## Part II. Certification

### Animal Health

I, the undersigned official inspector, hereby certify that:

#### AH/T158C Territory requirements (freedom from disease)

**(\*)[Requirements for listed species for Spring viraemia of carp (SVC), Bacterial kidney disease (BKD), infection with Gyrodactylus salaris (GS) and/or Ostreid herpesvirus 1 µvar (OsHV-1 µvar)**

the aquaculture animals referred to in Box I.28:

**EITHER** (\*)[originate from a  
 (\*)[\*][country or territory] (\*)[zone] (\*)[compartment] declared free from SVC]  
 (\*)[\*][country or territory] (\*)[zone] (\*)[compartment] declared free from BKD]  
 (\*)[\*][country or territory] (\*)[zone] (\*)[compartment] declared free from GS]  
 (\*)[\*][country or territory] (\*)[zone] (\*)[compartment] declared free of OsHV-1 µvar]  
 that complies with the relevant GB requirements;]

**AND/OR** (\*)[\*][are wild aquatic animals that] (\*)[have been subject to quarantine in accordance with GB requirements] (\*)[are intended for quarantine in GB in an authorised quarantine facility] for the following disease(s): (\*)[SVC] (\*)[BKD] (\*)[OsHV-1 µvar];]

II.a. Certificate reference no.	II.b.
---------------------------------	-------

**AND/OR** (\*)[in the case of consignments for which GS requirements apply, have been held, immediately prior to export, in water with a salinity of at least 25 parts per thousand for a continuous period of at least 14 days and no other live aquatic animals of the species susceptible to GS have been introduced during that period;]

**AND/OR** (\*)[in the case of eyed fish eggs for which GS requirements apply, have been disinfected by a method demonstrated to be effective against GS;]

**AH/T160A Territory requirements (freedom from disease)**

**(\*)[Requirements for listed species susceptible for Viral haemorrhagic septicaemia (VHS), Infectious haematopoietic necrosis (IHN), Infectious salmon anaemia (genotype HPR deleted) (ISA), Koi herpes virus (KHV), *Marteilia refringens*, *Bonamia ostreae*, and/or White spot disease**

the aquaculture animals referred to in box I.28:

**EITHER** (\*)[originate from a  
 (\*)[country or [territory] (\*)[zone] (\*)[compartment] declared free from VHS]  
 (\*)[country or territory] (\*)[zone] (\*)[compartment] declared free from IHN]  
 (\*)[country or territory] (\*)[zone] (\*)[compartment] declared free from ISA]  
 (\*)[country or territory] (\*)[zone] (\*)[compartment] declared free from KHV]  
 (\*)[country or territory] (\*)[zone] (\*)[compartment] declared free from *Marteilia refringens*]  
 (\*)[country or territory] (\*)[zone] (\*)[compartment] declared free from *Bonamia ostreae*]  
 (\*)[country or territory] (\*)[zone] (\*)[compartment] declared free from White spot disease]  
 that complies with the relevant GB requirements;]

**AND/OR** (\*)[are wild aquatic animals that] (\*)[have been subject to quarantine in accordance with GB requirements] (\*)[are intended for quarantine in GB in an authorised quarantine facility] for the following disease(s): (\*)[VHS] (\*)[IHN] (\*)[ISA] (\*)[KHV] (\*)[*M. refringens*] (\*)[*B. ostreae*] (\*)[White spot disease];]

**AH/T510A Territory requirements**

**(\*)[Attestation for consignments originating from an area subject to disease control measures**

the animals referred to in box I.28:

- (a) originate from an area subject to disease control measures regarding (\*)[Epizootic haematopoietic necrosis (EHN)] (\*)[VHS] (\*)[IHN] (\*)[ISA] (\*)[KHV] (\*)[SVC] (\*)[BKD] (\*)[GS] (\*)[*Bonamia exitiosa*] (\*)[*Perkinsus marinus*] (\*)[*Mikrocytos mackini*] (\*)[*Marteilia refringens*] (\*)[*Bonamia ostreae*] (\*)[OsHV-1  $\mu$ var] (\*)[Taura syndrome] (\*)[Yellowhead disease] (\*)[White spot disease] (\*)[the following emerging disease: ..... ;]
- (b) are allowed to be placed on the market according to the control measures laid down; and
- (c) the consignment is identified by a legible label on the exterior of the transport container, or an entry in the ship's manifest when transported by well boat, which clearly links the consignment to this animal health certificate with the relevant information referred to in boxes I.2 and I.7 to I.12, and the following statement:  
 "(\*)[Wild] (\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] originating from an area subject to disease control measures";]

