CHAPTER 2 (TRADE IN GOODS)

**TITLE I**  
**GENERAL PROVISIONS**

ARTICLE I

***Definitions***

For the purposes of this Annex:

- (a) ‘chapters’, ‘headings’ and ‘subheadings’ mean the chapters, the headings and the subheadings (two-, four- or six-digit codes) used in the Harmonized System;
- (b) ‘classified’ means the classification of a good under a particular heading or subheading of the Harmonized System;
- (c) ‘consignment’ means products which are either:
  - (i) sent simultaneously from one exporter to one consignee; or
  - (ii) covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
- (d) ‘customs value’ means the value as determined in accordance with the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 (WTO Agreement on Customs Valuation);
- (e) ‘ex-works price’ means the price paid for the product ex works to the manufacturer in the Party in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs related to its production, minus any internal taxes which are, or may be, repaid when the product obtained is exported. Where the last working or processing has been subcontracted, the term ‘manufacturer’ refers to the enterprise that has employed the subcontractor. Where the actual price paid does not

reflect all costs related to the manufacturing of the product which are actually incurred in the Party, the ex-works price means the sum of all those costs, minus any internal taxes which are, or may be, repaid when the product obtained is exported;

- (f) 'fungible material' or 'fungible product' means material or product that is of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another;
- (g) 'good' means both material and product;
- (h) 'manufacture' means any kind of working or processing, including assembly;
- (i) 'material' means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (j) 'maximum content of non-originating materials' means the maximum content of non-originating materials which is permitted in order to consider a manufacture to be working or processing sufficient to confer originating status on the product. It may be expressed as a percentage of the ex-works price of the product or as a percentage of the net weight of the materials used falling under a specified group of chapters, chapter, heading or subheading;
- (k) 'product' means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (l) 'value added' shall be taken to be the ex-works price of the product minus the customs value of each of the materials incorporated which originate in the other Parties with which cumulation is applicable or, where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the exporting Party; and
- (m) 'value of non-originating materials' means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the non-originating materials in the exporting Party. Where the value of the originating materials used needs to be established, this point shall be applied *mutatis mutandis*.

## **TITLE II**

### **DEFINITION OF THE CONCEPT OF ‘ORIGINATING PRODUCTS’**

#### **ARTICLE 2**

##### ***General Requirements***

For the purpose of implementing this Agreement, the following products shall be considered as originating in a Party:

- (a) products wholly obtained in that Party, within the meaning of Article 3 (Wholly Obtained Products);
- (b) products obtained in that Party incorporating non-originating materials, provided that such materials have undergone sufficient working or processing in that Party within the meaning of Article 5 (Sufficient Working or Processing); and
- (c) products produced exclusively from originating materials.

#### **ARTICLE 3**

##### ***Wholly Obtained Products***

1. The following shall be considered as wholly obtained in a Party:
  - (a) mineral products and natural water extracted from its soil or from its seabed;
  - (b) plants, including aquatic plants, and vegetable products grown or harvested there;
  - (c) live animals born and raised there;
  - (d) products from live animals raised there;
  - (e) products from slaughtered animals born and raised there;
  - (f) products obtained by hunting or fishing conducted there;
  - (g) products obtained from aquaculture there<sup>1</sup>;

---

1 Point (g) applies if aquatic organisms, including fish, molluscs, crustaceans, other aquatic invertebrates and aquatic plants, are born or raised from seed stock such as eggs, roes, fry, fingerlings, larvae, parr, or smolts by intervention in the rearing or growth processes to enhance production such as regular stocking, feeding or protection from predators.

- (h) products of sea fishing and other products taken from the sea outside any territorial sea by its vessels;
  - (i) products made on board its factory ships exclusively from products referred to in point (h);
  - (j) waste and scrap resulting from manufacturing operations conducted there;
  - (k) used products collected there, fit only for the recovery of raw materials;
  - (l) products extracted from the seabed or below the seabed which is situated outside its territorial sea but where it has exclusive exploitation rights; and
  - (m) goods produced there exclusively from the products specified in points (a) to (l).
2. The terms 'its vessels' and 'its factory ships' in sub-paragraphs (h) and (i) of paragraph 1 respectively shall apply only to vessels and factory ships which meet each of the following requirements:
- (a) they are registered in the exporting or the importing Party; and
  - (b) they sail under the flag of the exporting or the importing Party;

#### ARTICLE 4

##### ***Recovered Materials and Remanufactured Goods***

1. A recovered material is defined as a material recovered in one or more Parties from used goods provided such goods are fit only for such recovery.
2. Each Party shall provide that:
  - (a) a recovered material is treated as originating when it is used in the production of, and incorporated into, a remanufactured good;
  - (b) a remanufactured good is only treated as originating if it meets the relevant rule of origin for an equivalent good when new; and
  - (c) a recovered material not incorporated into a remanufactured good in one of the Parties is originating only if it meets the relevant rule of origin for an equivalent good when new.

## ARTICLE 5

### *Sufficient Working or Processing*

1. Without prejudice to paragraph 3 and to Article 7 (Insufficient Working or Processing), products which are not wholly obtained in a Party shall be considered to be sufficiently worked or processed when the conditions laid down in the list in Appendix 2 to this Annex for the goods concerned are fulfilled.
2. If a product which has obtained originating status in a Party in accordance with paragraph 1 is used as a material in the manufacture of another product, no account shall be taken of the non-originating materials which may have been used in its manufacture.
3. The determination of whether the requirements of paragraph 1 are met shall be carried out for each product.
4. However, where the relevant rule is based on compliance with a maximum content of non-originating materials, the customs authorities of the Parties may authorise exporters to calculate the ex-works price of the products and the value of the non-originating materials on an average basis as set out in paragraph 4, in order to take into account the fluctuations in costs and currency rates.
5. Where the second sentence of paragraph 3 applies, an average ex-works price of the product and average value of non-originating materials used shall be calculated respectively on the basis of the sum of the ex-works prices charged for all sales of the products carried out during the preceding fiscal year and the sum of the value of all the non-originating materials used in the manufacture of the products over the preceding fiscal year as defined in the exporting Party, or, where figures for a complete fiscal year are not available, a shorter period which should not be less than three months.
6. Exporters having opted for calculation on an average basis shall consistently apply such a method during the year following the fiscal year of reference, or, where appropriate, during the year following the shorter period used as a reference. They may cease to apply such a method where during a given fiscal year, or a shorter representative period of no less than three months, they record that the fluctuations in costs or currency rates which justified the use of such a method have ceased.
7. The averages referred to in paragraph 4 shall be used as the ex-works price and the value of non-originating materials, respectively, for the purpose of establishing compliance with the maximum content of non-originating materials.

## ARTICLE 6

### ***Tolerance Rule***

1. By way of derogation from Article 5 and subject to paragraphs 2 and 3 of this Article, non-originating materials which, according to the conditions set out in the list in Appendix 2 to this Annex, are not to be used in the manufacture of a given product may nevertheless be used, provided that their total net weight or value assessed for the product does not exceed:
  - (a) 15% of the net weight of the product falling within Chapters 2 and 4 to 24, other than processed fishery products in Chapter 16;
  - (b) 15% of the ex-works price of the product for products other than those covered by point (a).
2. Paragraph 1 shall not apply to products falling within Chapters 50 to 63, for which the tolerances mentioned in Notes 6 and 7 of Appendix 1 to this Annex shall apply.
3. Paragraphs 1 and 2 shall not allow any of the percentages for the maximum content of non-originating materials, as specified in the rules laid down in the list in Appendix 2 to this Annex, to be exceeded.
4. Paragraphs 1 and 2 shall not apply to products wholly obtained in a Party within the meaning of Article 3 (Wholly Obtained Products). However, without prejudice to Article 7 (Insufficient Working and Processing) and Article 9 (Unit of Qualification), the tolerance provided for in those provisions shall nevertheless apply to products for which the rule laid down in the list in Appendix 2 to this Annex requires that the materials which are used in the manufacture of that product are wholly obtained.

## ARTICLE 7

### ***Insufficient Working or Processing***

1. Without prejudice to paragraph 2, the following operations shall be considered to be insufficient working or processing to confer the status of an originating product, whether or not the requirements of Article 5 (Sufficient Working or Processing) are satisfied:
  - (a) preserving operations to ensure that the products remain in good condition during transport and storage;
  - (b) breaking-up and assembly of packages;
  - (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
  - (d) ironing or pressing of textiles;

- (e) simple painting and polishing operations;
  - (f) husking and partial or total milling of rice; polishing, and glazing of cereals and rice;
  - (g) operations to colour or flavour sugar or form sugar lumps; partial or total milling of crystal sugar;
  - (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
  - (i) sharpening, simple grinding or simple cutting;
  - (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);
  - (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
  - (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
  - (m) simple mixing of products, whether or not of different kinds;
  - (n) mixing of sugar with any material;
  - (o) for Chapters 27 to 40 of the Harmonized System, simple addition of water or dilution with water or another substance that does not materially alter the characteristics of the good;
  - (p) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
  - (q) slaughter of animals; and
  - (r) a combination of two or more operations specified in sub-paragraphs (a) to (q).
2. All the operations carried out in the exporting Party on a given product shall be taken into account when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.
  3. For the purposes of paragraph 1, operations shall be considered simple if neither special skills nor machines, apparatus or equipment especially produced or installed are needed for carrying out those operations.

## ARTICLE 8

### *Cumulation*

1. Without prejudice to the provisions of Article 2 (General Requirements), products shall be considered as originating in the exporting Party when exported to another Party if they are obtained in the exporting Party incorporating materials originating in any Party or in any of the countries listed in Appendix 3 to this Annex provided that the conditions set out in paragraph 6 below are met. It shall not be necessary for such materials to have undergone sufficient working or processing.
2. Without prejudice to the provisions of Article 2 (General Requirements), working or processing carried out in the United Kingdom, Iceland, Norway or the European Union, shall be considered as having been carried out in the exporting Party, subject to the conditions set out in subparagraphs 6(a) and 6(c).
3. For cumulation provided for in paragraph 1, where the working or processing carried out in the exporting Party does not go beyond the operations referred to in Article 7 (Insufficient Working or Processing), the product obtained shall be considered as originating in a Party only where the value added there is greater than the value of the materials used originating in each one of the countries referred to in paragraph 1. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in a Party.
4. For cumulation provided for in paragraph 2, when the working or processing carried out in the exporting Party does not go beyond the operations referred to in Article 7 (Insufficient Working or Processing), the product obtained shall be considered as originating in the exporting Party only when the value added there is greater than the value added in each one of the other countries listed in paragraph 2.
5. Products originating in one of the other countries referred to in paragraphs 1 and 2 which do not undergo any working or processing in the exporting Party shall retain their origin if exported into one of these countries.
6. The conditions set out in this paragraph are:
  - (a) preferential trade agreements in accordance with Article XXIV of GATT 1994 are in effect between the exporting Party and the non-Party in question and between the importing Party and that non-Party, which foresee procedures for proving origin and administrative cooperation procedures, including procedures for verification of originating status;
  - (b) for cumulation of materials, these materials meet the relevant rules under this Agreement (*mutatis mutandis*) in order to qualify as originating in the non-Party in question; and

- (c) the working or processing carried out in the exporting Party goes beyond those referred to in paragraph 1 of Article 7 (Insufficient Working or Processing), without prejudice to paragraphs 3 and 4 of this Article. Such materials do not have to undergo sufficient working or processing.
- 7. Where preferential trade agreements are in effect between the exporting Party and a non-Party not listed in Appendix 3 to this Annex and between the importing Party and the same non-Party, the following shall apply:
  - (a) Products imported from that non-Party which are used as materials in the manufacture of a product in a Party, which product is subsequently exported to the other Party, shall be considered as originating in the Party where the last operation has been carried out once a decision to that effect has been adopted by the Joint Committee, and subject to the terms of that decision;
  - (b) Except to the extent that that decision may provide to the contrary, the terms of that decision, once it is adopted, shall be deemed to include the conditions set out in paragraph 6;
  - (c) The Joint Committee shall take into account the special position of materials classified within Chapters 1 to 24 and Chapters 35 and 38 of the Harmonized System, insofar as sensitive sectors may be affected; and
  - (d) The Parties shall use their best endeavours to ensure that the Joint Committee shall reach an appropriate decision promptly on the request of any Party and, if that decision lays down further conditions, that such conditions shall be the least trade-restrictive conditions reasonable in the circumstances.

## ARTICLE 9

### *Unit of Qualification*

- 1. The unit of qualification for the application of this Agreement shall be the particular product which is considered to be the basic unit when determining classification using the nomenclature of the Harmonized System.
- 2. It follows that:
  - (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification; and
  - (b) when a consignment consists of a number of identical products classified under the same heading, each individual item shall be taken into account when applying this Annex.

## ARTICLE 10

### ***Packing Materials and Containers for Shipment***

Packing materials and containers for shipment that are used to protect a product during transportation shall be disregarded in determining whether a product is originating.

## ARTICLE 11

### ***Packaging Materials and Containers for Retail Sale***

Packaging materials and containers in which the product is packaged for retail sale, if classified with the product, shall be disregarded in determining the origin of the product, except for the purposes of calculating the maximum value of non-originating materials if a product is subject to a maximum value of non-originating materials in accordance with Appendix 2 to this Annex.

## ARTICLE 12

### ***Accessories, Spare Parts and Tools***

1. Accessories, spare parts, tools and instructional or other information materials shall be regarded as one product with the piece of equipment, machine, apparatus or vehicle in question if they:
  - (a) are classified and delivered with, but not invoiced separately from, the product; and
  - (b) are of the types, quantities and value customary for that product.
2. Accessories, spare parts, tools and instructional or other information materials referred to paragraph 1 shall be disregarded in determining the origin of the product except for the purposes of calculating the maximum value of non-originating materials if a product is subject to a maximum value of non-originating materials set out in Appendix 2 to this Annex.

