

## Air Quality and Dust Monitoring Monthly Report – August 2025

Royal Borough of Kensington and Chelsea

## Department for Transport

High Speed Two (HS2) Limited has been tasked by the Department for Transport (DfT) with managing the delivery of a new national high speed rail network. It is a non-departmental public body wholly owned by the DfT.

High Speed Two (HS2) Limited,  
Two Snowhill  
Snow Hill Queensway  
Birmingham B4 6GA

# Monthly Summary

- 1.1.1 This Summary Report is published in fulfilment of commitments detailed in the High Speed Rail (London-West Midlands) Environmental Minimum Requirements, Annex 1: Code of Construction Practice, for the nominated undertaker to present the results of air quality monitoring undertaken in the Royal Borough of Kensington and Chelsea (RBKC) during July 2025.
- 1.1.2 Figure 1 in Appendix A present the current air quality monitoring locations.
- 1.1.3 This summary should be read in conjunction with the overview monitoring report available from [www.gov.uk/government/collections/monitoring-the-environmental-effects-of-hs2](https://www.gov.uk/government/collections/monitoring-the-environmental-effects-of-hs2), which highlights: the applicable standards and guidance, as well as the air quality and dust monitoring methodologies to be implemented by nominated undertakers throughout construction.
- 1.1.4 There are no current worksites located within the RBKC. Therefore, no dust monitoring has been carried out.
- 1.1.5 Diffusion tube monitoring of Nitrogen Dioxide (NO<sub>2</sub>) is undertaken at seven (7) locations in around highways within the RBKC as part of the management of air quality where significant effects may occur as a result of the scheme.
- 1.1.6 Diffusion tube monitoring results are as provided from the laboratory analysis, and therefore still require various analysis and adjustments to be undertaken. Final corrected results will be presented and described in the annual report. However, based on the results to date, no unexpected values were recorded during the monitoring period.
- 1.1.7 NO<sub>2</sub> monitoring locations and results are presented in Appendix B, Table 1, together with the 2025 running mean.
- 1.1.8 There were no (0) complaints received during this reporting period (August 2025).

## Appendix B – Air Quality Monitoring Results

Table 1: NO<sub>2</sub> monitoring locations around highways, NO<sub>2</sub> concentrations and monthly monitoring results with running mean for 2025 (µg/m<sup>3</sup>)

| Monitoring Site ID | Location description                                                 | Coordinates (X, Y) | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Mean <sup>12</sup> |
|--------------------|----------------------------------------------------------------------|--------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|--------------------|
| HS2-000020BN1      | Sign post on St Ann's Villas                                         | 523998, 180160     | 46  | 34  | 54  | 35  | 22  | 24  | 20  |     |     |     |     |     | 33                 |
| HS2-000020BPO      | Lamp post off Silchester Road                                        | 523792, 181066     | 40  | 30  | 48  | 27  | 20  | 19  | 19  |     |     |     |     |     | 29                 |
| HS2-000020BPR      | Lamp post at junction of Crowthorne Road and Bramley Road            | 523763, 181172     | 43  | 25  | 31  | 30  | 19  | 22  | 19  |     |     |     |     |     | 27                 |
| HS2-000020BPS      | Lamp post by fence on B450 Ladbroke Grove, south of A404 Harrow Road | 523886, 182358     | 48  | 39  | 40  | 36  | 25  | 25  | 20  |     |     |     |     |     | 33                 |

<sup>1</sup> Note: to aid interpretation and conform with best practice, the monthly measurements in this table are reported rounded to the nearest whole number. The annual mean presented here is calculated based on laboratory data to 4 significant figures, rounded to a whole number, and therefore may differ slightly to a mean derived from averaging the rounded monthly measurements in the table.

<sup>2</sup> The annual mean for diffusion tubes presented in the table above still require various analysis and adjustments to be undertaken before comparison to the Air Quality Objectives. The final corrected annual mean will be presented in the HS2 Annual Air Quality Report.
