A **statutory objector** may inspect a goods vehicle operator's licence or application under Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by setting out their authority and requesting arrangements are made for inspecting the record by emailing – [Environmental@otc.gov.uk](mailto:Environmental@otc.gov.uk)

**Objections against published applications** may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

**Classification of Operator Licences** – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

New Undertaking: I agree that I will upload further financial evidence in the name of J O'SULLIVAN GROUP LTD covering a consecutive 3 month period to the Office of the Traffic Commissioner as soon as it becomes available, and at least 4 weeks prior to the expiry of my interim. The financial evidence I provide must show that J O'SULLIVAN GROUP LTD has continued to meet the required level of available finance namely, £4,800, throughout the period by reference to an average balance and should meet the following criteria:

- All bank statements must show the name of the account holder and the transactions taking place over the period.
- If there is an overdraft on the account, proof of the current overdraft facility must be provided showing the date the overdraft commenced along with the account number. An offer of an overdraft will not be acceptable.
- Where evidence is provided for more than one bank account the statements must all cover the same 3 month period. To ensure this, you may need to provide statements for some of the accounts which cover more than 3 months.
- Building society accounts will only be acceptable if funds can be drawn down within one month.
- Evidence of any unused balance on credit cards can only be submitted in addition to any bank statements and should not form the majority of the available funds. The credit card statements must cover the same 3 month period as the bank statements and should be in the name of the applicant.
- Any other financial documents provided must meet the criteria set out in the Senior Traffic Commissioner's statutory guidance and statutory directions document 2 available at <https://www.gov.uk/government/collections/senior-traffic-commissioners-statutory-guidance-and-statutory-directions>

I understand that after I have been advised and issued an interim, I will not be sent any further reminders to provide the information before the interim ends.

I understand that any interim granted will expire after the time limit has ended.

If I have not provided financial evidence that meets the requirements and had confirmation that a full licence has been granted before the interim expiry date, I understand that J O'SULLIVAN GROUP LTD will no longer be able to operate vehicles for which a goods vehicle operator's licence is required. Attached to Licence.

## Section 3 – Schedule 4 Applications

**Schedule 4** to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

**New Applications (Section 3.1):** where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

**Variation Applications (Section 3.2):** where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be

lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres
