination not a typical theme park. (VelociCoaster - awesome!) The heritage around Bedfordshire would be fitting for such a prestigious company as Universal to create its first theme park in the UK. Also, the fact you've chosen a site that has been left to waste away from its previous use rather	Would you support a potential park and resort coming to this site? Please explain why.	
1680	This is the future for the younger generations, jobs and opportunities to learn. And it would bring more community's together. I am on the East coast and the thought of better transport to the areas is good	Would you support a potential park and resort coming to this site? Please explain why.	

3900	This park would significantly benefit the local and wider economy and bring much needed jobs and tourism to the area. It is located near to major road networks and potentially the Wixams train station.	Would you support a potential park and resort coming to this site? Please explain why.
4602	business and jobs this will bring. Being right in the heart of England, the location is ideal with transport links to very many major cities. Having visited the amazing Universal Orlando and California sites many times, I am confident the project team will deliver a high quality product and I will personally be looking out for local jobs to	Would you support a potential park and resort coming to this site? Please explain why.
2350	This will bring a major tourist attraction to the uk. I like the location, it's away from London so as not to affect traffic around the capital. When east west rail is completed it will have good transport links.	Would you support a potential park and resort coming to this site? Please explain why.
2950	To have something like this on our doorstep will be so exciting! Not only as a place to visit, but also for all the jobs it will create, and the money invested into the area. Also looking forward to improved	Would you support a potential park and resort coming to this site? Please explain why.
4570	better transport connectivity which improves our lives. It also improves the wealth in an area that feels like it's on a down. 8000 jobs would improve Bedford, but please use cycle paths from villages like shortstown so staff can cycle / run / walk to work, take pressure off the roads, make living and working locally possible and	Would you support a potential park and resort coming to this site? Please explain why.
5875	(stagecoach) runs from Luton to Bedford, going to local villages on the way could connect to the new station. hopefully with help of bus companies that living in a village nearby we can get to the resort without using a car or the train if not possible, or more way for people who would work at the resort to get mini busses or other modes to commute to the new resort (similar to what Amazon does	Please share any other feedback you have at this stage.
5627	I cannot stress enough how much the train connections matter: being able to take public transport to a world class theme park is a	Please share any other feedback you have at this stage.
5966	I'm hesitant about the increased traffic and flow of people via rail	Please expain why
5979	To bring employment opportunities and funds to improve local roads	Please expain why
5511	Set rules to avoid increased traffic caused by visitors, to avoid parking by park visitors in the surrounding areas causing issues for residents and to avoid noise pollution	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
5521	Anything to make the park accessible from as many places as possible via public transport	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
5861	Too much noise and light pollution. Rail route currently being forced through by E/W rail doesn't help any footfall for this area. A rethink to used a rail route south of the river would allow a station	Would you support a potential park and resort coming to this site? Please explain why.
4671	Although it's great for the local Economy, living less then a mile from the site does make me worry about traffic for me to get around and to work (the M1 and A421 are busy enough as it is) also the noise from the park and the potential to devalue my property because of	Would you support a potential park and resort coming to this site? Please explain why.

847	and the effect the park might have on traffic in the area. The roads are in a poor state of repair and there always seem to be works causing headaches for local commuters. At the moment the traffic noise is acceptable, but your main entrance is planned parallel to the estate I live on with only the A421 separating us -that is a concern as I don't want to be able to see or hear additional traffic. I moved to the area because it was more rural and the plans are potentially conjoining three villages and creating more traffic noise potentially detracts from the setting - although I suppose if the effect is the houses prices go up I can always move. However, on the positive side if more money is invested in the local road infrastructure to minimize traffic congestion and pollution, improve public transport/cycle routes and ensure that the rural character and	Would you support a potential park and resort coming to this site? Please explain why.	
680	location for allowing people from far and wide to visit via public transport, particularly via the 2 train stations you are proposing. For the East West rail line, I think the currently proposed but as yet, not built connection to the East Coast mainline at Tempsford is crucial as allowing for a single change there opens up so much of the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
2547	what I have seen. I was concerned about traffic but I have seen that you plan to create seperate exits off the M1 and then have any queueing traffic within your own boundaries rather than on local roads. You seem to have properly considered public transport as well. I was concerned about noise but I understand that you create your lands so that the noise and light stay inside each land. The lady I spoke to asked about my own experience at Universal in Orlando. Could I hear Harry Potter noise from Jurrasic World and my answer was no. I am also exited about the job and training opportunities for	Would you support a potential park and resort coming to this site? Please explain why.	
4143	However there are a few concerns I have. 1.Firstly the local transport infrastruture (particularly public transport like trains/ train stations) will need to be upgraded as mentioned in info leaflet. These projects like ewr will take many years to develop before benefits are seen. These projects (including upgrading kempston hardwick station) will need to be implemented quickly. The info pack states 10% of people not including passengers will be travelling in cars and 30-40% will take public transport. This figure seems optimistic regarding the high use of public transport. High train fares mean most people don't bother taking them and the UK population unfortunately still rely on cars are their main source of transport. Also if locals want to walk to the site for work or other purposes, footpaths/ bus routes eg from Wootton will need to be created as the current walking infrastructure is either non existent, not safe or not fit for purpose. How will you implement walkability to and from the site? 2. The new junction off the A421 is likely to create additional noise pollution from the traffic. This may impact the health of the locals so sound barriers would be a welcome addition (these have already shown effectiveness for wootton). 3. The existing A421 northbound slip road which feeds onto the Branston way (A6) nearby	Would you support a potential park and resort coming to this site? Please explain why.	
4578	As above, but the site would be easily accessable to all parts of the UK, in between two major motorways, mainline train and also easy access to three airports Luton, Stansted and gatwick	Would you support a potential park and resort coming to this site? Please explain why.	
4042	Local economic benefits, potential for other tourist attractions to consider the area, good transport links to much of the country	Would you support a potential park and resort coming to this site? Please explain why.	

F6224	Promising proposal - I recognise the potential for benefit to my area. Concerns - how will this project enhance local environmental spaces/habitats? Will the environmental statement be made public? Enabling works (planned much sooner) may also have unintended	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
140	It's important that the footfall being drove into the area is encouraged through sustainable ways. A free shuttle bus from the near by stations, particularly Bedford would ensure air quality is not negatively impacted for locals and causing traffic jams. Building a	Please share any other feedback you have at this stage.	
1979	bring them on site. Ensure that the local communities are not affected by people parking in their villages so they don't need pay for parking or train travel. Consider requesting that the local bus routes at peak times stop to utilise their transport. le first couple of hours and last couple of hours that could take people to Bedford or Milton	Please share any other feedback you have at this stage.	
F6149	Increased traffic / increased train fees!	What is the most important consideration for you when considering a potential theme park and resort in Bedford?	
160	Provided that it is genuinely environmetally friendly in design and operation, yes, however it is vital that it boost the provision and use of public transport and does not add unduly to the traffic levels in the	Would you support a potential park and resort coming to this site? Please explain why.	
2538	Improving local co-ordinated transport links	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3860	Improving and creating better transport links.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2925	giving a source of pride. - better transport	Please share any other feedback you have at this stage.	
2681	Most important consideration is improving transportation links to and from park	Please share any other feedback you have at this stage.	
3089	Not many Housing problems small hospital transport not reliable like train bus not exactly to good service	Would you support a potential park and resort coming to this site? Please explain why.	
3867	To improve the local economy and improve transport links.	Would you support a potential park and resort coming to this site? Please explain why.	
3999	It's too close to communities, it would change our homes and drive up the prices of transport, as well as causing massive inconvenience during the construction stage	Would you support a potential park and resort coming to this site? Please explain why.	
5375	A project of such magnitude has the potential to boost the economy through job opportunities, and revenues to the local council which then can be used to further develop the region by investing in	Would you support a potential park and resort coming to this site? Please explain why.	
4010	Economic, social, and transport infrastructure benefits	Would you support a potential park and resort coming to this site? Please explain why.	
5434	Road, Rail then Bus....	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5040	Have good transport links. Your gonna have loads of residence and tourist from major cities coming your way. Ensure u can facilitate that. Without it breaking the bank. WE ARE IN A COST OF LIVING CRISIT!!!!	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

2370	The local transportation links won't fulfil the needs of this project	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2854	Improvements need to be integrated existing and planned local transport. Must support local connectivity as well as trips to the site.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1298	All transport upgrades are important. if this themepark opens i will be visting form the north of england so will use my car but also public transport if the right infastructure is implemented	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3668	Introduce a FREE "green" tramway service or electric bus service for the few visitors wanting to travel into town for limited shopping and or hotels, all subsidised by your profits. There's been talk of a possible new railway linking Milton Keynes to Cambridge which	Please share any other feedback you have at this stage.	
3821	Consider direct transport from nearby towns for workers such as Luton, Milton Keynes etc.	Please share any other feedback you have at this stage.	
3990	It should be considered whether transport is available as many in uk will be wanting to visit for a day or weekend	Please share any other feedback you have at this stage.	
3105	risks I foresee are transport related: if the park gets a reputation for being difficult to access, and causing local congestion, it will have been a failure. I hope local and central government will provide the necessary support for increased road, rail, and (particularly for workers accessing the park) cycle and bus access to make the park	Please share any other feedback you have at this stage.	
697	Excellent idea, hopefully local residents will embrace it, I think you need to provide improved transport links that benefit people not using the park, have small areas for local residents to walk in external to the park which could form part of the sound barrier to	Please share any other feedback you have at this stage.	
597	instead of their own cars some sort of reduced ticket prices incentive may need to be made, as at present it is cheaper for a family to travel by car than by train or bus. Also some sort of shuttle bus from Bedford Bus station and or dedicated shuttle buses from areas of Bedford to and from the resort would encourage locals not to travel to the resort by their own car, and also encourage people from further afield like St Neots, and other local towns and villages to use buses to and from the park again with some sort of reduced ticket price incentive to encourage them to use the bus rather than their own cars. With these ideas any buses would need to run	Please share any other feedback you have at this stage.	
2698	It's baron land anyway & I'm confident you'll invest in the transport infrastructure	Would you support a potential park and resort coming to this site? Please explain why	
5512	I am looking forward to this and fully support the project. I hope you take into consideration the local wildlife. Also encourage as much	Please share any other feedback you have at this stage.	
4147	travel agent, I would love to see this in the UK. All too often the UK gets overlooked for major attractions, case in point being the park in Paris, but relatively close proximity to Leavesden & Elstree studios and the hangars at Cardington make for an almost central location ideal for the project. Some improvements to the existing transport links would also assist in this. Much needed employment and revenue streams would put life back into an area once thriving with	Would you support a potential park and resort coming to this site? Please explain why.	

3851	I live locally (literally on Brick Crescent, Stewartby looking right at your potential site) and believe this sort of employment would be beneficial for the area. Projects of this kind can have a positive effect on the area (if done right!) and would be expected to bring	Would you support a potential park and resort coming to this site? Please explain why.	
4599	It creates important competition within the uk theme park industry and provides a high quality employer for the region. And increase in investment into transportation and a use for EW rail	Would you support a potential park and resort coming to this site? Please explain why.	
197	I think it would be cool if the park implemented the Personal Rapid Transit pods like those used in Heathrow T5 to transport guests between the site entrance, carpark and transport hubs etc, as this would help guests with mobility issues as well as investing in an	Please share any other feedback you have at this stage.	
1843	Transportation links are absolutely vital to ensure reliable services to encourage repeat business.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3309	Improving the connections to London	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3689	Routes into Bedford and routes to theme park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2531	Ensuring hubs in South and East Midlands are well served	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1794	Improving routes from north to south england	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1942	Considerations for those living outside of England, currently transportation journeys take at least 6 hours (Central Belt of Scotland) and over 4 hours (most central point in Wales).	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1834	Transportation links are absolutely vital to ensure reliable services to encourage repeat business.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3859	choosing red and orange to make it look like there are many areas within an hour by public transport (actually a lot of the area is orange which is 2 hours), and also Cambridge is not a proper airport so putting that on the map is pretty funny. Some honest mapping and assessment of the fact that almost everyone will arrive by car would	Please share any other feedback you have at this stage.	
216	I believe that there are significant positive benefits for the local area and more widely - this is a project of national significance. Sustainable transport and development should be prioritized to	Would you support a potential park and resort coming to this site? Please explain why	

1942	of what you hope to accomplish I was incredibly impressed with the strategy and straightforward approach to impact of the surroundings such a development would bring. However I did notice it was mentioned that many people weren't much further than two hours away, I'm sure this information is accurate, however I do wish to impress the importance of those who live FURTHER. Your resort will be very much somewhere EVERYONE within the UK (and beyond) will wish to visit, this includes Wales and Scotland. Though both have much smaller populations in comparison, they're relatively close and as such transportation should also encourage visitors who could potentially face a longer journey to visit. I'm aware that the level of impact you can provide on this matter is limited, though i	Please share any other feedback you have at this stage.	
4523	I need more information regarding rail links, road links and general transport	Would you support a potential park and resort coming to this site? Please explain why	
RAIL - IMPROVING CONNECTIONS, CAPACITY AND RELIABILITY (118)			
ID	Comment	Survey question	Response
175	Strong railway connections with train times that reflect opening hours	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	<p>UDX has worked closely with the Department for Transport (DfT), East West Rail (EWR) and Bedford BC to develop a comprehensive approach to improvements and upgrades to rail infrastructure. This includes upgrading the proposed Wixams station from 2 platforms to 4 platforms and providing a Western Plaza with direct last mile connections to the ERC.</p> <p>The proposals also include the safeguarding of land for a new EWR station directly serving the ERC, as well as the local community. UDX has also investigated the potential for bus or coach shuttle services from other key stations, such as Milton Keynes.</p> <p>Working with the DfT, EWR and Bedford BC UDX has investigated the operational capacity of the railway lines, station capacity and train capacity, and believe the proposed trip forecasts can be accommodated by the proposed rail infrastructure improvements.</p> <p>Additionally, because UDX's demand is largely counter cyclical, it will have the added benefit of filling empty trains leaving London in the mornings.</p>
169	Increase trains to bletchley.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
594	A direct monorail/train to the nearest airport. International visitors will find this useful	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
612	Having more trains transport over the weekend as well, to Milton Keynes and other areas	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2314	Effect of locals, local areas , major traffic congestion at peak times which we already have a problem with, bringing more crime to area, noise pollution	Would you support a potential park and resort coming to this site? Please explain why.	
886	Congestion in the local area	Would you support a potential park and resort coming to this site? Please explain why.	
1835	Increased job opportunities, filling seats on otherwise quiet rail journeys and maximising the benefits of travel by train, bringing an exciting and beneficial experience seen nowhere else in the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
1084	Look at rail network from scotland , if you can bring a train from Scotland straight to universal uk without changing train	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

608	build. There is already a wind turbine in Marathon Moretaine, it would be great if more could be added although I recognise the sight of it may not fit with the parks plan. I would also like to see the inclusion of as much solar power as possible. I believe solar canopies in the car park offer shade for cars/people that would be appreciated. Solar canopies would also work well for bus shelters and smoking shelters. I'd also appreciate on roof solar for your buildings that could be hidden from ground level. Finally as someone who used to live in Staffordshire near to Alton towers I understand the impact that can be made positively and negatively. The additional a421 slip roads are a must to reduce impacts on the local infrastructure. I also love the use of existing rail complimenting	Please share any other feedback you have at this stage.	
127	I believe it would bring many social, economic and environmental benefits to Bedford and hopefully facilitate the desired waterway park and links between the Ouse and Grand Union Canal. The close	Would you support a potential park and resort coming to this site? Please explain why.	
3426	Accessibility by road, rail and air and proximity to international gateways	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1567	The road and train infrastructure really needs improving, not just in Bedford but throughout the UK. If the rail networks can't be improved then this would cause a lot of problems with guests visiting the park as they will experience delays.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1029	Providing low-carbon and vel transportation from rail access stations and from Bedford Town Centre	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1834	Goede verbinding met de luchthavens Zowel bus en trein	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1938	Rail travel is too expensive in the uk	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2482	We would likely be getting the train or driving by car to the site, so this is most important to us.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2590	Providing solutions to potential issues caused by the much larger use of the Marston Vale Trainline (such as building bridges over current level crossings such as Marston Moretaine/Millbrook	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2823	Working with rail and road operators to introduce longer-distance travel options. Bedford only has services along north-east, east and south east England, yet tracks exist to Bristol, Birmingham, Manchester, Scotland and Wales.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
127	I hope it goes ahead and can use one of the lakes in the area. A great asset for Bedford and its road and rail links make it a very	Please share any other feedback you have at this stage.	
128	Assist with upgrades to rail and water links. Make the park as good if not better than the ones in the USA.	Please share any other feedback you have at this stage.	

3220	Luton airport expansion. An hourly high speed train from Bedford to London	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3311	Improving the rail connectivity and adopting the proposed canal	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4203	Frequent trains directly to Luton / london	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4496	Investment in Bedford Train Station is urgently required - already at capacity	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4857	(Thameslink) route and the East West Rail Marston Vale line to maximise the public transport accessibility of the resort. If the park is to include an outside-of-gates area (such as the Orlando Citywalk) it should provide a pedestrian route between both stations and be easily accessed by both, similar to how Disneyland Paris' facilities	Please share any other feedback you have at this stage.	
1811	get from London to Bedford will there be a direct train link from London Euston potentially? As that would make me feel more confident getting to your site. But other than that small bit of feedback I feel you have it all in hand and have thought it all through I'm confident in this project and love the positivity surrounding it.	Please share any other feedback you have at this stage.	
2020	to be given what they're asking for so that the current disruption will end. Rail infrastructure needs investment as do the local roads which are in a dire state. It would be good if the procurement strategy could be to contract with local companies wherever possible for both construction and ongoing specialist works. Visits	Please share any other feedback you have at this stage.	
2297	Keep it completely Americanised if it goes ahead. Have the same merch and exclusive merch only to the UK. Trains direct from London. Transport will be a major factor for people who doesn't live	Please share any other feedback you have at this stage.	
2424	Consider environmentally friendly shuttle bus services from airports, train stations on the Thameslink, and from local communities because national rail strikes occur regularly. Staff accommodation to house employees, this is something that a lot of UK theme parks neglect to offer, a lot of workers are local but many do have to travel a greater distance by public transport. UK theme park staff are paid below the minimum wage, you'll receive a lot of interest from Merlin's current and former ride staff, junior and middle management, they work for the love of crafting memories and experiences, seek them out from the parks they're at, they will work ten times harder if paid a more comfortable wage than what the likes of Merlin provide. Be sure to consider plenty of indoor attractions and a European/British flavour through the IP's you select. British cinema is very rich, please inject as much emphasis	Please share any other feedback you have at this stage.	

957	bums on every empty seat of the trains going from St Pancras to Bedford during morning rush hour. As a resident we do find the Thameslink line from London to Bedford to be horribly unreliable, often leaving us stranded or very delayed in London after a night out - also late on a Saturday night, counterintuitively, these trains stop running about 2am. I would expect that Universal customers would be travelling to the resort not only in the morning but also for	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1584	Having frequent enough train service	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
538	Our rail network is famously unreliable so any improvements to that would be very welcome, especially with an influx of more people travelling to the site.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4858	Improvements to the Marston Vale line would be great, especially as this is planned to be part of the Oxford- Cambridge corridor that also	Please share any other feedback you have at this stage.	
5200	I think the road and rail networks just because these would likely see the biggest increase in use from people like me travelling from a bit further away.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5072	Need a fast train Flitwick to London with feeder bus	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3768	Marston Vale line feels like it deserves some consideration. The journey times for the section of railway between Bletchley and Bedford are terribly slow. I understand that some improvements (and stations) have previously been proposed as part of the East to West Rail Project, but I expect these proposals previously assumed a lower volume of traffic/frequency of service into the stations along this line. I can't see from the current plans how pedestrian & cycle pathways will connect Wootton to the sites and railways stations. Currently there is no safe and ideally located pedestrian passage	Please share any other feedback you have at this stage.	
384	doesn't let the weather put you off. Free passes for residents in Wootton, Stewartby and Wixams, would be nice. Rail link is crucial.	Please share any other feedback you have at this stage.	
834	Very exciting prospect but a lot of improvement needs to be made to current rail infrastructure if this is to be made a viable alternative to	Please share any other feedback you have at this stage.	
889	Number of Trains on the (Bedford/Bletchley) could be increased even if additional shuttles run from Bedford Station to the park and return giving better access from the town and the rail link from Luton	Please share any other feedback you have at this stage.	
1147	the impact it will have on our home Life with the increase of traffic and also causing disruption to our self employed business' as we both work across the surrounding villages. We strongly believe the rail line should be a priority and universal should provide reduced travel rates on the rail line to reduce traffic and pollution coming into	Please share any other feedback you have at this stage.	

1164	<p>the UK and would love for it to go ahead. Infrastructure - This country sadly has a long history of being bad on infrastructure projects - running over budget and time. I do feel this can be rectified with the right development management team structure in place and Network Rail & Highway England being held to account along with central government. Projects should not be over ambitious and to utilise and upgrade as much of the existing network as possible. Disputes with train unions over pay and conditions have allowed for strikes to be a regular occurrence. Getting unions and TFL on board with the project would be a consideration. Customer Service - There is a marked difference in customer service in the UK compared to your other worldwide resorts. Much of this is down to low pay and poor work conditions which results in a high turnover of staff levels. Lots of people in the country aren't inspired to deliver a great customer experience. Again, this can be rectified if your levels of pay are good and have an inspired workforce. I would consider bringing over some team members from the US to train up the workforce here so ultimately you can retain staff and continue to provide jobs for the local and wider community. Opening times - much of the problems with UK theme parks at the moment is their operating hours which is usually 10am - 5pm / 6pm. Longer opening hours usually only happen on special events. This leads to a frustrations that you might not get all the rides or experiences you wanted to achieve and are usually</p>	Please share any other feedback you have at this stage.	
1409	<p>by rail. The rail system in the UK is very fractured and expensive. I live an hour away by car. It would be at least an hour and a half by train, and I would need to take two or three changes by train to get to the site. This would really put me off coming to the site by train - not to mention the price of it per person, and having to be tied down to a train time. From Birmingham, which is a major city in the UK, it would be three changes too. The majority of the people coming from</p>	Please share any other feedback you have at this stage.	
1621	<p>The location needs to have a much better road network and maybe you could use the Marston vale railroad to get the visitors in.</p>	Please share any other feedback you have at this stage.	
3901	<p>I'm particularly wary of overuse of the rail network, insufficient capacity on the roads, and the extensive impact of construction vehicles.</p>	Would you support a potential park and resort coming to this site? Please explain why.	
1628	<p>something to look at regarding UK as people will be travelling far and wide. An idea we live in Plymouth and travel to London regularly. This journey should normally take 4/5 hours but regularly takes us 8 due to delays.....this park will give a knock on effect and needs to be addressed for us that will be going into London for</p>	Please share any other feedback you have at this stage.	
1693	<p>Park, also maybe have fast frequent electric trains to the resort from London and Most Cities within the UK, also maybe have a Bus station at the Park for local Bus, and Regional Coach services to the Resort as an Suggestion as well. As some people don't have cars, so you want to make it easier to get to and from the Resort for them.</p>	Please share any other feedback you have at this stage.	

1793	train station to your new one where you run your own train on national rails line between these 2 stations then the train companies in the uk won't be able to handle the capacity despite how much they tell you they can. Ask any uk resident, the trains companies in the uk can barely handle morning commutes in most towns/cities. Having commuters and theme park goers through the same station would not work. Look at the fact most trains in the uk put on about 4-5 carriages if your lucky in peak times with 3 at least of them 1st class and everyone crammed in like sardines to 1 standard class carriage. If you can change these things fine but you'll for sure need to convince train companies to run large 20 carriage or more trains which are mostly standard class to make it work otherwise speak to	Please share any other feedback you have at this stage.
1794	We would love to see some investment ensuring that links from the north of England to the south are improved so that it is inclusive to	Please share any other feedback you have at this stage.
4612	Would you please engage with train companies so connections are expanded to towns such as Cambridge? Please consider giving	Please share any other feedback you have at this stage.
4402	I think the railway improvements and general improvement will be good of the local area and I believe that the park has already undergone much consideration and believe it will be good for the	Would you support a potential park and resort coming to this site? Please explain why.
4446	This is such an exciting opportunity for not only Bedfordshire but the UK and also Europe. There would be nothing like it and it would attract families from far and wide. Feel really positive about the	Please share any other feedback you have at this stage.
4402	Please consider the railways as I believe a direct rail service from central London will bring more passengers to the area in a greener way unlike cars which are disturbing to all local areas and wildlife	Please share any other feedback you have at this stage.
4390	coming off the M1 as this is an incredibly busy junction already so this would really need to be looked at for guests visiting. Would you look at a hogwarts express coming from london kings cross to Wooton or a carriage on the train themed to this as this is of course the train station where the students leave from to go to hogwarts.	Please share any other feedback you have at this stage.
1604	I think it's looking very promising so far and would love to see this happen. Improvements to road and rail infrastructure would be	Please share any other feedback you have at this stage.
1763	tourist map. After people transit to work on the train to London, the trains heading back north in the morning are empty. Fill them with the tourists and send them to the park. I would look forward to seeing how the park would develop the local natural habit. As well the parks use of water and preserving the natural bodies of water.	Please share any other feedback you have at this stage.
4094	Step free access at Flitwick station would improve access. A town close by to the site.	Please share any other feedback you have at this stage.
2085	I would like to know if our station in Stewartby will still remain.	Please share any other feedback you have at this stage.
1001	The station having two exits one for locals and one for park is good. Protect the community we live in but enhance its facilities.	Please share any other feedback you have at this stage.
2110	research the offerings we have in the UK currently in the major Merlin park and the bigger scream parks such as Tulleys Shocktoberfest. I feel that we punch above our weight in terms of creativity and experience but sometimes the budget lets these experiences down and the corner cutting can show. With the Universal budget and UK style of running scare mazes in terms of actor interaction and creativity I feel this would be the not only world class but the worlds best horror experience! Train fares can be very expensive in the UK because of how the railways have been run since being privatised. As someone who would be considering travelling from Manchester on the train down to the resort, please do everything you can to negotiate more reasonable fares to get to the	Please share any other feedback you have at this stage.

3456	I would like to see some additional transport links to Luton and Dunstable area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4427	Cambridge BioTech campus and not Bedford. Alternative routes will assist Bedford more but may intrude on your land. Your development will not create jobs in Bedford alone but from across the sub-region. These will not compensate for the damage caused by EWR's current proposals. You may need to donate peripheral	Would you support a potential park and resort coming to this site? Please explain why.	
1262	An indoor waterpark would be brilliant! Connecting the resort with the North of the UK is as important as connecting with London!	Please share any other feedback you have at this stage.	
4725	fly in from Gatwick & Heathrow airports. Luton is obvious but Gatwick is a direct train ride to Bedford currently (with 0 stops), but would stop at Wixams in the future (Thameslink). Heathrow is one stop at Farringdon via the Elizabeth line and then Thameslink. A lot of Ryanair fly into Stansted, so most mainland Europeans would fly into there. So potentially people would travel by train to Cambridge, then Bedford. Or get a bus service from Stansted to Universal.	Please share any other feedback you have at this stage.	
3849	You need to have a branch from the north/south railway especially the west coast main line as this would significantly reduce car travel	Please share any other feedback you have at this stage.	
2824	Any plans to link Watford/London train direct to the new site considering the Harry Potter studios connection.	Please share any other feedback you have at this stage.	
3388	Main concern is that road and rail networks will not be able to manage the possible increase in volume of journeys made to the area. Even Luton Airport, which is 30 minutes away and will probably serve as a hub to the development is unfit for purpose.	Please share any other feedback you have at this stage.	
5072	We need good quality jobs and need to feel the benefit with FAST trains to London- not from Bedford town centre as that's congested but from Flitwick. Flitwick station needs step free access and we need seamless access from M1 which won't impact current junction.	Please share any other feedback you have at this stage.	
5258	park is a complete universal experience comparable with the best parks in the world. The UK is a massive untapped theme park market and the weakness of Disneyland Paris (which I have visited several times) is that it has a feeling of being a secondary or lesser Disney park (older rides, poor second gate, lacking modern experiences and food). Europe is and can be fertile ground but this has been missed as a result of poor understanding of the financial failures of Disney Paris. To this end, it is important that it doesn't lack the best things that Universal are known for (Harry Potter and Nintendo). Harry Potter in particular, as a British story, is important to include and I'd argue at greater scale than elsewhere (even as a standalone park). This can be linked to the Warner Bros studio tour and make the UK the premier destination for Harry Potter fans (as it should be). English people already have an understanding of Universal and Harry Potter and not including Harry Potter here would be a tremendous mistake. Finally, my experience of Universal	Please share any other feedback you have at this stage.	
5140	I would not want it here, find a better bigger place that is easier to get to already that does not need roads or trains built. There must	Please share any other feedback you have at this stage.	
3624	I would like to visit the Theme Park and ride the rollercoasters! I would also like to see the Rail System improved and special Universal Trains running across the Rail Network.	Would you support a potential park and resort coming to this site? Please explain why.	
5350	Very excited, the improvements to the train network would be of so much benefit.	Please share any other feedback you have at this stage.	

3390	Consider cheap train tickets for people using Wixams for their commute to london. Won't be fair to penalise locals for their usual travel to work. Also consider how we access the train station. It was meant to give this side of Bedford a local station. The park being	Please share any other feedback you have at this stage.	
5627	I cannot stress enough how much the train connections matter: being able to take public transport to a world class theme park is a	Please share any other feedback you have at this stage.	
1732	Boosting the U.K. economy up, encouraging more jobs, more business opportunities for the railways, boosting not only the U.K. tourism industry but European tourism industry.	Would you support a potential park and resort coming to this site? Please explain why.	
1155	I love universal. The parks are beautiful and the tourism would be good for the local economy and we would also have new train stations and better roads and I'm all for that	Would you support a potential park and resort coming to this site? Please explain why.	
5871	Improved rail connections. UK railways are notoriously bad and expensive.	Please share any other feedback you have at this stage.	
5495	Wixams Station for 4 platforms	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5497	Wixams Train Station	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5733	Decent train station	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5594	Connected to the train line, to reduce road traffic	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5486	You mention about improving the local rail infrastructure, but isn't this already scheduled for improvements in existing projects? Would the Bedford A&E hospital and other local council/emergency	Please share any other feedback you have at this stage.	
5936	Wixams station and East west rail link	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5796	push for East/West rail route to go south of Bedford with station at theme park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1452	Improvements to the Midland Main Line and Marston Vale Line along with an improved station to replace Kempston Hardwick and finally getting the new Wixams station.	Would you support a potential park and resort coming to this site? Please explain why.	
5600	for those of us travelling down from West Yorkshire on the train. I doesn't visit Alton Towers as public transport there is practically non-existent. Ideally it would be great if when travelling from Leeds, we could get there without having to travel to London then back up. London trains are expensive and busy.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
E6276	Hi, Just a quick question. Is there plans for significant parking at the new station for local residents to use when accessing the train line? Thanks	Comment via email	

F6138	I would be supportive of the project, living near Wixams Train Stations proposed site, it has been an already excruciating long wait for its construction. If Universal can encourage, or expediate the build and support of other local infrastructure projects it would be a	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6150	Recommend engaging with Chltern Railwa - the likely operator for the new East West Rail between Milton Keynes and Oxford due to open in 2025.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
4144	The vague references to "construction" of an already approved and long overdue Wixams station are not welcome - any further delay to that vital infrastructure would mean a straight "no" from me. If the station was to be built (and even facilitated) as planned and upgraded in the future that would be palatable - but any delay, for	Would you support a potential park and resort coming to this site? Please explain why.	
F6133	Minimise hardbinding and massively increase ecology + biodiversity, create beautiful places the local people can alk around without having to pay to go in. Shopping + eating in the area is extremly limited so improvements to Kempston Retail Park is very important	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
E6359	<p>since the initial excitement of potentially having a Universal resort on my doorstep some questions have come to mind that I hope you don't mind me asking.</p> <p>- With the rail links, a new station close to the resort would be welcome however your proposal only really mentions the benefits tied to the project and the counter flow of people from London and the South. What would the resort do to alleviate the extra people by train coming from the North as these visitors would be using the same transport as commuters during rush hour?</p> <p>- Similarly, how much of an impact would the resort have on the existing train station in Bedford? As someone who frequently drives to Bedford station to travel into London a worry would be that the existing station doesn't have the capacity to meet demand of a world class theme park. Despite the construction of Wixams the current station can get very busy, if there was a direct train from the existing station to Wixams I would foresee more people trying to park at the station which would likely be more cost effective than driving and parking on site, particularly at weekends.</p> <p>I would welcome a Universal Resort in Bedford but I think you are going to continually underestimate the British public and the interest the park will generate. The UK has a long history of failed theme park projects and if this goes ahead every theme park fanatic in the country is going to be trading their Merlin passes for an a Universal AP.</p>	Comment via email	
3250	As mentioned before, increasing bio diversity round the area, having a nature reserve and increased the size of the woodlands and improving the public transport network so the park becomes more accessible without adding more congestion, a raised footpath which can also be a garden and open space with various entry and exit points throughout.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6150	Improving rail connections	What is the most important consideration for you when considering a potential theme park and resort in Bedford?	

4704	Reuse of a brownfield site into a major attraction. Would also give added incentive to improve rail links both east-west and north south - would boost East West rail's business case for the proposed station improvements to the Marston Vale line as a major travel option as	Would you support a potential park and resort coming to this site? Please explain why.
2961	So much better than flying to Florida. I think it would be really popular. Also if it can be well connected to rail network, then it could be an easy day visit	Would you support a potential park and resort coming to this site? Please explain why.
3402	Maybe direct rail links to the park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
5990	Rail access with direct rail access from Cambridge	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
3858	The economic benefit to the area would be immense, plus it would be good to have some road/train infrastructure improvements. I'd agree that a major brand like universal could do wonders for the UK	Would you support a potential park and resort coming to this site? Please explain why.
3835	The economic benefits and improvement of local road and rail connections.	Would you support a potential park and resort coming to this site? Please explain why.
5103	work well - particularly the Branstons way (Marsh Leys) and the entire new route of the A6. Also routes into Bedford get clogged and jammed without the significant footfall of a local theme park. Train routes are currently limited to Stewartby (small line) and walking links crossing the A421, particularly towards Kempston Hardwick	Would you support a potential park and resort coming to this site? Please explain why.
5510	to result in people parking on local residential streets. Despite the excellent rail connections, due to the density of England, a lot of visitors would be arriving by car. If the decision is taken to proceed, the East West rail scheme could be supported and facilitated, this would link up the park with Cambridge and Eastern England by rail. By providing a walkway or people mover between the Bedford to Bletchley rail line, the park itself, and the Bedford to London line, the site would be a node connecting both north-south rail and east-west rail. This connectivity could attract intercity fast trains and support a	Please share any other feedback you have at this stage.
3101	the volume of traffic and use of local restaurants, pubs, shops, it will make it unbearable to live near. The biggest issue will be the exceptionally unreliable rail way and how it will affect commuters who use this line daily, the costs will go up and we won't be able to get parking at the local stations (Bedford, Wixams, Flitwick being the	Would you support a potential park and resort coming to this site? Please explain why
1617	The local public transport infrastructure is unreliable currently, I would like to see dedicated public transport to the site from rail links be part of the proposals, which has the ability to be greener than the	Please share any other feedback you have at this stage.
2350	see you partner with train operators to fund 1/2 price train travel for your workers within 30 miles to encourage them out of the car. With a train operator or an open access operator run 'universal express train service' from London St Pancras international station and Luton airport parkway direct to your site. Some funding towards the next part of the east west rail project from Bedford to Cambridge. Have a off site park and ride / check in facility near the A1 / A428 junction where people from the east can check in with you and then	Please share any other feedback you have at this stage.
1226	quite easily blocked up, quite quickly on the A421 and M1, pushing traffic all around the local routes. Our train lines also leave a lot to be desired and just feels like this part of the UK in and around London is already chocker block with people without the adequate infrastructure or services to match. Many thanks Paul	Please share any other feedback you have at this stage.

702	more acceptable the red outline unless wrong goes right thru the train line? How does that work? You should consider noise pollution and keep furthest distance pos which is the yellow outline of the two drawings Wootton is terrible to drive to as it is. I am stunned at location choice. It is poor for buses (1 an hour) the railsevice is also poor. The roads are rubbish, bar a421 the amount of extra traffic will swomp a tiny area. Cant you look elsewhere? This dont seem right to me- woottons a tiny village and the red looks too close, too noisy etc and i have questions on how building thru the rail line thats exisiting within the red outline but obviously if building on yellow outline its a bit different as further away! The roads arent built for this sort of thing. As good as idea sounds to visitors it will be nightmare for area, the area itself is deprived and has had various	Would you support a potential park and resort coming to this site? Please explain why.	
3695	Rail network is already great.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4478	The railway is already under improvement	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2862	(thameslink, East Midlands Railway and the potential East-West rail link) will make getting here easy. Also we are 15/20 minutes by train from London Luton Airport providing low cost airlines that can get visitors to visit at affordable prices. We also have a diverse population so would offer an employment pool that represents the UK population. The site is also near the existing Park and Ride facility (think it's called Elstow Park and Ride on the A6) so could	Would you support a potential park and resort coming to this site? Please explain why.	
5375	A project of such magnitude has the potential to boost the economy through job opportunities, and revenues to the local council which then can be used to further develop the region by investing in	Would you support a potential park and resort coming to this site? Please explain why.	
5434	Road, Rail then Bus...	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2383	We would likely be getting the train or driving by car to the site, so this is most important to us.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3668	Introduce a FREE "green" tramway service or electric bus service for the few visitors wanting to travel into town for limited shopping and or hotels, all subsidised by your profits. There's been talk of a possible new railway linking Milton Keynes to Cambridge which	Please share any other feedback you have at this stage.	
4529	The process so far has been carried out so well. The transport and railway links seem to be well thought through and the communication has been very clear and transparent. I do hope you	Please share any other feedback you have at this stage.	
271	Universal studios should be doing everything it can to promote travel to the park by rail. Car travel is not sustainable nor good for the local towns and villages. The size of the car park should be limited.	Please share any other feedback you have at this stage.	

3105	risks I foresee are transport related: if the park gets a reputation for being difficult to access, and causing local congestion, it will have been a failure. I hope local and central government will provide the necessary support for increased road, rail, and (particularly for workers accessing the park) cycle and bus access to make the park	Please share any other feedback you have at this stage.	
3243	We would be /delighted to have such a great activity on our doorstep. The transport links are great (which is why Milton Keynes is located near here) - ie, M1, Oxford-Cambridge rail line will go by here by the time the site is opened, Luton Airport easily accessible,	Please share any other feedback you have at this stage.	
569	I am not from Bedford, but this kind of project would be welcome in almost any city in the UK. My concerns would be around increased congestion and saturation of existing services. It would be my	Would you support a potential park and resort coming to this site? Please explain why.	
USE OF WALKING AND CYCLING ROUTES (97)			
ID	Comment	Survey question	Response
1486	I don't live in the area but if I was staying near by I would like to be able to use these paths.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you	UDX has worked closely with Bedford BC to develop an active travel network that serves the ERC and better connects surrounding local communities. This includes providing new active travel routes through the Proposed Development for east-west and north-south connectivity, and improvements to connections to Wixams in the east, and Bedford to the north. Whilst the visitor active travel mode share may be limited due to the wider geographical draw of the ERC, UDX would like to be a good neighbour and provide enhancements to the local network to the benefit of the local communities. Furthermore, team members will be drawn from the local area and will be encouraged to use active travel options wherever possible.
3148	Not unless visiting as I don't live in the local area.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?

2259	Maybe	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5097	Possibly	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5421	Possibly	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2636	to far away for us	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2497	Too far away from our home	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2813	Unfortunately , as I'm not Local.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3661	Unlikely	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2350	Unlikely to use as I don't live nearby	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1241	Probably	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2653	I dont live close enough to make use of them.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5131	Probably too far away	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

140	Infrequently	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3901	Only if it feels safe	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4084	Only if these are more scenic and t just next to busy roads	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5434	Only useful to use if connect to shortstown	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1317	Only when visiting the theme park	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3464	Personally but my family probably would as they walk round marston vale alot	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2965	Not being a local to the area, I would probably only use walkwats connecting to the CityWalk or hotels	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3333	I am not local however with a push towards green living any improvements would be great	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
639	I am not local so would t use walkways in nearby locations but I would be keen to use walkways connecting the train station to the park	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3216	I would use this if I was staying on site.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5636	I would use this when visiting the resort, if the resort is to house hotels and a city walk complex a walkway to get to these areas without going into the main theme park would be handy, especially if you bring Voodoo Donuts to the CityWalk! :)	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5181	I would whilst in the area but I would most likely travel via car or train (if direct route available)	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3439	I wouldn't as I'm in Stevenage but family live in Stewartby and would!	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3062	I wouldn't use it as I am t local however it's absolutely an very important aspect to keeping within the good favour of the general public.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

4891	I wouldn't use regularly myself but I think they are key for future workers at the site that may not own a car	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2977	Should this go ahead id use it to explore the local area	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5824	We would help promote sustainable and active travel as a CRP	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2612	Well I'm not from this area but surely this is a great plus for the area	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1973	if this could improve experiences inside the park as well as enhance its overall look	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1552	no one in Bedford would use this, absolute waste of time!	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2704	provided there are walking paths from the hotels	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4006	no since i dont live near, but would be great for the locals.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2542	no only because I live too far away to use these, but I would support this if I lived more locally.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3319	As a visitor to the area, i always seek to walk where possible rather than take transport. If staying off Universal site, i would opt to walk to the resort where possible.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4316	I live on the rth side of Bedford so unlikely to be walking around here	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
999	I live outside of the area so this would t directly affect me	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2031	I'm not local eugh	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
436	If bordered by trees and natural planting	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

508	If good walks, but generally out of the area I walk in	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2068	Only as not local to the area	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
179	There are plenty of nice walkways here already	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5119	They've already been improved and the development would ruin the improvements	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2571	but it is also very important to protect what already exists	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5126	though very likely majority traffic inbound will be cars. Unless there is a park and ride system nearby	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1202	no, but only as we do not live locally. We would travel there by rail or car	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1200	no, but only due to the distance that I live from the location - if I lived locally, I would use them	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3999	I imagine I would walk in the area but I would ultimately be driving to the destination	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1698	I live too far away, but I would support this if I were local.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
146	I tend to travel via public transport so walkways connecting hotels both onsite and off would be amazing.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4188	I think high quality, invative transport links would be a better option.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
384	I would but since I would be travelling from Luton it wouldn't always be practical.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3401	no but from a train station	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

3602	I'm sure we will use any paths from the train station or car parks , also if we stay at any hotels in the local area we would then likely use local walkways to the theme park	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?
F6193	However age heights be against this personally but others will be.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?
328	You know what's coming Accessible / wheeling. Can't seem to tick & other.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?
WALKING AND CYCLING (90)		
ID	Comment	Survey question
3307	We understand that this is a commercial enterprise and you need to make a return on your investment. But if you could provide some collateral benefits for local resident (eg cycle paths, river canal link or create world class concert venue or sporting venue as part of the	Please share any other feedback you have at this stage.
169	Walking and cycle path connection to Milton Keynes	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
1001	Areas if nature reserve open n to public with walkways	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
2633	Maintaining/improving local walking routes	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
2668	New public park lands with footpaths	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
2969	Cycling infrastructure so Universal employees can safely cycle to work	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?
836	Give options for how to get to the park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?

964	Just to add that UK residents like to walk so it needs to be accessible by path as well	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3311	Encouraging walking routes to from and around the park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3515	Natural walking areas immediately outside of the park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3963	If you're going to build all the way up to Stewartby you are going to destroy walking routes. The quarry pits need to be made into navigateable alternatives.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
2677	Cycle routes are not there	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2706	A walkway/ cycle path which is safe out of Stewartby and links Kempston Hardwick and Wixams	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3667	Nature reserve with walkways and habitats for wildlife	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3276	Bridleways	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4396	Bridleways	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2345	The site is an unused ex mining site that is only used by wildlife- which would continue to thrive with all the other benefits you list. The site would become accessible for walkers and cyclists all to the	Would you support a potential park and resort coming to this site? Please explain why	
5794	Also bridleways	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

F6139	Also horse-riding route	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4411	Walking and cycling infrastructure would be nice, but probably not really necessary for the theme park.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4674	Improving equestrian access	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2969	I like the appreciation for new cycling and walking infrastructure. I would welcome the proposals even more if they were located in The North of England, but I appreciate that this may not be as feasible	Please share any other feedback you have at this stage.	
313	Pathway from Wootton to the park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5250	N5 cycle route near river, link this to park with safe cycle path, would drive cycle traffic towards the park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5832	Walk/ cycle ways	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5347	Adding a walk/cycle path around the perimeter of the park so locals doesn't feel the need to drive there	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
1046	Wider roads bike paths Support local villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4218	Would like to see good footpath/cycleway proposal from Wootton perhaps across from where Amazon is across the A421 to access the new proposed east/west rail station and on to the Theme Park and through to the new Wixams station so people who live in	Please share any other feedback you have at this stage.	

3006	Deliver improved cycle routes and footpaths plus support for local bus services during phase 1 to enable local construction workers to access these options. Improve links to local communities as well as Bedford e.g. Stewartby, Wootton, Ampthill, Flitwick etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2854	Implementing improvements to buses and cycling and walking links at the start of the project not the end	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3866	It would be nice to better public transport especially for those who decide to work there. Transport that supports all the working hours of the site. Bedfordshire would really benefit from better walk ways and cycle paths too	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4487	have sufficient bike locking facilities by the entrance? Would there be any other incentives you could offer to those arriving in this eco-friendly way? Please could you provide more details about your plans to improve the cycle ways - which routes? Please could you consider one to Kempston. Please do push for the road and rail improvements as these are fundamental to the success of the project. Would there be any discount or special offers for local residents? I like the sound of the City Walk areas that locals can use	Please share any other feedback you have at this stage.	
1773	towards where the new rail station will be located, will you be looking to implement pedestrian access to this station from Stewartby? Will you be looking at creating a walking path around the area so that people are still able to enjoy the spaces of Stewartby (without accessing the park - obviously). Will there be pedestrian access into your park for the residents of Stewartby (to avoid the	Please share any other feedback you have at this stage.	
2416	are very exciting. To be included in your plans is great and it would be lovely to have the local area upgraded and in particular to be able to walk to the theme park etc or cycle etc. Also it would be exciting to see what additional things you give to local people in particular to the villages that have been here for century's.	Please share any other feedback you have at this stage.	
2426	new plan to support, road , cycling path and walkway as mentioned at above is a must, but the railway is a must to rely too, since Oxford/Cambridge are both hot spot for travellers , the rail project EASTWESTRAILWAY which connect Oxford -Bedford-Cambridge seems being held after the first stage was done due to Covid , though seems funding arrive again for stage 2 to arrive Bedford which saying begin by 2030, kicked-start again, it still too slow in	Please share any other feedback you have at this stage.	
2648	Footpaths and cycle paths from Wixams to the park to be established to help create a safe environmental ally friendly way of	Please share any other feedback you have at this stage.	
5693	A dedicated cycle path from Ampthill to site along Ampthill Road would be beneficial. Additional roundabouts at junctions along	Please share any other feedback you have at this stage.	

5709	be interested to see the plans for your part of the East West rail links and new rail stations. Your presenter wisely and quickly got in the line about you'll deal with the Oxford line and it's up to Bedford Council and the Govt to address the Bedford to Cambridge line. It got some well deserved laughs from the audience. Seriously, it shows awareness of local issues, and a slightly cynical delivery both of which are appreciated! Dealing with this sensitively and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2913	Walking . Cycling	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5639	Proper cycle access meed from Wootton over or under the A421	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
334	So long as cycle paths and pathways aren't shared	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1203	The towpath alongside the proposed route of the B&MK waterway is designated for a cycle and walk path	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2410	There should be a cycle path from Bedford to the park	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1566	Walkways and cycle ways where???	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5555	but only because I'd have to drive to get to the park. Very supportive of cycle paths and walkways generally, especially if there are good rail links to Watford	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5810	cycleways or pathways existing as yet, but would use if they were there	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5539	for walkways, t so bothered about cycle paths	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
1291	, people could cycle from nearby hotels/ resorts such as centre parks	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5690	A cycle route enabling visits from Shortstown would be epic, and open up a cycle to route work for staff of the site.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
253	Cycle paths along the larger roads would be of some use to the area but may add to traffic issues	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

600	cycle perhaps near the resort, but t whole journey from home	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2767	I don't live close eugh to access these routes, but it would be great for residents to have the option to walk & cycle to the theme park.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4603	I don't live in UK but I'll tell you cycle pathways are great and would use!	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5556	I dont think it would be safe, w, let alone with additional traffic to cycle down the A421.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3702	I drive so walkways and cycle paths are of concern	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5845	I live local, in Shortstown, about 2 miles away. So would cycle there quite often.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5977	Absolutely, I sometimes cycle to Bedford and it would be appreciated.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
121	Better connectivity between Stewartby and Wootton is needed, particularly as the roads will be busier making it less safe for cyclists.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2693	I live to far away but do agree we need to encourage and make cycling and walking more an optioning	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3642	area, this would help make the park accessible to be enjoyed by more, t just the rich. And also to encourage people to enjoy the park frequently even if they don't live locally. It would be great if walking / cycling path networks are invested in to make it really easy to get to the park from off site accommodation. Eg Orlando isn't very	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3576	I would love to have cycle paths that can create a connection between villages, Bedford centre, Milton Keynes, Cambridge etc. it can create tourist attractions towards sustainable way of cycling around Bedfordshire and beyond.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5055	I wouldn't get anywhere near the park by any means of transportation including walking or cycling	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4548	If I was local to the area, I would definitely make use of new cycle paths.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

208	If this linked in with the tow path / cyclways along the B&MK waterway park they would like the communities along the A421 corridor	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
189	These could be integrated with the towpath of the adjacent Bedford & Milton Keynes Waterway Park to create extensive blue/green active travel routes.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
225	Not local, but would love if there were great walkways from local hotels to the park. Great alternative to buses.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5293	Dog friendly walkways would be preferable	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3685	Hopefully they will be suitable for wheelchairs and mobility scooters	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
4427	Please create a link from Bedford to Marston Moretaine Millennium Park and the resort. You will get students working if they can cycle to the resort easily - also e-bike chargers	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
2297	Add walking path that leads directly to the park from the 2 nearest local villages. UK buses are not very reliable, would be great if there is a passage people can use to cross over the rails or the big road instead of being obliged to take transportation if they are on a	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3589	You must link STEWARTBY to the new rail stations and park access, local residents of the Hansons reach development must be able to walk on designated paths to use the east west rail and other rail links along with access to the multi use city walks in order to feel	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
5596	Walking circular route around the area will become less.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
F6210	It should be easy to cycle to the site from Bedfordshire but is horrendous at present	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
F6169	From Wixams to Stewartby, no cycle path on B430 too dangerous to cycle at present 60mph.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
F6210	Connectin cycle paths into Bedford + Wotton + Stewartby + Wislams	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

1177	access. Transportation outside London in the UK is quite lacking, busses do not respect schedules and are operated poorly (something not shown on paper but you can experience it once here). The train network is very chaotic and because every line is operated by a different company the websites and the ticket purchasing experience is very stressful and confusing especially for people coming from abroad. There should be a way clearer way to buy return tickets for the parks, maybe a dedicated part of the website or something similar to really make the Universal experience go smooth. Especially during peak time. I think the RerA to go to Disneyland Paris has a way easier and good example of connection. Often happens in the UK that instead of a walk of 15 minutes you have to take a bus for 45 minutes because please add a walking access a big road you cannot cross is in the middle. Since there are multiple villages in walking distance from the site, etc.	Please share any other feedback you have at this stage.	
F6139	Need cycle routes into Bedford and Wotton to the site for staff. If putting a new junction on the A421 could it also provide access to Wotton?	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
3382	Elstow it would be great to have convenient walking and public transport routes direct to the site. I would love if the plans could also incorporate an entertainment venue to put on shows such as music, boxing, wrestling etc (similar to the O2 Arena) as another part of the development. This would help generate interest in the site throughout the year. As a member of Bedford's Italian community I would be more than happy to discuss the unique history of Italians in	Please share any other feedback you have at this stage.	
907	distribution site. It is a barren and uninteresting piece of landscape. I would welcome something exciting like a theme park - it would inject some life into the community, provide much-needed jobs - especially for young people - but most of all I am impressed by the way you landscape your theme parks. I think it could actually be quite beautiful! With plans for better walkways and public transport	Would you support a potential park and resort coming to this site? Please explain why.	
4570	better transport connectivity which improves our lives. It also improves the wealth in an area that feels like it's on a down. 8000 jobs would improve Bedford, but please use cycle paths from villages like Shortstown so staff can cycle / run / walk to work, take pressure off the roads, make living and working locally possible and	Would you support a potential park and resort coming to this site? Please explain why.	
1043	You should consider using the existing park and ride (Progress Park) as an additional car park with either a shuttle bus or walking route to the park. This could provide revenue for Bedford Council plus ease congestion on the proposed infrastructure improvements	Please share any other feedback you have at this stage.	

4143	However there are a few concerns I have. 1.Firstly the local transport infrastruture (particularly public transport like trains/ train stations) will need to be upgraded as mentioned in info leaflet. These projects like ewr will take many years to develop before benefits are seen. These projects (including upgrading kempston hardwick station) will need to be implemented quickly. The info pack states 10% of people not including passengers will be travelling in cars and 30-40% will take public transport. This figure seems optimistic regarding the high use of public transport. High train fares mean most people don't bother taking them and the UK population unfortunately still rely on cars are their main source of transport. Also if locals want to walk to the site for work or other purposes, footpaths/ bus routes eg from Wootton will need to be created as the current walking infrastructure is either non existent, not safe or not fit for purpose. How will you implement walkability to and from the site? 2. The new junction off the A421 is likely to create additional noise pollution from the traffic. This may impact the health of the locals so sound barriers would be a welcome addition (these have already shown effectiveness for wootton). 3. The existing A421 northbound slip road which feeds onto the Branstons way (A6) nearby	Would you support a potential park and resort coming to this site? Please explain why.	
2453	Please consider footpaths and cycle paths connecting the park with the areas on the other side of A421 - Wootton and Kempston (safe	Please share any other feedback you have at this stage.	
E6285	minimum wage hopefully without driving and clogging your train capacity and car parks. Most car journeys in Bedford are less than 5 miles which is terrible for emissions levels. You could easily convert the old A421 road (runs alongside the bypass) into a dedicated off road cycle route from Bedford to Marston Moretaine/ Stewartby.	Comment via email	
1403	Transport for employees to and from work will ve really important. Improvements to the cycling infrastructure will help significantly with	Please share any other feedback you have at this stage.	
F6210	The site is so close to various cantres of population where people could cycle to the site instead of driving for much of the year but off road cycle infrastructure is poor/non-existent. March Least roundabout is already very busy + adding traffic would cause issues	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
5035	High on list should be screening park and environmental benefits including maybe increasing the local Marston Vale to connect to and increase Marston Vale park to connect upto Theme park with paths,	Please share any other feedback you have at this stage.	
697	Excellent idea, hopefully local residents will embrace it, I think you need to provide improved transport links that benefit people not using the park, have small areas for local residents to walk in external to the park which could form part of the sound barrier to	Please share any other feedback you have at this stage.	
5650	Would like to see bridleway connections with the universal resort between Ampthill park, Centre Parcs and the Forest Centre.	Please share any other feedback you have at this stage.	
185	We heard that a large car parking area is planned although we hope this will be free to park in order to minimise the parking of visitors in the local villages. We hope that pedestrian/cycle access will be	Please share any other feedback you have at this stage.	
RAIL - EWR (88)			
ID	Comment	Survey question	Response
3668	Introduce a FREE "green' tramway service or electric bus service for the few visitors wanting to travel into town for limited shopping and or hotels, all subsidised by your profits. There's been talk of a possible new railway linking Milton Keynes to Cambridge which	Please share any other feedback you have at this stage.	UDX has worked closely with the Department for Transport (DfT), East West Rail (EWR) and Bedford BC to develop a comprehensive approach to improvements and upgrades to rail infrastructure. This includes upgrading the proposed Wixams station from 2 platforms to 4 platforms and providing a Western Plaza with direct last mile connections to the ERC.
3687	Please talk with BBC and local groups as I am afraid that this opportunity will not be fully realised if the transport situation is not resolved- EWR needs to come to the table and rethink their	Please share any other feedback you have at this stage.	The proposals also include the safeguarding of land for a new EWR station directly

4857	(Thameslink) route and the East West Rail Marston Vale line to maximise the public transport accessibility of the resort. If the park is to include an outside-of-gates area (such as the Orlando Citywalk) it should provide a pedestrian route between both stations and be easily accessed by both, similar to how Disneyland Paris' facilities	Please share any other feedback you have at this stage.	<p>serving the ERC, as well as the local community. UDX has also investigated the potential for bus or coach shuttle services from other key stations, such as Milton Keynes.</p> <p>Working with the DfT, EWR and Bedford BC UDX has investigated the operational capacity of the railway lines, station capacity and train capacity, and believe the proposed trip forecasts can be accommodated by the proposed rail infrastructure improvements.</p> <p>Additionally, because UDX's demand is largely counter cyclical, it will have the added benefit of filling empty trains leaving London in the mornings.</p>
3267	sport's facilities? What about arts and theatre ? The park should have a rail link to enable connection to London. It really makes no sense to have EWR taking the route currently planned. If a station is planned at wixams then the route should run south of the river utilising the old existing rail corridor to Cambridge. Absolutely bonkers ploughing the train line through hilly beautiful countryside	Please share any other feedback you have at this stage.	
3676	A parkway train station along EWR would greatly enhance sustainable travel from the wider area to your park	Please share any other feedback you have at this stage.	
4359	Work with and engage with the local community to be open and transparent about what is happening eg like National Highways	Please share any other feedback you have at this stage.	
1434	A tentative welcome to the plans at this stage. Perhaps also the application could influence the prospective route of the proposed EWR link to Cambridge. With this park in place, a southern route	Please share any other feedback you have at this stage.	
367	Our support for this project goes hand in hand with east West rail. And I think for this level of change, and investment to work, the deadlock with the railway project needs to be broken. The railway needs to make progress in order for the appropriate infrastructure to	Please share any other feedback you have at this stage.	
534	this development is the lack of reasonable airport space. Yes, we benefit from Luton, the new east-west rail link may assist utilising Stansted and we could link to Heathrow and Gatwick through Bedford or Bletchley. But, all these airports suffer from overcrowding at times and if, as anticipated, Marston Vale springs to life thanks to one or more Universal theme park/s, then the west of the East Anglia region and the east of the East Midlands area will need more airport capacity. And that brings me to suggest something more radical and way more local...Thurleigh Airfield. It sits as a relic of WWII and the great days of when it was a Royal Aircraft Establishment helping to develop the likes of Concorde, but it retains much of its runway surfaces and taxiways...including one of the longest runways in the country. Its currently used to store cars and has a small autodrome racetrack, but its runway direction	Please share any other feedback you have at this stage.	
2909	I am really excited by the prospect of this project that may be locating in Bedford ,BUT I am totally against the East West Railway line route that has been chosen and totally oppose the destruction of	Please share any other feedback you have at this stage.	
3070	Again, very supportive of the theme park project. I hope the project has the capacity to help expediting East West Rail as well to bring tourists in from Oxford and Cambridge, which are two largest tourist	Please share any other feedback you have at this stage.	
3759	It is a 'no-brainer'. Bedford geographically makes sense for this, situated between the main A1 and M1 road routes north/south through the country. Adjacent to Luton Airport and further traffic links at Milton Keynes. Then with projected east-west rail link, EWR.	Would you support a potential park and resort coming to this site? Please explain why.	
4681	Investment in local infrastructure- encourage the east/west rail development, upgrades to roads, opportunity to revitalise an unused area, job creation, community cohesiveness.	Would you support a potential park and resort coming to this site? Please explain why.	
3138	Hopefully this project will work with the company exploring the East West rail link as it could affect their decision on routes.	Please share any other feedback you have at this stage.	

5703	restricted working hours is the norm over here, the major issue is the transportation of materials in and of spoil and rubbish out. London has a strict code of vehicle washing which prevents the streets around being covered in mud something which isn't applied elsewhere as a trip around any construction site vicinity will show you. Possibly use of the EWR line with Electric locos, would have to be battery powered but that's viable, used regularly on London	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3687	thought out with regards to the negative impact on the town such as traffic congestion and pollution. The whole transport issue needs to be joined up holistically with BBC and local groups especially with the proposed new EWR link that MUST be developed with the right route for everyone. At present the proposed route is ill-thought out and will very negatively impact the town and not properly serve	Would you support a potential park and resort coming to this site? Please explain why.	
3859	afterwards, if not done right. The public transport around Bedfordshire is dreadful, and the idea that only 35% of people would drive to the site seems to me laughable. I live about 10 miles away from the site and if I drove it would take under 10mins, compared to about an hour on the direct train. If the park opened tomorrow and employed people from my town they would all drive if they possibly could, to save wasting so much of their time. I would hope Universal would lobby hard for East West Rail to be done soon and well (electrified?) so that some of this could be avoided. The section of the A421 which the new junction would be put on is already very busy and care would be needed so that drivers who don't know the road aren't confused by the new junction. I also think adding more cars/lorries to the road during construction and afterwards would increase the need for road policing, speed cameras etc along this road. I drive the A421 from MK to Cambridge pretty frequently and I think of this stretch as the 'boy racers of Bedford' area where drivers	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3145	Local people are generally against the devastation of rural North Bedfordshire by the current proposed route of the East West Rail line from Bedford to Cambridge and I do not think they will look	Please share any other feedback you have at this stage.	
3418	this would be a great opportunity for Bedford if the right infrastructure is in place - particularly east west rail south of bedford	Please share any other feedback you have at this stage.	
3713	Please help East West Rail reconsider its route structure to travel South around Bedford. This would allow for a Bedford South park and ride with an interchange with Midland Mainline and East Coast	Please share any other feedback you have at this stage.	
4128	The scope of your promised engagement through the planning phase is encouraging and should carry the community along with you more effectively than East West Rail Co have managed. I look	Please share any other feedback you have at this stage.	
4722	The proposed East West Rail link between Oxford & Cambridge goes through Bedford - it could serve this development, so deserves	Please share any other feedback you have at this stage.	
4725	The east west rail line needs the most attention. Otherwise I think all ok.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3687	The proposed EWR route needs to be incorporated into the project in a way that serves Universal and Bedford. The present EWR route proposal does not look at the challenge holistically. There needs to be an interchange south of Bedford which would also better serve passengers travelling from the East coast mainline to the attraction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

184	The completion of the East-West Railway between Oxford & Cambridge	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
3418	Getting east west rail to build the new bedford to cambridge route south of bedford.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
5709	be interested to see the plans for your part of the East West rail links and new rail stations. Your presenter wisely and quickly got in the line about you'll deal with the Oxford line and it's up to Bedford Council and the Gov't to address the Bedford to Cambridge line. It got some well deserved laughs from the audience. Seriously, it shows awareness of local issues, and a slightly cynical delivery both of which are appreciated! Dealing with this sensitively and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3836	forecast footfall and doesn't negatively impact on local residents travelling past the site - e.g. integrating East-West Rail with the Midlands Mainline to prevent Bedford station and nearby roads being overwhelmed; ensuring suitable interchanges and upgrades are made to major arterial roads and junctions to support increased	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
5515	construction materials by rail as there are nearby sidings and thereby reduce the number of lorries/trucks. Understand local traffic patterns and avoid them. Use drone type overviews to show local people what will happen. Establish a feedback loop so that any problems are identified and rectified ASAP. Do not rely on Local Authorities for this as they now lack the competence to understand how incompetent they are. You are also on the boundary which complicates matters. Central Gov't, especially the Treasury, does not understand local gov't and makes sweeping generalisations that cannot be realised. EWR are incompetent and not to be trusted. They were set up as a standalone vertical integration with a view to being privatised. This is completely unrealistic in the current climate but the culture remains. Hence their obsession with 6 tracks north of Bedford so they have their own train set to play with. In reality they are now the most heavily subsidised railway in the country in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
271	Rail connectivity improvements. Fast tracking East West Rail in particular.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
2937	vicinity to Luton, Heathrow and Stansted airports. These will be improved with East West Rail and changes to A421 and A1. The site is also mainly brown field and not used for agricultural production. Alternatives for the site would likely be housing developments which whilst needed do not provide long term economic benefit to the area and only put further pressure on the existing infrastructure, schooling, NHS etc. The proposed	Would you support a potential park and resort coming to this site? Please explain why.
4225	Supporting East to West rail with minimal disruption to homes. Seek alternative route to the current proposed route by EW rail.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
5262	Providing a leisure facility that re-energises the local economy and supports the proposed East-West-Rail	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?

526	With possibly EWR construction happening at the same time, construction and traffic management will be a big issue.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
893	boost east west rail infrastructure	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3589	You must link STEWARTBY to the new rail stations and park access, local residents of the Hansons reach development must be able to walk on designated paths to use the east west rail and other rail links along with access to the multi use city walks in order to feel	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
3102	there is an anomaly that whilst one can travel up and down the country easily by train, it is almost impossible to travel across the country by train. Buses also have an issue with that. So closing of rail lines for the work would have a major knock-on effect on travel. You mention the East West train service which currently is a single track running between Bletchly and Bedford which generally has only one train an hour in each direction. This line would need to be massively upgraded and ideally needs to connect with north/south rail lines right across the country, otherwise visitors will have no	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4128	You have adjacent access to the Midland Main Line and Marston Vale railways which hopefully would be used to ease the reliance otherwise on road transportation of supplies and materials. You will need to coordinate your intentions with those of East West Rail Co who have not yet settled the exact route of the new railway connection between Bedford and Cambridge.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3439	Yes, We need a parkway station for East west rail and Midland mainline railway south of the town to connect to the theme park..	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3441	I believe the current East West Rail route (north of Bedford) is in the wrong place in light of where the park will be (south of Bedford). This should be revisited as there is an option for a EWR route to the south which would mean visitors to your park would have easier access.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2426	new plan to support, road , cycling path and walkway as mentioned at above is a must, but the railway is a must to rely too, since Oxford/Cambridge are both hot spot for travellers , the rail project EASTWESTRAILWAY which connect Oxford -Bedford-Cambridge seems being held after the first stage was done due to Covid , though seems funding arrive again for stage 2 to arrive Bedford which saying begin by 2030, kicked-start again, it still too slow in	Please share any other feedback you have at this stage.	

5262	In your design of the proposed Stewartby Kempston-Hardwick EWR station this should have separate access as a regular commuter	Please share any other feedback you have at this stage.	
262	Would be concerned about traffic gridlock if EWR is being built one end of town and universal at the other.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5049	Avoiding a Bedford "through" route by EWR will link more directly and effectively with the Universal site and cause far less disruption to the town and beyond and avoid house demolition. The universal	Please share any other feedback you have at this stage.	
4225	Support the views of local people in the east to west rail and not the views of the company. Their current proposal will have a detrimental impact.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3713	Central government needs the impetus to properly assess the best, most connective and cheapest rail travel journey for the end user. Instead, the project has been lead as a project purely to develop large new housing estates in Bedfordshire. Bedfordshire already suffers from the building of 30% more new homes in the past year than every other county in the UK. We simply do not have the services and transport infrastructure to facilitate yet even more new homes on greenfield land. A better solution exists for the East West Rail route and the Universal project could very much help	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1795	The east west rail project has selected a very unpopular route between Bedford and Cambridge. EWR have selected their route using under hand and misleading processes without any consideration to Budget or local residents. I am concerned that Universal Studios support for this particular route and the methods by which it was selected may well undermine local support for your project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4762	The East-West rail station should be complete at the time of the major upcoming East-West rail works and not cause another significant closure at a later date to minimise disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5691	I think a push for the east west rail link would be of huge benefit	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5891	How would this development affect current rail transport and the proposed EWR project in particular route E	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4364	We want East west Rail to be built	Would you support a potential park and resort coming to this site? Please explain why.
2668	Driving infrastructure improvements (eg East West Rail from Oxford to Cambridge) and road improvements. Driving tourism , footfall and town centre improvements in Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
4154	Much needed development in the area unlocking the full potential of the region. Being a catalyst for projects such as the East west railway coming to life.	Would you support a potential park and resort coming to this site? Please explain why.
5796	I would support the park if East/West rail took a route south of	Please explain why
2676	land is a win-win. The location is good to access from most areas. However, the East and West are more restricted by road and rail. To fully capture the East & West potential, the proposed EW rail link should go to the South of Bedford, via the St.John's area. It was a rail link to Oxford and Cambridge. It is a no brainer to re-establish	Would you support a potential park and resort coming to this site? Please explain why.
868	consideration has been given to impact on local lives. I was in support of this project and previously filled this form positively. Then, following the consultation events I have realised how little you actually care for the local area and how the changes you plan to make are not realistic. The impact you are going to have on our day to day existence is massive, the inconvenience of the location / plans is obvious. We don't want the light pollution or noise pollution, people live here with pets that can't cope with noise from fireworks a few nights a year and you propose using fireworks and pyrotechnics daily, it is unnecessary to build a park like this that will block up roads and prevent our elderly and disabled from reaching medical services in kempston and bedford - currently these journeys are 20mins, during your construction and when your park is complete these journeys could take an hour. The responses provided so far have been lacklustre, you should be consulting with the local community, you are building on our doorstep, not theme park enthusiasts. Your plans depend on too many 'ifs' the changes to the rail lines are not yet confirmed, that stations can not cope with the influx of proposed visitors, our roads can't cope with it either, with or without improvement! J13 of M1 continues to be a mess at peak times and the A421 can not cope with the added traffic, especially	Would you support a potential park and resort coming to this site? Please explain why.
3020	The ongoing relationship of the site with infrastructure of roads and rail and bus is key to developing and maintaining this area. Career opportunities will exist for local people and school leavers or part time student work opportunities. It will improve links with london as	Would you support a potential park and resort coming to this site? Please explain why.
702	more acceptable the red outline unless wrong goes right thru the train line? How does that work? You should consider noise pollution and keep furthest distance pos which is the yellow outline of the two drawings Wootton is terrible to drive to as it is. I am stunned at location choice. It is poor for buses (1 an hour) the railsevice is also poor. The roads are rubbish, bar a421 the amount of extra traffic will swomp a tiny area. Cant you look elsewhere? This dont seem right to me- woottons a tiny village and the red looks too close, too noisy etc and i have questions on how building thru the rail line thats exisiting within the red outline but obviously if building on yellow outline its a bit different as further away! The roads arent built for this sort of thing. As good as idea sounds to visitors it will be nightmare for area, the area itself is deprived and has had various	Would you support a potential park and resort coming to this site? Please explain why.

3004	The site has (with a few enhancements) the potential for excellent public transport links (East West Rail, Bedford to London rail line, good access to strategic roads M1, A1, and A421 and good rail access to both Luton and Gatwick Airports). It would be a great	Would you support a potential park and resort coming to this site? Please explain why.	
3922	Need to see plans and impact on local area. Road and rail improved infrastructure is important. Live in Marston Moretaine would be concerned about traffic levels pre and post build. Also concerned	Would you support a potential park and resort coming to this site? Please explain why.	
4762	New themed entertainment destinations in the UK are very exciting and it is an industry that is currently underdeveloped in the UK. The location is perfect in terms of impact on neighbours, access to the rest of the country through road and rail, both in terms of distance	Would you support a potential park and resort coming to this site? Please explain why.	
2707	So we can visit and hopefully see improvements in rail and road networks.	Would you support a potential park and resort coming to this site? Please explain why.	
3426	The comments above summarise why. This site near Bedford is ideally located due to the topography and the excellent accessibility by road, rail and air and its proximity to international gateways.	Would you support a potential park and resort coming to this site? Please explain why.	
3835	The economic benefits and improvement of local road and rail connections.	Would you support a potential park and resort coming to this site? Please explain why.	
4321	The road networks in this area are often busy/queued and therefore a development such as this will only worsen the situation. Bedford railway station will be the nearest but this is a relatively small station.	Would you support a potential park and resort coming to this site? Please explain why.	
3095	The site is ideal for such a park. There is excellent Motorway and A road connectivity as well as fast railway options north to south. The new Oxford and Cambridge arc will provide east west connectivity too. London Luton airport only a very short distance away with	Would you support a potential park and resort coming to this site? Please explain why.	
3349	Its a much needed boost to the area. We have had a lot of development in the area in the past 10 years, so I have no problem with something being developed that is not just housing. The Bedford area has huge potential and rich History, I think this theme	Would you support a potential park and resort coming to this site? Please explain why.	
4704	Reuse of a brownfield site into a major attraction. Would also give added incentive to improve rail links both east-west and north south - would boost East West rail's business case for the proposed station improvements to the Marston Vale line as a major travel option as	Would you support a potential park and resort coming to this site? Please explain why.	
2734	in Rushden, i would have loved a site like this as a child, and now as an adult i would still go with my own kids, I work at Bedford train station and see the passengers we already have and know this project will help to improve Bedford as a whole putting Bedford back on the map this project and the EWR rail project are both opportunities that this area needs and will be well used by locals as	Would you support a potential park and resort coming to this site? Please explain why.	
5510	to result in people parking on local residential streets. Despite the excellent rail connections, due to the density of England, a lot of visitors would be arriving by car. If the decision is taken to proceed, the East West rail scheme could be supported and facilitated, this would link up the park with Cambridge and Eastern England by rail. By providing a walkway or people mover between the Bedford to Bletchley rail line, the park itself, and the Bedford to London line, the site would be a node connecting both north-south rail and east-west rail. This connectivity could attract intercity fast trains and support a	Please share any other feedback you have at this stage.	

