Subject: Comment for Bristol case 25/14113/PINS 2-5 Highland Square

This comment relates to 25/14113/PINS
for 2-5 Highland Square in Bristol and is submitted by the Bristol Conservation Advisory Panel (BCAP)

'The Panel objects to this application. While supporting the principle of residential use in this location, it is felt that the elevations are not characteristic of that part of the Conservation Area. The Panel queried whether render rather than brick might be a more suitable material. The interior layouts of the houses are complex due to the way in which the proposed development steps up along Highland Square.'

Iain Boyd MBE (Chair of BCAP)