**AH/A261 Animal requirements**

(\*)[in the case of molluscs, were subject to an individual visual check of each part of the consignment, and no molluscs species other than those specified in Part I of the certificate were detected;]

II.a. Certificate reference no.	II.b.
---------------------------------	-------

#### AH/A359C Animal transport

the transport conditions of the aquaculture animals referred to in box I.28 meet the relevant GB requirements;

#### AH/A360C Animal transport (labelling)

the consignment is identified by a legible label on the exterior of the transport container, or an entry in the ship's manifest when transported by well boat, which clearly links the consignment to this animal health certificate with the relevant information referred to in boxes I.2 and I.7 to I.12, and with the following statement:

- EITHER** (\*)["(\*)[Wild] (\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] intended for farming in Great Britain";]
- OR** (\*)["(\*)[Wild] (\*)[Ornamental] (\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] intended for ornamental facilities in Great Britain";]
- OR** (\*)["(\*)[Wild] (\*)[Molluscs] intended for relaying or depuration in Great Britain";]
- OR** (\*)["(\*)[Wild] (\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] intended for put and take fisheries in Great Britain";]
- OR** (\*)["(\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] intended for restocking in Great Britain";]
- OR** (\*)["(\*)[Wild] (\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] intended for scientific research in Great Britain";]
- OR** (\*)["(\*)[Wild] (\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] intended for quarantine in Great Britain";]
- OR** (\*)["(\*)[Wild] (\*)[Fish] (\*)[Molluscs] (\*)[Crustaceans] intended for .....  
(specify reason if not listed above) in Great Britain";]

#### AH/A721B Animal requirements

the aquaculture animals referred to in box I.28:

- (a) comply with GB requirements for placing on the market;
- (b) are not subject to any prohibitions due to unresolved increased mortality; and
- (c) are not intended for destruction or slaughter for the eradication of diseases;

#### AH/A722 Animal requirements

the aquaculture animals referred to in box I.28:

- EITHER** (\*)[have been inspected within (\*)[72] (\*)[24] hours before loading and showed no clinical signs of disease;]
- OR** (\*)[in the case of eggs and molluscs, come from a farm or mollusc farming area where, according to the records of the farm or mollusc farming area, there is no indication of disease problems;]
- OR** (\*)[in the case of wild aquatic animals, according to the best of my knowledge and belief are clinically healthy;]

#### MS/001 Validity

This animal health certificate is valid for a period of ten days from the date issued.

(\*) Keep as appropriate.

Placing on market aquaculture open  
ornamental from British Islands  
(non-GB) into GB (BI-OO)  
GBHC674

II.a. Certificate reference no.	II.b.
---------------------------------	-------

**Official Veterinarian / Official Inspector**

By signing this certificate, I certify that the requirements laid out above and in the accompanying notes for completion have been met.

MODEL CERTIFICATE ONLY

### Part III. Notes for completion

These notes for completion must be read and understood by the certifying officer before signing the certificate. Notes are set out in sections that correspond to the sections in the certificate. By signing this certificate, certifiers are verifying that the consignment meets the requirements set out in the certificate and any relevant corresponding notes for completion.

These notes do not need to be printed as part of a paper certificate that accompanies the consignment or in any electronic copy of the certificate.

References to European Union legislation within this certificate are references to direct EU legislation which has been assimilated in Great Britain (assimilated EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to GB requirements refer to the requirement(s) of Great Britain as set out in the accompanying notes for completion.

