

**FIRST-TIER TRIBUNAL
PROPERTY CHAMBER
(RESIDENTIAL PROPERTY)**

Case Reference	: LON/00AG/LDC/2025/0759
Property	: 1 - 10 Summers Street, London, EC1R 5BD
Applicant	: Whitestone House Limited
Representative	: Hurford Salvi Carr Property Management Ltd
Respondent	: The long leaseholders of 25 flats of 1 - 10 Summers Street, as listed on the appended Schedule to the Application
Representative	: N/A
Type of Application	: To dispense with the requirement to consult lessees about major works section 20ZA of the Landlord and Tenant Act 1985
Tribunal	: Tribunal Judge Mohabir
Date of Decision	: 13 August 2025

DECISION

1. The Applicant seeks an order pursuant to s.20ZA of the Landlord and Tenant Act 1985 (“the Act”) for *retrospective* dispensation with the consultation requirements in respect of works relating to the replacement of the existing fire alarm cabling and replacement of all heat detectors in the basement car park at the property known as 1 - 10 Summers Street, London, EC1R 5BD (“the property”).
2. The property is described as being a converted block comprised of 25 flats arranged over 5 floors with a basement car park and a car lift. In addition, there are 2 commercial premises.
3. The Applicant is the landlord of the property and the managing agent appointed by it is Hurford Salvi Carr. The Respondents are the long leaseholders of the residential flats in the building.
4. It is the Applicant’s case that, as a result of a maintenance visit, it was discovered that there was no fire detection in the basement car park because of defective cabling. This meant that in the event of a fire, the panel would not activate the sounders in the residential block above. Apparently, all 25 flats are situated above the car park, so the risk to life is significant in the event of a fire.
5. Two comparable estimates had been obtained to replace the existing fire alarm cabling and all of the 40 heat detectors in the basement car park. Due to the urgent nature of the work, the Applicant had instructed the contractor, Firemain, who had provided the lowest estimate of £11,265 plus VAT to carry out the works in the week commencing 5 May 2025. On 29 April 2025, Hurford Salvi Carr served the Respondents with a Notice of Intention in relation to the proposed works.
6. By an application dated 28 April 2025, the Application applied seeking prospective dispensation for the proposed works. On 25 June 2025, the Tribunal issued Directions requiring the Applicant to serve the Respondents with a copy of the application by 9 July 2025, which apparently was done. The Respondents were directed to respond to the application stating whether they objected to it in any way.
7. None of the Respondents have objected to the application.

Relevant Law

8. This is set out in the Appendix annexed hereto.

Decision

9. As directed, the Tribunal’s determination “on the papers” took place on 13 August 2025 and was based solely on the documentary evidence filed by the Applicant. As stated earlier, no objections had been received from any of the Respondents, nor had they filed any evidence.

10. The relevant test to be applied in an application such as this has been set out in the Supreme Court decision in ***Daejan Investments Ltd v Benson & Ors*** [2013] UKSC 14 where it was held that the purpose of the consultation requirements imposed by section 20 of the Act was to ensure that tenants were protected from paying for inappropriate works or paying more than was appropriate. In other words, a tenant should suffer no prejudice in this way.
11. The issue before the Tribunal was whether dispensation should be granted in relation to the requirement to carry out statutory consultation with the leaseholders regarding the overall remedial fire detection works. The Tribunal is not concerned about the actual cost that has been incurred.
12. The Tribunal granted the application for the following main reasons:
 - (a) The Tribunal was satisfied that the Respondents had been served with the application and the evidence in support and there has been no objection from any of them. The Tribunal attached significant weight to this.
 - (b) The Tribunal was satisfied that the remedial fire detection works was required on an urgent basis. The Tribunal was satisfied that the absence of an effective means of detecting a fire in the car park presented a potentially significant health and safety risk to the Respondents. This was especially so given that the residential flats are located directly above the car park.
 - (c) Importantly, the real prejudice to the Respondents would be in the cost of the work and they have the statutory protection of section 19 of the Act, which preserves their right to challenge the actual costs incurred by making a separate service charge application under section 27A of the Act.
13. The Tribunal, therefore, concluded that the Respondents were not being prejudiced by the Applicant's failure to consult, and the application was granted as sought.
14. It should be noted that in granting this part of the application, the Tribunal makes no finding that the scope and cost of the repairs are reasonable.

Rights of appeal

By rule 36(2) of the Tribunal Procedure (First-tier Tribunal) (Property Chamber) Rules 2013, the tribunal is required to notify the parties about any right of appeal they may have.

If a party wishes to appeal this decision to the Upper Tribunal (Lands Chamber), then a written application for permission must be made to the First-tier Tribunal at the regional office which has been dealing with the case.

The application for permission to appeal must arrive at the regional office within 28 days after the tribunal sends written reasons for the decision to the person making the application.

If the application is not made within the 28-day time limit, such application must include a request for an extension of time and the reason for not complying with the 28-day time limit; the tribunal will then look at such reason(s) and decide whether to allow the application for permission to appeal to proceed, despite not being within the time limit.

The application for permission to appeal must identify the decision of the tribunal to which it relates (i.e. give the date, the property and the case number), state the grounds of appeal and state the result the party making the application is seeking.

If the tribunal refuses to grant permission to appeal, a further application for permission may be made to the Upper Tribunal (Lands Chamber).
