IV. HEALTH INFORMATION

I, the undersigned, certify that:

1. The *semen / *oocytes / *embryos described in Paragraph I was legally imported into Great Britain from (insert country name) with the relevant model GB health certificate, numbered and with additional certification that provides the relevant EU animal health law assurances. The original or copy of the certificate(s) are attached to this Internal Movement Certificate and;
 - (a) the semen was collected, *processed and *stored after 20 April 2021 in accordance with Regulation (EU) 2016/429 and Delegated Regulation (EU) 2020/692 and relevant conditions at least as strict as described in the relevant model health certificate in Regulation (EU) 2021/403:
..... ⁽⁶⁾; AND/OR
 - (b) the semen was collected, *processed and *stored before 21 April 2021 in accordance with EU legislation(s) ⁽⁵⁾ and relevant conditions at least as strict as described in the relevant model health certificate in Regulation (EU) 2021/403:
..... ⁽⁶⁾;
2. The semen has been *stored and *transported in a container in Great Britain which:
 - (a) has been cleaned and either disinfected or sterilised before use, or is a single-use container;
 - * (b) has been filled with cryogenic agent which has not been previously used for other products of lesser health status;
 - (c) was sealed under veterinary supervision prior to dispatch with a tamper-evident seal, which bears the number as recorded in paragraph III.4 above.

* Delete as appropriate

Certificate Number ⁽²⁾/...../.....