2350	see you partner with train operators to fund 1/2 price train travel for your workers within 30miles to encourage them out of the car. With a train operator or an open access operator run 'universal express train service'*from London St Pancras international station and Luton airport parkway direct to your site. Some funding towards the next part of the east west rail project from Bedford to Cambridge. Have a off site park and ride / check in facility near the A1 / A428 junction where people from the east can check in with you and then	Please share any other feedback you have at this stage.
5049	ensure that it is actively involved in persuading East West Rail Co, that a route through" Bedford is not necessary and that Route E will do nothing but create wanton devastation to Bedford Town and the landscape to the north of the area including the destruction of houses. A southern route will be far more beneficial to Universal and ease of transport for your customers. Please use your influence accordingly. The completion of the A421 dual carriageway to	Would you support a potential park and resort coming to this site? Please explain why.
5861	Too much noise and light pollution. Rail route currently being forced through by E/W rail doesn't help any footfall for this area. A rethink to used a rail route south of the river would allow a station	Would you support a potential park and resort coming to this site? Please explain why.
680	location for allowing people from far and wide to visit via public transport, particularly via the 2 train stations you are proposing. For the East West rail line, I think the currently proposed but as yet, not built connection to the East Coast mainline at Tempsford is crucial as allowing for a single change there opens up so much of the UK.	Would you support a potential park and resort coming to this site? Please explain why.
4143	However there are a few concerns I have. 1.Firstly the local transport infrastruture (particularly public transport like trains/ train stations) will need to be upgraded as mentioned in info leaflet. These projects like ewr will take many years to develop before benefits are seen. These projects (including upgrading kempston hardwick station) will need to be implemented quickly. The info pack states 10% of people not including passengers will be travelling in cars and 30-40% will take public transport. This figure seems optimistic regarding the high use of public transport. High train fares mean most people don't bother taking them and the UK population unfortunately still rely on cars are their main source of transport. Also if locals want to walk to the site for work or other purposes, footpaths/ bus routes eg from Wootton will need to be created as the current walking infrastructure is either non existent, not safe or not fit for purpose. How will you implement walkability to and from the site? 2. The new junction off the A421 is likely to create additional noise pollution from the traffic. This may impact the health of the locals so sound barriers would be a welcome addition (these have already shown effectiveness for wootton). 3. The existing A421 northbound slip road which feeds onto the Branston way (A6) nearby	Would you support a potential park and resort coming to this site? Please explain why.
1259	Are you planning any additional housing for all the potential new job creations? How many hotels will be within the park? There is insufficient hotel space locally. Main concern will be teh additional	Please share any other feedback you have at this stage.
3768	Marston Vale line feels like it deserves some consideration. The journey times for the section of railway between Bletchley and Bedford are terribly slow. I understand that some improvements (and stations) have previously been proposed as part of the East to West Rail Project, but I expect these proposals previously assumed a lower volume of traffic/frequency of service into the stations along this line. I can't see from the current plans how pedestrian & cycle pathways will connect Wootton to the sites and railways stations. Currently there is no safe and ideally located pedestrian passage	Please share any other feedback you have at this stage.

4218	Would like to see good footpath/cycleway proposal from Wootton perhaps across from where Amazon is across the A421 to access the new proposed east/west rail station and on to the Theme Park and through to the new Wixams station so people who live in Bedford is not the right location to deal with the increase in generated traffic, visitors and tourism and is not suitably connected by road and air. Bedford has not much to offer to attract tourism.	Please share any other feedback you have at this stage.	
488	(thameslink, East Midlands Railway and the potential East-West rail link) will make getting here easy. Also we are 15/20 minutes by train from London Luton Airport providing low cost airlines that can get visitors to visit at affordable prices. We also have a diverse population so would offer an employment pool that represents the UK population. The site is also near the existing Park and Ride facility (think it's called Elstow Park and Ride on the A6) so could	Would you support a potential park and resort coming to this site? Please explain why.	
2862	Overall economic, social and environmental benefits it will bring and the way it will complement East West Rail and the Waterway Park projects + the overall boost for the Marston Vale corridor.	Would you support a potential park and resort coming to this site? Please explain why.	
5336	It creates important competition within the uk theme park industry and provides a high quality employer for the region. And increase in investment into transportation and a use for EW rail	Would you support a potential park and resort coming to this site? Please explain why.	
4599	This will bring a major tourist attraction to the uk. I like the location, it's away from London so as not to affect traffic around the capital. When east west rail is completed it will have good transport links.	Would you support a potential park and resort coming to this site? Please explain why.	
2350	Cambridge but this park would give a significant boost to that project), plus the railway station at Wixams - both of these transport projects have taken a long time and are still nowhere near complete. Employment opportunities Would be great to have a theme park of your calibre right on the doorstep, the two in Orlando are superb and	Would you support a potential park and resort coming to this site? Please explain why.	
4135	This facility is missing from the UK and would undoubtedly bring a lot more tourism and financial benefits to the local areas. It will also help transform and speed up transport improvement plans. Positioned along the Oxford to Cambridge arc, Bedford is ideally	Would you support a potential park and resort coming to this site? Please explain why.	
1456	Cambridge but this park would give a significant boost to that project), plus the railway station at Wixams - both of these transport projects have taken a long time and are still nowhere near complete. Employment opportunities Would be great to have a theme park of your calibre right on the doorstep, the two in Orlando are superb and	Would you support a potential park and resort coming to this site? 371	I would say yes but there is only one extra junction being made on the A421 for this. There needs to be other route like A and B roads that are improved. Because when there is an accident on A421 the	Would you support a potential park and resort coming to this site? Please explain why.	UDX has worked closely with National Highways (NH) and Bedford BC to understand the potential impact on the strategic and local highway networks. Universal has built an area-wide microsimulation model to test overall network performance, and individual junction models to test key nodes on the network. It has assessed a range of scenarios within the Transport Assessment. To accommodate the forecast demand, new direct slip roads will be provided on the A421 serving south-facing arrivals and departures and north-facing arrivals with
F6139	Need cycle routes into Bedford and Wotton to the site for staff. If putting a new junction on the A421 could it also provide access to Wotton?	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	

346	promises were made by Warner Brothers that it would improve the local environment and improve for residence. Litter, parking, traffic out of rush hour, noise, minimum input to the community and all around nightmare to live. How long before litter gets blown into the surrounding lakes and wild areas. Traffic will be gridlocked because of the village used a cut through and any road changes you do will be to your benefit. One entry has a reclaimed energy centre with over 200 Arctic trucks daily. A planned Hop TV studio to be built at another entry point which has parking for 1100, 7 days a week manufacturing and a campus. Yourselves with a 7 day a week theme park with all associated problems in the middle of 2 entries into the village. With all that going on we have a village in the middle, queuing to get home and/or poor roads that don't release cars because of the increased flow in traffic. The A421 was built because of the old road was not fit for volume of traffic, but now with the theme park you're going to put an increased amount of traffic on the old Woburn Road. Once you have opened, all road responsibility will be pushed onto highways and you have washed your hands of the whole matter. There is benefits to the local and national	Would you support a potential park and resort coming to this site? Please explain why.	north-facing departures routing via Marsh Leys Interchange. Manor Road will also be upgraded, and a new signal-controlled junction will be provided at Manor Road / Ampthill Road, which will also facilitate access to Wixams station. UDX is proposing other improvements to the local highway network to mitigate impacts during both construction and operation. These include adding new signals to the Broadmead Road junction on Woburn Road, and improvements to the pedestrian environment around the Site.
787	An expansion and separate slipway from the A421 for park visitors is paramount.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2588	I'm concerned that the road infrastructure will not be sufficient to handle the additional volume of traffic. I don't want to be stuck in park traffic whilst trying to do the school run, the A421 already	Would you support a potential park and resort coming to this site? Please explain why.	
1234	from the proposed site and although I think it will create a lot of opportunities, for me personally I believe it will have a negative affect on my work commute and leisure travel. The village I live in (Houghton Conquest) is the perfect cut through from the A6. Although there are proposals for adjusting to the M1/A421 traffic, how would this be done for the A6 traffic? Houghton is a small	Would you support a potential park and resort coming to this site? Please explain why.	
5556	I dont think it would be safe, w, let alone with additional traffic to cycle down the A421.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
923	Ensuring the a421 from j13 is built sufficiently	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
886	resident you can understand my concern about congestion. It's all very well that the train network will have spare capacity in the reverse of commuters into London. However, park visitors will still be on the same roads local residents want to use or commute on during this time. There is very little capacity on the existing road infrastructure as it is and adding in thousands of cars at peak times will backlog the system. Considerations for local only routes, or	Would you support a potential park and resort coming to this site? Please explain why.	
1127	I worry what will happen when the M1 gets chocked up which it often does and if traffic will then start blocking everywhere else up trying to avoid queuing on A421	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

1160	The A421 dual carriage way is already an accident blackspot around Bedford, the additional traffic will make it worse.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4436	I would support the investment and development, however this needs to be done considering the villages around the development and the road network. This development, if it routes traffic via the A421 - from the A1 and M1 would essentially mean travelling to	Would you support a potential park and resort coming to this site? Please explain why.	
608	build. There is already a wind turbine in Marathon Moretaine, it would be great if more could be added although I recognise the sight of it may not fit with the parks plan. I would also like to see the inclusion of as much solar power as possible. I believe solar canopies in the car park offer shade for cars/people that would be appreciated. Solar canopies would also work well for bus shelters and smoking shelters. I'd also appreciate on roof solar for your buildings that could be hidden from ground level. Finally as someone who used to live in Staffordshire near to Alton towers I understand the impact that can be made positively and negatively. The additional a421 slip roads are a must to reduce impacts on the local infrastructure. I also love the use of existing rail complimenting	Please share any other feedback you have at this stage.	
1724	A421 improvements to and from Oxford to Bedford.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3936	M1 J13 upgrade, A421 to become 3 lanes each direction, new universal rail station, mitigation for local villages to prevent traffic	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3943	Inconvenience for local residents on A421	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4436	The A421 is link road between the A1 and M1. It is currently a dual carriage way which faces considerable traffic. additional traffic, at peak times would create considerable issues for local residents	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
164	Not affecting major roads like the A421 would be ideal	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2842	As someone who runs a large successful transport business, the a421 and J13 of the M1 are already pinch points. access to the site should be considered to be away from the main arterial roads to minimise disruptions for locals with cars less likely to use a main	Please share any other feedback you have at this stage.	
5329	There should be at least a two lane (dual carriageway) slip road to/ from the A421, to/ from the resort. There should be shuttle buses to/from the resort serving all areas of Bedford, as well as from Bedford Bus Station.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

356	<p>flow opposite to people working etc so they don't see an impact. The reality is, the park would be in a major commuter belt as well as there being many logistics centres near by. The A421 and all major roads into and out of Bedford are already congested both ways (to and from Bedford) in mornings and evenings as there a many people communicating into and out of Bedford for work and schooling. I think you need to survey these routes to see the actual impact of traffic and adjust plans accordingly. Another concern is noise and light pollution. I have no doubt you will do the right thing but having experienced Orlando, I know the park will probably be open late and there is usually a closing light show. I'd assume you would like all resorts to give the same experience so please consider this impact on local residents especially given one of the selling points to you is that the land is flat so noise and light will travel further. Finally given the land is flat, please consider materials and colours used in taller buildings. Covanta ruined the landscape</p>	Please share any other feedback you have at this stage.	
1226	<p>quite easily blocked up, quite quickly on the A421 and M1, pushing traffic all around the local routes. Our train lines also leave a lot to be desired and just feels like this part of the UK in and around London is already chocker block with people without the adequate infrastructure or services to match. Many thanks Paul</p>	Please share any other feedback you have at this stage.	
1259	<p>Are you planning any additional housing for all the potential new job creations? How many hotels will be within the park? There is insufficient hotel space locally. Main concern will be teh additional</p>	Please share any other feedback you have at this stage.	
1787	<p>if travelling as a group. I believe the transport models significantly underestimate the volume of visitors who will come by road. This is particularly worrying as the local M1 junctions (12,13 & 14) are already at capacity. Extensive traffic modelling would be required to consider the increased traffic caused by the park and the cumulative effect created by planned developments, not only in Marston Vale but along the entire length of the Oxford to Cambridge Arc. The A421 is only a 2-lane dual carriageway with frequent accidents resulting in road closure and/or congestion. The alternative route to the proposed park would involve local B-roads that would be wholly unsuitable. Significant consideration would need to be given to alternative route access to the park to ensure that local settlements e.g. Cranfield, Stewartby, Lidington, Marston Moretaine, Salford etc, do not experience increased traffic. The proposed new A421 junction does not provide well enough for traffic accessing the site from the East(i.e A1). Consideration also needs to be given</p>	Please share any other feedback you have at this stage.	
2208	<p>enought exiting the village safely at present without extra traffic this would bring. The roads at present could not cope with the increased amount of traffic in terms of wear and tear and numbers of vehicles on the roads locally the A421 isn't that big and the old A421 I'd a small road I'm not sure the route can handle the traffic load. I raised these concerns and didn't really get satisfactory answers. What about the use of fireworks or pyrotechnics and impact on local wildlife and the pet owners locally, out Facebook pages are full of complaints at certain times of the year, I personally do not own a pet</p>	Please share any other feedback you have at this stage.	
2453	<p>Please consider footpaths and cycle paths connecting the park with the areas on the other side of A421 - Wootton and Kempston (safe</p>	Please share any other feedback you have at this stage.	
2518	<p>Overall it would be a wonderful addition as long as local residents, our homes and out commutes to work are considered. A new junction off the M1 to bypass the A421. Thank you for listening to my</p>	Please share any other feedback you have at this stage.	

2858	I frequent other theme parks in the UK such as Alton towers, Chessington etc and I am well aware of the congestion at opening an closing times which is very disruptive to local residents there needs to be significant effort to manage this traffic to filter out to the	Please share any other feedback you have at this stage.	
3060	A421 would need to be widened. A6 western bypass would also need to be widened.	Please share any other feedback you have at this stage.	
3065	is slow or blocked. That and the interchange/Amphill Road are concerns for me during construction and once park built if it goes ahead. There's a lot of congestion also off Amphill road towards Kempston on Elstow Road (near Fire Station). Tight roadway under bridge there if roads become regularly congested could cause problems for emergency vehicles (both fire trucks and ambulances from Bedford Hospital further down Amphill Road). Not sure how you avoid traffic spilling into these local roads impacting residents	Please share any other feedback you have at this stage.	
3312	Ideally the site needs to be accessed via the A421	Please share any other feedback you have at this stage.	
3768	Marston Vale line feels like it deserves some consideration. The journey times for the section of railway between Bletchley and Bedford are terribly slow. I understand that some improvements (and stations) have previously been proposed as part of the East to West Rail Project, but I expect these proposals previously assumed a lower volume of traffic/frequency of service into the stations along this line. I can't see from the current plans how pedestrian & cycle pathways will connect Wootton to the sites and railways stations. Currently there is no safe and ideally located pedestrian passage	Please share any other feedback you have at this stage.	
4218	Would like to see good footpath/cycleway proposal from Wootton perhaps across from where Amazon is across the A421 to access the new proposed east/west rail station and on to the Theme Park and through to the new Wixams station so people who live in	Please share any other feedback you have at this stage.	
4371	The A421 is the route I travel on most frequently as it is the main route from my home to the rest of Bedford, and beyond. I'm sure you'll work to keep disruption to a minimum, and your plans for a junction (and the locations thereof) fit assumptions I had when the	Please share any other feedback you have at this stage.	
4436	I would support this development but believe the estimation 35% of visitors would come via Car is underestimated. A link road around the back of the development from the A1 and M1 would allow traffic to easier. Diverting traffic south of the development would require	Please share any other feedback you have at this stage.	
4442	the ridiculous suggested location of the proposed slip road. I think the traffic levels have been significantly underestimated. I would only support this if the location of the entrance was moved to avoid traffic going down the A421 at all and a new road was built to take traffic straight from the M1 motorways round the back of the site to another	Please share any other feedback you have at this stage.	
4742	village. How can you manage this? I understand the extra junction off the A421 will be your main route, however will there be access off Woburn Road? Will visitors catch on they can beat the traffic by using local roads and cause mayhem for us? Will you also open the Car Park early enough to prevent congestion on these local roads	Please share any other feedback you have at this stage.	
5426	Amphill as the town is an Air Quality Management Area because of the current high volume of traffic and narrow roads which currently makes the town centre polluted and unpleasant to be in. Access to the site for both visitors and staff should ONLY be via the A421 to prevent people coming through Amphill to get to it. If this cannot be	Would you support a potential park and resort coming to this site? Please explain why.	
4965	Those not travelling to the site on the M1 /A421 or public transport will make local routes and villages busy and congested. There are already issues with traffic and speeding which this would cmake much worse. You need to consider how traffic from the east will get	Would you support a potential park and resort coming to this site? Please explain why.	

5938	Fully supporting this development. Concerned about: - Additional pressure on local services, including healthcare - Increased traffic on smaller local roads - Safety of pedestrians and cyclists trying to	Please share any other feedback you have at this stage.	
5184	Look at the ways into the park better. The A421 is already too busy and can not take anymore traffic.	Please share any other feedback you have at this stage.	
5779	Just keep traffic moving on the A421 so that smaller routes aren't overwhelmed	Please share any other feedback you have at this stage.	
5623	the day. I am seriously concerned over the re-alignment of Woburn Road to join in to the proposed new roundabout. Knowing that the extended flyover from the A421 eastbound is deliberately long to take the queuing traffic capacity (As stated by the Universal rep during the open day) means that there will be considerable traffic on the new roundabout. For local residents using the Woburn Road for daily errands, this will cause significant disruption compared to today's situation. I strongly object to this configuration of roads being	Please explain why	
5651	Destruction of local habitats for wildlife and would increase traffic volumes across Bedford and A421 which is already horrendous for traffic. Also the constant noise and light pollution would affect local wildlife regardless of creating wildlife habitats which probably would	Please explain why	
6054	I think it would be very beneficial to the county and I would be excited to visit. I do however have some concerns on traffic, road infrastructure and the impact to my village which is a city through to	Please explain why	
5560	construction and operation of the park. I understand the A421 will provide the major access but fear much additional local traffic or visitors seeking to avoid other congestion will use the B530 which as per my comments above is already regularly jammed by retail park users frustrating access to Bedford, and b) at J13 of the M1 which is already frequently heavy with traffic. Access to and from the A507 will be made much more difficult by larger flows to/from the A421	Please share any other feedback you have at this stage.	
5748	Whilst I appreciate the boost to the local economy and in investing in infrastructure, I am worried that the theme park would create major congestion issues, particularly around the A421 and the M1	Please explain why	
6054	Please look at the Bedford road/ sandy road that goes through Willington to Bedford and the A421. It is a city through from the A1. It is heavily used by lorries and general traffic currently and there are	Please share any other feedback you have at this stage.	
5857	Where will the main entrances be, will a new junction be created on the A421?	Please share any other feedback you have at this stage.	
5837	Improvements would be needed to A421. With current levels of traffic, an accident on the A421 at rush hour periods can cause gridlock through the area. My concern is the increase in car use not only from visitors but also those working at the resort, the majority of whom, no doubt travel by car.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

868	<p>consideration has been given to impact on local lives. I was in support of this project and previously filled this form positively. Then, following the consultation events I have realised how little you actually care for the local area and how the changes you plan to make are not realistic. The impact you are going to have on our day to day existence is massive, the inconvenience of the location / plans is obvious. We don't want the light pollution or noise pollution, people live here with pets that can't cope with noise from fireworks a few nights a year and you propose using fireworks and pyrotechnics daily, it is unnecessary to build a park like this that will block up roads and prevent our elderly and disabled from reaching medical services in kempston and bedford - currently these journeys are 20mins, during your construction and when your park is complete these journeys could take an hour. The responses provided so far have been lacklustre, you should be consulting with the local community, you are building on our doorstep, not theme park enthusiasts. Your plans depend on too many 'ifs' the changes to the rail lines are not yet confirmed, that stations can not cope with the influx of proposed visitors, our roads can't cope with it either, with or without improvement! J13 of M1 continues to be a mess at peak times and the A421 can not cope with the added traffic, especially</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
2518	<p>down the M1 and A421 to the Luton and Dunstable Hospital my main concern would be traffic and the increased use of these roads. The commute is already difficult during rush hour and the project will make this worse. Please consider a new junction off the M1 and avoiding the use of the A421. I have so much support for the project, my Husband and I had our honeymoon at your park in Florida and it was one of the happiest moments of our lives. Please consider people who's daily commute to work could be significantly effected</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4404	<p>worried about the impact on my quality of life (roads, noise pollution and local infrastructure being over challenged). And the value of my house. I can see it being a great opportunity and transformative for the wider community too. Especially in the current climate. More people need to work post COVID. I need more information.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4663	<p>warehouses the other side of the A421 to the expansion of Stewartby and the new estates being built in the area, the roads are already at breaking point, especially during peak times and weekends, many of the local roads are not feasible for improvement, as there is no way to widen/bypass these bottlenecks. The building of this theme park, would cause the local residents years of hell with construction traffic and then visitors when the park is finally complete. Furthermore the local wildlife has already been threatened by the previously mentioned developments in the area, this doesn't need to be compounded even more by the building of the park. There are many more suitable areas for this to be built, in</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4013	<p>roads but will have no effect on the amount of traffic which will enter the A421 and M1. This stretch of road is already busy and with an extra 3000 cars or more using it every day, this will massively impact travel to and from Milton Keynes. Additionally, there has not been a cost-benefit analysis performed for this project. Or if there has, then you have only shown us the benefits. A detailed plan to actually give local residents a proper assessment of the impact of the project should include the whole picture, not just what you think could improve the local area. Provide us with actual numbers on the</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	

702	<p>more acceptable the red outline unless wrong goes right thru the train line? How does that work? You should consider noise pollution and keep furthest distance pos which is the yellow outline of the two drawings Wootton is terrible to drive to as it is. I am stunned at location choice. It is poor for buses (1 an hour) the railsevice is also poor. The roads are rubbish, bar a421 the amount of extra traffic will swomp a tiny area. Cant you look elsewhere? This dont seem right to me- woottons a tiny village and the red looks too close, too noisy etc and i have questions on how building thru the rail line thats exisiting within the red outline but obviously if building on yellow outline its a bit different as further away! The roads arent built for this sort of thing. As good as idea sounds to visitors it will be nightmare for area, the area itself is deprived and has had various</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
1147	<p>crisis. Since the building of covanta hundreds of lorry's travel down the single a421 carriageway (C94) causing multiple disruptions to residents living along this road. Having 8,000 employees PLUS visitors daily and the covanta traffic, along with local residents travelling too and from work will be chaos for locals. Unless some serious money is spent adjusting and shielding all residents who live along the a421 carriageway. Which is evident this will be the main route used for people using the M1 to travel to universal. Residents already suffer excessive noise pollution due to the lack of funding and appropriate noise barriers the council and local highway</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3004	<p>The site has (with a few enhancements) the potential for excellent public transport links (East West Rail, Bedford to London rail line, good access to strategic roads M1, A1, and A421 and good rail access to both Luton and Gatwick Airports). It would be a great</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3063	<p>The road infrastructure is already at its limit, the A421 regularly closes or backs up and the M1 has accident and lane closures on a daily basis.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4500	<p>everyday for work. You say around 30-40% of visitors expected via train, train travel is extortionate in the UK. Are you looking at subsidised or free travel included in park tickets to achieve this? Mostly, the main park should 100% be on the northern part of the site you own. That side has warehousing and not homes right next to it. Surely, that would make more sense. I do not want fireworks and laser shows outside my window 7 (or even 2) nights a week. Citywalk areas are also loud and currently very close to current residential areas. I paid a lot of money for my house and chose to</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4183	<p>By the time it gets built I will not benefit from it. I also live on the old A421 and traffic is getting worse from all the buildings being built and trying to get out the drive some days is horrendous</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4004	<p>As a resident of wootton that uses the A421 daily to/from work I doesn't want delay to my travel time.. this is especially important to me as I have a child with significant care needs and need to be able</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	

E6236	<p>Thank you for sharing the proposals for Universal UK based in before. I hope you can help me with regards the chart below featured in the information pack.</p> <p>Can you please chart the details behind this study? Additionally I would like to understand what the axis in the chart below mean? The A421 has seen an increase in traffic over 211% in 20 years, this is based on the developments on the villages in the area. Based on the latest traffic survey, the suggested peak times of visitor arrivals are also the busiest times on the A421. Without major upgrades to the road I have fears that the capacity of the A421 will not be enough, especially with the current needs of the villages and commuting. Furthermore, it appears that the current carpark has capacity of 4500 cars. Can you also advise what the staff car park capacity will be? Does the above chart of movement on the road network also account for workers in the region commuting to work? You state in the study that Around 10% of people would drive to the site, with a further 25% as passengers. Can you advise how this relates to other theme parks in the UK? Are the assumptions inline with actual data from other major UK attractions. Commuting by car is much more economical vs Train, can you advise what</p>	Comment via email	
E6285	<p>minimum wage hopefully without driving and clogging your train capacity and car parks. Most car journeys in Bedford are less than 5 miles which is terrible for emissions levels. You could easily convert the old A421 road (runs alongside the bypass) into a dedicated off road cycle route from Bedford to Marston Moretaine/ Stewartby.</p>	Comment via email	
F6144	Traffic on A421?	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6217	A421 unlikely to accommodate level of traffic generated by park. Suggest it needs a Gatwick style motorway 'spur' from the M1.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6223	A421 and A428 always busy and you are adding to it. Will gas be added to Old Stewartby what do locals get for having this	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
2004	I think the best way to mitigate local concerns (I live in Wixams) is to invest early in the A421 slip roads, Wixams station so people feel an early benefit and not be negatively impacted by construction traffic. It's probably also worth highlighting early any additional benefit to local people when the park is complete e.g. discounted entry/season tickets.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5103	work well - particularly the Branston way (Marsh Leys) and the entire new route of the A6. Also routes into Bedford get clogged and jammed without the significant footfall of a local theme park. Train routes are currently limited to Stewartby (small line) and walking links crossing the A421, particularly towards Kempston Hardwick	Would you support a potential park and resort coming to this site? Please explain why.	

4442	absolutely ridiculous. The traffic would be awful and it would take me hours to get to and from my employer in Peterborough. Your proposed number of up to 30% of people travelling by car is completely unrealistic. You have 4 times as many parking spaces as Alton towers allocated this would be 4 times as bad as Alton towers. The majority of British people like to drive as it is more convenient if they do not live in London. Therefore, the traffic would be much worse than you are anticipating. I moved to a village location because it was peaceful and a nice place for my family to grow, not to live with terrible constant traffic jams on the A421. I would not be	Would you support a potential park and resort coming to this site? Please explain why.	
5049	ensure that it is actively involved in persuading East West Rail Co, that a route through" Bedford is not necessary and that Route E will do nothing but create wanton devastation to Bedford Town and the landscape to the north of the area including the destruction of houses. A southern route will be far more beneficial to Universal and ease of transport for your customers. Please use your influence accordingly. The completion of the A421 dual carriageway to	Would you support a potential park and resort coming to this site? Please explain why.	
4671	Although it's great for the local Economy, living less than a mile from the site does make me worry about traffic for me to get around and to work (the M1 and A421 are busy enough as it is) also the noise from the park and the potential to devalue my property because of	Would you support a potential park and resort coming to this site? Please explain why.	
847	and the effect the park might have on traffic in the area. The roads are in a poor state of repair and there always seem to be works causing headaches for local commuters. At the moment the traffic noise is acceptable, but your main entrance is planned parallel to the estate I live on with only the A421 separating us -that is a concern as I don't want to be able to see or hear additional traffic. I moved to the area because it was more rural and the plans are potentially conjoining three villages and creating more traffic noise potentially detracts from the setting - although I suppose if the effect is the houses prices go up I can always move. However, on the positive side if more money is invested in the local road infrastructure to minimize traffic congestion and pollution, improve public transport/cycle routes and ensure that the rural character and	Would you support a potential park and resort coming to this site? Please explain why.	
4143	However there are a few concerns I have. 1.Firstly the local transport infrastructure (particularly public transport like trains/ train stations) will need to be upgraded as mentioned in info leaflet. These projects like ewr will take many years to develop before benefits are seen. These projects (including upgrading kempston hardwick station) will need to be implemented quickly. The info pack states 10% of people not including passengers will be travelling in cars and 30-40% will take public transport. This figure seems optimistic regarding the high use of public transport. High train fares mean most people don't bother taking them and the UK population unfortunately still rely on cars are their main source of transport. Also if locals want to walk to the site for work or other purposes, footpaths/ bus routes eg from Wootton will need to be created as the current walking infrastructure is either non existent, not safe or not fit for purpose. How will you implement walkability to and from the site? 2. The new junction off the A421 is likely to create additional noise pollution from the traffic. This may impact the health of the locals so sound barriers would be a welcome addition (these have already shown effectiveness for wootton). 3. The existing A421 northbound slip road which feeds onto the Branston way (A6) nearby	Would you support a potential park and resort coming to this site? Please explain why.	

517	for many years been disregarded and struggled to get its name on the map, we have many major transport links in Bedford, we are in a easily accessible location and have a fantastic, diverse community. The ability to bring something like Universal to Bedford would provide a real opportunity for local residents to gain employment, benefit from extra footfall and have a location to go and spend time with family. My only concern will be in relation to the current road network and the influx of a large number of people, as a police Constable I regularly attend road traffic collisions on the A421, should the park be built the current A421 is not fit for purpose in dealing with the extra traffic congestion, the Marsh Leys roundabout would become gridlocked and there would be a negative knock on	Would you support a potential park and resort coming to this site? Please explain why.

122	Supporting the Bedford to Milton Keynes Waterway	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	UDX engaged with the Bedford and Milton Keynes Waterway Trust as well as local residents to understand potential synergies related to the proposed waterway. UDX would be interested to review future synergies as that project progresses, but due to the need to provide current drainage and active travel plans to support the Proposed Development it is not currently included within the planning proposals.
127	Enhance Bedford and Milton Keynes Waterway Park and opportunities yo arrive by water	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
128	The new waterway hopefully.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
158	It is good for the the Bedford and Milton Keynes Waterway Park which could be used to access your project.	Would you support a potential park and resort coming to this site? Please explain why	
162	Creating a waterway link between MK & Bedford as part of the development	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
169	Ensure joint planning with the Bedford and Milton Keynes waterway trust	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
183	Development of local waterways	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
105	Developing the Bedford & Milton Keynes Waterway canal an park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
115	Creating/Upgrading waterway infrastructure and amenities	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
208	If this linked in with the tow path / cyclways along the B&MK waterway park they would likn the communities along the A421 corridor	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	

169	Water way connection with Milton Keynes and associated foot and cycle paths accessible to all new housing	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
170	Milton Keynes to Bedford Waterway Park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
184	Facilitation the construction of the Bedford to Milton Keynes Canal	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
234	Protecting existing eco system and wildlife. Enhance waterways by linking Bedford to Milton Keynes canal which would also be used to reduce pollution and provide funding for program which supports local communities and sustainable travel as well as environmental benefits	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
3092	enhancing the potential of the Bedford and Milton Keynes waterway route	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
189	These could be integrated with the towpath of the adjacent Bedford & Milton Keynes Waterway Park to create extensive blue/green active travel routes.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would use?	
105	The Bedford & Milton Keynes Waterway Park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
127	Bedford and Milton Keynes waterway park and linking the Ouse and Grand Union Canal	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
128	The proposed new waterway	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4020	Most major attractions attract heavy vehicular traffic an queuing. I would like to see better access from the north and east to alleviate a pinch point at the west entrance. The A428/A6 and interchange retail park could benefit from a bridge and new junctions to create a better flow to ease access. Would like to see the Bedford/MK canal link realised on its proposed route that also opens up other development opportunities	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

158	Helping the canal network	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
160	Use of river for transport	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
162	Creating the waterway between MK & Bedford	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
174	Incorporation of the proposed Bedford-Milton Keynes Waterway	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2356	I live in great denham so a mile or two away from the site . Short term disruption for long term benefit for thsi and future generations if Bedfordians doesn't bother me . That said the main issue with disruption in Bedford is the river as we only have so many ways to cross it in the town and when one route backs up due to disruption in and even around the area it's realllly backs up. So maybe consider a short term town centre river crossing solution if possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
184	Facilitating the construction of the Bedford to Milton Keynes canal	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
185	Assisting with the creation of the Bedford & Milton Keynes Waterway Park	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
534	Consideration for the project to include the proposed Waterway Park - cabal link from Grand Union Canal to River Great Ouse	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
1374	Helping to deliver the Bedford-Milton Keynes Waterway	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4395	Waterway link	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	

5564	Support the development of the adjacent Bedford & Milton Keynes Waterway Park that will significantly enhance the local blue/green environment	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5583	Linking the project to the development of the Bedford & Milton Keynes Waterway Park	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
128	Assist with upgrades to rail and water links. Make the park as good if not better than the ones in the USA.	Please share any other feedback you have at this stage.	
3307	Please invest in the new waterway link between Bedford and MK to create boat and cycle links	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3311	Improving the rail connectivity and adopting the proposed canal	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4519	Contribute to bedford to milton keynes canal project	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
160	This could be ideal for a riverboat service from Bedford that would make for a truly memorable experience.	Please share any other feedback you have at this stage.	
162	I'm very keen that you include the building of the new canal link between MK & Bedford in your plans. Maybe create a designated	Please share any other feedback you have at this stage.	
182	Tying the development into the BMK waterway development, improved cycling and leisure opportunities	Please share any other feedback you have at this stage.	
861	the hotel and having a choice of transport and walking options. The boats a UOR are wonderful and those river environments are great for the environment, great for wildlife and those that want to relax from the parks. You'll need to have a lot of indoor attractions as the weather can be poor any time of year. We live about 75 minutes	Please share any other feedback you have at this stage.	
5320	support for proposed waterway from Bedford to Milton Keynes	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5280	Being able to construct a canal from Kempston(Head of Navigation on the River Great Ouse) to Milton Keynes(Grand Union Canal Ouse)	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?

ACKNOWLEDGEMENT OF FACILITATION OF TRANSPORT IMPROVEMENTS (64)			
ID	Comment	Survey question	Response
928	A great opportunity for the community to help people of all ages with employment. Not only directly for Universal, but also for the Bedford area for transport, local hospitality and all businesses in general	Would you support a potential park and resort coming to this site? Please explain why.	UDX has been engaging and working closely with the relevant organisations and stakeholders, including the Department for Transport, National Highways, Bedford BC and East West Rail to understand the potential impact on local transport infrastructure. UDX also received many comments about transport through its public engagement. As a result of this engagement, UDX is proposing the following to accommodate forecast demand:
2958	As retired Police Managers with 30 years service, we see the many economic and social benefits to the County and surrounding areas as you have detailed especially linked to transport improvements (all types, as detailed), employment, support for local Organisations and	Would you support a potential park and resort coming to this site? Please explain why.	
4122	Bringing training and employment opportunities to the area Better transport networks Improving economy of local area Also I love theme parks!	Would you support a potential park and resort coming to this site? Please explain why.	
4597	Hugely exciting opportunity to put the region on the map. Would be proud to be nearby a world class theme park. Employment opportunities and transport infrastructure improvements would only	Would you support a potential park and resort coming to this site? Please explain why.	Rail UDX has worked closely with the Department for Transport (DfT), East West Rail (EWR) and Bedford BC to develop a comprehensive approach to improvements and upgrades to rail infrastructure. This includes upgrading the proposed Wixams station from 2 platforms to 4 platforms and providing a Western Plaza with direct last mile connections to the ERC.
3220	I'm personally excited about the potential for investment in Bedford's city centre which would be a natural by-product of the project. It would be great to put Bedford on the global map and improve transport links to the area. I'm also excited for my young children	Would you support a potential park and resort coming to this site? Please explain why.	
3082	Helps with economy. Brings in job opportunities. Improves local business and transportation.	Would you support a potential park and resort coming to this site? Please explain why.	The proposals also include the safeguarding of land for a new EWR station directly serving the ERC, as well as the local community. UDX has also investigated the potential for bus or coach shuttle services from other key stations, such as Milton Keynes.
3655	I am an enthusiast of theme parks and am fully supportive of when new development is proposed especially in the UK. However I also acknowledge the importance of the many job opportunities that this would provide and the improvements this would create for the	Would you support a potential park and resort coming to this site? Please explain why.	
1717	I fully support the building of a UK Universal. This will bring many benefits to the local area and the UK, the economy will benefit heavily, enhanced transport links to the area will also be a massive benefit. The way Universal operate in the USA with local schools,	Would you support a potential park and resort coming to this site? Please explain why.	Additionally, because UDX's demand is largely counter cyclical, it will have the added benefit of filling empty trains leaving London in the mornings.

3287	Economic benefits; associated transport infrastructure improvements; potential to be transformational for UK theme park industry	Would you support a potential park and resort coming to this site? Please explain why.	Road UDX has worked closely with National Highways (NH) and Bedford BC to understand the potential impact on the strategic and local highway networks. Universal has built an area-wide microsimulation model to test overall network performance, and individual junction models to test key nodes on the network. It has assessed a range of scenarios within the Transport Assessment. To accommodate the forecast demand, new direct slip roads will be provided on the A421, serving south-facing arrivals and departures, and north-facing arrivals, with north-facing departures routing via Marsh Leys Interchange. Manor Road will also be upgraded, and a new signal-controlled junction will be provided at Manor Road / Ampthill Road, which will also facilitate access to Wixams station. UDX is proposing other improvements to the local highway network to mitigate impacts during both construction and operation. These include adding new signals to the Broadmead Road junction on Woburn Road, and improvements to the pedestrian environment around the Site.
4480	The facility would attract visitors and trade, the improved transportation links will be beneficial for local residents.	Would you support a potential park and resort coming to this site? Please explain why.	
3698	promises. This includes: creating an exciting resort worth visiting (such as with unique experiences/rides, water parks, restaurants, shows, etc), respect for local/national culture across the resort, investing in the surrounding areas (through involvement with local organisations for construction/charities/schools and facilitation of transport options to the resort), and minimising impact on the	Would you support a potential park and resort coming to this site? Please explain why.	
5375	A project of such magnitude has the potential to boost the economy through job opportunities, and revenues to the local council which then can be used to further develop the region by investing in	Would you support a potential park and resort coming to this site? Please explain why.	
514	I believe that it would greatly benefit those in the surrounding area with new job opportunities, would greatly improve the infrastructure of public transport, roads and paths, would be financially beneficial to businesses in the area, and would bring a lot more reasons for	Would you support a potential park and resort coming to this site? Please explain why.	
634	It will improve local businesses, the transport infrastructure, job prospects, environmental benefits. It will bring a huge well overdue economical boost to Bedford & to UK	Would you support a potential park and resort coming to this site? Please explain why.	
502	Due to the extensive benefits the park can bring to the local area of Bedford, theme park, jobs, increased transport links, more extensively the park would be the biggest in the UK and would provide high quality entertainment for people who are holidaying in	Would you support a potential park and resort coming to this site? Please explain why.	
690	I will support many reasons There's many new developments coming up in the area, it would help the population with jobs, kids will have fun ,public transport and the rest	Would you support a potential park and resort coming to this site? Please explain why.	
900	would be transformative for the area's stature, attracting tourism and further commercial investment. The infrastructure improvements, if implemented well, would provide a significant transportation and environmental benefit to residents, particularly if additional bus services could reduce the vehicular traffic in the area. And new full	Would you support a potential park and resort coming to this site? Please explain why.	
1110	transport network. Along with creating many new jobs and having a positive impact on the local area, this positive impact will extend much further around the country prompting existing theme parks and attractions to invest further creating a friendly competition and in turn more jobs and benefits the local economy around them.	Would you support a potential park and resort coming to this site? Please explain why.	
1159	Its something that will be bring a lot of joy to people of the UK (and abroad) it will help to secure the future for the Bedford and surrounding areas and with help both economically and create much needed jobs and career prospects for the local community. It will	Would you support a potential park and resort coming to this site? Please explain why.	Parking UDX has developed a multi-faceted transport strategy to address this concern, including: providing sufficient on-site car parking to accommodate forecast demand, providing convenient access to on-site parking areas directly from the A421 and providing significantly improved access to public transport including Wixams Station and shuttle buses plus active travel connections.
1181	I believe it would be good for the local economy with jobs and security for many, the improved transport links can only be a good thing	Would you support a potential park and resort coming to this site? Please explain why.	
			Waterway UDX engaged with the Bedford and Milton Keynes Waterway Trust as well as local residents to understand potential synergies related to the proposed waterway. UDX would be interested to review future synergies as that project progresses, but due to the need to provide current drainage and active travel plans to support the Proposed Development it is not currently included within the planning proposals.
			Airports UDX will work collaboratively with the key airports to ensure a smooth and seamless transition from the airports to the ERC.
			Walking and cycling paths UDX has worked closely with Bedford BC to develop an active travel network that serves the ERC and better connects surrounding local communities. This includes providing new active travel routes through the Proposed Development for east-west and north-south connectivity, and improvements to connections to Wixams

3880	<p>full-time jobs once operational. This significant employment opportunity could greatly benefit the local community by reducing unemployment rates and providing stable income for residents.</p> <p>Economic Growth: The development of the park and resort would likely boost the local economy by attracting tourists, increasing footfall to existing businesses, and stimulating spending in the area. This influx of economic activity could lead to further investment opportunities and business growth.</p> <p>Infrastructure Improvement: The project aims to unlock major investment into local infrastructure. This could result in improvements to transportation networks, public facilities, and utilities, enhancing the overall quality of life for residents and visitors alike.</p> <p>Tourism Boost: A park and resort in Bedford could become a significant tourist destination, drawing visitors from across the UK and even internationally. This influx of tourists not only supports local businesses but also showcases the unique attractions and offerings of the region.</p> <p>Diversification of Offerings: Introducing a park and resort adds diversity to Bedford's tourism offerings. This could attract a different demographic of</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	<p>in the east, and Bedford to the north. Whilst the visitor active travel mode share may be limited due to the wider geographical draw of the ERC, UDX would like to be a good neighbour and provide enhancements to the local network to the benefit of the local communities. Furthermore, team members will be drawn from the local area and will be encouraged to use active travel options wherever possible.</p>
2875	<p>Employment opportunities, improve transport links, increase leisure opportunities within the area</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4356	<p>I am very excited about this possible opportunity I can see the benefits a park would bring creating jobs for the area and with our good transport links eg bus, safe cycle links and rail it would give</p>	<p>Please share any other feedback you have at this stage.</p>	
4977	<p>It would bring huge benefits in terms of new jobs, training opportunities for younger people, and much-needed improvements in transport infrastructure. Our executive committee (of BAALHS) discussed your proposal at length and decided to give it our</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4992	<p>I love Universal Studios parks, it would be a great asset to have locally, help improve transport infrastructure and bring lots of employment opportunities</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3950	<p>Central Bedfordshire would benefit significantly from having such a venue on the doorstep. The long term investment in not just jobs but the impact on local services sounds positive and I fully support that. Your proposal talks heavily about invest into transport and local</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3183	<p>exceptional logistic location for the sheer amount of people that could potentially visit it. Although because of that it's falling into only really providing logistical jobs within warehouses, the modern work house outside of a call centre, which in turn don't provide many routes for advancement. Your proposal of jobs and training and if used to catalyse further and existing developments of creative</p>	<p>Would you support a potential park and resort coming to this site? 4910	<p>I believe it will improve visitors to the area, which in turn will help the local economy. It will create new jobs and also improve the local transport systems</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
2555	<p>I can't see many negatives to this proposal. It will create thousands of jobs, improve local transport and as a theme park enthusiast gives people in the UK the chance to experience a universal park. It</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4390	<p>truly love the immersive environment and atmosphere that Universal is able to create. There is no other park like it here in the UK and to be able to visit somewhere as an adult that let's you let go and live your inner child is truly magical. We also don't have a lot going on around this area for local couples, families and kids so offering a new theme park and entertainment complex would in some respects be life changing for our communities. All of the advancements to the transportation networks would vastly improve the local area, the</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	

4273	local economy, improve the road and transport network. The park would attract jobs which would boost local house prices. So long as the developers truly invest in local infrastructure, mainly roads and rail, I support this. It would also be good if investment funds went to the local town centre to develop restaurants, bars, shops etc.	Would you support a potential park and resort coming to this site? Please explain why.	
3013	It is a great opportunity for the area and makes something fun like a theme park more accessible to people of Bedfordshire and the East of England as most things are in London or further north. It also has potential for new jobs, better road/public transport infrastructure and	Would you support a potential park and resort coming to this site? Please explain why.	
1966	It would be a major tourist attraction, and would get people moving away from London which will hopefully allow for currently underused transport routes to be used. Besides this, it will create so many jobs for the local area and give young people especially a sense that they	Would you support a potential park and resort coming to this site? Please explain why.	
4651	industry which is significantly lacking in this part of the country. It would rejuvenate the area and bring in fantastic economical opportunities. Development to transport infrastructure is also a great bonus. As someone who enjoys theme parks and is local this is very exciting and would certainly visit as a guest and maybe as an	Would you support a potential park and resort coming to this site? Please explain why.	
1946	It would create so many jobs, help the area transport wise and who wouldn't want a universal theme park in there back yard I've been to the one in Orlando it's magical it would do so much for our country	Would you support a potential park and resort coming to this site? Please explain why.	
4902	Regenerate the whole area creating new jobs and improving transportation links. Putting the area on the map	Would you support a potential park and resort coming to this site? Please explain why.	
2470	The economic benefits to the town, new jobs, tourism and also the improvement of transport links In the town and also improved roads.	Would you support a potential park and resort coming to this site? Please explain why.	
2069	improvements to the local area and community is absolutely what it is needed in the UK. I think it would enrich the lives of a lot of people bringing not only new jobs but the chance to have a career and know your hard work will actually achieve something rather than being another cog in a machine. To have a Universal attraction in the UK will be such a relief to escape the everyday grind that will be much more accessible and affordable as not everyone is able to visit another universal park around the globe. Our road and transportation network is in desperate need of improvement and the	Would you support a potential park and resort coming to this site? Please explain why.	
2623	The transport upgrades the park would bring would benefit the area. So too would the jobs.	Would you support a potential park and resort coming to this site? Please explain why.	
4794	investment and skilled jobs for our younger generation for many years. Bedfordshire is a perfect location as there isn't any other theme park within this area and has already good transport links. Having visited your current theme parks on many occasions in Orlando Florida I understand the Universal ethos and how you strive for excellence and would create a destination not a typical theme park. (VelociCoaster - awesome!) The heritage around Bedfordshire would be fitting for such a prestigious company as Universal to create its first theme park in the UK. Also, the fact you've chosen a site that has been left to waste away from its previous use rather	Would you support a potential park and resort coming to this site? Please explain why.	
1680	This is the future for the younger generations, jobs and opportunities to learn. And it would bring more community's together. I am on the East coast and the thought of better transport to the areas is good	Would you support a potential park and resort coming to this site? Please explain why.	
2950	To have something like this on our doorstep will be so exciting! Not only as a place to visit, but also for all the jobs it will create, and the money invested into the area. Also looking forward to improved	Would you support a potential park and resort coming to this site? Please explain why.	

4570	better transport connectivity which improves our lives. It also improves the wealth in an area that feels like it's on a down. 8000 jobs would improve Bedford, but please use cycle paths from villages like shortstown so staff can cycle / run / walk to work, take pressure off the roads, make living and working locally possible and	Would you support a potential park and resort coming to this site? Please explain why.	
5626	It is an amazing opportunity for the people in surrounding areas to create jobs and the infrastructure of roads and transport	Please explain why	
5689	Any major proposal that would potentially be a driver for as many as 8,000 additional local jobs would be a really welcome initiative for the local area, as long as there were guarantees to upgrade the	Please explain why

5790	Exciting opportunity for the area. Will bring jobs to the area and build	Please explain why	
5690	experience of visiting a park like this. Many families would not or may not be able to travel abroad to do so. Encourages employment of all ages especially school leavers and promotes the current family environment we currently have within Wixams. Will hopefully also encourage local councils to invest more in the local areas current appearance, with transport links and anti social issues also being	Please explain why	
4147	travel agent, I would love to see this in the UK. All too often the UK gets overlooked for major attractions, case in point being the park in Paris, but relatively close proximity to Leavesden & Elstree studios and the hangars at Cardington make for an almost central location ideal for the project. Some improvements to the existing transport links would also assist in this. Much needed employment and revenue streams would put life back into an area once thriving with	Would you support a potential park and resort coming to this site? Please explain why.	
1747	support for your proposal to establish a new park in Bedford. As a resident of the area, I believe that the creation of this park would bring immense benefits to the community and enhance the quality of life for all Bedford residents. Parks play a vital role in providing green spaces for relaxation, recreation, and community engagement. They contribute to the physical and mental well-being of individuals, promote social interaction, and create a sense of unity among residents. By developing a new park in Bedford, Universal UK has the opportunity to make a lasting and positive impact on the local community. Furthermore, the establishment of the new park has the potential to contribute significantly to the development of our transport infrastructure, job market, and education system. By creating a green space accessible by public transportation, Universal UK can help improve connectivity within the city and encourage sustainable modes of transportation. This initiative could lead to the development of new cycling paths, pedestrian walkways, and public transportation routes, enhancing mobility options for residents and reducing traffic congestion. In addition, the construction and maintenance of the new park will generate employment opportunities for local residents, providing a boost to the local economy and fostering community prosperity. Moreover, the park could serve as an outdoor classroom for schools and educational institutions, offering hands-on learning experiences in environmental conservation, biology, and ecology. I applaud Universal UK's commitment to investing in projects that not only	Would you support a potential park and resort coming to this site? Please explain why.	
3851	I live locally (literally on XX) and believe this sort of employment would be beneficial for the area. Projects of this kind can have a positive effect on the area (if done right!) and would be expected to	Would you support a potential park and resort coming to this site? Please explain why.	

3396	had an enormous amount of house building in the area so to have this complemented by diverse employment opportunities and engagement of young people will be a good thing. Helping to improve the local railway links is very important for the people of this area and long overdue. We have no large theme parks in this area despite the vast population within an hour of the site and the current and potential transport links available. The plan suggests Universal Studios will be sensitive to the environment and the wildlife of the	Would you support a potential park and resort coming to this site? Please explain why.	
216	I believe that there are significant positive benefits for the local area and more widely - this is a project of national significance. Sustainable transport and development should be prioritized to	Would you support a potential park and resort coming to this site? Please explain why	
4599	It creates important competition within the uk theme park industry and provides a high quality employer for the region. And increase in investment into transportation and a use for EW rail	Would you support a potential park and resort coming to this site? Please explain why.	
1245	It would be great for developing and helping the local areas, new jobs, better transport links, help with local buisness, training, tourism increase and would love to see a Universal Theme park in the UK	Would you support a potential park and resort coming to this site? Please explain why.	
3196	dynamic UK cities. As a result, Bedford currently is a bit of a poor relation. This development would inject considerable energy into the Bedford and local economies lifting the whole area. It would also make the area more important in terms of infrastructure priorities, eg road capacity, train schedules, airport transport links.	Would you support a potential park and resort coming to this site? Please explain why.	
1939	Bedford would be an incredible boost to the local economy. It would bring job opportunities and increased tourism, as well as encourage improved transport links between Bedford and other nearby locations. As a resident of Bedford, seeing the decline of the town centre has been disheartening and I believe that a Universal location opning in Bedford could also bring increased footfall to the	Would you support a potential park and resort coming to this site? Please explain why.	
3797	The UK needs a world class theme park and it can help the economy, tourism, enhance transport and can be done in a top class sustainable and environmentally aware fashion.	Would you support a potential park and resort coming to this site? Please explain why.	
913	I think the area could do with the boost to jobs and tourism as well as benefitting from better public transport links generally	Would you support a potential park and resort coming to this site? Please explain why.	
1156	It will create a lot of jobs, 20k construction jobs plus 8k operational jobs, it will support transport companies and created a lot of tourism to the country. As long as the environment is not made worse than it	Would you support a potential park and resort coming to this site? Please explain why.	
4010	Economic, social, and transport infrastructure benefits	Would you support a potential park and resort coming to this site? Please explain why.	
5097	Good for local transport infrastructure and local economy	Would you support a potential park and resort coming to this site? Please explain why.	
5221	Improved transport links and road infrastructure. The hope that facilities such as bars and restaurants are built that could be used by local residents such as myself. I also think the development may	Would you support a potential park and resort coming to this site? Please explain why.	
1655	The uk needs something exciting like universal and Bedford is a great accessible location local businesses would benefit from the extra footfall and improved transport links	Would you support a potential park and resort coming to this site? Please explain why.	
ACKNOWLEDGEMENT OF SITE TRANSPORT LINKS (44)			
ID	Comment	Survey question	Response
548	This particular site with it's transport links will mean that it will deliver change to many other locations within under an hour which are easy to spot on a map. On this basis emphasising Bedford in particular is wrong although poor layout of the town means that it would struggle	Please share any other feedback you have at this stage.	One of the reasons UDX chose this Site as a potential location for its first UK theme park and resort is because of its excellent transport links to London and the rest of the UK, including convenient, fast rail links to London and Luton Airport and because it can make use of existing spare capacity on local public transport

718	As the site will be in a triangle of good local transport links, as long as all areas are invested back into adequately, I think the park would be a great addition to the area. Specially with the local Safari park and Center Parks, it would be nice to see them collaborating for a	Please share any other feedback you have at this stage.	services and roads.
2493	Fantastic idea and location, the UK absolutely love their theme parks, but this would be long another level, great rail, motorway and 4+ major airports within an hour drive so international visitors can easily get there. We would like the biggest park you can build as	Please share any other feedback you have at this stage.	
2843	Semi-well connected location. Close to London. Anything around this area would be great, brings Universal to the UK!	Would you support a potential park and resort coming to this site? Please explain why.	
3215	largely enjoy a monopoly by the Merlin group. Universal parks elsewhere are to a much higher standard and basing one in the UK would be a great for the economy and help to offer an alternative / competition locally and to the parks on the continent, Your chosen area has great transport links and connects the North and South in	Would you support a potential park and resort coming to this site? Please explain why	
4368	The site is surrounded by good transport links and the UK is the perfect place for Universal to tap into the European market. It would be incredibly exciting to see a new theme park built here	Would you support a potential park and resort coming to this site? Please explain why	
2617	The area is north of London and is in a commuter spot and would give those (up to) 8000 people chances to work nearby rather than a lot of travel. The site is close to 2 railway lines, this links with good	Would you support a potential park and resort coming to this site? Please explain why.	
3231	Its the perfect place for a park nationally with great access and transport links and would add value to the area as well	Would you support a potential park and resort coming to this site? Please explain why.	
2207	near and the railway runs alongside. The international airports at Luton, Cambridge and Stansted are within very easy reach. The position of the theme park is also within easy daily travelling distance of many population centres. The park would make very good use of otherwise derelict land. Last but not least, I have been to Universal in Orlando many times (my son stayed there with his friends last year, too) and it has been a been a great experience. It	Would you support a potential park and resort coming to this site? Please explain why.	
1160	I live in Bedfordshire and this would be a huge opportunity for the county and economy for the local areas. Transportation is highly accessible also for not only those who live nearby, but for the wider audience. The UK has some great theme parks, but this would help	Would you support a potential park and resort coming to this site? Please explain why.	
2983	The location is great for this. Luton airport is nearby, 2 trainlines service Bedford, the M1 motorway is also close by.	Would you support a potential park and resort coming to this site? Please explain why.	
2907	It's in the perfect location and very easy to travel to for people all over the UK and those that travel from the airport. So many dream to go to Universal theme parks but will never be able to afford to get there, this will make so many people's dreams come true! So many	Would you support a potential park and resort coming to this site? Please explain why	
153	place where people can come to Bedfordshire and have a wonderful holiday. This would be a great development on a brownfield site which we know would be great for the economy . The site is a perfect given the excellent transport links, major airport a short distance away in Luton. It is very close to London and the international attractions and is perfectly located to be an attraction to tourists staying in the area. We have the midlands and the north in	Would you support a potential park and resort coming to this site? Please explain why.	

528	in Orlando, Florida and have been for 20 years. I know what Universal has to offer and would think it would be an amazing opportunity to have a resort in the UK (even better as it will be within walking distance from me). It will be in a central location with accessible transport links, it will bring traction to local businesses, increase tourism not just for Bedford but for surrounding areas of the UK and it will also provide many exciting job opportunities. I hope	Would you support a potential park and resort coming to this site? Please explain why.
534	he days when Marston Vale was making bricks. If I was still living in Stewartby in one of the old ex brickworks properties, you would still have my blessing. Why, because I have the luxury of being an Engineer and still have an association with the area of the planned development through my work as a manager for Anglian Water...who's job is to train and maintain a highly efficient field team finding hidden leaks on our water supplies. From the very start, the location and its current and proposed transport connectivity made it a very ideal site. The ground/soil type, the generally flat terrain, the myriad of other locations nearby able to support further development that would associate with the parks development...the list goes on, but it all adds to why I think that Comcast has made a good choice	Would you support a potential park and resort coming to this site? Please explain why.
2866	Jobs are needed, But the main point would be to raise the profile of Bedfordshire and west Cambridgeshire. As well as the existing good transport connections, the new Caxton Gibbet to Black Cat	Would you support a potential park and resort coming to this site? Please explain why.
4986	recent years through investment. With that investment came huge growth in terms of business hubs, situating themselves on the outskirts of the town, taking advantage of the superb transport links, certainly the road network. Construction is a byproduct of progress the long term benefits always outweigh the short term discomfort, as had been proved with the current industrial expansion and employment opportunities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3923	A great opportunity for Bedfordshire to create many jobs and it would be an incredible tourist attraction for the UK. Also, Bedfordshire is a great location with close transport links to London	Would you support a potential park and resort coming to this site? Please explain why.
3246	employer who understands the benefits of investing in its people. Secondly, once established, this may attract other high class companies to take a look at locating operations in this area, especially given its excellent schools, transport links, etc. Finally, and less obviously, Bedford lacks a bit of self-belief in itself. I spent 30 years living in Edinburgh and 25 years working in London, both world-class locations. My 20 years living in Bedford have shown me that it too has great attributes including a lovely river-front, nice countryside, a long history and good people. If you are seen to incorporate ways to make it easy for your visitors to also come into	Would you support a potential park and resort coming to this site? Please explain why.

2365	<p>Since I was 3 years old every few years I have travelled to Florida to go to universal. Universal is a place for everyone and lots of fun and you make magical memories that last a lifetime, every time you go more memories get made and every time is different, you never get bored! To have universal on our doorstep would be a wonderful opportunity. The location is a sensible place, with good transport links and waste facilities nearby. Bedford is my hometown (I still live local) but I'm sad to return to its centre as once a vibrant town centre now hardly anyone goes there to shop, lots of shops lay closed and empty. Having universal on its doorstep would be a game changer economically for the local area. I know when I go to universal in Florida most of my time is also spent exploring Orlando and shopping, eating so having universal in Bedford would massively help our local areas economically. The jobs it would bring to the local area would help every generation. It's such an exciting opportunity for our local people. If you are worried about traffic doesn'tbe, I've always driven in a car to Florida universal and have never sat in a queue or been affected be one, the universal staff are fully experienced at getting everyone where they need to be without affecting roads! I'm sure universal will have their own trains so no one is affected train route wise. Reading about how Universal will help our local area too is really refreshing that a big company has chosen our area to invest. Working with local ecology and wildlife is great although I doesn'tthink much exists there at the moment as it's a bit scrub land and probably has some contamination issues, so</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3898	<p>I think it is a really good opportunity for the local are to receive some much needed attention to local infrastructure and will be great for creating jobs in the area. It is an excellent location with good transport links so improving these for the local community will be a</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4820	<p>I think it would be fantastic for Bedfordshire and the South East with good transport links to both M1 and A1. A really good project to create jobs and add value to the area.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4896	<p>creating lots of jobs and opportunities for the local community and tourism, providing economic benefits to the area. We also have great transport links so it's a great place for it to be. It would also provide local residents something to do on a regular basis which is currently lacking in Bedford. I also love theme parks so really want</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3155	<p>Park & resorts. It would be ideal to build near Bedford, only 1 hour from London. Bedford is a great location, the town, county, and surrounding areas is good all rounder place to live & develop. Excellent transport links & the weather is really good compared to other areas of the UK. I live in Bedford & can say there is a lot of hype & excitement for this project to go ahead & become a reality! With the extra jobs, tourism, economic benefits it will be bring, a</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4602	<p>business and jobs this will bring. Being right in the heart of England, the location is ideal with transport links to very many major cities. Having visited the amazing Universal Orlando and California sites many times, I am confident the project team will deliver a high quality product and I will personally be looking out for local jobs to</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
4147	<p>travel agent, I would love to see this in the UK. All too often the UK gets overlooked for major attractions, case in point being the park in Paris, but relatively close proximity to Leavesden & Elstree studios and the hangars at Cardington make for an almost central location ideal for the project. 517	for many years been disregarded and struggled to get its name on the map, we have many major transport links in Bedford, we are in a easily accessible location and have a fantastic, diverse community. The ability to bring something like Universal to Bedford would provide a real opportunity for local residents to gain employment, benefit from extra footfall and have a location to go and spend time with family. My only concern will be in relation to the current road network and the influx of a large number of people, as a police Constable I regularly attend road traffic collisions on the A421, should the park be built the current A421 is not fit for purpose in dealing with the extra traffic congestion, the Marsh Leys roundabout would become gridlocked and there would be a negative knock on	Would you support a potential park and resort coming to this site? Please explain why.
2862	(thameslink, East Midlands Railway and the potential East-West rail link) will make getting here easy. Also we are 15/20 minutes by train from London Luton Airport providing low cost airlines that can get visitors to visit at affordable prices. We also have a diverse population so would offer an employment pool that represents the UK population. The site is also near the existing Park and Ride facility (think it's called Elstow Park and Ride on the A6) so could	Would you support a potential park and resort coming to this site? Please explain why.
1393	The project would be a significant boost to local employment. The site is well served by transport links and and additional investment in projects such as the East-West Rail Link would benefit other sites	Would you support a potential park and resort coming to this site? Please explain why.
1441	to make transport improvements and landscaping to ensure our neighbours don't disturb our rural village idle. A better option than the sprawling warehouses seen in Milton Keynes. The site has excellent transport corridors a good reason to live here , but now Milton Keynes is sucking the life out of our area , now is a good time to reinvent Bedford as a destination . It will create employment on site and encourage small businesses to return to the town centre as footfall increases. Bedfordshire has an interesting history that most	Would you support a potential park and resort coming to this site? Please explain why.
3324	Milton Keynes to the west and Cambridge to the east, and London to the south, historically offering excellent transportation links. However, its identity primarily revolves around commuters and individuals seeking a residential haven with limited local employment prospects. Consequently, the town lacks significant job opportunities, compelling residents to seek employment elsewhere. The establishment of a major employer within Bedford would not	Would you support a potential park and resort coming to this site? Please explain why.
4353	local economy. This increase would hopefully in turn attract more businesses. The town centre is failing, hopefully this would be initiative to businesses to come to Bedford. It would increase job and training opportunities. Great transport links already here for rail and air. Increase choice of places to stay when people visit Bedford.	Would you support a potential park and resort coming to this site? Please explain why.
4879	from multiple cities and has great transport links. But this isn't enough to bring investment, visitors etc to the area. Something as exciting and lucrative as a park and resort not only promotes a direct economic boost to the local community, it also has multiple indirect benefits to surround towns, villages, cities, global visitors etc. The	Would you support a potential park and resort coming to this site? Please explain why.
5089	for a world class theme park (s), as already mentioned in your document we have a large population, we have great transports links, we have large international tourism numbers on a yearly basis: so the park will be a success in my view based on both national and international visitors. I would be someone who'd also visit numerous times a year and would look to purchase an annual pass if available; so I would imagine a significant number of people would be in the same position. We already have a theme park industry (albeit it's not as extensive and currently dominated by one player, which is	Would you support a potential park and resort coming to this site? Please explain why.

1766	an universal park is a unique opportunity to bring something new to the uk. I hope it would bring an indoor waterpark & a themepark to the uk & its in a good location in which transport can access it in the	Would you support a potential park and resort coming to this site? Please explain why.	
2191	would be world-class and be incredible for the United Kingdom. The creation of careers and advantage to the tourism economy would be outstanding and something that particularly interests myself. The consideration of the landscape and heritage is fascinating and the site itself is perfectly connected to transport infrastructure so is	Would you support a potential park and resort coming to this site? Please explain why.	
2366	absolutely fantastic for the economy,for tourism and also for people who live in the U.K. There is a large theme park community here and Merlin Entertainment has the monopoly on U.K. guests. However Universal parks are a different league to anything we have now in terms of theming, investment and general overall quality. They also don't invest in the local areas or infrastructure around their parks and in my personal opinion just use the fact they have no real competition as an excuse not to invest. I genuinely believe Merlin would be scared of the competition. Having visited your parks on both coasts of the USA I know just how good the quality of your parks are and level of detail your company goes to to deliver	Would you support a potential park and resort coming to this site? Please explain why.	
3194	I think it would be a great asset to the UK and would be fantastic for the tourism industry, though I'm little disappointed that it is in the South of the country but that does make sense for transport and	Would you support a potential park and resort coming to this site? Please explain why.	
4042	Local economic benefits, potential for other tourist attractions to consider the area, good transport links to much of the country	Would you support a potential park and resort coming to this site? Please explain why	
3491	I would love a universal park in the uk. We have great public transport and roads and think this is a great site for it.	Please share any other feedback you have at this stage	
5109	Studios theme park would generate significant economic benefits for the local area and the wider UK economy. It would create job opportunities during the construction phase and provide long-term employment for local residents once the park is operational. The park would attract tourists from around the world, leading to increased spending on accommodations, dining, transportation, and other local businesses, thereby boosting the local economy. Tourism attraction: A Universal Studios theme park in Bedford would enhance the region's tourism appeal and attract visitors from across the UK and beyond. The park's proximity to London and its good transport links would make it easily accessible for domestic and international tourists. This increased tourism would benefit local hotels, restaurants, shops, and other attractions, creating a positive ripple effect throughout the tourism industry in the area. Cultural enrichment: Universal Studios is known for its immersive experiences and iconic movie franchises. A theme park in Bedford would provide a unique opportunity for visitors to engage with British culture, history, and creativity. The park could feature attractions and experiences that celebrate British films, literature, and landmarks, contributing to the preservation and promotion of British arts and heritage. Educational opportunities: Universal Studios has a strong commitment to education and skill development. The company could collaborate with local schools and educational institutions to provide unique educational programs and experiences for students. This collaboration could offer opportunities for learning about the	Would you support a potential park and resort coming to this site? Please explain why.	

4986	infrastructure and environment. The location for the proposed development, geographically, is excellent, with transport links available from all compass points. The fact there is a locally controlled railway line through the area means that environmentally there is a benefit too. To say the development would replace the old scars of industry and rejuvenate the locale is an understatement. I believe that the key is the local railway and the safety of such having its own signal box and staff so close. I won't mention how proud the	Would you support a potential park and resort coming to this site? Please explain why.	
1655	The uk needs something exciting like universal and Bedford is a great accessible location local businesses would benefit from the extra footfall and improved transport links	Would you support a potential park and resort coming to this site? Please explain why.	
535	The UK lacks an internationally-attractive theme park, while it offers many benefits. The site in Bedford benefits from proximity to London with excellent transport links, ideal construction requirements, and	Would you support a potential park and resort coming to this site? Please explain why.	
M1 (36)			
ID	Comment	Survey question	Response
605	M1 would need some work to be able to be free-flowing	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	UDX has worked closely with National Highways (NH) and Bedford BC to understand the potential impact on the strategic and local highway networks. Universal has built an area-wide microsimulation model to test overall network performance, and individual junction models to test key nodes on the network. It has assessed a range of scenarios within the Transport Assessment. To accommodate the forecast demand, new direct slip roads will be provided on the A421, serving south-facing arrivals and departures, and north-facing arrivals, with north-facing departures routing via Marsh Leys Interchange. Manor Road will also be upgraded, and a new signal-controlled junction will be provided at Manor Road / Ampthill Road, which will also facilitate access to Wixams station. UDX is proposing other improvements to the local highway network to mitigate impacts during both construction and operation. These include adding new signals to the Broadmead Road junction on Woburn Road, and improvements to the pedestrian environment around the Site.
1234	from the proposed site and although I think it will create a lot of opportunities, for me personally I believe it will have a negative affect on my work commute and leisure travel. The village I live in (Houghton Conquest) is the perfect cut through from the A6. Although there are proposals for adjusting to the M1/A421 traffic, how would this be done for the A6 traffic? Houghton is a small	Would you support a potential park and resort coming to this site? Please explain why.	
886	resident you can understand my concern about congestion. It's all very well that the train network will have spare capacity in the reverse of commuters into London. However, park visitors will still be on the same roads local residents want to use or commute on during this time. There is very little capacity on the existing road infrastructure as it is and adding in thousands of cars at peak times will backlog the system. Considerations for local only routes, or	Would you support a potential park and resort coming to this site? Please explain why.	
1127	I worry what will happen when the M1 gets chocked up which it often does and if traffic will then start blocking everywhere else up trying to avoid queuing on A421	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4436	I would support the investment and development, however this needs to be done considering the villages around the development and the road network. This development, if it routes traffic via the A421 - from the A1 and M1 would essentially mean travelling to	Would you support a potential park and resort coming to this site? Please explain why.	
2029	Improve Junction 13 of the M1	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3936	M1 J13 upgrade, A421 to become 3 lanes each direction, new universal rail station, mitigation for local villages to prevent traffic	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

4436	The A421 is link road between the A1 and M1. It is currently a dual carriage way which faces considerable traffic. additional traffic, at peak times would create considerable issues for local residents	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2842	As someone who runs a large successful transport business, the a421 and J13 of the M1 are already pinch points. access to the site should be considered to be away from the main arterial roads to minimise disruptions for locals with cars less likely to use a main	Please share any other feedback you have at this stage.	
F6183	Major roads junctions like J13 or M1and roundabouts art either end.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
1226	quite easily blocked up, quite quickly on the A421 and M1, pushing traffic all around the local routes. Our train lines also leave a lot to be desired and just feels like this part of the UK in and around London is already chocker block with people without the adequate infrastructure or services to match. Many thanks Paul	Please share any other feedback you have at this stage.	
1787	if travelling as a group. I believe the transport models significantly underestimate the volume of visitors who will come by road. This is particularly worrying as the local M1 junctions (12,13 & 14) are already at capacity. Extensive traffic modelling would be required to consider the increased traffic caused by the park and the cumulative effect created by planned developments, not only in Marston Vale but along the entire length of the Oxford to Cambridge Arc. The A421 is only a 2-lane dual carriageway with frequent accidents resulting in road closure and/or congestion. The alternative route to the proposed park would involve local B-roads that would be wholly unsuitable. Significant consideration would need to be given to alternative route access to the park to ensure that local settlements e.g. Cranfield, Stewartby, Lidlinton, Marston Moretaine, Salford etc, do not experience increased traffic. The proposed new A421 junction does not provide well enough for traffic accessing the site from the East(i.e A1). Consideration also needs to be given	Please share any other feedback you have at this stage.	
2858	I frequent other theme parks in the UK such as Alton towers, Chessington etc and I am well aware of the congestion at opening an closing times which is very disruptive to local residents there needs to be significant effort to manage this traffic to filter out to the	Please share any other feedback you have at this stage.	
4436	I would support this development but believe the estimation 35% of visitors would come via Car is underestimated. A link road around the back of the development from the A1 and M1 would allow traffic to easier. Diverting traffic south of the development would require	Please share any other feedback you have at this stage.	
4965	Those not travelling to the site on the M1 /A421 or public transport will make local routes and villages busy and congested. There are already issues with traffic and speeding which this would cmake much worse. You need to consider how traffic from the east will get	Would you support a potential park and resort coming to this site? Please explain why.	
3889	Just think it would be an amazing facility to have in Bedfordshire. It would be amazingly popular easy for folk throughout the country to	Please share any other feedback you have at this stage.	
4390	coming off the M1 as this is an incredibly busy junction already so this would really need to be looked at for guests visiting. Would you look at a hogwarts express coming from london kings cross to Wooton or a carriage on the train themed to this as this is of course the train station where the students leave from to go to hogwarts.	Please share any other feedback you have at this stage.	

