

No.	Description of Condition	Comments
1	<p>The development hereby permitted shall be begun before the expiration of 3 years from the date of this decision.</p> <p>REASON: In accordance with Section 92 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.</p>	Agreed.
2	<p>The development hereby approved shall be carried out in accordance with the approved plans as listed.</p> <p>REASON: To ensure the development is built out in accordance with the approved plans and to ensure that the development reflects and maintains the character of the surrounding locality in accordance with Policies GEN2 and S7 of the Adopted Local Plan and the National Planning Policy Framework.</p>	Agreed.
3	<p>No development above slab level shall commence until the external materials of construction for the development have been submitted to and approved in writing by the Local Planning Authority. The development shall thereafter be implemented in accordance with the approved details.</p> <p>REASON: In the interests of the appearance of the development and to accord with Policy GEN2 of the Uttlesford Local Plan 2005.</p>	Agreed.
4	<p>Prior to commencement of the development hereby approved, a Construction Environmental Management Plan (CEMP: Biodiversity) in accordance with the submitted Ecological Impact Assessment (ACD environmental, June 2024) shall</p>	Agreed.

	<p>be submitted to and approved in writing by the Local Planning Authority. The CEMP: Biodiversity shall include the following:</p> <ul style="list-style-type: none"> • Risk assessment of potentially damaging construction activities. • Identification of "biodiversity protection zones" • Practical measures (both physical measures and sensitive working practices) to avoid or reduce impacts during construction (may be provided as a set of method statements). • The location and timing of sensitive works to avoid harm to biodiversity features. • The times during construction when specialist ecologists need to be present on site to oversee works • Responsible persons and lines of communication. • The role and responsibilities on site of an ecological clerk of works (ECoW) or similarly competent person. • Use of protective fences, exclusion barriers and warning signs. <p>The approved CEMP: Biodiversity shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details.</p> <p>REASON: To conserve protected and Priority species and allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (As amended).</p>	
5	<p>Prior to the installation of any external lighting to be installed on the site, details of the lighting, including the design of the lighting unit, any supporting structure, and the extent of the area to be illuminated, shall be submitted to and approved in writing by the Local Planning Authority. Only the details thereby approved shall be implemented.</p>	Agreed.

	<p>REASON: To ensure there are unacceptable impacts onto the amenity of the surrounding residential premises in accordance with Policies GEN2 and GEN4.</p>	
6	<p>No development shall take place, including any ground works, until a Construction Management Plan has been submitted to, and approved in writing by, the Local Planning Authority.. The approved plan shall be adhered to throughout the construction period. The Plan shall provide for:</p> <ul style="list-style-type: none"> a) construction vehicle access b) the parking of vehicles of site operatives and visitors, c) loading and unloading of plant and materials, d) storage of plant and materials used in constructing the development, e) wheel and underbody washing facilities. f) routing strategy for construction vehicles, g) protection of public rights of way within or adjacent to the site. h) a scheme to minimise the risk of offsite flooding caused by surface water run-off and groundwater during construction works and prevent pollution. <p>REASON: to ensure that on-street parking of these vehicles in the adjoining streets does not occur and to ensure that loose materials and spoil are not brought out onto the highway in the interests of highway safety and Policy DM1. The National Planning Policy Framework paragraph 167 and paragraph 174 state that local planning authorities should ensure development does not increase flood risk elsewhere and does not contribute to water pollution.</p>	Agreed.
7	<p>No development shall take place, including any ground works until a detailed surface water drainage scheme for the site, based on sustainable drainage principles and an assessment of the hydrological and hydro geological context</p>	Agreed.

