TAN 05	information security policy, related processes and procedures.  L.02 Define and assign information security relevant roles and responsibilities.  L.03 Define and implement a policy which addresses information securit risks within supplier relationships.  M.01 Define and implement a policy which provides for regular, formal	y g.	

## **Security Culture and Awareness**

which ensures all functions have sufficient and appropriately qualified resources to manage the establishment, implementation and maintenance of information security.				
<b>L.05</b> Define employee (including contractor) responsibilities for information security.				
<b>L.06</b> Define and implement a policy to provide employees and contractors with information security training.				
<b>M.03</b> Define and implement a repeatable risk assessment process.				
In	formation Asset Security			
<b>L.07</b> Define and implement a policy for ensuring sensitive information is clearly identified.				
M.04 / M04a / M04b Define and implement a policy for storing, accessing, and handling sensitive information securely.				
<b>M.05</b> Define and implement a policy for data loss prevention.				
<b>M.06</b> Define, implement, and test a policy for regular off-line back-up of data off-site.				
<b>L.08</b> Define and implement a policy to control access to information and information processing facilities.				
<b>M.07</b> Ensure the organisation has identified asset owners and asset owners control access to their assets.				
Info-Cyber Systems Security				
<b>VL.01</b> Maintain annually renewed Cyber Essentials Certification.				
L.09 Maintain annually renewed Cyber Essentials Scheme Plus Certification.				
<b>L.10</b> Define and implement a policy to control the exchanging of information via removable media.				
<b>L.11</b> Record and maintain the scope and configuration of the information technology estate.				

<b>M.08</b> Define and implement a policy	
to assess vulnerabilities identified for	
which there are no countermeasures	
(e.g. a patch) available, undertake	
risk assessment and management.	
g	
M.09 Undertake administration	
access over secure protocols, using	
multi-factor authentication.	
man lactor admentioation.	
M.10 Define and implement a policy	
to monitor network behaviour and	
review computer security event logs	
for indications of potential incidents.	
1 40 Define and implement a nation	
<b>L.12</b> Define and implement a policy	
to manage the access rights of user	
accounts.	
<b>M.11</b> Define and implement a policy	
· · · · · ·	
to monitor user account usage and to	
manage changes of access rights.	
M.12 Define and implement a policy	
to control remote access to networks	
and systems.	
-	
<b>L.13</b> Define and implement a policy	
to maintain the confidentiality of	
passwords.	
M.13 Define and implement a policy	
to control the use of authorised	
software.	
Software.	
<b>M.14</b> Define and implement a policy	
to control the flow of information	
through network borders.	
	Daniel Caracita
	Personnel Security
L.14 Define and implement a policy	
for verifying an individual's	
credentials prior to employment.	
<b>M.15</b> Define and implement a policy	
for applying security vetting checks to	
employees	
L.15 Define and implement a process	
for employees and contractors to	
report violations of information	
security policies and procedures	
without fear of recrimination.	
L.16 Define and implement a	
disciplinary process to take action	
against employees who violate	
information security policies or	
procedures	
	1

M.16 Undertake person assessments for all em contractors and ensure specific responsibilities information security hav appropriate qualification appropriate levels of apexperience	ployees and those with for ve sufficient ns and			
M.17 Define and impler to secure organisationa	l assets when			
individuals cease to be by your organisation.	employed			
Security Incident Management				
<b>L.17</b> Define and implement an incident management policy, which must include detection, resolution, and recovery.				
Anticipated Date of	Comment			
Compliance				

The completed Cyber Implementation Plan (CIP) must be returned to the MoD Contracting Team (not DCPP) who will forward this on to the relevant TLB / FLC lead.