5560	construction and operation of the park. I understand the A421 will provide the major access but fear much additional local traffic or visitors seeking to avoid other congestion will use the B530 which as per my comments above is already regularly jammed by retail park users frustrating access to Bedford, and b) at J13 of the M1 which is already frequently heavy with traffic. Access to and from the A507 will made much more difficult by larger flows to/from the A421	Please share any other feedback you have at this stage.	
5748	Whilst I appreciate the boost to the local economy and in investing in infrastructure, I am worried that the theme park would create major congestion issues, particularly around the A421 and the M1	Please explain why	
6023	I doesn'tbelieve there is sufficient infrastructure to support. The m1 junction 13 and surrounding roads are already very busy.	Please explain why	
5623	The local road networks are already suitable for the existing capacity. There are not suitable for the increased capacity that this project WILL bring. I cannot believe only 10% will travel by road and that load will only come from the M1. There will be traffic approaching from the east and this has not been catered for.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
868	consideration has been given to impact on local lives. I was in support of this project and previously filled this form positively. Then, following the consultation events I have realised how little you actually care for the local area and how the changes you plan to make are not realistic. The impact you are going to have on our day to day existence is massive, the inconvenience of the location / plans is obvious. We don't want the light pollution or noise pollution, people live here with pets that can't cope with noise from fireworks a few nights a year and you propose using fireworks and pyrotechnics daily, it is unnecessary to build a park like this that will block up roads and prevent our elderly and disabled from reaching medical services in kempston and bedford - currently these journeys are 20mins, during your construction and when your park is complete these journeys could take an hour. The responses provided so far have been lacklustre, you should be consulting with the local community, you are building on our doorstep, not theme park enthusiasts. Your plans depend on too many 'ifs' the changes to the rail lines are not yet confirmed, that stations can not cope with the influx of proposed visitors, our roads can't cope with it either, with or without improvement!! J13 of M1 continues to be a mess at peak times and the A421 can not cope with the added traffic, especially	Would you support a potential park and resort coming to this site? Please explain why.	
2518	down the M1 and A421 to the Luton and Dunstable Hospital my main concern would be traffic and the increased use of these roads. The commute is already difficult during rush hour and the project will make this worse. Please consider a new junction off the M1 and avoiding the use of the A421. I have so much support for the project, my Husband and I had our honeymoon at your park in Florida and it was one of the happiest moments of our lives. Please consider people who's daily commute to work could be significantly effected	Would you support a potential park and resort coming to this site? Please explain why.	
4013	roads but will have no effect on the amount of traffic which will enter the a421 and m1. This stretch of road is already busy and with an extra 3000 cars or more using it every day, this will massively impact travel to and from Milton Keynes. Additionally, there has not been a cost-benefit analysis performed for this project. Or if there has, then you have only shown us the benefits. A detailed plan to actually give local residents a proper assessment of the impact of the project should include the whole picture, not just what you think could improve the local area. Provide us with actual numbers on the	Would you support a potential park and resort coming to this site? Please explain why.	

1147	crisis. Since the building of covanta hundreds of lorry's travel down the single a421 carriageway (C94) causing multiple disruptions to residents living along this road. Having 8,000 employees PLUS visitors daily and the covanta traffic, along with local residents travelling too and from work will be chaos for locals. Unless some serious money is spent adjusting and shielding all residents who live along the a421 carriageway. Which is evident this will be the main route used for people using the M1 to travel to universal. Residents already suffer excessive noise pollution due to the lack of funding and appropriate noise barriers the council and local highway	Would you support a potential park and resort coming to this site? Please explain why.
3004	The site has (with a few enhancements) the potential for excellent public transport links (East West Rail, Bedford to London rail line, good access to strategic roads M1, A1, and A421 and good rail access to both Luton and Gatwick Airports). It would be a great	Would you support a potential park and resort coming to this site? Please explain why.
3063	The road infrastructure is already at its limit, the A421 regularly closes or backs up and the M1 has accident and lane closures on a daily basis.	Would you support a potential park and resort coming to this site? Please explain why.
4500	everyday for work. You say around 30-40% of visitors expected via train, train travel is extortionate in the UK. Are you looking at subsidised or free travel included in park tickets to achieve this? Mostly, the main park should 100% be on the northern part of the site you own. That side has warehousing and not homes right next to it. Surely, that would make more sense. I do not want fireworks and laser shows outside my window 7 (or even 2) nights a week. Citywalk areas are also loud and currently very close to current residential areas. I paid a lot of money for my house and chose to	Would you support a potential park and resort coming to this site? Please explain why.
4690	traffic, footfall, potentially gridlocks through villages. M1 cannot take that let alone the small villages, public transport too expensive to use. Only way I think this can work is another plot of land near M1, used for employee and customer parking and they are bussed in, as Disney do in Florida from their car parks.	Would you support a potential park and resort coming to this site? Please explain why.
815	Don't believe it is the right area due to infrastructure. M1 J13 is already congested both ways causing traffic jams on the M1 causing condition on the surrounding roads and villages. Extra pollution from	Would you support a potential park and resort coming to this site? Please explain why.
3390	Living close by and being a commuter I am worried about the cost of train tickets as our locals train station will now be an attraction. Will also have a huge detour to get to the station as won't be able to drive through the park. Worries about jnc 13 of the M1 being a	Would you support a potential park and resort coming to this site? Please explain why.
4442	absolutely ridiculous. The traffic would be awful and It would take me hours to get to and from my employer in Peterborough. Your proposed number of up to 30% of people travelling by car is completely unrealistic. You have 4 times as many parking spaces as Alton towers allocated this would be 4 times as bad as Alton towers. The majority of British people like to drive as it is more convenient if they do not live in London. Therefore, the traffic would be much worse than you are anticipating. I moved to a village location because it was peaceful and a nice place for my family to grow, not to live with terrible constant traffic jams on the A421. I would not be	Would you support a potential park and resort coming to this site? Please explain why.
4671	Although it's great for the local Economy, living less than a mile from the site does make me worry about traffic for me to get around and to work (the M1 and A421 are busy enough as it is) also the noise from the park and the potential to devalue my property because of	Would you support a potential park and resort coming to this site? Please explain why.

2547	what I have seen. I was concerned about traffic but I have seen that you plan to create seperate exits off the M1 and then have any queueing traffic within your own boundaries rather than on local roads. You seem to have properly considered public transport as well. I was concerned about noise but I understand that you create your lands so that the noise and light stay inside each land. The lady I spoke to asked about my own experience at Universal in Orlando. Could I hear Harry Potter noise from Jurrasic World and my answer was no. I am also exited about the job and training opportunities for	Would you support a potential park and resort coming to this site? Please explain why.	
2393	The natural way for people from south to reach the park is getting off M1 and driving through flitwick and ampthill and the infrastructure cannot cope . The presentations all concentrate on benefits to Bedford but people in central beds have been forgotten The people	Would you support a potential park and resort coming to this site? Please explain why.	
4820	I think it would be fantastic for Bedfordshire and the South East with good transport links to both M1 and A1. A really good project to create jobs and add value to the area.	Would you support a potential park and resort coming to this site? Please explain why.	
AIR (34)			
ID	Comment	Survey question	Response
1646	Airport upgrades	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	UDX will work collaboratively with the key airports to ensure a smooth and seamless transition from the airports to the ERC.
1650	Airports should be taken into perspective for international clients . The uk is central for travel when it comes to ireland ,france,germany and the scandinavian area	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3196	Improving travel time to/from London, ideally including Heathrow airport	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3220	Luton airport expansion. An hourly high speed train from Bedford to London	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3744	Airships in and out of Cardington or work with cranfield or another local airfield to bring passengers in by air. The magic begins from the moment you leave for your theme park experience.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4699	Investing into Local Airports such as Luton which provide a critical connection for visitors from abroad	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

534	this development is the lack of reasonable airport space. Yes, we benefit from Luton, the new east-west rail link may assist utilising Stansted and we could link to Heathrow and Gatwick through Bedford or Bletchley. But, all these airports suffer from overcrowding at times and if, as anticipated, Marston Vale springs to life thanks to one or more Universal theme park/s, then the west of the East Anglia region and the east of the East Midlands area will need more airport capacity. And that brings me to suggest something more radical and way more local...Thurleigh Airfield. It sits as a relic of WWII and the great days of when it was a Royal Aircraft Establishment helping to develop the likes of Concorde, but it retains much of its runway surfaces and taxiways...including one of the longest runways in the country. Its currently used to store cars and has a small autodrome racetrack, but its runway direction	Please share any other feedback you have at this stage.
5051	Improve routes and services at Luton Airport. Open up Cranfield airfield too. Less speed cameras! Better marketing for the town. Parking.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?
1640	Strong Heathrow - park links would be great	Please share any other feedback you have at this stage.
4725	fly in from Gatwick & Heathrow airports. Luton is obvious but Gatwick is a direct train ride to Bedford currently (with 0 stops), but would stop at Wixams in the future (Thameslink). Heathrow is one stop at Farringdon via the Elizabeth line and then Thameslink. A lot of Ryanair fly into Stansted, so most mainland europeans would fly into there. So potentially people would travel by train to Cambridge, then Bedford. Or get a bus service from Stansted to Universal.	Please share any other feedback you have at this stage.
3388	Main concern is that road and rail networks will not be able to manage the possible increase in volume of journeys made to the area. Even Luton Airport, which is 30 minutes away and will probably serve as a hub to the development is unfit for purpose.	Please share any other feedback you have at this stage.
3242	Luton airport would require additional investment	Please share any other feedback you have at this stage.
2862	(thameslink, East Midlands Railway and the potential East-West rail link) will make getting here easy. Also we are 15/20 minutes by train from London Luton Airport providing low cost airlines that can get visitors to visit at affordable prices. We also have a diverse population so would offer an employment pool that represents the UK population. The site is also near the existing Park and Ride facility (think it's called Elstow Park and Ride on the A6) so could	Would you support a potential park and resort coming to this site? Please explain why.
2983	The location is great for this. Luton airport is nearby, 2 trainlines service Bedford, the M1 motorway is also close by.	Would you support a potential park and resort coming to this site? Please explain why.
2207	near and the railway runs alongside. The international airports at Luton, Cambridge and Stansted are within very easy reach. The position of the theme park is also within easy daily travelling distance of many population centres. The park would make very good use of otherwise derelict land. Last but not least, I have been to Universal in Orlando many times (my son stayed there with his friends last year, too) and it has been a been a great experience. It	Would you support a potential park and resort coming to this site? Please explain why.
2617	The area is north of London and is in a commuter spot and would give those (up to) 8000 people chances to work nearby rather than a lot of travel. The site is close to 2 railway lines, this links with good	Would you support a potential park and resort coming to this site? Please explain why.

2907	It's in the perfect location and very easy to travel to for people all over the UK and those that travel from the airport. So many dream to go to Universal theme parks but will never be able to afford to get there, this will make so many people's dreams come true! So many	Would you support a potential park and resort coming to this site? Please explain why
1412	Bedford is the perfect spot for this project. Close to Luton and Stansted airport and to London. It will be a success!	Please share any other feedback you have at this stage.
2493	Fantastic idea and location, the UK absolutely love their theme parks, but this would be long another level, great rail, motorway and 4+ major airports within an hour drive so international visitors can easily get there. We would like the biggest park you can build as	Please share any other feedback you have at this stage.
3859	choosing red and orange to make it look like there are many areas within an hour by public transport (actually a lot of the area is orange which is 2 hours), and also Cambridge is not a proper airport so putting that on the map is pretty funny. Some honest mapping and assessment of the fact that almost everyone will arrive by car would	Please share any other feedback you have at this stage.
3243	We would be /delighted to have such a great activity on our doorstep. The transport links are great (which is why Milton Keynes is located near here) - ie, M1, Oxford-Cambridge rail line will go by here by the time the site is opened, Luton Airport easily accessible,	Please share any other feedback you have at this stage.
4578	As above, but the site would be easily accessible to all parts of the UK, in between two major motorways, mainline train and also easy access to three airports Luton, Stansted and Gatwick	Would you support a potential park and resort coming to this site? Please explain why.
952	Access to International Airports with easy information to access airports and resort hotels onsite	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3205	The area already has good connectivity infrastructure (roads, rail and airports) with rail and road improvements well underway. This project would be magnificent for the area economy, with increase in jobs, hotels, restaurants and bringing tourism to the area. I	Would you support a potential park and resort coming to this site? Please explain why.
4118	rail M1 and airport. With expected links between Oxford and Cambridge this can only be a benefit to much loved Bedford. I speak with younger generation who are finding it hard locally in respect to Jobs and employment, this project is very favourable. Years ago we lost out on the Nirex project on the same site, it would be disheartening if this project did not go ahead. Not forgetting it will so	Would you support a potential park and resort coming to this site? Please explain why.
3923	A great opportunity for Bedfordshire to create many jobs and it would be an incredible tourist attraction for the UK. Also, Bedfordshire is a great location with close transport links to London	Would you support a potential park and resort coming to this site? Please explain why.
838	Create new bus line to bring locals to the resort and also some additional one to bring people from the airports.	Please share any other feedback you have at this stage.
153	place where people can come to Bedfordshire and have a wonderful holiday. This would be a great development on a brownfield site which we know would be great for the economy. The site is a perfect given the excellent transport links, major airport a short distance away in Luton. It is very close to London and the international attractions and is perfectly located to be an attraction to tourists staying in the area. We have the Midlands and the north in	Would you support a potential park and resort coming to this site? Please explain why.
3095	The site is ideal for such a park. There is excellent Motorway and A road connectivity as well as fast railway options north to south. The new Oxford and Cambridge arc will provide east west connectivity too. London Luton airport only a very short distance away with	Would you support a potential park and resort coming to this site? Please explain why.

3004	The site has (with a few enhancements) the potential for excellent public transport links (East West Rail, Bedford to London rail line, good access to strategic roads M1, A1, and A421 and good rail access to both Luton and Gatwick Airports). It would be a great	Would you support a potential park and resort coming to this site? Please explain why.	
2937	vicinity to Luton, Heathrow and Stansted airports. These will be improved with East West Rail and changes to A421 and A1. The site is also mainly brown field and not used for agricultural production. Alternatives for the site would likely be housing developments which whilst needed do not provide long term economic benefit to the area and only put further pressure on the existing infrastructure, schooling, NHS etc. The proposed	Would you support a potential park and resort coming to this site? Please explain why.	
594	A direct monorail/train to the nearest airport. International visitors will find this useful	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
2424	Consider environmentally friendly shuttle bus services from airports, train stations on the Thameslink, and from local communities because national rail strikes occur regularly. Staff accommodation to house employees, this is something that a lot of UK theme parks neglect to offer, a lot of workers are local but many do have to travel a greater distance by public transport. UK theme park staff are paid below the minimum wage, you'll receive a lot of interest from Merlin's current and former ride staff, junior and middle management, they work for the love of crafting memories and experiences, seek them out from the parks they're at, they will work ten times harder if paid a more comfortable wage than what the likes of Merlin provide. Be sure to consider plenty of indoor attractions and a European/British flavour through the IP's you select. British cinema is very rich, please inject as much emphasis	Please share any other feedback you have at this stage.	
889	Number of Trains on the (Bedford/Bletchley) could be increased even if additional shuttles run from Bedford Station to the park and return giving better access from the town and the rail link from Luton	Please share any other feedback you have at this stage.	
RAIL - NEW STATIONS (33)			
ID	Comment	Survey question	Response
4721	Open a new station on the Thaneslink line	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	UDX has worked closely with the Department for Transport (DfT), East West Rail (EWR) and Bedford BC to develop a comprehensive approach to improvements and upgrades to rail infrastructure. This includes upgrading the proposed Wixams station from 2 platforms to 4 platforms and providing a Western Plaza with direct last mile connections to the ERC.
2004	I think the best way to mitigate local concerns (I live in Wixams) is to invest early in the A421 slip roads, Wixams station so people feel an early benefit and not be negatively impacted by construction traffic. It's probably also worth highlighting ealy any additional benefit to local people when the park is complete e.g. discounted entry/season tickets.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	The proposals also include the safeguarding of land for a new EWR station directly serving the ERC, as well as the local community. UDX has also investigated the potential for bus or coach shuttle services from other key stations, such as Milton Keynes.
4080	Rail to include train station(s)	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	Working with the DfT, EWR and Bedford BC UDX has investigated the operational capacity of the railway lines, station capacity and train capacity, and believe the proposed trip forecasts can be accommodated by the proposed rail infrastructure improvements.

5510	needed as soon as possible. If the decision is to proceed, this project should be supported such that it's progress is expedited in order to ensure it's quick delivery. The last thing we need is more delay to the station construction. This could be enabled by taking a segmented approach to construction, first realising the eastern (Wixams-facing) side of the station, and then expanding it closer to the completion of any park by adding infrastructure on the western side of the tracks later. An operational station would also help support the environmental credentials of the project during the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	Additionally, because ODX's demand is largely counter cyclical, it will have the added benefit of filling empty trains leaving London in the mornings.
2943	Dedicated station possibly.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
5875	advnce notice on thameslink line when the new station (wixam station) will be built	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6166	Wixam rail station - to expand existin plan.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6122	Reject EW Railway from destroying housing and buildings in Bedford Town Centre	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3290	The Wixams train station should be upgraded to four platforms with shuttles to the site to avoid the need for cars	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4704	Improved accessible rail infrastructure - both via East West rail and the proposed new Wixams station	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4681	Rail improvements - Wixams station	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1452	Railway Improvements/New Rail Stations	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
5257	If upto 40% of people are getting to this site via railway the train system needs a major upgrade/ expansion at Kempston Hardwick and also a brand new Wixams station on the parallel line.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	

3439	Yes, We need a parkway station for East west rail and Midland mainline railway south of the town to connect to the theme park..	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5199	It will help us finally get the Wixams train station which has been promised for many years. It should also help improve the roads as many roads around here are too small to cope with the number of cars using them. The prospect of having the chance to get a job	Would you support a potential park and resort coming to this site? Please explain why.	
2185	I hope this project happens, I would love to see a train station at the park entrance, ride access pass. And an affordable season ticket	Please share any other feedback you have at this stage.	
3183	community. My main query / focus is that as a Thameslink rail user I'd like clarity on the impact of the Wixams train station. This would be the main public transport hub for guest arriving at the studio but in essence is at the other end of the park away from the entrance. It's advantageous in that it would serve the Wixams development but the capacity it brings and logistics you're bringing could also see it in essence as a 'Bedford Parkway' taking commuters from Bedford main station and adding additional traffic for commuters taking advantage of what presumably would be a spacious station designed to accommodate guests at peak hours. It's a point of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4704	provision of the long-proposed new railway station nearby at Wixams on the Bedford to St Pancras main line, and also the rebuilding of the Oxford to Cambridge line - both nearby your proposed site. It is likely that the Marston Vale branch would be closed for upgrade and infrastructure work - so opportunities to carry out infrastructure improvements. We have regular input meetings into the East West Rail Company - if not already approached, we	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1017	improve access from A421. And the nearby rail network including the proposed Wixams station	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1452	Improvements to the Midland Main Line and Marston Vale Line along with an improved station to replace Kempston Hardwick and finally getting the new Wixams station.	Would you support a potential park and resort coming to this site? Please explain why.	
2246	Just a thought but if you are going to build a train station why not the it to hogsmead. And you could run a steam train from London, can you imagine the popularity arriving at hogsmead on a real train.	Please share any other feedback you have at this stage.	
2469	nature and landscaping to guard them and shield from the sights of twisted steel rollercoasters and rows of cars in parking lots. Please link the new rail stations to both local villages that are within walking and cycling distance so that they can at least benefit from the rail links Please remember that you are about to change the landscape of a small community in a way that can not truly be defined, there are many economic benefits to this, but remember, real people, raising real families will be impacted for the rest of time. Locals will face into this project in a way that no external executive board, PR	Please share any other feedback you have at this stage.	
5717	A station on the Marston Vale line would provide good connectivity to the site. Local communities should be given reduced admission	Please share any other feedback you have at this stage.	

5722	Overall very positive my only concern is project drags on if you go ahead due red tape and unforeseen issues, if it gets the nod then get it done quick as you can ! Finally please get Wixams station built	Please share any other feedback you have at this stage	
5495	Wixams station to be completed as soon as possible with 4 platforms	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4497	It would be so exciting to have Universal on our doorstep. The new Wixams station would be so convenient and provide a great link to London.	Would you support a potential park and resort coming to this site? Please explain why.	
4143	However there are a few concerns I have. 1.Firstly the local transport infrastruture (particularly public transport like trains/ train stations) will need to be upgraded as mentioned in info leaflet. These projects like ewr will take many years to develop before benefits are seen. These projects (including upgrading kempston hardwick station) will need to be implemented quickly. The info pack states 10% of people not including passengers will be travelling in cars and 30-40% will take public transport. This figure seems optimistic regarding the high use of public transport. High train fares mean most people don't bother taking them and the UK population unfortunately still rely on cars are their main source of transport. Also if locals want to walk to the site for work or other purposes, footpaths/ bus routes eg from Wootton will need to be created as the current walking infrastructure is either non existent, not safe or not fit for purpose. How will you implement walkability to and from the site? 2. The new junction off the A421 is likely to create additional noise pollution from the traffic. This may impact the health of the locals so sound barriers would be a welcome addition (these have already shown effectiveness for wootton). 3. The existing A421 northbound slip road which feeds onto the Branstons way (A6) nearby	Would you support a potential park and resort coming to this site? Please explain why.	
3390	Living close by and being a commuter I am worried about the cost of train tickets as our locals train station will now be an attraction. Will also have a huge detour to get to the station as won't be able to drive through the park. Worries about jnc 13 of the M1 being a	Would you support a potential park and resort coming to this site? Please explain why.	
680	location for allowing people from far and wide to visit via public transport, particularly via the 2 train stations you are proposing. For the East West rail line, I think the currently proposed but as yet, not built connection to the East Coast mainline at Tempsford is crucial as allowing for a single change there opens up so much of the UK.	Would you support a potential park and resort coming to this site? Please explain why.	
4218	Would like to see good footpath/cycleway proposal from Wootton perhaps across from where Amazon is across the A421 to access the new proposed east/west rail station and on to the Theme Park and through to the new Wixams station so people who live in	Please share any other feedback you have at this stage.	
390	Lack of current local leisure facilities, this project would massively enhance the area. Allow UK residents to attend universal studios that cannot afford to visit Florida. Provide funds for the development	Would you support a potential park and resort coming to this site? Please explain why.	
770	Concerned regarding the transport hub planned for Wixams, and this will have a high impact on a new build area.	Please share any other feedback you have at this stage.	
4135	Cambridge but this park would give a significant boost to that project), plus the railway station at Wixams - both of these transport projects have taken a long time and are still nowhere near complete. Employment opportunities Would be great to have a theme park of your calibre right on the doorstep, the two in Orlando are superb and	Would you support a potential park and resort coming to this site? Please explain why.	
PARKING (24)			
ID	Comment	Survey question	Response

346	Human nature being what it is, the village will be used as a cut through to the theme park'people will park everywhere in the village to avoid parking charges or/and to miss traffic on leaving.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	UDX has developed a multi-faceted transport strategy to address this concern, including: providing sufficient on-site car parking to accommodate forecast demand, providing convenient access to on-site parking areas directly from the A421 and providing significantly improved access to public transport including Wixams Station and shuttle buses plus active travel connections.
2357	Considering the villages around think about the visitor bays parking spaces that will be occupied by tourists and how to allow family who live there to maintain the right of parking.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
3180	Parking	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4713	This will cause havoc to local village life. The influx of traffic and inevitable off site parking along with the increase in noise and litter. There are no good sides to this, it will simply turn the tranquil	Would you support a potential park and resort coming to this site? Please explain why.	
3023	How are you going to stop visitors parking in residential areas to avoid parking charges at your resort?	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3414	Would need to include parking for staff and visitors	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
185	We heard that a large car parking area is planned although we hope this will be free to park in order to minimise the parking of visitors in the local villages. We hope that pedestrian/cycle access will be	Please share any other feedback you have at this stage.	
140	It's important that the footfall being drove into the area is encouraged through sustainable ways. A free shuttle bus from the near by stations, particularly Bedford would ensure air quality is not negatively impacted for locals and causing traffic jams. Building a	Please share any other feedback you have at this stage.	
1979	bring them on site. Ensure that the local communities are not affected by people parking in their villages so they don't need pay for parking or train travel. Consider requesting that the local bus routes at peak times stop to utilise their transport. le first couple of hours and last couple of hours that could take people to Bedford or Milton	Please share any other feedback you have at this stage.	
5051	Improve routes and services at Luton Airport. Open up Cranfield airfield too. Less speed cameras! Better marketing for the town. Parking.	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
961	We wouldn't want theme park visitors parking their car in Wixams. We doesn'twant it to increase the cost of living in the area..	Please share any other feedback you have at this stage.	
3818	Work with local estates to ensure that people doesn'tpark illegally to try and park for free.	Please share any other feedback you have at this stage.	
3245	Please include EV charging stations at the resorts carpark, they dont have to be rapid chargers, level 2 chargers would be fine. People would be able to drive to the park attracted from all over the UK and Europe and then if they could return to a fully chared EV it	Please share any other feedback you have at this stage.	
5482	I am.worried about peolle parking in our village and walking to the park. It won't be far and as you are charging for parking I think it's something for you to.consider. I also think you should give local residents a reduced rate on attending the park. Offer evening only	Please share any other feedback you have at this stage.	

5628	I think this project could be great for Bedford but the residents of the surrounding areas have large concerns around the major roadworks, traffic from visitors, parking in nearby villages for free parking and noise pollution late into the night. If you can resolve	Please share any other feedback you have at this stage.	
5510	to result in people parking on local residential streets. Despite the excellent rail connections, due to the density of England, a lot of visitors would be arriving by car. If the decision is taken to proceed, the East West rail scheme could be supported and facilitated, this would link up the park with Cambridge and Eastern England by rail. By providing a walkway or people mover between the Bedford to Bletchley rail line, the park itself, and the Bedford to London line, the site would be a node connecting both north-south rail and east-west rail. This connectivity could attract intercity fast trains and support a	Please share any other feedback you have at this stage.	
3101	the volume of traffic and use of local restaurants, pubs, shops, it will make it unbearable to live near. The biggest issue will be the exceptionally unreliable rail way and how it will affect commuters who use this line daily, the costs will go up and we won't be able to get parking at the local stations (Bedford, wixams, Flitwick being the	Would you support a potential park and resort coming to this site? Please explain why	
4442	absolutely ridiculous. The traffic would be awful and it would take me hours to get to and from my employer in Peterborough. Your proposed number of up to 30% of people travelling by car is completely unrealistic. You have 4 times as many parking spaces as Alton towers allocated this would be 4 times as bad as Alton towers. The majority of British people like to drive as it is more convenient if they do not live in London. Therefore, the traffic would be much worse than you are anticipating. I moved to a village location because it was peaceful and a nice place for my family to grow, not to live with terrible constant traffic jams on the A421. I would not be	Would you support a potential park and resort coming to this site? Please explain why.	
F6160	People parking in the residential streets, would it become permit only? To avoid this. We think local resident should be given free tickets not just discounted, even if are one or two visits a year. Esp those like us who will have it in our back garden.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
5511	Set rules to avoid increased traffic caused by visitors, to avoid parking by park visitors in the surrounding areas causing issues for residents and to avoid noise pollution	Should we proceed with this development we would also help to facilitate a number of significant local infrastructure upgrades. Which of the following do you think is most important?	
4742	village. How can you manage this? I understand the extra junction off the A421 will be your main route, however will there be access off Woburn Road? Will visitors catch on they can beat the traffic by using local roads and cause mayhem for us? Will you also open the Car Park early enough to prevent congestion on these local roads	Please share any other feedback you have at this stage.	

E6236	<p>Thank you for sharing the proposals for Universal UK based in before. I hope you can help me with regards the chart below featured in the information pack.</p> <p>Can you please chart the details behind this study? Additionally I would like to understand what the axis in the chart below mean? The A421 has seen an increase in traffic over 211% in 20 years, this is based on the developments on the villages in the area. Based on the latest traffic survey, the suggested peak times of visitor arrivals are also the busiest times on the A421. Without major upgrades to the road I have fears that the capacity of the A421 will not be enough, especially with the current needs of the villages and commuting. Furthermore, it appears that the current carpark has capacity of 4500 cars. Can you also advise what the staff car park capacity will be? Does the above chart of movement on the road network also account for workers in the region commuting to work? You state in the study that Around 10% of people would drive to the site, with a further 25% as passengers. Can you advise how this relates to other theme parks in the UK? Are the assumptions inline with actual data from other major UK attractions. Commuting by car is much more economical vs Train, can you advise what</p>	Comment via email	
4491	How would you be looking to stop visitors from parking on road sides of local estates	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5097	Exciting opportunity which needs to be carefully considered as the local communities could end up as unofficial car parks	Please share any other feedback you have at this stage.	

PLANNING AND ENGAGEMENT			
LOCAL (504)			
ID	Comment	Survey question	Response
396	Cobsulting those living next to the site	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	Collaboration and community engagement are at the core of any new experience UDX creates.
4546	Engaging with the local community	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3891	Engagement with local community - particularly local charities support	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3432	That the residents of nearby villages are respected in their views, that disruption is kept to a minimum and that they are compensated for the upheaval to their lives during the construction process	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	In April 2024, UDX undertook a period of public engagement to hear local feedback on its proposals and to support feasibility and due diligence work.
3156	Involvement with local communities	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2128	That it should more fully consider the impact on and views of those residents that live in the immediate vicinity of the development	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1063	Universal working together with the local community and the UK	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	In just four weeks, UDX met with almost 1,500 people during its in-person public exhibition events at Bedford College and Kimberley College and have engaged with nearly 100 local organisations to also hear their ideas and feedback.
1622	Everything about the initial consultation from the location, infrastructure and understanding of the site and positive impact to the community is so overwhelming positive for a successful project.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2641	Community engagement with local charities, consideration for light and sound impacts on local residents.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
4955	I am excited for this to go ahead but the local people need honesty, transparency and regular updates on progress.	Please share any other feedback you have at this stage.	The engagement survey generated a great response, with over 6,000 responses, the overwhelming majority of them from people in the nearby communities, and what UDX heard was remarkable – just over 92% of people surveyed are supportive of a potential world-class theme park and resort, less than 4% are not supportive, and 4% don't know.
1647	Continuing your updates to Bedford residents & the British people would be much appreciated, a lot of us are eagerly anticipating this potential project & are hoping it comes to fruition, as we know the benefits will be massive to Bedford & the country. If you open this resort, doesn'tstop advertising Florida holidays and especially park ticket & hotel discounts in the Universal Orlando Resort to your British guests, make sure both are advertised to the British public, like Disney does with their Paris resort and Florida resort. If doing that decreases the possibility of getting the go ahead from the government & your company, then only advertise the UK resort in that case.	Please share any other feedback you have at this stage.	
529	I truly am very excited to hear about Universal building a resort in England. I think it will be wonderful, but only if it's done in a way that considers the local community as a valuable asset too. Please continue to listen and talk with the local communities as the project moves forward. Update them every step of the way and they will be your biggest supporters! Much love! ~<3	Please share any other feedback you have at this stage.	
4839	I really appreciate the transparent communication so far. Thank you	Please share any other feedback you have at this stage.	As a sign of how importantly UDX takes this feedback, each and every one of the thousands of comments provided has been carefully considered as it continues to develop plans.
4794	Thank you for keeping the local residents appraised of this great development. I've contacted my local MP Alistair Strachan who has assured me he fully supports this too and I expressed my support to him to ensure he knows we in Bedfordshire want this to happen.	Please share any other feedback you have at this stage.	
4667	Please openly communicate the postives and show you care about our community.	Please share any other feedback you have at this stage.	
3432	I am concerned about the effect on local residents and whether your commitment to local communities is genuine and adequate Consultation has to be genuine and residents concerns should be taken into account and acted upon So many consultations by large companies/ governments/ local authorities are box ticking exercises and the views of residents are disregarded .	Would you support a potential park and resort coming to this site? Please explain why	Collaboration and communication are at the core of how UDX does business around the world, and it will continue to engage with stakeholders and consider feedback where appropriate.

4616	So far the campaign has been super open and informative with this early public enquiry and I hope the rest of the process stays the same as it continues and I hope it is successful and I can't wait to see what you do with the land!	Please share any other feedback you have at this stage.
4504	Just keep us all up to date please.	Please share any other feedback you have at this stage.
4474	I would love to keep updated with regular updates and communications with the planning stages of the project. A newsletter sign-up would be great. Fingers crossed the project goes ahead.	Please share any other feedback you have at this stage.
4427	You have yet to provide adequate detail. You need to communicate better in a town without a local media service of any quality.	Please share any other feedback you have at this stage.
4175	Thank you for the opportunity to consult!	Please share any other feedback you have at this stage.
3936	Keep doing what you are doing - communicating	Please share any other feedback you have at this stage.
3873	Thank you for the information, please keep local people informed.	Please share any other feedback you have at this stage.
3364	I believe you guys are doing a fantastic job keeping the local community and the wider areas informed of developments and fully support the project.	Please share any other feedback you have at this stage.
3341	Thank you for allowing people to share their opinion.	Please share any other feedback you have at this stage.
3155	I am very interested in updates & hope this project goes ahead. I know so many people who are excited for what it could bring to the area of Bedfordshire, and the UK. Look forward to the decision.	Please share any other feedback you have at this stage.
561	Thank you for proceeding with this project in such a considerate, professional and caring manor, this attitude will give so much credit amongst the community,	Please share any other feedback you have at this stage.
578	I wish I could offer more feedback, but as someone who lives a few hours away I feel that my thoughts shouldn't take up as much of the conversation as opposed to locals - however the prospect of a UK Universal project is very exciting and would be a real boon to our tourism industry.	Please share any other feedback you have at this stage.
919	Everyone in the local area that I have spoken to about this potential project is very excited. Page mentioned on Monday that, so far, over 90% of respondents to this questionnaire have been positive. This doesn't surprise me at all, and really rings true with the conversations I've had.	Please share any other feedback you have at this stage.
968	Keep locals informed of what's going on and don't rely on Bedford Council to pass info on.	Please share any other feedback you have at this stage.
396	I think its a wonderful opportunity for Bedford but disappointed that there was no consultation with residents immediately affected by the development namely stewartby residents and kempston rural residents. Consultation were crowded with people from surrounding areas who would not be as affected as us. keep us on board to avoid negativity.	Please share any other feedback you have at this stage.
399	I attended the Head Teacher briefing and was enthused by the opportunities that this project has for our families, children and young people within the local area.	Please share any other feedback you have at this stage.
539	Please ignore the cynics and ensure that this amazing opportunity happens. Perhaps create a pressure group IN FAVOUR of this to persuade and get the locals in support of it.	Please share any other feedback you have at this stage.
4533	With projects like these you are likely to encounter a tiny but loud objectors. Please listen to the majority. With regards to the resort. Please design it allowing for UK weather. Though it rains in Orlando, you dry off in 5 minutes. Here rain comes with cold and you don't. Please have the potential for cover. Retractable roofs etc would be a great idea. It would be nice to have some British themed attractions. doesn't go down the route of the parks in Orlando where wealth gets a better experience. Eg paid for fast passes / queue jumping. Brits WONT like that, that a very American thing. We want to visit a fantastic Universal park where every quest is equal. Citywalk - you'll have to be careful as Brits can consume vast amount of alcohol and that can cause real issues. PLEASE BUILD THE RESORT - THE UK WELCOMES UNIVERSAL.	Please share any other feedback you have at this stage
546	As a fan of the other parks this is very exciting. I Understand you want to hear from more local people but it doesn't hurt to get encouragement and support from around the country too. As a huge Harry Potter fan I'm hoping you bring all the magic you have created else where around the world to the UK park. oh and Jurassic park :)	Please share any other feedback you have at this stage
721	Keep up the great information, the UniversalUK site has been an incredible source of information; don't let that stop! I'll see you at the opening :)	Please share any other feedback you have at this stage

868	You need to consult with locals, based on invitation only. Recent events were attended by enthusiasts from across the UK that were attacking local negativity around your project, unfairly. Until the consultation we were in favour, now we are worried about our future here, the park is likely to negatively impact our lives and no consideration is being offered to this and questions were going unanswered.	Please share any other feedback you have at this stage
884	Thanks for the engagement, it was great to attend and really appreciate the effort and lengths universal go through to properly integrate into the area. Personally, I don't even think it's necessary to have to explain yourselves this much. The benefits appear astronomical.	Please share any other feedback you have at this stage
1005	The presentation was excellent in Bedford this evening. This is very exciting and everyone we know is thrilled and support Universal. Good luck and God speed! Thank you!	Please share any other feedback you have at this stage
1194	Please continue to engage with the local community and keep the information flowing.	Please share any other feedback you have at this stage
1268	I hope Universal will continue to engage with locals as this project progresses.	Please share any other feedback you have at this stage
1318	Please actively seek the views of the wider UK public, who overwhelmingly support this venture. Especially if the views of only the local community come in from this first consultation. Many UK citizens are tired at the lack of future thinking based upon the 'not in my back yard' people being vocal.	Please share any other feedback you have at this stage
1344	REGULAR UPDATES ON YOU TUBE WOULD BE GREAT (THEME PARK WORLDWIDE)	Please share any other feedback you have at this stage
1347	Very exciting plans and credit to Universal for keeping people informed and engaged. Hoping this will come to be!	Please share any other feedback you have at this stage
1414	I'm very excited about this project and cannot wait for more updates.	Please share any other feedback you have at this stage
1464	I like the way you are going about this project. I live in Scotland not far from Trump Golf Course and he did not go about development in the right way	Please share any other feedback you have at this stage
1062	Donal is great and a good communicator and good at managing situations	Please share any other feedback you have at this stage
1066	Thank you for the opportunity to share a few thoughts.	Please share any other feedback you have at this stage
1506	We appreciate the engagement. Please try to let us know as much as you can about dates and progress as we don't want to sit until 2030 without any info	Please share any other feedback you have at this stage
1844	Very exciting news. I've been to many theme parks all over the world and universal parks are in my top three for theming, rides and staff engagement. Please if this goes ahead bring us hogwarts and a velocoaster like ride.	Please share any other feedback you have at this stage.
4614	I am sure people will complain and may have the loudest voices but I would be amazed if they are anything other than a vocal minority of NIMBYs.	Please share any other feedback you have at this stage.
4282	I think it's great that our area is being considered for this project and among my friends, family and neighbours I am yet to meet anyone who objects. Most people are very excited about the prospect and I hope this is reflected in the rest of the feedback you receive. I also welcome the approach you have taken to involving the community and keeping us well informed, so thank you for that and I hope this will continue as the plan develops.	Please share any other feedback you have at this stage.
4244	I'm very supportive of this venture and happy to have my voice heard. I hope we can continue to be updated on the developments taking place at each stage!	Please share any other feedback you have at this stage.
4167	We appreciate the opportunity to learn more about the proposed development. Whilst not confirmed in any way, this would be a great addition to Bedfordshire and the UK, so I do wish you the best of luck and would be happy to input further where required. Thanks	Please share any other feedback you have at this stage.
4161	I'm very excited about the prospect of the Resort coming to our region, you have made an exemplary start on your journey. You will no doubt speak to many individuals, groups and organisations over the coming months and receive a wealth of comment and feedback. If you feel you might like more detailed input on shaping the narrative, not just on the local stories but the wider significance of the project, I want to take this opportunity offer my support and perhaps unique local perspective. Please contact me if you think I can be of assistance. XX	Please share any other feedback you have at this stage.
4050	I am thrilled to hear about this project and am very thankful that local people's views are being considered in the shaping of the project	Please share any other feedback you have at this stage.
4018	Will not be supporting this. Have not received a letter from universal and feel I should due to how close it is from where I live	Please share any other feedback you have at this stage.

3998	I've given my details because i want to know what's going on and have my views and influence taken into account so please keep us in the loop.	Please share any other feedback you have at this stage
3963	I don't expect you to listen to the residents here. It's not exactly nimby behaviour given what your building offers the bare minimum value to locals (see gullivers world mk). If you're going to push ahead there should be consideration of the residents. For example. No fireworks. Ever. There are so many families with pets around here and if you're going to take away their countryside and replace it with a concrete enclosed hellscape the least you could do is not antagonise their pets multiple times a year. Right now, that whole area is underwater so I really hope that some consideration will be made about where exactly that water is going to go when you pave over the entire place.	Please share any other feedback you have at this stage.
3907	Would be great for local residents within a mile of the site to have more input into the site as we will be the ones most affected. Stewartby will definitely need roads looking at people it would be terrible for it to be congested here.	Please share any other feedback you have at this stage.
3478	I think you are already doing a wonderful job at informing us about this once in a lifetime event, keep up the good work!!	Please share any other feedback you have at this stage.
3125	The public and open engagement either local communities is much appreciated.	Please share any other feedback you have at this stage.
1161	Presently there is positivity surrounding the idea of new development and opportunities. Please keep local residents informed about the decision making process so that we are aware of any potential disruption. This will facilitate future planning.	Please share any other feedback you have at this stage.
1949	Excited at the prospect of this resort, thank you for the transparency in your proposal at this stage	Please share any other feedback you have at this stage.
1554	It seems to be that Marston Moretaine has been missed out in this and yet it is as close if not closer than Bedford in proximity why is this as I feel we will be greatly effected more than others which are in your current correspondence.	Please share any other feedback you have at this stage.
1956	The people in the local community I have spoken to fully support this and can't wait if this happens to be part of it's journey	Please share any other feedback you have at this stage.
1983	I thought the consultation was badly organised. Queues! Poor presentation where you couldn't hear. Very corporate and no understanding of the UK or local community. No UK presence or personnel. Felt very corporate top down communications. I left feeling this was a paper exercise versus being transparent and open to discussion. Poor technology experience and surveys. I hope this isn't a sign of things to come. :(Please share any other feedback you have at this stage.
1990	Keep going with these public updates / presentations, it gives a sense of togetherness to the community of Bedford and UK in whole. The presentation yesterday was amazing, such a great chat with the representatives. Keep going!	Please share any other feedback you have at this stage.
2071	I am fine about the park coming to my area but local people must be kept informed on how their lives will be affected.	Please share any other feedback you have at this stage.
1011	Hey Did anybody else notice the US centric view and lack of diversity at the consultation. The audience was multi-cultural!; shame the universal team wasn't. Local knowledge to build a local resort vs American cookie cutter! hummm	Please share any other feedback you have at this stage.
2318	This is incredibly exciting and the consultation was incredible positive - I personally know many people very grateful to Universal and wishing for this to happen. The UK theme park market is severely lacking and needs a great competitor to join!	Please share any other feedback you have at this stage.
2471	Keep residents informed, be adaptable, accessible and prepared to compromise if necessary	Please share any other feedback you have at this stage.
2786	I am sure the local MP and council could help with this point	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2531	I wish you the very best in moving this project forward, and I would be delighted to participate in any future consultations, surveys or focus groups if you were to conduct them	Please share any other feedback you have at this stage.
2567	I thought the presentation was very good and well done for your information boards and communicating in an open and accessible way with visitors	Please share any other feedback you have at this stage.
2547	Great meeting today. We appreciate that you are consulting with us and appreciate our feedback	Please share any other feedback you have at this stage.

2549	No feedback but I'm appreciative of the engagement with the local community so far and hope that it continues throughout future development	Please share any other feedback you have at this stage.
2581	Great presentation today at Kimberly College and impressed to see 2 senior representatives from Universal showing that the company take this seriously	Please share any other feedback you have at this stage.
2590	I very much hope the proposal moves forward and I would very much look forward to seeing further consultations at a future date so that we can see designs of how the park is going to actually look which will increase the already high levels of anticipation and excitement.	Please share any other feedback you have at this stage.
2618	How you've approached this has been outstanding and it's clear you really care about the community which is great to see. Keep it up and we cannot wait to see and visit them amazing park you'll build	Please share any other feedback you have at this stage.
2621	Encourage universal to engage with parish councils in the local area prior to the planning application which is been undertaken by a central government. Ensuring they can have early feedback and support changing the development to support their local areas. In addition engagement with local organisations including schools in the development of the park itself	Please share any other feedback you have at this stage.
2622	Regular updates on progress if the project was to go ahead would be great.	Please share any other feedback you have at this stage.
2634	Any additional consultation with the most local residence is very welcome. We know the area so well and would like to be involved in designing how the park might look (from the outside)	Please share any other feedback you have at this stage.
2890	Overall I am really impressed with the engagement this far, thank you.	Please share any other feedback you have at this stage.
4516	The Information Pack has been very interesting to read and its been fascinating to hear about your considerations for how you select land and plan your Theme Park and Resorts. The information on alternating Skylines is also something very interesting that i had not known before.	Please share any other feedback you have at this stage.
3441	I think this is fantastic and I am very thankful to you for looking at investing in Bedford. I also think the current reports on your website are very informative and thorough, so thank you for being diligent.	Please share any other feedback you have at this stage.
1049	Sounds good. All of the pandering to the local community is remarkably weary.	Please share any other feedback you have at this stage.
1080	We would n Be welcoming but need to keep consultation flowing please	Please share any other feedback you have at this stage.
1102	I would love to hear more about this whole development and Universal in general. If it will be almost like Orlando, then I would also love Mardigrass, Halloween Horror Nights and Christmas events returning every year.	Please share any other feedback you have at this stage.
1818	I love the idea of Universal Studios coming to Bedfordshire. I hope minor concerns by myself and the local population can be easily resolved. I feel the information presented in the consultation evidences Universal Studios as committed to preserving and protecting the environment and nurturing young local people.	Please share any other feedback you have at this stage
1957	It would be great if there was some form of circular/newsletter we could subscribe to discover more about the progress, before the go button is hit.	Please share any other feedback you have at this stage
2361	We are excited to learn more about your plans as they progress and appreciate that you are being open and collaborative with the local institutions.	Please share any other feedback you have at this stage
2401	The public meeting was awful. Couldn't hear the presnetation. I had to queue for 30mins. No facilities for elderly or disabled visitors. Is this how they run a park?	Please share any other feedback you have at this stage
2402	I went to the Consultation. I was really disappointed by the lack of diversity of the Universal team. Bedford is multi-cultural with a range of ethnicities. From what I saw, the Universal team was white from American. Disappointing.	Please share any other feedback you have at this stage
4077	I would like to represent my local town, dealing with the few rather than the many will help organise voices in the room. So the right message can come across in the right way.	Please share any other feedback you have at this stage
3657	I am more than happy to help with any questions/feedback/ comparisons as local resident/visitor experience and expectations.	Please share any other feedback you have at this stage
3528	Everybody I gave spoken to is immensely in favour of your proposed plans. If your feedback is not overwhelmingly positive then you are reaching the wrong people. Please do contact me if this us the case and I will try to help you find more supportive responses. The UK is a more negative culture than US or Asia- people make noise to complain, but rarely in a positive context. UK crowd get very passionate about saving things they have taken for granted, but not about instigating change- usually because they feel their voice will not be heard or were unaware in the first place.	Please share any other feedback you have at this stage

3397	We look forward to hear when you start and confirm your plans. We would appreciate that you keep us updated with regards to timelines and progress. We hope you give discounted tickets to the local residents, as we are going to be your brand ambassadors. We look forward to our journey together, as this will put us on the world map. Thank you for choosing us, we welcome you as our family to flourish together.	Please share any other feedback you have at this stage	
2420	The high level of communication with the local community has really encouraged discussion and support for the project. I would like to see this continued.	Please share any other feedback you have at this stage	
2521	This is an exciting and very much welcome development in my eyes. I would hugely welcome universal studios making themselves right at home alongside the residents of bedford. As I have said, communication is key and the excitement will build for everyone around until the day you open. I sincerely hope this happens and look forward to seeing it for real. All the best.	Please share any other feedback you have at this stage.	
2636	Unfortunately I had to leave the presentation on the 13th, after queuing for half an hour, as I could neither see nor hear it .Will you be releasing a transcript of it or putting it online?	Please share any other feedback you have at this stage	
2676	There is a lot of local support for this. Lister to the supporters, whilst be sympathetic to those with negative views. Wishing you well, and success.	Please share any other feedback you have at this stage.	
2677	It is a great thing for the local area 100% behind it and also think you have gone about it in a good way. Engagement and information well shared.	Please share any other feedback you have at this stage.	
2700	Let's hope it's goes ahead everyone I spoke to was very knowledgable which was a pleasure to talk to	Please share any other feedback you have at this stage.	
3372	When will wixams residents receive a meeting opportunity to share ideas?	Please share any other feedback you have at this stage.	
5133	Bedfordshire citizens should have a weekly progress report via the nominated website so everyone can get prepared.	Please share any other feedback you have at this stage.	
5065	Find a way of getting all the different communities (Christian/ Sikh/ Muslim/Hindu; White British/ African Caribbean/Pakistani/ Indian/Italians/Eastern Europeans';) in Bedford enthused about this project! Everyone would benefit!!	Please share any other feedback you have at this stage.	
5287	to be honest I was a little disappointed with the consultation. They are launching and Epic Universe in the US...there was very little Epic in Bedford...is this a sign of things to come. A few Universal flags, a room where you couldn't hear the presentation, queues. I hope Universal are really behind this and want to invest...the first public consultation didn't really give me that feeling.	Please share any other feedback you have at this stage.	
3165	The public needs to be kept informed of what is happening, with a two-way chain of feedback, it would be ideal for you to have an office local that were aware of local issues, our present ward councillors are totally useless and will not pass any info on that you give them.	Please share any other feedback you have at this stage.	
5334	Please keep updating this website	Please share any other feedback you have at this stage.	
4038	You are asking questions without bringing suggestions or solutions - you have an ask - local communities have a large and potentially disruptive project ont heir doorstep. You bring advantage to the community, I.e. the jobs potential and economic growth - but you need to bring a full strategic plan that sells your proposal to the community. So far these is little of practical value to judge your proposal against.	Please share any other feedback you have at this stage.	
5435	Excellent presentation on 11th May.	Please share any other feedback you have at this stage.	
1014	Only a small point on this website. It features duplicate link titles for "Click here" which is inaccessible for some users who use screen readers. The link should be descriptive.	Please share any other feedback you have at this stage.	
1287	MOST IMPORTANT - Your map on page 2 of https://universalukproject.co.uk/wp-content/uploads/2024/04/UniversalUKProject.InformationPack.April-2024.pdf shows an airport at Cambridge - please be aware that this is scheduled to close and land used for some 12,000 houses. Marshall's who currently operate are moving to Cranfield Nr Bedford.	Please share any other feedback you have at this stage.	

2522	I'd really, really love it if you could update this website / YouTube channel with regular photographs, drone footage, video footage, time-lapse montages of the development right from the very beginning to the very end. I Am passionate about Universal. I'm Loving Theme Park Stop's regular YouTube updates of Epic Universe. But not just because I'm so excited, but also because it's Just So Fascinating & Educational! HOW a pile of dirt is transformed into something so beautiful, professional, functional & (unlike normal construction sites) magical & immersive Blows My Mind. I see footage of construction workers & machinery pushing dirt around and I still cannot understand how the one leads to the other. Just like "The Making of Harry Potter" 1 hour up the road from Wexham, you doesn't need to be a fan to draw so much learning & enjoyment from this, regardless of whether your background is film, props, construction, writing, costumes, etc, etc.	Please share any other feedback you have at this stage.
3449	Easier to read map of the prospective areas and by name.	Please share any other feedback you have at this stage.
5374	Are there opportunities for residents get involved in focus groups or consultations? I would be interested in getting involved.	Please share any other feedback you have at this stage.
5396	After attending your presentation at Kimberley College, my questions and concerns were answered adequately.	Please share any other feedback you have at this stage.
2948	Keeping local residents informed at each stage with good communication is important. This is an enormous project and overwhelming at the moment. When it's completed I will almost be at retirement age and not sure if having such a theme huge park on my doorstep will be a good thing or not.	Please share any other feedback you have at this stage.
3253	As I live very close to the expected project, I would appreciate key communication being shared as often as possible. Would be good to have a clear plan with dates of key milestones for the project if this goes ahead.	Please share any other feedback you have at this stage.
3019	I have not seen much local press about this project despite living fairly close. Perhaps a few billboard adverts, or mobile lorry adverts could reach a wider audience? There is a great buzz about this project around town, but no-one quite knows about the public consultation, etc.	Please share any other feedback you have at this stage.
2958	Considering communication in different languages as Bedford is very diverse, or eg. attending local Mosques etc We support the Project as do our daughter and son-in-law, residents in Wixams who love Universal!! I'm sure we would all be very happy to assist or support any future Focus Groups etc	Please share any other feedback you have at this stage.
5715	Ensure that the locals are kept involved right from a planning stage. This will minimise any issues later on.	Please share any other feedback you have at this stage.
5972	Extremely happy with the way Universal have been very open with the general public on the project. I've heard nothing but positive things so far through the media, and I hope the updates continue. Previous attempts at building new theme parks in the UK have gone very quiet and very stale quickly. Only bit of feedback I can give is keep the online and social media presence going! Really excited to see what updates we get over the coming months. I'll be there for rope drop opening day!	Please share any other feedback you have at this stage.
5620	Happy to be contacted for further questions or thoughts	Please share any other feedback you have at this stage.
5596	Holding consultations with the local villagers to keep them informed before the wider park goes are informed.	Please share any other feedback you have at this stage.
5565	I think if this project does go ahead, local residents in Stewartby should be appropriately consulted to ensure their concerns are suitably addressed. All local residents should also be regularly updated about the project's progress. As a gesture of good will, local residents should also be provided with: - A day to explore the park before the park officially opens to the public. - A free annual pass for the first year of the park opening and a heavily discounted annual pass thereafter. - Access to employment opportunities in areas such as Marketing, HR, Sales, IT, Hospitality and other departments.	Please share any other feedback you have at this stage.
5375	I believe more discussions should occur if and when a final decision is made and concrete plans are in hand.	Please share any other feedback you have at this stage.
5307	If you would like to reach out further to local community in Wootton XXX I'm XXX. Where you can hold PR meetings for the local community. If you would be involved in our summer event like East West Rail please get in touch. If you would like to sponsor our Event and make a donation please get in touch. We are a registered charity. This is a not for profit event. We have a deficit of £5k our costs of event is £11k.	Please share any other feedback you have at this stage.
5118	Just work with the local community at all stages	Please share any other feedback you have at this stage.

5829	Keep everyone updated, it's much appreciated.	Please share any other feedback you have at this stage.	
5883	Incentives eg cheap tickets for people in Bedfordshire. Be fully open and communicate well	Please share any other feedback you have at this stage.	
5932	It sounds like a really exciting project to be exploring! I'm hearing really positive things about engagement etc so far, so keep it up! It'll be interesting to hear the outcomes, whether or not you decide to go ahead with the park here in Beds. Please consider offering meaningful feedback to the locals you have been engaging with should you decide this isn't the right area, I'm sure some honesty would be appreciated.	Please share any other feedback you have at this stage.	
5625	Please keep local residents and workers well informed at all stages on plans and what is happening	Please share any other feedback you have at this stage.	
5818	Please keep up updated on a regular (ie. Monthly) basis where possible.	Please share any other feedback you have at this stage.	
5763	Thank you for the presentation.	Please share any other feedback you have at this stage.	
5823	Welcome the opportunity but needs to be handled carefully to avoid causing disputes.	Please share any other feedback you have at this stage.	
5711	We hope you receive much support and enthusiasm for your project as a result of this public consultation and we hope to hear from you soon.	Please share any other feedback you have at this stage.	
1205	It would be good but - the consultation did not consider any other ethnicities; I had to read it to my dad who doesn't speak English. Bedford is made up of different ethnic cultures - it showed the universal team are not diverse which led to the issues above. How do we ensure employment considers all cultures - sad to see lack of diversity, especially in this day and age (not gender diversity but ethnic diversity) Please reassure me that universal will not impose a US culture but considers ALL local people and cultures.	Would you support a potential park and resort coming to this site? Please explain why.	
1072	As a community the added would those who lost the, during Covid and even before.	Would you support a potential park and resort coming to this site? Please explain why.	
2174	As above in my last statement. Being able to build on and with community support and existing engagement in the town. Building a commerce stream to elevate and drive prosperity	Would you support a potential park and resort coming to this site? Please explain why.	
396	Only if there is a proper consultation with those directly affected the most. There should be resident only consultation for Stewartby and one for Kempston rural residents. The other consultations were full of people outside of the immediate area who were just interested in what rides there would be. Have resident representation so our concerns can be heard and options viable explored by working together	Would you support a potential park and resort coming to this site? Please explain why.	
565	LACK OF AWARENESS OF OTHER COMMUNITIES. No translation. You have just excluded a large portion of Bedfordshire. Outrageous.	Would you support a potential park and resort coming to this site? Please explain why.	
440	The project appears to be engaging well with all stakeholders and is potentially transformative to the area.	Would you support a potential park and resort coming to this site? Please explain why.	
1459	This plan is obviously very exciting, it also appears to have thought out local impact far better than other proposed UK parks from recent history, and even existing UK parks. It is extremely positive that you are keeping an open line of communication with locals to ensure this is not just a big international company coming in to build a theme park without giving any consideration to who could be affected by it.	Would you support a potential park and resort coming to this site? Please explain why.	
525	I'm a retired corporate lawyer. I'm glad to see such a development but I'd like to offer some advice. - the consultation was a little chaotic. Infrastructure didn't work. Layout wasn't optimal. - we were told the capacity was for 200 people. Location was too small; I demonstrated a lack of understanding - presentation was short; I understand why but for most residence it didn't explain context of what it was so short. - we, within Bedford, like to see and hear from local people. It felt to corporate American. Be proud but also think and behave locally. A few changes but good luck. We are rooting for you.	Would you support a potential park and resort coming to this site? Please explain why.	

E6285	<p>Dear Universal</p> <p>Please could you create one extra public consultation session as the two current ones are in Easter holidays when people are away or juggling work with childcare. If you could do one extra evening one at Bedford College or Brewpoint, it would be really appreciated!!</p> <p>I have some ideas about creating alternative access routes and environmental improvements that I would love to feed in. I won't be able to attend in person and have completed the questionnaire but have had further thoughts.</p>	Comment via email	
E6290	<p>Hi, We would just like to introduce ourselves. We currently run the biggest Universal GB fan group on all social media platforms.</p> <p>Universal Great Britain Fan Group(Facebook)</p> <p>XX</p> <p>We have been following your project from the very start and will carry on doing so for the foreseeable. Myself XX and XX along with all our friends of the group are very excited at the prospect of your guys bringing the world's best theme parks and resorts to Bedford.</p> <p>We hope to build a friendship with you guys over the coming years and further.</p> <p>All the best with the project</p> <p>XX</p>	Comment via email	
E6291	<p>Hi</p> <p>Unfortunately I am unable to attend the meeting tomorrow at Bedford College.</p> <p>Will there be additional public events?</p> <p>Many thanks</p> <p>XXX</p>	Comment via email	
E6312	<p>Good evening, It seems like some people are posting a link to your universal website which results in visitors being banned. Please could you arrange for the unbanning of IP: XX</p> <p>Link which bans you: https://universalukproject.co.uk/?blackhole=052742a4f9</p> <p>Thank you and I hope to be able to visit the universal UK park should it go ahead.</p> <p>Regards,</p>	Comment via email	
F6131	It was good to have the public engagement events. There has been a lot of planning and thought gone into this. It's impressie. Please make sure you keep the local community involved and updated on the progress. It's a great initiative done properly. Given previous record, it'll be good.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6219	Please keep us updated and also provide some insights on pollution levels during construction and also after development. I want to also understand how it will impact my house value/price.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6198	Thank you so much for the opportunity to gain insight to the plans and project today. It's been a pleasure and a privilege to learn about 'Universal destinations and experiences', & sincerely hope the project goes ahead, thanks to all concerned for putting today's event together.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6177	Will appreciate being kept up-to-date	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	

F6175	Positive communication. So far & as upfront as it can be. Local passes cheaper fared for locals. Clear communication - not just on social media for all residents - by post etc / so that all messages get heard.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6189	Make sure we have the big picture in our minds. Communication then we can do our best to help Universal, it is a partnership after all. We need a sense of joint ownership.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6199	Meetings as the project progresses. Development of management courses for Universal @ local colleges and universities.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6186	Welcome the opportunity to be involved in the project communication. I support the project and would like to be kept informed of progress.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
F6196	I was saddened that a huge organisation, using a modern and attractive presentation site, failed to check factors such as that people were saying that it was impossible to hear the speakers because of the high volume and echo after, or to see the presentation because of the amount of people hustled around.	Feedback form: Please share any other feedback you have at this stage. Please share any other feedback you have at this stage.	
548	Yes but subject to continuance of the engagement with others involved which now seems to be happening. Earlier use of NDA's and similar was wrong	Would you support a potential park and resort coming to this site? Please explain why.	
491	Communicating regularly with local residents and businesses to keep them informed of the construction schedule, address any concerns or issues that arise, and provide updates on progress. Conducting environmental impact assessments and implementing strategies to minimize harm to local ecosystems and habitats.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
E6356	Hi, My husband and I are so excited that Universal Studios are coming to UK. Can you please put in for news letters and updates, Many thanks XX	Comment via email	
514	I would like the Bedfordshire community to be involved in the development, and there to be thorough support for the local wildlife and environment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2389	Thanks so much for considering Bedford for this development and the commitment to the environment and the community	Please share any other feedback you have at this stage.	
260	Just keep people informed. People are more concerned in the short term at the loss of trees and wildlife. Showing early on that you are conserving, transplanting them, protecting them etc would go along way to supporting you.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
200	Communication, communication, communication. Open, honest, particularly on timescales. Update also on progress (people like to know things are actually getting done!)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
176	Communication is important to let people know of any challenges	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

308	Communication around what is taking place and how long it is expected to last would help people to understand the disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
111	Keep people informed of what is going on and when. No noise at night. Don't close roads for any length of time. I live near Stanton Cross, a big development in Wellingborough. When they started building a well used road was closed for many months and caused a lot of distress especially for the businesses that were on a small industrial complex as access was restricted.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
161	Yes. Could you offer assurances to the local community that any disruption would be managed well and that we would be kept informed of progression of development on the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3109	Clear and advanced warning of plans, closures and alternative routes via email, letter and local communications to all residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3685	Clear and concise communication with locals, honesty is the best policy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3253	Clear and precise communication of expected disruption and road closures so locals can preplan alternative routes etc. avoiding major closures during peak times and days	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2622	Clear communication and timetable - as much notice as possible - works to happen around rush hour traffic rather than during. Speed up Wixams Railway station! please!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4083	Clear communication and transparent updates - most people can tolerate disruption if they understand why.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1881	Clear communication as to when and what is being disrupted and suitable alternatives.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

580	Clear communication is key. People can put up with disruption so long as they're sufficiently informed and can plan accordingly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3274	Clear communication of construction plans so that locals are aware of when disruption will be.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
362	Communication is key, allowing residents to know in advance when and where disruption may be, allows for alternatives to be explored	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2169	Communication is key, live/weekly updates to residents so they are aware of on going plans.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4122	Communication is key. Disruption is to be expected but as long as it is planned well and communicated well and appropriate diversions/alternatives are available it will be fine (and temporary!)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4879	Communication is really important. Working with local residents or representatives to ensure a smooth journey. ie ensuring that 2 main roads aren't closed together simultaneously	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4042	Communication regarding noisy work eg piling, when it's happening, how long it will go on for. Noisy construction to be ceased overnight.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2790	Communication well in advance and transparency on plans so that any disruption can be kept to a minimum and so the people in the local area remain onside	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3595	Communication with local people would be of key importance. Regular updates Advance notice of significant disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3362	Communication with the local community ahead of time	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1684	Communication with the people who live in the area, ahead of time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3484	Communication, clear, regular and concise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3021	The main point would be to ensure mitigation for noise / dust and traffic related impacts are clearly communicated. Ensure you have a fully functioning grievance mechanism in place and engage with local communities regularly. Employ a solid community liaison / engagement team to manage consultations and a clear engagement programme.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1525	Communication in advance and no shutting roads at peak times, ie school pick ups, we only have 3 entrances into village, 2 are onto same road. Shut that and we are practically prisoners in our own homes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2958	Communication is absolutely key which you are already embarking upon. Evidencing some early commitment to a range of local Initiatives and Charities and 'selling' the benefits to the diverse population of Bedford. Consideration to local advertising eg Boards at Sports grounds. Attending some very local locations to make yourselves even more accessible. Focus group opportunities as a result of the Survey info. Social Media & local magazines eg Wixams have a magazine delivered to residents. Identifying any early or existing local concern and supporting / helping to problem solve it early on, achieving early positive outcomes can only reassure people.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4286	Communication is always key - let people know the plan, the reality - find out what their fears and concerns are and address them eg heavy lorries will drive this route and not past your front door and so on.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1066	Communication is hugely important & I think people appreciate, as I do, the opportunity to ask questions in good time before work stages happen.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
539	Noise and disruption well communicated and discussed with the locals	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1818	Good collaboration with local services will be essential to ensure disruption is minimised and temporary road diversions/ replacement public transport services are adequate especially at peak travel times. I wouldn't want my journey to and from work to become significantly longer than it currently is.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2313	Good communication and regular updates	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
438	Good communication with progress updates would go some way to helping. Also, clear, advance notice of any closures would also be useful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3406	Good communication, build close relationships with community, have a named contact person, offset disruption by offering incentives to people living locally-tours of the site, invite to opening day etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
383	It's inevitable there will be disruption, but liaise with locals to gather their feedback before confirming the construction plans.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4739	Just keep everyone concerned updated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4054	Just keep everyone up to speed communicate with them	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3663	Just keep people informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3049	Just keep people informed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