### Part I

- Box reference I.11: Include the unique site number for approved aquaculture facilities or registered sites. Select 'other' if wild aquatic animals.
- Box reference I.12: Include the unique site number for approved aquaculture facilities or registered sites. Select 'other' if intended for a site that is not approved or registered.
- Box reference I.17 Enter details of CITES permit, commercial documents and packing lists etc.
- Box reference I.19: Use the appropriate HS codes of the following headings: 0301, 0306, 0307 or 0511. Codes must be a minimum of 8 digits.
- Box reference I.20 and I.28: As regards quantity, give the total number of individual animals. For consignments of juvenile and adult molluscs total weight in kg may be used.
- Box reference I.25: Use the option 'Farming' if intended for farming or ongrowing, 'Ornamental use' for ornamental aquatic animals intended for pet shops and similar businesses for further sale or for personal and public aquaria, 'Relaying or depuration' if intended to be placed in a depuration facility or into an area for the purpose of removing contamination, but not for further growth, 'Put and take fishery' if intended for put and take fisheries, 'Restocking' if intended for restocking, 'Scientific research' if intended for research, 'Quarantine' if intended for an approved quarantine facility, or 'Other' for any non listed purpose (please specify the purpose).
- Box reference I.28 For Stage use the options as follows:
- Fish – egg, juvenile or adult
  - Molluscs – spat, juvenile or adult
  - Crustaceans – larvae, juvenile or adult

### Part II

#### Animal Health

##### AH/T158C Territory requirements (freedom from disease)

This attestation must be kept where the consignment contains listed species for Spring viraemia of carp (SVC), Bacterial kidney disease (BKD), *Gyrodactylus salaris* (GS) and/or Ostreid herpesvirus 1  $\mu$ var (OsHV-1  $\mu$ var) intended for Great Britain, or a zone or compartment therein, declared disease free or subject to a surveillance or eradication programme for the relevant diseases.

Listed species are detailed in table C of the document published by the Secretary of State, with the consent of the Welsh Ministers, in accordance with regulation 3B of the Aquatic Animal Health (England

**Placing on market aquaculture open  
ornamental from British Islands  
(non-GB) into GB (BI-OO)  
GBHC674**

and Wales) Regulations 2009, or in table 1 of the document published by the Scottish Ministers in accordance with regulation 3B of the Aquatic Animal Health (Scotland) Regulations 2009.

Details of the listed species are published at:

Listed species for England and Wales - [www.gov.uk/government/publications/susceptible-and-vector-species](http://www.gov.uk/government/publications/susceptible-and-vector-species)

Listed species for Scotland - [www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/](http://www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/)

This attestation also applies to consignments of fish of any species in contact with species listed as susceptible to infection with GS, either through co-habitation or water supply, where those consignments are intended for Great Britain, or part thereof, listed as free of GS.

Data on the disease status of Great Britain and each farm and mollusc farming area are published at:

Disease status of England and Wales - [www.gov.uk/guidance/report-serious-fish-or-shellfish-diseases](http://www.gov.uk/guidance/report-serious-fish-or-shellfish-diseases)

Register of farms in England and Wales - [www.cefas.co.uk/eu-register/](http://www.cefas.co.uk/eu-register/)

Disease status of Scotland - [www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/](http://www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/)

Register of farms in Scotland - [www.gov.scot/publications/registers-of-authorised-aquaculture-production-businesses-and-authorised-processing-establishments/](http://www.gov.scot/publications/registers-of-authorised-aquaculture-production-businesses-and-authorised-processing-establishments/)

The option to place listed species into quarantine, either in the source country or upon arrival in GB, only applies to susceptible species from the wild and vector species from wild and farmed origin. This option does not apply to any aquatic animal in relation to GS.

**Relevant GB requirements:**

The country, territory, zone or compartment, as listed in Part I of this certificate, must be declared free by the competent authority in the country of origin in accordance with the relevant World Organisation for Animal Health (WOAH) standards or via a process equivalent to Decision 2009/177.

For the free country, territory, zone or compartment:

- the relevant diseases must be notifiable to the competent authority and reports of suspicion of infection of the relevant diseases must be immediately investigated by the competent authority;
- introductions of all species susceptible to the relevant diseases come from a source declared free of the diseases; and
- species susceptible to the relevant diseases are not vaccinated against the diseases.

For aquatic animals which have been subject to quarantine this must have been under conditions at least equivalent to those laid down in Decision 2008/946.