## ARTICLE 13

### ***Sets***

1. Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all the component products are originating.
2. When a set is composed of originating and non-originating products, the set as a whole shall however be regarded as originating, provided that the value

of the non-originating products does not exceed 15% of the ex-works price of the set.

#### ARTICLE 14

##### *Neutral Elements*

In order to determine whether a product is an originating product, no account shall be taken of the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools; and
- (d) any other goods which do not enter, and which are not intended to enter, into the final composition of the product.

#### ARTICLE 15

##### *Accounting Segregation*

1. If originating and non-originating fungible materials are used in the working or processing of a product, economic operators may ensure the management of materials using the accounting segregation method, without keeping the materials on separate stocks.
2. If originating and non-originating fungible products of heading 17.01, Chapters 27, 28, 29, and headings 32.01-32.07 and 39.01-39.14 of the Harmonized System are exported from one Party to another, economic operators may ensure the management of these products using the accounting segregation method, without keeping the products on separate stocks.
3. A Party may require that the application of accounting segregation is subject to prior authorisation by its customs authority. The customs authority may grant the authorisation subject to any conditions they deem appropriate and shall monitor the use made of the authorisation. The customs authority may withdraw the authorisation whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Annex.
4. Through the use of accounting segregation it must be ensured that, at any time, no more products can be considered as 'originating in the exporting Party' than would have been the case if a method of physical segregation of the stocks had been used.

5. The method shall be applied, and its application shall be recorded, on the basis of the general accounting principles applicable in the exporting Party.
6. The beneficiary of the method referred to in paragraphs 1 and 2 shall make out or apply for proofs of origin for the quantity of products which may be considered as originating in the exporting Party. At the request of the customs authority of the importing Party, the beneficiary shall provide a statement of how the quantities have been managed.

### TITLE III

#### TERRITORIAL REQUIREMENTS

##### ARTICLE 16

##### *Principle of Territoriality*

1. Except as provided for in Article 8 (Cumulation) and in paragraph 3 of this Article, the conditions set out in Title II shall be fulfilled without any interruption in the Party concerned.
2. If originating products exported from a Party to another country are returned, they shall be considered to be non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
  - (a) the products returned are the same as those which were exported; and
  - (b) they have not undergone any operations beyond that necessary to preserve them in good condition while in that country or while being exported.
3. The obtention of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the exporting Party on materials exported from that Party and subsequently re-imported there, provided:
  - (a) those materials are wholly obtained in the exporting Party or have undergone working or processing beyond the operations referred to in Article 7 (Insufficient Working or Processing) prior to being exported; and
  - (b) it can be demonstrated to the satisfaction of the customs authorities that:
    - (i) the re-imported products have been obtained by working or processing the exported materials; and
    - (ii) the total added value acquired outside the exporting Party by applying this Article does not exceed 10% of the ex-works price of the end product for which originating status is claimed.
4. For the purposes of paragraph 3, the conditions for obtaining originating status set out in Title II shall not apply to working or processing done outside the exporting Party. However, where, in the list in Appendix 2 to this Annex, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end

product, the total value of the non-originating materials incorporated in the exporting Party, taken together with the total added value acquired outside that Party by applying this Article, shall not exceed the stated percentage.

5. For the purposes of applying paragraphs 3 and 4, 'total added value' shall be taken to mean all costs arising outside the exporting Party, including the value of the materials incorporated there.
6. Paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Appendix 2 to this Annex or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6 (Tolerance Rule) is applied.
7. Any working or processing of the kind covered by this Article and done outside the exporting Party shall be done under the outward processing arrangements, or similar arrangements.

#### ARTICLE 17

##### *Non-Alteration*

1. The preferential treatment provided for under this Agreement shall apply only to products satisfying the requirements of this Agreement and declared for importation in a Party provided that those products are the same as those exported from the exporting Party. They shall not have been altered, transformed in any way or subjected to operations other than to preserve them in good condition or than adding or affixing marks, labels, seals or any documentation to ensure compliance with specific domestic requirements of the importing Party carried out under customs supervision in the country(ies) of transit or splitting, as permitted by paragraphs 2 and 3, prior to being declared for home use.
2. Storage of products or consignments may take place provided they remain under customs supervision in the third country(ies) of transit.
3. Without prejudice to Title V of this Annex, the splitting of consignments may take place, provided they remain under customs supervision in the third country(ies) of splitting.
4. In the case of doubt, the importing Party may request the importer or its representative to submit at any time all appropriate documents to provide evidence of compliance with this Article, which may be given by any documentary evidence, and notably by:
  - (a) contractual transport documents such as bills of lading;
  - (b) factual or concrete evidence based on marking or numbering of packages;

- (c) a certificate of non-manipulation provided by the customs authorities of the country(ies) of transit or splitting or any other documents demonstrating that the goods remained under customs supervision in the country(ies) of transit or splitting; or
- (d) any evidence related to the goods themselves.

## ARTICLE 18

### *Exhibitions*

1. Originating products, sent for exhibition in a country other than one with which cumulation is applicable in accordance with Article 8 and sold after the exhibition for importation in a Party, shall benefit on importation from this Agreement provided it is shown to the satisfaction of the customs authorities that:
  - (a) an exporter has consigned these products from a Party to the country in which the exhibition is held and has exhibited them there;
  - (b) the products have been sold or otherwise disposed of by that exporter to a person in another Party;
  - (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and
  - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
2. A proof of origin shall be issued or made out in accordance with Title IV of this Annex and submitted to the customs authorities of the importing Party in the normal manner. The name and address of the exhibition shall be indicated thereon. Where necessary, additional documentary evidence of the conditions under which the goods have been exhibited may be required.
3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

**TITLE IV**  
**PROOF OF ORIGIN**

ARTICLE 19

***Origin Declaration***

1. For the purpose of obtaining preferential tariff treatment in the importing Party, a proof of origin in the form of an origin declaration in accordance with Appendix 4 to this Annex must be completed by an exporter in a Party for products originating in any Party and otherwise fulfilling the requirements of this Annex.
2. The origin declaration must be made out using one of the linguistic versions of the text set out in Appendix 4 to this Annex on an invoice or on any other commercial document that describes the originating product in sufficient detail to enable its identification. The importing Party shall not require the importer to submit a translation of the origin declaration.
3. The origin declaration shall bear the original signature of the exporter or the authorised representative under the exporter's responsibility.
4. Notwithstanding paragraph 3, the Parties shall allow:
  - (a) the use of electronic signatures or identification codes pursuant to paragraph 5 for exporters in the United Kingdom; and
  - (b) authorization numbers pursuant to Article 20 (Approved Exporter) for exporters in Iceland or Norway.
5. Each Party shall permit an origin declaration to be sent electronically and directly from the exporter in one Party to an importer in the other Party. Such an approach will allow the use of electronic signatures or identification codes.
6. The origin declaration may be completed when the products to which it relates are exported, or after exportation. An origin declaration shall be valid one year from the date of completion, or for such longer period as may be provided by the importing Party.
7. An origin declaration may apply to multiple shipments of identical products imported into a Party within the period specified in the origin declaration, which shall not exceed 12 months.
8. Notwithstanding paragraph 1, the Parties may allow forwarding agents, customs brokers and other persons to complete an origin declaration. In such cases, such persons must be empowered in writing by the exporter of the

product to complete origin declarations. They must submit the said authorisation to the competent authorities, at their request.

9. An exporter who has completed an origin declaration must keep a copy of the origin declaration and all documents supporting the originating status of the product, in paper or electronic form, for at least three years from the date of completion.
10. If an exporter has completed an origin declaration for a product referred to in paragraph 2 of Article 8 (Cumulation), the exporter must possess a completed and signed supplier's declaration in accordance with Appendix 5 to this Annex or Appendix 6 to this Annex from the supplier of the non-originating materials used in the production of the product. The customs authority of the exporting Party may, subject to its domestic requirements, allow the supplier's declaration to be completed without signature.

## ARTICLE 20

### *Approved Exporter*

1. The customs authorities of Iceland or Norway may, subject to domestic requirements, authorise an exporter of that Party (hereinafter referred to as "approved exporter") to complete origin declarations without signature.
2. An exporter who requests such authorisation must offer to the satisfaction of the customs authorities of Iceland or Norway all guarantees necessary to verify the originating status of the products as well as the fulfilment of any other requirement under this Annex.
3. The customs authorities of Iceland or Norway shall provide, to the approved exporter, an authorisation number to be included in the origin declaration instead of the signature.
4. The customs authorities of Iceland or Norway shall monitor the proper use of an authorisation and may withdraw it if the exporter no longer meets the conditions or otherwise makes improper use of it.

## **TITLE V**

### **PREFERENTIAL TREATMENT**

#### **ARTICLE 21**

##### ***Importation Requirements***

1. Each Party shall grant preferential tariff treatment in accordance with this Agreement to originating products of a Party imported from a Party, on the basis of a claim for preferential tariff treatment made by the importer based on an origin declaration referred to in Article 19 (Origin Declaration).
2. An origin declaration must be submitted to the customs authority of the importing Party within one year from its completion or within the validity period provided by the importing Party if longer. The expiration of this period may be suspended as long as the products covered by that origin declaration remain under the customs control of the importing Party. After this period, an origin declaration may be accepted only in exceptional circumstances.
3. Notwithstanding paragraph 1, a Party may, in accordance with its domestic law, waive the requirements to present an origin declaration.
4. An importer who has been granted preferential tariff treatment must keep the origin declaration and other relevant documents for three years after the date on which preferential tariff treatment was granted, or longer if required by the law of the importing Party.

#### **ARTICLE 22**

##### ***Delayed Claims for Preferential Treatment***

If a product would have qualified for preferential treatment when it was imported into a Party but the importer did not have an origin declaration at the time of importation, the importer of the product having a valid origin declaration may, within a period of time of no less than 2 years after the date of importation, apply in accordance with domestic law for a refund of duties paid as a result of the good not having been accorded preferential tariff treatment.

## ARTICLE 23

### ***Importation by Instalments***

Where, at the request of an importer and in accordance with domestic laws, regulations, or published requirements of the importing Party, a dismantled or non-assembled product within the meaning of General Rule 2(a) for the interpretation of the Harmonized System is imported by instalments, a single origin declaration may be submitted to the customs authority upon importation of the first instalment. Alternatively, an origin declaration may be submitted for each imported instalment.

## ARTICLE 24

### ***Exemptions from Origin Declaration Requirements***

1. Each Party may, in conformity with its law, waive the requirement to present an origin declaration for low value importations of originating goods from the other Party.
2. Each Party may exclude any importation from the provisions made under paragraph 1 when the importation is part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the requirements of this Annex related to origin declarations.
3. Each Party may set value limits for products referred to in paragraph 1 and shall exchange information with the other Parties regarding those limits.

## ARTICLE 25

### ***Record Keeping Requirements***

1. The exporting Party shall require an exporter that has completed an origin declaration to keep, and to provide on request:
  - (a) a copy of the origin declaration and all supporting documents; and
  - (b) written statements from producers or suppliers which evidence the origin declaration's claim that the good is originating,
2. for three years after the completion of the origin declaration, or for such longer period of time as the exporting Party may specify.
3. Each Party shall provide that, if an exporter has based an origin declaration on a written statement from a producer or supplier, that producer or supplier shall be required to maintain records in accordance with paragraph 1.
4. The importing Party may require that an importer that has been granted preferential treatment shall keep documentation relating to the importation of

the good, including a copy of the origin declaration, for three years after the date of import, or for such longer period of time as that Party may specify.

5. Each Party shall permit, in accordance with that Party's law, importers, exporters, producers and suppliers in that Party to maintain documentation or records in any medium, provided that the documentation or records can be retrieved and printed.
6. A Party may deny preferential treatment to a good that is the subject of a verification of origin when the importer, exporter, producer or supplier of the good that is required to maintain records or documentation under this Article:
  - (a) fails to maintain records or documentation in accordance with this Annex; or
  - (b) denies access to those records or documentation.

## ARTICLE 26

### *Cooperation of Exporters and Importers with the Customs Authority*

1. Each Party shall ensure that exporters and importers benefitting from the Agreement must, within the framework of this Agreement and subject to the law of that Party, cooperate with the customs authority of that Party and submit, upon their request, supporting documents regarding the fulfilment of the requirements of this Annex.
2. The exporting Party shall ensure that an exporter who has completed an origin declaration must:
  - (a) upon request of the customs authority of that Party, submit the documents referred to in paragraph 9 of Article 19 (Origin Declaration) to that authority, which may carry out inspections and verify the exporters' or the producer's accounts and take other appropriate measures; and
  - (b) when becoming aware of or having reason to believe that an origin declaration contains incorrect information, immediately notify the importer and the customs authority of the exporting Party of any change affecting the originating status of each product covered by that origin declaration.
3. The importing Party shall ensure that an importer who has requested or has been granted preferential tariff treatment must:
  - (a) upon request of the customs authority of that Party, submit the documents referred to in paragraph 4 of Article 17 (Non-alteration) to that authority; and

- (b) when becoming aware of or having reason to believe that the origin declaration contains incorrect information, immediately notify the customs authority of that Party of any change affecting the originating status of each product covered by an origin declaration.

## ARTICLE 27

### ***Discrepancies***

The customs authority of the importing Party shall not reject a claim for preferential tariff treatment due to minor errors or discrepancies in the origin declaration, or for the sole reason that an invoice was issued in a third country.