260	Just keep people informed. People are more concerned in the short term at the loss of trees and wildlife. Showing early on that you are conserving, transplanting them, protecting them etc would go along way to supporting you.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2354	Keep the local community fully informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4318	Keep the local population informed and up to date.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3092	Keep the locals informed and involved at every stage of the project, i.e. regular updates on the website, flyers to communities who may be affected, meetings with local representatives to keep them informed, site visits to show progress and prepare for future disruption, perhaps create a council of locals to share feedback in either direction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4373	Keep the locals up to date. Have a social media page where you can report expected delays or deliveries etc so people can plan ahead.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1656	Keep talking to the community like you all ready are	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
378	Keep talking to the local communities and informing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2701	Keep people updated on what you're doing. What your planning to do next and how likely it would be to be disruptive to residents and road users	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3376	Keep the community engaged, protect the environment, use local businesses.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3296	As above the impact on traffic. People must be informed of progress and a citizens forum would be a good idea. Involving schools would be a good idea, offering apprenticeships perhaps.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
306	Minimal disruption to public roads which are already congested. If night building/construction is required - this would be ok if it is communicated in advance.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
263	Roadworks to be done overnight, staggered and smaller sections at a time to limit impact on the roads. Regular communication about any upcoming roadworks that may cause delays.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
706	Work with locals to manage concerns	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
877	Working in the construction industry myself i know it can be difficult to minimise all disruption but maybe Local incentives for when the park officially opens as a way to offset this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2397	Working less during nights and more during days. Proper dissemination of info regarding roadworks and closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2000	No as I don't live in the area however making the locals aware and informed is the best way to go about it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3527	No, I work for a construction company so I understand what is required. The only thing I would suggest is sending out details of any big transport haulage that might disrupt travel for people so they can work around it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5150	Whatever you do someone will moan! Just make sure locals are aware of the planned disruptions.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5292	To be considerate when disruption is caused to road closures etc and give lots of notice	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5383	To liaise directly with those impacted the most. Also to provide honest info on any issues/problems.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1376	Not for me to say as not in local area. I would say to make sure any immediate residents are informed from start to finish.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
594	Transparency and openness to local residents along the way. Discounts for those living within a certain radius.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3350	Transparency is appreciated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5342	I think as long as there are enough measures in place to avoid traffic build up, noise consideration as best as possible and regular updates and communication for local residents, then the project should be minimally invasive.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5033	Communicate plans and timelines	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5269	Communication is key. If a part of construction will be particularly noisy give the locals notice of this. Tell them all about the build phases, what is happening and when. There can never be too much communication and please do not rely on social media to get the info out, physically write to all the locals so that they receive updates via post or have a team hand deliver this. Too many companies rely on social media and forget that older people or those with additional needs may not be able to use that platform.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4968	Communication with the community throughout the project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5441	Emphasis on public transport access. Multiple channels of communication available.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5089	My suggestion would be less concerned about the work and more on communication about the work you would be doing. E.g plan and communicate what's happening and when, if there is some unforeseen huge disruption communicate it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5430	One of the major aspects of any major project like this is communication with the people of the area. Be transparent and informative and all times. One of the worst things is not knowing what is happening at all stages of the project, where it could affect peoples daily lives.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5413	Only that communication is key. I have no concerns that you would access all the support you need to handle this with as minimal disruption as possible but remembering that you can't make an omelette without breaking eggs.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5247	As long as people are prewarned and the end dates are not exceeded, I don't feel there is an issue.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5053	Be transparant with construction and delays, perhaps like how Thorpe park has allowed Jack Silkstone to record conatructioj updates from on site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5330	Building within certain hours, making locals aware of any road closures or works taking place, alongside public transport delays.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5262	Ensure that the construction programme is carefully planned and communicated to local authorities and communities. You have commenced local consulting in an exemplary manner and this contrasts with the appalling behaviour of EWRCo when planning the East West Rail in the same region. Your proposals for road access are excellent and Rail access to the site is very important via Midland Mainline (from north and south) and East West Rail (from east and west). Universal should determine its requirements and not be limited by current transportation plans which are parochial and not well-integrated. Working with National Highways should be easy, but beware EWRCo - they have a very poor reputation for honesty and transparency.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5395	Ensure the people are informed as to what is going on and there will be no issues. Forewarning makes a huge difference as to how the locals cope with changes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5255	I don't live locally but from general experience I would just ask that local residents be kept informed. It goes a long way. Like a website with a monthly update on what's happening and what disruption they can expect really helps.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5067	I feel as long as the local community are included and well informed at all stages it will can be a collaborative experience.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5090	Keep local communities involved with stages of progress and any additional construction as the development progresses	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5348	Regular and transparent updates could help.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5150	Whatever you do someone will moan! Just make sure locals are aware of the planned disruptions.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5021	You have to break a few eggs to make an omelette. Keep people updated if there are delays let us know, if there is a road closure let us know. We are not all miserable and grumpy we just like to know. (We're very nosy! Check out the Facebook groups!)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5050	Similar to keeping employees on side during challenging organisational change; keep us informed, be transparent and keep to the project plan timeline please.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5008	Maintaining closure updates for commuters.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
997	A lot of communication in regards to where and when disruption to road network will occur.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4352	A lot of roads have been repetitively closed for works in recent times. Asking contractors and utilities to liaise to minimise this would reduce this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3443	A robust construction management plan that is fully consulted on and is subject to reviews throughout the construction period A construction working group should be established so community reps can be involved in the construction process A commitment to improving the roads and transport links in the area with reasonable diversions/ traffic management solutions if needed, so disruption is minimised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4329	Advance communication wherever so possible to allow for workarounds.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1306	Advance notice and alternative plan to minimise disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2853	Advance notice is always useful.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
742	Advance notice of any road closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3538	Alton Towers have had their fair share of critics in XX, who claimed that noise levels have disrupted their everyday lives. I would suggest be wary of nearby locals and to conduct sound tests to see if it is likely noise levels will affect them. It would also help to collaborate with local villagers so that construction and evolution of the park can go as smoothly as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3184	Announce to the people that you are going to start work which can be loud and sometimes annoying for people who want a bit of quiet but assure them that the loud noises won't take long.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3835	Any advance warning would be greatly appreciated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2095	As long as it's well advertised so we can avoid it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3402	As long as any disruption is properly notified and as much mitigation is put in place then should be ok.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4006	As long as we are notified in advance, it will be ok. There is always road infrastructure improvements and we have always been affected by them at some point over the years	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1696	As long as you communicate it well with the local community which I'm sure you would then I don't think it would be too much of a problem	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2534	As the A421 is a main route to the M1 and Milton Keynes any work that could impact this should be planned and advertised well in advance	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4341	As you are doing, be transparent with the rational and time scales.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3786	Clear signage so construction work traffic is not going mistakenly into local villages. Also if a new sliproad, help Wootton to not have amazon lorries going into the village, supposedly a new sliproad could not be built to prevent this in that case.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4255	Clear timetable, daily start finish times where noisy/heavy machinery is likely to be used. I think if people know something a going to happen, they have no grounds to complain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4087	Clear transparency about the process will help	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1861	Collaboration.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
621	Communicate regularly and use sustainable products. Engage with local communities, provide a way for people to have a voice	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
491	Communicating regularly with local residents and businesses to keep them informed of the construction schedule, address any concerns or issues that arise, and provide updates on progress. Conducting environmental impact assessments and implementing strategies to minimize harm to local ecosystems and habitats.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3424	Communication and Transparency: Regular and clear communication with local residents and businesses about the project's timeline, scope, and potential impacts. Providing avenues for feedback and addressing concerns promptly. Mitigation Strategies: Implementing measures to minimize disruption, such as scheduling noisy or disruptive work, utilizing sound barriers, and controlling dust and debris. Community Engagement: Actively involving the local community in decision-making processes and seeking their input on mitigation strategies and potential solutions.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4337	Careful planning to avoid week day traffic disruption. Maximise weekend work if practical. Plenty of notice to locals if roads need closing.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4010	Consult local people and study the major traffic and travel impacts now when the major roads are temporarily blocked. So you have data on potential impact before the disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4142	Consultation. Advertise the disruptions in plenty of time. Find good alternative routes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
926	Contact the local Parish Council & and the neighbouring properties .	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2117	Continue to engage with the local communities, involve them in as many decisions by use of public meetings, surveys and a dedicated online hub. It might be an idea to look at how your employees might live ie do you invest in housing for your employees? Look at how the most successful industry in the U.K. developed Cadburys, Lever all built community living.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4770	Keep local communities informed through the construction process.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3221	Keep local community informed and updated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2022	Keep local people appraised of each stage of the development so they are aware of what to expect.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4574	Keeping local people updated at all stages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2085	Keeping local residents informed at all times. Not knowing what's happening or for how long makes people unsettled.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4433	Keeping neighbourhood in the loop at all times; incentives as to why this will be good for them	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
657	Be aware of the disruption road closures etc would cause, plan to minimise this (more during school holidays when roads are quieter, overnight closures where possible). Be open with plans, have plans accessible easily to local residents so they can plan appropriately. Consider the damage to existing infrastructure with an increase in heavy traffic (lorries etc) during construction. If possible, be involved with the upkeep of the surrounding roads whilst construction is happening.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3997	Be clear and informative about disruption and try to keep to time frames. We live near HS2 works and the disruption to local road usage has been huge and there is no thought or urgency to the disruption to locals - it just seems to be going at such a slow pace costing millions for little return.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1791	Be clear and transparent on what is happening and when so local people can prepare for any potential disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2489	Be considerate and keep collaborating	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
555	Be respectful, be responsible, demonstrate this often, keep locals updated, people don't like not knowing what is going on. Offer discounts!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
422	Be sure to consult with Wixams, due to their proximity to the railway station and the upper end of your core zone. The best way to minimise disruption would be to have any construction traffic enter from Woburn road rather than the B530. With the A421 bypass following the route of Woburn Road, you should have easier access without noise troubles.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4285	Be transparent about the development, give access to local communities, site tours where possible and safe and early access to the park. Engage volunteers in tree planting and maintain open conversations throughout the process.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1425	Be very open in what is happening. Keep the local communities updated very often on what is happening via newsletters, e-mails and social media.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4230	Being as open and transparent with timelines and what disruption is expected would be great. Early access for local residents or discounted rates for the first year etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4600	Communication. Making people aware of schedules and noisy hours. People directly affected by the noise (live/work within close noise proximity) should be offered a discount or an exclusive preview opening day	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2064	Construction hours and updates to community if any particularly noisy work is planned to take place on a day.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4933	Constant communication and clear evidence of progress would help	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1266	Consider road infrastructure first, perhaps temporary routes for construction vehicles and storage facilities for storing materials. Also be transparent about construction times / schedules; be sensitive regarding noise levels at certain times of the day and if this cannot be avoided in certain instances, keep residents informed of potential temporary disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4619	Disruption is needed with such a long term goal. Keep local residents informed regularly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2585	Do your best to inform people of what's happening and when	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
443	Don't live in the area but if you work with the residents & they are happy it's all good	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1350	Give plenty of notice	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1913	Give plenty of notice via digital signs.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1487	give advanced notice	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3482	Give compensation to local residents such as a free ticket to universal studios	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1950	Give people plenty of notice to adjust to any forthcoming changes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2471	Dedicated access road. Regular information fir locals. No noisy work during early morni is, late evenings or overnight	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3144	Ensure good communication at all times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
978	Ensure good communication with local community.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4388	Engage with the local community, keep them informed of construction plans and progress. Consider the effect of construction on local wildlife, and develop mitigation strategies. Manage traffic around the site effectively to minimise disruption (schedule heavy goods deliveries outside of peak hours). Control noise using barriers. Use dust suppression systems. Limit work hours. Employ as much of the workforce from the local area which will offset the inconvenience with economical benefits.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1884	Ensuing adequate communication and thoughtful diversions due to the disruption on local communities caused by works on main transport links	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1131	Ensure any disruptions are communicated fully - especially in the case of school transport delays. Any delays caused as long as communicated, are manageable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1332	Early notices notifying of possible disruption due to construction vehicles etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2568	Early communication when road closures will take place.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4712	Frequent communication and transparency. Consultation with impacted communities and clear avenues for complaint resolution and redress where issues arise.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1935	During such large projects like this it is inevitable that it will be somewhat disruptive to residents. It could be effective to offer free tickets to residents within an allocated distance once the park opens or even offering walk through days on construction downtime just to reassure the public that the disruptions aren't for nothing.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3771	Effective communication and planning with utilities companies to avoid times clashing with other work in the area. In our village this wasn't the case and it's caused unnecessary disruption which has caused frustration locally	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1435	Ensure that local people are kept happy and that interactions are positive and that any disruption is kept to main roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1844	Ensure that locals are behind the construction and are considering when planning	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3051	Ensure timely communication and keep to project time lines.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1195	Ensure works are notified in advance and provide alternate routes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4667	Ensure you think about the roads and be smart in communication with the public	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1745	Keep engaging with local communities, seek ongoing feedback	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2398	Keep communicating as well as you have done already, no one local wants mystery, be open and transparent when work is being carried out and for how long. If there are delays, tell people.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1619	Keeping noisy building work to working hours and limit noise on weekends. Keep roads clean of dirt (tyre punctures and stones hitting windscreens) Planting around the site to hide theme park from close residents and will help with noise when open. Clear signage if road works happen. Informing local residents when road works are happening.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2211	Keep up with working with local communities and social media as communication is key!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4007	I think regular communication is vital. Maybe keep the website running and post monthly schedules letting local residents know what works will be happening where and when. People can then make plans around that. I understand it may be a temporary inconvenience, but the benefits outweigh the negatives and if we are told about the works then you can plan accordingly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1033	I think the key issue will be constant communication, allow occasional organised site visits and generally take us all along on the journey to build this. Consider discounted entrance fees for all local residents as a thank you for putting up with any disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2123	I think the local community is already on board with this proposal. As long as you can minimise disruption as much as possible, locals will know it is for the greater-good and the end result will be more than worth it!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1462	I think the main thing to minimise disruption is communication. To communicate within the local area through social media and ensuring nearby roads etc are clearly sign posted for relevant diversions. Disruptions for major construction are impossible to avoid, however as long as throughput of traffic can be easily managed and controlled, but provide adequate diversion signs to minimise traffic throughput and delays within the construction sites proximity is a huge factor.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3015	Inform all surrounding areas when the most disruptive times will occur and keep them well informed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
544	Inform local residents at every stage and how it affects them so they are aware and can make arrangements if necessary.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2845	Informing local communities and providing questionnaires on how this construction would impact their lives and what suggestions they could offer to meet a happy medium. Any involvement in communities will strengthen relationships.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4702	Yes. What is the plan regarding those living in Eastwood cottages on manor road, myself included, who haven't been contacted privately yet?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1810	Yes plez talk to the older generation to put them at ease and the people who say it is bad for the environment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1785	Keep disruption to a minimum to the surrounding small villages. Invite locals to view progress at the site on a regular basis.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4837	Keep all the local roads clear and moving at all time and keep locals informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1441	Keep big lorries out the villages as the roads are too narrow to cope. Clearly signpost diversions. Minimise the dust flow if that's even possible. Relying on your experience to get it right. But do have consultation with villages throughout.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1746	Just to keep the local community updated the construction is part off the whole experience and needs to be done so I'm sure everyone will except this part and be on board as long as there's updates and good communication.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2860	Just keep the locals updated with expected delays and proper diversion information. I am very local and expect issues during development, all is okay as long as informed in advance. Surprise road closures are a total pain!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3694	Just listen to the Parish Councils	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3341	Just communicate disruption effectively, and whoever does make decisions on disruptions, please make sure they are daily drivers as too often people in the council who decide on road improvement do not drive and are totally incompetent for the job.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2852	Just communicate the plans and level of disruption clearly so we know what to expect. It will all be worth it once it is completed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4567	Just open and transparent both locally and with commuters to ensure we have enough time to plan journeys should they be affected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4145	Just make sure people know what's going on- when there may be disruption, how it could affect them and how the disruption could be minimised.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
674	Just make sure that they clean the roads as often as possible - reducing accident risks. Update the community on a regular basis as to what is going on when.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1146	Full engagement with nearby communities likely to be directly affected by the project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3729	Ensuring the local roads are kept clean where possible to prevent damage to local users is very important and something I find is missed out on a lot of projects. clear signage and advance notice too	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3368	First and foremost, I appreciate the acknowledgment of the potential disruption that major construction projects can bring to local communities. It is crucial that steps are taken to mitigate these disruptions and ensure that the project benefits outweigh any inconveniences. One key factor in minimizing disruption is the responsibility and professionalism of the workers involved in the construction process. Their qualifications, dedication to their work, and punctuality are paramount in ensuring that the project proceeds smoothly and with minimal disruption to the surrounding area. Additionally, the organization of the work process is essential in maintaining efficiency and minimizing disruptions. Proper planning and coordination of activities, along with clear communication channels between all parties involved, can help streamline the construction process and reduce potential disruptions. Collaboration with the local council is also critical in addressing any concerns or issues that may arise during the construction phase. Working closely with local authorities can ensure that construction activities adhere to regulations and guidelines, minimizing the impact on the community. Furthermore, it is essential to consider the opinions and concerns of the residents in the affected area. Their input can provide valuable insights into potential areas of concern and help tailor construction plans to address specific needs and preferences. In conclusion, minimizing disruption for local communities during major construction projects requires a multifaceted approach that involves responsible workers, well-organized processes, collaboration with local authorities, and consideration for the opinions of residents. By implementing these measures, we can ensure that the potential park and resort project in Bedford proceeds smoothly and benefits the community as a whole.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1963	From what I've heard, your approach with local communities has been engaging and respectful. Keep going with this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1434	Full and frank disclosure of potential disruption should come early in the planning stage.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3764	I think just make sure you communicate often and clearly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4298	I think having open lines of communication and warning people well in advance would help. I live in Berryfields in Wootton and work locally. It would be important that my daily commute isn't disrupted massively.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3785	Involve the community. Use all opportunities for engagement with schools when looking at changing the environment and being climate responsible - educating young people along the way.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2879	I believe as long as advertising is taking place and projects are aimed to be done in a timely fashion, it could actually generate the exciting buzz of have you heard Universal Studios is being built?!" Even sending letters to local residents to whom the noise could effect would be a thoughtful notion and further generates people talking about the park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
386	I don't live close by but good planning, speed of completion and timing of noisiest periods are probably key for locals, with good communication and plenty notice.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1164	I don't live locally but clear timetables on works and keeping the local community engaged has to be a major priority.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4075	I feel people,as long as fully informed,would understand the greater good if any disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2520	I guess noise pollution and increased construction traffic. I'd appreciate efforts made to minimise these and obviously respect it is a predominantly residential setting so late night construction work noise wouldn't be appreciated long term. Also being upfront and communicative with the local communities at all times would be welcomed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1465	I live outside of the area. I just expect there to be minimal disruption over the course of building and full notice of works to be carried out etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1531	I think as long as the local community are engaged with throughout the development most people will appreciate the positive impact that this project will have on the area as a whole.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1985	I think as long as there is transparency towards milestones, a clear timeline of when they are expected, achieved and when delayed then that will go a long way. If anything can be proactively done to alleviate any additional strain then you will get people onside.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
476	I think ensuring that there are good alternative routes in place to ensure people are not too disrupted in continuing their day to day activities such as getting to school or work. Good communication about diversions etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
731	I trust you will listen to those suggestions you receive and use your vast experience to make the best decisions for the local requirements.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4827	I think updates on what is going on and when would be useful. While I don't live in the area there are loads of main routes around that area to Luton or London so if we know in advance when and how disruptive construction will be it will be easier to plan journeys ahead!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
528	I understand during the construction there may be road closures and congestion around the local area. If possible pre warn what roads and when they will be closed, via multiple types of communications. Not everyone will be following forums, on social media or online.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
514	I would like the Bedfordshire community to be involved in the development, and there to be thorough support for the local wildlife and environment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2917	I would suggest offering realistic and achievable timelines, in order to set appropriate expectations to both local people and those living nationally.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4572	I'm sure there will be traffic management in place... unfortunately disruption will happen but the expectations of the local community need to be managed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4533	Just have regular communication with affected locals, and a specific liaison person they can contact. Knock on doors to identify perhaps vulnerable people eg elderly who may need extra support. For the most affected / closest offer to install double or secondary glazing (like they do in houses near airports).	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3161	Just courtesy thinking about locals	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4044	It would be to listen to the local community and work with them to minimise the disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
286	It's in a fairly rural part but I think planning in diversions well in advanced for any road closures and being transparent with the build would really help keep everyone on side. I'd also like to suggest working with some colleges/training providers	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1330	Just ask for plenty of notice and known time frames	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3222	Keeping people informed is the most important to me	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3374	Let people know beforehand of any points of construction that may be more disruptive than others.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1709	Let people know in advance of any distribution	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1459	Liaise with local residents and governments on when road and public transport closures must occur, in order to ensure minimal impact to commuters.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3407	Local engagement is key. Keep doing what you are doing!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1315	Local residents will know best!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3448	Listening and collaborating with local communities would be essential as these are the people who would be affected the most	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2636	Let local people know in plenty of time of potential disruption. Ensure that local transport routes are not heavily affected.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2588	Limit delivery traffic to outside peak hours. Ensure noise pollution is avoided during night time. Keep people updated when major disruptions are due to occur.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3354	Maintain clear public consultation and communication throughout.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2629	Make sure there is clear communication and timelines set are achievable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1058	Make sure the local community knows what is happening when	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1457	Make sure you keep people informed about what and when disruptions will happen. Be honest about timescales	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3502	Many, many public engagement events. Reach out in Newspapers and in person as is required. Social media input constantly without spoiling development plans right up till the NDA as people will want to know exactly what is going into their back garden" as they put it. Constantly engage with local nature reserves/ landscapers & environmentalists that understand how to make this sensitive to the site and its natural environment. Historically find as much as possible to do with the old brick yard/ the jobs it provided the service it gave to the local area and use that/ respect it where possible in designs and subtle Easter eggs for the local community to find and engage with.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3328	Most local residents would consider this project a positive for the area. I would suggest a monthly bulletin to update on progress a good idea.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1414	Might sound stupid but our roads are not as big as in America so you may need to consider this when brining in big items for construction. I think the main thing is communication so that locals know when things are happen so they can plan around it so that it doesn't impact on there day	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2317	Must keep giving out as much information to locals on a regular basis. You will always get moaners, but the longterm benefits far outweigh the short term hopefully.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2071	must meet with (especially) local people regularly on what is happening.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4514	Nothing to raise, I'm sure it would already happen but having social media/website updates about the plans, upcoming disruption etc will help people be able to plan for any potential disruption. The upgrades to the Black Cat roundabout are posted on a Facebook page letting people know about dates and times of road closures and that works well.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3759	Of course this will be sensitive and inevitably there will be some opposition. Engage early opposition groups and seek to assure them (by deed rather than just words) that you will be empathetic and generous to them. The local Conservative Parliamentary Candidate, XXX has come out strongly in favour of this development, coupled with the EWR project, so work with her and her team.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

538	Offering some perks for local communities once the park is open and keeping everyone informed of the progress being made would help. We like to complain about disruptive roadworks because we frequently see empty sites (with nobody doing any work) causing traffic chaos. People will appreciate seeing progress even if its disruptive.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
984	Plenty of advance notice to road closures for people local to the site I personally live within 5 miles of the proposed site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2990	Plenty of communication and advance warnings of road blocking or noise. No construction over weekends or at least Sundays. Advance warnings of disruptive building works and maybe the majority of construction to take place on the site rather than having to be trucked in? Using the nearby rail link as much as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4432	Plenty of notice of any road closures and work so residents and local community are aware and can plan around this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
317	Plenty of timely communication to keep everyone informed of possible disruption. Avoiding peak times for traffic etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2937	Plenty of warning regarding road closures and realistic timeframes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
937	Share forward looks where possible, keep town engagements going and be clear on times of heavy impact so people can plan ahead and accordingly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
668	Social media and letter drops work well	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
706	Work with locals to manage concerns	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2397	Working less during nights and more during days. Proper dissemination of info regarding roadworks and closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2153	Ongoing community consultation meetings, open and transparent approach	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1199	Ongoing consultation and regular project updates with the local communities and public is essential for a project of this scale.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3111	Only advance notice of any road closures	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2538	Overnight and weekend construction in addition to normal working hours to minimise impact on traffic flows and disruption. Good continuous advance communication of any major works. Create integrated transport hub at Bedford Park and Ride to link with Wixams station. Provide frequent direct bus links to new theme park from Bedford and surrounding areas to minimise increases in traffic and maximise benefits of new rail EWR rail links and train station.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1524	Other than major road networks and motorways, a lot of the road networks aren't great. Traffic, congestion and diversions are a sore point for commuters in the UK so, to minimise this, I think clear communication with the local community on phasing of work with clear diversions given to local residents would be welcomed and greatly appreciated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
551	Only the fairly standard things really. Try to generate as much Community involvement as possible, and try and accommodate these views where possible, although I appreciate that this is difficult. I think that people are generally reluctant to change, and this increases as people get older. I would try and emphasise any 'green' elements of the scheme. Climate change appears to be well on its way, and the people of Kempston have experienced the sharp end of this, with the area being vulnerable to flooding	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2870	Open, honest and regular communication is key. Even if disruptive, knowing what is going on regularly will smooth out the uncertainty/anxiety that grows through lack of knowledge/awareness. Set up a YouTube Channel and publish regular videos about the planning and construction process. The government had been doing this with Crossrail (Elizabeth Line) and is doing this with HS2. It's nice to see short 5 minute videos about archeology, ecology and engineering.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4161	People are naturally worried about change. Take them with you on your journey, work with them to overcome their normal fears and to raise their aspirations for themselves and future generations. Milton Keynes New City had exactly the same challenges. Build Trust.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2816	People living within a certain distance need to be spoken to at length because I am assuming it is going to be very noisy for a long time when it is being built	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2788	Personally, I would not mind hearing construction. As long as the residents are regularly informed prior to any changes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4925	Please communicate ahead of time and frequently so that we can be prepared.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2047	Please appease the local residents and be honest with them about disruption. We so desperately want this project to go ahead but if you look after the locals you are more likely to garner their support.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4742	Please ensure that road closures are announced and that they are coordinated with diversion routes. with only 3 entrances in and out of the village, you could potentially block two of them with your works and the detour will be extremely long for residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2699	Please hold a seminar for the Stewartby residents to be able to discuss their major concerns in depth and to provide detailed feedback on the roads in their current state with ideas of how to negate future traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2008	Please keep the locals happy. So many major projects have been blocked in the UK by "NIMBY" ("not in my back yard") types of people over the years. These are usually older people who are happy for our country to continue to rot rather than thinking of creating opportunities and a better life for the younger generations. Please keep them happy so this gets the go ahead.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1290	Please think of the local community during the design and construction phases.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
344	Try to integrate the construction into the anticipation of the park opening. Event updates in the town so people know what is happening, educational events on the environmental and construction / science aspects of the project and possibly inviting public or schools to see parts of the construction as it moves forward. Possibly even get help from the community on planting or adding to the build (in a safe way) eg personalised bricks in a locals wall.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4411	Two thoughts. Improve the external access roads before starting major site work, that would help! Actually do whatever you say you will rather than come up with excuses as to why you haven't! That would be marvellous and gain you a lot of respect from the community	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3419	Until I know how you would minimise any such disruption I can't answer. You are the experts with experience in these types of projects, you tell me!! Also maybe it would be a good idea to have project presentations in all of the villages effected, within 1.5 miles of the centre of the theme park, as we will be those most significantly effected in all aspects of this project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3619	We, like every other town in the country always have roads being closed or dug up, queues of traffic, just don't dig up everything at once and communicate with the people which I'm sure you will.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4558	Total transparency on your plans to minimise disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4146	To maintain communication with locals throughout the construction Mindful of any disruption in traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1705	To be open and transparent on when they will.be happening and a timeline which everyone knows	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3241	To engage and update local residents on each step of the way. If works are linked with schools to give students work experience opportunities then this may be seen in a more positive way.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4357	To keep local residents informed and listen to feedback regarding construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
945	Tell people WAY in advance. Like 2 months and keep informing through emails, and newspapers, etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3037	Support locals and engage with them	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2804	That local residents are kept up to date	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4928	Strict route for construction avoiding rush hours. Talk to the local residents about what works for them.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3176	Temporary disruption is inevitable, stakeholders engagement is invaluable. Feedback and complaints should be treated like gold dust - they provide true insight into the concerns, fears and grievances of the local community and the best opportunity to win hearts and minds by getting things right from the start. There is no such thing as too much information or too much communication.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3936	Temporary noise screening installed, communicate with the community. Try and deliver road and rail upgrades with the government as soon as possible so it can take construction traffic and then visitor traffic. Offer alternative accommodation for anyone severely impacted.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4177	The key point is to inform people of building works and local road closures in plenty of time	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4195	The construction and travel plans are widely shared so temporary road closures are well planned so people can make alternative travel arrangements as the community need to appreciate it cannot be built without some disruption to local infrastructure	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3880	prioritise open communication with local residents and community leaders to address concerns and gather feedback throughout the planning and construction process. Holding public meetings, establishing community advisory groups, and providing regular updates can help foster trust and transparency.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3426	Proactive/transparent communications in advance and during construction to manage expectations. Construction traffic to only use designated routes on main roads (ie a421/Woburn Road and to keep off unsuitable local roads). Set up rail head for deliveries etc by rail. Build/plant the screening as early as possible so more established for the construction period	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3045	Promise to employ at least 75% of your task force from Bedfordshire Robust planning Good Public Relations Careful approach embedding residents views and all communities	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3258	Provide as much information to locals on what is going to happen that could assist in them on making adjustments. Get a calendar on what is going to happen.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
800	Public consultation in the areas affected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2836	Regular communications	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1443	regular updates on what's happening, how the build is going and what's planned next would spin a good light on anything and have people looking forward to the construction equipment rather than dreading it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
632	Regular updates to keep the public up to date with info	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
968	Rail line and freight yard near site could be useful for bulk deliveries, and truthfully keeping locals informed on plans.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2074	Restricted hours, excellent communication, progress updates so people can see it's paying off.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4561	This needs a serious plan with all parties so work can begin and be done and not have to be done again because one party was missed out. Clear communication to the local areas	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2521	This will not affect me directly however I am sure that all will be done to minimise disruption to the immediate local residents. I would however say that your communication will help to mitigate any undue feeling of resentment from locals including proposed of foreseen changes which will affect them.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5973	clear communication	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5841	Communication about what mitigations you would put in place to minimise disruption is key. The views of all residents should be sought - there are several persistent and vociferous groups who oppose the EWR because of their own interests - these shouldn't be allowed to dominate discussions. The popularity of the engagement events you have already held shows there is huge local excitement and enthusiasm for this. Perhaps an incentive such as free or subsidised bus and rail travel for local residents to the site would help.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5573	Communication and transparency as far in advance as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6039	Communication is vital to the community, regular updates with progress and finish dates etc. So that people know there is an end to the disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6097	Giving early updates on each stage of the project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5781	Good advance communication can ease many problems	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5495	Good communication, taking on feedback during the construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5696	Be transparent! Keep the public informed on the on-going status! The public can be patient as long as they are kept in the loop!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5657	Be considerate with the hours you carry out noisy work. Have appropriate systems in place to reduce dust. Mend any pot holes created by heavy vehicles. Listen to the locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5832	By keeping all impacted informed Throughout the process	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5856	I don't live in or near the locality but I think it important to keep those who do consulted and informed, listen to and try to address any concerns they raise.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5885	I find communication is key with as much notice as possible if there is going to disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6085	Keep the local communities updated and listen to any concerns.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5810	keeping people informed of what's happening	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5527	Keep those affected well informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6081	Lots of regular, clear communication and updates to local communities is key. People will more willingly accommodate disruption if we are aware and can plan around it. Minimising complete blocks to road or rail routes where possible is preferred.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5612	Open communication, respectful hours, meeting deadlines and environmental considerations	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5759	Please be very clear when road closures and traffic restrictions occur. By which I mean reporting it in the local press heavily as a lack of communication it what causes most problems. Also know that many people in South Bedfordshire get their local news from London and you have to report disruptions in the London news as well.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5707	refer back to my comment about Flood plains. Otherwise, remember that we are here, give us regular updates on progress and what is likely to be coming up in the next quarter so that we can prepare for disruptions in advance. communication is key.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5497	The ability to provide open and honest, timely communications at all stages taking into account feedback given aswell as future feedback which hasn't been sent through until plans are discussed with the communities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5575	There is no way around the disruption, but continual open communications and well-planned works, particularly as they relate to roadworks, would be essential to keeping the local population onside. Pressure points on the 421/C94 will be awful. Common sense when scheduling fixes most things.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6091	Inform the public in advanced about road closures. Communication is the key	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5639	Local communities will always appreciate good communications where change / construction is concerned. Hence good management and phasing of construction will show its own rewards.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5693	HGVs not to use Houghton Conquest as a rat run from A6 to Ampthill Road and vice versa. Baseline data for current usage and monitor to compare. If this has increased then road surface will need improving. Clear communication is key and advanced notice.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5957	Consider noise pollution, time frames, communication.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5487	Construction on such a large scale for an extended period will always have a detrimental effect on the local population around it. i feel holding weekly or biweekly meeting with local residents to get a feeling for any concerns they would like to bring up and for you to share progress or updates on what they can expect to see or hear in the upcoming period. this could help families of all ages best prepare for work E.G. foundation work where you may need to drive piles into the ground which has a lot of vibration and noise with it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5561	The number of construction lorries and vehicles on local roads could be a concern. The management noise levels particularly for those within the immediate vicinity of the site. Keeping local people regularly informed of the stages of development and what to expect would hopefully help.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5837	Regular updates from developers- including leafletting through doors of local resident areas	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5723	Transparency and regular updates	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5521	Keeping locals informed and updated on traffic lights and other construction stages. Plus keeping working hours to daytime and minimizing night work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6037	I think most of the community and wider would welcome the excitement of watching it evolve. Regular updates would be key	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5972	I think its just common sense, not closing multiple roads and train lines at the same time. Stagger it. Minimize the disruption to the local area, and keep the locals updated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5865	The need to keep people fully and honestly informed about plans and progress.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5638	To be kept informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5512	Just keep the locals informed of progress so they know what and why.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5805	Just to keep the local residents informed of the works by letters in the post at every stage of the works .	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5527	Keep those affected well informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5905	I believe that as long as everyone is kept informed as to what is happening most people are fine with it. So long as we can see the long term gain, the disruption will be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6074	Ensure to carry out regular community engagement projects, particularly offering up volunteer opportunities for things such as local artists creating decorative elements for the parks, school community trips for learning about construction etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5765	Make the neighbours aware of any potential disruptions	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5515	Tell people more than you want to earlier than plan to. Move construction materials by rail as there are nearby sidings and thereby reduce the number of lorries/trucks. Understand local traffic patterns and avoid them. Use drone type overviews to show local people what will happen. Establish a feedback loop so that any problems are identified and rectified ASAP. Do not rely on Local Authorities for this as they now lack the competence to understand how incompetent they are. You are also on the boundary which complicates matters. Central Gov't, especially the Treasury, does not understand local gov't and makes sweeping generalisations that cannot be realised. EWR are incompetent and not to be trusted. They were set up as a standalone vertical integration with a view to being privatised. This is completely unrealistic in the current climate but the culture remains. Hence their obsession with 6 tracks north of Bedford so they have their own train set to play with. In reality they are now the most heavily subsidised railway in the country in %terms. And they will be subject to cost cutting once the effect of inflation is clear. More detail can be provided. Learn the lessons from HS2 and EWR and use a different approach. This means changing the culture in UK construction companies. It is much cheaper to listen to opposition than manage the consequences of ignoring it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5767	Include the local community as much as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5672	Listen to experts people with common sense will understand there will be delays maybe in return give the local community early access before the rest of the world arrives?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5485	Work with the local community and communicate with them often. Make the community feel part of the build.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5705	Impact on the sights, so keep the buildings to a max height. Offer alternative routes that are equivalent instead of long detours IF/WHEN road works are needed. Do road works at nights where possible. Give neighbours notice of any changes that might impact their routines. Liaise with Anglian Water, BT (OpenReach) and councils to avoid doing construction work that disrupts routines simultaneously and synchronise work if at all possible when in the same locale.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6064	To be considerate and enable open dialogue to handle and respond to complaints - accepting it won't be perfect all of the time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5846	Work hand in hand with local Councils.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5928	Work with local parish councils to agree on how to minimise disruption during construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5842	Realistic construction timeframes, advance and continued notification of diversions and closures to the entire Bedford population and not just those living closer to the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6199	Noise during construction, disruption of traffic. Keeping public in the know 'as to the development of this project. Holding more of these feedback.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6140	good planning + excellent communications of those plans with early enabling works to minimise disruption during the peak of construction activities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6169	Communication is key - be open to engage trust. Chose safe construction companies, ideally local if sufficiently skilled, completed, put the money back to the town.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

F6130	Communucation is key. If we know what is happening, it will lessen the disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6168	Sensitve to local community especially Wixams Retirement Villafe + Elstown Manor Care Home	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6189	Keep us informed all the time, make us feel we are on a journey with you towards a common goal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6190	Being upfront with what is happening so local communities are prepared in good time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
F6198	STRESS the rewards of developing this project at every stage, release lots of photos, videos, and as many optical releases of the project, along with frequent feedback on a local level at local venues.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2208	I feel I need more information especially those of us that are going to be living next to the site a local community event would be nice so we can get answers to the questions that would have an impact on us locally.	Would you support a potential park and resort coming to this site? Please explain why	
5040	Pay them. Local discount to shops and anything regarding the park like admissions. Anything you have to pay for in the park. Prioritise jobs. Work with local businesses. Keep in contact. Have a meeting every month or two.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

PLANNING PROCESS AND TIMESCALES (13)

ID	Comment	Survey question	Response
101	Love to see a timeline progress website for everyone to follow and see the pre construction planning development progress along with the Post construction work being updated regularly.	Please share any other feedback you have at this stage.	A special development order (SDO) is a form of planning permission to secure the necessary planning approvals to move ahead with the investment. This would be made directly by Government, where appropriate, following consideration by a Secretary of State. The decision to determine whether this route is appropriate is evaluated on a case-by-case basis. The Secretary of State at the Department for Culture, Media and Sport (DCMS) has agreed to act as the sponsor for the project within Government. The Government has indicated that the consideration of any proposal will be subject to
3964	Please come! The people of Bedford welcome you! Also, local people do not trust Bedford Borough Council with regard to planning matters.	Please share any other feedback you have at this stage.	
616	Why does this decision have to be by Special Development Order? What are you trying to hide? This process is more pertinent to get consent to build asylum seeker accomodation on disused airfields.	Please share any other feedback you have at this stage.	
2790	Nothing other than I have everything crossed that you can get through all the hoops and UK planning for this to become a reality. Good luck :-)	Please share any other feedback you have at this stage.	
4930	As a member of Bedfordshire Fire service and an Official in Beds Fire Brigades Union. Would welcome any involvement as the fire service is never thought about in the planning process on the impact to the area.	Please share any further feedback you have at this stage.	

337	Planning	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	<p>consideration of any proposal will be subject to administrative arrangements to ensure functional separation between DCMS as sponsor Department and the Ministry for Housing, Communities and Local Government (MHCLG) as planning decision-maker. It is anticipated that public consultation by MHCLG will be carried out prior to any planning decisions.</p> <p>Whilst the SDO process has been used more recently for Government facilities such as asylum centres and border facilities, there is no guidance on what type of development can or cannot use the SDO route and it has been used for large-scale development in the past, for instance Cardiff Bay in 1989.</p>
1036	Planning conditions will deal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5842	Does this development prevent adoption of the draft Local Plan, as houses in the right place are needed before a theme park?	Please share any further feedback you have at this stage.	
5644	doesn't prolong the decision-making process beyond 12 months or so (i.e. mid-2025), to avoid reputational damage to the Universal brand.	Please share any further feedback you have at this stage.	
6073	Ensuring there is regular consolidation with the planning process and construction timelines so residents are aware of what to expect. Ensuring the road and other travel networks are in place before construction of the restore to help minimise disruption to the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6066	UK Planning can be complicated and sometimes inefficient. This opportunity can not be wasted due to local council short-sightedness or cash grab. I suggest close involvement with UK Government.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4195	We are very excited about this proposal and would do all we can to be as fully supportive if you proceeded into the planning process. It would be good if you supplied theoretical timescales as I suspect the planning process could take well over 10 years before the construction period could even begin so a crude completion date like 2030 or 2040 would be good.	Please share any other feedback you have at this stage.	
4645	Don't let bedford council make any decisions on how to plan the improvements given their poor results with relatively minor local upgrades.	disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have	

HERITAGE SUGGESTIONS (593)			
ID	Comment	Survey question	Response
			<p>It has been fantastic to receive such a wide range of suggestions for how people would like to see the history and heritage of Bedford celebrated through the proposal.</p> <p>UDX will consider all the suggestions received and continue exploring with local stakeholders, including Bedford BC, on how it could reflect and celebrate this area's vibrant history in the plans. Two initial ideas include incorporating some of the bricks still found on-Site into some of the potential buildings and designing some food and drink facilities and attractions with Bedford's town history in mind.</p>
4250	Keeping the culture and history of bedford town.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3698	Creating a resort worth visiting which is respectful to local/national culture and heritage, while also providing new and exciting experiences.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
1379	Respecting local culture and environment	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3142	Respecting historical ties of Marston Vale	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
2456	Thinking about the villages around to not block their accesses to their homes and think about the possible congestion issues. Plus being Stewartby famous for its history of brickworks it would be nice if it had its own Stewartby station with connections to the UK to London, to the north, east and west.	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
3872	A chimney shaped drop tower ride as originally the agreement for the chimneys coming down was to build 1 new one.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2425	A hypercoaster.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2991	A ride that reflects Bedfordshire's aeronautical heritage	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
902	A tribute to all the migrants that worked at the Brickworks and remembering all the American airman that served during WW2	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
913	acknowledge the local workers that worked at the brickworks and settled down in the area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4140	also have areas representing the different local cultures that make up our town with so many from so many nationalities Italian Polish Caribbean Asian	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4411	An on site museum explaining the history of the area.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3311	as a local product designer and inventor I relish any opportunities to make it know that well known products are locally made	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1441	Audible history points.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

3382	Bedford has a large Italian community that has a strong relation to the brickworks as many Italians came over in the 60s to work there. I would love to see some parts of the theme park explore this possibly a heritage centre or some experiences within the park exploring this.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1009	Bedfordshire clanger is a popular local food. Celebrate the diversity but especially the huge Italian and Polish community. The river is a key feature of the town. There is an amazing collection of Edward Bawden's work at the Higgins.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3437	Being the largest brickworks in the world at one point & the amount of old bricks that can be found everywhere around the area i feel it would be great to incorporate this as part of the project.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2871	Beyond naming conventions this region has an extremely rich industrial and cultural heritage. My hope is that Universal takes this opportunity to tell those local stories and engage with the community.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2641	Building a replica chimney of the old brickworks	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2603	Building some in the original brick and style	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1218	Buildings and restaurants in the park themed to classic British styles	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1848	by making original attractions that talk about the local area and making sure the uk heritage is used like flooring and buildings being british and just a lot of rides put on a concrete slab	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
234	Celebrate our heritage by including features on our Cardington Airships Bedford Embankment Castle Mound Bedford Park Local country parks Woburn wild animal park Whipsnade zoo Bedford Park concerts and our River Festival	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3105	Celebrating the role of Cardington Hangars in the film industry	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1385	Committing to the area's local heritage and encouraging robust placemaking in the proposed development	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3502	Consciously designing aspects of UC amenities to reflect the past and upstanding heritage to the area with modern construction and efficient architecture.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
868	Consult the local community about this not Bedford!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1625	Creating Attractions themed experiences Coasters around local Great British History	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
734	creating easter eggs within the project or stories of projects	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4823	Creating freely accessible museum and heriatige spaces perhaps in a CityWalk type area to promote and explain local history.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3944	Deep dive the history of Bedford and celebrate its multicultural roots.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
399	Development of a heritage/interactive museum for the local community to access	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
228	Display placard d'E°á»i ting the history	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4449	doesn'tforget the 100 year old row of historic cottages that are the old brickwork cottages.i own number 8 Eastwood cottages.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1019	Easter eggs inside the park that are relevant to the area's history	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4627	Either seem fitting	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3158	Ensure that the postWW2 workers many from Italy and other European countries were remembered and their contributions to post war reconstruction of theUK and local areas was properly recognised	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2879	Fun fact boards situated in areas to highlight the history of the area you're in. Some food/drink items could be themed or named	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

4712	Funding educational projects for local schoolchildren about the social and industrial history of the site and its geological and biological development. This could begin while any development was underway prior to the site opening.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3889	Funding for a museum/visitors centre to tell the story of the Cardington Sheds. Once home to airship R101 and R100 and currently used as film studios.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2367	Have a museum dedicated to the history of the site.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
197	Have a section of the park based on and built using 19th/early 20th century traditional local Architecture and culture	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
171	Have water eggs around the park as nods to Bedford/local area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1425	Having a Heritage Exhibition on the history of Stewartby (I was the Liberal Democrat Bedford Borough Cllr for a Ward that included Stewartby 2007-23. I only voluntarily retired on heath grounds last May 2023. I'm very keen that a Heritage Exhibition is built by developers. The Borough has £1.3m in a special fund given to them by Cloud Wing UK as a condition of them being allowed to build on the Stewartby brickworks site. You could use that?	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3549	Having rides/attractions based around British heritage. steel works etc	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1601	Having some sort of historical working museum about the former site and surrounding land.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4745	Hidden messages within the park(s)	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3687	Historical exhibition	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2456	I think cycle paths to the areas with historical heritage with food places to enjoy the local cuisine.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3142	I'd love to see a place where the history is remembered and honoured. Bunyan called it "the slough of despond" in PP. My own Father was Sales Director at LBC having started there when he was 14. There are so many memories and photos which honour those who worked (and sometimes died there in the brick pits)	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3250	Implement more natural environments along with increasing bio diversity up cycling and recycling as much waste as possible	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2835	In some of the design/ an attraction based on bedford e.g river or bridges	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3581	Include themes of the local area in parts of the park. Signage within the areas and building styles	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4742	Incorporate Stewartby Heritage	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1070	Incorporate the shapes of chimneys and kilns in the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3458	Incorporating a local street/pub/ photos as part of the 'œvillage' city walk	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3092	incorporating displays / exhibitions within the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3097	Information boards at any appropriate points giving a history of that area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4061	Information boards with local history and displays of anything of interest could be within restaurant or themed into ride/experience. Bricks could be used in entrance to park with options to have engraving for guests?	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
230	Interactive 'About Bedford' zone	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
363	Invest in a museum about the Brickworks	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4340	Involve local children	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

3019	John Bunyan is local and was born in Elstow (to the North Eastern tip of your red line). Naming some things after him would be amazing. Also making a feature from local bricks would be a nice touch.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
1648	Just do what you can.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
3836	Keep it respectful	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
772	Keeping English heritage. (PROUD TO BE BRITISH)	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
2524	Leveraging local suppliers i.e. Brewpoint.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
739	Li	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
2538	Local heritage including Cardington Airships River Festival River Embankment Country Parks Whipsnade Zoo Castle Mound etc	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
2848	Look to the wider area for inspiration too such as Bletchley Park and its involvement in WW2 the additional international tourism would likely benefit from themes that respect UK history and culture and promote those visitors to also seek engagement in the wider local amenities and culture.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
4016	Love the idea of reusing old bricks!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
1066	Maps to other places of interest	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
2232	Maybe a walk through area of the history of the land or maybe a little museum	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
4080	Maybe also linking with the building of airships at Cardington a couple of miles away	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
2243	Maybe have restaurants themed to an industrial theme to celebrate bedfords heritage	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
4197	Maybe local heritage museum area or ride in the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
1364	Mini museum upon entry of the old brickworks its our local history and important its remembered	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
1994	Name rides after them	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
3317	Naming a ride or attraction	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
535	Naming hotels or attractions	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
3292	Naming places there	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
4923	Nods to the history of Bedfordshire within the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
1190	other notable historical events characters from local history incorporated eg dunstable priory church henry the 8th disillusion of the monasteries act	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
4845	Paddington in the Brickworks dark ride	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
930	People who work at bricks work	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
485	Perhaps design a ride commemorating the brickworks?	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
2892	Perhaps support a museum of local history	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?
2522	Permanent display of pictures showing the before during & end of the development journey. This would also help future visitors see just what benefits Universal brought to this area.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?

427	Photos In the customer services reception or within hotel receptions	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1459	Plaques around site showing the significance of area to local history	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1948	Possibly a short heritage walk trail describing the heritage of Bedford and surrounding areas to the arrival of Universal and the construction and opening of this amazing project.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1080	Provide Information on site too	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2183	Pull on local history heritage and folk lore to use for inspiration during the design process	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1999	Really pleased you are even considering this regarding names etc.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4704	Rebuild at least one of the iconic brickworks chimneys recently demolished as 'apparently' unsafe	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3752	Rebuilding the Stewartby landmark chimney	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2567	Recognise Bedfords Brewing Heritage Wells and Co 150 year history of Brewing In Bedford	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1234	Recognising names of memorable locations of the brickworks and people. Maybe a sign telling about the history of the site and how Stewartby was built for the people working at the brickworks	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3145	Recognition of films made locally e.g. at Cardington hangars	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
174	Recognition of the heritage & famous people from the area - the brickworks Cardington air ships John Bunyan Harold Abrahams to name a few options.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4500	Reconstruction of chimneys.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3504	Recreating a Stewartby chimney and incorporating it into the theme/a ride	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3701	References inside areas and attractions	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
928	references to Stewartby Cardington(Airships) local WW2 Airbases such as Old Warden TempsfordCranfield etc	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2740	Reflecting local architecture	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4047	Replicate tradition pubs in the area in the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2110	Ride or horror maze themes somehow incorporating local myths legends and history. See Hex at Alton Towers.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3256	Savoury Pasties and chocolate toothpaste foods of Bedford origin	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3049	Sell Bedfordshire's traditional dish the Bedfordshire Clanger	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3617	Sell chocolate toothpaste	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2451	Showing our diversity i	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4858	small exhibit or similar with the history of the brickworks	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3278	Something connected to river Great Ouse and large population of Italian descent	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4286	Something linked to the airship heritage perhaps?	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3205	Sponsor a Heritage building within the park or at its boundary	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

3607	I honestly don't see how a massive theme park is 'celebrating the heritage and history of the local area' in any way. Perhaps you could explain how that would work. Also, who is funding it and how much environmental disruption there would be as it's being built and beyond.	Would you support a potential park and resort coming to this site? Please explain why	
3698	Take inspiration from local heritage/culture to inform the design of certain areas of the resort.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1373	The brickworks was a big thing for Stewartby for years, be nice to honor in some way.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1610	The history of the town.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4474	The history/heritage of Bedford showcased in a museum/gift shop. Local companies given the opportunity for CityWalk vacancies (if planned)	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4307	The more local references in the park the better (street names inside?). It is important the park feels like it's 'of the place' and not just that you could be in any theme park anywhere in the world once in.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3100	Theme on local history	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2146	theme the theme park hub around brick works	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1291	Themed area around heritage and history	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1309	Themed dark ride experience	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1597	Theming	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1666	Theming around the park would definitely be a great way to celebrate the heritage. Please also look into celebrating other parts of British heritage such as ancient sites and old buildings too. Adding hidden theming into the attractions and restaurants would be great!!!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1443	There is a local brickworks nearby that is being demolished if you could use those bricks that would be very beneficial to the local area. maybe even have a small wild/outside public museum dedicated to it	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2075	Unique attraction/s that celebrates and is inspired by local history or more widely history in the UK	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?

4456	Vistor centre within the park with locah history heritage and current info	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1056	Whilst a certain proportion of the local community would likely appreciate a fond acknowledgement of local heritage I feel that it is unnecessary to for example focus on themes that replicate this. We do not need artificial replications of Bedfordshire (unless exaggerated fantastical versions for narrative purposes) as we already have the real thing available to us. In general what is needed most in the UK is some escapism a good quality theme park resort. Anecdotally those who are excited about the arrival of this resort have had to travel to Florida Japan or Hollywood to access a Universal Park and we have wished for many years that we had something of comparable quality closer to home. I would personally like to see themes that reference the UK (Harry Potter is therefore an obvious fit) but I do not feel it is necessary to go too far beyond this inside the park. It is a tradition for one of the UK's lowest quality pub chains (Wetherspoons) to name their pubs around local figures or locations and I think it would be good to avoid this comparison.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4012	With notice boards of information	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

260	A feature / exhibit of the area over the last few thousand years	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2910	A local museum perhaps a thematic pub.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4752	A pub in City Walk.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2441	A restaurant?! Absolutely not destroying the landscape and only getting a name? Need actual proof of some form of conservation	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
617	Acknowledging this rich history of the brickworks maybe even naming some aspects of the paths and walkways after it	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?

160	Providing information about other area attractions so that they stay longer.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
847	Rebuild a stewartby Chimney - which was a local landmark and supposed to be reconstructed	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2837	Rebuild the stewartby chimney	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4038	Reconstruct chimneys	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2036	Reflecting UK in design	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3964	Restore chimney stacks	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
863	Reveal the historical footprint of the brickworks and possibly a small interactive museum too introducing the history of Bedford and old brickworks. Potentially on the remnants/site of the old brickworks could be a temporary pavilion showcasing the ambition of the project. (would be intriguing to see the remnant preserved in an indoor setting.)	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

4881	Sell the bedfordshire clanger pastry in the park!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1001	Should represent England not just local area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4326	Silly idea	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
548	Some more theming within the park not just a restaurant	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2418	Supporting local businesses and crafts	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4624	Supporting local museums and history orgs	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
122	Supporting the proposed Waterway Bedford to Milton Keynes	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4013	Think more creatively than these options. Actually encourage people to learn about the history rather than just naming things.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
616	Those options feel very trite	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
747	UK themed land	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3653	Use heritage from all over the uk including Wales	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2464	Using local suppliers like Wells and Co brewery who are well known within Bedford and supporting other local companies	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2564	Visitor information containing historical information for future generations	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
3269	We could have a statue of the otters that have been killed.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
2865	We live extremely close to the site. We moved to Wootton 18 months ago and cannot afford to move again. So we prey daily that this WILL NOT proceed.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4479	Weaving local heritage into the maps and naming of the streets in the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4427	What is the area? Bedford is more than bricks!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
832	With a mini gallery with pictures and information about the history of the areay	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4348	With Italian cultural touch	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
1516	would be good if some brick work features were included like the chimneys	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4977	Celebrate Bedford's diversity - the former brickworks employed many Italian migrants	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
4982	Themed CityWalk bar or restaurant representative of the former industries of the region.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5016	referencing the history of bedford pre1900	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5019	Naming the park Universal Bedford or Bedfordshire	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5020	By not building it and ruining where we live	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5027	Many lical people had family working at the brick works resonates with ao many lical people	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5037	By not building it in the first place!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5040	Honestly as much as possible. Whatever the community sees fit.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

5041	Local area depicted in artwork	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5046	Preserve and increase local biodiversity.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5051	Respecting & recognising London Brick Factory & history museum. 4 generations of my family worked at the former site.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5065	Create a working link with Lego on site to celebrate the brickworks. Also bring in the history of immigration into Bedford by so many communities to work in the brickyards.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5115	preserving and restoring existing buildings.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5124	Waxworks of Pilgrims Progress	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5133	Post a permanent plaque to remind visitors of the historic memories of the site.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5138	Dedicated area of the park to the heritage, reusing buildings and not knocking down, upcycle, have a nod to the chimneys	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5152	Commemorating the birth of John le Mesurier and Ronnie Barker, both were born in Bedford.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5153	Mural and commissioned statues or features	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5169	Information and displays about the history of the area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5200	Including some local history or folklore such as having the Dunstable Witch as a character in a Halloween Horror Nights event could be fun.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5207	A very typical English pub name is 'The Bricklayers Arms' you could use this and make of the actual bricks and pop it in the CityWalk area?	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5250	Talk about the economic migration related to brick works	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5251	Creating permanent links for long time residents e.g. scholarships, apprenticeships, links with youth groups	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5262	Recognise the association of Glen Miller with the area (see local history publications). Note also important features such as Cardington Balloon Sheds which have public interest and will be a source of regional pride.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5274	naming a restaurant Chimney Corner	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5280	Remembering John Bunyan the most famous old Bedfordian	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5290	Leave nature as it is	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5325	Please create a sense of place that connects the park to the local area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5327	A universal themed bar in town by the river.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5356	Promoting Bedford Association of Tour Guides	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5365	What about a horror based permanent attraction, or a Halloween Horror Nights attraction. It could be called 'The Brickworks'. Of course, I would love to see HHN come to Bedford!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5383	Linking with and working directly with local areas of cultural and historical significance. Also providing info on these. Having themed areas linked to local areas eg Bedford, Luton, villages...	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5388	Not bothered	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5403	Attractions, shows, experiences with themes drawing from British history and/or folklore.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

5407	Incorporate the stewardby chimneys in the site, celebrate italian contribution to the area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5410	By maintaining the existing heritage of the surrounding area	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5413	Investing in public art commissions and community art projects that celebrate and showcase the heritage e.g. Cardington Sheds and the airship heritage of Bedford (a Universal film was made about an airship....)	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5431	Alot of interesting history can be found that would potentially compliment your rides and IP properties. The town has roman ruins alongside a historic market town on the borders of saxon and viking kingdoms, and the site of a medieval castle would lend itself nicely I think to some of your properties. For more modern times victorian markets could lend itself well to your site.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5433	Engaging with the local cultural and creative sector; considering how the history and heritage of the area can be reflected in the visitor welcome and facilities	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5434	Reflecting the historic industries but also the local character and rural nature of Bedfordshire	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5436	Creating attractions explaining the history of the area- Ampthill Great Park was a favourite hunting site for Henry VIII and it is where his first wife first went when he left her.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5448	Explainers for visitors on on-site displays, on your promotional material and on your website to incentivise them to extend their stay (good for you!) and visit areas in the town.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5451	Love the idea of using some of the old brickworks! My family immigrated here to work in them and it was a huge part of the Italian community	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5387	Use the dug up clay to make Bedford bricks to add a local twist on construction. How they could be used is unclear!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2482	We are fully supportive of the site and appreciate your commitment to improving the local environment. We hope it will be built with the whole UK heritage in mind, not just Bedford's. In particular, we would love to see an extensive Harry Potter themed area bigger than any seen abroad, as this is his homeland. I am personally hoping for a version of Hagrid's motorbike adventure as in Orlando (sadly the forbidden journey castle ride makes me too motion sick so I'm not a fan of this!). Would much rather a big hogwarts castle that we could explore inside, with a great hall restaurant to eat in)! A forbidden forest area & ride would be amazing and would tie in nicely with the planting of native trees & screening for locals etc. Importantly for us, along with the train stations on site we would want to see the train times matching up with the opening and closing times of the park correctly so we didn't have to miss park opening. Otherwise we would have to come by car. Fingers crossed the project goes ahead!!!!!! Thanks for coming to the UK!	Please share any other feedback you have at this stage.	
3095	I'm hugely supportive of the proposal and feel this is an excellent opportunity for a town I have been born and raised in for 54 years. The site is the old London Brick company site where my late father worked for many years. Bring out some of the local history if you can.	Please share any other feedback you have at this stage.	
743	It would be nice to have a nod to the history of Bedford and the airships at Cardington, as well as the history of the Brickworks, and the Italian community	Please share any other feedback you have at this stage.	
1025	Please avoid trying to link to Bedford's heritage by naming things after John Bunyan! He is not a good representative of who we Bedfordians now are or stand for	Please share any other feedback you have at this stage.	

3316	Look to other historical characters in the area of Bedford - John Howard the great prison reformer. Sir Trevor Huddleston the anti apartheid campaigner who campaigned for the release of Nelson Mandela (NM visited Bedford to unveil his memorial) the massive Italian Community which supplied the workers for the brickworks. Ampthill Castle where King Henry VIII 'œ imprisoned Catherine of Aragon for years. More gorily Bedford Prison where James Hanratty was the last person to be hung in the UK. The fantastic newly discovered Roman Villa. Nearby the home of the now famous Sir Captain Tom the great NHS fundraiser. The home of world renowned athlete Paula Radcliffe. Also of Gail Emms the Olympic winning badminton player. Home of one of the top regatta rivers in the country.	Please share any other feedback you have at this stage.	
3187	I work in Battersea Power Station, a similar use of existing materials to this building would be great. The building feels very authentic and sits really nicely in its surroundings.	Please share any other feedback you have at this stage.	
5863	I am in favour No negatives Bear in mind it used to be a clay pit and a smelly brickworks	Please share any other feedback you have at this stage.	
4890	It could enhance the UK s other othering and History for tourism in UK	Would you support a potential park and resort coming to this site? Please explain why.	
6058	my Grandad worked at the brickworks and I used to go as a child, it would be nice to see its history reflected in how it's built.	Please share any other feedback you have at this stage.	
5482	Making bedfordshire clangers	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5489	Name buildings or themed rides/events.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5513	Tie with movie heritage of the Cardington hangars	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5515	Ensuring that it feels like the theme park is in Bedfordshire, not Florida	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5521	Naming the hotels or other park infrastructure after the area would be a nice tribute.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5535	I don't think that will help	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5536	Create a wildlife garden to celebrate its history as a nature reserve/environmental education centre	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5538	History Boards	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5540	A display of local crafts eg lace and a reminder of history like Pilgrims Progress and landmarks	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5542	Themed attraction	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5554	Not building the park here. We moved here for the peace and quiet of the countryside. We do not want a theme park near us	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5556	use everything to you	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5560	Include information boards and interpretative features educating guests and staff about the heritage of the site	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5574	Not going ahead.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5575	I think there should be nods to the area wherever possible inside the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5579	Please come to Spain	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5585	Re-building the historic graded chimney which was promised	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5601	Not to do it	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

5606	Mini replica of the STEWARTBY chimney, maybe on a roundabout as you enter	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5612	Use existing structures and use local people and businesses	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5613	Building a replica chimney like the old Stewartby one	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5621	There is also a lot of history in the surrounding counties to Bedford. E.g. Milton Keynes is home to Bletchley/ WW2 codebreakers.... Northampton is famous for shoes, motor racing... Leicester has the story of King Richard (i could go on :-). Also it would be good if you work with the local community with regards to new technologies. I am working with very nascent p2p tech, where there would be multiple synergies with theme parks and our client side application.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5642	Recognising the impact of John Bunyan and his Pilgrim's Progress book and his connection to Bedfordshire.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5659	Provide ethnically diverse food and deinksblkenour abedford population and historyhonestart	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5665	Use local legends. See https://www.paranormaldatabase.com/bedfordshire/bedforddata.php?pageNum_paradata=2&totalRows_paradata=97	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5669	Museum/gallery space that covers local or UK history - could be combined with your documentary brands.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5674	Any historic discoveries during constructions to be displayed or integrated into the park.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5686	A listed site should not have been demolished!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5689	It would be great to utilise local restaurants for a food market/pop up area on a regular basis (ie pizza stalls etc from the local restaurants). There is a large Italian community and network of local businesses that could be used.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5696	All of the above	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5705	Keeping with the local building aesthetics and history.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5711	Bedford was granted a town charter in 1166 by King Henry II and grew as a centre for the wool trade. It later became a powerhouse of England's lace industry, aided by the River Great Ouse becoming navigable in 1689. The River Great Ouse passes through the town centre and is lined with gardens known as the Embankment. Also once upon a time there was a Bedford Castle! Bedford has plenty of history and heritage to inspire the development of the site.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5715	Recycle as much as possible	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5738	Integrate the industrial heritage of the site into the attractions	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5763	Use one of the old buildings for an exhibition telling the history of the site.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5783	Build a chimney to recognise those demolished	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5790	Installation about the history of the area, social-demographic changes through industrial development, wartime industry etc to show multi-cultural heritage	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5811	Using a range of historic events in the park's themes & experiences: rebellion and Bedford Castle, John Bunyan in prison but let out on Sundays, Garibaldi's visit to Bedford, Glen Miller here in WW2, Post war Italians here to work etc	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5833	A feature or activity based on brick manufacture	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5837	Respecting the heritage of the area in the buildings and design of the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

5842	Public Art maintainable at the developers expense	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5846	Partnership with the three museums in the town centre, Woburn Abbey, Wimpole Hall Equestrian Centre. ?holiday package?	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5857	Bedford Central Library has a lot of information about the history of the local area. It would be great to celebrate the diverse community that the brickworks brought to Bedford and to celebrate the architecture, such as the chimneys.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5867	Using photographs of the local area in public areas	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5911	Celebrate our river! And support it's regeneration	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5913	Building in heritage style	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5914	Respecting existing pathways and natural habitat.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5917	An attraction that includes the story of John Bunyan or the Pilgrims Progress. People travel from USA and Korea to the John Bunyan museum in Bedford.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5919	History and heritage montages as part of screening and strucures	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5925	Develop in sympathy with our natural environment	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5935	Gardens area within the park - for rest and picnic	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5936	Celebrating our diversity	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5957	Incorporating into the theme perhaps?	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
5975	A local snack is known as the Bedfordshire Clanger... A long pastry with half sweet filling, and have savoury filling like a sausage roll. Could be a good theme park snack to theme to one of your IPs whilst honouring the local area!	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
6013	Create a new natural play ares for local people and name it after the local history with a wizard twist	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
6014	Re using existing material is a great way to reduce the embodied carbon of the project and improve sustainability.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
6043	It is our local history leave it alone	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
6064	Showcasing local culture	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
6068	Include info as part of VIP tours. Also can get local artist to provide murals with the old bricks in the toilets or public walkways leading to the park.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
6081	Including local themes and references to the park attractions	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

E6243	<p>Hi</p> <p>Bedford was THE place to be. Before the war there was international flight with the airships and when the BBC moved live music operations to the town during the war, Bedford was a fashionable and lively town. On a sad note it is also where Glen Miller took off from on his final journey.</p> <p>It would be an excellent location for WWII re-enactment.</p> <p>XXX</p>	<p>Comment via email</p>	
F6103	n/a	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6113	Join us in our operations - The Bedford and Milton Keynes Waterway Park and the John Bunyan	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6131	Naming a ride/area after the local legend/site	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6140	A small attraction explaining the history + relevance to the area; maybe a themed restaurant	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6150	Recontacting one of the brickworks for chimneys	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6155	replica chimneys within the park	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6167	Using/displaying some of the fossils found in the old clay pits	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6168	Provide historical information on area. 1) Stewartby Brickworks - once the largest brick manufacturer in the world! 2) John Bary o anthon of the pilgrims - Progress who born in Elstow.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6180	Names from local inspirational normal people - not celebrities	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6190	Attraction with local significance	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6193	A brickwork ride to see into top of chimney, a ride through the history of the brick industry	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6196	Not knocking down too much of the vital infrastructure & history	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6198	Celebrating local historical events	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6199	Creating 'IP's which reflect local history e.g. John Burnham uniting history.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6209	Incorporate area's industrial heritage into the Theme Park.	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6210	Something more ambitious brickmaking museum	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	
F6224	Historical reference/stories told within the development or on display	We want to celebrate the history and heritage of this area. If we were to develop this site how do you think we could best do this?	

2482	<p>We are fully supportive of the site and appreciate your commitment to improving the local environment. We hope it will be built with the whole UK heritage in mind, not just Bedford's. In particular, we would love to see an extensive Harry Potter themed area bigger than any seen abroad, as this is his homeland. I am personally hoping for a version of Hagrid's motorbike adventure as in Orlando (sadly the forbidden journey castle ride makes me too motion sick so I'm not a fan of this. Would much rather a big hogwarts castle that we could explore inside, with a great hall restaurant to eat in)! A forbidden forest area & ride would be amazing and would tie in nicely with the planting of native trees & screening for locals etc. Importantly for us, along with the train stations on site we would want to see the train times matching up with the opening and closing times of the park correctly so we didn't have to miss park opening. Otherwise we would have to come by car. Fingers crossed the project goes ahead!!!!!! Thanks for coming to the UK!</p>	Please share any other feedback you have at this stage.	
4003	<p>Environment. Local heritage sites and surrounded protected areas (green belts in Millbroke, Ampthill etc) and further nature all around Stewartby, Marston Moretaine and Kempston.</p>	Please explain why	
3698	<p>The proposals are worth supporting if the resort can deliver on its promises. This includes: creating an exciting resort worth visiting (such as with unique experiences/rides, water parks, restaurants, shows, etc), respect for local/national culture across the resort, investing in the surrounding areas (through involvement with local organisations for construction/charities/schools and facilitation of transport options to the resort), and minimising impact on the surrounding areas through natural barriers and habitat restoration.</p>	<p>Would you support a potential park and resort coming to this site? Please explain why.</p>	
3426	<p>Linking new and existing habitats, minimise light and noise pollution (coordinated with the screening), protect the cultural heritage of the area, green energy supply say solar and/or wind</p>	<p>It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?</p>	
5387	<p>Use the dug up clay to make Bedford bricks to add a local twist on construction. How they could be used is unclear!</p>	<p>We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?</p>	

DELIVERY AND CONSTRUCTION

117	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	An Outline Construction Environmental Management Plan (ES Vol 3 Appendices, Appendix 2.3) which includes a Construction Traffic Management Plan has been prepared that sets out measures for managing effects associated with construction.
119	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
173	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	To manage potential noise and traffic impacts, core construction working hours will be 7am – 7pm Monday to Friday, and 7am – 1pm Saturday, with exceptions for activities that must take place outside of those hours such as nighttime works on road and rail infrastructure, delivery of abnormal loads, or testing associated with theme park attractions.
180	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
187	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	Fencing and strategic use of site hoardings will be used to reduce visual and noise effects associated with construction.
197	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
225	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	Measures such as wheel washing, to reduce vehicle track-out and dust from construction traffic, will also be used to minimise the risk of dust emissions.
229	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
237	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	In addition, UDX will be taking a number of measures to minimise the effect on the local road network, including: •Vehicle routing by phase of works •Management and coordinator transport roles during construction •Construction management systems to monitor vehicle movements •Monitoring and review processes to ensure compliance with the Construction Traffic Management Plan.
239	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
268	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	In relation to construction workers, a Construction Worker Travel Plan (CWTP) has been proposed and is included within the OCEMP (ES volume 3 Appendices, Appendix 2.3) as Annex 2. It is designed to reduce and manage the travel behaviour of the workforce during the construction period, including promoting the use of sustainable modes of travel such as active travel and car sharing.
318	No	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

CONSTRUCTION TRAFFIC MANAGEMENT (473)		
ID	Comment	Survey question
4235	The local road infrastructure is already at peak during rush hours. Any use of this should be outside peak hours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2858	the local road network is single lane and already rather busy the additional construction traffic and soon large numbers of visitors will cause a significant issue for local residents myself included.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3776	The local roads need maintenance before any construction traffic even begins. The construction needs to ensure that only major roads are used and the local villages are not used as short cuts for site traffic, as has so	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1259	The main access to Wootton is from Woburn Road, as it's a large area of new houses. The access for locals MUST be well managed, as the roads are currently just not good enough for teh traffic we already have.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2923	The only concern would be the main link road between Flitwick and Bedford as this would create a lot of disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4315	The only concern would be to ensure that the road that we live in (Meadow Road, Wixams) doesn't become a 'rat run' from the A6 to Amphill road and the park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1365	The only point I would bring up is that, a much better more direct route between the site and Luton airport should be considered to relieve potential traffic through villages and countryside roads that are going to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4520	Traffic and visitors need to be kept out of the village. I have to commute to work everyday and don't want my journey there or back to be affected. Noise needs to be kept to a minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4901	Traffic around Bedford is already an issue. Just be mindful of this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
759	Traffic caused by construction and visitors to the site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4152	Traffic coming through near by villages. Traffic stopping locals from accessing local services such as shopping and supermarkets	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
353	Traffic consideration at rush hour will be key, especially in areas that already get long queues- please look at the reality of how things work now, not just models.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1586	Traffic disruption would be a major point to consider, given the location of major nearby cities	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3817	Traffic is already a problem when leaving Stewartby. As a resident I would appreciate the massive impact on even more traffic due to the park to be taken into consideration. Also noise factors, its currently a very	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4199	Traffic is already difficult in the area so way to reduce it so it doesn't effect those that travel by car	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4672	By ensuring additional access roads to and from the site are a priority and construction traffic routes are sympathetic to the needs of the community. By sourcing labour and materials as locally as possible during the construction process, you would not only minimise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4346	Noise during the day will impact the schools, noise during the evenings and weekends will impact the residents. Also, no communication on how long building will take. If any road closes in Stewartby, it has a large impact on our travel in and out the village. We have a nature reserve so	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4500	Noise in unsociable hours. Traffic in and out of Stewartby.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4624	Noise issues Construction traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3745	Noise mitigation for local residents during and post production. Limit road closures as much as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4353	Noise pollution, construction during the day. Where possible major road closures and construction at night or out of school term.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2363	Noise, being part of considerate construction scheme. Limit road closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2586	Noise, pollution, travel disruption, you name it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3398	Noise, potholes, traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1253	Just try and keep the roads moving. Bedford has a real traffic problem and keeping the roads moving is key to keeping people on side.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
738	Just try not to block up the surrounding villages, the road system around here needs a good shake up anyway.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4171	keep read closures to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2346	As above traffic. I would not want to see any issues created regards local traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2864	Access to/from Stewartby on broadmead road is a major concern and people using Stewartby as a rat run	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
927	Keep road traffic at a minimum when construction is taking place. Do so not in rush hours and minimal closing of roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3830	Keep roads clean and noise to minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2312	Keep roads clean from lorry mess	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3317	Avoid closing roads instead use 1 way systems to enable development on one side at a time. Build down into ground to reduce overall height of structures appearance from afar, include noise reduction features such as high banking, trees and fences. Review measures adopted by local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3942	Avoid construction traffic from coming through local villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
258	Avoid construction vehicles causing disturbance to traffic and the surrounding area. Try to stick to motorways and avoid rush hour	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3319	Avoid disrupting traffic flow into Bedford from surrounding areas	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3758	Avoid driving through Ampthill town centre.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
930	Avoid local village as a short cut on traffics	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2696	Avoid local village roads if possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3160	Avoid traffic flow interruptions	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4611	Avoid using local village routes as much as possible particularly around school pick up and drop off times and communications regarding any large distribution caused by deliveries etc or temp traffic management	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4061	Avoiding construction traffic around busy periods to reduce traffic, noise barriers for any local housing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4952	Avoiding heavy use of roads during peak commuting hours where possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2641	Keeping construction traffic away from residential areas especially the local villages, schools and other services.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2547	Keeping construction traffic away from the villages. Making sure that there is not too much disruption. Many of us have to get our children to schools in other villages (we live in Stewartby but our children go to school in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2571	Keeping disruption to surrounding roads to a minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2658	Keeping heavy machinery and vans, etc out of wootton. Also ensuring traffic at peak time out and into wootton is minimised as much as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2249	should cope, it will, however, have a heavy impact on the local villages and Kempston. Ideally it would be good if the heavy loads could come at quiet times, but having been a lorry driver, I am aware that this is not always possible. As for the noise disruption sound deflector boards and trees will absorb some but I believe the disruption will be worth it for all	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4153	Keep the roads clean, communicate continuously and fully explain how long diversions may take. Join up with National Highways and BBC Highways to ensure that any planned roadworks have a joined up approach. Consider limiting disruption around start and finish times for	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4256	Keep the roads clear and running. We already have a lot of road closures in central Beds which can be hard to get to work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3095	Keep the roads flowing and that is fine.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1162	Keep the work to daytime hours so as not to disrupt residents in the evenings and be considerate of HGV traffic within rush hour / school drop off and pick up times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4658	Keep traffic routes to main roads and away from villages, particularly during hours when children are walking to school	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4728	Keep traffic (from and to the site) out of rush hour.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4275	Main concern is about how the roads will cope. Traffic already too much for the roads we have, stop start crawling at peak times. Bedford road planners have not done a good job!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
384	Main concern is traffic and noise pollution. I live in Wootton, and until the new dedicated access is constructed, the construction traffic is likely to directly impact me. Woburn Road is likely to become significantly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
193	Main road already has road works causing disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
306	Minimal disruption to public roads which are already congested. If night building/construction is required - this would be ok if it is communicated in advance.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

226	Minimal noise during weekends, alternative travel routes, disruption in planned stages rather than all at the same time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
816	Minimal traffic disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
779	Minimal works on the motorway please	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3564	Minimise construction traffic to the small villages as much as possible and buy out all the remaining homes and businesses on Manor Road before starting construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
756	Minimise disruption to the roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2966	Minimise disruption to traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2078	Minimise impact on commuters	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4289	Road access	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
436	Road access and planning to reduce potential congestion from all the additional traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
257	Road closures and disruption in this area are already a pain but with clear signage and planning the further pain would be worth it for the end result.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1639	Road closures are a concern so not closing major routes on weekdays during commuting hours (7-9am and 5-7pm) would be best.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1003	Road closures are inevitable but little things like traffic lights not on main roads to keep roads flowing. Ensuring minimal impact to local communities is vital and ensuring rush hour traffic is not effected too	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3134	Road closures need to be kept to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3339	Road closures overnight rather than in the day	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5566	constitution and guarantee they will not use local roads with restricted weight limits and appropriateness. Also, once the park is open, how will you minimise light and noise? Will this be visible to Amptill park? Concerns were raised regarding light and noise pollution for residents using the park. You are required to comply with Amptill's weight restrictions in the construction and ongoing phases of the project and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
350	Road closures should be minimal and no noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1197	road closures should be minimised during daytime when possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1389	Road closures, this can cause chaos in Bedford, so consideration of days and times of when to do this would be great. Also a timeline of how long construction will take and updates along the way.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
272	Road congestion. Noise Pollution!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2874	Road networks are already stretched	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4342	Road traffic and noise would be my main concerns.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3340	Road traffic issues. Work longer hours to reduce duration as it construction is very long in uk.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3499	Road traffic management schemes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2632	Road works - please minimise disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4444	Road works and access to HGV causing disruption to every day life is the only thing I would like to see avoided	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1157	Road works and vouchers with promotions to get cheap entry to parks and restaurants when open	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4246	Roads are very narrow and will get congested quickly. Something to widen them up quickly will help schools and busy people go about their normal days.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3987	Roads around Bedford are a nightmare, alot of this is probably to do with current roadworks and infrastructure improvements already in progress but a construction of this size will likely make it worse before it gets better.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3278	Roads around Kempston can be very busy at rush hour times - anything that could prevent further impact on traffic would help.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
439	Roads as you leave London fast become smaller and less able to carry a large amount of traffic. I imagine there will be concern around constant Roadworks" or slowing of traffic around the development area as well as	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4539	Roads at peaks times are currently awful, avoid those times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2324	Roads to ensure ampthill is not a rat run to get there	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1219	school and work traffic are at their peak. I expect this to be more challenging than at most of your existing parks given the proximity to the local town. Universal Los Angeles will likely be the best comparison. Overall though I agree with your assessment that having a theme park will be mostly counter to the peak traffic flows going to London. There will still be some reinforcement of travel from North of the resort into London	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4170	Roadworks and road changes during the night for less disruption to work traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3883	Roadworks are common place these days and an acceptable consequence.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
709	Roadworks causing delay on traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
263	Roadworks to be done overnight, staggered and smaller sections at a time to limit impact on the roads. Regular communication about any upcoming roadworks that may cause delays.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2695	Construction traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1423	construction traffic and noise in evening. also road mess	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2649	Construction traffic considerations	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4829	Construction traffic kept to particular routes where possible. And maybe live cam so people can look at what's going on	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3676	Construction traffic movements should be kept away from residential and rural area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5442	You are very near Beds Police HQ (and Kempston Fire Station and Bedford Hospital) please be mindful of this and maybe create lanes for emergency access so that vehicles are not held up. Thank you x	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2689	Construction traffic MUST be kept away from the local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2514	Construction vehicles to stay on the main roads, rather than go through the villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
115	Don't make the same mistakes with vehicle access routes that congest the Interchange Park. Enlarge the Park n Ride facilities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
526	With possibly EWR construction happening at the same time, construction and traffic management will be a big issue.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2868	Work with the council and try to work outside of rush hour. Have dedicated busses and trains so it doesn't get in the way of commuters. it could be worth having a park and ride outside of the area to help with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2418	Working and road closures in iff peak hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
282	Working on travel infrastructure during quieter times to nit impact too much on busy daytime traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2969	Nightly curfew periods for site entry/exit - except for emergencies.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4156	Night work kept to a minimum if any at all and try to keep the noise pollution of the job site down. also try starting work at a reasonable hour.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3752	No access to any vehicles through surrounding villages, access via main routes only and roundabout put in for junction of broadmead road/old A421 out of Stewartby	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
557	No concerns really but to consider construction vehicles using local roads, such as small villages in the surrounding area's and making sure big HGV's aren't using these routes frequently as this can cause	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1812	No construction traffic through the villages, utilise the railway	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4684	No construction traffic through Wootton	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4603	No Late deliveries Considerate construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4077	No lorries or large vehicles should be seen going in and through any of the local towns. I would also limit the travelling times of large volumes of vehicles as traffic in the area can already be quite catastrophic at times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4461	No night work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1059	No works between 8pm and 8am	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5139	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5214	Traffic, noise and lighting	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5166	We already live on a busy stretch of the m1 and A421, with 8.5 million visitors projected it is concerning about the traffic build up when we are going about our daily lives.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5118	Yes traffic issues are already a major issue at peak times so this needs to be addressed before works start and cause more issues	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4988	Yes, we live 3 minutes drive from the proposed site. My first thought is a dedicated slip road for construction traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5041	Construction traffic avoiding peak times on local roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5274	Ensure that the A421 is open for as long as possible, there aren't many acceptable diversions for the amount of traffic that uses the road, so perhaps phased lane closures sparingly to minimise impact on	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5095	doesn't divert traffic via b530 and local villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5363	Construction traffic could be disruptive. Avoid access at peak times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5127	Could the closure of main roads be limited to nighttime?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5212	Bedford is already busy and so it would be important to ensure construction traffic utilised ring roads only.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5151	Be effective with traffic management. There is a tendency to cone-off vast swathes of road networks where very little work seems to be being done. This can be very frustrating if you are stuck in long queues.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5321	You just need to make sure any traffic (construction then supply lorries when park opens) is directed along A421 not through the villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5022	place a roundabout within it just will not suffice. Why do you not create a bypass from the old A421, so that traffic going up the old a421 can exclusively be for the park? 2) The bottom (Kingston mk) end of the new A421 tails back at the roundabout, for traffic coming from Kingston/mk. That needs a slip road so the traffic does not have to queue at the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5134	Adding blocks for parking and bypassing traffic through local villages. Concerned visitors to the site or park will use the local villages to park to save costs or use the route to by pass traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5210	into the village, past the children's school due to the industrial estate (Woburn Road, Fields Road MK43 9RJ) and the AMAZON warehouse, built without a proper slip road from the A421. In the winter dark morning and evenings its even harder and dangerous trying to cross the road the get to school. Traffic is constant and the noise/pollution is a concern, it's all day long and all thorough the night. If the road is to be improved then diverting this traffic from using Fields road on a preeminent basis would	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5086	As long as the main roads to the schools in area are not affected, it will be fine. We have these 2 major traffic jams - in the mornings, during the school runs and in the afternoons, during the school runs. If you are able	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3560	Not closing major roads during rush hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3843	Not closing roads and putting traffic lights on every entrance and exit at the same time to cause unnecessary travel issues	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1473	Not specifically as you have to have some disruption to get something built but working hours on site may need some restrictions for local residence, i also think something that a lot of drivers hate as wide load vehicles blocking roads in rush hour traffic, so maybe those deliveries of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1763	Not particularly. This is something we'd have to deal with turning the construction phase. Maybe temporary roads just for construction traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
238	Not really, just limiting the impact of construction traffic and potential road closures on the local people	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3732	Not using the smaller road for construction traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1680	Not too early, and traffic on the small roads could they cope with the lorries back and forth.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1188	Traffic. I live in Stewartby and do not want my village to be used as a cut through to the site. It will also look awfully unsightly. Also, one of the roads into my village has been included in the land purchased, therefore	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2372	Traffic. My only issue would be its a small area locally. We are very close to the cite. When local roads are blocked it traps our whole village. This has happened frequently in recent years due to residential growth. We are looking forward to a park but minimising noise at weekends,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