**AH/T160A Territory requirements (freedom from disease)**

This attestation must be kept where the consignment contains listed species for Viral haemorrhagic septicaemia (VHS), Infectious haematopoietic necrosis (IHN), Infectious salmon anaemia (genotype HPR-deleted) (ISA), Koi herpes virus (KHV), *Marteilia refringens*, *Bonamia ostreae*, and/or White spot disease intended for Great Britain, or a zone or compartment therein, declared disease free or subject to a surveillance or eradication programme for the relevant diseases.

Listed species are detailed in table A (vector) and table B (susceptible) of the document published by the Secretary of State, with the consent of the Scottish Ministers and Welsh Ministers, in accordance with Articles 3 and 3A of Regulation No 1251/2008.

Details of the listed species are published at:

[www.gov.uk/government/publications/susceptible-and-vector-species](http://www.gov.uk/government/publications/susceptible-and-vector-species)

Data on the disease status of Great Britain and each farm and mollusc farming area are published at:

Disease status of England and Wales - [www.gov.uk/guidance/report-serious-fish-or-shellfish-diseases](http://www.gov.uk/guidance/report-serious-fish-or-shellfish-diseases)

**Placing on market aquaculture open  
ornamental from British Islands  
(non-GB) into GB (BI-OO)  
GBHC674**

Register of farms in England and Wales - [www.cefas.co.uk/eu-register/](http://www.cefas.co.uk/eu-register/)

Disease status of Scotland - [www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/](http://www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/)

Register of farms in Scotland - [www.gov.scot/publications/registers-of-authorized-aquaculture-production-businesses-and-authorized-processing-establishments/](http://www.gov.scot/publications/registers-of-authorized-aquaculture-production-businesses-and-authorized-processing-establishments/)

Vector species listed in table A shall only be regarded as vectors if they fulfil the specified conditions. Consignments of aquatic animals listed as vector species in table A may be placed on the market regardless of the requirements in this attestation if the conditions to be regarded as a vector are not fulfilled.

The option to place listed species into quarantine, either in the source country or upon arrival in GB, only applies to susceptible species from the wild and vector species from wild and farmed origin.

**Relevant GB requirements:**

The country, territory, zone or compartment, as listed in Part I of this certificate, must be declared free by the competent authority in the country of origin in accordance with the relevant World Organisation for Animal Health (WOAH) standards or via a process equivalent to Decision 2009/177.

For the free country, territory, zone or compartment:

- the relevant diseases must be notifiable to the competent authority and reports of suspicion of infection of the relevant diseases must be immediately investigated by the competent authority;
- introductions of all species susceptible to the relevant diseases come from a source declared free of the diseases; and
- species susceptible to the relevant diseases are not vaccinated against the relevant diseases.

For aquatic animals which have been subject to quarantine this must have been in accordance with Decision 2008/946.

**AH/T510A Territory requirements**

This attestation applies to consignments of aquaculture animals which, according to Article 8 of Regulation No 1251/2008, must be accompanied by a certificate and, which in compliance with the placing on the market requirements, are allowed by the competent authority to leave an area subject to control provisions or a country, territory, zone or compartment with an eradication programme.

**AH/A261 Animal requirements**

If additional mollusc species are detected, these must be listed in box I.28.

**AH/A359C Animal transport**

**Relevant GB requirements:**

The aquaculture animals or products referred to in box I.28:

- (a) are placed under conditions, including water quality, that do not alter their health status;
- (b) as appropriate, comply with the general conditions for the transport of animals laid down in Article 3 of Regulation No 1/2005; and
- (c) prior to loading the transport container or well boat is clean and disinfected, or previously unused.

**AH/A360C Animal transport (labelling)**

No further notes for completion.

**AH/A721B Animal requirements**

**Relevant GB requirements:**

The aquaculture animals must comply with the requirements for placing on the market laid down in Regulation 1251/2008.

**Placing on market aquaculture open  
ornamental from British Islands  
(non-GB) into GB (BI-OO)  
GBHC674**

**AH/A722 Animal requirements**

Regarding inspection, the 24-hour option only applies when completing section AH/T510A for consignments originating from an area subject to disease control measures. In all other cases the 72-hour option applies.

In the case of wild aquatic animals, the third option only applies to consignments of aquaculture animals caught in the wild and immediately transported to a farm or mollusc farming area without any temporary storage.

**MS/001 Validity**

No further notes for completion.

MODEL CERTIFICATE ONLY