**TITLE VI**  
**ADMINISTRATIVE COOPERATION**

ARTICLE 28

*Verification of Origin*

1. The customs authority of the exporting Party shall carry out verifications of origin declarations on request of the importing Party.
2. The verification request may question the authenticity of origin declarations, the originating status of the product concerned or the fulfilment of other requirements of this Annex. It shall identify the reasons for the inquiry and include a copy of the origin declaration and, if appropriate, any other document or information giving reason to believe that the origin declaration could be invalid.
3. The importing Party shall submit the verification request to the exporting Party within 34 months from the completion of the origin declaration. The exporting Party is not obliged to conduct verifications based on verification requests received after that deadline.
4. The customs authority of the importing Party may, subject to its domestic law, suspend preferential tariff treatment of a product covered by an origin declaration until the verification procedure has been finalised.
5. The customs authority of the exporting Party may request evidence, carry out inspections at the exporter's or producer's premises, check the exporter's and the producer's accounts and take other appropriate measures to verify compliance with this Annex.
6. The requesting Party shall be informed of the results and findings of the verification within 10 months from the date of the verification request. If the requesting Party receives no reply within that time limit, or if the reply does not clearly state whether a product is originating or whether the origin declaration is valid, the requesting Party may deny preferential tariff treatment to the consignment covered by the origin declaration in question.
7. Where the requested Party is unable to meet the deadline referred to in paragraph 6, it shall, upon request within that deadline, be granted an extension of the deadline.
8. Each Party shall provide that, if there are differences in relation to the verification procedures of this Article or in the interpretation of the rules of origin in determining whether a good qualifies as originating, and these differences cannot be resolved through consultations between the customs

authority requesting the verification and the customs authority responsible for performing the verification, and if the customs authority of the importing Party intends to make a determination of origin that is inconsistent with the results and findings of the verification provided by the customs authority of the exporting Party, the customs authority of the importing Party shall notify the customs authority of the exporting Party within 60 days of receiving those results and findings of the verification.

9. At the request of either Party, the Parties shall hold and conclude consultations within 90 days from the date of the notification referred to in paragraph 8 to resolve those differences. The period for concluding consultations may be extended on a case-by-case basis by mutual written consent between the Parties. If the differences cannot be settled by consultation between the Parties, each Party may seek to resolve these differences within the Joint Committee.

## ARTICLE 29

### ***Denial of Preferential Tariff Treatment***

1. An importing Party may deny preferential tariff treatment or recover unpaid customs duties in accordance with its domestic law where a product does not meet the requirements of this Annex or where the importer or exporter fails to demonstrate compliance with the relevant requirements.
2. Slight discrepancies between the statements made in the origin declaration and those made in other documents submitted to the customs authority for customs clearance or obvious formal errors, such as typing errors in an origin declaration, shall not as such render the origin declaration invalid.
3. In all cases, the settlement of differences between the importer and the customs authority of the importing Party shall be under the law of the importing Party.

## ARTICLE 30

### ***Notifications and Cooperation***

1. The Parties shall provide each other with:
  - (a) the addresses of their customs authorities responsible for verifications referred to in Article 28 (Verification of Origin) and other issues related to the implementation or application of this Annex;
  - (b) information on the use of electronic signatures and identification codes referred to in Article 19 (Origin Declaration), and authorisation numbers referred to in Article 20 (Approved Exporter); and

- (c) information on the interpretation, application and administration of this Annex.
- 2. The Parties shall endeavour to resolve technical matters related to the implementation or application of this Annex, to the extent possible, through direct consultations between the customs authorities referred to in subparagraph (1)(a) or in the Sub-Committee on Trade in Goods. Disputes that cannot be settled through such consultations shall be submitted to the Joint Committee.
- 3. The Parties shall provide each other with details of the arrangements or agreements, including their dates of entry into effect, and their corresponding rules of origin, which are applied with the other countries referred to in paragraphs 1, 2 and 7 of Article 8 (Cumulation).

#### ARTICLE 31

##### *Confidentiality*

- 1. This Annex does not require a Party to furnish or allow access to information, the disclosure of which would impede law enforcement or would be contrary to that Party's law protecting business information.
- 2. Each Party shall maintain, in conformity with its law, the confidentiality of the information collected pursuant to this Annex and shall protect that information from disclosure that could prejudice the competitive position of the person providing the information. If the Party receiving or obtaining the information is required by its law to disclose the information, that Party shall notify the person or Party who provided that information.
- 3. Each Party shall ensure that the confidential information collected pursuant to this Annex shall not be used for purposes other than the administration and enforcement of determinations of origin and of customs matters, except with the permission of the person or Party who provided the confidential information.
- 4. Where personal data is transferred pursuant to this Annex, such transfer shall take place in accordance with the transferring Party's rules on international transfers of personal data. Where needed, each Party shall make best efforts, while respecting its rules on international transfers of personal data, to establish safeguards necessary for the transfer of personal data.
- 5. Notwithstanding paragraph 3, a Party may allow information collected pursuant to this Annex to be used in any administrative, judicial, or quasi-judicial proceedings instituted for failure to comply with customs-related law implementing this Annex. A Party shall notify the person or Party who provided the information in advance of such use.

6. The Parties shall exchange information on their respective laws for the purpose of facilitating the operation and application of paragraph 2.

**TITLE VII**  
**FINAL PROVISIONS**

ARTICLE 32

***Penalties***

Each Party shall provide for the imposition of criminal, civil or administrative penalties for violations of its domestic law related to this Annex.

ARTICLE 33

***Products in Transit or Storage***

The provisions of this Annex may be applied to products which, on the date of entry into force of this Agreement, are either in transit or in temporary storage in a customs warehouse or free zone under customs control. For such products, an origin declaration may be completed retrospectively up to six months after the entry into force of this Agreement, provided that the provisions of this Annex and in particular Article 17 (Non-Alteration) have been fulfilled.

## **TITLE VIII**

### **APPLICATION OF THE ANNEX**

#### **ARTICLE 34**

##### ***Liechtenstein***

Without prejudice to Article 2 (General Requirements), a product originating in Liechtenstein shall, due to the Customs Treaty between Liechtenstein and Switzerland, be considered as originating in Switzerland.

#### **ARTICLE 35**

##### ***Free Zones***

1. Each Party shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in that Party are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By way of derogation from paragraph 1, when products originating in a Party are imported into a free zone under cover of a proof of origin and undergo treatment or processing, a new proof of origin may be issued or made out, if the treatment or processing undergone complies with this Annex.

#### **ARTICLE 36**

##### ***Republic of San Marino***

Without prejudice to Article 2 (General Requirements), a product originating in the Republic of San Marino shall, due to the customs union between the European Union and the Republic of San Marino, be considered as originating in the European Union.

Without prejudice to Article 2 (General Requirements), a product originating in the Principality of Andorra classified under Chapters 25 to 97 shall, due to the customs union between the European Union and the Principality of Andorra, be considered as originating in the European Union.

## ARTICLE 38

### *Ceuta and Melilla*

The term “European Union” used in this Annex does not cover Ceuta and Melilla. Products originating in Ceuta and Melilla shall not be considered as originating in the European Union.

## APPENDIX 1

### TO ANNEX I (RULES OF ORIGIN)

#### **INTRODUCTORY NOTES TO THE LIST IN APPENDIX 2 TO ANNEX I (RULES OF ORIGIN)**

##### **Note 1 - General Introduction**

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 5 (Sufficient Working or Processing) of Annex I (Rules of Origin). There are four different types of rule, which vary according to the product:

- (a) through working or processing a maximum content of non-originating materials is not exceeded;
- (b) through working or processing the 4-digit Harmonized System heading or 6-digit Harmonized System sub-heading of the manufactured products becomes different from the 4-digit Harmonized System heading or 6-digit sub-heading respectively of the materials used;
- (c) a specific working and processing operation is carried out; and
- (d) working or processing is carried out on certain wholly obtained materials.

##### **Note 2 - The Structure of the List**

- 2.1. The first two columns in the list describe the product obtained. Column 1 gives the heading number or Chapter number used in the Harmonized System and column 2 gives the description of goods used in that system for that heading or Chapter. For each entry in the first two columns, a rule is specified in column 3. Where, in some cases, the entry in column 1 is preceded by an 'ex', this signifies that the rules in column 3 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a Chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 apply to all products which, under the Harmonized System, are classified in headings of the Chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3.

- 2.4. Where two alternative rules are set out in column 3, separated by “*or*”, it is at the choice of the exporter which one to use.

### **Note 3 - Examples of How to Apply the Rules**

- 3.1. Article 5 (Sufficient Working or Processing) of Annex I (Rules of Origin), concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a Party.
- 3.2. Pursuant to Article 7 (Insufficient Working or Processing) of Annex I (Rules of Origin), the working or processing carried out must go beyond the list of operations mentioned in that Article. If it does not, the goods shall not qualify for the granting of the benefit of preferential tariff treatment, even if the conditions set out in the list below are met.

Subject to the provision referred to in Note 3.1, the rules in the list represent the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status.

Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

If a rule provides that non-originating material, at a certain level of manufacture, may not be used, the use of materials at an earlier stage of manufacture is allowed, and the use of materials at a later stage is not.

Example: when the list-rule for Chapter 19 requires that “non-originating materials of headings 11.01 to 11.08 cannot exceed 20% weight”, the use (i.e. importation) of cereals of Chapter 10 (materials at an earlier stage of manufacture) is not limited.

- 3.3. Without prejudice to Note 3.2, where a rule uses the expression “manufacture from materials of any heading”, then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression “manufacture from materials of any heading, including other materials of heading ...” or “manufacture from materials of any heading, including other materials of the same heading as the product” means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.
- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials which, because of their inherent nature, cannot satisfy this.
- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

**Note 4 - General provisions concerning certain agricultural goods**

- 4.1. Agricultural goods falling within Chapters 6, 7, 8, 9, 10 and 12 and heading 24.01 which are grown or harvested in a Party shall be treated as originating in that Party, even if grown from imported seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants.
- 4.2. In cases where the content of non-originating sugar in a given product is subject to limitations, the weight of sugars of headings 17.01 (sucrose) and 17.02 (e.g. fructose, glucose, lactose, maltose, isoglucose or invert sugar) used in the manufacture of the final product and used in the manufacture of the non-originating products incorporated in the final product is taken into account for the calculation of such limitations.

**Note 5 - Terminology used in respect of certain textile products**

- 5.1. The term “natural fibres” is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 5.2. The term “natural fibres” includes horsehair of heading 05.11, silk of headings 50.02 and 50.03, as well as wool-fibres and fine or coarse animal hair of headings 51.01 to 51.05, cotton fibres of headings 52.01 to 52.03, and other vegetable fibres of headings 53.01 to 53.05.
- 5.3. The terms “textile pulp”, “chemical materials” and “paper-making materials” are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 5.4. The term “man-made staple fibres” is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 55.01 to 55.07.

- 5.5. Printing (when combined with Weaving, Knitting/Crocheting, Tufting or Flocking) is defined as a technique by which an objectively assessed function, like colour, design or technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques.
- 5.6. Printing (as a standalone operation) is defined as a technique by which an objectively assessed function, like colour, design or technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques combined with at least two preparatory/finishing operations (such as scouring, bleaching, mercerizing, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling), provided that the value of all the materials used does not exceed 50% of the ex-works price of the product.

**Note 6 - Tolerances applicable to products made of a mixture of textile materials**

- 6.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product which, taken together, represent 15% or less of the total weight of all the basic textile materials used. (See also Notes 6.3 and 6.4.)
- 6.2. However, the tolerance mentioned in Note 6.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk;
- wool;
- coarse animal hair;
- fine animal hair;
- horsehair;
- cotton;

- other products of heading 56.05;
- glass fibres;

6.3. In the case of products incorporating “yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped”, this tolerance is 20% in respect of this yarn.

6.4. In the case of products incorporating “strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder,

of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film”, this tolerance is 30% in respect of this strip.

**Note 7 - Other tolerances applicable to certain textile products**

- 7.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 15% of the ex-works price of the product.
- 7.2. Without prejudice to Note 7.3, materials which are not classified within Chapters 50 to 63 may be used freely in the manufacture of textile products, whether or not they contain textiles.
- 7.3. Where a percentage rule applies, the value of non-originating materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

**Note 8 - Definition of specific processes and simple operations carried out in respect of certain products of Chapter 27**

- 8.1 For the purposes of headings ex 27.07 and 27.13, the “specific processes” are the following:
  - (a) vacuum-distillation;

The further treatment, with hydrogen, of lubricating oils of heading ex 27.10 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils of heading ex 27.10 only, atmospheric distillation, on condition that less than 30% of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;

**Note 9 - Definition of specific processes and simple operations carried out in respect of certain products**

- 9.1. Products falling within Chapter 30 obtained in a Party by using cell cultures shall be considered as originating in that Party. "Cell culture" is defined as the cultivation of human, animal and plant cells under controlled conditions (such as defined temperatures, growth medium, gas mixture, pH) outside a living organism.

- 9.2. Products falling within Chapters 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for: 33.01, 3302.10) 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26) obtained in a Party by fermentation shall be considered as originating in that Party.

- **Fermentation:** "Fermentation" is a biotechnological process in which human, animal or plant cells, bacteria, yeasts, fungi or enzymes are used to produce products falling within Chapters 29 to 39.

- 9.3. The following processing operations are considered sufficient according to paragraph 1 of Article 5 (Sufficient Working or Processing) for products falling within Chapters 28, 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for: 3302.10, 33.01) 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26):

- **Chemical reaction:** A "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. A chemical reaction may be expressed by a change of the "CAS number".

The following processes should not be considered for purposes of origin: (a) dissolving in water or other solvents; (b) the elimination of solvents including solvent water; or (c) the addition or elimination of water of crystallization.

A chemical reaction as defined above is to be considered as origin conferring.

- **Mixtures and Blends:** The deliberate and proportionally controlled mixing or blending (including dispersing) of materials, other than the addition of diluents, to conform to predetermined specifications which

results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials is to be considered as origin conferring.

