# Summary

Section 33 of the Chemical Weapons Act 1996 requires the Secretary of State to prepare, each calendar year, a report on the operation of the Act, and to lay a copy before each House of Parliament. This report provides information relating to provisions in the Act that ensure the effective implementation of the Chemical Weapons Convention (CWC). It specifically covers key activities relevant to the Convention including declarations, inspections and licensing, and how these are conducted and reported by the CWC UK National Authority (UKNA)

The UKNA is based in the Department for Energy Security and Net Zero, and is responsible for monitoring compliance with the Act in the UK, its Crown Dependencies and Overseas Territories. The Act places legal requirements on all companies, universities, other entities and individuals that work with certain toxic chemicals to provide information requested by the Secretary of State, and to provide access to sites for inspections by the Organisation for the Prohibition of Chemical Weapons (OPCW) to verify the information provided. In addition, the Act requires anyone wishing to produce, possess or use certain very toxic chemicals to obtain a licence.

The UKNA liaises with approximately 350 organisations each year to collect the information on chemical activities required under the Act. It also works closely with the OPCW, based in The Hague, Netherlands; and with other government departments in the development of UK policy on chemical-related non-proliferation issues.

# CWC Declarations

The CWC has three Schedules, each with different levels of control. Schedule 1 includes nerve and blister agents and, as such, is the most tightly controlled, particularly as these chemicals have very few peaceful uses. The chemicals listed in Schedules 2 and 3 are subject to differing verification requirements and, especially in the case of Schedule 3, are often produced in large quantities for industrial purposes.

The CWC requires States Parties to submit to the OPCW a range of annual declarations covering activities involving chemicals specified in these three Schedules as follows:

- Schedule 1 chemicals - production, acquisition, consumption, storage, import and export
- Schedule 2 chemicals - production, processing, consumption, import and export
- Schedule 3 chemicals - production, import and export

The declarations are broken down by Schedule and report activities for the past calendar year (known as the Annual Past Declaration (APD)) and anticipated activities for the next calendar year (the Annual Anticipated Declaration (AAD)). Since 2004, additional information for Schedule 2 and Schedule 3 chemicals below the declaration threshold has been provided in an aggregated form known as the Aggregate National Data declaration (AND). The UK does not have a de minimis declaration threshold for Schedule 2 and Schedule 3 chemicals. Information is also provided on the large-scale production of a separate category of chemicals referred to in the Convention as Discrete Organic Chemicals (DOCs).

Declarations draw on information submitted by UK industry, academic and government organisations, and are provided to the OPCW according to the following timetable:

Declaration	Timing
<b>Annual Past Declaration covering Schedule 1, 2 and 3 chemicals, including Aggregate National Data and Discrete Organic Chemicals</b>	No more than 90 days after the end of the calendar year
<b>Annual Anticipated Declaration for Schedule 1 chemicals</b>	No less than 90 days before the beginning of the calendar year
<b>Annual Anticipated Declaration for Schedule 2 and 3 chemicals</b>	No less than 60 days before the beginning of the calendar year

The CWC also requires States Parties to provide information on any old chemical weapons (OCWs) found on their territories and report annually on those destroyed (including a plan for future destruction) according to the following timetable:

Declaration	Timing
<b>Annual Plan for destruction</b>	No less than 60 days before the end of the calendar year
<b>Annual Report on destruction</b>	No more than 60 days after the end of the calendar year
<b>Ad Hoc Declarations of new finds</b>	Within 180 days of discovery

One further report is required annually on defence programmes for protection against chemical weapons.

All UK declarations were submitted to the OPCW by the international deadlines and met the UK's reporting obligations, as set out below.

The UK's APD for 2023 was submitted to the OPCW on 19 March 2024. In addition to activities involving scheduled chemicals and DOCs, information on the UK's chemical defence programme in 2023 was also provided and submitted to the OPCW on 27 March 2024.

The UK's AAD for 2025 for Schedule 1 facilities was submitted to the OPCW on 30 August 2024, and the AAD for Schedule 2 and Schedule 3 sites was submitted on 24 September 2024.