<p>of the development, has been submitted to and approved in writing by the Local Planning Authority. The scheme should include but not be limited to:</p> <ul style="list-style-type: none"> • Verification of the suitability of infiltration of surface water for the development. This should be based on infiltration tests that have been undertaken in accordance with BRE 365 testing procedure and the infiltration testing methods found in chapter 25.3 of The CIRIA SuDS Manual C753. If infiltration is viable, an infiltration scheme should be used in accordance with the Drainage Hierarchy. • If infiltration is not feasible, discharge rates must be limited to a maximum of 1.8l/s for all storm events up to and including the 1 in 100 year plus 40% allowance for climate change storm event. All relevant permissions to discharge from the site into any outfall should be demonstrated, inclusive of the settlement chamber. • Provide sufficient storage to ensure no off site flooding as a result of the development during all storm events up to and including the 1 in 100 year plus 40% climate change event. • Half Drain Time - demonstrate that features are able to accommodate a 1 in 10 year storm event within 24 hours of a 1 in 30 year event plus climate change. This requires hydraulic modelling to be run for both storm events. • Provision of 10% urban creep allowance. • Final modelling and detailed calculations for all areas of the drainage system. Full drainage network details and results to be produced within modelling software. This includes the manhole schedule, design criteria and input variables, area summaries, outfall details, modelled storm details and simulation criteria, flow control structure details, and the summary of results for critical storms for the 1yr, 30yr and 100yr plus 40% climate change storms. Sewer Network Design should demonstrate that there is No Surcharging for the 1 in 1yr RP. 	
---	--

<ul style="list-style-type: none"> • The appropriate level of treatment for all runoff leaving the site, in line with the Simple Index Approach in chapter 26 of the CIRIA SuDS Manual C753. This must acknowledge the site being within a SPZ. • The provision of permeable paving for any required hardstanding where possible. • Demonstration that the sediment chamber which will be used to convey surface water, has been cleared of any blockage and is in fully working condition. • Detailed engineering drawings of each component of the drainage scheme, including the pond. • A final drainage plan which details exceedance and conveyance routes, FFL and ground levels, and location and sizing of any drainage features. • An updated drainage strategy incorporating all of the above bullet points including matters already approved and highlighting any changes to the previously approved strategy. <p>The approved scheme shall be implemented prior to first occupation.</p> <p>REASON:</p> <ul style="list-style-type: none"> • To prevent flooding by ensuring the satisfactory storage of/disposal of surface water from the site. • To ensure the effective operation of SuDS features over the lifetime of the development. • To provide mitigation of any environmental harm which may be caused to the local water environment • Failure to provide the above required information before commencement of works may result in a system being installed that is not sufficient to deal with surface water occurring during rainfall events and may lead to increased flood risk and 	
---	--

	pollution hazard from the site.	
8	<p>Prior to the commencement of development, a detailed Energy and Sustainability Strategy shall be submitted to and approved in writing by the Local Planning Authority. The strategy shall demonstrate how the development will achieve a minimum [e.g. 19%] reduction in carbon emissions through the use of renewable energy technologies and/or enhanced building fabric performance. The approved strategy shall be implemented in full prior to first occupation and thereafter maintained.</p> <p>REASON: To ensure the development is sustainable and makes efficient use of energy, water and materials and has an acceptable appearance to comply with Policy GEN2, Interim Policy 11 of the Interim Climate Change Planning Policy 2021 and NPPF (2024).</p>	Agent has stated to make submissions on Condition 8 to the Inspector at the Hearing.
9	<p>1. No development or preliminary groundworks of any kind shall take place until a programme of archaeological investigation has been secured in accordance with a written scheme of investigation which has been submitted to and approved in writing by the Local Planning Authority.</p> <p>2. No development or preliminary groundworks of any kind shall take place until the completion of the programme of archaeological investigation identified in the WSI defined in 1 above.</p> <p>3. The Applicant will submit to the Local Planning Authority a post excavation assessment (to be submitted within six months of the completion of the fieldwork). This will result in the completion of post excavation analysis, preparation of a full site archive and report ready for deposition at the local museum, and submission of a publication report.</p>	Agreed.

	REASON: To protect the historic environment, in accordance with Policy ENV4 of the Uttlesford Local Plan (2005).	
10	<p>Prior to the first use of the club house a management plan and travel plan should be submitted and approved by the Local Planning Authority. This will provide details over how the building and car park will be managed and to reduce any negative impacts onto the surrounding uses. The building should not be used after midnight at any time.</p> <p>REASON: To protect the residential amenity of the surrounding properties in accordance with Policies GEN2 and GEN4 of the Local Plan.</p>	Agreed.
11	<p>No plant or machinery shall be operated on the site during the construction phase of development hereby permitted before 0730hrs on Monday to Saturday, nor after 1800hrs on weekdays and 1300hrs on Saturdays, nor at any time on Sundays or bank holidays.</p> <p>REASON: To safeguard the amenities of residents of nearby properties, in accordance with Policy GEN4 of the of the Uttlesford Local Plan (adopted 2005).</p>	Agreed
12	If during any site investigation, excavation, engineering, or construction works evidence of land contamination is identified, it must be reported in writing immediately to the Local Planning Authority. The contamination shall be investigated by a competent person in accordance with the Essex Contaminated Land Consortium's 'Land Affected by Contamination: Technical Guidance for Applicants and Developers' and The Environment Agency Land Contamination Risk Management (LCRM) and other current guidance deemed	Agreed.

	<p>authoritative for the purposes, to the satisfaction of the Local Planning Authority, to ensure that the site is made suitable for its end use.</p> <p>Where remediation is necessary, a remediation scheme must be prepared and submitted for the approval in writing of the Local Planning Authority.</p> <p>Following completion of measures identified in the approved remediation scheme a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority.</p> <p>REASON: To ensure that the proposed development does not cause harm to human health, the water environment, and other receptors in accordance with Policy GEN2, ENV12 and ENV14 of the Uttlesford Local Plan (adopted 2005).</p>	
13	<p>Prior to the commencement of the development hereby approved, full details of both hard and soft landscape works shall be in accordance with Landscape and Tree Strategies submitted to and approved in writing by the Local Planning Authority and these works shall be carried out as approved. These details shall include :-</p> <ul style="list-style-type: none"> • proposed finished levels or contours; • legacy planting proposals • means of enclosure. • hard surfacing materials; • minor artefacts and structures (e.g. furniture, refuse or other storage units, signs, lighting, etc.); • proposed and existing functional services above and below ground (e.g. drainage power), • communications cables, pipelines etc. indicating lines, manholes, supports); 	Agreed.

	<ul style="list-style-type: none"> • Soft landscape works shall include [planting plans; written specifications including cultivation and other operations associated with plant and grass establishment); • schedules of plants, noting species, plant sizes and proposed numbers/densities where appropriate; implementation programmed. <p>REASON: The landscaping of this site is required in order to protect and enhance the existing visual character of the area and to reduce the visual and environmental impacts of the development hereby permitted, in accordance with Policies GEN2, GEN8, GEN7, ENV3 and ENV8 of the Uttlesford Local Plan (adopted 2005).</p>	
14	<p>All existing trees and hedges shall be retained, unless shown on the approved drawings as being removed.</p> <p>All trees and hedges on and immediately adjoining the site shall be protected from damage as a result of works on the site, to the satisfaction of the Local Planning Authority in accordance with BS5837: 2012 Trees in relation to design, demolition and construction, or any subsequent relevant British Standard, for the duration of the works on site and until at least five years following contractual practical completion of the approved development.</p> <p>In the event that trees or hedging become damaged or otherwise defective during such period, the Local Planning Authority shall be notified as soon as reasonably practicable and remedial action agreed and implemented. In the event that any tree or hedging dies or is removed without the prior consent of the Local Planning Authority, it shall be replaced as soon as is reasonably practicable and, in any case, by not later than the end of the first available planting season, with trees of such size, species and in such number and positions as may be agreed in writing with the Local Planning Authority.</p>	Agreed.

