PROPERTY CHAMBER
(RESIDENTIAL PROPERTY)**

Case reference : **LON/00BB/LDC/2025/0818**

Applicant : **Rathbone Market Management
Company Limited.**

Respondent : **The Long Lessees of Flats 1 to 41 at the
Property**

Property : **19 Maud Street, Rathbone Market,
London, E16 1YS**

Tribunal : **Tribunal Judge I Mohabir**

Date of decision : **10 November 2025**

DECISION

1. The Applicant seeks an order pursuant to s.20ZA of the Landlord and Tenant Act 1985 (“the Act”) for *retrospective* dispensation with the consultation requirements in respect of repair work to the fire fighting lift at the property known as 19 Maud Street, Rathbone Market, London, E16 1YS (“the property”).
2. The property is described as being a purpose-built for residential use containing 41 units. The property is adjoined to two other blocks, namely, 21 and 17 Maud Street.
3. The Applicant is the management company and a party to the residential leases granted in respect of the property. It is responsible for providing services to the properties, including maintenance of the fire fighting lift. The Respondents are the long leaseholders of the residential flats in the building.
4. It is the Applicant’s case that, it became aware of issues with the lift on 21 May 2025. The contractor, Temple Lifts, attended on 22 May 2025 to inspect and confirmed that the drive unit for the lift needed replacing.
5. On 7 August 2025 Temple Lifts was instructed to carry out the lift repairs and the works were completed on 19 August 2025 at a cost of £11,100.41.
6. The reason given by the Applicant for not carrying out statutory consultation under section 20 of the Act is that the lift was no longer working and it is a life saving asset.
7. The Applicant confirms that it sent a detailed update out all to leaseholders detailing the reasons why the works are needed and why they would be applying for dispensation from the consultation process.
8. By an application dated 10 July 2025, the Applicant applied seeking retrospective dispensation for the remedial works. On 24 September 2025, the Tribunal issued Directions requiring the Applicant to serve the Respondents with a copy of the application by 10 October 2025, which apparently was done on 7 October 2025. The Respondents were directed to respond to the application stating whether they objected to it in any way.
9. None of the Respondents have objected to the application.

Relevant Law

10. This is set out in the Appendix annexed hereto.

Decision

11. As directed, the Tribunal’s determination “on the papers” took place on 10 November 2025 and was based solely on the documentary evidence filed by the Applicant. As stated earlier, no objections had been received from any of the Respondents, nor had they filed any evidence.
12. The relevant test to be applied in an application such as this has been set out in the Supreme Court decision in ***Daejan Investments Ltd v***

Benson & Ors [2013] UKSC 14 where it was held that the purpose of the consultation requirements imposed by section 20 of the Act was to ensure that tenants were protected from paying for inappropriate works or paying more than was appropriate. In other words, a tenant should suffer no prejudice in this way.

13. The issue before the Tribunal was whether dispensation should be granted in relation to the requirement to carry out statutory consultation with the leaseholders regarding the overall repair work to the lift. The Tribunal is not concerned in this application about the actual cost that has been incurred.
14. The Tribunal granted the application for the following main reasons:
 - (a) The Tribunal was satisfied that the Respondents had been served with the application and the evidence in support and there has been no objection from any of them. The Tribunal attached significant weight to this. In other words, this is an unopposed application and the evidence presented to the Tribunal is unchallenged by the Respondents.
 - (b) In addition, the Tribunal took judicial notice of the fact that the Applicant had contemporaneously informed the Respondents of the need to carry out the repair work and that it would be making an application to the Tribunal seeking dispensation for the same reasons. Again, no objection was received from any of the Respondents.
 - (c) On inspection, the finding made by Temple Lifts was that the lift was inoperative because the drive unit had failed. The purpose of the lift is described as being a fire fighting passenger lift. The Tribunal was satisfied that, whilst the lift remained inoperative, it posed a potential fire hazard to the occupants in the property. Therefore, any delay of approximately 3-4 months caused by having to carry out statutory consultation would have presented the occupants with an unnecessary and avoidable fire risk.
 - (d) Importantly, the real prejudice to the Respondents would be in the cost of the work and they have the statutory protection of section 19 of the Act, which preserves their right to challenge the actual costs incurred by making a separate service charge application under section 27A of the Act.
15. The Tribunal, therefore, concluded that the Respondents were not prejudiced by the Applicant's failure to consult, and the application was granted as sought.
16. It should be noted that in granting this part of the application, the Tribunal makes no finding that the scope and cost of the repairs are reasonable.

Rights of appeal

By rule 36(2) of the Tribunal Procedure (First-tier Tribunal) (Property Chamber) Rules 2013, the tribunal is required to notify the parties about any right of appeal they may have.

If a party wishes to appeal this decision to the Upper Tribunal (Lands Chamber), then a written application for permission must be made to the First-tier Tribunal at the regional office which has been dealing with the case.

The application for permission to appeal must arrive at the regional office within 28 days after the tribunal sends written reasons for the decision to the person making the application.

If the application is not made within the 28-day time limit, such application must include a request for an extension of time and the reason for not complying with the 28-day time limit; the tribunal will then look at such reason(s) and decide whether to allow the application for permission to appeal to proceed, despite not being within the time limit.

The application for permission to appeal must identify the decision of the tribunal to which it relates (i.e. give the date, the property and the case number), state the grounds of appeal and state the result the party making the application is seeking.

If the tribunal refuses to grant permission to appeal, a further application for permission may be made to the Upper Tribunal (Lands Chamber).