For OCWs, the UK submitted a report on the annual inventory and completed destruction during 2023 on 20 February 2024. Two declarations of new finds of OCWs covering the last four months of 2023 and the first six months of 2024 were also reported to the OPCW in accordance with agreed procedures.

The UKNA operates a secure online database for all organisations making CWC declarations, and all CWC declarations are submitted by the UKNA to the OPCW via the latter's Secure Information Exchange (SIX), a system that enables the secure online exchange of information between States Parties and the OPCW. Guidance and registration information for the CWC Declarations Database is available from the following link  
[https://itportal.energysecurity.gov.uk/eng/fox/cwc/CWC\\_LOGIN/login](https://itportal.energysecurity.gov.uk/eng/fox/cwc/CWC_LOGIN/login)

The numbers of UK organisations submitting APDs in each category and in each year since the CWC entered into force is shown in the table overleaf. The declarations report on activities in the previous calendar year.

UK	Schedule 1	Schedule 2	Schedule 3	DOCs	AND
1997	2	9	11	132	n/a
1998	2	9	14	153	n/a
1999	2	8	12	151	n/a
2000	2	7	12	142	n/a
2001	2	10	11	140	n/a
2002	2	10	11	141	n/a
2003	2	10	12	131	n/a
2004	2	11	12	142	281
2005	2	14	10	134	279
2006	2	14	10	134	285
2007	2	12	7	125	256
2008	2	12	7	111	200
2009	2	12	7	111	199
2010	1	14	5	106	193
2011	1	17	5	98	253
2012	1	18	5	100	289

2014	1	19	6	91	287
2015	1	18	6	91	287
2016	1	16	6	91	280
2017	1	13	6	85	284
2018	1	11	6	84	276
2019	1	10	6	84	266
2020	1	9	4	77	258
2021	1	9	4	73	260
2022	1	9	2	73	254
2023	1	10	1	71	257
2024	1	9	1	69	257

# CWC Inspections

Each year, the OPCW undertakes a number of routine initial and repeat inspections of selected declared sites to verify the declarations that are submitted by States Parties. The verification process serves as a confidence-building measure to help demonstrate that States Parties are meeting their obligations under the Convention.

The UK received a total of ten routine inspections in 2024, predominantly at industrial facilities. Three inspections were received by sites that produce, process or consume Schedule 2 chemicals and six were at sites that produce DOC chemicals. One DOC inspection included the use of Sampling and Analysis (S&A), which is a laboratory-based verification tool to help the OPCW determine that on site activities are consistent with the information provided in declarations.

In addition to the industry inspections the UK also received one inspection of its dedicated facility for the storage and destruction of old chemical weapons, located at the Defence Science & Technology Laboratory at Porton Down.

All sites inspected were acknowledged by the OPCW as providing first-class co-operation and all inspections were completed without incident or any unresolved issues. The number of OPCW inspections undertaken in the UK, by category, since the CWC entered into force is shown on the table below.

## OPCW inspections in the UK by category each year

Year	Schedule 1	Schedule 2	Schedule 3	DOCs	OCW	CWPF*
<b>1997</b>	2	0	0	0	n/a	8
<b>1998</b>	1	4	1	0	1	5
<b>1999</b>	1	4	0	0	1	3
<b>2000</b>	2	0	1	0	1	3
<b>2001</b>	2	2	1	0	0	0
<b>2002</b>	1	2	2	0	1	1
<b>2003</b>	1	2	0	1	1	1
<b>2004</b>	0	2	0	4	1	0
<b>2005</b>	2	1	1	1	1	2
<b>2006</b>	1	5	0	3	1	1
<b>2007</b>	2	1	0	6	1	0
<b>2008</b>	0	1	0	5	1	0
<b>2009</b>	0	1	0	4	1	1

