Woman contacts her inviting service to ask for VHR screening at another service

The inviting service contacts the receiving service directly to ask whether the VHR woman can be screened by the service

NO → The inviting service re-contacts the woman to inform her why the receiving service cannot currently screen her. The inviting service should try to arrange an appointment at their service without delay

Yes

The inviting service does not close the 'H' episode at this point

The inviting service re-contacts the VHR woman and advises:

- any further tests or investigations will be carried out by the receiving service. The woman will not be able to return to her original service until the current episode is complete
- the woman that she cannot be permanently re-assigned to the receiving service. She will need to repeat the process every year if required

Receiving service contacts inviting service to inform them that VHR Woman is now being invited by them and requests VHR referral documentation and NTDD

VHR woman does not contact the receiving service

Inviting service cancels the mammogram appointment if booked and closes the episode as 'OT' (opted out Temp)

Woman books and attends an appointment at the inviting service and continues on the VHR screening pathway.
The episode is closed appropriately

Woman is invited in 1 years' time

Woman does not Respond to book MRI or attend (DNAs) Mammogram original appointment. She will continue on a second time DNA pathway and receive second timed invitation
The episode is closed appropriately and the VHR Woman is invited in 1 years' time