- **Purification:** Purification is to be considered as origin conferring provided that the purification occurs in one or both of the Parties and results in one of the following criteria being satisfied:
    - (a) purification of a good resulting in the elimination of at least 80% of the content of existing impurities; or
    - (b) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:
      - (i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;
      - (ii) chemical products and reagents for analytical, diagnostic or laboratory uses;
      - (iii) elements and components for use in micro-electronics;

|                                   |                                                                                                                                        |
|                                   |                                                                                                                                        |
|                                   | (Address and signature of the supplier; in addition the name of the person signing the declaration must be indicated in clear script.) |

- (1) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.

Example:

The document relates to different models of electric motor of heading 85.01 to be used in the manufacture of washing machines of heading 84.50. The nature and value of the non-originating materials used in the manufacture of these motors differ from one another. The models must therefore be differentiated in the first column and the indication in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of its products depending on which electrical motor it uses.

- (2) The indications requested in these columns should only be given if they are necessary.

Examples:

The rule for garments of ex Chapter 62 says that non-originating yarn may be used. If a manufacturer of such garments in the United Kingdom uses fabric imported from Norway which has been obtained there by weaving non-originating yarn, it is sufficient for the United Kingdom supplier to describe in its declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.

A producer of iron wire of heading 72.17 who has produced it from non-originating iron bars should indicate in the second column “bars of iron”. Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value, it is necessary to indicate in the third column the value of the non-originating bars.

- (3) “Value of non-originating materials used” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the United Kingdom, Norway, Iceland or the European Union. The exact value for each non-originating material used must be given per unit of the goods specified in the first column.
  - (4) “Total value added outside the United Kingdom, Norway or Iceland” shall mean all costs accumulated outside the United Kingdom, Norway or Iceland, including the value of all materials added there. The exact total added value acquired outside the United Kingdom, Norway or Iceland must be given per unit of the goods specified in the first column.

| (Address and signature of the supplier; in addition the name of the person signing the declaration must be indicated in clear script) |

<sup>(1)</sup> Name and address of the customer.

<sup>(2)</sup> When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.

Example:

The document relates to different models of electric motor of heading 85.01 to be used in the manufacture of washing machines of heading 84.50. The nature and value of the non-originating materials used in the manufacture of these motors differ from one another. The models must therefore be differentiated in the first column and the indication in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of its products depending on which electrical motor it uses.

- (3) The indications requested in these columns should only be given if they are necessary.

Examples:

The rule for garments of ex Chapter 62 says that non-originating yarn may be used. If a manufacturer of such garments in the United Kingdom uses fabric imported from Norway which has been obtained there by weaving non-originating yarn, it is sufficient for the United Kingdom supplier to describe in its declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.

A producer of iron wire of heading 72.17 who has produced it from non-originating iron bars should indicate in the second column “bars of iron”. Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value, it is necessary to indicate in the third column the value of the non-originating bars.

- (4) “Value of non-originating materials used” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the United Kingdom, Norway, Iceland or the European Union. The exact value for each non-originating material used must be given per unit of the goods specified in the first column.

- (5) “Total value added outside the United Kingdom, Norway or Iceland” shall mean all costs accumulated outside the United Kingdom, Norway or Iceland, including the value of all materials added there. The exact total added value acquired outside the United Kingdom, Norway or Iceland must be given per unit of the goods specified in the first column.

- (6) Insert dates. The period of validity of the long-term supplier’s declaration should not normally exceed 12 months, subject to the conditions laid down by the customs authorities where the long-term supplier’s declaration is made out.

### SCHEDULE OF TARIFF COMMITMENTS ON GOODS

#### COMMITMENTS OF ICELAND ON GOODS ORIGINATING IN THE UNITED KINGDOM

#### REFERRED TO IN PARAGRAPH 2 OF ARTICLE 2.20 (ANNEXES) OF SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN GOODS) OF CHAPTER 2 (TRADE IN GOODS)

#### **Explanatory Notes**

The following tariff categories apply as shown in Part A in relation to the elimination or reduction of customs duties by Iceland for originating goods of the United Kingdom pursuant to Article 2.6 (Customs Duties).

- (a) There will be no preferential tariff concessions offered on originating goods where 'X' is marked in the preferential rate column in Iceland's schedule. MFN rates will apply - however these goods may be covered by a preferential TRQ.
- (b) For greater certainty, where Chapters or Headings are marked 0% originating goods falling under that Chapter or Heading can be imported on zero duty.
- (c) Where 'TRQ' is marked an Icelandic preferential Tariff Rate Quota applies. See Part B for more detail.

## Part A

### Iceland's preferential tariff rates granted to the United Kingdom

The below table sets out customs duties for originating goods of the United Kingdom imported into Iceland which fall under Harmonized System (HS) Chapters 1-24 in cases where these goods benefit from preferential rates under this Agreement, as well as customs duties where applicable (in cases where the tariff is not fully liberalised) for originating goods of the United Kingdom imported into Iceland which fall under HS Chapters 25-97. Customs duties for originating goods of the United Kingdom imported into Iceland are liberalised under this Agreement for all products that fall under HS Chapters 25-97, except where listed in this Annex (whether in Part A and/or Part B).<sup>1</sup>

## **ANNEX III**

REFERRED TO IN PARAGRAPH 3 OF ARTICLE 2.20 (ANNEXES)  
OF SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN  
GOODS) OF CHAPTER 2 (TRADE IN GOODS)

ANNEX III  
SCHEDULE ON TARIFF COMMITMENTS ON GOODS  
COMMITMENTS OF NORWAY ON GOODS ORIGINATING IN THE UNITED  
KINGDOM  
REFERRED TO IN PARAGRAPH 3 OF ARTICLE 2.20 (ANNEXES) OF  
SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN GOODS) OF  
CHAPTER 2 (TRADE IN GOODS)

The following terms and conditions shall apply to the tariff commitments granted by Norway to the United Kingdom in accordance with this Annex:

- (a) Norway shall apply for the United Kingdom from the entry into force of the agreement the customs duties as set out in column 4a. Alternatively, Norway may in the future apply column 4b where applicable, ref NOTE4.
- (b) For originating goods classified under the tariff lines identified as “PAP” (Processed Agricultural Products according to Protocol 3 to the EEA Agreement) in column 3, the following provisions shall apply:
  - (i) In order to take account of differences in the cost of the agricultural raw materials, the duty, levied upon import, shall be based on, but not exceed, the differences between the domestic price in Norway of the agricultural raw materials incorporated into the products concerned and the world market price of those raw materials.
  - (ii) Subject to the provisions in paragraph (b)(i), Norway shall accord for products defined as PAP in column 3, originating in the United Kingdom the same treatment as given to the European Union (EU)<sup>1</sup>. The concessions set out in 4b are the same concessions as granted to the EU as of 1 January 2020. Subject to the provisions in subparagraph (b)(i), if the concessions for these products are changed in the agreement between Norway and the EU, the United Kingdom shall simultaneously be offered identical concessions. For greater certainty, such offers shall not be subject to any conditions not contained in this Agreement.

- (iii) Norway shall publish the applicable import duties for processed agricultural products on the website of the EFTA Secretariat in the English language
- (iv) Norway shall notify the United Kingdom at an early stage, and in any event before their entry into force, of all measures applied under subparagraphs (b)(i) and (b)(ii) above.
- (c) Norway shall accord duty-free market access to fish feed and raw materials for making fish feed, originating in the United Kingdom. Duty-free access is granted based on an end-use criteria of whether the product is used for fish feed, or to produce fish feed.

Norway has categorised tariff lines in this schedule according to the following definitions as used by Norway:

Agricultural and non-agricultural products (NAMA) are defined according to the WTO Agreement on Agriculture, Annex 1. Basic agricultural products (BAP) are agricultural products outside the scope of Protocol 3 to the EEA Agreement.

NAMA = Non-agricultural products

BAP = Basic agricultural products

PAP = Processed agricultural products. For processed agricultural products (PAP) marked with “\*” Norway calculates the duty based on the actual content of certain agricultural raw materials.

FREE = No customs duty

X = Tariff preference not given

“-” = Not applicable

The schedule below sets out customs duties into Norway for all goods originating in the United Kingdom falling under HS Chapters 1-24. All customs duties on goods originating in the UK falling under HS Chapters 25-97 are eliminated, except as listed below. All customs duties for goods originating in the United Kingdom falling under HS Chapters 25-97 for which customs duties are not eliminated are listed below.

SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN GOODS) OF  
CHAPTER 2 (TRADE IN GOODS)

## ANNEX IV

### SCHEDULE OF TARIFF COMMITMENTS ON GOODS

#### COMMITMENTS OF THE UNITED KINGDOM ON GOODS ORIGINATING IN ICELAND

#### REFERRED TO IN PARAGRAPH 4 OF ARTICLE 2.20 (ANNEXES) OF SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN GOODS) OF CHAPTER 2 (TRADE IN GOODS)

This Annex contains two sections. Part A sets out tariff commitments of the United Kingdom in relation to originating goods of Iceland. Part B sets out TRQ preferences granted by the United Kingdom to originating goods of Iceland. The scope of products in these tables is determined according to Combined Nomenclature (CN) codes as they are implemented in United Kingdom legislation. CN codes and descriptions as set out in **Part A** and **Part B** are those that were in use in July 2020.

#### **Explanatory Notes**

The following tariff categories apply as shown in Part A in relation to the elimination or reduction of customs duties by the United Kingdom for originating goods of Iceland pursuant to Article 2.6 (Customs Duties).

- (a) There will be no preferential tariff concessions offered on originating goods where 'X' is marked in the preferential rate column in the UK's schedule. Where 'X' is marked, MFN rates will apply - however these goods may be covered by a preferential TRQ. Please refer to United Kingdom legislation for the MFN rate (UK Global Tariff) which will apply; the United Kingdom Government also publishes these rates online. See **Part B** for the detail of any applicable preferential TRQs.
- (b) Where 'TRQ' is marked, a United Kingdom preferential Tariff Rate Quota applies to originating goods of Iceland. See **Part B** for more detail.
- (c) For originating goods of Iceland in tariff categories "0% + AC", "0% + AC (reduced)" and "6% + AC", the following provisions shall apply:
  - (i) The United Kingdom retains the right to apply the agricultural component (referred to as AC or AC (reduced) in this Annex) to originating goods. The *ad valorem* component of the tariff on originating goods of Iceland in categories "0% + AC" and "0% + AC (reduced)" shall be removed on the entry into force, or earlier provisional application, of this Agreement. The *ad valorem* component of the tariff on originating goods of Iceland in category "6% + AC" shall be 6%.
  - (ii) For originating goods of Iceland in tariff categories "0% + AC", "0% + AC (reduced)" and "6% + AC", customs duties levied upon import under subparagraph (i) above shall not exceed the customs duties for the goods concerned which were applied by the United Kingdom pursuant to the EU's preferential trading arrangements

for Iceland immediately prior to the end of the transition period under the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

## Part A

### The United Kingdom's preferential tariff rates granted to Iceland

The below table sets out customs duties for originating goods of Iceland imported into the United Kingdom which fall under Harmonized System (HS) Chapters 1-24 in cases where these goods benefit from preferential rates under this Agreement, as well as customs duties where applicable (in cases where the tariff is not fully liberalised) for originating goods of Iceland imported into the United Kingdom which fall under HS Chapters 25-97. Customs duties for originating goods of Iceland imported into the United Kingdom are liberalised under this Agreement for all products that fall under HS Chapters 25-97, except where listed in this Annex (whether in Part A and/or Part B).<sup>1</sup>

## **ANNEX V**

REFERRED TO IN PARAGRAPH 5 OF ARTICLE 2.20 (ANNEXES)  
OF SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN  
GOODS) OF CHAPTER 2 (TRADE IN GOODS)

ANNEX V  
SCHEDULE OF TARIFF COMMITMENTS ON GOODS  
COMMITMENTS OF THE UNITED KINGDOM ON GOODS ORIGINATING  
IN NORWAY  
REFERRED TO IN PARAGRAPH 5 OF ARTICLE 2.20 (ANNEXES) OF  
SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN GOODS) OF  
CHAPTER 2 (TRADE IN GOODS)

This annex contains three parts. Part A sets out tariff commitments of the United Kingdom in relation to originating goods of Norway. Part B sets out staging rates for specified tariff concessions of the United Kingdom in relation to originating goods of Norway. Part C sets out TRQ preferences granted by the United Kingdom to originating goods of Norway. The scope of products in these tables is determined according to Combined Nomenclature (“CN”) codes as they are implemented in United Kingdom legislation. CN codes and descriptions as set out in **Part A, Part B, and Part C** are those that were in use in July 2020.

**Explanatory Notes**

The following tariff categories apply as shown in Part 1 in relation to the elimination or reduction of customs duties by the United Kingdom for originating goods of Norway pursuant to Article 2.6 (Customs Duties).