2391	Traffic, movement of equipment	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4671	Traffic would be a major issue, also construction vehicles leaving mud and dirt on the roads and the constant traffic degrading the roads quicker then they would normally.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2393	Traffic through ampthill Noise for local residents Impact on traffic levels	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
292	Traffic routing needs major consideration particularly towns like Ampthill with already overloaded throughput in the centre.I think that building new routes before resolving existing problems locally would be prepared to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4596	Traffic problems is a major factor with this project. A large number of lorries will be required to work at the site ruining already worn out road surfaces. the litter and rubbish that contractors do not take responsibility for litters the lansdcape locally and can only get worse if this project goes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
797	Traffic plan is a must.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5241	current proposed design it will be virtually impossible to pull out of Broadmead road when large numbers of cars are exiting the park (without putting in traffic lights). It is already hard to pull out of this road during busy parts of the day with the current volume of local traffic, leading to cues of cars along Broadmead road and Green lane. I implore you to add a slip road to the A421 for cars exiting the site not just those entering the site. It's really important that there is no site traffic at all on Woburn road and all traffic to and from the site comes directly from the A421. I am also concerned about the plan to use Broadmead road for construction vehicles in the early stages of the build. The road is too narrow to allow cars and large vehicles to safely pass each other and there are a lot of blind bends which will inevitably lead to serious accidents. The rail tracks/crossing would also need to be strengthened to deal with heavy vehicles were it to go ahead. The tracks and crossing on Green lane were strengthened to deal with heavy vehicles going to the incinerator, but if you visit the crossing now you will see the damage the vehicles have caused in a very short period of time despite the works to strengthen the crossing. Please build your own access road to the site, not use Broadmead road. I am pleased to see that there is only carparking planned for the south end of the site closest to the Stewartby housing for phase 1 (living as I do only 100m from the proposed site),	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5357	I propose that early enabling / extension works are done on the road network and dedicated routes for construction traffic to keep them separate from normal road users	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5320	infrastructure improvements need to be in place before large-scale construction starts, to separate construction traffic from local and commuter traffic. If well designed, this new infrastructure can then	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5121	Keep all construction traffic off local roads. doesn'tallow weekend or evening working.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4990	Keep traffic flowing freely. Bear in mind daily existing congested local areas	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5176	Keeping park traffic away from commuter traffic and prevented from using residential areas as cut throughs (whilst not making it impossible to get there from surrounding villages). Building a separate junction on the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5221	Limit work on weekends. Ensure that construction traffic does not affect local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4964	Local traffic is already a problem will create more issues	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5065	where' perhaps provide extra buses and "park and ride" to enable transportation to be as efficient as possible during this time. A bus from bedford railway station via the Hospital and out to Universal would be SO beneficial to the town and the hospital ' avoiding a lot of congestion and parking problems at the hospital. Could a medical hub linked to the hospital be incorporated into the site development ?? Maybe set up a "Universal " construction App - so we can all keep track of what is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4976	More junctions routes and road options for A421 and A6 around the Wixams area of Bedford (increasing slip roads and widening existing roads locally) Even consider building brand new roads in the surrounding	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5347	No construction traffic through any villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5319	No more traffic please	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5419	None in particular but the old a421 can already get busy, closing the A421 will cause some significant traffic down this route.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5174	Not really - I can't honestly say I'd be impacted by more traffic as part of the construction but, as a business, you're very experienced in this so we trust you. The Brits will always moan if they can, it's our favourite hobby aside from queueing, so be mindful to separate the genuine gripes from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5374	Perhaps having regular updates for inhabitants/ residents, especially when major works will impact traffic or energy supplies.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5017	Please have main work happening during school holidays to avoid absolute road traffic chaos	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5070	Road upgrades are needed to ensure the extra volume of traffic doesn't have a massive impact on the already congested local roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5198	Sound barriers and suitable access routes when new roads are under construction and disrupt the local traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5104	Stop traffic cutting through villages of Houghton Conquest and Wixams and Stewartby	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5340	The main issue will be the added amount of traffic in the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5332	The main point would be traffic management during construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5364	The roads are not good so this and increasing traffic are a big concern	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5429	There needs to be a clear route in, maybe off the a421, that minimises the traffic around bedford for locals	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5301	Minimize road disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5138	needs improvement Area does not have a gas supply- would be needed to support the theme park Signal in the area is poor and would need significant improvements especially with an increase in people as theme parks always have no signal. This will cause damage to those working in the surrounding areas Not closing roads. Work not to happen during rush	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5018	Some form of permitable public transport route where practically possible where road closures occur	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5039	Please remember that while in Bedford borough this site adjoins Central Bedfordshire and will have as much or even more there than in Bedford. The road construction will be very disruptive.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5417	Keep your transport out of the local villages ,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5115	A major drawback.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5154	A way in and out of the location that would cause as little effect on the very local residents as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5001	Avoid the lorries and machinery will go trough villages, so create the infrastructure to reach main big road first	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5091	Avoiding road closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5297	Commuting from Bedford to London by car during works etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5004	I would be concerned about how the proposed development will affect access to the village of Wootton from Woburn Road and the bridge over the A421, both during construction and after the park is open.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1112	Traffic needs to be monitored it's already a very busy area and we cannot have traffic at a standstill.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2725	Traffic Management would be of great importance as this would majorly affect the local roads surrounding the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3968	Traffic management just needs to be considered when building new roads and Bedford Council will need to consider improving links/roundabouts at j13 M1 that connects with A421. It is already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1439	Traffic management is probably key to minimise local disruption and keep the locals on side for when the park actually opens.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
900	Traffic is the obvious answer but I think with a well thought plan and execution of that plan any disruption can be at a minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5412	I'd say a 10am to 6pm weekdays and Saturdays working on construction but leave Sunday's free so at least the local area will get some respite.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5300	If possible avoid major roadworks or train works during peak times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5420	If possible roadworks at night etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5027	Keep construction routes separate or restrict hours they can work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5002	Keeping the local surrounding roads clean. During and after construction on a daily basis.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5103	Limit deliveries to out of rush hour, consider a dedicated access road away from housing. Install environmental screening prior to construction works.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5282	Maintain easy access and avoid added delays	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5008	Maintaining closure updates for commuters.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3449	Traffic is bad as it is, work with local councillors to minimise through public transport, school buses etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2710	Trucks going through Broadmead road affecting the deterioration of the road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5199	Please use the A421 as Manor Road and Bedford Road can't cope they are too small	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5361	Road closures would concern me as the roads around Bedford are already very congested.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5152	That infrastructure improvement is started in advance of development ie the already inadequate surrounding road network.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5164	the local roads already can't cope. This needs to be addressed and rectified before construction starts not afterwards	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5401	The road infrastructure would have to be looked at and how locals will be affected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5234	The road network already struggles at peak times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5396	The roads nearby are narrow country roads which already have HGV's travelling along them travelling to and from the local incinerator at Stewartby. So the correct road infrastructure is vital for the safety of all	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5073	The site is near road junctions that are busy during rush hours (particularly) A421 junctions. Minimising disruption during these times is important.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5184	There should be a slip road straight from the M1 the proposed slip road and road that will give the park access is already too busy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5072	There should be no lane restrictions on M1 or current access roads at peak times. Consideration should be given to number of road disruption a local resident might encounter trying to get to work. Eg there should	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5250	Use the old A road?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5425	Would the Woburn Road be disrupted, we use the road often	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
869	A clear route signposted for all vehicle's working on/ visiting the site so that there's little to no disruption to the surrounding local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3443	subject to reviews throughout the construction period A construction working group should be established so community reps can be involved in the construction process A commitment to improving the roads and transport links in the area with reasonable diversions/ traffic management solutions if needed, so disruption is minimised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4502	Access roads into Stewartby are few and small. Access to the site needs to be independent of the Access to the village.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
770	Access to and from the site, and the potential impact on the local population.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1364	Additional traffic. Lorries etc would need to stick to main roads and not cut through the villages, as this has happened with other new businesses locally eg Amazon lorries hurtling through Wootton.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4851	bridges or generally not suitable for HGV traffic on alternative routes. This needs to be given sufficient consideration particularly when developing the site access from the A421. There isn't a practical alternative route for HGV's, any detour would add time and distance so ideally this route needs to remain open throughout development. The train stations require significant improvements, so timely alternative	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4775	traffic. Although they presumably won't be the main access routes, construction traffic and then park visitors will presumably try to get to the park from junction 12. Please address that in your planning. And don't cut off the road link from Ampthill to the Bedford Interchange Park, which a lot of people use very regularly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3112	Any potential road closures as traffic can be difficult at times. And getting onto A roads to motorway is essential to my role	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2627	Any work being done on Manor Road or the old A421 (Woburn Road?) would need careful consideration as it's an important exit route from the village towards Bedford.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1191	As I mentioned I don't live in Bedford, but I would say to have clear routes for construction vehicles so that it limits the traffic and congestion through the smaller roads and routes. Also, the A421 is a busy and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2218	As little road closures as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4560	As long as your plan for the site access off Woburn Road comes through, I think this is the best route to go down as means construction traffic should stay off the local roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2416	works or noisy works is fine during the day rather than at night and maybe post important information on when there is likely to be a lot inbound construction Lorrys/deliveries do depending on times the local community can plan there time/dsys/journeys. As you will appreciate we have alot of schools locally and traffic gets quite crazy at peak times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1043	Careful consideration of phasing of construction and clear designated routes for construction traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1075	Careful consideration of timing of any roadworks to ensure some routes are unaffected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
657	minimise this (more during school holidays when roads are quieter, overnight closures where possible). Be open with plans, have plans accessible easily to local residents so they can plan appropriately. Consider the damage to existing infrastructure with an increase in heavy traffic (lorries etc) during construction. If possible, be involved with the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1999	Be mindful of access from roads etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3395	Bedford is dependent on handful of critical roads and rail lines that are used for getting to schools, to work and travel to London & beyond which can get affected very quickly by engineering works, so any construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
467	Bedford is dissected by a river. Meaning there's long standing choke points because of a few main bridges. I would recommend all construction traffic kept away from moving through Bedford and only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3760	Being a resident of Wixams, please ensure that roads are accessible to residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
329	Being aware of road closures for people to get to and from work, school etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1727	Ensure traffic flow remains at a good standard	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4717	Ensure traffic flows can be managed during the construction phase to minimise delays	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3363	Easy access and plenty of parking for construction traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3674	Ensure building works don't impact sleep. If roads need to be closed, do this at times that aren't too impactful for those commuting to/from work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4848	Ensure construction traffic does not go through local villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4203	Ensure distribution to residents is kept to a minimum e.g road closure to be restricted to night works e.g 8pm to 6am	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
856	Ensure diversion or roads need to be closed are in place and do not use local narrow back roads as a diversion for local residents. It is infuriating	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3703	Ensure main routes to Bedford remain open to avoid increasing congestion in that area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3333	Ensure retain access to all the major roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4840	Ensure road closures are well thought out. Don't close off too many roads at once to cause major detours or delays. Keep people informed well of plans.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2281	Ensure that alternatives are always made available. There is already a lot of issues with our public transport so ensuring people can still travel with ease is crucial, especially for lines in and out of London.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2651	Ensure that construction traffic have pre agreed routes into and out of the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
847	Ensure that site vehicles don't arrive during peak local traffic hours or at least spread arrival to avoid jams. Make use of rail network for freight delivery and then use vehicles on site to move items. Spread site traffic across the two entrances. Provide subsidized bus transport for local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2993	Ensure the roads are always accessible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2463	Ensure there is minimal disruption to local traffic whilst construction is in progress. This is relating to noise as well as traffic jams, road closures etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1195	Ensure works are notified in advance and provide alternate routes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4667	Ensure you think about the roads and be smart in communication with the public	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
910	Keep the main roads to Bedford easily accessible at all times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1629	Keep motorways and roads unaffected as much as possible and you'll be fine.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3901	Keep HGVs out of villages, and on A roads only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2123	I think the local community is already on board with this proposal. As long as you can minimise disruption as much as possible, locals will know it is for the greater-good and the end result will be more than worth it!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1462	communicate within the local area through social media and ensuring nearby roads etc are clearly sign posted for relevant diversions. Disruptions for major construction are impossible to avoid, however as long as throughput of traffic can be easily managed and controlled, but provide adequate diversion signs to minimise traffic throughput and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3427	You have to keep all construction traffic out of Ampthill, Millbrook and Maulden, and only use the main roads north of the site. This is critical	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2469	You are using a small country road for access , this is poor You will need to ensure that limits one construction hours and delivery frequency are formed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
767	Yes traffic management is important. Good diversions to alternate roads is important.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4808	Yes, not starting before 8am, and finishing by 6pm, so as not to disturb local residents. Also, construction vehicles not to use rural roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2284	perimeter of the park first? In this way, construction would be better hidden from locals, along with a sound barrier if trees are planted. Having dedicated roads set up to the site rather than using pre-existing local roads would also benefit the area with a reduction of construction traffic and any incidental wearing of the road due to heavy plant. Ensuring to work within certain hours which are not disruptive (at least for noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
162	Keep all existing routes open	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
186	Keep construction traffic away from built up areas and minor roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1441	Keep big lorries out the villages as the roads are too narrow to cope. Clearly signpost diversions. Minimise the dust flow if that's even possible. Relying on your experience to get it right. But do have consultation with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4476	Just use common sense, don't block the roads completely. Use the train track to transport the materials by train if possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2033	Just properly thought out and executed temporary routes and traffic management etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
836	Just make sure there's alternative routes that are safe to use for people, it's all you can do really	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2974	Ensuring that key construction routes are used and enforced. Minimising heavy traffic through local towns and villages. One aspect may be how to reduce heavy construction vehicles coming across country from A1 to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4185	Ensuring construction traffic doesn't pass through the centre of Bedford. Otherwise Bedford and the surrounding villages have been a hub for construction for many years including housing and commercial developments, making construction traffic on the main roads and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4857	Given the disruptive upgrades to the nearby dual carriageway at Black Cat Roundabout, any additional junction work required for the park would ideally be built in or as close too the same period to minimise disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2951	Ensuring that traffic can still function would be really important	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2244	Ensuring local roads remain accessible and fully open as much as possible, especially around busy commuting times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3494	Ensuring minimal disturbance to traffic would be the best way to keep people in the area happy. Offering potential discounts or incentives to locals of the area which would potentially be affected by the disturbance could be another option to look into, giving them a feel of getting	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2443	Ensuring no road closures at peak times and night time construction where possible to minimise road blocks if needed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1002	Feed construction lorries out to main roads and not through villages!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3105	Friction will arise where works interfere with peak road / rail usage ie commuter rush hour, peak weekend shopping hours. It would be good for this to be factored in to works planning.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1647	I don't have much thoughts, but keeping roads & the local rail network open at all times during construction needs to be a priority.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1236	Having construction traffic pass through during non peak traffic times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1655	Heavy construction traffic should avoid peak travel times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3750	Hopefully any disruption major travel routes would be kept minimal	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
613	Hopefully some way of keeping the roads flowing as much as possible so not local gridlock	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
931	Hopefully the trucks will use the main roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4414	Hopefully there wouldn't be too many road closures as a result	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3956	Hours of operation, light pollution during winter months, impact of heavy vehicles on existing infrastructure. Would be great to see rail being utilised for delivery of raw materials to minimise road usage during	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3834	How will existing roads around the A21 be impacted, will there be closures?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4492	How will you ensure access for residents to stewarby? How will you reduce noise etc. how will you screen the park from local housing? How is traffic going to affect me getting my children to wootton for school both during construction and once the park is open. It's only a 10 min drive at	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1161	I am concerned with the impact on traffic and rail. This development has the potential to be very disruptive to all who commute into and out of Bedford. For example students travel to Bedford College from all over Bedfordshire, generally on busses. It is important that their transport is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4244	I assume there may be an increase of traffic or travel delays during the building process of the park. I understand this would be inevitable to some degree but I suppose the length of time it may take could have	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1463	I don't live in the local area, but it is worth considering that heavy construction traffic on the UK's small road infrastructure can cause huge issues. Lorries on country lanes are a nightmare!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1481	I don't live nearby so this won't affect me although I appreciate that local residents will want the reassurance that they will be able to commute where they need to without too much delay	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4338	I drive my daughter daily to school, through Manor Road. It would be a heavy impact and worsening to our life quality adding a lot of time to our school trip.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2520	I guess noise pollution and increased construction traffic. I'd appreciate efforts made to minimise these and obviously respect it is a predominantly residential setting so late night construction work noise wouldn't be appreciated long term. Also being upfront and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1135	communities. But with smart planning I'm sure you can complete this project minimising the affect it has. Potential large holding areas for vehicles to park up at the site to get them off of public highways. I'm sure you will find away to minimise this. Look at the pros to this though, the amount of permanent jobs this will create forever, it's only going to be a good thing. You can't make an omelette without breaking a few eggs!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2333	I hope the locals and universal can work together through it. All construction is difficult and obviously has an impact on locals but hopefully it can be kept to a minimum and universal can be more	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2356	disruption for long term benefit for thsi and future generations if Bedfordians doesn't bother me . That said the main issue with disruption in Bedford is the river as we only have so many ways to cross it in the town and when one route backs up due to disruption in and even around the area it's realllllly backs up. So maybe consider a short term town	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1976	I need to use the local roads to get to and from work Monday to Friday so construction traffic could be a major issue	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4099	I really want to know more how to stop the Sat-Nav taking junction 12 traffic through small villages including Stewartby	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
476	I think ensuring that there are good alternative routes in place to ensure people are not too disrupted in continuing their day to day activities such as getting to school or work. Good communication about diversions etc.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3618	I think it would add value to the area. If universal are looking not only build a park, but create local jobs, support the local community, and build and develop local infrastructure that will also benefit the local area this will be beneficial to the local people. Ensure work is not closing too many	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2675	I think it's important to consider the surrounding villages whilst the bigger roads are constructed as do not want to push heavy congestion down the roads that generally can't cope.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3906	I think most people worry about the train and road system and how these would cope with increased load and no extra capacity	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2456	I think the best would be to reroute traffic differently or carry on the most of the works (where possible) during the night to create less disruption to the communities who live and work here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
504	I'm just hoping the traffic can be kept at a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3622	I would like to see only A roads used for construction traffic with the use of B roads kept to a minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3584	would also say using less used roads instead of occupying major roads and additionally keeping noise and construction limited to daytime not only to minimise disruption for the locals but also for the local wildlife as well. In order to carry this out most effectively I do think it would be useful to consult with the local wildlife charities such as the national trust and the woodland trust to help with feedback and advice especially on the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3200	Increased traffic on the A421, in both directions would be bad, therefore the roundabout leading to the M1 & Milton Keynes needs to be thought about. During peak times, this roundabout is a nightmare, increased traffic would make this worse. Any construction vehicles should try to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3850	Just good traffic management	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1182	Just form your own access from the main highway, it is costly but it will reduce disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
286	It's in a fairly rural part but I think planning in diversions well in advanced for any road closures and being transparent with the build would really help keep everyone on side. I'd also like to suggest working with some	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2905	Just be cognisant of the times you start and finish day to day, and ensure road transport disruptions are kept to a minimum. Quite frankly looking at the bigger picture, I wouldn't be too fussed with the disruption!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1736	Keeping road closures as short as possible, utility provisions completing work at the same time/together when digging up any roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
358	Lorries on special routes only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
786	Local road improvements and how visitor traffic can be diverted away from local towns and villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1511	keeping to a minimum of entrance /exits to site from major roads and where possible to not have these near villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4941	Keeping traffic disruption to a minimum where possible and Wheel washes keeping roads clean in and around access points for deliveries	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3079	Large and heavy lorries should NOT be allowed to come through the village roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4129	Large construction traffic to avoid using villages as a cut through. Working hours- not late at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3066	Limiting trucks and traffic through local villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4207	Link a motorway road to the sites for a short time	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1037	Local roads have already been damaged from the Covanta development, with lorry drivers and other employees ignoring signage, speed limits, etc. Get the road safety/control in place right from the start is important.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3721	Looking at your plans you seem to have given great thought to the local roads and installing measures to mitigate congestion on the roads and heavily promoting rail travel to the park. with Luton being a fairly close airport, will you be planning on expanding the service from Luton to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2143	Major construction in a quiet area in the middle of nowhere wouldn't be such a problem if construction vehicles come to the site via main roads and not local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
402	Maintaining good road links to ensure local people can get to and from work and college as now, that people can get to and from Bedford especially for hospital visits, that emergency services can operate satisfactorily Ensuring heavy trucks and construction vehicles are routed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4402	Make sure the local roads are not affected by Heavy road traffic and try to use the railways to bring in large amounts of material as it much better for the environment	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1860	The most important to get right with this project is the traffic management if you get it right the locals will support the project get it wrong the local support will turn against you. I hope the project happens and you can put	Please share any further feedback you have at this stage.	
806	Make sure mud is cleaned off the roads, and hgv's stay on major roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4463	Make sure no traffic is brought through the village of Stewartby and that if Broadmead Road is closed for development, that it doesn't coincide with other works that may be undertaken on Green Lane	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3473	Make sure older people and school kids are put first in road safety.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4248	Make sure the roads are available to be used as normal. Shouldn't have to be done in by temporary traffic lights the whole time. Roads should be done first.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3923	Minimising road closures where possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1301	Minimise the amount of construction traffic going though towns and villages. Give construction workers on site vouchers for lunch in the local shops, restaurant and cafes to help small businesses.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2732	Minimise noise impact to day time hours on weekdays only, if possible. Where possible, minimise the impact of traffic disruptions and road / lane closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2127	Making sure temporary traffic lights aren't timed to be very long	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2963	Making sure that heavy traffic does not go through the centre of Stewartby village.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1024	Making sure traffic is sufficiently controlled and doesn't cause major delays for people everyday commutes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
753	Maybe build a road that will allow people to navigate past the construction site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
634	My job involves travelling across Bedfordshire, I would not want to be restricted by road works & congestion on the roads which causes misery for everyone!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4004	I am extremely concerned that there is an underplay regarding the negative impact this will have on local communities.. what effect the construction will have on transport delays plus the increased pollution.	Please share any further feedback you have at this stage.	
4880	Minimise the traffic on the roads and try to avoid major road closures or disruption, as we do not have that many routes to major train hubs e.g. Flitwick and Bedford.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1974	Minimal construction time on and around the existing roads of the area would likely assist to reduce disruption due to closing roads for long periods of time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1938	Maybe using temporary roads to divert traffic from the village?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2706	Maybe have its own road/ entrance rather than use the public roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1369	Maybe just the local roads! the uk has a bad problem with congestion.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1001	Manor Road would need significant improvements and turning right onto or off of it can be difficult and time consuming. No traffic/footfall for this development should be guided into Wixams or surrounding villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4862	Manor Road is a key road that connects the A421 and the A6 to ampthill. Closing that road to traffic would see heavy congestion through an already busy Stewartby and further traffic around the retail park which is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3944	Manor Road whilst a small rural road connects villages either side of the Universal land, allowing travel to the Interchange retail park, a route into Kempston and into Bedford and other routes without joining the A421 junctions and roundabouts. Ensuring carefully considered diversions are	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1456	Marshall Aerospace have plans to relocate to Cranfield Airport by 2030, construction traffic for this will be utilising existing roads and needs to be considered when further construction traffic is required for the Universal	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2496	This would be a great opportunity for the local area, the construction traffic is a concern but I feel its worth it with the end results being such	Please share any other feedback you have at this stage.
892	Obviously directing as much site traffic away from nearby villages as possible, though I'm sure that's already a consideration.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3907	Running free buses from hotels may prevent major traffic building up on roads. It would be good to have a road within the site so traffic can queue there without too much building up on the roads around here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
529	sleeping times, hours when herds of animals might be nearby and stressed by noises, etc). Please no night construction though. Don't block roads with construction equipment or workers vehicles. Or if roads are blocked, provided alternative, well-labelled detours. Please ask workers to keep areas clean. Avoid pollution of the local area and litter. Provide meals, restrooms, and adequate facilities for workers to take breaks in so	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1263	Woburn Road and Manor Road are critical links in the local area, care should be taken to minimise disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1524	Other than major road networks and motorways, a lot of the road networks aren't great. Traffic, congestion and diversions are a sore point for commuters in the UK so, to minimise this, I think clear communication with the local community on phasing of work with clear diversions given to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2648	Only close one road at a time during road construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4140	planning is road and rail works, properly with plenty of alternative routes organised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3851	Please avoid trucks coming through Stewartby village wherever possible, and ensure that Stewartby has access to the old A421 at all times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2394	Please apply better road diversions, and do noisy construction work (piling etc) during day time, please also provide prayer facilities (if you can) for the Muslim workers for their 5 time daily prayers, or a multi faith	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4263	Please dont divert cars through the small villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4451	Please ensure decent access to the site and road access so local roads are not overloaded	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4084	Please ensure that there are no major roadblocks	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1370	Please try and limit large road closures where possible. Long (2 weeks +) road closures will see loss of support. People are usually happy yo put up with partial closures but full road closures are annoying, and should be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3422	Try to keep roads open	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1626	Try to keep the roads open as much as you can	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3590	Try to limit temporary traffic by completing more than one task at a time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4454	Try to minimise construction traffic on existing road network	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3926	Try to minimise road closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2982	Try to stop as much traffic as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2410	Using existing road networks will impact nearby residents. Consider alternate routes for construction and service vehicles	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4528	Using major road routes, preventing heavy traffic going via local villages as a thoroughfare.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4167	impact would be limited. However there has been ongoing road works and delays along the A6 (Clophill roundabout) which has led to local frustrations to residents and businesses. So I would advise that prior notice and limited impact is considered, with alternative routes and avoiding peak times - making sure work is being done or roads reopened	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3312	We need to avoid construction traffic accessing the site via Flitwick or Ampthill. This will create major congestion in small rural towns.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3397	We would like that raise that any diversion you do must maintain flow of traffic especially at peak time so there is no disruption especially regarding us getting to work on time. Maybe do major work at weekends	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
792	Too many traffic diversions put pressure on other villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2524	please look at minimising construction vehicles on the A421 as there are already construction projects towards Cambridge on this road.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3600	Sound traffic management will be key, but it is worth the disruption for the outcome.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3749	That construction traffic does not impede local traffic and noise is kept to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2957	Stop traffic coming through the small Georgian town of Ampthill, already got high pollution and small roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4928	Strict route for construction avoiding rush hours. Talk to the local residents about what works for them.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4616	Staggering deliveries and trucks leaving to avoid clogging up the roads at rush hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
416	The area has seen extensive house building in recent years, traffic can be problematic when there are huge vehicles travelling. Minimising construction traffic in peak times (particularly 7:30am to 9am) would	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1268	The first priority should be the A421/M1 junctions and creating dedicated sliproads to the site, as well as discouraging construction traffic from driving through local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
921	The area chosen is remote enough not to create issues and there is a number of roads in area to provide alternative routes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3228	construction. Create access points which won't impact people's travel requirements. There are many new housing developments in the area, most (all!) without the infrastructure they should have, which consequently means residents need to drive around 20 minutes to healthcare providers, schools, transport links, shops and suchlike. Traffic is already an issue and I can imagine they wouldn't appreciate being surrounded by traffic control situations in every direction. It would also be good to make sure it is surrounded by some kind of noise reduction, such	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3426	Proactive/transparent communications in advance and during construction to manage expectations. Construction traffic to only use designated routes on main roads (ie A421/Woburn Road and to keep off unsuitable local roads). Set up rail head for deliveries etc by rail.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4487	Probably nothing you haven't already thought of. If diversions are needed, please try to make the alternative routes as simple and short as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2406	Put in good u destructors first to help minimise construction traffic impacts on locals	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1074	Reduced operations on half terms, national holidays etc. Not doing late night work. Putting alternative routes in place to reduce traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2367	Restricting heavy machinery work during hours of darkness.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4150	Restricting road use particularly at times when myself and others are travelling to work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2074	Restricted hours, excellent communication, progress updates so people can see it's paying off.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1787	There would need to be enforceable restrictions in place to prevent construction traffic and construction employee traffic from accessing the site via local villages and minor roads. Strict limitations on time of day,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
775	There is a large amount of construction going on in Wixams, meaning we get a lot of Lorries getting lost on residential roads. Would be good to ensure truck drivers know the routes well.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3959	There are 3 entrance points to the site. I would avoid using the "amphill village side" as traffic to kempston retail park is already crazy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4839	The road between Ampthill and Bedford is an important highway that must be kept open as much as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3988	The roads in this area are already traffic hotspots, so try to minimise any road closures if possible. Similarly with the train network, it is already unreliable enough but we have a large commuter network in the town to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5919	A considerable contribution to resistance to any 'substantial' project in the U.K. is the issues surrounding traffic, both during construction and when the project has been completed. Very careful 'mapping' of routes for traffic in both instances, must be set out (and tested for durability) to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5744	Keeping traffic to main roads only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6081	Lots of regular, clear communication and updates to local communities is key. People will more willingly accommodate disruption if we are aware and can plan around it. Minimising complete blocks to road or rail routes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5809	Need to set out routes for construction traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5823	Need to have good communication with residents close to the site. Keep them involved with the construction and look to take on board their concerns.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5812	No 4-way temporary traffic lights, they are a bane to existence.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5604	No construction vehicles allow to drove though stewarty would be good.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5909	Not to use Ampthill Rd	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5596	Not working in multiply areas at the same time, using traffic lights to lengthen commute times to work and school journeys.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5835	Not to allow heavy goods vehicles use the Elastic Rd Kempston as another route to the site. There are 3 schools in this area and no manned crossings only pelican crossings.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5692	Only disrupting 1 route/major road at a time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5693	HGVs not to use Houghton Conquest as a rat run from A6 to Ampthill Road and vice versa. Baseline data for current usage and monitor to compare. If this has increased then road surface will need improving.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5690	Wixmas and surrounding villages in Bedford surrounding the planned development are new build or ever expanding villages currently. Wixmas in particular has had a newly built industrial estate still being completed. All residents ask is no anti social building work is carried out during the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

5988	minimise noise and careful management of construction vehicles	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5981	Limited working hours to keep noise pollution down during early hours & evening times Mon to Fri also weekends to keep HGV traffic off peak road times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5669	Make sure there is provision for any traffic or noise disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. 6094	To be mindful of noise and restricting access	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5571	How will you allow traffic to continue along Manor Road during construction? I visit my parents regularly in Kempston Hardwick from Kempston and when this road is closed for any reason it's a long detour	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5879	Have alternative routes around construction well planned in advance.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5807	Take construction traffic away from residential streets wherever possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5721	disruption of roads, redirecting traffic, long waits in traffic lights etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5788	Increase of traffic during construction - can alternative/ temporary routes be designed to minimise disruption for those who live nearby.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5489	Yes so long the current road planning and routes remain with minimal diversions/road closures for local traffic then should be no issue.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5515	materials by rail as there are nearby sidings and thereby reduce the number of lorries/trucks. Understand local traffic patterns and avoid them. Use drone type overviews to show local people what will happen. Establish a feedback loop so that any problems are identified and rectified ASAP. Do not rely on Local Authorities for this as they now lack the competence to understand how incompetent they are. You are also on the boundary which complicates matters. Central Gov't, especially the Treasury, does not understand local gov't and makes sweeping generalisations that cannot be realised. EWR are incompetent and not to be trusted. They were set up as a standalone vertical integration with a view to being privatised. This is completely unrealistic in the current climate but the culture remains. Hence their obsession with 6 tracks north of Bedford so they have their own train set to play with. In reality they are now the most heavily subsidised railway in the country in %terms. And they will be subject to cost cutting once the effect of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6055	Mostly just making sure if we have diversions that they are short and won't back up traffic around local smaller towns	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5687	Green Lane which gives access to our sailing club is on the border of the site and is very well used especially after the opening of the new incinerator, it would be good if construction traffic was kept away from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5730	Sensible working hours and enforcement of routes into the site as the majority of roads in the surrounding area are unsuitable for heavy construction vehicles.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5705	alternative routes that are equivalent instead of long detours IF/WHEN road works are needed. Do road works at nights where possible. Give neighbours notice of any changes that might impact their routines. Liaise with Anglian Water, BT (OpenReach) and councils to avoid doing construction work that disrupts routines simultaneously and synchronise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5959	Ensure TM plans stay out of local towns and villages eg amphill stewartby Houghton conquest and are directed straight to the major routes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5731	Just consideration of the routes construction vehicles take to minimise impact on local infrastructure	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5529	In the design on the new scheme keeping the locals the ability to get around without joining the ques.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5924	Lorry keep to main roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5715	Possibly provide immediate detail of any delays on the road networks, to ensure locals have alternative routes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5480	Put in designated access roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6054	Phase any road works so diversion are not too extensive. Beer mindful diversions don't impact local villages as much as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5697	The local roads would need a dedicated route as this would cause delays to local people's commute	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6068	To have effective road diversions while updating the infrastructure to minimise the impact as much as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6020	try not to fully close roads, just partial if able to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5947	Staggered roadworks, which I can see from your plans is already being considered. Also minimising the environmental impact	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5623	Similar to the response to Q.8, ensure local roads are unaffected by the construction process.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6211	M1 513 A421 conjunction. Construction traffic flowing through villages by mistake.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6223	Broadmead Rd & Woburn Rd the disruption. We can't get out via retail park due to traffic. You are reducing our ways out of the village.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6188	Stewartny residents being able to exit by road to get to bedford. Also being able to get to other side of A421 eg Wotton, Cranfield villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6201	Limiting parking for site to one area as to not block up roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6202	Just avoid rush hours with construction office and help maintain the roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

F6203	The impact on road loading to Kimberly College is already impacted on by all the waste lorries heading into Covanya, How will this be managed to avoid total gridlock especially at beginning + end of school day	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6222	Road infrastructure is a major concern due to the number of new housing being built already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6224	Think about the impact on people in Wixams as there are already issues with poor planning of roads + infrastructure. The Eastern transport hub (and its impact on villages in Wixams) must be specifically considered	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6225	Provide plenty of ways to get to the interchange without cloggin up the roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6229	Road going through Stewarby	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6102	We travel to Luton weekdays for work, how would the park effect road disruption?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6103	Transport to be routed on main roads only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6167	Te 421 roads are particularly "hazaed prone" + would need updating re exit/entry stop roads + would need updating re exit / entry stop roads + Ampthill Rd/A6 junction very congested.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1031	I need more information about traffic to the site and it's impact on local	Would you support a potential park and resort coming to this site? Please
4492	I need more information on plans for roads, the effects of noise, lighting, what the land will be used for specifically. Where will rides be? Where is the car park, hotel etc? Will there be evening shows? with fireworks? Fireworks are a massive no,no!! I live 100m from edge of the proposed	Would you support a potential park and resort coming to this site? Please explain why
151	What route would traffic use to access the site during and after construction, particularly from the M1 as the A421 is very noisy now let alone with any extra vehicles. The only way to use the A421 would be to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3522	Due to my postcode and living so close, am I going to hear a lot of noise during construction? Is there going to be lots of large construction lorries etc around to make it unsafe for walking/ small children? And is there	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3773	My only concern would be construction traffic - would this be purely on the main roads or would it impact the villages? Would there be road closures and other disruption?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

251	It is what it is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
102	It's expected with any big construction project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1139	It is what it is.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
102	It's expected with any big construction project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1717	No concerns	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2014	No concerns	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4551	I'm confident that all disruption will be kept to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
144	No, it would be expected with major developments	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
230	I don't know the area well enough, but we are used to construction work, especially major roadworks in the town in recent years.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2616	This would be fantastic to the area and yes there will be disruption for a period of time but it would be so beneficial to our communities.	Please share any further feedback you have at this stage.	
1110	None. Got to be done	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3388	To be expected with such a large project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4118	With all major projects there is expectation of disruption. But with forward vision and benefits you look at long term goals	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3681	With any new projects there is always a level of disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2376	With the amount of new builds going up (without infrastructure improvement I might add) then we are largely used to the disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
687	No - normal construction guidelines should be followed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
280	No - there are construction projects on-going across the UK at any moment so this is not unusual. I think there should be a real focus on greener developments which I am sure you have considered.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4924	No as long as consideration is taken into account I can't see a problem	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4887	No I am certain you are experts in this field	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2119	No I believe you will be respectful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4164	No I don't know why people would complain its pretty remote.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3597	No I know the area and there are only a handful of houses near to the site that would have any noise disruption and road disruption is no different anywhere in London. No problems	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
929	No I think it's inevitable with a project this size.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3195	No, its part of the process.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2486	No. its to be expected when building a huge park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1005	No. Universal know what they are doing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3463	None - I'm confident in the experts being able to carry this out.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1482	Nothing additional - the planning so far demonstrates significant consideration already.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
811	Nothing can be as impactful as HS2 that no one wanted	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4089	No people must accept disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2102	No trust that the right decisions will be made	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2883	No, as the council and highways agency constantly add, upgrade or change existing road layouts to accommodate new housing and business developments, most don't feel the benefit of such works. At least this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
761	No, construction happens everywhere, everyday, be it road works or building, people should see what your doing as a negative	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3349	no, construction is non stop in the area anyway, so people should be use to it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1627	No, construction of the park shouldn't bother any UK guests.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4897	Nope, I am used to roadworks not an issue	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4849	No, disruptions will occur but it has to so project can be delivered. These are only temporary.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2787	No, I have zero experience in this area so I wouldn't want to make something up. I guess making as little disruption as possible to the locals. But we will also understand the magnitude of the project and with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2436	No, I'm sure diversions can be put in place, I'm confident Universal and the local community will support each other in delivering the park affectively/efficiently without disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
878	Not at this time - plans look to be very considerate in this regard.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4587	No, the surrounding area has been a building site for many years with massive new build developments to the East and South of the land, and it has not been an issue	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1176	No. The road infrastructure should cope	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4268	No. I believe most of the community would be willing accept some initial disruption providing that it leads to long term improvements in the area, particularly in relation to things like road enhancements and better	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2671	This would be such a positive move for the area, yes there would some disruption and inconvenience whilst its being built but (and I say this as a Stewartby resident) that it really is a small price to pay compared with the	Please share any further feedback you have at this stage.	
2675	Excited for the proposal and apart from the initial construction I think this is all good for the area and prospects and the community. It is full of	Please share any further feedback you have at this stage.	
5381	No i don't think the construction side of things would disturb much of the surrounding nearby villages. It would be interesting to watch the theme park come to life.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5438	No I understand construction will go on for years.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3447	Nope - usually the delays to announcing and planning are most stressful as it is the unknown.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5257	No. as I won't wouldn't know of any potential disruption as a Luton resident.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2751	Not really - upgrading infrastructure always causes disruption but it is time limited	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2681	Not really, we can be patient.. Please stick to the plans timeline as close to as possible (aware delays will happen)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4052	Nothing in particular, you've got to do what you've go to do in order to open this amazing park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1544	Not specifically. But centreparks was built a few years ago and they managed to be respectful to the local community	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5062	Do not live directly nearby so no major concerns	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5083	I do not.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5109	I don't have a problem with that.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5061	I don't yet seek advice from locals too who I am sure are not majorly against this proposal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5307	I understand if this is to ahead there will be noticeable disruption, and I'm OK with this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5188	I'm living in a part of town that most likely won't be disrupted.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5318	It will be fine	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5279	No, construction has to happen	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5306	None of the issues that probably already have been raised with you already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5058	Nope! Get the construction over with as quickly as you have for epic universe, I'd rather a lot of disruption for 1/1.5 years than minimal for 6	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5003	Short term major disruption is very preferable to longer term minimal disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3233	Trust your judgment	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5275	The location I cannot see being a major impact on Bedford communities during construction because its sited away from the town .	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5336	Using a brownfield site will help regeneration so some disruption will be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
817	As long as it build it would be fine	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2602	Building disruptions are a fact of life if you want better Any disruptions will be temporary And acceptable for this monumental task	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3453	Brits are used to that, most of the major roads have never been construction free. At least it won't be as bad as the I4 project and it will be something the majority of people are looking forward to.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2188	Construction is a big thing in the UK and I fully trust universal will be looking into all aspects and trust there work in what they do.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1875	Construction is short term when you see the benefits they far outweigh the construction phase. The sped in which universal completes projects is impressive. Florida as example	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4097	Disruption is a necessary park of any development. The brickwork will need to be used fir something so cannot be helped.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4907	Disruption is acceptable when there is a worthwhile project and this will hopefully come to fruition	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4619	Disruption is needed with such a long term goal. Keep local residents informed regularly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2832	Disruption is simply part of the journey, assuming sufficient consideration is taken by project managers. Change is good!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2232	Disruption is to be expected but stick within the working hours and people shouldn't have a problem.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4826	Disruption is to be expected. Quick completion would be nice.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3520	Disruption is unavoidable especially for people very close to the area- providing you observe the local authority and construction management plan rules/ regulations then I don't have a problem.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2942	Do whatever it takes to make a magnificent theme park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1990	I think people will not mind.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2919	I think it would be worth it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
839	I think the area you've chosen is excellent as the construction does not really affect the wider community because the site is not near a housing estate	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2884	I visited this place before, I feel it wouldn't be to disruptive	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2276	You guys will do an amazing job, i was on the site for Epic Universe in 2022 and keep upto date with that progress, so anything done in that manner in bedford would meet all quieres	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2480	You cant mess the UK roads up even more than they Already are...what needs to be done...you always do a fantastic job	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3862	You can't make an omelette without breaking eggs but as long as the work is done sympathetically and respectfully I think it will be well tolerated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2799	You are the experts in that field, and I'm sure you would make every effort to ease disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3803	I don't see how it can impact the area more that the WIXAMS DEVELOPMENT S	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
605	I have nothing to really add here, i feel that you will do your upmost to minimise as much as possible!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4578	I think it would not impact on the current road system, cannot think of a better site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
949	it happens, construction ends, we carry on.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2566	Having attended the presentation information event today it is very clear that a lot of time and planning will go into the park and I am confident everything will be done to minimise disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2142	Having watched updates on Epic Universe I can see how Universal bring as much to the site itself and work from there rather than having roads backed up with equipment and as the plans show you have easily as mush land set aside for equipment storage during the construction that	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
741	I am certain your teams and those at Bedford Borough Council will do everything necessary to minimise disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2113	I am satisfied with the information already provided in regards to considerate construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
253	I am sure you are very experienced at handling the logistics effectively	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2385	I am sure your extensive plans have taken this in to consideration	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1874	I believe most uk residents are used to major road works being disruptive, whilst not ideal we are very understanding.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
701	I believe that everyone realises that the disruptions will create unpleasant consequences. I do believe though that they will not be of great impact.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2034	I believe Universal from their other projects already knows how to keep disruption to a minimum and will respect the locals during construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1618	I don't live or work in the area so won't effect me. If I did I would just cope with it at the end of the construction it would be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
859	I don't live locally, but we are used to development in this country, and it will be worth it in the end.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
288	I feel all good things come at a cost and a mild disruption would not be an issue in respect of what we will gain with you coming to Bedford	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4005	I feel that present access to the site is good and disruption to the local community would be minimal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3603	I have lived near major construction in the past and usually there is no issues, loud work isn't usually done at night time so issues don't arrive as much as you'd think	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2584	I have no concerns, the site is isolated enough that I think impact would be minimal	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4570	I'm sure you'll manage it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4283	I live in central Bedford. I'd favour building dedicated access for construction, but otherwise I don't think this would be too disruptive as there are very few locals	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1056	I think (and hope) that the local community accept that you need to break a few eggs to make an omelette. I am sure that due consideration will be taken in your construction practices and the economic benefits will far	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1669	I think that any disruption would be a small price to pay for such a fantastic project such as this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
872	I think the site is remote enough to avoid any major disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2340	I think you will have this covered, you have built so many incredible places.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3096	I trust that considerations for such matters has been integral to the planning.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1082	I worry about roads/traffic, it's worth it for what the park will bring here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

764	I think the area would be a good place for any construction as the roads that lead to it are all pretty quiet so traffic wouldn't really be affected. Furthermore, the abandoned brick factory while having historical importance, serves no functional purpose as it isn't even open to the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3342	I'm certain you have plenty of experience in this respect and would do all you possibly could to minimise the disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2522	I'm not local. I trust that Universal will look after anyone negatively impacted / inconvenienced by this project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4564	I'm pretty confident universal knows what they are doing and have all this figured out. People are willing to wait and put up with disruption for the end goal and project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4101	I'm sure there will be NIMBYs (Not In My Back Yard) but as long as the development is sensibly done and sufficient attention is made to minimise local impacts I have no objections.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
747	If I lived locally I wouldn't mind wherever you need to do to make this happen	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1413	If it goes as quickly as epic universe then there will not be a lot of disruption for long	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4215	I think with Universals history of being respectful and understanding regarding the impact this will have creating the best park in the UK and world local residents will always be considered at all stages by Universal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3365	If it takes longer to deliver a project that is less disruptive to local communities, then go ahead, as you want your locals to be happy	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2674	If you don't build here, someone else will, probably a lot smaller builds and dragging on for a lot longer! But you will care about the community and do all you can to help	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
556	If you don't build on the land someone will build there. Locals are never happy with change don't let them scare you off..	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4745	If you look at some of the big infrastructure projects in the UK look at the mistakes made there look at what Universal can do different. Look to support the local community. Look at how roads in and out work at	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4586	It may be disruptive but I am sure it will not as long to build the resort & new roads etc as it took to build the bypass. For the benefits and opportunities this could bring to the area it would be worth the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2181	the UK (alton towers), is under constant scrutiny from the local council and is constantly barrated over the height of the rides, the amount of noise and the footfall. As such measures are put into place That hold them back and it's a crying shame. They have to dig deeper to build bigger rides limiting expansion and evolution in the future as now you have a big hole in the ground specially built for 1 specific roller-coaster. Noise levels are scrutinised and therefore certain sound based theming has to be removed taking away from the thrills. As I said do your best	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1251	It would be necessary to provide something that would bring so many positives once finished.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
719	It's part and parcel of living in the UK. Cannot go anywhere without sitting in roadworks. It's just a case of mitigating as much as is practicable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3624	La Sagrada Familia in Barcelona Spain is one of the worlds most visited Building Sites. Universal Should make visiting the construction site part of the experience. Bicycle Tours should be run so the public & local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4401	Looking at your plans I feel the disruption would all be reasonable to myself as a local resident.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4347	Of course it will be disruptive in the short term, but 'no pain, no gain' as they say! The area is already facing major developments with the East West railway and the current remodelling of the Black cat roundabout on the A1, so finding a way round is a local life skill. I would just ask that you	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4380	development process regarding the new Epic Universe park in Orlando particularly in construction and how this could potentially be replicated. Of course with any type of construction comes a level of disruption however I am extremely impressed with the level of detail and quality that you are putting into that project and the speed in which naturally minimises impact therefore have no immediate concerns with your project at this point. I think the proposal is open and transparent from the outset to the local community and hopefully a bigger community partnership can form	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4601	that this will bring, and continue to bring when they no longer live here or are dead and gone. Short term disruption for much longer term gains for everyone. Just please make sure any temporary traffic lights aren't adjustable by the public so that all lights stay red - we've had this on several occasions at several different sites lately.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
840	The local community will predominantly be the new build site - they'll be fine i'm sure.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1436	Only that the land would have something built on it anyway, so no matter what it is there will be construction work happening so to have something very exciting at the end of the construction has to be plus.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1293	Only that Universal apply their usual skills and considerable experience in the development & management of the UK project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4861	Universal have considerable previous experience of developing similar projects throughout the world and will certainly aim to minimise disruption and reassure local communities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2841	Universal have the experience and knowledge how to deal with these issues. I have full confidence in them to carryout the infrastructure with due diligence.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4303	We are used to it in this country!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4497	Very local people will always be upset by construction and change but hopefully the long term benefits will outweigh the short term disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4351	We must be patient as a community while this takes place. It is all for a good end result.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2428	When centre parks was built in Woburn, the construction was handled very sensitively with little local impact	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4391	To make things happen	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3324	Some disruption is an inevitability. I see the advantages far outweigh any temporary negatives.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1932	Some disruption is inevitable but I'd like to avoid the closure of any main road arteries.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
363	Something that is inevitable with the scale of this construction! A small price to pay for such wonderful opportunities for Bedfordshire! Most people will accept this and make interim plans to leave earlier and I'm	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2365	The immediate area has been so developed in the last few years, with warehouses and bypasses and housing, incinerators - I don't think anyone could say that your application could affect them!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2230	The brickworks must have been more disruptive	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2187	The construction phase needs to learn from past large scale UK infrastructure projects and to inherit good practice from them, learning from projects such as HS2 a project that by itself has impacted communities both large and small across the country, will help combat	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4627	Really doesn't bother me as it will be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2683	Restrictions on further developments on green land outside the park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2989	This should be addressed once the greenlight for the project is activated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3033	This will undoubtedly impact my commute for a period of time but the lasting benefits will be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4752	There's always construction in the Surrey, London, and Kent counties in England, so I doubt this would be as disruptive as thought.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1493	There will always be a period of disruption and adjustment but the outcome at the end is worth it. Everyone will benefit.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2314	There isn't anything you can do as you've chose a site so close to a busy overpopulated town.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3136	This area has had considerable major construction over the last 50 years so I have no undue concerns.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
185	This area has received major construction in recent years and therefore the local community should be able to cope with the development. Obviously the upgrade of the road system at an early stage would benefit	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1701	This country has been plagued by construction work on our roads for decades and don't even mention the HS2 project! I feel that as you are a well respected and highly regarded business, the disruption that would be caused would be more than manageable to cope with, as you can't do	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4646	This is not a problem for majority of local people due to the ultimate benefit of the project at the end.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3507	This is part and parcel of something of this scale and is expected. I think offering incentives to locals such as complimentary tickets would ease this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2432	This is England, road disruptions are the norm... but making it not disruptive will go the long way for the locals to be sold on it especially with locals training and staffing of the site for when you go live will make	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2173	There had to be disruptive construction to build the area in the first place. You can't bake a cake without breaking eggs, but if it delivers on the proposals the local area will be rewarded.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4206	There can be no disruption no matter what with a project this size, and anything would unsettle local communities. Kempston Hardwick is a 15th century hamlet.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3576	The UK is use to roads works and poor infrastructure so you can only make it better.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3647	The site is an empty part of the county with minimal population - who will benefit in the long run.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1006	The site that has been purchased is very large and sits outside of the main town. Disruption in my opinion I think would be minimal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
332	The quicker the construction, the less disruption, and the sooner the park can be opened! So let's crack on with it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6038	Any development would cause disruption - whether that be by yourselves or a housing developer - but ultimately it's short term pain for a lifetime of gains	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5746	Any major construction will create a certain amount of upheaval in the local area. This is to be expected. People will have to realise that this will be for only a limited period. They should look to the future, before putting	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5583	Any project causes disruption during the construction phase, however if it is well managed then they will be quickly forgotten and the longer term benefits will significantly outweigh these.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5838	Can't make an omelette without cracking eggs	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6076	None, any disruption will be worthwhile in the long run	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5843	None, I am confident you will work closely with the local authority on this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5642	None, you do what you have to do to get this get off the ground, I'm excited!!	We appreciate that major construction can be disruptive or unsettling for local communities. 5744	Avoid materials sources creating and becoming an environmental problem. Adequate investment in water supply and of waste disposal of	Please share any further feedback you have at this stage.
5989	Disruption is inevitable - "You can't make an omelette without breaking eggs"! I give my trust to the managers of this project that disruption will be kept to an absolute minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5926	I am fortunate to be some distance away - 30 minutes - but understand that improvements take time and effort and do cause disruption so, even if I was on the route, would be understanding that you can't make an	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5652	I am sure you are thinking of the local infrastructure and from the plans you have released so far a lot of work has already been done - and I am sure if the UK Government are also wanting to green light this project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6001	If you can build this at the speed you are building epic universe, there will be no issues. If it drags on for years, then people in the UK are liable to complain. Have a plan. Commit and build. Succeed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6090	This is temporary and as long as done sensitively would be worth the impact	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5756	Major projects may have disruptions and this should be understandable, as long as you are playing your part we have an amazing future for Bedford to look forward to then	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5802	People will always moan whatever you do but you have to go through some disruption in order to get the good.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6106	The scheme seems to take this into consideration	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6117	Not really - as long as there is minimal disruption!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6172	I think the point you have made on how you guys are going to build this will really work well.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
110	Disruption for a few years is no issue at all, for the long term benefit for the local area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
141	No, a minor disruption is nothing compared to what Bedford will gain in the long run	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2061	No. Any disruption would be worth having this on your doorstep!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4875	None- short term pain for long term gain!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1995	None. It would be hugely beneficial in the long run	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3064	None. The creation of this facility has benefits which outweigh possible disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2344	None. You can't make an omelette without breaking eggs	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2838	Whatever the cost it will be worth it!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
558	build as quick as you can	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
573	Build build build	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2601	Build it as quickly as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2390	Build it quick ! The sooner the better . This would be such a great advantage to the uk as it would attract people from all over Europe. I have no concerns about universal building a park here they know what	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3802	Build it quickly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1490	The long term benefits of having a major theme park in the UK far out weight any short term disruptions.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2497	No, short term pain for long term gain	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3124	No, we need the development	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4082	No, there is no gain without pain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4350	No, for sure there would be disruption but hopefully people will see the longer term benefits and accept the upheaval well.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2348	No, sometimes things have to be uncomfortable and awkward for a while to create magic. It's a sacrifice I would be willing to support	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4460	No, it would be a short term hinderance for long term gain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2349	No, I'm sure you will do a great job	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2498	No, i'm sure you'd be respectful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3714	No, it will only be short term for long term gain	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4138	I'm sure you have it in hand	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
776	I'm sure you have thought of most things	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3855	It is the price you have to pay for progress!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1762	It is worth it for the park 100%	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3696	It's worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3697	It's worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1284	It's a means to an end. For something of a project this size and what it would bring would be worth any disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4593	No concern about this as this will be a short term issue which will bring the long term benefits	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

274	No concerns - whatever disruption will be paid back greatly once the theme park is in operation	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1744	No! Get it built	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4800	to be honest no, given the location to be honest I cant see it being to disruptive. good luck and I really hope it goes ahead.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2495	With any new development there is always some disruption, but the end result will make it worthwhile	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
316	N/A Any disruption will be well worth it in the long run.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3858	No - definitely proceed!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4906	No - the benefits that this will drive are worth the disruption. Please just work with the council to ensure that road works in other local areas are done in conjunction with the project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2684	No , the longer term benefit is the key here	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3005	No .this is a good thing that you are considering and as usual you would be careful about any kind of disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2556	No :) It'd be great to hear the noise of this being built, a space not used for years finally utilised!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1930	No as it wouldn't be forever and the end result is more than worth it in my opinion	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1009	No because I think Universal will have this covered and have huge resources. The land being built on is currently going to be developed and I think a theme park is preferable to tons of houses being built,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
579	no because it wouldnt last for ever and ultimately improve the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3672	no build it please	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1156	no i am sure will be realy goog for the town	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4882	No I can only see benefits for the local area, please proceed with the project!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1686	No get the roadworks up and get the theme park built	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
223	No I do not. Any form of large scale construction would bring an element of disruption to the area, ultimately ending in bland warehouse storage. Universal will bring another level of excitement and wealth to the area. I would happily live with some construction traffic in the area knowing it is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

1305	No I think it can only get better	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4703	No it is something that needs to be done to get long term gain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2500	No just build it !!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
948	No other than simply to progress as quickly as possible thereby minimising the length of any disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3414	No pain no gain! There will always be those who object to progress. Any large project causes local disruption and we all get over it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1817	No, construction creates incredible things.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1412	No, do what it takes to make it happen as soon as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2941	No, I accept that in order to progress change there will be compromise and some disruption but that's life! It'll only lead to improvement longer term anyway so I'm all for it!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3559	no, I didn't mind disruption if you're building something I like...	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2598	No. Build the park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3809	No. There are always issues but the longterm benefits will outweigh any short term inconveniences.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
716	No. Who cares if there is some disruptions, the longer terms benefits outweigh this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4429	None - just please get it built.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3457	None at all. Please go ahead and get it started.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1158	nope i am 100% confident that Universal will do a great job in looking after every part iof the contruction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1774	Nope just build the park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4795	Nope just build the resort	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2417	Nope. The end goal would be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2729	Nope, just happy for works to go ahead for the Theme park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3570	Not at this stage, apart from let's get this started sooner rather than later	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2158	Not really, you can't make an omelette without breaking eggs at the end of the day.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2741	Not really, you guys know what you're doing there	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2392	Not really, you have to expect some disruption for such a project. The benefits out way a bit of traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2285	Not really because of course everyone hates traffic but when you look in the long run of what we would be getting I personally wouldn't mind it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4147	Not really. Construction and its associated disruptions are necessary for progress.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3214	Not really. I think a bit of annoyance worth it for the end result.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4948	Not really. It's going to be a massive pain for months, but the long-term benefits will surely outweigh the short term difficulties.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3386	Not really. There will always be those who will be against the building work and the idea as a whole, it I would like to think that with the benefits this will bring, they will be the minority. The location is perfect in what is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4951	Nothing to raise as in the end will be worth it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4393	No, I think it will be fine.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1483	No, trust you will do it appropriately	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4015	No, trust you will do it appropriately	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1738	No, universal are a fantastic company and put people and the community first so I'd trust them to do this here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
749	No. I will assume that the construction would be well planned to minimize disruption to locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2161	No. I have been following the construction of Epic Universe and have seen how quickly and efficiently Universal have been with it. As long as there is respect for the local community during construction, I'm sure this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4860	No. I'm sure people be prepared to put up with disruption to support this fantastic project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5388	Build as quick as epic universe	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5346	Build it as quick as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5216	do it quickly and short pain massive gain	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5236	I believe in short term pain for long term gain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5289	I will take all disruptive travel delays etc to know we are getting a universal park	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5222	It's worth it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4994	It's worth it for the end goal!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5435	Prepared to suffer at least moderate disruption to permit the building and subsequent activation of the proposal. Add the cruising ring that completion of the B&MK Waterway would create and I would put up with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4993	Progress comes with disruption! Ignore the moaners!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5376	The benefits will surely outweigh the disruption, it's for the Bedford area to decide. An opportunity is in there grasp	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5172	The disruption would be worth the final outcome and I am sure many others residents would share the same view	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5354	The place where the park would be built is absolutely perfect for building. Everything is in place nearby and you could shave up to 6 months off your building time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5064	There is disruption everyday anyway in folks lives - please go for it as it's an amazing opportunity for Bedford	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5060	What has to be done has to be done	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5345	While I am close to the planned location, I am not close enough that any disruptions would directly impact me, so I have no particular concerns to bring up.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5293	Whilst on a different scale for a few years, countless uk communities have to deal with construction. Where I live we have had thousands of new houses built with huge warehouses all on green field sites. It's organic growth which is required with a growing population. Care is new	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5048	Would it affect everyone who travels?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4986	years through investment. With that investment came huge growth in terms of business hubs, situating themselves on the outskirts of the town, taking advantage of the superb transport links, certainly the road network. Construction is a byproduct of progress the long term benefits always outweigh the short term discomfort, as had been proved with the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
890	A few years or minor disruption in return for years and years of enjoyment the park will bring to people from the UK and all over the world. I think people can put up with that.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4471	Any disruption will be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
791	Any disruption would be generally tolerated very well, in the knowledge that upon completion, we would have a major boost to the area, economy and infrastructure.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3949	Any disruption would be well worth the end result.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
397	Any disruption would be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3592	Any disruptions would be worthwhile in the long term	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3335	Any large project causes some disruption. It would seem to me that it would be worth it in this case.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
419	Any major project causes some disruption but overall the work would be worth it for the overall community and country.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1048	short term disruption for the greater outcome is worth it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4693	Short term inconvenience for long term gain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4022	Short term pain but massive long term gain	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3566	Short term pain for long term gain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
250	Short term pain for the long term gain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1318	Short-term disruption or mild inconvenience, does not outweigh the economic impacts of the whole region and country. Therefore, this should never be a barrier to progress.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3247	Will all be worth it in the long run	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3198	Will have to just get on with it and know that in the end all will be worth it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4794	Completely understand but it'll be a small inconvenience for such a large reward so do want you need to do.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4093	I really don't care, it will be worth it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1397	I think that the short term disruption will be worth it for the long term benefits to the local economy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
715	You don't see to be that close to a lot of populated areas so I'm not concerned. Any disruption would be minimal compared to the huge prosperity it brings longer term. I would encourage anyone worried to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3845	Every local resident who cares for the future of their own kith and kin, should not be having any objection. Little adjustment temporarily will bring loads of good for the next generation and respectable town like	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
915	Every good thing has its difficulties at start ,but the benefit would be outrageous	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
744	It is my opinion that whatever short-term disturbances will be negated by long term opportunity	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
860	It will be worth it for the result	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3947	It will be worth the wait, as long as we don't have to wait for too long!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1610	It will bring a lot of growth to the community. And on the map.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4960	I am sure that Bedford will recognise the huge benefits which are worth the effort involved.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3057	I fully support the development. Proximity of the site to road & rail infrastructure should mitigate disruption in an area historically used for heavy industry round the clock	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1129	I have been to several Universal parks and have full faith that everything Universal does will be of benefit to the local community. Some disruption is expected but it is worth it for the massive massive reward	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2386	would be heavily impacted by construction works. However, I am more than happy to support any disruption you bring to the area because the rewards and benefits that we will see in the long run once the site has been built will be worth the construction period! So I am more than happy for their to be disruption within the local area in order to make this happen	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
950	I think any disruption will be greatly outweighed by the benefits a Universal theme park would bring to the UK. It will be totally worth it!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
276	I think the short term disruption would be worth it for the improvements and investments the project would bring long term	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
411	I think that the park and resort is a far better choice for the land than warehouses/industrial site therefore I am not concerned at all about construction disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2464	I would be happy to accept any disruption as the end result will be more than worth it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1221	I'm sure everyone will be welcoming and supportive, as the bigger picture is creating opportunities for many.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2131	If the disruption is kept to a minimum and ultimately the overall infrastructure is improved then this should be good for the area and the UK in the long term.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2145	In most communities you will always get pushback from some grumpy people but the majority of the UK would be silly to object this park as it benefits the whole UK economy a great deal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2192	In my view any disruption from construction is short term and the positives of this project far outweigh the short term impact.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3048	In order to improve the local area some form of construction will be needed, this is unavoidable and I believe the investment proposed by this project far outweighs any disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1756	It's worth the disruption for the long term gain for the community and benefits this project brings.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4898	Make it as amazing as a USA theme and you'll have a the best park in Europe.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
826	Me and my family are very excited for this so those don't concern us.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1341	Please go ahead	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3623	The economic benefits outweigh any disruption from construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4447	Just to not do too much at one time. If you have to close roads, close one at a time at different times - not all together	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1175	Just one maybe a regular start and finish time for the development by which i mean start no earlier than say 0700hr and end by say 2000hrs	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2437	Give a time frame for the works and stick to it. The uk has a terrible reputation of not getting works completed on time and prolonging disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
626	Get it built as quickly as possible to reduce the need for drawn out works.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1809	Get it done as fast as possible! haha	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2833	get it done as quick as you can with little road disturbance	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3727	Get it done in the least amount of time possible to minimise frustration and kill off my impatience as 2030 is too long to wait!!!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4050	Ensuring the construction hours are respectful for local families with young children	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3660	Ensuring hours are agreed for construction that minimises impact on individuals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3368	disruption that major construction projects can bring to local communities. It is crucial that steps are taken to mitigate these disruptions and ensure that the project benefits outweigh any inconveniences. One key factor in minimizing disruption is the responsibility and professionalism of the workers involved in the construction process. Their qualifications, dedication to their work, and punctuality are paramount in ensuring that the project proceeds smoothly and with minimal disruption to the surrounding area. Additionally, the organization of the work process is essential in maintaining efficiency and minimizing disruptions. Proper planning and coordination of activities, along with clear communication channels between all parties involved, can help streamline the construction process and reduce potential disruptions. Collaboration with the local council is also critical in addressing any concerns or issues that may arise during the construction phase. Working closely with local authorities can ensure that construction activities adhere to regulations and guidelines, minimizing the impact on the community. Furthermore, it is essential to consider the opinions and concerns of the residents in the affected area. Their input can provide valuable insights into potential areas of concern and help tailor construction plans to address specific needs and preferences. In	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
454	Forward thinking needs to be done so to minimise any disruption so well planned work and timings	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1149	I think construction should be day time and avoid evenings.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1183	How about working around the school hours Monday to Friday	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3956	Hours of operation, light pollution during winter months, impact of heavy vehicles on existing infrastructure. Would be great to see rail being utilised for delivery of raw materials to minimise road usage during	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1754	Maybe consider 24hr construction in areas that will have minimal impact to residents or access roads.	Please share any other feedback you have at this stage.	