	<p>REASON: To ensure the continuity of amenity afforded by existing trees and hedges, in accordance with Policy ENV3 of the Uttlesford Local Plan (adopted 2005).</p>	
15	<p>A) The Biodiversity Gain Plan shall be prepared in accordance with the Ecological Appraisal dated June 2024 and prepared by ACD Environmental.</p> <p>B) The development shall not commence until a Habitat Management and Monitoring Plan (the HMMP), prepared in accordance with the approved Biodiversity Gain Plan and including:</p> <ol style="list-style-type: none"> 1) a non-technical summary; 2) the roles and responsibilities of the people or organisation(s) delivering the HMMP; 3) the planned habitat creation and enhancement works to create or improve habitat to achieve the biodiversity net gain in accordance with the approved Biodiversity Gain Plan; 4) the management measures to maintain habitat in accordance with the approved Biodiversity Gain Plan for a period of 30 years from the completion of development; and 5) the monitoring methodology and frequency in respect of the created or enhanced habitat to be submitted to the local planning authority, has been submitted to, and approved in writing by, the local planning authority. <p>C) Monitoring reports shall be submitted to local planning authority in writing in accordance with the methodology and frequency specified in the approved HMMP.</p> <p>REASON: To enhance the ecology and biodiversity in accordance with national and local planning policy.</p>	<p>Agreed.</p>

16	<p>There shall be no discharge of surface water onto the highway.</p> <p>REASON: to prevent hazards caused by water flowing onto the highway and to avoid the formation of ice on the highway in the interest of highway safety to ensure accordance with policy DM1 and Local Plan Policy GEN1, and GEN2.</p>	Agreed.
17	<p>The planting proposals hereby approved shall be carried out no later than during the first planting season following the date when the development hereby permitted is ready for occupation or in accordance with a programme agreed in writing with the Local Planning Authority.</p> <p>All planted materials shall be maintained for five years, and any trees or plants removed, dying, being severely damaged or becoming seriously diseased within 5 years of planting shall be replaced with others of similar size and species to those originally required to be planted.</p> <p>REASON: To ensure that the appearance of the development is satisfactory in accordance with Local Policy GEN2.</p>	Agreed.
18	<p>A minimum of 5% of the total dwellings approved by this permission shall be built to Category 3 (wheelchair user) housing M4(3)(2)(a) wheelchair adaptable. The remaining dwellings approved by this permission shall be built to Category 2: Accessible and adaptable dwellings M4(2) of the Building Regulations 2010 Approved Document M, Volume 1 2015 edition.</p> <p>REASON: To ensure compliance with Policy GEN2 (c) of the Uttlesford Local Plan 2005 and the subsequent SPD on Accessible Homes and Playspace.</p>	Agreed.
19	<p>Prior to any above-ground works, details of full 'Secured by Design' Accreditation shall be submitted and approved in writing by the Local Planning</p>	Agreed.

	<p>Authority. The details shall demonstrate consultation with the Essex Police Designing Out Crime Officers and that each building or such part of a building can achieve accreditation. The development shall only be carried out in accordance with the approved details and maintained thereafter.</p> <p>REASON: To ensure safe and secure development and contribute to reducing crime, in accordance with Local Plan Policy GEN1 and GEN2 and the NPPF 2024.</p>	
20	<p>Prior to first occupation a maintenance plan detailing the maintenance arrangements including who is responsible for different elements of the surface water drainage system and the maintenance activities/frequencies, has been submitted to and agreed, in writing, by the Local Planning Authority. Should any part be maintainable by a maintenance company, details of long term funding arrangements should be provided.</p> <p>The applicant or any successor in title must maintain yearly logs of maintenance which should be carried out in accordance with any approved Maintenance Plan. These must be available for inspection upon a request by the Local Planning Authority.</p> <p>REASON: To ensure appropriate maintenance arrangements are put in place to enable the surface water drainage system to function as intended to ensure mitigation against flood risk and in accordance with ULP Policy GEN3 and the NPPF 2024.</p> <p>Failure to provide the above required information prior to occupation may result in the installation of a system that is not properly maintained and may increase flood risk or pollution hazard from the site.</p>	Agreed.