- (a) There will be no preferential tariff concessions offered on originating goods where ‘X’ is marked in the preferential rate column in the UK’s schedule. Where ‘X’ is marked, MFN rates will apply - however these goods may be covered by a preferential TRQ. Please refer to United Kingdom legislation for the MFN rate (UK Global Tariff) which will apply; the United Kingdom Government also publishes these rates online. See **Part C** for the detail of any applicable preferential TRQs.
- (b) Duties on originating goods of Norway marked as ‘B3’ in the preferential rate column in the United Kingdom’s schedule shall be reduced in three equal stages across three years. Duties on originating goods of Norway marked as ‘B5’ in the preferential rate column in the United Kingdom’s schedule shall be reduced in five equal stages across five years. See **Part B** for the tariff rates which will apply for each year.
- (c) Where ‘TRQ’ is marked, a United Kingdom preferential Tariff Rate Quota applies to originating goods of Norway. See **Part C** for more detail.
- (d) For originating goods of Norway in tariff categories “0% + AC”, “0% + AC (reduced)” and “6% + AC”, the following provisions shall apply:

- (i) The United Kingdom retains the right to apply the agricultural component (referred to as AC or AC (reduced) in this Annex) to originating goods. The *ad valorem* component of the tariff on originating goods of Norway in categories “0% + AC” and “0% + AC (reduced)” shall be removed on the entry into force, or earlier provisional application, of this Agreement. The *ad valorem* component of the tariff on originating goods of Norway in category “6% + AC” shall be 6%.
  - (ii) For originating goods of Norway in tariff categories “0% + AC”, “0% + AC (reduced)” and “6% + AC”, customs duties levied upon import under subparagraph (i) above shall not exceed the customs duties for the goods concerned which were applied by the United Kingdom pursuant to the EU's preferential trading arrangements for Norway immediately prior to the end of the transition period under the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.
- (e) For originating goods of Norway in tariff category “0% + Entry Price” the following provisions shall apply:
- (i) The United Kingdom retains the right to apply specific duties to the originating goods based on the customs value of the goods when compared against their weight.
  - (ii) The specific duties applied by the United Kingdom under paragraph (i) shall not exceed an amount equivalent to the specific duties that applied to goods in category “0% + Entry Price” under the Entry Price System that applied in the United Kingdom immediately prior to the end of the transition period under the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.
- (f) For originating goods of Norway in tariff categories which refer to “SD” or “FD”<sup>1</sup> (in particular tariff categories “0% + AC (reduced) MAX 20.7% + FD (reduced)”, “0% + AC (reduced) MAX 24.2% + SD (reduced)” and “0% + AC (reduced) MAX 18.7% + SD (reduced)”) the following provisions apply:

---

<sup>1</sup> For information only and without prejudice to the operative legal text of this Annex, references to ‘SD’ and ‘FD’ are references to sugar duty and flour duty respectively. These are included in the names of certain tariff categories used in this Annex to assist the reader but the legal effect of the tariff categories is determined according to the operative text of the Annex set out at paragraph (f) above.

- (i) The United Kingdom retains the right to apply the agricultural component to originating goods.
- (ii) For originating goods of Norway in tariff categories which refer to “SD” or “FD” (in particular tariff categories “0% + AC (reduced) MAX 20.7% + FD (reduced)”, “0% + AC (reduced) MAX 24.2% + SD (reduced)” and “0% + AC (reduced) MAX 18.7% + SD (reduced)”), customs duties levied upon import under subparagraph (i) above shall not exceed the customs duties for the goods concerned which were applied by the United Kingdom pursuant to the EU's preferential trading arrangements for Norway immediately prior to the end of the transition period under the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.
- (iii) The *ad valorem* component of the tariff on originating goods of Norway in tariff categories which refer to “SD” or “FD” (in particular tariff categories “0% + AC (reduced) MAX 20.7% + FD (reduced)”, “0% + AC (reduced) MAX 24.2% + SD (reduced)” and “0% + AC (reduced) MAX 18.7% + SD (reduced)”) shall be removed on the entry into force, or earlier provisional application, of this Agreement.

## Part A

### The United Kingdom's preferential tariff rates granted to Norway

The below table sets out customs duties for originating goods of Norway imported into the United Kingdom which fall under Harmonized System (HS) Chapters 1-24 in cases where these goods benefit from preferential rates under this Agreement, as well as customs duties where applicable (in cases where the tariff is not fully liberalised) for originating goods of Norway imported into the United Kingdom which fall under HS Chapters 25-97. Customs duties for originating goods of Norway imported into the United Kingdom are liberalised under this Agreement for all products that fall under HS Chapters 25-97, except where listed in this Annex (whether in Part A, in Part B and/or in Part C).

## ANNEX VI

### CALCULATION OF QUOTA VOLUMES AFTER ENTRY INTO FORCE

#### REFERRED TO IN PARAGRAPH 6 OF ARTICLE 2.20 (ANNEXES) OF SECTION 2.1 (GENERAL PROVISIONS ON TRADE IN GOODS) OF CHAPTER 2 (TRADE IN GOODS)

If this Agreement enters into force on, or is provisionally applied from, a date after the beginning of a quota period in this Agreement and on or before the end of that period, the quota which shall be applicable for the remainder of that quota period shall be applied subject to the following adjustments:

1. Quota volumes shall be calculated as follows:
  - (a) If there is no corresponding tariff rate quota ("TRQ") in the Agreement on Trade in Goods between Iceland, the Kingdom of Norway and the United Kingdom of Great Britain and Northern Ireland ("Interim Agreement"), the quota volume shall be reduced pro rata according to the remaining number of days in the quota period.
  - (b) If there is a corresponding TRQ in the Interim Agreement, the quota volume shall be calculated (subject to deductions as set out in paragraph 2) as:
    - (i) The whole quota volume under the Interim Agreement, plus:
    - (ii) The difference between the quota volume under the Interim Agreement and the quota volume under this Agreement, reduced pro rata according to the remaining number of days in the quota period of the TRQ under this Agreement.
2. If there is a corresponding TRQ in the Interim Agreement, volumes correctly deducted from the corresponding quota under the Interim Agreement shall also be counted as deductions from the quota volume under this Agreement.
3. Auctioning and licensing for the first quota period under this Agreement shall, as far as possible take place 6 weeks before, and at the latest 14 days before, the entry into force or earlier provisional application of this Agreement. For greater certainty, allocations of quota entitlements to economic operators which have been correctly made under the Interim Agreement (whether by auctioning, licensing or any other method) may remain effective for the purposes of this Agreement.
4. For the purposes of paragraphs 1 and 2 above, in relation to any TRQ under this Agreement ("new TRQ"), there is considered to be a corresponding TRQ under the Interim Agreement ("old TRQ") if those TRQs apply to the same tariff lines and no other TRQ applies to those tariff lines under either agreement in respect of imports into the importing Party from the exporting Party on any day forming part of the quota period for the new TRQ or the old TRQ. For greater certainty, this paragraph is applied on the basis of the tariff lines that the new TRQ and the old TRQ would cover during the calendar year of entry into force.

1. No Party shall introduce or maintain any domestic technical regulation, marking, or conformity assessment procedure diverging from UN Regulations or GTRs in areas covered by such Regulations or GTRs, including where the relevant UN Regulations or GTRs have not been completed but their completion is imminent, unless there are substantiated reasons why a specific UN Regulation or GTR is an ineffective or inappropriate means for the fulfilment of legitimate objectives pursued, for example, in the areas of road safety or the protection of the environment or human health.
2. A Party which introduces a divergent domestic technical regulation, marking, or conformity assessment procedure as referred to in paragraph 1, shall at the request of another Party, identify the parts of the domestic technical regulation, marking, or conformity assessment procedure which substantially diverge from the relevant UN Regulations or GTRs and provide justification for the divergence.
3. When reviewing their domestic technical regulations, markings and conformity assessment procedures, each Party shall consider whether the justification for the divergence still exists. The outcome of these reviews, including any scientific and technical information used, shall be notified to the other Parties upon their request.
5. Each Party shall refrain from introducing or maintaining domestic technical regulations, markings, or conformity assessment procedures which have the effect of prohibiting, restricting or increasing the burden for the importation and putting into service on their domestic market, of products type-approved

## ARTICLE 6

### *Type Approval and Market Surveillance*

1. Each Party shall accept on its market products which are covered by a valid UN type-approval certificate as compliant with its domestic technical regulations, markings and conformity assessment procedures, without requiring any further testing or marking to verify or attest compliance with any requirement covered by the UN type approval certificate concerned. In the case of vehicle approvals, the UN Universal International Whole Vehicle Type Approval (U-IWVTA) shall be considered valid in respect of the requirements covered by the U-IWVTA. UN type-approval certificates issued by a Party can only be considered valid if that Party has acceded to the relevant UN Regulations.
2. Each Party shall only be required to accept valid UN type-approval certificates issued pursuant to the latest version of the UN Regulations it has acceded to.
3. For the purpose of paragraph 1, the following shall be considered sufficient proof of the existence of a valid UN type-approval:

  - (b) for equipment and parts, a valid UN type-approval mark affixed to the product; or
  - (c) for equipment and parts to which a UN type-approval mark cannot be affixed, a valid UN type-approval certificate.
4. For the purpose of conducting market surveillance, the competent authorities of a Party may verify that the products covered comply, as appropriate, with:
  - (a) all the domestic technical regulations of that Party; or
  - (b) the UN Regulations with which compliance has been attested, in accordance with this Article, by a valid UN Declaration of Conformance certifying compliance with a U-IWVTA in the case of whole vehicles, or by a valid UN type-approval mark affixed to the product or a valid UN type-approval certificate in the case of equipment and parts.

Such verifications shall be carried out by random sampling in the market and in accordance with the technical regulations referred to in points subparagraphs (a) or (b), as the case may be.

5. The Parties shall endeavour to co-operate in the field of market surveillance to support the identification and addressing of non-conformities of vehicles, systems, components or separate technical units.
6. A Party may take any appropriate measures with respect to vehicles, systems, components or separate technical units that present a serious risk to the health or safety of persons or with regard to other aspects of the protection of public interests, or that otherwise do not comply with applicable requirements. Such measures may include:
  - (a) prohibiting or restricting the making available on the market; and
  - (b) the registration or the entry into service of the vehicles, systems, components or separate technical units concerned, or withdrawing or recalling them from the market.

A Party that adopts or maintains such measures shall promptly inform the other Parties of those measures and, at the request of another Party, shall provide its reasons for adopting those measures.

## ARTICLE 7

### ***Products with New Technologies or New Features***

1. No Party shall refuse or restrict the access to its market of a product that is covered by this Annex and that has been approved by the exporting Party on the grounds that the product incorporates a new technology or a new feature that the importing Party has not yet regulated, unless it can demonstrate that it has reasonable grounds for believing that the new technology or new feature creates a risk for human health, safety or the environment.

If a Party decides to refuse access to its market or requires the withdrawal from its market of a product of another Party covered by this Annex on the grounds that it incorporates a new technology or a new feature creating a risk for human health, safety or the environment, it shall promptly notify that decision to the other Parties and to the economic operator or operators concerned. This notification shall include all relevant scientific or technical information taken into account in the decision.

## ARTICLE 8

GOODS)

## ANNEX X

### CHEMICALS

#### REFERRED TO IN PARAGRAPH 3 OF ARTICLE 2.22 (SCOPE) OF SECTION 2.2 (TECHNICAL BARRIERS TO TRADE) OF CHAPTER 2 (TRADE IN GOODS)

## ARTICLE 1

### *Definition*

For the purposes of this Annex:

- (a) “responsible authorities” means:
  - (i) For Iceland and Norway: the government of Iceland and the government of Norway; and
  - (ii) For the United Kingdom: the government of the United Kingdom.
- (b) “UN GHS” means the United Nations Globally Harmonized System of Classification and Labelling of Chemicals.

## ARTICLE 2

### *Scope*

This Annex applies to the trade, regulation, import and export of chemicals between Iceland, Norway, and the United Kingdom in respect of their registration, evaluation, authorisation, restriction, approval, classification, labelling and packaging.

## ARTICLE 3

### *Objectives*

1. The objectives of this Annex are to:
  - (a) facilitate the trade of chemicals and related products between the Parties;
  - (b) ensure high levels of protection for the environment, and human and animal health; and
  - (c) provide for cooperation between the responsible authorities of Iceland, Norway and United Kingdom.

2. The Parties acknowledge that the commitments made under this Annex do not prevent a Party from setting its own priorities on chemicals regulation, including establishing its own levels of protection in respect of the environment, and human and animal health.

#### ARTICLE 4

##### ***Relevant International Organisations and Bodies***

The Parties recognise that international organisations and bodies, in particular the OECD and the Sub-Committee of Experts on the Globally Harmonized System of Classification and Labelling of Chemicals (SCEGHS) of the United Nations Economic and Social Council (ECOSOC), are relevant for developing scientific and technical guidelines with respect to chemicals.

#### ARTICLE 5

##### ***Participation in Relevant International Organisations and Bodies, and Regulatory Developments***

1. The Parties shall actively contribute to the development of the scientific or technical guidelines referred to in Article 4 (Relevant International Organisations and Bodies) with respect to the assessment of hazards and risks of chemicals and the formats for documenting the results of such assessments.
2. Each Party shall implement any guidelines issued by the international organisations and bodies referred to in Article 4 (Relevant International Organisations and Bodies), unless those guidelines would be ineffective or inappropriate for the achievement of that Party's legitimate objectives.

#### ARTICLE 6

##### ***Classification and Labelling of Chemicals***

1. Each Party shall implement the UN GHS as comprehensively as it considers feasible within its respective system, including for chemicals that are not within the scope of this Annex, except where there are specific reasons to apply a different labelling system for particular chemical products in their finished state intended for the final user. Each Party shall periodically update its implementation based on the regularly issued revisions of the UN GHS.
2. Where the responsible authority of a Party intends to classify individual substances in accordance with its respective rules and procedures, it shall give the responsible authority of another Party the possibility of expressing its views in accordance with those respective rules and procedures within the applicable timelines.

3. Each Party shall make information about its procedures related to the classification of substances publicly available in accordance with its respective rules and procedures. Each Party shall endeavour to respond to comments received from another Party pursuant to paragraph 2.
4. Nothing in this Article shall oblige a Party to achieve any particular outcome regarding its implementation of the UN GHS or regarding the classification of a given substance, or to advance, suspend or delay its respective procedures and decision-making processes.

