Our services

The Government Internal Audit Agency (GIAA) leads the internal audit function and profession across central government.

We provide internal audit services and support for the UK government. Our clients include all ministerial departments and many non-ministerial departments, agencies, and public bodies. In addition, our counter fraud and investigation service supports finance professionals across government in their role as stewards of public money.

Our unparalleled access across government departments and organisations, our expertise, and the relationships we build lead to better insights and better outcomes for our clients, for their clients, and for the UK public. We use our unique perspective to provide cross-cutting insight and thought leadership in respect of issues which are important to individual departments, groups of clients, or wider government.
