II. Health information

(1) [II.1. Public health attestation (Delete when the Union is not the final destination of the raw materials)

I, the undersigned, declare that I am aware of the relevant requirements of Regulation (EC) No 999/2001 of the European Parliament and of the Council, Regulation (EC) No 178/2002 of the European Parliament and of the Council, Regulation (EC) No 852/2004 of the European Parliament and of the Council, Regulation (EC) No 853/2004 of the European Parliament and of the Council and Regulation (EU) 2017/625 of the European Parliament and of the Council, and hereby certify that the raw materials described in Part I comply with these requirements, and in particular that:

(1) either

[II.1.1. they are hides and skins of domestic ruminant animals, pigs and poultry, as well as bones and tendons and sinews of domestic animals, including domestic solipeds and rabbits, and they are derived from animals which were slaughtered in a slaughterhouse and, when applicable further handled in cutting plants, appearing on the list of establishments drawn up and kept up to date in accordance with Article 127(3), point (e)(ii), of Regulation (EU) 2017/625, and the carcases of which were found to be fit for human consumption following *ante-mortem* and *post-mortem* inspections;]]

(1) and/or __[H.1.2.

they are wild game hides, skins and bones derived from killed animals whose carcases have been found to be fit for human consumption following *post-mortem* inspection in a game handling establishment appearing on the list of establishments drawn up and kept up to date in accordance with Article 127(3), point (e)(ii), of Regulation (EU) 2017/625;]]

(1) and/or

and/or [II].3 they are fish skins and bones derived from establishments that produce fishery products for human consumption and appear on the list of establishments drawn up and kept up to date in accordance with Article 127(3), point (e)(ii), of Regulation (EU) 2017/625;]]

(1) [II.1.4. they are raw materials of bovine, ovine and caprine animal origin other than hides and skins, and

(1) either

[the country or region of their origin is classified in accordance with Commission Decision 2007/453/EC as a country or region posing a negligible bovine spongiform encephalopathy (BSE) risk, and:

(1) either [the animals from which the raw materials are derived were born, continuously reared and slaughtered in a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a negligible BSE risk in which

there have been no BSE indigenous cases;]]]]

(1) and/or [the animals from which the raw materials are

[the animals from which the raw materials are derived originate from a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a negligible BSE risk in which there has been at least one BSE indigenous case, and the raw materials do not contain and are not derived from mechanically separated meat obtained from bones of bovine, owine and caprine animals;]]]]

 $^{(1)}$ and/or

[the animals from which the raw materials are derived originate from a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a controlled BSE risk, and:

- the raw materials do not contain and are not derived from specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001;
- the raw materials do not contain and are not derived from mechanically separated meat obtained from bones of bovine, ovine and caprine animals;
- (c) the animals from which the raw materials are derived have not been slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity;]]]]

(1) and/or

[the animals from which the raw materials are derived originate from a country or region classified in accordance with Decision 2007/453/EC as a country or region posing an undetermined BSE risk, and:

- the raw materials do not contain and are not derived from specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001;
- the raw materials do not contain and are not derived from mechanically separated meat obtained from bones of bovine, ovine and caprine animals;
- (c) the animals from which the raw materials are derived have not been slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity;
- (d) the animals from which the raw materials are derived have not been fed with meat and-bone meal or greaves, as defined in the Terrestrial Animal Health Code of the World Organisation for Animal Health;
- (e) the raw materials were produced and handled in a manner which ensures that they do not contain and were not contaminated with nervous and lymphatic tissues exposed during the deboning process;]]]]

(1) or [the country or region of their origin is classified in accordance with Decision 2007/453/EC as a country or region posing a controlled BSE risk, and:

- (a) the animals from which the raw materials are derived have not been slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity;
- (b) the raw materials do not contain and are not derived from:
 - (i) specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001;
 - (ii) mechanically separated meat obtained from bones of bovine, ovine and caprine animals.
- the animals from which the raw materials are derived originate from a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a negligible or a controlled BSE risk;]]]]
- (1) and/or [(c) the animals from which the raw materials are derived originate from a country or region classified in accordance with Decision 2007/453/EC as a country or region posing an undetermined BSE risk, and:

