## **Export Certificate for export of Bovine Semen** from the UK to New Zealand

Part II: Certification

II. a. Certificate reference number II. b. Unique reference number:-

I, the undersigned, Official Veterinarian of the United Kingdom certify that:

- II.1. The semen herein described, complies with the relevant United Kingdom standards and requirements which have been recognized as equivalent to the New Zealand standards and requirements as prescribed in the United Kingdom-New Zealand Agreement on Sanitary Measures, specifically in accordance with Directive
- II.2. The semen is eligible for intra-European Union trade without restriction.
- II.3. For diseases not regulated by the UK: All laboratory samples required by this veterinary certificate have been collected, processed, and stored in accordance with the WOAH recommendations or as described in Approved Diagnostic Tests, Vaccines, Treatments and Post-Arrival Testing Laboratories for Animal Import Health Standards, MPI-STD-SAA, found here: https://www.mpi.govt.nz/dmsdocument/2040/.
- II.4. With regards to Q fever
- either 11.4.1 To the best of my knowledge and as far as I can ascertain, the donors have never been confirmed positive for Q fever. The donors were subjected to an ELISA test in accordance with the methods described in the Q-Fever Chapter of the WOAH Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, on a sample collected betw an 21 and 120 days after each semen collection period (a period of 60 days or less) for export to New Zealand, with negative results;]
- (1) or [II.4.2 An aliquot of semen from each collection for export to New Zealand was tested using a laboratory validated Q-fever PCR test which is in accordance with the methods described in the Q-fever Chapter of the WOAH Manual of Diagnostic Tests and Vaccines for Terrestrial Animals.]
- II.5. The donor's centres of residence have had no cases of Boyine Herpes Virus 5 (suspected or diagnosed) in the year prior to semen collection for export to New Zealand.
- II.6. The tests for brucellosis must be proven capable of detecting intection with Brucella suis and must be one of the following: CFT, BBAT, I-ELISA, or FPA.
- II.7. To manage Leptospira interrogans, antibiotics have been added in accordance with the WOAH Code, or with another approved combination listed in MPI-STD-
- II.8. With regard to Mycoplasma bovis, each semen collection for export to New Zealand was tested using a validated test for M. bovis in accordance with MPI-STD-SAA, with negative results.

Notes

Part I:

- Box I.11.: Place of origin shall correspond to the semen collection centre or semen storage centre listed on Govuk website or TRACES: https://www.gov.uk/government/publications/livestock-and-equine-semen-collection-approved-premises
- Box I.20.: Number of packages shall correspond to the number of containers.
- Box I.21.: Identification of container and seal number shall be indicated.
- Box I.25.: Species: indicate "Bos taurus", "Bison bison" or "Bubalus bubalis" as appropriate.

Donor identity shall correspond to the official identification of the animal.

Date of collection shall be indicated in the following format: dd/mm/yyyy.

Approval number of the centre shall correspond to the approval number of the semen collection centre in which the semen was collected

## Part II:

- (1) Delete as appropriate.
- The signature and the stamp must be in a different colour to that of the printing.
