Quantity Exported (Tonnes) from UK

Exports of 4004: Waste Rubber to all countries from July 2022 to April 2025

Since July 2022 86.39% of all exports of 4004: Waste rubber from the UK have gone to India. The percentage in most months is closer to 95%, however every six months or so there is a spike in volumes sent to Turkey which drops the percentage of exports sent to India to around 60-70% for that month (NB in July 2022 there was also 6900 tonnes exported to Senegal!).