UNITED KINGDOM II.a Certificate reference

- the animals from which the raw materials are derived have not been fed with meat-and-bone meal or greaves, as defined in the Terrestrial Animal Health Code of the World Organisation for Animal Health;
- (ii) the raw materials were produced and handled in a manner which ensures that they do not contain and were not contaminated with nervous and lymphatic tissues exposed during the deboning process;]]]]
- (1) or [the country or region of their origin is classified in accordance with Decision 2007/453/EC as a country or region with an undetermined BSE risk, and:
 - (a) the animals from which the raw materials are derived have not been:
 - slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity;
 - (ii) fed meat-and-bone meal or greaves derived from ruminants, as defined in the Terrestrial Animal Health Code of the World Organisation for Animal Health;
 - (b) the raw materials do not contain and are not derived from:
 - specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001;
 - mechanically separated meat obtained from bones of bovine, ovine and caprine animals;
 - (iii) nervous and lymphatic tissues exposed during the deboning process.]]]
- (1) [II.2. Animal health attestation (Delete when the raw materials are derived entirely from domestic solipeds (Equus caballus, Equus asinus and their cross-breeds), wild game solipeds belonging to the subgenus Hippotigris (Zebra), wild leporidae or wild land mammals other than ungulates and leporidae)

The raw materials described in Part I: II.2.1. have been dispatched from (1) either (3) which, at the date of issue of this animal health/official certificate is/are [the zone(s) with code(s) authorised for the entry into the Union of fresh meat (and therefore for the entry into the Union of the raw materials) of the species described under point II.2.2 from which the fresh meat was obtained, and listed in Part 1 of Annex XIII to Commission Implementing Regulation (EU) 2021/404 for raw materials from ungulates or in Part 1, Section B, of Annex XIV to Implementing Regulation (EU) 2021/404 for raw materials from poultry and game birds, and contain only raw materials obtained in] (1) (4) or (5) which, at the date of issue of this animal health/official certificate is authorised for the transit through the Union of fresh meat (and therefore for the transit through the Union of the raw materials) of the species described under point II.2.2 from which the fresh meat was obtained intended for a destination outside the Union and is listed in Part 1 of Annex XXII to Commission Implementing Regulation (EU) 2021/404, and contain only raw materials obtained in] (1) either [the same zone as the zone of dispatch;] (1) or (3) which, at the date of issue of this animal health/official [the zone(s) with code(s) certificate is/are authorised for the entry into the Union of fresh meat (and therefore for the entry of the raw materials) of the species from which the raw materials were obtained and is/are listed in [Part 1 of Annex XIII to Implementing Regulation (EU) 2021/404 for raw materials from ungulates;]] [Part 1, Section B, of Annex XIV to Implementing Regulation (EU) 2021/404 for raw materials from $^{(1)}or$ poultry and game birds;]]

(1) or [Member States;]

II.2.2. contain only raw materials complying with all the animal health requirements for entry into the Union of fresh meat of the following species: [domestic bovine animals,] (1)(6) [domestic ovine animals,] (1)(6) [domestic caprine animals,] (1)(6) [domestic porcine animals,] (1) [animals of the family *Bovidae* (other than domestic bovine, ovine and caprine animals), camelid animals and cervid animals kept as farmed game,] (1)(6) [wild animals of the family *Bovidae* (other than domestic bovine, ovine and caprine animals) wild camelid animals and wild cervid animals,] (1)(6) [animals kept as farmed game of wild breeds of porcine animals and animals of the family *Tayassuidae*,] (1) [wild animals of wild breeds of porcine animals and animals of the family *Tayassuidae*,] (1) [poultry other than ratites,] (1) [game birds] (1) laid down in the relevant model certificate (7), and therefore eligible for the entry into the Union as such.]

Notes

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Windsor Framework (see Joint Declaration No 1/2023 of the Union and the United Kingdom in the Joint Committee established by the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community of 24 March 2023, OJ L 102, 17.4.2023, p. 87) in conjunction with Annex 2 to that Framework, references to the Union in this animal health/official certificate include the United Kingdom in respect of Northern Ireland.

This animal health/official certificate is intended for the entry into the Union of raw materials for the production of gelatine and collagen intended for human consumption, including when the Union is not the final destination of such raw materials.

This animal health/official certificate shall be completed in accordance with the notes for the completion of certificates provided for in Chapter 4 of Annex I to Commission Implementing Regulation (EU) 2020/2235.