## ARTICLE 7

### *Cooperation*

1. The Parties recognise that voluntary cooperation on chemicals regulation can facilitate trade in ways that benefit consumers, businesses and the environment and that contribute to enhancing the protection of human and animal health.
2. The Parties commit to facilitating the exchange of non-confidential information between their responsible authorities, including through cooperation on electronic formats and tools used to store data.
3. The Parties shall cooperate where appropriate with a view to strengthening, developing and promoting the adoption and implementation of internationally agreed scientific or technical guidelines, including, where feasible, through the presentation of joint initiatives, proposals and approaches in the relevant international organisations and bodies, in particular those referred to in Article 4 (Relevant International Organisations and Bodies).
4. The Parties shall cooperate, if considered beneficial by the Parties, with regard to the dissemination of data related to chemicals safety, and shall make such information available to the public with the objective of ensuring easy access to and the comprehensibility of that information by different target groups. Upon request of a Party, the Party subject to the request shall provide available non-confidential information on chemicals safety to the requesting Party.
5. If a Party so requests and another Party agrees to do so, the Parties which agree to do so shall enter into consultations on scientific information and data in the context of new and emerging issues related to the hazards or risks posed by chemicals to human health or the environment, with a view to creating a common pool of knowledge and, if feasible, and to the extent possible, promoting a common understanding of the science related to such issues.

## ARTICLE 8

### *Information Exchange*

The Parties shall cooperate and exchange information with respect to any issue relevant for the implementation of this Annex within the Sub-Committee on Technical Barriers to Trade.

  - (b) a decision is taken on the application of the Council Regulation to EEA EFTA under the EEA Agreement.

If, as a result of the reassessment under this paragraph equivalence is not confirmed by a Party, recognition of equivalence shall be suspended.
4. Without prejudice to paragraph 3, in the event of the modification, revocation or replacement of the laws and regulations listed in Appendix 3 or Appendix 4 of this Annex XI (Organic Products), the new rules shall be considered equivalent to another Party’s rules unless a Party objects in accordance with the procedure set out in paragraphs 5 and 6.
5. If, following the receipt of further information from another Party that it has requested, a Party considers that the laws, regulations or administrative procedures or practices of another Party no longer meet the requirements for equivalence, that Party shall issue a reasoned request to the Party concerned to amend the relevant laws, regulations or administrative procedures or practices, and shall provide the Party concerned with an adequate period, which shall not be less than three months, for ensuring equivalence.
6. If, following the expiry of the period in paragraph 5, the Party concerned still considers that the requirements for equivalence are not met, it may take a decision to unilaterally suspend the recognition of equivalence of the relevant laws and

regulations listed in Appendix 3 or Appendix 4, as regards the relevant organic products listed in Appendix 1 or Appendix 2.

7. A decision to unilaterally suspend the recognition of equivalence of the laws and regulations listed in Appendix 3 or Appendix 4, as regards the relevant organic products listed in Appendix 1 or Appendix 2 may also be taken, following the expiry of a notice period of three months, where a Party has not provided the information required under Article 6 (Exchange of Information) or does not agree to a peer review under Article 7 (Peer Reviews).
8. Where recognition of equivalence is suspended in accordance with this Article 3 (Recognition of Equivalence),, at the request of a Party, the Parties shall discuss the matter within the Sub-Committee on Technical Barriers to Trade and they shall make every effort to consider possible measures that would enable recognition of equivalence to be restored.
9. With respect to products not listed in Appendix 1 or Appendix 2, equivalence shall be discussed by the Sub-Committee on Technical Barriers to Trade at the request of a Party.

#### REFERRED TO IN ARTICLE 2.39 (SPECIFIC PROVISIONS AND ARRANGEMENTS CONCERNING SANITARY AND PHYTOSANITARY MATTERS) OF SECTION 2.3 (SANITARY AND PHYTOSANITARY MEASURES) OF CHAPTER 2 (TRADE IN GOODS)

### **INTRODUCTION**

When the provisions in this Annex refer to sanitary measures that for Iceland and Norway are governed by the EEA Agreement, the Parties understand that such measures are taken by the EU and that Iceland and Norway, simultaneously with the EU Member States, implement corresponding measures on the basis of the relevant EU acts and in accordance with their obligations under the EEA Agreement.

#### **PART 1**

##### ***Official Certification***

1. Where the importing Party requires official certificates, the model certificates shall be set in line with the principles as laid down in the international standards of the Codex, the IPPC and the OIE.
2. The Parties shall promote the implementation of electronic certification and other technologies to facilitate trade.

#### **PART 2**

##### ***Import Conditions and Procedures***

1. The exporting Party shall ensure that products exported to the other Parties, such as animals and animal products, plants and plant products, or other related objects, meet the SPS requirements of the importing Party.
2. The importing Party may require that imports of particular products are subject to authorisation. Such authorisation shall be granted where a request is made by the relevant competent authority of the exporting Party which objectively demonstrates, to the satisfaction of the importing Party, that the authorisation requirements of the importing Party are fulfilled.
3. The importing Party shall not introduce authorisation requirements which are additional to those which were applicable on 31 December 2020, unless the

application of such requirements to further products is justified to mitigate a significant risk to human, animal or plant health.

4. The importing Party shall establish and communicate to the other Parties import conditions for all products. The importing Party shall ensure that its import conditions are applied in a proportionate and non-discriminatory manner.
5. Each Party shall ensure that all SPS control, inspection and approval procedures are initiated and completed without undue delay. Information requirements shall be limited to what is necessary for the approval process to take into account information already available in the importing Party, such as on the legislative framework and audit reports of the exporting Party.
6. Except in duly justified circumstances related to its level of protection, each Party shall provide a transition period between the publication of any changes to its approval procedures and their application to allow the other Parties to become familiar with and adapt to such changes. Each Party shall not unduly prolong the approval process for applications submitted prior to publication of the changes.
7. In relation to the processes set out in paragraphs 2 to 5, the following actions shall be taken:
  - (a) as soon as the importing Party has positively concluded its assessment, it shall promptly take all necessary legislative and administrative measures to allow trade to take place without undue delay;
  - (b) the exporting Party shall:
    - (i) provide all relevant information required by the importing Party; and
    - (ii) give reasonable access to the importing Party for audit and other relevant procedures.
8. The importing Party shall accept consignments without requiring that the importing Party verifies compliance of those consignments before their departure from the exporting Party.
9. A Party may collect fees for the costs incurred to conduct specific SPS border checks, which should not exceed the recovery of the costs.
10. The importing Party shall have the right to carry out import checks on products imported from the exporting Party for the purpose of ensuring compliance with its SPS import requirements.
11. The import checks carried out on products imported from the exporting Party shall be based on the SPS risk associated with such importations. Import checks shall be carried out only to the extent necessary to protect human,

animal or plant life or health, without undue delay and with a minimum effect on trade between the Parties.

12. Information on the proportion of products from the exporting Party checked at import shall be made available by the importing Party upon request of the exporting Party.
13. If import checks reveal non-compliance with the relevant import conditions the action taken by the importing Party must be based on an assessment of the risk involved and not be more trade restrictive than required to achieve that Party's appropriate level of SPS protection.

### PART 3

#### *Lists of Approved Establishments*

1. Whenever justified, the importing Party may maintain a list of approved establishments meeting its import requirements as a condition to allow imports of animal products from these establishments.
2. Unless justified to mitigate a significant risk to human or animal health, lists of approved establishments shall only be required for the products for which they were required on 31 December 2020.
3. The exporting Party shall inform the importing Party of its list of establishments meeting the importing Party's conditions which shall be based on guarantees provided by the exporting Party.
4. Upon a request from the exporting Party, the importing Party shall approve establishments of the exporting Party, based on guarantees provided by the exporting Party, without prior inspection of individual establishments.
5. Unless the importing Party requests additional information and subject to guarantees being provided by the exporting Party, the importing Party shall take the necessary legislative or administrative measures, in accordance with its applicable legal procedures, to allow imports from those establishments without undue delay.
6. The list of the approved establishments shall be made publicly available by the importing Party.
7. Where the importing Party decides to reject the request of the exporting Party to accept adding an establishment to the list of approved establishments, it shall inform the exporting Party without delay and shall submit a reply, including information about the non-conformities which led to the rejection of the establishment's approval.

## PART 4

### *Recognition of Animal Disease Status and Regional Conditions*

1. The Parties shall recognise the concept of zoning including disease-free areas, and areas of low disease prevalence and shall apply it to the trade between the Parties, in accordance with the SPS Agreement, including the guidelines to further the practical implementation of Article 6 of the SPS Agreement (WTO/SPS Committee Decision G/SPS/48) and the relevant recommendations, standards and guidelines of the OIE. The SPS Sub-Committee may define further details for these procedures, taking into account any relevant SPS Agreement and OIE standards, guidelines or recommendations.
2. The Parties may also agree to cooperate on the concept of compartmentalisation as referred to in Chapters 4.4 and Chapter 4.5 of the OIE Terrestrial Animal Health Code and Chapters 4.1 and Chapter 4.2 of the OIE Aquatic Animal Health Code.
3. When establishing or maintaining the zones referred to in paragraph 1, the Parties shall consider factors such as geographical location, ecosystems, epidemiological surveillance and the effectiveness of sanitary controls.
4. With regard to animals and animal products, when establishing or maintaining import conditions upon the request of the exporting Party, the importing Party shall recognise the disease-free areas established by the exporting Party as a basis for consideration towards the determination of allowing or maintaining the import, without prejudice to paragraphs 6 and 7.
5. The exporting Party shall identify the areas referred to in paragraph 4 and, if requested, provide a full explanation and supporting data based on the OIE standards, or in other ways established by the SPS Sub-Committee, based on the knowledge acquired through experience of the exporting Party's relevant authorities.
6. The Parties shall recognise disease-free areas which are in place on 31 December 2020.
7. Paragraph 6 shall also apply to subsequent adaptations to the disease-free areas except in cases of significant changes in the disease situations.
8. The Parties may carry out audits and verifications pursuant to Part 5 (Audits and Verifications) to implement paragraphs 4 to 7.
9. The Parties shall establish close cooperation with the objective of maintaining confidence in the procedures in relation to the establishment of disease-free areas, and areas of low disease prevalence, with the aim to minimise trade disruption.

10. The importing Party shall base its own determination of the animal health status of the exporting Party or parts thereof on the information provided by the exporting Party in accordance with the SPS Agreement and OIE standards, and take into consideration any determination made by the exporting Party.
11. Where the importing Party does not accept the determination made by the exporting Party as referred to in paragraph 10, the importing Party shall objectively justify and explain to the exporting Party the reasons for that rejection and, upon request, hold consultations, in accordance with paragraph 2 of Article 2.44 (Notifications and Consultation) of Section 2.3 (Sanitary and Phytosanitary Measures) of Chapter 2 (Trade in Goods).
12. Each Party shall ensure that the obligations set out in paragraphs 4 to 7, 10 and 11 are carried out without undue delay. The importing Party will expedite the recognition of the disease status when the status has been recovered after an outbreak.
13. Where a Party considers that a specific region has a special status with respect to a specific disease and which fulfils the criteria laid down in the OIE Terrestrial Animal Health Code Chapter 1.2 or the OIE Aquatic Animal Health Code Chapter 1.2, it may request recognition of this status. The importing Party may request additional guarantees in respect of imports of live animals and animal products appropriate to the agreed status.

## PART 5

### *Audits and Verifications*

1. The importing Party may carry out audits and verifications of the following:
  - (a) all or part of the exporting Party's authorities' inspection and certification system; and
  - (b) the results of the controls carried out under the exporting Party's inspection and certification system.
2. The Parties shall carry out those audits and verifications in accordance with the provisions of the SPS Agreement, taking into account the relevant international standards, guidelines and recommendations of the Codex, the OIE or the IPPC.
3. For the purpose of carrying out such audits and verifications, the importing Party may conduct audits and verifications by means of requests of information from the exporting Party or audit and verification visits to the exporting Party, which may include:

- (a) an assessment of all or part of the responsible authorities' total control programme, including, where appropriate, reviews of regulatory audit and inspection activities;
  - (b) on-the-spot checks; and
  - (c) the collection of information and data to assess the causes of recurring or emerging problems in relation to exports of products.
- 4. The importing Party shall share with the exporting Party the results and conclusions of the audits and verifications carried out pursuant to paragraph 1. The importing Party may make these results publicly available.
- 5. Prior to the commencement of an audit or verification, the Parties concerned shall discuss the objectives and scope of the audit or verification, the criteria or requirements against which the exporting Party will be assessed, and the itinerary and procedures for conducting the audit or verification which shall be laid down in an audit or verification plan. Unless otherwise agreed by the Parties concerned, the importing Party shall provide the exporting Party with an audit or verification plan at least 30 days prior to the commencement of the audit or verification.
- 6. The importing Party shall provide the exporting Party the opportunity to comment on the draft audit or verification report. The importing Party shall provide a final report in writing to the exporting Party normally within two months from the date of receipt of those comments.
- 7. Each Party shall bear its own costs associated with such an audit or verification.

## PART 6

### ***Emergency Measures***

- 1. If the importing Party considers that there is a serious risk to human, animal or plant life or health, it may take without prior notification the necessary measures for the protection of human, animal or plant life or health. For consignments that are in transit between the importing Party and the exporting Party, the importing Party shall consider the most suitable and proportionate solution to avoid unnecessary disruptions to trade.
- 2. The Party taking the measures shall notify the other Parties of an emergency SPS measure as soon as possible after its decision to implement the measure and no later than 24 hours after the decision has been taken. If a Party requests technical consultations to address the emergency SPS measure, the technical consultations must be held within 10 days of the notification of the emergency SPS measure. The Parties concerned shall consider any information provided through the technical consultations. These

consultations shall be carried out in order to avoid unnecessary disruptions to trade. The Parties concerned may consider options for the facilitation of the implementation or the replacement of the measures.

3. The importing Party shall consider, in a timely manner, information that was provided by the exporting Party when it makes its decision with respect to consignments that, at the time of adoption of the emergency SPS measure, are being transported between the Parties concerned, in order to avoid unnecessary disruptions to trade.
  4. The importing Party shall ensure that any emergency measure taken on the grounds referred to in paragraph 1 is not maintained without scientific evidence or, in cases where scientific evidence is insufficient, is adopted in accordance with paragraph 7 of Article 5 of the SPS Agreement.