4244	I assume there may be an increase of traffic or travel delays during the building process of the park. I understand this would be inevitable to some degree but I suppose the length of time it may take could have	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
386	I don't live close by but good planning, speed of completion and timing of noisiest periods are probably key for locals, with good communication and plenty notice.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4389	I don't have any major concerns on this point at this time, as long as traffic management is designed to minimise disruption during peak daily travel times (school runs and rush hour)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1164	I don't live locally but clear timetables on works and keeping the local community engaged has to be a major priority.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2012	Timing of traffic, trucks on the road early or after rush hour (and school drop off time) would minimise disruption.	Please share any other feedback you have at this stage.	
2590	we have had a lot of roadwork and construction work taking place overnight for the past year or just over and it has not caused any significant disruptions or inconvenience speaking as someone that lives very locally to the work that has been carried out and also close to where the construction for the park would be based. I feel that focusing on times that would have less impact on the roads would be helpful such as the bulk of the construction work taking place between perhaps 09:30am-16:00pm and then resuming overnight from 20:00pm-06:00am for work that can be completed overnights and then being more flexible on these	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2520	I guess noise pollution and increased construction traffic. I'd appreciate efforts made to minimise these and obviously respect it is a predominantly residential setting so late night construction work noise wouldn't be appreciated long term. Also being upfront and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1985	I think as long as there is transparency towards milestones, a clear timeline of when they are expected, achieved and when delayed then that will go a long way. If anything can be proactively done to alleviate	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3657	I think it would be imperative to inforce the American way. The British systems are often slow, outdated and poor quality. Road construction often takes months in UK with poor standards whereas a visit to Orlando pre Covid had us mesmerised by the magical transformation over	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4290	I think just be considerate of late night timings, but other than that I think it's gonna be a benefit for everyone once the project is finished	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1857	I think prioritising certain sections of work outside of peak hours is important. Also ensuring that all HSE regulations are followed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2456	I think the best would be to reroute traffic differently or carry on the most of the works (where possible) during the night to create less disruption to the communities who live and work here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2252	I would say transport large over sized items at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2607	If the work starts at a decent time and finishes at a decent time I can see no complaints	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3013	If roads are to be improved, make sure these improvements are done during off-peak times e.g. after 9pm and before 6am or on Sundays.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4516	I would avoid using village roads where you can, maybe use rail to get large items in too - this could work for large items of track for any large scale attractions too. Working during the night could work too, such as what has been done at Epic Universe already in Orlando - where ride	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3584	would also say using less used roads instead of occupying major roads and additionally keeping noise and construction limited to daytime not only to minimise disruption for the locals but also for the local wildlife as well. In order to carry this out most effectively I do think it would be useful to consult with the local wildlife charities such as the national trust and the woodland trust to help with feedback and advice especially on the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2917	I would suggest offering realistic and achievable timelines, in order to set appropriate expectations to both local people and those living nationally.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4765	Ideally construction would take place during week days with cut off times in the evening for the works that cause the most disturbance.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1889	If construction work can be carried out At the least disruptive times this could Lessen the peak time traffic noise and pollution that may result.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4384	If possible to attempt to minimise local traffic disruption with construction works to avoid rush hour times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4422	If road closures are needed keep them overnight If works are needed to be done near a school keep them on the weekends	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3974	If there is any planned road construction it should be scheduled during the school breaks when the roads are considerably quieter to not affect those that have to travel for work/school	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4505	If work is done at normal times I.e 9-5 during the week I don't think impact would be significant concerning I'm already living on a building site with large scale building work within 200m.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
382	I'm not a local resident so cannot say anything regarding disruption caused by the location of the project. However, providing nearby residents with rough timescales for when construction noise and disruption may occur could go a long way to prevent complaints, and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1035	Impact on local residents at peak times of the day. Impact to schools in area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
440	Improve infrastructure first. During construction avoid deliveries during peak traffic times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4863	In general, any roadways construction can take a considerable amount of time and cause lots of disruption. So a well thought out and timely plan for any of these developments would be optimal	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4311	Innovation in terms of using rail as much as possible given the site location. Making sure local villages are not used as rat runs. Coordination of peak traffic flows to avoid rush hours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3498	Just ensure your vehicles are on the roads between 9am and 2.30pm or after 5pm so not to increase the amount of traffic time to local commuters.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4375	Just ensuring as much of the disruptive works happen in parallel ... nothing worse than major disruption coming to and end, just to begin again (see the ongoing M1 works!)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
899	Just ensure the workforce can complete asap and not leave roads coned off for months with no sign of any work taking place	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2764	Just consideration to ensuring construction traffic doesn't go through the local villages, I don't image it would have to as there are good main roads to give access to the proposed site. To ensure works are limited to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4036	It won't affect me where I live but I would say consider the noise and working hours and days and the impact on family life.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4226	It would be a short term problem to a much longer gain night closure seems to be the best solution as this seems to have worked with the sound barrier improvements on the stretch of the 421 where the new	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2905	Just be cognisant of the times you start and finish day to day, and ensure road transport disruptions are kept to a minimum. Quite frankly looking at the bigger picture, I wouldn't be too fussed with the disruption!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4088	Just be mindful of people that work from home, school opening and closing times to aid traffic congestion	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1994	Just be mindful between 7 and 9.40 aam and 4 to 6pm as my 1 hour commute from rushden to Luton is already horrendous although a greater bypass on the a6 would be excellent	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4129	Large construction traffic to avoid using villages as a cut through. Working hours- not late at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1275	Limit construction traffic to off peak times , ie don't be taking deliveries and moving stuff around during rush hour	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2588	Limit delivery traffic to outside peak hours. Ensure noise pollution is avoided during night time. Keep people updated when major disruptions are due to occur.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1322	It probably won't affect me as I live in the centre of Bedford town - but I can only add that night work is / can be really upsetting and can make one feel less helpful the following morning. Wish the contractors luck.	Please share any other feedback you have at this stage.
2629	Make sure there is clear communication and timelines set are achievable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4484	Maybe deliveries to avoid school run times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2732	Minimise noise impact to day time hours on weekdays only, if possible. Where possible, minimise the impact of traffic disruptions and road / lane closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1183	Do it in phases	Please share any other feedback you have at this stage.
554	Make sure workers are working in large numbers to get the project done quickly and minimise the congestion In the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1457	Make sure you keep people informed about what and when disruptions will happen. Be honest about timescales	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2691	Manage the road construction to minimise disruption to local commuting and travel	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
848	Manage traffic flows	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4344	Management of construction traffic Inc routes used and onsite storage. Use of local companies and workforce during construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3444	Managing the inevitable traffic that will be increased as a result of the construction and improving the flow of cars around this area so that road traffic doesn't become horrendous.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1757	Maybe have deliveries for site after 9am and before 3pm.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2488	Maybe start building after a certain time in the morning.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1179	Maybe that construction is limited to daytime hours with reduced hours at the weekend - maybe not Sunday ?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3744	Maybe use multiple modes of transport and arrange for the big deliveries over night when the roads and rails are very quiet anyway.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1181	Minimise working at night. Keep the roads open.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3004	Minimising noise disruption, e.g. avoid weekend working and avoid the 'beep beep' warning devices on vehicles (use white-noise warning devices instead).	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
728	Work should ideally be carried out only during the day (unless there is a reason to work during the evening)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
637	Out of hours road closures and slow vehicles restricted hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2538	to minimise impact on traffic flows and disruption. Good continuous advance communication of any major works. Create integrated transport hub at Bedford Park and Ride to link with Wixams station. Provide frequent direct bus links to new theme park from Bedford and surrounding areas to minimise increases in traffic and maximise benefits	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
234	Overnight construction where possible not done at the same time as other roadworks. Provide direct route from M1 and A421 into Universal to minimise impact on other traffic and utilise park and ride from Elstow and Wixhams to provide bus connections directly linked to existing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
371	Once you start the work complete it as quickly as you can to minimise disruption - there are many roadworks when there's not much going on for weeks and weeks.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3701	One thing that seems to work is constructing quickly throughout the day and not building at night. This means that the works do not bother residents for extended periods of time and also means the don't have to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1432	Only construction material delivery times should be limited to social hours if going past residential areas.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2888	only that large construction should (where possible) take place during daylight hours if near populated areas.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4288	Opportunity does come at a cost. I would ask that it would be good to minimise disruption in the commuter hours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3321	Organisation is key to minimising the impact to the local community. We saw the development of the new Center Parcs village which had minimal impact on the local community.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4962	When will it be finished	Please share any further feedback you have at this stage.
2805	Plan roadworks with local roadworks to help building extra unnecessary closures of roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
486	Plan works with a timetable we can view. Avoid Bank Holidays for large projects when people need to travel and enjoy the outdoors with minimum noise disruption. Bedfordshire is a rural county and people	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4959	Plan your traffic management well in advance, ensure no or minimal disruption to any existing utilities, invest in telecommunication/internet utilities locally	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3276	Please consider timings on road works and liaise with the different Councils in the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

535	corners. We have observed from afar how slowing infrastructure investment can inhibit expectations and result in underwhelming attendance - so please keep a fast pace without undercutting regulations and safety standards. We know autumn, to winter, to spring, can provide challenging conditions to work in, but please take this into consideration.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3871	Please try and do roadworks either in the evenings or during term time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2847	Use the a421 for all construction traffic. Dont start too early or work too late.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3512	When doing construction, choosing a part of the day where people are away from home - that being at work, visiting family etc and informing those around the residents around the area of this time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4340	What is the timescale for the works? Local people need to reconsidered in road closures and footpath changes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3397	We would like that raise that any diversion you do must maintain flow of traffic especially at peak time so there is no disruption especially regarding us getting to work on time. Maybe do major work at weekends	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4137	When you compare building in UK, say with Spain, Spain tend to build roads, provide lighting, paths then build the property	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3567	Time of day construction takes place. Cleaning of road from construction mud. Spray to reduce dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2513	Timed hours for construction site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3100	Timeframe for the project is significant If you decided to go ahead today how long will it take for the project to go live.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3867	Timing any changes of road layouts to overnight to reduce congestion.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3158	St Pancras International is p our London terminus and required years of careful reconstructive work.in preparation for 2012 Olympics Modern methods of assessing logistics and changes to road use etc will ensure it's a minimal disruption. I have every confidence it would be worth it in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3860	That the project is achieved in a timely manner and not extended regularly. If the project is started, it needs to be followed through with.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4456	That any major infrastructure disruption is well planned and different areas don't clash timewise. Not so long ago one of the main roads was out of action whilst the rail bridge was repaired, but also two other main	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
417	Structure roadworks and necessary temporary closures to cause least impact on local traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4616	Staggering deliveries and trucks leaving to avoid clogging up the roads at rush hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4154	Staggering disruption so that where possible no one community or group is negatively impacted for any lengthy duration at one time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2957	Stop traffic coming through the small Georgian town of Ampthill, already got high pollution and small roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4928	Strict route for construction avoiding rush hours. Talk to the local residents about what works for them.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
256	Strict working hours for quiet evenings	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3198	Looking forward to seeing progress if it happens. Be as quick as possible with the road works to minimise traffic jams etc.	Please share any other feedback you have at this stage.
690	Possibly have vehicles moving around at times when it's not as busy on the roads for local people	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3100	It is important that we know the timeframe for the project and that local organisations rather than large companies benefit from this project. The public need to know about the congestion and traffic impact of a project	Please share any further feedback you have at this stage.
863	Progress in phases	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1074	Reduced operations on half terms, national holidays etc. Not doing late night work. Putting alternative routes in place to reduce traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1206	to minimise traffic, have materials and equipment delivered at night when there's less traffic on the road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2940	To the extent that materials can be sourced locally (accepting that will be quite limited) I think it should be done. It would also be appreciated if you could try to schedule deliveries outside of rush hour traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3869	To not block the roads during peak times. Make any 'boarding' to hide the park either discreet or attractive.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4216	To look carefully at road closures during construction, and if needed, for closures to be done outside of rush hour. People in Bedford have had to put up with a lot of disruption these past few years and the railway work due is going to be really bad with bridge closures. For some reason work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1690	To get the main construction work finished as quickly and efficiently as possible. I would rather it be heavily disruptive for a short period of time rather than have major disruption drawn out over a long period of time. It would be better to rip the band-aid off so to speak, even if it meant heavy	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3905	Think about times of road closures	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1787	There would need to be enforceable restrictions in place to prevent construction traffic and construction employee traffic from accessing the site via local villages and minor roads. Strict limitations on time of day,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
608	There has already been works for noise reduction on the a421 that has irritated locals. Methods to reduce timelines and impact would be appreciated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3261	The UK planning around infrastructure is notoriously slow and frustrating. Prepare yourselves!!!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3070	The roads should be closed as needed rather than closing a large section at once.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2396	designed for large heavy good vehicles. However there is now a commercial park where Amazon is. Theirs and other vehicles come into Wootton over bridge and turn left into that area. You would gain the whole support of Wootton if the slip road you build could also be for HGVs going into that commercial park so they don't come into the village. The road from village could then be blocked off. Wootton would be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5814	Any major travel disruption be done at off peak times such as night time and school term time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5778	As long as service access roads were constructed initially to ensure construction traffic did not directly effect public roadways then I do not see it being an issue. With the development happening within the local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5559	By keeping the B530 a quiet road and minimising noisy machinery and keeping it between certain hours for shift workers.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5815	Carry out construction during the night where applicable. Deliveries maybe made out of rush hour.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5699	I do not live near so will not affect me. However, maybe strict working times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5935	noise too early in the morning or too late at night should be kept to minimum if possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5679	No night work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6046	Not work late at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5612	Open communication, respectful hours, meeting deadlines and environmental considerations	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5737	Construction traffic would be best advised to move at night when the A421 is not so busy. The dual carriage way would need expanding for the new park to enable locals to not be affected by park traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5811	Keep traffic flowing on the A6 and A421. Limit noise during hours of darkness for people in nearby villages. Please be aware of current traffic buildup at approx 8:00 a.m. and 5:00 p.m. between Luton and Bedford.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5957	Consider noise pollution, time frames, communication.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5690	Wixmas and surrounding villages in Bedford surrounding the planned development are new build or ever expanding villages currently. Wixmas in particular has had a newly built industrial estate still being completed. All residents ask is no anti social building work is carried out during the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5981	Limited working hours to keep noise pollution down during early hours & evening times Mon to Fri also weekends to keep HGV traffic off peak road times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5818	Construction workers should aim to work at night to avoid road blocks. However, noise levels would be the biggest hurdle to overcome.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5873	Stick to certain days/hours that are less disturbing for people, consider noise barriers, involve local people and the communities in the creation of the park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5595	Parking concerns, working hours, weekend work- noise pollution. I do not want to constantly see our roads full of machines and roads closed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5703	restricted working hours is the norm over here, the major issue is the transportation of materials in and of spoil and rubbish out. London has a strict code of vehicle washing which prevents the streets around being covered in mud something which isn't applied elsewhere as a trip around any construction site vicinity will show you. Possibly use of the EWR line with Electric locos, would have to be battery powered but that's viable, used regularly on London Underground. So that transfer onto another	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5521	Keeping locals informed and updated on traffic lights and other construction stages. Plus keeping working hours to daytime and minimizing night work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5972	I think its just common sense, not closing multiple roads and train lines at the same time. Stagger it. Minimalize the disruption to the local area, and keep the locals updated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5931	Consideration with the timings of the deliveries to avoid rushours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5864	Construction is always painful till it gets sorted. But shorter the period of construction better it would be.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5997	Heavy machinery and lorries using smaller roads, there is a need to keep speed to a minimum especially around housing areas and schools. Ensuring hours of work are monitored.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5830	Maybe large haulage loads coming through at night to reduce traffic disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5611	The work that may disruption local communities should be done at night time when possible. This will hopefully cause less disruption to the daily traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5711	Pre-planning, a great masterplan and a great programme of works. Many of our projects are carried out in busy public parks and they do remain open during our construction phase. With every project comes health and safety - risk assessments and method statements and traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5854	Everyone must realise that any building project has its drawbacks but these will be outweighed by the positives! The roads need to be thought about as Bedford has issues with traffic due to being on the river.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5727	Reasonable construction hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5496	Restricted construction hours and restricted hours for deliveries.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5665	Speed is everything. UK construction is notoriously slow-going. Minimise disruption by maximising productive construction hours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5730	Sensible working hours and enforcement of routes into the site as the majority of roads in the surrounding area are unsuitable for heavy construction vehicles.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5547	The most important is creating adequate laydown areas on site through the construction period so the local roads are not blocked and planning the lorry movements to avoid the busiest periods. Hours of on site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5993	Working during decent hours- not to early and not to late in irder to not disturb local people.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5883	Road works thought through fully (eg not lots all at once, done in correct order), no loud work on Sundays, road work overnight if possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5808	So the work is not done overnight	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5839	Minimise any disruption- work at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5628	Yes, work at night and keep the roads open in the day. Stewartby already has to contend with an incinerator and large lorries at the Green Lane entrance to the village- we don't want the other end to become more	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5705	alternative routes that are equivalent instead of long detours IF/WHEN road works are needed. Do road works at nights where possible. Give neighbours notice of any changes that might impact their routines. Liaise with Anglian Water, BT (OpenReach) and councils to avoid doing construction work that disrupts routines simultaneously and synchronise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
6073	Ensuring there is regular consolidation with the planning process and construction timelines so residents are aware of what to expect. Ensuring the road and other travel networks are in place before construction of the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5718	Thoughtful planning.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5603	Plenty of notice of disruption and realistic end dates which are not missed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5797	Provide certainty as soon as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5842	Realistic construction timeframes, advance and continued notification of diversions and closures to the entire Bedford population and not just those living closer to the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5504	Phased planning with local resident considerations	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5722	Overall very positive my only concern is project drags on if you go ahead due red tape and unforeseen issues, if it gets the nod then get it done quick as you can ! Finally please get Wixams station built , we only	Please share any other feedback you have at this stage
F6217	Strong need to minimise construction traffic, perhaps limit to night time only. Keep construction waste to an absolute minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6218	Develop in stages to minimise disruptions	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6158	Work 24/7 to complete construction ASAP but keep deliveries to usual hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6157	Don't build at same time as 5000 houses at Marston / Lidlington	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6150	Weekend construction work is particularly disruptive to the local community	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4346	How visitors per day by car, bus, or train? How long will development take? How tall will the development be? We don't want to see any trace	Please share any other feedback you have at this stage.

F6123	Sustainable approach to development, strict adherence to construction management plan.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2882	What are the specific development plans? If Universal decides the project is a 'go', when would the potential groundbreaking occur? How	Please share any other feedback you have at this stage	
3873	Good point, not sure. How long will construction take?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4379	Work 24/7 Get the work completed without delays	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3284	Work around the clock for anything disruptive to local commuters to minimise the length of disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3894	Work during the night due to the location not many residents locally	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
728	Work should ideally be carried out only during the day (unless there is a reason to work during the evening)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1886	Working at night or giving advanced warning of works	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2670	No building at weekends and evenings	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2457	No building works after a certain time. No road closures at peak times or rush hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3969	No I agree in certain times of the day between 8 or 9am onwards is acceptable	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3188	Not building/ having deliveries late at night would be nice.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
300	Not work late at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4985	Not to work too early or too late	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5260	Not work late at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4992	No late working if possible to help local residents, say after 8pm	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5192	No noisy construction works at the weekend or in the evenings	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3679	Not working overnight	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4756	just that it would be good if the local roads were not full of construction traffic during rush hour	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3984	Not sure if it would be possible but here in the UK if a major road is shut they sometimes do work on them between 6pm- 5am for example over a certain amount of nights so it avoids major disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2712	Minimal disruption during early periods	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4265	Please do not allow the farmland to grow fallow if it is going to be an extended period of time before construction begins. An overgrown site could look unsightly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5291	instead of having 1,000 construction workers working from 8am-6pm, can you have 2,000 working from 7am-10pm, or some other shift pattern? This country is useless when it comes to construction....just look at our motorways and see how long it takes to do work and then compare this with somewhere like China (or any other country!) It will also mean	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5434	Just that when you have an agreed Construction plan, that it is stuck to and not deviated from.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
390	Try to get the work completed rapidly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5173	spread out and phase the development of the infrastructure over the entire duration of this project, rather than doing them all at the same time and the very last minute, would hopefully reduce negative impact to the local area, and possible even provide some positive impact ahead of the park(s) and resort(s). Perhaps build the new Wixams station, and the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
154	No construction is always prolific in the UK and loud. It's not necessarily something we're not used to. I'd say just follow the usual routine that UK work site attain too. Such as mon - fri - 8am-6pm Sat - Sun - 10am-5pm.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4346	How visitors per day by car, bus, or train? How long will development take? How tall will the development be? We don't want to see any trace	Please share any other feedback you have at this stage.
TRAFFIC & ROAD DISRUPTION - GENERAL (259)		
ID	Comment	Question
1127	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1940	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2479	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3197	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4008	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
658	Disruptions during construction stage and later increase in traffic	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?

801	A little concerned about traffic as there is a lot of people who drive at peak times to get to their jobs (particularly in and out of Kempston + hospital is on that road). Where will all the construction workers live?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4899	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1041	Traffic and noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3516	Traffic and noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2620	Traffic and roads infrastructure	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2657	Traffic ans noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1015	Just traffic being the biggest issue.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4777	Just traffic on the roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
113	Traffic is already terrible in Bedford and if I wasn't planning on moving away this year I'd be very concerned that we don't have the road infrastructure in place	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1510	Bad Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4175	Traffic considerations	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
270	Traffic for commuters.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2040	Traffic going in and out of surrounding areas	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1782	Traffic impacts	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1508	Traffic in and out of Bedford can already be congested at rush hour.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
658	Disruptions during construction stage and later increase in traffic	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?	
138	Road disruption would be a concern	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
182	Minimise road disruption as much as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
148	Impact on local trunk roads and disruption to commuter traffic, which is already at breaking point.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

118	As long as there is alternative routes and early warnings to prepare the locals	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
107	The road in to Bedford is a busy commute from Amptill, so I would like to see any disruption mitigated in your plan	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4548	This is the biggest concern creating traffic in a rural area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
249	Noise and traffic disturbance should be kept to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4012	Wixams has a great deal of wildlife that must be protected. Many from wixams also drive into milton keynes for work this park could have many knock on effect in both work and home life during development	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1263	Woburn Road and Manor Road are critical links in the local area, care should be taken to minimise disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4417	Worried about heavy traffic using village and disruption on existing roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4383	Niose ,dust, traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2987	No, just be mindful of traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1749	Not living locally but i feel there could be traffic congestion during the construction phase that may impeded bedford and surrounding area home owners getting to work etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1823	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2733	Traffic, disruption to the local roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
725	Traffic would be a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1125	Traffic travelling into Stewartby on a daily basis as I work in the centre of the village.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5209	traffic impacts and noise are usually the factors that drive the greatest unhappiness during the construction of any development of any type, but I would assume you already are very aware of this. That you are fully prepared for providing ample on-site parking and addressing the road infrastructure up front looks to be a very good sign for me.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5411	area all my life. Most people including myself move to a quite village for the quietness and minimal disruption. The fear is the huge amount of work that would be undertaken would cause constant noise disruptions and massive traffic issues. Stewartby has 3 ways in, 2 of them being from the old a421 which is concerning as this is a major route that could be used by the park visitors. What efforts would be made to prevent traffic coming through the local villages and what would be put in place to prevent the inevitable traffic issues during peak times. My works unit is in Kempston which the park will be inbetween. This journey currently takes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5342	I think as long as there are enough measures in place to avoid traffic build up, noise consideration as best as possible and regular updates and communication for local residents, then the project should be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5133	Since the site is in the countryside down country roads passing through quaint villages, movement of site transport of thousands of large lorry trips, noise and dust could be reduced with correct planning and constant road cleaning and movement of lorries to be between 09:30 - 14:30 then	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5265	noise in evening (I am less than 100m away from site) traffic (Will I be able to get out of my driveway with a proposed entrance so close to my drive?)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1523	Traffic needs to be prioritised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5409	Minimise disruption to A421 when construction is happening, as this is such a busy route.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5175	Minimise road closures in a421 and improve j13 M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5436	Make sure big lorries do not go through Ampthill and other small villages. Deliveries happen at off peak times. Source as much locally as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5404	Massive improvement needs to be done to ensure the local roads and rails are able to withstand what will be a massive increase in use. Many roads are already suffering with poor funding and lack of improvement. Ensuring that the local hospital is considered as it will be the focal area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5448	Minimise road movements by bringing spoil out and materials in by rail or waterway - the site is unusually well positioned to take advantage of these transport modes. I'd like to see how close to Zero Carbon you can get this development both in construction (choosing materials and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4977	Minimising sound and light pollution for local residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5301	Minimize road disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5371	My biggest concern would be a somewhat selfish one. I am a truck driver for a living, on nightshift. Every day I need to get to and from the M1 from my base, in Bedford. It would soon make me dislike the project if my	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3008	Travel Management and Freight Plans are essential but equally so is laying on busses to minimise worker travel to site. Ensuring that freight does not enter the town centre between 7-10 am and 3:30-7:30pm is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5407	avoid the A421 if there's congestion, also need to think about the impact of additional journeys by employees on congestion (local staff bus pick ups maybe - amazon do this to ridgmont) also the impact of people visiting - need to have adequate transport from town to park - bus network to marston is limited so if people are unable to get to work because buses are full of park goers this isn't fair to the existing community. This would also help with the congestion in bedford which is already really bad at peak times. Disruption on the bypass will cause	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4518	Try and keep the traffic disruption to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1124	Try to avoid the closures of any main roads that will disrupt the commutes of local people. An works that will effect people's daily lives should be done overnight or in evenings	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4352	A lot of roads have been repetitively closed for works in recent times. Asking contractors and utilities to liaise to minimise this would reduce this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2472	As I live locally (Wootton) I would like my commute to work and school run to be minimised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
692	As long as disruptions to local travel is minimal I'd be completely fine with this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2450	As long as you spare a thought for the motorists travelling to and from work all should go well.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4362	Minimise road disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4895	Minimise road disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1304	blocking on disrupting the nearby roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3946	Causing as little disruption as possible to local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1025	Commuting by train and by car is hard as it is, reducing this disruption would be greatly appreciated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
866	A temporary construction wouldn't be a major issue it's the long-term overcrowding during school holidays, etc. For instance The roads around Legoland can be a nightmare	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3301	Access for residents required along the B roads as well as a roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4916	Access from Wootton to main road during construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2811	Additional traffic, small roads, noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1802	Any work that would have an impact on traffic on the major roads hopefully could be done around rush hour or during the night.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1259	It could bring economic benefits in the very long term, I doubt i will see any benefit in my lifetime, just worry about the current poor state of our roads, with so much construction traffic - how often will they need	Would you support a potential park and resort coming to this site? Please explain why.	
4546	Any works should be carried out as quickly as possible to minimise disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
372	Anything to reduce noise and not impact already busy roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3755	As mentioned above the intersection of elstow Road going toward the retail interchange park is already prone to back ups and the park is set to be built just past this point.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1151	As we are in Stewartby, outlet entrances are to be opened at all times in case of emergencies also for commuting.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2604	Be aware of just how much the traffic increases in school time	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3794	Be aware of large transport accessing villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2633	Be mindful of the amount of traffic coming in and around the village especially during peak travel hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4566	Be mindful of the nearby residents and be mindful of traffic in the area especially at peak times of the day.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
696	Bedford has a great offering of local suppliers and merchants who can assist in the construction. This would put issues at ease. Bedford has heavy traffic due to its Victorian roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4537	Bedford road is not built to handle the traffic such a large project will bring.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4801	Concerned about the traffic and noise during the build	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4605	Concerned for the already congested side of town.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1067	Concern about traffic for those working in the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2897	Concerns about traffic and increased travel times around area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2948	Concerns regarding local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4438	Consideration for major trunk routes in and out of the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1694	Congestion in and out of Stewartby. People parking in Stewartby and walking across to the park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2587	Disruption to local road and traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4821	Disruption to road transport, noise.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
961	Disruption to roads & causing traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4031	Currently getting to London it would take me an hour, I am worried with the heavy traffic it will be take me much longer and it won't be as easy to get to A to B locally either.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2459	Increased disruption on roads and public transport	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
686	Increased traffic could be a problem	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3192	Yes local roads are already congested	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
807	Yes, if building would take a couple of years the amount of trucks and lorries would increase transporting supplies. So in reality when building takes place is the start of the problems and wont end until the theme	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2306	Would be good to avoid long term road closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1984	Just the traffic around the local roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1927	Just to be aware of the impact on the local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4674	Please limit closures of roads and public rights of way to the minimum possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1598	Just to ensure road works are considerate is all I'd ask	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2228	Just keep the traffic flowing for people getting to work and emergency services	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3246	Just keep the traffic moving.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4325	Just mindful that roads bordering the site are important link roads between local communities and so should be kept accessible as much as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
203	Just mindful of traffic and pressured on emergency services	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
490	Ensuring existing roads and railways remain useable	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5039	Please remember that while in Bedford borough this site adjoins Central Bedfordshire and will have as much or even more there than in Bedford. The road construction will be very disruptive.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
884	Everyone hates traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4385	Excess traffic in the local area will be the biggest problem. UK infrastructure is not always the greatest and traffic builds up quickly.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3552	understand that they offered complimentary annual passes to immediate neighbours from my time working there, as a way to apologise for noise pollution. Traffic could also be an issue for residents too, however, most peak times to this theme park were during school holidays (July-August) Public transport upgrades would be essential for easing traffic in this area, but with good investment, this should be achievable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4259	Having just been involved with a major housing development near to me. It's been dire. Dust noise unconvinced will no regard to existing residents. These contractors went away. Your park will increase footfall, vehicle	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2744	How can you possibly minimise disruption? There is one road into Bedford from Luton and one road out!!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3101	How the traffic will be diverted away from Ampthill as it is a small single track at points village, and how the train lines (Thameslink) will handle in influx of new people	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
571	I hope it will not impact on the use of the Woburn/Bedford Road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1055	I just want to make sure there is minimal impact to local villages such as Ampthill and Flitwick as traffic congestion is bad as it is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4913	I keep reading about the impact to Stewartby and Kempston Hardwick but I believe Wootton will be impacted more because of access to the village is only via three ways, one of which is the double roundabout next	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1506	I see the roads being blocked in Ampthill and Flitwick. Especially Ampthill has a very narrow road which could not support more traffic. Hopefully the traffic does not go this way and prefers the motorway when coming	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
672	I think any upgrades to the rail networks almost regardless of the disruption is a good thing. Those local lines have been open and shut, running and not for a long time. I think the major disruption could be in the roads. The dual carriage way nearby is already busy at rush hour,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4622	I think ensuring that the local traffic isn't too impacted would be good by being near the bypass and already established dual carriageways this should help mitigate this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3355	I think sometimes you have to take the short term gain for long term pain. If I lived local my biggest priority would be minimising the impact to traffic in the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3893	If possible ensure traffic at peak times is kept flowing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3504	other nearby small towns and attractions that may experience a huge uptick in visitor traffic may need support too. For example, I live nearby in XX and the area already has significant traffic concerns and I worry that without wider infrastructure being looked at this could get worse. There are lots of other nearby small villages that I'm sure would feel the same.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
858	I would like you to ensure that current congestion areas are not made worse and especially that the amount of traffic on the local rural roads is not increased	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4503	I'd love to see traffic and congestion minimised as much as possible whilst construction takes place. It would also be nice to see a preview centre in the city of Bedford, similar to the Epic Universe development in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
205	I'm concerned about the massive increase in traffic and noise pollution. This was and is the case when Covanta Incinerator was built and is operating.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3452	Impact on the traffic that is already chaotic at this location, noise and light impact for the residential area around it. The park can impact in these areas becoming sleeping areas for the users that come for the park and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2826	In the short term I would imagine that the roads will be a nightmare to use with all the increased construction vehicles.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4663	It would not be possible to minimise disruption, as the local roads are very narrow and already extremely busy, adding lorries/excavators etc will cause chaos for local residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
420	Just a little concerned about the amount of traffic this would bring to our already very busy roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1530	Just be mindful about times that noisy work is carried out and not too cause to much time travel delays for the community.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4816	Keeping road traffic disruption to a minimum would be appreciated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3886	Keeping roads open	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2931	Keeping routes open and progressing work asap	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2636	Let local people know in plenty of time of potential disruption. Ensure that local transport routes are not heavily affected.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3690	Less traffic n not distracted shopping	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3436	make sure traffic in the area isnt made worse	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4301	Making efforts to ensure the continual free flow of traffic is essential.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1241	Most concerned about the impacts on the roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3996	My main concerns are the noise levels for my village (Wixams), During and after construction. I fear how a park so big, may negatively impact the current peaceful, atmosphere. I also fear how the traffic may affect	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2384	Minimise impact to school Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2517	My only worry would be the traffic due to deliveries and aggregates	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4376	My main concern with the project is that it would create traffic problems around Kempston and Bedford. We've had a lot of disruption with roadworks etc. and the traffic is not great as it is.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
576	Minimising disruption to the MK to Bedford train service and roads would be appreciated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1234	My concern here would be noise pollution when building, evidently it's going to take a few years to be built, with the noise and traffic impacts having affect on all local citizens	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
398	Minimise impact on traffic and commuting for locals, concern about impact on access to health are and price of restaurantes and activities for locals (may increase cost of living).	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1554	XX where I live is already busy with traffic and with more housing coming is going to get worse. Add this on top and I'm really concerned but believe if the roads are improved and bypasses are potentially looked at it could greatly improve the issues with traffic and large vehicles we	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4417	Worried about heavy traffic using village and disruption on existing roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3080	Worried about the amount of traffic or will bring	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
499	Worry about traffic and closed roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
262	Would be concerned about traffic gridlock if EWR is being built one end of town and universal at the other.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4651	Only that small access roads may be prone to pot holes and flooding	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
301	Only that we are very protective over our countryside and wildlife, so you need to be mindful of this. Also not to cause anymore traffic disruption than necessary	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
278	Only to ensure the condition of the roads doesn't deteriorate around the site due to the heavy construction traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3818	Ordering is important. Quite a few routes are single lanes which could be problematic with the increase in traffic for supplies / work force. Noise is a second.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4635	Perhaps increased traffic in this area at closing time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4631	Please be mindful of keeping local traffic moving as much as you can.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3788	Please don't affect the retail park, it is already heavily congested	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3602	Please unamused it as much as possible as I need to use the motorway to get to work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3945	Whilst under construction the roads that I have to use to travel to and from work would be congested and I would have to allow extra time to get to and from work. I love the rural setting and surrounding areas which is the main reason that I moved tout of Milton Keynes to this area 6	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4003	We are not looking forward to see increase of traffic distrupction, noise pollutions, and construction sites issues might effect locals daily life and it's all construction work negative effects on our Green Ridge, beautiful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3380	We already suffer from increased local traffic due to the amount of warehouse distribution centres in the area and we would need to make sure that local traffic would be affected as little as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3152	Whatever you can do to help minimise noise and traffic on local roads would be very welcome.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1152	What will you be doing to make sure there isn't a flux of motorists driving through the village and what are your plans to address the increase in noise pollution.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4723	Please route road traffic away from our usual bottlenecks at peak times. Also bear in mind that if there's an incident on the A421 bypass it has severe knock on effects throughout the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1932	Some disruption is inevitable but I'd like to avoid the closure of any main road arteries.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
462	Some concerns in regards to local roads and the traffic it may generate	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3260	Surrounding roads used to travel into / out of Bedford during rush hour. And at the weekends, the A6 / A421 might be impacted so minimising this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3892	The A roads near the site are key to my husband getting to work. Any major road closures would be a huge disruption to our lives. Please limit that where possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1605	The A1 between London and Bedford already struggles with rush hour traffic. I'm equally concerned about the impact and excited about the improvements the park would bring	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4279	The impact on traffic in and around Bedford.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
494	The increase in possible travel times etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3058	The flow of traffic in the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4613	The big trucks	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
416	The area has seen extensive house building in recent years, traffic can be problematic when there are huge vehicles travelling. Minimising construction traffic in peak times (particularly 7:30am to 9am) would	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4743	The junction from Green lane onto Woburn road is already a problem area and with increased construction traffic travelling along Woburn road this junction the need for a roundabout at this junction will increase.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3779	the construction phase as "temporary pain" in exchange for "long term gain". It wasn't that long ago when Bedfordians tolerated the construction of the A421 dual carriageway linking the M1 and A1. But it will be really important that the project does not create local traffic issues on that road on an ongoing basis once the park is open.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
865	The access to the site from Wootton will be extremely limited. If construction workers access the site from this side, it will cause an extreme level of congestion, noise and dirt (mud and dust from the lorries entering and leaving the site) that will have an extremely negative effect	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2215	Probably try to keep traffic low in nearby towns, as to not disrupt any day to day life	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3869	To not block the roads during peak times. Make any 'boarding' to hide the park either discreet or attractive.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4216	To look carefully at road closures during construction, and if needed, for closures to be done outside of rush hour. People in Bedford have had to put up with a lot of disruption these past few years and the railway work due is going to be really bad with bridge closures. For some reason work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3840	especially Wootton developments, including traffic congestion around the area, influx of people trying to park around the estates, noise pollution from increased traffic and also noise pollution from the park itself. Would be good to know more about how this will be avoided. This could also lower the prices of our homes, would people who have purchased houses in this area be fairly compensated for the disruption and loss of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2096	and traffic. With infrastructure disruptions, adjusting train lines/ adding stations and creating new major road links will be the largest disruption as this will affect commuters and the local people directly through diversion routes and or added journey times. As long as the local people can see a positive out weighing the negative, people will get by.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3003	There should be no disruption to an already disrupted road system network	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2541	major issue for everyone coming any where near by the trunk roads that bypass the area . As it stands when the M1/ A421 has any kind of closure we immediately feel the impact on our local roads as they divert and that's with out this several hundred additional cars . I also do not believe at all from your open day that the majority are going to arrive by train	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
530	There are a number of small country lanes in and around the site that would cause major disruption if there were to be closed or blocked for a period of time. I think as long as this is considered, there would be no	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4467	The turning out of Stewartby towards the site (Stewartby Way onto B530) can already be busy so may need consideration.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1349	The traffic situation around Bedford is notoriously bad at the moment. I am concerned about how this will be impacted by a theme park .	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2902	children to and from school) are already problematic. We are concerned about the impact on this situation as a result of both construction work and later visitor numbers. Secondly, as London commuters, we would not want to see any negative impact on rail services (either in terms of frequency or capacity) as a result of the construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3442	The roads around the area are already very busy and a lot of them are B roads. This WILL cause major disruption for a long time for communities around the proposed park. Not to mention the noise, mess and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6089	Traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5918	Traffic can already be a bit of a nightmare around there, so definitely focus on that.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5698	Traffic congestion	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5834	Traffic congestion particularly around the Bedford bypass.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5734	Traffic management on the A421 would be a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5820	Traffic management!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5948	Traffic on local roads and through villages to be minimal.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5494	Broadmead Road can't handle the traffic as it is let alone more construction traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5866	By pass widened and new junction. Don't impact on local traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5847	Increased traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5744	Keeping traffic to main roads only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6040	Noise of construction, road works and road closures.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5859	Not causing too much interference with local traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6013	Noise and large lorry traffic can be an issue.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5481	Noise and construction traffic at unsociable hours (especially commuter hours) could be avoided or minimised and any dirt from the site on local road network cleaned regularly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1214	Just don't the road from Luton Airport". With the park here	We appreciate that major construction can be disruptive or unsettling for local communities. 5789	Effects on traffic flow on A421 the Ampthill Road and A6	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5840	enjoy playing with my children in a peaceful garden/park. Not breathing in constant dust or dealing with noise and traffic issues. We have the right to live in the community we moved to. A theme park is not what I signed up for when the building company sold the dream of this development. It's heartbreaking that residents do not have a say in what their	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5488	At the moment it takes 5/10 minutes and this is handy if we need to go to our doctors surgery, schools or somewhere urgent. This will change significantly with volume of traffic coming to and from the east. There will be just as much traffic travelling from the East & the A1 as there will be from the West & the M1. We are small villages surrounding what could be huge. This project needs to work with the villages and sympathise with its people in terms of every day life. Infrastructure and the quality of it will need to be taken very seriously. Following Covanta, nearby, the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5984	Concerned about noise and light pollution and heavy traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5585	Concerns about destroying the village of Stewartby with all the heavy construction. Noise and light pollution a major issue from the potential construction of the theme park then all the pyrotechnics and light displays once opened. They quality of life for the local villagers would be greatly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5818	Construction workers should aim to work at night to avoid road blocks. However, noise levels would be the biggest hurdle to overcome.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5561	The number of construction lorries and vehicles on local roads could be a concern. The management noise levels particularly for those within the immediate vicinity of the site. Keeping local people regularly informed of the stages of development and what to expect would hopefully help.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5595	Parking concerns, working hours, weekend work- noise pollution. I do not want to constantly see our roads full of machines and roads closed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5565	Ensure traffic doesn't build up around Stewartby and block roads for local residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5997	Heavy machinery and lorries using smaller roads, there is a need to keep speed to a minimum especially around housing areas and schools. Ensuring hours of work are monitored.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5884	Making sure the roads / traffic aren't heavily impacted	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6030	Managing traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5653	Minimise traffic disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5729	Minimum disruption to local transport	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5658	Transport- concern over volume of traffic whilst building new roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5792	Road closures, far too many. Too much heavy traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5543	Road traffic, parking in Stewartby for local residents being taken up	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5520	Just traffic control around the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5742	Impact on local roads, traffic and congestion.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5788	Increase of traffic during construction - can alternative/ temporary routes be designed to minimise disruption for those who live nearby.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5825	Plans should be in place to avoid major traffic delays during construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5489	Yes so long the current road planning and routes remain with minimal diversions/road closures for local traffic then should be no issue.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5874	My main concern would be the traffic during any construction work, I live very closely to the main road and use this daily so would be conscious that I may be affected along with everyone else using this busy road.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5635	I work in construction, so I don't have any issues, Traffic management would be something to consider, delivery's ect,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5932	I live on the other side of Bedford, so not particularly familiar with the more local area. I am very aware if the impact a traffic incident or road closure can have right across the Borough. I think that would be my	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5628	Yes, work at night and keep the roads open in the day. Stewartby already has to contend with an incinerator and large lorries at the Green Lane entrance to the village- we don't want the other end to become more	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5889	Impact on existing road systems	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5620	Just to make sure people's current journey times not impacted too heavily	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5979	Keeping roads open as much as possible for local commuters to still get to work in the very local area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5882	Mainly the impact on local roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5946	My main concern is how access to Kimberley college will be affected during and after construction. We need the roads to work! Our students come from far and wide.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6060	Please don't do anything to the M25, it's had years of roadworks	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5554	Roads will become congested and far too busy. It will ruin the peace and quiet of our village.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5659	Roadworks and delays to commuting would be of concern while temporary.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6059	Roads locally can be congested already during rush hour times so care neds to be taken with planning,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6183	Noise and traffic needs to be considered	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6199	Noise during construction, disruption of traffic. Keeping public in the know 'as to the development of this project. Holding more of these feedback.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6219	As I live right next to the area I am concerned about dust, traffic, and noise. We already get a lot of that from the current factory and this would be worse.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6228	Vehibular movements. Noise.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6110	Bedfordshire has a significant problem with traffic & one way systems to look at roads surrounding to reduce this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

F6124	Construction traffic & avoid travelling through villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6133	Managing traffic particularly around Houghton Conquest	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6141	Local traffic is already poor	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6149	Traffic brought to M1 / A421 and other major local routes (both ways). Train prices inceasing for commuters. Busier trains. Inevitable parking permit costs for locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6155	The main roads into Stewartby struggle with the traffic we have now	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6156	local traffic is already a nightmare so I am concerned about this getting worse	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6165	Concerned about traffic through Houghton Conquest Village	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6173	local traffic flow, particularly A421 in peak times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6196	It would be unpopular not to disrupt traffic flow in too many directions & areas all at the same time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6211	M1 513 A421 conjunction. Construction traffic flowing through villages by mistake.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6217	Strong need to minimise construction traffic, perhaps limit to night time only. Keep construction waste to an absolute minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3584	would also say using less used roads instead of occupying major roads and additionally keeping noise and construction limited to daytime not only to minimise disruption for the locals but also for the local wildlife as well. In order to carry this out most effectively I do think it would be useful to consult with the local wildlife charities such as the national trust and the woodland trust to help with feedback and advice especially on the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5349	Good road structure around the park Half price admittance to the park for local residents Green ecological building procedures protecting the countryside	We appreciate that major construction can be disruptive or unsettling for local communities. TRANSPORT NETWORK IMPROVEMENTS (221)		
ID	Comment	Survey question
3174	Improve road infrastructure before developing theme park as traffic coming into Bedford at rush hour is already quite congested.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3367	Improve roads first	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3076	Improve significantly the local road network Invest massively into the natural environment	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2666	Improvement to all the surrounding road infustucture to help local communities to avoid the increase in traffic required for works traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

183	Improvement to the transport infrastructure as a priority in order to minimise the effects of construction vehicles	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4300	Road infrastructure is a huge concern our roads locally can get very congested and would need development to prevent this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2628	Road infrastructure is currently lacking	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1888	Road infrastructure needs to be first, to avoid delivery and construction vehicles through small villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2467	Road infrastructure needs to be in place before work begins to ensure less disruption as possible. Less road works / traffic jams the better.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3379	Road network has to be sorted out prior to build. Don't cut the villages off from surrounding towns as we need to access services and health care, it shouldn't disrupt our day to day lives.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
129	The link road between Kempston Hardwick and Woburn Road is essential and must be improved	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
127	Minimising any road closures. Prioritise improving roads first.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
112	Improve local road infrastructure to minimise impact on existing routes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2557	A421 and surrounding roads would need improving.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3384	The A421 is a road that is notorious for speeding and some catastrophic accidents. I feel strongly that the new road infrastructure and layouts need to be carefully planned and considered to focus on minimising speed and congestion on the road network between the M1/ Milton	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4141	The local roads which connect to the A421 can get gridlocked if there are any traffic issues on the A421. If any local roads need to be updated/changed as part of the plans then please do it in a sensible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
126	The creation of direct roads from the main trunk route (A421) for construction traffic would be sensible. If you really wanted to be responsible, then build rail sidings to enable delivery of materials &	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
264	The A421 is shocking and needs improving as does junction 13 of the M1. All road works need to be completed swiftly and not dragged out as they often are here in the uk.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
740	Traffic in and out of Bedford can be slow and so infrastructure is key, connection with the train would be great but Bedford station too is in need of upgrading and the walkways from Bedford station to the town	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1824	Improve rail links between Bedford and Milton Keynes and encourage using rail connections rather than road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2073	Improve road/rail links as quickly as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
374	Noise pollution - the impact of the building works on the noise in the local area especially if piling is required. Also the impact of road improvements - these need to be thought through properly at times when traffic will be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3776	The local roads need maintenance before any construction traffic even begins. The construction needs to ensure that only major roads are used and the local villages are not used as short cuts for site traffic, as has so	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1365	The only point I would bring up is that, a much better more direct route between the site and Luton airport should be considered to relieve potential traffic through villages and countryside roads that are going to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4153	Keep the roads clean, communicate continuously and fully explain how long diversions may take. Join up with National Highways and BBC Highways to ensure that any planned roadworks have a joined up approach. Consider limiting disruption around start and finish times for	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
733	Road transport will need major improvements.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3987	Roads around Bedford are a nightmare, alot of this is probably to do with current roadworks and infrastructure improvements already in progress but a construction of this size will likely make it worse before it gets better.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3963	by rookery traffic and building site traffic. Will need replacing again after the traffic constructing the site. Same for the recreational routes. The alternatives should be built before the existing ones are destroyed. All walking paths in nearby locations should be rebuilt like the rookery was required to do. Furthermore, alternatives will need to be provided due to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2128	road needs upgrading first to make it a suitable route for heavy machinery and vehicles while also ensuring free and safe use of the road by local residents. With the proposed main access being from new/remodelled roads these will only give access to the main park site once a tunnel or bridge is constructed to cross the Marston Vale railway line, which is unlikely to be your first part of the development or will be dependant on Network Rail or the East West Rail project to permit access by this route. The proposed new roundabout and roads to provide access to the park needs to be re-designed. Access to / from the A421 should be direct and not have to use the roundabout. If there is to be a roundabout by the park entrance the end of Broadmead Road should be re-routed to also join the roundabout. With the current proposal it is only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2395	Natural barriers such as large trees between the building site and Wootton. Ideally a separate road into the building site for construction traffic from the M1.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4906	No - the benefits that this will drive are worth the disruption. Please just work with the council to ensure that road works in other local areas are done in conjunction with the project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4532	No , local roads need upgrading	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2200	No I think that the access to the site is fairly good already, but some upgrades would be needed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3219	No, already major upgrade being done where a421/a1 meet at Black Cat so i am sure the more local roads off the a421 will be considered	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3937	None, but I am hoping for improved bus and train links around Bedford, as much of our local connections are quite poor or non existent	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5001	Avoid the lorries and machinery will go trough villages, so create the infrastructure to reach main big road first	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5349	Good road structure around the park Half price admittance to the park for local residents Green ecological building procedures protecting the countryside	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5152	That infrastructure improvement is started in advance of development ie the already inadequate surrounding road network.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5164	the local roads already can't cope. This needs to be addressed and rectified before construction starts not afterwards	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5401	The road infrastructure would have to be looked at and how locals will be affected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5234	The road network already struggles at peak times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5396	The roads nearby are narrow country roads which already have HGV's travelling along them travelling to and from the local incinerator at Stewartby. So the correct road infrastructure is vital for the safety of all	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4996	Infrastructure improvers need to be in for the construction phase, not just opening date.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
896	Transport links should be completed first, followed by the landscaping to hide' ongoing building work. Access should be separated from high-traffic routes in and out of local villages (e.g. direct access from A421)"	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
784	Transportation, Environment to me looks primary areas of concerns for the local communities so if they are addressed with minimal impact it should be okay.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5417	Keep your transport out of the local villages ,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5018	Some form of permitable public transport route where practically possible where road closures occur	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3791	1. Park and Ride away from the park - i.e near the J13 on M1 and Bedford 2. Designated roads to the park which will not impact on local residents and businesses 3. Major upgrade to rail services (note East West rail construction has already begun in parts which would be the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
294	A plan to sort out congestion would be incredibly helpful. And gather even more local support	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3443	subject to reviews throughout the construction period A construction working group should be established so community reps can be involved in the construction process A commitment to improving the roads and transport links in the area with reasonable diversions/ traffic management solutions if needed, so disruption is minimised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3138	Addressing the problems of traffic congestion and ensuring the infrastructure is in place to help alleviate the disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4851	bridges or generally not suitable for HGV traffic on alternative routes. This needs to be given sufficient consideration particularly when developing the site access from the A421. There isnt a practical alternative route for HGV's, any detour would add time and distance so ideally this route needs to remain open throughout development. The train stations require significant improvements, so timely alternative	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2954	Already lots of traffic, road structures must be improved.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1373	Alternative road route need to accommodate the car before any building starts	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2909	Any damage to local roads and the environment should be repaired.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1252	As with any project of such a size, it is important to get the infrastructure in place first. The road and rail links must be a priority to minimise any disruption in the local area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
870	infrastructure isn't as well developed as it is in the south of the country. We would appreciate a thought to those travelling from the north of the country, and not just London, and the local airports to the area. Thinking about trains and motorway connections, making it more seamless will attract more visitors, as the journey can be quite tedious.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2197	As someone that lives a couple hours away (Norfolk), I'd love to see an improvement to the rail system that connects it to Cambridge. This is something that may also want to be considered outside of connecting	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4110	build roads and railway networks quickly to avoid disruption for a long time	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
365	Build the infrastructure to support the build before embarking on the build itself	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4690	Build the roads and infrastructure first. Minimise disruption, avoid rush hours, respect neighbours. No noise on Saturday and Sunday and build between 13:00 - 15:00 but only on a Wednesday?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4010	Consult local people and study the major traffic and travel impacts now when the major roads are temporarily blocked. So you have data on potential impact before the disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4142	Consultation. Advertise the disruptions in plenty of time. Find good alternative routes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4874	Care must be taken bringing materials/staff to site. I would anticipate that there will be an enormous number of trucks in and around the surrounding area prior to any improvements to the road infrastructure,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
889	Complete road improvements at a early sage of progress	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3020	Construction of new road infrastructure not blocking traffic or coinciding with planned council road works.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1266	Consider road infrastructure first, perhaps temporary routes for construction vehicles and storage facilities for storing materials. Also be transparent about construction times / schedules; be sensitive regarding noise levels at certain times of the day and if this cannot be avoided in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2465	Create a road system that does not go thru the town	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4197	Continue with the plan that no traffic is to go directly through local villages. Can roads be expanded to be able to sustain the additional traffic. I know research suggests this will not be a problem, but as a local resident I know it definitely will. The M1 and traffic congestion is a major	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

2283	Get roads and potholes sorted out before large numbers of construction vehicles are accessing site. Offer frequent updates on what you have achieved so that people can see it's a temporary disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1287	Get the infrastructure right first	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2938	Get the road infrastructure done first and link Wixams Station to resort via electronic constantly running transport, monorail as many of the staff will be coming in on the train. Ensure staff parking is more than adequate.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4261	Get the road infrastructure in place quickly, invest in bridges over the railways to replace the level crossings.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1843	Depending on the routes selected for construction traffic investment in these prior to major construction beginning would seem to be sensible, and would help alleviate negative views forming early in the project	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3831	Disruption and long-term impact will effect not just the bedford area but also wider smaller villages and towns. I live in Henlow but would like to think support for roads, public transport etc would stretch as far as this area. People will hopefully stay in hotels, b&bs etc in this area whilst	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3290	Early investment in road and rail infrastructure would bring early benefits and minimise the negative impacts.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4813	considered and adapted as it can already be a nightmare for traffic around there and I feel this is an area of concern for local traffic during the construction and theme park stage. There used to be a slip road directly to it from the bypass which helped traffic flow around the b530/a6 junction but this was closed off. The b530 is also the main route to ampthill which will be impacted by the park. I think rejigging the road system around this top end of the current plans to account for increase in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1298	I would suggest getting on with the A421 asap. Maybe in-line with the current upgrade works at Black Cat roundabout.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3210	Keep all Lorries to the main road, but improve the roads before work starts	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2623	Ensuring that local road, rail and bus services improve	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4276	Fixing some of the roads may make locals more receptive to the project!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3159	Good that the site is currently derelict land with little housing in proximity, but disruption needs to be minimised. Road infrastructure should be built before construction starts.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4356	Good planning so not too many similar routes are closed at the same time, over night closures would be preferable. The A421 seems to be a very hazardous road with a large amount of accidents I feel any improvement to the road should put some focus on making it safer this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4214	Having recently traveled to Alton towers, the road network to get there is awful, travelling through small villages. Please improve on what is offered there.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3552	understand that they offered complimentary annual passes to immediate neighbours from my time working there, as a way to apologise for noise pollution. Traffic could also be an issue for residents too, however, most peak times to this theme park were during school holidays (July-August) Public transport upgrades would be essential for easing traffic in this area, but with good investment, this should be achievable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2238	I am not a local resident living 1.5 hours South of the site but I think starting with road and rail improvements will be a good place to start to avoid traffic building in the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2616	I am sure you have addressed these points previously therefore you are the experts in this matter. We would need new roads and train links and this can only be beneficial to the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
366	I believe the considerations of adding a train station is a great idea and the road improvements will help greatly. It might be good to have designated bus shuttles from travel hubs to reduce traffic and maybe	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1710	section from the M1 and that M1 junction 13 needs improving. The A421 is a pretty busy road with accidents causing a nightmare so a dedicated lane some distance before the exit would be good so a lane isn't taken with traffic. I also think Bedford main train station needs upgrading as many who come from the north will need to switch train at the station and you want your customers to have a better experience.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1230	I don't live locally but I would presume having the road infrastructure in place to deal with construction traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
713	poor road networks being overloaded due to diversions and temporary traffic lights, I would hate to live nearby if my morning commute for 3+ years was disrupted by this construction. Dampening the effects of the work you will be carrying out to improve the local road networks would be highly advisable to keep locals in support.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2374	I don't think you would get any problems with the community as long as you don't expand too close to their homes and the infrastructure around the park is good enough to support all traffic coming to the park and all	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3155	I live in the centre of Bedford, as a town, there is a good population and strong workforce, if it's creating jobs this will help out way disruption. Improving rails links will be worth it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
672	I think any upgrades to the rail networks almost regardless of the disruption is a good thing. Those local lines have been open and shut, running and not for a long time. I think the major disruption could be in the roads. The duel carriage way nearby is already busy at rush hour,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4692	I think local roads will be the thing affected most. Maybe building an access road (that would eventually be used for access to the park) might take the pressure off the surrounding roads. This includes the bypass,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1840	I think the train routes, roads and infrastructure need to be fully resolved. Please also think about the residents who's homes are on the site location and offer them a fair amount to buy their homes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3067	I would be supportive of works undertaken to improve connectivity between the A6 and A421 by widening the existing road.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3013	If roads are to be improved, make sure these improvements are done during off-peak times e.g. after 9pm and before 6am or on Sundays.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2618	I think this is a thing of short term pain for long term gain. The roads around Bedford needed investment for years and with this project we will finally be getting this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3417	where needed road closers should be minimised as the A421 has had a number of big projects over the last few years and when the road is closed the disruption is severe, the flow of traffic should be directed via the A421 which is a main road for easy access and to minimise congestion. Construction should be as sustainable as possible to minimise the environmental impacts the design should be considered such as the use of green technologies such as ev charging but also ensure that evs and conventional vehicles can use the same infrastructure. Connectivity of all transport modes should be considered	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2908	I would suggest to make sure the infrastructure improvement are delivered as soon as possible - this will help minimise the impact of construction. For example, any motorway/railway project should be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
279	If a new junction is built off the A421 Bedford bypass for this project then please create a slip road into the huge business park at Wootton to stop the ongoing danger of commercial vehicles having to drive into Wootton.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1449	If you need to make or change a road network, I would suggest this is done first before any other work as to keep any network delays to a minimum for the duration of the build.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
399	Impact on the environment to be carefully considered and managed; improved infrastructure to alleviate the already congested town centre and bypasses.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1017	improve access from A421. And the nearby rail network including the proposed Wixams station	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2704	It needs to be important to improve roadways and train access to the site before and during construction efforts. Since the junction 13 on the M1 and with the A1 at the black cat roundabout has been a major choke point in the past I believe it is important to ensure that any improvements	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4958	Just have high regard for traffic infrastructure as a priority	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2352	outside of core rush hour traffic. Road infrastructure improvements should be prioritised in my view, so that it allows better access for materials and site crews, but this will be a long build programme and it would be nice to deliver community benefit and minimise disruption wherever possible ahead of the park opening. Otherwise, the site appears a good distance from other residential property so I wouldn't see	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
786	Local road improvements and how visitor traffic can be diverted away from local towns and villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1092	Kempston is the forgotten piece of this jigsaw, traffic at best is woeful. Please make sure that the traffic improvements made will improve the lives of Kempston residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
402	Maintaining good road links to ensure local people can get to and from work and college as now, that people can get to and from Bedford especially for hospital visits, that emergency services can operate satisfactorily Ensuring heavy trucks and construction vehicles are routed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3476	Maintain good road surface with ongoing maintenance during construction phase	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
425	Make any connections to the local infrastructure from start to finish very quickly to prevent long periods of congestion in the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1856	Making a natural barrier first thing could minimise the visual and acoustic impact, and updating roads before starting constructions can make the construction traffic less disruptive	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2961	Maybe fix the roads to the site first - its close to the M1 and I would suggest making that the primary way in avoiding Bedford town centre	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2856	My only concern would be around the highway improvements needed for the A421. As this is a major link road minimising the impact of traffic would be appreciated. The use of dedicated slip roads for the resort	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4264	Many of the roads in this area are in need of repair and/or very narrow so if road closures etc are needed perhaps resurfacing the roads would be a kind offer	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4020	like to see better access from the north and east to alleviate a pinch point at the west entrance. The A428/A6 and interchange retail park could benefit from a bridge and new junctions to create a better flow to ease access. Would like to see the Bedford/MK canal link realised on its proposed route that also opens up other development opportunities	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1554	Marston Moretaine where I live is already busy with traffic and with more housing coming is going to get worse. Add this on top and I'm really concerned but believe if the roads are improved and bypasses are potentially looked at it could greatly improve the issues with traffic and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4000	Many of the roads are very small and traffic will easily build (like some surrounding roads of Alton Towers, another uk theme park) so development of these roads and will be vital.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1001	Manor Road would need significant improvements and turning right onto or off of it can be difficult and time consuming. No traffic/footfall for this development should be guided into Wixams or surrounding villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2378	Obviously the transport /roadways will need some work in the area to allow for the additional plant traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1805	Significant traffic disruption on the B530, people ignoring the preferred route into the park. Parking in Wootton and other villages by people looking to avoid parking charges. Significant road improved needed at j13 of the M1, access from the A421, need for local traffic to be able to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3430	Work with local authorities to improve the road and train networks prior to main construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3201	Widening roads and creating specific junctions for the site from the M1 would be helpful because the A421 can be busy at peak times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1046	Wider roads bike paths Support local villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2538	to minimise impact on traffic flows and disruption. Good continuous advance communication of any major works. Create integrated transport hub at Bedford Park and Ride to link with Wixams station. Provide frequent direct bus links to new theme park from Bedford and surrounding areas to minimise increases in traffic and maximise benefits	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1524	Other than major road networks and motorways, a lot of the road networks aren't great. Traffic, congestion and diversions are a sore point for commuters in the UK so, to minimise this, I think clear communication wit the local community on phasing of work with clear diversions given to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3637	People whinge about progress, as long as the project delivers better rail links, better bus ways (maybe lots of park and ride shuttles) and is as environmentally friendly as possible then that's all that matters	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4140	planning is road and rail works, properly with plenty of alternative routes organised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3318	Please ensure that the road networks are upgraded before the building work starts as there is a lot of traffic in Bedford already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3549	Please focus on road upgrades! not just the main roads but the smaller local roads will also need some TLC. this could be part of the deal the government could assist in these upgrades.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3235	Please ensure the existing road network is impacted as little as possible And f it could be improved as the first stage that would be very helpful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4196	Put the infrastructure in first so that there is less impact on the road network.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2625	Put the road and rail upgrades in first	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
248	Upgrade dual carriage way	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3478	Upgraded roads before you start	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4411	Two thoughts. Improve the external access roads before starting major site work, that would help! Actually do whatever you say you will rather than come up with excuses as to why you haven't! That would be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1846	UK infrastructure is a major issue for any type of transportation and must be a primary consideration.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1484	UK roads are totally different to US roads, as you've already seen. Plant traffic can be more disruptive than actual noise from a site. All I would say is make sure that the infrastructure exists for the development stage as	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
559	Unfortunately an element of disruption is inevitable, mainly the road infrastructure would need to be improved, possibly to a 3 lane carriageway, I think the main point would be don't underestimate how many people would visit the park on busy days, the UK has a huge	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2621	visitors of the park during construction this would be a impact on all users along the A421 how would this be mitigated and encourage universal to engage with all organisations along the A421 including Shortstown Parish Council to understand the affects. In addition engaged with DfT and national highways regarding RICS4 and ensuring opportunities to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3396	Where roads are damaged by construction traffic it would be good if any damage was quickly dealt with.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4167	impact would be limited. However there has been ongoing road works and delays along the A6 (Claphill roundabout) which has led to local frustrations to residents and businesses. So I would advise that prior notice and limited impact is considered, with alternative routes and avoiding peak times - making sure work is being done or roads reopened	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
868	You will be blocking / delaying people from accessing essential services. Train stations are not yet confirmed, impact on Broadmead RD is not good, all other surrounding roads will also be impacted negatively by increase of traffic. Before the park is built traffic infrastructure should be built to limit disruption to local life. It should be the main priority.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2986	Sort out any pot holes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4673	The A421 / Junction 13 M1 infrastructure must be improved for the project to go ahead successfully	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1352	Sufficient transport support would be needed so locals and peoples visiting the park are not left in traffic chaos.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
395	Supporting the current structures and roadworks to minimise disruption during busy hours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4719	Supporting road routes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
417	Structure roadworks and necessary temporary closures to cause least impact on local traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3936	Temporary noise screening installed, communicate with the community. Try and deliver road and rail upgrades with the government as soon as possible so it can take construction traffic and then visitor traffic. Offer	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
963	The increase in the train network would be a necessity, I live along the train line that would reach the destination and it'd need more trains and really importantly with more carriages - too often we have 4 carriage	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3157	The concerns that the roads will struggle to take additional tourists. So could there be bus parks, and link from the train stations	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1268	The first priority should be the a421/M1 junctions and creating dedicated sliproads to the site, as well as discouraging construction traffic from driving through local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3169	The construction does look like it is extremely close if not affecting the A421. I would recommend that any work be completed to that road / area prior to any other work, so that roads are ready and waiting. Otherwise traffic will become stopped gawking at the work happening and cause	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3389	temporary impact it has on the road network. While I do not live locally to the site, if this were to be built near where I live, my proposal would be to focus on the road network first, so the flow of traffic is not disrupted, for me this would be a massive plus as a local knowing it was not going to delay me in any way and if people know that up front I am sure more	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
617	The biggest concern would be around policing and infrastructure. Using local Business will also help minimise the traffic coming into Bedford whilst the works are being completed. Maybe focusing on the roads into the project prior to working on the site may minimise disruption and traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3778	Protect villages and upgrade current roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
980	Rail connections to the North are currently poor and would require improvement. The infrastructure is largely there but not the service. More train drivers need to be trained and signalling more reliable!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4139	Regular resurfacing of roads damaged due to heavy machinery so as to minimize the disruption. Most developers/council waits till the entire project is complete before any repairs to damaged roads and that causes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3872	Purchase all the houses on Manor Road before straightening the road as otherwise its unfair to half the residents to deal with that whilst others were given offers straight away.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1622	and the local area. This is a big site, but following the construction of EPIC Universe Flordia, I have no concerns about Universal and its partners not being organised and practical in their planning. Sound barriers and the planting of trees seem appropriate, as well as the management of the local waterways. I am so pleased to hear proposals for the investment in the rail infrastructure and two local stations. As I am not local I have no hands-on experience with the site. I am a wheelchair user and unable to drive so this alone is hugely positive for accessing the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
711	Keynes and other surrounding areas, allowing more people to get there. Having an automated system in traffic and sometimes people to check the conditions of the traffic to minimise the disruptions, which with understanding can be overcomes as this huge opportunity can bring more opportunities for all people around.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2096	and traffic. With infrastructure disruptions, adjusting train lines/ adding stations and creating new major road links will be the largest disruption as this will affect commuters and the local people directly through diversion routes and or added journey times. As long as the local people can see a positive out weighing the negative, people will get by.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4266	Think the road network would need to be done first	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
185	This area has received major construction in recent years and therefore the local community should be able to cope with the development. Obviously the upgrade of the road system at an early stage would benefit	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2350	Think you should fund an improved train service from Bedford to Bletchley and make all construction teams come by public transport. There are currently poor links from the east to the area so maybe take over the A428 construction compound at st Neots when national	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2660	The UK roads are terrible, please look into fixing railway capacity and also more road routes to avoid congestion!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
247	The roads around could be more developed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3815	The roads have too be improved too ensure no congestion and delays	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4764	The road infrastructure can get very congested - work to minimise disruption to the community early on would be good	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3110	The road infrastructure at the moment would not cope. If that was done first then notice given of road closures I'm sure there wouldn't be a problem. It is a very exciting opportunity for the young generation, lets	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4934	The roads around Bedford are quite congested, so anything that could help with this would be a major advantage to local residents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2413	The traffic around the area is already heavy so infrastructure improvements needs to go in first to minimise disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3266	The river area would be the main draw for tourists in terms of the town itself. On a pleasant day it feels like a Parisian suburb. I think investing in this area to make sure that the tourists could a) enjoy themselves without b) causing environmental problems would be a good decision. Improving	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4881	The quality of the roads should be maintained, especially during the transportation of heavy construction equipment. Potholes can be a serious issue in the surrounding areas	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

333	The road from Milton Keynes to the A1 is a major route. The upgrade several years ago was particularly disruptive and added unnecessary time on the commute. It would be ideal to avoid this level of disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3902	The road improvements are vital, it can get bad around here as it is. But also, as a very local resident, you need to make sure you have a decent parking plan in place as I don't want the villages around here to become	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3684	The road network is likely to be the most used route for UK residents so minimising the impact of traffic on local people is key. Either by implementing a road network that can handle the traffic or by having a	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3688	line with this development. By following the A421 route and the old line, it would bring customers directly to the park while minimising the environmental impact on the other side of Bedford. The current OxCam route would necessitate further Road and infrastructure development in order to channel park customers to the proposed park, and is difficult to see how Bedford would cope with this. The park is an opportunity to concentrate the routes and maximise the utility of Bedford and the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3991	The roads around the area are already unfit for purpose notably the A421 onto the A6 by Kempston, it is normal to sit on that roundabout and crawl for 20 minutes to move 1 mile towards Great Denham if this where to go ahead these roads would need developing first before a rise in traffic but	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5582	Again, I think you have picked a great site, that is vast but largely self-contained, and outside of rail and road junction improvements (which are much needed anyway) I doubt that the majority of the local communities	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5606	As a resident of Stewartby, my main concern is that you will be doing road works on both the old A421 and the B530 at the same time, making the traffic awful for people to get towards Bedford, my suggestion would	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5845	Bedford is already expecting major disruption as a new rail link is being constructed between Bedford and Cambridge. The A421 link to the M1 is already busy. The M1 would need to be improved to cope. I think as long as there is good communication with local people and disruption is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5509	Build the transport infrastructure first so you are not sending Big lorries on minor roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5942	Build roads and entrances so it doesn't affect the local people	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5564	Build diversions and access routes for construction and park screening early. Follow neighbourly best practice construction processes and schemes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5866	By pass widened and new junction. Don't impact on local traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6024	N/a. Happy to deal with disruption for improvements. Perhaps consider relief roads where possible / dedicated resort traffic roads to try to minimise the amount going through places like marston and wootton	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5737	Construction traffic would be best advised to move at night when the A421 is not so busy. The dual carriage way would need expanding for the new park to enable locals to not been affected by park traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5904	would be if this goes ahead without very significant investment in road and rail improvements e.g A421, M1 junction to A421 which already serves the Amazon site, a woefully inadequate rail station in almost every respect e.g. parking, insufficient platform access via lifts or walkways, very limited toilet facilities, poor disabled access, traffic bottlenecks	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5632	isn't just about the A421 (which isn't too bad) but the roads around Kempston (the Branston Way) and out towards Bromham/Biddenham as people make their way around Bedford towards the A6 at Clapham (Paula Radcliffe Way). It's inevitable these get worse, and there isn't much that can be done. Really have got to prioritise travel via rail - perhaps making it cheaper to enter the park or making parking very	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5644	Route all goods vehicle and HGV journeys to and from the site via the A421 dual carriageway only. Provide funding to turn the A6 Bedford bypass into a dual carriageway, before construction work begins, as it's	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5689	The local road infrastructure and bus network would need significant upgrading to allow for the increased traffic/demand from the theme park. In terms of road infrastructure, there would be concerns centring around	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5630	The road out of Kimberly college onto the main road A421 is difficult so it would be good to have traffic lights or a roundabout here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5693	HGVs not to use Houghton Conquest as a rat run from A6 to Ampthill Road and vice versa. Baseline data for current usage and monitor to compare. If this has increased then road surface will need improving.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5501	Keep building areas away from Stewartby village. Entrance and exits to site kept near already used areas like industrial estates. Improve train links first to encourage workers to use that rather than cars causing parking issues or build car park first for workers to use well away from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5488	At the moment it takes 5/10 minutes and this is handy if we need to go to our doctors surgery, schools or somewhere urgent. This will change significantly with volume of traffic coming to and from the east. There will be just as much traffic travelling from the East & the A1 as there will be from the West & the M1. We are small villages surrounding what could be huge. This project needs to work with the villages and sympathise with its people in terms of every day life. Infrastructure and the quality of it will need to be taken very seriously. Following Covanta, nearby, the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5592	I would love to see beter transport links for the local area and the park. Special business or new train station delivering people to the park directly. Also the local road network will need to be overhauled to accommodate the extra traffic with I suggest the implementation of a	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6077	Mitigate any road traffic disruption which is already heavily congested. Please invest in more than adequate infrastructure to mitigate disruption and indeed improve mobility for the community.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6012	I think upgrading the roads 1st to minimise traffic at a later date with all the additional trucks deliveries and workers coming to and from the site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5705	alternative routes that are equivalent instead of long detours IF/WHEN road works are needed. Do road works at nights where possible. Give neighbours notice of any changes that might impact their routines. Liaise with Anglian Water, BT (OpenReach) and councils to avoid doing construction work that disrupts routines simultaneously and synchronyze	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6073	Ensuring there is regular consolidation with the planning process and construction timelines so residents are aware of what to expect. Ensuring the road and other travel networks are in place before construction of the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5556	make the area good and travel easy	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5539	Make sure the road infrastructure is in place before beginning the development of the site. The local roads are very busy already and it would cause resentment if residents are inconvenienced.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5952	The roads around the Bedford interchange need improvement anyways so it's a good thing.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5558	The road network around there is heavily used so any mitigation for that would be useful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5609	Road infrastructure needs to be of utmost importance.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6019	Sort the road infrastructure early on to minimise disruption. The current changes to the Black Cat roundabout should help link A1 better.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6068	To have effective road diversions while updating the infrastructure to minimise the impact as much as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5914	Yes, minimise construction and disruption for all life locally as this can cause increased stress for all concerned! Put manpower/ labour into fixing the roads and working with the natural environment instead of plowing through ancient land that is doing a major purpose in the already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
6014	be to ensure local roads are improved once the project is finished as construction vehicles can wear down these roads as they drive to site and I have seen a lot of housing projects for example where they doesn't care about fixing these other roads outside the site. So hopefully that will not be the case here, and it sounds like you want to avoid	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5726	We already have much construction in the area, changes to the Blackcat round about is going on until 2027 and there is the east west railway which hasn't started yet. It would really help if there was joined up	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6131	Noise-lack of sufficient infrastructure - road, rail, bus etc, it gets too busy and expensive, so it drives people who live / work locally out of the area. Too much pressure on the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6145	Noise-lack of sufficient infrastructure - road, rail, bus etc, it gets too busy and expensive, so it drives people who live / work locally out of the area. Too much pressure on the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6178	Better road network around Wixams. Encourage that the extra investment is going to rail	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6174	B430 Access from Ampthill to Bedford. B530 - Ampthill to/from Bedford	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6175	Route from Ampthill to Bedford b530 will need to be considered & upgraded	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
151	What route would traffic use to access the site during and after construction, particularly from the M1 as the A421 is very noisy now let alone with any extra vehicles. The only way to use the A421 would be to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
135	How would you look at upgrading the local road network to cope with capacity and traffic congestion given the general size and scale of your other resorts.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

ID	Comment	Question
4955	A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1026	A421 access to m1 . How disrupted would this be and for how long	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2557	A421 and surrounding roads would need improving.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1045	A421 disruption to road users, who use the road on a daily basis	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4072	A421 is critical road for daily travel to / from children's schools. Carefully thought out traffic management required	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2892	A421 is extremely busy, and links to other key roads e.g., A428 and A1; thought around these connections would be useful.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2449	A421 junctions need to be kept clear	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
267	A6 / A421 carriageways ideally need to remain open.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3019	The A421 bypass is absolutely a major 'vein' in the transport network here. Disruption in the capacity of this road should be minimised.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4814	The A421 can be busy, so prioritising the Marston Vale railway line to bring in goods would be far more productive, creating a small rail siding into your land would take more trucks off the roads and increase	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1333	The A421 can be very busy , Try and keep the roads open at all times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
503	The a421 has already been subject to long term closure for road works. So mitigation of that route would help. Maybe complete road or rail at one time so we have decent alternatives for transport	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4404	The A421 has problems all the time with traffic. With a park like this opening- I am not sure the existing road could deal with the increased volume. What about construction traffic? What about the local hospital - could they cope with additional people turning up in A and E? Or cope	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3806	The A421 is a busy road for connecting A1 to M1, it's important to keep this disruption to a minimum as people commute to Milton Keynes from the A1 side	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3384	The A421 is a road that is notorious for speeding and some catastrophic accidents. I feel strongly that the new road infrastructure and layouts need to be carefully planned and considered to focus on minimising speed and congestion on the road network between the M1/ Milton	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4443	The A421 is a vital link to get east so minimal disruption during daytimes and peak hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2151	The A421 is already highly congested especially the the Kempston roundabout and off the M1. The access roads to the site are small, and are used as cut throughs often to allow access to both villages and the Interchange retail park. Congestion would need managing with an	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
367	The a421 is an accident spot and I do have concerns that this road will not cope with the increased traffic without an even higher number of accidents. Safety on this road needs to be addressed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1703	The A421 is an essential road, so minimal impact to that (including reduced speed limits) would be beneficial and positive for the project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

