

Children's Busy Board	
Aspect	Details
Images	
PSD Number	2506-0170
Product Type	Toys – Busy Board
Product Identifiers	Model: TYBB001 Amazon barcode: X001X3OG3D
Product Description	A wooden busy board with various stimulation toys including a clock face with hands, telephone with buttons, yellow fidget spinner and battery-operated steering wheel with buttons.
Country of Origin	China
Counterfeit	Unknown
Risk Level	Serious
Risk Type	Choking and strangulation
Risk Description	<p>The product presents a serious risk of choking as the keys and (once released from the lock) padlock fit entirely inside a small parts cylinder. Both the steering wheel and light are battery operated with no screw to secure the compartment. This means the batteries are easily accessible. A young child may put these small parts in their mouth and choke. Additionally, the rope at the top and cord used to secure the phone toy to the board both pose a strangulation hazard to a young child as they exceed the maximum 300mm length and can tangle. The product also requires improvements to documentation and markings.</p> <p>The product does not meet the requirements of the Toys (Safety) Regulations 2011.</p>
Corrective Measures	The import has been rejected at the border and destroyed.