3. Assistance to recover duties, taxes or fines is not covered by this Annex.

## ARTICLE 3

### *Assistance on Request*

1. At the request of the requesting administration, the requested administration shall provide it with all relevant information which may enable it to ensure that customs law is correctly applied, including information regarding activities detected or planned which are or could be operations in breach of customs law.

- (a) deliver any documents; or
- (b) notify any decisions;

emanating from the requesting administration and falling within the scope of this Annex, to an addressee residing or established in the jurisdiction of the requested Party.

## ARTICLE 6

### *Form and Substance of Requests for Assistance*

1. Requests pursuant to this Annex shall be made in writing, which may be done by electronic means. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, an oral request may be accepted, but shall be confirmed promptly in writing.
2. Requests pursuant to paragraph 1 shall include the following information:
  - (a) the requesting administration;
  - (b) the measure requested;
  - (c) the object of and the reasons for the request;
  - (d) the relevant law;
  - (e) indications as exact and comprehensive as possible on the goods or persons who are the target of the investigations; and
  - (f) a summary of the relevant facts of the enquiries already carried out.
3. Requests shall be submitted in English. This requirement shall not apply to any documents that accompany the request under paragraph 1.
4. If a request does not meet the formal requirement set out above, its correction or completion may be requested; precautionary measures may be taken in the meantime.

## ARTICLE 7

### *Execution of Requests*

1. In order to comply with a request for assistance, the requested administration shall proceed promptly, as though it were acting on its own account or at the request of other authorities of that same Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for

them to be carried out. This paragraph shall also apply to any other authority to which the request has been addressed in accordance with this Annex by the requested administration when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the law of the requested Party.
3. Duly authorised officials of a Party may, subject to the agreement and any conditions laid down by the requested Party, be present in the offices of the requested administration or any other concerned authority in accordance with paragraph 1, to obtain information relating to activities that are or may be operations in breach of customs law which the requesting administration needs for the purpose of this Annex.
4. Duly authorised officials of a Party may, with the agreement of the requested Party and subject to the conditions laid down by the latter, be present at enquiries carried out in the requested Party.
5. The presence of officials of a Party at enquiries carried out in requested Party shall solely be in an advisory capacity, during which time those authorised officials:
  - (a) must at all times be able to furnish proof of their official capacity;
  - (b) shall not wear uniform, nor carry weapons; and
  - (c) shall enjoy the same protection as that afforded to officials of the requested Party, in accordance with the legal and administrative provisions in force there.
6. In the event that the request cannot be complied with, the requesting administration shall be notified promptly of that fact with a statement of the reasons. The statement may be accompanied by information that the requested administration considers may be of assistance to the requesting administration.

## ARTICLE 8

### *Form in which Information is to be Communicated*

1. The requested administration shall communicate results of enquiries conducted pursuant to a request made under this Annex to the requesting administration in writing, which may be done by electronic means, together with relevant documents, certified copies of documents or other items.
2. The information communicated under paragraph 1 may be in computerised form.

3. Original files and documents shall be transmitted only upon request in cases where certified copies would be insufficient. Those originals shall be returned to the requested administration at the earliest opportunity. A Party may refuse a request to transmit such files and documents and shall inform the requesting Party of the reasons for doing so.
4. The requested administration shall, under the provisions referred to in paragraph 3, deliver to the requesting administration any information related to the authenticity of the documents issued or certified by official agencies in that Party in support of a goods declaration.

## ARTICLE 9

### *Exceptions to the Obligation to Provide Assistance*

1. Any form of assistance within the scope of this Annex may be refused, or may be subject to certain conditions or requirements, if the requested Party considers that execution of the request would:
  - (a) be likely to prejudice the sovereignty, security, public order or other essential interests of the requested Party; or
  - (b) violate a trade secret or prejudice legitimate commercial interests.
2. Where the requesting administration seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested administration to decide how to respond to such a request.
3. The requested administration may postpone the assistance on the grounds that such assistance will interfere with ongoing investigations, detection processes, prosecutions or proceedings. In such a case, the requested administration shall consult with the requesting administration to determine if assistance can be given subject to such terms or conditions as the requested administration may require.
4. For the cases referred to in paragraph 1, the decision of the requested administration and the reasons thereof shall be communicated to the requesting administration without delay.

## ARTICLE 10

### *Use, Confidentiality and Protection of Information*

1. Any information communicated in whatsoever form pursuant to this Annex shall be treated as of a confidential nature, depending on the law of each Party and shall enjoy the protection extended to similar information under the relevant law of the requesting Party that received it and the corresponding

provisions that apply to the requested customs authority, unless the requested Party which provided the information gives a prior consent to the disclosure of such information.

2. Where personal data is transferred pursuant to this Annex, such transfer shall take place in accordance with the transferring Party's rules on international transfers of personal data. Where needed, each Party will make best efforts, while respecting its rules on international transfers of personal data, to establish safeguards necessary for the transfer of personal data.
3. Information obtained shall be used solely for the purposes of this Annex. Where one of the Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the customs authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.
4. Paragraph 3 shall not impede the use of information obtained in accordance with this Annex as evidence in court or tribunal proceedings subsequently instituted in respect of customs law. Therefore, the Parties may in their records of evidence, reports and testimonies and in court or tribunal proceedings use as evidence information obtained in accordance with the provisions of this Annex. The customs authority which supplied that information shall be notified of such use.
5. Notwithstanding paragraph 3 of this Article, unless otherwise notified by the requested administration providing the information, the requesting administration receiving the information may provide the information pursuant to this Annex to the relevant law enforcement agencies of its Party. These agencies may only use this information for the correct application of customs law and shall be subject to the conditions set out in this Article.
6. The requesting Party shall, unless otherwise agreed by the requested Party which provided the information, wherever appropriate, use all available measures under the applicable law of the former Party to maintain the confidentiality of information and to protect personal data as regards applications by a third party or other authorities for disclosure of the information concerned.

## ARTICLE 11

### *Experts and Witnesses*

An official of a requested administration may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness before an authority in the other Party regarding the matters covered by this Annex, and produce such objects, documents or confidential or certified copies thereof as may be needed for this purpose. The request for appearance shall indicate specifically before which

authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

## ARTICLE 12

### *Assistance Expenses*

1. The requested Party shall waive all claims for the reimbursement of costs incurred in the execution of this Annex, except for expenses and allowances paid to experts and witnesses as well as translators and interpreters other than government employees, which shall be borne by the requesting Party.
2. If the execution of a request requires expenses of a substantial or extraordinary nature, the Parties concerned shall consult to determine the terms and conditions under which the request will be executed as well as the manner in which the costs shall be borne.

## ARTICLE 13

### *Implementation*

1. This Annex shall be implemented in accordance with the law in each Party, including in the field of data protection, and within the available resources of their respective customs authorities.
2. The customs authorities of the Parties shall decide on all practical measures and arrangements necessary for the implementation of this Annex.

## ARTICLE 14

### *Relation to Other International Instruments*

1. The provisions of this Annex shall not affect the rights and obligations of the Parties under any other international agreement to which they are a party.
2. Notwithstanding paragraph 1, the provisions of this Annex shall take precedence over the provisions of any bilateral agreement or arrangement on mutual administrative assistance which has been or may be concluded between either Norway or Iceland and the United Kingdom, insofar as the provisions of those bilateral agreements or arrangements are incompatible with those of this Annex.

ANNEX XVI  
EXISTING MEASURES

REFERRED TO IN ARTICLE 3.12 (NON-CONFORMING MEASURES) OF SECTION 3.2 (INVESTMENT LIBERALISATION), ARTICLE 3.18 (NON-CONFORMING MEASURES) OF SECTION 3.3 (CROSS-BORDER TRADE IN SERVICES), ARTICLE 3.28 (NON-CONFORMING MEASURES) OF SECTION 3.4 (ENTRY AND TEMPORARY STAY OF NATURAL PERSONS), ARTICLE 3.49 (SENIOR MANAGEMENT AND BOARDS OF DIRECTORS) OF SUB-SECTION 3.5.3 (FINANCIAL SERVICES) AND ARTICLE 3.77 (NON-CONFORMING MEASURES) OF SUB-SECTION 3.5.6 (LEGAL SERVICES)

Headnotes

1. The Schedule of a Party to this Annex sets out, under Article 3.12 (Non-Conforming Measures) of Section 3.2 (Investment Liberalisation), Article 3.18 (Non-Conforming Measures) of Section 3.3 (Cross Border Trade in Services), Article 3.49 (Senior Management and Boards of Directors) of Sub-Section 3.5.3 (Financial Services), and Article 3.77 (Non-Conforming Measures) of Sub-Section 3.5.6 (Legal Services), the reservations taken by that Party with respect to existing measures that do not conform with obligations imposed by:
  - (a) Articles 3.6 (Market Access) of Section 3.2 (Investment Liberalisation) or Article 3.14 (Market Access) of Section 3.3 (Cross-Border Trade in Services);
  - (b) Article 3.15 (Local Presence) of Section 3.3 (Cross-Border Trade in Services);
  - (c) Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation) or Article 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services);
  - (d) Article 3.8 (Most-Favoured-Nation Treatment) of Section 3.2 (Investment Liberalisation) or Article 3.17 (Most-Favoured-Nation Treatment) of Section 3.3 (Cross-Border Trade in Services);
  - (e) Article 3.9 (Senior Management and Boards of Directors) of Section 3.2 (Investment Liberalisation);
  - (f) Article 3.10 (Performance Requirements) of Section 3.2 (Investment Liberalisation);
  - (g) Article 3.49 (Senior Management and Boards of Directors) of Sub-Section 3.5.3 (Financial Services); or

- (h) Article 3.76 (Obligations) of Sub-Section 3.5.6 (Legal Services).
2. The reservations are without prejudice to the rights and obligations of the Parties under GATS.
3. Each reservation sets out the following elements:
- (a) “sector” refers to the general sector in which the reservation is taken;
  - (b) “sub-sector”, where applicable, refers to the specific sector in which the reservation is taken;
  - (c) “industry classification” refers, where applicable, to the activity covered by the reservation according to the CPC, ISIC Rev. 3.1, or as expressly otherwise described in that reservation;
  - (d) “type of reservation” specifies the obligation referred to in paragraph 1 above for which a reservation is taken;
  - (e) “measures” identifies the laws or other measures as qualified, where indicated, by the “description” element for which the reservation is taken. A “measure” cited in the “measures” element:
    - (i) means the measure as amended, continued or renewed as of the date of entry into force of this Agreement;
    - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
  - (f) “description” sets out the non-conforming aspects of the existing measure for which the reservation is taken.

A Party may also include the “level of government” element in a reservation, to indicate the level of government maintaining the measure for which the reservation is taken.

4. For greater certainty, if a Party adopts a new measure at a level of government different to that at which the reservation was originally taken, and this new measure effectively replaces – within the Party to which it applies – the non-conforming aspect of the original measure, cited in the “measures” element, the new measure shall be deemed to constitute “modification” to the original measure within the meaning of Article 3.12 (Non-Conforming Measures) of Section 3.2 (Investment Liberalisation), Article 3.18 (Non-Conforming Measures) of Section 3.3 (Cross-Border Trade in Services), Article 3.28 (Non-Conforming Measures) of Section 3.4 (Entry and Temporary Stay of Natural Persons), and Article 3.77 (Non-Conforming Measures) of Sub-Section 3.5.6 (Legal Services).
5. In the interpretation of a reservation, all elements of the reservation shall be considered. A reservation shall be interpreted in the light of the relevant

obligations against which the reservation is taken. The “measures” element shall prevail over all other elements.

6. For the purposes of each Party’s Schedule:
  - (a) “ISIC Rev. 3.1” means the International Standard Industrial Classification of All Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No.4, ISIC Rev. 3.1, 2002; and
  - (b) “CPC” means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).
7. For the purposes of each Party’s Schedule, a reservation for a requirement to have a local presence in a Party is taken against Article 3.15 (Local Presence), and not against Article 3.14 (Market Access) or 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services). Furthermore, such a requirement is not taken as a reservation against Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation).
8. The list of reservations below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a limitation within the meaning of Article 3.6 (Market Access) or Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation), Article 3.14 (Market Access), Article 3.15 (Local Presence) or Article 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services), or Article 3.76 (Obligations) of Sub-Section 3.5.6 (Legal Services). These measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service, or to maintain a local address, or zoning and planning requirements, or any non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.
9. For greater certainty, non-discriminatory measures do not constitute a market access limitation within the meaning of Article 3.6 (Market Access) of Section 3.2 (Investment Liberalisation), Article 3.14 (Market Access) of Section 3.3 (Cross-Border Trade in Services), or Article 3.76 (Obligations) of Sub-Section 3.5.6 (Legal Services) for any measure:
  - (a) requiring the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation and telecommunications;

- (b) restricting the concentration of ownership to ensure fair competition;
  - (c) seeking to ensure the conservation and protection of natural resources and the environment including with respect to climate change, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;
  - (d) limiting the number of authorisations granted because of technical or physical constraints, for example telecommunications spectra and frequencies; or
  - (e) requiring that a certain percentage of the shareholders, owners, partners, or directors of an enterprise be qualified or practice a certain profession such as lawyers or accountants.
10. For greater certainty, for Iceland, Liechtenstein and Norway, the obligation to grant national treatment does not entail the requirement to extend to UK natural persons or enterprises the treatment granted to natural persons or enterprises of a Contracting Party to the EEA Agreement, or to any measure adopted pursuant to the EEA Agreement. Such treatment is granted only to enterprises constituted or organised in accordance with the law of a Contracting Party to the EEA Agreement and having their registered office, central administration or principal place of business within the EEA, including those enterprises established within the EEA which are owned or controlled by UK natural persons or enterprises.
11. With respect to financial services:
- (a) Unlike foreign subsidiaries, branches established directly in a Contracting Party to the EEA Agreement by a non-EEA financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at EEA level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the EEA. Therefore, such branches receive an authorisation to operate in a Contracting Party to the EEA Agreement under conditions equivalent to those applied to domestic financial institutions of that Contracting Party to the EEA Agreement, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Contracting Party to the EEA Agreement concerned of the assets representing the technical reserves and at least one third of the solvency margin.
  - (b) Iceland, Liechtenstein and Norway take their commitments subject to the applicable prudential regulatory regime under the EEA

Agreement and relevant national law derived therefrom, including third country provisions and equivalence decisions adopted by the European Commission and incorporated into the EEA Agreement. Where equivalent supervision by the authorities of the United Kingdom is required under applicable law, that requirement is met after incorporation of a respective equivalence decision of the European Commission into the EEA Agreement and for the time of the validity of that decision.

