Dear [redacted]

RE: Request for Information – RFI4987

Thank you for your request for information which was processed in accordance with the Freedom of Information Act 2000 (FOIA).

You requested the following information:

I'm interested in understanding the number of Registered Providers who are active and delivering new build schemes, as appose to those who either manage existing properties or grow through acquisition.

Having spent a long time looking, I am sadly not able to find any data on this, can you please support? I have found data for PRPS in the SDR but not for the whole affordable housing sector.

What would be most helpful is the number of RPs that have completed new build schemes per year. If there is any detail as to the corporate form, designation, scheme size, location, tenure, etc. that would be even better.

Response

We can confirm that we do hold some of the requested information.

Please find Annex A attached which contains a list of all new build Affordable Housing Programme schemes that have completed in the last five years. Annex B contains a scheme breakdown that's held centrally, including information on location, tenure and scheme size.
