

# DGDT Provider Audit

## Self-Assessment Checklist

**Version Number 0.5**

**Date: July 2025**

## 1. Introduction

The purpose of the provider audit is to ensure that standards are maintained, risks are mitigated, and continuous improvement is promoted within Dangerous Goods Driver Training (DGDТ).

Providers may receive announced visits from a DVSA/HSENI representative at any time, during which a form similar to this document will be completed.

To assist you in this process, we have created a self-assessment checklist to highlight the areas we will be evaluating. We recommend that you also refer to the confirmatory statements within your application.

We hope this self-assessment will help you identify areas for continuous improvement and ensure you are prepared for any auditor visit.

The areas covered include administration processes, instructor professional development, internal quality assurance checks, record keeping, resources, and more.

Please note that the responsibility for quality and safety at an approved training provider lies with the designated responsible contact, i.e., the person operationally responsible for DGDТ. Completing this self-assessment alone is not a sufficient means of ensuring full compliance.