953	the a421 is busy both ends due to roundabouts, already gets rammed during peak times and the old a421 is just a 2 lane road with issues already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
264	The A421 is shocking and needs improving as does junction 13 of the M1. All road works need to be completed swiftly and not dragged out as they often are here in the uk.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4117	The A421 will be the main vehicle access to the site. This is the main route between the A1 and M1 and will need to be managed with care.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3000	The access to the A421 will have to put no added pressure on current usage	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4141	The local roads which connect to the A421 can get gridlocked if there are any traffic issues on the A421. If any local roads need to be updated/changed as part of the plans then please do it in a sensible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2717	The lorries that come along the old 421 already is detrimental to the local environment and communities in the area. So we don't need any more coming through our villages and roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2791	The main road between milton keynes and cambridge will be greatle affected the a421. This road needs to remain open and constuction on this road be kept to evenings and weekends.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
895	The only challenge will be any impact to the A421 and hence connection to the M1, but I can't see this being a particularly difficult issue to plan around.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
432	Traffic down the A421 or old A421 will be a nightmare!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3900	Traffic impact on the a421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4424	Noise is a concern. The A421 is already noisy enough and add years of construction onto that could make Wootton a less restful place to be. Also the air quality.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3964	Noise pollution. I live in Wootton and A421 is loud. Keep construction traffic away from residential areas and local routes that are already busy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
846	I'm very concerned about disruption to the A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
330	Keep road open during day if possible to be sure that old A421 road is in operation.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2518	As above my main concern would be traffic, local to the village, on the A421 and the M1.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
211	Keep the a421 clear, residents are finally seeing the end of construction work from the past few years, it would be a shame to prolong it anymore.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2813	Avoid peak time disruption on major roads, such as the A421 which is a major route for Bedford to the M1 and A1.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4306	M1 and A421 in this area are already an issue, always congested. That's a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3557	Main concern would be the traffic on the A421 road - not sure what you could do about that though.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4553	Minimal impact on the A6, A421 and M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4778	Minimise A421 traffic during construction during daytime (particularly mornings) if possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4577	Minimise disruption to A421, else please get cracking!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4103	Road traffic around the a421 junctions (already a bit of a nightmare at peak times) and noise from any construction work at unusual times (e.g. in evenings / overnight)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
126	The creation of direct roads from the main trunk route (A421) for construction traffic would be sensible. If you really wanted to be responsible, then build rail sidings to enable delivery of materials &	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2871	ROADS. This area has relatively limited road access. The A421 already suffers from substantial traffic congestion and the smaller sideroads simply cannot cope with long-term diversions or heavy volumes of additional road users. Many of the roads around the site are already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
163	The A421 between the black cat roundabout - Bedford - up to Marston Mortaine is notoriously awful for rush hour traffic. This needs to be considered if and when changes and roadworks are to be completed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2578	M1 Junction 13 is a particular mess, this would have to be improved / upgraded given that the vast majority of construction traffic would use the M1. The A421 and local rural roads would struggle to handle a significant	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
511	Train stations and A421 direct link need to be in place to take pressure off existing services when construction begins.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1660	You could have temporary sliproads off of the A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

	opportunities and regeneration it would bring to Bedford is considerable. I have read the information on the Universal UK project site and attended the public consultation tonight. Its also widely reported that Universal is deep into discussions with local and central government agencies and has being working with the relative departments for some time. I have one concern, which I don't think the current plan or is concerned enough in the universal studios plan. This would be the traffic effect on the local area and the A421. I apologise of the length of this mail, but i do feel its important to highlight the already stated concerns on A421 by local government, without considerable upgrades to the A421 I do have concerns that the road would be a major problem, especially for Wootton and our ability to commute to work or even into Bedford itself. While some work ongoing to upgrade the road network (Black cat roundabout as an example), The A428 Black Cat to Caxton Gibbet Improvements Scheme was agreed 2017. In 2016 that the road and black cat round about already identified by the national highways has a number of problems faced by the A428 on all or parts of the route: it carries twice the traffic for which it was designed; between Wyboston and Caxton Gibbet has peak hour speeds of less than 40mph, with link delays in the top 20% nationally; is top 25% of highway links nationally for casualties; some of the least reliable journey times nationally; safety and maintenance impact issues; and Black Cat roundabout was identified as having a safety problem (69th highest accidents nationally). The upgrade was necessary and adding a Theme park, along the A421 will drive further, unplanned volume, on the black cat and A421. The Universal project plans for 4500 car parking spaces, The would be the minimum assumed additional volume on the A421. If this capacity isn't enough it will result in additional congestion in the area, especially Wootton. I have pulled the detail below from the recent Central Bedfordshire Local Plan "" Stage 1A Transport Modelling and Bedford Borough Transport Model Assessment of Local Plan 2040 Preferred Strategy. I would like to note that within the 2040 plan the assumptions assumed requirement for		
1010	No access to any vehicles through surrounding villages, access via main routes only and roundabout put in for junction of broadmead road/old A421 out of Stewartby	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3752	No traffic through the village of Marston as the a421 and a507 could be used instead for trucks, plant etc	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3027	No, already major upgrade being done where a421/a1 meet at Black Cat so i am sure the more local roads off the a421 will be considered	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3219	No, the A421 is the main road that should stay open and unaffected, other small roads can be temporally closed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3234	Traffic would definitely need addressing- particularly around the A421/A6 junction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3626	As long as the M1 and A421 keep flowing and nearby housing estates don't clog up with cars (travelling or parked) it will be fine there too.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5207	I would be concerned about how the proposed development will affect access to the village of Wootton from Woburn Road and the bridge over the A421, both during construction and after the park is open.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5004	Minimise disruption to A421 when construction is happening, as this is such a busy route.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5409			

5175	Minimise road closures in A421 and improve J13 M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5407	avoid the A421 if there's congestion, also need to think about the impact of additional journeys by employees on congestion (local staff bus pick ups maybe - Amazon do this to Ridgmont) also the impact of people visiting - need to have adequate transport from town to park - bus network to Marston is limited so if people are unable to get to work because buses are full of park goers this isn't fair to the existing community. This would also help with the congestion in Bedford which is already really bad at peak times. Disruption on the bypass will cause	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5199	Please use the A421 as Manor Road and Bedford Road can't cope they are too small	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5073	The site is near road junctions that are busy during rush hours (particularly) A421 junctions. Minimising disruption during these times is important.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5173	spread out and phase the development of the infrastructure over the entire duration of this project, rather than doing them all at the same time and the very last minute, would hopefully reduce negative impact to the local area, and possibly even provide some positive impact ahead of the park(s) and resort(s). Perhaps build the new Wixams station, and the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5142	I know your plans contain a dedicated A421 slip road which would be great.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4830	Traffic on M25 and M1 and A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1474	Traffic on the A421!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3140	Traffic on the A6 and A421.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3968	Traffic management just needs to be considered when building new roads and Bedford Council will need to consider improving links/roundabouts at J13 M1 that connects with A421. It is already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5019	I'm concerned the A421 could be busy	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3705	Traffic is pretty heavy on the A421 each day	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2592	Try avoiding peak traffic hours as the A421 gets heavy traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3242	Using the old A421 would help	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5183	To avoid the old A421 and instead use the dual carriage for vehicles accessing the site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4891	construction traffic access during the build process which would then be used as the junction for all traffic to the venue upon completion. This would then ensure no disruption to local communities and roads that are already at or over capacity. I would also suggest a new railway station to serve the site following completion which will allow visitors good access by rail and reduce road congestion on the A421. The A421 may need to be looked at as it is an accident blackspot road and when incidents occur the road can be closed for considerable lengths of time and then local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2516	A slip road from the A421 is vital, signage to the parks only on main roads and not through the local villages. Sat navs routed to use main roads and not local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3617	Added traffic to the a421 - more lanes should be opened	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4851	bridges or generally not suitable for HGV traffic on alternative routes. This needs to be given sufficient consideration particularly when developing the site access from the A421. There isnt a practical alternative route for HGV's, any detour would add time and distance so ideally this route needs to remain open throughout development. The train stations require significant improvements, so timely alternative	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3170	All materials to sire using rail, A421, A1 and M1. No construction traffic on A6, A428, A507	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4905	Anything that happens on the A421 inevitably causes major disruption in Bedford. Any major road works should be scheduled during school holidays or even better overnight to help minimise disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1191	As I mentioned I don't live in Bedford, but I would say to have clear routes for construction vehicles so that it limits the traffic and congestion through the smaller roads and routes. Also, the A421 is a busy and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3223	As long as the A421 remains as clear as possible, the disruption wouldn't be too bad	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2534	As the A421 is a main route to the M1 and Milton Keynes any work that could impact this should be planned and advertised well in advance	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1172	As this project involves new junctions with the A421, a new Thameslink rail line station, and seemingly additional work at the Interchange Retail Park roundabout, minimising disruption to these critical transportation	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4245	Be aware of the rush hour for people coming and going from the a421.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
378	Be mindful of limited road network you will need to push the council, the A421 will require a third lane!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
422	Be sure to consult with Wixams, due to their proximity to the railway station and the upper end of your core zone. The best way to minimise disruption would be to have any construction traffic enter from Woburn road rather than the B530. With the A421 bypass following the route of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4024	Bedford is already a busy place so ensuring traffic has a better flow through from A421 and from rail station etc would be vital.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3167	Being considerate around, trying to only use main roads rather than many of the local village roads which are already over burdened would help as well as ensuring that deliveries and working patterns for site construction happen Outside of main commuter hours when school and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

3028	Care around the A421 junctions, great Ouse way and the B530, with the exception of the A421 these roads are terrible !	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1088	Concerns about congestion on the A421 which gets very busy at rush hour.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3919	Congestion going into Bedford from the A421 is already bad. As is the intersection with the A6 at Kempston. Relief efforts would be needed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4535	Congestion on the A241 can be heavy, especially in the mornings so finding a way to reduce this would be great!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3819	Convince the council (Bedford Borough AND CBC) to downgrade the A603 (through Moggerhanger and Willington) to a B road and do not use this as a diversion route whenever the A421 or A1M are closed. The road is not fit for purpose as an A road and is a constant nuisance/danger to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
746	Could leverage river for construction materials to minimise road traffic, expand A421,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2345	Create an access route direct from the A421 to keep site traffic away from local feeder routes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
743	Disruption to the A421 would be a concern as traffic could divert onto local roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
698	do not block the A421 or increase disruption which would impact this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4820	Don't close off the A421 during the day.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3977	Currently the A421 is extremely busy and would need a large change to enable it to cope with the additional traffic. Other roads adjacent the proposed site would also need to be upgraded.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4584	Do not create access to the theme park from the old a421. This would be disastrous. You would need to build a new bridge and roundabout off the new a421. Or better still, doesn't build the theme park there at all then the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
314	Ensure work around the A421 is kept to a minimum so traffic flows are unaffected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4697	Ensure the A421 flows throughout, ideally bring as much construction material as possible by rail to reduce impact on local roads with lorries. Put screens/planting around the site first to reduce noise from the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1393	Ensure that if the A421 and A6 is used for construction traffic, that the site slip roads are in place rather than traffic having to use local roads through villages such as Stewartby, Houghton Conquest Kempston	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
847	Ensure that site vehicles don't arrive during peak local traffic hours or at least spread arrival to avoid jams. Make use of rail network for freight delivery and then use vehicles on site to move items. Spread site traffic across the two entrances. Provide subsidized bus transport for local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4218	I like the proposed new junction on A421. This will minimise local traffic. If it is done early it could also minimise construction traffic on local roads for the rest of the park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4519	traffic from the North from the A6 taking a shortcut through the village and past two schools. We had trouble with lorries clogging up the village when Goodmans built the warehouses adjacent to the A421. I also have concerns about 5000 construction workers pushing up property prices to the detriment of local people looking to buy their first house or rent a property. Possibly make Wootton residents only with rfid barrier control. I have a concern about noise from piling, we can hear traffic on the A421. Piling needs to be 900am to 500pm only. Please build a construction workers village like Hinkley Point. Please use low emissions plant and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2859	I think we live far enough away to not be affected in any major way.Keeping the A421 flowing between Kempston and M1 is important.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1298	I would suggest getting on with the A421 asap. Maybe in-line with the current upgrade works at Black Cat roundabout.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
960	You would absolutely not be able to guarantee minimising disruption, it will be an absolute nightmare trying to get to work on the a421 and getting the kids from MVM school and Wootton Upper school, the roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4716	You have immediate access to the A421. Presumably access/egrees to the proposed development for both conststruction and the public from the A421 is the ideal and would have a minimal local effect.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4314	Would be worried about disruption to the a421 with it being such a busy commuter road.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1173	Just to keep traffic through the village as a minimum so there isn't lots of through traffic. I don't believe that would be the case looking at the plans and having attended your local engagement session on Saturday as the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3077	Just that the junction connecting the A421 to A428 (which may be listed also as A6 on Google Maps) can be a bit of a hassle during rush hour. Not a big deal in the grand scheme of things, but it might be worthy of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
295	Just make sure that the a421 will still run as usual as I have to use the road very often	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3196	Given location touches A421 the site is ideal for construction access so I anticipate disruption will be mitigated as well as it could be.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2693	Finding a way to keep the A421 running as smoothly as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
396	Excess Traffic and delays on old A421 are a major concern as I live opposite the proposed site and use the road for work and to access shops. There needs to be a separate road into the build site as first	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4356	Good planning so not too many similar routes are closed at the same time, over night closures would be preferable. The A421 seems to be a very hazardous road with a large amount of accidents I feel any improvement to the road should put some focus on making it safer this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4612	Hopefully disruption of A421 is kept to a minimum as this is the main road people from Bedford use to go to M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1710	section from the M1 and that M1 junction 13 needs improving. The A421 is a pretty busy road with accidents causing a nightmare so a dedicated lane some distance before the exit would be good so a lane isn't taken with traffic. I also think Bedford main train station needs upgrading as many who come from the north will need to switch train at the station and you want your customers to have a better experience.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

2824	I have concerns with the roundabout connecting A421 and A6 which is already extremely busy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3024	I guess that the only real big one is that the A421 is used by a lot of commuters and so it will be important to minimize disruption on that so as not to stir up resentment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4282	I regularly use the A421 to access Milton Keynes and the M1 from my home in Great Denham. I hope that increased traffic during (and after) construction would not negatively impact travel times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4239	I suppose how this would effect major roads around the area (A421 for example) would this be closed for several weeks, overnight only? For myself I work at the B&M distribution warehouse in wixams which is very close to the proposed site so how would it affect getting to work for those	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3891	I think that as long as the flow of traffic along the A421 isn't compromised, you will find that the majority of local people will be content with any conveniences that the development may bring.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2004	I think the best way to mitigate local concerns (I live in Wixams) is to invest early in the A421 slip roads, Wixams station so people feel an early benefit and not be negatively impacted by construction traffic. It's probably also worth highlighting ealy any additional benefit to local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3067	I would be supportive of works undertaken to improve connectivity between the A6 and A421 by widening the existing road.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3939	I think you should create a new access direct from the A421 and possible the M1 rather than use existing roads.Also you should assist in the creation of the homes for the workers. Wixams is close but there are few affordable homes for people on the salaries you are likely to pay your	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1491	I understand that the A421 will probably be the main road linking to the resort, this is a heavily used road connecting the M1 and A1, so once again it is a great place to locate the park. However, during construction, it may be best to minimize disruption on this particular road where	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4436	I would advise a direct route from the A1/M1 around the back of the development. Avoiding A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4172	I would just make a point of trying to avoid causing an major disruptions to the A421 where possible as this can majorly affect the entry into smaller villages, as the A421 crosses between villages to Bedford, such	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3417	where needed road closers should be minimised as the 421 has had a number of big projects over the last few years and when the road is closed the disruption is severe, the flow of traffic should be directed via the A421 which is a main road for easy access and to minimise congestion. Construction should be as sustainable as possible to minimise the environmental impacts the design should be considered such as the use of green technologies such as ev charging but also ensure that evs and conventional vehicles can use the same infrastructure. Connectivity of all transport modes should be considered	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3065	I'd be concerned if the works diverted more traffic towards the Interchange intersection which is already heavily congested at peak times. Also that any time the A421 is congested in either direction traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
279	If a new junction is built off the A421 Bedford bypass for this project then please create a slip road into the huge business park at Wootton to stop the ongoing danger of commercial vehicles having to drive into Wootton.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1017	improve access from A421. And the nearby rail network including the proposed Wixams station	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3200	Increased traffic on the A421, in both directions would be bad, therefore the roundabout leading to the M1 & Milton Keynes needs to be thought about. During peak times, this roundabout is a nightmare, increased traffic would make this worse. Any construction vehicles should try to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
935	Is there possibilities to open a new junction off the a421 closer to the entrance of the site to allow people to access the site more directly instead of going through villages to get there?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2353	It must have its own slip to the A421 in order to ease congestion whilst building and after	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2672	Just concerns about local infrastructure and long tailbacks on local roads particularly the A421 and through Kempston.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3244	It would be a nightmare if the A421 and surrounding access became busier and more dangerous.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2789	It would be important to ensure that the connection to the A421 to the site be programmed at the beginning of the project to try to prevent the construction traffic from causing traffic issues to the local roads. Especially the road between Ampthill and Bedford as this suffers from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3768	It's unclear from the information at this point as to whether any closures to the A421 and Woburn Road will be needed. For the villages in close proximity to the park, these 2 roads are critical for commuting and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3107	Keeping the A421 open and run a safe working environment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1761	Looking at road links other than the a421 as many will come across from the A1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
472	Major road improvements first especially the A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
933	make the building of the new planned road/ junction to the a421 a priority	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3267	Making sure A421 access still functions as current. It it will clog up the whole road network	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1828	Making sure the A421 flows well as a very busy road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2913	Manage traffic disruption to A421 and other local routes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2862	Make sure the A421 dual carriageway remains fully usable (without speed restrictions if possible) as it's an arterial route. We have only a few river crossings (A428, Prebend Street, Town Bridge, Longholme and the A421 bypass) so if any were closed it would cause traffic jams in the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3903	Minimum disruption to A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2856	My only concern would be around the highway improvements needed for the A421. As this is a major link road minimising the impact of traffic would be appreciated. The use of dedicated slip roads for the resort	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4862	Manor Road is a key road that connects the A421 and the A6 to ampthill. Closing that road to traffic would see heavy congestion through an already busy Stewartby and further traffic around the retail park which is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3944	Manor Road whilst a small rural road connects villages either side of the Universal land, allowing travel to the Interchange retail park, a route into Kempston and into Bedford and other routes without joining the A421 junctions and roundabouts. Ensuring carefully considered diversions are	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
693	Of the people I speak to, they're all for the site but worry about the traffic on the A421. This already can become an issue and many hold ups occur.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1805	Significant traffic disruption on the B530, people ignoring the preferred route into the park. Parking in Wootton and other villages by people looking to avoid parking charges. Significant road improved needed at j13 of the M1, access from the A421, need for local traffic to be able to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2558	Working closely with the council to ensure infrastructure is suitable Minimising disruption to the A421 and to the Thameslink rail line is very important	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1504	Widening of the A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3201	Widening roads and creating specific junctions for the site from the M1 would be helpful because the A421 can be busy at peak times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
234	Overnight construction where possible not done at the same time as other roadworks. Provide direct route from M1 and A421 into Universal to minimise impact on other traffic and utilise park and ride from Elstow and Wixhams to provide bus connections directly linked to existing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2755	One issue we already have as Wixams residents is HGV traffic from the industrial units which cause chaos at rush hour cuz they can't get onto the roads from junctions/roundabouts as easily as small vehicles. I believe as long as the building access roads are created adequately from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2929	Pay attention to the great Ouse junction and the A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3851	Please avoid trucks coming through Stewartby village wherever possible, and ensure that Stewartby has access to the old A421 at all times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2554	Please don't disrupt the A421 too much. It's already busy and congested as it is.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3664	Please ensure road access and it's well thought out during the build. A new junction off the a421 would be good	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1091	Please keep diversions to a minimum. There should be a direct link road between m1- A421 to minimise disruption to the m1 j13 junction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
999	Try to reduce works impact on the A421 as much as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2847	Use the a421 for all construction traffic. Dont start too early or work too late.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3571	Very concerned about traffic. A421 might cope, but J13 of the M1 would be horrendous - it is already bad in the morning. I think commuting workers should follow agreed routes, so that local routes are left free for	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3505	We live XX away in the car to the site and are worried about how the A421 roundabout will be backed up, it is already bad enough. It would be good to see plans how to roads will handle such major work being done.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4312	We live in Meadow Road and I would be concerned that traffic would increase significantly from A6 and A421 to site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2678	When a new junction on the A421 is created protecting traffic going through the villages when it is being done will be important but also making the junction usable for residents and local businesses to take	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2621	visitors of the park during construction this would be a impact on all users along the a421 how would this be mitigated and encourage universal to engage with all organisations along the A421 including Shortstown Parish Council to understand the affects. In addition engaged with DfT and national highways regarding RICS4 and ensuring opportunities to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3437	carriage way A421 would naturally become a busier road with more footfal and road traffic during construction & when the park is built what would be done to minimise the disruption? both exits onto the old A421 in peak times can be very hard to get out due to traffic flow and i feel this will only get worse one building starts?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2524	please look at minimising construction vehicles on the A421 as there are already construction projects towards Cambridge on this road.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4723	Please route road traffic away from our usual bottlenecks at peak times. Also bear in mind that if there's an incident on the A421 bypass it has severe knock on effects throughout the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4673	The A421 / Junction 13 M1 infrastructure must be improved for the project to go ahead successfully	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3260	Surrounding roads used to travel into / out of Bedford during rush hour. And at the weekends, the A6 / A421 might be impacted so minimising this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3998	The 421 is tailored made to access the site, leaving other routes available to locals if massive haulage was underway. I'd expect construction companies to work to the highest standards and could not	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1268	The first priority should be the a421\M1 junctions and creating dedicated sliproads to the site, as well as discouraging construction traffic from driving through local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3169	The construction does look like it is extremely close if not affecting the A421. I would recommend that any work be completed to that road / area prior to any other work, so that roads are ready and waiting. Otherwise traffic will become stopped gawking at the work happening and cause	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3364	Possible delays on A421 which I'm sure you will be fully aware of and will find ways to make easy of traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4666	Reduction of any disturbance to the use of the a421 road as this would create huge issues for many	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3291	The potential increase in traffic and detrimental impact on the state of our road network. The project is very near the A421 which is a main artery road to Milton Keynes, London and Cambridge. It is already very busy and suffers significant traffic jams during rush hours. It would help to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
608	There has already been works for noise reduction on the a421 that has irritated locals. Methods to reduce timelines and impact would be appreciated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1979	The road link from the A421 is done as quickly as possible to lessen the impact to the traffic, maybe doing a lot of work at night to help reduce the congestion. Do only 1 side at a time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3991	The roads around the area are already unfit for purpose notably the A421 onto the A6 by Kempston, it is normal to sit on that roundabout and crawl for 20 minutes to move 1 mile towards Great Denham if this where to go ahead these roads would need developing first before a rise in traffic but	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2396	designed for large heavy good vehicles. However there is now a commercial park where Amazon is. Theirs and other vehicles come into Wootton over bridge and turn left into that area. You would gain the whole support of Wootton if the slip road you build could also be for HGVs going into that commercial park so they don't come I to the village. The road from village could then be blocked off. Wootton would be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3859	afterwards, if not done right. The public transport around Bedfordshire is dreadful, and the idea that only 35% of people would drive to the site seems to me laughable. I live about 10 miles away from the site and if I drove it would take under 10mins, compared to about an hour on the direct train. If the park opened tomorrow and employed people from my town they would all drive if they possibly could, to save wasting so much of their time. I would hope Universal would lobby hard for East West Rail to be done soon and well (electrified?) so that some of this could be avoided. The section of the A421 which the new junction would be put on is already very busy and care would be needed so that drivers who don't know the road aren't confused by the new junction. I also think adding more cars/lorries to the road during construction and afterwards would increase the need for road policing, speed cameras etc along this road. I drive the A421 from MK to Cambridge pretty frequently and I think of this stretch as the 'boy racers of Bedford' area where drivers are more likely to speed and behave aggressively than at any other point in the journey. I	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5734	Traffic management on the A421 would be a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5897	adding a relief road off the main A421 so no traffic affects bedford central and surrounding	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5606	As a resident of Stewartby, my main concern is that you will be doing road works on both the old A421 and the B530 at the same time, making the traffic awful for people to get towards Bedford, my suggestion would	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5845	Bedford is already expecting major disruption as a new rail link is being constructed between Bedford and Cambridge. The A421 link to the M1 is already busy. The M1 would need to be improved to cope. I think as long as there is good communication with local people and disruption is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5737	Construction traffic would be best advised to move at night when the A421 is not so busy. The dual carriage way would need expanding for the new park to enable locals to not been affected by park traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5789	Effects on traffic flow on A421 the Ampthill Road and A6	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5904	would be if this goes ahead without very significant investment in road and rail improvements e.g A421, M1 junction to A421 which already serves the Amazon site, a woefully inadequate rail station in almost every respect e.g. parking, insufficient platform access via lifts or walkways, very limited toilet facilities, poor disabled access, traffic bottlenecks	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

6051	the A421 and what impact that might have during construction, given the pain we are going to experience for the next few years whilst roadworks further east on the A421 occur. Being a train commuter (to London) I do have a worry that already busy services could become even more crowded but I guess that might be a case of wait and see.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5896	Just keep the A421 flowing- it has had too many restrictions and closures in recent years including now	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5811	Keep traffic flowing on the A6 and A421. Limit noise during hours of darkness for people in nearby villages. Please be aware of current traffic buildup at approx 8:00 a.m. and 5:00 p.m. between Luton and Bedford.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5978	Make the construction as less disruptive to local people as possible, e.g. careful planning to avoid causing too much traffic, especially to the entry junction of the A421 near the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5712	My biggest fear is the A421. I live on the A421 (Shortstown) and it is an essential road to get in and out of the area. Construction would ideally be outside of work rush hour times which is when the road can be busy	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5632	isn't just about the A421 (which isn't too bad) but the roads around Kempston (the Branston Way) and out towards Bromham/Biddenham as people make their way around Bedford towards the A6 at Clapham (Paula Radcliffe Way). It's inevitable these get worse, and there isn't much that can be done. Really have got to prioritise travel via rail - perhaps making it cheaper to enter the park or making parking very	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5644	Route all goods vehicle and HGV journeys to and from the site via the A421 dual carriageway only. Provide funding to turn the A6 Bedford bypass into a dual carriageway, before construction work begins, as it's	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5689	The local road infrastructure and bus network would need significant upgrading to allow for the increased traffic/demand from the theme park. In terms of road infrastructure, there would be concerns centring around	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5822	The old road that runs parallel to the A421 is a useful road to take local traffic and relieve congestion on the A421. Minimising disruption to this road would be beneficial	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5630	The road out of Kimberly college onto the main road A421 is difficult so it would be good to have traffic lights or a roundabout here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6088	Work to reduce impact on traffic flows on the A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5684	plans, making sure that all potential problems have been thought about to mitigate issues; such as much much heavier traffic, congestion at rush hour (the A421 is a main link between M1 and A1), local services need to potentially be overhauled, such as A&E and the ambulance service due to the increased footfall, more RTCs and people becoming ill at the park.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5575	There is no way around the disruption, but continual open communications and well-planned works, particularly as they relate to roadworks, would be essential to keeping the local population outside. Pressure points on the 421/C94 will be awful. Common sense when	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5204	Pedestrians and cyclists from Wootton and Kempston are cut off the site by busy A421. Safe walkways and cycle paths should connect the park	Please share any other feedback you have at this stage.	
5763	Tackle the litter problems beside the A421 and A6.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
5556	I dont think it would be safe, w, let alone with additional traffic to cycle down the A421.	If we progress this project we would be looking to make significant improvements to local walkways and cycle paths. Is this something you would	

F6149	Traffic brought to M1 / A421 and other major local routes (both ways). Train prices inceasing for commuters. Busier trains. Inevitable parking permit costs for locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6173	local traffic flow, particularly A421 in peak times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6167	Te 421 roads are particularly "hazaed prone" + would need updating re exit/entry stop roads + would need updating re exit / entry stop roads + Ampthill Rd/A6 junction very congested.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
151	What route would traffic use to access the site during and after construction, particularly from the M1 as the A421 is very noisy now let alone with any extra vehicles. The only way to use the A421 would be to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5004	I would be concerned about how the proposed development will affect access to the village of Wootton from Woburn Road and the bridge over the A421, both during construction and after the park is open.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
NOISE (208)

2586	Noise, pollution, travel disruption, you name it.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3398	Noise, potholes, traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
111	Keep people informed of what is going on and when. No noise at night. Don't close roads for any length of time. I love near Stanton Cross, a big development in Wellingborough. When they started building a well used road was closed for many months and caused a lot of distress especially	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4103	Road traffic around the a421 junctions (already a bit of a nightmare at peak times) and noise from any construction work at unusual times (e.g. in evenings / overnight)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4520	Traffic and visitors need to be kept out of the village. I have to commute to work everyday and don't want my journey there or back to be affected. Noise needs to be kept to a minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3817	Traffic is already a problem when leaving Stewartby. As a resident I would appreciate the massive impact on even more traffic due to the park to be taken into consideration. Also noise factors, its currently a very	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3830	Keep roads clean and noise to minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3317	Avoid closing roads instead use 1 way systems to enable development on one side at a time. Build down into ground to reduce overall height of structures appearance from afar, include noise reduction features such as high banking, trees and fences. Review measures adopted by local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4061	Avoiding construction traffic around busy periods to reduce traffic, noise barriers for any local housing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2249	should cope, it will, however, have a heavy impact on the local villages and Kempston. Ideally it would be good if the heavy loads could come at quiet times, but having been a lorry driver, I am aware that this is not always possible. As for the noise disruption sound deflector boards and trees will absorb some but I believe the disruption will be worth it for all	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
384	Main concern is traffic and noise pollution. I live in Wootton, and until the new dedicated access is constructed, the construction traffic is likely to directly impact me. Woburn Road is likely to become significantly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
226	Minimal noise during weekends, alternative travel routes, disruption in planned stages rather than all at the same time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
272	Road congestion. Noise Pollution!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4342	Road traffic and noise would be my main concerns.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1423	construction traffic and noise in evening. also road mess	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2657	Traffic and noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4346	Noise during the day will impact the schools, noise during the evenings and weekends will impact the residents. Also, no communication on how long building will take. If any road closes in Stewartby, it has a large impact on our travel in and out the village. We have a nature reserve so	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4042	Communication regarding noisy work eg piling, when it's happening, how long it will go on for. Noisy construction to be ceased overnight.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3021	The main point would be to ensure mitigation for noise / dust and traffic related impacts are clearly communicated. Ensure you have a fully functioning grievance mechanism in place and engage with local communities regularly. Employ a solid community liaison / engagement	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4383	Niose ,dust, traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3908	No construction noises at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2563	No, as long as noise it kept to reasonable hours. where possible local businesses are used to further benefit communities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1415	No, it won't affect me so I'm not sure what I could suggest. Maybe minimalise constructions noise during the night for residents?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2462	None just no loud noise at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
140	Be respectful of local residents during the works particularly regarding noise and mess.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1052	Not too noisy please	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2393	Traffic through ampthill Noise for local residents Impact on traffic levels	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5209	traffic impacts and noise are usually the factors that drive the greatest unhappiness during the construction of any development of any type, but I would assume you already are very aware of this. That you are fully prepared for providing ample on-site parking and addressing the road infrastructure up front looks to be a very good sign for me.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5375	traffic during and after the construction which can impact the local community by extending our daily commute journeys, the activity and the extra traffic brought by the theme park might cause noise and air pollution. This can be overcome by permanent monitoring of these factors, by implementing a theme park natural screening, and by planting	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5268	I know it will take years to complete, so the noise levels for local communities MUST be kept under control throughout in both construction and when in operation.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5411	area all my life. Most people including myself move to a quite village for the quietness and minimal disruption. The fear is the huge amount of work that would be undertaken would cause constant noise disruptions and massive traffic issues. Stewartby has 3 ways in, 2 of them being from the old A421 which is concerning as this is a major route that could be used by the park visitors. What efforts would be made to prevent traffic coming through the local villages and what would be put in place to prevent the inevitable traffic issues during peak times. My works unit is in Kempston which the park will be inbetween. This journey currently takes	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5342	I think as long as there are enough measures in place to avoid traffic build up, noise consideration as best as possible and regular updates and communication for local residents, then the project should be	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

5195	I would say keep works more in the daytime than night, or if work has to be carried out at night keep it with minimal noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5213	Keeping construction noise and light pollution to a minimum as well as strict "out of hours" restrictions in place would massively benefit locals and keep them on side. Also construction tours for local residents would	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5350	Less noise at weekends	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5265	noise in evening (I am less than 100m away from site) traffic (Will I be able to get out of my driveway with a proposed entrance so close to my drive?)	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5230	Noise? This would be my main concern during development?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5035	Reduce noise and dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5133	Since the site is in the countryside down country roads passing through quaint villages, movement of site transport of thousands of large lorry trips, noise and dust could be reduced with correct planning and constant road cleaning and movement of lorries to be between 09:30 - 14:30 then	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2720	After 6am before 11pm working construction noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3791	1. Park and Ride away from the park - i.e near the J13 on M1 and Bedford 2. Designated roads to the park which will not impact on local residents and businesses 3. Major upgrade to rail services (note East West rail construction has already begun in parts which would be the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4143	dust and noise pollution? The topography in the area is relatively flat so any dust and other harmful particules will be carried easily through the air. New build developments such as ones in Milton Keynes have been known to create a lot of dust which carries far. Similarly this could affect the lung health of those nearby such as Wootton and Kempston hardwick. This large-scale project is going to take many years to complete so the accumulative effects of air, noise and construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2910	A soundproof fence for protecting the people who live in the area, more trees, adjacent roads for the construction site before the site will be open, using the railway for the materials will be much cheaper and will be less traffic on the roads. A local bridge over the railway in Stewartby is a must,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2811	Additional traffic, small roads, noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3538	Alton Towers have had their fair share of critics in Mr. and Mrs. Ropers, who claimed that noise levels have disrupted their everyday lives. I would suggest be wary of nearby locals and to conduct sound tests to see if it is likely noise levels will affect them. It would also help to collaborate with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3184	Announce to the people that you are going to start work which can be loud and sometimes annoying for people who want a bit of quiet but assure them that the loud noises won't take long.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2207	Anything that you could do to mitigate noise and dust would be helpful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
372	Anything to reduce noise and not impact already busy roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5347	Please consider putting low level noise/back of house/car park to the Stewartby side of the site. The houses here are very close to the boundary & having some distance between them and the theme park needs great consideration. Preferably adding the theme park to the	Please share any further feedback you have at this stage.	
2848	avoid piling and drilling activities early morning and late at night	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2270	As I am not local I cant comment massively, though if I was local I would want construction to not be loud through the night or too early in the morning.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. 4149	Deliveries to the site to be done out of peak traffic hours. Setting a restriction on timing on loud work for locals that live near by.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4388	plans and progress. Consider the effect of construction on local wildlife, and develop mitigation strategies. Manage traffic around the site effectively to minimise disruption (schedule heavy goods deliveries outside of peak hours). Control noise using barriers. Use dust suppression systems. Limit work hours. Employ as much of the workforce from the local area which will offset the inconvenience with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4697	Ensure the A421 flows throughout, ideally bring as much construction material as possible by rail to reduce impact on local roads with lorries. Put screens/planting around the site first to reduce noise from the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
847	Ensure that site vehicles don't arrive during peak local traffic hours or at least spread arrival to avoid jams. Make use of rail network for freight delivery and then use vehicles on site to move items. Spread site traffic across the two entrances. Provide subsidized bus transport for local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2229	Keeping noise to a minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2798	Keeping noise to daytime hours only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1619	Keeping noisy building work to working hours and limit noise on weekends. Keep roads clean of dirt (tyre punctures and stones hitting windscreens) Planting around the site to hide theme park from close residents and will help with noise when open. Clear signage if road works	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4234	Keeping light and noise pollution to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

1978	Keep noise and traffic to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3275	Keep noise pollution low for residents, keep traffic flowing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4519	traffic from the North from the A6 taking a shortcut through the village and past two schools. We had trouble with lorries clogging up the village when Goodmans built the warehouses adjacent to the A421. I also have concerns about 5000 construction workers pushing up property prices to the detriment of local people looking to buy their first house or rent a property. Possibly make Wootton residents only with rfid barrier control. I have a concern about noise from piling, we can hear traffic on the A421. Piling needs to be 900am to 500pm only. Please build a construction workers village like Hinkley Point. Please use low emissions plant and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1147	carriageway). We have already suffered 3 years of excessive noise pollution which will be breaching the regulated decibel level. We have now suffered a year of building works whilst they replace the noise barriers. How many years have we got to suffer whilst the infrastructure is upgraded to support this project? How many more years should residents not be able to enjoy their garden due to the noise of the single carriageway. Universal/council/highways should make it a priority to shield the residents from traffic and any construction works taking place	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2284	perimeter of the park first? In this way, construction would be better hidden from locals, along with a sound barrier if trees are planted. Having dedicated roads set up to the site rather than using pre-existing local roads would also benefit the area with a reduction of construction traffic and any incidental wearing of the road due to heavy plant. Ensuring to work within certain hours which are not disruptive (at least for noise	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1944	Just to limit times for when noisy activities take place during construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4449	Just one. keep the noise down a bit as il be in the park.lol.and I have kids and babies that need sleep.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2801	Even more roads closing than we already have, noise pollution and lack of places for workers to stay nearby.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3535	For people living in the area, I think trying to minimise any use of drilling for a long period of time or any loud machinery in this matter for a long period of time as it may disrupt the local houses that are on the road in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3552	understand that they offered complimentary annual passes to immediate neighbours from my time working there, as a way to apologise for noise pollution. Traffic could also be an issue for residents too, however, most peak times to this theme park were during school holidays (July-August) Public transport upgrades would be essential for easing traffic in this area, but with good investment, this should be achievable.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4259	Having just been involved with a major housing development near to me. It's been dire. Dust noise unconvince will no regard to existing residents. These contractors went away. We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4001	Low noise construction Minimise light pollution Dispose of waste quickly AND at the proper places	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1495	Mainly noise disruption if construction takes place at night?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2575	Make sure the noise is down to minimum.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3996	My main concerns are the noise levels for my village (Wixams), During and after construction. I fear how a park so big, may negatively impact the current peaceful, atmosphere. I also fear how the traffic may affect	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3225	Mitigate noise and dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3004	Minimising noise disruption, e.g. avoid weekend working and avoid the 'beep beep' warning devices on vehicles (use white-noise warning devices instead).	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2779	My biggest concern is congestion on the roads, as the M1 is already becoming impossibly busy. Additionally light and noise pollution at night is a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1234	My concern here would be noise pollution when building, evidently it's going to take a few years to be built, with the noise and traffic impacts having affect on all local citizens	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4662	Maybe put local residents into accommodation outside of area if they'll feel more comfortable away form the noise etc particularly older generation.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3097	Obviously as you've said, try to minimise disruption as much as you can ie no noise say between 10pm and 8am	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2990	Plenty of communication and advance warnings of road blocking or noise. No construction over weekends or at least Sundays. Advance warnings of disruptive building works and maybe the majority of construction to take place on the site rather than having to be trucked in?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4499	Only concern noise pollution as we live in Wixams	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4536	Peace and quiet is a major reason why people live in this area, this needs to be the most important consideration.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2816	People living within a certain distance need to be spoken to at length because I am assuming it is going to be very noisy for a long time when it is being built	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3433	Please come to the UK We can tolerate the noise for the bigger picture	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2394	Please apply better road diversions, and do noisy construction work (piling etc) during day time, please also provide prayer facilities (if you can) for the Muslim workers for their 5 time daily prayers, or a multi faith	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3191	Try to limit equipment which uses too much noise.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4003	We are not looking forward to see increase of traffic distrupction, noise pollutions, and construction sites issues might effect locals daily life and it's all construction work negative effects on our Green Ridge, beautiful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3152	Whatever you can do to help minimise noise and traffic on local roads would be very welcome.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3011	To be built in a quiet and orderly manner.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2564	This would significantly impact my quality of life due to noise disruption and pollution	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3868	Sound	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2118	Sound barrier walls. End noise at a certain time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3749	That construction traffic does not impede local traffic and noise is kept to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3936	Temporary noise screening installed, communicate with the community. Try and deliver road and rail upgrades with the government as soon as possible so it can take construction traffic and then visitor traffic. Offer	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
865	The access to the site from Wootton will be extremely limited. If construction workers access the site from this side, it will cause an extreme level of congestion, noise and dirt (mud and dust from the lorries entering and leaving the site) that will have an extremely negative effect	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3228	construction. Create access points which won't impact people's travel requirements. There are many new housing developments in the area, most (all!) without the infrastructure they should have, which consequently means residents to need to drive around 20 minutes to healthcare providers, schools, transport links, shops and suchlike. Traffic is already an issue and I can imagine they wouldn't appreciate being surrounded by traffic control situations in every direction. It would also be good to make sure it is surrounded by some kind of noise reduction, such	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4910	To look into ways of restricting and minimising sound disturbances during the building phases	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3840	especially Wootton developments, including traffic congestion around the area, influx of people trying to park around the estates, noise pollution from increased traffic and also noise pollution from the park itself. Would be good to know more about how this will be avoided. This could also lower the prices of our homes, would people who have purchased houses in this area be fairly compensated for the disruption and loss of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2096	and traffic. With infrastructure disruptions, adjusting train lines/ adding stations and creating new major road links will be the largest disruption as this will affect commuters and the local people directly through diversion routes and or added journey times. As long as the local people can see a positive out weighing the negative, people will get by.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
608	There has already been works for noise reduction on the a421 that has irritated locals. Methods to reduce timelines and impact would be appreciated.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3442	The roads around the area are already very busy and a lot of them are B roads. This WILL cause major disruption for a long time for communities around the proposed park. Not to mention the noise, mess and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5763	A6 Road noise, fumes, queues. Air pollution is increasing in the nearby villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5657	Be considerate with the hours you carry out noisy work. Have appropriate systems in place to reduce dust. Mend any pot holes created by heavy vehicles. Listen to the locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5559	By keeping the B530 a quiet road and minimising noisy machinery and keeping it between certain hours for shift workers.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. 3791	1. Park and Ride away from the park - i.e near the J13 on M1 and Bedford 2. Designated roads to the park which will not impact on local residents and businesses 3. Major upgrade to rail services (note East West rail construction has already begun in parts which would be the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

3746	All construction brings issues that is unavoidable. But again we are connected to the A1 and M1 by duel carriageway and nearby main train line these can help reduce local traffic to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4851	bridges or generally not suitable for HGV traffic on alternative routes. This needs to be given sufficient consideration particularly when developing the site access from the A421. There isnt a practical alternative route for HGV's, any detour would add time and distance so ideally this route needs to remain open throughout development. The train stations require significant improvements, so timely alternative	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3170	All materials to sire using rail, A421, A1 and M1. No construction traffic on A6. A428, A507	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1172	As this project involves new junctions with the A421, a new Thameslink rail line station, and seemingly additional work at the Interchange Retail Park roundabout, minimising disruption to these critical transportation	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
870	infrastructure isn't as well developed as it is in the south of the country. We would appreciate a thought to those travelling from the north of the country, and not just London, and the local airports to the area. Thinking about trains and motorway connections, making it more seamless will attract more visitors, as the journey can be quite tedious.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
422	Be sure to consult with Wixams, due to their proximity to the railway station and the upper end of your core zone. The best way to minimise disruption would be to have any construction traffic enter from Woburn road rather than the B530. With the A421 bypass following the route of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4787	Build a train station close by	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1025	Commuting by train and by car is hard as it is, reducing this disruption would be greatly appreciated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3836	Consider utilising the nearby Bletchley railway line for freight delivery to reduce construction traffic on local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4034	Consider bringing materials in via rail Strict working hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3933	Consideration regarding traffic (vehicle) delays while construction is going on and while the park is open. Minimise vehicle traffic and provide modular modes like train, tram or transit travel between train	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3668	disruption to local areas and road networks which can then be transformed into car-parking areas for local visitors and those unable to use other modes of travel, again within your site as well and directly linking to a parkway type station connecting with Midland Mainline and Marston Vale railways keeping clear of the town centre.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4678	Creation of a dedicated road access to the site will be essential to avoid disrupting the local community. Consideration of using the local rail links for delivering construction materials to the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1160	Disruption to train journeys could be a concern when building a new station in the area on the main line, and I'm sure noise and traffic would be a concern for the local towns (Wixams, Wootton, Kempston), as well	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4144	Don't delay existing plans - most of which are long overdue due to poor management and planning. Wixams station needs to be operational ASAP - not subject to any delays regardless of future upgrades.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3178	Dont make another HS2 type situation, you would upset a lot of people in the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4697	Ensure the A421 flows throughout, ideally bring as much construction material as possible by rail to reduce impact on local roads with lorries. Put screens/planting around the site first to reduce noise from the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3102	an anomaly that whilst one can travel up and down the country easily by train, it is almost impossible to travel across the country by train. Buses also have an issue with that. So closing of rail lines for the work would have a major knock-on effect on travel. You mention the East West train service which currently is a single track running between Bletchly and Bedford which generally has only one train an hour in each direction. This line would need to be massively upgraded and ideally needs to connect with north/south rail lines right across the country, otherwise visitors will have no option but to drive to the park once it is open Looking at the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2329	crossing by HGVs which caused damage to vehicles using the crossing. The local area can already get congested, having materials which can be produced onsite would really minimise this, for example having mobile plant onsite for the production of concrete, mobile crusher and screens for processing construction demolition waste / materials for circular economy. Utilising the rail rather than road. In addition to the minimising	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
847	Ensure that site vehicles don't arrive during peak local traffic hours or at least spread arrival to avoid jams. Make use of rail network for freight delivery and then use vehicles on site to move items. Spread site traffic across the two entrances. Provide subsidized bus transport for local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4573	Ensure the new train station at Wixams covers both fast and slow lines. During engineering work network rail close one line and if the station is only on the slow lines the station would be missed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3310	You may want to contribute to the beautification of the railway connections. Bedford station is efficient but well, ugly, and may dampen rail visitors expectations.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4128	You have adjacent access to the Midland Main Line and Marston Vale railways which hopefully would be used to ease the reliance otherwise on road transportation of supplies and materials. You will need to coordinate your intentions with those of East West Rail Co who have not yet settled	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4476	Just use common sense, don't block the roads completely. Use the train track to transport the materials by train if possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
490	Ensuring existing roads and railways remain useable	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2623	Ensuring that local road, rail and bus services improve	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4555	Extra trains on the marston vale line would affect villages with stations/road crossings in them	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
133	Focus on the rail infrastructure immediately when looking to begin construction as this may be impacted by network rail and their availability/plans already set for the railways in the area, worth looking into	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1647	I don't have much thoughts, but keeping roads & the local rail network open at all times during construction needs to be a priority.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3956	Hours of operation, light pollution during winter months, impact of heavy vehicles on existing infrastructure. Would be great to see rail being utilised for delivery of raw materials to minimise road usage during	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3101	How the traffic will be diverted away from Amptill as it is a small single track at points village, and how the train lines (Thameslink) will handle in influx of new people	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1161	I am concerned with the impact on traffic and rail. This development has the potential to be very disruptive to all who commute into and out of Bedford. For example students travel to Bedford College from all over Bedfordshire, generally on busses. It is important that their transport is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2072	I do not live in the area so could not comment but as there is a rail line next to the park, could materials and equipment be brought in via rail to keep traffic/heavy goods vehicles away from the community?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
587	I don't live too local to the area but I do travel though a lot on the trains so my only major concern construction wise would be train disturbances and rail closers due to construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3618	I think it would add value to the area. If universal are looking not only build a park, but create local jobs, support the local community, and build and develop local infrastructure that will also benefit the local area this will be beneficial to the local people. Ensure work is not closing too many	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3906	I think most people worry about the train and road system and how these would cope with increased load and no extra capacity	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2004	I think the best way to mitigate local concerns (I live in Wixams) is to invest early in the A421 slip roads, Wixams station so people feel an early benefit and not be negatively impacted by construction traffic. It's probably also worth highlighting early any additional benefit to local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3930	I'd suggest building the new train stations ASAP to reduce the impact on local residents due to the planned road construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1017	improve access from A421. And the nearby rail network including the proposed Wixams station	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4311	Innovation in terms of using rail as much as possible given the site location. Making sure local villages are not used as rat runs. Coordination of peak traffic flows to avoid rush hours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1807	It's probably more on the grounds construction issues regarding the rail link network. Seeing how other UK rail link network construction has come across some sort of problems with undetected sink holes and such.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3721	Looking at your plans you seem to have given great thought to the local roads and installing measures to mitigate congestion on the roads and heavily promoting rail travel to the park. with Luton being a fairly close airport, will you be planning on expanding the service from Luton to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4402	Make sure the local roads are not affected by Heavy road traffic and try to use the railways to bring in large amounts of material as it much better for the environment	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3918	Maximise use of the existing railway network.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4512	Make use of the railway line that is running close by to the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2708	My concern would be the disturbance of existing services like trains to and from London.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
576	Minimising disruption to the MK to Bedford train service and roads would be appreciated	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4148	Off site parking and using rail links to bring visitors in would have a much reduced impact as opposed to trying to improve already saturated roads. Areas off J13 of M1 like near Ridgmont would work well	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2990	Plenty of communication and advance warnings of road blocking or noise. No construction over weekends or at least Sundays. Advance warnings of disruptive building works and maybe the majority of construction to take place on the site rather than having to be trucked in?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2558	Working closely with the council to ensure infrastructure is suitable Minimising disruption to the A421 and to the Thameslink rail line is very important	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2538	to minimise impact on traffic flows and disruption. Good continuous advance communication of any major works. Create integrated transport hub at Bedford Park and Ride to link with Wixams station. Provide frequent direct bus links to new theme park from Bedford and surrounding areas to minimise increases in traffic and maximise benefits	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3187	The local rail network is extremely unreliable (& expensive!) focus on this to be more environmentally aware and provide better transport links would be hugely beneficial.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2194	Personally I live in Northampton which is close, but not close enough to be heavily disrupted. My concern would be disruption to transport links - M1 etc. but these need improving and our councils can't afford it. It's a	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
729	Unsure where the new train lines will be placed, its of concern for many people.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
216	Use if rail for deliveries of construction materials and removal of waste.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2176	Use rail freight as much as possible, the site will be uniquely positioned to handle this especially once the line upgrade happens, and if materials can be transported at night there won't be a significant impact on the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3293	Use rail transport if possible. There are established freight routes to the area from the days of brick making and import of waste to the landfill sites at Brogborough and Stewartby. Keep the local populace informed in advance of major disruption - people are much more forgiving if informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4845	Use the local railway as much as possible for the delivery of construction goods.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3273	Use the train network as much as possible for deliveries and transporting workers to site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1540	use trains for materials Minimum road disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3137	Utilise local train links including sub lines to transport materials and equipment. There is an old train line directly to the former brickworks	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2509	Utilise the rail network as much as possible! It's far better for the environment than using HGVs and you have two to choose from!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3158	St Pancras International is p our London terminus and required years of careful reconstructive work.in preparation for 2012 Olympics Modern methods of assessing logistics and changes to road use etc will ensure it's a minimal disruption. I have every confidence it would be worth it in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
963	The increase in the train network would be a necessity, I live along the train line that would reach the destination and it'd need more trains and really importantly with more carriages - too often we have 4 carriage	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3426	Proactive/transparent communications in advance and during construction to manage expectations. Construction traffic to only use designated routes on main roads (ie A421/Woburn Road and to keep off unsuitable local roads). Set up rail head for deliveries etc by rail.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
867	and get construction workers to site via public transport. Also, there are disused rail sidings just to the south of the site, where possible, Universal should look to bring these rail sidings into use and then use freight trains to get materials to site. While yes there will still be disruption and trucks getting stuff from the sidings to the Universal site, the more goods transported via the rail system, the less HGVs that will be flooding the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4614	There's lots of road options for people driving around so focus on not disrupting railways.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2350	Think you should fund an improved train service from Bedford to Bletchley and make all construction teams come by public transport. There are currently poor links from the east to the area so maybe take over the A428 construction compound at St Neots when national	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4446	There are many alternative routes other to access this site. I am not concerned about traffic during the construction phase. I would be more concerned about how the capacity of trains would be impacted once	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3165	the use of rail to bring materials in would be a great idea, Forders sidings sit empty just a few hundred metres from the site, you MUST consider using them surely ??	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
483	The trainline is an important commuter line, ideally there would be no interruption to train services while the new stations were built.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2902	children to and from school) are already problematic. We are concerned about the impact on this situation as a result of both construction work and later visitor numbers. Secondly, as London commuters, we would not want to see any negative impact on rail services (either in terms of frequency or capacity) as a result of the construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3988	The roads in this area are already traffic hotspots, so try to minimise any road closures if possible. Similarly with the train network, it is already unreliable enough but we have a large commuter network in the town to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3688	line with this development. By following the A421 route and the old line, it would bring customers directly to the park while minimising the environmental impact on the other side of Bedford. The current OxCam route would necessitate further Road and infrastructure development in order to channel park customers to the proposed park, and is difficult to see how Bedford would cope with this. The park is an opportunity to concentrate the routes and maximise the utility of Bedford and the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6051	the A421 and what impact that might have during construction, given the pain we are going to experience for the next few years whilst roadworks further east on the A421 occur. Being a train commuter (to London) I do have a worry that already busy services could become even more crowded but I guess that might be a case of wait and see.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5632	isn't just about the A421 (which isn't too bad) but the roads around Kempston (the Branston Way) and out towards Bromham/Biddenham as people make their way around Bedford towards the A6 at Clapham (Paula Radcliffe Way). It's inevitable these get worse, and there isn't much that can be done. Really have got to prioritise travel via rail - perhaps making it cheaper to enter the park or making parking very	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5813	Trains in the UK are notoriously unreliable, expensive to use and dirty compared with the rest of Europe, hence they have a very bad reputation and people are reluctant to use them. You would need to work hard to convince British people it is a good way to travel or you may see greater	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

5650	Construction could be minimised by the used of the existing rail line.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
6032	How would most of the materials be brought in, would you set up the railway system first to bring those materials in and would some of them be brought from the local/regional economy?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5540	Use railway as much as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5863	I hope you would use the railway where possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5706	It might be beneficial to use local rail links already in area to transport materials during the building phase.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5703	restricted working hours is the norm over here, the major issue is the transportation of materials in and of spoil and rubbish out. London has a strict code of vehicle washing which prevents the streets around being covered in mud something which isn't applied elsewhere as a trip around any construction site vicinity will show you. Possibly use of the EWR line with Electric locos, would have to be battery powered but that's viable, used regularly on London Underground. So that transfer onto another	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5592	I would love to see beter transport links for the local area and the park. Special business or new train station delivering people to the park directly. Also the local road network will need to be overhauled to accommodate the extra traffic with I suggest the implementation of a	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5515	materials by rail as there are nearby sidings and thereby reduce the number of lorries/trucks. Understand local traffic patterns and avoid them. Use drone type overviews to show local people what will happen. Establish a feedback loop so that any problems are identified and rectified ASAP. Do not rely on Local Authorities for this as they now lack the competence to understand how incompetent they are. You are also on the boundary which complicates matters. Central Gov't, especially the Treasury, does not understand local gov't and makes sweeping generalisations that cannot be realised. EWR are incompetent and not to be trusted. They were set up as a standalone vertical integration with a view to being privatised. This is completely unrealistic in the current climate but the culture remains. Hence their obsession with 6 tracks north of Bedford so they have their own train set to play with. In reality they are now the most heavily subsidised railway in the country in %terms. And they will be subject to cost cutting once the effect of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5681	Please minimise disruption to the Bedford to Bletchley line trains and Ridgmont Station	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6149	Traffic brought to M1 / A421 and other major local routes (both ways). Train prices inceasing for commuters. Busier trains. Inevitable parking permit costs for locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6143	Bedford train traffic is already conjested but providing out of town links are very good, this will work.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6162	Potentiall use Marston Vale Railway to bring in large volume og materias	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
F6209	Maximise use of rail during constuction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

F6166	Wixam rail station - to expand existin plan.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6178	Better road network around Wixams. Encourage that the extra investment is going to rail	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4519	Construction workers using Wootton as a shortcut. This needs to be managed very carefully as traffic goes past two schools	What is the most important consideration for you when considering a potential theme park and resort project in Bedford?
191	Maybe have dedicated service roads for the site rather than using the already relatively congested main roads	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
128	To complete as quickly as possible. Using the railway as the the main source of transport.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
160	Delivery of materials by boat and/or rail.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
174	Avoid as much as possible any disruption of the local road networks - consider the use of rail to import materials.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
178	Use rail infrastructure to bring in people and materials	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4814	The A421 can be busy, so prioritising the Marston Vale railway line to bring in goods would be far more productive, creating a small rail siding into your land would take more trucks off the roads and increase	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
126	The creation of direct roads from the main trunk route (A421) for construction traffic would be sensible. If you really wanted to be responsible, then build rail sidings to enable delivery of materials &	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1824	Improve rail links between Bedford and Milton Keynes and encourage using rail connections rather than road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1754	Will there be waiting areas within the park for HGV vehicles to wait untill required. As we all know truck drivers always arrive before the official opening times and park wherever they can which does cause	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3813	With any large scale construction there will be obstacles and most will present themselves during the construction period. Offering services like power washing properties/roads that are affected by dust/dirt maybe an	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1812	No construction traffic through the villages, utilise the railway	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3008	Travel Management and Freight Plans are essential but equally so is laying on busses to minimise worker travel to site. Ensuring that freight does not enter the town centre between 7-10 am and 3:30-7:30pm is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1534	A private access road for storage of all materials that is secluded from the locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2910	A soundproof fance for protecting the people who live in the area, more trees, adjacent roads for the construction site before the site will be open, using the railway for the materials will be much cheaper and will be less traffic on the roads. A local bridge over the railway in Stewartby is a must,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3170	All materials to sire using rail, A421, A1 and M1. No construction traffic on A6. A428, A507	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

1408	Clear routs for materials and where possibly the minimising of visual impacts of construction (dirt and traffic)and sounds from the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2609	Build canal link to the Grand Union in Milton Keynes. Use the waterway to transport materials to the site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4874	Care must be taken bringing materials/staff to site. I would anticipate that there will be an enormous number of trucks in and around the surrounding area prior to any improvements to the road infrastructure,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2020	Concerned about noise and vibrations as I'm sensitive to both and I live only a mile away from the site. Also thought bleeds to be made on where lorries will park overnight/rest stops when they reach their max tachometer hours. There needs to be a designated area for them to park away from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3836	Consider utilising the nearby Bletchley railway line for freight delivery to reduce construction traffic on local roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4034	Consider bringing materials in via rail Strict working hours	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4504	Consider using the railways for bulk material import. There are sidings in Stewartby you can use.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1266	Consider road infrastructure first, perhaps temporary routes for construction vehicles and storage facilities for storing materials. Also be transparent about construction times / schedules; be sensitive regarding noise levels at certain times of the day and if this cannot be avoided in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
746	Could leverage river for construction materials to minimise road traffic, expand A421,	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
548	Control of logistics during the construction phase is critical and workforce is unlikely to want to be site based to a major extent	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4678	Creation of a dedicated road access to the site will be essential to avoid disrupting the local community. Consideration of using the local rail links for delivering construction materials to the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
834	Current access to the site would be via local roads which cannot support large amounts of construction traffic. If a designated road to access the site could be constructed to keep the traffic away from the villages and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4149	Deliveries to the site to be done out of peak traffic hours. Setting a restriction on timing on loud work for locals that live near by.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4697	Ensure the A421 flows throughout, ideally bring as much construction material as possible by rail to reduce impact on local roads with lorries. Put screens/planting around the site first to reduce noise from the site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2329	crossing by HGVs which caused damage to vehicles using the crossing. The local area can already get congested, having materials which can be produced onsite would really minimise this, for example having mobile plant onsite for the production of concrete, mobile crusher and screens for processing construction demolition waste / materials for circular economy. Utilising the rail rather than road. In addition to the minimising	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
847	Ensure that site vehicles don't arrive during peak local traffic hours or at least spread arrival to avoid jams.Make use of rail network for freight delivery and then use vehicles on site to move items. Spread site traffic across the two entrances. Provide subsidized bus transport for local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?

2469	You are using a small country road for access , this is poor You will need to ensure that limits one construction hours and delivery frequency are formed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
534	railways to transport construction materials and/or removal/additional soil to or from the site. If additional soil for backfill/levelling/raising ground is required, consider utilising the waterside park canal project to obtain such soil as the project is again very local and will require excavation to conduct...a win-win situation.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1049	Keep all incoming deliveries/lorries/supplies coming in via major a-roads and route all traffic away from towns and villages	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3210	Keep all Lorries to the main road, but improve the roads before work starts	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4476	Just use common sense, don't block the roads completely. Use the train track to transport the materials by train if possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1044	Just that materials and the transportation of these materials and how communities will be compensated for the disruption and distress	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1624	Investigate using the rail network for delivery of aggregate to site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3956	Hours of operation, light pollution during winter months, impact of heavy vehicles on existing infrastructure. Would be great to see rail being utilised for delivery of raw materials to minimise road usage during	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2072	I do not live in the area so could not comment but as there is a rail line next to the park, could materials and equipment be brought in via rail to keep traffic/heavy goods vehicles away from the community?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3730	I see a new rail station is a potential, but how about working with Network Rail and building a siding and bringing materials in by train.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3115	I think minimizing debris on the local roads, with controlled access of deliveries would be beneficial... Perhaps a separate access road to the site from multiple motorways/A roads would also reduce complaints from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4516	I would avoid using village roads where you can, maybe use rail to get large items in too - this could work for large items of track for any large scale attractions too. Working during the night could work too, such as what has been done at Epic Universe already in Orlando - where ride	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
680	If the close proximity of the rail lines can be used to transport some of the materials and keep them off the road, that would be great but I'm no expert in this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1184	of the construction site, I feel that there would need to be sound barriers put in place in order to prevent disruption as much as possible within the community. Also another thing Universal will need account for, is the construction equipment as well as any deliveries of material for construction to and from the site. There will be a need to look into how that will effect the roads within the area as regards to the local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3897	If the proposed rail line is implemented then this could be used to aid in the transport of supplies for the construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2352	outside of core rush hour traffic. Road infrastructure improvements should be prioritised in my view, so that it allows better access for materials and site crews, but this will be a long build programme and it would be nice to deliver community benefit and minimise disruption wherever possible ahead of the park opening. Otherwise, the site appears a good distance from other residential property so I wouldn't see	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4402	Make sure the local roads are not affected by Heavy road traffic and try to use the railways to bring in large amounts of material as it much better for the environment	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4484	Maybe deliveries to avoid school run times	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1757	Maybe have deliverys for site after 9am and before 3pm.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1281	Maybe a separate road network for construction use then utilised into public roads after construction has finished	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3744	Maybe use multiple modes of transport.and arrange for the big deliveries over night when the roads and raile are very quiet anyway.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1414	Might sound stupid but our roads are not as big as in America so you may need to consider this when brining in big items for construction. I think the main thing is communication so that locals know when things	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2517	My only worry would be the traffic due to deliveries and aggregates	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4453	On site concrete batching. Youth apprenticeships. Strict delivery access routes. On site parking for contractors. Smaller deliveries combined in an off site facility, transported to site together to reduce impact on local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2755	One issue we already have as Wixams residents is HGV traffic from the industrial units which cause chaos at rush hour cuz they can't get onto the roads from junctions/roundabouts as easily as small vehicles. I believe as long as the building access roads are created adequately from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
616	Please use rail as the main way to bring construction materials and people to the site to reduce the impact of thousands of vehicle movements on the highway network	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
216	Use if rail for deliveries of construction materials and removal of waste.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2176	Use rail freight as much as possible, the site will be uniquely positioned to handle this especially once the line upgrade happens, and if materials can be transported at night there won't be a significant impact on the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3293	Use rail transport if possible. There are established freight routes to the area from the days of brick making and import of waste to the landfill sites at Brogborough and Stewartby. Keep the local populace informed in advance of major disruption - people are much more forgiving if informed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
4845	Use the local railway as much as possible for the delivery of construction goods.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3273	Use the train network as much as possible for deliveries and transporting workers to site.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1540	use trains for materials Minimum road disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

3137	Utilise local train links including sub lines to transport materials and equipment. There is an old train line directly to the former brickworks	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2509	Utilise the rail network as much as possible! It's far better for the environment than using HGVs and you have two to choose from!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1198	What about the plant machinery entering the site and eventually ride construction. How will you over come congesting local roads with machinery, construction workers and eventually rides coming onto site?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3426	Proactive/transparent communications in advance and during construction to manage expectations. Construction traffic to only use designated routes on main roads (ie A421/Woburn Road and to keep off unsuitable local roads). Set up rail head for deliveries etc by rail.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
867	and get construction workers to site via public transport. Also, there are disused rail sidings just to the south of the site, where possible, Universal should look to bring these rail sidings into use and then use freight trains to get materials to site. While yes there will still be disruption and trucks getting stuff from the sidings to the Universal site, the more goods transported via the rail system, the less HGVs that will be flooding the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
968	Rail line and freight yard near site could be useful for bulk deliveries, and truthfully keeping locals informed on plans.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1206	to minimise traffic, have materials and equipment delivered at night when there's less traffic on the road	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2940	To the extent that materials can be sourced locally (accepting that will be quite limited) I think it should be done. It would also be appreciated if you could try to schedule deliveries outside of rush hour traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2350	Think you should fund an improved train service from Bedford to Bletchley and make all construction teams come by public transport. There are currently poor links from the east to the area so maybe take over the A428 construction compound at St Neots when national	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2502	There are structures like old bridges that can not be changed so bringing equipment to this site is not feasible whichever way your routes would be.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3959	There are 3 entrance points to the site. I would avoid using the "amphill village side" as traffic to Kempston retail park is already crazy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3165	the use of rail to bring materials in would be a great idea, Forders sidings sit empty just a few hundred metres from the site, you MUST consider using them surely ??	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5869	Only allow electric construction vehicles. Restrict helicopter use - they are a nuisance round here.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5644	Route all goods vehicle and HGV journeys to and from the site via the A421 dual carriageway only. Provide funding to turn the A6 Bedford bypass into a dual carriageway, before construction work begins, as it's	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5650	Construction could be minimised by the use of the existing rail line.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
6032	How would most of the materials be brought in, would you set up the railway system first to bring those materials in and would some of them be brought from the local/regional economy?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5540	Use railway as much as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5863	I hope you would use the railway where possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5706	It might be beneficial to use local rail links already in area to transport materials during the building phase.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5703	restricted working hours is the norm over here, the major issue is the transportation of materials in and of spoil and rubbish out. London has a strict code of vehicle washing which prevents the streets around being covered in mud something which isn't applied elsewhere as a trip around any construction site vicinity will show you. Possibly use of the EWR line with Electric locos, would have to be battery powered but that's viable, used regularly on London Underground. So that transfer onto another	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5931	Consideration with the timings of the deliveries to avoid rushours.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5515	materials by rail as there are nearby sidings and thereby reduce the number of lorries/trucks. Understand local traffic patterns and avoid them. Use drone type overviews to show local people what will happen. Establish a feedback loop so that any problems are identified and rectified ASAP. Do not rely on Local Authorities for this as they now lack the competence to understand how incompetent they are. You are also on the boundary which complicates matters. Central Gov't, especially the Treasury, does not understand local gov't and makes sweeping generalisations that cannot be realised. EWR are incompetent and not to be trusted. They were set up as a standalone vertical integration with a view to being privatised. This is completely unrealistic in the current climate but the culture remains. Hence their obsession with 6 tracks north of Bedford so they have their own train set to play with. In reality they are now the most heavily subsidised railway in the country in %terms. And they will be subject to cost cutting once the effect of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5547	The most important is creating adequate laydown areas on site through the construction period so the local roads are not blocked and planning the lorry movements to avoid the busiest periods. Hours of on site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6162	Potentiall use Marston Vale Railway to bring in large volume og materias	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6209	Maximise use of rail during constuction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6142	Use old railway sidings at London Brick site to transport freights in & out to lower road usage.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3993	Not night working as that impacts the wildlife and nearby residential areas.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
M1 (70)		
ID	Comment	Question
3967	The M1 is already a nightmare. The extra visitors would cause chaos	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4804	The M1 junction would have to be updated. It's already unsafe, it will get worse with the added traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

2580	Noise - protect the local residents and wildlife from excess noise. Roads - M1 gets VERY busy and congested at the nearby junction. The local roadways get congested already e.g. black cat roundabout, MK junction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4582	Keeping access from villages to M1 as open as fully as possible for commuters	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4109	M1 can be v busy and slow, and roads out of Bedford to M1, opportunities to improve the infrastructure would be beneficial	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2578	M1 Junction 13 is a particular mess, this would have to be improved / upgraded given that the vast majority of construction traffic would use the M1. The A421 and local rural roads would struggle to handle a significant	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2175	M1 junction is very busy, would benefit a new junction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2778	Minimise disruption to J13 of M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3528	Minimise disruption to M1 and A1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4332	Road links from the town to the M1 in and out should be a major consideration for minimal disruption.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3515	Road Links need to be carefully considered especially in relation to the M1 and potential cut through routes using local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2496	The most direct route via road is from the M1 motorway to the site is through my village and would go past the end of my road, would any large movements be at certain times in the day??	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3806	The A421 is a busy road for connecting A1 to M1, it's important to keep this disruption to a minimum as people commute to Milton Keynes from the A1 side	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
264	The A421 is shocking and needs improving as does junction 13 of the M1. All road works need to be completed swiftly and not dragged out as they often are here in the uk.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4117	The A421 will be the main vehicle access to the site. This is the main route between the A1 and M1 and will need to be managed with care.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2518	As above my main concern would be traffic, local to the village, on the A421 and the M1.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2813	Avoid peak time disruption on major roads, such as the A421 which is a major route for Bedford to the M1 and A1.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4306	M1 and A421 in this area are already an issue, always congested. That's a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4553	Minimal impact on the A6, A421 and M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

675	affect the success of the park. There are some works taking place currently on that motorway, and they are essential works, but due to bad a bad approach to the implementation of the work, there is a long stretch of motorway that is very slow and will potentially deflate people before arrival, potentially even turning them off of coming. These works are due to be in place for more than 12 months, which makes alternative routes vital. I would suggest a minor train system that feeds in from more local stations may be the best approach to reduce road issues and may affect	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2128	road needs upgrading first to make it a suitable route for heavy machinery and vehicles while also ensuring free and safe use of the road by local residents. With the proposed main access being from new/remodelled roads these will only give access to the main park site once a tunnel or bridge is constructed to cross the Marston Vale railway line, which is unlikely to be your first part of the development or will be dependant on Network Rail or the East West Rail project to permit access by this route. The proposed new roundabout and roads to provide access to the park needs to be re-designed. Access to / from the A421 should be direct and not have to use the roundabout. If there is to be a roundabout by the park entrance the end of Broadmead Road should be re-routed to also join the roundabout. With the current proposal it is only	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5184	There should be a slip road straight from the M1 the proposed slip road and road that will give the park access is already too busy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5072	There should be no lane restrictions on M1 or current access roads at peak times. Consideration should be given to number of road disruption a local resident might encounter trying to get to work. Eg there should	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5207	As long as the M1 and A421 keep flowing and nearby housing estates don't clog up with cars (travelling or parked) it will be fine there too.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4830	Traffic on M25 and M1 and A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3968	Traffic management just needs to be considered when building new roads and Bedford Council will need to consider improving links/roundabouts at j13 M1 that connects with A421. It is already	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4664	Traffic is poor in general due to M1 roadworks so must not clash	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2730	Use less M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3791	1. Park and Ride away from the park - i.e near the J13 on M1 and Bedford 2. Designated roads to the park which will not impact on local residents and businesses 3. Major upgrade to rail services (note East West rail construction has already begun in parts which would be the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3746	All construction brings issues that is unavoidable. But again we are connected to the A1 and M1 by dual carriageway and nearby main train line these can help reduce local traffic to a minimum	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3170	All materials to sire using rail, A421, A1 and M1. No construction traffic on A6. A428, A507	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2534	As the A421 is a main route to the M1 and Milton Keynes any work that could impact this should be planned and advertised well in advance	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3283	Being so close to the M1 has its advantages, but can create traffic issues on certain days making travel in the local area difficult. This could be potentially further impacted. I would not want to see the smaller local	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2642	Conjestion on M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3819	Convince the council (Bedford Borough AND CBC) to downgrade the A603 (through Moggerhanger and Willington) to a B road and do not use this as a diversion route whenever the A421 or A1M are closed. The road is not fit for purpose as an A road and is a constant nuisance/danger to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4197	Continue with the plan that no traffic is to go directly through local villages. Can roads be expanded to be able to sustain the additional traffic. I know research suggests this will not be a problem, but as a local resident I know it definitely will. The M1 and traffic congestion is a major	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
482	Ensure clear access to the M1 for Bedford	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2859	I think we live far enough away to not be affected in any major way.Keeping the A421 flowing between Kempston and M1 is important.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2974	Ensuring that key construction routes are used and enforced. Minimising heavy traffic through local towns and villages. One aspect may be how to reduce heavy construction vehicles coming across country from A1 to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
561	For those of us who have to travel up and down the M1 motorway regularly, the minimum disruption possible to this major route would be a bonus. There have been roadworks seemingly constantly on the M1 for a number of years which often have massive impacts on journey time, and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4612	Hopefully disruption ot A421 is kept to a minimum as this is the main road people from Bedford use to go to M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4390	How do you anticipate this impact on traffic coming off the M1 as this is already an incredibly busy junction so would there be any plans to add another slip road here?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1710	section from the M1 and that M1 junction 13 needs improving. The A421 is a pretty busy road with accidents causing a nightmare so a dedicated lane some distance before the exit would be good so a lane isn't taken with traffic. I also think Bedford main train station needs upgrading as many who come from the north will need to switch train at the station and you want your customers to have a better experience.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4439	I think old or closed off roads could be used as access to the sight and as the sight is close to the A6 and M1 I think there would be minimal issues to the public and community	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3939	I think you should create a new access direct from the A421 and possible the M1 rather than use existing roads.Also you should assist in the creation of the homes for the workers. Wixams is close but there are few affordable homes for people on the salaries you are likely to pay your	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1491	I understand that the A421 will probably be the main road linking to the resort, this is a heavily used road connecting the M1 and A1, so once again it is a great place to locate the park. However, during construction, it may be best to minimize disruption on this particular road where	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4436	I would advise a direct route from the A1/M1 around the back of the development. Avoiding A421	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3200	Increased traffic on the A421, in both directions would be bad, therefore the roundabout leading to the M1 & Milton Keynes needs to be thought about. During peak times, this roundabout is a nightmare, increased traffic would make this worse. Any construction vehicles should try to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2704	It needs to be important to improve roadways and train access to the site before and during construction efforts. Since the junction 13 on the M1 and with the A1 at the black cat roundabout has been a major choke point in the past I believe it is important to ensure that any improvements	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3181	Junction 13 and A421 traffic during rush hour can already be chaotic - so that would be my only slight concern	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3810	Make sure the M1 does not get clogged up	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2779	My biggest concern is congestion on the roads, as the M1 is already becoming impossibly busy. Additionally light and noise pollution at night is a concern.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1805	Significant traffic disruption on the B530, people ignoring the preferred route into the park. Parking in Wootton and other villages by people looking to avoid parking charges. Significant road improvement needed at j13 of the M1, access from the A421, need for local traffic to be able to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3201	Widening roads and creating specific junctions for the site from the M1 would be helpful because the A421 can be busy at peak times.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
234	Overnight construction where possible not done at the same time as other roadworks. Provide direct route from M1 and A421 into Universal to minimise impact on other traffic and utilise park and ride from Elstow and Wixhams to provide bus connections directly linked to existing	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2194	Personally I live in Northampton which is close, but not close enough to be heavily disrupted. My concern would be disruption to transport links - M1 etc. but these need improving and our councils can't afford it. It's a	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1091	Please keep diversions to a minimum. There should be a direct link road between m1- A421 to minimise disruption to the m1 j13 junction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3220	Please try to avoid disruption on the M1 and main 'A' roads in the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3571	Very concerned about traffic. A421 might cope, but J13 of the M1 would be horrendous - it is already bad in the morning. I think commuting workers should follow agreed routes, so that local routes are left free for	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4673	The A421 / Junction 13 M1 infrastructure must be improved for the project to go ahead successfully	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
1268	The first priority should be the a421\M1 junctions and creating dedicated sliproads to the site, as well as discouraging construction traffic from driving through local villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2341	This development will be on the direct route to and from the M1 motorway, any disruption would not be good so need more roadway in place.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5845	Bedford is already expecting major disruption as a new rail link is being constructed between Bedford and Cambridge. The A421 link to the M1 is already busy. The M1 would need to be improved to cope. I think as long as there is good communication with local people and disruption is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
5689	The local road infrastructure and bus network would need significant upgrading to allow for the increased traffic/demand from the theme park. In terms of road infrastructure, there would be concerns centring around	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

5801	M1 junction 13	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5542	Please do not clog up the M1.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
5488	At the moment it takes 5/10 minutes and this is handy if we need to go to our doctors surgery, schools or somewhere urgent. This will change significantly with volume of traffic coming to and from the east. There will be just as much traffic travelling from the East & the A1 as there will be from the West & the M1. We are small villages surrounding what could be huge. This project needs to work with the villages and sympathise with its people in terms of every day life. Infrastructure and the quality of it will need to be taken very seriously. Following Covanta, nearby, the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
F6149	Traffic brought to M1 / A421 and other major local routes (both ways). Train prices inceasing for commuters. Busier trains. Inevitable parking permit costs for locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
F6192	M1 J13	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
151	What route would traffic use to access the site during and after construction, particularly from the M1 as the A421 is very noisy now let alone with any extra vehicles. The only way to use the A421 would be to	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
DUST , DIRT & DEBRIS (56)		
ID	Comment	Survey question
4917	Dust control. And roads to be kept as clean as possible from construction works.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
3469	Would appreciate roads in the vicinity of the site kept free of mud with regular use of road cleaning vehicles	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
2451	DUST!!! I live on wixams it's still being developed a reduction on council tax would help a lot. The air covers our houses with building dust blowing around everyday it's annoying I'm asthmatic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
4388	plans and progress. Consider the effect of construction on local wildlife, and develop mitigation strategies. Manage traffic around the site effectively to minimise disruption (schedule heavy goods deliveries outside of peak hours). Control noise using barriers. Use dust suppression systems. Limit work hours. Employ as much of the workforce from the local area which will offset the inconvenience with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
1853	Crime waste noise and dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that
3424	with local residents and businesses about the project's timeline, scope, and potential impacts. Providing avenues for feedback and addressing concerns promptly. Mitigation Strategies: Implementing measures to minimize disruption, such as scheduling noisy or disruptive work, utilizing sound barriers, and controlling dust and debris. Community Engagement: Actively involving the local community in decision-making processes and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?
2207	Anything that you could do to mitigate noise and dust would be helpful	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that

4143	dust and noise pollution? The topography in the area is relatively flat so any dust and other harmful particules will be carried easily through the air. New build developments such as ones in Milton Keynes have been known to create a lot of dust which carries far. Similarly this could affect the lung health of those nearby such as Wootton and kempston hardwick. This large-scale project is going to take many years to complete so the accumulative effects of air, noise and construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5035	Reduce noise and dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5133	Since the site is in the countryside down country roads passing through quaint villages, movement of site transport of thousands of large lorry trips, noise and dust could be reduced with correct planning and constant road cleaning and movement of lorries to be between 09:30 - 14:30 then	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3021	The main point would be to ensure mitigation for noise / dust and traffic related impacts are clearly communicated. Ensure you have a fully functioning grievance mechanism in place and engage with local communities regularly. Employ a solid community liaison / engagement	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4383	Niose ,dust, traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2603	Noise prevention and dust abatement	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2916	Noise and dust from construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3813	With any large scale construction there will be obstacles and most will present themselves during the construction period. Offering services like power washing properties/roads that are affected by dust/dirt maybe an	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4317	Ensuring that roads are kept clean during construction is key to avoid unnecessary accidents.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4480	Ensuring site debris is not carried out onto the public roads. Communicating time frames for key busy stages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2726	Keep dust suppressed	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1619	Keeping noisy building work to working hours and limit noise on weekends. Keep roads clean of dirt (tyre punctures and stones hitting windscreens) Planting around the site to hide theme park from close residents and will help with noise when open. Clear signage if road works	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2988	Would be helpful to have local roads swept consistently to clean up the worst of the debris and noise limited to 8-5 but not sure how feasible that is.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1441	Keep big lorries out the villages as the roads are too narrow to cope. Clearly signpost diversions. Minimise the dust flow if that's even possible. Relying on your experience to get it right. But do have consultation with	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1344	JUST TO KEEP THE LOCAL ROADS AS CLEAN AS POSSIBLE WHILE CONSTRUCTION WORK IS ON GOING . ALOT OF SITES LEAVE DIRT AND SOIL ON THE ROAD SO REGULAR ROAD	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4888	Just keep the area outside of the site tidy	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

674	Just make sure that they clean the roads as often as possible - reducing accident risks. Update the community on a regular basis as to what is going on when.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3729	Ensuring the local roads are kept clean where possible to prevent damage to local users is very important and something I find is missed out on a lot of projects. clear signage and advance notice too	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
913	Ensuring workers respect the local areas and repair any damage caused by the construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4259	Having just been involved with a major housing development near to me. It's been dire. Dust noise unconvince will no regard to existing residents. These contractors went away. Your park will increase footfall, vehicle	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1528	Having lived in Wixams which has ongoing development for 10+ years now, I would desperately beg you to use damping down wherever possible to keep the dust down as much as possible. Also, keep the	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
356	How you would manage traffic disruption, noise, manage damage to existing transport networks and how you'd keep sites clean (e.g. dust, mud on roads from lorries, fix inevitable damage to existing roads). The development will impact inevitably forever, so if this can be minimised	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2029	I am not living there but to keep locals happy (and willing to come by and spend money there) - keep the roads as clean as possible (a hard task I am sure), plant a good amount trees (so many advantages with them	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
412	I'm sure it will be unbearable given the size of this proposal both during construction and subsequently when open to thousands of polluting vehicles causing congestion and noisy rides.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2565	I'm an archaeologist and have worked on major infrastructure projects, and be prepared for it to rain, which can cause problems with mud. It would be beneficial to have permanent road sweepers when it is wet for	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2146	It's normally the amount of mud on the roads, and heavy machinery speeding through towns and villages the cause the most disruption	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2199	Keeping things tidy (For example, ensuring roads are cleared of mud/debris on a daily basis) seems to be a big factor with a lot of people from first hand experience. If something is visually being kept nice then I	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4941	Keeping traffic disruption to a minimum where possible and Wheel washes keeping roads clean in and around access points for deliveries	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
806	Make sure mud is cleaned off the roads, and hgv's stay on major roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3225	Mitigate noise and dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4347	Of course it will be disruptive in the short term, but 'no pain. no gain' as they say! The area is already facing major developments with the East West railway and the current remodelling of the Black cat roundabout on the A1, so finding a way round is a local life skill. I would just ask that you	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
529	sleeping times, hours when herds of animals might be nearby and stressed by noises, etc). Please no night construction though. Don't block roads with construction equipment or workers vehicles. Or if roads are blocked, provided alternative, well-labelled detours. Please ask workers to keep areas clean. Avoid pollution of the local area and litter. Provide meals, restrooms, and adequate facilities for workers to take breaks in so	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5319	What would you provide for local residents in the way of compensation	Please share any other feedback you have at this stage.	

