

Biodiversity Net Gain Exemption Statement

In England, biodiversity net gain is required under a statutory framework introduced by Schedule 7A of the Town and Country Planning Act 1990 (inserted by the Environment Act 2021).

Under the statutory framework for biodiversity net gain, subject to some exceptions, **every grant of planning permission** is deemed to have been granted subject to the condition that the biodiversity gain objective is met (**“the biodiversity gain condition”**).

For further information on biodiversity net gain and the planning process please refer to [government guidance](#) and our [BNG Practice Note](#).

As part of the planning application process applicants will need to submit this screening assessment (section A) and completing either Section B: Mandatory BNG Statement or Section C: Exemption Statement as necessary.

This document assists the applicant in providing all necessary information.

Please proceed to Section A.

A. Screening Assessment

In order to confirm if your application is subject to mandatory biodiversity net gain please work through the questions below.

1. Does the development qualify as a 'householder application'?

Householder Application: Defined in [Article 2\(1\) of the Town and Country Planning \(Development Management Procedure\) \(England\) Order 2015](#).

Yes → Exempt – complete statement in Section C

☒ No → Proceed to question 2

2. Is the development undertaken solely or mainly for fulfilling the BNG condition of another development?

Yes → Exempt – complete statement in Section C

☒ No → Proceed to question 3

3. Does the development consist of no more than 9 self-build or custom build dwellings on a site no larger than 0.5 hectares?

Self-Build or Custom Build: As defined in [section 1\(A1\) of the Self-build and Custom Housebuilding Act 2015](#).

Yes → Exempt – complete statement in Section C

☒ No → Proceed to question 4

4. Does the development impact less than 25 square metres of onsite habitat or less than 5 metres of onsite linear habitat, and does not impact a priority habitat?

☒ Yes → Exempt – complete statement in Section C

No → Mandatory Biodiversity Net Gain applies. Complete section B.

B. Mandatory BNG Statement

Mandatory Biodiversity Net Gain applies to this application.

The following documents have been submitted with this application. The documents in bold are must be submitted as a minimum requirement at point of planning application. Without meeting this minimum requirement, the application will be at risk of not being validated and lead to delays. Details of documents can be found within the [Bristol Validation Local list](#) and Bristol's [BNG Practice Note](#).

- ☐ **Biodiversity Net Gain Report**
- ☐ **Statutory Metric**
- ☐ **Habitat Maps (can be included within Report)**
- ☐ BNG GIS Data
- ☐ Draft Habitat Management and Monitoring Plan
- ☐ Draft Biodiversity Gain Plan

Biodiversity Net Gain (BNG) Exemption Statement

Development Description:

Partial change of use of Class E commercial unit to a C1 apart-hotel with 9no. serviced apartments, demolition of rear extension, replacement extension, external alterations and provision of refuse and cycle storage.

Planning Reference:

TBC

Development Address:

72-74 Gloucester Road, Bishopstone, Bristol BS7 8BF

Completed By:

— Aspect360 Ltd

Date of Exemption Statement Completion:

03/11/2025

1. Article 7 ('General requirements: applications for planning permission including outline planning permission') of Part 3 of *The Town and Country Planning (Development Management Procedure) (England) Order 2015*, as amended by Regulation 5 of Part 4 of *The Biodiversity Gain (Town and Country Planning) (Modifications and Amendments) (England) Regulations 2024* has introduced national validation prerequisites for planning applications relating to Biodiversity Net Gain (BNG).
2. Schedule 14 of the *Environment Act 2021* introduced the concept of BNG into planning legislation, stating that "the biodiversity gain objective is met in relation to development for which planning permission is granted if the biodiversity value attributable to the development exceeds the pre-development biodiversity value of the onsite habitat by at least [10%]".
3. Schedule 14 of the *Environment Act 2021* additionally mandates that biodiversity gain objectives will be achieved through the imposition of planning conditions, thus constituting a post permission process.

4. However, certain types of development for which planning permission is required are exempt from biodiversity net gain requirements and planning conditions. These are outlined in [The Biodiversity Gain Requirements \(Exemptions\) Regulations 2024](#)¹
5. The development proposals for this application meets the following exemption criterion from the Regulations (reference wording from the Regulations):

The site is fully developed with the building and concrete hardstandings. Development that does not impact a priority habitat and impacts less than 25 square metres (e.g., 5m by 5m) of onsite habitat, or 5 metres of linear habitats such as hedgerows.

6. State how this application meets the exemption criterion stated above (see worked example for reference):

The redevelopment of the site would impact on less than 25sqm/5m of habitat space.

7. Provide aerial imagery and photographs (or alternative sources) and captions to evidence your statement. For example, you may wish annotate images to show how the proposed development sits within the existing site/habitats, and how the proposals accord with the exemption claim. Add more photographs, plans or imagery of proposals if necessary.

Photograph 2:

8. Whilst the development may be exempt from statutory Biodiversity Net Gain (BNG) requirements, the application for planning permission will deliver measurable net gains for nature conservation which are proportional and locally appropriate, in the following ways:

Installation of a bird box.