Year	Schedule 1	Schedule 2	Schedule 3	DOCs	OCW	CWPF*
<b>2010</b>	1	2	0	5	1	1
<b>2011</b>	0	3	1	4	1	0
<b>2012</b>	0	3	1	6	1	1
<b>2013</b>	1	2	0	3	1	2
<b>2014</b>	0	2	0	4	1	1
<b>2015</b>	1	0	0	7	1	
<b>2016</b>	0	1	0	7	1	
<b>2017</b>	1	2	0	5	1	
<b>2018</b>	0	2	0	4	1	
<b>2019</b>	1	0	0	7	1	
<b>2020</b>	0	0	0	1	1	
<b>2021</b>	1	2	0	2	1	
<b>2022</b>	0	0	0	1	0	
<b>2023</b>	1	1	0	4	0	
<b>2024</b>	0	3	0	6	1	
<b>Total</b>	<b>22</b>	<b>48</b>	<b>8</b>	<b>90</b>	<b>24</b>	<b>30</b>

\*The OPCW ceased verification of converted former UK chemical weapons production facilities (CWPF) in 2014.

## Licensing & Trade Controls

The Act contains provisions to control Schedule 1 chemical production, possession and use through the issue of licences. These Schedule 1 licences, together with import and export licences issued under the Import of Goods (Control) Order 1954 and the Export Control Act 2002 respectively, aim to ensure that:

1. quantities of Schedule 1 chemicals acquired or possessed by the UK do not exceed the one tonne ceiling specified in the CWC.
2. that the chemicals are used only for purposes not prohibited by the CWC.
3. that the CWC's conditions on transfers are met.

11 organisations were issued with an Individual Licence to Produce, Possess and Use Schedule 1 chemicals for pharmaceutical, medical or research purposes in 2024 - including 2 that were authorised to produce Schedule 1 chemicals. There were no transfers of Schedule 1 chemicals to or from the UK in 2024.

Licence holders are required to report annual production and usage and any changes of circumstance to the UKNA.

There are some limited Schedule 1 licensing exemptions to avoid over-burdensome and unnecessary licensing, to ensure human safety and to support medical research.

# Contacts

# Glossary of Terms

<b>AAD</b>	Annual Anticipated Declaration. Required to be submitted by anyone who anticipates, in the next calendar year, producing any Schedule 1 and/or 3 chemicals, and/or producing, processing and/or consuming any Schedule 2 chemicals, above certain quantities.
<b>AND</b>	Aggregate National Data. Required to be submitted by anyone who, in the previous calendar year, produced, processed, consumed, imported and/or exported any Schedule 2 chemicals and anyone who produced, imported and/or exported any Schedule 3 chemicals, and whose activities fall below those quantities requiring APDs and AADs to be submitted.
<b>APD</b>	Annual Past Declaration. Required to be submitted by anyone who, in the previous calendar year, produced any Schedule 1 and/or 3 chemicals and/or unscheduled Discrete Organic Chemicals (DOCs), and/or produced, processed and/or consumed any Schedule 2 chemicals, above certain quantities.
<b>CAS</b>	Also referred to as CASRN or CAS Number is a unique numeric identifier assigned by the Chemical Abstracts Service (CAS) to every chemical substance described in the open scientific literature.
<b>CWC</b>	Chemical Weapons Convention. The international treaty which aims to eliminate an entire category of weapons of mass destruction by prohibiting the development, production, acquisition, stockpiling, retention, transfer or use of chemical weapons by States Parties.
<b>CWPF</b>	Chemical Weapon Production Facility. Any equipment, including any building housing such equipment that was designed, constructed or used at any time since 1 January 1946 for the production of a chemical weapon as defined by the Convention.
<b>DOC</b>	Discrete Organic Chemical. Any chemical belonging to the classification of chemical compounds consisting of all compounds of carbons except for its oxides, sulphides and metal carbonates. Although DOCs are not included in the schedules, plant sites producing DOCs are subject to verification if they produce more than 200 tonnes annually (or 30 tonnes if they contain the elements phosphorus, sulphur or fluorine).
<b>OCW</b>	Old Chemical Weapons. Chemical weapons produced before 1925 or, in the period between 1925 and 1946 that have deteriorated to such an extent that they can no longer be used as chemical weapons.
<b>OPCW</b>	Organisation for the Prohibition of Chemical Weapons. The implementing body of the Chemical Weapons Convention with the mandate to achieve the object and purpose of the Convention.