#### Headnotes

1. The Schedule of a Party to this Annex sets out, under Article 3.12 (Non-Conforming Measures) of Section 3.2 (Investment Liberalisation), Article 3.18 (Non-Conforming Measures) of Section 3.3 (Cross-Border Trade in Services), Article 3.49 (Senior Management and Boards of Directors) of Sub-Section 3.5.3 (Financial Services), and Article 3.77 (Non-Conforming Measures) of Sub-Section 3.5.6 (Legal Services), the reservations taken by that Party with respect to future measures that do not conform with obligations imposed by:
  - (a) Article 3.6 (Market Access) of Section 3.2 (Investment Liberalisation) or Article 3.14 (Market Access) of Section 3.3 (Cross-Border Trade in Services);
  - (b) Article 3.15 (Local Presence) of Section 3.3 (Cross-Border Trade in Services);
  - (c) Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation) or Article 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services);
  - (d) Article 3.8 (Most-Favoured-Nation Treatment) of Section 3.2 (Investment Liberalisation) or Article 3.17 (Most-Favoured-Nation Treatment) of Section 3.3 (Cross-Border Trade in Services);
  - (e) Article 3.9 (Senior Management and Boards of Directors) of Section 3.2 (Investment Liberalisation);
  - (f) Article 3.10 (Performance Requirements) of Section 3.2 (Investment Liberalisation);
  - (g) Article 3.49 (Senior Management and Boards of Directors) of Sub-Section 3.5.3 (Financial Services); or
  - (h) Article 3.76 (Obligations) of Sub-Section 3.5.6 (Legal Services).

2. The reservations are without prejudice to the rights and obligations of the Parties under GATS.
3. Each reservation sets out the following elements:
  - (a) “sector” refers to the general sector in which the reservation is taken;
  - (b) “sub-sector” refers, where applicable, to the specific sector in which the reservation is taken;
  - (c) “industry classification” refers, where applicable, to the activity covered by the reservation according to the CPC, ISIC Rev. 3.1, or as expressly otherwise described in that reservation;
  - (d) “type of reservation” specifies the obligation referred to in paragraph 1 above for which a reservation is taken;
  - (e) “description” sets out the scope of the sector, sub-sector or activities covered by the reservation; and
  - (f) “existing measures” identifies, for transparency purposes, existing measures that apply to the sector, sub-sector or activities covered by the reservation.
4. In the interpretation of a reservation, all elements of the reservation shall be considered. The “description” element shall prevail over all other elements.
5. For the purposes of each Party’s Schedule:
  - (a) “ISIC Rev. 3.1” means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 4, ISIC Rev. 3.1, 2002;
  - (b) “CPC” means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).
6. For the purposes of each Party’s Schedule, a reservation for a requirement to have a local presence in a Party is taken against Article 3.15 (Local Presence), and not against Article 3.14 (Market Access) or Article 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services). Furthermore, such a requirement is not taken as a reservation against Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation).
7. The list of reservations below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a market access or a national treatment limitation within the meaning of Article 3.6 (Market

Access), Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation), Article 3.14 (Market Access), Article 3.15 (Local Presence), Article 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services) or Article 3.76 (Obligations) of Sub-Section 3.5.6 (Legal Services). These measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service or to maintain a local address, or zoning and planning requirements, or any non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.

8. For greater certainty, non-discriminatory measures do not constitute a market access limitation within the meaning of Article 3.6 (Market Access) of Section 3.2 (Investment Liberalisation), Article 3.14 (Market Access) of Section 3.3 (Cross-Border Trade in Services), or Article 3.76 (Obligations) of Sub-Section 3.5.6 (Legal Services) for any measure:
  - (a) requiring the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation and telecommunications;
  - (b) restricting the concentration of ownership to ensure fair competition;
  - (c) seeking to ensure the conservation and protection of natural resources and the environment including with respect to climate change, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;
  - (d) limiting the number of authorisations granted because of technical or physical constraints, for example telecommunications spectra and frequencies; or
  - (e) requiring that a certain percentage of the shareholders, owners, partners, or directors of an enterprise be qualified or practice a certain profession such as lawyers or accountants.
9. For greater certainty, for Iceland, Liechtenstein and Norway, the obligation to grant national treatment does not entail the requirement to extend to UK natural persons or enterprises the treatment granted to natural persons or enterprises of a Contracting Party to the EEA Agreement, or to any measure adopted pursuant to the EEA Agreement. Such treatment is granted only to enterprises constituted or organised in accordance with the law of a Contracting Party to the EEA Agreement and having their registered office, central administration or principal place of business within the EEA,

including those enterprises established within the EEA which are owned or controlled by UK natural persons or enterprises.

10. With respect to financial services:

- (a) Unlike foreign subsidiaries, branches established directly in a Contracting Party to the EEA Agreement by a non-EEA financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at EEA level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the EEA. Therefore, such branches receive an authorisation to operate in a Contracting Party to the EEA Agreement under conditions equivalent to those applied to domestic financial institutions of that Contracting Party to the EEA Agreement, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Contracting Party to the EEA Agreement concerned of the assets representing the technical reserves and at least one third of the solvency margin.
- (b) Iceland, Liechtenstein and Norway take their commitments subject to the applicable prudential regulatory regime under the EEA Agreement and relevant national law derived therefrom, including third country provisions and equivalence decisions adopted by the European Commission and incorporated into the EEA Agreement. Where equivalent supervision by authorities of the United Kingdom is required under applicable law, that requirement is met after incorporation of a respective equivalence decision of the European Commission into the EEA Agreement and for the time of the validity of that decision.

## **SCHEDULE OF ICELAND, LIECHTENSTEIN AND NORWAY**

1. Iceland, Liechtenstein and Norway shall allow the supply of services in their respective territories by contractual service suppliers or independent professionals of the United Kingdom through the presence of natural persons in accordance with Article 3.26 (Contractual Service Suppliers and Independent Professionals) of Section 3.4 (Entry and Temporary Stay of Natural Persons) of Chapter 3 (Services and Investment) for the sectors listed in this Schedule.
2. In addition to the list of reservations in this Schedule, Iceland, Liechtenstein and Norway may adopt or maintain any measure relating to qualification requirements, qualification procedures, technical standards, licensing requirements or licensing procedures that does not constitute a limitation within the meaning of Article 3.26 (Contractual Service Suppliers and Independent Professionals) of Section 3.4 (Entry and Temporary Stay of Natural Persons) of Chapter 3 (Services and Investment). These measures, which include requirements for a person to obtain a licence, to obtain recognition of qualifications in regulated sectors or to pass specific examinations, such as language examinations, even if not listed in this Schedule, apply in any case to contractual service suppliers or independent professionals of the United Kingdom.
3. Commitments for contractual service suppliers and independent professionals do not apply in cases where the intent or effect of the entry and temporary stay is to interfere with, or otherwise affect the outcome of any labour or management dispute or negotiation, or the employment of any natural person who is involved in that dispute.
4. The following abbreviations are used in the list below:

CSS: Contractual service suppliers

IP: Independent professionals

### Contractual service suppliers

5. Subject to the conditions in paragraph 6 of this Schedule, Iceland, Liechtenstein and Norway make commitments in accordance with Article 3.26 (Contractual Service Suppliers and Independent Professionals) of Section 3.4 (Entry and Temporary Stay of Natural Persons) of Chapter 3 (Services and Investment) with respect to the category of contractual service suppliers for all services sectors.
6. The contractual service suppliers shall comply with the following conditions:

(a) In respect of Iceland:

Residence and work permit required. Permitted length of stay is up to six months. No economic needs test required.

The natural person providing the service on behalf of the service supplier must have specialised skills or qualifications of direct relevance to the service activity necessary to fulfil the contract.

The natural person does not receive remuneration for the provision of services in Iceland other than the remuneration paid by the enterprise employing the natural person. The commitment relates only to the services activity which is the subject of the contract. It does not entitle the natural person to exercise the profession as such.

All other requirements regarding entry, stay, wages, working conditions and social security benefits shall continue to apply.

(b) In respect of Liechtenstein:

The natural person does not receive remuneration for the provision of services in Liechtenstein other than the remuneration paid by the enterprise employing the natural person.

The competent authorities of Liechtenstein may recognise the necessary equivalence of the qualification and authorisation of the United Kingdom subject to reciprocity. The access accorded relates only to the service activity which is the subject of the contract and does not confer an entitlement to exercise the professional title of Liechtenstein.

The supply of a cross-border service is subject to notification. The notification must be submitted to the Migration and Passport Office at the latest two working days before the service is supplied. This requirement applies in addition to the need for a license to carry out an economic activity in Liechtenstein to be granted by the competent authorities. In order to ensure compliance with all requirements regarding work and social security measures, the employer of the CSS has to notify the competent authority at the latest nine working days before the supply of the service in accordance with the Posted Workers Act.

Work and social security measures referred to in Article 3.19 (General Provisions and Scope) of Section 3.4 (Entry and Temporary Stay of Natural Persons) of Chapter 3 (Services and Investment) means measures prevailing in the sector and the place of activity in Liechtenstein provided by its law and collective agreements (with respect to remuneration, working hours, etc.).

The permissible length of stay of CSS is for a cumulative period of not more than eight days within any 90 day-period, with possible renewals of the same length of stay after such periods.

(c) In respect of Norway:

The natural person does not receive remuneration for the provision of services in Norway other than the remuneration paid by the enterprise employing the natural person. The commitment relates only to the services activity which is the subject of the contract. It does not entitle the natural person to exercise the profession as such. Residence permit is required. No economic needs test.

The natural person entering Norway as a CSS must be considered to be a higher-level skilled worker or to possess special qualifications, usually obtained through higher education.

The competence of the natural person must be deemed necessary for the recipient of the service. If it is apparent that there will be a permanent need for such labour, or, if during the last six months, a permit has been issued for the performance of the same kind of work for the same recipient of the service, a permit shall not be granted.

The permissible length of stay of contractual service suppliers is for a cumulative period of not more than six months in any 12-month period or for the duration of the contract, whichever is less.

Independent professionals

7. Subject to the conditions in paragraph 8 of this Schedule, Iceland, Liechtenstein and Norway make commitments in accordance with Article 3.26 (Contractual Service Suppliers and Independent Professionals) of Section 3.4 (Entry and Temporary Stay of Natural Persons) of Chapter 3 (Services and Investment) with respect to the category of independent professionals in all services sectors:

8. The independent professionals shall comply with the following conditions:

(a) In respect of Iceland:

Residence and work permit required. Permitted length of stay is up to six months. No economic needs test required.

The natural person providing the service must have specialised skills or qualifications of direct relevance to the service activity necessary to fulfil the contract.

The natural person does not receive remuneration for the provision of services in Iceland other than the remuneration paid by the enterprise employing the natural person. The commitment relates only to the services activity which is the subject of the contract. It does not entitle the natural person to exercise the profession as such.

All other requirements regarding entry, stay, wages, working conditions and social security benefits shall continue to apply.

(b) In respect of Liechtenstein:

The IP shall possess the professional qualification to exercise an activity within the scope of the authorisation from the United Kingdom where this is required pursuant to the law or other legal requirements of Liechtenstein. The competent authorities of Liechtenstein may recognise the necessary equivalence of the qualification and United Kingdom authorisation of the IP subject to reciprocity. The access accorded relates only to the service activity which is the subject of the contract and does not confer entitlement to exercise the professional title of Liechtenstein.

The supply of a cross-border service is subject to notification. The notification must be submitted to the Migration and Passport Office at the latest two working days before the service is supplied. This requirement applies in addition to the need for a license to carry out an economic activity in Liechtenstein to be granted by the competent authorities.

Work and social security measures referred to in Article 3.19 (General Provisions and Scope) of Section 3.4 (Entry and Temporary Stay of Natural Persons) of Chapter 3 (Services and Investment) means measures prevailing in the sector and the place of activity in Liechtenstein provided by its law and collective agreements (with respect to remuneration, working hours, etc.).

The permissible length of stay of IP is for a cumulative period of not more than eight days within any 90-day period, with possible renewals of the same length of stay after such periods.

(c) In respect of Norway:

The natural person does not receive remuneration for the provision of services in Norway other than the remuneration paid by the enterprise employing the natural person. The commitment relates only to the services activity which is the subject of the contract. It does not entitle the natural person to exercise the profession as such. Residence permit is required.

The natural person must be considered to be a higher-level skilled worker or to possess special qualifications, usually obtained through higher education.

The competence of the natural person must be deemed necessary for the recipient of the service. If it is apparent that there will be a permanent need for such labour, or if during the last six months, a permit has been issued for the performance of the same kind of work for the same recipient of the service, a permit shall not be granted.

The permissible length of stay of independent professionals is for a cumulative period of not more than six months in any 12-month period or for the duration of the contract, whichever is less.
