CNC Response:

A & B) The CNC hold very limited information regarding meetings between our representatives and those of the NAMP or force-level branches / affiliates.

I can confirm though that on two occasions in March 2025 we were invited to attend Eid Iftar celebrations as follows:

4 March 2025, 2 Sergeants and 1 officer attended an in-person informal networking event, hosted by Sellafeld Ltd.

18 March 2025, 1 Sergeant attended an in-person informal networking event, hosted by the NAMP President.

Due to the nature of the event, there were no formalities, such as agendas, actions, documents shared, or records made. Therefore the remainder of questions A & B do not apply.

Prior to that, on 12 November 2024, 1 Sergeant and 1 PC observed a virtual presentation on MS Teams, entitled 'Islam and Policing'. The presentation was for educational purposes (aimed at supporting staff and officers in the workplace) and was organised by the NAMP President.

No information is held regarding any agenda, documents shared, or the presentation slides etc, and the remainder of questions A & B therefore do not apply.

C) I can confirm that:

The CNC does not hold MoU, agreements, or formal partnership documents between us and the NAMP / affiliates.

The CNC does not hold details of any payments, grants, or in-kind support to NAMP / affiliates.

The CNC does not hold details of any policies, guidance, training products, or EIA / consultations in which NAMP / affiliates were formally consulted.

Context:

The Civil Nuclear Constabulary is a specialist armed police service dedicated to the civil nuclear industry, with Operational Policing Units based at 10 civil nuclear sites in England and Scotland and over 1600 police officers and staff. The Constabulary headquarters is at Culham in Oxfordshire. The civil nuclear industry forms part of the UK's critical national infrastructure and the role of the Constabulary contributes to the overall framework of national security.

The purpose of the Constabulary is to protect licensed civil nuclear sites and to safeguard nuclear material in transit. The Constabulary works in partnership with the appropriate Home Office Police Force or Police Scotland at each site. Policing services required at each site are agreed with nuclear operators in accordance with the Nuclear Industries Security Regulations 2003 and ratified by the UK regulator, the Office for Nuclear Regulation (ONR). Armed policing services are required at most civil nuclear sites in the United Kingdom. The majority of officers in the Constabulary are Authorised Firearms Officers.

The Constabulary is recognised by the National Police Chiefs' Council (NPCC) and the Association of Chief Police Officers in Scotland (ACPOS).

Through the National Coordinated Policing Protocol, the Constabulary has established memorandums of understanding with the local police forces at all 10 Operational Policing Units. Mutual support and assistance enable the Constabulary to maintain focus on its core role.
