Product Description	Electric drills with a carry case, interchangeable 12v batteries, gloves and a wall plug.
Country of Origin	China
Counterfeit	Unknown
Risk Level	High
Risk Type	Fire
Risk Description	<p>The products present a high risk of fire because there was insufficient creepage and clearance distance between the mains potential input circuits and low voltage output circuits. If a fault occurs and the product's charger overheats whilst in use, it could ignite, causing a fire.</p> <p>The dimensions of the plug face were not sufficient to prevent access to live parts when plugging in, or unplugging, the plug from the socket. Additionally, the breakdown isolation between input and output circuits did not meet the minimum requirements for insulation in Class II equipment, and there was no safety fusible resistor fitted to the mains input circuit.</p> <p>The product does not meet the requirements of the Electrical Equipment (Safety) Regulations 2016 or the Plugs & Sockets etc. (Safety) Regulations 1994.</p>
Corrective Measures	The import has been rejected at the border.