3567	Time of day construction takes place. Cleaning of road from construction mud. Spray to reduce dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
865	The access to the site from Wootton will be extremely limited. If construction workers access the site from this side, it will cause an extreme level of congestion, noise and dirt (mud and dust from the lorries entering and leaving the site) that will have an extremely negative effect	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4563	Pot holes and mud on roads as this causes damage to cars.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2096	and traffic. With infrastructure disruptions, adjusting train lines/ adding stations and creating new major road links will be the largest disruption as this will affect commuters and the local people directly through diversion routes and or added journey times. As long as the local people can see a positive out weighing the negative, people will get by.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3442	The roads around the area are already very busy and a lot of them are B roads. This WILL cause major disruption for a long time for communities around the proposed park. Not to mention the noise, mess and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5657	Be considerate with the hours you carry out noisy work. Have appropriate systems in place to reduce dust. Mend any pot holes created by heavy vehicles. Listen to the locals.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5845	Bedford is already expecting major disruption as a new rail link is being constructed between Bedford and Cambridge. The A421 link to the M1 is already busy. The M1 would need to be improved to cope. I think as long as there is good communication with local people and disruption is	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5481	Noise and construction traffic at unsociable hours (especially commuter hours) could be avoided or minimised and any dirt from the site on local road network cleaned regularly	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5717	Minimise noise and dust	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5886	Please see above. Plus construction noise/disruption/dust from works.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5840	enjoy playing with my children in a peaceful garden/park. Not breathing in constant dust or dealing with noise and traffic issues. We have the right to live in the community we moved to. A theme park is not what I signed up for when the building company sold the dream of this development. It's heartbreaking that residents do not have a say in what their	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5703	restricted working hours is the norm over here, the major issue is the transportation of materials in and of spoil and rubbish out. London has a strict code of vehicle washing which prevents the streets around being covered in mud something which isn't applied elsewhere as a trip around any construction site vicinity will show you. Possibly use of the EWR line with Electric locos, would have to be battery powered but that's viable, used regularly on London Underground. So that transfer onto another	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5733	Pollution & rubbish. Lots of contractors leave there rubbish about & it's damaging to the environment.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5763	Tackle the litter problems beside the A421 and A6.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
F6219	As I live right next to the area I am concerned about dust, traffic, and noise. We already get a lot of that from the current factory and this would be worse.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3522	Due to my postcode and living so close, am I going to hear a lot of noise during construction? Is there going to be lots of large construction lorries etc around to make it unsafe for walking/ small children? And is there	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
RESOURCING (45)

101	Source as much local materials and labour resources as possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	UDX works with local businesses to support a healthy and growing local economy at its parks and resorts around the world. At other resorts it has created a local suppliers list and encouraged businesses to sign-up if they are interested in working with UDX. UDX will look for opportunities to work with local businesses and they will be included in the bidding and procurement process.
116	Employ as many local good trades as feasible to encourage everyone to feel a part of it	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2842	I have started working with many companies who have moved out of London to take advantage of Bedfords cheaper labour and land costs	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4672	By ensuring additional access roads to and from the site are a priority and construction traffic routes are sympathetic to the needs of the community. By sourcing labour and materials as locally as possible during the construction process, you would not only minimise environmental impact but also secure some local goodwill and gain supporters for the project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3376	Keep the community engaged, protect the environment, use local businesses.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3164	No, local roads should help with deliveries, and provided local construction workers are used as far as possible so that no large temporary accommodation is needed with influx of outside labour needed that should be a consideration. There was a promise that the labour force at the new nuclear plant at Hinkley Point would bring people to the area who would spend in the area but that has proven not to be the case as the workers are at work or 'recovering' in the living units before going on shift and do not visit or spend in the local area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2563	No, as long as noise it kept to reasonable hours. where possible local businesses are used to further benefit communities.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2835	Not really. But again to ensure local companies and trades people are included and prioritised work. Bedford has a strong and impressive history in construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4649	Tree line the boundary with mature trees. Please use local services during build and do offer the opportunity for local residents to offer accommodation: spare rooms or even an opportunity to rent their houses. We have a 4 Bed/Double Garage and in 2 years time we want to do extensive travel, so we would like the opportunity to offer our property to the contractors or staff to rent, I think this would be quite a draw for many.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
696	Bedford has a great offering of local suppliers and merchants who can assist in the construction. This would put issues at ease. Bedford has heavy traffic due to its Victorian roads.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

2157	Create sound barriers so they don't get disrupted by the sound of construction. Free pass for a year once them park is open. Perhaps an apprentice/employment training schemes for local people	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4388	Engage with the local community, keep them informed of construction plans and progress. Consider the effect of construction on local wildlife, and develop mitigation strategies. Manage traffic around the site effectively to minimise disruption (schedule heavy goods deliveries outside of peak hours). Control noise using barriers. Use dust suppression systems. Limit work hours. Employ as much of the workforce from the local area which will offset the inconvenience with economical benefits.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
973	Employ as many local people with less need to travel into the area as possible.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
281	Employ local people who would then be advocates for the project.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4323	Ensure that you are purchasing goods and services locally first.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4936	Involve local contractors	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1617	Hire local workers where possible to reduce the impact on housing that would occur with an influx of people moving to the area	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4252	Just in time deliveries, limit where deliveries are coming from. Use local businesses	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4822	Look at using local contractors for works to be carried out	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4207	Link a motorway road to the sites for a short time	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4834	Mainly the road works but would like to see locals being used to do all works	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
451	Make sure that 85 % of the construction workers are local. Less pollution that comes with travel to work	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1301	Minimise the amount of construction traffic going though towns and villages. Give construction workers on site vouchers for lunch in the local shops, restaurant and cafes to help small businesses.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

4344	Management of construction traffic Inc routes used and onsite storage. Use of local companies and workforce during construction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3186	Work with local companies to give local construction economy the opportunity to put the money back into the local economy - use my company excelsior land! - we are 5 miles away!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3002	Packaging the work phases so that local Regional Contracting companies can be utilised that draw their workforce from the local area and have a vested interest in the local community.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4258	Please advertise jobs locally	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3628	Use alot of local trades	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3173	Use excelsior land	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3781	Use local contractors where possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
1194	Use local materials, keep import and transportation to a minimum. Use local companies for construction and supply. Improve the local road and rail network to cope	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4485	Using local companies for at least some of the work!	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
954	We want the park. But make sure your team has a mix of people. American doesn't always know best. We Brits are good too. Build with us! not for us.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2956	We would hope that local contractors and firms be used for the construction of the site, as with large projects people have to accept the pain with the gain.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
909	To use local contractors	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
617	The biggest concern would be around policing and infrastructure. Using local Business will also help minimise the traffic coming into Bedford whilst the works are being completed. Maybe focusing on the roads into the project prior to working on the site may minimise disruption and traffic.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	

3228	Pre-plan any necessary road closures and build new roads prior to construction. Create access points which won't impact people's travel requirements. There are many new housing developments in the area, most (all!) without the infrastructure they should have, which consequently means residents to need to drive around 20 minutes to healthcare providers, schools, transport links, shops and suchlike. Traffic is already an issue and I can imagine they wouldn't appreciate being surrounded by traffic control situations in every direction. It would also be good to make sure it is surrounded by some kind of noise reduction, such as trees, and a nod to residents' privacy and that they live close to the countryside.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3045	Promise to employ at least 75% of your task force from Bedfordshire Robust planning Good Public Relations Careful approach embedding residents views and all communities	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
2940	To the extent that materials can be sourced locally (accepting that will be quite limited) I think it should be done. It would also be appreciated if you could try to schedule deliveries outside of rush hour traffic	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
6032	How would most of the materials be brought in, would you set up the railway system first to bring those materials in and would some of them be brought from the local/regional economy?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5976	USE LOCAL CONTRACTORS AND ALSO SUPPLIERS FOR ALL PLANNING AND GROUND PREPARATION WHEN POSSIBLE.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5824	Use local workforce, eg Bricklayers, carpenters	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5895	Try and use local companies if possible	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5686	There is nothing you could do to minimise disruption, even the workforce over the time it took to build would realise that Bedford is under resourced. The staff involved and goods used to build would come from outside the local area and therefore all impact would be negative	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5124	Use horses	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
A6 (38)			
ID	Comment	Survey question	Response
2715	The A6 is a single carriageway road going north from Marsh Leys. This is always busy at different times already and although most traffic would come from the A421, i feel the A6 should not be overlooked for improvement.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	An Outline Construction Environmental Management Plan (ES Vol 3 Appendices, Appendix 2.3) which includes a Construction Traffic Management Plan has been prepared that sets out measures for managing effects associated with construction. To manage potential noise and traffic impacts, core construction working hours will be 7am – 7pm Monday to Friday, and 7am – 1pm Saturday, with exceptions for activities that must take place outside of these hours such
1526	The A6 is the major route for those of us who live in the villages surrounding Bedford to get in/out of town. We rely on this access to get to the hospital, shopping and other facilities. I think it's important that this	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4295	Traffic is already a nightmare getting into and out of Bedford on the A6. This route is a major commuting route and lengthy delays and disruption would be damaging to local businesses and could deter people from	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4553	Minimal impact on the A6, A421 and M1	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	<p>services that must take place outside of these hours such as nighttime works on road and rail infrastructure, delivery of abnormal loads, or testing associated with theme park attractions.</p> <p>Fencing and strategic use of site hoardings will be used to reduce visual and noise effects associated with construction.</p> <p>Measures such as wheel washing, to reduce vehicle track-out and dust from construction traffic, will also be used to minimise the risk of dust emissions.</p> <p>In addition, UDX will be taking a number of measures to minimise the effect on the local road network, including:</p> <ul style="list-style-type: none"> •Vehicle routing by phase of works •Management and coordinator transport roles during construction •Construction management systems to monitor vehicle movements •Monitoring and review processes to ensure compliance with the Construction Traffic Management Plan. <p>In relation to construction workers, a Construction Worker Travel Plan (CWTP) has been proposed and is included within the OCEMP (ES volume 3 Appendices, Appendix 2.3) as Annex 2. It is designed to reduce and manage the travel behaviour of the workforce during the construction period, including promoting the use of sustainable modes of travel such as active travel and car sharing.</p>
3626	Traffic would definitely need addressing- particularly around the A421/A6 junction	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5250	Use the old A road?	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3140	Traffic on the A6 and A421.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3170	All materials to sire using rail, A421, A1 and M1. No construction traffic on A6. A428, A507	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3919	Congestion going into Bedford from the A421 is already bad. As is the intersection with the A6 at Kempston. Relief efforts would be needed.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1393	Ensure that if the A421 and A6 is used for construction traffic, that the site slip roads are in place rather than traffic having to use local roads through villages such as Stewartby, Houghton Conquest Kempston	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4813	considered and adapted as it can already be a nightmare for traffic around there and I feel this is an area of concern for local traffic during the construction and theme park stage. There used to be a slip road directly to it from the bypass which helped traffic flow around the b530/a6 junction but this was closed off. The b530 is also the main route to ampthill which will be impacted by the park. I think rejigging the road system around this top end of the current plans to account for increase in	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4519	traffic from the North from the A6 taking a shortcut through the village and past two schools. We had trouble with lorries clogging up the village when Goodmans built the warehouses adjacent to the A421. I also have concerns about 5000 construction workers pushing up property prices to the detriment of local people looking to buy their first house or rent a property. Possibly make Wootton residents only with rfid barrier control. I have a concern about noise from piling, we can hear traffic on the A421. Piling needs to be 900am to 500pm only. Please build a construction workers village like Hinkley Point. Please use low emissions plant and	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3077	Just that the junction connecting the A421 to A428 (which may be listed also as A6 on Google Maps) can be a bit of a hassle during rush hour. Not a big deal in the grand scheme of things, but it might be worthy of	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2824	I have concerns with the roundabout connecting A421 and A6 which is already extremely busy.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4439	I think old or closed off roads could be used as access to the site and as the site is close to the A6 and M1 I think there would be minimal issues to the public and community	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

2057	Trains are good and tourists to the UK would definitely be better using trains to get to the park but I suspect you underestimate the UK market and they will likely use cars. Cost is the reason. For example my two closest Train stations on Midland Mainline are Bedford and Kettering and for my wife and two kids it is ab out Â£250 to go to London which is 40-45 minutes away. Yet if I driver the same I can driver to the nearest tube stations for about Â£10 and then pay Â£5 for all day. A uk resident wont even do these calculations and will do them instinctively. If you make the train journey part of the experience you might tip those numbers but that would have to be something to consider. I think your road plans are generally quite good but I think you should be pushing the UK	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3067	I would be supportive of works undertaken to improve connectivity between the A6 and A421 by widening the existing road.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3472	I would guess any impact on the ever problematic Retail Park connections to the A6 would be point to consider.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1994	Just be mindful between 7 and 9.40 aam and 4 to 6pm as my 1 hour commute from rushden to Luton is already horrendous although a greater bypass on the a6 would be excellent	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4681	Likelihood of using Houghton Conquest of a rat run through to A6.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
837	my mum lives on the A6 (XX) and this is already very busy, i'd be worried it may get even busier. Don't just focus on the very close areas, but look out a bit wider to the areas affected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4020	like to see better access from the north and east to alleviate a pinch point at the west entrance. The A428/A6 and interchange retail park could benefit from a bridge and new junctions to create a better flow to ease access. Would like to see the Bedford/MK canal link realised on its proposed route that also opens up other development opportunities	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4862	Manor Road is a key road that connects the A421 and the A6 to ampthill. Closing that road to traffic would see heavy congestion through an already busy Stewartby and further traffic around the retail park which is considerations to medical centres within the resort for people in the area.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
157	I live between Luton airport and the site and considerations will need to be made to the level of traffic around Silsoe/ clophill on the A6 as this can be quite busy. Local discount for the resort would be amazing. Milton Keynes is already quite a thriving town with lots going on therefore links	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
4312	We live in Meadow Road and I would be concerned that traffic would increase significantly from A6 and A421 to site	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4167	impact would be limited. However there has been ongoing road works and delays along the A6 (Clophill roundabout) which has led to local frustrations to residents and businesses. So I would advise that prior notice and limited impact is considered, with alternative routes and avoiding peak times - making sure work is being done or roads reopened	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
3260	Surrounding roads used to travel into / out of Bedford during rush hour. And at the weekends, the A6 / A421 might be impacted so minimising this.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
4130	The road links from A6 to Interchange will need a complete overhaul as there are always jam-packed queues to access Interchange	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

3991	The roads around the area are already unfit for purpose notably the A421 onto the A6 by Kempston, it is normal to sit on that roundabout and crawl for 20 minutes to move 1 mile towards Great Denham if this where to go ahead these roads would need developing first before a rise in traffic but	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5763	A6 Road noise, fumes, queues. Air pollution is increasing in the nearby villages.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5606	As a resident of Stewartby, my main concern is that you will be doing road works on both the old A421 and the B530 at the same time, making the traffic awful for people to get towards Bedford, my suggestion would	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5789	Effects on traffic flow on A421 the Ampthill Road and A6	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5811	Keep traffic flowing on the A6 and A421. Limit noise during hours of darkness for people in nearby villages. Please be aware of current traffic buildup at approx 8:00 a.m. and 5:00 p.m. between Luton and Bedford.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5632	isn't just about the A421 (which isn't too bad) but the roads around Kempston (the Branston Way) and out towards Bromham/Biddenham as people make their way around Bedford towards the A6 at Clapham (Paula Radcliffe Way). It's inevitable these get worse, and there isn't much that can be done. Really have got to prioritise travel via rail - perhaps making it cheaper to enter the park or making parking very	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5644	Route all goods vehicle and HGV journeys to and from the site via the A421 dual carriageway only. Provide funding to turn the A6 Bedford bypass into a dual carriageway, before construction work begins, as it's	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5693	HGVs not to use Houghton Conquest as a rat run from A6 to Ampthill Road and vice versa. Baseline data for current usage and monitor to compare. If this has increased then road surface will need improving.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5763	Tackle the litter problems beside the A421 and A6.	It is really important to us that we invest heavily into the environment around our parks. This might include creating natural barriers and protecting and enhancing existing wildlife. What would you most want to see?	
F6167	Te 421 roads are particularly "hazaed prone" + would need updating re exit/entry stop roads + would need updating re exit / entry stop roads + Ampthill Rd/A6 junction very congested.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
GENERAL DISRUPTION (29)			
ID	Comment	Survey question	
3009	Working closely with Kimberley College, understanding their calendar, public exam period etc. so that we can plan ahead and work together amicably.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that you would like to raise in this regard?	
5163	Entrance to Wootton village to not be affected	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5331	Factor in the proposed relocation and build of hangars for Marshall Aerospace to Cranfield Airport.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
5085	No particular points but this is an area of concern as I drive from Wootton to Milton Keynes every day for work I would be passing the site so concerned about disruption during construction.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1863	Relocate locals to other homes.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	

4459	Just make sure to try and keep disruption to a minimum by doing this you'll keep majority of locals onboard with your plans.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
2505	Having seen the proposals, I do not know how you are going to avoid massive, sustained disruption, inconvenience and pollution.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1922	How this could affect the environment and people of Bedford and the length of time.	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3709	I am concerned it will make my work route to work longer	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
3311	I can not see any more disruption than the last 15 years worth when we went from small rural roads to the main arteries we now have	We appreciate that major construction can be disruptive or unsettling for local communities. We are already looking into how we would minimise any such disruption if we proceed with this project. Do you have any particular points that	
1102	I think it is important that people can still move around during the constructions and etc.	We appreciate that major construction can be disruptive or unsettling for local communities. RESPONSES TO LOCAL ORGANISATIONS	
CANAL RIVER TRUST	
Comment	Response
<p>Proposal: Potential new theme park and resort experience to the UK. Location: Land at Kempston Hardwick, Bedford</p> <p>Thank you for your consultation.</p> <p>We are the charity who look after and bring to life 2000 miles of canals & rivers. Our waterways contribute to the health and wellbeing of local communities and economies, creating attractive and connected places to live, work, volunteer and spend leisure time. These historic, natural and cultural assets form part of the strategic and local green-blue infrastructure network, linking urban and rural communities as well as habitats. By caring for our waterways and promoting their use we believe we can improve the wellbeing of our nation. The Trust is a statutory consultee in the Development Management process.</p> <p>One of the Canal & River Trust's charitable objects is to promote, facilitate, undertake, and assist in for public benefit, the restoration and improvement of inland waterways. We are, therefore, generally supportive of any sustainable project seeking to expand the country's inland waterway network. The site area is not close to our network and would therefore not appear to fall into the category of an application which must be referred to the Canal & River Trust in our role as Statutory Consultee. However, as well as being an interested party in light of our charitable objective, the Trust is a member of the Bedford & Milton Keynes Waterway partnership and supports the proposed Bedford & Milton Keynes Waterway Park (BMKWP) which is being promoted by the B&MK Waterway Trust.</p> <p>The route of the BMKWP is safeguarded within the Central Bedfordshire Local Plan and the broad alignment for the Waterway shown on the adopted Policies Map. From the details provided it seems that the proposals have the potential to include and / or impact on the route of the BMKWP. We would therefore suggest that B&MK Waterway Trust should be consulted on the proposals so that any opportunities are explored and potential considerations in relation to development adjacent or close to the waterway route may be incorporated, as appropriate.</p> <p>Please do not hesitate to contact me with any queries you may have.</p>	<p>We note the Canal and Rivers Trust's acknowledgment that the location of the site for the proposed theme park is not close enough to their canals and rivers network to trigger the requirement for formal consultation with you as a Statutory Consultee.</p> <p>Regarding the suggestion for consultation with the Bedford & Milton Keynes Waterway partnership in respect of the proposed Waterway Park (BMKWP), UDX can confirm that it has engaged with them as a separate consultee.</p>
CENTRAL BEDFORDSHIRE COUNCIL	
Comment	Response

<p>Universal Studios UK – Consultation on Proposals</p> <p>Thank you for providing the opportunity to comment on the Universal Studios proposals for the potential new theme park and resort to the south of Bedford.</p> <p>Central Bedfordshire Council recognises the opportunities arising from the Universal Studios proposals and considers that there could be significant benefits for Bedfordshire as a whole, particularly in terms of how the proposals could support local economic growth as well as the wider UK economy as a whole. Given the proximity to Central Bedfordshire, the Council would expect to be fully engaged from the outset of the formal planning process. We have set out below some high-level comments on the proposals which we would be happy to discuss further if and when the proposals are taken forward.</p> <p>Proximity of the Proposed Site</p> <p>Whilst the proposed site is located within Bedford Borough, it is important that the very close proximity of the site to the boundary with Central Bedfordshire, and therefore potential impacts on Central Bedfordshire residents, communities and businesses, is not overlooked.</p> <p>Bedfordshire, as a whole, is rapidly changing and evolving and a large proposal such as this needs to be considered in the context of the relevant Development Plans. Bedford Borough Council adopted their current Local Plan in 2020 and are now in the latter stages of preparing its Local Plan 2040 which seeks to accommodate a substantial amount of growth within the area, including within the proposed site itself. Within Central Bedfordshire, the Council adopted the current Local Plan (2015-2035) in July 2021, and having undergone an extensive review process, have recently commenced a new Local Plan for the area. With recently adopted Local Plans and new plans on the horizon, it is essential that when considering the potential impacts and necessary mitigation for proposals such as those for Universal Studio's UK, that the existing planned growth and development proposals within the area are fully taken in to account and cumulative impacts given due consideration.</p>	<p>UDX would like to thank Central Bedfordshire Council (CBC) for taking the time to provide initial comments on the project for a potential new ERC located south of Bedford and for the local knowledge developed following engagement.</p> <p>UDX agrees that this project could deliver significant economic, environmental, and social benefits for Bedford, Bedfordshire and the UK as a whole.</p> <p>A response is provided to each of the topic areas raised by the initial comments and how they have been addressed in the planning proposal.</p> <p>Proximity of the Proposed Site Through the Environmental Impact Assessment process, we have defined varying study areas depending on the specific topic being assessed, sensitive receptors and the approach to assessment and methodology specified in guidance and legislation, which in some cases go beyond Bedford and into Central Bedfordshire and other nearby local authority areas. This process ensures that the EIA appropriately considers all likely significant environmental effects, regardless of within which Council area a local community, resident or business may fall.</p> <p>The planning proposal is accompanied by a Planning Statement which considers compliance with local policy. This includes consideration of how housing and employment growth in the wider area will be considered. This is best addressed through the Local Plan process, which is able to take a holistic approach to planning for the needs of the wider area. If planning permission is granted for the UDX proposals, we would expect the Local Plan process to consider the implications of the project on the future growth of the area. The Environmental Statement, Chapter 18, cumulative effects provides an assessment of the effects of the Proposed Development in combination with committed development.</p> <p>Engaging Local Communities Proper, informed and ongoing engagement is key to making this project a success, for everyone. UDX's early engagement with the local community and key stakeholders reflects how it means to go on. UDX will seek continued engagement as the project progresses, through construction and into operation through the Community Liaison Officer (as set out in the OCEMP).</p>
<p>Engaging Local Communities</p> <p>Central Bedfordshire Council supports the public engagement that is currently being undertaken and the recognition of the need to engage with local residents and communities at an early stage in the process. It is essential that engagement with the local community, as well as other key stakeholders, including Central Bedfordshire Council, is continued as the project progresses through the development and planning stages, all the way through to it being operational.</p> <p>Whilst the proposal would bring economic prosperity to the area, it is important not to lose sight of the fact that it will be the residents and communities at the local level that could be most significantly impacted by the proposal. It is therefore essential that the views of residents and communities are sought and actively taken on board, with any issues raised, and any identified impacts, fully considered and mitigated.</p> <p>Active engagement from the outset and throughout the development of the proposal will not only encourage participation but will enable local communities and businesses to be kept informed and contribute at the relevant stages of the process.</p> <p>It is essential that an Engagement Strategy be developed at the earliest opportunity to ensure communities are aware of how and when they can engage with this process.</p>	<p>Traffic and Transport UDX has identified the site as an ideal location for such a project given Bedford's excellent road and rail access with fast rail links to London and London Luton Airport. The site is well-connected for travel from all parts of the UK and Europe.</p> <p>The planning proposal is accompanied by a Transport Assessment, based upon comprehensive modelling, and includes assessment of the A421 corridor between the M1 (J14) and the A1 Black Cat Roundabout, the M1 Junction 13 itself, the A6 Branston Way and the A6 extending past Wixams, as well as local roads around the Site such as Manor Road, Woburn Road, B530 Ampthill Road, and more local roads through Stewartby and Wixams. The abovementioned study area and model has been agreed with National Highways and has been the result of discussions with Bedford BC and the Department for Transport.</p> <p>The Transport Assessment has considered the cumulative impacts of existing and planned growth upon the local and SRN. UDX recognises that delivering certain road and rail improvement works prior to the opening of the ERC, and construction as far as practicable, will minimise disruption and ensure network capacity continues to exist for the existing local community and future visitors and this is reflected in the Phasing Plan, also submitted with the planning proposal.</p>

<p>Traffic and Transportation</p> <p>Central Bedfordshire is one of the most accessible areas in the East of England and is particularly well connected on all of the main north-south routes, namely the M1, A1, A5, and A6. It is well served by existing rail stations on the East and West Coast and Midland Main rail lines. This excellent access brings potential for pressure on infrastructure from a unique trip attractor such as a theme park. We therefore have some concerns regarding the traffic and transport impacts of the proposal that would need to be addressed should the proposals be taken forward.</p> <p>The proposed site is inherently a cross boundary site because of its close proximity to the East West Rail (EWR) corridor, M1 (J13), A421, B530 and the A6 all of which are cross boundary routes providing access via Central Bedfordshire to the M1 and Luton Airport. It is very likely that visitors driving to the Universal site would travel in the direction of, or be signposted from the strategic road network, namely the M1/ A421, and would directly impact upon the highway network within Central Bedfordshire. The Council would, therefore, expect a full assessment of the impacts on roads within Central Bedfordshire, and appropriate mitigation, where required. The Council would also expect to be engaged in this work from the outset.</p> <p>There are parts of the road network that are already under pressure in this area, including J13 of the M1, the A1, and the A5, where a mitigation solution is yet to be identified due to the complexities of the routes. It is hoped Universal are already working with National Highways to ensure mitigation can be achieved that will provide sufficient capacity to enable the scheme to progress without negatively impacting those who use this network, including many residents and businesses within Central Bedfordshire. As noted above, it is essential that the cumulative impacts of the proposals alongside the existing and future planned growth in Bedford and Central Bedfordshire are fully taken in to account, particularly with regard to the local and strategic road network.</p>	<p>The Transport Assessment sets out the vision for the Proposed Development which seeks to promote rail, bus, and active travel trips to the project. Ensuring the project supports a high-level of sustainable connectivity is critical to minimising local effects and ensuring seamless journeys to site.</p> <p>UDX worked closely with Department for Transport and National Highways at an early stage in the project to determine the extent of the study area for traffic impact assessment. This took into account both the strategic and local networks and encompassed those areas likely to experience the greatest effects. These effects are reported in the Transport Assessment. The judgement has been made, informed and supported by the evidence in the modelling assessments, that effects beyond this study area are not significant in the planning context.</p> <p>The Environment</p> <p>UDX propose to deliver a project which is resilient against climate change risks as well as natural and manmade hazards including through a carefully designed surface water drainage design, developed in engagement with the Internal Drainage Board, the provision of significant amounts of new tree planting, landscaping and ecological enhancements. One of the guiding principles of development in the Lake Zone has been to respect the neighbouring County Wildlife Sites. The proposals also seek to meet the wider objectives of the Forest of Marston Vale.</p> <p>The assessments that have been carried out to support the EIA have sought to understand existing onsite and local wildlife. It is vitally important to UDX that our parks and resorts respect and reflect the native local wildlife and ecology to ensure development takes place in a respectful way. UDX recognises the role the emerging Bedfordshire Local Nature Recovery Strategy will have in protecting and improving the environment in line with the Nature Recovery Network and its landscape strategy has been informed by the 'Developing in the Forest of Marston Vale: Design Guidance SPD'. Some ecological and landscape design decisions may have to be made before the LNRS is available. These will therefore not be able to directly take into account the LNRS. Decisions made in advance of this being available will be informed by desk study and survey data relating to the baseline of the Site, plus consideration</p>
--	--

<p>Due to the unique nature of the development, its local, domestic and international reach and the expected 8,000-10,000 jobs plus 5,000 construction workforce, the Council would expect a widely scoped assessment of transport impacts including localised impact which may be experienced in Central Bedfordshire (on the local road network) on routes such as the B530, the A6 and on our communities in the area. This will include appropriate measures to protect communities from the impacts of construction vehicles and to mitigate inappropriate routing to the site by visitors once it is operational. It will be vital that the Environmental Statement captures all of these potential impacts and linked to this, we would welcome an opportunity to review the comprehensive model that has been used to inform the high-level assumptions in the presentation material, for example on the proportion of visitors that are expected to be arriving to the site via public transport.</p> <p>Whilst it may be primarily for Bedford Borough to facilitate, Central Bedfordshire Council would also expect to see an aspirational and deliverable sustainable access strategy with measures to encourage/require access to the site by public transport or other sustainable means, including seamless journeys from public transport interchanges and airports.</p> <p>The Council welcomes this unique opportunity for transport infrastructure upgrades in an area where there are recognised capacity issues (the A421 corridor for example) and would support a scheme that will enable and accelerate the delivery of Wixams station for the benefit of existing and future residents as well as visitors to Universal.</p> <p>We also would like to note the opportunity/requirement for potential localised improvements outside of EWR and the other strategic infrastructure mentioned. The Council would, for example, be supportive of the acquisition of the additional parcel of land identified within the consultation material, to ensure a direct link from the A421 to allow for full utilisation of the strategic road network for the vast majority of visitors accessing the site by car.</p> <p>The opportunity the proposals would present in terms of further enhancing the East West Rail offer in the area is also welcomed. As such, engagement with the EWR Co and other partners, including Central Bedfordshire Council and the local community rail partnership is vital, given that assessment work for the EWR scheme has already begun and there may be a potential interface between EWR construction and the Universal scheme. It will be essential that engagement is coordinated from the outset to ensure the protection of our local residents and communities during both the construction and operational phases of the proposals.</p>	<p>of existing wildlife legislation and policy. UDX has completed and is completing a wide variety of ecological surveys, appropriate to the environment at the Site. These have and will support our Environmental Impact Assessment of the proposals and subsequent detailed design.</p> <p>In relation to Biodiversity Net Gain (BNG) UDX wishes to confirm it is committed to providing ecological benefits as part of its proposed development. This is evidenced by the substantial investment in terms of land and money, combined with a thoughtful approach to design, that UDX is making in the Ecological Enhancement Area that it has proposed. UDX does, however, have concerns with the methodology under the BNG regime and therefore, intends to deliver a plan that is consistent with the underlying aims of the BNG initiative to create improved habitats, rather than strictly adhering to that regime. Universal's plan includes an Ecological Enhancement Area (EEA) that spans more than 125 acres (~18% of the site) and that has been specifically designed to provide an array of habitat capable of accommodating a range of wildlife, thereby supporting biodiversity goals.</p> <p>More broadly, the assessments of air, noise, and light pollution are being undertaken on a cautious worst case basis. To this end, any identified adverse effects are being appropriately mitigated so that existing and future local communities can live alongside a good neighbour. UDX is used to working in residential areas and in Orlando there are a number of properties located in close proximity to the resort.</p> <p>Landscape The focus of the planting strategy will be the use of native planting, appropriate to the region. This is particularly relevant in relation to the perimeter of the site, as this will be the outward facing areas, perceived within the context of the wider landscape setting to the Proposed Development.</p> <p>The Economy The proposal has the ability to bring about generational change and economic growth within and beyond the Bedfordshire area. UDX supports the delivery of new jobs for local people. To deliver tangible benefits to the local community, the planning proposal is accompanied by an Employment and Skills Strategy to ensure that the local community is best placed to benefit from the opportunities this project can offer.</p> <p>The Planning Statement submitted with this planning proposal considers the potential impact of the proposals on the town centres in Bedford, Central Bedfordshire, Milton Keynes and Luton. This notes that the uses being delivered as part of the proposals are serving a different market from the town centres, but that the significant investment would</p>
---	---

<p>The Environment</p> <p>The Council fully supports the ambitions outlined within the proposals for landscaping and greening of the proposed park and the planting of trees to create a green, natural buffer around the site to enhance biodiversity and to meet Biodiversity Net Gain requirements. The potential to bring a substantial brownfield site back in to use, alongside potentially significant ecological and economic benefits, is also supported.</p> <p>It is important that the right balance is struck between the proposal and the local ecology and environment – the Bedfordshire Local Nature Recovery Strategy (LNRS) is currently underway, with Central Bedfordshire acting as the lead authority. It will be essential that the LNRS, once in place, is given due consideration when determining future planting and biodiversity opportunities to ensure native and appropriate species to Bedfordshire are prioritised to fully embed the site into the surrounding Bedfordshire landscape and to optimise ecological benefits. Understanding of the important local wildlife that exists within and surrounding the site and undertaking an Environmental Impact Assessment of the proposals will be key.</p> <p>The Council supports the discussions that are already being undertaken with the Forest of Marston Vale about how the proposals might contribute to their policy goals, including environmentally led regeneration of the Forest of Marston Vale and possibly increasing tree coverage across the site. Bedford Borough and Central Bedfordshire Council have recently adopted the Forest of Marston Vale Design Guidance Joint Supplementary Planning Document (SPD), which sets out how the 30% tree cover requirement should be achieved in the Forest area. It provides specific guidance on the number of trees required for different types and scales of development, the tree planting options available and design guidance to ensure the character of the Forest area is protected. Future proposals will be required to demonstrate how they have taken the guidance on board.</p> <p>The Council also welcomes the recognition within the consultation material of the potential air, noise and light pollution resulting from the proposals and would emphasise the need to minimise any potential impacts upon existing resident and communities across Bedfordshire.</p>	<p>bring an increase in spending which would likely have knock on beneficial effects for the long-term viability of the existing retail and leisure landscape across the town centres in the area.</p> <p>UDX also notes that CBC welcomes the potential for local additional amenities such as conference facilities, exhibition venues and sports experiences, but wishes to ensure that these should not hinder existing businesses. As explained in the Planning Statement, these facilities are a central component of what will make a successful entertainment resort complex. If the project is successful this will further enhance the benefits to the local area.</p>
---	--

<p>The Economy</p> <p>Central Bedfordshire Council recognises that the proposed Universal Studio project could be a major economic driver within the area and the potential job growth envisaged through both the construction and operational phases is both welcomed and supported. The long-term employment opportunities across a wide range of job sectors once the site is fully operational would be of great benefit to local residents, providing a level of job security across a variety of skilled and unskilled professions. The Council also appreciates the significant training and apprenticeship opportunities that could arise as a result of the proposals and considers that this would be of great benefit to younger residents across the whole of Bedfordshire. The Council would want to be engaged from the outset in relation to future training and apprenticeship opportunities arising as a result of the proposals and which could be beneficial to businesses and existing educational establishments across Central Bedfordshire.</p> <p>Given the nature of the proposals, it is considered that there would also be a significant boost within the tourism sector both within close proximity to the proposals as well as the wider area which would be welcomed. Attracting tourists from overseas as well as from across the UK to the area would promote Bedfordshire as a whole and likely result in further tourism-related benefits such as increased revenue for existing business and attractions as well as increased demand for existing services and facilities such as hotels and restaurants, further boosting the local economy. However, it is essential that the proposals and all that could be delivered within the potential site, supports and enhances existing businesses and opportunities and does not seek to replace or draw trade away.</p> <p>The additional benefits to the local economy that could be achieved if the proposals are taken forward, such as offering local additional amenities such as conference facilities, exhibition spaces and sport experiences would also be welcomed. But as above, should not seek to replace or hinder the continued running of existing businesses and facilities.</p> <p>We hope our comments within this letter are helpful in taking the next steps in shaping the proposal. The Council look forward to further engagement as the proposals for Universal Studios UK progress.</p>	
CPRE BEDFORDSHIRE	
Comment	Response

<p>CPRE Bedfordshire welcomed the opportunity to attend the briefing for local charities to hear about the project in April. We also appreciate the efforts made by Universal and the Borough Council to engage with local people and stakeholders to provide information about the project and to invite comments at this early stage.</p> <p>The scale of the development cannot be overestimated, it will have a massive impact both on the immediate area around the site and the wider area of Bedford Borough and Central Bedfordshire, in terms of the environment and local economy.</p> <p>We would have to say that the nature of the project sits well outside CPRE's vision of how we seek to improve and protect the countryside and local landscapes.</p> <p>However, that does not mean that we are unable to recognise that development on this scale is likely to be highly popular and will attract visitors from all over Europe and other parts of the world. Also, that if delivered with due consideration for the environmental impacts and careful stewardship, the park project brings rare opportunities to deliver environmental as well as economic benefits to the site and local area.</p> <p>In terms of what we have heard from Universal so far, we are encouraged by the aspirations expressed to bring substantial environmental enhancements in terms of a nature rich landscape of lakes and open green space to the former industrial site. In respect of the part of the site in current use as agricultural land, but proposed for future housing growth, the theme park project provides an alternative use that has the potential to provide thousands of new jobs and a major boost to the local economy.</p> <p>We recognise that Universal have a well-established international reputation for delivering very high quality attractions and CPRE Bedfordshire see no reason to doubt the expressed commitment to develop the whole site with appropriate landscaping to protect the local area from intrusive impacts.</p> <p>We are also reassured that Universal recognise that the provision of required infrastructure in terms of road and rail connections must be given the highest priority. It is clear that the development of improvements to rail services which are already well advanced for the Marston Vale line, and the new station at Wixams on the Thameslink line will be very well placed to serve the park.</p> <p>Universal have stated that there will need to be substantial improvement to both local and national road networks and we support the view that this is an absolute prerequisite for any decision to establish a park in Bedford.</p> <p>The one major concern we have about the project is the impact on the Local Plan and the need for the Borough Council to find an alternative location for the 4,000 houses proposed for allocation on this site. This we consider to be a matter for the Borough Council, which we would be keen to discuss with them at the earliest opportunity.</p> <p>CPRE Bedfordshire would welcome the opportunity to remain engaged with the development of the park as a local stakeholder and to provide ongoing advice and comment as required.</p>	<p>UDX thanks CPRE Bedfordshire for taking the time to provide initial comments on the project for a potential new ERC located south of Bedford and also for the acknowledgement that the project has the potential to provide a major boost to the local economy.</p> <p>UDX too recognises that this project could deliver significant economic, environmental, and social benefits for Bedford, Bedfordshire and the UK as a whole.</p> <p>Using our extensive experience and well-established international reputation of delivering theme parks across the world, UDX is committed to delivering this project to an equally high standard whilst taking due consideration of the local environment. As part of our Environmental Impact Assessment (EIA) process, pursuant to technical engagement with a range of consultees including CPRE, UDX has produced various assessment on a range of topics, including landscape and visual as well as transport impacts. For any identified impacts, in addition to embedded mitigation measures, it has set out specific mitigation measures to address such impacts.</p> <p>As part of the EIA process UDX has also proposed ongoing management procedures and processes to ensure that mitigation and enhancement measures are implemented throughout the lifetime of the ERC.</p> <p>UDX notes CPRE's comment that the site is on land which had been earmarked for future development in the council's Local Plan. The planning proposal is accompanied by a Planning Statement which considers compliance with local policy. This includes consideration of how housing and employment growth in the wider area will be considered. This is best addressed through the Local Plan process, which is able to take a holistic approach to planning for the needs of the wider area. If planning permission is granted for the UDX proposals, it would expect the Local Plan process to consider the implications of the project on the future growth of the area. Although our proposal is for a different use than originally planned, UDX is confident that it will bring a wide range of socio economic as well as environmental benefits to the wider Bedfordshire area.</p> <p>Proper, informed and ongoing engagement is key to making this project a success, for everyone. UDX's early engagement with the local community and key stakeholders reflects how it means to go on. UDX will seek continued engagement as the project progresses, through construction and into operation through the Community Liaison Officer (as set out in the OCEMP).</p> <p>Landscape</p> <p>The landscape strategy is likely to see a substantial number of trees and shrubs planted to support the integration of the Site within the landscape setting and provide appropriate mitigation to reduce potential impacts on the environment.</p>
EAST OF ENGLAND AMBULANCE SERVICE	
Comment	Response

<p>Thank you for consulting local community organisations such as East of England Ambulance Service NHS Trust (EEAST) who are working together with Bedford, Luton and Milton Keynes Integrated Care System (BLMK ICS) on the above scoping consultation for Universal Studios Theme Park and Resort Project.</p> <p>Further to a review of the Project Information Pack the following comments are made in regard to the provision of emergency ambulance services. EEAST are in a unique position that intersects health, transport and community safety.</p> <p>EEAST would like to highlight that the development is likely to have an impact on EEAST providing nationally set response times for accident and emergency services around the geographical area associated with the proposed application site. Any significant infrastructure development requires EEAST to assess the suitability of existing ambulance station(s) within the locality of the development, with potential to redevelop or extend existing sites and in certain instances relocate to a more suitable location. EEAST are required to meet nationally set response times for accident and emergency services around the geographical area associated with the proposed new Theme Park during the construction phases and mitigation measures may be required.</p> <p>Therefore, we would request full engagement with EEAST and BLMK ICS is paramount to ensure healthcare needs are considered and any mitigation measures addressed.</p> <p>EEAST Principal Areas of Interest</p> <p>Traffic and Transport</p> <p>It is evident new highway access points are planned, and a significant level of demolition and construction phase work involving large scale plant, equipment and machinery deployment/ use, waste material arisings/ deposition, import of construction material, and significant traffic generation and management measures are envisaged - leading to highway network impact, delay and route diversion.</p> <p>Information to determine the effect of increased traffic and transport management and its impact on EEAST's operational resources, capacity and efficiency is required as the impact of traffic and transport management on EEAST's operational resources, capacity and efficiency therefore needs to be presented and assessed, with appropriate mitigation and management measures are secured and implemented.</p>	<p>UDX thanks East of England Ambulance for taking the time to provide initial comments on the project for a potential ERC located south of Bedford. A response is provided to each of the topic areas raised by the initial comments and how they have been addressed in the planning proposal.</p> <p>Traffic and transport</p> <p>Throughout the construction period access for emergency vehicles will be maintained to and around the Site. The two north south routes of Ampthill Road and Woburn Road, and the east west routes of Manor Road, Broadmead Road and Green Lane, provide a choice of routes and the measures set out in the CTMP will ensure that any closure to any of these routes is controlled and managed to maintain access and suitable through routes for emergency vehicles at all times.</p> <p>Construction phase major accidents and disasters:</p> <p>As outlined in ES Chapter 16: Major Accidents and Disasters, UDX has committed to constructing and managing the operations of the proposed ERC in accordance with the following non-exclusive list of standards and systems:</p> <ul style="list-style-type: none"> •Programme of hazard identification studies to produce an inherently safe design and to make sure residual risks are managed to be ALARP, as required by legislative drivers; •Environmental, Health and Safety Management systems; •CDM Health and Safety Plan (relevant to construction phase only); •Supplier management environmental, health and safety standards (e.g., Construction Skills Certification Scheme); •An Outline Construction Environmental Management Plan including construction mitigation (to include, for example, appropriate containment measures to prevent releases of potential pollutants); and •A Security and Emergency Management Plan for Operational Phase emergency preparedness and response planning (to include, for example, malicious attacks, loss of containment from the adjacent LNG facility). <p>The proposed ERC will be managed in line with best practice.</p> <p>Population increase, health and wellbeing:</p> <p>Any additional workers of any kind could increase demand for emergency services within the Core Study Area (Bedford and Central Bedfordshire and Sub-regional Context Area - Bedford, Central Bedfordshire, Luton, Milton Keynes) through injuries and work-related illness. There are around 2.6 million working days lost annually in the construction sector across Great Britain due to workplace injury and work-related illness. This is higher than the</p>
--	---

<p>Construction Phase Major Accidents and Disasters</p> <p>HSE's construction statistics and publications for Great Britain indicate that work related incidents, involving serious injury and fatalities, are statistically significantly higher for the construction industry as compared to the 'all industry' rate. EEAST notes the Universal Studios mentions it has an international reputation for pioneering safety standards.</p> <p>In the event of a construction phase accident or incident, appropriate procedures would need to be put in place for emergency access, on-site triage, medical assessment and patient identification, stabilisation and transfer to an appropriate healthcare setting.</p> <p>Therefore, EEAST would request agreement of the following, for both construction and post construction phases:</p> <ul style="list-style-type: none"> - A Protocol &/or checklist Procedure for construction phase accidents/ injuries requiring EEAST or Air Ambulance tasking - with plans & contingencies for emergency access, on-site triage, medical assessment, patient identification, stabilisation & transfer to an appropriate healthcare setting via land/air ambulance. EEAST notes the proposed 2nd emergency access point - Number and location of Automated Defibrillators and staff trained in use - Post construction, normal working arrangements for rescuing staff/visitors etc from height/underground or from water, Confirmation of arrangements for on-site triage (level of staff training and numbers of medical staff), location of any onsite first aid locations, agreement of safe and efficient handover arrangements where emergency ambulance attendance is required - During and post construction, location of potential site(s) to support urgent cases which may require Helicopter Emergency Medical Services (HEMS) access <p>Please note standard medical crews do not rescue from water – this requires attendance of hazardous area response teams (HART).</p> <p>Population Increase, Health and Wellbeing</p> <p>It is evident that during the anticipated 5-6-year construction period a significant number of construction workers from outside the East of England area are required to implement any demolition and construction stages of the Project.</p>	<p>average across all industries. Specifically, data shows that on average 2.6% of the construction workforce per year suffer injuries at work, compared to 1.5% across all industries. This means that, at peak, 140 injuries might arise during the third year of construction. This evidence-based estimate differs from that of EEAST. However, even if we took the worst case figure produced by EEAST (304 incidents), this would still be small in comparison to the total number of patients treated by EEAST, and therefore the impact would still be expected to be minimal. 304 annual incidents equates to approximately 25 incidents per month. In February 2025 Bedfordshire Hospitals NHS Foundation Trust had 23,700 monthly attendances. Bedfordshire Hospitals NHS Foundation Trust includes Bedford Hospital and Luton and Dunstable University Hospital, covering an area more relevant to Site. This is a much smaller area than is covered by EEAST, which comprises Bedfordshire, Cambridgeshire, Hertfordshire, Essex, Suffolk, and Norfolk.</p> <p>Therefore, even in line with the EEAST incident figures and covering a smaller impact area than is covered by EEAST, the impact of construction incidents at the proposed ERC in the year of peak construction would only represent approximately 0.1% of current monthly accident and emergency attendance. The impact on accident and emergency services across the area serviced by EEAST will be even more minimal.</p> <p>UDX commits to operating at the best practice standards of health and safety so as to minimise the risk of injuries during the construction phase. A process of engagement was conducted for the proposed ERC with NHS BLMK ICB and Integrated Care, NHS Bedfordshire Hospitals Foundation Trust, and Bedfordshire Fire & Rescue Service. Overall, these stakeholders were supportive of the proposed ERC.</p> <p>Liaison with EEAST, Health and Blue Light Partners</p> <p>As noted above, a process of engagement with blue light partners is ongoing. UDX intends to continue this engagement process to discuss all appropriate matters.</p>
---	--

Universal Studios indicate up to a peak of 5,000 workers in year 3 of construction. Based on working-age adults, EEAST has a general emergency incident rate is 0.08 per annum. This could result in 304 incidents in year 3 from construction workers temporarily located in the eastern region and based outside of this area (1,200) are not funded by EEAST's standard contract with the Integrated Care Board. Mitigation is sought to cover the cost of additional activity arising from the Project over the duration.

Analysis of 2022-23 NHS AmbSYS East of England Ambulance Activity Data revealed:

- 0.22 incidents per person per annum for all population ages (1,397,125 calls received / East of England 6.3m population)

- 0.08 incidents per person per annum for working age adults

- 92% patients received a face-to-face response, with the remainder managed through Hear and Treat

- 55.0% patients attended required conveyance to an emergency department.

In addition to call volume, the age profile of residents impacts on demand for emergency ambulance services. Post construction, the Theme Park and Resort will attract visitors who are at both ends of the age spectrum who consume a disproportionately large quantity of healthcare services and resource:

<p>- Over 75s are most likely to have multiple long-term conditions and complex care needs.</p> <ul style="list-style-type: none"> - Analysis of EEAST activity from 2019/20 indicates residents <ul style="list-style-type: none"> - Aged 65 years and over account for over 1/3 (35%) of Category 1 ambulance activity and 52% of all activity - Those aged 2-18 years account for 15% of Category 1 activity and 8% of all activity. <p>EEAST are required to meet the NHS ambulance standard response times for a life-threatening incident (Category 1), which may require up to 4 vehicles to manage the incident. This could include community first responder, rapid response vehicle and one or more DSAs are sent to this type of incident. On average, a face-to-face incident requiring transport to hospital will utilise an ambulance for 2 hours. The availability of on-site Automated Defibrillators would reduce the potential need to send this number of ambulances to the site. Location of existing emergency ambulance sites and response times from these locations are available in Annex 1.</p> <p>Articulated Indivisible Loads/Road Closure Notifications</p> <p>AIL movements and road closures have the potential to impact on EEAST's operational capacity, efficiency and resources</p> <p>Advanced Notification concerning the nature, frequency, route management, reliance on police escort and expected time delays associated with AIL movements, would assist EEAST in managing these impacts as agreed as part of Universal's Construction Traffic Management Plan</p> <ul style="list-style-type: none"> - An Emergency Plan to be prepared by the Construction Works Main Contractor in liaison with EEAST, as part of a Code of Construction Practice, as appropriate, incorporating the following: - This would also assist any coordinated response required from health & blue light partners, incorporating the Bedfordshire Police & Bedfordshire Fire & Rescue Service; - Advanced Notification procedures for Articulated Indivisible Loads; - Inclusion on the mailing list for information/ minutes arising from the quarter year meetings of the Universal Studio's Site Liaison Group. <p>Liaison With EEAST, Health and Blue Light Partners</p> <p>In light of the topics and the nature of the potential impact areas outlined above (requiring joint/co-ordinated responses) early liaison with EEAST and its health and 'blue light' partners such as BLMK ICS, Bedfordshire</p>	
---	--

<p>Constabulary's and Bedfordshire Fire and Rescue services is requested to discuss at some point in the near future.</p> <ul style="list-style-type: none"> - Scoping work to identify a suitable study area, baseline assessment parameters and an approach to identify the likely environmental, social and cumulative effects of the development on EEAST, and its health and blue light partners - Measures to avoid, reduce, mitigate and compensate for any such effects (topics summarised above) during the construction and operation phases of the development - Establish suitable mitigation and management measures - Establish appropriate Terms of Reference, Membership and a Communications Strategy for a Transport, Community Safety Health and Wellbeing Working Group – to include EEAST as a key emergency service provider, along with its health and blue light partners. <p>Concluding Remarks</p> <p>EEAST consider the Project is likely to give rise to significant effects (impacts) on its operational capacity, staff, fleet and estate assets which have not yet been baselined or any mitigation measures assessed.</p> <p>We trust this is of assistance and look forward to working with Universal Studios Theme Park and Resort to address the points outlined above.</p>	
BEDFORD AND MILTON KEYNES WATERWAY TRUST	
Comment	Response

<p>Response to Universal Destinations & Experiences</p> <p>The Bedford and Milton Keynes Waterway Park is primarily an environmental project to link the Grand Union Canal in Milton Keynes with the River Great Ouse in Bedford. 16 miles (26km) in length, it will have regional impact by creating a waterway park at the heart of future developments within the Oxford to Cambridge corridor and a lasting legacy for future generations.</p> <p>The Bedford and Milton Keynes Waterway Trust (B&MKWT), which promotes the Waterway Park, welcomes Universal Destinations & Experiences' initiative to deliver a Theme Park and Resort in Bedford. As a significant local stakeholder we recognise the potential for such a project to be transformative for Bedford and the surrounding area.</p> <p>The Waterway Park's aim is also to be transformative by becoming a flagship blue/green infrastructure project creating a corridor which will contribute to the provision of an ecological network at the heart of new developments, linking communities and creating a unique sense of identity and space. It would be a community asset for everyone as a significant leisure and tourism destination opening up a wide range of recreation opportunities, focussing on healthy lifestyles, walking, cycling and water-based recreation and sport, or just relaxing.</p> <p>More fundamentally it would manage and reduce flood risk and increase water security through water resource management to support planned growth and future climate change. It will create a vital link in the Anglian regional waterway network, linking the national waterway network from the Severn to the Wash with significant opportunities for technological innovation and development and increasing biodiversity by linking major wetland sites, creating new habitats and parkland.</p> <p>To this end, the B&MKWT believes that the Waterway Park has huge potential to complement your project across a range of objectives -</p> <ul style="list-style-type: none"> - Improved water resilience and local flood risk management - Mitigation opportunities for provision of natural capital and biodiversity net gain, - Establishment of new communities through creating a strategic sense of place - Working alongside local communities - Increased opportunities for healthy living and recreational activities - New accessible waterside environments and green space 	<p>UDX welcomes the Bedford and Milton Keynes Waterway Trust's comments on the proposals for its potential new ERC located south of Bedford and for the explanation of the vision and objectives for their Waterway Park.</p> <p>UDX notes the Park's environmental intentions to link the Grand Union Canal in Milton Keynes with the River Great Ouse in Bedford through the creation of a flagship blue/green infrastructure project by creating a corridor which will contribute to the provision of an ecological network at the heart of new developments, linking communities and creating a unique sense of identity and space.</p> <p>Key to the development of UDX's entertainment resort complex is a strong focus on environmental considerations involving, amongst other things, the creation of green spaces and sustainable drainage systems within and on the perimeter of the site as well as the creation of and support in the provision of essential infrastructure to ensure the promotion and use of sustainable modes of transport to and from the proposed ERC.</p> <p>UDX agrees that the entertainment resort complex will not adversely affect the Waterway Park and in addition its investment in the area will bring numerous added benefits for the wider area which may well support the aspirations to progress the establishment of the proposed blue/green corridor. Further detail on these benefits is provided in the socio-economic chapter of the Environmental Statement and in the Planning Statement submitted with the planning proposal.</p>
--	---

<p>- Safe and accessible traffic-free routes for cycling and walking, connecting villages and communities along the route</p> <p>- Offset impacts of hard infrastructure required to support growth</p> <p>- Increased tourism based around the environment.</p> <p>More specifically, the proposed site for the Theme Park and Resort, in part, runs alongside the A421 between Wootton and Stewartby and thus alongside the protected route of the Waterway Park. We believe the Waterway Park could complement your project with opportunities for additional water management, connecting communities via walking/cycling routes and even providing the possibility for visitors arriving to your destination by water.</p> <p>Universal Destinations & Experiences emphasise the importance given to working with local communities and investing in local infrastructure. B&MKWT has circa 800 members and therefore could contribute to your ambition in this regard.</p> <p>B&MKWT was established in 1995 with a Consortium Partnership formed in May 2010 to take the Waterway forward into the next stages of planning and design. The Consortium includes the three Local Authorities (all of which have policies to support the Waterway Park and protect the route) and the Forest of Marston Vale. The Consortium engenders a partnership approach, including communities, local councils, environmental trusts and government agencies. The project aligns closely with a number of the goals of the Government's 25-year plan for the environment.</p> <p>The Waterway Park route runs directly through land owned and managed by the Forest of Marston Vale and will add a new dimension to the community forest and open up opportunities for more planting, footpaths, cycleways and bridleways to encourage access to the natural environment. We are encouraged by the inclusion of a 4-mile stretch as part of the planned residential development named Marston Valley where the waterway will link Brogborough and Stewartby Lakes and enable a strategic water balancing facility to operate.</p> <p>The B&MKWT is currently working with partners to quantify the potential levels of biodiversity net gain which the waterway can deliver. The Waterway has significant potential to provide a large scale opportunity for offsetting biodiversity net gain required by new developments and major infrastructure, such as the East/West rail route and potentially, the proposed Theme Park and Resort. We would welcome working closely with you in developing ideas and exploring mutually beneficial solutions.</p> <p>The John Bunyan Community Boat, moored at Bedford, is owned by B&MKWT. Over the past ten years, it has increased awareness of the Waterway Park in the area, and provided income to the Trust which has enabled us to invest in promoting and developing the project. The boat is run entirely by over 70 volunteers and on average carries over 10,000 guests per annum, comprising both public and charter cruises. Three years ago we launched a brand new, fully electric, Community narrowboat at the new Campbell Wharf development in Milton Keynes. Once the Waterway is built, it will create similar opportunities for increased leisure activities and this demonstrates the health, economic and social benefits through volunteering that a waterway park can bring to the local and extended community.</p> <p>Bedford & Milton Keynes Waterway Trustees</p> <p>29th April 2024</p>	
THE WILDLIFE TRUST FOR BEDFORDSHIRE, CAMBRIDGESHIRE AND NORTHAMPTONSHIRE	
Comment	Response

<p>Dear Universal UK Project,</p> <p>Thank you for the opportunity to comment on the proposal for a potential theme park and resort project south of Bedford. A representative from the Wildlife Trust for Bedfordshire, Cambridgeshire and Northamptonshire attended a one-hour meeting on Monday 8th April to discuss this proposal. The representative was told that ecological surveys had recently been carried out on the land in relation to a separate planning application that was later withdrawn. Subsequently, we have enquired as to which application this was and it relates to 18/02940/EIA. We are concerned that the surveys were carried out in 2017 and 2018. In line with guidance from the Chartered Institute of Ecology and Environmental Management (CIEEM) on the Lifespan of Ecological Reports and Surveys (April 2019), they state that if the survey data is more than three years old 'the report is unlikely to still be valid and most, if not all, of the surveys are likely to need to be updated.' The information pack pertaining to the Universal UK project details that some ecological assessments are currently underway, however, we are currently unaware of how extensive they are and what habitats and species they cover. We understand that the timescales for the Special Development Order (SDO) submission would mean that the assessments are unlikely to have been completed in time to help inform this but as we understand it, the SDO will require an Environmental Impact Assessment. We strongly recommend, if this has not been done yet, that the Bedfordshire and Luton Biodiversity Recording and Monitoring Centre (BRMC) are contacted for a data search to get historical habitat and species data for the project area and the surrounding land, which will help inform future plans.</p> <p>There are two County Wildlife Sites (CWS) located immediately adjacent to the proposed red line boundary, these are Kempston Hardwick Pits CWS and Coronation Pit CWS. CWS are identified as important areas for wildlife when assessed against a set of criteria by a panel of local experts. The selection guidelines are available at https://www.bedscape.org.uk/BRMC/newsite/index.php?c=sites_cws. Kempston Hardwick Pits is recognised for their habitat mosaic of woodland, scrub, semi-improved neutral grassland, and open water and Coronation Pit is recognised for their water body and neutral and calcareous grassland. These disused brickpits, including the wider complex of disused pits in the Marston Vale, are particularly important for invertebrate assemblages and breeding birds and overwintering and migrant wildfowl. We submitted comments with regard to planning application 18/02940/EIA and the comments relating to protected and priority habitats and species are still relevant for this application. Our comments can be viewed at: https://edrms.bedford.gov.uk/OpenDocument.aspx?id=a7NZH2sTUo7nMi6jMQM%2fQg%3d%3d&name=18+02940+EIA+w+CONSULTEE+THE+WILDLIFE+TRUST+190103+COMMENTS.pdf</p> <p>Both CWSs will be directly and indirectly impacted by this proposal, and at this stage, based on the limited information we have been given, we are concerned about impacts on water levels and quality in the CWS, landscape connectivity and severing of ecological corridors across the Marston Vale and the considerable recreational disturbance that will arise should this proposal be approved.</p> <p>We are aware that a SDO is exempt from mandatory Biodiversity Net Gain (BNG). However, if this proposal was to be approved, we would expect the Universal UK project to seriously consider voluntary BNG and to clearly demonstrate and secure long term positive management of the disused brickpits and to ensure that the considerable recreational disturbance is properly taken into account.</p>	<p>UDX thanks The Wildlife Trust BCN for its initial comments on the proposals for the potential new ERC located south of Bedford. A response is provided to each of the topic areas raised by the initial comments and how they have been addressed in the planning proposal.</p> <p>UDX notes your comments in relation to the age of the pre-existing data referred to in our May 2024 meeting, and that CIEEM guidance suggests this is likely to be outdated. UDX wishes to reassure you that additional ecological survey and assessment work has been completed. This has been used to inform the ecological baseline and impact assessment in the Environmental Impact Assessment for the Proposed Development. Surveys that have been undertaken include:</p> <ul style="list-style-type: none"> •An updated UKHAB / PEA walkover; •Updated desk study with Bedfordshire and Luton Biodiversity Recording and Monitoring Centre, plus other sources e.g. magic.defra.gov.uk; •Targeted botanical surveys; •Terrestrial and aquatic invertebrate surveys; •Great crested newt surveys; •Reptile surveys; •Breeding and wintering bird surveys; •Bat surveys; •Badger surveys; and •Otter and water vole surveys. <p>UDX notes the comments in relation to Kempston Hardwick Pits CWS and Coronation Pits CWS. The surveys referred to above have been used to gather additional information on the habitats and species within these two CWSs where they overlap or are adjacent to the Proposed Development. The data gathered has been used to inform an Outline Habitat Creation and Enhancement Plan, which will form part of our EIA submission. Measures to remediate and manage water quality in the CWS and other water bodies are expected to lead to improvements in water quality within the CWS.</p> <p>In addition, a wildlife disturbance strategy will be developed and implemented during operation, supported by noise and lighting management measures; this will support appropriate management of potential recreational impacts on species using habitats within the CWSs and other retained habitats within and adjacent to the Site. Measures including wide-span crossings of watercourses, dedicated wildlife underpasses for roads, and the addition of protected buffers to retained and diverted watercourses have also been incorporated into the Proposed Development.</p> <p>Whilst some impacts are predicted to arise during construction and operation of the Proposed Development, as set out above extensive design and mitigation measures have been developed in response.</p> <p>In relation to Biodiversity Net Gain (BNG) UDX wishes to confirm it is committed to providing ecological benefits as part of its proposed development. This is evidenced by the substantial investment in terms of land and money, combined with a thoughtful approach to design, that UDX is making in the Ecological Enhancement Area that it has proposed. UDX does, however, have concerns with the methodology under the BNG regime and therefore, intends to deliver a plan that is consistent with the underlying aims of the BNG initiative to create improved habitats, rather than strictly adhering to that regime. Universal's plan includes an Ecological Enhancement Area (EEA) that spans more than 125 acres (~18% of the site) and that has been specifically designed to provide an array of habitat capable of accommodating a range of wildlife, thereby supporting biodiversity goals. Measures to support long-term biodiversity maintenance and management will be included in the Outline Landscape and Ecology Management Plan (ES volume 3 Appendices, Appendix 6.5), which will be submitted with the EIA.</p>
---	---
